## NOTICE.

The following extracts of the report by the Committee appointed to adjudicate the prize of £100 offered by the Government of India for the best "Manual of Hygiene," for the use of the British soldier in India, are published for the information of the competitors:—

"1. We have examined the 37 manuals submitted for competition, and are agreed that no one of them is in all respects suitable for the purposes for which a manual is required, as prescribed in the Notification offering the prize.

"2. They all, more or less, contain theories regarding the causation of disease which are doubtful, and some of which are directly at variance with Indian experience. Their general tendency moreover is to exaggerate the dangers to health from local and climatic causes, and so to instil an unreasonable dread of Indian service."

It is therefore hereby notified that the prize of £100 has not been awarded. Competitors desiring the return of their manuscripts are requested to apply to the Secretary to the Government of India in the Military Department.

## NOTICE.

The following extracts of the report by the Committee appointed to adjudicate the prize of £100 offered by the Government of India for the best "Manual of Hygiene," for the use of the British soldier in India, are published for the information of the competitors :—

"1. We have examined the 37 manuals submitted for competition, and are agreed that no one of them is in all respects suitable for the purposes for which a manual is required, as prescribed in the Notification offering the prize.

"2. They all, more or less, contain theories regarding the causation of disease which are doubtful, and some of which are directly at variance with Indian experience. Their general tendency moreover is to exaggerate the dangers to health from local and climatic causes, and so to instil an unreasonable dread of Indian service."

It is therefore hereby notified that the prize of £100 has not been awarded. Competitors desiring the return of their manuscripts are requested to apply to the Secretary to the Government of India in the Military Department.

## NOTICE.

The following extracts of the report by the Committee appointed to adjudicate the prize of £100 offered by the Government of India for the best "Manual of Hygiene," for the use of the British soldier in India, are published for the information of the competitors :—

"1. We have examined the 37 manuals submitted for competition, and are agreed that no one of them is in all respects suitable for the purposes for which a manual is required, as prescribed in the Notification offering the prize.

"2. They all, more or less, contain theories regarding the causation of disease which are doubtful, and some of which are directly at variance with Indian experience. Their general tendency moreover is to exaggerate the dangers to health from local and climatic causes, and so to instil an unreasonable dread of Indian service."

It is therefore hereby notified that the prize of £100 has not been awarded. Competitors desiring the return of their manuscripts are requested to apply to the Secretary to the Government of India in the Military Department.

The following revised rules and regulations for the issue and receipt of instruments from the Calcutta Mathematical Instrument Department are published for the information and guidance of public officers.

By Order,

J. O. N. JAMES,

*Assistant Surveyor General,*
*in charge of Surveyor General's Office.*

### RULES AND REGULATIONS.

The Calcutta Government Mathematical Instrument Department supplies new and serviceable instruments, &c., and repairs, examines and adjusts, &c., old ones, on book debit, on the public service. As a general rule new instruments are not supplied, if serviceable instruments of the class required are available for issue.

2. All applications for instruments on the public service must be submitted in following indent form. The specification of instruments and particular purposes for which required being made as full as possible:—

Recommended.

*Countersignature of approving authority.* *Signature of Indenting Officer, with designation of appointment in full.*

3. All indents must be duly approved and countersigned by the heads of departments, or of the Government under which indenting officers may be serving, before they can be supplied, *viz.*:—

|---|---|---|
| Trigonometrical and Topgl. Surveys, | by | Surveyor General, |
| Revenue | ,, | ,, Deputy Surveyor General, |
| Settlement | ,, | ,, Boards of Revenue, |

| All other Civil Officers or Military Officers in Civil employ, | | ,, Secretary to Governments under which serving, or Secretary to Board of Revenue, |

Indent forms may be had on application being made to the Mathematical Instrument Office.

and they should be addressed to the *Superintendent, Government Mathematical Instrument Department, No. 9, Park Street, Calcutta.*

4. The mode of transit and address, or station to which the instruments are to be consigned, must invariably be specified on indents in the proper column. Indents should not be accompanied with forwarding letters, unless more explanation is necessary than can be given on the face of the indent.

