GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE C
### THE WEEK ENDING 8th JULY 1885.

eported from five

GENERAL REMARKS.—More or less rain is reported from all parts in the Madras Pres
prospects continue fair in all districts except Bellary and Anantapur, where more rain rowing well; In Mysore rain has been general, but in Tumkur and Kolar more rain is wanted. Except i oods, but there districts, standing crops are in fair condition. Good rain continues to fall in Coorg, and prospec nged. Cholera the interior.

Throughout the Bombay Presidency the rainfall during the week was scanty, an and rice transplantation are being retarded nearly everywhere. In Surat, Ahmednagar, an loughing and of Bijapur and Belgaum the crops already sown are withering for want of rain. Fodder is scarce in two or three districts. Some rain fell in the Berars, but more is wanted for *kharif* sowings at Akola. No rain is reported from the Nizam's Territories, where however there is only one reporting station. Slight rain was general throughout the Rajputana States, and prospects are generally favourable. Rain fell at some places in the Central India States, but was heavy only at Sehore and Bhopawar. Prospects continue good.

In the North-Western Provinces and Oudh good rain fell in most districts. *Kharif* sowings are going on and prospects are favourable. Moderate rain fell in most districts of the Punjab, where *kharif* sowings are in general progress. In the Central Provinces a break in the rains has been very beneficial for sowings. In Nimar, however, more rain is much wanted.

Seasonable rain has fallen throughout the Lower Provinces, and agricultural prospects have improved generally, and especially in Behar. Standing crops promise well, and the cultivation of land for *amun* crops is in full progress in places. Transplanting of *amun* seedlings has begun in Cuttack and Pooree, where, however, considerable damage has been caused to crops on riparian lands by floods. In Assam rain was general, and prospects continue fairly good. Seasonable weather prevails in British Burma, where ploughing is in general progress.

The public health is fair in most Provinces. Prices are still high in Bengal, and have risen slightly in the North-Western Provinces and Oudh. Elsewhere they are generally stationary.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(July 8th)** | | |
| Bellary ... | ·04 (average) | Standing crops wet moderately good; dry crops need more rain; har. vest paddy, outturn below average. Fever in two taluks and small-pox in one; 1 death from cholera. |
| Kurnool ... | ·18 ( „ ) | More rain wanted in Cumbum division. Standing crops generally good. Small-pox and cattle-disease in two taluks; 3 deaths from cholera. |
| Ganjam ... | 1·01 ( „ ) | More rain wanted. 248 deaths from cholera. |
| Kistna ... | ·08 ( „ ) | More rain required; river 2·55 feet over anicut. Fever and small-pox in parts; cattle-disease in one taluk; 98 deaths from cholera. |
| Chingleput (Madras) ... | ·34 ( „ ) | Standing crops good; harvest paddy, outturn below average. Fever and slight cattle-disease in two taluks. |
| Coimbatore ... | ·07 ( „ ) | Standing crops generally good, but *cholum* damaged by insects in two taluks, and *cumboo* bad in one; harvest wet and dry crops, outturn average. Fever continues in two taluks; 18 deaths from cholera. |
| Tanjore ... | ·18 ( „ ) | Standing crops good, and not flourishing in parts of one taluk for want of rain; harvest dry crops, outturn below average. 52 deaths from cholera. |
| Madura ... | ·06 ( „ ) | Fever prevalent. |
| Malabar ... | 15·80 ( „ ) | Fever in two taluks; small-pox slight in seven and cattle-disease in one; 11 deaths from cholera. |
| Travancore ... | 10·13 ( „ ) | Small-pox and fever in parts. |
| | | *General Remarks.*—General prospects fair, except in Bellary and Anantapur. |
| **Bombay—(July 8th)** | | |
| Karachi ... | Thana Bulakhan, ·60 | River at Kotri on 6th, 16 feet 9 inches against 13 feet 3 inches on same date last year. Fever in two talukas; cattle-disease in Sehwan taluka; small-pox in four villages in districts, 6 fresh cases, 6 deaths, 18 remaining sick; cholera in all talukas, 1,281 cases, 815 deaths, 514 remaining. Prices—wheat, red rice, and *bajri* in Karachi 26, 34 and 34, in Sehwan 40, 40 and 44, in Ghorabari 22, 38 and 36, and in Sujawal 26, 36 and 42 pounds per rupee, respectively. |
| Hyderabad ... | Rain at Tando Allahyar on 28th June, 1·68; Shahdadpur, ·12; Moro, ·20. | *Kharif* cultivation in progress. River at Kotri on 6th, 16 feet 9 inches against 13 feet 3 inches on same date last year. Fever in three, small-pox in three, and cattle-disease in three talukas; cholera throughout the district. Severe duststorms at Hyderabad. Prices of grain steady. |
| Ahmedabad ... | ·03; more rain wanted | Total rainfall 2·82. Manuring and tilling operations continue. Public health good. Wheat 37 and *bajri* 33 pounds per rupee. |
| Surat ... | ·26; maximum in Olphad, 1·14; minimum in Pardi, ·19. | Total rainfall 2·79. More rain urgently wanted. Sowing retarded; young plants suffer. Cholera in Olphad, Chorasi, and Chikhli, 5 cases, 4 deaths. *Juari* 38 and *nagli* 42 pounds per rupee. |

| Province &c. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| ... | Igatpuri, 1·97; Nasik, ·07; Sinnar; ·05; Dindori, ·11; Niphad, ·05; Kalvan, ·06; Punt, 1·58. | Want of fodder for cattle in Deohi talukas; prospects doubtful. Cholera in nine talukas, 267 attacks, 146 deaths. Wheat 34½, *bajri* 34, and rice 21 pounds per rupee. |
| ...nbay) ... | Rain every day; total of week, 1·42; total to date, 6·55; being 19·42 below average. | Abnormal temparature fell from 2° warm on 1st to 2° cool on 3rd, rose to 2° warm on 5th, and then remained steady till end of week; vapour in air slightly in excess of normal; abnormal wind easterly on 2nd and 3rd, northerly on 4th and 7th, and westerly on 5th; wind normal on 1st and 6th. |
| Poona ... | Khudkala, 2·63; light showers in seven talukas. | More rain urgently wanted. 90 cases of cholera in three talukas, 57 deaths. *Bajri* 30 and *juari* 35; in Poona *bajri* 32 and *juari* 35 pounds per rupee. |
| Ahmednagar ... | Nagar, ·55; Sheogaon, ·56; Newasa, ·43; Shrigonda, ·11; Akola, ·04; Jamkhed, and Sangamner, ·03; none elsewhere. | Sowing operations not begun in Nagar, Karjat, Rahuri, Kopargaon, or Sangamner talukas; crops already sown are withering in a few places; want of fodder in Nagar, Parner, Kopargaon, and Sangamner. Cholera—4 attacks, 1 death in Parner; 13 attacks, 4 deaths in Jamkhed; 17 attacks, 11 deaths in Sheogaon; 36 attacks, 13 deaths in Newasa; 4 attacks only in Rahuri; and 5 attacks, 3 deaths in Sangamner; slight cattle-disease in Sangamner and Akola. *Bajri* from 33 to 48 and *juari* from 42 to 61 pounds per rupee. |
| Sholapur ... | Sholapur, ·12; Barsi, ·10; Dhada, ·42; Karmala, ·33; Pandharpur, ·20. | Slight cholera in Pandharpur and Sangola. *Juari* 43 pounds 13 tolas and *bajri* 30 pounds 21 tolas per rupee. |
| Dharwar ... | Maximum in Kalghatgi, ·86; Hangal and Hubli, ·64; Mugud, ·58; Dharwar, ·43; Karajgi, ·38; Ranibennur, ·26; Bankapur and Kod, ·10; ***nil*** **in Navalgund, Nargund, Gadag, Mundargi, Ron, Kod, and Ranibennur.** | Rain is urgently required. Sowing of rice and minor early crops completed; sowing of early *juari* in progress in places, where there has been sufficient moisture; young rice crops good. Slight cholera in Dharwar, Hubli, Navalgund, Bankapur, and Kalghatgi. Average price of rice 27 and *juari* 46 pounds per rupee. |
| Kanara ... | Karwar, 13·3; Kumpta, 9·11; Sirsi, 4·66; Haliyal, 1·02. | Sowing operations continue above Ghat; transplanting commenced. Cholera in Haliyal 10 cases, 6 deaths; in Mugud 53 cases, 36 deaths for current and previous weeks; fever and small-pox in five talukas. Common rice in Karwar 13½ seers; district average 14½ seers per rupee. |
| Rajkot ... | ·15 | Total rainfall ·98. General health good. High winds continue. *Bajri* 31 and *juari* 43 pounds per rupee. |
| | | *General Remarks.*—Rain scanty throughout the Presidency. Sowing and rice transplantation retarded everywhere, except Kanara and parts of Bijapur and of Dharwar; crops sown suffering in Surat, Ahmednagar, and parts of Bijapur and of Belgaum; fodder scarce in Khandesh, Ahmednagar, and Nasik. Cholera generally prevalent; fever in parts of seven; and small-pox and cattle-disease in parts of six districts. |
| **Bengal—(July 8th)** | | |
| Chittagong ... | 7·94 | Weather seasonable. Sowing of *aus* paddy completed; lands being prepared for *amun* paddy; prospects generally good. Prices changeable. Cholera lingers; cattle-disease reported. |
| Dacca ... | 2·48 | Prospects of crops good; *aus* paddy being harvested. Public health good. |
| 24-Pergunnahs (Calcutta) | *Nil* | Early rice, jute, and *amun* seedlings doing well; lands being prepared for *amun* crops; transplanting commenced on low lands. Price of common rice 13 to 15 seers per rupee. Public health generally good. |
| Moorshedabad ... | ·84 | Weather seasonable. Prospects of *aus* fairly good; sowings almost completed; land being prepared for *amun*. Price of common rice 11 to 13½ seers per rupee. Public health fair. |
| Burdwan ... | 2·0; Kulna, 2·55; Cutwa, 1·03; Raniganj, 2·74. | Prospects of crops good. Price of rice 13 to 14½ seers per rupee. Health good. |
| Rungpore ... | 5·18 | Weather cloudy. Prospects of crops good; *aus* being cut in some places; transplanting of *amun* commenced. Prices stationary. Fever and bowel-complaints increasing in the station; cholera abated. |
| Bhagalpur ... | 1·83 | Prospects good; agricultural operations proceeding. Price of rice 12 seers 10 chittacks per rupee. Health good. |
| Purneah ... | 1·73 | *Bhadoi* promises well; rain required for transplanting; ploughing and sowing continue. Price of common rice 14 seers per rupee. Health fair. |
| Patna ... | 3·67 | Sowing of *bhadoi* and paddy being pushed on in some places; maize sown during previous weeks has germinated well. A few cases of cholera and small-pox reported from Behar subdivision, otherwise public health good. |
| Durbhunga ... | 6·55 | Agricultural operations progressing favourably; prospects promising. Prices stationary. Cholera abating. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal—*contd.*** | | |
| Hazaribagh ... | 3·41; abundant rain reported from all parts. | Weather seasonable. Sowings completed. Cholera reported from five stations. |
| Cuttack ... | 1·94 | Weather cloudy. *Beali* being weeded; *sarad* growing well; crops on river side; lands greatly damaged by recent floods, but there is time enough for resowing. Price of rice unchanged. Cholera has appeared in town and continues in some places in the interior. |
| Midnapur ... | 6·90 | Transplanting of rice going on. Health fair. |
| Khoolna ... | 1·58; weather cloudy and rainy. | *Aus* paddy and *amun* seedlings coming up well; ploughing and sowing continue. Price of rice remains high. A few cases of cholera and some cattle-disease in outpost Dumeeria; public health good. |
| Dinagepore ... | Sufficient rain all over the district. | Crops of *bhadoi*, jute, and sugarcane much benefited; cultivation of *himanti* crops facilitated. Average price of rice 14 seers per rupee. A few cases of cholera reported; general health good. |
| Pubna (Serajganj) ... | 3·24 | Crops doing well. River rising fast. Price of rice falling. Public health good. |
| Gya ... | 2·76 | Indian-corn being sown and *murwa* transplanted; prospects fair. A slight rise in prices at Nawada. Public health good. |
| Chumparun ... | 8·04 | Sowing of *bhadoi* and *aghani* crops in progress. Prices stationary. Public health fair. |
| | | *General Remarks.*—There has been seasonable rain throughout the province during the week; in Behar good general rain has now fallen and has improved the agricultural prospects all round. All autumn crops are reported on very favourably, and the cultivation of lands for *amun* crops is in full progress in some places; transplanting of *amun* seedlings has fairly begun in Cuttack and Pooree, where heavy floods occurred of late; considerable damage to the crops on the riparian lands has been done, but it is said that there is sufficient time yet for resowing. In Tipperah also the inundation has now subsided, and a large proportion of the submerged crops is stated to have been saved by the comparative cessation of rain during the past fortnight. Prices continue to rule high in all districts, General health is pretty fair, although cholera exists in some districts. |
| **N. W. Provinces and Oudh—(July 9th)** | | |
| Benares (July 7th) | Rain averaging 0·40 over the district. | Weather cloudy and muggy. *Kharif* operations in progress. Markets well stocked. Prices show slight fall in foodgrains. Public health good; no cattle-disease. |
| Gorakhpore ( „ 6th) | Rain fell from 4·10 to 8·60 throughout the district; lightest in the north. | Rice half sown; ploughing everywhere. Prices stationary. Health good. |
| Fyzabad ( „ 7th) | Good rainfall all over the district. | *Kharif* sowings begun. Market well supplied. Health good; condition of cattle fair. |
| Lucknow ( „ 6th) | Rainfall at Sadr, 3·20; at Malihabad, 1·20; and 1·70 at Mohanlalganj. | Weather cloudy. Large *juari*, rice, *kodo*, and *mandwa* are sown. Markets well supplied. Prices stationary. Condition both of men and cattle good. |
| Rae Bareli ( „ „ ) | Rain at Sadr during the week, ·35. | *Kharif* operations in progress; supplies ample. Prices steady. Cholera continues. |
| Partabgarh ( „ 7th) | Rain wanted | *Kharif* sowings going on. |
| Allahabad ( „ „ ) | More rain required now. | Ploughing and sowing proceeding. Markets well supplied. Condition of people and cattle good, though isolated cases of cholera still occur. |
| Cawnpore ( „ 6th) | General rain during the week from 3·40 in pargana Shevrajpur to 0·20 in Bhognipur. | *Kharif* sowings continue. Prices rising. Fever in three parganas; no cattle-disease. |
| Banda ( „ 7th) | No rain since 20th ultimo. | Bank has been good for ploughing; clouds above. Sowing of cotton and *juari* commenced. Health good. Cattle-disease in two villages of Pailani and Banda. |
| Ballia ( „ „ ) | 2·90 (average) | Weather cloudy. *Kharif* being sown; cane flourishing. Health improved; 3 deaths from cholera. |
| Farakhabad ( „ „ ) | Light showers at beginning of the week; fine since. | Ploughing for *kharif* commenced. Prices rising a little. General health fair. |
| Sitapur ( „ „ ) | Plentiful rain has fallen during the week. | The *kharif* crops are sprouting, and prospects are favourable. |
| Bareilly ( „ „ ) | Rain sufficient and beneficial. | Sowings progressing. Markets somewhat dearer, owing to requirements for seed. Public health good; slight cattle-disease. |
| Kumaon ( „ 6th) | Heavy weather. | Fine weather required for crops to grow. Prices somewhat risen. Health good; fever in some places. |
| Agra ( „ „ ) | Rain in all parganas from 0·50 to 3·30. | *Kharif* ploughings and sowings going on. Prices rising. Cholera very slight. |
| Jhansi ( „ 7th) | Slight rain | Weather clear. Ploughing and sowing in progress. Prices again risen slightly. Public health normal. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Meerut (July 7th) | Rain during the week; 0·30 at Sardhana; 0·60 at Baghpat; *nil* elsewhere. | Weather hot. *Kharif* sowings progressing. Prices steady. Health good.<br>*General Remarks.*—Good rain has fallen in all but three districts. *Kharif* sowing going on, and prospects appear favourable. Markets are well stocked, though prices have risen slightly. Public health generally good. |
| **Punjab—(July 8th)** | | |
| Hissar (July 7th) | 2·69 | Health fair. *Kharif* sowings in progress. Prices falling. |
| Delhi ( „ „ ) | ·3 | Health fair. Prices rising. |
| Umballa ( „ „ ) | ·50 | Health good. *Kharif* sowings in progress. Prices stationary. |
| Jullundur ( „ „ ) | 2·80 | Health good. *Kharif* sowings commenced. Prices stationary. |
| Ferozepore ( „ „ ) | ·20 | Health good. *Kharif* ploughings and sowings in progress. Prices stationary. |
| Amritsar ( „ „ ) | ·10 | Health and crops good. Prices stationary. |
| Sialkot ( „ „ ) | ·90 | Health good. Prices stationary. |
| Lahore ( „ „ ) | ·90 | More rain wanted. Health good. *Kharif* sowings continue. Prices stationary. |
| Mooltan ( „ „ ) | *Nil* | Health good. *Kharif* crops flourishing. Slight rise in prices. |
| Rawalpindi ( „ „ ) | *Nil* | Rain wanted. Health good, with the exception of a few cases of cholera at Rawalpindi city and cantonments. Prices rising. |
| Shahpur ( „ „ ) | Slight rain throughout the district. | Health good. Prices stationary. |
| Dera Ismail Khan ( „ „ ) | ·20 | Health good. Prices falling. |
| Peshawar ( „ „ ) | ·20 | Health good. Prices stationary.<br>*General Remarks.*—Moderate rainfall in most districts. A few cases of cholera in the Rawalpindi city and cantonments, elsewhere health is generally good. *Kharif* ploughings and sowings in progress; prospects generally good. Prices on the whole stationary. |
| **Central Provinces—(July 8th)** | | |
| Nagpur ... | 1·97 | Weather bright and clear. Break beneficial for sowing. Small-pox in places. Prices steady. |
| Jubbulpore ... | ·06 | Weather cloudy and clear alternately. *Kharif* sowings in progress. Break beneficial for cotton sowing. Cholera declining. Prices stationary. |
| Saugor (July 7th) ... | 3·10 | Weather favourable. Sowings being pushed on. Health fair. Prices steady. |
| Seoni ... | 1·97 | Break since 5th instant. Sowings progressing. One fatal case of cholera; cattle-disease and small-pox decreasing. Prices steady. |
| Hoshangabad ... | *Nil* | Weather hot. Sowing progresses; weeding of rice and cotton commenced. 127 cases of cholera, 102 deaths. Prices stationary. |
| Khandwa ... | ·23 | Weather cloudy and windy. Sowings in progress. Rain much wanted. 3 deaths from cholera. Prices stationary. |
| Raipur ... | 1·78 | Weather cloudy and clear alternately. Sowings in progress. 1,099 cases of cholera, 817 deaths. Prices stationary.<br>*General Remarks.*—There has been a break in the rain which was much needed for sowings in all districts, except Nimar and which has been generally very beneficial; rain is much needed in Nimar on the west of the provinces, where the fall has been insufficient. Cholera still continues virulent in Chhattisgarh. |
| **British Burma—(July 8th)** | | |
| Akyab (July 4th) | 12·21 | Total rainfall 57·48. Slight cholera in two circles; slight cattle-disease in Akyab town, severe in two circles. Ploughing progressing. |
| Bassein ( „ „ ) | 4·56 | Total rainfall 28·35. Cholera epidemic in three and cattle-disease in five townships. |
| Rangoon ( „ „ ) | 1·68 | Total rainfall 2·07. Slight cholera in town. |
| Amherst (Moulmein) ( „ „ ) | 7·22 | Total rainfall 62·42. Public health good; cattle healthy. Ploughing progressing. Excessive rainfall inundated the fields. |
| Tavoy ( „ „ ) | 10·69 | Total rainfall 79·98. Public health good. Ploughing progressing. |
| Pegu ( „ „ ) | 6·93 | Total rainfall 32·55. Slight cholera in town, otherwise public health good; cattle healthy. Ploughing progressing. |
| Henzada ( „ „ ) | 1·16 | Total rainfall 20·72. Public health good. Ploughing progressing. |
| Prome ( „ „ ) | 0·46 | Total rainfall 13·47. Public health good; slight cattle-disease in one circle. Ploughing progressing. |
| Toungoo ( „ „ ) | 4·58 | Total rainfall 30·42. Public health good; cattle healthy. |
| Thayetmyo ( „ „ ) | 1·13 | Total rainfall 8·96. Public health good; cattle healthy. Ploughing progressing.<br>*General Remarks.*—Cholera slight in Akyab, Kyoukphyoo, Sandoway, Bassein, Thongwa, and Pegu; small-pox slight in Tharrawaddy, elsewhere public health good; cattle-disease slight in Akyab, Tharrawaddy, Prome, Bassein, Thongwa, Amherst, Shwegyin, elsewhere health of cattle good. Ploughing progressing. Rains seasonable. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Assam—(July 8th)** | | |
| Gauhati ... | 2·17 of rain during the week ending 7th instant; rain wanted. | Weather hot. Cattle-disease still reported from the interior of the district. Gathering of *aus* commenced; prospects fairly good; ploughing operations for *sali* crop in progress; sugarcane doing well. Cholera prevalent in parts of the district. |
| Sylhet ... | 11·38 | State and prospects of crops good. Cattle-disease still prevalent; public health fair. |
| Cachar ... | 7·55; weather rainy | Ploughing and sowing of *dumahi* and *murali* crops finished. Common rice 15 seers per rupee. Prospects of tea better. 3 deaths from cholera from Sadr, 3 from Lakhimpur, and 1 from Katigora, reported. |
| Dibrugarh ... | Rain last week, 9·99 | Weather healthy. *Sali dhan* being transplanted. Cattle-disease abating; public health fair. |
| **Mysore and Coorg—(July 8th)** | | |
| Bangalore ... | ·44; rain has fallen throughout the State, but only slightly in Tumkur and Kolar, in both of which districts more is wanted. | Prospects in Tumkur and Kolar are uncertain, elsewhere crops in fair condition; agricultural operations in progress. Cholera prevalent in parts. No material change in prices. |
| Mercara ... | 7·88 | Ploughing and transplanting of paddy fields in active progress; prospects of season and public health good. |
| **Berar and Hyderabad—(July 8th)** | | |
| Amraoti ... | 1·49 | Weather warm and sultry. Cotton plants in good condition. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | ·17 | *Kharif* sowings stopped in places, owing to rain still keeping off. Weather warm. |
| Hyderabad ... | *Nil* | *Kharif* sowings commenced. General health good, except in Amberpett and Shahabad talukas, where cholera has appeared. Prices—wheat 14⅓, coarse rice 12½, white *juari* 19, yellow *juari* 22¼, and *tur* 16¾ seers per current sicca rupee. |
| **Central India States—(July 8th)** | | |
| Indore ... | *Nil* | Health good. Prospects of crops good. |
| Morar (Gwalior) ... | *Nil* | Health good; cholera in Lushkar abating. |
| Satna ... | *Nil* | Weather hot and dry. Cholera at Rewah 36 cases, 29 deaths during the week. |
| Neemuch ... | ·07 | Weather cloudy. Health good. Prices stationary. |
| Goonia ... | ·26 | Five fatal cases of cholera in Dhanauda, otherwise health good. |
| Agar ... | *Nil* | Weather cloudy. Health and prospects good. |
| Sehore ... | 8·90 | Weather cloudy. Prospects of crops and health good. |
| Nowgong ... | ·57 | Weather favourable. |
| Manpur (Bhopawar) ... | 5·55 | Weather cloudy. Slight cholera in Ghabua, otherwise health good. |
| **Rajputana—(July 8th)** | | |
| Abu (July 8th) | 0·19 | Weather less cloudy than last week; strong winds. |
| Sirohi ( „ 5th) | Drops | Some water in tanks; wells and health good. Sowing commenced. Weather overcast, windy. |
| Marwar ( „ 3rd) | 0·62 | Further rains much needed. Very little water in Jodhpore city tanks. Small-pox abated. Tillage commenced in districts, with heavier rainfall. Weather less cloudy since 30th ultimo; sharp winds. Prices rising. |
| Kherwara ( „ 6th) | 0·42 | Tanks and wells fair. Ploughing and sowing of Indian-corn commenced. Health good. Prices low. Weather cloudy and windy. |
| Meywar ( „ 4th) | 0·85; more rain needed. | Tanks filling; wells still low. Crops sown. Health good. Prices cheap. High winds; weather cloudy, but no rain since 29th June. |
| Harowti ( „ „ ) | Tonk, 2·81; Shahapura, 3·18. | High west winds. *Kharif* operations commenced. Slight cholera in Tonk and Shahapura. |
| Jhallawar ( „ 3rd) | 1·81 | Ploughing and sowing commenced. General health good. |
| Ajmere ( „ 7th) | *Nil* | Few stray cases of cholera in city. *Kharif* operations continue. |
| Jeypore ( „ „ ) | 0·04 | Weather cloudy. Prices rising. Health good. |
| Kerowli ( „ 4th) | 3·20 | Tanks and wells filling. Prospects excellent. Health good; slight fever and small-pox. Prices slightly rising. Westerly winds; very hot in day, cool in night. |
| Dholepore ( „ „ ) | 1·01 | Wells full; tanks filling. Health good; one fatal case of cholera. Prices slightly rising. High westerly winds; weather hot. |
| Bhurtpore ( „ „ ) | 0·55 | Wells and tanks full. Ploughing commenced. Health good. Prices stationary. Heat moderate; high westerly winds. |
| Ulwar ( „ 7th) | 2·06 | Eleven deaths from cholera. Prices rising. High westerly winds. |
| Bickaneer ( „ 4th) | 0·60 | Sowings continue. Tanks and wells filling. Health good. Prices stationary. Weather hot, high winds. |
| **Nepal—(July 2nd)** | | |
| Kathmandu ... | 4·94 | Cholera has greatly increased in the city and has spread over the valley and the interior. The rains of the last two days have done much good to the crops. Weather is now cool and seasonable. |

