Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*), or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions :—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

MINT AND CURRENCY.

The 24th January 1871:

No. 451.—*Rules prescribed by the Governor General of India in Council in exercise of the powers conferred by the Indian Coinage Act (No. XXIII), 1870, Sections* 16 *and* 28:—

1. All Officers in charge of Government Treasuries, and Commissioners, Deputy or Assistant Commissioners of the Paper Currency Department are hereby authorized to act under the Act and Sections named above.

2. On the tender to any such Officer of silver coin purporting to be that of the Government of India, he shall, if he has reason to believe that it is genuine coin, but has been called in by proclamation, or has lost by reasonable wearing more than 2 per cent. in weight, by himself or another cut or break the coin, and either return the pieces to the person tendering the coin, or, at the option of the latter, receive it at the rate of one rupee per tola.

3. If such Officer has reason to believe the coin to be counterfeit, or to have been reduced in weight otherwise than by reasonable wearing, he shall cut or break the coin and return the pieces to the person tendering it.

4. All Officers condemning coin under these rules must personally see it cut or broken and rendered unfit for currency.

These rules, so far as they relate to light weight coins, must be considered permissive. It is not the desire of Government to interfere with the circulation of good coin which passes unquestioned in currency, even though it may in exceptional cases have lost something more than 2 per cent. by fair wear. On the other hand, where there is reason to suspect reduction of weight by other means, and still more in the case of counterfeit coin, the law should be rigidly enforced.

No. 71 *of* 1871.—The services of Lieutenant L. J. H. Grey, of the Bengal Staff Corps, 1st Wing Subaltern, 11th Regiment of Native Infantry, are placed at the disposal of the Government of Bengal.

The 24th January 1871.

No. 72 *of* 1871.—Under the authority of the Right Hon'ble the Secretary of State for India, the following Clauses of Army Circulars 132 and 133, dated 1st September, and 164, dated 1st October 1870, are published for general information, and declared applicable to India:—

"FINANCE.

Royal Warrant for the Re-engagement of Discharged Soldiers, and Secretary of State's Instructions thereon.

(ISSUED AS A SPECIAL ARMY CIRCULAR ON 12TH AUGUST 1870.)

Victoria R.

Clause 132. WHEREAS by Our Royal Warrant of the 27th February, 1869, We did limit the re-engagement of Soldiers to those cases in which men while serving renew their engagement for a second term of Service;

OUR WILL AND PLEASURE NOW IS that this limitation be relaxed from time to time under such instructions as our Secretary of State for War may deem it advisable to issue.

2. Men re-entering our Service, either on re-engagement or re-enlistment, in accordance with such instructions, shall in future be permitted to reckon their former service towards Good Conduct Pay and Pension, provided they shall have re-engaged or re-enlisted within such period as may be fixed from time to time by our Secretary of State for War, to whom application for this permission shall in each case be made by the Commanding Officer of the Regiment to which the men may be attached.

3. Men thus re-entering Our Army shall receive on re-engagement or re-enlistment the free kit of a Private, or an allowance in lieu thereof. They shall be entitled to claim Good Conduct Pay under the terms of Our Royal Warrant of 2nd June, 1870, but shall have no claim to the additional pay of 1*d.* a day granted by Our Royal Warrant of 29th June 1867.

4. The levy money payable in such cases shall consist of the Medical Officer's fee (as regulated by Article 446 of Our Royal Warrant of 3rd February 1866), and a sum, not exceeding one pound, to be fixed by Our Secretary of State for War.

5. This sum shall be paid either to the bringer, or to the re-engaged man himself, in case he shall present himself for re-engagement without bringer.

Given at Our Court at Osborne, this 1st day of August, 1870, in the 34th Year of Our Reign.

By Her Majesty's Command,
EDWARD CARDWELL."

"Secretary of State's Instructions on the foregoing Warrant.

1. The conditions under which men discharged on completion of their first period of service will be permitted to re-engage for Her Majesty's Service, will, for the present, be as follows:—

1. They must have taken their discharge on or after 1st January 1869.
2. They must be under 34 years of age.
3. They must be of good character.
4. They must produce their parchment certificates, or other satisfactory evidence of their discharge.

2. All such men will be entitled to the privileges, as regards Good Conduct Pay and Pension, accorded by Article 2 of the foregoing Warrant.

3. The sum to be paid to the bringer of the re-engaged man, or to the re-engaged man himself, if he present himself for re-engagement without a bringer, will be 10*s.*

4. Soldiers will be permitted to re-enlist under the same conditions as are herein contained with respect to re-engagement, but without any limit as to the date of their discharge.

5. Discharged men who have been enrolled in the Army Reserve may re-enlist or re-engage for Her Majesty's Service without being required to repay the bounty or other allowance given them for service in the Reserve Force."

"Royal Warrant for Rewards to Recruiters.

(ISSUED AS A SPECIAL ARMY CIRCULAR ON 15TH AUGUST 1870.)

Victoria R.

WHEREAS the law with respect to enlistment for general service has been changed, and it is no longer necessary to give the special reward of 1*l.* 5*s.* granted to recruiters by Our Royal Warrant of the 30th March, 1869, in the case of recruits enlisted for general service; Clause 133.

OUR WILL AND PLEASURE IS that the schedule of rewards to recruiters, as laid down in Our said Warrant, stands revised as follows:—

TO THE RECRUITERS.

For District Recruits.

		£	s.	d.
To the recruiting party (including the bringer) ...	on the recruit's being passed into the service at his Corps ...	1	0	0

For Head-Quarter Recruits.

On approval		1	0	0

The sum payable to the recruiting party includes 10*s.*, to which the bringer of each recruit actually brought is entitled, and this sum shall be paid to such bringer on the recruit's being passed into the service at his Corps.

Given at our Court at Osborne, this 11th day of August 1870, in the 34th Year of our Reign.

By Her Majesty's Command,
EDWARD CARDWELL."

"Sums payable on re-engagement.

1. The Royal Warrant of 1st August 1870 (Clause 132, Army Circulars, 1870) having, in some instances, been misunderstood, it is pointed out that the provisions thereof, as regards re-engagement, apply only to such men as re-engage after having taken their discharge. Clause 164.

2. It is further notified that men who re-engage while serving are entitled to 1*l.* gratuity, and to two months' furlough, or to the allowance in lieu thereof, under the conditions laid down in Clause 46, Army Circulars, 1867.

3. They are not entitled to a free kit, nor to an allowance in lieu thereof, nor to any bounty, so long as none is issuable to recruits on enlistment."

---

2. With reference to the above and to G. G. O. No. 727 of 1870, and all previous orders on the same subject, the following are the allowances to be granted in future to soldiers who may be permitted to re-engage and re-enlist, and to recruits on enlistment:—

On re-engagement while serving.

	Rs.	A.	P.
Gratuity	10	0	0
Compensation in lieu of furlough	50	0	0

On re-enlistment after discharge on completion of first term of service.

	Rs.	A.	P.
Levy Money	5	0	0
Private's free kit of necessaries—according to the arm of the service, or allowance in lieu thereof.			

On enlistment as recruits, or on re-entering the army, not having previously completed a term of service.

	Rs.	A.	P.
Enlisting Money	0	8	0
Additional Indian Kit	20	0	0
Private's free kit of necessaries—according to the arm of the service, or allowance in lieu thereof.			

3. This order is applicable to the three Presidencies.

NOTIFICATIONS.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870 :—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*), or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

RESOLUTION.—Ever since the introduction of the cultivation of the cinchona plant in this country, the Government of India has watched with the deepest interest the progress of the experiment, feeling convinced that its success would be fraught with the most beneficial results to the whole population of India. The advantages to be derived from the successful cultivation of cinchona cannot be over-estimated, as the object is to secure to the country at large the greatest medical boon that could be afforded to it,—that is, to place within the reach of the masses of the people, at the lowest possible rates, the only effective specific that science has yet discovered for the commonest of Indian diseases.

2. That the cinchona plant, C. succirubra, at any rate, can be grown to any extent in British Sikhim has now been indisputably established by the results that have already been achieved at the Government plantations. And the Governor General in Council fully believes that at little present cost, and with a certainty of considerable future revenue, forests of cinchona may be reared in Sikhim which, by furnishing large quantities of quinine, may hereafter prove a blessing not only to India, but to the civilized world.

3. Already the Government plantations in Sikhim yield a considerable supply of excellent bark, and year by year a rapid increase in this supply may be looked for; the Governor General in Council, therefore, thinks that the time has come for a preliminary decision as to how this supply can best be utilized. This view of the case is confirmed by a very interesting report submitted by Mr. Clarke in regard to the experimental manufacture of amorphous quinine at Darjeeling. His Excellency in Council is of opinion that the best mode of settling the many doubtful points connected with this important question is the appointment of a Commission to enquire into and report on the whole subject; and in communication with His Excellency the Governor of Madras and His Honor the Lieutenant Governor of Bengal, he is pleased to nominate the gentlemen named in the margin to form the proposed Commission.

Dr. Campbell Brown, *President.*
Mr. Clarke, Dr. Simpson, Mr. Broughton. } *Members.*

4. His Excellency in Council is well aware that any conclusions that may now be arrived at will doubtless need considerable modifications, when a larger experience affords better data than at present exist. He is at the same time of opinion that it is essential to adopt without delay some regular system, the best that can be devised in the existing state of our knowledge, for dealing with the yearly increasing produce of the cinchona plantations.

5. The Commission will have to consider, among other matters, whether on general as well as economical grounds, it would be best—

(1) to send home the whole of the bark which bears a marketable value; or

(2) to extract by a single process all soluble matter from the bark, and send home the gross proceeds of the first precipitation; or

(3) to proceed further with the manufacture in India; and, if so, how much further; whether (a) only so far as is necessary to separate the several alkaloids from the resin, coloring matter, and other foreign elements which the first precipitate will contain; or (b) as far as the manufacture of the pure sulphate of quinine?

6. Should the Commission recommend the second or third alternative, they will have to consider what processes will, under all the circumstances of the case, be most likely to prove appropriate.

7. A certain percentage of the total yearly yield of bark will, owing to its extreme poverty in alkaloids, always be unfit for the home market; and it will be for the Commission to decide how this bark may be most profitably dealt with here.

8. It is also believed that a valuable febrifuge can be readily extracted from the leaf of some species of the cinchona; and this point also, as well as many other kindred questions which will suggest themselves as the enquiry proceeds, will appropriately form subjects for the

consideration of the Commission, whose sittings should be in the first instance in Calcutta, but who may later, if it be considered desirable, be deputed to visit the plantations themselves.

9. The Commission will carry on their enquiries under the orders of the Lieutenant Governor of Bengal, and will submit their final report to that authority.

ORDERED, that a copy of this Resolution be forwarded to the Government of Bengal for information and guidance.

No. 62.—The following General Order, published by the Government of India in the Military Department, is re-published for information and guidance in this Department :—

MILITARY DEPARTMENT.

Fort William, the 19th December 1870.

No. 1175 of 1870.

In order to prevent any misunderstanding and the necessity for further references on the subject, the Right Hon'ble the Governor General of India in Council is pleased to notify that, subject to the charge for rent laid down in G. G. O. No. 859 of 11th October 1866, Warrant Officers of grades below that of Deputy Assistant Commissary are entitled to be provided with quarters by the Public Works Department, whether by purchase, hire, or erection, agreeably to Chapter XI, Section II, paragraph 1 of that Department's Code.

2. The rules prescribed in the Public Works Department Code, as extracted in the margin for facility of reference, will be strictly adhered to in all cases in which it may be necessary to hire houses for the accommodation of the Warrant Officers alluded to.

Extract from Chapter XI of Public Works Code, 3rd Edition.

SECTION II, *para.* 1.—"It will be the duty of the Officers of the Public Works Department, under the orders of the Government, or in cases of emergency on requisition of the local authorities, to provide quarters and all other necessary buildings, to the extent allowed by the Regulations, for troops and public Military establishments entitled to and requiring accommodation, and for the families of soldiers on actual service. The Executive Engineer will arrange this under sanction as above, by allotting public buildings which may be vacant, or which can be vacated; or where no suitable or available public buildings already exist, by erecting, purchasing or hiring buildings, as according to his judgment may be most advantageous in each case; obtaining previous sanction when there is time to do so, and reporting his proceedings through the usual channel for the information of Government."

SECTION II, *para.* 3.—"Should buildings be hired by the Military authorities without the intervention of the Public Works Department, and without the sanction of the Government of India, the Executive Engineer shall not be at liberty to defray the charge from the funds of the Public Works Department until sanction is obtained."

SECTION II, *para.* 4.—"Excepting in the case of buildings required for the accommodation of troops, &c., as above limited in paragraphs 2 and 3, and for buildings required for the use of the Public Works Department, Executive Engineers shall in no case disburse the rent of hired premises, unless specially ordered to do so by the Government or Administration under which they are serving."

SECTION IV, *para.* 28.—"In cases where rent for public quarters in charge of the Barrack Master has to be charged to Warrant or Non-Commissioned Officers on staff employ, Barrack Masters are required to submit a monthly statement of such quarters to the Executive Engineer, who will recover the amounts from the Departments to which the occupants belong."

3. On account of quarters provided to the Warrant Officers in question in Presidency towns, the Public Works Department will, in addition to the rent payable by those Officers, be entitled to receive credit for the amount of Presidency house-rent admissible to them, in conformity with the ruling contained in Financial Department's Resolution No. 1069 of 14th August 1868, in the case of the Presidency house-rent of Commissioned Officers.

4. This order is applicable to the three Presidencies.

The 3rd February 1871.

No. 63.—Lieutenant J. T. Wright, R.E., has been appointed to the Public Works Department as an Assistant Engineer of the 2nd grade, and posted to the North-Western Provinces.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870 :—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*),

or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery the Government Plantation, such permission will be subject to the following conditions :—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

The 2nd February 1871.

Extract from the Proceedings of the Government of India in the Home Department (Public),—under date Fort William, the 2nd February 1871.

No. 649-50.—Read again the following correspondence on the subject of the proposed appointment of a Central Agent for or Director of the Archæological Survey of India:—

Despatch from Secretary of State,	No.	4 of 1870,	dated	11th January.
„ to „	No.	84 „	„	29th July.
Telegram from „			„	15th October 1870.
„ to „			„	1st November „
Despatch from „	No.	111 „	„	24th November.

RESOLUTION.—In accordance with instructions received from the Secretary of State, measures were initiated in 1867-68 for the conservation of old architectural structures, and for the exploration and systematic record of the numerous valuable and interesting memorials of the ancient civilization of India that occur in so many parts of the country. As an experimental arrangement, four separate parties were organized for Madras, Bombay, Bengal, and the Upper Provinces for taking casts and photographs of all important ancient buildings, the Department of Science and Art in London having undertaken to defray a portion of the expenses that might be incurred in securing authentic descriptions, as well as casts and photographs of "the finest monuments of Indian Art."

2. In his despatch dated the 11th January 1870, reviewing the proceedings taken in this matter by the Government of India since the commencement of the operations, and offering certain suggestions in regard to the further prosecution of the work, the Secretary of State strongly urged the necessity of directing the researches in a somewhat more systematic and deliberate manner than had been attempted at the outset, and of concentrating the supervision of the entire system in one Department, instead of leaving it, without control, to the management of different Chiefs under different Local Governments. The Governor General in Council entirely concurred in the views expressed by the Secretary of State as to the steps that should be taken for the conduct of future researches. But after mature consideration, His Excellency in Council came to the conclusion that it would be impossible to attain the desired object without a Central Establishment to collect the results of former investigations, and to direct and systematize the various efforts and enquiries made by local bodies and private persons, as well as by Government itself.

3. In communicating the above opinion to the Duke of Argyll, it was stated that there was no one so well qualified for superintending the operations as Major General Cunningham, then in England; and that, if that gentleman would accept the post of Central Agent or Director for a few years, it would give an impulse to the study of archæology, and make the future working of the scheme comparatively easy.

4. Major General Cunningham has accepted the offer made by the Secretary of State, and has now assumed charge of the appointment of Director General of the Archæological Survey of India. The Governor General in Council, therefore, considers this a fitting time for deciding on some fixed and definite system of archæological research, which, being commenced on now, may be steadily prosecuted, year by year, in such method as is likely to be productive of the most useful results.

5. Although much has already been done by previous enquirers, still more yet remains to be accomplished, for the efforts of private individuals which are entirely dependent on opportunity and inclination are necessarily unconnected and desultory. What is now required is a complete search over the whole country, and a systematic record and description of all architectural and other remains that are remarkable either for their antiquity, or their beauty, or their historical interest.

6. To carry out these views, General Cunningham's attention should be directed to two principal objects,—*first*, to the preparation of a brief summary of the labours of former enquirers, and of the results which have already been obtained. Much valuable information exists in the researches and journals of the different Asiatic Societies; but it is so scattered over several hundred volumes, many of which are rare and expensive, that it is now practically accessible only in large public libraries. A brief record of what has already been done would save present enquirers the loss of much precious time in the measurements and description of many of the finest monuments in India. *Secondly*, to the preparation of a general scheme of systematic enquiry for the guidance of a staff of assistants in present and future researches. The scheme should indicate what has already been accomplished, and what still remains to be done. It should give clear and detailed instructions as to the nature and amount of information, as well as to the style of illustration required for all known remains. It should also lay down the order in which these researches should be followed up, by forming into different compact groups all the places to be visited, so that as little time as possible should be lost in travelling.

7. A report of each year's proceedings should be drawn up by General Cunningham, and submitted before the commencement of the next year's operations. This report need not be accompanied by any detailed drawings or illustrations, but it should indicate clearly the nature and amount of work done during the year, and should state generally the value and importance of the information acquired. The collation and arrangement of the materials contained in these annual reports, with the results obtained by former or independent enquirers, will form another branch of General Cunningham's duties. This work cannot be begun for some time, but the object should be kept steadily in view. It is, therefore, desirable that the efforts of some of the assistants should at once be directed to the completion of our knowledge of the older remains of India, so that the Archæological Survey may be able to publish a volume of Buddhist and other antiquities at an early date.

8. General Cunningham should now be desired to submit, with the least possible delay, a statement of the establishment which he proposes to entertain, together with a careful estimate of its probable cost, and of all other expenses likely to be incurred, *e. g.*, for photographs, casts, excavations, &c., in connection with the survey. This statement should include General Cunningham's own salary and expenses of every kind to be incurred on account of the Department, and should be divided into two parts— the former referring to the current official year, 1870-71, and the latter to 1871-72. As regards the establishment to be entertained, although the services of one or more European assistants may prove indispensable, His Excellency desires that, so far as possible, intelligent Natives may be employed in, and trained to, the work of photographing, measuring, and surveying buildings, directing excavations and the like; while as regards decyphering inscriptions, it seems probable that Natives may be found better qualified to do this work than any European, whose services could be at present secured for such employment in the Department.

ORDERED, that a copy of the above Resolution be forwarded to Major General Cunningham for information and guidance.

Ordered also, that a copy of the above Resolution be forwarded to the Financial Department for information.

The 3rd February 1871.

No. 652.—Mr. R. H. Clifford, C. S., having produced the necessary medical certificate, has been granted, by Her Majesty's Secretary of State for India, an extension of leave for six months.

No. 800.—The Governor General in Council is pleased to permit Mr. Charles Horne to resign the Civil Service from the 17th August 1870.

No. 803.—The under-mentioned gentleman has been nominated by the Governor General in Council, under Section 5 of Act XVII of 1866, to be a Trustee of the Indian Museum, to fill the vacancy temporarily caused by the appointment of the Hon'ble John Paxton Norman as Officiating Chief Justice of the High Court of Judicature at Fort William in Bengal, *viz.*:—

Baboo Joteendro Mohun Tagore.

No. 806.—His Excellency the Governor General in Council has been pleased to confirm the following rules made by the Lieutenant Governor of the North-Western Provinces in the exercise of the power conferred on him by Act VIII of 1870 (for the prevention of the murder of female infants) and of every other power enabling him in this behalf:—

1. A census shall be taken of the whole adult and non-adult population of the proclaimed clans, tribes or families in the proclaimed tracts or villages.

2. The census shall be made by the Collector who will employ Putwarrees, Bukshees of Chowkeedars, Abkaree Mohurirs, &c., &c., under the superintendence of Peshkars and Tehsildars controlled by Covenanted and Uncovenanted Officers. It will be conducted ordinarily during the cold season, when District Officers on tour will be able to exercise a thorough supervision over the subordinates employed in making the enumeration.

3. The annexed Form (A) shall be uniformly adopted for such census.

4. Copies of the Census Returns, when finally tested, shall be kept at the Tehsil, at the Police Station, and at the Office of the District Superintendent of Police. There shall be a separate return for each village, and these village returns shall be bound up according to Pergunnahs for deposit in the Tehsils, and, according to Police circles of jurisdiction, for deposit at the Police Stations.

5. This census shall be repeated at periods not less than one year, and not exceeding three years.

6. The heads of families in proclaimed tracts or classes shall report all deaths, births, and marriages to the chowkeedar.

7. All head-men of proclaimed villages, or of villages in which proclaimed clans reside, shall be bound to assist in enforcing any rules made for any of the following purposes:—

   For making and maintaining registers of births, marriages, and deaths occurring in the proclaimed District, or in or among the proclaimed class, family or persons; and for making, from time to time, a census of such persons, or of any other persons residing within such District.

   For prescribing how and by whom information shall be given to the proper officers of all births, marriages and deaths occurring or about to occur, in such District, or in or among such class, family or persons.

8. Chowkeedars of proclaimed villages or clans shall report at the Police Station all births, deaths, marriages, arrivals and removals occurring in the proclaimed families or clans. In the event of the child born being a girl, the officer in charge of the Police Station, or an officer of a grade not lower than Head Constable shall proceed as soon as possible after the birth to the village, shall call for and see the child and warn the father not to neglect it. The inspection shall be repeated as opportunity may occur.

9. When a pregnant female belonging to a proclaimed family is removed from the village, the chowkeedar shall at once give intimation at the Police Station of her removal, and the place to which she has been removed.

10. When a pregnant woman is brought into a proclaimed village, the chowkeedar will be bound to inform the Police of her arrival, and of the place from which she came.

11. The chowkeedar shall also report at the Police Station all pregnancies in proclaimed villages or families where the percentage of girls to the non-adult population is under twenty-five.

12. The following events shall be reported by the chowkeedar immediately:—

   (*a.*)—Births of female children.

   (*b.*)—Deaths of female children under six months of age.

   (*c.*)—Removals and arrivals of pregnant females, other deaths, arrivals and removals, and all pregnancies* and marriages, shall be reported at the ordinary visit of the chowkeedar to the Police Station.

   * When required by Rule 11 to be reported.

13. In proclaimed villages the chowkeedar must not be either a relation, connection, or of the same caste as any of the proclaimed families.

14. When the crime is so prevalent, and the number of the proclaimed villages so great, that the ordinary establishment of the District cannot cope successfully with it, an Officer, with the powers of an Inspector of Police, for carrying out measures for prevention and detection, may, with the sanction of the Local Government, be appointed for a District, or a certain portion of a District, as circumstances may direct.

15. Extra Police, under Act V. of 1861, shall not be imposed except on proof of determined persistence in the crime, or systematic disregard of the rules, and only then on the special report of the District Officers, submitted through the usual authorities, and sanctioned by the Local Goverment.

16. The Officer in charge of a Police Station shall be required to go to the spot and make inquiries in case of death or other suspicious occurrence; to supervise the Mohurir and see that his registers are accurately kept, and the necessary returns submitted; and to take every opportunity of checking the information given at the Police Station by local inquiry in person. He should also periodically visit the proclaimed villages and inspect the children. He shall report at once any event of importance which may occur in his circle.

17. The duties of the special Inspector will be those ordinarily performed by the Police.

18. A register of midwives in proclaimed villages shall be kept at the Police Station.

19. Registered midwives shall not be retained in Government employ, but Magistrates and District Superintendents of Police will report cases in which they consider rewards should be given to them.

20. The midwife shall report immediately to the chowkeedar the fact of a female child's birth in a proclaimed family, and, in case of its death prior to the completion of her services, the fact of death.

21. All expenses incurred in working the system sanctioned by Act VIII. of 1870 shall be borne by the proclaimed clans and families, and shall be recoverable as arrears of land revenue, provided that, when the percentage of girls in any proclaimed village or clan exceeds forty, it shall at once be exempted from any share in such expenses.

22. Each District shall bear its own expenses. The Magistrate shall first submit an estimate of expenditure likely to be incurred in his District, with a list of villages (with the number of heads of families in each) which he considers should be called upon to contribute. On receiving the Government sanction, he shall then proceed to distribute the total expenditure amongst the different villages in proportion to the number of heads of families in each, and these heads of families shall re-distribute according to village custom. If no custom exists, or if the heads of families refuse to apportion the expenses amongst themselves, the Magistrate shall do so by number of heads of families. The cost of extra Police shall be borne by the villages on which they have been quartered.

23. In all proclaimed villages, where the proportion of girls to the non-adult population is under 25 per cent., the midwife shall report, through the chowkeedar, every pregnancy among the proclaimed families at some period prior to the birth. When the fact of pregnancy is marked by any ceremony, the report shall be concomitant with that ceremony. If, after proclamation, the proportion of girls does not rise to more than 25 per cent., the Lieutenant-Governor may direct that every head of a proclaimed family shall be personally bound to report every pregnancy at some period before the seventh month.

24. Pregnancies need not be reported in those proclaimed tracts or villages where the proportion of girls to the child population is above 25 per cent.

25. A register of pregnancies in the Form (B) hereto annexed shall be kept up for all villages in which they are directed to be reported. No abstracts from these registers will be submitted.

26. A register of births, deaths, marriages, arrivals and removals occurring in the proclaimed families or clans shall be kept up for each proclaimed village, at the Police Station to which it belongs, in the Form (C) attached.

27. Abstracts from these registers shall be prepared quarterly by the Police Officer in charge of them, and shall be submitted by the Officer in charge of the Police Station to the District Superintendent of Police in the Form (D) annexed.

28. The District Superintendent of Police shall have the abstracts required under Rule 27 collated in his Office, and shall submit the annual results through the Magistrate, Commissioner of Division and Inspector General of Police, for the information of Government.

29. If, on the occasion of a fresh census, it should appear to the Magistrate that any village or clan had reformed, he should report the circumstance to the Local Government, recommending its removal from the proclaimed list, and await orders.

30. Any percentage of girls to the child population exceeding forty should ordinarily, but not necessarily, be the ground for recommending removal from the proclaimed list.

No. 299*P.*—The following Despatch from Her Majesty's Secretary of State for India is published for general information :—

POLITICAL. INDIA OFFICE;
No. 2. *London, 5th January* 1871.

To His Excellency the Right Hon'ble the Governor General of India in Council.

MY LORD,—I have received with the deepest regret the telegraphic intelligence of the melancholy death by an accident of Major General Sir Henry Marion Durand, K. C. S. I., C. B., Lieutenant Governor of the Punjab.

2. By this calamity the Government of India at home and abroad has been deprived o the services of one of its best Officers whilst in the performance of his public duties at a time when he had just entered on a new career of utility for which he was eminently fitted.

3. Having entered the Indian Army in one of the scientific branches of the service, he distinguished himself at an early period by his gallantry in the field, and subsequently by his ability and independence of character in different high civil and political appointments, and as a Member of the Supreme Government won for himself the confidence of successive Governors General, until he was selected by your Excellency to fill the high office in which his distinguished career has been so suddenly brought to a close.

4. The life of such a man is an example to the Service, and Her Majesty's Government deeply deplores his death.

LEAVE AND ALLOWANCES.

The 8th February 1871.

No. 780.—The Rules on the subject of leave to Covenanted Civil Servants are republished in the form of a Code.

2. The Rules printed in large type are those which, superseding all previous rules, came into force on 1st July 1868. The verbal corrections which have from time to time been made in these Rules are embodied in the form in which they are now published.

3. These large-type Rules have the sanction of the Secretary of State for India, and they apply to all Covenanted Civil Servants, except—

(1)—Members of the Council of the Governor General;
(2)—Members of the Council of the Governor of Madras;
(3)—Members of the Council of the Governor of Bombay;
(4)—Judges of any High Court.

4. The Constructions and Subsidiary Rules printed in smaller type are the Notifications and orders by the Governor General in Council, which have from time to time been promulgated. They are arranged under the sections of the Leave Rules to which they refer. Future Rulings will be notified in the form of corrections and additions to this Code.

5. By this Notification, *all* previous notifications and orders on the subject of leave (including leave allowances, joining time, and last-pay certificate) to Covenanted Civil Servants, are superseded.

The following is a list of some of these:—

7. The following is a list of the modifications which the present Code effects in the Rules as they at present stand:—

Section VII. Proviso.—The minimum furlough allowance has been, with the sanction of the Secretary of State, raised from £300 to £500, or full salary if less.

Section VIII. Rule 4.—An erroneous construction (Notification 162, dated 22nd April 1869) has been cancelled.

Section XVIII.—The construction appended is new.

Section XXI. Rule 1.—The power of exemption extends only to the penalty of loss of appointment.

CHAPTER VII. *Rule* 3.—Previously this was the case only when the examination was successfully passed; the new reading is intended to have retrospective effect.

CHAPTER I.

Definitions.

Section I.—In the following Rules—

"Actual Service" includes the period during which an officer is on duty, also periods spent on privilege and subsidiary leave, and periods during which an officer, not on leave, may be out of employ on subsistence allowance in India.

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. "Actual Service" also includes leave within the limits of the late East India Company's charter reckoned as service and residence under the rules in force before the 8th June 1855; also leave on urgent private affairs reckoned as service and residence under former Rules.

2. "Actual Service" also includes "Examination Leave" taken under CHAPTER VII, and not exceeding in the aggregate 12 months.

3. Leave without allowances, and junior furlough taken under medical certificate under the Rules in force before those of 1855, are neither to be credited as actual service, nor debited as furlough taken. *(Vide Sections II and III).*

"Extraordinary Leave" means any leave granted otherwise than under these Rules.

"Long Extraordinary Leave" means Extraordinary Leave extending beyond a period of three months.

"Long Furlough" means Furlough extending beyond a period of three months.

"Salary" includes acting allowances.

CONSTRUCTIONS AND SUBSIDIARY RULES.

4. The word "pay" as used in this Code signifies substantive pay; but it includes also the subsistence allowance drawn by an officer who has an officiating, but no substantive, appointment.

5. "Salary" is the sum of pay and acting allowance. It does not include house-rent, tentage, or travelling allowances, whether daily, monthly, or annual.

The rule for the exclusion of these allowances is a general one.

6. Salary does not include "local allowances," which are given in full to the officer performing the duty in respect of which they are given, no part being allowed to an absentee.

This construction applies generally.

An officer's "Station" means that station to which he stands appointed. or such other place as the Government to which he is subordinate may determine,

CHAPTER II.

Conditions on which furlough may be taken.

Section II.—The maximum period of furlough which can be granted to any officer during the whole period of his service, is limited to six years.

Section III.—Subject to the above limit, furlough shall be placed to the credit of each officer at the proportional rate of one year's furlough for every four years of actual service.

CONSTRUCTION.—An officer, who has taken leave on medical certificate under Leave Rules prior to those of 1868, shall not, for the purpose of this *Section*, be debited in his furlough account with such leave, up to the limit of one year. All such leave shall, however, be included in the maximum amount of six years fixed by *Section II.*

Illustration.—A has completed an actual service of 21 years 2 months and 10 days. He has had 15 months' sick leave under old Rules and 3 years' furlough. Under *Section III* A has earned by his actual service 5 years 3 months and 17 days' furlough. Against this must be debited 3 years' furlough and 3 months of the 15 months' sick leave, leaving at A's credit 2 years and 17 days' furlough. But as this, added to the 3 years' furlough and 15 months' sick leave already taken, would exceed the aggregate of 6 years by 3 months and 17 days, the excess must be deducted, leaving at A's credit 1 year and 9 months' furlough.

In this illustration sick leave does not include leave within Indian limits, under the Rules of May 1843, which has been declared (by *Section I, Construction* 1) to be actual service.

Section IV.—No furlough shall be taken before the completion of eight years' actual service, except under *Section VIII.*

Section V.—Furlough shall not be repeated until three years from the date of the last return from long extraordinary leave, or long furlough, except under *Section VIII.* Leave taken under CHAPTERS VI and VIII, but no other leave, shall be reckoned as part of the said three years.

SUBSIDIARY RULE.—Examination leave taken under CHAPTER VII (not exceeding 12 months in the aggregate) shall be reckoned as part of the said three years.

Section VI.—The maximum term of furlough to be taken at any one time shall be two years.

Section VII.—Except as hereinafter provided, an officer when on furlough shall retain a lien on his substantive appointment or on an appointment of similar character, and not less salary, and he shall be granted allowances at the rate of 50 per cent. of his average salary for the previous three years, or for the period which has elapsed since his last return from long furlough, or long extraordinary leave if that period be less than three years.

In calculating such average, the time spent and the allowances drawn under any leave, excepting privilege leave under CHAPTER VI, shall be omitted.

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. In calculating such average, time spent (not exceeding 12 months in the aggregate) and allowances drawn on "Examination Leave" taken under CHAPTER VII shall not be omitted.

2. The three years referred to in this *Section* are the three years immediately preceding the date on which the officer taking leave makes over charge of his office whether his appointments during that period have been substantive or acting.

This rule applies also to the case of Military Officers in Civil employ.

3. A period spent without leave and without allowances (as for example when an officer overstays privilege leave or joining-time) is to be omitted from the three years on which the calculation of average salary is to be made under this *Section*. When any period is thus omitted, the calculation of average salary should be made on the allowances drawn during the remainder of the three years.

4. An officer retains no lien on an acting appointment during absence on any other leave than "Privilege" or "Examination Leave."

5. An officer has no claim to promotion while absent on furlough: but there is no objection to such promotion.

This rule applies generally.

6. If an officer's substantive appointment is changed while he is absent acting in another appointment, it is not necessary that he should join his new substantive appointment in order to obtain a lien upon it.

This rule applies to all officers in Civil employ.

7. The allowances fixed by this *Section* are granted whether the officer has a substantive appointment or not.

Proviso.—Provided that no officer on furlough shall draw more than £1,000 or less than £500 per annum, unless his salary is less than £500, in which case he shall draw an allowance equal to his salary.

Note.—The limits of furlough allowance originally stood at £1,200 and £300 with an option (Section XXX) of accepting as limits £1,000 and £500.

From 7th August 1869 the £1,200 was reduced to £1,000, and the option was abolished. The result of these orders is that for furloughs taken on or before 7th August 1869 (but not for extensions of them commencing after that date), the limits are £1,200 and £500.

The minimum which after these orders stood at £300 is now raised to £500, or full salary if less than £500.

Section VIII.—Under medical certificate—

(a).—Furlough may be taken on the above-mentioned conditions, without reference to the amount at credit under *Section III.*

(b).—Furlough for a period not exceeding one year may be taken, even if less than three years have elapsed since the last return from long extraordinary leave or long furlough. When on furlough under this clause, an officer will not retain a lien on his appointment, and will be entitled only to subsistence allowance, unless he has completed six months' actual service since his last return from long extraordinary leave or long furlough, and there remain some leave to his credit under *Section III*, in which case the officer will retain a lien on his appointment, and will draw allowances as calculated under *Section VII*, until that credit be exhausted, but in no case for a period exceeding one year.

(*c.*)—Furlough taken without medical certificate, or under clause (*a*) of this *Section*, may be extended beyond two years for a period not exceeding one year. When on furlough under this clause, an officer will not retain a lien on his appointment, and will be entitled only to subsistence allowance.

(For form of medical certificate, see Appendix A.)

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. An officer who takes furlough under Clause (*b*) without retaining a lien on his appointment, vacates his office from the date on which he makes over charge of its duties.

2. If the subsistence allowance admissible under Clauses (*b*) and (*c*), exceeds the furlough allowance admissible under *Section VII*, the latter allowance only shall be drawn under this *Section.*

3. The following are the rates of subsistence allowance for Covenanted Civil Servants throughout India:—

To officers of twelve or more years' standing	...	Rs. 400 per mensem.
To officers of more than eight, but less than twelve years' standing ...	...	„ 320 „
To officers of not more than eight years' standing	...	„ 250 „

4. The standing of an officer for subsistence allowance is the period of his actual residence in India. So far as regards standing for subsistence allowance, time not exceeding two years, which after the age of seventeen years was *bonâ fide* spent in the regular course of education at Haileybury College, counts as residence in India.

Section IX.—Furlough taken or extended under *Section VIII* is subject to the provision of *Section II.*

Section X.—Furlough taken in India will be reckoned from the date of the officer quitting his station to the date of his return thereto. Furlough taken out of India will be reckoned from the date of embarkation to the date of return.

In the event of the furlough being taken partly in India and partly out of India, the commencement and termination of the furlough will be determined by the above Rules, according as the furlough begins or ends in or out of India.

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. Days of embarkation and debarkation are counted part of furlough, and furlough allowances only are admissible for such days. The date of embarkation from Calcutta is the date on which a vessel is left by the pilot at sea.

This rule is of general application.

2. An officer may embark or debark at any port in India.

CHAPTER III.

Subsidiary Leave.

Section XI.—For the interval elapsing between departure from his station and the commencement of furlough, and between the termination of furlough and the rearrival at his station, an officer shall be allowed subsidiary leave not ordinarily exceeding in each case thirty days. During those periods, his allowances will be calculated in the same way as his furlough allowances, but without limitation as to maximum and minimum. Provided that, if the officer has under these Rules lost his lien on his appointment, he shall draw subsistence allowance of his rank. Subsidiary leave shall count as service and residence.

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. Subsidiary leave ceases the day before embarkation, and cannot be extended, on the ground that the vessel in which an officer sails touches at some other port before leaving India.

This rule applies generally.

2. Local Governments may grant subsidiary leave for a period exceeding thirty days, in case of necessity; but such a relaxation of Rule and the circumstances of it, must be reported to the Government of India.

This rule applies also to all Officers in Civil employ.

3. If an officer overstay subsidiary leave prefixed to furlough or special leave by a period not exceeding thirty days, he may, at his option, either forfeit all salary during the period of such overstay, or give up his subsidiary leave and reckon his furlough or special leave from the date on which he quitted office. But if the period of overstay exceed thirty days, such option is not admissible, and the furlough or special leave must be held to have commenced from the date on which the officer quitted office, the subsidiary leave being cancelled. In such case, if the officer was not entitled to furlough or other leave when he quitted office, a special report must be made to the Government of India for orders.

This rule applies in analogous cases to all Officers in Civil employ.

4. An officer may draw full salary for any part of his subsidiary leave *before* furlough or special leave for which, if he were not about to take furlough or special leave, privilege leave would be admissible to him.

This rule applies in analogous cases to all Officers in Civil employ.

CHAPTER IV.

Applications for Furlough.

Section XII.—Applications for furlough will, in all cases, be submitted to the Government to which the applicant is subordinate, and will be dealt with in such manner as the Governor General of India in Council may from time to time prescribe.

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. When an officer applies for leave he should distinctly state under what section of these rules he wants it, and show that he is entitled to it under that section.

This rule applies generally.

2. The following rules have been laid down for the disposal of applications for leave or furlough from officers of the Bengal Civil Service, or from officers of the Madras or Bombay Civil Service, employed in the Presidency of Bengal:—

I.—Subject to the exigencies of the public service, Lieutenant Governors and the Chief Commissioners of Oudh and the Central Provinces are empowered to grant any leave or furlough authorised by the Rules to officers serving under their respective orders.

II.—If an officer applying for leave or furlough be serving out of his own Presidency, the Local Government or Administration under which he is serving will, if the leave or furlough be granted, inform the Government of India, Madras or Bombay, as the case may be.

III.—All applications for leave or furlough should be accompanied by a certificate from the Local Accountant General, showing that the applicant is entitled to the leave asked for, and should be forwarded, through the usual channel, to the Local Government or Administration under which the officer is serving.

IV.—Except under orders of the Secretary of State, the term of leave or furlough cannot be altered without the permission of the Government or Administration by which it was granted.

V.—Every officer who obtains leave or furlough shall supply himself with a last pay certificate, and with a statement showing the pay which he is entitled to draw while absent. It shall be the duty of the Local Accountant General to furnish these documents, and no leave allowances will be payable without their production.

VI.—A quarterly statement of the officers absent on furlough or special leave with the dates of the grant and expiry of such furlough or leave brought up to the 31st March, 30th June, 30th September, and 31st December of each year, shall be punctually furnished by Local Governments and Administrations to the Government of India in the Home Department.

VII.—From these quarterly returns, a register will be compiled and kept at the Office of the Secretary to the Government of India in the Home Department, of all grants of leave or furlough, of all extensions of leave or furlough, and of all returns to duty from leave. This register will be published quarterly in the *Gazette of India.*

VIII.—Every officer returning to duty shall report his return to the Government of India, and to the Local Government or Administration by which his leave or furlough may have been granted.

IX.—If any Local Government or Administration shall see fit to refuse a furlough on the ground of the exigencies of the public service, it shall report such refusal for the confirmation of the Government of India.

Section XIII.—Subject to the exigencies of the service, both as regards the number of furloughs available at any one time, and as regards individual applications, of which exigencies the Government of India, Madras or Bombay, as the case may be, shall be exclusively the judge, furloughs will be granted under these Rules.

Section XIV.—All applications for furlough under medical certificate, in accordance with these Rules, will be granted without restriction.

Section XV.—If, owing to the exigencies of the service, it should be necessary to place any limit on the number of officers who may be absent on furlough at the same time, applications not supported by medical certificate will be granted in the following order:—

The applicant, to whose credit the greatest amount of furlough remains under *Section III*, shall have the preference.

If two or more applicants are on an equality in this respect, the preference shall be given to the applicant whose actual service in India is longest, reckon-

ing in the case of an officer who has not taken long extraordinary leave or long furlough, from the date of his arrival in India, and in the case of an officer who has taken long extraordinary leave or long furlough, from the date of his last return from such leave or furlough.

If two or more applicants are equal in both respects, the preference shall be given to the senior in the gradation list.

CHAPTER V.

Qualification for Pension.

Section XVI.—The term of *residence* qualifying for pension shall be 21 years: but no leave, except privilege leave and subsidiary leave, shall count as residence.

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. Examination Leave (not exceeding 12 months in the aggregate) shall count as residence.

2. Actual service for furlough must be held to be residence for pension. All leave which has been actually credited under the old Rules as residence, will remain so credited. This however does not apply to one year of leave on sick certificate, as in this case a compensation or equivalent is provided by this *Section* in the reduction, by one year, of the period of residence heretofore required.

3. Subject to the exigencies of the State, subsidiary leave may be granted to officers retiring from the service on the same terms as to officers going on furlough (*Section XI*, and subsidiary rules).

4. An officer may retire from the service while absent in Europe on furlough. It is not necessary that he should first return to India.

Section XVII.—The term of *service* qualifying for pension shall be 25 years.

CONSTRUCTION.—The service of an officer is held to commence either from the date of the officer's covenant or from that of the despatch of the Secretary of State announcing his appointment, whichever may have been earliest.

CHAPTER VI.

Privilege Leave.

Section XVIII.—Subject to the exigencies of the State, an Officer who has completed eleven months' continuous duty may take privilege leave for one month without deduction from his salary, retaining a lien on his appointment, whether substantive or officiating. Provided that, in the case of his holding an officiating appointment, such lien and his acting allowance will cease on the resumption of charge by the officer to whom the substantive appointment belongs.

CONSTRUCTION.—The lien and the acting allowance of the officer on leave cease when any officer having a prior lien on the appointment resumes charge of it.

Section XIX.—In the same manner and under the same conditions, two, or three, months' privilege leave may be taken when an officer has completed continuous duty of twenty-two or, thirty-three, months respectively.

CONSTRUCTIONS AND SUBSIDIARY RULES.

Application.

1. An officer, when applying for privilege leave, must declare that he has no present intention of taking any other leave or of retiring from the service within six months after the expiry of the leave for which he applies.

This rule is of general application.

2. An officer is not absolutely debarred by this declaration from taking leave or retiring within six months of the expiry of his privilege leave; but if he subsequently apply for leave or retire within that period, he may, and probably should, be called upon to account for having changed his mind.

This rule is of general application.

Service counted.

3. An officer returning from leave is held to be on service qualifying for privilege leave from the date on which he reports himself *for duty* to the Government to which he is directly subordinate, and not from any later date on which he may actually obtain re-employment, unless his re-employment be delayed owing to his own fault.

This rule is of general application.

4. But when an officer first arrives in India, service qualifying for privilege leave does not begin until he takes charge of a particular office.

Allowances.

5. If an officer on privilege leave obtains officiating promotion which, were he on duty, would, without involving any increase or change of duties or responsibility, entitle him to acting allowance or increased acting allowance, he shall draw the acting allowance, or increased acting allowance from the date of such promotion.

This rule is of general application.

6. Acting allowance may be passed to an officer on privilege leave even though another officer be appointed to act for him.

7. When an officer who is temporarily promoted from a lower to a higher acting appointment takes privilege leave on being relieved of the latter, and the Local Government declares that on being so relieved he has reverted to the lower acting appointment, it is not necessary for him to rejoin the lower acting appointment before proceeding on leave; but his allowances on leave shall be calculated as if he had so rejoined.

This rule is of general application.

8. An officer of the Bombay Service may draw house-rent or tentage during privilege leave, provided (1) that he places his house or tent at the disposal of the officer, if any, who is appointed to officiate for him, whether such officer does or does not avail himself of the offer, and (2) that the officiating officer does not at the same time draw the house-rent or tentage attached to the same appointment.

This rule applies also to Military Officers in Civil employ, and to Uncovenanted Officers serving in the Bombay Presidency.

Section XX.—Privilege leave may, at the discretion of the Local Government, be taken in separate instalments. No second instalment shall be taken until after the completion of six months' continuous duty from the expiry of the first instalment. In this case the eleven months qualifying for fresh privilege leave will be reckoned from the expiry of the first instalment, the period of the second instalment being omitted from the calculation.

Provided that the whole privilege leave taken at any one time shall not exceed three months, and that no accumulation of privilege leave beyond that period shall be admitted.

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. The meaning of this *Section* is simply that a Local Government may allow an officer to take any part of the privilege leave at his credit under *Section XVIII* or *XIX* without absolutely forfeiting the remainder.

2. When an officer absent on privilege leave is on public grounds recalled to duty, he may be allowed any balance of his leave before the expiry of six months from the date of his return to duty.

Section XVIII.—The construction appended is new.

Section XXI.—If an officer shall overstay his privilege leave, he shall forfeit all salary during the time of his remaining so absent; and if he shall so continue absent for more than one week, his office shall become vacant.

SUBSIDIARY RULE.—The Local Government may exempt an officer from loss of appointment under this *Section*, if it considers that his default was due to circumstances beyond his control.

This rule is of general application.

Section XXII.—Privilege leave shall be reckoned as residence and service.

CHAPTER VII.

Examination Leave.

RULES.

1. A junior Civil Servant, who is a candidate for one of the rewards offered for the study of Oriental Languages, may be allowed leave on full salary for one month for the purpose of being examined.

2. If he passes the examination, he may be allowed similar leave for another month.

3. Leave under this Chapter (not exceeding an aggregate of 12 months) shall be reckoned as residence and as service for pension, and for furlough or special leave.

4. When an officer passes a successful examination, the leave granted to him for that examination is (subject to the same limit of 12 months in the aggregate) service qualifying for privilege leave.

CHAPTER VIII.

Special Leave.

Section XXIII.—Special leave, on urgent private affairs, may be granted at the discretion of the Local Government for a period not exceeding six months. In respect of retention of a lien on appointment, of allowances drawn during the leave, and of subsidiary leave, the conditions of special leave shall be the same as those prescribed for furlough. Special leave shall not be reckoned as residence.

CONSTRUCTION.—If an officer who has taken leave on urgent private affairs under the old rules, takes leave under this *Section*, he can only draw allowances for any period by which his former absence may have fallen short of six months.

Section XXIV.—*Section XXI* shall, ***mutatis mutandis***, apply to an officer overstaying special leave.

Section XXV.—Special leave may be repeated without allowances after intervals of at least six years' actual service.

CONSTRUCTION.—No leave can be granted under this Chapter, until six years have elapsed from the expiry of leave granted under *Section XIV* of the Rules of 1855 or *Section IX* of the Rules of 1864.

CHAPTER IX.

Change and continuation of Leave.

Section XXVI.—Furlough, privilege leave, and special leave shall not be taken as such in continuation of each other; but if an officer absent on one of these classes of leave be allowed to change it for another, the whole period of his absence shall be held to be under the class of leave for which it was changed.

CONSTRUCTIONS AND SUBSIDIARY RULES.

1. Leave may be retrospectively commuted by the authority which granted it, to any other kind of leave which the said authority would have been competent to allow when the original leave was sanctioned.

