INTRODUCTION TO PRESS LIST AND CALENDERS OF EARLY RECORDS PRIOR TO 1800 A.D.

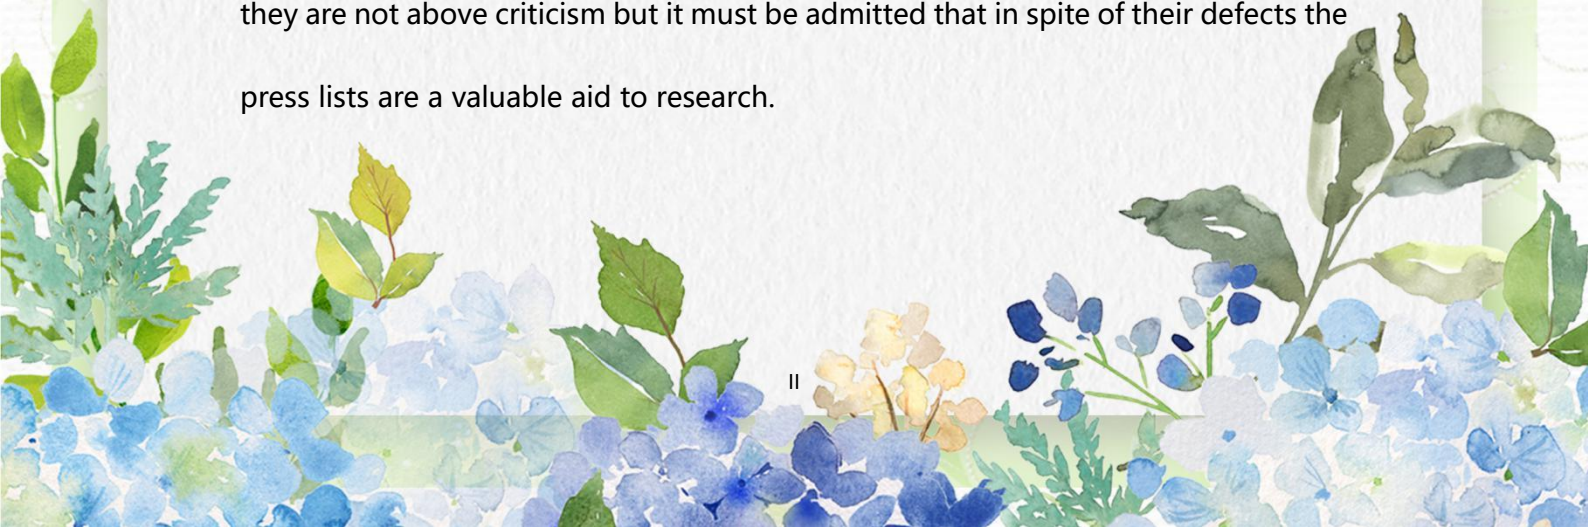

EXTRACTS FROM "A GUIDE TO THE RECORDS PRESERVED IN THE MADRAS
RECORD OFFICE" PUBLISHED IN THE YEAR 1935.

"Reference must now be made to the Press list and Calendar which have had a somewhat chequered career. Four dates are of interest in this connection, the years 1837, 1838, 1861 and 1887. In the year 1837, the Madras Government, earnest in their intention to examine the contents of the ancient records, placed Mr. Garrow on special duty. In 1838, William IV established a Public Records Office in England. In 1861 Talboys Wheeler's 'Guide' appeared, a further, if limited, step in the direction of that research which the Madras Government desired.

Finally in 1887 a Committee was appointed to consider how best the ancient records of the India Office could be laid bare for the purpose of research.