E. C. BUCK,
*Secretary to the Government of India.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

**ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.**

The Council met at the Viceregal Lodge, Simla, on Wednesday, the 8th July, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.
His Honour the Lieutenant-Governor of the Punjab, LL.D., K.C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.
The Hon'ble W. W. Hunter, C.S.I., C.I.E., LL.D.

### BURMA MUNICIPAL ACT, 1884, AMENDMENT BILL.

The Hon'ble MR. ILBERT moved for leave to introduce a Bill to correct an error in the Burma Municipal Act, 1884. He said:—

"The Chief Commissioner has recently pointed out that the language of one of the rating clauses in the Burma Municipal Act is inconsistent with the proposals which he had previously submitted on the subject, and with some of the other provisions of the Act, and is likely to cause practical difficulties, and he suggested that the language of the clause might possibly be due to a mistake. On looking through the papers connected with the measure I find that, through a mere oversight, the word 'occupation' was substituted for the word 'possession'. It is quite clear from the papers that the substitution was accidental, and not intentional, and that it may be fairly treated as a mere error. Under these circumstances, and as it is important that the error should be corrected as soon as possible, I have no hesitation in asking Your Excellency to suspend the Rules for the Conduct of Business, in order that the Bill may be passed without further delay."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT then introduced the Bill.

The Hon'ble MR. ILBERT having applied to His Excellency the President to suspend the Rules for the Conduct of Business,

THE PRESIDENT declared the Rules suspended.

The Hon'ble MR. ILBERT then moved that the Bill be taken into consideration and passed.

The Motion was put and agreed to.

### SEA PASSENGERS BILL, 1885.

The Hon'ble MR. ILBERT presented the Report of the Select Committee on the Bill to amend the law relating to the carriage of passengers by sea.

### TELEGRAPH BILL, 1885.

The Hon'ble MR. HOPE presented the Report of the Select Committee on the Bill to facilitate the construction of Telegraphs and to amend the Indian Telegraph Act, 1876.

### CRIMINAL PROCEDURE CODE, 1882, BOMBAY DISTRICT POLICE ACT, 1867, PENAL CODE AND PRISONERS' ACT, 1871, AMENDMENT BILL.

The Hon'ble MR. ILBERT moved for leave to introduce a Bill to amend the Code of Criminal Procedure, 1882, the Bombay District Police Act, 1867, the Indian Penal Code and the Prisoners' Act, 1871. He said:—

"The title of this Bill is a little formidable, but the truth is that it is what would be called in England an *omnibus* Bill. It is drawn on instructions from the Home Department, and it makes a number of amendments on very minor points, the necessity for which has been, from time to time, pointed out in sundry office-notes. There is not one of the amendments which touches any matter of serious importance, or which, so far as I can judge, is likely to give rise to any discussion. The reasons for each amendment are fully explained in the Statement of Objects and Reasons appended to the Bill; and under these circumstances I do not think I need trouble the Council by any further explanation of the proposals which the Bill embodies."

The Motion was put and agreed to.

The Council adjourned to Wednesday, the 22nd July, 1885.

D. FITZPATRICK,

Paragraphs 555 to 581 of the Report of the Education Commission on the education of Muhammadans viewed as one of the "classes requiring special treatment," and the remarks of Local Governments and Administrations on that portion of the Commission's report.

### RESOLUTION.

In February 1882 a memorial was addressed to His Excellency the late Viceroy by the National Muhammadan Association calling attention to the present decayed position of Muhammadans in India, to the causes which had, in the opinion of the memorialists, led to this decadence, and to the circumstances which, in their belief, tend to perpetuate that condition. The memorial was fully reported upon by the Local Governments and was also discussed

by the Education Commission. His Excellency the late Viceroy was unable to deal with the question before his departure from India, but left on record an expression of his hope that it would receive full consideration at the hands of his successor. The present Viceroy feels a special interest in the well-being and advancement of the Muhammadan subjects of the Crown in India; and after his landing at Bombay took an early opportunity of assuring the leading members of the Muhammadan community of Western India that he would not fail to enquire into the representations submitted by them with reference to the position and prospects of their co-religionists. His Excellency in Council has now carefully considered the memorial above referred to, together with the correspondence and reports quoted in the preamble, and numerous pamphlets and papers of various descriptions kindly furnished by persons interested in the subject of Muhammadan education.

2. From the statements of the memorialists and the whole course of previous discussions, it is clear that the chief drawback in the way of the advancement of the Muhammadan community in times past has been their inability or unwillingness to take full advantage of the State system of education. From the time of Warren Hastings to the present, this has been a matter of regret to the Government. The failure of the Muhammadans in certain provinces to compete on equal terms with Hindus for State employment has frequently been noticed; and repeated efforts have been made to investigate the causes of this failure and to remove these, so far as the action of Government could deal with them at all. To go no further back than 1871, on the 7th August of that year, the Government of India issued a Resolution upon the condition of the Muhammadan population in the matter of education, in which, after regretting that so large and important a class should anywhere stand aloof from active co-operation with the educational system, and lose the advantages, both material and social, which the other subjects of the Empire enjoy, His Excellency the Earl of Mayo in Council directed that further and more systematic encouragement and recognition should be given to the classical and vernacular languages of the Muhammadans in all Government schools and colleges; that in avowedly English schools established in Muhammadan districts, the appointment of qualified Muhammadan English teachers should be encouraged; that assistance should be given to Muhammadans by grants-in-aid to enable them to open schools of their own; and that greater encouragement should be given to the creation of a vernacular literature for the Muhammadans. The Resolution concluded:—

His Excellency in Council desires to call the attention of Local Governments and Administrations to this subject, and directs that this Resolution be communicated to them and to the three Universities in India, with a view of eliciting their opinions whether, without infringing the fundamental principles of our educational system, some general measures in regard to Muhammadan education might not be adopted, and whether more encouragement might not be given in the University course to Arabic and Persian literature.

3. This Resolution was duly communicated to the Secretary of State, who concurred generally in the policy therein indicated, on the understanding, however, that as regards the encouragement of the languages of Muhammadans in the schools of the country, the Government of India did not contemplate any change in the subjects taught, but only in the mode of instruction.

4. The reports received from the Local Governments and Administrations in reply to this Resolution were reviewed by the Government of India in a Resolution dated 13th June 1873. From these reports His Excellency the Earl of Northbrook in Council inferred that generally wherever the ordinary vernacular of the country was read and written in the Hindustani or Urdu character, there the Muhammadans occupied their proper position in the primary and secondary schools founded or aided by the State. In all provinces where this was the case, the indigenous Muhammadan schools were numerous, and up to a certain point in a thriving condition. They were encouraged and assisted by the Government officers; the grants-in-aid were offered on conditions on the whole fairly suitable for Muhammadan requirements; and the course of primary education was so shaped as to favour the Muhammadan at least equally with the Hindu. On the other hand, in provinces where the Muhammadans were scattered and not numerous, where they mostly spoke a different language from that of the majority of the population, or where their teaching was in a different tongue and according to entirely separate traditions, there the special arrangements requisite to meet these circumstances had not always been organised, and the claims of the Mussalman community had been often almost inevitably disregarded. Where the Muhammadan used a form of the country dialect, he attended with others the primary Government schools for the rudiments of education; but where his mother-tongue was different in speech and in written character, he was naturally precluded from availing himself of this teaching. The peculiar obstacles which kept him apart from the ordinary school system naturally grew stronger as he emerged beyond those elements which are common to all teaching. The difficulties which had arisen from these causes had nowhere been satisfactorily surmounted. The Government expenditure on education being necessarily limited, and insufficient for the support of two separate classes of schools, the money available was naturally bestowed too exclusively upon those classes that not only formed the more numerous section of the people, but were both homogeneous for educational purposes and more eager to make use of the grant. It was however in the colleges, higher schools, and universities that the absence or backwardness of Muhammadans was most conspicuous. The reports all agreed that the existing system had not attracted them to the higher ranges of the educational course, or induced them to persevere up to the point at which studies impress real culture and fit young men for success in the services and open professions. The Resolution went on to observe:—

How far this state of things can be attributed to the want of a connected scheme of courses of instruction suitable for Muhammadans, leading up through the lower to the higher standards, and how far to the general disinclination of Muhammadans to exchange their earlier modes of study for others more consonant with modern habits of thought, is a question which need not here be closely examined. It may be conjectured that, at the present epoch, Muhammadans are discovering that the ancient paths are unprofitable to stand upon, while their traditions and natural predilections still hold them back from setting out energetically upon newly opened roads. For while it is confessed that Muhammadans nowhere appear in satisfactory strength upon the lists of our higher schools, colleges, or universities, on the other hand those institutions which have purposely preserved the ancient exclusively Muhammadan type, and which have been restricted to instruction in the languages and sciences which belong peculiarly to Muhammadanism, have also been found to be falling gradually but steadily, into neglect. We may perhaps assume, therefore, that the Muhammadans are not so much averse to the subjects which the English Government has decided to teach, as to the modes or machinery through which teaching is offered. And if it thus appear that to the traditions and reasonable hesitation which keep aloof our Muhammadan fellow-subjects are added certain obstacles which our system itself interposes—either by using a language that is unfamiliar or machinery that is uncongenial—it is plain that many of the drawbacks to the universality of our educational system are susceptible of removal.

His Excellency in Council, therefore, perceives with gratification from the reports now before him that judicious endeavours are being made to diminish, so far as they can be remedied, these inequalities in the distribution of State aid, and to place the Muhammadans, wherever this may be possible, upon a more even footing with the general community throughout the whole course of our public instruction.

5. The Resolution then proceeded to notice in general terms the measures adopted in the several provinces to give effect to the views of the Supreme Government. Particulars of these will be given below when reviewing their effects and results in each province up to date.

The Governor General in Council assumed that in all provinces where Muhammadans were few, and often exposed to all the disadvantages which affect a religious minority without wealth or superior influence, it would be the special care of Government to satisfy themselves that these endeavours to encourage the education of Muhammadans would be persistently maintained. It was recognised as the paramount duty of an Imperial department thus to fill up the gaps in the ranks of elementary education, and to range the various divisions of the vast population in one advancing line of even progress.

6. The Resolution thus described the principles upon which the education of Muhammadans should be encouraged by the State:—

As to the principles upon which the education of Muhammadans should be encouraged by the State, His Excellency in Council need say little here, for they appear to be understood

by all Administrations, and with general consent accepted by the people,—by none more openly than by the leading Muhammadans of India. The State has only to apply its educational apparatus and aid, so as they may best adjust themselves to existing languages and habits of thought among all classes of the people, without diverging from its set mark and final purpose—the better diffusion and advancement of real knowledge in India. His Excellency in Council is anxious that the attainment of this object shall in no class of the population be hindered by differences of language or of custom; and with this view the Government of India is very willing that the entire body of Muhammadan (as of Hindu) classic literature shall be admitted and take rank among the higher subjects of secular study; and that the languages shall form an important part of the examinations for University degrees. In short, His Excellency in Council is prepared to listen favourably to any well-considered proposal for modifying or extending in these directions the existing educational system. One measure to which the Resolution of 1871 particularly adverted was the development of a vernacular literature for Muhammadans. His Excellency in Council would be slow to believe that such a literature still needed creation. To this suggestion Local Governments attach differing degrees of importance or practicability; and, on the whole, His Excellency in Council sees reason to believe that we must be cautious in attempting to proceed in this direction much beyond the point we have reached already. It is most desirable to frame a series of high class text-books, to encourage the printing and publication of valuable Muhammadan works, and to offer prizes either for good translations of foreign works or for original studies. But in regard to the patronage of what may be properly called literature, the exercise of it must necessarily be restricted by the pressing demands of general education upon our finance, and by the difficulty of making a fair selection, or of distributing any money available with due discrimination and indubitable advantage.

The Resolution concluded as follows:—

His Excellency in Council has now reviewed rapidly the general measures which have been taken, or are being taken, for the encouragement of education among Muhammadans. The papers before him, received from all parts of British India, show that the Earl of Mayo's Resolution has succeeded in its main purpose of drawing the attention of all Administrations to needs and obligations which before had perhaps not everywhere been adequately realised. These needs and obligations may now be intrusted with confidence to the care of Local Governments. The Supreme Government has satisfied itself that the principles upon which Muhammadan education should be supported or subsidised are clearly understood; while the conditions and rate of progress in this as in all branches of public instruction, the range of its operations, and all other practical details, depend chiefly in each province upon local circumstances, administrative skill, and financial resources.

7. About this time a separate correspondence was being carried on with the Government of Bengal on the subject of the management of the Calcutta Madrissa, established by Warren Hastings in 1780, and with reference to the status and condition of the Madrissa and College at Hooghly supported out of an endowment bequeathed in 1806 by Mahommed Mohsin in trust for "pious uses." In connection with these Mohsin funds, not only had large accumulations to the credit of the trust been permitted to accrue, but the funds had been in part appropriated to the benefit of a wholly different class from that for which the endowment was destined. The Government of India accordingly desired that the whole subject of the application of the funds in promotion of Muhammadan education should be fully reconsidered and plans matured for their disbursement more in consonance with the intentions of Mahommed Mohsin. The Government of Bengal, in its letter dated the 17th August 1872, in submitting to the Government of India the views of the Lieutenant-Governor in regard to the general measures to be taken for the promotion of Muhammadan education in Bengal, put forward certain suggestions as to the utilisation of these funds. It proposed to reform the Calcutta and the Hooghly Madrissas, and to take upon itself the cost of the non-Mussalman side of the Hooghly College, hitherto entirely supported from the Mohsin funds, but at the same time to accept from the funds a fair contribution for the Madrissa attached to the College and for special benefits to Muhammadan students studying in the College. As, in the opinion of the Lieutenant-Governor (Sir George Campbell), it would be difficult to justify the devotion of provincial funds to special Muhammadan education in the province generally, while the Mohsin endowment supplied a legitimate means of effecting the purpose in view, the Government of Bengal further expressed its intention to devote the money thus saved from the Hooghly College to aid and extend Muhammadan education elsewhere. Proposals for the establishment of new madrissas at Dacca and other local centres in Eastern and Northern Bengal were then explained in detail; but as the Mohsin funds would not be adequate to enable the Government to equip efficiently these new madrissas, the Lieutenant-Governor trusted

that the Government of India would contribute to make up the difference. The main questions left for the decision of the Government of India were (1) whether the Government of India approved of the proposed distribution of the Mohsin Funds and of the establishment of madrissas; and (2) whether the Government of India would give some special aid towards the establishment of madrissas in Eastern and Northern Bengal.