This rule applies generally.

2. No leave can be taken in continuation of examination leave excepting furlough upon medical certificate.

3. Leave not used may be cancelled by the authority which granted it.

This rule is of general application.

CHAPTER X.

Payment of Leave Allowances.

Section XXVII.—**Subject to considerations of State, there is no restriction as to the places where an officer may reside when on leave.**

Section XXVIII.—**Leave allowance shall be payable monthly, if payment is taken in India, and quarterly, if payment is taken in England.**

CONSTRUCTIONS AND SUBSIDIARY ORDERS.

1. An officer on privilege leave cannot draw his allowances in England. But his Agent may draw them in India in the manner prescribed below.

This rule applies generally.

2. The following are the conditions under which allowances may be drawn in India by officers on leave.

(a.) If the officer signs the bill himself, he must either appear in person or furnish a life certificate signed by a Covenanted Civil Servant or by a Magistrate.

(b.) Allowances may be drawn through a properly authorised Agent. But the Agent must execute a bond to refund over-payments.

(c.) When allowances are drawn for the absentee by his official superior, this officer is responsible for any over-charge, and no other security is necessary.

This rule is of general application.

CHAPTER XI.

Joining time.

The rules regarding joining time, which are of general application, are, for convenience sake, inserted in this Code, although joining time is not leave, inasmuch as an officer is considered to be on duty during it.

RULES.

1. Joining time is allowed to an officer transferred from one station to another according to the following calculation:—

For that part of the route for which railway is available, one day for every hundred miles;

For that part of the route for which steamer is available, one day for every hundred miles, or such longer time as the steamer may actually occupy;

Where neither railway nor steamer is available, one day for every ten miles;

And six days in addition to the whole thus calculated.

Sundays are excluded in the calculation of joining time.

2. The full joining time is allowed only if it is spent *bonâ fide* in preparation for the journey or in progress from one station to another, and no more than three months can be given under any circumstances. The Government also which orders a transfer may limit the duration of joining time.

3. When an officer, while absent on leave, other than furlough or special leave, is transferred from one station to another, he is entitled to joining time in addition to the period of his leave. His joining time in this case will be that allowed in the case of transfer from his old to his new station, or from the place where he receives the order of transfer, to his new station, whichever is least.

4. An officer draws during joining time the following allowances:—

(*a*) First, as regards pay:—

the pay which he drew in his old appointment or that which he draws in his new, whichever is least.

(*b*) Second, as regards acting allowance:—

(1) if transferred from an officiating appointment to an appointment, officiating or substantive, of not less salary,—the acting allowance of his old appointment;

(2) if, after being promoted from a lower to a higher officiating appointment with retention of lien on the lower one, he is relieved of the higher and returns to the lower officiating appointment, or to another appointment, officiating or substantive, of not less salary,—the acting allowance of the lower officiating appointment;

(*c*) Provided that no officer can draw acting allowance for any appointment after any one having a prior lien on it has returned to it.

CHAPTER XII.

Last Pay Certificate.

RULES.

N. B.—The rules in this Chapter are of general application.

1. Whenever an officer on leave in England obtains permission from the Secretary of State for India to return to duty, he should bring with him to India a certificate showing the date to which his absentee allowances have been paid in London.

2. An officer proceeding on leave to England or to any place in India beyond the limits of his own district, and intending to draw leave allowances there, must take with him a last pay certificate, and should appear in person at the office in which his certificate is completed.

3. An officer transferred from one station to another cannot draw allowances at the treasury of his new station, without producing a last pay certificate from the treasury where he last drew allowances.

4. The following are the rules and forms prescribed for the issue of last pay certificates in India.

The cases in which these certificates are given are thus classified:—

Case I.—To an officer proceeding on leave to Europe, and embarking at a port in the presidency or province in which he is employed;

Case II.—To an officer proceeding on leave to Europe and embarking at a port in another presidency or province;

(*a*) if he be employed at, or have to pass through, the station of the Accountant General of his new presidency or province;

(*b*) if he be not employed at, and have not to pass through, that station;

Case III.—To an officer proceeding on leave from one place in India to another, whether the two places are or are not within the same presidency or province;

Case IV.—To an officer proceeding on duty from one presidency or province to another;

Case V.—To an officer proceeding on duty from one place to another in the same presidency or province.

The rules for each of these cases are as follows:—

Case I.—In this case, the Accountant General of the presidency or province should give the officer a certificate in Form A, Appendix B, and, save in the cases below excepted, forward a duplicate certificate in the same form to the Local Government for transmission to the Secretary of State.

Exceptions.—1. If the officer embark at a port in British Burmah, the Accountant General should forward the duplicate form direct to the Financial Department of the Government of India for transmission to the Secretary of State.

2. If the officer embark at Calcutta, the Accountant General should, in like manner forward the duplicate form to the Financial Department after filling up the blanks in the pilot's certificate at its foot.

Case II *(a)*.—In this case the Accountant General of the officer's presidency or province must pay him up to the date of his departure from his (the Accountant General's) station, and give him a certificate in Form B, Appendix B, leaving the 5th, 7th and 8th spaces blank, and send a duplicate after signing the letter on the reverse to the Accountant General or (if there be no Accountant General) to the officer in charge of the treasury at the port at which the absentee intends to embark for Europe. The Accountant General, or Treasury Officer at the port of embarkation, must obey the letter addressed to him, and return the original form to the officer. If he be an Accountant General, he must, moreover, forward the duplicate received by himself to the Local Government for transmission to the Secretary of State, and address a letter in the Form E, Appendix B, to the Accountant General of the absentee's presidency; but if he be a Treasury Officer, he must forward the duplicate of Form B to the Accountant General of his own presidency, who must forward it to the Local Government for transmission to the Secretary of State, and send a letter to the Accountant General of the absentee's presidency in the Form F, Appendix B.

Case II *(b)*.—In this case the Accountant General must send to the officer a certificate in Form C, Appendix B, leaving the 5th, 7th and 8th spaces blank, and forward a duplicate to the Accountant General or Treasury Officer at the port at which the officer intends to embark for Europe. Before the officer's departure from his station, the officer in charge of the treasury from which he last drew pay must fill up, and attest the certificate at the end of the original Form C. The Accountant General or Treasury Officer at the port at which the officer intends to embark must obey the letter to his address on the back of Form C,

and after copying the entries and signature from the certificate at the end of the original form into the duplicate, must return the original form to the officer. If he be an Accountant General, he must, moreover, forward the duplicate certificate to the Local Government for transmission to the Secretary of State, and forward a copy of the certificate at the end of the form to the Accountant General of the absentee's presidency, with a letter in the Form G, Appendix B; but if he be a Treasury Officer, he must forward the duplicate Form E to the Accountant General of his own presidency, who must send it to the Local Government for transmission to the Secretary of State, and forward a copy of the certificate at the end of the form to the Accountant General of the absentee's presidency, with a letter in the Form H, Appendix B.

But in the case of a Covenanted Civil Servant, or Military Officer in civil employ, whose appointment has been changed within the period, on his average salary for which his furlough allowance is to be calculated, the rate of furlough allowance will sometimes depend on the date on which he may make over charge of his office, and the Accountant General of his presidency will not be aware of that date at the time the last pay certificate is prepared if the officer intends to embark at a port in a presidency other than that in which he is employed, and has not to pass through the Accountant General's station on his way to that port. For cases in which, for these reasons, the Accountant General is unable to specify the rate of absentee allowance, the following rule is prescribed. The Accountant General of the officer's presidency must send him a document in the Form D, Appendix B, leaving the fifth, sixth, eighth and ninth spaces on the face of the form blank, and forward a duplicate of it to the Accountant General or Treasury Officer at the port at which the officer intends to embark for Europe. Before the officer's departure from his station, the officer in charge of the treasury from which he last drew pay must fill up the sixth space on the face of the original form, and fill up and attest the certificate at the end of that form. The Accountant General or Treasury Officer at the port at which the officer intends to embark for Europe must act up to the instructions in the letter to his address on the back of the form, must copy the entry in the sixth space on the face of the original form and the entries and signature in the certificate at the end of that document into the duplicate form, and must return the original form to the absentee. If he be an Accountant General, he must, moreover, forward the duplicate form to the Local Government for transmission to the Secretary of State, and forward a copy of the certificate at the end of the form to the Accountant General of the absentee's presidency with a letter in the Form K, Appendix B; but if he be a Treasury Officer, he must forward the duplicate Form D to the Accountant General of his own presidency, who must send it on to the Local Government for transmission to the Secretary of State, and forward a copy of the certificate at the end of the Form D to the Accountant General of the absentee's presidency with a letter in the Form L, Appendix B.

Case III.—In this case, the Accountant General of the officer's presidency must furnish him with a certificate in Form A, Appendix B; but, if the officer is proceeding to a place within the same presidency or province, the tenth space in the form may be left blank.

Case IV.—In this case, the officer should be furnished with a certificate in the Form M, Appendix B. If he be employed at the station of the Accountant General of his presidency, the certificate should be given by that officer. If he have to pass through that station on his way to his new presidency, the certificate should be given by the officer in charge of the treasury from which he last drew pay, and countersigned by the Accountant General. If he be not employed at, and have not to pass through, the Accountant General's station, the certificate should be given by the officer in charge of the treasury from which he last drew pay, and a duplicate of it should be forwarded by the Treasury Officer to the Accountant General for countersignature and transmission to the Accountant General of the transferred officer's new presidency.

Case V.—In this case, the officer should be furnished with a last-pay certificate in Form M by the officer in charge of the treasury from which he last drew pay.

CHAPTER XIII.

Return to duty.

RULES.

1. When an officer's leave or time for joining an appointment to which no substitute or acting officer has been appointed, expires on a Sunday or holiday, and he takes charge of his duties on the forenoon of the first working day following such Sunday or holiday, he shall be treated in regard to his allowances as if he had taken charge on the day on which his leave expired.

This rule is of general application.

2. As a general rule, no officer can draw the salary of any office until he has actually taken charge of it. But if an unemployed officer be appointed substantively to one post, and to act in another, he need not take charge of the substantive appointment, but may draw his pay and acting allowances from the date on which he takes charge of his acting appointment.

(See also Construction 6, Section VII.)

CHAPTER XIV.

Provisions respecting the rules previously in force.

NOTE.—The word "now" in this Chapter must be interpreted with reference to the date of the first publication of the New Leave Rules, *i. e.*, June 1868.

Section XXIX.—Whatever aggregate amount out of the three years' furlough and three years' sick leave, under the rules until now in force, at present remains to be taken by an officer under the said rules, shall remain to be taken by him under the rules now promulgated.

(See Section II, and Construction 3 under Section I.)

Section XXX.—Rescinded, see note to the Proviso under Section VII.

Section XXXI.—Any officer now absent on leave, who has no appointment, may, on his return and until he again holds an appointment carrying equal pay to that of the substantive appointment which he last held, draw the subsistence allowance of his rank, together with 75 per cent. of the pay of any appointment in which he shall officiate. Provided that the total salary so drawn by him shall not exceed the pay of the appointment in which he is officiating. This rule shall apply to any officer who may have already returned from furlough.

CONSTRUCTIONS AND SUBSIDIARY RULES.

This *Section* shall in no case be applied so as to raise the aggregate allowances of any officer who may return from furlough after the 23rd November 1869, above the present aggregate allowances of the appointment which he relinquished when he proceeded on furlough.

2. An officer may, at his option, decline to accept the special acting allowance provided in this *Section*, and take the ordinary acting allowance of 50 per cent. in addition to his subsistence allowance. In such case, the limitation prescribed by the preceding rule will not operate.

Section XXXII.—Obsolete.

Appendix A.

The medical certificate to be furnished by an applicant for furlough or sick leave shall be in the following Form :—

I, *A. B.*, Surgeon at, or of, , do hereby certify that *C. D.*, of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery, and do therefore recommend that he may be permitted to proceed to sea [*or to such place as the Surgeon may think proper, expressing it in the certificate*].

The following form shall be observed by the principal medical authority at the nearest principal station, in countersigning the Surgeon's certificate :—

We [*or* I] do hereby certify that, according to the best of our [*or* my] professional judgment, after careful personal examination of the case, we [*or* I] consider the state of health of *C. D.* to be such as to render leave of absence for a period of absolutely necessary for his recovery.

If the applicant for an *extension of leave* on medical certificate be residing within 20 miles of London, he must produce a certificate from the Medical Board attached to the India Office, stating the necessity for such extension. If residing beyond that distance from London, certificates in the second of the above forms must be produced from two medical practitioners.

Appendix B.

The following are the forms prescribed for the last-pay certificates :—

[In filling up these forms :—

(1). Allowances should be stated in rupees per mensem, and not in pounds per annum.

(2). In Forms A, B, C, and D, the presidency to which an officer belongs should be stated in the title, and the presidency or province in which he is employed should be stated under the first heading.

(3). In the heading "source from which, &c.," the term "Indian Revenues" should be used in all certificates intended to be sent to England, as the term "Imperial Revenues" has there a different signification. If the allowance is not chargeable finally to the Government of India, the Local Administration or fund from which it is recoverable must be expressly stated.

(4). The date of embarkation, it is to be remembered, is the first day of furlough, and not the last day of subsidiary or preparatory leave.]

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments; the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*),

or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*),

or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

No. 168 *of* 1871.—The following Military letter from the Right Hon'ble the Secretary of State for India is published for general information:—

MILITARY. INDIA OFFICE;
No. 21. *London, the 19th January* 1871.

To His Excellency the Right Hon'ble the Governor General of India in Council.

MY LORD,—I have considered in Council your Lordship's letter dated the 7th of December last, No. 338, relative to a question raised as to the title of a Major General of the Staff Corps who, while on the unemployed rate of Rs. 1,295-5, may be placed upon special duty of any description, to extra allowances when so employed.

2. The claim preferred by Major Generals * and * appears to have arisen from a misconception of the meaning of the term "unemployed." It has been laid down that no unemployed General Officer of the Staff Corps, who is not required by the Governments in India to remain there, shall be allowed to receive pay on the Indian scale for a longer period than three years. This rule was intended to comprise all General Officers of that Corps who may not be holding specific staff appointments, and your Lordship very rightly informed the Commander-in-Chief that, while in receipt of Indian allowances, a General Officer, like all other unemployed Officers, is available for any ordinary duty suitable to his rank, without extra allowance, if no staff or special salary is attached to such duty.

3. With reference to your recommendation, that any period during which an unemployed Major General of the Staff Corps may actually be employed on temporary duty of a special nature should be added to the three years for which the Indian allowances of his grade may be passed to him, I consider it advisable that this period should not be extended, except in the case of Officers who may, in the course of it, be nominated to some *bonâ fide* staff appointment, either of a permanent or temporary nature.

I have, &c.,
ARGYLL.

REVENUE.

(FORESTS).

The 16th February 1871.

No. 13*F*.—The following Rules drawn up under Act VII of 1865 have been confirmed by the Viceroy and Governor General in Council, and are, in accordance with Section 6 of the Act, published in the *Gazette of India*:—

Rules for the better management and preservation of the Government Forests in the Lower Provinces of Bengal.

PART I.

PRELIMINARY.

These rules shall be in force in those tracts of land which may be declared to be Government Forests under Act VII of 1865, and they shall regulate the transit of timber and other matters in those Districts to which these rules may be extended by an order of the Government of Bengal published in the *Gazette*.

2. On any tract being declared by Notification under Section 2, Act VII of 1865, to be subject to the provisions of that Act, it shall be subject to the authority of the Conservator of Forests under the following rules. Provided that the Government may appoint any person, other than the Conservator of Bengal Forests, to be Conservator of any specified tract.

3. Divisions and Sections of Government Forests will be placed under the management of Deputy and Assistant Conservators, as may be determined by the Governments of Bengal.

4. All Officers charged with the protection and management of any Government forests or with the control and management of any matters to which these rules relate, will be designated Forest Officers.

5. The Government forests, as notified under Section 2, Act VII of 1865, shall be marked on a copy of the Revenue Survey Map of the District, which shall be deposited in the Office of the Commissioner of the Division, and attested by his signature.

6. There will be two classes of forests—"Reserved" and "Open;" and whenever any Notification is issued under Section 2 of Act VII of 1865, rendering any land subject to the provisions of that Act, such Notification shall state whether such land is to be a reserved or an open forest.

PART II.

OF RESERVED FORESTS.

7. The reserved forests shall consist of tracts or forest of waste lands, the soil of which is the property, and is in the possession of Government, which may be set apart as such by order of Government, and defined by Notification in the official *Gazette*. The Conservator of Forests and his subordinates shall have entire administration, custody and control over these forests and their products.

8. Within reserved forests no tree of any kind is to be felled, nor shall any forest produce be removed without general or special authority obtained from the Conservator of Forests.

9. The boundaries of these forests must be clearly marked off by substantial marks where no natural boundaries exist. Should villages be included within these tracts, the boundaries around the village lands must be demarcated in the same manner as the forest, subject to the proviso in Section 2, Act VII of 1865.

10. Whenever the Government may resolve to set apart any tract as a reserved forest, the privileges which villagers are to be allowed to enjoy, and any customary rights which may belong to them in the matter of providing themselves with fire-wood and wood for domestic and farming purposes and otherwise, shall be distinctly defined and approved by Government. It shall not be competent to the Conservator in any way to restrict or modify privileges so allowed, except with the approval of Government.

11. As soon as the Notification required by Section 2 of the Government Forest Act, stating that the forest is to be a reserved forest, is published in the *Gazette*, a Notification shall be published and issued to the villages around, mentioning the boundaries of the tract reserved, warning the villagers against trespass or mischief, and defining the restrictions imposed on them, and the privileges allowed to them, within the reserved forest under this Section. This Notification will be issued by the District Officer, and a copy will be sent to the Forest Officer for information. The Conservator will, nevertheless, be careful to give prompt attention and consideration to any complaints which may subsequently be preferred, to the effect that the restrictions so imposed infringe rights of, or inflict hardship upon, individuals or communities.

12. The Conservator of Forests may prohibit all persons from passing through a reserved forest, except by the authorized roads or paths, of which a list shall be published, drawn up by the Conservator in conjunction with the chief civil authority.

PART III.

OF OPEN FORESTS.

13. The open forests shall consist of such tracts of forest or waste land notified under Section 2, Act VII of 1865, as may not, by special Notification be included in the reserved forests. In these tracts the authority of the Forest Department shall extend only to the protection of such reserved trees as may from time to time be notified with the approval of the Local Government.

14. Within the limits of open forests, and subject to the proviso in Section 2, Act VII of 1865, no person, without the permission of the Forest Officer, may mark, cut, girdle, or fell, or in any way injure any tree of the kinds which may be reserved as aforesaid.

15. Until the Government forests, to which these rules shall be applicable in any District, are settled and defined under Section 2 of the Act, no lands in the District which are covered with trees, brushwood, or jungle, and after the forests shall have been defined, no such land in the open forests, shall be sold, nor shall grants or leases in such lands be given, except under the orders of the Commissioner, who should, before passing final orders, communicate with the Forest Department; and, in case of difference of opinion between him and that Department, refer the question to the Government.

16. In addition to the reservation of the trees of the kinds which may be notified as reserved under Rule 13, it shall be competent to the Conservator of Forests and his Assistants to prohibit the felling, cutting, or otherwise using trees of other kinds which they may have marked or girdled within the open forests.

17. No other restrictions shall be imposed by the Forest Department in regard to the open forests, except after the publication of Notifications with the approval of the Government.

18. Should the Conservator think it desirable to impose any further restrictions than those above specified in any open forest, he shall, in the first place, communicate his proposals to the Commissioner of the Division, who shall give his opinion on the subject. Before approving of any such proposals, it will be the duty of the Commissioner of the Division to satisfy himself that the proposed restrictions will infringe no rights or privileges which should be preserved, and to define precisely any privileges which should be kept intact. On receipt of the proposals as agreed upon between the Conservator and Commissioner, the Government will sanction the issue of Notifications imposing such restrictions as it may see fit.

PART IV.

OF THE USE OF STREAMS, OF MARKING-HAMMERS, OF TIMBER IN TRANSIT, AND OF DRIFT TIMBER.

19. A list of rivers, streams and waters in each District to which these rules may have been extended, which must be kept open for the passage of timber, will be made by the Forest Department in conjunction with the Civil Officers of the District, and be published for general information; and it will be the duty of the Civil Officers to see that these streams, rivers, or waters are kept open.

20. No timber, the produce of any Government Forest, found adrift or stranded in any river, stream, or water of any District to which these rules may be extended, shall be marked until disposed of by the Forest Department; neither shall any mark on it be defaced. It shall not be converted or cut into pieces, neither shall it be removed or disposed of in any way without the orders of the Forest Officer, except on an order or decree by a competent Court.

21. All timber disposed of by the Forest Department must be stamped by the Forest Department with such marks as the Conservator may direct.

22. All brands, or marking-hammers used in the marking of timber, must be registered in the principal Forest Office of the Division in which they are to be used. A fee of Rs. 10 must be paid for every mark registered, and a certificate will be granted on payment of fee.

23. The use by any private person of any Government timber mark, or of any other timber brand or mark, save the one registered in his own name, is prohibited.

24. All foreign timber brought into British territory shall be reported and stopped at such stations as the Government of Bengal may from time to time direct, and such timber shall not be allowed to pass until it has been examined. The persons in charge will receive a pass in the form shown in Schedule A, and the timber will be liable to detention, if found afterwards without a pass in any District to which these rules are extended.

25. All timber found adrift or stranded in the rivers, streams and waters of any District to which these rules may be extended, and which is the produce of any Government forest, will be considered the property of Government, unless proof of ownership be given.

26. Persons who may have saved such drift timber are required to deliver the same to such persons as are authorized by the Conservator of Forests to receive it, on receipt of such salvage rates as may be approved by the Government of Bengal.

27. The Forest Officers shall take possession of any drift timber found in any river or stream, or lying in the bed of any river or stream within any District to which these rules may be extended, as to the ownership of which there may be any doubt; and the same shall be treated as drift timber under Rules Nos. 28, 29, 30, 31 and 32 below.

28. All drift timber collected by Forest Officers shall be stored at such depôts as the Conservator of Forests may from time to time order to be established.

29. From time to time, as the collection of drift timber may render it advisable, public notice, inviting claimants to the ownership of such drift timber to come forward, will be issued at the chief Stations of the District, and in the nearest town to the place or depôt at which such drift timber may be lying. These notices shall state the number and description of logs collected.

30. Six months' notice will be given for the reception by the Forest Officer, by whom the notice was issued, of claims to drift timber, after which, if not claimed, the timber will be sold on behalf of Government.

31. Claims to drift timber must be sent to the Forest Officer by whom the notice was issued, with particulars of marks by which it may be recognised. The said Forest Officer will inquire into the claim. If the claim be a single one, he may, on being satisfied of its validity, release the timber after expiration of the term mentioned in the notice. If the claim be a disputed one, he should endeavour to obtain the formal consent of the claimants to his arbitrating on their claims. Where the dispute cannot be so decided, and there exists any reasonable doubt as to the rightful owner, the Forest Officer will retain possession of the timber until the question of ownership be decided by the Civil Court having jurisdiction in the case: Provided that if no claim be preferred in such Court within two months from the date on which the Forest Officer shall declare his inability to settle the dispute, the timber may be disposed of by the Forest Officer on account of Government.

32. Timber awarded to claimants must be redeemed by payment of the salvage rates approved by the Government of Bengal, and other expenses which may have been incurred on account of such timber.

PART V.

OF THE PREVENTION OF OFFENCES AND OF PUNISHMENTS.

33. It shall be the duty of all Forest Officers to see that these rules are not violated; and should they in any case be infringed, to arrest the offenders and convey them without delay to the nearest Magistrate or Police Officer in the Division or Sub-Division in which the offence took place.

34. Any person infringing any of these rules shall be liable to be punished by fine not exceeding Rs. 500, or, in default of payment of such fine, by imprisonment for such term as is mentioned in the 6th Section of the Indian Penal Code. But no fine shall be imposed in addition to the confiscation of any timber or other forest produce, or of implements, which may have been incurred under Act VII of 1865.

35. Any marking-hammers or other tools or implements, boats, carts and cattle used in an act which constitutes an offence against these rules, and all timber that has been marked or obtained in a manner contrary to these rules, or that has not been reported and passed in accordance with these rules, whether entire, or cut up, or sawn up, may be seized by an Officer of the Forest Department, or Police Officer, and such tools or implements, boats, carts, cattle and timber may be confiscated by the orders of the Magistrate of the District.

STAR OF INDIA.

NOTIFICATION.

Fort William, the 28th February 1871.

On Monday, the 27th of February 1871, at 5 o'clock, His Excellency the Viceroy and Governor General, Grand Master of the Most Exalted Order of the Star of India, held a Grand Chapter in Government House, Calcutta, for the purpose of investing His Highness the Maharaja of Puttiala as a Knight Grand Commander of the said Order, and Prince Gholam Mahomed and the Honourable the Lieutenant Governor of Bengal as Knights Commanders of the said Order, in obedience to the Command of Her Majesty Queen Victoria, by the Grace of God of the United Kingdom of Great Britain and Ireland Queen, Defender of the Faith, Sovereign of the said Order.

The Maharaja of Jeypore, on his arrival at the foot of the Grand Entrance, was led by the Under Secretary in the Foreign Department to the room assigned for his use, the Guard of Honour presenting arms as His Highness passed. When robed His Highness was conducted by the Under Secretary to the Council Chamber, where the Knights Commanders and the Companions of the Order also assembled. A procession was formed of the Members of the Order according to ancient custom, the Junior preceding the Senior Members of the Order. As the procession entered the Marble Hall, a Royal Salute was fired. All present rose and remained standing till the Grand Master had taken his seat.

The following was the procession :—

THE MARSHAL OF THE PROCESSION
COLONEL H. GARDEN.

THE UNDER SECRETARY IN THE FOREIGN DEPARTMENT
H. LEPOER WYNNE, Esq.

THE SECRETARY OF THE ORDER

DR. FAYRER, C. S. I.
COLONEL HAUGHTON, C. S. I.
W. ROBINSON, Esq., C. S. I.

Knights Commanders of the Order.

THE HON'BLE SIR R. TEMPLE, K.C.S.I.
THE MAHARAJA OF VIZIANAGRAM, K.C.S.I.
MAHARAJA JEY MUNGUL SINGH, K.C.S.I.

Knight Grand Commander of the Star of India.

HIS HIGHNESS THE MAHARAJA OF JEYPORE, G.C.S.I.

ATTENDANTS OF THE MAHARAJA OF JEYPORE.

MILITARY SECRETARY TO THE VICEROY
MAJOR THE HON'BLE E. R. BOURKE.

PRIVATE SECRETARY TO THE VICEROY
MAJOR O. T. BURNE.

His Excellency the Grand Master, K.P., G.C.S.I.

ATTENDANTS OF HIS EXCELLENCY THE GRAND MASTER.

On proceeding up the Marble Hall, each Member of the Order filed off to the seat allotted to him, first making his reverence to the Grand Master as His Excellency passed. By Command of the Grand Master the Secretary declared the Chapter open, and proceeded to call over the names of the Knights Grand Commanders. Absent Knights were replied for by the Under Secretary. The Secretary next reported that the sole business before the Chapter was the investiture of His Highness the Maharaja of Puttiala, Prince Gholam Mahomed, and the Honourable the Lieutenant Governor of Bengal, under the Sovereign's Warrants. The Secretary of the Order and the Under Secretary then withdrew from the Chapter in order to receive His Highness the Maharaja of Puttiala. On arrival, His Highness was met at the foot of the Grand Staircase by the Secretary of the Order and the Under-Secretary in the Foreign Department, who conducted His Highness to the top of the Grand Staircase, where His Highness was met by the two Junior Knights Commanders.

A procession was then formed of—

THE UNDER SECRETARY IN THE FOREIGN DEPARTMENT
BEARING THE INSIGNIA OF THE ORDER.

THE SECRETARY OF THE ORDER.

THE TWO JUNIOR KNIGHTS COMMANDERS.

THE OFFICER BEARING THE FURLED BANNER OF HIS HIGHNESS.

HIS HIGHNESS THE MAHARAJA OF PUTTIALA.

PAGES AND ATTENDANTS OF HIS HIGHNESS.

The Guard of Honour presented arms as His Highness passed.

The Secretary then produced and delivered to the Grand Master the Sovereign's Warrants, and on receiving his Report the Grand Master directed that the investiture should proceed. His Highness accordingly advanced to the Throne, and the Under Secretary in the Foreign Department took from the table, on which the Insignia had in the meantime been laid, the Collar of the Knight Grand Commander, and, after making reverence, delivered it to the Grand Master.

The Secretary, having received from the Grand Master and read the Sovereign's Mandate, conducted His Highness the Maharaja of Puttiala to the table. By His Excellency's desire the Junior Knight, receiving the Ribbon and Badge of the Order from the hand of the Secretary, invested His Highness therewith, and the next Junior Knight, receiving the Star of the Order from the Secretary, attached it in its proper place.

The Junior Knights next invested His Highness with the Mantle of the Order. This done, His Highness advanced to the front of the Throne and made his reverence. Meanwhile the two Junior Knights withdrew to their places and remained standing. The Grand Master rose and invested His Highness with the Collar, and addressed the following admonition on the occasion :—

"In the name of the Queen, and by Her Majesty's Command, I here invest you with the honourable Insignia of the Star of India, of which, Most Exalted Order Her Majesty has been graciously pleased to appoint you to be a Knight Grand Commander."

A Salute of seventeen guns was then fired.

When the admonition had been given, the newly-invested Knight was conducted by the Secretary to the Maharaja of Jeypore, with whom he shook hands, after which he was re-conducted to the table, where he signed the Promise required by the Statutes of the Order. He then, after making his reverence, took his stand in front of his seat. The Senior Attendants on His Highness unfurled his Banner, when a flourish of Trumpets was sounded, and the Secretary of the Order proclaimed the titles of His Highness :—

HIS HIGHNESS FURZUND-I-KHASS DOWLUT-I-INGLISHYA MUNSOOR ZAMĀN AMEER-OOL-UMRA MAHARAJA DHIRAJ RAJESHWUR SREE MAHARAJA RAJGĀN MAHENDUR SINGH MAHENDUR BAHADUR, MAHARAJA OF PUTTIALA, KNIGHT GRAND COMMANDER OF THE MOST EXALTED ORDER OF THE STAR OF INDIA.

The proclamation being ended all resumed their seats.

The Under Secretary in the Foreign Department and the two Junior Knights Commanders next conducted Prince Gholam Mahomed from his seat to the Throne. The Under Secretary in the Foreign Department with due reverence delivered the Ribbon and Badge of the Order to the Grand Master.

The Secretary, having received from the Grand Master and read the Sovereign's Mandate, conducted Prince Gholam Mahomed to the table. The Grand Master then summoned the two Junior Knights Commanders from their seats, and by His Excellency's desire, they, on receiving the Star of the Order from the Secretary, attached it in the proper place. This done, Prince Gholam Mahomed advanced to the front of the Throne. Meanwhile the two Junior Knights Commanders withdrew to their places and remained standing. The

Grand Master rose and invested Prince Gholam Mahomed with the Ribbon and the Badge, addressing him as follows :—

"In the name of the Queen, and by Her Majesty's Command, I here invest you with the honourable Insignia of the Star of India, of which Most Exalted Order Her Majesty has been graciously pleased to appoint you to be a Knight Commander."

When the admonition was concluded the newly-invested Knight was conducted to the table, where he signed the Promise required by the Statutes of the Order. This done, he was led to his seat.

The same ceremonies were observed in the investiture of the Honourable the Lieutenant Governor of Bengal as were observed in regard to Prince Gholam Mahomed. When the Honourable the Lieutenant Governor had been led to his seat, all present resumed their seats.

The Secretary then represented that there was no further business before the Chapter, and the Grand Master rising commanded him to declare the Chapter dissolved.

A procession of Knights Grand Commanders of the Star of India, Knights Commanders of the Star of India, and Companions of the Star of India was thereupon formed, and left the Marble Hall and returned to the Council Room. A Royal Salute was fired, a Grand March being performed and the Guard of Honour presenting arms to the Grand Master.

The Secretary of the Order and the Under Secretary in the Foreign Department conducted the Knights Grand Commanders to their carriages.

Full dress was worn by all Officers on this occasion, and evening dress by all Gentlemen who were not entitled to wear uniform. Ladies wore morning dress.

By Command of His Excellency the Grand Master,

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870 :—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*),

or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery the Government Plantation, such permission will be subject to the following conditions:—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870 :—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On behalf of [illegible] the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of [illegible] to be incurred in packing and despatching the quantity of stems above applied for, or such smaller quantity as may be allotted to me, as also the cost of carriage of such quantity to [illegible] *locality to which it is desired that the stems be forwarded*), or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery the Government Plantation, such permission will be subject to the following conditions:—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

EXPLANATIONS OF INCREASE OR DECREASE.

Consequent on the reduction in the amount of Bills drawn on India, and the receipts on account of the Abyssinian Expedition falling short of the Estimate.

Reduced at the request of the Government of India.

The sum of 96,456*l.* includes 68,469*l.* advanced to Captain Willoughby, Agent at Alexandria, and included in the accounts for the years 1867-68 and 1868-69, among payments affecting the "Remittance Account between England and India." Captain Willoughby's accounts were however returned from Bombay to this country for adjustment; the amount is consequently shown as a Receipt, the Expenditure being brought to account under several heads of Disbursement.

The Estimate was framed in communication with the Railway Companies.

Included in the Estimate in the sum of 2,000,000*l.*, shown above.

In the Estimate, the anticipated net Receipt on this account was shown, the earnings due to Turkey being deducted from the gross Receipts. No payment was made to Turkey on this account in the year, and the gross Receipt is consequently shown in the account.

The Estimate was too low; but the apparent increase mainly arises from certain receipts and payments, which balance each other, and were omitted in the Estimate, being now included on both sides of the Account.

This Receipt could not have been anticipated.

Subsequently to January 1870, the rate of exchange for Bills on India became unfavorable, and the sum realised has on that account been less than was estimated. The drawings have also been reduced, in consequence of Bullion having been sent home.
Owing to the small amount of Bills transmitted from India, in repayment of advances made there on account of Emigration of Coolies and supplies to Her Majesty's ships on the East India Station.
The Estimates are framed in communication with the Railway Companies.
Principally owing to the Cash Balance having been larger than was estimated in January 1870.
This is not an increase, but arises from certain receipts and payments, which balance each other, and were omitted in the January Estimate, being included on both sides of the December Estimate.
This receipt was not anticipated in January 1870.

EXPLANATIONS OF INCREASE OR DECREASE.

* This decrease arises from transfer of payments on account of the Indian Military and Medical Funds, and the Indian Navy Fund (Madras Medical Fund from 1st September 1870) to Charges on the Revenue of India, item "Superannuation, Retired and Compassionate Allowances."
Owing to some annuitants having elected to draw their annuities in India instead of in England.

These remittances are subject to considerable fluctuations.
In the January Estimate this item was included under Public Works Ordinary.

Owing to increased demands for water-marked paper.

Of this increase, 25,700*l.* is a sum which remained unpaid for the year 1869-70, and 51,992*l.* is an additional sum payable to the Peninsular and Oriental Steam Navigation Company for subsidy, for the years 1868-69 and 1869-70, which had not been anticipated in the Estimate furnished to the India Office by the General Post Office.

The increase principally occurs in payments to Turkey and Persia, on account of their share of earnings, a portion of which was included in the Estimate for 1869-70, but not paid in that year.
In the Public Works letter from India, dated 3rd August 1870, No. 112, it was stated that the intention of forwarding a further indent for Telegraph Stores had been given up for the present, in order to restrict expenditure.

The increase occurs in Law Charges and the Charges of the Store Department.

The increase in the present Estimate is owing to the amount of the payments made in 1869-70 having been less than was anticipated.

Owing to diminished indents.

The Revised Estimate includes the charge for 1869-70, which was not paid in that year.
This expenditure was not anticipated in January 1870.

The difference is for the purchase of quinine for resale, requested by the Indian Government since the former Estimate was prepared.
The items are given in the margin.†
Vide Part I, item "Advances on account of the several Civil and other Provident Funds," for explanation of the cause of the greater part of this increase. The Fund pensions exceed the January Estimate.

Increase attributable to the New Furlough Regulations.
The Revised Estimate includes an arrear of Admiralty Claims.
These Estimates have been framed in communication with the Director of Transports.

Decrease consequent on no Assistant Surgeons being required at present.
Increase mainly owing to the recent decision to supply additional breech-loading Arms and Ammunition to the Troops in India; but partly to certain receipts and payments which balance each other, and were omitted in the January Estimate, being included on both sides of the December Estimate.

Consequent on reduction in the British Forces.

The January Estimate was made on insufficient data.

Owing to diminished demands, and transfer to Part I, in the December Estimate, of 46,940*l.* chargeable to Local, Port, and Foreign Funds, &c.

The amount of India 4 per cent. Stock sold in 1869-70 was greater than was anticipated in January 1870.
Owing to transfers of Stock to the Books in India.

Consequent on the receipts on account of Capital in 1869-70 having exceeded the amount anticipated in January 1870.

Owing to the non-receipt of Indents.

EXPLANATIONS OF INCREASE OR DECREASE.

The amount of Bills recently transmitted from India, in repayment of advances made there on account of Emigration of Coolies and supplies to Her Majesty's ships on the East India Station, has fallen off very considerably.

The Estimates are framed in communication with the Railway Companies.

A new item of receipt.

This is not an increase, but arises from certain receipts and payments, which balance each other, and were omitted in the Estimate for 1870-71, being included on both sides of that for 1871-72.

EXPLANATIONS OF INCREASE OR DECREASE.

* The payments on account of the Indian Military and Medical Funds and the Indian Navy Fund are now included as charges on the Revenue of India under "Superannuation, Retired and Compassionate Allowances."
Owing to some annuitants having elected to draw their annuities in India instead of in England.

These Remittances have recently increased, but may probably again fall off in consequence of the reduction in the rate of exchange for 1871-72.
A new head of expenditure.

Expenditure on similar account was included under Public Works Ordinary in the Estimate for 1870-71.

Larger demands from the Calcutta Mint are expected in 1871-72.

Under the new arrangement made by the Postmaster General, the annual charge to India is estimated at 80,000*l.*; but in 1871-72 an arrear of 20,000*l.* will be payable.

Smaller demands from India are expected.

No information has been received from India as to the requirements of 1871-72; and as large supplies were obtained in 1870-71, it is believed that the expenditure in 1871-72 may be safely estimated at 126,000*l.*

The increase occurs in Salaries, Charges of the Store Department, Law Charges, and Management of Debt.

It is expected that all payments on this account will be made in 1870-71.

No information has been received from India as to 1871-72, and the Estimate is therefore based on an average of the expenditure in the last three years, having due regard to exceptional items.
To meet heavy demands for Stationery for Bengal.

This expenditure was not anticipated in January 1870.

The items are given in the margin.†
Vide Part I, item "Advances on account of the several Civil and other Provident Funds," for explanation of the cause of the greater part of this increase. The claims on the Funds have increased.

Attributable to the New Furlough Regulations.
Additional charge for passing through the Suez Canal.
Although this Estimate for 1871-72 exceeds that for 1870-71 by 100,000*l.*, the estimated expenditure in England and India together for 1871-72 exceeds that for 1870-71 by only 31,000*l.*
It is not expected that any Assistant Surgeons will be sent out to India in 1871-72.
Partly owing to certain receipts and payments, which balance each other, and were omitted in the Estimate for 1870-71, being included on both sides of that for 1871-72.

TOTAL ...	123,027	140,000

Consequent on reduction in the British Forces.

The Estimate for 1870-71 was made on insufficient data.

The expenditure in 1870-71 will be much below the Estimate, and the Estimates received from India for 1871-72 justify this reduction.

Consequent on issue of additional India 4 per cent. Stock.
Owing to transfers of Stock to the Books in India.

Consequent on anticipated additional receipts on account of Capital.

The supplies have not been made so speedily as was expected in January 1870, and the expenditure in 1870-71 will probably not exceed 62,500*l.*
157,500*l.* is the estimated probable expenditure in 1871-72.
This is a new head of expenditure.

LEAVE AND ALLOWANCES.

The 9th March 1871.

No. 1337.—The following Resolution is published for general information :—

No. 2197.

Fort William, the 24th April 1868.

Read the following documents :—

Extract from Proceedings in the Public Works Department, No. 509E, dated 23rd March 1866, forwarding an application from the Government of Bombay that Engineers employed under Municipal Committees which manage Local Funds in the Bombay Presidency may be graded with the Imperial Public Works Establishment, so as to be eligible for pension from the general revenues, while their pay will be disbursed from the Local Funds on the establishment of which they are employed.

An endorsement of the Home Department, No. 23, dated 4th June 1866, on a letter from the Government of Bombay, recommending that all Masters of Schools under the direct control of the Department of Education should have claims to pension from the general revenue, though they be paid from Local Funds.

An endorsement of the Home Department, No. 755, dated 30th May 1867, on a letter from the Chief Commissioner of Oude, forwarding a letter from the Director of Public Instruction in that Province urging that if service as a Teacher in a school maintained from a Local Cess be not allowed to count towards pension, at least such Teacher may be allowed to reckon his previous service in a school, maintained from the general revenues in the event of his re-transfer to another school maintained from those revenues, so that the break caused by the intervening service in a Local Cess School may not operate to his prejudice.

Home Department's endorsement No. 2164, dated 11th July 1867, on a letter to the Government of Bombay, giving cover to a despatch from the Secretary of State for India, No. 29, dated 24th May 1867, authorising the introduction of a Bill into the Council of the Governor of Bombay for the levy of an anna cess on the land revenue in all districts where the population might agree to it as a voluntary contribution for educational and other purposes of local improvement.

Letter from the Government of Bombay, No. 3444, dated 7th October 1867, recommending, in the event of rejection of the proposition received with the Home Department's endorsement, dated 4th June 1866, that all Government servants of the Educational or any other Department who have been or may be permitted to take employment in offices paid from Local Funds under Government control may be subjected to a deduction of 3 or 4 per cent. from the pay which they receive wholly or in part from the Local Funds, and be permitted to count towards pension from the general revenue all time spent in such service, during which the proportional deduction that may be fixed is duly paid to Government by the Local Funds.

RESOLUTION.—The Governor General in Council observes that the questions referred by the Government of Bombay depend on the stability of the Local Funds of that Presidency, and the anna cess on the land revenue being the chief or most important source of income of those Funds, orders on the questions could not be passed before receipt of the Secretary of State's Despatch recognizing and assenting to the levy of the cess.

2. The rulings of the Home Authorities and the Government of India respecting the pensionary claims of persons employed under Municipalities or in Establishments maintained from Local Funds are stated in the accompanying memorandum. There is no objection under those rulings to the pensioning of persons in otherwise eligible grades who may be employed in Establishments controlled by Government and paid from Local Funds, provided that the pensions be paid from the same source from which those persons received their salaries.

3. This proviso makes it indispensable that the income of the Local Funds which incur this liability for pension should be derived from taxation like the cesses on land revenue, for education, roads, &c., or from other permanent sources, like those of the Bengal Amalgamated District Roads Fund, and not from charitable donations, or voluntary and revocable contributions like some of the contributions for schools, which are comprehended in Local Funds under a loose acceptation of the term.

4. In the same view it is indispensable that the Local Funds should, as to the sources of their income, be under the control of Government, although Municipal Committees may, as in the interior of the Bombay Presidency, be employed to administer the funds.

5. The eligibility for pension from the source from which salary is paid of persons employed on Establishments maintained from such Local Funds as fulfil these two conditions is recognized by the rulings in the accompanying memorandum, and it may be provided for in such a way as to facilitate transfers of persons from Establishments paid from Local Funds to those maintained from the general revenues, and *vice versâ*.

6. The Governor General in Council is accordingly pleased to rule—

I.—That persons employed in Establishments that are maintained from Local Funds which fulfil the two indispensable conditions above stated, shall be eligible to pension under the Uncovenanted Service Pension Rules, on the understanding that when the service has been rendered wholly on those Establishments, the pensions shall be charged to those Funds.

II.—That where a person has served partly in the Establishments appertaining to the Local Funds above described and partly in Establishments paid from the general revenue, the pension shall be charged to the Local Fund and to the General Revenue in the proportion of the total receipts of the applicant from those sources during the whole course of his service.

III.—That the pension or portion of pension which may be payable from a Local Fund under the two preceding rules shall be the first charge on the Fund, so that provision to meet it shall be reserved before other expenditure of the year is defrayed from the Fund.

IV.—That the pension, if payable partly from the general revenues, shall, during the course of the year, be disbursed wholly from those revenues, which will be recouped at the end of the year by the proper contribution from the Local Fund from the sum to be reserved for the purpose under Rule III.

V.—That where the strength and pay of an Establishment are fixed with the sanction of the Government of India, pension for service on such an Establishment shall be charged to the general revenues, although a portion of the cost be defrayed by a contribution from a Local Fund, unless a debit of a part of the pension to the Local Fund be ordered in regulating the Fund's contribution.

7. The Engineer Officers employed under Municipal Committees in the interior of the Bombay Presidency may be graded with the Imperial Public Works Department, on the understanding that their pay will be disbursed wholly from Local Funds, that their pensions will be adjusted under these rules, and that the income of the Local Funds will be secured by the levy of the anna cess, for which permission to legislate has been accorded by the Secretary of State.

The Governor General in Council is pleased to rule, that any service under Local Funds, which may, under the Resolution No. 2197, dated 24th April 1868, count towards pension, may also count towards leave under the Leave Rules for Uncovenanted Servants.

2. In cases of leave granted in conformity with this Resolution, the leave allowances shall be chargeable against the Local Fund from which the service is paid.

3. In the case of leave granted to an Officer who, after serving in any Local Fund Establishment under the circumstances stated in para. 1, has been transferred to an Establishment paid from the general revenues, the leave allowances will be charged against the Local Fund and the General Revenues, in the proportion of the salary disbursed from these sources respectively during the service qualifying for the leave.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870 :—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*), or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

OBSERVATIONS.—The Governor General in Council observes that the draft rules have substantially been accepted by all the Officers and Heads of Administrations consulted. Certain slight alterations have been suggested, most of which have been approved by the Governor General in Council, and are embodied in the rules herewith issued.

2. Objections, however, have been in some quarters brought forward to some of the text books now in use, *viz.*, to *Maine's Ancient Law* and *Austin's "Province of Jurisprudence Determined"* and *J. S. Mill's Political Economy*, as being too advanced and abstruse for such examinations as are contemplated in these rules. The Governor General in Council, considering that there is much weight in these objections, has determined, as far as the examinations conducted under the authority of this Office are concerned, to substitute for the above the following text books:—

Bentham's Theory of Legislation, published by Messrs. Trübner, London, 1864.
Fawcett's Manual of Political Economy.

Secretary to the Punjab Government.
Chief Commissioner, Oudh.
" " Central Provinces.
" " British Burmah.
" " Mysore.
Resident, Hyderabad.
Agent to the Governor General, Rajpootana.
" " " " Central India.

ORDERED, therefore, that the rules, as now approved, be, with this Resolution, published in the *Gazette of India*, and that copies be sent to the Administrations and Officers mentioned in the margin, and to the Home Department and Military Department.

Rules for the examination of Probationers for the Staff Corps in the Administrations and Branches of the Service under the control of the Foreign Office.

Under the terms of paragraph 5 of Notification in the Home Department, No. 3101, dated 5th October 1864, marginally quoted, the following instructions are issued for the conduct of examinations, without passing which, under paragraph 3 of the above Notification, a Probationer cannot be permanently appointed to the Staff Corps:—

"Subject to such general directions as shall from time to time be given by the Government of India, the examinations will be conducted by a Committee acting under the orders of the Lieutenant Governor, or Chief Commissioner, or Political Agent, or Resident, as the case may be."

Punjab.
Oudh.
Central Provinces.
British Burmah.
Hyderabad Assigned Districts.
Mysore.

This Department is concerned with two classes of such Probationers:—

I.—Those employed in the Civil Administration of the provinces noted on the margin.

II.—Those employed in the Political Department.

1. The subjects and books for the examination of the first of the above classes will, from the 1st of November next, be as follows:—

Indian History—The last Edition of *Marshman's History.*

Political Economy—*Fawcett's Manual.*

Jurisprudence—Bentham's *Theory of Legislation* [Trübner, London, 1864.]

2. Half-yearly examinations in the above subjects will, as laid down in paragraph 4 of Notification in Home Department No. 3101, dated 5th October 1864, be held in April and October of each year.

3. The Head* of the Administration will, not less than a month in advance, fix the exact date on which, and the place where, the examinations will be held; will publish the same in the local Gazette, if there be one; and send notice to all Officers liable to examination.

* Lieutenant Governor, Chief Commissioner. Resident, or Agent to the Governor General.

