HIS EXCELLENCY THE VICEROY AND GOVERNOR GENERAL, on arriving at the place of Assemblage, was received with a Royal Salute without guns from the troops assembled.

At the Grand Entrance, the Viceroy and Governor General alighted from his carriage, and, preceded by his Staff, advanced to the Throne. As the Viceroy alighted, Heralds sounded a flourish of trumpets, and Military Bands played a Grand March until His Excellency arrived at the Throne. As His Excellency the Viceroy and Governor General ascended the Throne, the Bands played the National Anthem until His Excellency had taken his seat, while Guards of Honor drawn up on either side of the Throne presented arms.

The following Proclamation was then read aloud in the English language by the Chief Herald :—

VICTORIA REGINA.

WHEREAS an Act has been passed in the present Session of Parliament intituled "An Act to enable Her Most Gracious Majesty to make an addition to the Royal Style and Titles appertaining to the Imperial Crown of the United Kingdom and its Dependencies," which Act recites that, by the Act for the Union of Great Britain and Ireland, it was provided that after such Union the Royal Style and Titles appertaining to the Imperial Crown of the United Kingdom and its Dependencies should be such as His Majesty by His Royal Proclamation under the Great Seal of the United Kingdom should be pleased to appoint: and which Act also recites that, by virtue of the said Act, and of a Royal Proclamation under the Great Seal, dated the 1st day of January 1801, Our present Style and Titles are "VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith:" and which Act also recites that, by the Act for the better government of India, it was enacted that the Government of India, theretofore vested in the East India Company in trust for Us, should become vested in Us, and that India should thenceforth be governed by Us and in Our name, and that it is expedient that there should be a recognition of the transfer of government so made by means of an addition to be made to Our Style and Titles: And which Act, after the said recitals, enacts that it shall be lawful for Us, with a view to such recognition as aforesaid, of the transfer of the Government of India, by Our Royal Proclamation under the Great Seal of the United Kingdom, to make such addition to the Style and Titles at present appertaining to the Imperial Crown of the United Kingdom and its Dependencies as to Us may seem meet; we have thought fit, by and with the advice of Our Privy Council, to appoint and declare, and We do hereby, by and with the said advice, appoint and declare that henceforth, so far as conveniently may be, on all occasions and in all instruments wherein Our Style and Titles are used, save and except all Charters, Commissions, Letters Patent, Grants, Writs, Appointments, and other like instruments, not extending in their operation beyond the United Kingdom the following addition shall be made to the Style and Titles at present appertaining to the Imperial Crown of the United Kingdom and its Dependencies; that is to say, in the Latin tongue in these words: "INDIÆ IMPERATRIX." And in the English tongue in these words: "EMPRESS OF INDIA."

And Our will and pleasure further is, that the said addition shall not be made in the Commissions, Charters, Letters Patent, Grants, Writs, Appointments, and other like instruments, hereinbefore specially excepted.

And Our will and pleasure further is, that all gold, silver, and copper moneys, now current and lawful moneys of the United Kingdom, and all gold, silver, and copper moneys which shall, on or after this day, be coined by Our authority with the like impressions, shall, notwithstanding such addition to Our Style and Titles, be deemed and taken to be current and lawful moneys of the said United Kingdom; and further that all moneys coined for and issued in any of the Dependencies of the said United Kingdom, and declared by Our Proclamation to be current and lawful money of such Dependencies, respectively bearing Our Style, or Titles, or any part or parts thereof, and all moneys which shall hereafter be coined and issued according to such Proclamation, shall, notwithstanding such addition, continue to be lawful and current money of such Dependencies respectively, until Our pleasure shall be further declared thereupon.

Given at Our Court at *Windsor* the twenty-eighth day of *April* one thousand eight hundred and seventy-six in the thirty-ninth year of Our Reign.

GOD SAVE THE QUEEN.

A translation in Urdu of the Proclamation was then read by the Foreign Secretary.

The Proclamation having been read, a salute of 101 salvos of Artillery and *feus-de-joie* were fired. The ROYAL STANDARD was hoisted in honor of HER MAJESTY THE QUEEN AND EMPRESS, and massed Bands played the National Anthem.

The Viceroy and Governor General then addressed the Assemblage as follows:—

On the first day of November, in the year 1858, a Proclamation was issued by the Queen of England, conveying to the Princes and People of India those assurances of Her Majesty's good will which, from that day to this, they have cherished as their most precious political possession.

The promises then made by a Sovereign, whose word has never been broken, need no confirmation from my lips. Eighteen years of progressive prosperity confirm them; and this great assemblage is the conspicuous evidence of their fulfilment. Undisturbed in the enjoyment of their hereditary honours, protected in the prosecution of their lawful interests, both the Princes and the People of this Empire have found a full security for the future in the generosity and justice of the past.

We are now assembled to proclaim the assumption by The Queen of the Title of Empress of India; and it is my duty, as Her Representative in this Country, to explain the gracious intentions of Her Majesty, in adding that title to the style and dignity of Her ancestral Crown.

Of all Her Majesty's Possessions throughout the world,—possessions comprising a seventh part of the earth's surface, and three hundred millions of its inhabitants,—there is not one that She regards with deeper interest than this great and ancient Empire.

At all times, and in all places, the British Crown has had able and zealous servants, but none more illustrious than those whose wisdom and heroism have won and kept for it the dominion of India. This achievement, in which all Her Majesty's subjects, European and Native, have worthily co-operated, has also been aided by the loyalty of Her Majesty's great allies and feudatories; whose soldiers have shared with Her Armies the toils and victories of war; whose sagacious fidelity has assisted Her Government in preserving and diffusing the blessings of peace; and whose presence here to-day at the solemn inauguration of Her Imperial Title, attests their confidence in the beneficence of Her power, and their interest in the unity of Her Empire.

This Empire, acquired by Her Ancestors, and consolidated by Herself, The Queen regards as a glorious inheritance to be maintained and transmitted intact to Her descendants; and She recognises in the possession of it the most

solemn obligations to use Her great power for the welfare of all its people, with scrupulous regard for the rights of Her feudatory Princes. For this reason, it is Her Majesty's Royal pleasure to add to the titles of Her Crown one which shall be henceforth to all the Princes and Peoples of India the permanent symbol of its union with their interests, and its claim upon their loyal allegiance.

The successive dynasties whose rule in India the power of the British Crown has been called by Providence to replace and improve, were not unproductive of good and great Sovereigns; but the polity of their successors failed to secure the internal peace of their dominions. Strife became chronic and anarchy constantly recurrent. The weak were the prey of the strong, and the strong the victims of their own passions. Thus, sapped by incessant bloodshed and shaken by intestine broils, the great House of Tamerlane crumbled to decay; and it fell at last because it had ceased to be conducive to the progress of the East.

Now, under laws which impartially protect all races and all creeds, every subject of Her Majesty may peacefully enjoy his own. The toleration of the Government permits each member of the community to follow without molestation the rules and rites of his religion. The strong hand of Imperial Power is put forth, not to crush but to protect and guide; and the results of British Rule are everywhere around us in the rapid advance of the whole country and the increasing prosperity of all its Provinces.

British Administrators and faithful Officers of the Crown,—It is to your continued labours that these beneficent results are chiefly due: and it is to you, in the first instance, that I have now, in the name of Her Majesty, to express the gratitude and confidence of your Sovereign. Not less steadfastly than all your honoured predecessors, you have toiled for the good of this Great Empire with a persevering energy, public virtue, and self-devotion, unsurpassed in history.

The doors of fame are not open to all; but the opportunity of doing good is denied to none who seek it. Rapid promotion it is not often in the power of any Government to provide for its servants. But I feel assured that, in the service of the British Crown, public duty and personal devotion will ever have higher incentives than the expectation of public honours or personal emoluments. Much of the most important and valuable work of Indian administration has always been, and always must be, done, not by persons in prominent positions, but by those district officers on whose patient intelligence and courage the efficient operation of its whole system is essentially dependent.

I cannot give expression too emphatic to Her Majesty's grateful recognition of the admirable manner in which Her servants, both Civil and Military, have performed, and are performing, throughout India tasks as delicate and difficult as any which the Crown can confide to its most trusted subjects. Members of the Civil and Military Services,—placed at an early age in positions of immense responsibility, submitting with cheerful devotion to a severely exacting discipline, personally exercising the most important administrative functions among populations whose language, creed, and customs, differ from your own,—may you ever be sustained in the firm yet gentle discharge of your arduous duties by the consciousness that, whilst you thus uphold the high character of your race, and carry out the benign precepts of your religion, you are also conferring on all other creeds and races in this country the inestimable benefits of good government.

But it is not only to the official servants of the Crown that India is indebted for the wise application of the principles of Western civilization to the steady development of her vast resources: and I should ill represent the feelings of my August Mistress if, on this occasion, I failed to assure Her non-official European subjects in India of the cordial satisfaction with which Her Majesty recognizes and appreciates, not only their loyalty to Her Throne and Person, but also the benefits which Her Indian Empire derives from their industry, their enterprise, their social energy, and civic virtue.

Wishing to increase Her opportunities of distinguishing the public services, or private worth, of Her subjects throughout this important portion of Her Dominions, Her Majesty has been pleased not only to sanction a certain enlargement of the Most Exalted Order of the Star of India, and of the Order of British India, but also to institute for this purpose an entirely new Order which will be called the Order of the Indian Empire.

OFFICERS AND SOLDIERS OF THE ARMY OF INDIA, BRITISH AND NATIVE,—The Queen recalls with pride your heroic achievements on every occasion, when, fighting side by side, you have upheld the honour of Her arms. Confident that all future occasions will find you no less efficiently united in the faithful performance of that high duty, it is to you that Her Majesty entrusts the great charge of maintaining the peace, and protecting the prosperity, of Her Indian Dominions.

VOLUNTEER SOLDIERS,—Your loyal and successful endeavours to render yourselves capable of acting, if necessary, with the Regular Forces, claim cordial recognition on this occasion.

PRINCES AND CHIEFS OF THIS EMPIRE,—which finds in your loyalty a pledge of strength, in your prosperity a source of splendour, Her Majesty thanks you for your readiness, on which She reckons, if its interests be attacked or menaced, to assist Her Government in the defence of them. In The Queen's name I cordially welcome you to Delhi; recognizing in your presence, on this great occasion, conspicuous evidence of those sentiments of attachment to the Crown of England which received from you such emphatic expression during the recent visit of the Prince of Wales to this country. Her Majesty regards Her interests as identified with yours; and it is with the wish to confirm the confidence and perpetuate the intimacy of the relations now so happily uniting the British Crown and its feudatories and allies, that Her Majesty has been graciously pleased to assume the Imperial Title we proclaim to-day.

NATIVE SUBJECTS OF THE EMPRESS OF INDIA,—The present conditions and permanent interests of this Empire demand the supreme supervision and direction of their administration by English Officers trained in the principles of that polity whose assertion is necessary to preserve the continuity of Imperial rule. It is to the wise initiative of these Statesmen that India chiefly owes that steady progress in civilization which is a condition of her political importance, and the secret of her growing strength; and it is they who must long continue to form the most important practical channel through which the arts, the sciences, and the culture, of the West (which have given to Europe its present pre-eminence in peace and war), may freely flow towards the East for the common benefit of all its children.

But you the natives of India, whatever your race, and whatever your creed, have a recognized claim to share largely with your English fellow-subjects, according to your capacity for the task, in the administration of the country you inhabit. This claim is founded in the highest justice. It has been repeatedly affirmed by the greatest British and Indian Statesmen, and by the Legislation of the Imperial Parliament. It is recognized by the Government of India, as binding on its honour, and consonant with all the aims of its policy. The Government of India, therefore, notices with satisfaction the marked improvement during recent years in the character of the Native Public Service, especially in its higher grades.

The administration of this great Empire demands, from many of those to whom a share in it is entrusted, attributes not exclusively intellectual, qualifications to which moral and social superiority are essential. More especially, therefore, does it rest with those who, by birth, rank, and hereditary influence, are your natural leaders, to fit themselves and their children for the honourable duty which is open to them, by accepting the only education that can enable them to comprehend and practise the principles steadily maintained by the Government of The Queen, their Empress.

You must all adopt as your own that highest standard of public virtue which comprises loyalty, incorruptibility, impartiality, truth, and

courage. The Government of Her Majesty will then cordially welcome your co-operation in the work of administration. For in every quarter of the globe over which its dominion is established, that Government trusts less to the strength of armies than to the willing allegiance of a contented and united people, who rally round the throne, because they recognise therein the stable condition of their permanent welfare.

It is on the gradual and enlightened participation of Her Indian subjects in the undisturbed exercise of this mild and just authority, and not upon the conquest of weaker States, or the annexation of neighbouring Territories, that Her Majesty relies for the development of Her Indian Empire. Her interests and duties, however, are not confined to Her own dominions. She sincerely desires to maintain the most frank and friendly relations with the Rulers of those Territories which, adjoining the Frontiers of this Empire, have so long owed their independence to the sheltering shadow of its Power. But, should the repose of that Power be at any time threatened from without, the Empress of India will know how to defend Her great inheritance. No foreign enemy can now attack the British Empire in India without thereby assailing the whole civilization of the East; and the unlimited resources of Her dominions, the courageous fidelity of Her allies and feudatories, and the loyal affection of Her subjects, have provided Her Majesty with ample power to repel and punish every assailant.

The presence, on this occasion, of the Representatives of Sovereigns who, from the remotest parts of the East, have addressed to The Queen their congratulations on the event we celebrate to-day, significantly attests the pacific policy of the Government of India, and the cordiality of its relations with all neighbouring States. To His Highness the Khan of Khelat, and to those Ambassadors who have travelled so far to represent on British Territory the Asiatic Allies of the Empress of India, as also to our honoured guest His Excellency the Governor General of Goa, and to the Foreign Consular Body, I desire to offer, on behalf of Her Majesty's Indian Government, welcome to this Imperial Assemblage.

PRINCES AND PEOPLE OF INDIA,—It is now my pleasing duty to communicate to you the gracious message which The Queen, your Empress, has to-day addressed to you in Her own Royal and Imperial name. These are the words of the telegraphic message which I have this morning received from Her Majesty.

"We, Victoria by the Grace of God, of the United Kingdom, Queen,
"Empress of India, send through our Viceroy to all our Officers, Civil and
"Military, and to all Princes, Chiefs, and Peoples now at Delhi assembled,
"our Royal and Imperial Greeting, and assure them of the deep interest
"and earnest affection with which we regard the people of our Indian Empire.
"We have witnessed with heartfelt satisfaction the reception which they have
"accorded to our beloved Son, and have been touched by the evidence of their
"loyalty and attachment to Our House and Throne. We trust that the
"present occasion may tend to unite in bonds of yet closer affection ourselves
"and our subjects; that from the highest to the humblest all may feel
"that under our rule the great principles of liberty, equity, and justice,
"are secured to them; and that to promote their happiness, to add to their
"prosperity, and advance their welfare, are the ever present aims and
"objects of Our Empire."

You will, I am confident, appreciate these gracious words.

GOD SAVE VICTORIA, QUEEN OF THE UNITED KINGDOM AND EMPRESS OF INDIA.

When the Viceroy and Governor General had concluded his Address, the Assembly spontaneously rose and joined the troops in giving repeated cheers; His Highness the Maharaja Sindia, His Excellency Sir Salar Jung on behalf of His Highness the Nizam, His Highness the Maharaja of Jaipur on behalf of the Chiefs of Rajputana, Her Highness the Begum of Bhopal, His Highness the Maharaja of Cashmere, and other Chiefs also rose and gave expression to sentiments of loyalty and congratulation; massed Bands played the National Anthem; and at His Excellency's command the Assemblage was dissolved.

His Excellency the Viceroy and Governor General has been pleased to confer the honorary title of Assistant Private Secretary to the Viceroy upon Mr. D. Panioty, the Registrar of the Private Secretary's Office, in recognition of his long and faithful service.

Extract from the Proceedings of the Government of India in the Home Department, No. 37 C, dated Camp Delhi, the 1st January 1877.

RESOLUTION.

The Viceroy and Governor General in Council has resolved to release a certain number of prisoners, and to remit a certain number of sentences against criminals in all the jails throughout India, in the Penal Settlement of Port Blair and, in the case of convicts sentenced in India, in the Straits Settlements, on the 1st proximo, as an act of clemency and grace, on the auspicious occasion of the assumption of the title of Empress of India by Her Majesty the Queen.

2. In this view, the cases of the following three different classes of prisoners in the jails in India have come under consideration:—

I.—General offenders.
II.—Civil prisoners.
III.—Political prisoners.

I.—General Offenders.

3. As regards general offenders, the Governor General in Council has directed that ten per cent. of all the prisoners under confinement in each Province shall be released; care being taken that the number released be spread as evenly as possible over all localities, and that the following be excluded from the Amnesty, namely:—

1*st*, those whose conduct during imprisonment in jail has been bad and turbulent;

2*nd*, those whose crimes are (like thuggee or dacoitee) excepted from recommendation for release after twenty years' imprisonment at Port Blair, and those whose release is likely to give rise to a renewal of blood-feuds, or other disturbances of the public peace;

3*rd*, professional and habitual criminals and prisoners convicted more than twice.

4. Three classes of general offenders, European or Native, have been, as far as possible, selected for release under the ten per cent. order, namely,—

1*st*, those who have generally borne a good character, but have been led under sudden impulse to commit crimes, such as riot, affray, assault, or culpable homicide; women who have committed infanticide to hide their shame, and the like;

2*nd*, those whose crimes were committed at an early age and without the display of any special depravity;

3*rd*, those whose crimes were of a grave character but have been expiated to some extent by long imprisonment with good behaviour. Under this head may be included a few life-convicts who have undergone imprisonment for twenty years, and who have generally behaved well throughout the period of their confinement.

5. Under these general instructions, Local Governments were authorised to select the criminals to be released under the ten per cent. rule, a special officer in each Province being charged with the duty.

6. As regards partial remissions of sentences, all persons under sentence of one month's imprisonment or less who have worked out half their sentence on or before 1st proximo are to be released on that date without exception.

7. All persons under sentence of above one month's imprisonment and up to six months or less have been granted a remission of fifteen days. All persons under sentence of above six months' imprisonment have been granted a remission of one month. All persons under sentence of above a year's imprisonment have been granted a remission of one month for each year of their sentence; all remissions granted under these orders being restricted to well-conducted convicts. Under no circumstances has the boon been extended to such criminals as have been more than twice convicted; or to those who have been committed to jail as security for keeping the peace; or to any person whose premature release may be deemed by the local authorities to be inexpedient for reasons of local importance.

II.—Civil Prisoners.

8. As regards civil prisoners, the Governor General in Council has been pleased to order the release of all those whose debts do not exceed the sum of one hundred rupees, and the payment by Government of the debt or debts for which they are detained.

III.—Prisoners at Port Blair.

9. As regards the prisoners under this head, the Superintendent of Port Blair has submitted lists prepared in accordance with the instructions issued in the case of prisoners in India and with special recommendations in the case of those who are not disqualified from the amnesty. These lists have been circulated to Local Governments and Administrations, so that the fullest consideration has been given to each individual case. Acting upon the information so obtained, the Governor General in Council has directed that 278 male life-convicts and 90 female shall be absolutely released; term-convicts 65 male and female, and one Christian convict, or 434 in all.

10. Besides absolute releases, the Superintendent of Port Blair has been allowed to grant to well-behaved convicts in Port Blair, to the extent which he deems expedient, freedom within the limit of the Settlement, and, moreover, to give promotion in their respective classes to prisoners in the earlier stages of their probation.

11. As regards Indian convicts in the Straits Settlements, very full enquiries have been made. A Special Officer has been deputed to Singapore to confer with the Straits Government in view to re-consider the cases of all Indian convicts undergoing sentence in that Province. This Officer, Mr. Brodhurst, of the Bengal Civil Service, has prepared lists of all the Indian convicts in the Settlements, and as in the case of the Port Blair prisoners, these lists have been forwarded for the opinions of the Local Governments to which the prisoners belong. The result of this enquiry is that 221 have been absolutely released.

12. In Sarawak four Indian convicts have been absolutely released, and in Madras seven Straits convicts, and in Bombay five. Thus the grand total of absolute releases of prisoners in transportation is 671.

13. The number of Political prisoners in India is very small, and indeed most of these are not really in confinement but reside under surveillance in places fixed for their residence.

It has been, however, found possible to grant entire freedom to Sirdars Kishan Kooer and Narain Singh, of the Punjab, and to give similar boons to others residing in various places.

14. Special instructions have been issued to all Local Governments that the arrangements for the release of prisoners shall be carried out circumspectly and quietly, the prisoners being conducted to their homes in small batches, and when practicable under police supervision.

15. The net result of these orders will approximately be as follows :—

(*a*).	Prisoners, including civil and political prisoners, released by Local Governments and Administrations	15,317
(*b*).	Released at Port Blair	434
(*c*).	Prisoners released in the Straits and elsewhere	237
	Total ...	15,988

Madras, Bombay, Bengal, North-Western Provinces, Punjab, Oudh, Central Provinces, British Burmah, Mysore and Coorg, Assam, Hyderabad Assigned Districts.

ORDER.—Ordered, that this Resolution be published for general information, and forwarded to the Local Governments and Administrations noted in the margin.

Extract from the Proceedings of the Government of India in the Home Department, No. 38 C, dated Camp Delhi, the 1st January 1877.

RESOLUTION.

The Viceroy in Council having considered the terms of the Amnesty granted in 1859 is pleased to announce that the exception from the Amnesty of persons who were leaders of revolt is withdrawn, and that such persons may now return to their respective homes on the sole condition of announcing their return to the District authorities, and of good behaviour for the future. Such persons will, however, be required, if they wish to leave the limits of the district in which they reside, to give previous notice to the District authorities.

The exception as to murderers and leaders of mutiny will still remain in force, and nothing in the above Notification will extend to Feroz Shah, the son of the late King of Delhi.

Infringement of this rule will involve rejection of the tender. For the convenience of intending purchasers, printed forms of tenders will be kept in stock by the Extra Assistant Commissioner, Hyderabad, and will be issued to applicants.
5. The name and address of the person tendering should be clearly written at foot of the tender in English (in addition to the vernacular, if signature is in the vernacular).
6. Tenders may be for the whole, or any portion, in even thousands, of the amount advertised.
7. Tenders must specify the rate of exchange at which the tender is made, the par or assay value of 100 Government Rupees being equivalent to 116-14-6 in Halli Sicca Currency.
8. Each tender must be accompanied by a deposit of Rs. 5,000 in Halli Sicca coin, or Government Securities, as a guarantee of good faith; which deposit will be returned in the event of non-acceptance of tender, but the tender itself will not be returned.
9. Tenders will be opened at the Hyderabad Residency at noon, on Monday the 12th February 1877; and persons tendering are invited to be present, or to be represented by their Agents.
10. The Resident will not bind himself to accept the highest or any tender, nor will any reason be assigned for rejection of tenders.
11. Persons whose tenders may be finally accepted in whole or in part will be required, at the option of the Resident, to deposit 10 per cent. of the amount of their tenders on acceptance, and no portion of the deposit will be refunded till the *full* amount of Bills is received into the Treasury. This deposit will be forfeited in whole or in part, at the option of the Resident, in the event of non-compliance with the terms of the tender.
12. Persons whose tenders may be finally accepted will be required to pay the amount of their tenders into the Resident's Treasury between the 15th of the month to which the tenders refer and the 14th of the month following. No larger amount will be received on any one day into the Government Treasury than can be conveniently counted and examined by the establishment entertained for that purpose.
13. Persons whose tenders may be finally accepted will be required to pay the equivalent into the Resident's Treasury at Hyderabad in new Halli Sicca Rupees prior to the issue of Bills.
14. The Bills will be drawn at sight, in even thousands, and paid in Government Rupees at the Treasuries drawn upon. No Bill will be drawn for less than 5,000 Government Rupees, but Bills for sums in excess of this amount, in even thousands, will be issued to suit the convenience of purchasers.

N. B.—If when the last instalment of Land Revenue has been paid up the state of the collections should warrant such a course, a supplementary Notification will be issued stating whether any and what further limited amount will be available for withdrawal.

The following Statement shows the amount of the Actual Surplus withdrawn from Berar annually for the three years 1874—1876, and that which is estimated to be available for withdrawal for the year 1877.

No. 3.—His Excellency the Governor General of India in Council is pleased to notify, with the sanction of Her Majesty's Government, that in future the British Officers attached to Native Regiments will, save in the case of the Commandant, be placed in two classes as respects designation.

2. Squadron and Wing Officers, including the Second in Command, will be designated Squadron and Wing "Commanders," and the remainder, including the Adjutant in the Cavalry, and the Adjutant and Quartermaster in the Infantry, will be styled Squadron and Wing "Officers" respectively. The post of Adjutant in the Cavalry, and of Adjutant and Quartermaster in the Infantry, will be filled by one of the Squadron or Wing Officers.

3. It is also notified, that in future Officers of Native Regiments nominated to purely Military or personal Staff appointments, tenable for fixed periods, will be "seconded" in their Regiments.

4. An Officer thus seconded will continue to hold his position in the Regiment, and be eligible to be promoted in room of any vacancy as if he were present, and will revert to his Regimental appointment on the expiration of his tour of Staff service.

No. 4.—His Excellency the Governor General in Council is pleased to announce that a Band will be allowed in every Regiment of Native Infantry in the three Presidencies, or Punjab Frontier Force, in which the Officers express a desire to establish one, and that in such cases the usual allowance will be granted in aid of its maintenance.

No. 5.—The following announcement in the *London Gazette* of this date is re-published for general information:—

WAR OFFICE, PALL MALL,
The 1st January 1877.

"The Queen has been graciously pleased, on the occasion of the Proclamation this day at Delhi of the addition of Empress of India to Her Majesty's Royal style and titles, to approve the Honorary Rank of General in the Army being conferred on His Highness Jioji Rao Sindia, G.C.S.I., Maharaja of Gwalior, and His Highness Ranbir Singh, G.C.S.I., Maharaja of Jammu and Cashmere."

No. 6.—Subject to the approval of Her Majesty's Government, His Excellency the Viceroy and Governor General has been pleased to confer on Rahim Khan, Khan Bahadoor, Assistant Surgeon, Lahore, the rank of Honorary Surgeon.