5. All officers, to whom instruments and other stores are issued on public service, have to account for them to the Accountant General to whom their accounts are rendered, in such manner as may be by him directed.

6. All instruments, and component parts of instruments, when no longer required, should be at once returned to the Mathematical Instrument Department, *except when the officer in charge considers that their transit charges may nearly equal, or exceed, their actual value as material*; in which case, he should refer to the Superintendent, Mathematical Instrument Department, for instructions as to their disposal.

7. When instruments are considered unserviceable by any officer, a survey should be held on them by a committee of Government officers, whose report should be forwarded to the Superintendent, Mathematical Instrument Department, who will issue instructions as to which of the articles are to be forwarded to the depôt, Calcutta, and which should be sold by public auction to the best advantage. The proceeds of all articles sold by auction must be deposited in the nearest treasury, and the treasury receipt, with auction account sale, should be forwarded to the Accountant General to whom the accounts of such articles are rendered.

8. When instruments are received for final deposit in store, a receipt will be granted for them by the Superintendent, Mathematical Instrument Department, to enable officers, from whom received, to remove them from their debit, by forwarding their receipt to the Accountant General concerned, with half-yearly or other returns of stores submitted to him.

9. All Government instruments, &c., requiring repair, &c., should be forwarded with an official letter or repair indent. If no longer required and intended to be deposited in store, it should be specifically mentioned.

10. All instruments, &c., received from England and issued on book debit on the public service, will be charged at their invoice cost, *plus* charges incurred in landing, storing, and examining and despatching them, &c., or, when this cost cannot be ascertained, rate book prices will be charged. These are based on average rates.

11. Instruments made in the Department and those purchased locally for issue on book debit, will be charged at the actual cost. Instruments purchased locally for officers not entitled to receive them on book debit will be charged at cost price, *plus* 10 per cent. for incidental charges.

12. Instruments, when they can be spared, are sometimes issued to officers and others on payment of the cost value, *plus* 10 per cent., and instruments, the private property of officers, are repaired, if necessary, on like terms. In such cases the amount must be remitted to the Superintendent, Mathematical Instrument Department, before the instruments can be despatched from the Office of the Superintendent.

13. Instruments returned into store will be valued according to their condition.

14. It is particularly requested that sizes and sorts of instruments, length of scales, how divided, and purposes for which required, and generally any information which will guide this Department in knowing, without further reference, the exact wants of the indenting officer, be put as far as possible on face of indent, instead of in covering letters.

15. The following list shows nomenclature of the various descriptions of instruments ordinarily kept in store of this Department for issue on public service. This nomenclature should be adopted in all indents.

16. To enable the indenting officer, as well as the officer who countersigns and finally passes an indent, to know the cost involved thereby, the average ordinary price of each description of instrument is also given in the annexed list. Indenting officers must invariably enter the value of all instruments required by them in column of indent allotted to the purpose.

17. The supply should be regulated, not according to what an officer would like to have, but by what is absolutely necessary.

By Order,

J. O. N. JAMES,

*Assistant Surveyor General,*
*in charge of Surveyor General's Office.*

### RULES AND REGULATIONS.

The Calcutta Government Mathematical Instrument Department supplies new and serviceable instruments, &c., and repairs, examines and adjusts, &c., old ones, on book debit, on the public service. As a general rule new instruments are not supplied, if serviceable instruments of the class required are available for issue.

2. All applications for instruments on the public service must be submitted in following indent form. The specification of instruments and particular purposes for which required being made as full as possible:—

*Indent No.* *on the Calcutta Mathematical Instrument Depôt for instruments required for the use of* *dated* 18 .

*Countersignature of approving authority.* *Signature of Indenting Officer, with designation of appointment in full.*

3. All indents must be duly approved and countersigned by the heads of departments, or of the Government under which indenting officers may be serving, before they can be supplied, *viz.*:—

Indent forms may be had on application being made to the Mathematical Instrument Office.

and they should be addressed to the *Superintendent, Government Mathematical Instrument Department, No. 9, Park Street, Calcutta.*

4. The mode of transit and address, or station to which the instruments are to be consigned, must invariably be specified on indents in the proper column. Indents should not be accompanied with forwarding letters, unless more explanation is necessary than can be given on the face of the indent.