8. In reply the Government of India, on 13th June 1873, wrote to the Government of Bengal as follows:—

> The general principles upon which the Lieutenant-Governor desires to see these* institutions administered and directed for the better promotion of high Muhammadan education appear to the Government of India to be sound, and the obstacles to working upon them are not practically insurmountable. * * * It is agreed, by common consent, that the intention of the British Government in supporting these institutions is to give to Muhammadans their full share of high-class intellectual training and of sound knowledge useful to them in life, combined but not clashing with that Oriental erudition which belongs to their race and country. And it is also agreed that, in shaping our methods towards these ends, we are bound to avoid, so far as may be possible, any unwelcome abandonment of the old ways of Muhammadan study, or any slight upon the classic learning of Muhammadan Asia. On the contrary, the importance to Muhammadans of such studies is admitted, and their intrinsic value as instruments of literary training in this country is not under-rated.
>
> But the point of difficulty is also recognised by all to whom the subject is familiar. It lies in the problem of framing for Muhammadans a course of secular education, which is the only kind that can be given in Government institutions, upon the study of a literature which on so many sides of it is intimately connected with their religion and doctrinal tenets.
>
> His Excellency in Council, nevertheless, believes that the problem thus presented is capable of solution; that a course of study can be laid down which shall maintain and encourage the cultivation of Arabic and Persian, of the history, literature, and philosophy which those languages convey, of their logical system, and of such parts of Muhammadan law as deal with purely temporal interests, without compromising the Government to the support of any peculiar school of religious teaching.
>
> His Excellency in Council is willing to sanction the preliminaries of any plan for reconstituting the two madrissas, which may fall within the limits of these principles.

* Calcutta and Hooghly Madrissas.

After referring with approval to the details of the proposals regarding the reorganisation of the madrissas, the Government of India continued with reference to the Hooghly Institution:—

> The Lieutenant-Governor's proposition is to withdraw the greater part of the Mohsin Funds from the Hooghly College, which has no particular local claim, and to use the money for encouraging Muhammadan education elsewhere, apportioning it according to need. So much of the present cost of the Hooghly College as would be left unprovided for by this subtraction of the endowment funds might, His Honour suggests, be then defrayed by the State.
>
> His Excellency in Council approves the outlines of this proposal, and considers that some such arrangement would be consistent with the purposes of the Mohsin Endowment, and generally advantageous to Muhammadan education. But, with regard to the employment of Mohsin Funds thus to be set free, His Excellency remarks that there are such valid objections to any separate system of denominational schools or colleges that the Government of India prefers not to move further in that direction, although there is no intention of disturbing what may already exist. His Excellency in Council thinks that the memorandum of Mr. Bernard, and the Lieutenant-Governor's observations upon it, suggest the alternative of strengthening certain selected Government institutions on their Muhammadan side, instead of setting up new ones. For instance, the high schools or colleges at Chittagong and Dacca, in the midst of a great Muhammadan population, might be thus reinforced both in the way of teaching Arabic and Persian more thoroughly, and of generally cheapening education to Muhammadans by scholarships and the like. Or a portion of the Mohsin Funds might go toward increasing the public grants-in-aid of Muhammadan schools and colleges.

The details of any scheme which might be worked out upon this design were left in the hands of the Bengal Government. As to the request for Imperial aid, the Government of India consented, chiefly in view of Sir George Campbell's scheme for encouraging Muhammadan education, to increase the regular provincial assignment by an annual additional grant of Rs. 50,000.

9. On the 29th July 1873 the Government of Bengal forwarded for the information of the Government of India a copy of a Resolution recorded by the Lieutenant-Governor explaining the measures which Sir George Campbell had adopted consequent on the instructions of the Government of India set forth

above and the additional assignment of Rs. 50,000. The measures proposed included a liberal scheme of scholarships for Muhammadan youths attending colleges and zillah schools, especially for those lads who should elect to pursue the ordinary English course of study and to read physical science.

Despatch from Home Department, No. 5, dated the 30th June 1873.
Despatch from Financial Department, No. 295, dated the 21st July 1873.
Despatch from Home Department, No. 6, dated the 1st September 1873.

10. These proceedings were reported to the Secretary of State in the despatches marginally noted, and His Lordship on 13th November 1873 replied as follows :—

I fully concur in the views stated in the elaborate Resolution recorded by Your Excellency in Council, under date of June the 30th, and observe with much gratification that throughout India efforts are being made with great judgment and earnestness to induce the Muhammadans to partake of the many benefits of our educational system.

I approve of the proceedings of Your Excellency in Council in relation to Muhammadan education in Bengal.

Your Lordship in Council is fully aware of the many and peculiar difficulties which surround the subject, and has issued some very judicious and discriminating instructions to the Government of Bengal. I approve of the additional assignment of Rs. 50,000 which you have granted to that Government.

With your despatch of the 1st of September you have transmitted to me a letter from the Lieutenant-Governor of Bengal explanatory of the measures which he has adopted consequent on your instructions and the additional assignment. The arrangements of the Lieutenant-Governor indicate a very careful disposition of the means placed at his disposal, and an intelligent appreciation of the great importance of the whole subject.

I cannot conclude without an expression of my cordial satisfaction with the careful and complete manner in which Your Excellency has dealt with a question, surrounded with so many difficulties, and so intimately connected with the best interests of a very large and influential portion of Her Majesty's subjects in India.

**11. The effect of the measures adopted by the various Local Governments in consequence of the Resolution of Earl Mayo's Government in 1871 is very fully discussed in the Report of the Education Commission, with reference** to the statistics of the year 1881-82. The facts for each of the principal provinces may be summarised as follows :—

(A) In *Madras*, on receipt of the Orders of the Government of India, the Local Government, notwithstanding a certain amount of opposition on the part of the Educational authorities, directed the establishment of elementary Muhammadan schools, and corresponding classes in other schools, at the principal centres of Muhammadan population. In these classes and schools instruction was to be given in Urdu. Arrangements were initiated for training Muhammadan teachers ; and Persian was to be taught in any high school where there was a sufficient demand for this. By the University special recognition was accorded to Arabic and Persian. Of the result of these measures, the Commission observe :—

The special schools maintained by Government were 11 in number, 7 of them being Anglo-vernacular middle schools, and 4 Anglo-vernacular primary schools. Nine schools, Anglo-vernacular, or vernacular, were maintained by municipalities, and of aided schools with a special provision for Mussalman pupils there were 4 Anglo-vernacular and 210 vernacular. Other inducements had also been held out to Mussalman students. They were admitted in all schools upon payment of half the usual fees ; seven scholarships were specially reserved for Mussalman candidates at the University examinations ; a special Deputy Inspector of Mussalman schools had been appointed ; an elementary normal school had been established at Madras ; and the University of Madras still continued to allot to the Arabic and Persian languages at its examinations a maximum of marks considerably larger than that carried by vernacular languages. The combined results of these measures were eminently satisfactory. In place of the 5,581 Mussalmans at school in 1870-71, the returns for 1880-81 give 22,075, or 6·7 per cent. of the total number under instruction ; while the percentage of Mussalmans to the total population of the Presidency is only 6 per cent. The proportion of boys at school to those of a school-going age is for Muhammadans 15·1, for Hindus 13·7. But it is not in numbers only that progress has been made. Taking the results of the middle school examinations, we find that the percentage of passed candidates to those examined was, for Brahmins 44, for Hindus not Brahmins 35, for Muhammadans 41. In the lower University examinations, taking only the percentage of successful candidates to those examined, the results for 1880-81 are equally satisfactory. * * * But of college education, beyond the first examination in Arts, Muhammadans, speaking generally, do not avail themselves at all, though there is no reason to suppose that the general system of education beyond that standard is not as well suited to the Muhammadans as that below it.

To the foregoing account it may be added that under orders issued in 1882 the Government of Madras, with the object of encouraging Muhammadans to enter the Medical Service, has reserved for that community a certain number of stipendiary appointments in the medical apprentice grade.

(B) In *Bombay*, excluding Sind, the percentage of Muhammadans to the total population was 7·1 in 1871, while 8·7 per cent. of the scholars in the Presidency were of that religion. Sind was no doubt in a very backward state, the feeling of the population there being strongly against the study of English. Out of a population of 1,354,781, only 10,115 were in schools known to the Department, and of that number only 31·8 per cent. were Mussalmans, though the proportion of Mussalmans to the rest of the population was as 4 to 1. Taking the Presidency as a whole, the indifference of the Muhammadans was not, however, so much to education generally as to education in the higher branches. They came freely to the lower schools, but failed to prosecute their studies to the higher standards. The Director (Mr. Peile), in considering the suggestions of the Government of India, pointed out that poverty alone would not account for this neglect of high education, for beggar Brahmins abounded in the high schools. He attributed it to poverty and depressed social status combined; but there was probably also in the course of study itself something discouraging to Muhammadan youths. The special measures adopted on Mr. Peile's suggestion were, therefore, designed to stimulate the progress both of higher and lower education. The University placed Persian on the list of languages that might be taken up for a degree, and a Professor of Arabic and Persian was appointed to the Elphinstone College. In the Vernacular Training College special provision was made for training Muhammadan teachers; and Persian instruction in all classes of schools received particular attention. Later on the number of special Mussalman schools was increased and Mussalman Deputy Inspectors appointed to inspect them. Of the effect of these steps, the Commission write :—

> In 1871-72 the number of Mussalmans at school, according to Mr. Peile's estimate, was 15,577, or about 8·7 per cent. of the total number at school; in 1881-82 the number had risen to 41,548, or 11·7 per cent. of the total number at school. There were also in the latter year 22,284 Muhammadan children in indigenous schools, which would raise the percentage to 14·7.

The Bombay Provincial Report, drawn up for the Commission, gives an account of the good work which is now being done in this direction by the Anjuman-i-Islam, a private institution started by the Muhammadan community. It states :—

> The most promising feature in connection with the progress of Mussalman education during the past decade (1871—1881) has been the formation and recognition of a society known as the Anjuman-i-Islam, which, it is hoped, will in time establish a network of secular schools in Bombay. This society is so important that it was felt advisable to make special rules for its assistance. At present it receives a fixed subsidy of Rs. 500 a month from Government. By the end of the year 1880-81 the society's first school was fairly started. Its Hindustani and Anglo-Hindustani Departments, together with a large class of children reading the Kuran, contained in all 102 pupils. Since then the operations of the society have been extended.

(C) In *Bengal* there can be little doubt that the condition of the Muhammadan population is more depressed than elsewhere; and it is on the state of things in that province that the memorial now before Government bases most of its statements. At the same time it must be admitted that there is here perhaps less reason than elsewhere for making large separate provision for the Muhammadan element of the population, the vast majority of the Mussalmans being cultivators speaking the Bengali vernacular of their Hindu neighbours. On receipt however of the orders of the Government of India, the Local Government arranged for teaching Urdu and Arabic or Persian up to the Entrance standard in all zillah schools; and wherever there was a sufficient demand, a special class was formed to study Arabic and Persian after the Mussalman fashion. The Persian language was added by the University to the subjects for the F. A. and B. A. Examinations; and in the Grant-in-aid Code specially liberal terms were offered to schools managed by Muhammadans. The reforms introduced in the management of the Calcutta Madrissa and Mohsin Endowments

have been noticed above. New madrissas were opened at Dacca, Rajshahye and Chittagong, each under an Arabic scholar of repute assisted by competent moulvies. In each the full course of the Calcutta Madrissa was to be taught, and English was to be added if desired by the pupils. Scholarships for Muhammadans tenable in madrissas or in English colleges and schools were founded, and Rs. 18,000 were allotted to paying two-thirds of the fees of Muhammadan pupils in Government colleges and schools outside Calcutta, and to the payment of moulvies in those schools. The muktabs or mosque schools were soon after brought into relationship to the indigenous primary school system without interfering with their religious side. Many hundreds of muktabs are now aided in this way. These efforts have to some extent been successful, and the Mussalmans are not merely coming more freely to the vernacular schools, but taking a more prominent place in the returns of higher education. Muhammadans formed in 1871 about 32 per cent. of the population of the province. The proportion of Mussalman boys to the total school attendance, which in 1871-72 was only 14 per cent., had increased in 1880-81 to nearly 24 per cent. In primary vernacular boys' schools the proportion was in the latter year 24·6 per cent.; in middle schools, English and vernacular, over 13 per cent.; in high schools, under 9 per cent.; while in English colleges it was only 3·8 per cent. as against 4·04 per cent. in 1871. The rapid fall in the proportion of Mussalman students in schools of the higher classes, and the reduction in the proportion in colleges below the figure of 1871, is not satisfactory. The opinion of the Education Commission is however favourable to ultimate progress:—

> Owing to the ready way in which Mussalmans have accepted the primary system of instruction, there is a very satisfactory increase in the total number of pupils of that race, which has risen from 28,148 in 1871 to 262,108 (including students in technical schools and colleges) in 1882; the proportion of Mussalmans being now 23·8 per cent. against 14·4 in 1871. In each of the Madrissas of Hooghly, Dacca, Rajshahye, and Chittagong the full Arabic course of the Calcutta Madrissa is taught, and in each also instruction in English is given to all pupils who wish it. In the Dacca Madrissa the course in English is carried up to the Entrance Standard. Of 1,089 pupils in the six madrissas, as many as 322 learn English. The privilege of reading at one-third of the ordinary fees has also, by recent orders of the Government of Bengal, been extended to Muhammadan students of any college in Calcutta, whether Government or other. In the case of non-Government colleges, aided and unaided, the amount of the remissions is paid from the Provincial Revenues.

Recently a still further concession to the demands of the Muhammadan community has been made; and in order to provide larger facilities of instruction in English, the Calcutta Madrissa has been raised to the position of a college. Notwithstanding this alteration in the status of the institution, the privilege has been continued, whereby Muhammadan students attending the college have two-thirds of their fees paid out of the Mohsin Endowment. On the other hand, the Rajshahye Madrissa, which was neither very successful nor much wanted, has, with the concurrence of the leading Muhammadans, been closed, the funds being diverted to the Calcutta institution.

The National Muhammadan Association is, as the Government of Bengal remarks, mistaken in supposing that the Mohsin Fund is now diverted to other than Muhammadan objects, or that its receipts are allowed to accumulate unutilised.

(D) *North-Western Provinces.*—Here the Muhammadans formed in 1871 about 13½ per cent. of the total population, while the total number in school was 17·8 of the scholars. The course of study was such as to afford every encouragement to Muhammadan pupils. In 1881 the percentage of Mussalmans to the total number of students under instruction was 14½ per cent. In English colleges they constituted a proportion of 13 per cent., and in English high and middle schools of 20 per cent. The figures therefore show a slight falling off, which it is hoped may soon be recovered. There is much at the present time which is encouraging in the state of feeling on this subject among the leading Muhammadan gentlemen of the province. They have under the enlightened guidance of Syud Ahmed, C.S.I., made great efforts to provide for their countrymen facilities for the prosecution of the higher education. These efforts have resulted in the founding of the Aligarh College. It was originally intended to confine this college to Mussalman youths alone, but it has since been opened to Hindus. The Government of India entirely concurs with the Education Commission in the praise which they accord to this undertaking:—

> The Aligarh Society has set an example which, if followed to any large extent, will solve the problem of national education; and it is difficult to speak in words of too high praise of those whose labours have been so strenuous, or to overrate the value of the ally which the State has gained in the cause of education and advancement.

(E) *Oudh.*—The population of Oudh contains 10 per cent. of Muhammadans. The proportion of Mussalmans to the total number attending Government and aided schools in 1871-72 was 24·8 per cent. In 1881-82 the proportion had fallen to short of 23 per cent. The falling off has unfortunately been in the higher grades of schools. But on the whole there is no reason to believe that Muhammadan education is neglected in Oudh, or that the Mussalman community there is indifferent to the advantages held out to its members. With the general revival of educational effort in the North-Western Provinces and Oudh which may be expected to follow on the report of the Education Commission, the position of this special class will also, it may be hoped, improve.

(F) *Punjab.*—Muhammadans form over 51 per cent. of the population of the Punjab. In 1871-72, 35 per cent. of the total number of pupils under instruction were Mussalmans. The Local Government saw no reason to adopt any special measures for the promotion of Muhammadan education in consequence of the Resolution of 1871. It is, therefore, satisfactory to find that in 1881 at the end of the decade the percentage of Mussalman pupils at school had risen to over 38 per cent., and that the increase had been in the higher rather than in the lower class of schools.

(G) *Central Provinces.*—The Muhammadans here form only 2·5 per cent. of the population, but are found to be fully alive to the importance of education, their attendance in the higher schools being especially good. Arabic and Persian classes are opened in all zillah schools, where the demand warrants this.

**12. From the foregoing paragraphs it is evident that a considerable improvement has taken place within the past 10 or 15 years in the relations of the Muhammadan community to the educational system of the country, and that many of the drawbacks of which complaints might justly have been made in 1870 have now been removed. The Education Commission have however formulated specific proposals for the further encouragement of Muhammadan education. In proposing these, the Commission remark as follows on the general subject:—**

> Apart from the social and historical conditions of the Muhammadan community in India, there are causes of a strictly educational character which heavily weight it in the race of life. The teaching of the mosque must precede the lessons of the school. The one object of a young Hindu is to obtain an education which will fit him for an official or a professional career. But before the young Muhammadan is allowed to turn his thoughts to secular instruction, he must commonly pass some years in going through a course of sacred learning. The Muhammadan boy, therefore, enters school later than the Hindu. In the second place, he very often leaves school at an earlier age. The Muhammadan parent belonging to the better classes is usually poorer than the Hindu parent in a corresponding social position. He cannot afford to give his son so complete an education. In the third place, irrespectively of his worldly means, the Muhammadan parent often chooses for his son while at school an education which will secure for him an honoured place among the learned of his own community, rather than one which will command a success in the modern professions or in official life. The years which the young Hindu gives to English and Mathematics in a public school, the young Muhammadan devotes in a madrissa to Arabic and the law and theology of Islam. When such an education is completed, it is to the vocation of a man of learning, rather than to the more profitable professions, that the thoughts of a promising Muhammadan youth naturally turn. The above are the three principal causes of an educational character which retard the prosperity of the Mussalmans. It would be beyond the province of a strictly Educational Report to attempt generalisations based upon the social or historical conditions which affect the Muhammadan community in India.
>
> The recommendations we proceed to make have been framed, we believe, not merely with a regard to justice, but with a leaning towards generosity. They are based not more upon the suggestions contained in the Provincial Reports than upon the evidence of witnesses and the representations of public bodies. They deal, we think, with every form of complaint that is grounded in fact, and they contemplate the various circumstances of various localities.

Few of them, indeed, are of general application; many of them, we trust, will before long be rendered obsolete. Special encouragement to any class is in itself an evil; and it will be a sore reproach to the Mussalmans if the pride they have shown in other matters does not stir them up to a course of honourable activity; to a determination that whatever their backwardness in the past, they will not suffer themselves to be outstripped in the future; to a conviction that self-help and self-sacrifice are at once nobler principles of conduct and surer paths to worldly success than sectarian reserve or the hope of exceptional indulgence.

It is only by frankly placing themselves in line with the Hindus, and taking full advantage of the Government system of high and especially of English education, that the Muhammadans can hope fairly to hold their own in respect of the better description of State appointments. This is clearly seen by the memorialists themselves, and the reports of Local Governments show that in most provinces a real advance has been made in this respect. The recommendations of the Commission are, as they themselves point out, not of universal application, and none of them need be taken to imply a leaning towards the maintenance of a distinctly Oriental training throughout the curriculum for Muhammadan pupils. The object of the Commission is to attract Muhammadan scholars by giving adequate prominence to those subjects to which their parents attach importance, and to hold out special inducements to a backward class; but in applying the recommendations, due regard is everywhere to be paid to local circumstances, and care must be taken to avoid unnecessary widening of the line between Muhammadan and other classes of the community.