4. Not less than a fortnight before the date fixed for examination, the Head of the Administration will appoint a Committee for the conduct of the examination, to consist of not less than two Officers.

5. Such Committee will frame papers of questions [to be not less than 8 or more than 12] on each of the books above mentioned.

6. The candidates will be allowed three hours to answer each set of questions.

7. To each question a number of marks will be allotted, to amount to about 100 in the aggregate. To pass the examination in each particular subject, it will be necessary that the candidate obtain 60 per cent. of such aggregate maximum number of marks.

8. When the examination is concluded, the Committee will submit to the Head of the Administration—

(1). The questions and answers.

(2). A Schedule of the marks attained by each of the candidates in the following form :—

NAME OF CANDIDATE.	BOOKS.									Remarks containing the Committee's opinion as to whether the candidate has or has not passed.

TOTAL ...										

9. The Head of the Administration will consider the recommendation of the Committee, will decide whether the several candidates have or have not passed the required tests, and will report his decision to the Foreign Secretary within one month from date of examination. If, in his opinion, any Officer has passed "with credit" or "with great credit," he will state this in the report.

10. He will at the same time furnish a Statement of all Officers liable to examination in the following form :—

NAME OF CANDIDATE.	Date of appointment as Probationer in Civil Department of Staff Corps.	Number of half-yearly examinations since appointment as Probationer.	Remarks showing whether candidate has passed, and if not, whether, under Rule IV of Notification No. 3101, dated 5th October 1864, he has any further period of grace.

11. As prescribed in paragraph 7 of Notification No. 3101, dated 5th October 1864, in Home Department, "every Officer in civil employment will, in addition to the above examination, and notwithstanding his appointment to the Staff Corps, be required to undergo the local and departmental examinations prescribed for Covenanted Civil Servants in the province in which he is serving."

Paragraph 8, Notification in Home Department No. 3101, dated 5th October 1864, and paragraph 4, Notification in Foreign Office No. 1484, dated 5th December 1864.

12. For the second of the two classes of Officers above mentioned, the tests are the same as above, and they are in addition required (under the Rules marginally noted) to pass an examination in—

(1). *Wheaton's International Law.*

(2). *Aitchison's Treaties*, more particularly those portions relating to the province in which the Officer is serving.

(3). The Persian language.*

* "Under paragraph 4 of the above Notification, the production of a certificate to show that the candidate *has* elsewhere passed an examination in Persian will exempt him from examination therein.
In British Burmah the test will be the higher standard in Burmese.

13. For the examination in the first two of the above subjects, Rules 5, 6, and 7, above detailed, will apply.

14. For the examination in the Persian language two papers will be set :—

(1). A passage of Persian to be translated into English.

(2). A passage of English to be translated into Persian.

The candidate will also be required to hold with moderate fluency a conversation in Persian with some proficient in that language, to be appointed by the Committee. He will also be required to read a Persian manuscript with a fair amount of facility.

15. To each of the above four tests a maximum of 20 marks will be allotted, and the attainment of not less than 45 marks in the aggregate will entitle the candidate to pass.

16. For the rest, Rules 1 to 4 and 8 to 10 above specified will, *mutatis mutandis*, apply to the examination of this class of Officers.

FINANCIAL.
No. 41.

INDIA OFFICE;
London, the 31st January 1871.

To His Excellency the Right Hon'ble the Governor General of India in Council.

MY LORD,—I have considered in Council your Financial letter dated 30th November 1870, No. 256, relative to the minimum rate of furlough allowance under the new rules.

2. You are of opinion that "the reduced minimum bears very hardly upon those members of the service who are affected by it," namely, those who are compelled by ill health to take furlough on medical certificate before having served eight years, and you, therefore, request sanction for the restoration of the old minimum rate of furlough pay, *viz.*, 500*l.* per annum.

3. I conclude that you do not intend to lay down in the terms of the 3rd paragraph of Rule VII of the Furlough Rules of 1868, that "no Officer on furlough shall draw" less than 500*l.* per annum, but that this minimum rate of furlough pay should be subject to the same proviso as was the minimum rate of absentee allowance during leave on medical certificate under the Rules of 1864, *viz.*, that "in cases in which the salary shall be less than 500*l.* per annum, the full salary shall be allowed."

4. On this understanding, I sanction the restoration of the minimum rate of furlough pay under the old rules, with retrospective effect as proposed by you.

I have, &c.,

No. 1500.—The Governor General in Council is pleased to direct the substitution of the following Rule for Rule I under Section XI of the Covenanted Civil Service Leave Code :—

Subsidiary leave ceases the day before embarkation, and commences the day after debarkation. It cannot be extended on the ground that the vessel in which an Officer leaves India or returns to it, touches at some other port in India after the first embarkation, or before the final debarkation.

This rule applies generally.

(STAMPS.)

The 14th March 1871.

No. 1510.—Read—

Financial Circular No. 1822, dated the 13th July 1870, enquiring of the local Governments and Administrations as to what documents, in their opinion, the denoting of stamps by the Collector or the Superintendent of Stamps, under Section 5, Clause *b* of Act XVIII of 1869, should be confined, there being no restriction as to the class of instruments the stamps on which may be denoted in the mode prescribed in Financial Notifications No. 319, dated the 13th January 1870, and No. 2060, dated 23rd March 1870.

Read the following replies to the above Circular :—

Letter from the Government of Bombay, No. 3730, dated 4th August 1870.
Ditto ditto the Punjab, No. 765, dated 20th August 1870.
Ditto ditto Madras, No. 1532, dated 10th October 1870.
Ditto ditto North-Western Provinces, No. 257A, dated 29th November 1870.
Ditto ditto Bengal, No. 4962, dated 21st December 1870.
Ditto Chief Commissioner of the Central Provinces, No. $\frac{2158}{233}$, dated 15th August 1870.
Ditto ditto Oudh, No. 5675, dated 22nd November 1870.

RESOLUTION.—In exercise of the power conferred by the General Stamp Act, 1869, Section 5, Clause *(b)*, the Governor General in Council is pleased to prescribe the following rules for the denoting of stamps :—

1. The power of "denoting" the stamp on instruments chargeable under the said Act shall be exercised by the following officers :—

The Collector of Calcutta.
" Superintendent of Stamps, Calcutta.
" " " (or Commissioner of Stamps), North-Western Provinces.
" " " (or Financial Commissioner), Punjab.
" " " Madras.
" " " Bombay.

2. The instruments on which the stamp may be "denoted" are the following :—

Under Schedule I of Act XVIII of 1869.

No. 1. Bill of Exchange payable otherwise than on demand, *when the Bill is drawn within British India.*
" 3. Policy of Insurance.
" 4. Transfer of a Share in a Company or Association, *when the transfer is effected by separate deed.*
" 6. Bottomry Bond.
" 7. Respondentia Bond.
" 8. Customs Bond.

Under Schedule II of Act XVIII of 1869.

" 9. Bill of Lading.
" 10. Dock-warrant.
" 12. Notice of Protest by the Master of a Ship.

No. 13. Power of Attorney to present for registration.
" 18. Power of Attorney for the performance of a single act when the value of the matter to be dealt with does not exceed Rs. 500.
" 19. Power of Attorney for the performance of a single act when the value of the matter to be dealt with exceeds Rs. 500.
" 32. Power of Attorney not otherwise provided for by this Schedule.

When the Power of Attorney has been executed out of British India, or when it is written on a printed form such as those kept by Banks and Commercial Houses for the transaction of the business of their constituents.

" 14. Affidavit not made for the immediate purpose of being produced in any Court.
" 21. Instrument evidencing an agreement to secure the repayment, on or before the expiration of three months from the date of such instrument, of a loan made upon the deposit of title-deeds or other valuable security.
" 22. Charter-party.
" 23. Notarial Act.
" 24. Protest of a Bill of Exchange or Promissory Note.
" 25. Protest of the Master or Owner of a Ship.
" 33. Articles of Association of a Company.
" 34. Memorandum of Association of a Company.
" 35. Appointment in execution of a power, whether of Trustees, or of property, moveable or immoveable, where made by any writing not being a Will.
" 36. Declaration of any use or Trust of or concerning any property, moveable or immoveable, where made by any writing not being a Will.
" 40. Petition for leave to file a specification of an invention, or for the extension of the term of the exclusive privilege of making, using, or selling such invention in India.
" 41. Articles of Clerkship or contract whereby any person shall first become bound to serve as a Clerk in order to his admission as an Attorney in any High Court.

3. Officers empowered to "denote" may at their discretion "denote" the stamp on *any* instrument which is drawn up by Solicitors or in the English form, and in regard to which the use of the impressed Bi-color Stamp would obviously be inconvenient.

4. The method of "denoting" shall be as follows :—

Special adhesive stamps of different colors and patterns for each value are to be applied by the denoting officer to documents brought to be stamped by the public, and the stamps, after being applied, are to be defaced by a stamping machine before documents are returned. As a further precaution against fraud, the denoting officer should, in all cases in which the value of the stamp is Rs. 20 and upwards, append his usual full signature on the document, immediately under the stamp.

5. Officers empowered to denote stamps are reminded that it is no part of their duty, in exercising that power, to determine, for the parties bringing instruments to be stamped, the amount of stamp-duty properly chargeable on such instruments. For such determination a regular application under Section 39 of the Act should be made to a competent officer.

ORDERED, that a copy of this Resolution be sent to the Governments and Administrations noted in the margin, who are requested to communicate with this Government in case they, for particular reasons, desire that the power to denote should be conferred upon any officers other than those mentioned in Rule 1.

Governments of Bombay, Madras, Bengal, North-Western Provinces, and the Punjab, and Chief Commissioners of Oudh and Central Provinces.

Ordered also, that a copy of the Resolution be published in the *Gazette of India* for general information.

R. B. CHAPMAN,
Offg. Secy. to the Govt. of India.

No. 165, *dated 1st March* 1871.—Conductor William Francis Hardinge, of the Army Commissariat Department,—for one year, under the Regulations of 1868.

No. 249 *of* 1871.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 8, dated the 12th January 1871, are published for general information :—

PARA. 1.—I have under my consideration in Council your Lordship's letter in the Financial Department, dated the 23rd of November last, No. 250, on the subject of the employment of Officers by Municipalities.

2.—In Sir Charles Wood's Military Despatch of the 30th of June 1865, No. 215, sanction was given to the acceptance of municipal employment by Officers while on authorized leave, provided that the time passed therein did not reckon as service for pension.

* * * *

4.—You * * solicit authority to place at the disposal of Municipal and similar Departments the services of Officers of the Staff Corps or local service, provided they are not required for Civil or Military employment under the Government, with the understanding that, if any Officer so employed desire to count the time thus passed as service for pension he may do so, on the condition that he or his employers must transfer to the Government of India six per cent. of the pay he draws, a proportion which is estimated fully to cover the liability accepted by the Government.

5.—I am willing to give my sanction to the proposition of your Government, provided that in no case does the employment of an Officer in this manner render necessary, either directly or indirectly, the admission of another Officer to the Staff Corps.

No. 250 *of* 1871.—The under-mentioned Officer is permitted to proceed to Europe on furlough on private affairs :—

The 11th March 1871.

No. 17*F*.—The following Rules drawn up under Act VII of 1865 have been confirmed by the Viceroy and Governor General in Council, and are, in accordance with Section 6 of the Act, published in the *Gazette of India*:—

Rules to regulate the use of streams and canals for the floating of timber, the collection of drift, unclaimed and stranded timber, and the transit of timber in the Punjab.

1. The right of floating timber by natural streams and artificial canals in British territory is reserved in all cases, and the control of all such streams and canals as regards the floating of timber is vested in the Local Government.

2. All timber or wood found adrift in any river or water, or stranded on any shore, island, river bank, or otherwise, within British territory, and all unmarked wood or timber, may be taken charge of by any Forest Officer, or other person specially authorized in that behalf by the Conservator of Forests, and may be brought to any Government Timber Depôt.

3. At the stations of Wuzeerabad, Madhopoor, Trimmu Ghât, Nadaon, Nowshera, Pulhân, and at such other stations as the Conservator of Forests may from time to time direct, notices shall be published on the last day of every month, stating the number and description of pieces of drift and unclaimed timber brought in during the month under the provisions of Rule 2, and calling on claimants to send in the particulars of their claims. If within one month from the date of publication of such notice no claimant appear or establish his title, the unclaimed wood or timber shall be dealt with in the manner prescribed in Sections XXV, XXVI and XXVII of the Act V of 1861 for the treatment of unclaimed property, or according to such other law as may be in force at the time regarding the disposal of unclaimed property.

4. All claims to drift timber shall be decided by the Conservator of Forests, or such Officer as he may from time to time authorize in that behalf, provided that if a dispute arises between two or more parties laying claim to the same timber, the matter shall be referred to the Civil Court, unless the parties consent to the arbitration of the Forest Officer aforesaid.

5. Permission to parties wishing to collect their own timber which may have gone adrift, will be granted on application at the discretion of the Forest Officer in charge of the river. The Permit must show the marks which should be on the timber, and the holders will only be entitled to take away such timber as bears those marks.

6. Persons who have saved any timber shall not be entitled to retain the same after tender of the authorized payment (the rates will be published in the *Gazette*) for salvage service; but shall on tender as aforesaid, deliver the same to any person having authority from the Officer in charge of the river to receive it.

7. No person whose timber may have been brought to any station as drift or unclaimed timber shall be entitled to remove the same before payment of the salvage or other expenses (if any) incurred in bringing it in. If the salvage or other expenses are not paid, and the timber redeemed within one month from the date of issuing a written notice by the Forest Officer, and calling on the owner to redeem the same, the Forest Officer shall be entitled to sell the wood, and after deducting the sum due for salvage or other expenses for the benefit of Government, pay any balance that may remain to the owner of the timber sold.

8. No person not being the lawful owner, or acting on behalf of the lawful owner, shall, without the permission in writing of the Conservator of Forests, or other Forest Officer specially appointed on that behalf by the said Conservator of Forests, or by decree or order of a competent Court, convert, cut up, burn, remove, conceal, sell, or otherwise dispose of any wood or timber while in transit or stranded on the banks of any river, or lying in any other place whatsoever.

9. No person shall remove or efface any property-mark from any timber while in transit on any river or water, or stranded on the islands or shores thereof, nor shall he put any mark upon any timber which is not his own, nor shall he use any Government mark, except with the permission of the Conservator of Forests, or the Forest Officer in charge of the river.

10. Any person who shall offend against the provisions of Rules 8 and 9 shall be liable to a fine not exceeding Rs. 200, and in default of payment of such fine, to simple imprisonment for a term not exceeding three months.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870 :—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of *Rhea* or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described: The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*), or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions :—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

Fort William, the 24th March 1871.

No. 160*R.*—The Viceroy and Governor General in Council is pleased to publish the following Rules which have been framed under Section 20 of Act XXIV of 1870, *viz.*, an "Act to relieve from incumbrances the estates of Talookdars in Oudh" :—

1. Every application to the Chief Commissioner under Section 3, Act XXIV of 1870, shall be presented to the Deputy Commissioner, who will forward it with his opinion to the Commissioner, for submission to the Chief Commissioner, and shall be accompanied by a statement of the debts and liabilities other than those due or incurred to Government, together with the names of the creditors and the approximate date on which each debt was incurred.
2. Subject to such orders as the Chief Commissioner may from time to time issue, Commissioners of Divisions will exercise control over the management of estates in their respective Divisions.
3. Subordinate establishments will be appointed by the Manager with the concurrence of the Commissioner.
   Valid security will be required from subordinates placed in positions of responsibility or trust.
4. To every Notice published under Section 6 of the Act shall be appended a copy of Sections 7 and 24.
   The Notice shall be published in at least two of the Vernacular Newspapers of the province, and shall be made known in such other manner as the Manager shall consider most effectual.
5. When an estate is restored to the proprietor in accordance with Section 12 of the Act, notice of the restoration shall be made public in the manner prescribed in preceding rule, and shall also be published in the local *Official Gazette.*
6. On the publication of the order mentioned in Section 3 of the Act, the Talookdar, or his legal representative, shall be required to deliver to the Manager, within 15 days, all accounts and other papers connected with the management of the estate.
7. In determining the amount of debts and liabilities under Section 9 of the Act, claims equitably due shall be admitted by the Manager if acknowledged by the Talookdar, or his legal representative, notwithstanding the existence of some legal defence, such as limitation or insufficiency of stamp.
8. When the amount of any debt, both principal and interest, has been determined, the Manager may direct that interest, at a rate not exceeding six per cent per annum, shall be paid on the aggregate sum declared to be due from the date of decision till the date of payment.
9. Notice shall be given to each creditor of the date on which the orders of the Manager will be passed on his claims ; and a copy of the Manager's decision shall be prepared within three days of the date thereof for delivery to the creditor upon application.
10. When submitting the scheme mentioned in Section 11 of the Act, the Manager shall note the order in which he proposes to pay the admitted debts. Provided that preference shall be given, 1*stly*, to claims of mortgagees removed from possession under Section 17 of the Act; 2*ndly*, to decrees of Court; and, 3*rdly*, to bond-debts.

11. Applications by the Manager under Section 17 of the Act, that a mortgagee may be removed from possession, shall not be made without the sanction of the Chief Commissioner.

12. The power to lease under Section 18 of the Act shall be subject to the following provision :—

No lease in consideration of a fine shall be given for a term exceeding five years without the sanction of the Chief Commissioner.

13. So far as may be practicable, arrangements for the management of any estate should be made in consultation with the owner thereof, and his assent be obtained before proposals are submitted for the sanction of superior authority.

FINANCIAL.
No. 59.

INDIA OFFICE;
London, the 23rd February 1871.

To His Excellency the Right Hon'ble the Governor General of India in Council.

MY LORD,—I have considered in Council your Financial Letter dated the 14th December 1870, No. 265, transmitting for my approval copy of a Resolution passed by your Government with the view of enlarging the powers of the several Governments of Presidencies and Provinces in certain Departments of the Administration.

2. Hitherto the Government of India has exercised a direct control over all the Departments of the several Governments. It has been responsible for their efficiency, and has had to provide the necessary funds to meet the expenditure.

3. You are now satisfied that, under that system, the Local Governments, although deeply interested in the welfare of the people confided to their care, are liable, in their

anxiety for administrative progress, to allow too little weight to fiscal considerations, through not knowing the requirements of other parts of India; and that the Supreme Government, which is responsible for the general financial safety, has been obliged to reject many demands deserving of encouragement.

4. You also consider that the Supreme Government is not in a position to deal satisfactorily with local requirements, and does not possess the knowledge necessary for the full and successful development of local resources.

5. Impressed with these views, and in order to avoid conflicts of opinion injurious to the public interests, which have resulted from the existence of an ill-defined responsibility, you propose to entrust to the several Governments of Presidencies and Provinces the general control of the following branches of the Administration, *viz.*:—

Jails,
Registration,
Education,
Medical Services (other than Medical Establishments),
Printing,
Roads,
Miscellaneous Public Improvements, and
Civil Buildings,

allotting for the annual expenditure connected therewith permanent imperial assignments (Local Funds being excluded) amounting to 4,688,711*l.*, which is 330,801*l.* less than the sum allowed for the expenditure of the same Departments in the year 1870-71.

6. Those assignments will not henceforward be classified in the Imperial Estimates and Accounts, but will appear under the single head of "Provincial Services." Each Local Government will publish its yearly estimates and accounts in the local "Gazette," with a financial exposition, analogous to that annually made in the Legislative Council of the Governor General, and it will rest with the several Governments to provide for the growing wants of the country in the Departments entrusted to them, and to consider how any deficiency in the ways and means available for provincial services can best be supplied.

7. You have laid down certain conditions in regard to the creation or abolition of appointments, increases of salary, deposits of money, and services rendered to other Departments, which are not to be altered without the previous sanction of the Government of India.

8. I am fully sensible of the great importance of extending the powers and responsibility of the several Governments in regard to Departments which can be regarded as local, and of the anxious deliberation which you have given to this subject.

9. After a careful consideration of your several propositions, I approve of the principles which you have laid down, and I see no reason to doubt the expediency of the arrangements which you have proposed.

10. The great objects to be kept in view in relation to each of the specified branches of local administration are, to secure the greatest degree of economy consistent with efficiency, to provide for the growing demands arising out of improved administration without materially increasing the burdens of the people, and, as far as possible, to secure the general concurrence of the local communities in the measures taken on their behalf.

11. I am especially anxious that, when devising measures of improvement, it should be the earnest endeavour of each Local Government to provide the funds required for them by the exercise of strict economy in their general expenditure, and that additional taxation should only be resorted to in cases of undoubted necessity, and when the income otherwise available is clearly insufficient.

12. It is obvious that the degree of success that will attend this extension of the powers of the Local Governments will greatly depend on the discretion with which those powers are exercised, and I entertain no doubt that the several Governments will fully appreciate the importance of the trust confided to them.

13. The measures adopted will, I conclude, be reported to me by the Governments of Madras and Bombay, so far as relates to matters under their control, and by your Government in regard to the administration of Bengal and the remaining Provinces.

14. The arrangements as now proposed are necessarily experimental, and will be subject to revision, either in principle or detail, should experience show that such a course is necessary.

I have, &c.,
ARGYLL.

Dated the 16th March 1871.

From—RAJAH JOTEENDRO MOHUN TAGORE BAHADUR, *Hony. Secy., British Indian Association,*
To—*The Secy. to the Govt. of India,* LEGISLATIVE DEPARTMENT.

SIR,—Referring to the Financial Statement for 1871-72, submitted by the Hon'ble Sir Richard Temple, K. C. S. I., at the sitting of the Council of the Governor General for making laws and regulations held on the 9th instant, the Committee of the British Indian Association desire to submit the following remarks for the consideration of His Excellency in Council.

The Committee had hoped that a longer period than usual would be allowed to the public for the consideration of the Budget before it was discussed in Council, but they regret to learn that not more than the customary week would be granted for the expression of public opinion on the subject. They therefore hasten to make a few brief remarks on the Budget.

Much as the Committee feel thankful for the information which the Budget Statement affords, still, they cannot help observing, they labor under a peculiar disadvantage in forming correct opinions as to the ways and means of the State. They have no access to details, without which a proper understanding of the Financial position of the Empire cannot be formed. They therefore trust that the disadvantage under which they labor will be borne in mind when their remarks are taken into consideration.

The Committee do not wish to discuss the past. It were, however, much to be desired that the estimates for the financial year about to expire had been made on a sounder basis than the actuals seemed to show, and that retrenchments had been made with the vigour promised in the Financial Resolution of September 1869, for in that case it would not have been necessary to make a further enhancement of the Income Tax after the increase made in November of that year. Be that as it might, the Committee could not but regret that with a steadily increasing cash balance—the Finance Minister says, "throughout the year the cash balances have been very high, higher than they have been for some eight years past"—loans were raised so much in excess of the amount estimated in the Budget, thus burdening the revenues with an unnecessary charge for interest.

The Committee observe that considerable changes have been introduced in the system of accounts within the last two years; but they are somewhat surprised that the most obvious change in the mode of showing the receipts and disbursements has not been carried out. It is usual with all men of business in preparing an estimate of their income and expenditure for a year to bring up the balance of the preceding year as a part of the assets, and this is undoubtedly a correct method of business. The same principle which applies to the accounts of a private individual or firm equally applies, the Committee respectfully submit, to the State. The cash balances are nothing more than the accumulation of revenue, particularly when the old advances have been adjusted as announced in the Financial Statement of the Finance Minister for the current year, and they may, therefore, justly be counted as part of the assets of the State, except in so far as they are the balance of loans, which being raised for specific objects, must be applied to those objects. The Finance Minister in his last Financial Statement observes: "We expect that the current year after its close will leave us a cash balance of 16 millions, or £16,012,051, being 5½ millions (£5,442,608) better than the first estimate (£10,569,443)." If 2½ millions, which represents the unexpended balance of the loans raised this year, were deducted, there would be left a net cash balance of thirteen and a half millions, which are more or less accumulations of the revenue. If this cash balance were carried forward in the Budget for the ensuing year as part of the assets, and if an assignment were made on the debit side for a cash reserve to meet the exigencies of the State, say at 10 millions, which would be little less than the estimated cash balance of the last year, the residue would come to the benefit of the Exchequer for the next year, and the financial position of the State would be so much more improved. This change in the accounts, which, as the Committee believe, would be in accordance with sound principles of finance as well as general practice, would be as beneficial to the Exchequer as it would be equitable to the tax-payers.

The Committee fully appreciate the object of the Government of India in localizing certain branches of finance by the Decentralization Resolution of the 14th December last, noticed in the Budget Statement. Although it does not go far enough, still it is a move in the right direction. Their own idea of decentralization is, however, based on the principle of federalization: they are humbly of opinion that each province should be treated as an integral State; that certain charges, such as the Public Debt, the Army, the Home charges, the Guaranteed Railway interest, and the like, being set apart as imperial charges, a contribution should be levied from each State for the defrayal of those charges, calculated according to the extent

of territory, population, and resources of that State; that the residue of the revenue should be left to each local Government for its own expenses; that in case of deficit it should be empowered to raise taxes according to the ideas of the people in each State; that the Central Government should exercise a general supervision over the local States, and that the people should be invited to take a practical part as much as possible in administration. Such a decentralization of the finances would be thorough and really beneficial to the whole Empire, but perhaps it would be premature to expect at once a reform of such enormous magnitude. The Committee, however, earnestly hope that the present Resolution will prove the germ of that reform.

The Committee confess to a feeling of surprise, that notwithstanding the enormous cash balances anticipated by the Finance Minister, and the unexpended balance of loans of this year to the tune of 2½ millions, the Government proposes to borrow again 2½ millions next year, although the total grant for extraordinary public works does not exceed 3½ millions. It is well known that the assignment to public works was in no year expended up to Budget sanction, and it would not probably be unsafe if with the balance of the past loans and the flourishing cash balances, and the prudent administration of the public works allotment, no new loans were raised in the ensuing year. The Committee cannot urge too strongly, or too earnestly, that the less a young State like that of British India is burdened with debt, the better for its healthy growth and development.

The large cash balances alluded to above also point to a much desired relief of the tax-payers in another direction, *viz.*, the total abolition of the Income Tax or the cessation of local cesses. Although the Committee feel thankful for the reduction of the Income Tax to one per cent., still they cannot deny that it falls far short of the public expectation. It would have been more gratifying to the public if the tax had been wholly repealed, for the present condition of the finances was fully susceptible of such a measure. Practically, however, the reduction of the Income Tax is of little significance, so far as the natives are concerned, for while the Government of India reduces the Income Tax, it compels the local Government to recoup that loss, as it were, by imposing local cesses at higher rates. This policy is the more to be regretted, as the Government is burning the candle at both ends.

After what has been written by officials and non-officials on the subject of direct taxation in this country, it would be a work of supererogation to dwell on its evils; the Committee would, however, consider their duty ill discharged did they fail to take opportunity to record their regret that the Government still sees reasons to persevere in its policy of direct taxation. They would be only too happy if this policy could be retracted, but if that is impossible at the present moment, they may be permitted to hope that the proposed system of double taxation, that is, by the continuance of the Income Tax and the imposition of local cesses, would not receive the sanction of His Excellency the Governor General in Council.

No. 372, dated 17th March 1871.

Endorsed by the Legislative Department.

Transferred to the Financial Department for disposal.

No. 1789, dated 23rd March 1871.

From—R. B. CHAPMAN, ESQ., *Offg. Secy. to the Govt. of India*, FINANCIAL DEPT.,

To—RAJA JOTENDRA MOHAN THAKUR BAHADUR, *Honorary Secretary to the British Indian Association, Calcutta.*

I am directed to acknowledge the receipt of your letter, dated the 16th March, to the address of the Secretary in the Legislative Department, containing certain criticisms by the British Indian Association upon the Financial Statement presented on the 9th instant by the Hon'ble Sir Richard Temple, K. C. S. I., to the Legislative Council of the Viceroy and Governor General.

2. The Bill for the imposition of an Income Tax at a reduced rate, if adopted by the Legislative Council, will not be finally passed before the 31st instant, or twenty-two days after its publication and the presentation of the Statement. The Council will thus have a period of three weeks, and not one week, as stated in your second paragraph, within which to receive and discuss public or individual criticisms and suggestions.

3. It would not probably be practicable or desirable, under any circumstances, to devote a much longer time to the consideration of the ordinary financial arrangements of the year as proposed by the Executive Government. Were

any measures proposed involving new principles, it would, no doubt, always be deemed proper to bring them in some way under public discussion at some previous period, as has been done this year in respect to the delegation to the Provincial Governments of increased powers of financial management in some important departments of the administration.

4. The Government has no desire to withhold from the public any of the details upon which the estimates are framed, so far as it is practicable to give them; the detailed civil estimates are placed in the hands of all persons likely to be interested in them as soon as they are printed, and a copy shall be sent to the Association in future. The Government of India cannot admit that the estimates of the current year are shown by the result, so far as it is now known, to have been in any way unsound. It is scarcely necessary to observe that it must be wholly beyond the power of man to foretell with exactness at the beginning of a year what will be its actual financial results. In Great Britain the difference between the estimates and the financial results of the ten years ending with 1869-70 has been, on an average, £2,132,766 a year. These differences have never been held to detract from the high character borne by British financiers. In India, during the same period, the actual annual average difference between estimates and results has been £1,874,678. In respect to amount of difference, the Indian estimates do not compare unfavorably with the British estimates.

5. The Government of India does not expect, and cannot encourage the Association to expect, that such differences will by any skill, care, or foresight be avoided, or even very largely reduced. All that can be done is to take every possible precaution systematically to ascertain and duly weigh all the facts bearing upon such a complex problem as a forecast at the commencement of each year, of its probable financial results. This is now done in the Financial Department to the utmost of the ability of its several officers: doubtless, experience may still constantly suggest fresh improvements. The Association may rest assured that the importance of avoiding all preventible miscalculation is thoroughly understood by the Government, and that constant and minute attention is devoted to the subject. Meanwhile the Governor General in Council considers that the facts of the year 1870-71, which, so far as known, indicate a net difference in the result from the estimates, of revenue and expenditure of £1,073,660,* are not, under the explanations which have been publicly afforded, discreditable to the officers who are responsible for the estimates. It is a difference, compared with the average of such differences in Great Britain or in India, of moderate amount, and in the right direction.

6. In reference to the Association's remarks upon the cash balances, I am to remind them that the reasons why these balances are so much higher than was expected were fully set forth in the Statement by the Financial Member of the Government. They may be briefly recapitulated thus. The opening balance of 1870-71 proved higher than was expected by upwards of ¼ of a million sterling. An improvement of about a million is expected on the ordinary revenue and expenditure of the year. About ½ a million less than was estimated has been paid on Secretary of State's Bills. The expenditure on extraordinary public works is expected to be some 2 millions, and the expenditure of railway capital about 1½ million less than was expected. Fully 5¼ millions sterling of the difference between the original estimate and the present estimate is thus accounted for. The remaining ¼ of a million arises in the deposit and remittance accounts.

7. I am further to advert to the following passage in the letter under acknowledgment:—

The cash balances are nothing more than the accumulations of revenue, particularly when the old advances have been adjusted, as announced in the Financial Statement of the Finance

* This is the difference which would be shown if the charge of £240,000 for the provincial service allotment and the museum building had not been specially admitted.

Minister for the current year, and they may, therefore, justly be counted as part of the assets of the State, except in so far as they are the balance of loans which being raised for specific objects, must be applied to those objects.

I am to observe that there is no foundation for the supposition of the Association, that the cash balances are "nothing more than the accumulations of revenue." When it is said that these balances represent the immediately available assets of the State, it must at the same time be recollected that there are, *per contra*, important liabilities and obligations to be set against these assets. At the present moment, for instance, there is more than 3 millions sterling of unexpended Railway Capital in the hands of the Government, and about 2½ millions of money borrowed under pledges, often repeated, that it shall not, if the Government can prevent it, be expended on the ordinary services of the country. The Capital of the several Civil and Military Service Funds* entrusted to the Government amounts to upwards of 8 millions. Besides this, the cash balances include all the assets of the several Local Funds, about 2⅓ millions. Lastly, the various miscellaneous deposits made under many laws and various circumstances in the Government treasuries amount to about 5½ millions sterling.

8. The funded debt of India is already large, and a policy has been adopted and published to the world which will involve considerable additions to it in the next few years. This being so, even if the cash balances were the unencumbered property of the State, it would certainly be unwise, and perhaps even dishonest, were the Government to entertain the idea of appropriating any part of them for the relief of the tax-payers of the present day. But when the Association learn further that, as above explained, these balances are, in fact, not State property at all, but held in trust for various purposes, it will doubtless perceive that to appropriate them as revenue would be as wrong as would be the conduct of the managing body of a bank which should divide among the shareholders as profits the deposits of its constituents.

9. It by no means follows from this that the cash balances should not be administered with the utmost economy. Interest is paid upon a part of them, and the Government has the full right to make the best use it can of the whole, though not to appropriate them as revenue. Consequently, so long as the cash balances are large enough for the immediate purposes of the administration (including extraordinary as well as ordinary expenditure), the Government is careful not to incur further debt. These correlative considerations, namely, the state of the cash balances, and the probable demands upon the State for cash during the year, ultimately regulate, apart from all other principles, the loan operations of each year.

10. The Association consider that, in the present state of the cash balances, it is unnecessary for the Government to borrow money during the coming year. Such explanation as the Government is prepared to give of its policy in this respect has been already laid by the Hon'ble the Financial Member before the Legislative Council. Economy is carefully consulted in the matter, which receives constant attention; but many things, as, for example, the state and prospect of the money market and of exchanges, and the various impending liabilities of the Government, influence its judgment as to the particular balance which should be maintained at any particular time. An amount which under some circumstances would be much too high, may be not at all too high under other circumstances.

11. The accounts of the empire are kept precisely in the manner suggested by the Association in your 6th paragraph. An abstract of the accounts of 1869-70, showing the whole cash assets in the possession of the Government at the beginning and end of the year, will be found at pages 74 and 75 of the Financial Statement recently delivered. The statement of the revenues and

* The capital of the Military Funds is now the property of the Government; but it is absolutely appropriated to meet well defined liabilities which will probably more than absorb the whole.

charges of each year, upon which the surplus or deficit (corresponding with the "profit and loss" of a mercantile account) of the year is declared, is only an excerpt from the complete accounts of the country. The cash balances have no connection with the surplus or deficit of the year. The Government of India is not aware that the principles upon which the accounts of India and of every other country under a civilised administration are recorded are at all different from the principles of all sound mercantile or banking accounts.

12. Lastly, I am to advert to your statement that the reduction of the Income Tax is "practically of little significance, so far as the Natives are concerned, for while the Government of India reduces the Income Tax, it compels the Local Governments to recoup that loss, as it were, by imposing local cesses at higher rates. This policy is the more to be regretted as the Government is burning the candle at both ends." In order to completely refute this argument, I am to recapitulate the points relating thereto, already brought out in the Statement by the Financial Member.

13. The amount of Income Tax from which the Government has the great satisfaction of relieving the tax-payers this year is £1,475,000. The amount which the Local Governments have been asked to contribute towards enabling the Supreme Government to grant this relief is nominally £331,038, from which, in estimating the burden thereby imposed upon the tax-payers, must be deducted the savings which the Local Governments may be able to make in the services transferred to them. These savings are estimated this year to be not less than £200,000. It cannot be doubted that, if these Governments should be content with the administration as it is, at least this amount of saving can be permanently effected. The utmost provincial taxation, therefore, rendered necessary by the financial measures for the coming year does not exceed £130,000. The Governor General in Council does not understand how it can be said that a reduction of taxation amounting to £1,475,000, even though there be simultaneously a possible additional taxation of £130,000 for other purposes, is "practically of no significance to the Natives of India." His Excellency in Council would have thought it to be of very great significance indeed to the whole body of tax-payers, native as well foreign.

14. The Governor General in Council does not overlook that it may be necessary, and perhaps even at once, for the Provincial Governments to provide the means for the various administrative and material improvements which are so much required by the advancing intelligence and growing interests of the country. But this is no new necessity of the present moment; it is a necessity that has long been recognised as urgent. It is because the Government of India hopes that the Provincial Governments, by whom the immediate pressure for such improvements on the one hand, and the manifold objections to increasing the burdens of the people in any shape on the other, are most directly and constantly felt, will be best able to reconcile such conflicting considerations, that it has in great measure committed to them the solution of this difficult problem. It has long been determined in fact that imperial taxation cannot, and must not, be increased for these purposes. How far provincial resources can be developed to provide the means for provincial improvements, it will now be for the Provincial Governments to consider.

15. If the Government and the people of any province, Bengal for instance, prefer to forego administrative and material improvements, rather than to submit to the needful pecuniary sacrifices, it is not probable that the Supreme Government will, at present, at any rate, interfere in the matter. But the Governor General in Council must absolutely decline to admit that if the problem be solved the other way, and moderate pecuniary contributions are levied in a province for provincial purposes only, the Supreme Government can be held to have necessitated them by any of the measures taken for the general financial safety and convenience either this year or any other year.

16. What the Supreme Government has done on the present occasion is to relieve the country from £1,345,000 of taxation (that is £1,475,000 less £130,000). It has also decided that it will not impose further taxation for provincial administrative and material improvements, and that if, as may be probable, such improvements are considered necessary by the Provincial Governments and the people, they must be paid for by the province which devises and demands them.

NOTIFICATIONS.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes [illegible] to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the [illegible] appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea [illegible] to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, [illegible] the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments; the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*), or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant [illegible] will be required for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3rd.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4th.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1st.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2nd.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

NOTIFICATIONS.

JUDICIAL.

Fort William, the 31st March 1871.

No. 51*J.*—His Excellency the Viceroy and Governor General in Council is pleased to declare that the Regulations, published below, shall have force in the Cantonment and also in the town of Bangalore, with effect from the 1st April 1871 :—

A Code of Regulations relating to the appointment of Municipal Commissioners for the Municipal limits of the Cantonment and the Town of Bangalore respectively, and the management of their Municipal affairs, and to make better provision for the Police, Conservancy and Improvement of the said Cantonment and Town, and to enable the said Commissioners to levy taxes, tolls, town duties, and rates therein.

1. Acts XIV of 1856 and XVIII of 1864 shall cease to have any effect within the said Cantonment and Town of Bangalore.

Acts XIV of 1856, XVIII of 1864 to have no effect from the date of these Regulations coming into operation.

Any sum of money due, or which may become due under the aforesaid Acts or other lawful authority, may be levied and recovered by the Municipal Commissioners under the provisions of these Regulations, and all taxes now levied under due authority within the said Cantonment and Town of Bangalore may continue to be so levied till the same are revised or annulled, under these Regulations; and all unfinished contracts made or entered into with the Municipal Commissioners, and all now existing claims against the Municipal Commissioners, shall have and take effect and be recoverable and may be proceeded on and enforced in the same manner as if these Regulations had not been passed.

2. The following words and expressions in these Regulations shall have the meanings hereby assigned to them, unless there be something in the subject or context repugnant to such construction:—

Interpretation.

Municipal limits.

The expression "Municipal limits" means the limits at present known or for the time being fixed by the Chief Commissioner of Mysore by Notification in the *Mysore Gazette*, as the Municipal limits of the Cantonment and Town of Bangalore respectively.

Municipal Commissioners.

The expressions "the Municipal Commissioners" and "the Commissioners" shall mean the persons appointed by the Chief Commissioner of Mysore to conduct the affairs of the Municipality of the Cantonment and Town of Bangalore respectively under these Regulations.

"Cantonment."

The word "Cantonment" shall comprise the Military lines and stations and bazars, not forming part of the town of Bangalore, and such further limits as may be included therein by the Chief Commissioner by Notification as above.

"Town."

The word "Town" shall comprise the Pété of Bangalore, and such suburbs thereof, and other villages and limits not forming part of the Cantonment as may be included therein by the Chief Commissioner by Notification as above.

"Building."

The word "Building" shall mean any house, hut, shed, or roofed inclosure, whether used for the purpose of a human habitation or otherwise.

"Street."

"In or near any street."

The word "Street" shall mean any road, street, square, court, alley, or passage, whether a thoroughfare or not, over which the public have a right of way, and also the roadway over any public bridge or causeway, within such parts of the said Cantonment and Town of Bangalore as shall be from time to time specially defined by the Commissioners with the sanction of the Chief Commissioner of Mysore, and the expression "in or near any street" shall designate any place within such defined parts of the said Cantonment and Town.

"Road."

"Land."

The word "Road" shall mean any road or thoroughfare over which the public have a right of way, or any roadway over any public bridge or causeway, not being within the parts so specially defined.

The word "Land" shall include buildings, tenements, fields, plantations, and gardens, however, or on whatever tenure held or occupied.

"Owner."

The word "Owner" shall mean the person for the time being receiving the rent of the land or premises, or in charge of the animal or thing, in connection with which the word is used, whether on his own account, or as agent, or trustee, for any other person, or who would so receive the rent if such land or premises were let to a tenant. Provided that no person receiving the rent of land or premises as agent for another person, shall be liable to make any outlay, by these Regulations required to be made by the owner of such land or premises, in excess of the amount of the funds of the owner which he may have in his possession; nor shall he be subject to any penalty, if he can prove that he has made the outlay required to the extent of such funds.

"Retail."

The word "Retail," as applied to dealers in wine, spirits, and beer, shall mean the sale by any such dealers of any quantity not exceeding two imperial gallons at one time.

The Corporation of the Municipal Commissioners for the Cantonment and the Town of Bangalore respectively.

Municipal Division of the Cantonment and Town of Bangalore and appointment of Commissioners.

3. For the purposes of these Regulations the Cantonment and Town of Bangalore shall be severally divided into as many divisions as the Chief Commissioner of Mysore may determine, and for each division two persons residing within the limits of such division shall be appointed by the Chief Commissioner of Mysore to be Commissioners. Such persons shall each hold office for three years, subject to removal by the Chief Commissioner for misconduct or neglect of duty, and shall be eligible for re-appointment. The Commissioners and the President of the respective Municipal Commissions appointed under Section 11 of these Regulations shall be severally styled "The Municipal Commissioners for the Cantonment and for the Town of Bangalore," respectively, and shall by such names be bodies corporate, and have perpetual succession, and by such names shall sue and be sued.

Ex-officio Members.

4. In addition to the Members appointed as aforesaid, the Chief Commissioner shall have power to appoint by notification in the official Gazette Ex-Officio Members to both Municipal Boards, provided that the number of such Ex-Officio Members shall not be more than one-third of the total number of the Commissioners of each Board.

Appointment of Commissioners by the Chief Commissioner or by election.

Removal of Municipal Commissioners.

5. If at any time it shall appear to the Chief Commissioner of Mysore to be advisable, he may appoint or direct to be appointed by election, for such period not exceeding two years as to him may seem fit, any number of the inhabitants of the Cantonment and Town of Bangalore respectively to be Municipal Commissioners for carrying out the purposes of these Regulations within their respective limits. The persons so appointed shall continue in office for two years or until their successors shall have been appointed, and shall be eligible for re-appointment. In cases when the Chief Commissioner directs the appointment to be by election, he may fix the time and manner of the election and the qualification of the electors, and generally may make such rules as he shall think fit for regulating the election. The Chief Commissioner may from time to time remove any of the Municipal Commissioners so appointed, who shall desire to be discharged or refuse or become incapable to act, or be convicted of an offence punishable under the Indian Penal Code with imprisonment for a term not less than six months. The Chief Commissioner may also, if he thinks fit, on the recommendation of the Municipal Boards, add to their number, and fill up vacancies occurring among them. Every Member so appointed shall have the same powers and be subject to the same liabilities, and vacate his office, and be eligible for re-appointment as if he had been originally appointed a Member under the provisions of para. 3 of these Regulations.

Commissioners to have and use a Common Seal.

6. The Municipal Commissioners shall have and use a Common Seal, on which their name shall be engraven in legible characters in the English language, and which shall be in the custody of the President. And all contracts entered into in respect of any sum exceeding one hundred Rupees shall be in writing, and shall be sealed with the Common Seal of the Commissioners, and shall also be signed by the President and three of the Commissioners. All such contracts shall be varied or discharged in a similar manner.

All the property and rights of action of the present Municipal Commissioners vested in the new Municipal Commissioners.

7. All lands, buildings, works, and hereditaments, utensils, materials, books, plans, maps, papers, effects, securities, and monies, whether derived under Act XIV of 1856 or Act XVIII of 1864, or otherwise, and other property, movable and immovable, of what nature or kind soever, and all interest therein, whether vested, contingent, or in remainder, which shall, on the date on which these Regulations shall take effect, be vested in, or held in trust for the Municipal Commissioners appointed under the said Acts XIV of 1856 and XVIII of 1864, or otherwise, who shall hereafter in these Regulations be designated the late Municipal Commissioners, or which would have been vested in, or held in trust for such Municipal Commissioners, but for the passing of these Regulations, and all such estate and interest of and in the same respectively, as shall then be or would have been, in or in trust for the said Municipal Commissioners or any of them, with all rights of way and other rights and easements now used and enjoyed by the said Municipal Commissioners, shall, on and from the date when these Regulations come into operation, be vested in the Municipal Commissioners appointed under these Regulations and their successors; and all persons who shall then owe any money to the late Municipal Commissioners or to any person on their behalf, shall pay the same to the Municipal Commissioners appointed under these Regulations, or as they shall direct, and all monies which shall be then due, and owing by, or recoverable from, the late Municipal Commissioners, shall be paid by, or be recoverable from, the Municipal Commissioners; and all contracts, agreements, mortgages, bonds, covenants and securities made or entered into before these Regulations came into operation, to, with or in favor of, or by, or for the said late Municipal Commissioners, or any previous Municipal Commissioners for the Cantonment and Town of Bangalore, respectively, or any of them, or any person on behalf of such late Municipal Commissioners respectively, and all rights of action and suit arising out of contract or otherwise, shall take effect, and may be proceeded on and enforced, as far as circumstances will admit, in favor of, by, against, and with reference to the Municipal Commissioners, in such manner as the same would have taken effect, and might have been proceeded on and enforced in favor of, by, against, and with reference to the said late Municipal Commissioners respectively, or any of them, if these Regulations had not been passed.

Actions, &c., by or against Commissioners not to abate, &c.

8. No suit, prosecution, or other proceeding whatsoever, commenced or carried on either by or against the late Municipal Commissioners previously to the coming into operation of these Regulations shall abate or be discontinued or prejudicially affected by these Regulations, but shall continue and take effect, both in favor of and against the Municipal Commissioners, in the same manner in all respects as the same would have continued and taken effect in relation to the late Municipal Commissioners, or any of them, if these Regulations had not been passed; and all decrees and orders made, and all fines and penalties imposed and incurred, respectively, previously to the coming into operation of these Regulations, shall and may be enforced, levied, recovered, and proceeded for; and all administrative proceedings commenced previously to the coming into operation of these Regalations shall and may be continued, proceeded with, and completed, in such or the like manner as if these Regulations had not been passed, the Municipal Commissioners under these Regulations being, in reference to the matters aforesaid, in all respects substituted for the late Municipal Commissioners.

The Municipal Funds.

What shall constitute the Bangalore Cantonment Municipal Fund.

9. All monies received by the Municipal Commissioners of the Cantonment of Bangalore by virtue of these or any other Regulations, all fines, fees and penalties paid to or levied by them under these Regulations, and all monies which may be assigned by the Chief Commissioner of Mysore for purposes of conservancy or improvement in the said Cantonment shall constitute a fund to be called the Bangalore Cantonment Municipal Fund, and shall, together with all property of what nature or kind soever which may become vested in the Commissioners of the Cantonment of Bangalore, be under the direction, management and control of the Commissioners in the manner hereinafter provided.

What shall constitute the Bangalore Town Municipal Fund.

All monies received by the Municipal Commissioners of the Town of Bangalore by virtue of these or any other Regulations, all fines, fees and penalties paid to or levied by them under these Regulations, and all monies which may be assigned by the Chief Commissioner of Mysore for purposes of conservancy or improvement in the said Town shall constitute a fund to be called the Bangalore Town Municipal Fund, and shall, together with all property of what nature or kind soever which may become vested in the Commissioners of the Town of Bangalore, be under the direction, management and control of the Commissioners in the manner hereinafter provided.

Where the funds shall be lodged, and how drawn against.

10. All monies received by the Municipal Commissioners in respect of the Municipal Funds, and all fines, fees and penalties levied by them or their Officers under these Regulations, shall be lodged with the Branch of the Madras Bank established at Bangalore or in the public Treasury, as may hereafter be appointed by the Chief Commissioner for Mysore. All expenses to be incurred and paid for by the President of the Municipal Commission as hereinafter appointed, under these Regulations, shall be discharged out of the Municipal Funds; and all orders or cheques against the said Funds shall be signed by the President, and it shall be lawful for the said Bank or Treasury to pay all orders or cheques against the said Funds which are signed as aforesaid.