5. All officers, to whom instruments and other stores are issued on public service, have to account for them to the Accountant General to whom their accounts are rendered, in such manner as may be by him directed.

6. All instruments, and component parts of instruments, when no longer required, should be at once returned to the Mathematical Instrument Department, *except when the officer in charge considers that their transit charges may nearly equal, or exceed, their actual value as material*; in which case, he should refer to the Superintendent, Mathematical Instrument Department, for instructions as to their disposal.

7. When instruments are considered unserviceable by any officer, a survey should be held on them by a committee of Government officers, whose report should be forwarded to the Superintendent, Mathematical Instrument Department, who will issue instructions as to which of the articles are to be forwarded to the depôt, Calcutta, and which should be sold by public auction to the best advantage. The proceeds of all articles sold by auction must be deposited in the nearest treasury, and the treasury receipt, with auction account sale, should be forwarded to the Accountant General to whom the accounts of such articles are rendered.

8. When instruments are received for final deposit in store, a receipt will be granted for them by the Superintendent, Mathematical Instrument Department, to enable officers, from whom received, to remove them from their debit, by forwarding their receipt to the Accountant General concerned, with half-yearly or other returns of stores submitted to him.

9. All Government instruments, &c., requiring repair, &c., should be forwarded with an official letter or repair indent. If no longer required and intended to be deposited in store, it should be specifically mentioned.

10. All instruments, &c., received from England and issued on book debit on the public service, will be charged at their invoice cost, *plus* charges incurred in landing, storing, and examining and despatching them, &c., or, when this cost cannot be ascertained, rate book prices will be charged. These are based on average rates.

11. Instruments made in the Department and those purchased locally for issue on book debit, will be charged at the actual cost. Instruments purchased locally for officers not entitled to receive them on book debit will be charged at cost price, *plus* 10 per cent. for incidental charges.

12. Instruments, when they can be spared, are sometimes issued to officers and others on payment of the cost value, *plus* 10 per cent., and instruments, the private property of officers, are repaired, if necessary, on like terms. In such cases the amount must be remitted to the Superintendent, Mathematical Instrument Department, before the instruments can be despatched from the Office of the Superintendent.

13. Instruments returned into store will be valued according to their condition.

14. It is particularly requested that sizes and sorts of instruments, length of scales, how divided, and purposes for which required, and generally any information which will guide this Department in knowing, without further reference, the exact wants of the indenting officer, be put as far as possible on face of indent, instead of in covering letters.

15. The following list shows nomenclature of the various descriptions of instruments ordinarily kept in store of this Department for issue on public service. This nomenclature should be adopted in all indents.

16. To enable the indenting officer, as well as the officer who countersigns and finally passes an indent, to know the cost involved thereby, the average ordinary price of each description of instrument is also given in the annexed list. Indenting officers must invariably enter the value of all instruments required by them in column of indent allotted to the purpose.

17. The supply should be regulated, not according to what an officer would like to have, but by what is absolutely necessary.

† Many scales require a careful description. If there is the least doubt as to the correct denomination of a scale, the indenting officer should specify the number of divisions and sub-divisions in a given measurement, and the method of numbering; for instance, 12″ divided into 60 parts, numbered successively from 1 to 60, each part to the sub-divided into two.

## NOTICE.

**The undersigned is prepared to receive tenders from parties desirous of leasing the water-power available at Kharakwasla, "Lake Fife;" the available power is variable: from July to January, inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April, it decreases from about 130 to about 40, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road; about 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha canals in the neighbourhood of Poona was 1,966 acres; this area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances, it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.**

Information regarding the actual heads and discharges available throughout the year and all other particulars can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November 1881.

The undersigned does not bind himself to accept the highest or any tender.

## NOTICE.

The undersigned is prepared to receive tenders from parties desirous of leasing the water-power available at Kharakwasla, "Lake Fife;" the available power is variable: from July to January, inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April, it decreases from about 130 to about 40, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road; about 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha canals in the neighbourhood of Poona was 1,966 acres; this area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances, it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.

Information regarding the actual heads and discharges available throughout the year and all other particulars can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November 1881.