The recommendations are as follow:—

(1) that the special encouragement of Muhammadan education be regarded as a legitimate charge on Local, on Municipal, and on Provincial Funds;

(2) that indigenous Muhammadan schools be liberally encouraged to add purely secular subjects to their course of instruction;

(3) that special standards for Muhammadan primary schools be prescribed;

(4) that Hindustani be the principal medium for imparting instruction to Muhammadans in primary and middle schools, except in localities where the Muhammadan community desire that some other language be adopted;

(5) that the official vernacular, in places where it is not Hindustani, be added as a voluntary subject to the curriculum of primary and middle schools for Muhammadans maintained from public funds, and that arithmetic and accounts be taught through the medium of that vernacular;

(6) that in localities where Muhammadans form a fair proportion of the population, provision be made in middle and high schools maintained from public funds for imparting instruction in the Hindustani and Persian languages;

(7) that higher English education for Muhammadans, being the kind of education in which that community needs special help, be liberally encouraged;

(8) that where necessary a graduated system of special scholarships for Muhammadans be established; to be awarded (*a*) in primary schools, and tenable in middle schools; (*b*) in middle schools, and tenable in high schools; (*c*) on the results of the Matriculation and First Arts Examinations, and tenable in colleges;

(9) that in all classes of schools maintained from public funds a certain proportion of free studentships be expressly reserved for Muhammadan students;

(10) that in places where educational endowments for the benefit of Muhammadans exist, and are under the management of Government, the funds arising from such endowments be devoted to the advancement of education among Muhammadans exclusively;

(11) that where Muhammadan endowments exist, and are under the management of private individuals or bodies, inducements by liberal grants-in-aid be offered to them to establish English-teaching schools or colleges on the grant-in-aid system;

(12) that, where necessary, normal schools or classes for the training of Muhammadan teachers be established;

(13) that, wherever instruction is given in Muhammadan schools through the medium of Hindustani, endeavours be made to secure, as far as possible, Muhammadan teachers to give such instruction;

(14) that Muhammadan inspecting officers be employed more largely than hitherto for the inspection of primary schools for Muhammadans;

(15) that associations for the promotion of Muhammadan education be recognised and encouraged;

(16) that in the annual reports on public instruction a special section be devoted to Muhammadan education;

(17) that the attention of Local Governments be invited to the question of the proportion in which patronage is distributed among educated Muhammadans and others.

13. The Education Commission have dealt so completely with the whole question of Muhammadan education, that the appointment of a Special Commission to enquire into the subject, as suggested by the memorialists, is no longer necessary. The recommendations of the Commission have been considered by Local Governments, with the following results.

(A) *Madras.*—The Madras Government remarks:—

Special encouragement is already held out to Muhammadan education, and a further advance is contemplated in this direction, though not exactly on the lines suggested by the Commission. It is not thought desirable to dissociate this class so distinctly from the ordinary scheme of teaching, as, except in a few localities, Muhammadans avail themselves freely of the advantages of the existing system. Thus neither special schools nor special normal classes seem necessary, while the recommendations as to the Persian and Hindustani languages are hardly applicable to the peculiar linguistic conditions of the South, and ignore the extent to which the Muhammadans use its vernacular languages. At the same time the object of the recommendations meets with cordial approval.

It has been shown in paragraph 11 above that the condition of the Muhammadans in Southern India is, from an educational point of view, by no means unsatisfactory. All funds, provincial, local, and municipal, are bound by the Grant-in-aid Code to give special encouragement to Muhammadan education. The experiment of separate schools has not been successful, and is not, the Director of Public Instruction thinks, necessary, except to some extent in Madras and one or two large Muhammadan centres and for the Moplahs on the west coast. Some increase of the subordinate inspecting agency for Muhammadan schools is, however, admittedly desirable. While the broad results for the whole province leave perhaps little to desire, the Governor General in Council thinks it would be well were the officers of the Educational Department directed to examine more particularly, in communication with district officers and the leading members of the Muhammadan community, the educational provision for the members of that community in each district, with a view to seeing whether in special localities more effect should not be given to some of the recommendations of the Commission. The backward state of the Moplahs seems especially to call for attention. The Governor General in Council is disposed to agree with the Madras Government that it is undesirable to accentuate the difference between Muhammadans and Hindus by making Hindustani in lieu of the current vernacular the medium of instruction, where the Muhammadans show themselves ready to attend the ordinary schools of the country. Where this is the case, the local vernacular should be the ordinary medium, the special wants of Muhammadan youths being met by the formation of Hindustani classes and teaching them the Arabic character. There may however be tracts where Muhammadan feeling would prefer the establishment of special schools, and in such places

the recommendations of the Commission should receive attention. In secondary schools of all kinds facilities for the study of Arabic or Persian should be offered wherever there is a real demand for this.

(B) *Bombay.*—The Local Government merely remarks that "the special wants of Muhammadans have had attention"; refers to the monthly grant of Rs. 500 towards the Anjuman-i-Islam school; and adds that "the Governor in Council is prepared to aid further in the extension of Muhammadan education should opportunity offer."

Although here, as in Madras, the educational conditions of the Muhammadan population taken as a whole is not altogether unsatisfactory, there can be no doubt that in certain localities, as in Sind, there is an urgent call for special measures; and the Governor General in Council would wish to see the same further examination of local wants initiated that has been suggested for Madras. Some steps should certainly be taken to encourage Muhammadans to read up to the higher standards. At present here, as in other provinces, they specially fail to pursue their studies beyond the lower stages.

(C) *Bengal.*—The Lieutenant-Governor remarks:—

> The proposals for the support of special Muhammadan schools, and for the special encouragement of Muhammadan education in ordinary schools, are worthy of liberal consideration. Many of them are already in force in this province; the chief innovation being that for the creation of a special class of scholarships for Muhammadan students. To this, no doubt, objection may be raised, just as objection has been, not without force, raised to the principle of this special proposal in Mr. Barbour's dissent. The Lieutenant-Governor, however, thinks that if it can be shown that in any locality the number of Muhammadans who gain scholarships is not in due proportion to their numbers and position, a fair case will have been made out for exceptional, though he will also add temporary, treatment. The other recommendations under this head are conceived in a liberal spirit, and may be accepted, except in so far as they recognise the substitution of Hindustani for the Hindi vernacular. If by Hindustani be meant that language which, written in the Hindi or Nagri character, is the common speech alike of Muhammadan and Hindu in Behar, the Lieutenant-Governor has no objection to offer. But if the recommendation mean that the policy which has prevailed for some years, of conveying primary instruction to Muhammadans in Behar through Hindustani expressed in the Hindi character, is to be reversed, then the Lieutenant-Governor must very strongly dissent from the recommendation as being opposed to the true interests of the Muhammadans of Behar. Finally, the Lieutenant-Governor is not disposed to support the establishment of normal schools or classes for Muhammadan teachers exclusively. Little is gained by such separatism.

The Governor General in Council trusts that the Bengal Government will give effect to its views. There is no intention to reverse the decision of the Local Government in the matter of adoption of Hindi as the Court language of Behar, and as the ordinary medium of instruction in the primary schools of that province. Where the Muhammadan population is strong and likely to attach special importance to Oriental teaching of a Muhammadan type, care should be taken to meet this want, with a view to making the schools popular and inducing the better classes to allow their children to push their studies eventually to a higher standard, especially in English. But equal care is necessary to prevent the absolute separation of the Muhammadan community from the rest of this population. It must also be borne in mind that it is only by an acquaintance with the current vernacular that Muhammadans can hope to secure employment. It has already been shown in this Resolution that very much has been done by the Local Government to meet the requirements of the Muhammadans in Bengal, and it may fairly be said that they have now every opportunity offered them of securing a good education. If it is found that anything further is required in any part of the province, or at any particular stage of the educational course, to advance the progress of the Muhammadan community, the Governor General in Council feels sure that His Honour the Lieutenant-Governor will not stint the necessary outlay.

(D) *The North-Western Provinces and Oudh.*—The Lieutenant-Governor considers that no special measures on behalf of Muhammadans are required, as Mussalman education in these provinces is by no means in a backward state. The interests of the class will, it is said, be duly attended to, and aid and encouragement on the part of the State will not be wanting.

Here it would seem to be sufficient if enquiry is made as to the necessity of special measures in any locality where the number of Muhammadans is unduly low in any grade of the educational course.

(E) *The Punjab.*—Here also no special measures are thought to be called for. The Muhammadans are not backward in taking advantage of the existing educational facilities.

(F) *The Central Provinces.*—The Chief Commissioner is opposed to the adoption of special measures in aid of the Muhammadans, but it has been seen above that nothing is really required in these provinces. The Educational authorities may be directed to keep a watchful eye on any localities where the Muhammadan population is large and backward.

(G) *Assam.*—The Muhammadans here are chiefly the agriculturists of Sylbet, who are not an impoverished class and whose vernacular is Bengali. Sufficient provision is already made for Persian instruction in secondary schools where there is a demand for this. All scholars unable to pay fees are admitted free to schools in Assam.

(H) *Coorg.*—Sufficient provision is already made for the few Muhammadans there are in Coorg.

(I) *Berar.*—Special provision has already been made for Muhammadans in the Assigned Districts, and the percentage of Mussalmans in the schools is larger in proportion than that of the Hindus.

(J) *British Burma.*—The questions discussed in this Resolution have little or no application to British Burma, where there is hardly any indigenous Muhammadan population, where the resident Muhammadan population is but 4½ per cent. of the whole, and where the great bulk of the people are Buddhists. The Mussalmans in Burma are, the Chief Commissioner reports, on a fair equality with the other sections of the population.

14. On the whole, the Governor General in Council is satisfied that the attention which has once more been drawn to the subject of Muhammadan education will have the best results. His Excellency in Council attaches special importance to recommendation (16) of the Commission's Report, "that in the annual reports on public instruction a special section be devoted to Muhammadan education." These reports should be precise and detailed, and discuss the position and advancement of the Muhammadan community, not merely as a whole, but with reference to local variations, in order that the Government of India may be kept fully informed as to the state and progress of this important section of the community. For the attraction of Muhammadans to higher education, a liberal provision of scholarships is essential, and their wants must not be overlooked in the framing of any general scheme of scholarships for any province, in pursuance of the orders of the Government of India on the Report of the Education Commission. Probably the appointment of special Muhammadan Inspecting Officers to inspect not merely primary Muhammadan schools, but to enquire into Muhammadan education generally, would have a good effect in Bengal and other places where the Muhammadans are very backward. Such officers would bring the peculiar wants of their co-religionists more thoroughly to notice than can perhaps be expected from subordinate officers of a different faith. The action taken in those and other directions should be fully explained in the annual reports.

15. Returning again to the memorial of the National Muhammadan Association, the Governor General in Council observes that, apart from the general educational drawbacks of which they complain, and to remedy which it has been shown that much has already been done, the memorialists attribute the present depressed condition of their co-religionists to the following specific causes:—

(1) the abolition of Persian as the official language and the substitution of English or the vernacular, the effect of which has been that Hindus have generally supplanted the Muhammadans in the Government service;

(2) the further orders of 1864, making a knowledge of English essential in the examinations leading to the Native Bar and judicial service, which again gave a special advantage to the Hindus,

(3) the resumption proceedings of 1828—1846, which are said to have resulted in the confiscation of numerous rent-free grants devoted more or less to educational purposes, and also in the ruin of many ancient families.

16. The memorialists themselves are not desirous of seeing Persian revived as the official language. Nor do they propose to revert to vernacular examinations for pleaderships and munsifships. They recognise the fact that the Muhammadans, if they are to succeed at all, must rise to the educational level of the day, and their prayer, which is for assistance to enable them to rise, has been fully met in the foregoing paragraphs. But they find a special grievance in the existing regulations for pleadership examinations in Bengal, which are said to preclude all save graduates in law of the University from becoming pleaders and so eligible for the Subordinate Judicial Service. The memorialists desire that admission to this service should be by special competitive examination.

On this subject the Honourable Judges of the Calcutta High Court remark :—

The memorialists, in paragraph 22 of their memorial, ascribe the numerical inferiority of Muhammadans in the Subordinate Judicial Service to the conditions laid down in the year 1865 or 1866, which have become still more stringent as regards the raising of the standard of qualification for a higher grade pleader and for a munsif. The conditions laid down in 1865 or 1866 are presumably those contained in rule 5 of the rules of the Government of Bengal made in 1866 under section 6 of Act XX of 1865. Their increased stringency, as regards munsifs, was, it is presumed, the qualification mentioned in the High Court's notification No. 3344 of the 16th December 1868, by which the Court, after consulting the Government of Bengal, declared that it would nominate to the office of Munsif "none but those who have obtained the degree of B. L., or who have passed the senior grade pleadership examination or some other examination equivalent thereto"; and as regards pleaders, the qualifications declared necessary in the rules of the 2nd May 1866, made by the High Court under section 4 of Act XX of 1865. With the question of English as the language for the high grade pleadership examination, this letter has already dealt. As to the second question, I am to point out that there exists, notwithstanding this notification and these rules, no "hard-and-fast rule" regarding the qualifications necessary for entering the Judicial Service, except that the candidate must be a member of a recognised legal profession. It is true that, before nominating any one for the post of munsif, the Court satisfies itself that the candidate is fitted for employment on the bench. He must have a certain knowledge of law, and he must also be a person of liberal education, and in the majority of instances a certain course of university education, and the acquirement of a degree in law, are taken as a guarantee of the candidate's fitness. But these qualifications are by no means indispensable, and instances have not so long ago occurred in which Muhammadan gentlemen, possessing neither of these qualifications have been nominated to the Government for employment as munsifs. That more of such nominations are not made is due, not to the existence of a hard-and-fast rule, but to the lamentable scarcity of Muhammadan gentleman of sufficient position and education to make them eligible for such appointments, even when a degree in law or a knowledge of English is not an indispensable portion of their acquirements.

The Governor General in Council observes that under the High Court rules for the qualification, admission, and certificates, &c., of pleaders, it is not absolutely necessary that a candidate should have graduated at a university, or indeed have passed any university examination whatever. Provided the candidate has passed some *public examination* accepted by the Court as equivalent to the standard of the University First Arts Examination and has attended suitable law lectures, he is eligible to present himself for the pleadership examination. It is possible, however, that in practice the university qualification is ordinarily insisted upon, and it would perhaps be well if the Local Government established some public examination which the Court would accept as equivalent to the preliminary university test. In other Provinces no artificial obstacles appear to lie in the way of Muhammadans desirous of qualifying as pleaders. As regards the admission of duly qualified Muhammadans to the Judicial Service, the Governor General in Council trusts that in provinces like Bengal and Bombay, where there is at present a deficiency in this respect, the High Courts will endeavour to secure a certain proportion of officers of that class.

17. With reference to the statements respecting the resumption proceedings in Bengal, and their disastrous effect upon the welfare of the Muhammadan community generally, and upon their educational system, the Government of that province, in reporting upon the memorial, records the following observations :—

The memorial refers to the resumption laws as among the chief causes of Muhammadan decadence. It seems to the Lieutenant-Governor that there has been a great deal of very

ill-informed declamation on the subject of the resumption laws. Vague statements regarding their disastrous effects are met by statements equally vague regarding their necessity and the general fairness with which they were conducted. Mr. Rivers Thompson is not concerned to deny that possibly in many cases (and obviously the action of Government would most seriously affect Muhammadan holders of land) the assessment of revenue on land previously held rent-free may have entailed losses both in position and wealth; but the statements of writers who maintain that these proceedings entailed wholesale ruin on the Muhammadan community in general, and the scholastic classes in particular, cannot be suffered to pass without remark. Such statements admit of no proof. They are unsupported by the history either of the origin or of the progress of the resumption proceedings themselves. These proceedings originated chiefly in the misconduct of the Native official classes in the early days of British rule. Before the transfer of the sovereignty of Bengal and Behar to the East India Company in 1765, the revenue collectors under the Moghul sovereigns used occasionally to alienate lands in the shape of endowments and rent-free grants. They had of course no authority to do this, the ruling power alone being competent to grant away its share in the produce of the land; but it is on good authority believed that these illegal alienations were few in number and limited in extent before the accession to sovereignty of the East India Company. During the first few years of the Company's administration, however, such invalid grants increased enormously. Mr. James Grant in his Analysis of the Finances of Bengal (1786) declares that they extended to one-fourth of the entire rental of Presidency, or nearly one million sterling per annum; and though Sir John Shore afterwards questioned the correctness of Mr. Grant's calculations, there is no doubt that these fraudulent alienations were very extensive. There can be as little doubt under the circumstances of the case that they were due, not to any praiseworthy intention of supporting religion or promoting learning, but to purely selfish motives of personal gain. It is unnecessary here to enumerate the various occasions from the time of Mr. Hastings to that of Lord William Bentinck, on which Government asserted its right and declared its intention to assess revenue on these alienated lands. From time to time efforts were made to carry this intention into effect, by prescribing a system of registration, designed to protect rent-free holdings and to identify invalid grants. These measures, however, proved ineffectual, and it was not until the financial pressure caused by the Burmese War compelled recourse to taxation, as well as to retrenchment, that effective steps were taken to make good the Government claim. The choice before Lord William Bentinck's Government lay between the introduction of a general measure of taxation and the enforcement of the incontestable rights of Government to share in the produce of these invalid lakhiraj grants. Whatever may be said by writers to whose sympathies vicissitudes of families appeal more forcibly than the financial necessities or the just claims of an empire, the Lieutenant-Governor believes that no impartial man will deliberately maintain that the choice of the Government of the day was wrong.

It has been stated in a recent article published in the *Nineteenth Century* by the Hon'ble Amir Ali, the Secretary to the Association, that the harshness of the resumption proceedings has left behind a legacy of bitterness, has entailed widespread ruin on the Mussulman gentry, and has destroyed the Muhammadan educational system. No details in support of this statement were furnished at the time, and the author of the article in question has since confessed himself unable to supply the omission. Desirous of ascertaining whether official records lent colour to the writer's assertions, the Lieutenant-Governor consulted the Board of Revenue, who have reported that the assertions in question admit of no verification from the revenue records of Government. On this subject more than one writer has drawn on his imagination for his facts: fanciful references to decaying muniments and moth-eaten title-deeds, which have no existence in fact, take the place of substantial arguments; and the fact is always either forgotten or ignored that the result of even the harshest resumption case was *not the dispossession of the holder, but the assessment of revenue on his holding, and even that, in no case, at more than half the prevailing rates.* When the admitted leniency of the assessment of revenue rates in Bengal is remembered, and when it is understood that a resumption proceeding meant nothing worse than the imposition on lands previously rent-free of half those rates, the charges of harshness and ruin inflicted wholesale through the action of the resumption laws will be estimated at their true value. The resumption literature is uninteresting reading at the present day; but an examination of it will show to those who take the trouble to make a dry and laborious enquiry that those proceedings were conducted with as much moderation and regard for private interests as the nature of the case permitted. The holders of rent-free grants possessing titles from the former rulers of the country were, of course, exempted from the operations of the law. As however the "ravages of white-ants" might possibly render it difficult for lakhirajdars of this description to prove their titles, the Government came to their aid, by decreeing that if only they could prove possession for twelve years before the transfer of the sovereignty of the country to the East India Company, their holdings should be exempted from assessment. The first effective resumption law having been passed in 1819, all that these "ancient families" were called upon to show was that the lands in question had been in their possession for little more than a single generation. For an "ancient family," rooted in the soil, this was no difficult or oppressive task.

If the provisions of the resumption laws were thus tempered in the case of the holders of large grants, the procedure was, so far as the Government was concerned, even more lenient in that of petty lakhirajdars. Parcels of land not over 50 bigahs in extent were altogether exempted, and the Government of the day intimated its willingness to increase that limit should such a course seem desirable to the local officials. The character of these proceedings

can hardly be summed up more accurately than in the terms employed by the Court of Directors in the review of the results of the resumption proceedings, contained in their Despatch No. 2, dated February 1854:—

"The result is satisfactory, and the means employed have been in the majority of instances fair and equitable. In the progress of the resumption proceedings, we have had occasion to animadvert in some cases, as in that of Chittagong, on the sweeping measures of the resumption officers; but in the general conduct of the proceedings the principles of liberality and justice, which we advocated from the commencement, have been on the whole adhered to.

"Where ascertainable rights have been invaded, redress has been afforded; but it is only justice to those who contribute to the expenses of Government that immunities and privileges resting on no foundation of right should be gradually and considerately eradicated."

Under any circumstances it may be noticed that the Muhammadans were not exceptionally treated in the working of the resumption laws; and if irretrievable injury was done to Muhammadan progress by their operation, the enquiry naturally suggests itself why Hindus, equally subjected to the same laws, have survived their evil effects.

So far as the Presidency of Madras is concerned, the allegations of the memorialists appear to be equally based upon misapprehension. Every endowment for charitable and pious uses was scrupulously investigated by the Inam Commission some 20 years ago, and wherever the validity of the grant was satisfactorily established, a title deed was conferred by Government in the name of the holders of the grant and their successors, ensuring its continuance to them and declaring it not to be subject to further interference so long as the institutions and services, the objects of the grant, were efficiently maintained and performed. Nor is there any evidence that such endowments as were then confirmed for educational purposes have been since wasted or abused. There were, it is reported, extremely few endowments of an educational kind.