No. 7.—His Excellency the Governor General in Council is pleased, on the occasion of the assumption by Her Most Gracious Majesty the Queen, of the Title of Empress of India, to grant a day's pay to every petty Officer and Seaman and to every Non-Commissioned Officer and Private of the Royal Marines on board the vessels of the Royal Navy serving in the Indian Seas.

A day's pay, including good-conduct pay, will also be granted to every Non-Commissioned Officer and Soldier, British and Native, of Her Majesty's Army in India, and to every Non-Commissioned Officer and Private of the Volunteer Force present at the Imperial Assemblage.

No. 8.—With reference to the G. G. Os. noted in the margin, and with the sanction of Her Majesty's Government, the Right Hon'ble the Governor General in Council is pleased to notify that:—

No. 656, dated the 25th June 1874.
No. 1, dated the 1st January 1875.
No. 294, dated the 15th March 1875.
No. 1, dated the 1st January 1876.

I. During the year 1877 ninety (90) Officers of the Staff Corps, and Cavalry and Infantry of the Indian Army, will be permitted to retire from the service, receiving, in addition to the pension to which they may be entitled by length of service under existing regulations, not exceeding the full-pay pension of a Colonel (£456-5-0 per annum), an annuity representing the estimated value of their prospective claim to the Colonel's allowance, or its capitalized value as they may prefer.

II. This offer is restricted to substantive Lieutenant-Colonels who shall have completed 28 years' service, from the date of first commission, on or before the date from which they apply to retire, who may either, 1st, have been appointed to one of the Staff Corps on or before the 12th September 1866, and can claim the Colonel's allowance under the provisions of G. G. O. No. 808 of the 26th September 1866, or 2ndly, may be entitled, under G. O. G. G. of the 12th September 1862, to the Colonel's allowance after 12 years' service in the rank of Lieutenant-Colonel.

III. The number allowed to retire under these conditions will be distributed as follows:—

For Bengal	...	40
„ Madras	...	30
„ Bombay	...	20
TOTAL	...	90

In the event of the whole of the retirements allotted to a particular Presidency not being taken up in that Presidency, those remaining will be distributed in such manner as may be determined by the Government of India.

IV. Applications to retire will be considered and disposed of successively according to priority of proposed dates of retirement until the number of retirements allotted to the service shall have been accomplished, when retirements under this order will cease for the year. In the event of its becoming necessary to select one from among two or three applicants for retirement on the same day, preference will be given according to seniority from the date of first commission.

V. Officers wishing to retire under the terms of this order must, whether in or out of India, submit their applications to the Office of the Adjutant-General of their respective Presidencies, naming such prospective dates for their retirements, as will admit of the receipt of their applications by the Adjutant-General on or before the date named, such date not to be earlier than the 1st April 1877.

VI. Officers whose applications are accepted, will be gazetted out from the dates named by themselves, but will continue to perform their duties and receive the pay and allowances of their positions until officially informed of their removal from the effective list, either by direct communication, or by publication of the Gazette at the station at which they may be serving.

VII. Officers retiring under this arrangement will forego both the good service pension, if they are in receipt thereof, and all claim to bonus compensation under the terms of the despatch of the 8th of August 1866,* No. 160.

* G. G. O. No. 808 of 26th September 1866.

VIII. Applicants to retire must state—

1st.—Their rank and service.

2nd.—Their age (supported by certificate of birth, or in its absence, by a formal declaration).

3rd.—Whether they wish to receive commutation for their prospective allowances in the shape of an annuity, or to capitalize its value. Officers who desire to receive the capitalized value of the annuity must attach to their applications a certificate in the form given in Appendix A. In the case of Officers retiring out of India, the health certificate required will be called for and furnished under instructions from the India Office in London.

4th.—Whether they desire to receive payment, wholly, or in part, in India, or in England.

IX. The Table given in Appendix B shows the rates at which the expectation of the Colonel's allowance will be calculated in carrying this order into effect in the case of Officers of various ages and service.

X. For the purpose of arriving at the amount payable in each case, whether as an annuity or in a single payment, Officers' ages will be calculated from their birthday next succeeding the date from which they propose to retire, and the number of years they have to serve before becoming entitled to the Colonel's allowance will be calculated from the date of the proposed retirement. When the period to serve contains a fraction of a year, the fraction, if it be six months or under six months, will be excluded altogether; if it exceeds six months, it will be reckoned as a complete year.

XI. Payments of the *capitalized value* of the annuity made in India under this order will be at the rate of 1*s.* 10½*d.* for the rupee.

XII. Officers who elect to receive an annuity in preference to the capital sum, will not, after their retirements have appeared in the Gazette, be allowed to capitalize such annuity under the provisions of this order; and it is to be understood that no separate applications of individual Officers to retire after the present retirements have been allotted will be entertained on the basis of this order.

XIII. Officers of the half-pay list of the Staff Corps will be permitted, if disposed to retire from the service, to avail themselves of this scheme of retirement, provided they are eligible thereto by the fulfilment, previously to their transfer to the half-pay list, of all the conditions required. The time passed by an Officer on the half-pay list of the Staff Corps will not count towards the 12 years in the grade of Lieutenant-Colonel required to qualify for promotion to the Colonel's allowance.

VICTORIA, REGINA.

WHEREAS an Act has been passed in the present Session of Parliament intituled "An Act to enable Her Most Gracious Majesty to make an addition to the Royal

Style and Titles appertaining to the Imperial Crown of the United Kingdom and its Dependencies," which Act recites that, by the Act for the Union of Great Britain and Ireland, it was provided that after such Union the Royal Style and Titles appertaining to the Imperial Crown of the United Kingdom and its Dependencies should be such as His Majesty by His Royal Proclamation under the Great Seal of the United Kingdom should be pleased to appoint: and which Act also recites that, by virtue of the said Act, and of a Royal Proclamation under the Great Seal, dated the 1st day of January 1801, Our present Style and Titles are "VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith:" and which Act also recites that, by the Act for the better government of India, it was enacted that the Government of India, theretofore vested in the East India Company in trust for Us, should become vested in Us, and that India should thenceforth be governed by Us and in Our name, and that it is expedient that there should be a recognition of the transfer of government so made by means of an addition to be made to Our Style and Titles: And which Act, after the said recitals, enacts that it shall be lawful for Us, with a view to such recognition as aforesaid, of the transfer of the Government of India, by Our Royal Proclamation under the Great Seal of the United Kingdom, to make such addition to the Style and Titles at present appertaining to the Imperial Crown of the United Kingdom and its Dependencies as to Us may seem meet; We have thought fit by and with the advice of Our Privy Council, to appoint and declare, and We do hereby, by and with the said advice, appoint and declare that henceforth, so far as conveniently may be, on all occasions and in all instruments wherein Our Style and Titles are used, save and except all Charters, Commissions, Letters Patent, Grants, Writs, Appointments, and other like instruments, not extending in their operation beyond the United Kingdom, the following addition shall be made to the Syle and Titles at present appertaining to the Imperial Crown of the United Kingdom and its Dependencies; that is to say, in the Latin tongue in these words: "INDIÆ IMPERATRIX." And in the English tongue in these words: "EMPRESS OF INDIA"

And Our will and pleasure further is, that the said addition shall not be made in the Commissions, Charters, Letters Patent, Grants, Writs, Appointments, and other like instruments, hereinbefore specially excepted.

And Our will and pleasure further is, that all gold, silver, and copper moneys, now current and lawful moneys of the United Kingdom, and all gold, silver, and copper moneys which shall, on or after this day, be coined by Our authority with the like impressions, shall, notwithstanding such addition to Our Style and Titles, be deemed and taken to be current and lawful moneys of the said United Kingdom; and further that all moneys coined for and issued in any of the Dependencies of the said United Kingdom, and declared by Our Proclamation to be current and lawful money of such Dependencies, respectively bearing our Style, or Titles, or any part or parts thereof, and all moneys which shall hereafter be coined and issued according to such Proclamation, shall, notwithstanding such addition, continue to be lawful and current money of such Dependencies respectively, until Our pleasure shall be further declared thereupon.

Given at Our Court at *Windsor* the twenty-eighth day of *April* one thousand eight hundred and seventy-six in the thirty-ninth year of Our Reign.

GOD SAVE THE QUEEN.

A translation in Urdu of the Proclamation was then read by the Foreign Secretary.

The Proclamation having been read, a salute of 101 salvos of Artillery and *feus-de-joie* were fired. The ROYAL STANDARD was hoisted in honor of HER MAJESTY THE QUEEN AND EMPRESS, and massed Bands played the National Anthem.

The Viceroy and Governor General then addressed the Assemblage as follows:—

On the first day of November, in the year 1858, a Proclamation was issued by the Queen of England, conveying to the Princes and People of India those assurances of Her Majesty's good will which, from that day to this, they have cherished as their most precious political possession.

The promises then made by a Sovereign, whose word has never been broken, need no confirmation from my lips. Eighteen years of progressive prosperity confirm them; and this great assemblage is the conspicuous evidence of their fulfilment. Undisturbed in the enjoyment of their hereditary honours, protected in the prosecution of their lawful interests, both the Princes and the People of this Empire have found a full security for the future in the generosity and justice of the past.

We are now assembled to proclaim the assumption by The Queen of the Title of Empress of India; and it is my duty, as Her Representative in this Country, to explain the gracious intentions of Her Majesty, in adding that title to the style and dignity of Her ancestral Crown.

Of all Her Majesty's Possessions throughout the world,—possessions comprising a seventh part of the earth's surface, and three hundred millions of its inhabitants,—there is not one that She regards with deeper interest than this great and ancient Empire.

At all times, and in all places, the British Crown has had able and zealous servants, but none more illustrious than those whose wisdom and heroism have won and kept for it the dominion of India. This achievement, in which all Her Majesty's subjects, European and Native, have worthily co-operated, has also been aided by the loyalty of Her Majesty's great allies and feudatories; whose soldiers have shared with Her Armies the toils and victories of war; whose sagacious fidelity has assisted Her Government in preserving and diffusing the blessings of peace; and whose presence here to-day at the solemn inauguration of Her Imperial Title, attest their confidence in the beneficence of Her power, and their interest in the unity of Her Empire.

This Empire, acquired by Her Ancestors, and consolidated by Herself, The Queen regards as a glorious inheritance to be maintained and transmitted intact to Her descendants; and She recognises in the possession of it the most solemn obligations to use Her great power for the welfare of all its people, with scrupulous regard for the rights of Her feudatory Princes. For this reason, it is Her Majesty's Royal pleasure to add to the titles of Her Crown one which shall be henceforth to all the Princes and Peoples of India the permanent symbol of its union with their interests, and its claim upon their loyal allegiance.

The successive dynasties whose rule in India the power of the British Crown has been called by Providence to replace and improve, were not unproductive of good and great Sovereigns; but the polity of their successors failed to secure the internal peace of their dominions. Strife became chronic and anarchy constantly recurrent. The weak were the prey of the strong, and the strong the victims of their own passions. Thus, sapped by incessant bloodshed and shaken by intestine broils, the great House of Tamerlane crumbled to decay; and it fell at last because it had ceased to be conducive to the progress of the East.

Now, under laws which impartially protect all races and all creeds, every subject of Her Majesty may peacefully enjoy his own. The toleration of the Government permits each member of the community to follow without molestation the rules and rites of his religion. The strong hand of Imperial Power is put forth, not to crush but to protect and guide; and the results of British Rule are everywhere around us in the rapid advance of the whole country and the increasing prosperity of all its provinces.

BRITISH ADMINISTRATORS AND FAITHFUL OFFICERS OF THE CROWN,—It is to your continued labours that these beneficent results are chiefly due; and it is to you, in the first instance, that I have now, in the name of Her Majesty, to express the gratitude and confidence of your Sovereign. Not less steadfastly than all your honoured predecessors, you have toiled for the good of this Great Empire with a persevering energy, public virtue, and self-devotion, unsurpassed in history.

The doors of fame are not open to all; but the opportunity of doing good is denied to none who seek it. Rapid promotion it is not often in the power of any Government to provide for its servants. But I feel assured that, in the service of the British Crown, public duty and personal devotion will ever have higher incentives than the expectation of public honours or personal emoluments. Much of the most important and valuable work of Indian administration has always been, and always must be, done, not by persons in prominent positions, but by those district officers on whose patient intelligence and courage the efficient operation of its whole system is essentially dependent.

I cannot give expression too emphatic to Her Majesty's grateful recognition of the admirable manner in which Her servants, both Civil and Military, have performed, and are performing, throughout India, tasks as delicate and difficult as any which the Crown can confide to its most trusted Subjects. MEMBERS OF THE CIVIL AND MILITARY SERVICES,—placed at an early age in positions of immense responsibility, submitting with cheerful devotion to a severely exacting discipline, personally exercising the most important administrative functions among populations whose language, creed, and customs, differ from your own,—may you ever be sustained in the firm yet gentle discharge of your arduous duties by the consciousness that, whilst you thus uphold

the high character of your race, and carry out the benign precepts of your religion, you are also conferring on all other creeds and races in this country the inestimable benefits of good government.

But it is not only to the official servants of the Crown that India is indebted for the wise application of the principles of Western civilization to the steady development of her vast resources: and I should ill represent the feelings of my August Mistress if, on this occasion, I failed to assure Her non-official European subjects in India of the cordial satisfaction with which Her Majesty recognizes and appreciates, not only their loyalty to Her Throne and Person, but also the benefits which Her Indian Empire derives from their industry, their enterprise, their social energy, and civic virtue.

Wishing to increase Her opportunities of distinguishing the public services, or private worth, of Her subjects throughout this important portion of Her Dominions, Her Majesty has been pleased not only to sanction a certain enlargement of the Most Exalted Order of the Star of India, and of the Order of British India, but also to institute for this purpose an entirely new Order which will be called the Order of the Indian Empire.

OFFICERS AND SOLDIERS OF THE ARMY OF INDIA, BRITISH AND NATIVE,—The Queen recalls with pride your heroic achievements on every occasion, when, fighting side by side, you have upheld the honour of Her arms. Confident that all future occasions will find you no less efficiently united in the faithful performance of that high duty, it is to you that Her Majesty entrusts the great charge of maintaining the peace, and protecting the prosperity, of Her Indian Dominions.

VOLUNTEER SOLDIERS,—Your loyal and successful endeavours to render yourselves capable of acting, if necessary, with the Regular Forces, claim cordial recognition on this occasion.

PRINCES AND CHIEFS OF THIS EMPIRE,—which finds in your loyalty a pledge of strength, in your prosperity a source of splendour, Her Majesty thanks you for your readiness, on which She reckons, if its interests be attacked or menaced, to assist Her Government in the defence of them. In The Queen's name I cordially welcome you to Delhi; recognizing in your presence, on this great occasion, conspicuous evidence of those sentiments of attachment to the Crown of England which received from you such emphatic expression during the recent visit of the Prince of Wales to this country. Her Majesty regards Her interests as identified with yours; and it is with the wish to confirm the confidence and perpetuate the intimacy of the relations now so happily uniting the British Crown and its feudatories and allies, that Her Majesty has been graciously pleased to assume the Imperial Title we proclaim to-day.

NATIVE SUBJECTS OF THE EMPRESS OF INDIA,—The present conditions and permanent interests of this Empire demand the supreme supervision and direction of their administration by English Officers trained in the principles of that polity whose assertion is necessary to preserve the continuity of Imperial rule. It is to the wise initiative of these Statesmen that India chiefly owes that steady progress in civilization which is a condition of her political importance, and the secret of her growing strength; and it is they who must long continue to form the most important practical channel through which the arts, the sciences, and the culture, of the West (which have given to Europe its present pre-eminence in peace and war), may freely flow towards the East for the common benefit of all its children.

But you the natives of India, whatever your race, and whatever your creed, have a recognized claim to share largely with your English fellow-subjects, according to your capacity for the task, in the administration of the country you inhabit. This claim is founded in the highest justice. It has been repeatedly affirmed by the greatest British and Indian Statesmen, and by the Legislation of the Imperial Parliament. It is recognized by the Government of India, as binding on its honour, and consonant with all the aims of its policy. The Government of India, therefore, notices with satisfaction the marked improvement during recent years in the character of the Native Public Service, especially in its higher grades.

The administration of this great Empire demands, from many of those to whom a share in it is entrusted, attributes not exclusively intellectual, qualifications to which moral and social superiority are essential. More especially, therefore, does it rest with those who, by birth, rank, and hereditary influence, are your natural leaders, to fit themselves and their children for the honourable duty which is open to them, by accepting the only education that can enable them to comprehend and practise the principles steadily maintained by the Government of The Queen, their Empress.

You must all adopt as your own that highest standard of public virtue which comprises loyalty, incorruptibility, impartiality, truth, and courage. The Government of Her Majesty will then cordially welcome your co-operation in the work of administration. For in every quarter of the globe over which its dominion is established, that Government trusts less to the strength of armies than to the willing allegiance of a contented and united people, who rally round the throne, because they recognise therein the stable condition of their permanent welfare.

It is on the gradual and enlightened participation of Her Indian subjects in the undisturbed exercise of this mild and just authority, and not upon the conquest of weaker States, or the annexation of neighbouring Territories, that Her Majesty relies for the development of Her Indian Empire. Her interests and duties, however, are not confined to Her own dominions. She sincerely desires to maintain the most frank and friendly relations with the Rulers of those Territories which, adjoining the Frontiers of this Empire, have so long owed their independence to the sheltering shadow of its Power. But, should the repose of that Power be at any time threatened from without, the Empress of India will know how to defend Her great inheritance. No foreign enemy can now attack the British Empire in India without thereby assailing the whole civilization of the East; and the unlimited resources of Her dominions, the courageous fidelity of Her allies and feudatories, and the loyal affection of Her subjects, have provided Her Majesty with ample power to repel and punish every assailant.

The presence, on this occasion, of the Representatives of Sovereigns, who, from the remotest parts of the East, have addressed to The Queen their congratulations on the event we celebrate to-day, significantly attests the pacific policy of the Government of India, and the cordiality of its relations with all neighbouring States. To His Highness the Khan of Khelat, and to those Ambassadors who have travelled so far to represent on British Territory the Asiatic Allies of the Empress of India, as also to our honoured guest His Excellency the Governor General of Goa, and to the Foreign Consular Body, I desire to offer, on behalf of Her Majesty's Indian Government, welcome to this Imperial Assemblage.

PRINCES AND PEOPLE OF INDIA,—It is now my pleasing duty to communicate to you the gracious message which The Queen, your Empress, has to-day addressed to you in Her own Royal and Imperial name. These are the words of the telegraphic message which I have this morning received from Her Majesty:

"We, Victoria by the Grace of God, of the United Kingdom, Queen, Empress of "India, send through our Viceroy to all our Officers, Civil and Military, and to all "Princes, Chiefs, and Peoples now at Delhi assembled, our Royal and Imperial Greeting, and assure them of the deep interest and earnest affection with which we regard "the people of Our Indian Empire. We have witnessed with heartfelt satisfaction the "reception which they have accorded to our beloved Son, and have been touched by "the evidence of their loyalty and attachment to Our House and Throne. We trust "that the present occasion may tend to unite in bonds of yet closer affection Ourselves "and our subjects; that from the highest to the humblest all may feel that under Our "rule the great principles of liberty, equity, and justice, are secured to them; and "that to promote their happiness, to add to their prosperity, and advance their "welfare, are the ever present aims and objects of Our Empire."

You will, I am confident, appreciate these gracious words.

GOD SAVE VICTORIA, QUEEN OF THE UNITED KINGDOM AND EMPRESS OF INDIA.

When the Viceroy and Governor General had concluded his Address, the Assembly spontaneously rose and joined the troops in giving repeated cheers; His Highness the Maharaja Sindhia, His Excellency Sir Salar Jung on behalf of His Highness the Nizam, His Highness the Maharaja of Jaipur on behalf of the Chiefs of Rajputana, Her Highness the Begum of Bhopal, His Highness the Maharaja of Cashmere, and other Chiefs also rose and gave expression to sentiments of loyalty and congratulation; massed Bands played the National Anthem; and at His Excellency's command the Assemblage was dissolved.

NOTIFICATIONS.—PUBLIC.

Camp Delhi, the 30th December 1876.

No. 33 *C.*—His Excellency the Viceroy and Governor General has been pleased to confer the honorary title of Assistant Private Secretary to the Viceroy upon Mr. D. Panioty, the Registrar of the Private Secretary's Office, in recognition of his long and faithful service.

Extract from the Proceedings of the Government of India in the Home Department, No. 37 C, dated Camp Delhi, the 1st January 1877.

RESOLUTION.—The Viceroy and Governor General in Council has resolved to release a certain number of prisoners, and to remit a certain number of sentences against criminals in all the jails throughout India, in the Penal Settlement of Port Blair and, in the case of convicts sentenced in India, in the Straits Settlements, on the 1st proximo, as an act of clemency and grace, on the auspicious occasion of the assumption of the title of Empress of India by Her Majesty the Queen.

2. In this view, the cases of the following three different classes of prisoners in the jails in India have come under consideration :—

I.—General offenders.
II.—Civil prisoners.
III.—Political prisoners.

I.—General offenders.

3. As regards general offenders, the Governor General in Council has directed that ten per cent. of all the prisoners under confinement in each Province shall be released ; care being taken that the number released be spread as evenly as possible over all localities, and that the following be excluded from the Amnesty, namely :—

1st, those whose conduct during imprisonment in jail has been bad and turbulent;

2nd, those whose crimes are (like thuggee or dacoitee) excepted from recommendation for release after twenty years' imprisonment at Port Blair, and those whose release is likely to give rise to a renewal of blood-feuds, or other disturbances of the public peace ;

3rd, professional and habitual criminals and prisoners convicted more than twice.

4. Three classes of general offenders, European or Native, have been, as far as possible, selected for release under the ten per cent. order, namely,—

1st, those who have generally borne a good character, but have been led under sudden impulse to commit crimes, such as riot, affray, assault, or culpable homicide ; women who have committed infanticide to hide their shame, and the like ;

2nd, those whose crimes were committed at an early age and without the display of any special depravity ;

3rd, those whose crimes were of a grave character, but have been expiated to some extent by long imprisonment with good behaviour. Under this head may be included a few life-convicts who have undergone imprisonment for twenty years, and who have generally behaved well throughout the period of their confinement.

5. Under these general instructions, Local Governments were authorised to select the criminals to be released under the ten per cent. rule, a special officer in each Province being charged with the duty.

6. As regards partial remissions of sentences, all persons under sentence of one month's imprisonment or less, who have worked out half their sentence on or before 1st proximo, are to be released on that date without exception.

7. All persons under sentence of above one month's imprisonment and up to six months or less, have been granted a remission of fifteen days. All persons under sentence of above six months' imprisonment have been granted a remission of one month. All persons under sentence of above a year's imprisonment have been granted a remission of one month for each year of their sentence; all remissions granted under these orders being restricted to well-conducted convicts. Under no circumstances has the boon been extended to such criminals as have been more than twice convicted; or to those who have been committed to jail as security for keeping the peace; or to any person whose premature release may be deemed by the local authorities to be inexpedient for reasons of local importance.

II.—Civil Prisoners.

8. As regards civil prisoners, the Governor General in Council has been pleased to order the release of all those whose debts do not exceed the sum of one hundred rupees, and the payment by Government of the debt or debts for which they are detained.

III.—Prisoners at Port Blair.

9. As regards the prisoners under this head, the Superintendent of Port Blair has submitted lists prepared in accordance with the instructions issued in the case of prisoners in India, and with special recommendations in the case of those who are not disqualified from the Amnesty. These lists have been circulated to Local Governments and Administrations, so that the fullest consideration has been given to each individual case. Acting upon the information so obtained, the Governor General in Council has directed that 278 male life-convicts and 90 female shall be absolutely released; term-convicts 65 male and female, and one Christian convict, or 434 in all.

10. Besides absolute releases, the Superintendent of Port Blair has been allowed to grant to well-behaved convicts in Port Blair, to the extent which he deems expedient, freedom within the limit of the Settlement, and, moreover, to give promotion in their respective classes to prisoners in the earlier stages of their probation.

11. As regards Indian convicts in the Straits Settlements, very full enquiries have been made. A special officer has been deputed to Singapore to confer with the Straits Government in view to re-consider the cases of all Indian convicts undergoing sentence in that Province. This officer, Mr. Brodhurst, of the Bengal Civil Service, has prepared lists of all the Indian convicts in the Settlements, and, as in the case of the Port Blair prisoners, these lists have been forwarded for the opinions of the Local Governments to which the prisoners belong. The result of this enquiry is that 221 have been absolutely released.

12. In Sarawak four Indian convicts have been absolutely released, and in Madras seven Straits convicts, and in Bombay five. Thus the grand total of absolute releases of prisoners in transportation is 671.

13. The number of political prisoners in India is very small, and indeed most of these are not really in confinement but reside under surveillance in places fixed for their residence.

It has been, however, found possible to grant entire freedom to Sirdars Kishan Kooer and Narain Singh, of the Punjab, and to give similar boons to others residing in various places.

14. Special instructions have been issued to all Local Governments that the arrangements for the release of prisoners shall be carried out circumspectly and quietly, the prisoners being conducted to their homes in small batches, and, when practicable, under police supervision.

15. The net result of these orders will approximately be as follows :—

(*a*). Prisoners, including civil and political prisoners, released by Local Governments and Administrations		15,317
(*b*). Released at Port Blair		434
(*c*). Prisoners released in the Straits and elsewhere ...		237
Total ...		15,988

Madras, Bombay, Bengal, North-Western Provinces, Punjab, Oudh, Central Provinces, British Burmah, Mysore and Coorg, Assam, Hyderabad Assigned Districts.

ORDER.—Ordered, that this Resolution be published for general information, and forwarded to the Local Governments and Administrations noted in the margin.

Extract from the Proceedings of the Government of India in the Home Department, No. 38 C, dated Camp Delhi, the 1st January 1877.

RESOLUTION.—The Viceroy in Council having considered the terms of the Amnesty granted in 1859, is pleased to announce that the exception from the Amnesty of persons who were leaders of revolt is withdrawn, and that such persons may now return to their respective homes on the sole condition of announcing their return to the District authorities, and of good behaviour for the future. Such persons will, however, be required, if they wish to leave the limits of the district in which they reside, to give previous notice to the District authorities.

The exception as to murderers and leaders of mutiny will still remain in force, and nothing in the above Notification will extend to Feroz Shah, the son of the late King of Delhi.

POLITICAL.

Camp Patiala, the 6th January 1877.