Municipal Officers.

Appointment of an Executive Officer for the purposes of these Regulations.

11. The entire executive power and responsibility for the purposes of these Regulations shall be vested in an Officer who shall be appointed by the Chief Commissioner and who shall be removable from office at the pleasure of the Chief Commissioner, and all executive acts which are hereinafter directed to be done by the Municipal Commissioners shall, unless the contrary intention expressly appears from the context, be done by the said Officer. Provided that nothing contained in this Section shall be taken to prevent any act of the said Officer being overruled by the Municipal Commissioners present at any Meeting.

Designation and remuneration of the Executive Officer.

12. The said Officer shall be styled the "President of the Municipal Commissions for the Cantonment and the Town of Bangalore." He shall receive such allowances out of the Municipal Funds to be raised under these Regulations and in such proportion from each fund as shall, from time to time, be fixed by the Government. He shall not hold any other appointment, nor follow any other occupation, and shall devote his whole time and attention to the duties of his office.

Appointment of Executive Engineer, Collector of Municipal Taxes, and Sanitary Inspector.

13. The Chief Commissioner for Mysore shall appoint an Executive Engineer, a Collector of Municipal Taxes, and a Sanitary Inspector, who shall receive out of the Municipal Funds such allowances and in such proportion from each Fund as may be fixed by the Chief Commissioner for Mysore. Such Officers shall be removable at the pleasure of the Chief Commissioner for Mysore, and shall not hold any other appointment nor follow any other occupation, and shall devote the whole of their time and attention to the duties of their respective offices.

The Government to grant leave of absence, &c., to Municipal Officers.

14. The Chief Commissioner for Mysore may grant such leave of absence to any of the Officers appointed under the four last preceding Sections of these Regulations as he shall think fit; and in any case in which leave of absence shall be granted to any such Officers, the Chief Commissioner for Mysore may appoint some person to act in the place of such Officers, or may make such arrangements for the carrying on the duties of such Officers during their absence on leave, as shall to the Chief Commissioner for Mysore seem proper. And the Chief Commissioner shall, out of the Funds applicable to the purposes of these Regulations, direct the payment to any such Officers as aforesaid of such allowances, during absence on leave, as shall to the Chief Commissioner seem proper. Provided that no greater expenditure from the said funds shall be in any case incurred on the whole by reason of any allowance paid under this section than would have been incurred had no leave been granted.

President of the Municipal Commissions to appoint Officers.

15. The President of the Municipal Commissions for the Cantonment and the Town of Bangalore may, from time to time, appoint all such Officers other than those mentioned in Sections 12 and 13 of these Regulations as the Municipal Commissioners shall think necessary and proper to assist in the execution of these Regulations, and may from time to time remove any of such Officers and appoint others in their place, and, out of the funds applicable to the purposes of these Regulations, may pay such salaries, not exceeding three hundred Rupees per month, to the said Officers respectively, as the Commissioners shall think reasonable. Provided that no person shall be appointed to, or removed from, any office, under this Section, the monthly salary of which exceeds one hundred and fifty Rupees, without the sanction of the Municipal Commissioners.

Penalty on Officers, &c., being interested in contracts, &c.

16. *Clause I.*—No President, Commissioner, Officer or servant appointed under these Regulations shall be in any wise concerned or interested in any contract or work made with, or executed for, the Commissioners. If any President, Commissioner, Officer or servant be so concerned or interested, he shall be incapable of afterwards holding or continuing in any office or employment in or under the Commission, and shall forfeit the sum of five hundred Rupees, which may be recovered by suit, by any person, with full cost of suit. Provided that no person, being a shareholder of any Joint Stock Company established by, or under the provisions of any Act of Parliament, or of the Government of India, or of the Governor of Fort Saint George in Council, or by Charter, shall be prevented from being employed as President of the Municipal Commissions, Commissioner, Officer, or servant, by reason of any contract between such Company and the Commissioners, or of any work executed by such Company.

Penalty on Officers, &c., taking unauthorised fees.

Clause II.—If any person employed in or under the Commission, not being a public servant within the meaning of Section 21 of the Indian Penal Code, shall accept or obtain or agree to accept, or attempt to obtain from any person, for himself, or for any other person, any gratification whatever, other than legal remuneration, as a reward for doing, or forbearing to do any official act, or for showing or forbearing to show, in the exercise of his official functions, favor or disfavor to any person, or for rendering or attempting to render any service or disservice to any person, with the Commissioners, or with any public servant, or with the Chief Commissioner for Mysore as such, he shall be punished in the manner provided by Section 161 of the Indian Penal Code.

Commissioners to provide Offices.

17. The Municipal Commissioners of the Cantonment of Bangalore shall provide and keep an Office within the Cantonment for the transaction of business, and in like manner the Commissioners of the Town of Bangalore shall provide and keep an Office in the Town for a like purpose.

Mode of Transacting Business.

Time for holding Meetings.

18. There shall be twelve Ordinary Meetings in every year at which the Municipal Commissioners shall meet for the transaction of general business; and it shall be necessary to give notice of the business to be transacted at such Meetings. The Ordinary Meetings shall be held during the first week of every month or such days as shall seem expedient to the President of the Municipal Commissions. Notice of the business to be transacted at such Meetings shall be published in the Mysore Gazette, and in one or more of the local English and vernacular newspapers, respectively, published in Bangalore, at least seven days before the Meeting.

President to submit Statement of Receipts and Disbursements at each Meeting.

19. At each of the said Ordinary Meetings, the President shall submit to the Meeting a statement of the receipts and disbursements on account of the Municipal Fund for the previous month, and such statement, with a copy of the Minutes of the Proceedings of the Meeting, shall be forwarded to the Chief Commissioner for Mysore, and shall be published in the Mysore Gazette.

Special Meetings may be called.

20. The President of the Municipal Commissions may, whenever he thinks fit, and shall upon a written requisition signed by any five Commissioners, call a Special Meeting of the Commissioners. Previously to any such Meeting being held, at least seven days' clear notice, specifying the time and place of such intended Meeting and the purpose for which it is to be held, shall be given by advertisement in the Mysore Gazette, and in one or more of the local English and vernacular newspapers, respectively, published in Bangalore.

What business to be transacted at Meetings.

21. No business shall be brought before, or transacted at, any Meeting other than the business specified in the notices given under Sections 18 and 20; provided always, that any Commissioner may submit to a Meeting any Resolution beyond the matters mentioned in the notice given of such Meeting, if he shall have given previous notice of his intention to do so, by leaving a copy of the Resolution at the office of the Commissioners, to be published in one

or more of the local English newspapers published in Bangalore, not less than four days before the said Meeting.

All questions to be decided at Meetings by majority of votes.

22. All acts authorized or required to be done by the Commissioners, and all questions which may come before them for decision, shall, save as is herein otherwise provided, be done and decided by a majority of the Commissioners present and voting at any Ordinary or Special Meeting before which the matter may be brought.

Who to preside at Meetings of the Municipal Commissioners.

23. The President of the Municipal Commissions shall preside at every such Meeting, and shall have a second or casting vote in all cases of equality of votes. In the absence of the President, otherwise than on leave under Section 14, the Commissioners present at any Meeting shall choose some one of their number to preside, who shall for that Meeting have all the power of the President. The President of any Meeting at which a quorum of the Commissioners shall be present, may, with the consent of the Meeting, adjourn the Meeting from time to time and from place to place; but no business shall be transacted at any adjourned Meeting other than the business left unfinished at the Meeting from which such adjournment took place.

What shall constitute a quorum.

24. No business shall be transacted at any Meeting unless a quorum of Commissioners be present, that is to say, unless at least six Commissioners be present at an Ordinary Meeting, and unless at least twelve Commissioners be present at a Special Meeting: Provided always that, if at any Meeting of the Commissioners, there shall not be a sufficient number of Commissioners present to form a quorum, the President (whether he be the President of the Municipal Commissions or not) shall adjourn the Meeting to such convenient time and place as he shall think fit; and the business which would have been brought before the original Meeting, had there been a quorum present, shall be brought before, and disposed of, by the adjourned Meeting in the usual manner, whether there be a quorum of Commissioners present at such adjourned Meeting or not.

Commissioners may appoint Committees.

25. It shall be lawful for the Municipal Commissioners from time to time to appoint from among their own number such and so many Committees consisting of such number of persons as they may think fit for the purpose of inquiring into and reporting upon any matter connected with the improvement and conservancy of the Cantonment or the Town of Bangalore. Provided that the proceedings of every such Committee shall be submitted to the Municipal Commissioners.

Minutes of Proceedings of Commissioners to be kept and to be open for inspection.

26. Minutes of the Proceedings of all Meetings of the Commissioners shall be drawn up and fairly entered in a book to be kept for that purpose, and shall be signed by the President after each Meeting; and the said Minutes shall, at all reasonable times, be open at the office of the Commissioners to the inspection of any Commissioner without charge, and of any other person on payment of a fee of eight annas.

Mode of contracting by and on behalf of the Commissioners.

27. The President of the Municipal Commissions, may, on behalf of the Commissioners, and with their previous approval obtained at a Meeting Ordinary or Special, enter into contracts, in manner hereinbefore provided, with any person for the execution of any works directed or authorized by these Regulations to be done by the Commissioners, or for any other things necessary for the purposes of these Regulations.

Estimates of Income and Expenditure, and Audit.

The President to submit an Annual Budget of Income and Expenditure to the Commissioners.

28. At an Ordinary Meeting of the Commissioners of each Municipality to be held under these Regulations in the month of February in each year, the President of the Municipal Commissions shall lay before the Commissioners a Budget or estimate, prepared by him, of the income and expenditure of the respective Municipalities for the year commencing on the 1st of April then next succeeding, in such detail and form as the Commissioners shall, from time to time, by order passed at an Ordinary Meeting, direct. Provided always, that such Budget shall be completed and printed and a copy thereof sent by post or otherwise to each of the Municipal Commissioners, and published in the Mysore Gazette, at least seven days prior to the Meeting before which the Budget is to be laid.

Budget of the expenditure.

29. The Budget shall show what expenditure it is proposed to incur during the period to which it relates, and the manner in which it is proposed to meet such expenditure.

Revision and passing of estimates.

30. It shall be in the discretion of the Commissioners to pass, or to reject, or to modify, all or any of the items entered in the Budget; provided that no modifications are made which are inconsistent with the provisions of these Regulations.

Estimate to be sanctioned by the Chief Commissioner for Mysore.

31. The Budget, after being passed by the Municipal Commissioners, shall be submitted to the Chief Commissioner for Mysore, and it shall be competent to the Chief Commissioner for Mysore to pass, or to reject, or modify, all or any of the items entered in the estimate; provided that no modification shall be made inconsistent with the provisions of these Regulations.

Supplemental Budget to be submitted by President whenever necessary.

32. It shall be lawful for the President of the Municipal Commissions at any time to prepare a supplemental Budget, which shall be submitted for the sanction of the Municipal Commissioners and of the Chief Commissioner for Mysore in the manner provided by Sections 30 and 31 of these Regulations; provided always, that such supplemental Budget shall be completed and printed, and a copy thereof sent by post or otherwise to each of the Municipal Commissioners, and published in the Mysore Gazette, at least seven days prior to the Meeting before which it is to be laid.

Accounts to be audited and examined.

33. The Commissioners shall, as soon after the first day of April in every year as may be practicable, prepare a detailed statement, showing the nature and amount of the receipts and disbursements on account of the respective Municipal Funds for the past year, and also a report of their proceedings during that year; and such statement and report shall be printed and published for general information. The accounts of the Municipal Commissioners shall be audited annually by such person or persons as the Chief Commissioner for Mysore shall appoint.

Levy of Taxes, Tolls, and Rates.

Taxes, Tolls, and Rates leviable.

34. It shall be lawful for the Municipal Commissioners, with the approval of the Chief Commissioner for Mysore and sanction of the Government of India, to levy within the limits of their respective Municipalities for the purposes of these Regulations, taxes on carriages, carts, horses and other animals at rates not exceeding those described in Schedule A, to these Regulations annexed and which rates shall from time to time be notified in the Official Gazette, or fees upon the registration of carts; or tolls on carriages, carts, and animals entering the Municipal limits; or a tax upon arts, professions, trades, or callings; or a tax upon the sale of spirituous and intoxicating liquors or town duties or rates, which may consist of a rate not exceeding ten per cent, on houses, buildings, lands, according to the annual value thereof. It shall be lawful for the Commissioners, with the approval of the Chief Commissioner for Mysore and with the sanction of the Government of India, as aforesaid, to raise the funds required for the purposes of these Regulations from all or any one or more of the above sources, as they shall decide. And the Commissioners may exempt, in whole on in part, from the payment of any rate or tax under these Regulations, any person who, by reason of poverty, may be unable to pay the same.

No tax, &c., to be paid for period for which payment has already been made.

35. No tax, rate, tolls, fee, or assessment shall be payable under these Regulations for any period for which payment of the same shall have been made under Act XIV of 1856, Act XVII of 1864, or other due authority.

Taxes on Carriages and on Horses and other Animals.

Taxes on carriages, &c., to be levied as provided for.

36. If it shall be determined by the Municipal Commissioners with the approval of the Chief Commissioner for Mysore and the sanction of the Government of India, as aforesaid, to levy, for the purposes of these Regulations, taxes on carriages, horses, and other animals, such taxes shall be levied as provided in Sections 37 to 43 of these Regulations.

Tax on carriages, horses, &c.

37. A tax, at a rate not exceeding the rates specified in Schedule A to these Regulations annexed, shall be imposed upon every carriage, horse, mule, ass, dog, bull, bullock, male buffalo, camel, and elephant, kept within the Town, and shall be payable in advance. Provided that this Section shall not apply to, or include, gun-carriages, or ordnance carts or waggons; Cavalry horses or horses of the Mounted Police, horses being chargers of Military Officers, carriages, carts, horses, mules, or bullocks belonging to, or employed in the service of, Government, or to the Municipal Commissions; and vehicles kept for sale and not used for any other purpose, if the property of, and kept by, *bonâ fide* dealers in such vehicles.

Exemptions from tax on carriages and animals.

Owners of carriages, &c., to take out license.

38. CLAUSE I.—The owner or person having the charge of every carriage, horse, mule, ass, dog, bull, bullock, male buffalo, camel, or elephant, kept within the Cantonment and Town, shall, within one month from the date on which the sanction of the Government of India, in Section 36 mentioned, shall have been notified in the Mysore Gazette, and thence forward within sixty days from the 1st of April and 1st day of October in each year, send to the office of the Commissioners a statement in writing signed by him, containing a description of the vehicles and animals liable to the tax, for which he desires to take out a license. The

owner shall, at the same time, pay to the Municipal Commissioners, the half-yearly taxes payable by him, according to the rates given in Schedule A to these Regulations annexed. Any person becoming possessed, between the first day of April and the first day of October, or between the first day of October and the first day of May, of a carriage or animal so kept, shall, within sixty days of becoming so possessed, send to the Office of the Municipal Commissioners a similar statement, together with the full amount payable for the then current half-year according to the said Schedule. Provided always that no person shall be liable to be taxed under this Section for any carriage or animal which shall have been in his possession for sixty days only, or any less period in any half-year; or for any carriage or animal he may have on hire and for which this tax has already been paid.

CLAUSE II.—If the owner or person having the charge of any carriage or animal so kept as aforesaid shall not have duly taken out a license under the last preceding Section, he shall, on conviction before a Magistrate, be fined the full amount payable by him in respect of such carriage or animal and such further sum not exceeding twenty Rupees as the Magistrate may direct; and he shall be liable to a further penalty of five Rupees for every day after conviction during which he shall neglect to take out such license.

Penalty for keeping a carriage, &c., without having a license.

39. On receiving the amount of the taxes as aforesaid, the President of the Municipal Commissions, or some person duly authorized by him in that behalf, shall give to the person paying the same, a license for each of the vehicles and animals for the period in respect of which the money is received. The owner of every carriage and animal aforesaid, who shall have received a license for the same, shall, at all reasonable times during the said period, be bound, under a penalty in default thereof not exceeding five Rupees, to produce such license when called upon to do so by the President of the Municipal Commissions, or any person duly authorized in writing by him to demand its production.

On payment of the tax the President to give a license.

40. All carriages kept for the purpose of being let out for hire by the day or trip shall be registered; and shall bear a registration number in such manner as the Municipal Commissioners shall direct: and any owner of such carriage who shall fail to affix the registration number assigned to such carriage, shall be liable to a fine not exceeding ten Rupees.

Carriages kept for hire to bear a registration number.

41. The President of the Municipal Commissions, at his discretion, may compound for any period not exceeding one year, with livery stable-keepers, and other persons keeping carriages or animals aforesaid, for hire, for a certain sum to be paid for the carriages or animals so kept by such persons, in lieu of the taxes specified in Schedule A.

The President may compound for carriages with livery stable-keepers and others.

42. Whenever the owner of a carriage or animal, as aforesaid, kept for the time being in premises situated within the Cantonment or the Town of Bangalore, shall not reside in the said Cantonment or Town, the tax due for such carriage or animal shall be recoverable from the persom in whose premises it is for the time being kept.

Carriages, &c., within the Town, although owned by persons not residing therein, liable to the Tax.

43. The Commissioners shall from time to time cause to be prepared and entered in distinct columns in a book to be kept at the office of the Commissioners, and to be open to the inspection of any person who shall apply for leave to inspect the same, a list of the persons who during the then current period of six months shall have received a license under Section 38 of these Regulations and of the vehicles and animals in respect of which they may have paid.

List of persons licensed under Section 38 to be entered in a book.

Registration of Carts and other Vehicles without springs.

44. If it shall be determined by the Municipal Commissioners with the approval of the Chief Commissioner for Mysore and the sanction of the Government of India to levy, for the purposes of these Regulations, fees for the registration of carts and other wheeled vehicles without springs, such registration shall be made and fees levied as provided in Sections 45 and 46 of these Regulations.

Registration of carts, &c., to be made as provided for.

45. Every cart and other wheeled vehicle without springs kept within the Cantonment or Town, shall be registered in the office of the Commissioners with the name and residence of the owner, and shall bear the number of such registration in such manner as the Commissioners shall direct. Provided that this Section shall not apply to, or include gun-carriages, ordnance carts or waggons, and other carts the property of, or employed by, Government; or Conservancy carts, or other such vehicles belonging to, or employed by, the Commissions.

Registry and numbering of carts, &c.

46. The registration of carts and other vehicles under the last preceding Section shall be made and the numbers assigned half-yearly, upon such days as the President of the Municipal Commission shall notify; and such fee as he shall fix, not exceeding two Rupees, shall be paid for each registration. Any person becoming possessed, between the first day of April, and the first day of October, or between the first day of October and the first day of April, of any such cart or other vehicle which has not been registered for the then current half-year, shall, within fifteen days of becoming so possessed, register the same; and the President shall grant registration in every such case, on payment of the fee for the current half-year. When any registered cart or other vehicle is transferred within any half-year, it shall be registered anew in the name of the person to whom it has been transferred; and a fee not exceeding four Annas shall be paid for every such last-mentioned registration. The register of carts, and other wheeled vehicles without springs, shall be open to public inspection at all reasonable times without charge.

Fee for Registration.

47. Any person being the owner or having the charge of any carriage, cart, vehicle, or animal, liable, under these Regulations, to taxation or registration, who shall without lawful excuse fail to pay such tax and fees as may be due in respect of the same, or any sum which he may have contracted to pay under any composition made with the President of the Municipal Commissions, or who shall fail to apply for such registration within the time appointed by these Regulations for such payments or registration; or who, being the owner or in charge of any registered cart, carriage or other vehicle, shall fail to affix thereto the proper registration number in such manner as the Municipal Commissioner may direct, shall be liable on conviction to a fine not exceeding twenty Rupees, and to a further penalty of five Rupees for every day after conviction during which he shall neglect to take out such license.

Tolls on Carriages and Animals entering the Town.

48. If it shall be determined by the Municipal Commissioners, with the approval of the Chief Commissioner for Mysore and the sanction of the Government of India as aforesaid, to levy, for the purposes of these Regulations, Tolls on carriages, carts, and animals entering the Municipal limits, such tolls shall be levied as provided in Sections 49 to 56 of these Regulations.

Tolls on carriages, &c., to be levied as provided for.

49. Tolls, at the rates mentioned in Schedule B, annexed to these Regulations, shall be levied upon all carriages, carts, horses, and other animals entering the Municipal limits within which the same are imposed, and the President of the Municipal Commissions may construct toll-bars and gates, and gate-keepers' stations, at such places as may be approved of by the Municipal Commissioners; and may place the collections of such Tolls under the management of such persons as may appear to him proper, or may farm out the same; and shall frame Bye-Laws for the guidance of such Toll Collectors subject to the approval of the Municipal Commissioners; and all persons employed in the management and collection of such tolls shall be liable to the same responsibilities as would attach to them if employed in the collection of any assessment or tax under these Regulations. Provided that this Section shall not apply to carriages, carts, and animals, the property of, or employed by, Government or the Municipal Commissions or licensed or registered by the said Commissions: and provided also, that no more than one payment of Toll shall be demanded, for and in respect of, any carriage, cart, or animal, in any one period of twenty-four hours counted from midnight to midnight.

Tolls to be levied on carriages, carts, and animals entering the Municipal limits.

50. In case of non-payment of any such Toll on demand, the Officers appointed to collect the same may seize any carriage or animal on which it is chargeable, or any part of its burden of sufficient value to defray the Toll; and if any Toll, together with the cost arising from such seizure, remains undischarged for forty-eight hours, the President of the Municipal Commissions may sell the property seized for discharge of the Toll, and all expenses occasioned by such non-payment, seizure, and sale. Any surplus that may remain shall be returned on demand, if made within six months, but not otherwise, to the owner of the property. After seizure of the property as aforesaid the President shall forthwith issue a notice which shall be posted up at the offices of the Municipality that, after the expiration of two days, exclusive of Sunday, he will sell, at such place as he may state in the notice, the property by auction. Provided that, if, at any time before the sale has actually begun, the person whose property has been seized, shall tender to the President, or other Officer appointed by him, the amount of all expenses incurred, and of the Toll payable by such person, the President shall forthwith release the property seized.

In case of non-payment of toll, vehicle, &c., may be seized.

51. No Tolls shall be paid for the passage of Troops, and Military or Government stores and equipages on their march, or of Military, Civil, or Police Officers on duty, or of any person or property in their custody; but no other exemption from payment of the Tolls levied under these Regulations shall be allowed.

Troops, Government Stores, Police, &c., exempt.

52. It shall be lawful for the President of the Municipal Commissions to compound with persons living outside the Municipal limits for a sum to be paid annually or half-yearly, in lieu of all Tolls payable under the provisions of these Regulations in respect of carriages, carts, or animals entering the Municipal limits, and the President shall issue licenses for such carriages, carts, or animals; and, while such licenses shall remain in force, such carriages, carts, and animals shall be exempt from all Tolls, as aforesaid, upon entering the Municipal limits; provided always that such composition shall include all the carriages, carts, and animals possessed by the person compounding.

The President may compound with persons living outside the Municipal limits for a payment in lieu of Tolls.

53. In all cases of resistance to the lawful authority of the Toll Collectors, all Police Officers shall be bound to assist the Toll Collectors, when required, and, for that purpose, they shall have the same power which they have in the exercise of their ordinary Police duties.

Police to assist Toll Collectors.

54. Every person, other than persons appointed to collect the Tolls under these Regulations, who shall levy or demand any Toll, and also every person who shall unlawfully or extortionately demand or take any other or higher Toll than the lawful Toll, or, under color of these Regulations, seize or sell any property, knowing such seizure and sale to be unlawful, or in any manner extort money or any valuable thing from any person under color of these Regulations, shall be deemed to have committed the offence of cheating, or extortion, as the case may be, and shall be liable to such punishment as is prescribed for those offences respectively, by the Indian Penal Code.

Illegal collection of Tolls.

55. A table of the Tolls authorized to be taken at any toll gate or station, legibly written or painted in English words and figures, and in the Tamil, Kanarese, and Hindustani languages, shall be put up in a conspicuous place near such gate or station.

Table of Tolls to be exhibited.

Tax on Arts, Professions, Trades or Callings, and Liquor License.

56. If it shall be determined by the Municipal Commissioners, with the approval of the Chief Commissioner and the sanction of the Government of India, as aforesaid, to levy, for the purposes of these Regulations, a tax on arts, professions, trades, and callings, or a tax on the sale of spirituous or intoxicating liquors, or both, such tax or taxes shall be levied as provided in Sections 57 to 62 of these Regulations.

Tax on Arts, &c., and on the sale of spirituous or intoxicating liquors

57. Every person who shall within the Cantonment or the Town of Bangalore exercise any of the arts, professions, trades or callings specified in Schedule C, to these Regulations annexed, shall cause his name to be registered in the office of the Municipal Commissioners, and shall take out a certificate of such annual registration. Every person required to take out a certificate shall pay for the same such annual sum as is in the said Schedule C mentioned. Provided that such annual sum shall be payable in two equal half-yearly instalments on or before the first of June, and on or before the first day of December in each year. No such certificate shall be delivered until the payment of the first half-yearly instalment to which the person applying for such certificate shall be liable.

Every person to register his calling and take out certificate, and pay annual sum.

58. On and after the day when these Regulations shall come into operation, every retail dealer in spirituous or intoxicating liquors, shall cause each separate place of business used by him for such sale to be registered annually in the office of the Municipal Commissioners, and shall take out a separate certificate of registration annually for each such place of business, and shall pay for every such certificate such annual sum as is specified in Schedule C-2, to these Regulations annexed.

Every place for sale of spirituous Liquor, to be registered.

59. The President of the Municipal Commissions shall determine under which of the classes mentioned in Schedules C and C-2 respectively, to these Regulations annexed, every person or liquor-shop liable to be taxed, shall be registered, and shall from time to time declare what are to be considered bazars or markets within the meaning of these Regulations. Provided that every person dissatisfied with his classification under this Section, may apply to the President for a revision of such classification; and in disposing of such applications, the President shall be assisted by one or more of the Commissioners, who shall, by preference, be summoned from the division in which the applicant resides, or in which he carries on his business. The President shall issue a summons to the Commissioner or Commissioners, naming the day and hour at which his or their attendance is required. The Commissioner or Commissioners, so summoned, shall be bound to attend, and shall be each entitled to a fee not exceeding ten Rupees for each day's attendance. Provided also, that the decision shall be the decision of the President.

President to determine the classes.

Appeals to be heard by President with the assistance of one or more of the Commissioners.

60. Every certificate of registration under Section 57 or 58 shall be granted by the President of the Municipal Commissions, or by some person duly authorized by him in that behalf, and shall specify the date of the grant thereof, the name of the person to whom the certificate is granted, and the sum paid for such certificate.

Certificate to specify date, name, and amount.

61. Every certificate of registration which shall be granted before the 31st December in each year shall have effect and continue in force from the day of the date thereof until the said 31st December, and every such certificate which shall be granted upon or at any time after that date, shall expire on the 31st December, next after the day of the granting thereof.

Date until which Certificate to have effect.

62. If any person shall exercise his art, profession, trade or calling, or shall carry on the retail sale of spirituous or intoxicating liquors within the Town for the space of two months in any one calendar year without having duly caused his name to be registered and taken out a certificate of registration as required by Sections 57 and 58, he shall be liable, on conviction before any Magistrate, to a penalty not exceeding three times the amount which in the judgment of such Magistrate would have been payable by such person in respect of a certificate duly taken out as aforesaid for the entire year.

Penalty for trading without having registered.

Rates on Houses, Buildings, and Lands.

63. If it shall be determined by the Municipal Commissioners, with the approval of the Chief Commissioner for Mysore and the sanction of the Government of India, as aforesaid, to levy, for the purposes of these Regulations, rates on houses, buildings, and lands according to the annual value thereof, such rates shall be levied as provided in Sections 64 to 77 of these Regulations.

Rates on houses, &c., to be levied as provided for.

64. An annual rate not exceeding five per centum of their annual value shall be imposed by the Commissioners for the general purposes of these Regulations other than lighting and water-supply, upon all houses, buildings, and lands in the Cantonment or Town of Bangalore and shall be assessed in the manner hereinafter described: Provided that it shall be at the option of the President of the Municipal Commissions, in lieu of such rate, to levy upon any lands unappropriated to any building or premises, or upon any native huts with their appurtenances, such fixed annual rate as may be authorized by the Chief Commissioner of Mysore. Any rate levied under this Section shall be due and payable by the owners of the said houses, buildings, lands, and huts respectively, from and after the end of the first quarter of the year. The President shall exempt from assessment any house, building, or land, the annual value whereof is less than fourteen Rupees, if the same be the sole rateable property of the owner.

Rates on all houses, buildings, and lands in the Town.

Proviso.

65. Buildings and land exclusively used for Military purposes, buildings ordinarily used as places of public worship and public Government offices, shall not be liable to any rate under the last preceding Section.

Exemption of buildings used for Military purposes and Public Worship.

66. When any house shall have been vacant for sixty consecutive days during any year, the President of the Municipal Commissions shall remit so much of the rate of that year as may be proportionate to the number of days the said house may have remained unoccupied; provided that the owner of such house, or his agent, shall have given to the President notice in writing of the vacancy thereof, and that the amount of rate to be remitted shall be calculated from the date of the delivery of such notice.

Remission on account of vacant houses.

67. The estimated gross annual rent at which houses, buildings, and lands liable to the rate or rates imposed under these Regulations upon houses, buildings, and lands, according to the annual value thereof, might reasonably be expected to let from year to year, shall, for the purposes of the rates leviable under these Regulations, be held and deemed to be the annual value of such houses, buildings, and lands. The value of a house, or building, so estimated, shall not include the value of any machinery contained therein.

Annual value of houses, buildings, and lands, how to be ascertained.

68. The annual value at which lands, houses, buildings, or huts, with their appurtenances, are to be assessed, or the area on which they are to be rated under these Regulations, shall be fixed by the President assisted by two of the Commissioners; and such lands, houses, buildings, and huts, with their appurtenances, shall be assessed or rated upon the value of the area so fixed.

Annual value to be assessed by the Commissioners.

69. The annual value assessed, or the area fixed by the Commissioners as hereinbefore provided, shall be entered in a book to be kept at the office of the Commissioners, wherein shall also be written in distinct columns the name of owner of the property; or if the occupier, and not the owner is the person liable to pay the rate, the name of the occupier, designation of the property, either by name, or number, sufficient to identify the same, together with the name of the street or division in which such property is situate, and the amount of the rate assessed or fixed thereon.

Value assessed, owner's name, &c., to be entered in a book.

70. The annual value to which lands, houses, buildings, or huts, with their appurtenances are assessed at the date of these Regulations coming into operation, shall stand entered in the book kept at the office of the Municipal Commissioners under Act XVIII of 1864 of the Council of the Governor General for the purpose of making Laws and Regulations or other due authority, and shall be taken to be the first valuation made under these Regulations, until such time as the Commissioners shall have caused a new valuation to be made under Section 68 of these Regulations.

Valuation now standing in the book of the Municipal Commissioners to be taken as the first under these Regulations till new one be made.

71. When the name of the owner or occupier is not known, it shall be sufficient to designate him in the said book, and also in any notice or other proceeding under these Regulations, as the "owner" or the "occupier" of the property on which the rate is assessed, without further description.

Owner or occupier how to be designated, if his name be unknown.

72. When the valuation and measurement of any of the divisions of the Cantonment or Town of Bangalore shall have been completed, the President of the Municipal Commissions shall give public notice thereof, and of the place where the said book containing the valuation and measurement and the rate assessed, or a copy of the said book, may be inspected, by advertisement in the *Mysore Gazette* and in one or more of the local English and vernacular newspapers, published in Bangalore, also by placards posted up in conspicuous places throughout such division of the Town: and the person in whose custody such book may be, shall permit every person claiming to be the owner or occupier of property included in the assessment or measurement, or the agent of such owner or occupier, to inspect the book, and to make extracts therefrom without payment of any fee; and every person who does not claim to be such owner or occupier, to inspect and make extracts in like manner, on payment of a fee of one Rupee.

Public notice of valuation and measurement to be given.

73. The President of the Municipal Commissions shall, at the time and in the manner in the preceding Section mentioned, give public notice of a day, not being less than fifteen days from the publication of such notice, when he will proceed to revise the said valuation or measurement and assessment; and in all cases in which any property is for the first time assessed, or in which the valuation or measurement of any property previously assessed is increased, shall give special notice thereof to the owner or occupier of such property. All applications for revision of such valuation or measurement and assessment shall be made to the President, by application in writing left at the office of the Commissioners three days before the day fixed in the said public notice for the revising of the said valuation or measurement and assessment; and, upon hearing such applications, the President shall make such amendments, if any, in the said assessment and in the said book as he shall think proper.

Notice of time of revising assessment.

74. Every application preferred under the previous Section, shall be heard by the President of the Municipal Commissions with the assistance of three or more of the Commissioners, of whom one shall, by preference, be summoned from the division in which the house to be assessed is situated. The President shall issue a summons to the Commissioner or Commissioners, naming the day and hour at which his or their attendance is required. The Commissioner or Commissioners so summoned, should be bound to attend, and shall be each entitled to a fee not exceeding ten Rupees for each day's attendance. Provided always, that the decision shall be the decision of the President.

Appeals to be heard by President with the assistance of one or more of the Commissioners.

75. After the applications have been inquired into, and after the revision of the valuation, or measurement, and assessment has been completed, the amendments, if any, made in the said book, shall be authenticated by the seal of the Commissioners, and the President at the same time shall certify that no valid objection has been made to the valuation and assessment in the said book entered, except in the case in which amendments have been made as shown therein; and thereupon, and subject to such alterations and amendments as may hereafter be duly made, the rate so assessed shall be deemed to be the rate for the year for which the assessment is made, and this period shall be calculated from the commencement of the year in which such revision has been carried out.

After revision the amendments to be authenticated by Seal of the Commissioners.

Rate assessed to be deemed the rate for the year.

76. Provided always, that the President may at any time amend the said book, by inserting therein the name of any person whose name ought to be so inserted, or by inserting any property liable to the rate, after giving notice to such person as may be interested in the making of the amendment of a day, not being less than fifteen days from the date of the service of such notice, when such amendment is to be made, or striking out the name of any person or any property not liable to the rate, or reducing the amount of the rate, without notice; and if any amendment shall be made in cases where notice is required, the same shall be deemed to have been made on the expiration of fifteen days after service of the said notice; and any person interested in such amendment may appeal, by application in writing to the President, left at the office of the Commissioners three days before the day fixed in the said notice for such amendment.

Alteration or amendment of assessment.

77. It shall not be necessary to prepare a new book every year, but the Commissioners may adopt the valuation or measurement and assessment contained in the book for the past year, with such alterations as may, in particular cases, be deemed necessary, as the valuation or measurement and assessment for the year next following. Provided always that public notice of such valuation or measurement and assessment shall be given in the manner prescribed in Section 72 of these Regulations and the provisions of that and the four following Sections shall be applicable to the said valuation or measurement and assessment, and to the book or books in which it is contained. Provided also, that it shall be lawful for the Chief Commissioner for Mysore from time to time to require the President of the Municipal Commissions to make a new valuation under Section 68 of these Regulations.

New assessment book need not be prepared every year.

Proviso.

Appeals.

78. Appeals against any rate, toll or tax, assessed or demanded by the Commissioners under the previous provisions of these Regulations, shall be heard and determined by the Cantonment Magistrate in cases in which the appeal is against the orders of the Cantonment Municipal Commissioners, and the Deputy Superintendent of Bangalore in cases in which the appeal is against the orders of the Town Municipal Commissioners, and the decisions of the said Cantonment Magistrate and Deputy Superintendent in such appeals shall be final. But no such appeal shall be heard, unless the amount of the rate or tax has been deposited with the Commissioners; and no appeal against a rate assessed by the Commissioners under Section 68 shall be heard, unless complaint has been previously made to the President, as hereinbefore provided. Provided that the Cantonment Magistrate and Deputy Superintendent may if they shall think fit, in all cases in which an appeal lies to them under these Regulations, state a case for the decision of the Judicial Commissioner, which decision shall have the effect of Law and carry costs.

When a case has been so referred, the Judicial Commissioner shall pass such orders thereon as shall seem right. A copy of the Judicial Commissioner's decision under his seal and signature shall be transmitted to the Magistrate by whom the reference was made, who shall proceed to dispose of the case conformably to the said decision and shall also be empowered to direct by whom the costs of the appeal and reference are to be paid.

Hearing of Appeals.

79. Every such appeal shall be commenced within thirty days after the accrual of the cause of complaint, which shall, in respect of any rate, be deemed to accrue on the date of the certificate of the President in the assessment book, or in case of any subsequent amendment of the said book under the provisions of Section 78, upon the receipt, by the person aggrieved, of notice of such amendment; and in respect of any tax or toll, the cause of complaint shall be deemed to have accrued from the date upon which such tax has been fixed, or such toll has been demanded.

Time of Appeal.

80. The assessment by the Commissioners, of any rate or tax, when no appeal therefrom is made as hereinbefore provided, and the adjudication of any appeal under the three preceding Sections, shall be final and conclusive.

Assessment by Commissioners when to be final.

Power of Government to control Municipal Commissioners.

81. If at any time it shall appear to the Chief Commissioner for Mysore that the Municipal Commissioners have failed to raise sufficient funds for carrying into effect the purposes of these Regulations, it shall be lawful for the Chief Commissioner, with the sanction of the Government of India, to direct the President of the Municipal Commissions to levy all or any of the taxes, rates, fees, and tolls imposed by these Regulations, and to enforce payment of arrears of all taxes, rates, tolls, and fees payable under these Regulations, and it shall be the duty of the President to comply with every such direction.

In case of failure to raise sufficient funds, Government may direct the levy of all or any of the taxes, &c., provided by these Regulations.

Collection of Rates or Taxes.

82. When any rate, rent, or tax is due, the President shall, prior to enforcing the provisions of Sections 83 to 87, inclusive, cause to presented, to the person liable to the payment thereof, a bill for the sum due, which shall also contain a statement of the period and a description of the property or thing for which the rate, rent, or tax is charged, and also a notice of the liability incurred in default of payment.

Bills to be presented.

83. If the bill is not paid by the person liable to pay the same, within seven days from the presentation thereof, the President may cause to be served upon such person a notice of demand, in the form contained in Schedule D, to these Regulations annexed, or to the like effect; and if he shall not, within seven days from the service of such notice of demand, pay the sum due, or show sufficient cause to the satisfaction of the President for non-payment of the same, such sum, with all costs, may be levied by distress and sale of the goods and chattels of the defaulter; or, if the defaulter be the occupier of any house, building, or land, in respect of which a rate, rent, or tax is due, by distress and sale of any goods and chattels found on the premises, under a warrant in the form contained in Schedule E, to these Regulations annexed, or to the like effect, to be issued for that purpose by the President. For every notice of demand under this section, which the President shall cause to be served upon any person, a fee not exceeding one Rupee, the amount of which shall be in each case fixed by the President, shall be paid by such person. Such fee shall be added to the amount of the rate or rent in respect of which the notice is given, and, if not duly paid, shall be levied in the same manner as such rate, rent, or tax may be levied.

Notice of demand.

Distress.

84. The Officer charged with the execution of a warrant of distress, under the last preceding section, shall make an inventory of the goods and chattels seized under any such warrant, and shall, at the same time, give a notice in writing, in the form contained in Schedule F, to these Regulations annexed, to the person in possession thereof at the time of the seizure, that the said goods and chattels will be sold as therein mentioned.

Inventory notice of distress.

85. If the warrant is not in the meantime discharged or suspended by the President, the goods and chattels seized shall be sold under the orders of the President, who shall apply the proceeds, or such part thereof as may be necessary, in discharge of the said arrears and costs; and the surplus, if any, shall be returned on demand, if made within six months from the day of sale, but not otherwise, to the person in possession of the goods and chattels at the time of the seizure. Fees shall be payable upon distraints under these Regulations, according to the rates set forth in the Table of Fees in Schedule G.

Sale.

Fees.

86. The goods and chattels of any person from whom any rate, rent, or tax is due, may be distrained, wherever the same may be found, for default in the payment of the money due from such person.

Goods of defaulter wherever found may be distrained.

87. If the sum due on account of any rate, rent, or tax, from the owner of any house, building, or land, remains unpaid, after notice of demand has been duly served, the President may demand the amount from the occupier for the time being of such house, building, or land, and, on non-payment thereof, may recover the same by distress and sale of any moveable property found on the premises; and in such case, the occupier may deduct from the next and following payments of his rent the amount which may be so paid by or recovered from him; provided that no arrear of rate, rent, or tax which has remained due from the owner of any house, building, or land for more than one year shall be so recovered from the occupier thereof.

Rate due from owner may be recovered from occupier and deducted by him from his rent.

88. No distress levied by virtue of these Regulations shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any defect or want of form in the notice, schedules, summons, notice of demand, warrant of distress, inventory, or other proceeding relating thereto; nor shall such party be deemed a trespasser *ab initio* on account of any irregularity afterwards committed by him; but all persons aggrieved by such irregularity may recover full satisfaction for any special damage sustained by them in any Court of competent jurisdiction.

Distress not unlawful for want of form.

89. Instead of proceeding by distress and sale, or in case of failure to realize by distress the whole or any part of the sum due in respect of any rate, rent, or tax, the Commissioners may sue the person liable to pay the same in any Court of competent jurisdiction.

Commissioners may sue, instead of proceeding by distress.

90. No assessment and no charge or demand of a rate, rent, or tax made under the authority of these Regulations shall be impeached or affected by reason of any mistake in the name of any person liable to pay the rate, rent, or tax, or in the description of any property or thing liable to the rate, rent, or tax, or of any

Assessment not to be impeached if the directions of these Regulations are substantially complied with.

mistake in the amount of assessment, provided the directions of these Regulations be in substance and effect complied with, and no proceedings under these Regulations shall for want of form be quashed or set aside in any Court of Justice.

Mode of raising Money for works of a permanent nature.

91. *Clause I.*—For the construction of works of a permanent nature which may be undertaken under the provisions of these Regulations, the Commissioners may, with the sanction of the Government of India, from time to time, borrow by way of debenture, on the security of the rates, taxes, and dues imposed and levied on account of the Municipal Fund under these or any Regulations passed in that behalf, or of a portion of them, and at such rate of interest, and upon such terms as to the time of repayment and otherwise, as the Government may approve, any sum of money the Commissioners may require for the objects aforesaid, and in all such cases the estimate for the construction of the work shall be submitted for the sanction and subject to the control of the Government of India.

Mortgage of Rates.

Clause II.—All the debentures aforesaid, issued under the authority of these Regulations, shall be in the form contained in Schedule H, to these Regulations annexed, and shall be transferable by endorsement.

Form of Security.

Clause III.—The Commissioners may, from time to time, pay off any debt without any reference to the priority of the charge.

Payment of debts without reference to priority of date thereof.

Clause IV.—The Commissioners may, at any time with such consent as aforesaid, raise by the issue of new debentures, any money that may be required to pay any monies for the time being due on any debentures issued in pursuance of this Act.

Payment of debentures by fresh mortgage Rates.

Provisions for the Payment of Police.

92. After the date of the commencement of these Regulations the Municipal Commissioners shall, within the last seven days of every month, pay into the Chief Commissioner's Treasury on behalf of the Government of Mysore, towards the maintenance of the Cantonment and Town Police, such proportion of the total cost thereof as may be annually fixed by the Chief Commissioner.

Contribution towards maintenance of the police.

93. The Police Force of the Cantonment and Town of Bangalore shall be deemed to be part of the General Police Force of the Mysore Government within the meaning of Section 2, Act V of 1861 (for the regulation of Police), and all the provisions of the said Act shall be applicable to such Force, its administration within the limits of the said Cantonment and Town being vested in the District Superintendent of Police.

Act V of 1861 applicable to Police employed in Cantonment and Town.

Administration of Police within Cantonment and Town.

General Conservancy of the Town.

94. All public streets or roads in the Cantonment or the Town of Bangalore (not being the property and kept under the control of the Government) now existing or hereafter made, and the pavements, stones, and other materials thereof, and also all erections, materials, implements, and other things provided for such streets, and all trees growing thereon, not being private property, shall vest in, and belong to, the Commissioners and their successors.

Streets vested in the Commissioners.

95. The Commissioners, with the sanction of the Chief Commissioner, may lay out and make new streets, and may build and construct bridges and tunnels; and may turn, divert, discontinue, or close any public street, and may widen, open, enlarge, or otherwise improve, any such street; making due compensation to the owners and occupiers of any land, or buildings, which may be required for any such purposes.

Power to make, and improve streets and close them, &c.

96. In laying out or making any new street, or in turning, diverting, widening, opening, enlarging, or otherwise improving any public street in addition to the land required for the carriage-ways and foot-ways thereof, the Commissioners may purchase also the land necessary for the buildings to be erected on either side of the said street, and may sell and dispose of the same with such stipulations and conditions as to the class and description of buildings to be erected thereon, as they shall think fit. Provided that if any land be taken under the provisions of these Regulations, compensation shall be made to the owners for any direct or immediate damage which may be done thereby to any adjoining land or buildings of such owner.

Power to take land adjoining new streets for building purposes.

Compensation for damages to adjoining land or buildings.

97. The Commissioners may agree with the owners of any land or building for the absolute purchase thereof for the purpose of laying out and making new streets, or of widening, enlarging, or otherwise improving any of the public streets, or for any other purpose whatever connected with the conservancy, or general improvement of the Town.

Power to agree for purchase of land for improving streets or for other Municipal purposes.

98. When there is any hindrance to the acquisition by purchase of any land or building required for the purposes of these Regulations, the Chief Commissioner for Mysore upon the representation of the Commissioners, and after such inquiry as may be thought proper, may declare that the land or building is needed for a public purpose, and may order proceedings for obtaining possession of the same for the Government, and for determining the compensation to be paid to the parties interested, according to any laws now, or hereafter to be, in force for the acquisition of land for public purposes. And the Chief Commissioner for Mysore may vest such land or building in the Commissioners on their paying the compensation awarded.

Mode of ascertaining compensation for land, &c.

99. The Commissioners may sell any lands or buildings vested in them by virtue of these Regulations, or acquired by them for the purposes thereof either together or in parcels, as they may find most convenient and advantageous, and the proceeds of such sale shall be applied to the purposes of these Regulations; and for carrying such sale into effect, the Commissioners may execute a conveyance of the lands sold to the purchaser, and such conveyance shall be under the common seal of the Commissioners.

Power to sell lands or buildings.

100. Whenever any street, hereby vested in the Commissioners, shall be discontinued and closed under the provisions of Section 95 of these Regulations, the Commissioners may sell the lands or such part thereof as shall not be required for the purposes of these Regulations.

Power to sell closed streets.

101. The Commissioners shall, so far as the funds at their disposal will admit, from time to time cause the public streets to be maintained and repaired, and, from time to time, may cause the same to be paved, metalled, flagged, channelled, sewered, or otherwise improved, and the surface thereof to be raised, lowered or altered as they may think fit; and may, also, make and keep in repair any foot-way for the use of passengers in any such street, and also, from time to time, place on the sides of such foot-way such fences and posts as may be needed for the protection of foot-passengers.

Maintenance and Repair of streets.

Foot-ways.

102. The Commissioners shall cause the streets, including the foot-ways thereof, to be regularly swept and cleansed; and the dust, dirt, ashes, rubbish and filth of every sort found thereon, to be collected and removed.

Cleansing streets.

103. *Clause I.*—The President may cause any number of movable or fixed dust boxes, or other convenient receptacles, wherein dust, dirt, ashes, and rubbish may be temporarily deposited until removed and carried away, to be provided and placed in proper and convenient situations, and may require the occupiers of houses in streets to cause all such matter as aforesaid to be deposited daily, or otherwise periodically, in the said receptacles. Every person who, after such receptacles shall have been provided and after such requisition as abovementioned, shall deposit, or cause or permit to be deposited, any such matter in any street, or on the permanent pyal or verandah of any house or on any ground between the house and the street, except in such receptacles or places, and in such manner and at such hours as shall be fixed by the President, shall be liable to a penalty not exceeding ten Rupees for each offence.

Dust boxes in streets.

Clause II.—Whoever deposits, or permits his servants to deposit any dust, dirt, dung, ashes, garden, kitchen, or stable refuse, or filth of any kind, or any animal matter, or any broken glass or earthen-ware, broken brick mortar or other rubbish, in any street or on the pavement, pyal, or verandah of any house, or any ground between the house and the street, or on any public quay, jetty or landing place, or on any part of a river bank whether above or below high water mark, except in such places and in such manner and at such hours as shall be fixed by the President, shall be liable to a penalty not exceeding ten Rupees for each offence.

Depositing dirt in streets, &c.