They decided on advice from the Public Records Office, on the preparation of a Press List and Calendar and in due course(1890) the Madras Government were called upon to prepare similar apparatus for their own records. Accordingly the work of preparing the Press Lists was begun by Mr. Pringle in 1891 and completed by Mr. C.M. Schmidt in 1910. They cover the whole period of the Government records from 1670 to 1800 including also 603 volumes of Factory records of Ganjam, Vizagapatam, Masulipatam, South Arcot and Malabar. They do not include the records of the Board. It so happened that as the instructions which originally reached the Madras Government were in very general terms the Press Lists were prepared on unique lines. They allot subject titles to all papers from whatever source, arranging then, irrespective of subject in strict chronological order. The titles are not usually confined to the minimum required to identify the original letter, but are usually a brief precis of the subject to which they relate; as a precis, they are not above criticism but it must be admitted that in spite of their defects the press lists are a valuable aid to research.

The Calendar was to be a necessary sequel to the Press List covering the same period but in narrative and not tabular form. The Press List was to include each separate paper in the series but the Calendar "should be compiled on the principle of including only papers which contain matter of historical importance giving the more liberal interpretation of that term". This was the pronouncement of the Master of the Rolls. Mr. Dodwell spent about 10 years in calendaring the old Madras records during which time he covered 25 years from 1740 to 1765 comprising 75 volumes.