No. 271.—The following ceremonies were observed on the occasion of the installation by His Excellency the Viceroy of His Highness Rajendar Singh as Maharaja of Patiala:—

His Excellency the Viceroy and Governor-General and suite reached the Rajpúra Railway Station at 8 A.M. on the 6th January 1877, accompanied by His Honor the Lieutenant-Governor of the Punjab and Staff.

At the Railway Station His Excellency was met by the three Members of the Council of Regency and another high official of the State.

At 10 A.M. the Viceroy and Governor-General and suite, accompanied by the Lieutenant-Governor of the Punjab and Staff, proceeded in carriages to Patiala.

At the Fort of Bahadurgarh, five miles from the town of Patiala, His Excellency was met by His Highness the Maharaja in a State carriage, and shortly afterwards by their Highnesses the Rajas of Jhind, Nabha and Faridkot, who are connected by descent with the House of Patiala.

The Viceroy was pleased to enter the carriage of the Maharaja; the Foreign Secretary entered the carriage of the Raja of Jhind; the Secretary to the Punjab Government the carriage of the Raja of Nabha, and His Excellency's Private Secretary that of the Raja of Faridkot. The cortège then proceeded to the encampment prepared for His Excellency near the Motí Bagh.

On the plain near the Motí Bagh the Patiala troops were drawn up and received His Excellency with a salute of 31 guns. Similar salutes were fired from the Fort of Bahadurgarh as His Excellency passed and on his entrance into the town of Patiala.

Shortly after arrival at the encampment, His Highness the Maharaja, accompanied by their Highnesses the Rajas of Jhind, Nabha and Faridkot, paid a formal visit to His Excellency with the usual ceremonies.

At 1-30 P. M. three Members of the Council of Regency with another high official of the State presented themselves at the Viceregal Camp, and escorted His Excellency the Viceroy and His Honor the Lieutenant-Governor of the Punjab and their respective suites to the Durbar room in the Palace. The Maharaja met the Viceroy half-way, and entering the carriage of His Excellency, proceeded to the place of installation.

His Excellency the Viceroy, His Honor the Lieutenant-Governor, His Highness the Maharaja, and the Rajas of Jhind, Nabha and Faridkot having taken their seats in Durbar, His Highness presented a Nuzzur to His Excellency the Viceroy, which was touched and remitted.

Their Highnesses the Rajas of Jhind, Nabha and Faridkot were then presented to His Excellency by the Foreign Secretary; the high officials of the Patiala State and others by the Secretary to the Punjab Government.

At the conclusion of the presentations, His Excellency the Viceroy arose and with his own hands invested the Maharaja with the insignia of Chiefship, namely, a necklace of pearls and precious stones, and a white crest rising from a star of diamonds, as *sarpech*.

Thereupon a salute of 17 guns was fired, and the Chiefs of Jhind, Nabha and Faridkot presented gifts to His Highness the Maharaja.

An address was then read by the President of the Patiala Council thanking His Excellency for taking part in the installation, and acknowledging the honor thus conferred on the Patiala State.

His Excellency the Viceroy then addressed the assembly as follows:

"MAHARAJA:—I am glad to have been able to visit the principality and city of Patiala on an occasion so important and so auspicious as the present. And I am especially glad to have had such an occasion to testify publicly, not only to yourself but also to all your people, the warm and affectionate interest taken by the Empress of India in the loyal House of Your Highness by thus personally installing you as Chief of a State which, from the commencement of this century, has been in close association with the British Government. In the year 1808, and in the time of Your Highness' ancestor, Maharaja Sahib Singh, the State of Patiala was taken under the special protection of the British Government.

"That the confidence then reposed by the Phulkian Chiefs in the honesty, the wisdom, and the strength of that Government was not misplaced, satisfactory evidence exists in the fact that at this moment the wealth, the dignity, and the power of Patiala are greater than they were at the time of the engagement which guaranteed to this State the protection of the Government in which its Chiefs have so loyally trusted. On their part, meanwhile, all the Maharajas of Puttiala, and especially Your Highness's father and grandfather, have faithfully, and with unswerving and unbroken active loyalty, fulfilled their obligations to the Suzerain Power. In the year 1857, His Highness Maharaja Narender Singh placed all his resources and his great personal influence absolutely at the disposal of the Government.

"His Highness then sent to Delhi a contingent, whose valuable services we still gratefully remember, and the assistance then rendered by the Maharaja has already been acknowledged and rewarded by Her Majesty's Government.

"Your Highness's father, Mohendar Singh, whose untimely death we all lament, followed faithfully and wisely in the footsteps of his eminent predecessor, and the rule of His Highness was distinguished, not only by its close and unswerving attachment to the British Government, but also by many important reforms, by great progress made in the popular education of his people, and by the enlightened development of trade within his territories.

"The unmistakeable signs and evidences of past good government I have witnessed every where around me since my arrival here, in the contented faces of the people, in the good appearance of the troops, and in the crowded and thriving streets of this interesting city.

"Your Highness, therefore, is not only born to be the head of an illustrious house, but you will also be early trained in the loyal and honorable traditions of that house; and I am confident that when Your Highness reaches—as with the blessings of Providence I trust you will reach—those years which are called the years of discretion—when you are placed in personal charge of your hereditary possessions—I am confident that you will prove yourself no less deserving of the warm and affectionate interest of Her Royal and Imperial Majesty the Empress of India than all those great Chiefs who have preceded you on the throne of Puttiala.

"Rajahs of Jhind and Nabha:—It gives me cordial pleasure to meet Your Highnesses again, and more especially to meet you here in Patiala. Connected as you are by common descent with the ancient house of its young Prince, I trust that in my presence here you will recognise a proof of the friendly interest of Her Royal and Imperial Majesty in the welfare of the head of your family, and also a confirmation of those gracious assurances which on the first day of this year it was my privilege to convey from Her Majesty to the assembled Chiefs of India as the guiding and animating principles of the British Government in this country.

"Members of the Council of Regency:—To you has been entrusted the onerous but honourable task of administrating this State during the minority of its young Prince. I trust that you will do this wisely, impartially, and for the good of all its people.

"Large powers have been confided to you for that purpose, and, in return, I look to you for loyal, honest, and devoted labour in the service of His Highness.

"As long as your administration is approved by the contentment of the people, by the prosperity of the State, and by the judicious training and elevation of His Highness for those important duties he will hereafter have to perform, so long you can confidently reckon upon the cordial support of my Government, which, on the recommendation of His Honor the Lieutenant-Governor of the Punjab, and in concurrence with their Highnesses the Rajas of Jhind and Nabha, my Government has appointed you to the high office you now hold."

The address having been translated by the Foreign Secretary, an ornamental sword and a portrait were presented to the Maharaja as a personal gift from His Excellency.

Attar and pân were then distributed according to prescribed custom, and the Durbar was dissolved.

Shortly afterwards His Excellency and Suite left Patiala under a salute of 31 guns and the usual ceremonies.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

THE DISTRESSED DISTRICTS OF THE MADRAS AND BOMBAY PRESIDENCIES.

No. 46, dated Fort William, the 16th January 1877.

RESOLUTION—By the Government of India, DEPT. OF REVENUE, AGRICULTURE AND COMMERCE.

Read the following papers—

No. 45, dated 16th January 1877.

From—The HON'BLE T. C. HOPE, C.S.I., Additional Secy. to the Govt. of India, Dept. of Revenue, Agriculture and Commerce,

To—The HON'BLE SIR RICHARD TEMPLE, BART., K.C.S.I., Lieutenant-Governor of Bengal (on a special mission).

His Excellency the Governor General in Council having been pleased to depute you on a special mission for the purpose of inspecting the districts suffering from scarcity in the Presidencies of Madras and Bombay, and conferring personally with the Governments of those Presidencies regarding the measures which are being carried out, and which will have to be carried out, for the relief of distress, I am directed to communicate to you the following observations, indicating the general views of the Government of India on some of the more important questions with which you will have to deal.

2. I am to observe in the first place, that while it is the desire of the Government of India that every effort should be made, so far as the resources of the State admit, for the prevention of deaths from famine, it is essential in the present state of the finances that the most severe economy should be practised. The distress is so wide-spread, extending over twenty-one districts in the two Presidencies, and more or less affecting a population of twenty-seven millions, and threatens to be protracted for so many months, that the utmost care is necessary to restrict the expenditure to the absolute requirements of the case. Even, however, if financial considerations were less overpoweringly strong, it would still be true that a Government has no better right in times of scarcity than in other times to attempt the task of preventing all suffering, and of giving general relief to the poorer classes of the community. False and mischievous ideas on this subject have become so prevalent, that the Government runs some risk of being charged with inhumanity, when it declares that these are the principles by which it intends to be guided. The Governor General in Council will not be deterred by such considerations as these from a course of action which he knows to be right. Everyone admits the evils of indiscriminate private charity, but the indiscriminate charity of a Government is far worse. The Government of India is resolved to spare no efforts which may be necessary and

practicable, with reference to the means at its disposal, to save the population of the distressed districts from starvation, or from an extremity of suffering dangerous to life; but it will not sanction a course of action which must tend to demoralize the people themselves who are passing through a time of temporary trial, and inevitably lead to the imposition of heavy and permanent burdens on the industry of the country. Even for an object of such paramount importance as the preservation of life, it is obvious that there are limits which are imposed upon us by the facts with which we have to deal. If the estimates of the Local Governments are to be accepted, the relief of the existing scarcity in the Madras and Bombay Presidencies, including loss of revenue, will not cost less than six and a half millions sterling. Considering that the revenues are barely sufficient to meet the ordinary expenditure of the empire, and that heavy additional taxation is both financially and politically impracticable, we must plainly admit that the task of saving life, irrespective of the cost, is one which it is beyond our power to undertake. The simple fact is this, that the recurrence of a few famines such as that from which the country is now suffering, or such as that which occurred three years ago in Behar, would, if measures of relief were carried on upon that principle, go far to render the future Government of India impossible. The embarrassment of debt, and the weight of taxation, consequent on the expenditure thereby involved, would soon become more fatal to the country than famine itself. Happily, however, the Government are not placed in any such dilemma. They believe that from the history of past famines, rules of action may be learnt which will enable them in the future to provide efficient assistance for the suffering people without incurring disastrous expenditure.

3. One of the first points which should engage your attention is the extent to which relief is given, and the principles on which it is afforded.

Madras—			
On relief works	...	1,125,117	
Fed gratuitously	...	119,363	
			1,244,480
Bombay—			
On relief works	...		287,000
			1,531,480

The numbers on the relief works are so great, that the Government of India see reason to apprehend that many persons must be employed to whom such relief is not absolutely essential, and who without it would have been able to maintain themselves, at all events for some time to come. The Governor General in Council does not for a moment doubt the reality of the calamity that has fallen upon the country, a calamity which unhappily threatens to become ere long still more disastrous. But it is necessary to remember that the mere collection of enormous numbers of people on relief works in seasons of scarcity is in itself no sufficient proof of serious actual suffering. If relief works are carried on upon wrong principles; if labour is not strictly exacted from all who are physically able to work; if proper supervision is wanting, and people find that they can obtain, almost for the asking, and in return for next to no work at all, wages in money or in grain, there is hardly any limit to the numbers who even in prosperous times may be attracted to them. "When," as Sir George Campbell has observed, "a lax system is established, and everyone down to the merest child gets paid for the merest pretence of work, with probably a good many abuses besides, the thing becomes too attractive, the whole country tends to come on the works, the numbers threaten to be absolutely overwhelming. The people, too, become demoralized; works where real work is exacted, are deserted, and many evils follow." A good illustration of this may be found in the official narrative of the scarcity of 1873-74 in the North-Western Provinces. "In a season of considerable pressure, but not of absolute famine, the relief works in Gorakhpur and Basti were for some weeks daily thronged by more than 200,000 men, women and children, who found an attraction in the light work, in the liberty of going at night to their houses after attending a sort of vast picnic during the day, and in the wages earned at a time when ordinarily they had no employment in the fields, and had to live on their harvest savings. But when the wages were cut down to a mere subsistence allowance, when a full day's labour was insisted on, and when the liberty of living at their homes was threatened, these immense crowds melted away as rapidly as they had collected, and it was found that there was hardly any one who really stood in need of relief." The Governor General in Council does not assert that a

similar condition of things now exists in any of the districts of Madras or Bombay, but the matter is one which requires the most careful observation.

4. The general principles on which operations for the relief of famine in India should be conducted, have been established beyond question by past experience. When, as may easily happen, at the commencement of a period of distress, it is a matter of doubt whether serious scarcity is actually threatening a tract of country, it may be desirable, in the first instance, to open, as a tentative measure, small and well supervised local works. The Government may thus avoid the risk of finding itself committed to serious expenditure on large public works which there was no immediate necessity for undertaking. It was for reasons of this kind that the Government of India, at the commencement of the present scarcity, and while still in doubt regarding the extent to which relief operations might ultimately become necessary, thought it right, both in the Madras and Bombay Presidencies, to encourage, in the first instance, the organization of works of a local character in preference to those of greater magnitude. But when it becomes no longer a matter of doubt that serious scarcity is impending, and that relief will have to be provided upon an extensive scale, the great difficulty of insuring adequate supervision for numerous scattered works renders it necessary to resort to large works on which large gangs of labourers can be employed, and on which adequate labour tests can be exacted. As soon, therefore, as it is clear that the Government will have to undertake serious measures for the relief of scarcity, no time should be lost in giving to the people, to the greatest extent practicable, the means of employment on large public works. Such works supply the means of subsistence to the able-bodied poor; they prevent, instead of merely relieving, distress.

5. In choosing such works it is obviously of great importance that those selected shall be of a permanently useful and remunerative character; for it is in the last degree unsatisfactory that when the necessity for employing great multitudes of people is forced upon the Government, their labour, which might have been devoted to works which would have conferred lasting benefit on the country, should be thrown away. The works should also be such as are calculated to absorb in comparison with their entire cost a sufficient proportion of labour during the anticipated period of famine. They need not always be in the distressed districts, or near the homes of the people who require relief. When railways or other thoroughly good means of communication are available, it may sometimes be easier and wiser to carry the people to the works and to their food, than to carry the food to the people. Temporary migration from their homes has always, in times of scarcity, been the natural and one of the best remedies to which the people have had recourse, and the organization of public works in places where food is plentiful, and to which access is not difficult from the distressed districts, may in some cases be more useful than works at places where the supply of food is already insufficient. No apprehension need be felt that the people will not return to their homes when the period of distress has passed away. It will be for you to consider how far these principles are being acted on, and if necessary to recommend to the Local Governments the discontinuance of any works, or system of works, which, in your opinion, cannot be usefully proceeded with.

6. When, by undertaking large public works, employment has been provided for the able-bodied poor, it may still be necessary, even before the pressure of famine has become extreme, to afford means of support to persons who are physically unable to give a full amount of labour in return for the wages they receive. These must either be employed in poor-houses or on roads and other easy work, every effort being made to prevent relief being given to any one who does not really require it. It has often been found a most useful test of actual distress to insist, when charitable relief is necessary, that it shall ordinarily be given in the shape of cooked food.

7. It should be added that when distress becomes extreme, and a state of absolute famine has been reached, that large public works may become insufficient to afford relief to the numbers of people in need of it. At such a time the Government may be driven to set up relief works near the homes of the people on a scale inconsistent with careful supervision or searching tests. Such mea-

sures as may be practicable must then be adopted for reducing to a minimum the inevitable evils that will then arise. The Governor General in Council leaves it to you to communicate to the Local Governments the results of your own experience in regard to this very difficult part of the question.

8. A very satisfactory feature in the course taken by the Bombay Government in dealing with the present famine is their adherence to the principle of non-interference with private trade, which up to the present time they have acted on with marked success. In Madras a different policy has been observed. At an early stage in the scarcity, the Government of Madras contracted through a local firm for a supply of 30,000 tons of grain, to be used as a reserve to meet deficiencies in the local markets. Applications for authority to make further similar purchases have since been received, but have not been sanctioned, the Government of India being of opinion that such purchases are seriously calculated to discourage the operations of private trade, and to increase, instead of diminishing, the difficulty of procuring the supplies which will be necessary to augment the deficient food-supply of the Presidency. Enquiry has been made whether this objection would apply to the Government advertizing for tenders for the supply and delivery of grain in the immediate neighbourhood of certain works on which gangs of labourers are employed at a distance from all local markets. The answer must of course be in the negative. There is no more objection to such purchases than there is to the Government making purchases through the Commissariat for the troops. The objection is to the Government entering into transactions which may excite apprehensions on the part of traders, that the Government are about to take their place, and so to disarrange the bases on which they found their calculations of profit. This objection is especially applicable to purchases of a secret character. In such cases the fact that the Government are in the market is almost certain to become known, and thereupon doubts are raised as to the nature and extent of the transaction, and private trade is paralysed. In regard not only to this but all other matters connected with the management of famines, the general rule should be that the operations of the Government, and the reasons on which those operations are based, shall receive full and complete explanation and publicity.

9. One of your most important duties in connection with the present state of things in the Madras Presidency will be to ascertain how far private trade, if left perfectly unfettered, may be counted on to supply the wants of that Presidency. As at present informed, the Governor General in Council entertains a strong opinion that the supply of that Presidency from foreign sources, such as Burma, Bengal, &c., should be left altogether to private trade, and that the intention of the Government so to act should be widely made known, together with full and frequent information regarding the prices of food-grains and other articles of consumption in the distressed and other districts. It is possible, however, that in certain localities at a distance from the lines of Railway and from large markets, it may be requisite for the Government to intervene by making purchases at the nearest local depôt to which the trade will convey the grain. In such cases, where the local trade, from whatever cause, is not active, the direct intervention of the Government may probably tend rather to facilitate than to discourage the importation of grain, by affording confidence to the trade that importations will find a certain purchaser. Finally, it must not be overlooked that there is a great advantage in paying labourers on relief works in money, wherever and so long as this mode of relief is practicable.

10. The Governor General in Council would have hoped that it was hardly necessary to impress upon local officers the importance of exercising no interference of any kind with the object of reducing the price of food; but cases have come to his notice which show that a warning on this point may not be uncalled for. It is obvious that, especially in a time of scarcity, nothing could be more mischievous than such interference, and that high prices, by reducing consumption and encouraging the importation of fresh supplies of food, are not only necessary but highly beneficial.

11. Another matter of importance is the question of transport of grain, both on the Railways and to parts of the country with which the existing means of communication are insufficient, as well as of providing additional facilities for landing it at the ports. These matters, the Government of India

have reason to believe, have not been at all overlooked by the Local Governments, but it is probable that your experience will enable you to offer valuable suggestions on the subject.

12. There is one other subject to which the Governor General in Council thinks it desirable to refer, not because it is one with which you will have at present in any way to deal, but because he wishes to place you generally in possession of the views which are held by the Government of India on all the more serious questions connected with the treatment of Indian famines.

You will observe that His Excellency in Council, in my letter to the Government of Bombay, No. 5A., dated the 5th instant, has laid down the principle that if any great irrigation works or other works of local and provincial importance, involving heavy future responsibilities for their completion and maintenance, be undertaken, certain rules will be held applicable, which will hereafter be prescribed, in regard to the enforcement of provincial responsibility for meeting the charges for extraordinary public works. This is not a convenient time for entering into a full discussion of these questions, but His Excellency in Council desires to take the present opportunity of declaring his opinion, not only that the main portion of the charges incurred on public works which protect the people against famine, and which add greatly to their wealth, should be borne by the people protected and benefited, and not by the general tax-payer, but also that every province ought, so far as may be practicable, to be held responsible for meeting the cost of the famines from which it may suffer. The Governor General in Council believes that until these principles are enforced, the only real security for wise and economical management will be wanting. When Local Governments and local officers understand that the inevitable consequence of unnecessary expenditure will be the imposition of heavy burdens upon their own people, and not upon those of other provinces, a powerful and most useful check upon extravagance will have been established. On this subject the opinions of Her Majesty's Secretary of State for India have been expressed in a passage which may properly be quoted here*:—

"There is a further point, though not one to fall within the scope of such an enquiry as that which you have directed to be made, which should, in my opinion, be carefully considered by Your Excellency's Government before the questions that arise in connexion with the occurrences of 1873-74 can be regarded as fairly met. I refer to the proper incidence of the charges that are necessarily incurred in providing for the requirements of the population of a district in a period of drought. However plain may be the primary obligation on the State to do all that is requisite and possible towards preserving the lives of the people under such circumstances, it would be most unwise to overlook the great danger of tacitly accepting, if not the doctrine, at least the practice, of making the general revenues bear the whole burden of meeting all local difficulties or of relieving all local distress, and of supplying the needful funds by borrowing in a shape that establishes a permanent charge on the general revenues for all future time. In Bengal, where (as the Lieutenant-Governor observes in reference to the objections of the Government in relation to emigration) the beneficial interest of the Government in the land is limited by the permament settlement, these considerations are of special and more pressing application.

"The question which is thus raised, of how to make local resources aid in meeting local wants, is no doubt one of great difficulty and complexity, particularly in a country like India. But the difficulty of providing any satisfactory solution of it should not be allowed to obscure the perception of its vital importance to the future well-being of the country, as well as of the troubles to the Government and the demoralization of the people which must necessarily result from postponing too long the introduction of some system under which shall be suitably recognised the undoubted responsibility which rests on the people themselves to provide for their own support and well-being. The duty of the State does not extend further than to see that the needful means are supplied for giving effect to this principle, and for distributing the local burdens arising from its practical application in the manner which shall be most equitable and least onerous to those who have to bear them."

The manner in which these principles shall be carried into practical effect is under the consideration of the Government. It is sufficient at present to say that the Governor General in Council is of opinion that they ought to be kept in view in connection with the present scarcity, and that a considerable portion, if not the whole, of the permanent charges which relief operations now in progress may entail ought to be borne by the Presidencies in which the expenditure is being incurred.

* Despatch from Secretary of State to Government of India, No. 59 (Revenue), dated 25th November 1875.

13. The above are the only observations that the Government of India deem it at present necessary to place on record in connection with the onerous and delicate duty which you have undertaken; and they have been made, not so much with the view of advising you on a subject which you have probably studied more thoroughly than any other public officer in India, as for the purpose of furnishing you with a statement of the views of the Government of India, to which you can refer in your communications with the Local Governments. I am directed, in conclusion, to convey to you the cordial thanks of the Governor General in Council for the promptitude with which on this, as on other occasions, you have responded to the call made upon you.

No. 2, dated the 12th January 1877.

From the Government of India, to Her Majesty's Secretary of State for India.

In our Despatch of the 5th instant, and the telegram of the same date, we reported that, after personal conference with the Governors of Madras and Bombay, we deemed it necessary, in view of the rapidly increasing numbers on the relief works, the doubtful expediency of the policy of importing grain favoured by the Madras Government, and the heavy estimates of relief expenditure received, to depute Sir Richard Temple on a special mission to the distressed districts. Sir Richard Temple started from Delhi for Bombay on the following day, accompanied by Mr. C. E. Bernard as Secretary.

2. Our weekly Despatches, together with those forwarded by the Governments of Bombay and Madras, will have conveyed to Your Lordship in detail all the information regarding the famine which is at present in our possession. This information is not, in some respects, as complete as could be desired, and will not be materially supplemented until the receipt of the detailed accounts of the condition of the distressed districts, which were called for in our letter of the 30th November last, and which will not be due until the 15th instant. These accounts are to be distinct for each taluka (or sub-division of a district), shewing fully its condition and prospects, the measures undertaken and required, and the probable number of persons for whom relief must be provided at successive periods up to the next year's harvest. In the meantime we may submit the following brief review.

Bombay.

3. About the middle of August the scantiness of the rainfall in certain Collectorates of the Deccan and Southern Mahratta Country excited some apprehension, and early in September the necessity for relief in portions of the Poona district, together with the existence of distress in the adjacent districts of Ahmednagar and Sholapur, were brought to the notice of the Government of India, but it was not until the latter part of October that the hopes which had been entertained of a fall of rain sufficient to save portions of the withering crops and to enable the *rabi* sowings to be begun were dissipated, and that serious and extended distress was recognized as inevitable.

4. It was soon apparent that the area which was to a greater or less degree affected comprised Khandesh and eight districts of the Bombay Deccan, as specified in the margin, with a population of eight millions, and a revenue, from land and excise, of a million and a half. Moreover, the affected districts

enclosed Native States under our political control, and in some instances under our management, containing a population of nearly two millions more.

5. The failure of crops has of course varied greatly throughout this large tract, and we have not as yet any precise statistics on the subject; but according to returns received in November, the failure was almost entire in 21 out of 91 talukas (or sub-divisions of districts), it amounted to half but less than the whole in 59 more, and was under half in 11 only. Taking the districts by name, in Sholapur the failure was complete, in Kaladgi very nearly so, Dharwar came next and not far behind these; then Belgaum and Poona. Ahmednagar had talukas both well and ill off. In Khandeish and Nasik the loss was believed to be about one-half, and Satara on the whole had suffered least of all. These estimates were extremely rough, and have in some instances been since modified for the better. Regarding the Native States we have no detailed information, but they are believed to be in much the same condition as the adjacent British districts.

6. Recently we received accounts of distress in certain parts of the Colaba and Ratnagiri districts, which are on the coast below the Ghâts, but we have every hope that it will be confined in area and moderate in severity.

7. The relief which has as yet been afforded has been principally in the form of minor works, intended not to draw large bodies of people away from their homes, as we consider such to be the best form of relief at the commencement of a scarcity, before its limits have been fully ascertained. In October last we informed the Government of Bombay that we did not consider that sufficient grounds then existed to justify the commencement of the Dhond and Manmar Railway, which they desired, or of other works involving heavy expenditure after the necessity for relief had ceased. More recently however the ascertained importance of the scarcity, together with the representations of the Bombay Government that minor works were in some districts becoming exhausted, have induced us to approve of the commencement of large projects, on the understanding that any excess of expenditure over relief requirements will be borne by provincial funds. As regards the grain trade, we have supported the determination of the Bombay Government to leave the trade entirely free, the result of which is that supplies have poured into the distressed districts from all quarters, and are offered to an extent in excess of the carrying powers of the railways, while prices have been considerably lowered in consequence. By a fortunate coincidence, the harvests in other parts of India, except Madras, have been excellent.

8. The Bombay Government have placed a sum of Rs. 25,000 at the disposal of each of the Collectors of the most distressed districts for the purpose of charitable relief to the aged, infirm and others unable to work; but Government assistance of this kind has not as yet been much needed, partly in consequence of the very liberal efforts which have been made by private individuals and public subscription.