The report from the North-Western Provinces and Oudh is of a similar character. The allegations regarding waste or confiscation of charitable endowments or scholastic foundations are stated not to accord with any specific facts known to the Government of those Provinces.

The Government of the Punjab writes as follows on this subject:—

Passing now to the fourth prayer of the memorialists, it is only necessary to observe that the number of Mussalman endowments in the Punjab is extremely small, and the only case of importance is that of the Itmad-ud-Doula Fund. So far as can be gathered from the documents which exist in regard to this fund, the trust was formed for the purpose of promoting education in the city of Delhi. The fund is devoted to the maintenance of an Anglo-Arabic school, attended by Muhammadans both of the Suni and Shia persuasion, but in which religious instruction has not hitherto been given. The fund is managed by a committee composed mainly of native gentlemen, presided over by the Commissioner of the Division. With this exception, the subject of Muhammadan endowment is one which calls for no action so far as this province is concerned.

In the other provinces this question of educational endowments appears to be one of no practical importance.

18. As regards Muhammadan endowments generally, these are almost invariably, it is believed, of a religious or *quasi*-religious character; and while it is impossible for Government to meddle with them, large powers of interference are conferred on those interested under the provisions of Act XX of 1863. What is chiefly required is, as the Lieutenant-Governor of Bengal points out, that the enlightened Members of the Muhammadan community should bring pressure to bear upon their less advanced co-religionists, in whose hands the funds of this description for the most part lie, to give a wise direction to their expenditure.

19. While it is clear, therefore, that undue importance has been attached by the memorialists to this matter, His Excellency the Governor General in Council is disposed to think that it would be satisfactory to the leaders of the Muhammadan community that the question of the management and appropriation of Muhammadan educational endowments should be more fully examined. It may be possible by some unobjectionable amendment of the law to secure more effectually than is the case at present the object which the memorialists have in view. His Excellency in Council would be glad therefore if the Local Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab were each to appoint a small committee to consider

and report upon this subject. Each committee might consist of an experienced Revenue Officer, one or two influential Muhammadan gentlemen, one at least being a learned Muhammadan lawyer, and one or more of the legal advisers of the Government. In the Presidency towns it would be very desirable that the Advocate General should be invited to serve upon the Committee. The different local committees might advantageously be placed in direct communication with one another, and their reports when ready should be submitted through the Local Government, with the opinion of that Government, for the consideration of the Government of India. It is believed that in temporarily-settled provinces full information is already on record as to the number, value, and present appropriation of most of these endowments. In such cases the Committees would probably only have to consider, on such information as may be readily available, whether there is any ground for believing that endowments intended for educational purposes are in fact now diverted to alien uses, and whether in that case any amendment of the law is possible which, without violating the principle that Government cannot connect itself with the management of religious endowments, might lead to the recovery of such funds. In Bengal and perhaps elsewhere the enquiry would probably have to take a wider range, and the Committees would require the assistance of Government and the district officers in the collection of information as to the present number and position of the local endowments. The Governor General in Council will however leave it to the Local Government in each province to lay down the general scope of the enquiry in accordance with local circumstances.

20. The memorial of the National Muhammadan Association lays special stress upon the extent to which the Hindus have ousted Muhammadans from State employ generally, and prays that "the balance of State patronage may be redressed."

The memorialists are aware of the orders which have from time to time been issued by the Government of India as well as by the Local Governments, directing the Heads of Departments to pay due regard to the claims of candidates belonging to their community; but at the same time they assert that no practical gain has accrued to the Muhammadans from these orders. This they attribute to two causes—(1) neglect of the Government policy by the officers with whom the actual distribution and dispensation of State patronage rests, and (2) the undue importance which is attached to a University qualification.

With regard to this point, the Government of India would remark that in every province admission to the superior departments of the Government service is now, speaking generally, regulated either by public competition or by the possession of qualifications altogether independent of the race or caste of the candidate. If, therefore, Muhammadans have secured a less proportion of places in the public service than members of other native communities in India, the blame cannot, in the opinion of the Government of India, be attributed in any sensible degree to the action of the State or of its officers. In the matter of the Statutory Civil Service, the Muhammadans have in fact had even more than their proportionate share of consideration, 10 out of 36 nominations to that service having been given to Mussalmans.

21. From the reports of the Local Governments it would appear moreover that the memorialists have exaggerated the numerical inferiority of Muhammadans in the public service generally. In Madras and Bombay where Muhammadans form only from 6 to 7 per cent. of the total population, the anxiety of these Governments to induce the Mussalman community to qualify for the public service has been distinctly manifested in the special educational facilities afforded to members of that community. Not only so, but Mussalman candidates, provided they are qualified by the prescribed tests for the public service, have always received exceptional favour. In Madras this has been specially the case since the time of Lord Hobart's Government in 1872. The Government of Bombay point out that in Western India the Muhammadan chances of employment are better now than they were in the days of the Hindu dynasties which preceded the British Empire. If the proportion of Muhammadans in the public service of Bombay is small, the reason is, in

the opinion of the Government of Bombay, to be found, not in any disfavour to Muhammadans, entertained by English bestowers of patronage, nor in the overpowering influence of Hindu advisers and subordinates, for the Government and its higher officers are fully alive to the administrative advantage of associating men of different races in every department of public business, but in the circumstance that entrance into the public service is determined as far as possible by educational tests, "whereby public emoluments are treated as public property, and the public is served by the fittest persons." In Sind, where the proportion of Muhammadans to the total population is considerable, the reports show that that community is very largely represented in most departments of the public service.

In Bengal, to which the memorial more particularly refers, the Muhammadans form over 31 per cent. of the total population. Here it is no doubt true that their numerical inferiority in the public offices is very marked. This is, however, mainly due to their want of the prescribed educational qualifications, especially as regards a knowledge of English. For this deficiency poverty will to some extent account; but there is also no doubt that there has been a real unwillingness to take advantage of the education provided by the State. At the same time another important fact, pointed out by Nawab Abdul Lateef in a memorandum laid before the Education Commission, should not be overlooked, *viz.*, that "the mass of the Muhammadan population consists of cultivators among some millions of Brahmins and Kayasthas, who from time immemorial have enjoyed a superior system of education and in consequence a passport to public offices." This is especially the case in Eastern Bengal, where the Muhammadans are most numerous.

In the North-Western Provinces and Oudh and in the Punjab the enquiries which have been instituted prove that the allegations of the memorialists as to the exclusion of their community from a fair share of Government patronage do not apply. The figures submitted indicate that in respect of offices in the Subordinate Executive and Judicial Services, including all the higher and better paid appointments, the Muhammadans have secured not only a fair proportion, but almost an unduly liberal share of patronage. In the Central Provinces they have been equally fortunate. Nor in the minor administrations does there appear to exist any cause of grievance under this head.

22. The Governor General in Council does not consider it desirable or for the advantage of the Muhammadans themselves that they should be exempted from those tests which are established to secure the admission of duly qualified candidates into the public service. Nor can special favour be shown them in open competitive examinations of any description. It is only by raising their own educational qualifications to the level already attained by other races that the Muhammadans can hope to win appointments that are awarded as the result of examination. But there are a large number of appointments the gift of which lies in the hands of the Local Governments, the High Courts, or local officers. The Governor General in Council desires that in those provinces where Muhammadans do not receive their full share of State employment, the Local Governments and High Courts will endeavour to redress this inequality as opportunity offers, and will impress upon subordinate officers the importance of attending to this in their selection of candidates for appointments of the class last referred to. The subject of the extent to which Muhammadans are employed in offices under Government might usefully be noticed in the Annual Reports of Provincial administration.

23. Another point urged in the memorial is the alleged unsatisfactory character of the administration of Muhammadan law. According to the memorialists,—

> The frequent miscarriage of justice, occasioned by the insufficient acquaintance generally possessed by English and Hindu Judges with the principles of Muhammadan law, has given rise to a certain feeling of dissatisfaction and distrust among all classes of the Mussalman population in India. They allege, and not without reason, that since the abolition of the offices of Mufti and Kazi-ul-Kuzzat—officers specially authorised to interpret and expound the Muhammadan law to European Judges,—the Muhammadan law has practically ceased to be administered. Even where it is attempted to be applied or enforced, the attempt is always uncertain in its result. The major portion of the Muhammadan law regulating the domestic relations is not recognised by the Courts of Justice in India.

The remedy suggested is the appointment in the mofussil of Muhammadan Judges qualified to expound the Muhammadan law, to sit as Assessor Judges in the trial of Muhammadan cases. The appointment of a Muhammadan Judge in each of the High and Chief Courts is also recommended.

With regard to this matter, the Government of India, after a careful consideration of the local reports, including the opinions of the High Courts, has no hesitation in coming to the conclusion that the Mussalman community have no substantial grievance. In those provinces in which any considerable number of cases of Muhammadan law come before the Courts, the Bar is largely composed of members of that community, so that Muhammadan exponents of the law are always to be found. The appointment of law officer to the Courts was abolished by Act XI of 1864 after full deliberation, on the ground that the office had come to be one of no practical utility. However necessary it may have been in the early days of British rule to employ Muhammadan experts to interpret Muhammadan law, especially when the Criminal Courts for the most part had to administer that law, such necessity has now ceased to exist; the penal code has been introduced, the general study of law has progressed, the standard for judicial employment has been raised, and text-books in English, dealing fully and ably with Muhammadan law, have become common. In the opinion, therefore, of the Government of India the evidence forthcoming lends no support to the statements of the memorialists, that justice has miscarried from the want of acquaintance of the Judges with Muhammadan law. Nor does the Government see any reason to revive the system which would place members of the Mussalman community in the position of Assessor Judges to the civil courts of the country. It is also impossible to undertake that a Muhammadan Judge shall always sit on the bench of each of the High and Chief Courts; but the Governor General in Council would certainly admit the claims of any Muhammadan gentleman who might appear to be in other respects the best suited for such an appointment. One gentleman of the Muhammadan community recently filled the post of Officiating Judge of the bench of the High Court of the North-Western Provinces.

24. The last point in the memorial to which it is necessary to refer is the abolition of Urdu as the Court language of Behar. This was a measure carried out after much consideration by the Local Government. The Lieutenant-Governor now remarks regarding it:—

> To the objections against the introduction of Hindi as the official language of Behar, the Lieutenant-Governor considers that a sufficient answer is furnished by the last Administration Report of the Commissioner of the Patna Division. It is stated in that report that the change in question has been effected without difficulty and with great advantage to the public in general. A new class of amla and legal practitioners acquainted with Hindi is springing up, while the change has been introduced with such consideration for the claims of existing incumbents of offices that the individual hardship caused by it has been inappreciable. This statement will be intelligible when it is understood that even at the present day all subordinate officials and law-agents have some knowledge of Hindi. All speak it, and nearly all write it, though possibly not with the same facility as Urdu. There is reason to believe that this outcry against the use of Hindi in Behar is rather a matter of factitious sentiment than of practical inconvenience. It is far louder among the Muhammadans of Calcutta who are not affected by the change than among the supposed sufferers. The change is the logical sequence of that exclusively Hindi teaching which has prevailed for nearly ten years with such marked success in all the primary patshalas and vernacular schools of Behar, in the very institutions, that is to say, from which the subordinate official classes, in whose behalf alone this outcry is raised, are fed. To give effect to the wishes of the National Muhammadan Association, therefore, on this point, it would be necessary to reverse the existing and approved policy of popular education in these provinces—a course which the memorialists themselves would hardly advocate.

25. The Governor General in Council has felt it to be his duty in the preceding paragraphs to controvert various misconceptions which find place in the representations that have been laid before Government; but he will, as already stated, always take a lively interest in the advancement and well-being of the Muhammadan community, and he concurs in the remarks

which not unfrequently occur in the local reports, that the very fact that a memorial like that under notice has been presented with the concurrence and approval of so many leading gentlemen in Bengal and elsewhere, indicates that the Muhammadans have themselves come to appreciate fully the necessity of moving with the times. They have now among them not a few highly educated and public spirited men who are keenly interested in the improvement and advancement of their co-religionists. The Local Governments are everywhere anxious to do all that they equitably can do to assist in this movement; and His Excellency in Council has little doubt that, within the next ten years, much greater progress will be made than has hitherto been recorded. It is the earnest desire of the Supreme Government to treat all classes of Her Majesty's subjects in India with absolute impartiality, and see all alike benefiting by the protection, the patronage, and the assistance of the State.

ORDER.—Ordered, that this Resolution be forwarded to the—

Governments of Madras, Bombay, and the North-Western Provinces and Oudh for information and guidance, with a request that a copy of it may be communicated to the Honourable the Judges of the High Court for information.

Government of Bengal for information and guidance. (A copy will be separately communicated to the High Court, Calcutta.)

Government of the Punjab for information and guidance, with a request that a copy of it may be communicated to the Judges of the Chief Court for information.

**Chief Commissioners, Central Provinces, British Burma, Assam, and Coorg, and Resident at Hyderabad for information and guidance.**

**Ordered also, that this Resolution be published in the *Gazette of India*, and** that the whole of the papers cited in the preamble, together with the section of the Education Commission Report which deals with Muhammadan education, be published in the form of a Selection from the Records of the Government of India.

A. MACKENZIE,

*Secretary to the Government of India.*

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 15th JULY 1885.

GENERAL REMARKS.—In the Madras Presidency slight rain has again been general. Prospects have somewhat improved in Bellary and Anantapur and are fair elsewhere in the Presidency, though more rain is wanted in places. Harvesting continues in a few districts. In Mysore more rain is still required in parts of the Tumkur and Kolar districts, but elsewhere the crops are in fair condition. In Coorg prospects are good.

Rain has fallen in parts of several districts in the Bombay Presidency, though the rainfall up to date is everywhere, except in Kanara, much below the average. More rain is urgently required for sowings in most districts. Rice transplantation has commenced in Colaba and Ratnagiri, and *kharif* sowings are in progress in parts of Surat and Sholapur. Fodder is scarce in several districts. More or less rain has fallen throughout the Berars, Hyderabad, and the Central India States, and agricultural prospects are generally good. In Rajputana rain has fallen in a few places only, but more is needed for *kharif* operations, which have commenced.

Good rain has fallen throughout the North-Western Provinces and Oudh, and has been very beneficial to *kharif* operations. Prospects are good. In the Punjab and the Central Provinces moderate rain has fallen in most places. *Kharif* sowings are in general progress in both Provinces.

General rain is again reported from Bengal, where crop prospects continue favourable. Transplanting of late rice is making good progress in the Province, in Cuttack and Pooree; but lands inundated by late floods are being resown. Good rain is reported from Assam; transplanting operations are in progress, and sugarcane and tea are doing well. Seasonable rain continues to fall in British Burma, where ploughing is now in general progress.

Public health is, on the whole, fairly good, though cholera, small-pox, and fever are reported.