104. Whoever causes or allows the water of any sink, sewer, or privy, or any other offensive liquid matter belonging to him or being on his land, to run down, or be thrown or put upon any street, or causes or allows any offensive matter from any privy or cesspool to run down, or be thrown into a surface drain in any street, shall be liable to a penalty not exceeding ten Rupees for each offence.

Allowing sewerage to flow on streets.

105. The President from time to time, may fix the hours within which only it shall be lawful to remove any night-soil or other such offensive matter. When the President has fixed such hours and given public notice thereof, whoever removes or causes to be removed along any street any such offensive matter at any time except within the hours so fixed, and, also, whoever at any time, whether such hours have been fixed by the President or not, uses, for any such purpose, any cart, carriage, or other receptacle or vessel not having a covering proper for preventing the escape of the contents thereof, or of the stench therefrom, or whoever slops or spills any such offensive matter in the removal thereof, or whoever does not carefully sweep and clean every place in which such offensive matter is spilt, or whoever drives or takes, or causes to be driven or taken, any cart, carriage, receptacle or vessel used for any such purpose as aforesaid, through any street, or by any route, other than such as shall, from time to time, be by public notice, appointed for that purpose by the President, shall be liable to a penalty not exceeding twenty Rupees for each offence.

Removal of night-soil.

106. The Commissioners from time to time shall appoint or provide places convenient for the deposit of the night-soil, dung, and other filth, and the dust, dirt, ashes, and the rubbish collected and removed under the authority of these Regulations, and for keeping all cattle, carts, implements, and other things required for the above or any of the purposes of these Regulations, and for any of such purposes, the Commissioners may purchase or take on lease any land or buildings by them considered necessary, or may cause any new building to be made upon any land to be purchased or hired by them.

Places of deposit for filth.

107. It shall be the duty of the occupier of every house in or near any street within the limits to which these Regulations shall be applied, to remove from his premises all night-soil, dung, and other filth into carts provided by the Municipal Commissioners for the purpose of carrying away the same, and at such times and in such manner as the Municipal Commissioners may direct. Provided that if the occupier of any house shall prefer to carry away the said night-soil, dung, or other filth, it shall be open to him to do so in conformity with the provisions of Section 105 of these Regulations.

Occupiers of houses to remove night-soil, &c., to carts of Commissioners.

Proviso.

108. Whoever being the occupier of a house within the limits to which these Regulations shall be applied, keeps or allows to be kept for more than twenty-four hours, or otherwise than in some proper receptacle, any dirt, dung, night-soil, filth, or any noxious or offensive matter, in or upon the roof of such house, or in or upon the roof of any out-house, or in or in any yard or ground attached to, and occupied by the occupier of such house, shall be liable to a penalty not exceeding ten Rupees for each offence.

Penalty on occupier of a house not removing filth.

109. It shall be lawful for the Commissioners in furtherance of the last preceding section, to give notice to the occupier or occupiers of any house that they will undertake to perform through their agents the duties usually performed by sweepers, and for this purpose to entertain a sufficient number of scavengers, and it shall be lawful for them to lay a cess upon every house, whose scavengering they may thus undertake to perform, not exceeding that which the inmates might reasonably be called upon to pay for the services of an ordinary sweeper.

Scavengers may be entertained by the Commissioners for the scavengering of houses.

110. All dirt, dust, ashes, rubbish, sewerage, soil, dung, and filth, collected under their orders from the streets, houses, privies, sewers, and cesspools, shall be the property of the Commissioners, who shall have power to sell or dispose of the same as they may think proper, and the money arising from the sale thereof shall be applied to the purposes of these Regulations.

All rubbish &c., collected to be the property of the Commissioners.

111. The Commissioners, so far as the funds at their disposal will admit, and so far as they may deem requisite for the public convenience, shall cause the public streets to be watered; and, for that purpose, may provide such works and engines as they may think necessary.

Watering streets.

112. The Commissioners, so far as the funds at their disposal will admit, shall provide lamps, lamp posts, and such other means as they may deem necessary for lighting such of the public streets and roads as they shall consider to require lighting; and shall cause the said lamps to be kept in fit order, and shall employ a sufficient number of persons to cleanse, prepare, and light the same; and may also, from time to time, increase or otherwise alter the number and situation of the said lamps, as to them shall appear necessary.

Lighting streets.

113. Whoever builds any wall, or erects or sets up any fence, rail, post, or other obstruction or encroachment, in any public street or road, or in or over any open drain, sewer, or aqueduct along the side of any such street, after these Regulations come into operation, shall be liable to a penalty not exceed-

Future obstructions in streets.

ing one hundred Rupees; and the Commissioners shall have power to remove any such obstruction or encroachment: and the expense of such removal shall be paid by the person erecting the same, and shall be recoverable as hereinafter provided. Nothing herein contained shall prevent the Commissioners, with the concurrence of the Superintendent of Police, from allowing any temporary erection in any public street on occasions of festivals and ceremonies.

Powers to remove.

Temporary obstruction on occasion of festivals, &c.

114. Whoever injures, displaces, takes up, or makes any alteration in the pavement, flags, or other materials, or in the fences, posts, or public lamps of any public street, or road, without the consent in writing of the President, or without other lawful authority, shall be liable to a penalty not exceeding fifty Rupees.

Taking up pavements, &c.

115. Every person who wishes to make or lay out any new street shall give notice in writing thereof to the Commissioners, showing the intended level and width of such street; and the level and width of every such street shall be fixed or approved of by the Commissioners; and whoever lays out, makes, or builds upon any such streets, otherwise than in accordance with the level and the width so fixed and approved of, shall be liable to a penalty not exceeding five hundred Rupees; and the Commissioners may, if they think fit, cause any such street, laid out or made at a level or width otherwise than in accordance with the level or width so fixed or approved of as aforesaid, to be altered, or, may cause any building, erected in any such street, otherwise than in accordance with such level and width, to be altered, or if necessary removed, and the expenses thereby incurred shall be paid to them by the offender and be recoverable as hereinafter provided. If no such level or width be fixed, and no approval or disapproval of the level or width proposed be signified by the Commissioners within one month, the intended street may be laid out and made upon the level and of the width specified in the notice.

Private persons laying out new streets.

116. It shall not be lawful for any person to erect, in or near any street, any building or any range or block of buildings on any plot or parcel of ground on which no buildings are standing, without having given one month's notice in writing to the President; and the President may, thereupon, require such building or buildings to be erected, so that they may stand in regular lines with a free passage or way in front of each line, of such width as the President may think proper for salutary ventilation, and to facilitate cleansing, and at such a level as will admit of sufficient drainage. And if any such building or buildings be erected otherwise than as required by the President, the President may give notice to the builder or builders thereof to take down and remove the same within one month; and if such building or buildings be not taken down or removed according to such notice, the President may cause the same to be taken down and removed, and the expense incurred in doing so shall be paid by the said builder or builders, and shall be recoverable as hereinafter provided.

Erection of new buildings to be under the control of the President.

117. Whenever the President is satisfied, from inspection, or by report of competent persons, that any existing block of buildings in or near any street is, by reason of the manner in which the buildings are crowded together, or of the want of drainage and the impracticability of cleansing, attended with risk of disease to the inhabitants of the neighbourhood, he may, with the sanction of the Chief Commissioner for Mysore, cause a notice to be fixed to some conspicuous part of such block of buildings, requiring the owners, or occupiers thereof, or, at the option of the President, the owner of the land on which such buildings are erected, within a reasonable time to be fixed by the President for that purpose, to execute such operations as the President, with such sanction as aforesaid, may deem necessary for the avoidance of such risk. And in case such owners, or occupiers, or the owner of the land, shall refuse or neglect to execute such operations within the time appointed, the President may cause the said buildings to be taken down, or such operations to be performed in respect of such buildings as the President may deem necessary to prevent such risk. If such buildings be pulled down, the President shall cause the materials of each building to be sold separately, if such sale can be so effected; and the proceeds shall be paid to the owner of the building, or if the owner be unknown, or the title disputed, shall be held in deposit by the President in trust for the person entitled thereto, and shall be paid to such person on proof of his right thereto if made within three years from date of sale, but not otherwise. The Court of the Deputy Superintendent of Bangalore shall be deemed a competent Court for the purpose of determining any question of title under this section.

Power of President as to existing buildings.

118. If any street (not being a public street), or any part thereof, be not levelled, paved, metalled, flagged, channelled, and drained to the satisfaction of the President, he may, by notice in writing to the respective occupiers of the land or buildings fronting, adjoining, or abutting upon such street thereof, as may need to be levelled, paved, metalled, flagged, channelled, and drained, require them to level, metal, pave, flag, channel, and drain the same within a time to be speci-

fied in such notice, and, upon non-compliance, the President may, if he thinks fit, execute the works mentioned or referred to therein; and the expenses incurred in so doing shall be paid by the owners in default, according to the frontage of their respective land or buildings, and in such proportion as shall be settled by the President, or, in case of dispute, as shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses; and such expenses shall be recoverable as hereinafter provided. Provided always, that after such streets shall have been so levelled, paved, metalled, flagged, channelled, and drained, on the requisition of the President, or by the President as aforesaid, at the expense of the owners, such owners shall have a right to require that the street shall be declared a public street, to be, from time to time, repaired by the Commissioners out of the Municipal Funds.

Proviso.

119. The President may, upon such terms as he shall think fit, allow any building to be set forward for improving the line of any public street in which such building is situated.

Buildings may be set forward for improving line of streets.

120. When any building, or any part thereof, which projects beyond the regular line of a public street, or beyond the front of the building on either side thereof, has been taken down in order to be re-built or altered, the President may require the said projecting part to be set back to or towards the line of the street or the line of the adjoining buildings. Provided always, that the Commissioners shall make full compensation to the owner of any such building for any damage he may thereby sustain, and if any dispute shall arise touching the amount of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Buildings projecting beyond line of street when taken down to be set back.

Proviso.

121. The President may, from time to time, cause to be put up or painted, on a conspicuous part of some building, wall or place, at or near each end, corner, or entrance of every street, the name by which such street is to be known; and whoever destroys, pulls down, or defaces any such, or puts up any name different from that put up by order of the President, shall be liable to a penalty not exceeding twenty Rupees.

Names of streets.

122. The President may, from time to time, fix a number in a conspicuous place on the outer side of any building, or at the entrance of the enclosure thereof fronting the street; and whoever destroys, pulls down, or defaces any such number, shall be liable to a penalty not exceeding twenty Rupees.

Numbers on buildings.

123. All doors, gates, bars, and ground floor windows put up after these Regulations come into operation, which open upon any public street, shall be hung or placed so as not to open outwards and cause obstruction; and if any such door, gate, bar, or window be hung or placed so as to open outwards on any such street and cause obstruction, the owner or occupier of the premises to which the same is attached, shall, within eight days after notice from the President to that effect, cause the same to be altered so as not to open outwards, and in the judgment of the President cause obstruction; and in case such owner or occupier neglects so to do, the President may make such alteration, and the expenses thereof shall be paid by the owner or occupier, and shall be recoverable as hereinafter provided.

Doors, &c., not to open outwards.

124. If any door, gate, bar, or ground floor window put up before these Regulations come into operation, is hung or placed so as to open outwards upon any public street and causes obstruction, the President, upon default made after notice given as in the last preceding section mentioned, may alter the same, so that no part thereof, when open, shall cause an obstruction, and the expense of such alteration shall be defrayed by the Municipality.

Doors, &c., opening outwards to be altered.

125. The owner of every building in any public street shall, within fifteen days after notice from the President to that effect, put up, and keep in good condition, proper troughs and pipes for catching and carrying the water from the roof and other parts of such building and for discharging the same in such manner as the President shall direct; and in default of compliance with such notice within the period aforesaid, the owner or occupier shall be liable to a penalty not exceeding ten Rupees for every day that he shall so make default.

Troughs and pipes to be fixed to buildings.

126. The President may give notice in writing to the owner or occupier of any building to remove or alter any projection, encroachment, or obstruction which, after these Regulations come into operation, shall be erected or placed against, or in front of such building, and such owner or occupier shall, within fifteen days after the service of such notice upon him, remove such projection, encroachment, or obstruction, or alter the same in such manner as shall have been directed by the President, and, in default thereof, shall be liable to a penalty not exceeding two hundred Rupees; and the President, in such case, may remove such projection, encroach-

ment, or obstruction; and the expense of such removal shall be paid by the owner or occupier so making default, and shall be recoverable as hereinafter provided. Provided that, when the expense shall have been paid by the occupier, except in the case in which such projections, encroachments, or obstructions were made or put up by him, such occupier shall be entitled to deduct the expense of removing or altering the same, from the rent payable by him to the owner of the building.

Proviso.

127. The President may cause any such projection, encroachment, or obstruction, erected or placed against, or in front of any building, in any public street, before these Regulations come into operation, to be removed, or altered as he thinks fit; provided that he gives notice of such intended removal or alteration to the occupier of the building against or in front of which such projection, encroachment, or obstruction shall be, thirty days before such alteration or removal is begun; and if such projection, encroachment, or obstruction shall have been lawfully made, the Commissioners shall make reasonable compensation to every person who suffers damage by such removal or alteration; and if any dispute shall arise touching the amount of such compensation the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Removal of existing projections, &c.

Notice of removal.

Compensation when to be made.

128. The President may give permission in writing to the owners or occupiers of buildings in public streets to put up verandahs, balconies, sunshades, weather-frames, and the like, to project over the pyals and pavements in front of the same or over the streets to an extent not exceeding five feet from the line of frontage.

President may allow certain projections from buildings.

129. The external roofs, verandahs, pandals and walls of buildings erected or renewed within the Town after these Regulations come into operation, shall not be made of grass, leaves, mats, or other such inflammable materials in such places and in such manner as may be dangerous to adjacent buildings; and it shall not be lawful for the owner of any building now having an external roof, verandah, pandal or wall made of any such material in such place and manner as aforesaid, to suffer such roof or wall to remain after these Regulations come into operation, unless with the consent of the President; provided that in all cases where the above provisions are enforced at least half the cost incurred shall be defrayed by the Municipality, and whoever makes any external roof, verandah, pandal or wall of such materials unless with the consent in writing of the President, or suffers any roof, verandah, pandal or wall made of such materials to continue contrary to the provisions herein contained, shall be liable to a penalty not exceeding ten Rupees for every day that such shall continue. Any person may give information and institute a prosecution under this section.

Roofs and external walls of buildings not to be made of inflammable materials.

130. If, in any street, any building or wall or anything affixed thereon, be deemed by the President to be in a ruinous state, or likely to fall, or in any way dangerous to the inhabitants of such building or to the neighbouring buildings, or the occupiers thereof, or to passengers, he shall immediately, if it appears to him to be necessary, cause a proper hoard or fence to be put up for the protection of passengers, and shall cause notice in writing to be given to the owner, if he be known and resident within the Municipal limits, and shall also cause such notice to be put on the door or other conspicuous part of the said premises, or otherwise to be given to the occupier thereof (if any), requiring such owner or occupier forthwith to take down, secure, or repair such building, wall or thing affixed thereon, as the case shall require; and if such owner or occupier do not begin to repair, take down, or secure the same within three days after such notice, and complete such work with due diligence, the President shall cause all or so much of the building, wall or thing, as he shall think necessary to be taken down, repaired, or otherwise secured, using as he shall think fit the materials of the said building for the purpose; and all the expenses thereby incurred shall be paid by the owner of the premises, and shall be recoverable from him as hereinafter provided.

Building, &c., in a ruinous and dangerous state.

131. If any such building, or wall, or any part of the same be pulled down by virtue of the powers aforesaid, the Commisioners may sell the materials thereof, or so much of the same as shall be taken down, and apply the proceeds of such sale in payment of the expenses incurred, and shall restore any overplus arising from such sale to the owner of such building or wall, on demand if made within six months from the date of sale, but not otherwise. The Commissioners, although they sell such materials for the purposes aforesaid, shall have the same power for compelling the payment of so much of the said expenses as may remain due after application of the proceeds of such sale as aforesaid, as by these Regulations are given to them for enforcing the payment of the whole of the said expenses.

Sale of materials of ruinous buildings.

[illegible] or land, by reason of abandonment, disuse, or of disputed ownership, or other cause, shall remain untenanted, and thereby become a resort of idle and disorderly persons, or, in the opinion of the President, in any manner become a nuisance,

the President, after due inquiry, may cause notice in writing to be given to the owner, or to the person claiming to be the owner if he be known and resident within the Municipal limits, and shall also cause such notice to be put on the door or some conspicuous part of the building or land requiring the person concerned therein, whoever they may be, to secure, enclose, clear, or cleanse the same; and if such notice shall not be complied with within eight days, the President shall cause the necessary work to be executed, and all expenses thereby incurred shall be paid by the owner of the building or land, and shall be recoverable as hereinafter provided.

133. Whoever being the owner or occupier of any building or land within the limits of the Cantonment or the Town of Bangalore, whether tenantable or otherwise, suffers the same to be in a filthy, ruinous or unwholesome state, or overgrown with noxious vegetation, shall be liable to a penalty not exceeding fifty Rupees, and to a further penalty not exceeding ten Rupees for every day after conviction for such offence during which the offence is continued; and if the owner be not known or not residing within the said limits, the President may cause the necessary work to be executed, and all expenses thereby incurred shall be recovered as hereinafter provided.

Filthy buildings.

134. It shall be lawful for the President of the Municipal Commissions at any time between sunrise and sunset, by himself or his servants on giving such notice as hereinafter provided, to enter into, and inspect all buildings, and by an order in writing to direct all or any part to be forthwith internally and externally lime-washed or otherwise cleansed for sanitary reasons; and if the owner or occupier of such building neglects to do so within eight days from the time when such order shall have been served upon him, the President may cause the same to be done, and the expenses incurred shall be paid by the owner or occupier, and shall be recoverable as hereinafter provided. It shall also be lawful for the Sanitary Inspector of the Municipality to close infected buildings for the purposes of fumigation or disinfection, such measure to be taken under written sanction of the President.

Power to enter and cleanse buildings.

135. Whenever the Sanitary Inspector shall certify to the President of the Municipal Commissions that any building is so overcrowded as to be dangerous or prejudicial to the health of the inhabitants, and the inhabitants shall consist of more than one family, the President shall cause proceedings to be taken before a Magistrate to abate such overcrowding, and the Magistrate shall thereupon make such order as he may think fit, and the person permitting such overcrowding shall be liable to penalty not exceeding twenty Rupees for each day after the date of such order during which such overcrowding shall continue.

President may, when he considers it desirable, take steps to abate overcrowding of buildings.

136. The President may give notice in writing to the owner, if known and within the Municipal limits, and also to the occupier of any land, to trim or prune the hedges thereof, so that they may not exceed the height of six feet from the level of the ground; and to cut and trim all trees which, by overhanging any public road or street, obstruct the passage or cause damage thereto; and in the event of such notice not being complied with within eight days from the date thereof, the owner or occupier shall be liable, on conviction before a Magistrate, to a penalty not exceeding fifty Rupees, and to a further penalty not exceeding ten Rupees for every day after conviction for such offence during which the offence is continued.

Power to trim hedges and trees.

137. Whoever after due notice shall own or keep in or near any street any livery or hack stable, horse lines, veterinary infirmary, cart stand, cattle shed, or yard for public resort, or more than twenty sheep or goats, or ten horned cattle, in one place, without a license from the President, shall be liable to a penalty not exceeding fifty Rupees, and to a further penalty not exceeding ten Rupees, from every day after conviction for such offence during which such offence is continued.

Penalty for keeping within Town any livery or hack stable, cart stand, &c., or more than limited number of cattle, without license.

138. Whoever shall, in or near any street, keep any swine so as, in the opinion of the President, to be a nuisance to the neighbourhood, shall be liable to a penalty not exceeding ten Rupees, and to a further penalty not exceeding five Rupees, for every day after conviction for such offence during which the offence is continued, and any pig found straying may be summarily destroyed by order of the President without giving rise to any action for damages.

Keeping swine.

139. All public sewers and drains, and all sewers, drains, tunnels, and culverts, in, alongside, or under, the streets or roads existing at the time these Regulations come into operation or afterwards made, and whether made at the cost of the Commissioners or otherwise, and all works, materials, and things appertaining thereto, shall be vested in and belong to the Commissioners.

Sewers, drains, &c., vested in the Commissioners.

140. The Commissioners, in making any main or other sewers, for the drainage of the Municipal limits, may, if needful, carry such sewers through, across, or under any street, or road, or any place laid out as, or intended for a street, or road, or any cellar or vault which may be under any of the streets,

Powers of Commissioners in making public sewers.

and (after reasonable notice in writing in that behalf) into, through, or under any enclosed or other land whatsoever, making full compensation for any damage done thereby; and if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Commissioners to repair, alter, and close sewers.

141. The Commissioners shall maintain, and, from time to time, repair, and, as they see fit, enlarge, alter, arch over, or otherwise improve, all or any of the sewers and drains vested in them by these Regulations, and may discontinue, close up, or destroy such of them as they may deem useless or unnecessary. Provided that, if, by reason of anything done under this section, any person is deprived of the lawful use of any sewer or drain, the Commissioners shall, at their expense, provide for him the means of drainage into some public sewer or other place into which the Commissioners are empowered to empty their sewers.

Cleaning and emptying sewers.

142. The Commissioners shall, so far as the funds at their disposal will admit, cause the sewers and drains belonging to them to be so constructed, maintained and kept, as not to be a nuisance or injurious to health, and to be properly cleared, cleansed and emptied; and for the purpose of flushing, cleansing and emptying the same, they may construct and place either above or under ground such reservoirs, sluices, engines and other works as may be necessary, and they may also, with the sanction of the Chief Commissioner, cause all or any of such sewers and drains to communicate with, and be emptied into, any fit place, or cause the refuse from such sewers and drains to be conveyed by a proper channel to the most convenient site for its deposit, and may sell the same for agricultural or other purposes as may be deemed most expedient, but so that the same shall not become a nuisance.

Penalty for making unauthorized drains into public sewers.

143. Whoever, without the written consent of the President first obtained, makes or causes to be made, any drain into any of the sewers or drains vested in the Commissioners by these Regulations, or whoever stops up, diverts, obstructs, or in any way interferes with any public drain or sewer, whether the same passes through public or private ground, shall be liable to a penalty not exceeding two hundred Rupees, and the President may cause such branch drain or obstruction to be demolished, altered, remade, or otherwise dealt with as he shall think fit; and all the expenses incurred thereby shall be paid by the person who made, or caused to be made, such branch drain or obstruction, and shall be recoverable as hereinafter provided.

Building over sewers, &c., not to be erected without consent of the President.

144. No building shall be newly erected over any sewer or drain vested in the Commissioners by these Regulations, without the consent of the President, and if any building be so erected, the President may cause such building to be pulled down, or otherwise dealt with as he may think fit, and the expenses thereby incurred shall be paid by the person offending, and be recoverable as hereinafter provided.

President empowered to make drains from buildings which are not properly drained.

145. If any building in or near any street and within a reasonable distance of a sewer fit for use, or of some place at which the Commissioners are empowered to empty their sewers, be, at any time, not drained to the satisfaction of the President by a sufficient drain or pipe communicating with some sewer, or other place as aforesaid, the President may, if the owner neglects to do so within fifteen days after notice, construct or lay from such building a covered or open drain, or pipe, of such materials, of such size, at such level, and with such fall as he shall think necessary for the draining of such building; and the expenses hereby incurred, if not forthwith paid by the owner, shall be recoverable as hereinafter provided.

Level of buildings hereafter built within the town.

146. No building shall be hereafter erected in or near any street upon a lower level than will allow of the drainage of such building being led into some public sewer either then existing or projected, and into some place into which the Commissioners are empowered to empty their sewers, and the owners or occupiers of land or buildings skirting the public street or road shall construct, alter and maintain culverts of such sufficient size and material as the President may direct, over the side channels or ditches at the entrances to their land or buildings; and if they neglect to do so within fifteen days after notice, the President may cause the same to be done, and expenses thereby incurred shall be paid by the said owners or occupiers, and be recoverable as hereinafter provided.

Buildings hereafter built to have drains constructed under the orders of the President.

147. If any building, newly erected or rebuilt in or near any street after these Regulations come into operation, have such means of drainage as in the last preceding section mentioned, existing within one hundred feet thereof, the owner shall make a drain leading therefrom from the site of such building, of such materials, of such size, at such level, and with such fall as the President may direct; and if such owner neglect to do so within a reasonable time, the President may cause the same to be done, and the expenses thereby incurred shall be paid by the owner, and shall be recoverable as hereinafter provided.

Notice of new buildings to be given to the President.

148. Before beginning in or near any street to erect or restore any building, the person intending to erect or restore such building shall give to the President notice thereof in writing, and shall accompany such notice with a plan, showing the levels at which the foundation and lowest floor of such building are proposed to be laid, by reference to some level ascertained under the direction of the President; and whoever fails to give such notice shall be liable to a penalty not exceeding fifty Rupees.

President to signify approval or otherwise within one month.

149. Within one month after receiving such notice, the President shall signify his approval of the proposed levels, or, if he disapprove thereof, he shall fix other levels in lieu thereof within the same time.

Building erected without notice, or contrary to provisions of these Regulations, may be altered by the President.

150. If such building be begun or made without sending such notice and plan, or at any levels different from those fixed by the President within the said month, or in any other respect contrary to the provisions of these Regulations, the President may, if necessary, cause such building to be altered or demolished, as the case may require, and the expenses thereby incurred shall be paid by the person failing to comply with the provisions aforesaid, and shall be recoverable as hereinafter provided.

If President fails to signify approval, &c., within one month, parties may proceed without.

151. If the President fails to signify in writing his approval or disapproval of the levels shown on such plan as aforesaid, and to fix other levels, within one month after receiving such notice and plan as aforesaid, the person giving such notice may, notwithstanding anything hereinbefore contained, proceed to erect or restore the building therein referred to, according to the levels shown on such plan, provided that such erection or restoration be otherwise in accordance with the provisions of these Regulations.

Throwing rubbish into sewers.

152. Whoever throws or puts, or permits his servants to throw or put, any earth, dirt, ashes, garden, kitchen, or stable refuse, or any broken glass, or earthenware, or other rubbish, or (until suitable sewers shall be provided) any night-soil, into any sewer or drain, belonging to the Commissioners, or into any drain communicating therewith, shall be liable to a penalty not exceeding fifty Rupees for each offence.

Latrines and Urinals.

153. The Commissioners shall provide and maintain in proper and convenient situations, so as not to create a nuisance, common latrines and urinals, and shall cause the same when provided to be kept in order, and to be daily cleansed, and the owner or occupier of every building standing on and surrounded by land of area exceeding ½ an acre shall provide a good and sufficient latrine in a convenient place within such area for the use of the servants and persons employed in or about such building, and shall keep the same in a clean and proper manner, and, in default, such owner or occupier shall be liable to a penalty not exceeding fifty Rupees, and a further penalty not exceeding ten Rupees, for every day after conviction of such offence during which the offence shall continue.

Licensing of public latrines.

154. The President may license, for any period not exceeding one year, such latrine for public use, as he, from time to time, may think proper; and whoever keeps any public latrine without such license, or, having a license for a public latrine, suffers the same to be in a filthy or noxious state, or neglects to employ proper means for cleaning the same, shall be liable to a penalty not exceeding fifty Rupees, and a further penalty not exceeding ten Rupees, for every day after conviction for such offence during which the offence shall continue.

Neglecting to enclose and roof a private privy.

155. The owner or occupier of any building having a privy on his premises shall have such privy shut out by a sufficient roof, and wall or face from the view of persons passing by or residing in the neighbourhood. Every owner or occupier who shall omit to comply with, or shall commit any breach of any of the provisions of this section, shall be liable to a penalty not exceeding ten Rupees a day for each day of default or breach.

Branch drains, privies, to be under the control of the Commissioners, and to be kept in good order by owners.

156. All branch drains, as well within as without the lands or buildings to which they belong, and the privies and cesspools in or near any street, shall be under the survey and control of the Commissioners, and shall be altered, repaired and kept in proper order at the costs and charges of the owners of the lands and building to which the same belong, or for the use of which they are constructed or continued; and if the owner of any land or buildings to which any such drain, privy, or cesspool belongs, neglects, during eight days after notice in writing for that purpose, to alter, repair, and put the same to good order, in the manner required by the President,

If the owners neglect, President may cause to be done, and charge the owners with expense.

the President may cause such drain, privy, or cesspool to be altered, repaired, and put in good order, and the expense thereby incurred shall be paid by the owner, and shall be recoverable as hereinafter provided.

157. If any such drain, privy, or cesspool be constructed after these Regulations come into operation, without the consent in writing, or contrary to the directions of the President, or if any person constructs, re-builds, or unstops any drain, privy, or cesspool which has been ordered by him to be demolished or stopped up, or not to be made, every person so doing shall be liable to a penalty not exceeding fifty Rupees, and the President may cause such amendment or alteration to be made in any such drain, privy, or cesspool, as he thinks fit, and the expense thereof shall be paid by the person by whom such drain, privy, or cesspool was improperly constructed, re-built, or unstopped, and shall be recoverable from him as hereinafter provided.

Penalty for persons making or altering drains contrary to the order of the President.

158. The President, or any Officer appointed by him for that purpose, may inspect any such drain, privy, or cesspool, and, for that purpose at any time between sunrise and sunset, after twelve hours' notice in writing to the occupier of the premises to which such drain, privy, or cesspool is attached, may enter upon any lands and building with such assistants and workmen as are necessary, and cause the ground to be opened where he may think fit, doing as little damage as may be; and if, upon such inspection, it appears that the drain, privy, or cesspool is not in good order and condition, or that it has been constructed after these Regulations come into operation contrary to the provisions thereof, the expenses of such inspection shall be paid by the person to whom such drain, privy, or cesspool may belong, and shall be recoverable as hereinafter provided; but if the drain, privy, or cesspool be found to be in proper order and condition, and not to have been constructed in violation of the provisions of these Regulations, the President or Officer as aforesaid shall cause the ground to be closed and made good as soon as may be; and the expenses of opening, closing and making good such drain, privy, or cesspool shall, in that case, be defrayed by the Commissioners, provided always, that nothing hereinbefore contained shall authorize an entry into the zenanas, or private apartments appropriated to the females of Hindu and Musalmán families for the purpose of such inspection, until a reasonable time has been allowed for such inmates to retire.

Inspection of drains, privies, and cesspools.

Proviso.

159. Whenever, under the provisions of these Regulations, any work is required to be executed by the owner or occupier of any building or land, and default is made in the execution of such work, the President, whether any penalty is or is not provided for such default, may cause such work to be executed, and the expense thereby incurred shall be paid by the person by whom such work ought to have been executed, and shall be recoverable as hereinafter provided.

President, in default of owner or occupier, may execute works and recover expenses.

160. If the defaulter be the owner of the building or land, the President may, by way of additional remedy, whether any action or proceeding has been brought or taken against any such owner or not, require the payment of all or any part of the expenses payable by the owner for the time being from the person who then or at any time thereafter occupies the building or land under such owner, and, in default of payment thereof by such occupier on demand, the same may be levied by distress of the moveable property of such occupier, and every such occupier shall be entitled to deduct, from the rent payable, so much as is so paid by, or recovered from, him in respect of any such expenses.

Power to levy charges on occupier who may deduct the same from his rent.

161. No occupier of any building or land shall be liable to pay more money in respect of any expenses charged by these Regulations on the owner thereof, than the amount of rent due from him for the premises in respect of which such expenses are payable, at the time of the demand made upon him, or which, at any time after such demand has accrued, may become payable by him, unless he neglect, or refuse, upon application made to him for that purpose by the President, truly to disclose the amount of his rent, and the name and address of the person to whom such rent is payable; but the burden of proof that the sum demanded of any such occupier is greater than the rent which was due by him at the time of such demand, or which has since accrued, shall be upon such occupier; provided further, that nothing herein contained shall be taken to affect any special contract made between any such owner or occupier respecting the payment of the expenses of any such works as aforesaid.

Occupier not to be liable for more than the amount of rent due.

162. Whenever default is made by the owner of any building or land in the execution of any work required by the President to be executed, the occupier of any such building or land may cause such work to be executed, and the expenses thereof shall be paid to him by the owner, or the amount may be deducted out of the rent from time to time becoming due from him to such owner.

Occupier, in default of owner, may execute works and deduct expenses from his rent.

163. If the occupier of any building or land prevent the owner thereof from carrying into effect, in respect of such building or land, any of the provisions of these Regulations, after notice of his intention so to do has been given by the owner to such occupier, the President, upon proof thereof, may give an order in writing requiring such occupier to

[illegible] of occupiers opposing [illegible] of these Regulations.

permit the owner to execute all such works with respect to such building or land as may be necessary for carrying into effect the provisions of these Regulations, and if, after the expiration of eight days from the date of the order, such occupier continue to refuse to permit such owner to execute such works, such occupier shall, for every day during which he so continues to refuse, be liable to a penalty not exceeding fifty Rupees, and every such owner, during the continuance of such refusal, shall be discharged from any penalties to which he might otherwise have become liable by reason of default in executing such works.

Public tanks, &c., vested in the Commissioners.

164. All public tanks, reservoirs, cisterns, wells, aqueducts, conduits, tunnels, pipes, pumps, and other water-works existing at the time these Regulations come into operation, or afterwards made, laid, or erected, and whether made, laid, or erected at the cost of the Commissioners or otherwise, and all bridges, buildings, engines, works, materials, and things connected therewith or appertaining thereto, and also any adjacent land (not being private property or the property of Government) appertaining to any public tank, shall be vested in, and belong to the Commissioners.

Construction and maintenance of works for supply of water.

165. The Commissioners shall cause all existing public tanks, reservoirs, cisterns, wells, aqueducts, conduits, tunnels, pipes, pumps, and other water, works used for the supply of water to the inhabitants, or other purposes mentioned in these Regulations to be continued maintained, and supplied with water; or they shall substitute other such works and shall cause them to be maintained and supplied with water; and the Commissioners may, with the sanction of the Chief Commissioner for Mysore, from time to time, construct aqueducts and lay pipes for bringing water into Municipal limits and may provide any number of new tanks, reservoirs, cisterns, wells, and other such water-works for the purpose aforesaid.

Fouling water by bathing.
Washing animals or things, &c.
Throwing rubbish, &c.
Allowing drains, &c., to flow.

166. Whoever, except as permitted by the Commissioners under Section 168, shall bathe in any stream, tank, reservoir, well, cistern, conduit, or aqueduct belonging to the Commissioners, or washes or causes to be washed therein, any horse, dog, or other animal, or any wool, cloth, or wearing apparel, or any utensils for cooking or other purposes, or leather, or the skin of any animal, or other foul or offensive thing; or throws, puts, or casts or causes to enter therein any animal, or any gravel, stone, dust, or rubbish, or any dirt, filth, or other noisome or offensive matter or thing; or causes or suffers to run, drain, or to be brought thereinto, the water of any sink, sewer, drain, engine or boiler, or any other unwholesome or offensive liquid matter or thing belonging to him, or flowing from any building or from any ground occupied by him, or does anything whatsoever whereby any such water shall be in any degree fouled or corrupted, shall be liable to a penalty not exceeding fifty Rupees for each offence.

Water fouled by offensive trades.

167. Whoever being the proprietor of any gasworks, or being engaged or employed in the manufacture or supply of gas, or being the occupier or proprietor of any place where an offensive trade or manufacture is carried on, wilfully does any act connected with the said business, whereby the water in any stream, tank, reservoir, well, cistern, conduit, aqueduct, or other water-works belonging to the Commissioners, is fouled or corrupted, shall be liable to a penalty not exceeding one thousand Rupees, and to a further penalty not exceeding five hundred Rupees for every day while the offence is continued, after twenty-four hours' notice in writing from the President in that behalf; and the President may, after twenty-four hours' notice in writing, lay open and examine any pipes, conduits, and works belonging to such persons, and if, upon such examination, it appears that the water has been fouled or corrupted by anything proceeding from, or contained in the pipes, conduits or works examined, the expenses of such examination shall be paid by the person to whom such pipes, conduits, or works belong, or under whose management or control they may be, and be recoverable from him as hereinafter provided; but if it appear that the water has not been so fouled or corrupted, then such expenses, and all damages occasioned by the examination shall be paid by the Commissioners.

Commissioners may set apart bathing places.

168. The Commissioners may, at their discretion, set apart any public place, or any part of the large tanks or of the strand of any run (not being private property), for the purpose of being used as a bathing place; and may also provide or set apart a sufficient number of convenient tanks for the inhabitants to bathe in; and may also set apart tanks or reservoirs or runs of water for washing animals or clothes, or for any other purpose connected with the health, cleanliness, and comfort of the inhabitants.

Power to require unwholesome tanks on private premises to be cleansed or drained.

169. It shall be lawful for the President to require, by notice in writing, the owner of any premises to cleanse any private tank, and to drain off and remove any waste or stagnant water within any such premises which may appear to be injurious to health or offensive to the neighbourhood; and if such owner refuse or neglect to comply with such requisition during eight days from the service thereof, the President, his Officers and workmen, may enter such premises and do all necessary acts for all or any of the purposes aforesaid as he shall think fit,

and the expenses incurred thereby shall be paid by the owner of such premises so making default, and shall be recoverable as a debt due to the Commissioners.

Power to drain off and cleanse stagnant pool in open place.

170. The President shall, from time to time as he thinks fit, cleanse, fill up, or drain all receptacles of stagnant water, not being within any private enclosure, which shall appear to him likely to prove injurious to the health of the inhabitants, whether such receptacles be the private property of any person, or otherwise.

Commissioners, in executing works to provide roads, &c., where existing ones are injured.

171. The Commissioners, in executing any works directed or authorized by these Regulations to be made shall provide and make, at the expense of the Municipal Funds, a sufficient number of convenient ways, water-courses, drains, and channels, in the place of such as may be interrupted, injured, or rendered useless, by reason of the execution of such works, and, in case of any difference arising between the Commissioners and the persons affected thereby, such difference shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Commissioners breaking up street, to restore the same with all convenient speed.

172. When the pavement or surface of any street, or road, or when any sewer or drain, shall be opened or broken up by the Commissioners, their Officers or servants, they shall, with all convenient speed, complete the works on account of which the same shall have been broken up, and fill in the ground and make good the pavement and surface and the sewer or drain so opened, or broken up, and carry away the rubbish occasioned thereby, and shall, in the meantime, cause the place, where such pavement or surface shall be so opened, or broken up, to be fenced and guarded and sufficiently lighted during the night.

Situation of gas and water-pipes to be altered at the expense of the Commissioners.

173. If the President deems it necessary, for the purposes of these Regulations, to raise, sink, or otherwise alter the situation of any water-pipe or gas-pipe, or other water-works or gas-works laid in any of the streets, he may, from time to time by notice in writing, require the person to whom any such pipes or works belong, or under whose control they may be, to cause forthwith, or as soon as conveniently may be, any such pipes or works to be raised, sunk, or otherwise altered in position, in such manner as the President directs; provided that such alteration be not such as permanently to injure such works, or to prevent the water or gas from flowing as freely and conveniently as before; and the expenses attending such raising, sinking, or altering, and full compensation for the damage done thereby, shall be paid by the Commissioners, as well to the persons to whom such pipes or works belong, as to all other persons. And if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

If owner, &c., neglect to make alterations, the President may cause the same to be made.

174. If the persons to whom any such pipes or works belong or under whose control they may be, do not proceed forthwith, or as soon as conveniently may be after the receipt of such notice, to cause the same to be raised, sunk, or altered in such manner as the President requires, the President may cause such pipes or works to be raised, sunk, or altered as he may think fit; provided that such works be not permanently injured thereby, or the water or gas prevented from flowing as freely and conveniently as before.

Boards to be set up during repairs.

175. Every person intending to build or take down any building, or to alter or repair the outward part of any building, where any street or footway will be obstructed or rendered inconvenient by means of such work, shall, before beginning the same and having first obtained a license in writing from the President so to do, cause sufficient boards or fences to be put up, in order to separate the building, where such works are being carried on, from the street or footway, and shall continue such board or fence standing and in good condition, to the satisfaction of the President, during such time as the public safety or convenience requires, and shall cause the same to be sufficiently lighted during the night; and every such person, who begins to build or to take down or alter, or repair any building contrary to the provisions of this section, or who without license erects or sets up any board, scaffolding or fence whatsoever, or who, being licensed, fails to put up such fence or board, or to continue the same standing, and in good condition as aforesaid, during the time aforesaid, or who does not while the said boards or fences are standing, keep the same sufficiently lighted during the night, or who does not remove the same when directed by the President, within eight days, shall be liable to a penalty not exceeding fifty Rupees, and a further penalty not exceeding ten Rupees for every day while the offence is continued, after twenty four hours' notice from the said President.

[illegible] during repairs, &c.

176. The President shall, during the construction or repair of any of the streets, sewers, or drains vested in the Commissioners, take proper precaution for guarding against accidents, by shoring up and protecting the adjoining houses, and shall cause such bars, chains, or posts to be fixed across [illegible] of the streets, to prevent the passage of carriages, carts, or other vehicles, cattle or [illegible] while such works are carried on, as to him shall seem proper; and the

President shall cause any sewer or drain or other works in streets, during the construction or repair thereof, to be sufficiently lighted and guarded during the night; and whoever takes down, alters, or removes any of the said bars, chains, or posts, or extinguishes any light, without the authority or consent of the President, shall be liable to a penalty not exceeding fifty Rupees.

Penalty for not lighting deposits of building materials or excavations.

177. No person shall deposit any building materials, or make a hole in any street, without the permission of the President; and when such permission is granted to any person, he shall, at his own expense, cause such materials, or such hole, to be sufficiently fenced and enclosed, until the materials are removed, or the hole is filled up or otherwise made secure, and shall cause the same to be sufficiently lighted during the night; and whoever deposits materials, or makes a hole, without such permission, or fails to fence, or enclose, and light such materials, or hole, or does not remove such materials or fill up such hole when the permission has been withdrawn, shall be liable to a penalty not exceeding fifty Rupees, and a further penalty not exceeding ten Rupees, for every day while the offence is continued, after twenty-four hours' notice from the President.

Dangerous places to be repaired or enclosed.

178. If any building, tank, well, or hole, or other place, whether on public or private ground, be, for want of sufficient repair, protection, or enclosure, dangerous to human beings, it shall be lawful for the President to require, by notice in writing, the owner or occupier of the said premises to cause the same to be repaired, protected, or enclosed, so as to prevent danger therefrom; and if he shall refuse or neglect to comply with such requisition within twenty-four hours, or shall fail to complete the same with due diligence, he shall be liable to a penalty not exceeding fifty Rupees for each offence, and a further penalty not exceeding ten Rupees for each day of delay; and it shall be lawful for the President to cause the said premises to be repaired, protected, or enclosed, and do all necessary acts for all or any of the purposes aforesaid, as he shall think fit, and the expenses incurred thereby shall be recoverable as hereinafter provided.

Regulation of offensive Trades and of Burial and Burning Grounds.

No place shall be used as a slaughter-house or market, without a license from the President.

179. No place shall be used as a slaughter-house or as a market for the sale of butcher's meat, dead poultry, fish or vegetables, within the limits of the Cantonment and the Town of Bangalore, unless a license in writing for the use thereof as such has been obtained from the President, who is hereby empowered, at his discretion, from time to time, to grant and withdraw or revoke such licenses; and whoever, without such license, or after notice of its withdrawal or revocation, uses as a slaughter-house, or as a market for the sale of butcher's meat, dead poultry, fish, or vegetables, any place within the limits of the Cantonment and the Town of Bangalore, shall be liable to a penalty not exceeding two hundred Rupees, and to a penalty not exceeding fifty Rupees for every day after the conviction for such offence during which the said offence is continued. Provided that an appeal against the President's refusal to grant such license, or against his withdrawal or revocation thereof, shall lie to a Magistrate in the manner provided by Section 78 for appeals against assessment.

Commissioners to provide slaughter-houses, &c.

180. The Commissioners shall from time to time, provide a sufficient number of places for the purposes of being used as slaughter-houses and public markets.

Markets, slaughter-houses, &c., to be properly drained.

181. Every owner of a market or of any slaughter-house, within the limits of the Cantonment and the Town of Bangalore, shall cause such drains and cess-pits to be made therein as shall be considered sufficient by the President, and, if required so to do by the President, shall cause all the floors and drains to be paved with stone and burnt-brick or to be metalled with gravel, and shall also cause a supply of water to be provided, sufficient for keeping such market or slaughter-house in a clean and wholesome state; and if such owner, after notice in writing given to him by the President, that such market or slaughetr-house is defective in any of the said particulars, and requiring him to remedy the defect specified within not less than thirty days, makes default therein, he shall be liable to a penalty not exceeding fifty Rupees for every day during which such default is continued.

Penalty for slaughtering, except at a slaughter-house.

182. Whoever, for the purpose of sale, slaughters, cuts up, or skins any sheep, goat, or pig, or any cattle, at any place within the limits of the Cantonment and the Town of Bangalore, other than in a licensed slaughter-house, shall be liable to a penalty not exceeding twenty Rupees for each animal.

Sale of unwholesome food or drink.

183. It shall be lawful for any Magistrate, on the application of the Commissioners or any of their Officers, setting forth that there is just cause to believe that any animal or article which is or has been rendered or has become noxious or unfit for use as food or drink for man, is in the possession of any person

for the purpose of being used, or sold, or offered, or exposed for sale within the limits of the Cantonment and the Town of Bangalore as food or drink for man, to grant a warrant to enter upon the premises of such person and to search for and seize such animal or article; and if it appear to the said Magistrate, upon the evidence of a competent person, that the same is noxious or unfit for such use, he shall order such animal or article to be forfeited and disposed of in such way as to him shall seem proper.

Power to Commissioners to enter and inspect slaughter-houses, shops, &c., and to seize unwholesome articles exposed for sale.

184. The Commissioners, or any person appointed by them for that purpose, may, at all reasonable times, with or without assistants, enter into and inspect any market, building, shop, stall or place used for the sale of butchers' meat, poultry, fish, fruit, or vegetables, or as a slaughter-house, and may examine any animal, carcass meat, poultry, game, flesh, fish, fruit, or vegetables which may be therein, and in case any animal, carcass, meat, poultry, game, flesh, fish, fruit, or vegetables appear to be intended for the food of man and to be unfit for such food, may seize and order the same to be destroyed or to be so disposed of as to prevent its being exposed for sale or used for food; and if it appear to a Magistrate, upon the evidence of a competent person, that such animal, carcass, meat, poultry, game, flesh, fish, fruit, or vegetables was unfit for the food of man, the owner thereof, or the person in whose possession the same was found, shall be liable to the penalty provided by Section 273 of the Indian Penal Code. If the Magistrate shall be of opinion that the article so destroyed was fit for the food of man, he shall make an order upon the Commissioners to pay to the owner such amount as the said Magistrate shall consider to have been the fair value of the article.

Offensive and dangerous trades and depôts in existence before passing of these Regulations to be registered.

185. The owner or occupier of every place within the limits of the Cantonment and the Town of Bangalore used at the time these Regulations come into operation for any of the following purposes, namely, for melting tallow, or for boiling offal or blood, or as a soap, camphor, or oil boiling house, or as an oil mill or press, or as a dyeing house or yard, or as a tannery, or as a brick pottery or lime kiln, or as a paper manufactory, or as any other manufactory or place of business, from which any offensive or unwholesome smell arises, or as a yard or depôt for hay, straw, timber, firewood, coal, or fuel, shall, within three months after these Regulations come into operation, whether the same be kept for sale or otherwise, register the same at the office of the Commissioners in a book to be kept by them for that purpose; and whoever, after the expiration of the said three months and after eight days' notice from the President, uses any such place without the same being registered, shall be liable to a penalty not exceeding one hundred Rupees for every day during which the offence is continued.

Power of President in respect of place of noxious trades which may be public nuisances.

186. If it be shown to the satisfaction of the President that any place registered under the preceding section is a nuisance to the neighbourhood or injurious to health, he may give notice to the occupier to discontinue within one month the use of the place, or to use it in such a manner only as the President may in writing direct; and whoever, after the expiration of the time so fixed, shall use such place, or permit it to be used, in violation of the terms of the notice, shall be liable to a penalty not exceeding two hundred Rupees for every day during which it shall be so used.

Penalty for newly establishing such trades or depôts without license.

187. No place shall be newly used within the limits of the Cantonment or Town of Bangalore for any of the purposes mentioned in Section 185, except under a license from the President, who is hereby empowered, at his discretion, from time to time, to grant, withdraw, or revoke such license; and whoever, in violation of this section, uses any such place for such purpose, without a license, or after its withdrawal or revocation, shall be liable to a penalty not exceeding five hundred Rupees, and a penalty not exceeding fifty Rupees for every day after the conviction for such offence during which the said offence is continued.

Burial and burning grounds to be registered.