9. The want of rain having very materially affected the sources of water-supply, the condition of the cattle, which are very numerous, nearly equalling the population in the affected districts, caused from an early period much anxiety, and many thousand head are reported to have perished. The Government forest reserves have however been thrown open for grazing, under as few restrictions as possible; arrangements have been made for sending the cattle to them from all quarters, under certificates from the several Mamlutdars, and the privilege has been availed of to an extent which affords reason to hope that a large proportion of the more valuable cattle at least will be saved.

10. According to the latest returns which are available, the number of persons on the relief works was about 287,000, and the famine expenditure, exclusive of about six lakhs borne by Provincial, Local, and Municipal Funds, amounted to Rs. 12,15,359. The total loss of revenue and relief expenditure is estimated by the Local Government at two crores and six lakhs of rupees.

Madras.

11. The south-west monsoon having been but scanty in the Ceded Districts of the Madras Presidency (Bellary and Cuddapa) and in Kurnool, distress appeared there in August last, and a few relief works were set on foot, as also the distribution of food to the aged and others unable to work. To this failure of rain was gradually added that of the north-east monsoon also, which, it had been hoped, might have saved a portion of the fast withering crops, and facilitated larger sowings than usual of the later crops usually produced under its influence. The condition of these three districts, which had already, it may be remarked, suffered from two previous bad seasons, thus became, by the end of October, extremely critical.

12. The failure of the north-east monsoon above alluded to has also extended to a large portion of the rest of the Madras Presidency. In some quarters the failure has been complete, in others only partial, and although rain has very lately fallen to a limited extent in some of the southern districts, severe distress has overtaken large masses of the population.

13. Two tracts are thus affected. The first, consisting of the Ceded Districts and Kurnool, is compact and well defined, and the distress is far more severe in it than elsewhere; the second comprises nine districts, within which the distress depends upon the varying local failures of the north-east monsoon, regarding which no details are available sufficient to enable the population actually affected to be stated. The general statistics of the districts are given in the margin. Only eight districts in the whole Madras Presidency are thus as yet free from actual famine; but even among these, a certain amount of distress, accompanied by high prices, has appeared in South Arcot, Tinnevelly and Malabar, and causes apprehension regarding the future.

14. The distress in the Ceded Districts and Kurnool far exceeds, as has been said above, that elsewhere. Taking the remaining districts in rough order, Nellore and Chingleput appear to come first, North Arcot and Salem next, followed by Coimbatore and Madura, while Tanjore, Trichinopoly and Kistna are comparatively well off.

15. Speaking in general terms, the Madras Government has followed the policy of previous famines in that Presidency by commencing with relief works at the head-quarters of taluks and districts, and giving charitable relief freely, and then extending its operations to minor works in the villages. At the end of October that Government also requested permission to commence the earth-work of the railway from Bellary to Guduk in the Dharwar District of the Bombay Presidency, but we withheld our sanction on the same grounds as those which led us to a similar course in the case of the proposed Dhond and Manmar line. The Madras Government then commenced the remaining eighty-five miles of the east coast canal, the conversion of the Arconum-Conjeveram Railway to the metre gauge, and a canal in the town of Madras.

16. The Madras Government likewise purchased, at the beginning of November, 30,000 tons of grain, which it would appear was intended for use either in payment of wages on relief works, or for sale to the general public, as circumstances might be. We lost no time in intimating our disapproval of this transaction, which was effected without previous communication with the Government of India, and have since negatived two proposals for further purchases, and emphatically expressed our desire that no interference with the operations of trade should be attempted.

17. The number of persons on the relief works, according to the latest accounts, was 1,125,117, to which must be added 119,363 persons receiving charitable relief almost entirely at the expense of the State. The relief expenditure already sanctioned by the Madras Government up to the 30th ultimo was Rs. 55,69,059. The Local Government, in their more recent reports, estimate the total relief expenditure which will be required up to the end of September 1877 at Rs. 3,41,05,875, and the loss of revenue at Rs. 1,17,00,000, making, with extra establishments, a probable total of above four and a half millions sterling.

Mysore and Coorg.

18. The province of Mysore, like portions of Madras, is undergoing a second year of scarcity, and the failure of both monsoons during the current year has affected the whole province except a few taluks to the westward, the crops dependent on irrigation from tanks suffering almost as much as the others. The absence of water has also destroyed the pasturage for cattle, the mortality of which, in one district alone, in one month, has been estimated at 11,400 head. The area of Mysore is 27,346 square miles, the population 5,055,000, and the land, forest and excise revenue Rs. 70,39,819. Relief works were started at an early stage, and in addition to extensive transfers in the budget of the year, special grants, amounting to three lakhs of rupees, have at various times been sanctioned. Expenditure in Mysore does not, of course, fall on imperial revenues. The Chief Commissioner has carefully abstained from all interference with private trade in grain.

In the adjoining district of Coorg, which is British Territory, no failure of crops has as yet occurred sufficient to warrant the commencement of relief operations.

Hydorabad.

19. The western and southern portions of the territories of His Highness the Nizam have not escaped the effects of the deficient monsoon. In October last we were urged through the Resident to reduce the freight of grain carried by railway to Hyderabad districts, but did not sanction the measure, as it was deemed by both the Bombay and Madras Governments to be unnecessary. The Nizam's Government has since started relief works, which suffice, as far as we are aware, to meet the exigencies of the case.

Summary.

20. It will have been seen from the above brief sketch that the entire area of British Territory affected by scarcity is 138,911 square miles, the population 26,898,571, and the realizable annual revenue Rs. 4,54,26,315. The estimated loss of revenue is 183 lakhs, and the estimated relief charges 481 lakhs, or a total, including establishment and various unestimated charges, of probably not less than six and a half millions sterling. The number of persons in receipt of relief is 1,531,480.

Sir Richard Temple's mission.

21. The prospect is thus serious in the extreme. While the necessity of preventing, as far as practicable, death by starvation is paramount, the financial embarrassment which must in any case arise will be most difficult to overcome, and any departure from the most rigid economy, or from the principles in dealing with famine which experience has confirmed as sound, may aggravate it to a degree which cannot be estimated. These considerations, together with doubts which

we entertained regarding the policy of the Madras Government respecting the purchase of grain and the sufficiency of existing restrictions on employment on the works in both Madras and Bombay, have, as already stated, induced us, after personal conference at Delhi with the Governors of the two Presidencies, to depute Sir Richard Temple on a special mission to visit the distressed districts, confer with the local Governments, and offer to them such suggestions as he may deem the occasion demands. We have every hope that, under his advice, and by the light of the complete review and forecast above referred to as shortly to be received, the operations may be confined within limits commensurate with the occasion, and that both loss of life and an extravagant outlay may be avoided.

NOTIFICATIONS.—PUBLIC.

Fort William, the 17th January 1877.

No. 45.—*Extract from the Proceedings of the Government of India in the Home Department (Public).*

Read the under-mentioned papers regarding a proposal to amalgamate the Province of Oudh with the North-Western Provinces:—

From the Financial Department, No. 3784, dated 23rd September 1870, and enclosures.

From the Chief Commissioner of Oudh, No. 2232, dated 5th May 1875, and enclosures.

OBSERVATIONS.—The Governor General in Council is of opinion that it is expedient on grounds of financial and general policy to combine the Administration of Oudh with that of the North-Western Provinces.

2. The simplest mode of carrying out this measure is to transfer the seat of chief executive authority in Oudh from Lucknow to Allahabad, leaving matters otherwise as they stand. This will cause the least disturbance of existing arrangements, and will provide, with the greatest amount of economy possible, for the maintenance of the peculiarities of the Oudh administrative system.

3. The Governor General in Council is therefore pleased to declare that the office of Lieutenant-Governor of the North-Western Provinces being vacant, the Chief Commissioner of Oudh shall be transferred to it. The Lieutenant-Governor and Chief Commissioner will exercise the present functions of both offices within each Province respectively, and will be required to reside at Lucknow for a portion of the year.

ORDER.—Ordered, that this Resolution be forwarded to the several Departments of the Government of India for information and guidance, to the Government of the North-Western Provinces, and to the Chief Commissioner of Oudh, for information and guidance; and to Sir George Couper for information.

No. 43.—The following Military letter from the Right Honorable the Secretary of State for India, is published for information and guidance:—

Military. INDIA OFFICE,

No. 341. *London, 30th November 1876.*

To His Excellency the Right Honorable the Governor General of India in Council.

MY LORD,—Two cases have recently come before me, in which I have been called upon to consider in Council the conditions under which Officers of the Indian Staff Corps and local Officers may be permitted, when demand is made from proper quarters, to give their services beyond Indian limits.

2. And I have thought it well to endeavour to lay down a rule of general application in such cases.

3. The circumstances under which such demands will come before Government are various. In some cases the services of Officers are desired beyond Indian limits by Her Majesty's Government, whether within or beyond the territories of Great Britain and her Dependencies, on account of special reasons affecting the interests of the British Empire.

4. In other cases the services of Indian Officers may be sought (as they have been several times of late years) on account of special qualifications for local assistance by Governments of British Colonies (or by friendly Foreign States).

5. And your Officers may be applied for to serve on the personal staff of General Officers or in analogous positions out of India, when the grounds of the application are, from the nature of the case, of a private and personal, though perfectly legitimate nature.

6. No one will question that every practical facility should be given to compliance with the demand for officers under the first of the preceding categories. But I think also that, as a general principle, and within reasonable limits, no needless obstacle should be allowed to stand in the way of such demands under whichever class they come. The more free the scope we can give to the employment of our officers consistently with what is due to the Indian administration, the more are we likely to elevate the credit and the tone of the service and to add to its prestige.

7. It will of course rest with you to consider and decide on every demand of this kind as it arises.

8. And I propose to lay down as a rule that every officer whom you shall so permit to serve beyond the limits of India shall, while so serving, receive at the charge of Indian revenues the English furlough pay of his rank in addition to the allowances that may be assigned to him from other sources in each case, and that his service under such circumstances shall count for pension, subject to the following limitations:—

A. That where an officer is called for to serve on personal staff out of India, the privilege first named shall not be enjoyed beyond three years.

B. That when an officer's services are lent for other than imperial purposes either in England or in a British Colony or to a Foreign State, the officer shall contribute to the Indian Exchequer a proportion, to be fixed by you, not exceeding one-fifth of the emoluments which he may receive during such transfer of his services, in compensation for the retention of his claim to pension during his absence from Indian duty.

I have, &c.,
CARNARVAN.

An Act to establish a Register of Trade Marks.

[18TH AUGUST 1875.]

Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :

Registration of trade marks.

1. A register of trade marks as defined by this Act, and of the proprietors thereof shall be established under the superintendence of the Commissioners of Patents, and from and after the first day of July one thousand eight hundred and seventy-six a person shall not be entitled to institute any proceeding to prevent the infringement of any trade mark as defined by this Act until and unless such trade mark is registered in pursuance of this Act.

Characteristics of registered trade mark.

2. A trade mark must be registered as belonging to particular goods, or classes of goods; and when registered shall be assigned and transmitted only in connexion with the goodwill of the business concerned in such particular goods or classes of goods, and shall be determinable with such goodwill, but subject as aforesaid registration of a trade mark shall be deemed to be equivalent to public use of such mark.

Title of first proprietor of a trade mark.

3. The registration of a person as first proprietor of a trade mark shall be primâ facie evidence of his right to the exclusive use of such trade mark, and shall, after the expiration of five years from the date of such registration, be conclusive evidence of his right to

the exclusive use of such trade mark, subject to the provisions of this Act as to its connexion with the goodwill of a business.

4. Every proprietor registered in respect to a trade mark subsequently to the first registered proprietor shall, as respects his title to that trade mark, stand in the same position as if his title were a continuation of the title of the first registered proprietor.

Title of proprietor claiming by transmitted proprietorship.

5. If the name of any person who is not for the time being entitled to the exclusive use of a trade mark in accordance with this Act, or otherwise in accordance with law, is entered on the register of trade marks as a proprietor of such trade mark, or if the registrar refuses to enter on the register as proprietor of a trade mark the name of any person who is for the time being entitled to the exclusive use of such trade mark in accordance with this Act, or otherwise in accordance with law, or if any mark is registered as a trade mark which is not authorised to be so registered under this Act, any person aggrieved may apply in the prescribed manner for an order of the court that the register may be rectified; and the court may either refuse such application, or it may, if satisfied of the justice of the case, make an order for the rectification of the register, and may award damages to the party aggrieved.

Rectification of register.

Where each of several persons claims to be registered as proprietor of the same trade mark, the registrar may refuse to comply with the claims of any of such persons until their rights have been determined by the court, and the registrar may himself submit or require the claimants to submit in the prescribed manner their rights to the court.

The court may, in any proceeding under this section, decide any question as to whether a mark is or is not such a trade mark as is authorised to be registered under this Act, also any question relating to the right of any person who is party to such proceeding to have his name entered on the register of trade marks, or to have the name of some other person removed from such register, also any other question that it may be necessary or expedient to decide for the rectification of the register.

The court may direct an issue to be tried for the decision of any question of fact which may require to be decided for the purposes of this section.

Whenever any order has been made rectifying the register the court shall by its order direct that due notice of such rectification be given to the registrar.

6. The registrar shall not, without the special leave of the court, to be given in the prescribed manner, register in respect of the same goods or classes of goods a trade mark indentical with one which is already registered with respect to such goods or classes of goods, and the registrar shall not register with respect to the same goods or classes of goods a trade mark so nearly resembling a trade mark already on the register with respect to such goods or classes of goods as to be calculated to deceive.

Restrictions on registry of trade marks.

It shall not be lawful to register as part of or in combination with a trade mark any words the exclusive use of which would not, by reason of their being calculated to deceive or otherwise, be deemed entitled to protection in a court of equity; or any scandalous designs.

7. Subject as aforesaid, a register office shall be established from and after such time (not being later than the first day of January one thousand eight hundred and seventy-six), in such manner and with such officers, and at such salaries, to be paid out of moneys provided by Parliament, as the Lord Chancellor may, with the consent of the Treasury, direct; and the Lord Chancellor may from time to time, with the assent of the Treasury as to fees, make, and, when made, alter, annul, or vary, such general rules as to the registry of trade marks, and as to notices to be given by advertisement before the registration of trade marks, and as to the classification of goods for the purposes of this Act, and as to the registration of first and subsequent proprietors of trade marks, and as to the fees to be charged for registration, and also for the continuance of a trade mark on the register or otherwise, and as to the removal from the register of any trade mark, as to notices, and as to the persons entitled to inspect the register, and as to any proceedings to be taken to obtain the judgment or leave of the court in any matter in which the judgment or leave of the court is required to be obtained under this Act, and generally for the purpose of carrying into effect this Act, as he may deem expedient.

Establishment of registry and general rules.

Any rules made in pursuance of this section shall be laid before both Houses of Parliament if Parliament be then sitting, or if not then sitting, then within ten days from the then next assembling of Parliament, and shall be of the same validity as if they had been enacted by Parliament: provided that if either House of Parliament resolve, within one month after such rules have been laid before such House, that any of such rules ought not to continue in force, any rule in respect of which such resolution has been passed shall, after the date of such resolution, cease to be of any force, without prejudice, nevertheless, to the making of any other rule in its place, or to anything done in pursuance of any such rules before the date of such resolution.

8. The certificate of the registrar as to any entry, matter, or thing which he is authorised by this Act, or any general rules made thereunder, to make or do, shall be evidence of such entry having been made, and of the contents thereof, and of such matters and things having been done or left undone.

Certificate of registrar to be evidence.

9. With respect to the master, wardens, searchers, assistants, and commonalty of the Company of Cutlers in Hallamshire, in the county of York (in this Act called "the Cutlers Company"), and the marks or devices (in this Act called "Sheffield corporate marks") assigned or to be assigned by the master, wardens, searchers, and assistants of that company, be it enacted as follows:

(3.) Upon the assigning of any such mark or device, or the registration of any such trade mark as aforesaid, notice of the assignment or registration shall, within the prescribed time and in the prescribed manner, be given to the registrar under this Act, or to the Cutlers Company, as the case may be:

(4.) The registrar under this Act, without the special leave of the court, to be given only in cases where the applicant proves his right, shall not in respect of any goods or classes of goods with respect to which a Sheffield corporate mark shall have been assigned and actually used, and of which mark a copy or description or notice of the assigning whereof shall have been delivered or given to the registrar as aforesaid, register a trade mark identical with such Sheffield corporate mark, or so nearly resembling the same as to be calculated to deceive:

39 & 40 VIC., CHAP. 33.

An Act for the Amendment of the Trade Marks Registration Act, 1875.

[24TH JULY 1876.]

WHEREAS by the Trade Marks Registration Act, 1875, in this Act referred to as the principal Act, it is provided that from and after the first day of July one thousand eight hundred and seventy-six, a person shall not be entitled to institute any proceeding to prevent the infringement of any trade mark as defined by the principal Act until and unless such trade mark is registered in pursuance of that Act:

38 & 39 Vic. c. 91.

And whereas by reason of the number of trade marks, and especially by reason of the difficulties attending the registration of trade marks in relation to textile fabrics, it has been found impossible to complete the registration of existing trade marks within the time specified by the said section; and it is therefore expedient to prolong the time for the completion of such registration as aforesaid, and otherwise to amend the principal Act:

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and

Commons, in this present Parliament assembled, and by the authority of the same, as follows:

Amendment of section 1 of the principal Act.

1. There shall be repealed so much of section one of the principal Act as provides that from and after the first day of July one thousand eight hundred and seventy-six a person shall not be entitled to institute any proceeding to prevent the infringement of any trade mark as defined by that Act until and unless such trade mark is registered in pursuance of that Act, and in place thereof be it enacted that—

From and after the first day of July one thousand eight hundred and seventy-seven, a person shall not be entitled to institute any proceeding to prevent or to recover damages for the infringement of any trade mark as defined by the principal Act until and unless such trade mark is registered in pursuance of that Act, or until and unless, with respect to any device, mark, name, combination of words, or other matter or thing in use as a trade mark before the passing of the principal Act, registration thereof as a trade mark under the principal Act shall have been refused as herein-after is mentioned.

Saving of marks and devices not capable of being registered under Act.

2. When an application by any person to register as a trade mark a device, mark, name, word, combination of words, or other matter or thing proposed for registration as a trade mark, which has been in use as a trade mark before the passing of the recited Act, has been refused, it shall be the duty of the registrar, on request, and on payment of the prescribed fee, to give to the applicant a certificate of such refusal, and a certificate so granted shall be conclusive evidence of such refusal.

38. Any person may send, with the prescribed fee, notice to the registrar of his desire to oppose the registration of any assignee or transmittee, or any alteration of the register. The registrar shall give to the applicant for such registration or alteration the like notice, and may require security for costs in like manner as in the case of a notice of opposition to the original registration of a trade mark.

APPENDIX I.

Instructions to Persons applying for the Registration of Trade Marks.

Forms of Application will be found at page 25 of the Rules under the Trade Marks Registration Acts. The Applicant should carefully read over Rules 3, 4, 5, 6, 7, 9, 10, and 11, relating to Application for Registry, and attend to the notes attached to the forms in the third schedule to the Rules.

All applications must be made in the English language.

The attention of Applicants is called to the following points:

The Declaration.

1. Declarations made *in the United Kingdom* are made under the authority of the Act 5 & 6 Will. IV. cap. 62. (*vide* Rule 65), and should conclude in the form set out in that Act,—"And I make this Declaration conscientiously "believing the same to be true, and by virtue of the provi- "sions of an Act made and passed in the session of Parlia- "ment held in the fifth and sixth years of the reign of His "late Majesty King William the Fourth, intituled 'An Act "'to repeal an Act of the present session of Parliament, inti- "'tuled "An Act for the more effectual abolition of Oaths "'and Affirmations taken and made in various departments "'of the State, and to substitute Declarations in lieu there- "'of, and for the more entire suppression of voluntary and "'extra-judicial oaths and affidavits, and to make other pro- "'visions for the abolition of unnecessary oaths."'"

2. The Declaration must be made before a Justice of the Peace or before a Commissioner for administering oaths (*vide* Rule 65). If made before a Commissioner, it should bear a 2*s.* 6*d.* Inland Revenue impressed stamp.

3. Declarations made *out of the United Kingdom* are not made under the authority of the Act 5 & 6 Will. IV. cap. 62, and should not conclude with the statutory termination above quoted, but should be made strictly in accordance with Form D. of the third schedule of the Rules; such Declarations do not require an Inland Revenue stamp.

4. Declarations made out of Her Majesty's dominions may, in cases where it is impracticable to make them before a British consular officer, be subscribed before a mayor, whose signature or official seal must, however, be certified by a British consular officer, or by the Consul of the nation, in London.

5. The Declaration, and the Statement on Application, should bear the ordinary signature of the person or persons by whom made. The trading name under which the business is carried on must also be stated in every case.

6. If the Application is made by a partner, secretary, or manager of a firm or corporate body, the Declaration and Statement should be made as "on behalf of" such firm or body, and the capacity in which the person signing the documents is acting should be stated.

7. In filling up the first paragraph of the Declaration the day of the month and the year should be stated.

The Statement on Application.

FORM A. OR B.

1. The Statement should be certified as an exhibit to the Declaration by the authority before whom the latter document is declared.

2. It should give an accurate description of the Mark, specifying any words, &c., forming a conspicuous part of the Mark. It should also specify *separately for each class* the description or descriptions of Goods in respect of which the Mark is applied for.

3. Ornamental or coloured groundwork, such as plaids or checks, &c., cannot be claimed as part of a mark unless it is included within the mark by some border or lines which should be referred to in the statement.

4. Where part of a label or mark consists of words or figures which vary with the different goods or qualities of goods to which the mark is applied, these variable parts should not be set out in the description of the mark, but should be referred to in general terms as "printed matter" or "other words referring to the goods to which the mark is applied," in which case these parts may appear in the representations in one variety, or the applicant may leave these parts of the mark or label blank, describing the blank spaces as "to be filled according to the quality or description of the goods with printed matter," or as "to be filled with other words, &c.," as above

5. Attention should further be paid to the following points:—

Applications for the Registry of Trade Marks in Class 7 should only be made in respect of the larger kinds of agricultural and horticultural implements and machines; for all the smaller descriptions of metal implements, such as gardening, draining, excavating, and mining tools, other than with a cutting edge, application should be made in Class 13.

Marks for the under-mentioned goods should be claimed in Class 50:

Bags, sacks, tarpaulins, rick-cloths, tents brattice, cloth.
Brushes (except artists' brushes) and combs.
Buttons of all kinds, other than of precious metals or imitations thereof.

Grindstones, oilstones, hones, emery.
Hose.
Packing.

Representations.

1. The Representations accompanying an Application must be sent in duplicate, each Representation upon a separate half sheet of foolscap paper, and with a margin of not less than one inch and a half on the left-hand side of the page.

2. Representations of a larger size than foolscap may be folded, but all such Representations must be mounted on linen.

3. Representations should be not only of a durable nature but of such a kind as will admit of their being preserved bound together in volumes as records of the property of the Applicants.

4. No Representation or part of a Representation supplied for the purposes of Registration should be in pencil or be merely punched upon paper or stamped or embossed.

5. The two Representations must in all cases be exactly similar.

6. The words "Registered," "Copyright," "Entered at Stationers' Hall," to "counterfeit this is forgery," will not be registered under the Trade Marks Registration Act. 1875, and, therefore, should not appear upon the Representations supplied for the purpose of Registration, nor in the Description of Marks given in the Statement on Application.

7. The engraver's or printer's name should not appear upon the Representations.

Marks not used before the passing of the Trade Marks Registration Act, 1875.

1. The definition of a Trade Mark not used prior to the passing of the Trade Marks Registration Act, 1875, is given in the 10th section of that Act, as follows:—

"A Trade Mark consists of one or more of the following essential particulars; that is to say,
"A name of an individual or firm printed, impressed, or woven in some particular and distinctive manner; or
"A written signature or copy of a written signature of an individual or firm; or
"A distinctive device, mark, heading, label, or ticket:
"and there may be added to any one or more of the said "particulars any letters, words, or figures, or combina- "tion of letters, words or figures.

All Marks, therefore, which it is desired to register, and which were not used prior to the passing of the Act, must consist of one or more of the above essential particulars.

2 The following devices, designs, or words will not be registered as new marks or parts of new marks:

Representations of Her Majesty the Queen, or of any member of the Royal Family, or of Foreign Sovereigns.
Royal or national arms, crests, or mottoes.
Representations of the Royal Crown or of National flags.
Arms of counties, cities, and boroughs within the United Kingdom.
Prize or exhibition medals.
The words "trade mark," "patent," "warranted," "guaranteed."
Words of advertisement, or words indicating the special quality of the goods to which the mark is applied, such as "pure," "genuine," "excellent," "unequalled, &c."

Fees.

Fees will not be received in cash. They may be paid by a Post Office Order payable to the Registrar at the General Post Office, London; or, if they exceed five pounds, may be paid by a cheque drawn to the "Registrar of Trade Marks or Bearer," and crossed "Bank of England."

Each application for the registry of a Trade Mark or Marks must be accompanied by a statement, on foolscap paper, of the following particulars:—

1. Name and address of applicant.

(Example.) *John Jones,*
Moon Street,
Birmingham;
Pharmaceutical Chemist.

2. Account of fees for trade mark or marks required (Examples.)

	£	s.	d.
One trade mark in class 4	1	0	0
or			
Two trade marks in class 20	1	10	0
or			
One trade mark in four classes	1	6	0

The Post Office Orders or crossed cheques enclosed for payment of fees should be fastened to the form of account of fees.

The Abatement of fees is only allowed when more than one Mark is applied for in pursuance of the *same* Application (*vide* Rule 4).

Applications may be made either on printed forms or altogether in writing, and must be addressed as follows:—

The Registrar,
Trade Marks Registry Office.
Quality Court,
Chancery Lane,
London, W. C.

Printed Forms are not supplied by the Registry Office, but may be obtained at law stationers.

Applications may either be delivered by hand or sent prepaid by post, but an application will not be attended to unless it is accompanied by the proper fees specified in Schedule II. of the Rules.

Advertisements in Trade Marks Journal.

1. A Wood-block or Electrotype must be furnished for each Mark in each class, even though the Mark consists only of words.

2. The wood-blocks or Electrotypes furnished must correspond exactly with the representations accompanying the application, and must afford distinct impressions of the Marks.