The undersigned does not bind himself to accept the highest or any tender.

WILLIAM CLERKE, M.INST., C.E.,
*Exe. Engr. for Irrigation, Poona Division.*

## NOTICE.

The undersigned is prepared to receive tenders from parties desirous of leasing the water-power available at Kharakwasla, "Lake Fife;" the available power is variable: from July to January, inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April, it decreases from about 130 to about 40, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road; about 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha canals in the neighbourhood of Poona was 1,966 acres; this area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances, it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.

Information regarding the actual heads and discharges available throughout the year and all other particulars can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November 1881.

The undersigned does not bind himself to accept the highest or any tender.

## NOTICE.

The undersigned is prepared to receive tenders from parties desirous of leasing the water-power available at Kharakwasla, "Lake Fife;" the available power is variable: from July to January, inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April, it decreases from about 130 to about 40, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road; about 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha canals in the neighbourhood of Poona was 1,966 acres; this area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances, it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.

Information regarding the actual heads and discharges available throughout the year and all other particulars can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November 1881.

The undersigned does not bind himself to accept the highest or any tender.

## NOTICE.

The undersigned is prepared to receive tenders from parties desirous of leasing the water-power available at Kharakwasla, "Lake Fife;" the available power is variable: from July to January, inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April, it decreases from about 130 to about 40, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road; about 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha canals in the neighbourhood of Poona was 1,966 acres; this area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances, it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.

Information regarding the actual heads and discharges available throughout the year and all other particulars can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November 1881.

The undersigned does not bind himself to accept the highest or any tender.

WILLIAM CLERKE, M.INST., C.E.,
*Exe. Engr. for Irrigation, Poona Division.*

*The 31st August 1881.*

## NOTICE.

The undersigned is prepared to receive tenders from parties desirous of leasing the water-power available at Kharakwasla, "Lake Fife;" the available power is variable: from July to January, inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April, it decreases from about 130 to about 40, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road; about 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha canals in the neighbourhood of Poona was 1,966 acres; this area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances, it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.

Information regarding the actual heads and discharges available throughout the year and all other particulars can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November 1881.

The undersigned does not bind himself to accept the highest or any tender.

WILLIAM CLERKE, M.INST., C.E.,

*Exe. Engr. for Irrigation, Poona Division.*

## NOTICE.

The undersigned is prepared to receive tenders from parties desirous of leasing the water-power available at Kharakwasla, "Lake Fife;" the available power is variable: from July to January, inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April, it decreases from about 130 to about 40, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road; about 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha canals in the neighbourhood of Poona was 1,966 acres; this area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances, it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.

Information regarding the actual heads and discharges available throughout the year and all other particulars can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November 1881.

The undersigned does not bind himself to accept the highest or any tender.

## MILITARY DEPARTMENT.

**Commissariat Department. Contracts.**

*Simla, the 25th October 1881.*

The following correspondence regarding the supply of country manufactured blankets to the Bengal Commissariat for military purposes is published for general information:—

From Colonel W. C. R. MYLNE, Commissary General, Bengal, to the Secretary to the Government of India, Military Department,—(No. 3479, dated Simla, the 1st September 1881).

With reference to your No. 663 S.-D., "Commissariat Department / Store Supplies," dated 9th June 1881, directing tenders to be invited for country manufactured blankets, and my No. 2644, dated 22nd July 1881, forwarding copy of notice and form of tender prepared with a view to arranging a contract, I have now the honor to forward a comparative statement of the tenders received and opened by me at noon to-day.

2. It will be noticed that for blankets, brown, for issue to European troops in barracks, the tender of the Cawnpore Woollen Mills Company is the lowest, and I recommend it for acceptance.

3. As regards the rates for the other country manufactured blankets, those of the Cawnpore Woollen Mills Company and Central Jail, Agra, are the lowest and are the same, and it rests with Government to decide which shall be accepted. I would recommend that for requirements at Agra and all stations above, the Central Jail should have the contract, the supply to stations below Agra and in Oudh and Rohilcund being given to the Cawnpore Woollen Mills Company.