188. The Commissioners may, if they think fit, cause a survey and measurement to be made of every burial ground and every place used as such; and every such place, and every burning ground now existing be registered by the owner or the person having the control thereof, or, if there be no owner or person authorized to control the same, by order of the Commissioners, in a book to be kept by them for that purpose; and whoever, after the expiration of the said time, knowingly buries or burns, or causes, procures or suffers to be buried or burned, any corpse in or on any ground not so registered as a burial or burning ground, shall be liable to a penalty not exceeding one hundred Rupees.

[illegible] No vault or grave shall be made within the walls of, or underneath any church or chapel, or other place of public worship built within the limits of the Cantonment and the Town of Bangalore after these Regulations come into operation, and no burial or burning ground, whether public or private, shall be opened, made, or

[illegible] burial or burning place [illegible] without

formed, within the said limits after these Regulations come into operation, otherwise than by, or under the authority of the Chief Commissioner for Mysore, without a license describing the extent and boundaries thereof, first obtained from the President, who is hereby empowered, at his discretion, from time to time, to grant such licenses; and whoever shall bury or burn, or cause, permit, or suffer to be buried or burned, any corpse in any vault, grave, or burial or burning ground, opened, made, or formed without such license, or contrary to the terms thereof, or in any public or private place, shall be liable to a penalty not exceeding five hundred Rupees.

President to issue certificates prohibiting the use of improper burial and burning places.

190. If upon the evidence of competent person, the President with the sanction of the Chief Commissioner for Mysore, shall certify, in manner hereinafter provided, that any burial ground or place of burial, or any place used for the burning of corpses, within the limits of the Cantonment and the Town of Bangalore, is in such a state as to be dangerous to the health of persons living in the neighbourhood thereof, or that any church or other place of public worship within the said limits is dangerous to the health of persons frequenting the same, by reason of the state of the vaults or graves within the walls of or underneath the same, or in any churchyard or burial ground adjacent thereto, and shall also certify that a fitting place for interment or burning, as the case may be, exists within a reasonable distance and is available, it shall not be lawful, after a time not less than two months to be named in such certificate, to bury or burn, or permit or suffer to be buried or burned, any corpses in, upon, within, or under the ground, church, or place of worship to which the certificate relates, except in so far as may be allowed by such certificate, and whoever, after due publication of such certificate as hereinafter provided, buries or burns, or causes, permits, or suffers to be buried or burned, any corpse contrary to this enactment, shall be liable to a penalty not exceeding two hundred Rupees. Provided always, that every such certificate shall be published in the Mysore Gazettee and that a translation thereof in the vernacular language chiefly in use shall, in the case of a burial or burning ground, be affixed conspicuously on some part of the said ground.

Proviso.

Commissioners shall provide places to be used as burial or burning grounds.

191. The Commissioners shall, from time to time, out of the Municipal Funds, with the sanction of the Chief Commissioner of Mysore, provide fitting places to be used as burial or burning grounds.

Rights of Entry and Powers in reference to Works.

Power to enter upon lands for the purposes of these Regulations.

192. The Commissioners shall, for the purposes of these Regulations, have power, by themselves or their Officers, between sunrise and sunset, to enter into and upon any building or land, as well for the purpose of making any survey or inspection which they may be entitled to make, as for the purpose of executing any work authorized by these Regulations to be executed by them, without being liable to any legal proceedings or molestation whatsoever on account of such entry or of any thing done in any part of such building or land in pursuance of these Regulations. Provided that except when herein otherwise provided, the Commissioners, or their Officers, shall not enter upon any building or land which may be occupied at the time, unless with the consent of the occupier thereof, without previously giving the said occupier twenty-four hours' notice of their intention to do so.

Proviso.

Power to Commissioners to enter on lands adjacent to works.

193. The Commissioners, or their Officers, or servants, may enter upon the land of any person adjoining to, or being within the distance of one hundred yards of any works by these Regulations authorized to be made for the purpose of depositing upon such land, any soil, gravel, sand, lime, brick, stone or other materials, or for any other purposes connected with the formation of the said works, without making any previous payment, tender, or deposit, doing as little damage as may be in the exercise of the several powers hereby granted to them, and making compensation for such temporary occupation or temporary damage of the said land, to the owner and occupier thereof from time to time, and as often as any such temporary occupation shall be taken or such temporary damage done, and making compensation to the owner also, for the permanent injury (if any) to such land; and if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Proviso.

Provided that before the Commissioners make any such temporary use as aforesaid of the land adjoining or lying near to the said works, they shall give seven days' notice of such their intention to the owners and occupiers of such land, and, if required, shall set apart, by sufficient fences, so much of the land as shall be required, to be used as aforesaid, from the other land adjoining thereto.

194. Whoever at any time obstructs or molests the Commissioners, or any person employed by the Commissioners, or any person with whom they have contracted under the provisions of these Regulations in the performance and execution of their or his duty, or of any thing which they are respectively empowered or required to do by virtue or in consequence of these Regulations, or removes any mark set up for the purpose of indicating any level or direction necessary to the execution of any work authorized by these Regulations, shall be liable to a penalty not exceeding two hundred Rupees, or, in the discretion of the Magistrate before whom he is convicted, to rigorous or simple imprisonment for any term not exceeding two months.

Penalty for obstructing persons employed by the Commissioners in their duty.

195. For the purpose of laying pipes or constructing aqueducts for bringing water into the Cantonment or the Town of Bangalore from any place without the limits thereof, or for the purpose of making dams, sewers, or drains to communicate with, or empty themselves into any public sewer, lake, stream, canal, or water-course without the said limits, it shall be lawful, whenever a plan for laying any such pipes or constructing any such dam, aqueduct, sewer, or drain, shall have been approved by the Chief Commissioner for Mysore for the Commissioners and their Officers, with such assistants as they may require, to exercise in the laying of such pipes and construction of such dam, aqueduct, sewer, or drain, throughout the line of country through which the said pipes, aqueduct, sewer, or drain are to run, all the powers which by these Regulations it is lawful for them to exercise within the limits of the said Cantonment or Town, and which may be necessary for the laying of such pipes or the construction of such dam, aqueduct, sewer, or drain, without being subject to any action or molestation whatever for so doing; and it shall also be lawful for the Magistrate of the District, through which the said pipes, aqueduct, sewer, or drain are to run, to exercise in respect thereof the like power and jurisdiction within the limits of his own district, as it is, by these Regulations lawful for a Magistrate to exercise in respect of any work to be executed by the Commissioners within the limits of the Cantonment or Town as aforesaid.

Powers to be exercised by the Commissioners, when constructing drains, aqueducts, &c., without the Town.

Lighting and Water Supply.

196. It shall be lawful for the Commissioners to assess upon the occupiers of all buildings, tenements and premises within the limits of these Regulations, an annual lighting rate not exceeding one per centum upon the annual value thereof.

Assessment of lighting rate.

197. The Commissioners may cause to be laid down in each street, lane, and thoroughfare of the Cantonment or Town of Bangalore, or in any division or portion thereof, sufficient mains and pipes for the supply of water in such street, lane, or thoroughfare, and may also erect in every such street, lane, and thoroughfare, sufficient and convenient stand-pipes for the gratuitous use of the rate-payers. The said stand-pipes shall be so placed that there shall not be a greater interval than one hundred yards between any such stand-pipes, and such stand-pipes shall at all times be kept charged with water.

Supply of water.

198. When the Commissioners shall have carried out a system for the supply of water to the Cantonment or Town as aforesaid, or to any division or portion thereof, including such convenient mains and stand-pipes as aforesaid, and such system shall in the judgment of the Commissioners be complete, the Commissioners shall, with the sanction of the Chief Commissioner for Mysore, declare, by Notification published in the Mysore Gazette, that the supply is complete, within the said Cantonment or Town, or any such division or portion thereof.

Notification of supply being complete.

199. After it has been so notified as aforesaid that the water-supply in any district has been completed, it shall be lawful for the Commissioners to assess a rate upon all occupied buildings and premises within such district. The said rate shall not exceed two per centum upon the annual value of the said buildings and premises.

Water-rate may be assessed.

200. Every householder assessed to, and paying the water-rate, shall be entitled to have, free of further charge or assessment in respect of the same, a supply of water from the mains and pipes of the Commissioners for the domestic use of himself and his household.

Householder entitled to supply of water for domestic use.

201. Every person assessed to and paying the water-rate shall be entitled to lay down communication pipes from the mains and pipes of the Commissioners for bringing into his house a proper and sufficient supply of water for domestic purposes. The communication pipes leading the water from the mains and pipes of the Commissioners into the house of any rate-payer, and the pipes and works within the house connected therewith, shall be of such character, dimensions, and material, as the said Commissioners, or their proper Officer in their behalf, shall fix and approve, and shall be made and constructed at the expense of the person requiring the same.

Communication pipes, &c., to be made of required dimensions and at expense of householder.

202. A supply of water for domestic purposes shall not include a supply of water for horses or for washing carriages where such horses or carriages are kept for sale or hire, or a supply for any trade, manufacture, or business, or for fountains, or for any ornamental or mechanical purpose.

What are domestic purposes.

203. It shall be lawful for the Commissioners to supply water, at a rate not exceeding one rupee for every two thousand gallons supplied, for other than domestic purposes, and for trader, manufacturing, business, ornamental or mechanical purposes; provided the person requiring such supply make application to the Commissioners in writing, specifying the purpose for which such supply is required, and the quantity likely to be consumed. And the Commissioners may thereupon, subject to such charges or rates as may be agreed upon between themselves and the person so requiring such supply not exceeding the rate aforesaid, lay down or allow to be laid down, the necessary communication pipes and works, of such dimensions and character as may be agreed upon between the Commissioners and person requiring such supply, or in the absence of such agreement, as may be fixed by the Commissioners.

Supply for business.

204. The communication pipes and works leading water from the mains and pipes of the Commissioners into any building or premises, must in all cases be executed subject to the inspection and to the satisfaction of the Surveyor or other Officer to be appointed in that behalf by the said Commissioners. Such communication pipes and works may be made by the servants and workmen of the Commissioners, upon such terms as may be agreed upon between the Commissioners and the person requiring the supply, or subject to such charges as may be fixed by the Commissioner; and it shall be lawful for the Commissioners to require the amount necessary for the execution of such works to be paid or deposited before such works are executed, and such charges and expenses shall be recoverable in the same way as the water-rate.

Communication pipes, &c., must be made to satisfaction of Surveyor.

205. The Commissioners shall at all times keep and maintain in their pipes and mains a sufficient supply of pure water for the use of the rate-payers, and for the other purposes for which supply is required; and shall at all times, between the hours of five in the forenoon and eight in the afternoon, maintain a pressure of water in the pipes and mains sufficient to raise the water in all buildings and places in which the same may be introduced.

Sufficient supply of pure water to be kept.

206. If any person supplied with water shall neglect to pay the water-rate at any of the times of payment thereof, or shall waste or misuse the water supplied to him, the Commissioners may stop the water from flowing into the premises in respect of which such rate is payable, or in which such waste or misuse has occurred, by cutting off the pipe to such premises, or by such means as the Commissioners may think fit, and may recover the expenses of cutting off the water from such person.

Water may be cut off on neglect to pay the rate.

207. Whoever shall wilfully or carelessly break, injure, or open any lock, cock, main, or pipe, belonging to, or under the management or control of, the Commissioners, or constructed, or continued or maintained under these Regulations, or shall unlawfully flush, draw off, divert, or take water from any water-works belonging to the Commissioners or under their management or control, or from any water or streams by which such water-works are supplied, shall, for every such offence, forfeit a sum not exceeding 50 Rupees, and a further penalty not exceeding 20 Rupees for each day during which the offence is continued after written notice in that behalf.

Damaging works or obstructing or diverting water.

208. All rates and monies collected, received, or recovered for or in respect of the supply of water, or the execution of works, and all penalties or forfeitures connected therewith, or in any respect relating to the water-supply, shall be applied by the said Commissioners in defraying the expense of making and maintaining the said water-works, in paying the interest of money borrowed for the said water-works, and in the liquidation of debts incurred connected therewith, or for some other purpose connected with the supply of water; and if any surplus should remain thereafter, then the same shall be applied in reduction of the rates assessed for the supply of water.

Application of rates and monies received from the supply of water.

209. Wherever any building or tenement is divided into flats, rooms, or portions in the occupation of different tenants, and also in the case of all buildings or tenements, the annual value whereof is less than one hundred Rupees, it shall be lawful for the Commissioners to assess the owner or landlord of such building or tenement, although he does not himself occupy the same, and to recover from him the rates imposed thereon for lighting and water, respectively.

Assessment may be on owner in certain cases.

210. The rates for lighting and water supply shall be ascertained, fixed, and collected in the manner and shall be payable at the times provided by Sections 63 to 90 of these Regulations, both inclusive.

Rates for lighting and water supply.

Registration of Births and Deaths, and taking of a Census.

Commissioners to keep a Register of births and deaths and appoint Registrars.

211. The Commissioners shall keep in their office a register of all births and deaths within the limits of the Cantonment and the Town of Bangalore, and for this purpose they shall divide the said Cantonment and Town into such and so many districts as they shall think fit, and for every such district they shall appoint a person to be Registrar of Births and Deaths within such district.

Every Registrar to live in his district; list of Registrars to be published, &c.

212. Every Registrar shall reside within the district of which he is Registrar, and shall cause his name with the addition of "Registrar of Births and Deaths" for the district for which he shall be so appointed, to be placed in some conspicuous place on or near the outer-door of his own dwelling-house; and the Commissioners shall cause to be printed and published a list containing the name and place of abode of every Registrar of Births and Deaths in the Cantonment and Town.

Commissioners to have Register Books prepared and numbered.

213. The Commissioners shall cause to be prepared and printed a sufficient number of register books for making entries of all births and deaths which may take place in the Town, according to the forms prescribed in Schedules K and L, to these Regulations annexed, and the pages of such book shall be numbered progressively from the beginning to the end.

Registrar to inform himself of, and register births and deaths.

214. Every Registrar shall inform himself carefully of every birth and of every death which shall happen in his district after these Regulations come into operation; shall learn and register, as soon as conveniently may be after the event, without fee or reward, the particulars required to be registered, according to the forms in the said Schedules K and L respectively, touching every such birth and every such death, as the case may be, which shall not have been already registered, every such entry being made in order from the beginning to the end of the book.

Information of births to be given within one week.

215. The father or mother of every child born within the limits of the Cantonment or Town of Bangalore, or in case of the death, illness, absence, or inability of the father and mother, some person who was present at, or in attendance during the child-birth, shall, within one week next after the day of every such birth, give information to the Registrar of the district according to the best of his or her knowledge and belief, of the several particulars hereby required to be known and registered touching the birth of such child. Any person whose duty it shall be to give information to a Registrar under this section, who shall refuse or neglect to give such information, shall be liable to a penalty not exceeding fifty Rupees for each offence.

Information of death how to be given.

216. Some one of the persons present at the death or in attendance during the last illness of every person dying within the limits of the said Cantonment or Town, or in case of the death, illness, inability or default of all such persons, the occupier of the building or tenement, or in case the occupier be the person who shall have died, some inmate of the building or tenement in which such death shall have happened, shall, within eight days next after the day of such death, give information to the Registrar of the District according to the best of his or her knowledge or belief of the several particulars hereby required to be known and registered touching the death of such person. It shall also be the duty of every person who is conducting or performing the funeral ceremonies of any person who has died within the limits of the said Cantonment or Town, when required, to furnish to the Registrar, or to any person authorized by him, such information as he may possess in relation to the said several particulars. Any such person who shall neglect or refuse to give such information, shall be liable to a penalty not exceeding fifty Rupees.

Person giving information to sign the Register.

217. Every person by whom the information contained in any register of births or deaths under these Regulations shall have been given, shall, if he can write, sign in the register his name, description, and place of abode, and if he cannot write, shall put his mark in the register to his name, description, and place of abode; and no such registration shall be deemed to be complete or of any effect until such person shall have so signed or put his mark to it.

Enumeration of inhabitants.

218. At such time and in such manner as shall be directed, from time to time, by the Commissioners with the sanction of the Government, an enumeration shall be made of the persons who at the time of making such enumeration shall be within the limits of the Cantonment and the Town of Bangalore: Provided always, that one clear month previous to such enumeration being commenced, notice of the intention to make the same, with the date or dates upon or within which

it is intended to be made, and all other necessary particulars, shall be published in the Mysore Gazette, and in such English and Vernacular newspapers in Bangalore as to the Chief Commissioner shall seem fit.

Commissioners to superintend the enumeration.

219. The Commissioners shall superintend the taking of such enumeration, and shall appoint such enumerators and make such arrangements generally as may seem to them necessary for the purpose of such enumeration, and all expenses incurred in respect of such enumeration shall be defrayed out of the Municipal Funds.

Delivery of Schedules and Returns.

220. Each enumerator or other subordinate officer appointed under these Regulations shall, agreeably to his instructions, leave at each building or place of residence within his district, four days at least before the time appointed for the collection of the completed returns or census, a blank schedule or return, to be of such form, and containing such particulars, as the Chief Commissioner for Mysore may approve, to be duly filled up and signed by the owner, tenant, or principal occupants of the said building or place of residence.

Occupier of building, &c., to furnish required information.

221. Any person wilfully neglecting or refusing correctly to fill up and affix his signature or mark to any such schedule or return so left at his place of residence, or who shall neglect or refuse to return the same to the enumerator or other officer when called upon so to do, or to furnish the necessary information to an enumerator to fill up the same for him, if he do not know how to write, shall be liable to a penalty not exceeding two hundred Rupees, and may also be detained in custody until he shall have correctly filled up and signed, or affixed his mark to the said schedule or return; Provided that it shall be the duty of the enumerator, if required, to fill up all schedules or returns for those who are unable to write.

Proviso.

Occupier to amend Returns if found defective.

222. Any enumerator or other subordinate officer employed in the collection of such schedules or returns, if he shall find any of the same defective, or in any respect improperly filled in, shall return the same to the occupant of the building or residence to which they relate; together with a written or printed notice requiring that the same be duly filled in or amended within a specified period not less than twenty-four nor more than forty-eight hours, and if such occupant shall then fail so to fill in or amend any such schedule or return, he shall, on conviction, be liable to a fine not exceeding one hundred Rupees, and may also be detained in custody until he shall correctly fill in or amend the said schedule or return.

Military Officers and certain others, if required, to act as enumerators.

223. Any Military Officer or any person in charge of a lunatic asylum, hospital, or prison, or of any public or private charitable or scholastic institution, or any keepers of hotels or lodging-houses, shall, if required, act as enumerators for the purpose of taking account of persons under their command or charge, or abiding in their houses, on the night immediately preceding the day to be appointed for the making of such enumeration; every person so required to act as an enumerator shall receive and conform to all instructions in writing which may be issued to him by the Commissioners in that behalf.

Returns of houseless persons.

224. The Commissioners shall obtain by such ways and means as shall appear to them best adapted for the purpose, and as shall be sanctioned by the Government, returns of the particulars required by these Regulations, with respect to all houseless persons and all persons who, during the said night preceding the day to be appointed for the making of such enumeration, were on out-door night duty, or for any other reasons were not abiding in any house of which account is to be taken by the enumerators.

Powers to make Bye-laws.

Commissioners empowered to make Bye-laws.

225. It shall be lawful for the Commissioners from time to time to make Bye-laws, and to repeal, alter, and amend the same, subject to the confirmation hereinafter mentioned, for the guidance and control of persons employed by them, and for the management and conduct of the places described in Sections 137, 179, 185, 186 and 191, and for preserving order and cleanliness in the Town, and for carrying out any of the purposes of these Regulations. Provided that no such Bye-law shall be repugnant to any law in force, and that no penalty for any one infringement of such Bye-law shall exceed twenty Rupees, and that, in the case of a continuing infringement, no penalty shall exceed ten Rupees for each day, after notice from the President of such infringement.

Bye-laws to be confirmed.

226. No Bye-law, or alteration of a Bye-law, shall have effect until the same is confirmed by the Chief Commissioner of Mysore.

227. No Bye-law, or alteration of a Bye-law, shall be confirmed until the same has been published in the Mysore Gazette at least five times, nor till the space of one month has elapsed since the date of the first publication, during which period a copy of such proposed Bye-law shall be kept at the Office of the Commissioners, and all persons may, at any time between eleven o'clock in the morning and five o'clock in the afternoon, inspect such copy without fee or reward.

Notice of confirmation.

228. Such Bye-laws, when confirmed, shall be published in the Mysore Gazette in the English, Kanarese, Tamil, and Hindustani languages, and copies thereof shall be painted and placed on boards which shall be hung up in some conspicuous part of the Office of the Commissioners.

Publication of Bye-laws.

229. All Courts and Magistrates shall take judicial notice of such Bye-laws, when the same shall have been confirmed and published as aforesaid.

Bye-laws to be judicially noticed.

230. All Bye-laws made under these Regulations, and all Bye-laws in force at the time when these Regulations come into operation, shall be deemed to be made under these Regulations.

Existing Bye-laws to continue in force till repealed.

General Provisions.

231. The Commissioners shall publish short particulars of the several offences for which any penalty is imposed by these Regulations, or by any Bye-laws made under these Regulations, and of the amount of every such penalty, and shall cause such particulars, in the English, Tamil, Kanarese and Hindustani languages, to be painted or placed on boards which shall be hung up in some conspicuous part of the Office of the Commissioners.

Publication of penalties.

232. It shall be lawful for the Commissioners to summon the owner or occupier of any place which is liable to taxation, registration, or inspection, or which requires to be licensed under these Regulations, or in respect of which they are authorized to do any act, or to make any order; or the owner of any article or animal liable to taxation or registration, or the agent or servant of such owner or occupier, and examine him, or to require him to make a return in writing, in respect of any matter relating to such place, article, or animal upon which they may require information for the purposes of these Regulations.

Power to summon persons liable to taxation, &c.

233. It shall be lawful for the Commissioners, their Officers, and servants, at any time between sunrise and sunset, to enter upon, or into any land or building for the purpose of inspecting any place, animal, or thing which is liable to taxation, registration, or inspection, or which should be licensed under these Regulations, or any place which is supplied by the Commissioners with water or gas, or through which water or gas pipes may run, or for the purpose of making any survey, or of executing, repairing, or inspecting any work, or of doing any other act authorized by these Regulations to be done by the Commissioners. Provided that the Commissioners, their Officers, and servants shall not enter into any apartment occupied by any woman, unless with the consent of such woman; without giving to the occupier of the house six hours' notice of their intention to do so.

Power to inspect places, articles or animals.

234. Whoever shall, without lawful excuse, obstruct, molest, or hinder the Commissioners, or any of their Officers or servants, not being public servants within the meaning of Section 21 of the Indian Penal Code, in doing any act authorized by these Regulations to be done by the Commissioners, shall be liable to a fine not exceeding two hundred Rupees.

235. Every bill, schedule, notice, or summons required or authorized by these Regulations to be served upon any person shall, if practicable, be served personally upon the person to whom it is addressed, or, if he cannot be found, it may be served upon some adult male member of his family, living with him; or if no such member of his family be found, then such bill, schedule, notice, or summons shall be held to be duly served, if it be affixed to some conspicuous part of the house in which such person shall have last resided: Provided that, if the President shall know the place of residence of such person, and such place shall be beyond the Municipal limits, the President shall send a copy of such bill, schedule, notice, or summons to such person at that place by post; and any bill, schedule, notice, or summons so sent by post shall be held to be duly served.

236. The Commissioners may direct any prosecution for any public nuisance whatsoever, and may order proceedings to be taken for the recovery of any penalties and for the punishment of any persons offending against the provisions of these Regulations; and if judgment shall be given against the defendant, the Magistrate may award the Commissioners their full costs of prosecution, the expenses of such prosecution or other proceeding, and any costs awarded to the defendant by the Magistrate, shall be paid out of the Municipal Funds.

[illegible] may direct prosecu-

But nothing in this section shall be held to hinder any person from publicly prosecuting any other person for any nuisance.

237. Nothing in these Regulations shall be construed to render lawful any act or omission on the part of any person which is, or but for these Regulations would by law be, deemed to be a nuisance nor to exempt any person guilty of a nuisance from prosecution or action in respect thereof.

Regulations not to affect nuisances at common law.

238. No suit shall be brought against the Commissioners or any of their Officers, or any person acting under the direction of the Commissioners for any thing done or intended to be done under the powers of these Regulations until the expiration of one month next after notice in writing shall have been delivered or left at the office of the Commissioners or at the place of abode of such person, explicitly stating the cause of action and the name and place of abode of the intended plaintiff, and of his Attorney or Agent in the cause, and, upon the trial of any such action, the plaintiff shall not be permitted to go into evidence of any cause of action, except such as is stated in the notice so delivered, and unless such notice be proved, the Court shall find for the defendant, and every such action shall be commenced within three months next after the accrual of the cause of action, and not afterwards: and if any person, to whom any such notice of action is given, shall, before action is brought, tender sufficient amends to the plaintiff, such plaintiff shall not recover in any such action when brought, and if no such tender shall have been made, it shall be lawful for the defendant in such action, by leave of the Court where such action shall be pending, at any time before issue joined, to pay into Court such sum of money as he shall think fit, and, thereupon, such proceedings shall be had as in other cases where defendants are allowed to pay money into Court.

No action to be brought against Commissioners or their Officers until after one month's notice of cause of action.

239. The Commissioners may, on a resolution to that effect passed by them at a meeting, make compensation, out of the Municipal Funds, to all persons sustaining any damage by reason of the exercise of any of the powers vested in the Commissioners, their Officers, or servants, under and by virtue of these Regulations.

Power to make compensation out of the Municipal Funds.

240. When any license or registration is granted under the provisions of Sections 137, 179, 185 or 191 of these Regulations authorizing the use of any place for any of the purposes therein described, and when permission is given under Section 113 for making any temporary erection, or under Section 128 for putting up any projection, the Commissioners may charge a fee for such license, registration, or permission; and the rates of the fees to be so charged shall be, from time to time, adjusted by the Commissioners with the sanction of the Chief Commissioner for Mysore: provided that no such fee shall exceed the sum of one hundred Rupees. When permission or license is given, for the temporary occupation of any ground belonging to the Commissioners under the provisions of Sections 175 and 177, the Commissioners may charge rent for such ground, according to the time the occupation may continue. Provided that all licenses, permissions, or registrations hitherto granted under any law hereby repealed shall be valid and continue in force for the purposes of these Regulations.

[illegible] Fees for licenses, &c.

241. In all cases where any damages or expenses are, by these Regulations, directed to be paid, the amount of the same, in case of dispute, shall be ascertained and determined by the Civil Court.

Damages and expenses how to be determined.

242. In any case referred to the Civil Court under the provisions of the preceding section, it shall be lawful for the said Court on the application of either party, to summon the other party to appear before them, at a time and place to be named in such summons, and every such summons shall be served by delivering the original or a copy thereof, to the person summoned, or by leaving the same at his usual or last known place of abode with some adult member or servant of his family. Upon the appearance of the parties, or in the absence of any of them, upon proof of due service of the summons, it shall be lawful for such Court to hear and determine such question, and, for that purpose, to examine such parties or any of them, and their witnesses, on oath, and the costs of every such inquiry shall be in the discretion of such Court who shall determine the amount thereof.

Method of proceeding before the Civil Court.

243. If the amount of damages, costs, or expenses ascertained in the manner above described, be not paid by the party liable to pay the same within seven days after demand, such amount may be recovered, under a warrant of one of the said Magistrates, by distress and sale of the goods and chattels of such party, and the overplus arising from the sale thereof, after satisfying such amount and the costs of the distress and sale, shall be returned on demand, if made within twelve months, but not otherwise, to the party whose goods shall have been distrained.

Recovery of damages by distress.

Commissioners may sue in any competent Court instead of realizing by or on failure of distress.

244. Instead of proceeding by distress and sale, and in case of failure to realize by distress the whole or any part of any expenses, charges or damages awarded under the provisions of these Regulations, the Commissioners may sue the person liable to pay the same in any Court of competent jurisdiction.

Recovery of fines and penalties.

245. Every prosecution under these Regulations in cases not otherwise provided for, shall be taken before a Magistrate with full powers having jurisdiction in the place in which the offence was committed. Any fine or penalty which may be imposed under these Regulations or under any Bye-laws in force, may be levied in the manner prescribed by Section 61 of the Code of Criminal Procedure as amended by Act VIII of 1869.

How fines and penalties are to be applied.

246. The Magistrate by whom any fine or penalty is imposed by virtue of these Regulations may award any portion, not being more than one-half thereof, to the informer, and shall order the remainder or, if he make no award to the informer, the whole of such fine or penalty to be paid to the Commissioners, to be by them applied to the purposes of these Regulations.

No person liable to fine or penalty unless complaint be made within three months after offence committed.

247. No person shall be liable to any fine or penalty under these Regulations for any offence made cognizable before a Magistrate, unless the complaint respecting such offence shall have been before a Magistrate within three months next after the commission of such offence.

Damage to the Commissioners' property to be made good in addition to penalty.

248. If, through any act, neglect, or default, on account whereof any person shall have incurred any penalty imposed by these regulations, any damage to the property of the Commissioners shall have been committed by such person, he shall be liable to make good such damage, as well as to pay such penalty; and the amount of such damage shall, in case of dispute, be determined by the Magistrate by whom the party incurring such penalty shall have been convicted; and on non-payment of such damage on demand, the same shall be levied by distress, and such Magistrate shall issue his warrant accordingly.

Police Officers to report offences to Commissioners, and to arrest unknown offenders.

249. It shall be the duty of all Police Officers to give immediate information to the Commissioners or to their Officers, of any offence committed contrary to the provisions of these Regulations, or the Bye-laws made in pursuance of Section 225 of these Regulations. Any Police Officer may arrest any person committing in his view any offence against any of the provisions of these Regulations, if the name and address of such person be unknown to him, and if such person decline to give his name and address, or if the Police Officer in question shall have reason to doubt the accuracy of such name and address, such person may be detained at the Station House until his name and address shall be correctly ascertained.

Despatch to the Secretary of State, No. 155, dated 24th June 1870.

Read—

Reply from the Secretary of State, No. 52, dated 16th February 1871.

OBSERVATIONS.—By this despatch, Her Majesty's Government have decided that every Civil Servant, who has completed 25 years' service and 21 years' residence in India, shall in future be allowed to retire on the full annuity of £1,000 payable in England, or Sicca Rs. 10,000 payable in India.

2. In regard to invalid annuities, Her Majesty's Government decline to consent to any augmentation of the existing scale, but permit the adoption of an annual increase of £20 instead of a quinquennial advance of £100 as at present.

3. As these changes, added to those which had already been made, will render the continuance of the machinery of the Annuity Funds entirely unnecessary, Her Majesty's Government direct that measures be taken for their abolition, it being understood of course that the four per cent. deduction from salaries is to be made as heretofore. The capital standing at credit of the Annuity Funds in the Government Books will be simultaneously credited to the Government.

4. The changes authorised by the despatch now read are to take effect from the 24th June 1870, the date of the despatch from the Government of India now read.

ORDERED, that these Observations be communicated to the Managers of the Bengal Civil Service Annuity Fund, with a request that they will ascertain and inform the Government at the earliest possible date whether the Members of the Bengal Civil Service are willing to surrender the accumulated annuity funds to the Government upon the terms offered by the Secretary of State.

Also, that copy of these Observations be forwarded to the Governments of Madras and Bombay, with a request that they will ascertain and report at once the decisions upon the same issue of the Members of the Madras and Bombay Services respectively.

Ordered also, that a copy of the above be published in the *Gazette of India*.

SEPARATE REVENUE.

(ASSESSED TAXES).

The 1st April 1871.

RESOLUTION.

No. 1994.

RULES FOR THE ENFORCEMENT OF THE INDIAN INCOME TAX ACT, 1871.

In the exercise of the power conferred by the Indian Income Tax Act, Section 47, the Governor General in Council is pleased to make the following rules for the guidance of officers in matters connected with the enforcement of the Act.

1. (*Section* 3).—A 'person' is defined to include a Hindu undivided family. It does not follow that the members of such a family may not possess separate income which is not the property of the family. Whether the income of an individual member of such a family is or is not the property of the family is a question of fact upon the decision of which must depend the answer to the question whether such income should be taxed as income of the family or not.

2. (*Section* 5).—All orders of exemption passed under Section 5 of the Indian Income Tax Act, 1870, which have not meantime been revoked, are hereby declared to be in force under Section 5 of the Indian Income Tax Act, 1871.

PART I.

3. (*Section* 6).—"Salary" includes all pay and allowances of appointments, whether substantive, officiating, or temporary; it also includes all fixed allowances ordinarily paid with salary proper, if they are given without reference to the question whether the service for which they are given is actually performed or not, or whether the expense in reimbursement of which they are given is actually incurred or not. An allowance, however, which is granted to cover specific expenses, and which is not paid unless those expenses are incurred, is not salary.

For example, house-rent allowance is salary if it is given independently of the question whether the officer to whom it is given actually rents a house or not; but if it is given only if charge on account of house-rent is incurred, then it is not salary.

4. The assessment made under this Part is not made with reference to annual income; so that a salary paid even for a single day, at the rate of Rs. 62-8 a month is liable to duty.

5. All sums stopped under the authority of Government on account of payments to pension or annuity funds, to regimental mess or band funds, or the like, shall be deducted from the salary previous to assessment. But the salary should not be exempted from duty on the ground that, after such deduction, it falls below the minimum.

6. If any servant, annuitant, or pensioner of Government has insured his life or that of his wife, or has contracted with an Insurance Company for a deferred annuity on his own life or that of his wife, he may make application to the Examiner of Claims or other officer whose duty it is to deduct the tax from his salary; and on proving to the satisfaction of that officer the amount of any payment made on account of such insurance during the year of assessment, he will be entitled to a refund of the tax on such payment. Provided that no refund shall be allowed in respect of any sum by which such payment added to the subscription of the assessee to the Service Annuity and Insurance Funds may exceed one-tenth of his full salary.

Example.—A civilian who pays 4 per cent. of his income to the Annuity Fund, and 2½ per cent. to the Civil Fund, can claim exemption under this rule for not more than 3½ per cent. of his income.

7. *Section* 9.—The form of return to be made by the treasurer or other proper officer of a Company, &c., is appended (Form A). The Collector will be able by this return to test the payments made by the treasurer or other proper officer of sums deducted from the salaries of servants, &c. But it is to be observed that subsequent changes of establishment, enhancement of salaries or addition of new salaries, may cause the amounts paid in to Government to exceed those calculated from the returns so made; and the Collector should take steps to satisfy himself that additional deductions due to increased or to new salaries are duly made. The same remarks apply to pensions and annuities.

8. The deductions made by the treasurers or other proper officers will be paid over to the Collector at least once a quarter, and the Collector will arrange with the Companies, &c., the time and place of payment. The treasurer or other proper officer, in paying over the amount, will give a statement showing the amount deducted from each officer's salary for each month.

9. If any person assessable under Section 9 has insured his life or that of his wife, or has contracted with an Insurance Company for a deferred annuity on his own life or that of his wife, he may make application to the Collector, and on proving to his satisfaction the amount of any payment made on account of such insurance during the year of assessment, he will be entitled to a refund on the amount of the tax on such payment. Provided that such refund shall not exceed one-tenth of the tax paid by the said person during the year of assessment. No abatement under this rule shall entitle any person to exemption from assessment on the ground that his monthly salary is thereby reduced below Rs. 62-8.

10. All salaries, annuities, or pensions becoming due on or after the 1st April 1871 will be subject to assessment under the Act. For instance, salaries for the month of March, if payable by custom or rule on 1st April, will be so subject.

PART III.—COMPANIES.

11. The Collector should take immediate steps to obtain the statements required for assessments under this part. It will be perceived that he is now empowered to enquire into the accuracy of the statements rendered to him.

PART IV.—GOVERNMENT SECURITIES.

12. This Part is new. Instalments of interest which have fallen due before April 1 are not liable to taxation, notwithstanding that they may be actually disbursed after that date. On the other hand, interest which becomes due on or after April 1 is liable to taxation, even though it may have commenced to accrue before April 1.

13. The deductions are to be made at the time of payment by the officers making the payments, and these officers are responsible for crediting to Government the amounts deducted. A form (Form B) is annexed for the certificate to be given by the Collector to persons entitled to exemption under this Part by reason of the insufficiency of their whole income. This certificate requires no stamp.

14. Interest on Government Securities, which are the property of the Service Funds, is exempted from duty.

15. Interest on Government Securities, when it is solely employed for religious or charitable public purposes, will also be exempted from duty on the production, before the officer empowered to pay the interest, of a certificate from the Collector that it is so employed.

PART V.—OTHER INCOME.

16. The principal change introduced in the Act is this, that assessments are no longer to be made upon an estimate of future incomes, but are to be

made on the basis of the actual income accrued during the past year. The assessment is always to be made on this basis in the first instance, whatever may be the prospects of income for the year, but the assessment so made can be amended if steps are taken for that purpose by the assessee in accordance with Section 38 of the Act.

17. In the case of incomes of Rs. 4,000 or over, a notice under Section 23 (the form of which, Form C, is appended) must always issue before assessment is made. A person neglecting or refusing, without sufficient excuse to make the return required, is not permitted to make any objection to the assessment made by the Collector in the absence of his return. He may also be prosecuted under the Indian Penal Code.

18. It will be observed that there is now no assessment by classification, the rate of two pies for every rupee being the same for all incomes.

19. In the case of an assessee having places of residence or of business within the jurisdiction of more than one Collector, the Collector within whose jurisdiction the principal place of residence or of business is situate, should be careful, before making the assessment, to ascertain from the other Collectors the amount of income arising or accruing within their respective jurisdictions.

20. *Section* 19.—The requisition under the first part of Section 19 should be made in Form C prescribed for the notice under Section 23.

21. *Section* 22.—The first clause of this section applies only to dwelling houses and the surrounding premises. It is not intended to apply to lands from which agricultural or commercial profits are derived.

22. *Section* 25.—The form prescribed under Section 25 is Form D appended. Intentional omission to make this return is provided for in the Penal Code.

23. *Sections* 28 *and* 30.—Forms E and F are also prescribed for the notice under Section 28, and the receipt under section 30.

24. As it is desirable to avoid as far as possible periodical enquiry into particulars of income, the assessments now made should be made and recorded, in such a form and with such care that, if the tax be renewed, they may be used, as far as the law may permit, as the basis on which it may be worked.

25. The careful assessments made under the Act of 1870, and under the Acts of previous years, will no doubt afford great assistance in making assessments under the new Act; and although assessment-lists, however carefully prepared, cannot be used as an absolute standard for subsequent years, but must be liable to continual partial revision, yet it is believed that, with care, the assessments may now be made in such a manner that the tax, if renewed by the legislature, may be collected without harassing the tax-payers by many new enquiries.

PART VI.

26. *Section* 34.—It will be observed that a Collector or Commissioner is not bound by law to summon every person named as a witness. Where it is necessary to summon witnesses, the expense should ordinarily be borne by the Government.

27. The expense attending the interpretation of accounts which are illegible or unintelligible through their not being kept in the language and form in ordinary use in the district, must be borne by the person in whose behalf they are produced.

28. The Act makes no provision for the expenses of witnesses, and they therefore cannot claim re-imbursement.

PART VII.

29. The mode of recovering the tax in the case of default has been changed. If an assessee makes default, the Collector has now to proceed to the recovery of a sum not exceeding twice the amount in respect of which

default is committed, either by the process for the recovery of arrears of land-revenue or by the process provided by the Civil Procedure Code for the execution of a decree for money.

30. *Section* 37.—The form for notice under Section 37 is appended to this Resolution (Form G).

PART IX.

31. *Section* 46. The Local Governments and Administrations are hereby empowered to determine, after communication with each other, when any Company, firm, or person has several places of business or of residence in the territories subject to different Local Governments and Administrations, which of such places of business or of residence shall be deemed, for the purposes of this Act, the principal place of business or of residence. If in any case the Local Governments concerned cannot agree, the question should be referred to the Governor General in Council for decision, with a statement of facts.

32. *Section* 47.—The Local Governments are empowered under Section 47 (*c*) to make any further rules, consistent with the Act, that may appear necessary.

GENERAL.

33. In charging duty under the Act, fractions of annas should be omitted.

34. Registers will be kept in the forms appended to this Resolution, as follows:—

Register 1, 1A, 2, 3, 3A, 4, by every officer exercising the powers of a Collector.

Register 5, by every officer exercising the powers of a Commissioner of Revenue.

35. The Local Governments will submit to the Government of India half-yearly and annual returns I, II, III and IV in the forms appended to this Resolution.

Deductions from the gross receipts may be allowed on account of the following items:—

(*a.*) In the case of professions and trades—

Sums expended in the repairs of implements, utensils, or articles used solely for the purpose of the profession or trade.

Sums expended for insuring or keeping insured the buildings, machinery, implements and stock used for the purposes of the profession or trade, and rent paid for any premises used for such profession or trade, provided that if such premises shall not have been exclusively used for such profession or trade, a fair proportion only of such rent shall be deducted from the gross receipts.

Ten per cent. on the rack-rent of such premises on account of repairs, if such repairs are at the cost of the petitioner, whether it has or has not been actually expended during the year of assessment.

Sums expended in the payment of persons employed solely in such profession or trade.

The amount of any losses of the stock-in-trade. The excess loss sustained in any profession or trade over and above the profits thereof may be set against the excess profits of any other profession or trade exercised by the same person.

The amount of any bad debts for the first time ascertained and written off as such during the year.

Interest paid on money borrowed for the purpose of the trade or profession.

Sums paid to an Insurance Company for insurance of the life or for a deferred annuity on the life of the person assessed or his wife, not exceeding one-tenth of the said profits.

(*b.*) In the case of income from houses—

Any rent paid on account of such houses, but not taxes, or local rates, or cesses.

Sums expended for insuring and keeping insured such houses.

Ten per cent. on the rack-rent of the houses on account of repairs, if such repairs are at the cost of the petitioner, whether it has or has not been actually expended during the year of assessment.

(*c.*) In the case of income from land—

Any rent or land-revenue payable for the year of assessment in respect of the land.

Sums expended during the year of assessment in the cultivation of the land, but not in its permanent improvement.

Interest on sums expended in the permanent improvement of the land.

(*d.*) In the case of income from lands or houses—

Sums expended in collecting the rent, not exceeding six per cent. of the gross rental In the case of landholders this will cover cesses and village servants and other such expenses.

Annual interest payable to a mortgagee not in possession.

In the case of a firm or of a Hindu undivided family, no entry should be made in column 5; but in other cases where the shares are chargeable separately, and it is wished that they shall be so charged, the column must be filled in.

If the person filling in the return is chargeable (1) as a trustee, guardian, curator or committee of any infant, married woman subject to the law of England, lunatic or idiot; (2) as an agent of a non-resident; (3) as receiver or manager appointed by any Court in India, a Court of Wards, an Administrator General or an Official Trustee in respect of income officially in his possession or under his control, the fact should be stated in the column of remarks.

OBSERVATIONS.—The Governor General in Council observes that the draft rules have substantially been accepted by all the Officers and Heads of Administrations consulted. Certain slight alterations have been suggested, most of which have been approved by the Governor General in Council, and are embodied in the rules herewith issued.

2. Objections, however, have been in some quarters brought forward to some of the text books now in use, *viz.*, to ***Maine's Ancient Law and Austin's "Province of Jurisprudence Determined"*** and ***J. S. Mill's Political Economy***, as being too advanced and abstruse for such examinations as are contemplated in these rules. The Governor General in Council, considering that there is much weight in these objections, has determined, as far as the examinations conducted under the authority of this Office are concerned, to substitute for the above the following text books :—

Bentham's Theory of Legislation, published by Messrs. Trübner, London, 1864.
Fawcett's Manual of Political Economy.

Secretary to the Punjab Government.
Chief Commissioner, Oudh.
,, ,, Central Provinces.
,, ,, British Burmah.
,, ,, Mysore.
Resident, Hyderabad.
Agent to the Governor General, Rajpootana.
,, ,, ,, ,, Central India.

ORDERED, therefore, that the rules, as now approved, be, with this Resolution, published in the *Gazette of India*, and that copies be sent to the Administrations and Officers mentioned in the margin, and to the Home Department and Military Department.

Rules for the examination of Probationers for the Staff Corps in the Administrations and Branches of the Service under the control of the Foreign Office.

Under the terms of paragraph 5 of Notification in the Home Department, No. 3101, dated 5th October 1864, marginally quoted, the following instructions are issued for the conduct of examinations, without passing which, under paragraph 3 of the above Notification, a Probationer cannot be permanently appointed to the Staff Corps :—

"Subject to such general directions as shall from time to time be given by the Government of India, the examinations will be conducted by a Committee acting under the orders of the Lieutenant Governor, or Chief Commissioner, or Political Agent, or Resident, as the case may be."

This Department is concerned with two classes of such Probationers :—

Punjab.
Oudh.
Central Provinces.
British Burmah.
Hyderabad Assigned Districts.
Mysore.

I.—Those employed in the Civil Administration of the provinces noted on the margin.

II.—Those employed in the Political Department.

1. The subjects and books for the examination of the first of the above classes will, from the 1st of November next, be as follows :—

Indian History—The last Edition of *Marshman's History.*
Political Economy—*Fawcett's Manual.*
Jurisprudence—Bentham's *Theory of Legislation* [Trübner, London, 1864.]

2. Half-yearly examinations in the above subject will, as laid down in paragraph 4 of Notification in Home Department No. 3101, dated 5th October 1864, be held in April and October of each year.

3. The Head* of the Administration will, not less than a month in advance, fix the exact date on which, and the place where, the examinations will be held; will publish the same in the local Gazette, if there be one; and send notice to all Officers liable to examination.

* Lieutenant Governor, Chief Commissioner, Resident, or Agent to the Governor General.

4. Not less than a fortnight before the date fixed for examination, the Head of the Administration will appoint a Committee for the conduct of the examination, to consist of not less than two Officers.

5. Such Committee will frame papers of questions [to be not less than 8 or more than 12] on each of the books above mentioned.

6. The candidates will be allowed three hours to answer each set of questions.

7. To each question a number of marks will be allotted, to amount to about 100 in the aggregate. To pass the examination in each particular subject, it will be necessary that the candidate obtain 60 per cent. of such aggregate maximum number of marks.

8. When the examination is concluded, the Committee will submit to the Head of the Administration—

(1). The questions and answers.

(2). A Schedule of the marks attained by each of the candidates in the following form :—

9. The Head of the Administration will consider the recommendation of the Committee, will decide whether the several candidates have or have not passed the required tests, and will report his decision to the Foreign Secretary within one month from date of examination. If, in his opinion, any Officer has passed "with credit" or "with great credit," he will state this in the report.

10. He will at the same time furnish a Statement of all Officers liable to examination in the following form :—

NAME OF CANDIDATE.	Date of appointment as Probationer in Civil Department of Staff Corps.	Number of half-yearly examinations since appointment as Probationer.	Remarks showing whether candidate has passed, and if not, whether, under Rule IV of Notification No. 3101, dated 5th October 1864, he has any further period of grace.

11. As prescribed in paragraph 7 of Notification No. 3101, dated 5th October 1864, in Home Department, "every Officer in civil employment will, in addition to the above examination, and notwithstanding his appointment to the Staff Corps, be required to undergo the local and departmental examinations prescribed for Covenanted Civil Servants in the province in which he is serving."

Paragraph 8, Notification in Home Department No. 3101, dated 5th October 1864, and paragraph 4, Notification in Foreign Office No. 1484, dated 5th December 1864.

12. For the second of the two classes of Officers above mentioned, the tests are the same as above, and they are in addition required (under the Rules marginally noted) to pass an examination in—

(1). *Wheaton's International Law.*

(2). *Aitchison's Treaties*, more particularly those portions relating to the province in which the Officer is serving.

(3). The Persian language.*

* "Under paragraph 4 of the above Notification, the production of a certificate to show that the candidate *has* elsewhere passed an examination in Persian will exempt him from examination therein.

In British Burmah the test will be the higher standard in Burmese.

13. For the examination in the first two of the above subjects, Rules 5, 6, and 7, above detailed, will apply.

14. For the examination in the Persian language two papers will be set :—

(1). A passage of Persian to be translated into English.

(2). A passage of English to be translated into Persian.

The candidate will also be required to hold with moderate fluency a conversation in Persian with some proficient in that language, to be appointed by the Committee. He will also be required to read a Persian manuscript with a fair amount of facility.

15. To each of the above four tests a maximum of 20 marks will be allotted, and the attainment of not less than 45 marks in the aggregate will entitle the candidate to pass.

16. For the rest, Rules 1 to 4 and 8 to 10 above specified will, *mutatis mutandis*, apply to the examination of this class of Officers.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Fort William, the 20th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870 :—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*),

or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

(*Name in full*).

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

(*Name in full*).

(*Date*)

(*Place*)

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:—

ADVERTISEMENT.