3. The Blocks and Electrotypes need not be larger than is required to show the mark in a distinct manner; and provided the Mark is clearly represented, it is not necessary that it should be on a Block two inches square. The largest space available for the representation of any single mark is nine inches broad by eight inches deep.

4. No block should exceed two inches in *breadth* unless a larger size is necessary in order to show the mark distinctly.

5. The Number given by the Registrar should *not* be cut on the Block or Electrotype, but should only be marked upon the side or bottom in such a manner as to secure its identification.

6. A description of the manner in which the Mark is applied should not be cut on the Block.

7. All Blocks should be sent, together with the papers marked "Form 2," to the Office of the Registrar.

8. It would greatly facilitate the compilation of the Trade Marks Journal if each applicant would affix an impression of the mark from the Block, as cut for the Journal, to the Form 2 before forwarding it to the Trade Marks Registry Office.

The Financial Statement made by the Hon'ble Sir John Strachey to the Legislative Council of the Government of India on the 15th March 1877, and the Abstracts of the Accounts and Estimates therewith presented.

RESOLUTION.—Subject to the approval of the Secretary of State in Council, the Governor General in Council has resolved to re-incorporate in the Imperial Estimates and Accounts, in the manner described in this Statement by the Hon'ble Sir John Strachey, the transactions of the Local Governments, which have, since 1871-72, been represented by a single net entry in the Imperial Estimates and Accounts under the Head *Allotments for Provincial Services.*

Additional Revenues have been already surrendered to the provincial uses of the Governments of *Bengal*, the *North-Western Provinces* and *Oudh*, and additional Services transferred to their management and responsibility: it is the intention of the Governor General in Council, after consultation with the other Local Governments, to propose similar expansions of the measure of December 1870 in respect to the Revenues and Services of the other Provinces.

I.—Without the previous sanction of the Government of India—

(1) No additional taxation may be imposed, and no change made in any existing system of Revenue management;

(2) No new general service or duty may be undertaken: whenever a Local Government proposes to undertake any such new service or duty, it must satisfy the Government of India that it can provide the funds for it, temporarily, if the service or duty is temporary, and permanently, if it is permanent;

(3) No appointment may be created with a pay of more than Rs. 250 a month; and no addition may be made to the pay and allowances of any officer if they exceed, or would, after the addition, exceed, Rs. 250 a month;

(4) No appointment of which the pay and allowances are more than Rs. 250 a month may be abolished; and the pay and allowances of no such appointment may be reduced;

(5) No class or grade of officers may be created or abolished; and the pay of no class or grade of officers may be raised or reduced;

(6) The rates of discount upon the retail of stamps and court-fee labels, and the local duty on spirit and drugs, must not be altered: the Governor General in Council reserves the right of forbidding any such alterations as are likely to injure the Revenues of neighbouring Provinces or prove otherwise inconvenient;

(7) No addition may be made to the pay or allowances of any individual officer, or class of officers, that may lead to increase in the emoluments of any public servants doing duty in the same Province, whose pay and allowances are not charged under one of the transferred Heads of Service. The Government of India reserves the right to forbid alterations in rates of pay or allowances, which, in its opinion, would produce inconvenience in other Provinces;

(8) No money may be removed from the Public Treasury for investment, or deposit elsewhere: the Government of India, which is responsible for the provision of ways and means for the public service in all Departments, must, always, retain, as at present, in its own hands, absolute and unconditional control over all money in the Public Treasury: a Local Government may not withdraw such money except for expenditure upon the public service;

(9) No alteration must be made in the form or procedure of the Public Accounts;

(10) No services previously rendered to other Departments at the charge of the Departments made over to the control of the Local Governments may be diminished, and no services previously rendered to these Departments at the charge of other Departments may be increased;

(11) No line of through communication may be abandoned, or allowed to fall out of repair.

II.—Returns are to be made quarterly, through the several Administrative Departments of the Government of India, to the Financial Department, showing every change made in the pay of any officer, every new office created, and every existing office abolished; also any unusual or extraordinary charge incurred, and any expenditure discontinued.

III.—All Standing Orders and Rules of the Supreme Government are to be observed, including, in particular, the Rules in the Codes of the Financial and Public Works Departments, Travelling Allowance Rules and the Rules and Circular Orders of the Comptroller General.

IV.—Returns, Accounts, and Estimates are to be submitted to the Supreme Government in such forms, and at such times, as may be prescribed.

V.—The Local Governments must keep the Governor General in Council, in the several Departments, fully informed of their executive and financial proceedings; the Governor General in Council will not relinquish his general powers of supervision and control in any Department: but His Excellency in Council will, as far as possible, avoid interference with the details of the administration of the transferred revenues and services, and any embarrassment of the provincial finances.

VI.—A Local Government must accept, without remonstrance, any charge which would, under the system in force before 1871-72, have been recorded, under any of the transferred Heads of Account, in the Accounts of its Presidency or Province; and must not raise objections on such grounds as that the charge has originated outside the Presidency or Province, or that the Presidency or Province is not interested in it, or the like: if any doubt arises at any time, whether any charge should or should not be entered under any particular Head in the Accounts of any Presidency or Province, such doubt must be solved by one test only, *viz.*: "How would it have been entered if it had occurred before 1871-72, when the powers and responsibilities of Local Governments were first enlarged?" Thus, for example, the pay or leave allowances of an officer belonging to another Administration on duty or on leave in the North-Western Provinces, and drawn there, must be charged in the Accounts of the North-Western Provinces: the Governor General in Council did not intend by the measure of 1870, and does not, now, intend, to introduce, or authorise, any change of practice in such matters, or any inter-provincial, inter-presidential or inter-departmental adjustments, not theretofore allowed: in regard to all such transactions, the arrangements made with the Local Governments were calculated upon the basis of the system which existed before the year 1871-72.

VII.—The grant made to a Local Government for all the services entrusted to its administration is a consolidated grant: no claim will lie against the Imperial Treasury on the ground that the cost of any service exceeds the amount at which it was estimated in the calculation of the consolidated grant.

VIII.—In the management of its finances, a Local Government must never absolutely exhaust its Balance in the Imperial Treasury: the Government of India will not accept any estimates, or allow any transactions, by a Local Government, which involve the expenditure of more money than is at its credit in the Imperial Treasury: it is the duty of every Accountant General to take care that this condition is never infringed, and promptly to report to the Governor General in Council any transgression of it which is not, upon his representation, immediately rectified by the Local Government addressed.

IX.—A Local Government may not lend money from the Balance at its credit in the Imperial Treasury: the Government of India will always pay every attention to any recommendation for the loan of public money in excess of the powers which are entrusted to a Local Government by law or rule; but all loans alike must be from the Imperial Balances; such operations must not be mixed up with the arrangements between the Imperial and the Local Government for the collection and appropriation of the Public Revenues or the administration of the Public Services.

X.—It is a general condition precedent to the delegation of all authority to disburse public money that it shall be *bonâ fide* for a public object; nothing must be carried out by means of the public funds for the advantage of any individual or body of private persons, unless, in accordance with some declared or established rule or principle, recognised by the Government of India: it is the duty of every Audit Officer, at all times, to challenge any infringement of this principle; and every Local Government must submit, for the orders of the Government of India, any representation made to it by any Audit Officer in accordance with this Rule which it does not promptly accept.

XI.—On or before the 31st January of each year, each Local Government must forward to the Government of India in the Financial and Public Works Departments and publish in the Local Government Gazette, in detail of Major Heads, with such explanations as may be necessary for the due understanding of its financial administration—

(1) An Account showing—
  (*a*) The balance of the Local Government in the Imperial Treasury at the beginning of the last complete financial year;
  (*b*) The revenues appropriated during that year to provincial uses, and the supplementary assignment from the Imperial Treasury;
  (*c*) The expenditure under provincial responsibility during that year;
  (*d*) The balance of the Local Government in the Imperial Treasury at the end of that year;
(2) Revised Estimates in the same detail for the current financial year;
(3) Estimates in the same detail for the coming financial year.

XII.—The Governor General in Council reserves power to modify, add to, or repeal these Rules and Conditions at any time.

Resolution No. 1709, dated 22nd March 1877, defining the rules and conditions under which Local Governments are henceforth to administer the Revenues and Services surrendered to their particular use and management.

OBSERVATIONS.—In letter No. 852, dated 10th February 1877, the Governor General in Council proposed, upon certain conditions, to make over certain Revenues and Services to the particular management of the Government of the North-Western Provinces. The Government of the North-Western Provinces has now cordially accepted these proposals. With the anticipated concurrence of the Chief Commissioner of Oudh, certain Revenues and Services have also, by letter No. 1445, dated 8th instant, been made over to his use and management for the year 1877-78.

2. It has been since ascertained that the expenditure for stationery in the North-Western Provinces and Oudh has, including the Accountant General's Office, been as follows :—

	STATIONERY.			STAMPS.			GRAND TOTAL.
	N.-W. Provinces.	Oudh.	Total.	N.-W. Provinces.	Oudh.	Total.	
1871-72 ...	49,967	17,016	66,983	Earlier figures include bi-color stamps for Court-fees.

Average ...	59,265	16,739	76,004	26,915	5,067	31,982	1,07,986

3. The Governor General in Council will, therefore, make over to the Local Governments the duty of providing stationery and stamps for the public service in the North-Western Provinces and Oudh, with grants for these Services of Rs. 86,000 for the North-Western Provinces and Rs. 22,000 for Oudh.

RESOLUTION.—Subject to the conditions stated in Resolution No. 1709, dated 22nd March 1877, the following Revenues will for the year 1877-78 belong to the Governments of the North-Western Provinces and of Oudh :—

Under I—*Land Revenue* :—Collections from the Terai and Bhabar Estates* and the Dudhi Estate* in Mirzapore and from Stone Quarries.

* Whenever hereafter the special management of these estates may cease, the arrangement now made about them will be reconsidered.

The whole of the following heads :—

IV.—Excise.

IX.—Stamps.

XIII.—Law and Justice.

XIV.—Police.

XVI.—Education.

XX.—Miscellaneous, excepting "Gain by Exchange," "Premium on Bills," "Unclaimed Bills," and any item exceeding Rs. 10,000 which cannot be classed under one of the sub-divisions of this head now existing in the public accounts of the North-Western Provinces and Oudh.

Public Works Receipts appertaining to the Public Works charges for which the Government of the North-Western Provinces and Oudh are responsible as detailed below.

2. The Governments of the North-Western Provinces and of Oudh will be responsible during 1877-78 for all charges recorded in the public accounts under the following heads :—

3.—Refunds of all the assigned revenues.

4.—Land Revenue, excepting Settlements, allowances to district and village officers, and special temporary compensation to Covenanted Civil Servants in the North-Western Provinces.

6.—Excise.

10.—Stamps.

14.—Administration (excepting Account and Currency Offices).

16.—Law and Justice, excepting special temporary compensation to Covenanted Civil Servants in the North-Western Provinces.

17.—Police.

19.—Education.

21.—Medical (excepting the pay of Medical Officers in charge of civil stations).

22.—Stationery and Printing.

28.—Miscellaneous, excepting Remittance of Treasure and any item exceeding Rs. 10,000 which cannot be classified under any sub-division of this head now existing in the public accounts of the North-Western Provinces and Oudh.

Under *Public Works Ordinary ;—Roads and Miscellaneous Public Improvements, Civil Buildings* (except Opium and Post Office and Telegraph Buildings) and *Tools and Plant ;*—also the whole Public Works Establishment of the Public Works Department excepting that in the Military Works and Irrigation Branches ;—the Imperial Government paying towards their cost 20 per cent. on the outlay from imperial funds on works and repairs executed by the establishment.

3. The Governments of the North-Western Provinces and Oudh must surrender to the Imperial Treasury half of any sum by which the net revenue from *Excise, Stamps*, and *Law and Justice* (omitting *Jails* and *Registration*), deducting *Refunds* under these heads, and Charges under 6—*Excise*, and 10—*Stamps*, exceeds Rs. 83,75,000 ; and the Government of India will, on its part, bear half of any deficiency in the revenue below that sum. Half of any such excess will accordingly be deducted from, and half of any such deficiency will be added to, the balances of the Governments of the North-Western Provinces and Oudh in the Imperial Treasury.

4. If the expenditure in the North-Western Provinces and Oudh upon the Services thus enumerated exceeds the enumerated revenues plus any provincial contributions in support of the enumerated Services which the Government of the North-Western Provinces or Oudh may direct by less than Rs. 83,66,000,* the difference will be added to, and if such excess expenditure is more than Rs. 83,66,000 the difference will be deducted from, the balances of the Governments of the North-Western Provinces and Oudh in the Imperial Treasuries.

	Rs.
* *Oudh* ...	18,30,000
North-Western Provinces ...	65,36,000
	83,66,000

5. The net amount due from the reserved Imperial revenues will be subject to reconsideration if there should be any new legislation intended to increase or reduce any of the assigned revenues.

6. As the North-Western Provinces and Oudh are now administered by one Government, it is deemed convenient thus to combine the arrangements

respecting the two Provinces herein ordered. The separate arrangements with the North-Western Provinces described in letter No. 852, dated 10th February, will endure for the time stated in that letter. The arrangements in regard to Oudh can, as yet, be made for one year only; but, in the revision of these arrangements next year, the arrangements, in respect to the North-Western Provinces, will not be disturbed.

The 28th March 1877.

The 29th March 1877.

No. 1899.—The following letter is published for general information:—

From—The Secretary to the Government of India, Financial Department,
To—The Secretary to the Government of Bengal.

SIR,—By the Resolution of the Government of India in this Department No. 3334, dated 14th December 1870, and subsequent supplementary orders, the particular administration of certain Services was entrusted to the several Local Governments with fixed Consolidated Allotments from the Imperial Revenues for their support. The Departmental Receipts connected with these Services were also surrendered to the Local Governments, who were allowed to appropriate to provincial uses any surplus, while they were bound to make good from provincial resources any deficit, which might result from their management of the delegated Services.

2. After consideration and consultation with the Hon'ble the Lieutenant-Governor, the Governor General in Council has now resolved, upon certain conditions stated in this dispatch, to surrender and entrust the following additional Revenues and Services to the use, management and responsibility of the Government of Bengal.

3. The gross *Excise* Revenue of Bengal has been as follows:

	Rs.	
1872-73	57,19,000	
1873-74	58,08,000	
1874-75	56,34,000	(Year of Scarcity).
1875-76	60,88,000	
1876-77	63,00,000	

4. It is a reasonable expectation that, for some time to come, this revenue will, without any more particular attention than it now receives, increase by at least a lakh of rupees (net) a year: accordingly, the Governor General in Council will surrender this revenue to the Local Government on condition that an annual increment of Rs. 1,00,000 is contributed to the Imperial Treasury: thus the amount due to the Imperial Treasury from the *Excise on Spirits and Drugs* in Bengal will be as follows:

	Rs.
1877-78	64,00,000
1878-79	65,00,000
1879-80	66,00,000
1880-81	67,00,000
1881-82	68,00,000

5. The revenue from *Sea Customs*, *Imports* and *Exports* will remain Imperial: but there are certain minor items shown as "*Sea Customs Miscellaneous*," and "*Warehouse and Wharf Rents*" which have yielded revenue as follows:

	Rs.
1872-73	37,000
1873-74	34,000
1874-75	47,000
1875-76	36,000
1876-77 Regular Estimate	36,000
1877-78 First Estimate	36,000

the Governor General in Council will transfer these items of revenue for an annual payment of Rs. 36,000.

6. *Salt.*—The *Customs* and *Excise Duty* on *Salt* must continue Imperial Revenue: but the Governor General in Council will transfer the minor items "*Rents of Warehouses*," "*Fines and Forfeitures*" and "*Miscellaneous*" for a yearly payment of Rs. 2,20,000: the past yield of these items is as follows:

	Rs.
1872-73	1,56,000
1873-74	1,62,000
1874-75	1,15,000
1875-76	1,94,000
1876-77 Regular Estimate.	2,23,000
1877-78 First Estimate	2,20,000

7. *Stamps* and *Law and Justice* have produced revenue as follows:

	Rs.
1872-73	88,91,000
1873-74	91,49,000
1874-75	96,87,000
1875-76	1,00,33,000
1876-77 Regular Estimate	1,03 00,000

Clearly, 2¾ lakhs a year is a moderate estimate of the normal growth of these items of revenue: accordingly the Governor General in Council will surrender these revenues to provincial uses for the following annual payments:

	Rs.
To be paid in 1877-78	1,05,75,000
1878-79	1,08,50,000
1879-80	1,11,25,000
1880-81	1,14,00,000
1881-82	1,16,75,000

8. The revenue from *Excise*, *Stamps* and *Law and Justice* will be thus surrendered for the next five years: thereafter, the whole arrangement will be subject to revision; and the Governor General in Council must, then, probably claim for the Imperial Revenues a share of any improvement which may ensue under the management of the Local Government in excess of the stipulated annual increments belonging to the Imperial Treasury. While the Government of India is most desirous that the Local Government should benefit largely by any increase of revenue to which improved administration may lead, it is evidently reasonable and necessary that the Imperial Revenues should eventually share in such increases. But, inasmuch as a considerable burden is being now imposed upon the Province of Bengal, in order to guarantee to the Imperial Revenues the interest on the capital spent in Bengal on the construction of canals and railways, the Government of India has consented, for the present, to abstain from claiming any part of the further increase which may be expected to these revenues in consequence of the greater attention that they will now doubtless receive from the Local Government.

9. Of the *Marine* Receipts, the Governor General in Council proposes to surrender to the Local Government the following items:

Pilotage Receipts.
Registration and other Fees.
Port Receipts.
Other Miscellaneous Receipts, exclusive of any item abnormal in character and exceeding Rs. 10,000.

These Receipts have aggregated the following sums:

	Rs.
1872-73	10,84,000
1873-74	10,18,000
1874-75	10,42,000
1875-76	11,01,000
1876-77 Regular Estimate	10,91,000
1877-78 First Estimate...	10,84,000

The Governor General in Council will make them over for an annual payment of Rs. 10,84,000.

10. Of the revenue recorded under *XVIII, Miscellaneous*, the Governor General in Council desires to retain as Imperial only the items "*Premium on Bills*," "*Unclaimed Bills of Exchange*," "*Sale of Durbar Presents*," and any *item exceeding Rs. 10,000 which cannot be classified under some sub-division of this Head now existing in the Public Accounts of Bengal*. The remainder of the revenue under this Head has been as follows:—

	Rs.
1872-73	8,41,000
1873-74	10,27,000
1874-75	7,12,000
1875-76	7,73,000
1876-77 Regular Estimate	7,71,000
1877-78	7,92,000

The Governor General in Council will assess the revenue transferred under this Head at Rs. 7,92,000.

11. If there should be any new legislation intended to increase or reduce any of the Assigned Revenues, the amount due to the Imperial Revenues will be subject to reconsideration. Subject to this proviso, the following Revenues will be surrendered to the Government of Bengal, for five years, for provincial uses, on its undertaking to make good to the Imperial Revenues in—

	Rs.
1877-78	1,91,07,000
1878-79	1,94,82,000
1879-80	1,98,57,000
1880-81	2,02,32,000
1881-82	2,06,07,000

Revenues to be surrendered to the Government of Bengal for Provincial uses, 1877-78.

IV.—Excise on Spirits and Drugs.
VI.—Customs ("Sea Customs Miscellaneous," and "Warehouses and Wharf Rents").
VII.—Salt: "Rents of Warehouses," "Fines and Forfeitures," and "Miscellaneous".

XVI.—Miscellaneous (all except "Premium on Bills," "Unclaimed Bills," and any item exceeding Rs. 10,000 which cannot be classified under any subdivision of this Head now existing in the Public Accounts in Bengal).

12. As regards EXPENDITURE, the Governor General in Council will, for the future, reserve as Imperial only those Grants which, for some particular reason, it seems inconvenient to transfer to provincial management and responsibility. The following Services with the Grants as at present settled for 1877-78, are accordingly made over to the management and responsibility of the Government of Bengal.

13. *Refunds of all the Assigned Revenues.*—The actual expenditure has been as follows:

19. The Government of India will make the whole of the expenditure under *Administration* provincial, excepting the Charges for—

The repairs of the offices of the Superintendent of Stamps and Stationery, of the obelisks (navigation marks) on the bank of the River Hooghly and of the Bishop's Palace, which are now Imperial charges have cost in the last five years Rs. 35,000 in all: it is proposed that the responsibility for these buildings and obelisks should hereafter be Provincial, a sum of Rs. 7,000 being assigned for the purpose.

26. The Grants, as now settled for all the expenditure which it is thus proposed henceforth to entrust to Provincial management and responsibility, amount, as shown in the following Statement, to Rs. 2,45,29,000. It is understood, however, that the Local Government will be able and willing to undertake these Services with a Consolidated Grant of somewhat less than Rs. 2,45,29,000. The existing *Provincial Allotment* is Rs. 1,10,59,000: the provision made for the further Services to be now transferred is, thus, Rs. 1,34,70,000, of which Rs. 4,91,000 is for *Refunds.* Five per cent. upon the remainder is Rs. 6,48,950, the Governor General in Council proposes to deduct the sum of Rs. 5,90,000 from the Consolidated Assignment now offered, as follows:

27. A further sum will be added for *Stores bought in England*, as soon as the past expenditure for these items on behalf of Bengal can be ascertained, and eventually, the responsibility for Furlough Allowances and Pensions will, if possible, also be placed upon the Government of Bengal. Meanwhile, the Government of Bengal will be entitled to appropriate to provincial uses any surplus, and will be bound to make good from provincial sources any deficit, which may accrue upon all the Revenues and Services which will be henceforth under its particular management. The Revenues

made over being in 1877-78 Rs. 1,91,07,000, and the Net Consolidated Allotment Rs. 2,39,39,000, the net expenditure from the reserved Imperial Revenues will be Rs. 48,32,000. NOTICE TO MARINERS.

HINDOSTAN, WEST COAST, GOA.

Dangers at the Entrance to Marmagao River.

The Sunchi West Shoal which lies S. S. W. ½ W., nearly 1½ miles from Cabo Monastery, has a dangerous pyramidal rock with only 2 feet on it, at low water, on which the sea does not always break.

Amee or Mundahsu Shoal is a rocky patch with 3 fathoms at low water, and situated S. ½ E., 2 miles from Cabo Monastery.

Neither danger is marked on the Admiralty Charts.

Camberi or Buffalo rock, off Marmagao peninsula, in line with the eastern extreme of St. Georges islands, will lead a vessel well clear to seaward of these dangers.

Many other rocks are said to exist in this locality; great caution, therefore, is necessary in navigating this part of the coast.

FINANCIAL DEPARTMENT.

NOTIFICATIONS—ACCOUNTS.

From the Secy. to the Govt. of India, Financial Dept., to the Secy. to the Govt. of the North-Western Provinces,—No. 43, dated Simla, the 17th April 1877.

The Financial Statement made by the Hon'ble Sir John Strachey on the 15th ultimo, and previous communications, have placed the Government of the North-Western Provinces in complete possession of the views of the Government of India in regard to the measures by which it is proposed to transfer to the Local Government the responsibility for meeting the charges incurred for Extraordinary Public Works of local and provincial utility. I am now directed to describe in detail the obligations which it is proposed to place on the Government of the North-Western Provinces, and the conditions by which the new measures will be accompanied.

2. Appended to this despatch is an Abstract Statement of the Financial Results of the Extraordinary Expenditure on Canals in the North-Western Provinces since 1871-72, with Estimates for 1876-77 and 1877-78. It appears from this Statement, that it is estimated—

that the capital expended upon Extraordinary Works in the North-Western Provinces will amount, at the end of 1876-77, to Rs. 5,29,07,000, and, at the end of 1877-78, to Rs. 5,55,96,000;

that simple interest at 4½ per cent. on this capital, from the outset, will amount, at the end of 1876-77, to Rs. 3,25,16,000;

that if only water-rates and other direct returns are set against this charge, the aggregate deficit is Rs. 1,57,31,000; but that, if account be taken of the land-revenue due to or dependent on the works, the deficit is reduced to Rs. 88,82,000.

3. The revenue of the works from water-rates and other direct returns, in 1877-78, is estimated at Rs. 31,01,000, and the indirect revenue, which consists of land-revenue due to or dependent on the works at Rs. 9,23,000, so that the estimated gross revenue of the works in 1877-78 is Rs. 40,24,000. The working expenses are estimated at Rs. 14,61,000. Thus, the net revenue from the works in 1877-78 is estimated at Rs. 25,63,000, or Rs. 16,40,000, according as the indirect revenue is or is not taken into account. One year's simple interest, at 4½ per cent., on the capital thus far expended, is estimated to be Rs. 24,40,000. According to these calculations, therefore, the works will in 1877-78 yield (after providing for interest on the capital) a surplus profit of Rs. 1,23,000, or a deficit of Rs. 8,00,000, according as account is taken or not taken of the indirect revenue.

4. These calculations cannot be accepted as exhibiting any close approximation to a real Profit and Loss Account of these Works. On the one hand, the amounts shown as "Capital Expenditure" include no interest during construction, and neither these amounts nor the working expenses include any provision for the absentee allowances and pensions of the establishments, and for the incidental charges, such as stationery, printing, medical attendance, imperial supervising offices, &c., which are not recorded, in the Public Accounts, as expenditure on Public Works, but under other Heads. On the other hand, the amount shown as "Capital Expenditure" includes a large outlay on works not yet in operation, and therefore not contributing revenue. The following is a Statement of the portion of the Estimated Capital Expenditure on the works completed

to the end of 1876-77, with which it may be proper to compare the net revenue derived from the works in 1877-78:—

Canals.	Capital expended.	Gross estimated Earnings, 1877-78.	Working Expenses.	Net Revenue.
	Rs.	Rs.	Rs.	Rs.
Ganges	2,80,00,000	22,16,000(a)	9,71,000	12,45,000
Eastern Jumna ...	24,24,000	6,34,000	2,17,000	4,17,000
Dhoon	6,14,000	51,000	32,000	19,000
Rohilkhand and others ...	14,62,000	83,000	68,000	15,000
TOTAL ...	3,25,00,000	29,84,000	12,88,000	16,96,000*

(a) Including Rs. 43,000 from Owners' Rate.