Prices are generally steady, except in Bengal, where they are still high, but with a slight downward tendency in some districts.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| Madras—(July 15th) | | |
| Bellary ... | ·78 (average) | Dry crops doing well in three taluks, elsewhere they want more rain and are withering in parts; wet crops under river channels moderately good; harvest paddy, yield average. Fever in one taluk; 4 deaths from cholera. |
| Kurnool ... | 1·50 ( „ ) | Crops sown generally. Cattle-disease in three taluks; 26 deaths from cholera. |
| Ganjam ... | 2·24 ( „ ) | More rain wanted in Berhampore and Gumsur taluks. 335 deaths from cholera. |
| Kistna ... | ·10 ( „ ) | More rain required. Dry crops sown in parts. River 4 feet over anicut. Fever and small-pox in parts; cattle-disease in one taluk; 163 deaths from cholera. |
| Chingleput (Madras) ... | ·51 ( „ ) | Standing crops good; harvest paddy, outturn below average. Fever and cattle-disease slight. |
| Coimbatore ... | ·05 ( „ ) | Standing crops generally good, but *cholum* and *cumboo* damaged in parts; harvest dry crops, outturn generally average. Fever in parts; 22 deaths from cholera. |
| Tanjore ... | ·12 ( „ ) | Standing crops good, except in parts of three taluks, where rain is much wanted; harvest gingelly, tobacco, indigo, and cotton, outturn below average. 49 deaths from cholera. |
| Madura ... | ·04 ( „ ) | Fever prevalent. |
| Malabar ... | 8·51 ( „ ) | Transplanting continues; plants slightly injured in Cochin and Chirakul by heavy rain. Small-pox, cattle-disease, and slight fever exist; 36 deaths from cholera. |
| Travancore ... | 1·98 ( „ ) | Paddy fairly thriving. Small-pox and fever in parts. |
| | | *General Remarks.*—General prospects fair, slightly improved in Bellary and Anantapur. |
| **Bombay—(July 16th)** | | |
| Karachi ... | Mirpur Sakro, ·06 | River at Kotri on 13th, 17 feet 4 inches against 15 feet on same date last year. *Kharif* transplanting in progress. Fever in two and cattle-disease in one taluka. Fire at Keti Bandar, resulting in loss of properties valued at Rs. 500. Small-pox in three districts, 13 fresh cases, 3 deaths, 27 remaining sick; cholera in the Karachi collectorate, 830 cases, 593 deaths, 494 remaining. Prices—wheat, red rice, and *bajri* in Karachi 26, 36 and 34, in Manjhand 32, 38 and 40, in Sakro 18, 35 and 46, and in Jati 26, 42 and 42 pounds per rupee, respectively. |
| Hyderabad ... | *Nil* | *Kharif* cultivation in progress. River at Kotri on 13th, 17 feet 4 inches against 15 feet on same date last year. Fever in one, small-pox in three, cattle-disease in two, and cholera in eleven talukas. Prices of grain steady. Sky cloudy. |
| Ahmedabad ... | ·04 | Total rainfall 2·86. More rain urgently wanted throughout the district. Sowing operations delayed. Public health good. Wheat 37 and *bajri* 33 pounds per rupee. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay**—*contd.* | | |
| Baroda ... | ·05 | Total rainfall 1·70. Agricultural operations cannot be pursued owing to want of rain in all the divisions of Baroda. Cholera prevails in Kathor, Gandevi, and Navsari talukas of Navsari division, but in Amreli division and in Baroda and Petlad talukas it also prevails to some extent; in city of Baroda out of 65 cases, 28 proved fatal; small-pox at Bhimrala. Land has been made ready for sowing, but want of rain has stopped sowing operations. Prices—*bajri* 26, wheat 25, and rice 20 pounds per rupee. |
| Surat ... | 1·82; maximum in Pardi, 2·97; minimum in Mandir, ·51. | Total rainfall 4·64. Rain more urgently needed. Sowing commenced in places; young plants suffer. Fever in Bardoli and Pardi. *Juari* 35 and *nagli* 43 pounds per rupee. |
| Nasik ... | Igatpuri, 2·58; Nandgaon, 1·49; Punt, ·93; Sinnar, Yeola, Malegaon, few cents only; none elsewhere. | Season for sowing of sugar crop gone by. Weather cloudy; high winds blowing. Want of fodder in Dsobi taluka. Cholera in nine talukas, 212 attacks, 108 deaths. Wheat 34½, *bajri* 31, and rice 21 pounds per rupee. |
| Colaba (Bombay) ... | Rain every day, except on 11th; total of week, 3·07. | Total to date, 9·62; being 22·2 below average. Average abnormal temperature 2° cool on 8th and 2° warm from 9th to 14th; vapour in air slightly in excess of normal; abnormal winds easterly on 8th, 12th, and 13th; northerly on all other days. |
| Poona ... | Maval, 1·91; Bhimthadi, 1·58. | More rain urgently wanted. 126 cases of cholera in four talukas, 68 deaths. *Bajri* 29 and *juari* 36; in Poona *bajri* 28 and *juari* 35 pounds per rupee. |
| Ahmednagar ... | Sheogaon, 4·05; Jamkhed, 2·15; Nagar, 2·14; Karjat, 1·01; Kopargaon, 1·01; Newasa, ·72; Rahuri, ·20; Shrigonda, ·14; Sangamner, ·05; Akola and Parner, *nil.* | *Mung, bajri*, and cotton being sown in about twenty-five villages in the west and south of Nagar taluka. Round the city the rainfall in Nagar taluka is confined to about seventy villages. In Karjat only *hulja* being sown in about five villages; sowing of *bajri* begun in some villages of Sheogaon and Jamkhed, in a few places in Newasa, and in ten or eleven villages of Kopargaon, nowhere in Parner, Rahuri, Shrigonda, Sangamner, and Akola; *vari* and *nagli* previously sown in Akola likely to fail from want of rain. Cattle suffering from want of fodder in Parner, Kopargaon, and Sangamner; in latter taluka a few instances of cattle dying from want of fodder. Scarcity of drinking-water felt in some hill villages of Sangamner. Slight cattle-disease in Newasa, Sangamner, and Akola; cholera—15 attacks, 4 deaths, in Parner; 12 attacks, 5 deaths, in Jamkhed; 17 attacks, 11 deaths, in Sheogaon; 24 attacks, 18 deaths, in Newasa; 20 attacks, 6 deaths, in Kopargaon; and 1 attack, 1 death, in Sangamner. *Bajri* from 33 to 45 and *juari* from 33 to 48 pounds per rupee. |
| Sholapur ... | Sholapur, 1·71; Barsi, 2·95; Madha, ·55; Karmala, ·71; Pandharpur, ·33; Sangola, 1·33. | *Kharif* sowing commenced in all talukas, except Malsiras. *Juari* 43 pounds 37 tolas and *bajri* 30 pounds 29 tolas per rupee. Cholera in Pandharpur and Sangola talukas. |
| Dharwar ... | Maximum in Hangal, 1·53; Ranibennur, 1·13; Mugud and Kod, ·70; Hubli and Kalghatgi, ·60; Hangal and Bankapur, ·58; Ron, ·44; Dharwar and Navalgund, ·37; Karajgi and Gadag, ·28; Mundargi and Ranibennur, nearly ·15; and Nargund Petha, *nil.* | More rain urgently required throughout, except Hangal and Mugud, where a break is desired. Sowing of early *juari* retarded in Dharwar and part of Hubli and eastern talukas; rice crops good, but require heavy showers. Slight cholera in four talukas. Average price of rice 26 and *juari* 47 pounds per rupee. |
| Kanara ... | Karwar, 10·91; Kumpta, 17·21, Sirsi, 9·0; and Haliyal, 1·67. | Transplanting continues; crops thriving. Cholera in Haliyal, 18 cases, 13 deaths; fever and small-pox in four talukas, and cattle-disease in two. Common rice in Karwar 14½ seers, district average 14 seers per rupee. |
| Rajkot ... | ·77 | Total rainfall 1·75. General health good. Weather cloudy. Small-pox at Hudala under Ragasra slight; fever at Birpur, Kotda, Sangawi, and Manekvada. *Bajri* 31 and *juari* 43 pounds per rupee. *General Remarks.*—Good rain in parts of several districts, but more required for sowing in most places; rice transplantation commenced in Colaba and Ratnagiri and *kharif* sowing in parts of Surat and Sholapur, where rain has fallen; young crops suffering in parts of Surat, Ahmednagar, Satara, Bijapur, and Belgaum. Scarcity of drinking-water in parts of Ahmednagar, and of fodder in parts of Nasik, Ahmednagar, Panch-Mahals, Broach, Khandesh, Bijapur, and Belgaum. Cholera generally prevalent; fever and small-pox in parts of nine, and cattle-disease in parts of seven districts. |
| **Bengal—(July 15th)** | | |
| Chittagong ... | 7·55 | Weather seasonable. *Aus* paddy being transplanted; prospects of crops fair. Prices variable. Cholera continues. |
| Dacca — | *Nil* | *Aus* paddy being harvested; *amun* paddy, jute, and sugarcane thriving; ploughing for *roabia* paddy going on; prospects of crops and public health good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| 24-Pergunnahs (Calcutta) | *Nil* | Prospects of early crops continue good; *amun* seedlings doing well; transplanting going on in low lands. Price of common rice 13 to 15 seers per rupee. Public health generally good. |
| Moorshedabad ... | 1·83 | Weather seasonable. Prospects of crops good. Price of rice 13 seers per rupee. Public health good. |
| Burdwan ... | 6·11; Cutwa, 4·30; Raniganj, 8·29. | Prospects of crops good. Price of rice 11½ to 14 seers per rupee. Health good. |
| Rungpore ... | 6·17 | Weather cloudy. Harvesting of early crops begun; transplanting of *amun* paddy proceeding; prospects good. Prices stationary. Fever increasing; cholera abated. |
| Bhagalpur ... | 2·95 | Prospects much improved; transplanting of *marwa* nearly completed, and that of rice begun. Price of rice 12 seers 10 chittacks per rupee. Public health good. |
| Purneah ... | 3·39 | *Bhadoi* prospects good; transplanting of rice proceeding. More rain required. Price of common rice 15 to 16 seers per rupee. Health of people and cattle fair. |
| Patna ... | 4·87 | Indian-corn being sown. Sugarcane doing well. Maize and *kauria* germinated. Prospects fair. Public health good. |
| Durbhunga ... | 3·64; rain almost every day. | A break for a few days is necessary. Transplanting of *marua* and paddy seedlings, where ready, are going on. Some damage done to *bhadoi* by excessive rain and floods. Prices stationary. Cholera abating. |
| Hazaribagh ... | 3·83; abundant rain reported from all stations. | Weather seasonable. Paddy and *bhadoi* sown. Cholera reported from thanas Tundwa and Hazaribagh. |
| Cuttack ... | 1·99; light rain | Weather cloudy. Rice crops growing well. Lands inundated by the late floods are being resown. Cases of cholera here and there, otherwise public health good. |
| Midnapur ... | 6·28 | Transplanting of rice going on. Health good. |
| Khoolna ... | 3·62 | Weather cloudy and rainy. *Aus* paddy doing well; transplanting of *amun* paddy commenced. Price of rice remains high. Health good. |
| Dinagepore ... | 8·0; heavy rain everywhere on the 10th and 12th instant. | Crops doing very favourably. A little cholera reported. Prices of rice 13 seers per rupee. |
| Pubna (Serajganj) ... | ·37 | Crops doing well. Rivers rising fast. Public health good. |
| Gya ... | 4·13 | Prospects of *bhadoi* crops good; sowing of rice proceeding, and seedlings getting ready for transplanting. Public health fair. Slight rise in prices at Newada. |
| Chumparun ... | 80·26; heavy rain throughout the district. | Sunny weather now required. Prices stationary. Public health fair. |
| | | *General Remarks.*—More or less rain in all parts of these provinces during the week; the fall was rather excessive in some districts, where a spell of sunny weather is now required for a few days. Prospects of crops continue to be generally favourable; transplanting of late rice is making good progress all round; in Cuttack and Pooree resowing is being made on the inundated lands. High prices continue to be prevalent, with a slight downward tendency in some districts. Cholera still exists in several localities; appearance of fever is reported from certain districts and said to be on the increase in Rungpore. |
| **N. W. Provinces and Oudh—(July 16th)** | | |
| Benares (July 14th) | Average rainfall 2·0; at Sadr, 4·0. | No change in weather. *Kharif* sowings continue; supplies ample. Prices risen slightly. Health good; no cattle-disease. |
| Gorakhpore ( „ 13th) | Good rain almost daily throughout the district. | Rice coming up well; prospects good. Prices rising slightly. Some isolated cases of cholera in east of the district. |
| Fyzabad ( „ 14th) | Heavy rain throughout the district. | Weather cloudy. *Kharif* operations in progress; supplies ample. Prices steady. Public health and condition of cattle good. |
| Lucknow ( „ 13th) | Rainfall during the week, 1·10 to 3·10. | Rice, *kodo*, and other *kharif* crops are being sown. Markets well supplied. Prices stationary. Health both of men and cattle good. |
| Rae Bareli ... | ..... | No report received. |
| Partabgarh (July 14th) | A satisfactory fall of rain last night. | Crops look well. |
| Allahabad ( „ „ ) | Good rain has fallen throughout the district. | Markets well supplied. Ploughing and sowing in full progress. Public health good, though cases of cholera still occur here and there in the district. |
| Cawnpore ( „ 13th) | General rain during the week. | *Kharif* sowing in hand. Prices steady. Slight fever in two parganas; a little cattle-disease in two parganas. |
| Banda ( „ 14th) | Good and general rain | Cotton and *juari* germinating; prospects good. Slight cholera reported from one village of Baheru; cattle-disease in three villages of Pailari and Badansa. |
| Ballia ( „ „ ) | Heavy rain throughout the district. | Weather cloudy. *Kharif* sowings in hand. Markets well supplied. Health good. |
| Farakhabad ( „ „ ) | General rain from 0·90 to 3·80. | *Kharif* sowings in progress. No change in prices. Health fair; condition of cattle good. |
| Sitapur ( „ „ ) | Rain from 4·30 to 8·80 has fallen throughout the district during the week. | Some damage is being caused by floods in the low lands; *kharif* operations are almost completed. A break would be beneficial. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Bareilly (July 14th) | Rain abundant | Sowing in full swing. Market still tending to rise. Public health good; occasional slight cattle-disease. |
| Kumaon ( „ 13th) | Heavy rain | Sun required for crops. Prices rising. Fever rather prevalent; cattle-disease again increasing. |
| Agra ( „ „ ) | Rain in all parganas, 0·40 to 1·20. | Ploughing and sowing proceeding. Prices steady. Cholera very slight in one pargana. |
| Jhansi ( „ 14th) | ... | Weather cloudy and drizzling. Ploughing and sowing going on. Few cases of cholera reported from pargana Mau. |
| Meerut ( „ „ ) | Very little rain during the week, but now cloudy and showery. | Rain wanted. *Kharif* crops flourishing; supplies sufficient. Prices steady. Health good. |
| | | *General Remarks.*—Good rain has fallen throughout the province, greatly benefiting *kharif* operations; prospects good. Markets are well supplied, and prices generally steady. Public health fairly good. |
| **Punjab—(July 15th)** | | |
| Hissar (July 14th) | ·80 | Health fair. Weather hot and sultry. *Kharif* sowings in progress. Prices rising. |
| Delhi ( „ „ ) | ·12 | Health fair. Prices fluctuating. |
| Umballa ( „ „ ) | 1·90 | Health good. *Kharif* sowings in progress. Prices slightly rising. |
| Jullundur ( „ „ ) | 1·70 | Health good. *Kharif* sowings commenced. Prices stationary. |
| Ferozepore ( „ „ ) | ·60 at City; 1·10 at Moga; ·20 at Zira; ·40 at Mukhtsar. | Health good. *Kharif* ploughings in progress. Prices stationary. |
| Amritsar ( „ „ ) | ·40; more wanted | Health good. Prices stationary. |
| Sialkot ( „ „ ) | 1·30; more required | Health good. Prices stationary. |
| Lahore ( „ „ ) | 1·80 | Health good. *Kharif* sowings continue. Prices almost stationary. |
| Mooltan ( „ „ ) | *Nil* | Crops and health good. Prices almost stationary. |
| Rawalpindi ( „ „ ) | Slight rain; more wanted. | Health good, with exception of a few cases of cholera at Rawalpindi and Attock. *Kharif* sowings in progress. Prices stationary. |
| Shahpur ( „ „ ) | Rain throughout the district. | Health good. Prices almost stationary. |
| Dera Ismail Khan ( „ „ ) | ·26 | Health good. Prices falling. |
| Peshawar ( „ „ ) | *Nil* | Health good. Prices of wheat and *juari* rising, of gram and barley falling, of other articles stationary. |
| | | *General Remarks.*—Moderate rain in most districts. Cholera in the Gurgaon and Rawalpindi districts; health elsewhere good. *Kharif* sowings in progress. Prices generally stationary. |
| **Central Provinces—(July 15th)** | | |
| Nagpur ... | 3·50; weather showery | *Kharif* sowings progressing. Transplanting of rice commenced. Fever and small-pox in places. Prices steady. |
| Jubbulpore ... | 5·12; weather showery | *Kharif* sowings continue. Cholera abating. Prices unchanged. |
| Saugor (July 14th) ... | 3·34 | Sowings well in hand, also preparation of *rabi* fields. Health fair. Prices steady. |
| Seoni ... | 3·28 | Weather cloudy and wet. Sowing progressing; rice transplanting commenced. 6 cases of cholera, 5 deaths. Prices unchanged. |
| Hoshangabad ... | 2·93; weather showery | Weeding continues. 135 cases of cholera, 106 deaths; 26 cases of small-pox. Prices stationary. |
| Khandwa ... | 1·69 | Weather cloudy and windy. Prospects good. 13 cases of cholera, 3 deaths. Prices stationary. |
| Raipur ... | 2·35; weather showery | Sowings approaching completion. Cholera declining in town, 17 cases, 11 deaths. Cattle-disease in Drug tahsil. Wheat 29 and rice 20 seers per rupee. |
| | | *General Remarks.*—Moderate rain has fallen throughout the provinces. Agricultural prospects are everywhere favourable. Cholera continues, but less severely in Chhattisgarh. Prices steady. |
| **British Burma—(July 15th)** | | |
| Akyab (July 4th) | 14·09 | Total rainfall 71·57. Slight cholera in three and slight cattle-disease in two circles. Ploughing continues. |
| Bassein ( „ „ ) | 4·90 | Total rainfall 33·25. Cholera in four and cattle-disease in five townships. |
| Rangoon ( „ „ ) | 2·66 | Total rainfall 25·73. Public health good. |
| Amherst (Moulmein) ( „ „ ) | 7·82 | Total rainfall 70·24. Public health good; cattle healthy. Ploughing progressing. |
| Tavoy ( „ „ ) | 3·83 | Total rainfall 83·81. Public health good. Ploughing progressing. |
| Pegu ( „ „ ) | 4·90 | Total rainfall 37·45. Public health good; slight cattle-disease in one township. Ploughing progressing. |
| Henzada ( „ „ ) | 5·95 | Total rainfall 26·67. Public health good; slight cattle-disease in one township. Ploughing progressing. |
| Prome ( „ „ ) | 3·20 | Total rainfall 16·67. Public health good; slight cholera and cattle-disease in one township. Ploughing progressing. |
| Toungoo ( „ „ ) | 3·67 | Total rainfall 34·09. Slight cholera in Toungoo town. Cattle healthy. Ploughing progressing. |
| | | *General Remarks.*—Cholera slight in six districts, small-pox slight in one district, elsewhere public health good; cattle-disease slight in eight districts, severe in one. Ploughing progressing. Rain seasonable. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Assam—(July 15th)** | | |
| Gauhati ... | 3·68 of rain during the week ending 13th instant; weather rainy. | Cholera prevalent in portion of district, and in Kalajar and Luki circle; cattle-disease disappearing. Gathering of *aus* in progress; transplantation of *sali* commenced; sugarcane doing well. |
| Sylhet ... | 9·40 | State and prospects of crops good. Public health good. |
| Cachar ... | 4·38 | Weather warm. Prospects of *dumahi* and *murali* crops good; about three-fourths of transplanting of *aus* crops finished; ploughing for *sali* crops commenced; tea doing well. Common rice 15 seers per rupee. 3 deaths from cholera from Hailakandi reported; general health good. |
| Dibrugarh ... | 3·76; weather rainy | *Ahu dhan* being reaped; *sali dhan* being transplanted; prospects of tea good. Public health fair. |
| **Mysore and Coorg—(July 15th)** | | |
| Bangalore ... | 4·5; rain has fallen generally throughout the State. | More rain still required in parts of the Tumkur and Kolar districts, the crops elsewhere in fair condition. Cases of cholera still continue in Bangalore and Mysore. No material change in prices. |
| Mercara ... | 3·60 | Transplanting of paddy crops in progress; prospects of season and public health good. |
| **Berar and Hyderabad—(July 15th)** | | |
| Amraoti ... | ·57 | Weather cloudy. Cotton plants healthy; *juari* sowings commenced. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | 4·17 | Weather cloudy. Sowings recommenced and are being pushed on. |
| Hyderabad ... | 1·34; average rainfall during the week. | *Kharif* sowings commenced again. Cholera decreasing; general health fair. Prices—wheat 14½, coarse rice 12¼, white *juari* 19, yellow *juari* 23, and *tur* 16½ seers per current sicca rupee. |
| **Central India States—(July 15th)** | | |
| Indore ... | 1·07 | Health good. |
| Morar (Gwalior) ... | ·35 | Health good. |
| Sutna ... | 5·97 | Cholera at Rewah, 44 cases, 18 deaths. Prospects much improved. |
| Neemuch ... | ·56; indications of more rain. | Weather cloudy. Health good. |
| Goona ... | 1·74 | Two fatal cases of cholera in Chanchera of Gwalior, otherwise health good. |
| Ajaygarh ... | ·68 | Health and prospects good. |
| Bellona ... | ·29 | Weather hot and cloudy. Prospects of crops good. Health good. |
| Nowgong ... | ·21 | Weather seasonable. Health good. |
| Manpur (Bhopawar) ... | 5·55; more rain wanted. | Health good. |
| **Rajputana—(July 15th)** | | |
| Abu (July 15th) | ·74 | Weather cloudy, windy, and seasonable. |
| Sirohi ( „ 12th) | *Nil* | Little water in tanks. Wells and health good. Sowings stopped for want of rain. Weather hot, close mornings. |
| Marwar ( „ 10th) | *Nil* | Very little water in Jodhpore city tanks. Health good. Tillage and sowings almost finished in districts, with heavier rainfall. Weather warm and close. Prospects bright where rain fell, but gloomy where rain scanty. Rain much needed. Prices tending to rise. |
| Kherwara ( „ 13th) | *Nil* | Tanks and wells fair. Sowing of Indian-corn going on. Health good. Prices low. Weather cloudy and sultry. |
| Meywar ( „ 11th) | *Nil* | Crops doing well. Health good. Prices slightly dearer. Weather hot and windy. |
| Harowti ( „ „ ) | Deoli, ·34; Tonk, 7·61; rain in previous week in Deoli, 1·45; Kotah, 3·93. | Cholera in Kotah in previous week, 64 deaths, some cases at Bundi. Weather cloudy. *Kharif* sowings in progress. |
| Jhallawar ( „ 10th) | 1·54 | General health good. |
| Ajmere ( „ 14th) | 3·17 | Health good. *Kharif* operations progressing. |
| Jaypore ( „ „ ) | 1·04 | *Kharif* sowings progressing. Prices fallen. Health good. |
| Kerowli ( „ 11th) | *Nil* | Tanks and wells decreasing. Crops and health good. Prices slightly rising. |
| Dholepore ( „ „ ) | *Nil* | Tanks drying and wells full. Sowings commenced. Health good. Prices stationary. Heat moderate; weather windy. |
| Bhurtpore ( „ „ ) | ·22 | Tanks and wells full. *Kharif* ploughing commenced. Health good. Prices stationary. Heat moderate. |
| Ulwar ( „ 14th) | ·58 (average) | Eighteen deaths from cholera, otherwise health good. Prices steady. |
| Bickaneer ( „ 11th) | Drops; Sujangarh, 1·10 | Tanks and wells fair. Health good. Sowings continue. Prices stationary, except sugar. Weather getting hot and cloudy, with high winds. |
| **Nepal—(July 9th)** | | |
| Katmandu ... | 3·39 | Prospects good. Cholera has somewhat abated. |

## SPECIAL REPRESENTATION OF THE INDIAN TOBACCO TRADE AT THE COLONIAL AND INDIAN EXHIBITION TO BE HELD IN LONDON IN 1886.

Circular No. $\frac{2 \text{ Ex.}}{84-5}$, dated Simla, 8th July 1885.

From—C. S. BAYLEY, Esq., Under Secy. to the Govt. of India, Rev. and Agrl. Dept.,

To—All Local Governments and Administrations.

I am directed to state that a proposal has been made by Messrs. H. S. King & Company, the official Agents for the Indian and Colonial Exhibition, that they should be allowed to open in the Exhibition a separate "Cigar and Tobacco Room" in which can be exhibited samples of raw and manufactured tobacco from all parts of India. Messrs. H. S. King & Company offer to place one or more attendants in charge of this room, who will furnish sample cigars, price lists of the different makers, weights of the cigars for computation of duty, &c. They will also take charge of consignments from the makers, and will take orders, either in large or small quantities. They undertake to represent all the manufacturers impartially and without preference, and to make the increased popularity and greater demand for Indian cigars their special object.