1. The Government of India, after communication with various Agricultural and Horticultural Societies in India and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2. The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3. The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or

near the plantations, as the refuse is very useful as manure for continued cultivation.

4. To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5. Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6. Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7. All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9. In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are therefore requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to (*here insert the locality to which it is desired that the stems be forwarded*), or to the nearest Railway Station, I promise to remit the total amount so required to the said Officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:—

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870 :—

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Simla, the 13th April 1871.

No. 1894.—Mr. J. Geoghegan, Under Secretary to the Government of India in the Home Department, has reported his return to India on the 8th instant from the furlough granted to him in Notification No. 1975, dated the 6th April 1870.

The 15th April 1871.

No. 1931*A.*—Under Section 3 of Act VIII. of 1870 (an Act for the prevention of the murder of female infants), the Viceroy and Governor General in Council is pleased to confirm the following Rules drawn up by the Government of Bombay under the provisions of Section 2 of that Act:—

Rules made under Section 2, Act VIII. of 1870, and applied, as per Notification dated 21st December 1870 in the General Department, published in the Bombay Government Gazette *of the 22nd December 1870, page 1346, to the Lewa and Kurwa Kunbee castes in the Ahmedabad and Kaira Districts under the Government of Bombay.*

1. For the purposes of Act VIII. of 1870, there shall be formed, in each of the Districts of Ahmedabad and Kaira, an Infanticide Fund which shall consist of—

I. Fees for the registration of births ... } of members of the castes of
II. Ditto ,, of deaths ... } Kurwa and Lewa Kunbees resid-
III. Ditto ,, of betrothals ... } ing in any portion of the above
IV. Ditto ,, of marriages ... } Districts.

2. In each talooka there shall be one or more officers, appointed by Government, who shall be styled Registrars of Births, Deaths, and Marriages in the Kurwa and Lewa Kunbee castes. Each Registrar shall hold his office in such places as the Collector of the District may appoint. He shall register in such books and according to such forms as may be ordered by the Collector all notices of births, deaths, betrothals, marriages and re-marriages, in the above castes, as may be brought to him by members of those castes for registration. He shall receive the authorized fees and credit them to the Infanticide Fund in such way as the Collector may direct. He shall immediately report to the Collector, or to such officer as he may name, all unregistered births, deaths, betrothals, marriages and re-marriages which may come to his knowledge. He shall, on receiving the report of the death of a female child, proceed immediately to the house in company with the village Police Patel or a Police Officer not below the grade of Head Constable. If they be satisfied that the death arose from natural causes, the Registrar shall give a written permission to remove the body for burial or cremation. If either the Registrar or Police Officer entertain any doubt, the matter shall be handed over to the Police Officer for disposal according to law.

3. It shall be the duty of the under-mentioned persons, members of the Kurwa and Lewa Kunbee castes, and resident at the time in the above Districts, to report, as below, to the Registrar of the Talooka or Town in which he may be resident, the fact of any birth, death, betrothal, marriage, or re-marriage, which he is hereby liable to report:

Birth.—The father of the child: in his absence, the nearest male relative; if none present in the village or town, then the nearest female relative so present.

Death.—Of a child, as for a birth. Of an adult female, the husband; in his absence, the nearest male relative on the husband's side; if none present in the village or town, then the nearest female relative of the wife so present.

The above births and deaths to be reported within 12 hours of their occurrence, except the deaths of female children, which must be reported within one hour; and no such female child shall be removed for burial or cremation without the written permission of the Talooka or Town Registrar.

Betrothal.—The parents or nearest-of-kin of bride and bridegroom, with said bride and bridegroom and with a copy of the contract of betrothal (Vihwa Lekh) within 48 hours of the making of the contract.

Marriage.—The same as for betrothal.

Re-Marriage.—[illegible]e and bridegroom within 48 hours.

4. The under-mentioned fees shall be paid by the above-mentioned persons at the time of reporting the above births, deaths, betrothals, marriages, and re-marriages:

Birth, 4 annas.
Death, 4 annas.
Betrothal, 1 Rupee from the parents of the bride, 1 Rupee from those of the bridegroom.
Marriage, ditto ditto.
Re-marriage, 1 Rupee from the bridegroom.

5. It shall be the duty of every male member for the above castes as to furnish to [illegible] person as Government may direct, in any form approved by Government, any information it may require as to the number, age, sex, &c., of members of his family, or of his caste living in his house or under his control.

6. Should Government consider necessary for the purposes mentioned in Clause 3 of Section 2 of Act VIII. of 1870, that any Police force in excess of the ordinary fixed establishment, or any officers or servants be entertained, it shall be lawful for the Collector to assess on the class, family, or persons, among whom the above Police Officers or servants are to be employed, the amount of pay for such Police Officers and servants as Government may from time to time fix. The assessment shall be levied as a revenue demand by the Collector.

7. The following shall be the scale of expenses to be incurred for the celebration of marriages, and any ceremony or custom connected therewith, among the members of the Kurwa and Lewa Kunbee castes, and no other payment of any description shall be made or received:

I.—The father of the bride shall not give to the father of the bridegroom a *chaudla* (dowry) of more than from Rupee 1 to Rs. 100. This shall be given at such time as the parties may agree on before the marriage.

II.—The father of the bride shall not pay to the father of the bridegroom more than from Rupee 1 to Rs. 10 for cocoanuts in the marriage procession.

III.—The father of the bride shall not pay more for *mosaloo* than from Rupee 1 to Rs. 10 at the time of the marriage procession.

IV.—At the time of the marriage ceremonies in the Chowree, the father of the bride shall not pay more to the bridegroom than from Rupee 1 to Rs. 10 as *chero jhularmunee* (holding his mother-in-law's garment).

V.—In return the bridegroom's father shall not pay more to the bride than from Rupee 1 to Rs. 10 as *ornee* (the bride's garment).

VI.—When husband and wife leave for the husband's house, the bride's father shall not pay more to the bridegroom's father than Rs. 5 for *mahee matla* (earthen pot filled with sweetmeat).

VII.—The bride's father shall, on her reaching her parents-in-law's house, not pay the father of the bridegroom more than from Rupee 1 to Rs. 5 as *pugee purna* (a form of salutation made by a bride to her mother-in-law).

VIII.—On the wife's return to her own home, her father shall pay her husband's father, not more than from Rupee 1 to Rs. 10 as *poorut* (leave to return).

IX.—When the wife returns to her husband's house after giving birth to her first child, her father shall give her not more than from Rupee 1 to Rs. 11 for ornaments, clothes, &c. This is called *jeeanoo* (first pregnancy).

6. The decrease of Expenditure in India and England is 169,008*l.*, and does not greatly exceed the diminution in Army Charges, *viz.*, 151,250*l.*, of which no explanation is given by you.

7. A comparison of the Actual Accounts for 1869-70, with your Regular Estimate, therefore, shows that the latter was a careful and cautious Estimate, and the final result agrees very nearly with that which you led me to anticipate in your telegram of the 18th July last.

8. On comparing the Actual Accounts of the year 1869-70 with those for 1868-69 a very great improvement is apparent. The year 1868-69 closed with an excess of Expenditure over Income of 2,774,030*l.*, and 1869-70; as already stated, with an excess of Income over Expenditure of 118,669*l.*, excluding, in regard to both years, Public Works Extraordinary. This improvement is in a great measure attributable to increased Receipts; for, although under some heads there was a serious falling off in 1869-70 as compared with 1868-69, there was, on the whole, a net increased receipt in India and England of 1,638,390*l.*

Comparison of Accounts of 1869-70 with those of 1868-69.

9. So far as I can ascertain from the information before me, the causes of the most important changes were as follow: The Land Revenue of 1869-70 exceeded that of 1868-69 by 1,161,848*l.* In 1868-69 it was affected by the unfavourable season in Madras and the North-Western Provinces. In 1869-70 the increased receipt was consequent on new settlements in Oudh and re-settlements in some of the Non-Regulation Provinces of Bengal, and from your bringing to account the accumulated proceeds of the sales of Waste Lands. The increase under Tributes was exceptional, and consequent on the Maharajah Holkar having been allowed to capitalize the tribute due from him by a limited number of payments, which were credited to Revenue. The increase of 601,524*l.*, under Assessed Taxes, arose from the augmented rate of the Income Tax. The increase on Salt was 300,467*l.*, the Duties in Madras and Bombay having been raised. The Interest Receipts were augmented by the recovery of arrears on the Vehar Water Works, and other loans at Bombay. The Miscellaneous Receipts in 1868-69 were unusually high, through [illegible] in that year the amount of Government Promissory Notes belonging to rebels, which [illegible] cancelled, and larger subscriptions to Bengal, Madras, and Bombay Military Funds, but the Miscellaneous Receipts in 1869-70 were still higher, as they included balances of the Police Superannuation Funds abolished, and a large amount of lapsed bills and deposits written off during the year. There is an increase of 404,409*l.* in Public Works Miscellaneous Receipts, the cause of which is not apparent.

10. On the other hand, the receipts from Customs were 263,570*l.* lower than in 1868-69, trade having been depressed during 1869-70. The receipt from Opium was 500,267*l.* below that of 1868-69, a lower price having been obtained at the sales in Bengal. Under Law and Justice there was a decrease of 92,902*l.* from the absence of demand for jail manufactures and labour, attributable to general scarcity and distress in 1869-70. The Marine Receipts were less by 358,131*l.* than in 1868-69, the Accounts for that year having included receipts in respect of the Expedition to Abyssinia.

11. The Expenditure in India and England was less by 1,254,309*l.* in 1869-70 than in 1868-69, the reduction in Public Works Ordinary alone amounting to 1,326,258*l.* There were decreases under some other heads, the principal being 124,507*l.* in interest, from the amount payable on certain loans not having been drawn during the year; 88,398*l.* under Allowances, Refunds, and Drawbacks, payment having been made in 1868-69 to the Nizam of the accumulated surplus revenue of the Berars. Superannuation, Retired, and Compassionate Allowances in India were less by 118,677*l.*, apparently in Consequence of the transfer to the charges in England of the Military Fund Pensions, and to smaller payments of compassionate allowances and gratuities in Madras. The Army Expenditure was less by 160,816*l.* The expenditure in England, other than Stores, was 86,197*l.* below that of 1868-69, and for Stores transmitted to India 170,098*l.* less than that year, owing to a diminished supply of Electric Telegraph and Marine Stores. The charge for Guaranteed Interest on Railway Capital, less net Traffic Receipts, was 153,406*l.* below that of the former year, as the net traffic receipts of the Indian Railways in 1869-70 greatly exceeded those of 1868-69.

12. There were, however, increases in the Expenditure in 1869-70 of 100,572*l.* under Opium, and 72,380*l.* under Post Office. The Marine Charges were larger by 143,265*l.*, the debts of the Port Canning and Calcutta Port Funds having been written off as irrecoverable. There were increases of 62,713*l.* in Medical Services; 63,720*l.* for Political Agencies and other Foreign services, mainly arising from the payments made to the Ameer of Cabul in 1869-70; [illegible] for Allowances and Assignments under treaties and engagements, and 235,856*l.* under Miscellaneous Charges, from the loss by exchange on bills on India.

13. On the whole, the great improvement in 1869-70, when compared with 1868-69 was, independently of the increase under Land Revenue, which was exceptional, attributable mainly to the steps taken by you in the autumn of 1869, for adding to the Assessed Taxes and the Salt Duties, and especially for restricting expenditure on Ordinary Public Works.

14. 1870-71. Revised Estimate compared with Budget. As compared with the Budget for 1870-71, the Revised Estimate, which you have now forwarded, shows a net increased receipt in India of 1,220,182*l.*, and a net increase of charge (exclusive of Public Works Extraordinary) of 101,432*l.*, the net improvement in India being, therefore, 1,118,750*l.*

15. You will have observed, from the enclosures to my Financial despatch dated the 12th January last, No. 10, that the net expenditure in England was then estimated at 8,127,414*l.*, being 142,216* in excess of the Estimate forwarded to you with the despatch of the 21st July 1870, No. 237.

17. The increase in the Receipts in India is mainly attributable to Opium, which is 1,007,719*l.* above the Budget Estimate.

18. There are estimated increases under Land Revenue of 126,368*l.*, of which 32,000*l.* is from Irrigation; of 238,500*l.* from Customs, from increased trade, especially in Calcutta; of 102,630*l.* from Salt; and 147,000*l.* from Stamps, the cause of which you appear to be unable to ascertain, in consequence of the transfer of the proceeds of Judicial Stamps from Law and Justice. There are some other unimportant increases.

19. On the other hand, there is an estimated decrease of 205,000*l.* in Assessed Taxes, from the effects of the European war on the trading community; of 181,800*l.* in Law and Justice, from the effects of the [illegible] trials, as already referred to, [illegible] minor Public Works, about which some uncertainty prevails, and some other minor decreases.

20. The only important increase of charge is that of 243,533*l.* under Miscellaneous, to provide for the loss by exchange on bills from England, and that and other minor increases are nearly counterbalanced by small decreases under various other heads of expenditure.

21. The increase of expenditure in England is mainly owing to the purchase and fitting up of the Civil Engineering College, and increased furlough pay and transport charges.

22. The estimated total expenditure on Public Works Extraordinary is reduced from 3,068,750*l.* to 2,043,835*l.*

23. The result shown in your Revised Estimate for 1870-71 nearly approaches that which has been regarded as essential by successive Secretaries of State, *viz.*, a surplus income of from half a million to 1,000,000*l.* per annum over the ordinary expenditure, and if Opium could be relied upon, and if the other branches of your revenue could be regarded as in a satisfactory condition, it might be assumed that the growth of revenue from improved Administration [illegible] keep pace with increasing interest on debt, and the demands for further improvements.

24. But there are at least two branches of your income, the proceeds of which in future years must be expected to diminish, *viz.*, Opium and Assessed Taxes. So far as relates to Opium, the information which is at present before me is insufficient to justify any confident opinion as to its future productiveness; but a serious falling off may at any time occur, and your present estimate of about eight millions must not be taken as indicating that nearly so large a sum can be obtained in future years.

25. A reduction in the Assessed Taxes must also be provided for.

26. In my Financial despatch dated 26th January 1869, No. 52, I called your attention to what appeared to me to be the excessive Military Expenditure, and you have shown that considerable reductions were practicable in the general staff, and, to some extent, in the establishment of officers and men. I hope that you will also be able to effect considerable savings in the Stud and Land Transport charges, in the Barrack and Medical Departments, and in the Miscellaneous Military charges.

27. I also called your attention, in my Financial despatch dated 18th March 1869, No. 114, to the expenditure on account of Stores, and to the importance of making some more satisfactory arrangement in regard to the indents, and to the arrangements in India as to the receipt, custody, and issue of Stores, and I am anxious to be informed what measures have been taken by you for this purpose.

Ordered, that the above despatch be published in the *Gazette of India*.

No. 37.

From Her Majesty's Secretary of State for India, to His Excellency the Right Hon'ble the Governor General of India in Council,—No. 80, dated India Office, London, the 16th March 1871.

PARA. 1. In continuation of my Financial despatch dated the 5th January last, No. 2, I have to request that the rate of exchange therein fixed for officers' remittances and effects may be adopted by you in the recovery in India from Civil Engineers, Mechanics, and others, of the portions of their salaries which have been made payable to their families in this country.

2. I take this opportunity of informing you that the privilege of making family allotments will, for the future, as a general rule, be strictly confined to the class of mechanics, boiler-makers, &c., who would probably find it very difficult to make remittances through ordinary channels. Special cases, however, will be considered and decided on their merits.

3. You will make the necessary communication to the Governments of Madras and Bombay.

Ordered, that the above despatch be published in the *Gazette of India*.

ADMINISTRATION, &c.

The 17th April 1871.

No. 21.—Mr. R. B. Chapman is confirmed in the appointment of Secretary to the Government of India in the Financial Department.

EXPENDITURE.
(MEDICAL.)

The 20th April 1871.

No. 48.—In Financial Resolution No. 2599, dated 17th September 1867, it was laid down that the service of an Uncovenanted Medical Officer towards the periodical increments in the revised scale of pay for his class, will reckon from the date of his entering on his duties, on his first permanent appointment to the medical charge of the Sudder Station of a District, if the incumbent was not then a Sub-Assistant Surgeon, otherwise from the date on which he ceased to be a Sub-Assistant Surgeon.

[redacted] in force for Sub-Assistant Surgeons who may hereafter be promoted [redacted] of Uncovenanted Medical Officer; but all who are now serving on the footing or [redacted] of Uncovenanted Medical Officers, who previously held permanent medical charge of the Sudder Stations of Districts as Sub-Assistant Surgeons, are allowed to count such service towards the periodical increments of their pay as Uncovenanted Medical Officers.

LEAVE AND ALLOWANCES.

The 21st April 1871.

No. 50.—The Governor General in Council is pleased to direct that Rule 3 under Section XXVI. of the Covenanted Civil Service Leave Code be struck out, and that the following rule be added as No. 3 to Chapter XIII. of that Code: "An officer permitted to return to duty before the expiry of his leave should have the unused part of his leave formally cancelled by the authority which granted it."

This rule applies generally.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 28th April 1871.

No. 6.—In exercise of the power conferred by the Act 24 & 25 Victoria, chapter six hundred and sixty-seven, section seventeen, the Governor General has been pleased to appoint Saturday, the 6th day of May next, at 11 A. M., as the time, and the Council Chamber at Government House, Simla, as the place, for the next meeting of the Council of the Governor General for the purpose of making Laws and Regulations.

H. S. CUNNINGHAM,
Offg. Secy. to the Council of the Govr. Genl. for making Laws and Regulations.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, Government of India hereby offers a prize of £5,000 for the machine a process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventio even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8.—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining

supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to *(here insert the locality to which it is desired that the stems be forwarded)*, or to the nearest Railway Station, I promise to remit the total amount so required to the said officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2nd.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3rd.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4th.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1st.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2nd.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

LEAVE AND ALLOWANCES.

The 27th April 1871.

No. 107.—The Governor General in Council is pleased to direct the insertion in the Covenanted Civil Service Leave Code of the following rule as Rule 3 under Section XII.:

3. No-demand certificates are not required from officers applying for leave.

This Rule applies generally, except to officers in the Public Works Department.

The 28th April 1871.

No. 164.—The following extract from an Ecclesiastical despatch from the Secretary of State, to the Government of India, No. 2, dated the 9th February 1871, is published for general information:

"I would call the attention of your Lordship in Council to the despatch of Secretary Sir Charles Wood, No. 4 of 1864, laying down the rule that extensions of furlough should be granted by the Local Governments only, and requesting that the necessary notification on the subject might be made to Chaplains applying for a furlough and afterwards desiring to obtain an extension of the same. The rule is not stated with sufficient clearness in the Regulations of 1868, and I enclose a copy of them with the necessary addition made to paragraph XII. of Chapter I.

"I have taken the same opportunity of causing an addition to be made to paragraph XXIV., Chapter IV. of the Rules relating, *first*, to the discontinuance which, in consequence of the higher furlough allowances now granted, I have determined upon in Council of the system formerly prevailing of advances of pay to Chaplains returning to duty in India; and *secondly*, to the appearance before the Indian Medical Board of all Chaplains so returning. You will not fail to publish the rules as thus amended.

"I have further to bring to the notice of your Excellency in Council the despatches of my predecessor's numbers 21, 22, and 20 of 1862, 1865, and 1868, respectively, regarding the issue by the proper authorities in India whether to Chaplains coming Home on leave of any description, or to those receiving in India, permission to retire from the establishments, a document indicating the extent of their actual service, and, in the case of retirement, the amount of pension to which they may be entitled. It not unfrequently happens that Chaplains [illegible] without any such certificate, and I have to request that it may, in future, [illegible] tion.

"Your Lordship in Council will give the necessary instructions to the Governments of Madras and Bombay on the various points adverted to in this despatch, and enjoin upon them a strict adherence to the rules which I have indicated."

2. Sections XII. and XXIV. of the Rules for the grant of leave of absence to Chaplains, published on the 31st July 1868, will now stand thus:

XII. Subject to the exigencies of the service, both as regards the number of furlough available at any one time, and as regards individual applications of which exigencies the Government of India, Madras or Bombay, as the case may be, shall be exclusively the judge, furloughs shall be granted under these rules. Extension of furlough other than furlough under medical certificate, will be granted by the Local Governments only.

XXIV. Leave allowance shall be payable monthly if payment is taken in India, and quarterly if payment is taken in England; when furlough is taken in England, an advance of the first quarter's allowances may be made in India; such advance shall not be recoverable in case of death. No advance of pay will be granted in England to a Chaplain returning to duty in India. No Chaplain on furlough in Europe will be allowed to return to duty in India until he shall have appeared before the Medical Board attached to the India Office for a report upon the state of his health.

SEPARATE REVENUE.

(ASSESSED TAXES.)

The 28th April 1871.

No. 206.—The following correspondence is published for general information:

From A. W. I. WOOD, ESQ., Secretary to the Bengal Chamber of Commerce, to the Secretary to the Government of India, Financial Department,—dated Calcutta, the 18th April 1871.

In the exercise of the power conferred by the last (47th) section of the Indian Income Tax Act of 1871, the Governor General in Council has prepared and published certain rules for the guidance of officers in matters connected with the enforcement of the Act, and it is with reference to the practical working of one of them, No. 12, that the Committee of the Chamber of Commerce desire me to address you.

2. Clause XV., Part IV. of the Act runs thus: "A yearly duty of two pies for every rupee shall be levied upon all interest on securities of the Government of India becoming due on or after the first day of April 1871."

3. And the 12th Rule, which may be regarded both as an order and as an illustration of the above-quoted clause, is thus worded: "This Part (IV.) is new. Instalments of interest which may have fallen due before April 1st are not liable to taxation, notwithstanding that they may be actually disbursed after that date. On the other hand, interest which becomes due on or after April 1st is liable even though it may have commenced to accrue before April 1st."

4. The points which the Committee desire to submit for the consideration of His Excellency in Council are these:

5. Clause 1 of the Act declares that the Act shall come into force on the first day of April, and the 47th clause empowers the Governor General in Council to make rules for the enforcement of the Act *consistent therewith*, and the questions arise, whether the 12th Rule is so consistent and agreeable to the Act, and whether the levy of income tax with retrospective effect required by that rule is sanctioned by the opening declaration that the Act shall be in force on the 1st April and not earlier.

6. Whatever the legal bearing of these questions may be, the result of the law is undoubtedly one of extreme hardship to holders of Government securities, who having already been assessed and may have paid, or are liable to pay, income tax at 3½ per cent. up to the 31st March last, will now be subject to an additional 1¼ per cent. on such part of their income arising from the identical interest on Government securities which may have accrued before, but is not due until after 1st April. For instance, the next instalment of six months' interest on the four per cent. loan of 1865 will fall due on the 1st May, and those who invested in that security, say on 31st March, will be [illegible] tax for six months [illegible] portion of income, which they have [illegible] a holder of said [illegible] during the whole of the [illegible] who has already [illegible] the interest [illegible] 31st March as a portion of [illegible] for the year ending on that day [illegible] at the rate of 3½ per cent. per annum, will again, under [illegible] of the rules in question, have to pay 1¼ per cent. upon the portion of his [illegible] these securities, not merely for the month of April, but for the five [illegible] also, on which tax has already been paid at the higher rate.

7. The Committee do not withdraw from the position which they took up last year with regard to the assessment of interest on Government securities for income tax, and upon which they communicated their views under date the 10th June 1870, while discussing the Resolution of the Government of India relative to the conditional enfacement of securities transferred to the register in London; they adhere to the opinion then expressed that the measure would enable Government to levy the tax with accuracy on at least a portion of the income of some of the richer classes of this country whose proper assessment is a matter of notorious difficulty.

8. But while they assent to the expediency of thus levying the tax on such sources of income, they beg respectfully to record their inability to advocate the assessment as provided for by the rule under consideration, and to apply for its amendment to the extent of exempting from the operation of the Act all interest accrued to 31st March last.

From R. B. CHAPMAN, ESQ., Secretary to the Government of India, Financial Department, to the Secretary to the Bengal Chamber of Commerce, Calcutta,—No. 171, dated Simla, the 27th April 1871.

I am directed by the Governor General in Council to acknowledge your letter dated the 18th instant, in which the Chamber of Commerce take exception to the 12th Rule made by the Governor General in Council under section 47 of the Indian Income Tax Act, on the ground that it will lead in some cases to the levy of Income Tax under the Acts of 1870 and 1871 (*i. e.*, for two years) on the same interest on Government securities.

2. I need hardly assure the Chamber that the Government of India would greatly regret the occurrence of any such injustice, and would at once remedy it. It is believed, however, that the Chamber is under some misapprehension on the subject.

3. The duty levied under the several Indian Income Tax Acts on fixed incomes, such as salaries, pensions or interest, on public securities, has always been assessable on the sums actually falling due within the period for which each tax has been imposed. Income of this nature *due but not received* before the commencement of such period, has never been subject to taxation; and, on the other hand, such income following due during such period has always been taxed, even though it were not received till after its close. It is believed that this is the only reasonable way of determining the incidence of an Income Tax upon fixed incomes.

4. In accordance with this principle, the tax imposed by the Income Tax Act of 1870 was chargeable only in respect of such interest on Government securities as fell due after the 31st March 1870 and before the 31st March 1871. If, therefore, the Chamber is right in supposing that duty has been levied under the Act of 1870 upon any interest which was not due until after the 31st March 1871, the Governor General in Council has only to say that such duty was wrongly levied, and that a refund of any such duty will be made to any person who can establish that he has paid it. It is hardly probable, however, that any one has paid duty in one year upon 18 months' interest. Certainly any assessor who knowingly charged duty upon 18 months' interest in one year would be much to blame.

5. The Chamber of Commerce will, it is believed, see that the rule to which they draw attention can lead to no such injustice, and is in itself reasonable and in accordance with the intention of the law.

6. It is not possible to distribute by law between buyers and sellers the incidence of any tax upon any kind of property, or upon income derived from any kind of property. The law leaves such distribution to be effected by private agreement. No doubt the liability to taxation of interest on Government securities, as of income from any other property, is taken into account when the price is fixed between buyers and sellers. In the instance referred to in your 6th paragraph, the seller, as already stated, was not liable to the tax under the Act of 1870 in respect of interest not due till the 1st May 1871; and if he has paid it, he is entitled to a refund. The buyer must have known that whoever held the securities on the 1st May would be liable to any tax which might be imposed on the interest on such [illegible] and doubtless [illegible] amount of that liability in the price which he paid.

[illegible] to the owners of Government securities in being called upon on [illegible] May to pay the first instalment of the tax of 1871, for the first half of the tax on general incomes is payable (by Section 36) on the 1st April. Owners of public securities can in no case be called upon to pay in one year more than the tax on 12 months' interest.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under tha of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8.—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to *(here insert the locality to which it is desired that the stems be forwarded)*, or to the nearest Railway Station, I promise to remit the total amount so required to the said officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

Parties intending to compete.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

No. 181.—The following is re-published for information and guidance in the Public Works Department:

From Her Majesty's Secretary of State for India, to His Excellency the Right Hon'ble the Governor General of India in Council,—No. 80, dated India Office, London, the 16th March 1871.

Para. 1. In continuation of my financial despatch dated the 5th January last, No. 2, I have to request that the rate of exchange* therein fixed for Officers' remittances and effects may be adopted by you in the recovery in India from civil engineers, mechanics, and others, of the portions of their salaries which have been made payable to their families in this country.

* *Viz.*, 1*s.* 11*d.* per Rupee.

2. I take this opportunity of informing you that the privilege of making family allotments will, for the future, as a general rule, be strictly confined to the class of mechanics, boiler-makers, &c., who would probably find it very difficult to make remittances through ordinary channels. Special cases, however, will be considered and decided on their merits.

3. You will make the necessary communication to the Governments of Madras and Bombay.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which they are required to deal with. Persons in Europe desirous to obtain supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

The 10th May 1871.

No. 321.—The Governor General in Council is pleased to direct the addition of the following rule, as Rule 5, Chapter XI., Covenanted Civil Service Leave Code:

5.—An officer who has no substantive appointment, and is not in the Covenanted Civil Service or the Army, is not entitled to any allowance during joining time; but if such an officer, while acting in an office, is transferred to another office in the same Department, and under the same Local Government, the Local Government may allow him to draw, during his transit, the allowance to which he would be entitled under Rule 4.

Illustration.—A., who has no substantive appointment, but is officiating as Sub-Registrar of Assurances in Burdwan, is appointed to officiate as Deputy Magistrate and Deputy Collector in Mymensingh, and subsequently transferred to officiate as Deputy Magistrate and Deputy Collector in Bhaugulpore. A. is not entitled to any allowance during his transit from Burdwan to Mymensingh, but he may be allowed by the Local Government to draw, during his transit from Mymensingh to Bhaugulpore, the allowance to which he would be entitled under Rule 4.

Rule 4, in the same chapter, will commence thus—

4. Except in the case mentioned in the next rule, an officer draws, &c.

No. 201.—The following Resolution in the Public Works Department is published for general information:

Principles to be observed in lending the services of Public Works Officers to Native States.

Read—

Foreign Department Resolution No. 1953 G. of the 19th November 1870.

RESOLUTION.—The Governor General in Council having considered the Resolution above referred to in relation to the particular case of Lieutenant * * and the general questions raised as to the position of Public Works Officers employed in Native States, has come to the following conclusions.

2. As a general practice, the Native State to whom an officer is lent should pay the whole allowances of such officer. But cases in which it may seem desirable that a portion of the salary should be paid by the British Government, might be referred to the Government of India for consideration in the Public Works Department in communication with the Foreign Department. If it is decided that the British Government shall pay any part of the salary, such payment should probably be a charge against the Political Department, his employment being rather based on political grounds than on any advantage which might properly be charged to the Public Works Grant.

3. An officer of the Public Works Department made over for employment under a Native State would not be subject to the usual Departmental control of Superintending or Chief Engineers, or to the precise Rules and Regulations of the Public Works Code. His proceedings should be regulated, and the works on which he is employed should be undertaken in communication with the local Political Officers, under any general or special rules that may be thought suitable either by the superior Political Officer or the Foreign Department of the Government of India. He should not be required to submit his plans and estimates to any superior officer in the Department before commencing work, but a Chief or Superintending Engineer or other senior officer of the Public Works Department may usefully, under the directions of the Head of the Local Government or Administration, make periodical visits of inspection to his works and office, to report upon the qualifications of the officer and the

manner in which he discharges his duties. On these occasions the officer would lay before the Inspecting Officer his plans, estimates and accounts, and would, if required, accompany him to the works and afford all the information he may be called upon to give.

4. The officer employed by the Native State would, on his part, submit a full annual report to the Head of the Local Government or Administration or Chief Political Officer who controls the political relations of the Native State, through the local Political Officer, of the work executed by him, the rates at which it has been done, and all important particulars connected therewith.

5. While an officer is so employed by a Native State, he would be borne on the Imperial Lists as a supernumerary. His claims to promotion would be determined from time to time on a consideration of the reports of the Inspecting Officer, and those submitted by the officer himself; and when he is considered by the chief authority under whose control he is placed deserving of promotion, a recommendation should be submitted to the Secretary to the Government of India in the Pulic Works Department, with a distinct statement of the willingness, or otherwise, of the Durbar to incur any increased charge involved by such promotion. The case would then be decided on, with general reference to the rate of promotion in the Public Works Department, and in communication with the Foreign Department. Any exceptional rate of remuneration given by the Durbar could not in any way be taken into consideration as influencing the officer's promotion or his grade when he reverts to the Public Works Department.

6. No officer will be lent to a Native State unless he has passed the examination in Hindustani according to the Departmental Standard (Public Works Code II., iv, 22). The remuneration for passing in the languages should be borne by the Imperial Public Works Department.

7. An officer lent to a Native State, on reverting to the Public Works Department, will re-enter in the grade to which he may have attained, and will fill a vacancy, if any exist, or, if not, will continue to be borne as a supernumerary until a vacancy occurs, when he will be absorbed.

NOTIFICATIONS.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8.—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

LEAVE AND ALLOWANCES.

The 16th May 1871.

No. 414.—The Governor General in Council is pleased to direct the following alterations in the Covenanted Civil Service Leave Code:

1. The following Rule is to be substituted for Rule 3 under *Section XI.:*

"3.—If an officer overstay subsidiary leave prefixed to furlough, his furlough will be held to have commenced in India; and, under the operation of *Section X.*, it will be reckoned from the date of his quitting his station. This Rule is not meant to interfere with cases dealt with under Rule 2 above."

"This Rule applies in analogous cases to all officers in civil employ."

2. The following Rule is to be added as Rule 3 under *Section XXVI.:*

"3.—When privilege leave is, on medical certificate, retrospectively commuted to furlough out of India, so much of the leave passed before embarkation may be treated as subsidiary leave, as the officer would have been entitled to count as subsidiary leave, if he had originally obtained furlough, and not privilege leave."

"This Rule applies generally."

No. 561.—The following extract from a despatch from the Right Hon'ble the Secretary of State for India, addressed to the Government of India in the Financial Department, No. 106, dated 12th April 1871, is published for general information:

I have considered in Council your Financial letter, dated 22nd February last, No. 28, requesting that Uncovenanted Officers on leave in this country may not be granted extensions of leave, which would have the effect of prolonging their absence beyond two years, without the consent of the Government in India, to which those officers are subordinate. * *

* * * * * * * * *

As you are of opinion that no leave beyond that authorized by the rules should be granted without the sanction of the Government under which an Uncovenante Officer is serving, I shall not grant any such extensions in future. * * * * *

No. 563.—Mr. B. L. Forbes, Probationer, 6th Class, Financial Department, has been granted by Her Majesty's Secretary of State for India extension of leave for four months on medical certificate.

MINT AND CURRENCY.

The 18th May 1871.

No. 495.—Extract from a despatch from the Right Hon'ble the Secretary of State for India, addressed to the Government of India in the Financial Department, No. 89, dated 23rd March 1871:

Para. 1. I have considered in Council your Legislative letter dated the 18th January 1871, No. 1, forwarding copy of a Bill to consolidate and amend the law relating to the Government Paper Currency, with the Report of the Select Committee thereon, and a copy of the statement made by Sir Richard Temple in presenting that Report.

2. This Bill authorizes the issue of notes for five Rupees, the law in other respects remaining substantially unchanged.

3. In the statement of Sir Richard Temple, the objections entertained to the use of notes of so low a denomination as five Rupees are referred to, as well as the measures by which he considers that loss or inconvenience to any class of the community from their being unable to obtain cash for notes in the interior of the country will be obviated.

* * * * *

5. It appears to be essential to the success of the Government Paper Currency that notes of five Rupees should be issued. Sir Charles Wood, in his Financial despatch dated the 2nd May 1861, expressed his strong opinion in favor of the introduction of the five-Rupee Note, observing that unless the notes "are for such amounts as can be practically used in the ordinary payments of the people, they cannot circulate to any extent."

6. I see no reason to question the soundness of that opinion, and I have, therefore, in a Legislative despatch* of this date, informed you that the Act will be left to its operation.

* No. 20.

7. It is of very great importance, however, that it should be fully made known that while the Government is anxious to afford every facility for the encashment of notes at the subordinate treasuries in the interior of the country, cash for notes can only be *demanded* at the Office of Issue, and at that of the Presidency town to which the Office of Issue belongs.

8. If this be not well understood, the failure of any subordinate treasury on an emergency to give cash for a note might be regarded as a default on the part of the Government and might exercise a very prejudicial effect in discrediting the notes in the general estimation of the people.

* * * * *

PENSIONS AND GRATUITIES.

The 19th May 1871.

No. 613.—Police Officers on pay not exceeding Rs. 20 a month, when discharged from the revised constabulary as physically unfit for further service, have hitherto been allowed pensions or gratuities from the Police Superannuation Funds, under rules which were administered by Local Governments without reference to the Government of India.

2. The Superannuation Funds having been abolished, and the invalid pensions and gratuities being now payable from the general revenues, it is necessary to define the mode in which orders shall be passed on claims for such pensions and gratuities under the rules in force on this head for the time being.

3. To prevent error or fraud in computing service, there shall be kept up in each Police Force, separately for each District, by its District Superintendent of Police, a service roll in English, in which shall be recorded for each man the date of his enrolment in the constabulary, his caste, tribe, village, age, height, and marks of identification at the time of enrolment; his rank, promotion, reduction or other punishment; his absences on leave or without leave; breaks in his service, and every other incident in his service which may involve forfeiture of portions of his service, or affect the amount of his pension or gratuity.

4. The roll shall be checked by the vernacular roll and order book, and the punishment register, and every entry in it, shall be signed by the District Superintendent of Police, and checked at the periodical inspections by his controlling officer.

5. From this roll all service statements shall be prepared, additional proofs being required and collected, however, in respect of any service under Government before enrolment in the constabulary, which the Police Officer may be entitled to reckon under any rule or special order of the Government of India.

6. Claims by Police Officers on Rs. 20 or less pay to pension or gratuity for merely the period of continuous and verified service in the civil constabulary in which they are serving at the time of application may, if admissible under the strict letter of the rules in force, be allowed by the Inspector General of Police. A list of all pensions or gratuities thus sanctioned, with requisite particulars for identifying the men discharged, should be furnished by the Inspector General to the local Accountant General; and the grants should also be reported to the Government of India in the usual quarterly statements of similar grants in other departments which are submitted by the Local Governments.

7. When the service for which pension or gratuity is claimed, includes time passed in grades ineligible to pension under the ordinary rules, or when there are breaks in the service, or when the amount claimed as pension or gratuity is larger than the strict letter of the rule permits, the application for pension or gratuity should be referred through the Local Government for the orders of the Government of India.

8. Payments of pension and gratuity shall be made by the Treasury Officer of the District in which the payees reside on their identification by the District Superintendent of Police, and special committees shall be assembled every five years for identifying the pensioners.

9. The preceding rules are applicable to Police Officers on pay not exceeding Rs. 20 a month; but to facilitate generally the disposal of claims to pension, the Inspector General of Police shall keep a record of the service of every officer including every European Officer in the force, and shall verify the record annually in communication with the local Accountant General.

R. B. CHAPMAN,
Secretary to the Govt. of India.

MILITARY DEPARTMENT.

Simla, the 15th May 1871.

No. 441 *of* 1871.—The practice of notifying in General Orders the station at which an unemployed General Officer, or an Officer in receipt of Colonel's allowance, is permitted to reside, and the Pay Office at which he will draw his pay, will be discontinued, and hereafter the notification in General Order of the return of any such Officer to India will be sufficient authority for the issue of his pay in this country from any military Pay Office on his producing his last pay certificate.

2. An Officer, who has drawn his pay in any pay circle, desiring to change his place of residence beyond the limits of such circle, must apply to the pay-master for a last pay certificate, notifying at the same time the pay circle to which he desires to be transferred. The pay-master, when issuing the last pay certificate, will communicate the transfer to the pay-master of the circle to which the Officer is proceeding, and from whom he will obtain his next pay on production of the last pay certificate. Each Officer is required to report, on the 1st January, his place of residence, and to notify at once each change as it occurs to the Adjutant General.

3. A General Officer, wishing to reside in another Presidency, should apply to the Controller of Military Accounts of his own Presidency, in order to the issue of instructions regarding the adjustment of his pay and allowances, while he may continue to reside out of the Presidency to which he belongs.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8.—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to *(here insert the locality to which it is desired that the stems be forwarded)*, or to the nearest Railway Station, I promise to remit the total amount so required to the said officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

Goad, Wing Subaltern and Officiating Adjutant, to act in addition as 2nd in Command on the departure of Captain M. P. Moriarty, on furlough to Europe.

No. 476 *of* 1871.—The Right Hon'ble the Governor General in Council is pleased to publish, for general information, the following extract from a despatch dated 20th April 1871, received from Her Majesty's Secretary of State for India:

* * * * *

3. "The correspondence has, however, drawn my attention to the disadvantage at which a Lieutenant-Colonel of the Infantry or Cavalry is placed on promotion to the rank of Major-General, as compared with other unattached Lieutenant-Colonels, by being deprived of his tentage allowance.

4. Formerly the number of regimental Lieutenant-Colonels being limited to the number of regiments, an Officer of that rank, on becoming a Major-General, was removed from his regiment and placed on unemployed pay; and, with the rare exception of an Officer being deprived of his command for misconduct, these were the only regimental Lieutenant-Colonels unemployed, and thus relieved from the necessity of maintaining camp equipage.

5. At present, however, the system is different. Practically a large number of Lieutenant-Colonels are unemployed, although they are available for general duty; and it is an anomaly that such officers should be placed in a better position than those who have attained the army rank of Major-General by rapid promotion for distinguished service.

6. I have, accordingly, decided that for the future a regimental Lieutenant-Colonel of Cavalry or Infantry, who is a General Officer, shall be granted the same pay and allowances in India as he would receive if he had not attained that rank in the Army, and at the same time held no appointment. On furlough he will be granted the half of his pay and allowances with the exception of horse allowance; and, at the expiration of the period during which he is entitled to furlough, he will receive the unemployed furlough pay of a General Officer."

In accordance with the foregoing, His Excellency in Council notifies that, for the future, a regimental Lieutenant-Colonel of Cavalry or Infantry who is a General Officer shall be granted the same pay and allowances in India as he would receive if he had not attained that rank in the Army, and at the same time held no appointment. On furlough he will be granted the half of his pay and allowances, with the exception of horse allowance; and, at the expiration of the period during which he is entitled to furlough, he will receive the unemployed furlough pay of a General Officer.

No. 215.—The following Resolution is published in the *Gazette of India* for general information:

No. 612E—G, dated Simla, the 23rd May 1871.

RESOLUTION.—On the occasion of the departure from India of Colonel Strachey, His Excellency the Viceroy and Governor General in Council desires to convey to that Officer the thanks of the Government for the valuable services he has rendered to British India during a long series of years, and more especially during his late tenure of the offices of Inspector General of Irrigation, and Secretary to the Government of India in the Public Works Department.

2. The Government of India is greatly indebted to Colonel Strachey's exertions during his previous tenure of office, both as Under Secretary and Secretary, in regard to the measures taken for the prosecution of the great works of irrigation now in progress, and considers that his services, more recently rendered in completing the arrangements and perfecting the organization of this branch of the Public Works Department, deserve the highest acknowledgments of the Government of India. Colonel Strachey has also the satisfaction of witnessing the progress made in designing and executing the many large works which have now been undertaken in all parts of the country.

3. In devising the means for the future extension of the Railway system in India by direct Government Agency, the Governor General in Council has received from Colonel Strachey most valuable advice and assistance, and His Excellency in Council trusts that he will soon have the satisfaction of knowing that the works under this branch of the department are in as active progress as those designed for irrigation.

4. Besides these special services, His Excellency in Council has to acknowledge the ready manner in which Colonel Strachey's great ability and untiring energy have ever been placed at the disposal of the Government, in the Legislative Council, and in many other ways both connected and unconnected with the Public Works Department.

5. His Excellency in Council trusts that Colonel Strachey's talents and experience may still be in some fitting manner made available to the interests of India; but if this should unfortunately not be possible, still he has already rendered such great services as to leave lasting marks of his brilliant official career in India, and to establish a permanent claim to the gratitude of the Government of this country.

6. Colonel Strachey's services have been so conspicuous, his ability so rare, and his departure from India is such a loss to the Public Service, that the Governor General in Council feels it proper to record his acknowledgments of these services in the form of a Resolution of the Government to be published in the *Gazette of India*.

ORDER.—Ordered, that a copy of this Resolution be forwarded to Colonel Strachey through the Secretary of State, and also that it be published in the *Gazette of India*.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8.—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to *(here insert the locality to which it is desired that the stems be forwarded)*, or to the nearest Railway Station, I promise to remit the total amount so required to the said officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

187					
Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

Paragraph 15 of the Uncovenanted Service Pension Rules of the 13th April 1864.

Financial Resolution No. 3047, dated 8th September 1869, published in page 274 of Part I. of the *Gazette of India* of the 11th idem.

Regarding the necessity of the refund, on re-employment, of the gratuities granted to public servants on being thrown out of employment on abolition of office, in the cases of those desirous of recovering the service for which the gratuity was allowed.

RESOLUTION.—The Governor General in Council desires that the several Officers of account in the Civil, Military, and Public Works Departments, will, whenever it is observed that a person, who has previously received a gratuity for being thrown out of employ, has been re-admitted into the service of Government, issue to him a notice calling his attention to the Notification of this Department, No. 3047, dated 8th September 1869, and informing him that he must refund the gratuity at once if he wishes to have the service, for which he received the gratuity, counted for pension. The refund may be made in monthly instalments not less than the amount received, divided by the number of months that have passed since it was received, and also not less than one-third of the pay drawn in the new office. The right to count the service for pension will not be deemed to have accrued until the last instalment is paid. Non-receipt of this particular notice will not be held to excuse non-observance of the order of 8th September 1869, quoted above.

ORDER.—Ordered, that copies of the above Resolution be forwarded to the Comptroller General, the several Accountants General, the several Deputy Accountants General in independent charge, the Military Department, and the Public Works Department.

PUBLIC.

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8.—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Home Department, in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to *(here insert the locality to which it is desired that the stems be forwarded)*, or to the nearest Railway Station, I promise to remit the total amount so required to the said officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Home Department.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

No. 2748—A.

Extract from the Proceedings of the Government of India in the Home Department.

READ again the despatch of Her Majesty's Secretary of State, Revenue, No. 77, dated the 12th October 1869, enclosing a correspondence with the Cotton Supply Association of Manchester, regarding the measures which might be taken for the establishment of a Department of Agriculture in each of the several Provinces of India, and the more active employment of Collectors of Districts in matters connected with cotton cultivation.

Read again the following papers on the subject of the proposed establishment of a Department of Agriculture and Commerce in India :—

1.—Public despatch from the Government of India, to Her Majesty's Secretary of State, No. 40, dated 6th April 1870, with enclosures.

2.—Revenue despatch from Her Majesty's Secretary of State, to the Government of India, No. 61, dated 22nd September 1870.

3.—Public despatch from the Government of India, to Her Majesty's Secretary of State, No. 24, dated 22nd February 1871.

Read also the Secretary of State's reply to the despatch last-mentioned, Revenue, No. 16, dated 27th April 1871.

RESOLUTION.—The reasons which induced the Government of India to propose the establishment of a new Secretariat, which shall be charged with the superintendence of all measures connected with Revenue, Agriculture, Forests, Commerce, and Industrial Arts of India, are fully stated in the despatch addressed to Her Majesty's Secretary of State, No. 40, dated the 6th April 1870, which is cited at the commencement of this Resolution.

2. The sanction of Her Majesty's Secretary of State to the formation of the new Department has now been communicated to the Government of India in the despatch of the 27th April last, No. 16, after some intermediate correspondence, which is also cited above, and it remains for the Governor General in Council to give effect to the sanction thus conveyed.

3. The Governor General in Council is accordingly pleased to direct that the new Department shall be constituted from the present date, and that it shall be designated the Department of Revenue, Agriculture and Commerce. It shall be placed under charge of an officer who shall be styled Secretary to the Government of India in that Department.

4. All matters relating to the following subjects, so far as they affect the Provinces of British India, will, with certain exceptions hereafter to be specified, come under the cognizance of the new Department, namely,—

(1.)—Land Revenue and Settlements.
(2.)—Tuccavee Advances for works of Agricultural Improvement.
(3.)—Agriculture and Horticulture.
(4.)—Fibres and Silk.
(5.)—Studs and Cattle-breeding. Cattle Disease.
(6.)—Forests.
(7.)—Meteorology.
(8.)—Commerce and Trade.
(9.)—Customs, Sea and Inland.
(10.)—Opium.
(11.)—Salt.
(12.)—Excise.
(13.)—Stamps.
(14.)—Minerals and Geological Survey.
(15.)—Fisheries.
(16.)—Industrial Arts, Museums, Exhibitions.
(17.)—Statistics.
(18.)—Gazetteers.
(19.)—Weights and Measures.
(20.)—Census.
(21.)—Surveys ;—Revenue, Topographical and Trigonometrical.

Besides the above, which fall properly within the scope of the new Department, His Excellency the Governor General in Council has, for reasons of administrative convenience, decided to transfer to it temporarily the following subjects :

Municipalities.
Sanitary. Lock Hospitals ... ... } From Home Department.
Emigration ... ...
Settlements of Port Blair and Nicobars (excepting so far as relates to the management of convicts) ...

The actual transfer of the business connected with Sea Customs, Opium, Excise and Stamps will, however, not be made from the Financial Department until further notice.

5. These arrangements will admit of the transfer to the Home Department of certain portions of work at present performed by other Departments, but which properly belong to it. A considerable part of the business connected with the internal administration of the Punjab and Oudh, and of the Central and other Non-Regulation Provinces, is still conducted in the Foreign Department. This arrangement was originally one of evident propriety and necessity ; but the circumstances of the more important of the so-called Non-Regulation Provinces are now entirely different from what they were some years ago.