5. It appears from this Statement that of the total capital expended (Rs. 5,29,07,000) to the end of 1876-77, as given in the appended Abstract Statement, no less than Rs. 2,04,07,000 has been spent upon works still in course of construction, or which are not yet producing net revenue; and that the interest on the capital yielding revenue, *viz.*, Rs. 3,25,00,000, according to the Abstract, is at 4½ per cent., only Rs. 14,62,500. Thus these completed works are estimated to yield, in 1877-78, a net profit, over and above the interest on their capital cost, of Rs. 11,56,500† or Rs. 2,33,500†, according as account is, or is not, taken of the indirect revenue. Making all allowances for the items of capital expenditure and working expenses omitted from the calculations which result in the figures entered in the appended Abstract Statement, this result is satisfactory.

6. The Governor General in Council is not, however, now engaged in a review of the real financial results of these works, but is only stating certain facts and considerations upon the basis of which I am to make the following proposals for the transfer of the management of these works to the Government of the North-Western Provinces, together with the financial responsibility for their maintenance and completion. Accepting for this purpose, the figures in the appended Abstract Statement, notwithstanding the deficiencies already indicated, His Excellency in Council observes that the capital already reproductive is estimated to yield to the Imperial Treasury, in 1877-78, a revenue of Rs. 11,56,500 in excess of interest charges, and that this net excess revenue has a manifest tendency to grow.

7. Just as, in making over the revenue from *Excise*, *Stamps* and *Law and Justice* for provincial uses, the Government of India was obliged to make certain reservations, so, now, the exigencies of the Imperial Treasury will not admit the surrender of any part of the net revenue which it now receives from these works. Accordingly, the Government of India must reserve at least Rs. 11,56,500, the sum representing its existing net revenue from already reproductive capital investments.

8. The most convenient way of adjusting this claim of the Government of India will be, in the first instance, to reserve to the Imperial Treasury

* This differs from the net revenue from direct returns as shown in the Abstract Statement, because it is expected that there will be a loss of Rs. 56,000 in working the Agra Canal in 1877-78.

	Including Land-revenue.	From direct returns only.
	Rs.	Rs.
† Net revenues shown in the Abstract	25,63,000	16,40,000
Add for loss on Agra Canal	56,000	56,000
	26,19,000	16,96,000
Deduct interest at 4½ per cent. on 3½ crores of rupees	14,62,500	14,62,500
Net Profit ...	11,56,500	2,33,500

all the indirect returns from the canals which are at present credited as land-revenue. The amount of these receipts is shown in the Abstract Statement to be Rs. 9,23,000. This leaves a further sum of Rs. 2,33,500, due from the Local Government. But as some of the items of the calculation are uncertain, and round figures are more convenient, the Government of India will be satisfied with a fixed cash contribution of Rs. 2,00,000, in addition to that portion of the canal returns, excepting the Owners' Rate, which under the existing rules is credited to land-revenue. It must be understood that any future additional receipts which according to those rules would fall under the Head of land-revenue (not Owners' Rate) will also belong to the Government of India. In the present condition of the settlements of land-revenue in the North-Western Provinces, the total amount of such future receipts during the next five years cannot be considerable, and the objects of the present proposal will not be fulfilled if room is left for conflicting claims hereafter. It must be remembered that the Imperial Treasury, in claiming the entire profits on all capital hitherto expended, is only demanding what it receives already, and that it foregoes, at the same time, all claims for returns on the large indirect expenditure referred to in paragraph 4.

9. The "*Owners' Rate*," though recorded in the Public Accounts under *Land Revenue*, is placed in a separate sub-division of that Head; and no controversy need be expected as to this item, such as might occur in respect to land-revenue due to or dependent on the works. At the same time, it is likely that, in the future, some revenue now shown as *Land Revenue proper* may be shown as *Owners' Rate*. The *Owners' Rate* is, in the Abstract Statement, included in the direct returns from the works, and the Governor General in Council is especially anxious to give to the Local Government a predominant interest in its development, so far as this can be done without unduly sacrificing Imperial Revenue. His Excellency in Council is willing, for this reason, to forego all claims upon the *Owners' Rate* for three years, unless the Local Government can, meanwhile, distinctly specify any portion of these rates as having been, hereafter, substituted for land-revenue: any revenue so transferred from *Land Revenue* to *Owners' Rate* must continue to belong to the Imperial Treasury. It is understood that, during the next few years, the amount of such transfers is not likely to be large. At the end of three years, the claims of the Imperial Treasury upon the *Owners' Rate* must be reconsidered.

10. If the settlement thus described is accepted by the Local Government, the contribution due from it in each year to the Imperial Treasury will be as follows:—

(1).—Interest upon the entire capital expended to the end of the previous year.

(2).—Half a year's interest on the capital expended in the year itself.

(3).—The sum of Rs. 2,00,000, as settled in para. 8.

To meet these charges, the Local Government will receive the whole of the net revenue from the works, excepting only, as before explained, that portion of it which, besides the Owners' Rate, is credited to land-revenue. The rate of interest is fixed, for the present, at 4½ per cent.; though it may, possibly, become necessary hereafter to alter this rate in respect to new capital. Thus, the amount due from the Local Government to the Imperial Government in 1877-78 may be estimated at Rs. 10,00,000, as follows:—

	Rs.
Interest for the whole year at 4½ per cent. on Rs. 5,29,07,000 spent to the end of 1876-77	23,80,000
Do. for half a year on Rs. 26,89,000 to be spent in 1877-78	60,000
To make up the estimated existing net profits of the Imperial Government from capital already reproductive (para. 8) ...	2,00,000
Total ...	26,40,000
Deduct net direct revenue including Owners' Rate ...	16,40,000
Remains	10,00,000

11. The component items will all continue to be recorded, as at present, in the Imperial Estimates and Accounts; the settlement with the Local Government being made without any change in these Accounts. The Local Government may, of course, keep any separate accounts that it may think necessary in order to ascertain its own financial position.

12. If, therefore, the Local Government is prepared to pay to the Imperial Treasury in 1877-78 the sum which is found due upon an Account prepared as stated in para. 10, which sum is there estimated at Rs. 10,00,000, plus any additional sum that may become due under the provisions of para. 16, the Government of India will surrender to provincial management the whole of these works, and to provincial uses, subject to the foregoing conditions, the whole revenue derived from them.

13. For the next three years, the Account between the two Governments may be similarly settled, the Supreme Government advancing from the Public Treasury any funds that are required for the existing and proposed canals, and for the construction of railways needed for local purposes.

14. It must rest with the Supreme Government to determine how much money it can place at the disposal of the Government of the North-Western Provinces, each year, for the construction of these works. The Governor General in Council will endeavour in this matter, as far as possible, to meet the wishes of the Local Government, and to supply the necessary funds at a rate which shall enable the Local Government to complete the works without avoidable delay. The amount, however, that it is expedient to borrow for the whole of India, in each year, must be determined upon general considerations; and the Government of India alone can decide how the available funds can be most profitably distributed among the several Local Governments. The demands upon the Public Treasury, ordinary and extraordinary, are too uncertain for it to be possible for the Imperial Government to promise absolutely to supply a fixed sum to any Local Government for a succession of years.

15. It is understood that the capital cost of the canals and local railways now in existence, under construction, or contemplated in the North-Western Provinces, is estimated at about 8½ crores of rupees, so that, to complete the whole, there will still be 3 crores of rupees to spend after the year 1877-78. Assuming it to be possible to provide Rs. 40,00,000 annually for this expenditure during the next five years, the liabilities of the Local Government for interest and Imperial profits would increase from their present amount of Rs. 26,40,000 to Rs. 34,50,000 at the end of the fifth year; on the other hand, it is anticipated that the receipts will increase during the same period at an average rate of Rs. 2,00,000 a year, or from the present amount of Rs. 16,40,000 to about Rs. 26,40,000. On this assumption the amount to be contributed from other sources, which is now Rs. 10,00,000, would have fallen to a little over Rs. 8,00,000, at the close of the five years. The prospective burden undertaken by the Local Government is therefore never likely to become formidable. It is no doubt possible that the estimate of three crores of rupees for future expenditure may be increased; but this will not materially affect the calculation, since, in that case, it may be assumed that the term for spending the money would be extended also.

16. As the burden imposed upon the Local Government becomes reduced by the growth of the net direct revenue, it will be necessary for the Local Government to contribute to the Imperial Treasury a share of the advantage. It would be premature now to define what may ultimately be an equitable settlement between the Imperial and Local Government. But as a temporary arrangement which will be open to revision at the end of three years, the Local Government must surrender to the Imperial Treasury one-half of any reduction

that it may be able to effect in the charge of Rs. 10,00,000 which it now undertakes. For instance, supposing that the interest plus the profits of the Imperial Treasury payable by the Local Government should increase to Rs. 30,00,000, and the net revenue received by the Local Government should increase to Rs. 22,00,000, the sum to be provided from other sources would fall from 10 to 8 lakhs; and, if no further condition were imposed, the Local Government would be in a better position by the difference, *viz.*, Rs. 2,00,000. The Government of India will concede to the Local Government one-half of this future advantage, reserving to itself the other half only, instead of the entire profits which it would keep for the Imperial Treasury if it were to apply to the profits of the future the same rule which has been applied to the profits which accrued prior to the transfer now proposed. It is the expectation of the Governor General in Council that this arrangement will be profitable to both Governments, because it is hoped that the change of system will lead to better administration and to increased advantages from the works.

17. It is to be understood that the measure discussed in this despatch refers only to works constructed primarily for the benefit of districts or places within the North-Western Provinces. While the Governor General in Council does not renounce the right to initiate proposals for such works, the initiation will usually rest with the Local Government, and His Excellency in Council will not, except under very special circumstances, insist upon the construction of works involving possible burdens upon the Provincial Finances without the consent of the Local Government.

18. In anticipation of the official assent of the Local Government to these proposals, they have been incorporated in the financial arrangements of the year 1877-78, and the sum of Rs. 10,00,000 has been estimated as a contribution to the Imperial Treasury from the Provincial Funds of the North-Western Provinces.

19. This despatch treats only of the financial side of the questions involved. The administrative measures necessary for carrying out the new system remain to be considered in the Public Works Department, and His Honor the Lieutenant-Governor should submit to that department any proposals which he desires to make on the subject. The Governor General in Council does not, in this letter, enter into the question of the means by which the Local Government can most conveniently obtain the additional resources necessary to enable it to fulfil its engagements, this being a subject which has been under separate consideration.

20. In conclusion, I am again to acknowledge cordially the assistance received from the Hon'ble the Lieutenant-Governor in the negotiations which have preceded this despatch, and the liberality with which His Honor has conducted these negotiations.

ORDERED, that copy of this letter and of the Abstract Statement be published in the *Gazette of India*, and forwarded to the Public Works Department for information and for the issue of further orders.

Ordered also, that copy of the letter and of the Statement be forwarded to the Comptroller General, and the Accountant General, North-Western Provinces, for information and guidance.

MINT AND CURRENCY.

The 20th April 1877.

No. 38.—Privilege leave for two months and twenty-nine days is granted to Surgeon-Major H. E. Busteed, M.D. (Madras Establishment), Assay Master of Her Majesty's Mint at Calcutta.

PAY AND ALLOWANCES.

The 20th April 1877.

No. 75.—It has been brought to the notice of the Governor General in Council that great diversity exists in the rules regarding the travelling allowance of Civil Surgeons. In some cases these officers receive mileage only, in others they draw mileage for journeys and a daily allowance for halts, and, under a third system, they are permitted to receive, in addition to mileage, a daily allowance for the whole period of absence from head-quarters, including the period for which mileage is drawn. It is sufficiently obvious that the travelling allowances of officers employed in similar capacities should be regulated, as far as local circumstances admit, on a uniform principle. His Excellency in Council is accordingly pleased to lay down the following rules for general adoption:—

I.—The rates of travelling allowance for Civil Surgeons are 8 annas a mile, subject to reduction under general rules for journeys by railway, and Rs. 5 a day, except in the Berars, for which a rate of Rs. 6-4-0 a day has been experimentally sanctioned for the current year.

II.—Subject to such restrictions as the Local Government or Administration may see fit to impose as to the duration and frequency of his journeys, a Civil Surgeon is entitled either to the daily allowance or to the mileage for the whole of each period of his absence from his head-quarters on duty, unless the duty is one for which he receives no extra remuneration, in which case he is entitled to the daily allowance for halts and either to that allowance or to the mileage for journeys, provided that both allowances are not drawn for the same day, and that the allowance for journeys shall be payable only when the Civil Surgeon has the sanction of the district officer to his marching instead of going by dâk or railway.

ARMY CIRCULARS.

No. 354.—In continuation of G. G. O. No. 374 of 3rd April 1876, the following Clause 3 of Army Circulars, dated the 1st January 1877, is declared applicable to India, and published for general information:—

Gratuities to Soldiers on discharge.

Clause 3.—1. The General Fund, which has been formed from the Fines inflicted upon soldiers for the crime of drunkenness, is appropriated to the purpose of granting Gratuities to well-conducted Non-commissioned Officers and Men on discharge from the Army.

2. The Scale of Gratuities will be regulated annually according to the state of the General Fund, and will be notified to the Army from time to time.

3. From the 1st January 1877, the issue of the Gratuities will be regulated by the following rules, except that, in Colonial Corps, the rates of Gratuity will be only half those fixed for the Army generally.

4. Every soldier, who shall be discharged otherwise than for misconduct, will be paid, at the time of his discharge, a Gratuity calculated at the rate of ten shillings for each Good-Conduct Badge then in his possession; provided that the total sum of 1*l.* 10*s.* shall not be exceeded, except in the case of a soldier who may not, for the 10 years previous to his discharge, have been recorded as guilty of drunkenness. In such case the limit will be extended to 2*l.* if the soldier shall be in possession of four Good-Conduct Badges, and to 2*l.* 10*s.* if he shall be in possession of five Good-Conduct Badges.

5. In the case of a Serjeant, which term includes Serjeants-Major, and all other grades of Serjeants, the amount issuable will be calculated on the number of Badges to which his services and conduct would have entitled him, had he been a private soldier at the time of his discharge, subject to the above limits. The charge will be vouched by a certified record of service.

6. Men transferred from the Line to the 1st Class Army Reserve, to complete their term of service, will receive, at the time of such transfer, such Gratuities from the fund as they would have received had they been discharged in lieu of being transferred.

7. Such men, if allowed to rejoin the colours, will not be required to refund any portion of the amount so received. They will be paid on final discharge from the Army a Gratuity, at the rates specified above, for any Badge or Badges they may have become possessed of over and above those they had when transferred to the Army Reserve.

8. Non-commissioned Officers detached from Regiments of the Line or other Corps of the Army, for service with the Auxiliary Forces, will not be entitled to receive these gratuities until they are finally discharged from the Army.

9. The Gratuities issued in accordance with these Regulations will be charged in the accounts of the Accountant from whom the soldier may be drawing his pay at the time of discharge. The soldier will sign a receipt for the Gratuity; and in each case in which the sum of 2*l.* or 2*l.* 10*s.* is awarded, the charge will be further vouched by a certificate of the Officer Commanding that the soldier has not been recorded as guilty of drunkenness during the 10 years immediately preceding his discharge. In the case of a Non-commissioned Officer referred to in paragraph 8, the certificate for the period during which he has been detached to the Auxiliary Forces will be signed by the Adjutant and countersigned by the Commanding Officer of the Regiment or Corps with which he has been serving.

Cl. 114, A. C., 1874.

10. In the case of a soldier dying in the Service, his estate will receive credit for such amount of Gratuity as he would have been entitled to had he been discharged from the Army on the day previous to the date of his death. These Gratuities will be charged in the Regimental Pay List on the same Form or Voucher as those issued to men on discharge, vouched by a reference to the Non-effective Account in which the credit is given.

11. Clause 12, Army Circulars, 1874; Clause 114, Army Circulars, 1874, so far as it relates to the Gratuities from the General Fund formed from the fines for drunkenness; Clause 3, Army Circulars, 1875, and Clause 17, Army Circulars, 1876, are hereby cancelled.

II. In paragraph 9 of the abovementioned Circular, the words "Account" and "Accountant" will be understood to be synonymous with "Pay List" and "Paymaster" respectively.

III. This order does not affect the arrangement regarding the monthly remittance of the recoveries for drunkenness, as notified in paragraph 2 of G. G. O. No. 129 of 1872, nor the provisions contained in G. G. O. No. 648 of 24th June 1874, and in paragraph 2 of G. G. O. No. 778 of 4th August 1874.

FINANCIAL DEPARTMENT.

NOTIFICATIONS.—ACCOUNTS AND FINANCE.

Simla, the 27th April 1877.

No. 195.

From the Secretary to the Government of India, Financial Department, to the Secretary to the Government of Bengal,—No. 1801, dated Fort William, the 26th March 1877.

IN the Financial Statement made before the Legislative Council of the Governor General, the Hon'ble Sir John Strachey announced the resolution of the Government of India to enforce provincial responsibility for the financial results of works constructed at the public expense for local and provincial purposes: the reasons for this resolution have been fully explained by Sir John Strachey, and the policy itself, and its consequences to the Lower Provinces of Bengal, have been discussed with His Honor the Lieutenant-Governor.

2. It now only remains for me to forward to you, for submission to His Honor the Lieutenant-Governor, the accompanying Abstract Statement showing the financial results of Irrigation Works and State Railways in Bengal from 1871-72 to 1875-76, with Estimates for 1876-77 and 1877-78.

3. This Statement is prepared upon the principle of charging to the works half-a-year's interest on the capital expended during the year, in addition to a year's interest on the capital expended to the beginning of the year. It will be observed that it is estimated that, to defray the working expenses of the Canals in Bengal in 1877-78 and make good the interest upon their capital cost, a sum of Rs. 22,19,000 must be provided from separate provincial resources. The interest due upon the capital expended upon State Railways in Bengal is estimated at Rs. 8,21,000, of which it is estimated that the net traffic earnings will supply Rs. 2,36,000, and the net sum of Rs. 5,28,000 is required to hold the Imperial Treasury harmless as regards State Railways.

4. Thus the sum due in 1877-78 to the Government of India from the Province of Bengal, in accordance with the resolution announced in the Financial Statement, is estimated to be—

	Rs.
For Canals	22,19,000
For Railways	5,28,000
TOTAL ...	27,47,000

and, as announced by Sir John Strachey, the Government of India has taken credit for this sum in the Estimates of the year 1877-78.

5. The calculations from which this demand is deduced do not include the capital expended on the Calcutta and South-Eastern Railway; but it is proposed to entrust the working of that Railway to the Government of Bengal, and any profits that can be obtained from it may be appropriated to provincial uses.

6. The Governor General in Council will, accordingly, make over to the use and responsibility of the Government of Bengal all the State Canals and Railways in Bengal, on condition that the Government of Bengal guarantee to the Government of India a net income calculated in the way in which the sum of Rs. 27,47,000 is calculated in the annexed Statement.

7. If the Canals and Railways together yield less than the sum thus calculated, the Government of Bengal must supply the deficiency from separate provincial resources; if, hereafter, they should yield more, the surplus will be added to the balance of the Local Government in the Imperial Treasury.

8. The transactions of the Canals and Railways will continue to be recorded, as at present, in the General Accounts and Estimates of India: the obligation now imposed upon the Government of Bengal will not interfere with the existing practice in this respect; but the Local Government must include these transactions in the Accounts and Estimates which it is required to publish yearly under the Rules for the administration of Revenues and Services entrusted to Local Governments.

9. The present orders deal only with the financial part of the question. Other questions connected with the future management of the works will have to be considered in the Public Works Department.

ORDERED, that this letter and the Abstract Statement be published in the *Gazette of India*.

Ordered, also, that the letter and Abstract Statement be communicated to the Public Works Department for information and further orders, and to the Comptroller General and the Accountant General, Bengal, for information and guidance.

General Abstract Statement shewing the Financial Results of Irrigation Works and State Railways in Bengal from 1871-72 *to* 1875-76, *also Regular Estimates of the same for* 1876-77, *and Estimates for* 1877-78.

NOTIFICATION.

AGRICULTURE AND HORTICULTURE—FAMINE.

Simla, the 30th April 1877.

THE Hon'ble Sir Richard Temple, Bart., K.C.S.I., being about to assume the office of Governor of Bombay, to which he has been appointed by Her Majesty, and being in consequence under the necessity of closing the special mission on which he has been employed since the beginning of January in the Presidencies of Madras and Bombay, and in the territories of His Highness the Maharaja of Mysore, His Excellency the Viceroy and Governor General in Council desires to give public expression to the high sense which the Government of India entertain of Sir Richard Temple's services on this occasion.

When in January last it was deemed expedient that a high officer fully acquainted with the views of the Government of India should visit the Presidencies of Madras and Bombay for the purpose of inspecting the districts afflicted with scarcity, and communicating personally with the two Governments regarding the measures which were being carried out for the relief of distress, the choice of the Government of India at once fell upon Sir Richard Temple as the officer whose experience, ability, and energy pointed him out to be specially qualified for the duty. At a considerable sacrifice of personal comfort and convenience, Sir Richard Temple promptly responded to the call made upon him, and has conducted his arduous and delicate mission with signal ability and success.

The energy and devotion which have enabled him to undergo an amount of physical exertion which few could have accomplished are not more remarkable than the thoroughness of his enquiries and the judgment and tact which have characterized his communications with the Local Governments and their officers. To the Government of India Sir Richard Temple has rendered invaluable assistance at this trying juncture, in enabling it by his clear and lucid reports to appreciate the actual facts of the situation; and His Excellency in Council is persuaded that the Government to which he was accredited must recognize the advantage of his practical suggestions for the relief of distress and for promoting a judicious economy in the heavy expenditure which is being necessarily incurred.

The Governor General in Council has no doubt that if life and health be spared to him in the high office which he is about to assume, Sir Richard Temple will add fresh and important services to those which he has already rendered to the State during his long and distinguished career. In entering upon his new duties he carries with him the best wishes of the Government of India.

Simla, the 30th April 1877.

The Hon'ble Sir Richard Temple, Bart., K.C.S.I., being about to assume the office of Governor of Bombay, to which he has been appointed by Her Majesty, and being in consequence under the necessity of closing the special mission on which he has been employed since the beginning of January in the Presidencies of Madras and Bombay, and in the territories of His Highness the Maharaja of Mysore, His Excellency the Viceroy and Governor General in Council desires to give public expression to the high sense which the Government of India entertain of Sir Richard Temple's services on this occasion.

When in January last it was deemed expedient that a high officer fully acquainted with the views of the Government of India should visit the Presidencies of Madras and Bombay for the purpose of inspecting the districts afflicted with scarcity, and communicating personally with the two Governments regarding the measures which were being carried out for the relief of distress, the choice of the Government of India at once fell upon Sir Richard Temple as the officer whose experience, ability, and energy pointed him out to be specially qualified for the duty. At a considerable sacrifice of personal comfort and convenience, Sir Richard Temple promptly responded to the call made upon him, and has conducted his arduous and delicate mission with signal ability and success.

The energy and devotion which have enabled him to undergo an amount of physical exertion which few could have accomplished are not more remarkable than the thoroughness of his enquiries and the judgment and tact which have characterized his communications with the Local Governments and their officers. To the Government of India Sir Richard Temple has rendered invaluable assistance at this trying juncture, in enabling it by his clear and lucid reports to appreciate the actual facts of the situation; and His Excellency in Council is persuaded that the Government to which he was accredited must recognize the advantage of his practical suggestions for the relief of distress and for promoting a judicious economy in the heavy expenditure which is being necessarily incurred.

The Governor General in Council has no doubt that if life and health be spared to him in the high office which he is about to assume, Sir Richard Temple will add fresh and important services to those which he has already rendered to the State during his long and distinguished career. In entering upon his new duties he carries with him the best wishes of the Government of India.

COLONIE DE LA MARTINIQUE.

AVIS AU COMMERCE.

D'après une délibération du conseil général de la Martinique, sanctionnée par décret due 1er février 1867, la colonie était autorisée à percevoir pendant dix ans, sur les navires français étrangers armés au long cours et au grand cabotage entrant dans le port de Fort-de-France, un droit de tonnage réglé ainsi qu'il suit :

Cette taxe, qui était destinée à récupérer le trésor d'une partie des dépenses résultant de la construction du bassin de radoub et des autres travaux d'amélioration du port de Fort-de-France, a cessé d'être exigible à partir du 1er janvier 1877.

NOTICE TO COMMERCE.

According to a deliberation of the general Council of La Martinique, ratified by a decree of the 1st February 1867, the colony was authorized to receive, during ten years, on French and Foreign ships, fitted out for long voyage or great coasting trade, coming into the port of Fort-de-France, a duty on the burden, fixed as follows :—

1 fr. per ton on ships coming in ballast ;

1 fr. 50 c. per ton on ships loaded up to two-thirds with rice, timber or salt fish ;

2 fr. 50 c. per ton for other ships.

This duty, which was destined to recoup to the treasury a part of the expenses caused by the construction of the dry dock and other works for the improvement of the port of Fort-de-France, has ceased to be demandable since the 1st January 1877.

No. 6 of 1877.—The following Notice to Mariners is published for general information:—

NOTICE TO MARINERS.

INDIAN OCEAN, SEYCHELLES, MAHÉ ISLAND.

Exhibition of fixed red lights at Port Victoria.

Information has been received from Her Britannic Majesty's Chief Commissioner of the Seychelle Islands that, on the 1st March 1877, a *fixed red* light was exhibited from a lighthouse recently constructed on the north-west edge of the Southern reef at the entrance to Port Victoria.

The light is exhibited at an elevation of 37 feet above the level of high water, visible through an arc of 142°; or, from S. 1° E. through south and west, to N. 39° W., except where obscured by the outlying islands, and in clear weather should be seen from a distance of 9 miles.

The illuminating apparatus is *catoptric* or by reflectors.

The building is of granite, 42 feet from base to vane, and painted white. Position as given, latitude 4° 36′ 48″ S., longitude 55° 31′ E.

The same authority has also notified that a *fixed red* light is shown towards the anchorage in the Inner harbour at Port Victoria.

Directions.—A vessel entering St. Anne's road at night when about 3 cables distant from the north-west point of St. Anne's island, should steer S. W., observing to keep the lighthouse between the bearings of S. W. by W. and S. W. by W. ½ W., until the south point of St. Anne's island bears E. S. E.; thence a S. W. ½ S. course to the anchorage, with the light bearing from W. by S. ¾ S. to W. by S. At this position, the channel into the Inner harbour will be open, but at night should never be attempted by strangers without the aid of a Pilot.