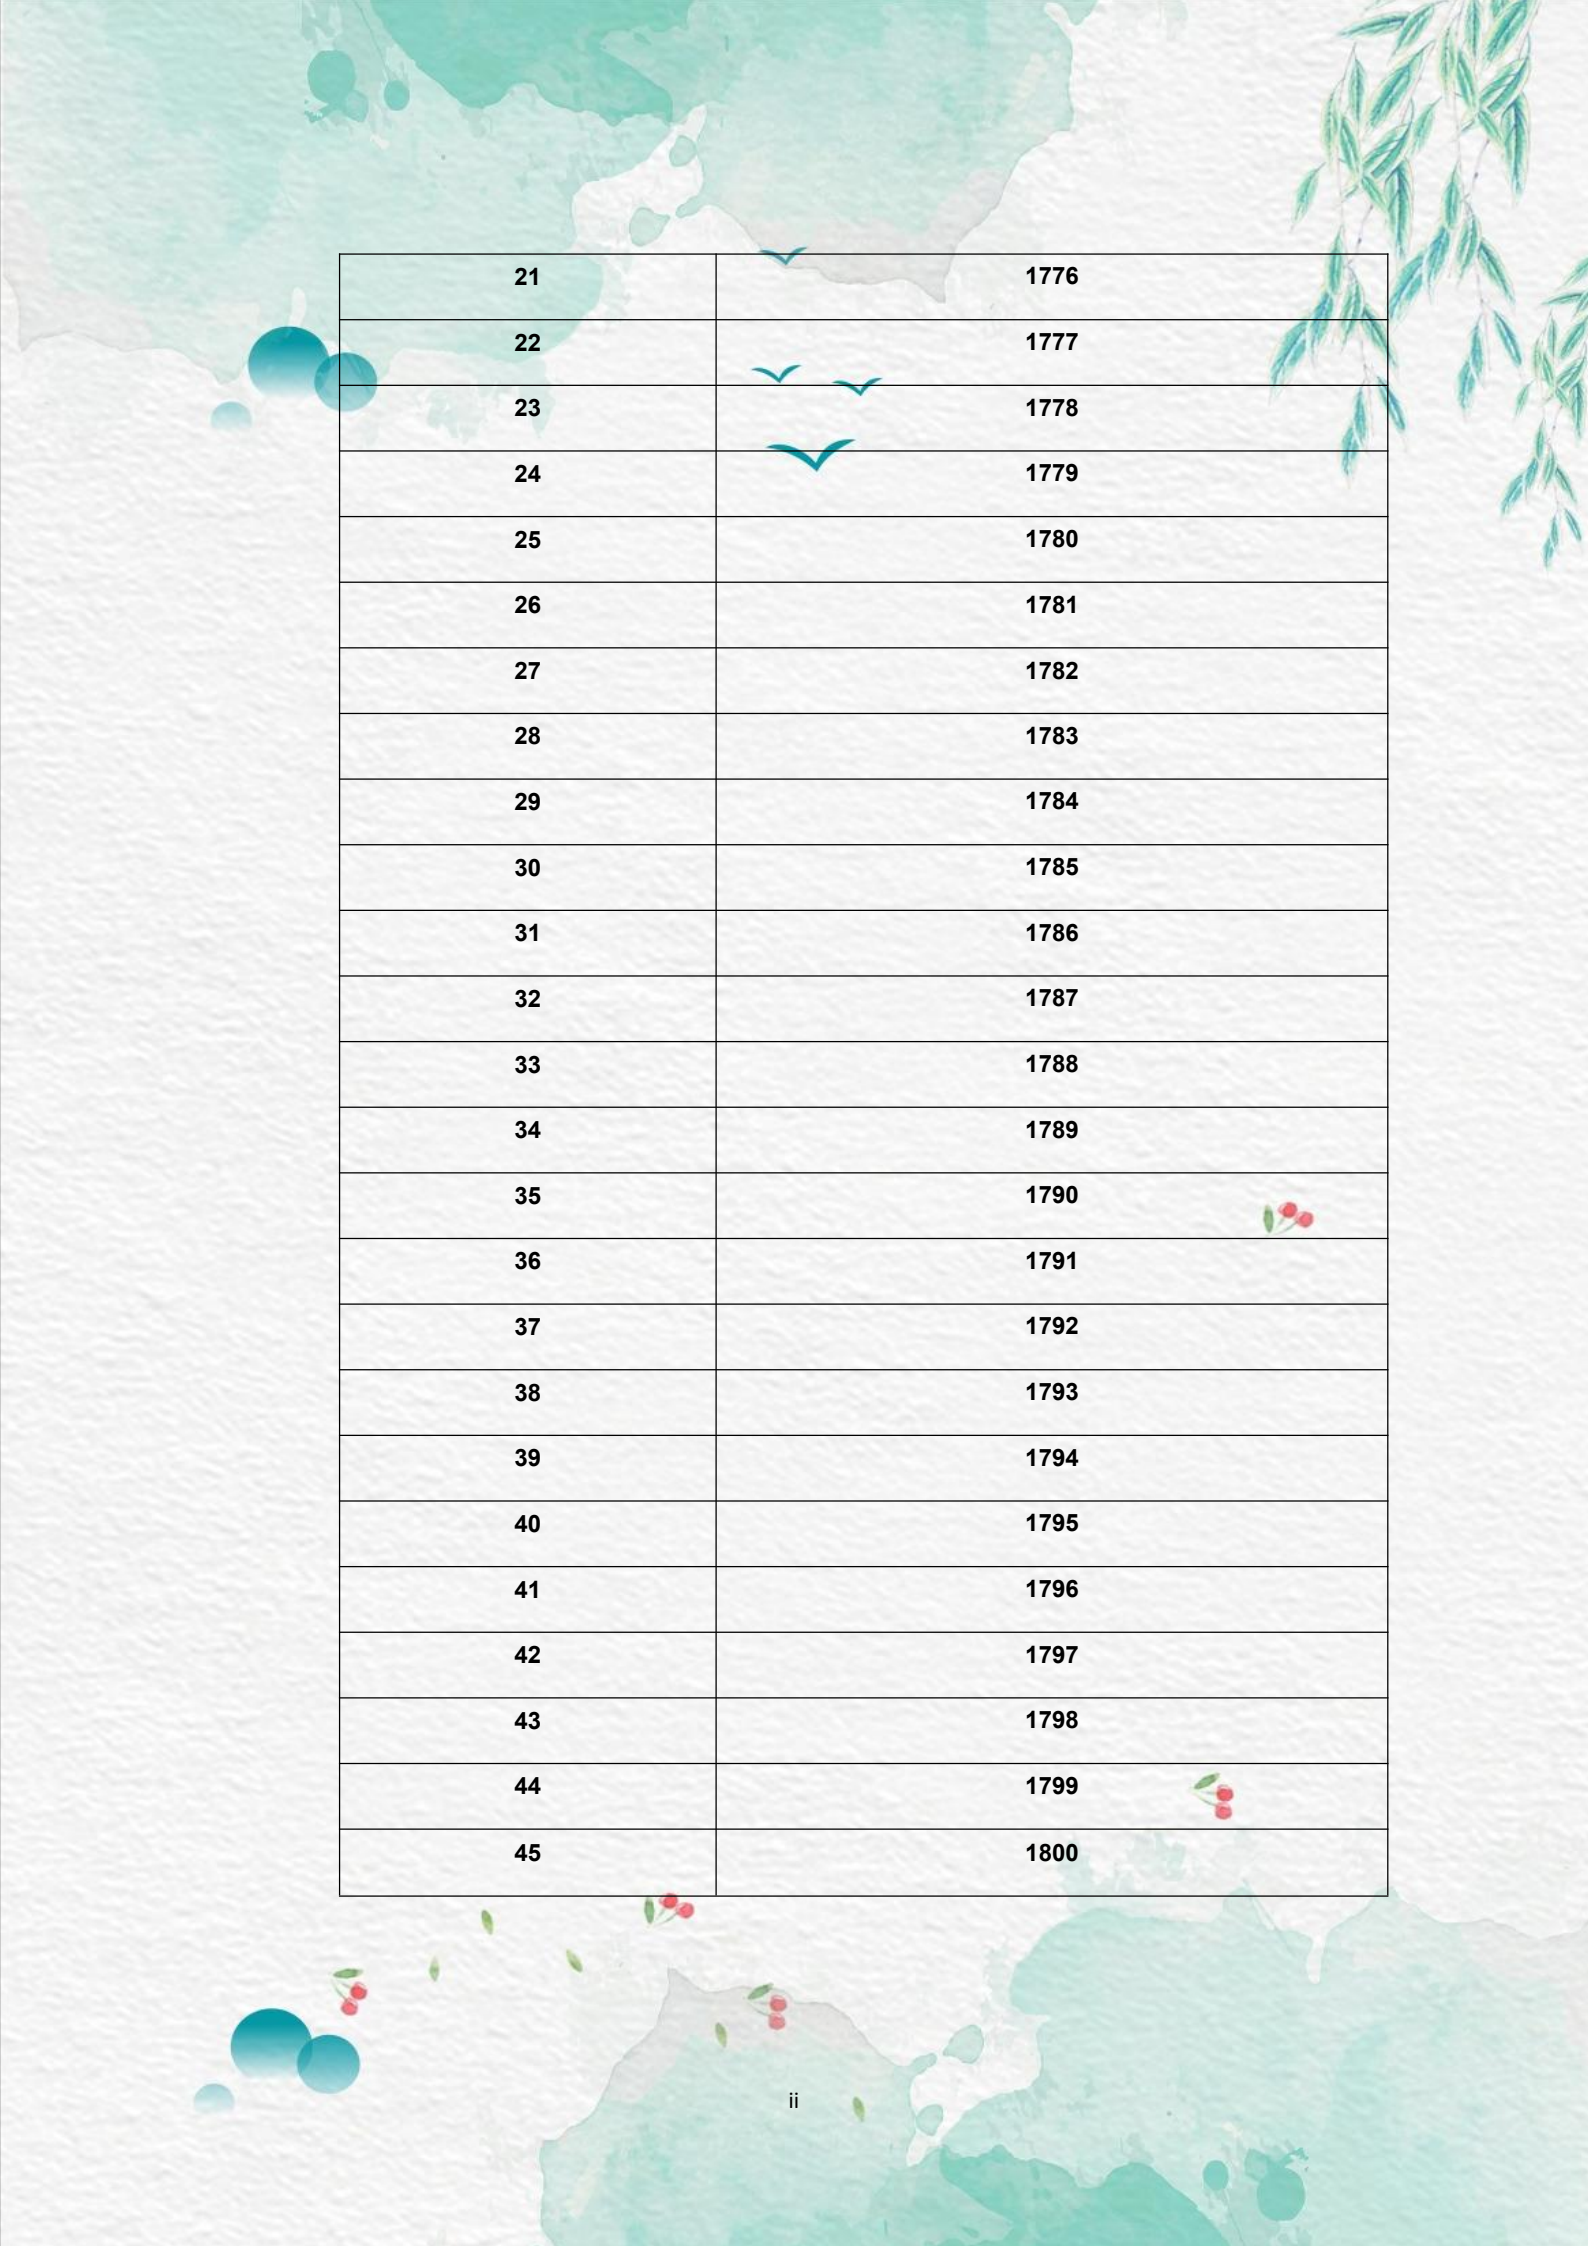

As the contents of the Government volumes upto 1800 have been abstracted in the Press List, no indexes have been prepared for these volumes. From 1801 to 1856 manuscript indexes exist for the Consultations of all departments."

FOREWORD

PRESS LIST Volume 11 (1730 to 1734 A.D.) - Reprint 2025.

The existing Press List Bound Volumes, serving as Index to historical records covering the period from 1670 to 1800, were compiled and printed during the years 1892 to 1912. Originally they were printed in 45 Volumes. At the period of time, when these bound volumes became ripe for mending and re-binding, conservation methods have been adopted using Chiffon mending process in this office. It is seen that in the course of re-binding during that period, the papers have been shuffled and the exact numbers of volumes are seen varying. Now the above-said mended Press List Volumes are also getting brittle. The technological advancement necessitates re-typing and re-compilation of the Press List Volumes in the digital format, as they are precious treasure in providing historical insights. Therefore, it has been decided to re-type and re-print these entire Press List Volumes (numbering 45), covering the period from 1670 to 1800, in the same manner as done previously.