2. This proposal, which commended itself to the Royal Commissioners, has been referred by them for the consideration of the Government of India, by whom it has been formally approved. Small samples of Indian cigars and tobacco, both raw and manufactured, will be exhibited in the Imperial Courts of the Exhibition; but the space there assigned to them is necessarily limited, while it is impossible for the Government to give any facilities for trying them, such as will be offered in the proposed Tobacco Room. Under these circumstances, it has been decided that the Government exhibit of tobacco should be kept within limits sufficient to represent this important product in its principal branches. It is, therefore, strongly recommended, in the interests of the Indian Tobacco Trade, that consignments of Cigars and Tobacco, if sent in large quantities, should be made to Messrs. H. S. King & Company, or their Indian Agents.*

* Messrs. King, Hamilton & Company, Calcutta.
Messrs. King, King & Company, Bombay.
Messrs. Arbuthnot & Company, Madras.

3. Messrs. H. S. King & Company lay much stress on the desirability of consignments of tobacco and cigars being sent to them, if possible, some months before the Exhibition opens. Indian cigars, they observe, nearly always arrive from India so wet as to be unfit for early use; and if passed through the Custom House at once before they have had time to dry, the duty payable is greatly enhanced by the superfluous damp which they contain.

4. Messrs. H. S. King & Company's proposals seem to the Government of India well calculated to forward the interests of the Indian Tobacco Trade; and I am therefore directed to request that as much publicity may be given to it as possible.

It is suggested that this letter should be published in the official *Gazettes*, both English and Vernacular, and should be distributed to the principal Vernacular Newspapers, and generally to all persons interested in the Tobacco Trade.

---

No. 82 Met.

*Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department (Meteorology),—dated Simla, the 17th July, 1885.*

Read the following:—

Summary of the Weather Reports for June 1885.

On the west coast the weather of the first few days of the month was marked by a few unimportant showers. On the 4th, however, there occurred a rather

heavy fall of rain at Colombo and a moderate fall over the south and west of the Peninsula, and from that day onward throughout the month there was more or less daily rain in Ceylon and on the south-west coast of India. This rainfall has, however, been distinguished by two noticeable characteristics. In the first place the fall has been accompanied by a very unsteady monsoon current, while in the second place, and probably on account of this variability in the wind direction, the extent of the fall has been greatly restricted. This unsteadiness of the monsoon current was particularly striking on the 8th and 9th, when a storm apparently skirted the west coast, travelling in a northerly direction, causing a marked disturbance of the average barometric distribution and drawing the wind over a large part of western and south-western India into south-east and even in some places into east, a direction opposite to the normal. In Bombay itself, the burst of heavy rain which usually characterises the setting in of the summer monsoon on the Konkan Coast has not occurred throughout the month, and the winds over that region appear to have been abnormally dry; and further to the southward, *i.e.*, on the Malabar Coast, though the winds appear to have brought up the normal amount of moisture, it seems to have been deposited only on the western face of the Ghats, and the stations in the Deccan and Hyderabad show a great deficiency of rainfall. The weather in the Berars, Khandeish, and Gujarat has been similar to that prevailing in the Konkan, the winds having been unusually dry; while in Sind and Cutch even the small average of those regions in this month has not been reached.

As regards the Bay of Bengal branch of the monsoon, the reports show that until the 10th little rain of importance was recorded. From the 10th, however, rain fell generally over Burma, Assam and Lower Bengal, but up to the 16th was restricted to those regions. On the 16th a small depression was forming over the Sunderbuns; and as this disturbance travelled first westward and subsequently north-westward, the rains extended up the Gangetic plain, and by the 24th had set in over the greater part of the North-Western Provinces. On the 26th a second depression was formed over the Sunderbuns, and this disturbance travelling westward in its turn, fairly established the rains over the North-Western Provinces and as far west as Delhi and the east of the Punjab. The heaviest falls of rains connected with these disturbances were:—

| | Inches. | | Inches. |
|---|---|---|---|
| Dacca, 18th ... | 4·60 | Banaras, 28th ... | 4·66 |
| Nowgong (Assam), 19th | 4·12 | Naini Tal, 29th ... | 5·30 |
| Raipur, 20th ... | 3·91 | Aligarh, 29th ... | 4·90 |
| Jaunpur, 24th ... | 6·60 | | |

Though these depressions appear to have ushered in the rains from Lower Bengal to the Upper Provinces, it is important to note that, as was the case last year, the districts of Northern Bengal and Behar show a deficiency. It is remarkable that the disturbances, noticed above, after giving plentiful rain to Lower Bengal and Assam, appear to have passed over Behar in a condition of diminished energy, but on reaching the North-Western Provinces they seem to have again suddenly intensified and occasioned heavy precipitation.

In the central parts of the country and the eastern half of the Peninsula the returns show that Orissa and the Northern Circars have had less, and the Central Provinces and the Karnatic more, than the average amount of rain.

With regard to the other meteorological elements, pressure on the whole has been above the average of the month, except in Bombay, the Berars, Hyderabad, the extreme south of the Peninsula and Orissa. In four of these five Provinces precipitation has been deficient, so that the low barometer is probably to a great extent attributable to the high temperature prevailing in the absence of cloud and rain.

The moisture in the atmosphere has been on the whole below the average, except in the Punjab, the Central Provinces and Madras, the greatest and most general deficiency being reported from the Bombay Presidency.

The following table shows the amount of rain and the difference from the average during the month of June, according to districts, as far as is indicated by the telegraphic reports :—

| Districts. | Average Rainfall in June. | Difference from the average in June 1885. |
|---|---|---|
| Punjab, West ... ... ... | 1·49 | —0·61 |
| „ East ... ... ... | 3·68 | +0·73 |
| North-Western Provinces, Trans-Gangetic ... | 6·31 | +2·03 |
| North-Western Provinces, Cis-Gangetic ... | 3·74 | +3·32 |
| Behar ... ... ... ... | 7·21 | —3·46 |
| Northern Bengal ... ... ... | 18·03 | —5·42 |
| Assam, Cachar ... ... ... | 17·15 | —0·01 |
| Lower Bengal, Chutia Nagpur ... ... | 12·72 | +0·60 |
| Orissa, Northern Circars ... ... | 7·35 | —3·46 |
| Central Provinces, South ... ... | 8·72 | +4·97 |
| Berar, Khandeish ... ... ... | 5·53 | —1·24 |
| Rajputana, Central India, Saugar and Nerbudda | 4·70 | +1·97 |
| Sind, Cutch ... ... .... | 0·86 | —0·24 |
| Gujarat ... ... ... ... | 5·13 | —3·84 |
| Konkan ... ... ... ... | 22·38 | —10 02 |
| Deccan, Hyderabad ... ... ... | 5·31 | —3·01 |
| Malabar ... ... ... ... | 32·64 | +10·82 |
| Mysore, Bellary ... ... ... | 2·86 | +0·54 |
| Karnatic ... ... ... ... | 1·51 | +1·56 |
| British Burma ... ... ... | 23·29 | +0·98 |
| Ceylon ... ... ... ... | 7·51 | +11·05 |

SIMLA;

*Under-Secretary.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

No. 10, dated Fort William, the 17th March, 1885.

From—His Excellency the Viceroy and Governor-General of India,

To—The Secretary of State for India.

In conformity with the provisions of Section XXI of the Indian Councils Act, I have the honour to forward to your Lordship an authentic copy of the Law noted in the margin, which has been passed by the Council of the Governor-General of India for making Laws and Regulations, and to which I have signified my assent.

Act No. VIII of 1885 (an Act to amend and consolidate certain enactments relating to the Law of Landlord and Tenant within the territories under the Administration of the Lieutenant-Governor of Bengal).

2. In accordance with the instructions contained in your predecessor's Despatch No. 61, dated 21st December 1869, a copy of the papers noted in the margin, relating to the Act, accompanies.

Statement of Objects and Reasons, dated 2nd March, 1883.
Preliminary Report of Select Committee, dated 14th March, 1884.
Further Report of Select Committee, dated 12th February, 1885.
Abstracts of Proceedings, dated 2nd, 12th and 13th March, 1883, 14th March, 1884, 13th and 27th February, 2nd, 4th, 6th, 9th and 11th March, 1885.

3. A copy of the Act in octavo form will be forwarded by next mail.

No. 24, dated India Office, London, 23rd June, 1885.

From—The Secretary of State for India,

To—His Excellency the Viceroy and Governor-General of India.

Para. 1. I have considered in Council the Bengal Tenancy Act, No. VIII of 1885, which received your Lordship's assent on the 14th March last, and was forwarded with your letter No. 10, Legislative, of 17th idem.

2. In announcing to your Excellency that this Act will be left to its operation, I must express my cordial sense of the ability and attention with which the important subject of the amendment of the law of landlord and tenant in Bengal has been treated by the Rent Law Commission, by the numerous officers who have been called on for opinions upon it, by the Local Government, by your Council, and especially by the members of the Select Committee.

3. As promised in my Legislative Despatches marginally noted, I have given my careful attention to the objections urged by different memorialists to the legislation which has now been completed.

No. 17 of 8th May, 1884, with reference to a memorial from the Central Committee of landholders of Bengal and Behar.
No. 22 of 19th June, 1884, with reference to a memorial of Mr. J. Stalkartt, on behalf of the ryots of India.
No. 30 of 28th August, 1884, with reference to a memorial of the landholders of Behar.

4. Upon the arguments urged against the provisions of the Act from the point of view of the tenant, I would remark that, although the Act may not confer upon the tenants all the advantages to which some may have deemed their class entitled, I entertain no doubt that it will prove in a high degree beneficial to the ryots generally, especially to the most numerous and important class, the settled ryots, whose claims are also the strongest. An examination of some of the principal differences between the new law and that which it supersedes makes this evident. The proof of title to occupancy right is greatly facilitated. It will no longer be possible for the settled ryot to be induced or compelled to contract himself out of his occupancy right. The principle of the "judicial rent" is more firmly established. The provisions of the law restricting enhancement of rent to the amount which can be shown to be fair and equitable are made more effective. Protection is given against the too frequent repetition of enhancements and of suits for arrears. By the substitution of the process of sale of the occupancy right for that of ejectment in execution of decrees for arrears, the value of his occupancy interest, of his improvements and of his standing crops, is secured to the ryot after his arrears

are liquidated. The power of distraint, while it is retained as an instrument for *bonâ fide* recovery of rent, can no longer be used for purposes of harassment or oppression. Illicit demands in excess of the legal rent are more effectually provided against. It is made clear, in case of doubt or dispute, when, how, and to whom the ryot is to pay his rent. And due receipts for his payments and statements of his account are secured to the ryot. The non-occupancy cultivator, while the distinction between him and the settled ryot is maintained, also receives new and valuable protection. He will ordinarily be able to claim to have a fair rent fixed by the Court for a term; he will be protected from ejectment as long as he pays that rent; his right to make improvements is defined, and the enjoyment of their fruit is secured to him.

5. On the part of the zemindars it has been contended in some memorials that, prior to the Permanent Settlement (save where their rights were invaded by mere usurpation) they were absolute proprietors of the soil; that the revenue they paid was unvarying in amount until arbitrarily enhanced by the later Mahomedan rulers; and that the ryots possessed no rights not derived from them. This contention, however, is not supported by the language of the Code of 1793. The preamble of Regulation II states that property in the soil was never, before 1793, declared to be vested in the landholders; that before that date they were not entitled to transfer such rights as they did possess without the sanction of the Government; and that "the public demand on each estate was liable to annual or frequent variation at the discretion of Government." The memorialists appear to me to make the mistake of supposing that the Permanent Settlement Regulations declared an existing, instead of creating a new state of things.

6. So also I understand it to have been asserted that the Code of 1793 acknowledged the zemindars to be absolute proprietors of the soil, and therefore admitted no rights of the cultivators as against them, except such as might be expressly declared in the Code itself; that whatever rights the ryots may have possessed were ascertained and defined in the Code, which reserved to the Government no power to ascertain and settle them at any future time; and that therefore the present legislation purporting to ascertain and settle such rights is a breach of the Permanent Settlement. This assertion is, however, in my opinion untenable.

7. Regulation I of 1793 expressly reserved to the Governor-General in Council the power, whenever he might deem proper, to enact such regulations as he might think necessary for the protection and welfare of the tenants, the proprietor being expressly debarred from claiming, in case such regulations should be enacted, any reduction of his fixed revenue on that account; a provision which clearly contemplates the possibility of some future regulation affecting his receipts from his tenants.

8. Under this reserved power, legislation for the welfare of the tenant has, on cause shown, been on several occasions adopted, both before and since the enactment of Act X of 1859, of which the present Act is an amendment and an extension. And the exercise of this power was fully justified on the present occasion by the facts brought to light during the inquiries and discussions which preceded the passing of this Act.

9. I observe that many of the objections to particular proposals or provisions which are urged in the memorials I have received are directed against provisions which, though inserted in one or other of the Bills which have been from time to time drafted, find no place in the Act as passed. In the amended Bill first submitted the Select Committee considerably modified the Bill as originally introduced, and modified it in accordance with views urged by the representatives of the zemindars. On the points of any importance in which the Act finally passed differs from the first amended Bill, the modifications, with one exception, have been in the same direction. The remaining provisions to which objection was made have been so thoroughly and closely examined by your Legislative Council as to give me confidence that the decision arrived at on each of them is a sound one; while the fact that several of them have been attacked, from opposite points of view, by the representatives of both the landlords' and tenants' interests leads, as has been pointed out, to a fair inference that the just claims of both parties have been allowed.

10. I should have been glad if it had been found possible to give the greater facilities for the realization of rent desired by the zemindars by an abbreviation and simplification of procedure in the Civil Courts. But the opinion of the Select Committee, supported by that of the Judges of the High Court, convinces me that this would have involved a serious risk of failure of justice. The executive improvements which have been suggested on this point will doubtless receive your consideration. And it seems probable that the object in view may, to a large extent, be secured by a considerable increase in the number of Munsiffs Courts specially employed in the adjudication of rent suits.

11. As regards the objection that the Act was passed with undue haste, Her Majesty's Government entertain no doubt that the decision of the Legislative Council not to delay the matter further was right. The present measure has, in one shape or another, been before the public for more than four years. No less than five Bills were drafted and submitted to public criticism before that which was finally adopted. An enormous mass of materials has been from time to time collected and considered; and a very strong Select Committee, on which all the interests concerned were represented, was engaged for two sessions in discussing details and framing the Act. A measure so passed cannot be said not to have received full consideration. Moreover, there were the strongest reasons why the controversy upon the reform of the Tenancy Law, which has agitated and excited the agricultural classes of Bengal for the last seven years, should be set at rest as soon as possible.

12. I request that the different memorialists who have addressed me on the subject of the amendment of the Bengal Tenancy Law may be informed of the conclusions at which I have arrived.

---

## ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

**The Council met at the Viceregal Lodge, Simla, on Wednesday, the 22nd July, 1885.**

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.
His Honour the Lieutenant-Governor of the Punjab, LL.D., K.C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.
The Hon'ble W. W. Hunter, C.S.I., C.I.E., LL.D.

### CENTRAL PROVINCES COURTS BILL, 1885.

The Hon'ble MR. ILBERT moved for leave to introduce a Bill to amend the Law relating to Civil Courts in the Central Provinces. He said:—

"Mr. Crosthwaite, the Chief Commissioner of the Central Provinces, has been for some time engaged in working out a scheme for the judicial re-organization of the provinces under his administration, with the object, among other things, of effecting gradually, and as circumstances permit, that separation between executive and judicial functions which it is our desire to introduce everywhere, but which is only possible to a very limited extent in the more backward provinces of the Empire. It appears that the result of the arrangements now in force in the Central Provinces is that the Tahsíldár,

who is both a Revenue-officer and also the officer who presides over the lowest Courts of civil jurisdiction, is very much overburdened with original civil work, and that the Deputy Commissioners and Commissioners, who also combine executive with judicial functions, are overburdened with appellate civil work; and the problem which Mr. Crosthwaite is trying to solve is how to afford to these three classes of officers that amount of relief which will enable them to devote proper attention to their other duties. We propose to give this relief partly by taking power to appoint officers who are to be styled Judicial Assistants to the Commissioner, Subordinate Judges and Munsifs, and who are to take over the whole, or part, of the civil judicial work of the Commissioners, Deputy Commissioners and Tahsíldárs respectively. These officers are, as I understand, only to be appointed where, and for so long as, they are absolutely needed, and nothing like a uniform or final arrangement is to be attempted throughout the whole of the aggregate districts, the circumstances of which differ so materially from each other and all of which are passing somewhat rapidly through a period of transition.

"Then Mr. Crosthwaite also proposes to make some modification in the system of appeal, which, as we all know, constitutes the crux of all our judicial arrangements. Under the existing Act for the Central Provinces, the course of appeal is regulated exclusively by the powers of the officer from whom the appeal lies. Consequently, when it is necessary to transfer certain sets of appeals from one appellate tribunal to another, the Chief Commissioner is obliged to resort to the clumsy device of increasing or reducing the powers of the officer presiding over the Court from which the appeal lies, without reference to his fitness for exercising those powers, merely in order to change the Court of appeal, and with the result that all the cases decided by that officer must necessarily go on appeal to the same Court, no matter what their intrinsic value or importance may be. It is now proposed to regulate the course of appeal by reference to the nature of the subject-matter in dispute, in accordance with the system which prevails in Bengal and other Provinces. Mr. Crosthwaite finds that most of his proposals can be carried into effect by executive order, and without any alteration of the law, but that there are some provisions of the Central Provinces Courts Act, especially those relating to appeals, which it is absolutely necessary to modify. Those provisions are not very numerous, but Mr. Crosthwaite is of opinion—and I entirely agree with him—that it would be desirable to take this opportunity of re-casting the language and arrangement of the Civil Courts Act for the Central Provinces in order to bring them into closer conformity with more recent Acts of the same nature in force in other Provinces. Accordingly we propose to repeal the Act of 1865 and to re-enact it with the necessary modifications."

The Motion was put and agreed to.

## CRIMINAL PROCEDURE CODE, 1882, BOMBAY DISTRICT POLICE ACT, 1867, PENAL CODE AND PRISONERS' ACT, 1871, AMENDMENT BILL.

The Hon'ble MR. ILBERT also introduced the Bill to amend the Code of Criminal Procedure, 1882, the Bombay District Police Act, 1867, the Indian Penal Code and the Prisoners' Act, 1871, and moved that it be referred to a Select Committee consisting of the Hon'ble Sir S. C. Bayley, Mr. Hunter and the Mover.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill and Statement of Objects and Reasons be published in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

## SEA PASSENGERS' BILL, 1885.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to amend the law relating to the carriage of passengers by sea be taken into consideration. He said:—

"This Bill applies to voyages from Indian ports certain provisions for the relief of shipwrecked and distressed emigrants which are embodied in two

English Acts of Parliament. We have received from the Chambers of Commerce and other authorities whom we have consulted various suggestions for the amendment of the proposals embodied in our Bill; but in almost every case we have found that those suggestions are inadmissible, for the simple reason that the special authority under which we are legislating in this particular case merely enables us to apply the provisions of the English Acts and does not empower us to amend them. Under these circumstances, the only alterations which we have been able to make in the Bill as introduced are such as are strictly warranted by the language of the English Acts. For instance, we have gone as far as is practicable in meeting the suggestion of the Madras Chamber of Commerce by inserting in the Bill a provision expressly legalising insurances against the liabilities imposed upon shipowners by the Bill, and we are able to do this because that provision is simply copied from a section of one of the English Passenger Acts. We have also, at the instance of General Blair, the Resident at Aden, made the Bill apply to voyages to ports on the East Coast of Africa and in the Gulf of Aden; but we have taken care in all the alterations that we have made not to go beyond the four corners of the English Acts of Parliament which we are authorised to apply."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

## INDIAN TELEGRAPH BILL, 1885.

The Hon'ble MR. HOPE moved that the Report of the Select Committee on the Bill to facilitate the construction of Telegraphs, and to amend the Indian Telegraph Act, 1876, be taken into consideration. He said:—

"In making this Motion I think that there are only two points to which it is necessary for me to invite the attention of the Council, all minor ones having been fully explained in the Report of the Select Committee. The first point is that we have provided that the words 'telegraph authority' in the Bill shall mean the Government Telegraph Department, and that that authority shall not exercise the power of placing telegraph lines and posts except for the purposes of a telegraph established or maintained by the Government, or to be so established or maintained. We think that most of the objections that were taken to the Bill as introduced, chiefly by commercial bodies in Calcutta, will have been met by our proposal that the power of placing telegraph lines and posts shall only be exercised by the Government Telegraph Department. The exercising of such powers by licensees was, on consideration, admitted to be decidedly open to objection.