At the entrance to the Port, moorings are laid, N. 55° E. 3¾ cables from the lighthouse, for the steamers of the Messageries Maritimes, with an iron buoy, painted *red*, to support the bridles. Caution therefore is necessary in anchoring near the vicinity of this buoy, which should have a berth of half a cable to avoid fouling the moorings, the anchors of which are placed nearly East and West.

[*All Bearings are Magnetic. Variation* 4°40′ *W.*]

MINT AND CURRENCY.

The 18th May 1877.

No. 765.

READ the Report of the Head Commissioner of the Department of Issue of Paper Currency, received on the 21st April 1877.—(NOTE.—This Report will be published in Calcutta.)

OBSERVATIONS.—The average amount of notes issued by the Paper Currency Department outstanding in circulation during the year was Rs. 11,35,26,621, being more by Rs. 68,22,550 than the average of 1874-75 (Rs. 10,67,04,071), but less by Rs. 13,69,460 than the average of the five years 1871-76 (Rs. 11,48,96,081).

2. The average circulation in 1875-76 may be considered to be a fair normal amount undisturbed by any special circumstances. The total money reserves in the Government Treasuries and in the Presidency Banks during the year were moderate, and no special circumstances are known to have occurred which were calculated to inflate the circulation beyond the actual immediate requirements of the Country.

3. As remarked last year, the Paper Currency system of British India is believed to be based on sound principles, the convertibility of the notes at the places of issue being absolutely secured. Facilities are, indeed, given for the encashment of the notes elsewhere than at the place of issue, (1) by the law, which requires that every note, wherever issued, shall be payable at the Presidency town of the Presidency within the limits of which, as defined under the Paper Currency Act, it is issued; and (2) by executive orders under which (*a*) all notes, wherever issued, are received everywhere as legal tender against the Government and at all Railway stations, and (*b*) silver is given for notes at most Government Treasuries.

4. The circulation of the Paper Currency of India may, therefore, be held to be self-regulating, and its amount to depend, not upon any State interference, but solely upon the requirements of the people; in this aspect, the steadiness of the circulation during recent years is remarkable, the lowest point reached since 1870 even under the influence of the great and rapid outflow of the Government reserves in the operations against the Bengal Famine being Rs. 9,20,06,685 (March 15th, 1874). The maximum circulation during the same period was Rs. 13,66,08,720 (15th May 1872); but this was during a time of inflation, which lasted from January 1872 to January 1873, and which was due to the investment, in January 1872, of 2¾ crores of rupees of the Currency Reserves on the occasion of the discharge of the Five per cent. Loan of 1856-57.

5. The maximum circulation in 1875-76 was Rs. 12,16,12,235 (on the 22nd September 1875), the minimum Rs. 10,66,86,280 (on the 7th May 1875). The maximum in the preceding year was Rs. 11,32,76,075 (on the 7th February 1875), the minimum Rs. 9,22,14,380 (on the 7th April 1874); but the circulation was, at that time, still under the abnormal influence of the rapid depletion of the Government balances for the operations against the Bengal Famine. Comparing the calendar years 1875 and 1876, the latter year shows a slightly lower minimum, *viz.*, Rs. 10,53,22,945 against Rs. 10,66,86,280 in 1875. Both these calendar years may, however, be considered normal years, and the difference, in each, between the maximum and the minimum circulation of each year, Rs. 1,74,13,135 in 1876, and Rs. 1,49,25,955 in 1875, may be regarded as a fair measure of the ebb and flow of the metallic reserves of the Country out of and into the Treasury of the Currency Department according as coin is required for the purchase of produce in the interior, or is redeposited after fulfilling that duty.

6. Only 132 lakhs of rupees of notes were issued against silver bullion during the year, against 455 lakhs in 1874-75. The measure adopted for the relief of the Treasury in consequence of which all bullion intended for the Mint now passes through the Currency Department, was not introduced till November 1876; its effects will be reviewed next year.

7. Under the peculiar requirements of the law to which reference has been already made, Allahabad and Lahore notes were cashed in Calcutta to the amount of Rs. 2,74,58,850, being Rs. 16,17,845 more than last year. The extent to which the law thus throws upon the State the cost of remittances from Upper India to Calcutta is not fully shown by these figures, as the authorities are sometimes driven to make arrangements with remitters, the result of which does not appear in the transactions over the counters of the Currency Department. Whenever the exchange between Calcutta and Bombay makes, as it often does, the remittance of coin from Bombay to Calcutta expedient, remitters have it in their power, by presenting their coin brought from Bombay, to the Currency Department at Allahabad, to compel the State to pay the cost of its transport from Allahabad to Calcutta. And it is frequently convenient to do this at once, without insisting upon the intermediate form, and so save trouble both to the Currency Department and the remitters. It may be questioned whether the operation of this provision of the law is reasonable or convenient.

8. The transactions with the public in Home Circle notes were rather smaller in 1875-76 than in 1874-75, thus—

	1874-75.	1875-76.	Less in 1875-76.
Notes issued	68,25,78,760	62,69,70,815	5,56,07,945
Notes discharged	68,66,57,570	62,17,81,655	1,48,75,915

The decrease of issues appears to have been almost entirely in the notes for Rs. 1,000 and Rs. 10,000. All the smaller denominations except the Rs. 100 notes show increases.

9. The number of notes cancelled and not re-issued increased from 3,094,083 to 3,500,318, or from 65 per cent. to 66·48 per cent. of the whole.

The Governor General in Council hopes that the departmental authorities are careful not to cancel notes needlessly, especially in Calcutta, where more than half of the whole cancellations took place. Some explanation should be given of the rapid increase in the number of notes cancelled in Calcutta as follows: it may probably be connected with remittance transactions:—

Daily average number of notes cancelled in Calcutta.

1872-73	3,773	1874-75	6,478
1873-74	4,853	1875-76	8,303

The average daily number of notes cashed in Calcutta has increased from 8,686 in 1872-73 to 11,659 in 1875-76, or by only 34¼ per cent.; the average daily number cancelled from 3,773 to 8,303 or by 120 per cent. The Governor General in Council especially desires to know why it was necessary to cancel 913 of the 996 notes for Rs. 10,000 received in Calcutta: the wear and tear from circulation of these notes must be very slight.

10. The daily average turnover of notes continues to be much larger in Calcutta than at Bombay, or, of course, elsewhere, thus—

	Cashed.	Issued.
Calcutta, daily average ...	11,659	11,306
Bombay, ditto ...	4,107	4,136

This is understood to be due to the practice of the Bank of Bengal in Calcutta of re-issuing no notes that it receives, but paying all into the Currency Department.

11. Explanation is required of how it happened that, on the 31st March 1875, no notes for Rs. 10,000 of the Calcutta Circle were in circulation. The Statement No. II shows that these notes, which, for many purposes, must have a special convenience, are much more used in Bombay (issue 4,601 notes) than in Calcutta (issue 935 notes). The Head Commissioner should ascertain and report the cause of this.

12. It has been noticed that, under the requirements of the law, notes for Rs. 2,74,58,850 issued at Allahabad and Lahore were cashed in CALCUTTA. In the same way, notes for Rs. 62,76,540 issued at Calicut and Cocanada, were cashed at Madras, and notes for Rs. 73,91,815 issued at Nagpur, Akola and Kurrachee, were cashed at BOMBAY. Besides this, notes for Rs 1,85,36,715 were cashed at offices other than the place of issue, in excess of the requirements of the law. Thus Rs. 5,96,63,920 was remitted from one centre of issue to another through the Currency Department as compared with Rs. 6,16,82,885 last year.

13. Moreover, notes were cashed for all comers throughout the year, at 105 treasuries and usually at 47 treasuries more; at only 27 treasuries was this accommodation seldom available; notes for Rs. 4,74,74,715 were thus issued at the Government treasuries in exchange for silver, and notes for Rs. 3,52,80,715 were cashed at such treasuries. These transactions are much larger than the corresponding figures of 1874-75, in which year notes for Rs. 4,15,59,890 were issued and notes for Rs. 2,80,17,665 cashed.

14. Altogether, it is evident that the Government Currency notes, though they are not, strictly speaking, intended for the purpose, do largely fulfil the functions of an instrument of internal remittance.

15. It is interesting to observe that, though Rs. 1,11,970 were paid under bonds of indemnity, for lost notes during the year, not a single claim has yet been made good against the Department for lost notes thus paid. In his future Reports the Head Commissioner will be good enough to state the total number and amount of lost notes paid from the beginning of the system to the end of the year of report, and the total number and amount of claims preferred for the payment of notes thus discharged, as well as of such claims (if any) made good.

16. The continued absence of forgery is satisfactory.

17. Small silver to the value of Rs. 28,37,979 was supplied to the public during the year through the Currency Department, being more by Rs. 9,71,721 than the amount thus disseminated last year.

18. No additional Currency Agencies were opened during the year; the transactions at the 21 Agencies opened previously amounted to Rs. 59,52,400 against Rs. 45,05,300 in 1874-75 and Rs. 49,61,500 in 1873-74.

19. The net profits of the Department amounted to Rs. 20,32,190 as compared with Rs. 19,80,151 in 1874-75 and Rs. 19,15,608 in 1873-74.

20. Mr. E. F. Harrison directed the operations of the Department, as Head Commissioner, throughout the year, to the entire satisfaction of the Government of India, which has always reposed complete confidence in Mr. Harrison's management of the Department, and never found this confidence misplaced.

ORDERED, that these Observations be communicated to the Head Commissioner of the Department of Issue of Paper Currency, and published in the *Gazette of India*.

PAY AND ALLOWANCES.

No. 482.—His Excellency the Governor General in Council is pleased to notify, in supersession of G. G. O. No. 374 of 1st April 1873, that a British officer (including a Royal engineer officer returning to England after the expiration of his tour of service) proceeding from India to England under circumstances entitling him to a free passage, will, from the date he quits his station, if struck off pay and Indian allowances, be granted a daily personal allowance at the rate and under the conditions specified, to cover extra expenses incurred in travelling to the port of embarkation and during his necessary detention, at the port, awaiting embarkation.

2. The rates are as follow :—

	Rs.	A.	P.
For a General officer ...	10	0	0
„ Field „ ...	7	8	0
„ other officers ...	5	0	0

3. The issue of the above rates will be regulated by substantive rank in the case of a combatant officer, and by relative rank in the case of a medical officer or veterinary surgeon.

4. The foregoing rates will be issued for each day that an officer may be necessarily on the journey from his station to the port of embarkation. If necessarily detained at the port of embarkation, or at any intermediate place *en route* to the port, an officer will receive the full rate, provided the detention at any one place does not exceed seven clear days, exclusive of the days of arrival at and departure from such place.

5. When the necessary detention at any one place exceeds seven days, half rates only will be issued for the remainder of the period of detention.

6. After the receipt of the order recalling an officer from India, consequent on his promotion, transfer, or removal under any circumstances, or on the expiration of his tour of service, he should be required to proceed to England by the first available opportunity, in a troopship or other vessel according to the season of the year; and in the case of a regimental officer, or a medical officer not on the administrative staff, he should remain at his station on the pay and Indian allowances (which will include the British pay of advanced rank, if promoted) he was drawing when the order reached him, until it is necessary for him to proceed to the port of embarkation to ensure his arriving there in time. But the Indian allowances in question cannot be admitted unless the officer proceeds, as above, by the first available opportunity, nor under circumstances which involve a double payment, *viz.*, to the officer proceeding to England, and to his successor who may have already come out to relieve him: in such cases British pay only of rank will be passed.

Should an officer be absent on leave in India when the order necessitating his removal from the Indian establishment is received at his regiment or station, he will cease to draw Indian allowances from the date of the general order notifying the arrangement, but will be granted the personal allowance until his departure from the country, provided he proceeds to the port of embarkation with the least practicable delay.

The provisions of this paragraph are not applicable to a general officer, or to a surgeon-general and deputy surgeon-general, whose pay and allowances prior to embarkation, after removal from the Indian establishment, or on the expiration of tour of service, will be regulated by existing rules.

7. The journey should be so timed that no unnecessary detention shall take place at the port of embarkation.

8. As a rule, detention at ports should not exceed three clear days.

9. An officer who fails to embark in the ship appointed for his conveyance, will not be entitled to further detention allowance while awaiting another passage, unless the delay arises from causes beyond his control.

10. An officer is not entitled to any allowance for the day on which he embarks.

11. Personal allowance will not be issued for detention at any one place, for a period exceeding fifteen days, without the special sanction of the Governments of India, Madras, or Bombay, or as the case may be.

12. This order is not applicable to an officer, who, on being struck off Indian allowances, is not entitled to British pay.

FINANCIAL DEPARTMENT.

NOTIFICATIONS.—ACCOUNTS.

No. 485.

From Secretary to the Government of India, to the Chief Commissioner of the Central Provinces,—dated Simla, 31st May 1877.

In accordance with the general policy announced in Sir John Strachey's Financial Statement for 1877-78, the Governor General in Council has resolved, upon certain conditions stated in this letter, to surrender and entrust the following additional Revenues and Services to the use, management and responsibility of the Administration of the Central Provinces.

2. The *Excise* Revenue of the Central Provinces is estimated to be in 1876-77 Rs. 13,90,000; but, upon an examination of the accounts of recent years, it will be found that this Revenue is increasing steadily at the rate of about Rs. 60,000 a year. The Government of India will, therefore, surrender the Excise Revenue of the Central Provinces for provincial uses for a payment to the Imperial Treasury of the following sums—in 1877-78, Rs. 14,50,000; in 1878-79, Rs. 15,10,000; and in 1879-80, Rs. 15,70,000.

3. *Stamps* are estimated to yield, in 1876-77, Rs. 9,70,000, and the revenue from this source may be expected to grow at the rate of Rs. 5,000 a year. The revenue of the Imperial Treasury from *Stamps* in the Central Provinces has, therefore, been settled at Rs. 9,75,000 in 1877-78, Rs. 9,80,000 in 1878-79, and Rs. 9,85,000 in 1879-80.

4. The Revenue estimated under *Law and Justice* (present Imperial portion) is Rs. 1,67,000, and the revenue from this source may be expected to grow at the rate of Rs. 8,000 a year. The sum due to the Imperial Treasury under this head has, therefore, been fixed at Rs. 1,75,000 in 1877-78, Rs. 1,83,000 in 1878-79, and Rs. 1,91,000 in 1879-80.

5. The *Miscellaneous* revenue, excepting *Premium on Bills* and *Undrawn Bills of Exchange* (which must remain Imperial), is estimated at Rs. 7,000, and will be transferred for this sum. Henceforth, only *Premia on Bills*, *Undrawn Bills of Exchange*, and any item exceeding Rs. 10,000, which cannot be classified under any existing sub-division of this Head in the Public Accounts of the Central Provinces, will belong to the Imperial Treasury.

6. Thus, the additional revenue to be assigned for provincial uses in the Central Provinces is as follows:—

	Revenue due to the Imperial Treasury.		
	In 1877-78.	In 1878-79.	In 1879-80.
	Rs.	Rs.	Rs.
Excise	14,50,000	15,10,000	15,70,000
Stamps	9,75,000	9,80,000	9,85,000
Law and Justice	1,75,000	1,83,000	1,91,000
Miscellaneous (excepting *Premium on Bills*, *Undrawn Bills of Exchange*, and unenumerated Items exceeding Rs. 10,000 each)	7,000	7,000	7,000
TOTAL ...	26,07,000	26,80,000	27,53,000

7. The Imperial Government must claim half of any further increase of net revenue from *Excise*, *Stamps*, and *Law and Justice*, which may result under provincial administration. The calculation of this further increase for the year 1877-78 is to be made as follows:—

	Rs.
Revenue due to the Imperial Treasury from *Excise*, *Stamps*, and *Law and Justice* in 1877-78	26,00,000
DEDUCT—	
Refunds	41,000
Charges	66,000
	1,07,000
NET REVENUE ...	24,93,000

If the net revenue in 1877-78 thus calculated exceeds Rs. 24,93,000, half the excess must be surrendered to the Imperial Treasury; if it falls short of this amount, half the deficit will be borne by the Imperial Treasury.

8. The additional Services to be transferred to your management are as follows:—

	Grants as already settled for 1877-78.
	Rs.
Refunds of the following revenue:—*Excise, Stamps, Law and Justice*, and *Miscellaneous*	47,000
Land Revenue (excluding *Settlement charges*)	6,66,000
Excise	52,000
Stamps	14,000
Administration (excluding *Account and Currency Office*) ...	3,39,000
Minor Departments (excluding *Meteorology* and *Archæology*)...	4,000
Law and Justice	6,91,000
Stationery and Stamps	69,000*
Miscellaneous (excepting *Remittance of Treasure* and *Discount on Supply Bills*)	5,000
	18,87,000
Add existing allotment for Provincial Services ...	27,73,000
Thus the total grant for the Services to be administered by you would be	46,60,000

But, from this total sum of Rs. 46,60,000, the Government of India is obliged, in the interests of the Imperial Treasury, to retrench Rs. 90,000, being a little more than five per cent. upon Rs. 17,74,000, the additional grant now made excluding *Refunds, Excise* and *Stamps*.

9. Thus the net grant from the Reserved Imperial Revenues for the Delegated Services will be as follows, subject only to adjustment in respect to any sum by which the net revenue from *Excise, Stamps*, and *Law and Justice* may differ from the amount calculated for each year in the manner in which the sum of Rs. 24,93,000 is calculated for 1877-78:—

	In 1877-78.	In 1878-79.	In 1879-80.
	Rs.	Rs.	Rs.
Consolidated grant for Delegated Services	45,70,000	45,70,000	45,70,000

No. 948.—The following Financial despatch from Her Majesty's Secretary of State for India, to His Excellency the Hon'ble the Governor in Council, Bombay, No. 45, dated 19th April 1877, is published for general information:—

Para. 1.—"I have considered in Council para. 2 of your Marine letter dated the 10th February 1877, No. 7, inquiring, with reference to my Financial despatch to the Government of India, dated the 19th November 1874, No. 598, whether remittances made by mechanics and others in India for the benefit of their families should be payable *only* to families residing in the United Kingdom.

"2. There are not likely to be many cases in which family money will be required to be issued in a foreign country, and I see no reason why the privilege should not be allowed to persons entitled thereto when the money can be readily paid. It will be necessary, however, that I should be furnished, in all instances in which such payment is desired, with the name and full address of the person who is to receive the money, and care should be taken that timely notice is given of the date when payment is to cease.

"3. In the case of Mr. J. Balbi, First Class Engineer, Bombay Marine, arrangements have been made for paying his family money of £8 per mensem, as he requests from the 1st April 1877 (being for the month ended 31st March 1877), to his brother-in-law. Mr. Francesco Garbagui at Lugo per Fusiguano, Italy."

EQUIPMENT.

ROYAL ARTILLERY.

No. 541.—The following rules for the supply and repair of harness, saddlery, line gear, &c., for batteries of Royal horse, field, and mountain artillery, are published in revision of the rules set forth in G. G. O. No. 206 of 25th February 1875.

2. The shoeing allowance fixed of twelve annas per horse per mensem, and the allowance of rupees five per mensem for fuel, &c., for carriage work, will continue in force. These allowances will be paid, as heretofore, to the farrier sergeants of batteries.

3. The equipments of the Royal Artillery in India and materials of all kinds for keeping them in serviceable condition will be supplied at the expense of the State. Each battery will indent on the arsenal on which it is dependent for the supplies necessary to complete its authorised proportion of ordnance stores and materials for repair.

4. Indents from batteries in the Bengal Presidency to complete equipment will be prepared in the form and on the dates laid down in G. O. No. 358 of 1870, and those for materials for repair in the form and on the dates given in this order; and from batteries in the presidencies of Madras and Bombay in the forms and on the dates to be determined on by the Governments of those presidencies.

5. In the Bengal presidency all indents, other than emergent, will be forwarded for sanction to the Ordnance Office, Fort William, addressed to the Assistant to the Inspector-General of Ordnance and Magazines, whence they will be sent for compliance to the arsenal on which the battery is dependent.

6. The rules for emergent indents in Bengal are fully detailed in paragraphs 2834 to 2840, Revised Army Regulations.

7. Such stores as are authorized by this order to be obtained in the local market will be purchased by officers commanding batteries, and contingent bills for the cost incurred, countersigned by the officer commanding the station, and supported by the station price current of materials and labor, under the signature of the officer in charge of the principal Sudder Bazar, will be forwarded, monthly, to the executive commissariat officer on the spot, or at the nearest station, for payment, and subsequent audit by Examiner of Commissariat Accounts.

8. Officers commanding batteries will account in the half-yearly returns submitted to the Examiner of Ordnance Accounts, for all stores thus obtained, either by indent from ordnance stock or by local purchase, with the exception of petty articles, materials for repair, &c., which are excluded from these returns.

9. Materials for the repair of saddle-trees, and repair and preservation of harness and saddlery, will be issued in the following proportions to batteries of Royal horse and field artillery (including head-quarters of brigades), and to heavy field batteries :—

Charcoal, Indian, common	13 or 1,040 lbs.	11 or 880 lbs.	5 or 400 lbs.	To be obtained locally through Commissariat Department for three months only for use during the rains. Grates with tripods to be also obtained from the Commissariat Department. In the Bombay presidency both charcoal and grates to be obtained from the Barrack Department.

10. Materials for the repair and preservation of harness and saddlery sufficient for six months' supply are to be carried in the store wagon, except "dubbing" and "soap bar." The former, composed of equal quantities of Neats-foot oil and tallow, will be procured locally through the Commissariat Department, and thus it will suffice to carry in the store wagon a quantity equal to three months' supply only. The issue of "soap bar" will also be quarterly only.

11. In addition to the materials already detailed, the following will be kept as a reserve to be brought into use only, should a sudden emergency arise. The officer commanding the battery will be held responsible that this reserve is always maintained, and that the articles are in good and serviceable condition.

12. With this view, stores should not be allowed to remain in reserve from year to year, as they would in course of time deteriorate; but on receipt of new articles, those longest in possession should be brought into use, and the new stores transferred to the reserve.

NOTE.—Until further orders, the most suitable leather available in the Madras and Bombay Ordnance Departments for repair of harness and saddlery will be issued to batteries serving in those presidencies, respectively.

13. Indents for materials for repair of saddlery, harness and saddle-trees are to be submitted on 1st February and 1st August, in the following form, in duplicate :—

*Indent for materials for the repair of harness, saddlery and saddle-trees required by*_____

STATION & DATE_____

Description of materials, &c.	Established proportion (six months' supply).	In store last return.	Since received.	Total.	Expended.		Remaining in store, 1st.	Now indented for.
					For making new articles.	For repairs.		

I certify that the whole of the articles shown in the column as expended have been used in making repairs to harness and saddlery, the property of the public; and further, that all articles made from these materials have been duly brought on the returns of the battery.

*Commanding*_____

14. These materials are issued solely for the repair of harness and saddlery, and not for the manufacture of new component portions.

15. Components can be obtained only on indents supported by proceedings of a special committee, which should state that repairs cannot be effected, and for what reasons.

16. Should the manufacture of any components be absolutely necessary, the work may be carried out, but a return of such articles made must accompany the half-yearly demand for materials, and the necessity for their manufacture be fully explained. In such cases the damaged articles will be sold by auction, or be returned into store to the nearest arsenal, under instructions from the Ordnance Office.

17. All repairs to saddlery, harness and saddle-trees are to be carried out by the artificers attached to the battery.

18. The iron-work of condemned harness and saddlery is invariably to be returned into store for utilization, as far as possible, in future manufacture, under instructions from the Ordnance Office.

19. The following stamps will be allowed for marking harness and saddlery:—

Stamps ... iron for ... iron, $\frac{1}{8}$ inch.; wood or leather, $\frac{3}{16}$ inch.; copper inlaid $\frac{1}{2}$ inch.

20. The following are supplied of each of the above descriptions of stamp to every Royal horse and field battery :—

Royal horse artillery or Royal artillery	2
Figures 0 to 8	sets 2

21. Leather work will be marked with $\frac{3}{16}$" iron stamp, care being taken that the leather is not cut, but only bruised.

22. The iron work will be marked with $\frac{1}{8}$" iron stamps, the Portmouth bit in front of the foot, the bridoon bit on top of the mouth-piece, and the stirrup irons on the bottom.

23. The following is the list of materials for repair of carriages, wagons, carts, &c., issued with equipment, and such as are expended are to be replaced half-yearly by indent on the Ordnance Department:—

Cloth, canvas, Europe, coarse	yds.	20	30	For repair of canvas covers of ammunition boxes, &c.

24. Indents for materials for repair of carriages, wagons, carts, &c., are to be submitted half-yearly on 1st April and 1st October of each year in the usual form.

26. Plank, however, for extensive repair, such as that of ammunition boxes, framings, &c., is to be obtained when necessary by indent on the Ordnance Department, commanding officers being allowed a discretionary power to purchase material on the spot, if urgently required, and when it cannot be obtained from the public stores in sufficient time.

Décision de la Sublime Porte concernant les navires Russes qui se trouvent dans l'Empire Ottoman et le commerce des neutres.

La Russie ayant déclaré la guerre, le Gouvernement Ottoman a pris les décisions suivantes:

ART. 1er. Un délai de cinq jours francs à dater de la notification sur les lieux de la présente décision est accordé aux navires Russes qui se trouvaient dans les ports de l'Empire le $\frac{12}{24}$ Avril, 1877, pour quitter les eaux Ottomanes. A cet effet il leur sera delivré sur leur demande, par les autorités douanières un sauf-conduit pour se rendre dans le port Russe ou neutre le plus rapproché sans pouvoir toutefois traverser les détroits pour passer de la Méditerranée dans la Mer Noire et réciproquement.

ART. 2. Le Gouvernement Ottoman déclare son intention d'observer les règles de droit maritime formulées dans la déclaration signée à Paris le 16 Avril, 1856, et d'après laquelle:

1° La course est et demeure abolie;

2° Le pavillon neutre couvre la marchandise ennemie à l'exception de la contrebande de guerre;

3° La marchandise neutre, à l'exception de la contrebande de guerre, n'est pas saisissable sous pavillon ennemi;

4° Les blocus, pour être obligatoires, doivent être effectifs, c'est-à-dire maintenus par une force suffisante pour interdire réellement l'accès du littoral à l'ennemi.