From Captain T. DEANE, Assistant Secretary to the Government of India, Military Department, to the Commissary General, Bengal,—(No. 1509 S.-D., dated Simla, the 29th September 1881).

In reply to your letter No. 3479, dated the 1st September 1881, I am directed to state that the Government of India sanction your acceptance of the tender of the Cawnpore Woollen Mills Company for the supply of country-made blankets to the Commissariat Department for the four years commencing 1st October 1882.

2. With reference to paragraph 3 of your letter, I am to state that preference should be given to the Cawnpore Woollen Mills Company over the Central Jail at Agra.

## NOTICE.

The undersigned is prepared to receive tenders from parties desirous of leasing the water-power available at Kharakwasla, "Lake Fife;" the available power is variable: from July to January, inclusive, the minimum is about 130 actual horse-power, from beginning of February to end of April, it decreases from about 130 to about 40, and during the months of May and June the power which can be guaranteed is very small. Kharakwasla is situated south-west of Poona, 11 miles from the Railway Station, with which it is connected by a good road; about 4 acres of land close to the canal are available as sites for factories, &c. In the last year the area of sugarcane grown under the Mutha canals in the neighbourhood of Poona was 1,966 acres; this area is capable of still further extension to a probable area of 2,500 acres. Under these circumstances, it is thought that the above power offers an inducement for the erection of a sugar manufactory, of which none at present exists in the Bombay Presidency.

Information regarding the actual heads and discharges available throughout the year and all other particulars can be obtained on application to the Executive Engineer for Irrigation, Poona. Tenders will be received up to the 15th November 1881.

The undersigned does not bind himself to accept the highest or any tender.

| Mr. Garstin's three children ... ... | | £ 450 |

The three daughters of the late Mr. Geo. Graham, who died in London on the 7th October 1880.

The widow of the late Mr. J. H. Young, who died at Naples on the 21st November 1880.

The widow of the late Sir J. Cracroft Wilson, who died at Christ Church, New Zealand, on the 2nd March 1881.

The widow and three children—two sons and one daughter—of the late Mr. C. D. C. Winter, who died on the 8th April 1881 at Monghyr.

The three daughters of the late Mr. C. Garstin, who died at Bournemouth on the 15th May 1881.

3. The Managers have notified, under Article XVI, the following amendments to the rules:—

In Article V in the last clause before the words "of birth" *insert* "other evidence of the date," and before the words "be accepted" *insert* "or evidence."

In Articles XXVIII and XXIX after the words "shall have died" *add*—

"or if such member has been divorced from his wife and leaves no widow, or, if his widow has been excluded from the Fund under Article XXV."

In Article XXX for the words "or if there be no widow" *substitute*—

"on her admission to the Fund, or if there be no widow, or if such widow has been excluded from the Fund under Article XXV."

The object of the Managers in proposing to amend Articles XXVIII, XXIX, and XXX is to secure the interests of children in cases where a widow survives who has been excluded under Article XXV. As the rules now stand such a widow could claim the donation and the children would not be entitled to extra pension.

4. An objection has been raised by Sir Louis Jackson to the assessed subscription on his pension of £1,200 per annum, on the ground that the Fund has nothing to do with the 'special pension' granted to him as a late Puisne Judge of the High Court. The old rule, Article VIII, under which annuitants are for the present to pay ordinary subscriptions declares that retired subscribers are to contribute on their "annuities," and the original wording of the rule was "annuities of the Civil Service Annuity Fund." Under these circumstances the Managers have ruled that High Court Judges can only be required to contribute on £1,000 per annum, the ordinary annuity of a retired Civilian. As Mr. F. B. Kemp has, since his retirement, paid subscriptions on his pension of £1,200 per annum, the Managers have directed a refund to him of the excess amount paid.