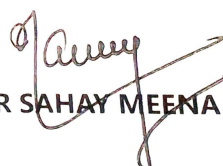

Some Historical Inferences, established by authentic archival document references from this Press List Volume ...

The period from 1730 to 1734, as chronicled in the records, details a mix of political intrigue, administrative changes, and simmering external threats faced by the East India Company. In 1730, Mr. George Morton Pitt arrived to assume his post as the new President and Governor of Fort St. George. One of the first significant internal actions was the arrest and detention of his predecessor's Chief Dubash, Goda Ancona, on charges of extortion and other offenses. The English also took aggressive measures against European rivals,

notably issuing orders to seize and destroy ships belonging to the Ostenders and later deciding to seize the Sweeds' ship itself. Local security was continuously threatened, including the seizure of a Company ship by the Maratha Admiral Angria, and the expectation of a major disturbance between the Mahrattas and Moors. Trade faced challenges from private dealings, specifically Captains importing broadcloth in private trade, and external events like the death of several Nabobs which created an unsettled country and caused a low demand for woollen manufacture. Despite rivalry, the English briefly cooperated by complying with the Pondicherry Governor's demand for a military detachment. However, conflicts persisted, demonstrated by the Dutch at Cochin seizing English men from the ship Eubrica, underscoring the constant tension of the European presence on the Coromandel Coast.

In addition to the task of re-compilation and re-printing of these 45 Volumes of Press Lists, action has been taken to upload searchable pdf format soft copies in the department website in order to make easy availability of these Press List volumes to the researchers and general public. I hope that this re-print will serve the needs of the historians and researchers for centuries and the release of this edition will be a landmark in the long annals of Tamil Nadu Archives. The tireless efforts of Thiru A. Tamilselvan, Editor (Gazetteers) and Thiru N. Balachandran, Assistant Editor (Gazetteers) and all officials who actively involved in bringing out this re-print are highly appreciated.