Both the substantive law and the laws of procedure which are there in force are now for the most part identical with those of the older Provinces, and it is inconvenient and anomalous that the Foreign Department should have to deal with matters of a precisely similar character to those which come before the Home Department from other parts of India. The relief given to the Home Office by the formation of the new Department now enables the transfer to be made. Accordingly, the Governor General in Council is pleased to direct that the matters specified in paragraph 4, relating to the Punjab, Oudh, the Central Provinces, British Burmah, and Coorg, which at present are disposed of in the Foreign Department, shall be transferred to the new Department of Revenue, Agriculture and Commerce, and that all the remaining business relating to the internal administration of these Provinces, shall in like manner be transferred from the Foreign to the Home Department. From the above orders however are excepted the Districts of the Punjab recently brought under Statute 33 Vic., Cap. 3, by Notification No. 2101P, dated 2nd December 1870; the Districts of Ajmere and Mhairwarra; and the District of Maunpore. In respect to these Districts, the existing system will, for the present, remain unaltered. These are the exceptions referred to in paragraph 4.

Gazette of India, Part I., of 3rd December 1870, page 799.

ORDER.—Ordered, that a copy of the foregoing Resolution, and of the papers cited at the commencement thereof, be communicated to the Departments of the Government of India, the Local Governments and Administrations, and the Officers named on the margin for information and guidance, with a request that they will take care to address the Department of Revenue, Agriculture, and Commerce on the subjects above-noted with exception, to Sea Customs, Opium, Excise, Stamps, and the Stud business, the transfers of which from the Financial and Military Departments will not take effect until further notice.

LEAVE AND ALLOWANCES.

The 9th June 1871.

No. 1067.—The Governor General in Council is pleased to direct that the following rule be inserted as a heading to Chapter VI. of the Covenanted Civil Service Leave Code:

Privilege leave to Uncovenanted Servants will be regulated by the rules in this Code except in the following respects:

(1.)—An Uncovenanted Servant overstaying privilege leave by more than one week forfeits his appointment and his past service. It shall be in the power of the authority in whose gift the appointment is to re-appoint the officer, and to make a declaration (to be communicated to the Accountant General) that none, or that all, or that any part, of his past services shall be forfeited; but if the period of overstay exceed a month, the past service cannot count for pension without the sanction of the Government of India.

(2.)—An officer whose salary is less than Rs. 200 a month may not draw any part of his leave allowances until he returns to duty.

(3.)—The rules as to time passed on privilege leave counting for pension do not apply, that matter being regulated by the Uncovenanted Service Pension Rules.

2. Since the omission, through inadvertence of the declaration required by Rule (1) entails serious consequences on the officer affected, the Accountant General should draw to the rule the attention of any officer omitting to make the declaration.

3. This Notification supersedes the under-mentioned orders of this Department:

Paragraph 15 of the Uncovenanted Service Pension Rules of the 13th April 1864.

Financial Resolution No. 3047, dated 8th September 1869, published in page 274 of Part I. of the *Gazette of India* of the 11th idem—

Regarding the necessity of the refund, on re-employment, of the gratuities granted to public servants on being thrown out of employment on abolition of office, in the cases of those desirous of recovering the service for which the gratuity was allowed.

RESOLUTION.—The Governor General in Council desires that the several Officers of account in the Civil, Military, and Public Works Departments, will, whenever it is observed that a person, who has previously received a gratuity for being thrown out of employ, has been re-admitted into the service of Government, issue to him a notice calling his attention to the Notification of this Department, No. 3047, dated 8th September 1869, and informing him that he must refund the gratuity at once if he wishes to have the service, for which he received the gratuity, counted for pension. The refund may be made in monthly instalments not less than the amount received, divided by the number of months that have passed since it was received, and also not less than one-third of the pay drawn in the new office. The right to count the service for pension will not be deemed to have accrued until the last instalment is paid. Non-receipt of this particular notice will not be held to excuse non-observance of the order of 8th September 1869, quoted above.

ORDER.—Ordered, that copies of the above Resolution be forwarded to the Comptroller General, the several Accountants General, the several Deputy Accountants General in independent charge, the Military Department, and the Public Works Department.

Offg. Secy. to the Council of the Govr. Genl. for making Laws and Regulations.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Simla, the 15th June 1871.

No. 2931.—In supersession of so much of the Notification No. 794, dated 25th January 1865, as relates to Uncovenanted Officers, the Governor General in Council is pleased to rule that henceforth all Uncovenanted Servants, whether holding gazetted or ungazetted appointments, shall be required to retire from the service on attaining the age of fifty-five years. Local Governments and Administrations are, however, empowered in exceptional cases, which should be reported for the information of the Government of India, to allow officers of this class, serving under their orders, to continue in the service for a further period not exceeding five years, *i. e.*, until they attain the age of sixty years. If in any case it be considered desirable that any officer should continue in the service for a still further period, the case should be specially referred for the previous sanction of the Government of India.

2. Officers of the Subordinate Medical Service employed in the Civil Department are excluded from the operation of the above ruling.

The 16th June 1871.

No. 2950.—The Governor General in Council is pleased to declare the provisions of Act XXXI. of 1860 *(an Act relating to the manufacture, importation, and sale of Arms and Ammunition, and for regulating the right to keep and use the same, and to give power of disarming in certain cases)*, as modified by Act VI. of 1866 *(the Arms' Act Continuance Act)*, to be in force throughout the Hyderabad Assigned Districts.

2. His Excellency in Council is further pleased—

(a) under the provisions of Section 50, Act XXXI. of 1860, to withdraw the Province of British Burmah from the operation of Sections 41, 42, 43, and 53, and the District of Nimar, in the Central Provinces, from the operation of Section 26 of the said Act, respectively;

(b) under the provisions of Clause 4 of Section 27, Act XXXI. of 1860, as amended by Section 3, Act VI. of 1866, to exempt from the operation of Sections 25 and 26 of the former Act, the following classes of persons residing in the Province of Coorg:

(1) Europeans, Americans, and Eurasians;

(2) persons of the Coorg race;

(3) persons of other races who hold lands on jumma tenure and are, consequently, liable to be called on to perform police duties; and

(4) members of the family of the late Chiefs of Coorg, permitted to reside in the Province; and their retainers;

(c) under the provisions of the clauses and sections above-cited, and of Clause 8, Section 32, Act XXXI. of 1860, to exempt Europeans, Americans, Eurasians Parsees, and Native Christians residing in the Province of Oudh, from the operation of Sections 25, 26, and 32 of the last-named Act.

3. It is notified for general information that, with the exceptions above described, Act XXXI. of 1860, as modified by Act VI. of 1866, remains in force in Oudh, the Central Provinces, British Burmah, and Coorg.

No. 2956.—The following despatch from Her Majesty's Secretary of State for India, No. 22, dated 23rd March 1871, and its enclosures, are published for general information:

From—Her Majesty's Secretary of State for India.
To—The Government of India.

With reference to my despatch of the 28th of July last, No. 80, I forward, for the information of your Excellency in Council, copy of a correspondence* between this Department and the Civil Service Commissioners, regarding the adoption in all parts of India of one set of rules and form of certificate of age required to be produced by Native candidates for the Indian Civil Service.

* Letter from India Office, dated 17th February 1871.
" " Civil Service Commission, 8th March "

2. I desire that your Lordship in Council will carry into effect this proposal in accordance with the intimation conveyed in the last paragraph of Mr. Merivale's letter of the 17th

ultimo. The Civil Service Commissioners suggest that the rules published by the Bombay Government might with advantage serve as a model.

Dated India Office, the 17th February 1871.

From—H. MERIVALE, ESQ., C. B., Her Majesty's Under Secretary of State for India.
To—The Secretary, Civil Service Commission.

I am directed by the Secretary of State for India in Council to acknowledge the receipt of your letter of the 6th instant, enquiring whether any special form of the certificate of age to be required, to be filled up by Native candidates for the Indian Civil Service, has been prescribed by the Secretary of State, or by the several Governments in India.

2. In reply, I am to state, for the information of the Civil Service Commissioners, that the Duke of Argyll, in communicating to the Indian Government in July last the portion of your letter of the 8th of that month which related to this matter, left to the local authorities to prescribe such certificates as they might deem necessary.

3. The last paragraph but one of your letter above-cited, was communicated to the several Presidencies and Divisions of Government in India, and published in the Government Gazettes. No despatch has been received from the Government of India on the subject; but I am desired to forward to you a copy of a communication from the Madras Government, with its enclosures, containing a notification to intending candidates in that Presidency for the Indian Civil Service, which concludes with a form of certificate of age to be issued to them.

Educational Despatch, to Secretary of State, No. 1 of 1871.

4. The rules forwarded with your present communication are, I am to state, those which, under the orders of the Bombay Government, were drawn up by the Director of Public Instruction at that Presidency, and published in the *Bombay Government Gazette* of the 29th of December last.

5. I am to add that, should the Civil Service Commissioners so desire, the Duke of Argyll will instruct the Indian Government to publish one set of rules and form of age certificate applicable to all parts of India.

Dated the 8th March 1871.

From—T. WALROND, ESQ.
To—The Under Secretary of State for India.

I am directed by the Civil Service Commissioners to acknowledge the receipt of your letter of the 17th ultimo, relative to the certificate of age required to be produced by Native candidates for the Indian Civil Service.

And, in reply, I am to acquaint you, for the information of the Secretary of State for India in Council, that the Commissioners think it very desirable that one set of rules and form of certificate of age applicable to all parts of India, should be published by the Government of India as proposed in the last paragraph of your letter, and that the rules published by the Bombay Government appear to the Commissioners to offer a model which might with advantage be adopted in the other Presidencies.

Rules published by the Government of Bombay in the General Department, under date the 22nd December 1870.

The Right Hon'ble the Governor in Council is pleased to publish the following Rules under which certificates of age will be issued to candidates for the Indian Civil Service from the Bombay Presidency:

I.—Candidates for admission to compete in England for the Indian Civil Service are required, before leaving India, to obtain a certificate of age signed by the Chief Secretary to Government.

II.—In order to obtain a certificate, candidates are required to prove the date of their birth before the Magistrate of the District in which the candidate's family resides; or, if the family residence is in Bombay, before the Senior Magistrate.

III.—Candidates will signify their desire to compete, not less than three months before the date on which they propose to go to England, to the Chief Secretary to Government, who will then forward each application for the purpose of enquiry to the Magistrate to whose District it belongs.

IV.—The Magistrate will call upon the candidate to appear and give evidence of the date of his birth within one month. He will carefully examine into the value of the evidence given, and forward a summary of it, with certified copies of all documents tendered and with his comments and opinion, to the Chief Secretary to Government.

V.—The documentary evidence which the candidates may be expected to produce comprises—

(*a.*)—The horoscope.

(*b.*)—Family books.

(*c.*)—Tradesmen's account books showing entries relating to the birth.

(*d.*)—The record of admission in the registers of the school in which the candidate was educated, and the record of the candidate's age at various periodical school examinations.

(*e.*)—If the candidate is matriculated, a certified copy of his application to the Registrar in Form A.

(*f.*)—Oral testimony of persons acquainted with the candidate's family and others will also be taken, and the candidate is required to comply, to the best of his power, with any requisition the Magistrate may make in order to clear up any doubt as to the purport of the documentary proofs.

VI.—If the Chief Secretary shall be satisfied by the papers submitted by the Magistrate that the candidate has stated the date of his birth correctly, he will issue a certificate declaring that the candidate has submitted the proofs of his birth to the Magistrate of the District, and has satisfied him that he was actually born on or about the date stated by him, *viz.*, the day of 18 .

VII.—If the Chief Secretary finds reason to doubt that the candidate was born on the day asserted by him, the certificate will be refused, and the candidate will be unable to obtain admission to the competitive examination for the Indian Civil Service.

VIII.—Where the date of a birth has been formally registered in a register kept by any public officer, an extract from the register duly certified by the proper official shall be accepted as sufficient proof of the date of the birth.

IX.—Any declaration of age made after the application of these rules on occasion of seeking admission to any University Examination, Educational Institution, or Government Office, or otherwise recorded in a formal or deliberate manner, will be taken as conclusive evidence in disproof of the subsequent assertion by the same person that he is of a different age to that so declared or recorded.

EDUCATION.

NOTIFICATIONS.

(FIBRES AND SILK.)

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8.—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Department of Agriculture, Revenue, and Commerce in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Department of Agriculture, Revenue, and Commerce.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to *(here insert the locality to which it is desired that the stems be forwarded)*, or to the nearest Railway Station, I promise to remit the total amount so required to the said officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Department of Agriculture, Revenue, and Commerce.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government,

or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2nd.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

No. 529 *of* 1871.—The services of Major-General D. M. Stewart, C.B., of the Bengal Staff Corps, are placed at the disposal of the Department of Revenue, Agriculture and Commerce.

The 14th June 1871.

No. 530 *of* 1871.—His Excellency the Governor General in Council is pleased to notify that a medical officer transferred from one regiment to another on public grounds, but not otherwise, is entitled, while in transit, if he joins without delay, to a continuance of his consolidated charge pay, which will be passed to him on a certificate that the transfer was made solely in the interests of the Public Service.

2. When a medical officer is so transferred on public grounds, the officer who succeeds him will be allowed the consolidated charge pay, or the additional charge allowance, as the case may be; and the medical officer of the regiment, to which the transferred officer is proceeding, will continue to draw the same allowance he was in receipt of at the date of the transfer until he is relieved.

No. 531 *of* 1871.—The following notification in the Financial Department is re-published for general information:

No. 414, dated Simla, the 16th May 1871.

LEAVE AND ALLOWANCES.

The Governor General in Council is pleased to direct the following alterations in the Covenanted Civil Service Leave Code:

1. The following rule is to be substituted for Rule 3 under Section XI:

"3.—If an officer overstay subsidiary leave prefixed to furlough, his furlough will be held to have commenced in India; and under the operation of Section X, it will be reckoned from the date of his quitting his station. This rule is not meant to interfere with cases dealt with under Rule 2 above.

"*This rule applies in analogous cases to all officers in civil employ.*"

2. The following rule is to be added as Rule 3 under Section XXVI.:

"3.—When privilege leave is on medical certificate retrospectively commuted to furlough out of India, so much of the leave passed before embarkation may be treated as subsidiary leave, as the officer would have been entitled to count as subsidiary leave, if he had originally obtained furlough and not privilege leave."

"*This rule applies generally.*"

No. 532 *of* 1871.—Doubts having arisen on the point, it is notified, for general information, that the rule which regulates the allowances to be drawn by a staff officer ordered on any separate duty, whilst proceeding to and returning from such duty, as laid down in Articles 4 and 5, Section XXXII. of the Pay and Audit Regulations of the Bengal Presidency, is applicable to the case of an officer on staff employ who may be temporarily withdrawn from his appointment on field service, *viz.*, that if the amount of staff salary which the officer will draw in virtue of the temporary appointment is not greater than the staff salary of his substantive appointment, he will be allowed, whilst proceeding to, and returning from the temporary appointment, a moiety of his own staff salary with the pay of his rank, or pay and allowances, as the case may be; but if the staff salary which he draws in the temporary appointment be greater than that of his substantive appointment, he will be restricted to the pay of his rank (or pay and allowances, as the case may be), whilst going and returning.

The above ruling does not affect the provisions of G. G. O. No. 494 of 1863 in respect to the allowances to be drawn by the officer who may be appointed to act for one so detached.

This Order is applicable to the three Presidencies.

No. 533 *of* 1871.—With reference to the notification issued by the Foreign Department, No. 1071 G., dated 26th May 1871, the services of Lieutenant-Colonel (Brevet-Colonel) W. H. Crichton, C.B., of the Madras Staff Corps, are replaced at the disposal of the Government of Fort St. George.

NOTIFICATIONS.

(FIBRES AND SILK.)

Fort William, the 26th January 1871.

No. 478.—The Governor General in Council is pleased to direct the publication of the following advertisement in substitution of the one published under Notification No. 145, dated the 11th January 1870:

ADVERTISEMENT.

1.—The Government of India, after communication with various Agricultural and Horticultural Societies in India, and with persons interested in the subject, has arrived at the conclusion that the only real obstacle to the development of an extensive trade in the fibre of Rhea or China-grass is the want of suitable machinery for separating the fibre and bark from the stem, and the fibre from the bark, the cost of effecting such separation by manual labour being great.

2.—The demand for the fibre is now large, and, no doubt, might be extended with reduced prices, and there is a practically unlimited extent of country in India where the plant could be grown.

3.—The requirements of the case appear to be some machinery or process capable of producing, with the aid of animal, water, or steam-power, a ton of fibre of a quality which shall average in value not less than £50 per ton in the English market, at a total cost—all processes of manufacture and allowance for wear and tear included—of not more than £15 per ton. The said processes are to be understood to include all the operations performed, after the cutting and transport of the plant to the place of manufacture to the completion of the manufacture of fibre of the quality above described. The machinery must be simple, strong, durable, and cheap, and should be suited for erection at or near the plantations, as the refuse is very useful as manure for continued cultivation.

4.—To stimulate the invention or adaptation of such machinery or process, the Government of India hereby offers a prize of £5,000 for the machine and process that best fulfils all the requirements named above.

5.—Rewards of moderate amount will be given for really meritorious inventions, even though failing to meet entirely all the conditions named.

6.—Owing to the delay that has taken place in maturing the preliminary arrangements, the Government of India has decided that the competition will not be held until the 1st April 1872, thus affording a much longer time than was originally intended for the preparation of machines and their transport to the locality appointed for the competition. The Government Rhea Plantation at Saharunpore, in the North-Western Provinces, has been fixed as the place where the public competition will be held, and the Government of India will provide one or more small steam-engines to work the machines during the public competition.

7.—All machinery, &c., intended for trial must be brought by the competitors at their own charge to the Saharunpore Rhea Plantation, and kept ready before the 1st April 1872, to be there worked under their own supervision, or under that of their representatives, for a sufficient length of time to enable the judges appointed by Government to determine whether all the conditions named have been complied with. The prize machine is to be transferred, if required, to Government at 5 per cent. above cost price; the patent right in any such machine to be also transferred, if required, to Government, on the latter securing to the patentee a royalty of 5 per cent. on the cost price of all machines manufactured under the patent during its currency.

8.—Arrangements have now been completed for the supply of dried Rhea stems to intending competitors, both in this country and in Europe, to enable them to form a correct idea of the nature of the plant which their machinery will be required to deal with. Persons in Europe desirous to obtain small supplies of dried Rhea stems for the above purpose, should apply to the Secretary of State for India. Intending competitors in this country, desirous of obtaining supplies of the article, must submit applications to the Secretary to the Government of India in the Department of Agriculture, Revenue, and Commerce in the Form A hereto annexed, prior to the 1st of March 1871; and those who are desirous of testing their machinery on the fresh Rhea at the Government Rhea Plantation at Saharunpore during the year 1871, must submit their applications to the same authority, in the Form B hereto annexed, prior to the 1st April 1871. The former will have to pay the expenses that may be incurred in packing and despatching the stems. The latter will have to provide all labor and motive power necessary for, and to pay all expenses connected with, their experiments: the fibre turned out by their machines during such experiments to become the property of Government.

9.—In order to enable the Government to arrange for the provision of a sufficient stock of fresh Rhea stems for the purposes of the formal competition in April 1872, it is necessary to ascertain beforehand the number of machines that are likely to take part in it; and intending competitors are, therefore, requested to submit, prior to the 1st May 1871, and in the Form C also hereto annexed, notices of intention to compete.

Form A.

APPLICATION FOR DRIED STEMS OF THE RHEA.

To the Secretary to the Government of India, Department of Agriculture, Revenue, and Commerce.

Name of applicant.	Profession or occupation.	Address in full.	Quantity of dried stems applied for.	Locality to which it is desired that the stems be transmitted.	Name of nearest Railway Station to locality entered in preceding column.

On hearing from the Superintendent of the Government Rhea Plantation, Saharunpore, the amount of the expenses to be incurred in packing and despatching the quantity of stems above applied for, or such lesser quantity as may be allotted to me, as also the cost of carriage of such quantity to *(here insert the locality to which it is desired that the stems be forwarded)*, or to the nearest Railway Station, I promise to remit the total amount so required to the said officer, and I acknowledge that the packing and transmission of such stems will be entirely at my risk.

Form B.

APPLICATION FOR PERMISSION TO MAKE PRELIMINARY EXPERIMENTS FOR TESTING MACHINERY AT THE GOVERNMENT RHEA PLANTATION, SAHARUNPORE.

To the Secretary to the Government of India, Department of Agriculture, Revenue, and Commerce.

Name of applicant.	Profession or occupation.	Address in full.	Brief description of machinery proposed to be tested.	Date on which applicant, if permitted, proposes to commence testing his machinery.	Approximate amount of green stem which applicant expects will be necessary for testing the machinery.

I acknowledge that, if permission be granted to me to test the above-described machinery at the Government Plantation, such permission will be subject to the following conditions:

1*st*.—I am to provide all labor and motive power necessary for, and to pay all expenses connected with, testing my machinery.

2*nd*.—I am bound to conform to such rules in regard to time and place of conducting my experiments, hours of working, and the like, as the Superintendent of the Plantation may lay down for my guidance.

3*rd*.—I shall receive only such quantities of green stem, and at such time or times as, with reference to the other claims upon him, the Superintendent may find convenient to allot me.

4*th*.—All fibre, &c., turned out by my machines during these experiments, with stems furnished by Government, will be the property of Government.

Form C.

NOTICE OF MACHINERY INTENDED TO COMPETE FOR THE GOVERNMENT RHEA MACHINERY PRIZES AT THE TRIALS TO BE HELD AT SAHARUNPORE IN APRIL 1872 AND SUBSEQUENT MONTHS.

PARTIES INTENDING TO COMPETE.			Number of different kinds of machines which competitor desires to take part in the trials.	Brief description of each kind of machine.	Motive power required to work the machine.	Date by which the machines will be ready at Saharunpore for trial.
Name in full.	Profession or occupation.	Residence in full.				

In proposing to enter the above-noted machinery for the Saharunpore competitive trials, I do so under the full understanding that—

1*st*.—I shall be bound to conform to all rules and regulations in regard to all matters in any way connected with these trials that may be laid down by Government, or by the judges appointed by Government to preside over these, and that failing to do so, I shall forfeit all claim to any prize, reward, or recompense from Government, and entirely disqualify my machinery for the competition.

2*nd*.—All fibre, &c., turned out by my machinery during the trials, with stems furnished by Government, will be the property of Government.

Read a communication from the Public Works Department, No. 300A—G, dated the 27th April 1871, referring, for orders, the question whether under Section XXI. of the Covenanted Civil Leave Rules (by which an officer overstaying privilege leave by one week or less forfeits all salary during the time he is so absent), a military officer should forfeit his military pay, as well as departmental salary for the period during which he may overstay his leave.

RESOLUTION.—The Governor General in Council is pleased to rule that a military officer in civil employ who overstays privilege leave, shall forfeit *all his* pay, military and civil, for the period of overstay.

ORDER.—Ordered, that a copy of the foregoing Resolution be sent to the Public Works Department for information.

The 19th June 1871.

No. 238.—The Governor General in Council is pleased to make the following promotions in the Engineer Branch of the Public Works Department, with effect from the dates specified:

From 3rd to 2nd Class Chief Engineer (officiating).

Lieutenant-Colonel C. Pollard, R. E., Railway Branch, Punjab; and Lieutenant-Colonel F. S. Taylor, R. E., Railway Branch, Bengal. Both from the 21st May 1871.

From 2nd to 1st Grade Superintending Engineer.

Major J. O. Mayne, R. E., Hyderabad.—From 1st March 1871.

From 3rd to 2nd Grade Superintending Engineer.

BANK OF BENGAL.

Report by the Directors of the Bank of Bengal for the Half-year ended 31st December 1870.

The Directors have the pleasure to submit to the Proprietors their usual periodical report on the Bank's transactions at Head Office and Branches.

The money market during the past half-year has been characterised by uninterrupted dulness and inactivity, the rates at which the Bank offered to discount remaining unchanged during the whole period. Meanwhile the nature and safety of the Bank's advances has had the special attention of the Board, and measures have been taken to restrict the discounts at Head Office and Branches within safe limits.

The Bank's operations for the past six months at Head Office and Branches show a clear profit of Rs. 6,81,259-9-5; from this, after making ample provision for all bad and doubtful debts, the Directors have declared a dividend at 5½ per cent. per annum free of Income Tax, and carried forward the balance of Rs. 5,935-14-2 to credit of Profit and Loss for the current half-year.

The Directors have the satisfaction of informing the Proprietors that the Branches continue to work satisfactorily.

Statement of the Affairs of the Bank of Bengal as at 31st December 1870.

	Denmark	10	8
	Moldavia, Wallachia, Turkey in Europe, Sweden, Norway, Poland, Russia	14	0

3. The prepayment of postage by this route will, as heretofore, be optional, except in respect of the places printed above in italics, correspondence destined for which must be prepaid. The rates given above carry the cover to destination in all cases except in respect of the places printed above in italics. Insufficiently paid letters will, as heretofore, be treated as if wholly unpaid. Letters can be registered to any of the above mentioned places (except those printed in italics) on payment by means of stamps of double the ordinary rates.

4. Prepaid letters received from the above mentioned countries by this route will, as heretofore, be delivered in India without charge. Unpaid or insufficiently paid letters received by this route will be charged on delivery in India at the rate of 14 annas per ¼ ounce.

5. The route "*viâ* Bombay and France" is the best for letters [illegible] France, Algeria, Tunis, Tangiers, Spain, [illegible] letters [illegible] not specifically marked for transmission by [illegible] will be forwarded by it.

6. Packets of newspapers, books and patterns can also be forwarded by this route if prepaid with Indian inland postage at ordinary rates, subject to the realisation of foreign postage on delivery.

7. Packets of newspapers, books and patterns received by this route will, as heretofore be charged with ordinary Indian inland rates on delivery.

8. The postage rate chargeable on letters forwarded through Calcutta or Madras by French Packet to Suez, Cairo, Alexandria, Greece, and French Offices in Turkey has been increased from 6 annas to 6 annas 4 pie per ¼ ounce : and unpaid or insufficiently paid letters received by French Packet from Suez and places west of Suez (other than the United Kingdom and countries served through it) will in future be chargeable on delivery in India at the rate of 14 annas per ¼ ounce.

POST OFFICE.

NOTIFICATIONS.

Calcutta, the 14th April 1871.

UNDER a revised arrangement with the Kingdom of Italy, the following rates will be chargeable on correspondence forwarded to Italy "*viâ* Bombay," or to foreign countries "*viâ* Bombay and Italy" in supersession of the rates published in the Postal Notice of the 19th August 1870:—

		Letters per ½ oz.		Packets of Newspapers, Books and Patterns. Not exceeding 2 ozs.		Not exceeding 4 ozs., a like rate extra for every additional 4 ozs.	
		A.	P.	A.	P.	A.	P.

Viâ BOMBAY AND ITALY.	Switzerland ... German States ... Austria ...	6	0	2	0	3	8
	Belgium ... Netherlands ...	6	0	2	8	4	8
	Denmark ... Heligoland ...	8	0	2	8	4	8
	Sweden ... Norway Russia	11	0	3			

Note.—No packet of patterns for any of the above-mentioned countries must exceed 8 ounces in weight.

2. The above rates carry the covers to destination in all cases: the prepayment of *letters* is *optional*: insufficiently-paid letters will be treated as if wholly unpaid: the full prepayment of newspapers, books, and patterns is in all cases compulsory.

3. Letters can be registered to any of the above-mentioned countries on payment by means of stamps of double the rates given above.

4. Prepaid letters, newspapers, books, and patterns received from the above-mentioned countries by this route will be delivered in India without charge.

5. Unpaid or insufficiently-paid letters received from the above-mentioned countries by this route will be charged on delivery in India at the rate of 12 annas per quarter ounce.

6. This route (*viâ* Bombay and Italy) to the countries mentioned, being speedier than any of the other routes, all covers which fulfil its conditions and which are not specially marked by the senders for transmission by another route, will be forwarded by it.

7. The term German States, as used above, includes all the German States, *viz.*:—

Anhalt.	Mecklenburg Schwerin.
Baden.	Mecklenburg Strelitz.
Bavaria.	Nassau.
Birkenfeld.	Oldenburg.
Bremen.	Prussia.
Brunswick.	Reuss.
Frankfort-sur-Maine.	Saxe Altenburg.
Hamburg.	Saxe Coburg Gotha.
Hanover.	Saxe Meiningen Hildburghausen.
Hesse Darmstadt.	Saxe Weimar Eisenach.
Hesse Electoral.	Saxony.
Hesse Homburg.	Schaumburg Lippe.
Hohenzollern.	Schleswig Holstein.
Lauenburg.	Schwartzburg Rudolstadt.
Lippe Detmold.	Schwartzburg Sonderhausen.
Lubeck.	Waldeck.
Luxembourg.	Wurtemburg.

CORRESPONDENCE for and from France and countries in foreign Europe served through France, formerly conveyed by British packet as far as Marseilles, is now conveyed by British packet to Brindisi, and thence through Italy to France. This change has given rise to an increased charge on account of Italian transit, and the French Post Office has requested that the postage rates levied in India may be increased accordingly.

2. The following Table shows the revised rates of letter postage on the correspondence above-mentioned :—

		Letters per ½ ounce. As. P.
Vid Bombay and France ...	France, Algeria, Tunis, and Tangiers	6 8
Vid Bombay through French Post Office, Alexandria.	French Offices in Turkey	5 4
Vid Bombay and France ...	*Spain* and *Gibraltar*	7 4
	Belgium, the Netherlands, Portugal, Switzerland, and the German States marked B below	8 8
	Azores and *Canary Islands*	9 4
	Austria, *Servia*, *Montenegro*, and the German States marked D below	10 0
	Denmark	10 8
	Moldavia, Wallachia, Turkey in Europe, Sweden, Norway, Poland, Russia	14 0

3. The prepayment of postage by this route will, as heretofore, be optional, except in respect of the places printed above in italics, correspondence destined for which must be prepaid. The rates given above carry the cover to destination in all cases, except in respect of the places printed above in italics. Insufficiently-paid letters will, as heretofore, be treated as if wholly unpaid. Letters can be registered to any of the above-mentioned places (except those printed in italics) on payment by means of stamps of double the ordinary rates.

4. Prepaid letters received from the above-mentioned countries by this route will, as heretofore, be delivered in India without charge. Unpaid or insufficiently-paid letters received by this route will be charged on delivery in India at the rate of 14 annas per quarter ounce.

5. The route "*vid* Bombay and France" is the best for letters destined for France, Algeria, Tunis, Tangiers, Spain, Azores, and Canary Islands, and letters for those places not specifically marked for transmission by any other route will be forwarded by it.

6. Packets of newspapers, books, and patterns can also be forwarded by this route if prepaid with Indian inland postage at ordinary rates, subject to the realization of foreign postage on delivery.

7. Packets of newspapers, books, and patterns received by this route will, as heretofore, be charged with ordinary Indian inland rates on delivery.

8. The postage rate chargeable on letters forwarded through Calcutta or Madras by French packet to Suez, Cairo, Alexandria, Greece, and French Offices in Turkey has been increased from 6 annas to 6 annas 4 pie per quarter ounce; and unpaid or insufficiently-paid letters received by French packet from Suez and places west of Suez (other than the United Kingdom and countries served through it) will, in future, be chargeable on delivery in India at the rate of 14 annas per quarter ounce.

9. The following are lists of the "French Offices in Turkey" and "the German States" referred to above :—

French Offices in Turkey.

Alexandretta.	Port Said.
Beyrout.	Rhodes.
Dardanelles.	Salonica.

GAZETTE OF INDIA.

NOTICE.

Calcutta, the 24th December 1870.

From the 1st of January next, separate advertisement of lost or destroyed Notes will not be received direct from the owners for insertion in the *Gazette of India*, but intimation of loss should continue to be given, as now, to the several Commissioners of Paper Currency, who will furnish this Office weekly with lists of lost Notes of their Circles for advertisement in the form prescribed by the Head Commissioner of Paper Currency.

This change will relieve the public of the duty of advertising the Notes themselves, and ensure that any adverse claimant shall know where to prefer his claim.

O. T. CUTTER,

Publisher, Gazette of India.

Simla, the 21st April 1871.

FROM and after this date, the 22nd April, the *Gazette of India* will be published at Simla every Saturday until further notice.

	Belgium ... Netherlands ...	6	0	2	8	4	8
	Denmark ... Heligoland ...	8	0	2	8	4	8
	Sweden ... Norway ... Russia ...	11	0	2	8	4	8

Note.—No packet of patterns for any of the above-mentioned countries must exceed 8 ounces in weight.

2. The above rates carry the covers to destination in all cases: the prepayment of *letters* is *optional*: insufficiently-paid letters will be treated as if wholly unpaid: the full prepayment of newspapers, books, and patterns is in all cases compulsory.

3. Letters can be registered to any of the above-mentioned countries on payment by means of stamps of double the rates given above.

4. Prepaid letters, newspapers, books, and patterns received from the above-mentioned countries by this route will be delivered in India without charge.

5. Unpaid or insufficiently-paid letters received from the above-mentioned countries by this route will be charged on delivery in India at the rate of 12 annas per quarter ounce.

6. This route (*viâ* Bombay and Italy) to the countries mentioned, being speedier than any of the other routes, all covers which fulfil its conditions and which are not specially marked by the senders for transmission by another route, will be forwarded by it.

7. The term German States, as used above, includes all the German States, *viz.* :—

Anhalt.
Baden.
Bavaria.
Birkenfeld.
Bremen.
Brunswick.
Frankfort-sur-Maine.
Hamburg.
Hanover.

Schwartzburg Rudolstadt.
Schwartzburg Sonderhausen.
Waldeck.
Wurtemburg.

CORRESPONDENCE for and from France and countries in foreign Europe served through France, formerly conveyed by British packet as far as Marseilles, is now conveyed by British packet to Brindisi, and thence through Italy to France. This change has given rise to an increased charge on account of Italian transit, and the French Post Office has requested that the postage rates levied in India may be increased accordingly.

2. The following Table shows the revised rates of letter postage on the correspondence above-mentioned :—

		Letters per ¼ ounce. As. P.
Viâ Bombay and France ...	France, Algeria, Tunis, and Tangiers	6 8
Viâ Bombay through French Post Office, Alexandria.	French Offices in Turkey	5 4
Viâ Bombay and France ...	*Spain* and *Gibraltar*	7 4
	Belgium, the Netherlands, Portugal, Switzerland, and the German States marked B below	8 8
	Azores and *Canary Islands*	9 4
	Austria, *Servia*, *Montenegro*, and the German States marked D below	10 0
	Denmark	10 8
	Moldavia, Wallachia, Turkey in Europe, Sweden, Norway, Poland, Russia	14 0

3. The prepayment of postage by this route will, as heretofore, be optional, except in respect of the places printed above in italics, correspondence destined for which must be prepaid. The rates given above carry the cover to destination in all cases, except in respect of the places printed above in italics. Insufficiently-paid letters will, as heretofore, be treated as if wholly unpaid. Letters can be registered to any of the above-mentioned places (except those printed in italics) on payment by means of stamps of double the ordinary rates.

4. Prepaid letters received from the above-mentioned countries by this route will, as heretofore, be delivered in India without charge. Unpaid or insufficiently-paid letters received by this route will be charged on delivery in India at the rate of 14 annas per quarter ounce.

5. The route "*viâ* Bombay and France" is the best for letters destined for France, Algeria, Tunis, Tangiers, Spain, Azores, and Canary Islands, and letters for those places not specifically marked for transmission by any other route will be forwarded by it.

6. Packets of newspapers, [illegible] paid with Indian inland postage at ordinary rates, subject to the realization of foreign postage on delivery.

7. Packets of newspapers, books, and patterns received by this route will, as heretofore, be charged with ordinary Indian inland rates on delivery.

8. The postage rate chargeable on letters forwarded through Calcutta or Madras by [illegible] packet to Suez, Cairo, Alexandria, Greece, and French Offices in Turkey has been raised from 6 annas to 6 annas 4 pie per quarter ounce; and unpaid or insufficiently-paid letters received by French packet from Suez and places west of Suez (other than the United Kingdom and countries served through it) will, in future, be chargeable on delivery in India at the rate of 14 annas per quarter ounce.

9. The following are lists of the "French Offices in Turkey" and "the German States" referred to above :—

French Offices in Turkey.

Alexandretta.
Beyrout.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by Comptroller General of Accounts, High Court, &c.

NOTICE.

Calcutta, the 24th December 1870.

FROM the 1st of January next separate advertisement of lost or destroyed Notes will not be received direct from the owners for insertion in the *Gazette of India*, but intimation of loss should continue to be given, as now, to the several Commissioners of Paper Currency, who will furnish this Office weekly with lists of lost Notes of their Circles for advertisement in the form prescribed by the Head Commissioner of Paper Currency.

This change will relieve the public of the duty of advertising the Notes themselves, and ensure that any adverse claimant shall know where to prefer his claim.

O. T. CUTTER,

Publisher, Gazette of India.

Simla, the 21st April 1871.

FROM and after this date, the 22nd April, the *Gazette of India* will be published at Simla every Saturday until further notice.

All communications, other than remittances, intended for the *Gazette of India*, should be addressed to the Officiating Publisher at his Office, "The Briers," Simla.

Remittances should be sent to the Publisher at his Office, No. 8 Hastings Street, Calcutta.

E. E.
A. MACKENZIE,
Secretary and Accountant.

"Mr. T. B. Tracy having requested that the General Meeting will decide whether he is liable under Article I of the Rules to pay subscription while on furlough, the Managers submit the particulars of his case.

"Mr. Tracy, vacating his appointment, proceeded on furlough on the 10th of January 1868. He was then in the receipt of a furlough allowance of £500 per annum on which no Fund subscriptions were exacted.

"The new Furlough Rules came into operation from 1st July 1868, and he had the option given him by Government of electing whether the remainder of his furlough should be taken under the new Rules or the old. He elected the new Rules, because the moiety of his average salary for the three years previous to his taking leave amounted to £514-1-6 per annum, and accordingly on his return to India he was informed that subscription was due under Article 1 of the Rules from 1st July 1868, the date of his accepting the new Rules, to the date of his return, 17th December 1869, and the sum he was called upon to pay was Rs. 315.

"Mr. Tracy allows that he was permitted to draw the equivalent of his average salary for the three years preceding his departure on furlough, but urges that as he held no appointment, he cannot properly be said to have drawn salary while on leave within the meaning of Rule 1.

"The Managers are of opinion that the Rule covers his case."

Proposed by Mr. Wilson, seconded by Mr. Westland, that the accounts be passed, and the Managers' proceedings in Mr. Tracy's case be confirmed.

Carried unanimously.

"The rules that have been amended are IV, VIII, and XXX.

"To Article IV has been added the following paragraph:—

"The subscriptions of annuitants or retired subscribers shall be regulated in the manner provided in Article VIII."

Article VIII has been amended as follows:—

FORMER RULE.

"*First.*—Subscribers, who may hereafter retire from the service on annuities, wishing to secure to their widows and children the full benefits of the Fund, must, on retirement, make up the amount of their subscriptions with interest to Rs. 25,000, and must also continue their contributions at the same rates on their annuities as those levied from subscribers in the service on their allowances, and under the same conditions in regard to minimum payments and liability to increase or decrease of rates; an option being allowed to each subscriber of paying up once for all, either at the time of resigning the service or at any subsequent period, the full value of his contributions, according to the Tables of Mortality, which, on the advice of an Actuary, may be adopted by the Managers. This commutation will be calculated at 5 per cent. in the following manner: ordinary subscriptions, on the life of the subscriber alone, additional subscriptions on the joint lives of husband and wife, and extra contributions for children on the joint lives of father and child. But such settlement will be open to re-adjustment, if the necessities of the Fund should be found to require an enhanced rate of subscription, and every retired subscriber will also be liable to pay in the same manner for each child afterwards born, and, in case of subsequent marriage, the additional premium as a married subscriber."

"*Second.*—But subscribers hereafter so retiring from the service may, at their option, by making up the amount of their subscriptions with interest either to Rs. 12,500, or to Rs. 6,250, and by contributing or compounding for their contributions at the same rates on their annuities as those levied from subscribers in the service on their allowances, secure to their families, on the same conditions as above, in the former case one-half, and in the latter one-quarter of the amount of pensions and other allowances granted to the family of a subscriber dying in the service, or of an annuitant who has made up on retirement the full amount of Rs. 25,000."

AMENDED RULE.

"*First.*—Subscribers, who may hereafter retire from the service on annuities, wishing to secure to their widows and children the full benefits of the Fund, must, on retirement, make up the amount of their subscriptions with interest to Rs. 25,000, and must also continue their contributions on their annuities at half the rates levied from subscribers in the service on their allowances, and under the same conditions in regard to minimum payments and liability to increase or decrease of rates; an option being allowed to each subscriber of paying up once for all, either at the time of resigning the service or at any subsequent period, the half value of his contributions, according to the Tables of Mortality, which, on the advice of an Actuary, may be adopted by the Managers. This commutation will be calculated at 5 per cent. in the following manner, the total being reduced thereafter by one-half: ordinary subscriptions on the life of the subscriber alone, additional subscriptions on the joint lives of husband and wife, and extra contributions for children on the joint lives of father and child. But such settlement will be open to re-adjustment, if the necessities of the Fund should be found to require an enhanced rate of subscription, and every retired subscriber will also be liable to pay in the same manner for each child afterwards born, and, in case of subsequent marriage, the additional premium as a married subscriber."

"*Second.*—But subscribers hereafter so retiring from the service may, at their option, by making up the amount of their subscriptions with interest either to Rs. 12,500 or to Rs. 6,250, and by continuing or compounding for their contributions on their annuities at half the rates levied from subscribers in the service on their allowances, secure to their families, on the same conditions as above, in the former case one-half and in the latter one-quarter of the amount of pensions and other allowances granted to the family of a subscriber dying in the service, or of an annuitant who has made up on retirement the full amount of Rs. 25,000."

"*Third.*—Provided that in the case of a subscriber marrying after retirement his contributions or commutation payment in lieu thereof shall, for his wife and for his children, the issue of such marriage, be taken at full rates."

"To Article XXX has been added the following additional paragraph:—

"Provided also that the Managers may continue the whole or any part of his pension to any son of a deceased subscriber, who, at any time subsequent to the 31st March 1868, may have attained or may attain to the age of 21 years, and who may be proved to their satisfaction to be wholly incapacitated from gaining his livelihood, such incapacity being produced by causes beyond his control, and being duly certified from time to time in such way as to the Managers may seem sufficient."

The widow of the late Mr. A. A. Roberts having applied for the continuance of her son Lawrence Henry's pension beyond the age of 21 years as provided for under Article 30 of the rules recently amended, the Managers have informed her that, subject to the confirmation of this meeting, they are willing to continue her son's pension, but that for the protection of the Fund it is necessary that she should submit in original the certificate of a Member of the Medical Board of the India Office, testifying to the inability of her son to earn his livelihood. A like certificate must be furnished every five years, while it will also be necessary for her to forward annually a certificate from her family physician of the continuance of the incapacity. Messrs. Coutts and Co. have received instructions to advance one quarter's pension in anticipation of the receipt of the certificate.

The Managers have received a similar application from Mrs. Craigie on behalf of her son Manson who attained his majority on the 18th November 1867, but as the rule expressly provides that only those sons of deceased subscribers, who came of age subsequent to 31st March 1868, are to be admitted to these new benefits, they have informed her that her son cannot claim anything further from the Fund.

The attention of annuitants has been called to the amended Article VIII of the rules, and a letter has been addressed to each annuitant who has compounded, informing him of the amount of commutation payment refundable, and requesting him to apply for the refund.

The amount to be refunded is £6,825-18 or Rs. 68,259. Mr. Brown calculated that the sum refundable would be Rs. 88,731.

This difference is mainly owing to the fact that the actuary assumed that all annuitants were in the receipt of the full annuity of £1,000.

A letter has also been addressed to annuitants who subscribe quarterly from their annuities, advising them of the reduced subscription payable in future, and informing them at what reduced rate a commutation may be affected.

The contributions from [illegible] to Rs. 14,408. The [illegible]

The actuary calculated the loss by compounding from annuitants to be Rs. 2,56,990. The detailed calculation in the Fund Office shows that the actual loss will be Rs. 2,84,323.

Mr. P. H. Egerton has under Article V of the rules of the Fund incurred a fine of Rs. 50 on account of his failure to report the birth of his son within the prescribed period of a month. Mr. Egerton urges that the omission was accidental, and that notice was given in good time to secure payment of the subscription. He has been informed that the reason assigned is in view of the stringency of the rule not sufficient to exempt him from the penalty.

Enquiry having been made whether, under the revised Article XXX, a son incapacitated from earning his livelihood would on his father's death be admitted to Fund benefits even though he were at that time over the age of 21, and had therefore never as a minor been an incumbent on the Fund, the Managers have decided that such cases are not within the rule. They are however desirous of having the rules amended so as to meet such cases. They will under Article XVII (18) of the rules advertise amendments of Articles IV and XXX as follow—

That to Article IV be added the words:—

"It shall be optional to a subscriber to continue his payments at ordinary or at widower rates as the case may be on account of any son who may on his attaining the age of 21 years be reported to the Managers to be wholly incapacitated by reason of infirmity from earning his livelihood. Such payments must be continued up to the date of the subscriber's decease, and the Managers must be satisfied that the infirmity was not produced by causes within the control of the invalid."

And that to Article XXX (31) be added the words:—

"Provided further that the Managers may, under similar conditions as to medical certificates as in the above case, admit to Fund benefits either in whole or in part the son of a subscriber even though such son shall have previously attained his majority, if he is wholly incapacitated from earning his livelihood, provided that subscriptions have been paid on his account under Article IV up to the date of his father's decease. Should the Managers decide to reject such an application for admission to Fund benefits, they shall refund to the legal representatives of the subscriber, but without interest, all subscriptions received on account of such incapacitated son from the close of his twenty-first year."

This rule, it is proposed, shall have effect from 1st January 1871.

The accounts of the past year, 1869-70, are submitted.

SURVEYOR GENERAL'S DEPARTMENT.

NOTICE.

With the view of facilitating the purchase or procurement of the published *Lithographed, Photozincographed,* and *Engraved* maps of the Survey of India, the undersigned notifies for general information that Agents have been appointed under each of the local Governments and jurisdictions, as below specified, from whom all available maps will in future be procurable on application, either by sale, or on the public service, as the case may be.

2. It is particularly requested that purchasers and officials in each jurisdiction will apply in the first instance to the local Agent for such maps as they may require, and on failure to receive the same, then Messrs. Thacker, Spink and Co., St. Andrew's Library, sole Agents in Calcutta, should be addressed for those required *on sale,* or the Registrar of the Surveyor General's Office at Calcutta for those required on the *public service.* By obtaining maps on the spot, or at the shortest distances, it is hoped delay and inconvenience, as well as postage, will be spared.

3. Local Agents will supply maps gratis on the *public service* when the requisition is supported by competent authority, but the cost of mounting, binding, and packing must be paid by official applicants. Under the new Postal Rules, Banghy charges cannot be met by the Survey Department.

4. Maps are supplied from the Surveyor General's Office, Calcutta, *on the public service* only. Maps are procurable *on sale* from Messrs. Thacker, Spink and Co. and local Agents only.

5. Lists of the available published maps are notified from time to time, with their prices, in the General Government Gazettes.

6. Applicants are particularly requested to specify the exact maps wanted, according to the description or title given in the published Lists and Catalogues, and whether colored or uncolored.

7. The Surveyor General's Office does not undertake the mounting and binding of maps, and cannot defray the cost of the same.

8. Maps exceeding 3 feet in length cannot be despatched by Banghy Dawk.

9. When lithographed District Maps, on the scale of 4 miles = 1 inch, are applied for, which may not then be available, the engraved sheets of the Indian Atlas, containing the required Districts, or any other good map of the same country, will be sent.

10. The engraved sheets of the Atlas of India, size 3 ft. 4½ inches by 2 ft. 3½ inches, scale 4 inch to the mile, are available to the extent represented on the Index Map registered at St. Andrew's Library, and as published in the *Gazette of India,* dated the 25th September

1869.—Price Rs. 2 each sheet, unmounted. The new sheets of the Indian Atlas will in future be published one-fourth the size of those hitherto available.—Price of each quarter sheet, Annas 12.

11. The following maps have recently been published :—

Engraved Altas Sheets Nos. 125 S E, 87 S W, 27A S E, 41A S W, 45 N W, 45 S W, 51 N W, 51 N E, 69 N W, 69 N E, 69 S W, 70 S W, 70 S E, 90 S E, 91 N E, 71 N W, 71 N E, 91 S E, 92 N E.