5. By a resolution of the general meeting of January 1876, Mrs. Morris (widow of Mr. Drew, of the Bengal Civil Service,) was permitted, as a special case, to make a bequest of £50 a year to her daughter, Miss Fanny Sophia Drew, without entailing a reduction of Miss Drew's pension. The ground of the concession was that Miss Drew is of weak intellect, and that there are special expenses connected with her care and maintenance. It has been reported that Miss Drew, owing to her mother's death, has become entitled to about £102 out of her mother's personal estate. The relatives ask that she may be allowed to enjoy the income (about £4), derived from the above sum, without deduction from her pension, as the capital sum set apart by Mrs. Morris does not produce more than £32. Under the special circumstances of her case, and as the concession applied for would be within the spirit of the resolution of January 1876, the Managers have granted the request, on the distinct understanding that the case will again be referred if the total income enjoyed by Miss Drew, over and above her pension, at any time exceeds £50.

Proposed by *Mr. A. P. MacDonnell*, seconded by *Mr. H. J. S. Cotton*, and carried unanimously—

"That the Managers' proceedings in admitting the families of the late Messrs. Geo. Graham, J. H. Young, Sir J. Cracroft Wilson, C. D. C. Winter, and C. Garstin, to the benefits of the Fund, be confirmed."

In proposing that Article V of the Rules be amended, *Mr. Westland* stated that the Managers had recently, at a general meeting, adopted a system by which subscribers were enabled to register in the Fund Office the dates and information which were required by the rules before a pension could be granted, as they considered it of great advantage that widows should thus be able to obtain their pensions upon a simple application without having, at such a time, to seek for certificates and other evidence which it was often found they had difficulty in collecting.

The wording of the rules then adopted required, however, the production of an actual certificate of baptism or of birth; and the Managers had on several occasions felt themselves obliged to reject evidence which, though otherwise perfectly good, did not fall within this limited definition.

It appeared to the Managers that the wife's real title was proved by her marriage certificate, and so long as they did not diminish the requirement in this respect, they might with safety allow other forms of evidence of date of birth. In fact the date of birth determined only one thing—viz., the amount of fine paid upon marriage, and no subscriber therefore could be said to have any object in misstating it. All that was necessary was to make sure that the statement of date of birth was not made carelessly or doubtfully, and this was sufficiently secured by requiring any kind of satisfactory evidence. The Managers were anxious to encourage the system of registration of evidence in support of possible claims; and they therefore proposed, that in registration of the date of birth they might be allowed to accept any evidence that seemed sufficient.

The proposal that the amendment of Article V of the rules as proposed by the Managers be confirmed, was seconded by *Mr. W. H. Grimley*, and carried.

On the next proposed alteration of the Articles *Mr. Westland* stated that the principle of the recent changes of the rules, in the matter of children's allowances, was to assimilate in some measure the circumstances of a family which obtained the widow's pension of £300 and of one which did not. It had been felt that too much of the pecuniary position of the family hinged upon the existence of the mother, and it was consequently arranged that when there was no widow's pension of £300, the children's pensions should be greater than when there was.

The rules as they were drawn up, however, regarded the contingency only of the determination of the widow's pension through death, and it had been pointed out to the Managers that that pension may have determined, not by death, but by the operation of the rule which excludes from the benefit of the Fund a wife who has been divorced, &c. The inclusion of these cases seems plainly within the meaning and intention of the rules adopted by the Service, as the position of children whose mother may be alive but divorced from her husband and obtaining no benefit from the Fund is evidently the same as if there were no mother in the case at all. The Managers therefore thought it wise to distinctly provide for such cases before any claims arose.

Mr. Westland, however, said that if the members present considered the matter to be open to doubt or discussion, it might be best that its consideration be put off till the larger meeting that would be held in January.

Proposed by *Hon'ble L. R. Tottenham*, seconded by *Mr. R. Logan*, and carried—

"That the amendments to Articles XXVIII, XXIX, and XXX, as proposed by the Managers, be confirmed."

Proposed by *Mr. J. A. Bourdillon*, seconded by *Mr. W. H. Grimley*, and carried—

"That the Managers' action in ruling that High Court Judges can only be required to contribute on £1,000 per annum, the ordinary annuity of a retired Civilian, be approved.

Proposed by *Mr. H. M. Kisch*, seconded by *Mr. W. D. Blyth*, and carried—

"That the Managers' decision, in the case of Miss Fanny Sophia Drew, be approved."

A vote of thanks to the Chairman was proposed by the *Hon'ble L. R. Tottenham*, seconded by *Mr. J. A. Bourdillon*, and carried.