ART. 3. Afin d'empêcher la contrebande de guerre, le Gouvernement Ottoman usera du droit de visite tant en haute mer que dans les eaux Ottomanes, et lors du passage par les détroits des navires neutres en destination d'un port Russe ou d'un point de la côte occupé par l'ennemi, ou même, en cas de suspicion, en destination d'un port Ottoman ou neutre.

ART. 4. Les dispositions de la présente décision entreront immédiatement en vigueur. Elle sera portée à la connaissance de tous les intéressés par une communication officielle adressée aux représentants étrangers résidant à Constantinople, par la publication dans le journal officiel de l'Empire et par télégramme transmis aux chefs-lieux des vilayets.

Sublime Porte, le $\frac{19 \text{ Avril,}}{1\text{er Mai,}}$ 1877.

Decision of the Sublime Porte respecting Russian ships in the Ottoman Empire and the commerce of Neutrals.

Russia having declared war, the Ottoman Government has come to the following decisions:—

ART. 1. A period of five clear days, to date from the notification, on the spot, of the present decision, is accorded to the Russian ships which happened to be in the ports of the Empire on the $\frac{12}{24}$ April 1877, in order to leave the Ottoman waters. With this view a safe conduct shall be given to them, on application, by the Customs authorities to enable them to proceed to the nearest Russian or neutral port, without however authorizing them to pass through the straits from the Mediterranean into the Black Sea, or *vice versâ*.

ART. 2. The Ottoman Government declares its intention of observing the rules of maritime law laid down in the Declaration signed in Paris on the 16th of April 1856, and according to which—

1. Privateering is and remains abolished.
2. The neutral flag covers enemy's goods, with the exception of contraband of war.
3. Neutral goods, with the exception of contraband of war, are not liable to capture under enemy's flag.
4. Blockades in order to be binding must be effective, that is to say, maintained by a force sufficient really to prevent access to the coast of the enemy.

ART. 3. In order to stop contraband of war the Ottoman Government will exercise the right of visit on the high seas as well as in Ottoman waters, and during the passage through the straits of neutral ships bound for a Russian port or for a part of the coast occupied by the enemy, or even, in case of suspicion, for an Ottoman or neutral port.

ART. 4. The measures consequent on this decision shall immediately come into effect. It shall be notified to all persons interested by an official communication, addressed to the foreign representatives resident at Constantinople, by publication in the official journal of the Empire, and by telegram sent to the capitals of the vilayets.

Sublime Porte, $\frac{\text{April 19,}}{\text{May 1,}}$ 1877.

Sublime Porte.

Instructions données à S. E. Le Serdar Ekrem.

Le $\frac{17}{29}$ Avril, 1877.

Le Danube étant considéré comme ligne de défense, les règles concernant le commerce des neutres en mer ne peuvent y recevoir leur application. En conséquence, le commandant des forces est libre de prendre telles mesures qu'il croira convenables pour les opérations militaires. Il a notamment le droit d'interdire la navigation, de retenir et de réquisitionner les navires sauf indemnité, de les obliger à quitter les ports, de leur assigner des ports de refuge et cela sous les peines les plus graves, telles que confiscation du navire et de la cargaison, et, au besoin, en leur appliquant les règles relatives à l'espionnage. Il est, en somme, autorisé à faire à ce sujet telles proclamations qu'il croit nécessaires, pourvu que les mesures qu'il prendra soient réellement dictées par des nécessités de guerre, et aussi pourvu que, dans le cas de confiscation, il renvoie l'affaire devant un conseil spécial qu'il aura soin de désigner d'avance et que sera chargé de rendre une sentence autant qui possible en règle.

Pour les navires qui auront été retenus avant la proclamation régulière de ces mesures et qui par conséquent, ne peuvent être censés avoir contrevenu aux ordres du commandant Ottoman, leurs cargaisons ne peuvent être confisquées, car si elles appartiennent à des sujets Ottomans ou neutres, ceux-ci n'ont encouru aucune peine. Si elles appartiennent à des sujets Russes le gouvernement n'ayant pas admis l'embargo ni la confiscation des biens des sujets Russes en général, on ne saurait appliquer cette mesure exceptionnellement à ceux qui se trouvent sur le Danube.

Le Gouvernement n'est responsable en aucun cas, des pertes que peuvent éprouver les chargeurs, propriétaires des cargaisons ou autres ayants-droit du fait que le navire a été empêché de poursuivre le cours de son voyage, l'empêchement résultant d'une nécessité de guerre et des dangers auxquels le navire et l'équipage seraient exposés en y contrevenant.

En tous cas la contrebande de guerre est saisissable et entraine la confiscation du navire et de toute la cargaison. Le Tribunal chargé de statuer appréciera s'il y a ou non contrebande de guerre.

Les recours contre les jugements du tribunal en question ne seront pas suspensifs; ils seront portés directement et en dernier ressort devant la Cour de Cassation de Constantinople.

Le commandant aura soin de faire connaître les mesures qu'il aura prises à cet effet aux Consulats étrangers, de les publier et les notifier sur place et de les télégraphier immédiatement à Constantinople.

Sublime Porte.

Instructions given to His Excellency the Serdar Ekrem.

$\frac{17}{29}$ April, 1877.

The Danube being considered a line of defence, the rules relating to the commerce of neutrals at sea cannot be applied to it. Consequently, the commander of the forces is at liberty to take such measures as he may think expedient for military operations. He has especially the right of stopping navigation, of detaining and requisitioning ships, subject to an indemnity, of obliging them to leave the ports, of assigning to them ports of refuge, all under the severest penalties, such as the confiscation of the ship and cargo, and if necessary by the application to them of the regulations relating to spies. He is, in short, authorized to issue on this point such proclamations as he may deem necessary, provided that the measures which he may take are really dictated by the necessities of war, and also provided that, in case of confiscation, he shall refer the matter to a special Council, which shall be appointed beforehand, and whose duty it will be to give sentence as far as possible in due form.

As regards ships which shall have been detained before the formal proclamation of these measures, and which consequently cannot be considered to have infringed the orders of the Ottoman commander, their cargoes cannot be confiscated, for if they belong to Ottoman or neutral subjects they have incurred no penalty. If they belong to Russian subjects, since the Government has not admitted the right of embargo or the confiscation of the goods of Russian subjects in general, this measure should not be exceptionally applied to those which happen to be on the Danube.

The Government is under no circumstances responsible for the losses which the shippers, the proprietors of cargoes or other interested parties may incur, from the fact that the ship has been prevented from continuing its voyage, this being the result of the necessities of war, and of the dangers to which the ship and crew would be exposed by an infringement of these rules.

In every case contraband of war is liable to seizure, and involves the confiscation of the ship and all the cargo.

The Tribunal charged to pronounce judgment will decide whether or not there is contraband of war.

Appeals against the judgments of the Tribunal in question will not have the effect of suspending proceedings; they should be brought immediately, and in the last resort, before the Court of Cassation at Constantinople.

The Commandant will be careful to inform the Foreign Consulates of the measures which he has taken with the above view, to publish them and notify them on the spot, and to telegraph them immediately to Constantinople.

ART. 1. The Ottoman Government declares the whole of the Russian Coast of the Black Sea comprised between Tchuruk Sou on the Asiatic Coast and the Kilia mouth of the Danube, in Turkey in Europe, to be in a state of blockade.

The following translation of a notification issued on the 24th of April by the Governor of Odessa has been received from Her Majesty's Consul-General at Odessa :—

NOTICE.

In consequence of the laying of mines from noon on the $\frac{12}{24}$th April, the entering and the leaving the port of Odessa will only be allowed on the following conditions :

1. A ship arriving must stop opposite Middle Fountain, where she will be met by Russian officers with crews, who will take command of the ship, having previously ascertained that the ship's papers are in order.

2. The master gives an undertaking for himself personally, and likewise for the crew and passengers, stating that until they enter the port none of them will be on deck, nor follow the course of the ship through the ports or port-holes.

3. A similar undertaking will be taken from the masters of vessels leaving the port.

4. In case of men-of-war cruisers appearing in points of the Bay of Odessa whence they could observe the piloting out of ships, the Russian authorities will require them to withdraw for a certain time to a sufficient distance, in order that the vessels may be piloted out; and until they fulfil this request, unforeseen by international marine law, but indispensably called for by the newest conditions of war with mines, no foreign ship will be allowed to leave the port.

The following telegram has been received from Her Majesty's Ambassador at Constantinople, dated April 28, 1877 :—

I have just received following notice from the Porte :—

First. The Dardanelles and Bosphorus are closed both for entrance and exit to all steamers and sailing ships without exception during the night, that is, from sunset to sunrise.

PENSIONS, GRATUITIES, &c.

The 29th June 1877.

No. 1609.—The Governor General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department:—

CIVIL PENSION CODE.

SUPPLEMENT C.

SECTION 8, RULE 3 (PAGE 106).

Add the following:—

"A Chaplain of the Church of Scotland serving in the Bengal Presidency, who wishes to obtain pension from the authorities in India, must submit his application to the Government of India in the Home Department, if he is not Senior Chaplain, through the Senior Chaplain of the Church of Scotland. A Chaplain of the Church of Scotland serving in Madras or Bombay must submit his application to the Government of Madras or Bombay, as the case may be, if he is not Senior Chaplain, through the Senior Chaplain of his Presidency."

RULE 7 (PAGE 55).

Substitute the following for this Rule:—

7. Except as provided in Rules 1, 2 and 3, an officer who, having been discharged with a pension or gratuity, is subsequently re-employed, may not count his new service for a separate pension or gratuity. Pension or gratuity is in any case admissible only for the new service combined with the old, the whole being counted as one service. Provided, however, that if a gratuity received for the earlier service has not been refunded, gratuity or pension (as the case may be) may be allowed for the subsequent service on condition that the amount of such gratuity, or the present value of such pension calculated according to Table A in Appendix E, plus the amount of the previous gratuity, shall not exceed the amount of gratuity, or the present value of the pension calculated according to Table A in Appendix E, that would have been admissible had the gratuity received for the earlier service been refunded. If the amount of such gratuity, or the present value of such pension, plus the amount of the previous gratuity, exceeds the amount of gratuity, or the present value of the pension that would have been admissible if the gratuity receive for the earlier service had been refunded, the excess must be disallowed.

Examples to the Proviso:—

1. A. B., after a service of 8 years, received a gratuity of Rs. 4,800. A. B. was re-employed but did not refund the gratuity. After serving for 5 years, A. B. becomes eligible for an invalid gratuity of Rs. 3,000. If A. B. had refunded the gratuity for the earlier service, he would have been entitled to a gratuity of Rs. 7,200. As the gratuity admissible for the new service, plus the gratuity received for the earlier service, exceeds the gratuity which would have been admissible to A. B. if the gratuity for the earlier service had been refunded, A. B. is entitled to receive a gratuity of Rs. 3,000 minus Rs. 600 which is the excess.
2. C. D. obtained a gratuity of Rs. 4,000 after a service of 8 years. C. D. was re-employed but did not refund the gratuity. After serving for 16 years, C. D. at the age of 48 years becomes eligible for an invalid pension of Rs. 150 a month. If C. D. had refunded the gratuity for the earlier service he would have been entitled to a pension of Rs. 150 a month. The present value of the pension of Rs. 150 (Rs. 18,971-14-0) plus the gratuity received for the earlier service is equal to Rs. 22,971-14-0, and as this is in excess of the present value of the pension by Rs. 4,000, the excess should be disallowed. C. D. will therefore be entitled to a pension of which the present value is Rs. 14,971-14-0, or a pension of Rs. 118-5-11 a month.
3. E. F. is removed after a service of 10 years with a gratuity of Rs. 3,000. E. F. was re-employed but did not refund the gratuity. After serving for 20 years, E. F. at the age of 56 years becomes eligible for a superannuation pension of Rs. 150 a month. If E. F. had refunded the gratuity for the earlier service he would have been entitled to a superannuation pension of Rs. 225 a month. The present values of the pension of Rs. 150 and Rs. 225 are respectively Rs. 16,092-3-0 and Rs. 24,138-4-6. The present value of the pension of Rs. 150, plus the amount of the gratuity received for the earlier service, does not exceed the present value of the pension that would have been admissible if the gratuity for the earlier service had been refunded. E. F. is therefore entitled to the pension of Rs. 150 a month.

CIVIL LEAVE CODE.

SECTION 4 (PAGE 118).

Insert the following as case (k) :—

(*k*). When the leave allowances of an officer are said to be chargeable to several accounts according to the "rule of proportions," the meaning is that the charge should be debited to such several accounts in the proportions in which the aggregate salary drawn by the officer in the course of the three years immediately preceding the beginning of his leave, was charged to such several accounts.

SECTION 36 A.

Substitute the following for this Section :—

Section 36 A. The leave allowances of an officer, who in the course of the three years immediately preceding the beginning of his leave has served in any appointment, the pay or salary of which has been derived either wholly or in part otherwise than from Indian Revenues, shall be charged according to the "rule of proportions." This rule does not however apply to an officer who has made a contribution under Section 38 of the Civil Pension Code for the cost of his leave, or who is specially exempted from the operation of that section. Nor does this rule apply to a Military officer who vacates his appointment in the Civil Department when going on leave and reverts to the Military Department : in this case the leave allowance is charged to the Military Department.

ACTING ALLOWANCE CODE.

CHAPTER IX (PAGE 236).

Add the following Section to this Chapter :—

Section 28A. Section 28 does not apply to the case of an officer the pay of whose appointment is changed during his tenure of office. In such case if the new pay is progressive, the officer is not entitled to the first increment on his old pay till a year after the date of the order sanctioning the increase.

Examples.—(1). The pay of A. B.'s appointment is Rs. 300: on the 1st July 1876 it is changed to Rs. 250 rising by five annual increments of Rs. 20 a month to Rs. 350. A. B is entitled to Rs. 320 from the 1st July 1877.

(2). The pay of C. D.'s appointment is Rs. 200 rising by five equal annual instalments to Rs. 300. C. D.'s pay has been Rs. 300 for five years. The pay of the appointment is changed by an order dated 1st July 1876 to Rs. 250 rising by five equal annual instalments to Rs. 350. C. D. is entitled to Rs. 320 from the 1st July 1877.

A. M. MONTEATH,
Director Genl. of the Post Office of India.

The 12th March 1877.

Some difficulty has been experienced in making known to the public in Great Britain the conditions under which overland parcels can be sent out to India, and it is thought that the following notice respecting the conditions may be useful to persons in India who may have occasion to order parcels to be sent to them from Great Britain.

2. Particular attention is drawn to the *N. B.* at the foot of the Notice, which contains the first notice of an important reduction in the rate of charge for parcels containing books.

PARCEL POST FROM GREAT BRITAIN TO INDIA.

1. Persons wishing to send parcels to any part of British India, can do so through the *Indian Parcel Post Agency*—established under authority of the Director General of the Post Office of India—at 122, Leadenhall Street, E. C., and (Branch Office) at 25, Cockspur Street, S. W.

2. *The charge for parcels* is *1s.* per lb. or fraction of a lb. *(prepayment optional)*, covering transit from London to destination in India. Insurance may be effected, if desired, at the rate (to be prepaid) of *1s.* up to *3l.* value, *2s. 6d.* up to *10l.* value, and *5s.* up to *20l.* value. Indian Customs duty (if chargeable) will be realized from the addressee.

3. *The maximum weight, size, and value* of a parcel are—weight *50* lbs., size *2* feet long by *1* foot broad and *1* foot deep, value *20l.*

4. The following are *forbidden contents*:—Jewellery, watches, precious stones, liquids, or articles of a dangerous or damaging nature.

5. *Mode of packing and address*:—Parcels must be entirely closed and securely packed and fastened; a covering of cloth or water-proof sewn at the edges being recommended. The Indian address should be legibly written, with the superscription, "By Indian Parcel Post."

6. *A letter of advice*, stating name and address on parcel, contents and value for Custom House clearance, with legible signature and address of sender, should be sent to the Office (see clause 1), with each parcel, *accompanied by payment*, if it be desired to prepay or insure the parcel.

7. *A receipt* will be given (by the Company) for each parcel received from the country, and for other parcels, if required.

8. *Parcels from the country* (including all those not booked by the sender or their messengers or agents in person at the London Offices) may be forwarded to the Office in London (see address below) by railway, or any other means available; but the parcel with the Indian address, as in clause 5, should in such case be enclosed in an *outer covering*, bearing the address, "Indian Parcel Post Agency, 122, Leadenhall Street, London, E. C." The charges for carriage to the above address are additional to charges for transit or insurance under clause 2, and may be prepaid to the local carrying agent, or left to be paid on delivery in London, and subsequently collected from the addressee. The letter of advice (see clause 6), with any payment desired for transit or insurance (payment by post should be by cheque or money order, payable to A. M. Bethune), should be sent to the same address by letter post, and the *receipt* will in such case be forwarded by post.

N.B.—(With effect from 1st May 1877) Parcels containing books (or articles treated as books under the British Inland Book Post rules) will be charged at half the rates *viz.*, 6*d.* per pound.

E. R. DOUGLAS,

BOMBAY,—Paper Currency Dept.; *The 22nd May 1877.*

W. WELLS
Assistant Commissioner.

POST OFFICE.

NOTIFICATIONS.

Simla, the 15th May 1877.

RULES FOR THE CUSTODY, DISTRIBUTION AND SALE OF POSTAGE STAMP LABELS.

Approved by the Government of India in Financial Department letter No. 715, dated 9th February 1877.

(N. B.—These Rules apply both to Service Stamps and to Ordinary Stamps, with the exceptions noted in Rules V and VIII.)

Supplies from Central Depôts.

I.—Supplies of postage stamps for the Madras Presidency, including Mysore and the local depôts subordinate to Madras, shall be supplied by the Superintendent of Stamps at Madras on the indent of officers in charge of local depôts.

II.—Supplies of postage stamps for the Presidency of Bombay, including Sind, Berar, the Central Provinces, and local depôts subordinate to Bombay, shall be supplied by the Superintendent of Stamps at Bombay on the indent of officers in charge of local depôts.

III.—Stamps for the Bengal Presidency, including the North-Western Provinces, Oudh, the Punjab, Central India, Rajpootana, Assam, and British Burmah, and local depôts subordinate to Calcutta, shall be supplied by the Superintendent of Stamps at Calcutta on the indent of officers in charge of local depôts.

IV.—The above-mentioned supplies from central to local depôts shall be issued on credit.

Local Depôts.

V.—Every Treasury throughout India, including those attached to political, customs and salt agencies, shall be a local depôt for the sale of postage stamps, provided that the value of the stamps sold at one time to any purchaser shall not be less than Rs. 5, and shall not include any fraction of a rupee. At any station at which there is a collector of land revenue, neither a salt agent nor collector of customs shall be entrusted with the custody and sale of postage stamps. All sales under this rule will be for cash on delivery; and when the purchaser is one of those who are required to retail stamps under Rule VIII (not being a person employed in a Government Treasury), or is one specially authorized under Rule IX, a discount of one-half anna per rupee will be allowed. But to purchasers other than the above, no discount will be allowed; and officers in charge of local depôts must see that discount is not allowed except to the privileged officers above referred to. The sale of embossed envelopes shall be subject to the same conditions, except that they shall be sold in packets containing sixteen envelopes each, portions of a packet not being saleable. The price of each packet shall be the value of the stamps borne by the envelopes contained in it, the discount (if any) being calculated on that value.

The above rule is only partially applicable to "Service Stamps," which may be sold *only to Government officials without restriction as to a minimum amount on a written application, accompanied by payment of the value in cash*, and on which *no discount is allowed*. A receipt containing in detail the gross value of each description of Service Postage Stamps sold will be granted by the treasury officer for the amount paid to him.

VI.—A supply equal to the probable consumption for five months of the district attached to each local depôt shall be kept in each, and as soon as the number in store has fallen below the number expended during the preceding six months, the collector, or other officer in charge of the depôt, shall indent* on the central depôt of his Presidency for a number equal to the consumption of the last three months for which accounts have been rendered to the central depôt of the Presidency. If by any accident the stock of stamps of any value should run short before the receipt of a fresh supply from the central depôt, the officer in charge of the treasury will indent on neighbouring districts for a quantity sufficient to meet the demand, which may be supplied or not, according to the discretion, and on the responsibility of the officer indented on, with reference to the wants of his own district. It will be the duty of the Superintendent of Stamps of the Presidency to report to the Director General of the Post Office, for the orders of

* Form 1.

Government, every occasion on which it may appear, from the monthly statement or otherwise, that the store of stamps of any particular value in any district has fallen below the authorized amount.

Branch Depôts.

VII.—Every branch treasury and every tehsil treasury shall be a branch depôt for the sale of postage stamps under the conditions described in Rule V. It will receive its stamps from the local depôt to which it is subordinate, keeping always in store a supply sufficient to meet the probable demands of one month, estimated according to the average of former sales. It will keep an account of sales in the same form (3) hereafter prescribed for the treasurer's account, and will indent for supplies in the same form (4) as hereafter prescribed for the treasurer's indent. It will render an account monthly to the local depôt in Form 6A immediately on the expiration of the month.

Retail sale of Stamps.

VIII.—A supply of stamps *for sale by retail* shall be kept available at every post office, receiving house, tehsildaree, thana and every police station at which letters are received for despatch, and with every licensed stamp-vendor; and it shall be the duty of the officer to whom the person in charge of any of the above-named places is subordinate, to take steps to ensure that the supply kept on hand is at all times equal to at least one week's demand. Persons in charge of the above-mentioned places will receive discount on purchases under Rule V.

This rule does not apply to "Service Stamps."

By the term "licensed vendor," as used above, is meant a stamp-vendor licensed under rules framed by the local Government in accordance with Section 48 of the General Stamp Act (XVIII of 1869).

Authorization of certain retail vendors other than the above.

IX.—A district officer may authorize the grant of discount at half-anna per rupee on purchases under Rule V to any person who is a *bonâ fide* retail vendor of postage stamps, although he may not be one of those required to retail them under the above rule. Such authority shall be given in writing, and must be produced by the person authorized when claiming discount on purchases: the authority will hold good for only 12 months from the date on which it is given, and may be revoked at any time at the discretion of the district officer. No such authority may be given to any person employed in a Government Treasury. The authority so given may at the discretion of the district officer be made subject to conditions to be expressed in the writing of authority in any or all of the following respects, *viz*:—the maintenance of a sufficient supply of all or any specified denominations of postage stamps for retail: a particular shop, place or locality, or particular shops, places or localities, in which postage stamps are to be exposed for sale: the days and hours during which they are to be so exposed: and any restriction upon the sale in shops, places or localities other than those specified. A register showing the name, residence, and occupation of every person so authorized, and the date of the authority, shall be kept by the district officer.

Custody of Stamps in Local Depôts.

X.—The bulk of postage stamps in store at any local depôt shall be kept in parcels, containing a known number of sheets, in the treasury or other secure place, in one or more strong chests or presses, under double locks,—the key of one lock of each chest or press always remaining in the hands of the collector or other officer in charge of the stamps, and the key of the other in the hands of the treasurer.

XI.—The remainder of the stamps in store shall be in the hands of the treasurer, and shall not exceed the probable demand of fourteen days, estimated according to the average of former sales.

XII.—The treasurer shall keep a daily account of receipts and sales* in the vernacular of the district, in which the transactions of each succeeding day shall be entered consecutively, a balance being struck at the close of each day, and attested by the initials of the officer in charge of the treasury.

* Form 3.

XIII.—On the first open day of each month, and on every Monday during the month, the treasurer shall prepare in the vernacular, and submit to the officer in charge of the postage stamps, an indent† for a supply of postage stamps for the following week. The

† Form 4.

indent, after being approved or altered by the officer in charge of the postage stamps, shall be signed by him, and complied with as directed in the following rule. The indent thus signed shall be the warrant for the issue of the stamps.

XIV.—The officer in charge of the postage stamps shall cause the store under double locks to be opened, and the required number to be counted and delivered to the treasurer in his presence. A store-book‡ shall be kept in English, in which the number and value of the stamps delivered to the treasurer shall be entered, and a balance struck at the time of delivery. This balance will be attested by the initials of the officer in charge and of the treasurer, both of whom shall invariably be present during the whole time that the store under double locks, or any part of it, remains open. The deliveries shown in the store-book will agree with the indent as approved.

‡ Form 5.

XV.—If the treasurer require stamps at any intermediate time, the same process will be observed as is prescribed in the two preceding rules.

XVI.—Stamps will be supplied from the store under double locks only to the treasurer and to branch depôts, and on indent from them respectively. Sales should be made not out of store, but from the supply in the hands of the treasurer or the supply in branch depôts.

XVII.—As soon as possible after the arrival of a despatch of postage stamps from a central depôt, or from any other local depôt, the packets or boxes are to be opened, one at a time, in the presence of the officer in charge of stamps. The stamps contained in each box or packet are then to be immediately counted and compared with the invoice,§ which, after being receipted, will be returned by the first post to the depôt whence they were despatched. Unless the officer in charge of the stamps can certify that the stamps contained in any given packet or box were immediately counted by himself personally, or in his presence, he will be held responsible for the value of any that may be found deficient. The stamps are then to be placed in the store under double locks and entered in the store-books, and no stamps are to be delivered to the treasurer or sold to any party without being first brought into store.

§ Form 2.

XVIII.—Officers in charge of stamps will have the stamps in store, both those under double locks and those in the hands of the treasurer, counted in their presence on the last open day of September and March in each official year, and will certify having done so in the following terms at the foot of the monthly accounts of sales and stock* for those months furnished to the Superintendent of Stamps:—

* Form 6.

"*I do hereby certify that I have personally counted the postage stamps in store on 18 , the actual value of which is Rupees* (here enter the amount in words and figures); *and that the rules prescribed by the order of the Government of India, dated 9th February 1877 are duly observed.*"

XIX.—On occasions of transfer of charge, postage stamps will be made over in the same manner and under the same precautions as the cash balance in the treasury.

XX.—The officer in charge of each local depôt will submit, within the first week of each month, an account† to the Superintendent of Stamps of his Presidency, showing the balance in hand at the sudder and branch treasuries at the close of the preceding month, and the sales effected during that month.

† Form 6.

Returns to be made by Central Depôt.

XXI.—The Superintendent of Stamps of each Presidency will, on the 15th of each month, in addition to any account required by the Accountant General, furnish the Director General of the Post Office with a memorandum‡ showing the number of stamps distributed by him during the preceding month; and at the close of each month he will also furnish another memorandum§ showing the number and value of stamps in hand, and the total amount of the actual sales of each local depôt and of all the local depôts supplied by him.