"The other point is that, in endeavouring to make this Bill fit in with the existing Telegraph Act, we came to the conclusion that it would be more convenient to the Telegraph Department and to the public that the existing Act should be repealed and re-enacted with the modifications and additions proposed by the present Bill; and we have accordingly re-drawn the Bill as a consolidating measure."

The Motion was put and agreed to.

The Hon'ble MR. HOPE moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

## BURMA COURTS BILL, 1885.

The Hon'ble MR. ILBERT presented the Report of the Select Committee on the Bill to amend the Burma Courts Act, 1875, and section 360 of the Code of Civil Procedure.

## INDIAN SECURITIES BILL, 1885.

The Hon'ble SIR A. COLVIN asked for leave to postpone the presentation of the Report of the Select Committee on the Bill to amend the law relating to Government Securities.

Leave was granted.

The Council adjourned to Wednesday, the 29th July, 1885.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 22nd JULY 1885.

GENERAL REMARKS.—Rain is reported from the Madras Presidency generally, and prospects, which are elsewhere fair, have much improved in Bellary and are more favourable in Anantapur. More rain is still wanted for the crops in parts of Bellary, Ganjam, and Tanjore. In Mysore slight rain fell in most parts of the State, but more is required. Prospects are uncertain in Kolar and in the lowlying tracts of the Shimoga and Kadur districts; elsewhere in the Province prospects are, on the whole, favourable. In Coorg there has been a good deal of rain, and prospects continue favourable.

Good rain has fallen throughout the Bombay Presidency, and prospects have greatly improved. More rain is required for sowings in Khandesh and in the Panch Mahals. *Kharif* sowings are in general progress. Rain has fallen throughout the Berars, in Hyderabad, and the Central India and Rajputana States, and prospects are, on the whole, very favourable, though in Marwar considerable anxiety is said to prevail on account of the scanty rainfall. In the North-Western Provinces and Oudh, in the greater part of the Punjab, and in the Central Provinces rain has been general, and *kharif* operations are in active progress.

Good rain continues to fall in Bengal, and agricultural prospects are favourable in all districts. The autumn crops and sugarcane promise well, except in some places where they have been damaged by floods. Harvesting of early rice and jute has begun in parts of Northern and Eastern Bengal, and the transplanting of late rice is going on well. Good rain is reported from Assam, and the state and prospects of crops continue favourable.

In British Burma the weather is seasonable; and ploughing, sowing, and transplanting are in general progress.

The public health is fairly good in most Provinces, and prices are generally stationary, except in the Punjab, where they are rising in Ferozepore and Peshawar. In Bengal prices are still high.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(July 22nd)** | | |
| Bellary ... | ·76 (average) | More rain required in parts. Dry crops fair, except in parts of two taluks where caterpillars are reported to have appeared; wet crops moderately good; harvest paddy in one taluk, outturn average. Fever in one taluk; 1 death from cholera. |
| Kurnool ... | 2·39 ( „ ) | Small-pox and cattle-disease in parts; 37 deaths from cholera. |
| Ganjam ... | 1·13 ( „ ) | More rain wanted. 364 deaths from cholera. |
| Kistna ... | 2·98 ( „ ) | Wet and dry crops sown in parts. River 3 feet 8 inches over anicut. Fever and small-pox in parts; 115 deaths from cholera unreported last week, 75 this week. |
| Chingleput (Madras) ... | ·66 ( „ ) | Standing crops good; harvest paddy in two taluks, outturn below average. Fever abating; small-pox in one taluk; cattle-disease slight. |
| Coimbatore ... | ·16 ( „ ) | Standing crops generally fair, but damaged in parts; harvest *cholum* and *cumboo* in parts, outturn generally average. Fever in one taluk; 23 deaths from cholera. |
| Tanjore ... | ·29 ( „ ) | Standing crops generally good, but not flourishing in parts of two taluks for want of rain; harvest dry crops and cotton in one taluk, outturn below average. 39 deaths from cholera. |
| Madura ... | Last week including reports since received (average) ·24; this week (average) ·02. | Fever prevalent. |
| Malabar ... | 4·66 (average) | Transplanting continues in parts. Slight small-pox in eight taluks; fever in two; cattle-disease in one; 28 deaths from cholera. |
| Travancore ... | 1·45 ( „ ) | Standing crops fairly thriving. Fever and small-pox prevalent in parts. |
| | | *General Remarks.*—General prospects fair, much improved in Bellary and better in Anantapur. |
| **Bombay—(July 22nd)** | | |
| Karachi ... | Sakro, ·08; Manora, ·06. | River at Kotri on 20th, 18 feet 6 inches against 14 feet 7 inches on same date last year. Fever in three and cattle-disease in four talukas. Loss of 51 buffaloes in Ghorabari taluka. Weather warm in Ghorabari taluka. Damage to crops in Shahbandar on account of deficiency of water in Keti owing to sea-water flood. Small-pox in four villages in districts, 5 fresh cases, 3 deaths, 27 remaining sick; 625 cases of cholera in the Karachi collectorate, 429 deaths. Prices—wheat, red rice, and *bajri* in Karachi 26, 36 and 34; in Tata 24, 40 and 40; in Shahbandar 22, 40 and 46; and in Kotri 32 and 40 pounds per rupee, respectively. |
| Hyderabad ... | Rain at Sakrand on 14th, ·07. | *Kharif* cultivation good. Lands adjoining the river bank in the Hala and Sakrand talukas are under water. River at Kotri on 20th, 18 feet 6 inches against 14 feet 7 inches on same date last year. Fever in one, small-pox in four, cattle-disease in two, and cholera in eleven talukas. Prices of grain steady. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Ahmedabad ... | 6·24; rain throughout the district; minimum in Modasa where more is wanted. | Total rainfall 9·10. Sowing operations commenced. Public health good. Wheat 36 and *bajri* 33 pounds per rupee. |
| Baroda ... | 2·09 | Total rainfall 3·79. Sowing operations have commenced where rain has fallen. Cholera continues in Baroda city, 39 fatal out of 79 reported. Prices—*bajri* 27, wheat 25, and rice 19 pounds per rupee. |
| Surat ... | 2·30; general fall throughout the district; maximum in Pardi, 18·66; minimum in Jallalpur, 3·15. | Total rainfall 6·94. Prospects greatly improved. Sowing progressing. transplantation commenced in places. Cholera in Surat and Jallalpur, 3 cases, 2 deaths. *Juari* 36 and *nagli* 41 pounds per rupee. |
| Nasik ... | 7·17; Sinnar, 2·86; Igatpuri, 23·63; Dindori, 4·51; Niphad, 1·38; Chandor, 1·24; Yeola, ·27; Malegaon, ·72; Nandgaon, 1·19; Baglan, 1·70; Karwar, 2·02; Punt, 25·90. | Prospects improved. More rain wanted in Niphad, Chandor, Yeola, Nandgaon, and Malegaon. Sowing of rice, *nagli*, and ground-nut commenced in Nasik and Dindori; transplantation of rice and *nagli* vigorously progressing in Igatpuri and Punt; sowing of *kulti* and *tili* commenced in Baglan; sowing of *bajri* will shortly commence; want of fodder for cattle felt in Sinnar, Niphad, Chandor, Yeola, Nandgaon, Baglan, and Kalvan. Cholera in Nasik, Sinnar, Igatpuri, Niphad, Yeola, Nandgaon, 181 attacks, 110 deaths. Wheat 34½, *bajri* 34, and rice 21 pounds per rupee. |
| Colaba (Bombay) ... | Rain every day; heavy on 16th; total of week, 12·40. | Total to date, 22·02, being 16·39 below average. Abnormal temperature rose from 1° cool on 15th and 16th to 2° warm on 19th and then fell to 1° cool on 21st; vapour in air excessive from 17th to 21st; abnormal wind from north-west from 15th to 17th; wind normal from 18th to 21st. |
| Poona ... | Rain throughout the district; maximum in Maval, 12·89; minimum in Indapur, ·40. | Sowing operations progressing, except at Indapur and Sirur talukas, where more rain is wanted. Prices—*bajri* 29 and *juari* 37; in Poona *bajri* 28 and *juari* 33 pounds per rupee. 131 cases of cholera in four talukas, 68 deaths. |
| Ahmednagar ... | Akola, 1·26; Parner, 1·20; Newasa, 1·05; Sheogaon and Rahuri, ·98; Jamkhed, ·86; Nagar, ·59; Shrigonda, ·56; Karjat, ·38; Kopargaon, ·27. | Sowing of *kharif* is in progress in about 30 villages in the Nagar taluka, in a very few places in Parner and Shrigonda, in about ten or eleven villages of Kopargaon, in parts of Sheogaon, Newasa, and in about four villages of Rahuri, in about seven villages of Sangamner, and in parts of Jamkhed, where the present rainfall has been beneficial to the *tasur* crops; sowing of *baligi* and *bajri* is begun in about twenty-two villages of Karjat, in Akola; *kharif* sowings is begun in some of the Deohi villages. The late rainfall has been beneficial to the *nagli, vari,* and rice crops sown in the Dang villages. **Want of fodder at Parner, Kopargaon, and Sangamner. 88 heads of cattle are reported to have died in Sangamner and 80 in Kopargaon; slight cattle-disease in Newasa, Sangamner, and Akola; cholera—32 attacks, 12 deaths in Jamkhed; 7 attacks, 6 deaths in Sheogaon; 67 attacks, 19 deaths in Newasa; 3 attacks, 3 deaths in Rahuri; 16 attacks, 9 deaths, in Kopargaon; and 8 attacks only in Sangamner.** *Bajri* from 34 to 45 and *juari* from 42 to 66 pounds per rupee. |
| Sholapur ... | Sholapur, 1·47; Barsi, 1·14; Madha, ·74; Karmala, ·25; Pandharpur, 1·10; Sangola, ·79; Malsiras, ·64. | Sowing has generally commenced in the Sholapore, Barsi, Madha, Karmala, Pandharpur, and Sangola talukas; sowing operations have commenced in parts only, where there was enough moisture in the Malsiras taluka; irrigated crops are suffering. Well water being scarce, general and good fall of rain is anxiously looked for. *Juari* is sold at 45 pounds 31 tolas and *bajri* 30 pounds 33 tolas per rupee. There are as yet no signs of distress. |
| Dharwar ... | Sangola, 1·94; Dharwar and Mugud, 1·80; Gadag, 1·72; Kalghatgi, 1·50; Kod, 1·31; Nargund, 1·20; Bankapur, 1·10; Ranibennur, 1·0; Hubli and Mundargi, ·85; Navalgund and Ron, ·70; Karajgi, ·65. | Sowing of early *juari* in progress, except in Ron, part of Navalgund, and Karajgi, where it is retarded for want of sufficient moisture; rice crops good, but require heavy showers. Slight cholera in Dharwar, Hubli, Navalgund, and Bankapore talukas; slight cattle-disease in Hangal taluka. Average price of rice 26 and *juari* 41 pounds per rupee. Season prospects fairly good; rice crop excellent. No danger of famine. |
| Kanara ... | Karwar, 7·37; Kumpta, 7·38; Sirsi, 7·29; and Haliyal, 3·59. | Crops thriving. Cholera at Haliyal 26 cases, 22 deaths; fever and small-pox in six talukas and cattle-disease in two. Common rice at Karwar 14½ seers, district average 15 seers per rupee. |
| Rajkot ... | 1·28 | Total rainfall 3·02. General health good. Weather cloudy. Sowing operations have commenced in many places. *Bajri* 31 and *juari* 43 pounds per rupee. |
| | | *General Remarks.*—Good rain throughout the presidency. Prospects greatly improved; more rain required for sowing in parts of some districts, specially Khandeish and the Panch-Mehals; rice transplantation progressing; standing crops injured by insects in parts of Upper Sind Frontier; fodder is scarce in parts of Nasik and Ahmednagar. Cholera in parts of seventeen, and fever, small-pox, and cattle-disease in parts of eight districts. |
| **Bengal—(July 22nd)** | | |
| Chittagong ... | 2·80 | Weather hot, with occasional showers of rain. *Amun* paddy being sown; prospects generally fair. Prices variable. Cholera lingers. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| Dacca ... | ·85 | *Harvesting* of early rice and jute going on; late rice and sugarcane thriving; prospects of crops and public health good. |
| 24-Pergunnahs (Calcutta) | *Nil* | Prospects of early crops continue satisfactory; transplanting of *aman* going on in low lands. Prices of common rice 13 to 15¼ seers per rupee. Public health generally good. |
| Kulna ... | 3·30 | Weather cloudy and rainy. *Aus* doing well; transplanting of *aman* paddy going on. Price of rice remains high. Public health good. |
| Moorshedabad ... | ·93; slight rainfall | Weather seasonable. Prospects of *aus* good; more rain urgently wanted for transplanting of *aman*. Public health good. |
| Burdwan ... | ·7; Culna, ·38; Cutwa, 1·23; Raniganj, 1·87. | Transplanting progresses. Prospects good. Price of rice 11 to 14 seers per rupee. Public health good, except in the Sadar subdivision. |
| Rungpore ... | 1·60 | Weather cloudy. Prospects of crops good; harvesting of early crops proceeding; transplanting of *aman* continues. Fever and bowel-complaints increasing; cholera prevalent in thanas Govindganj and Dimla. Prices stationary. |
| Bhagalpur ... | ·2 | Prospects of crops much improved; rice seedlings *being transplanted*. Price of rice 12 seers 10 chittacks per rupee. Public health good. |
| Purneah ... | 3·23 | Prospects of *bhadoi* good; *aghani* being transplanted. Price of coarse rice 14 seers per rupee. Public health normal. Ganges and Kusi rising. |
| Patna ... | ·53 | Maize, *kowai*, and paddy growing well; in some places they are still being sown; sowing of *jiiari* and *arhar* being pushed on. A few cases of cholera and small-pox reported from Behar. |
| Durbhunga ... | 1·37 | *Bhadoi* crops look very promising, except where injured by floods; transplanting of paddy and *murwa* going on. Prices almost stationary. Cholera abating. |
| Hazaribagh ... | 2·19 | Weather seasonable; abundant rain reported from all stations. Transplanting of *murwa* going on; paddy-fields being sown. Cholera reported from Hazaribagh, Chatra, Bogodur, and Tandwa otherwise general health good. |
| Cuttack ... | 2·10 | Weather cloudy. Early rice being harrowed; late rice growing tolerably well and being weeded; inundated lands being resown. Price of rice almost unchanged. Cholera reported from several places. |
| Midnapur ... | 1·48 | Weather seasonable. **Rice being transplanted. Public health fair.** |
| Khoolna ... | | |
| Dinagepore ... | ·63; moderate rain in this week. | State and prospects of crops good; jute beginning to be harvested Cases of cholera in Southern thanas and some cattle-disease in Thakurgaon: health in general good. Average price of rice 14 seers per rupee. |
| Pubna (Serajgunj) ... | 1·61 | Crops promising. Price of rice falling. Public health good. |
| Gya ... | 1·59 | Prospects of crops continue good. Prices nearly stationary. Public health fair, but cholera and fever still prevalent in places. |
| Chumparun ... | ·37 | Weeding being carried on vigorously. Prices stationary. A few cases of cholera reported. |
| | | *General Remarks.*—There has been general rain during the week, and agricultural prospects are favourable in all districts; more rain is wanted in Moorshedabad. Autumn crops and sugarcane are generally very promising, except in a few localities where *some damage* has been done by floods; transplanting of late rice progresses well; harvesting of early rice and jute has begun in parts of Northern and Eastern Bengal: in spite of the present good prospects of the crops, the price of rice remains high and shows no signs of falling. General health continues to be fair. The earthquake on the morning of the 14th instant was felt all over the Lower Provinces. |
| **N. W. Provinces and Oudh—(July 23rd)** | | |
| Benares (July 21st) | Average rainfall over district, 2·0. | Weather unchanged. Sowings almost completed, but more rain required; supplies sufficient. Prices tending to rise. No sickness of men or cattle. |
| Gorakhpore ( „ 20th) | 1·20 at Sadr | Weather cloudy and close. Crops promising. Prices falling. Some sporadic cholera in south and east. |
| Fyzabad ( „ 21st) | Moderate fall of rain throughout the district. | Crops coming up well; prospects good. Prices rising slightly. Health good. |
| Lucknow ( „ 20th) | 2·90 (average) | Weather cloudy. *Kharif* sowings going on; a break would be beneficial: supplies sufficient. Prices steady. Health both of men and cattle good. |
| Rae Bareli ( „ „ ) | Good rain all over the district. | *Kharif* crops germinating and look well. Prices slightly rising. General health fair. |
| Partabgarh ( „ 21st) | 2·0 to 3·0 throughout the district. | Crops look well. *Bajri* sowings begun. |
| Allahabad ( „ „ ) | Good rainfall, average over 2·0. | Markets well stocked. Prices almost stationary. Health good on the whole, though isolated cases of cholera are still reported. |
| Cawnpore ( „ 20th) | General and good rain during the week. | *Kharif* sowings continue and weeding of young crops in hand. Prices rising slightly. Slight fever in two parganas; a little cattle-disease also in two *parganas*. |
| Banda ( „ 21st) | ..... | Rain timely. *Kharif* sowing progresses; prospects excellent. Public health good; no disease of men; cattle-disease in one village. |
| Ballia ( „ „ ) | Moderate rain during the week prevailing. | Wind easterly. Prospects favourable; supplies sufficient. Health good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Farakhabad (July 21st) | General rainfall 3·9 to 7·0. | *Kharif* prospects favourable. Very high flood in Khalinadi; has damaged the bridge at Madanpur and breached the road near the bridge; suspension bridge at Khudaganj carried away, and railway bridge seriously injured. No loss of life so far as is yet known. |
| Sitapur ( „ „ ) | Rain averaging 2·4 has fallen throughout the district. | Prospects are very favourable. No sickness reported. |
| Bareilly ( „ „ ) | Rain pretty continuous | Sowings continue. Market fairly steady. Public health good; occasional cattle-disease. |
| Kumaon ( „ 20th) | Heavy rain up to 17th instant; since break. | Crops flourishing. Prices steady. Fever prevalent; some cattle-disease. |
| Agra ( „ „ ) | Good rain in all parganas. | *Kharif* sowings progressing. Prices steady. Very slight cholera in one pargana. |
| Jhansi ( „ 21st) | Fair rains | *Kharif* sowings continue. Prices slightly rising. Some deaths from cholera in pargana Mau, and fever reported from pargana Jhansi. |
| Meerut ( „ „ ) | Useful rain during the week. | Weather hot and cloudy. Supplies sufficient. Condition of people and cattle good. |
| | | *General Remarks.*—Rain has been general throughout the provinces; in Aligarh the fall has been extremely heavy, causing damage to crops. *Kharif* operations in progress, and prospects seem favourable. Markets are well supplied, and prices fairly steady. Public health generally good. |
| **Punjab—(July 22nd)** | | |
| Hissar (July 21st) | ·90 | Health fair. *Kharif* sowings in progress. Prices stationary. |
| Delhi ( „ „ ) | 5·30 | Health fair. *Kharif* ploughing in progress. Prices fluctuating. |
| Umballa ( „ „ ) | ·80 | Health good. *Kharif* sowings in progress. Prices almost stationary. |
| Jullundur ( „ „ ) | ·50; more wanted | Health good. *Kharif* sowings in progress. Prices stationary. |
| Ferozepore ( „ „ ) | ·70 | Health good. *Kharif* sowings in progress. Prices rising. |
| Amritsar ( „ „ ) | 2·10 | Health and crops good. Prices stationary. |
| Sialkot ( „ „ ) | 1·0; more wanted | Health good. Prices stationary. |
| Lahore ( „ „ ) | 3·0 | Cholera in the Chunian tahsil. *Kharif* sowings in progress. Prices almost stationary. |
| Mooltan ( „ „ ) | *Nil* | Health and crops good. Prices almost stationary. |
| Rawalpindi ( „ „ ) | ·30; more wanted | Health good, with exception of few cases of cholera in Rawalpindi city and cantonments. *Kharif* sowings in progress. Prices stationary |
| Shahpur ( „ „ ) | Rain throughout the district. | **Health good. Prices stationary.** |
| Dera Ismail Khan ( „ „ ) | *Nil* | Health good. Prices falling. |
| Peshawar ( „ „ ) | *Nil* | Health good. Prices rising generally. |
| | | *General Remarks.*—Rain in most districts. Slight cholera in the Gurgaon district, in the Chunian tahsil of the Lahore district, and in the city and cantonments of Rawalpindi, elsewhere the health is generally good. *Kharif* sowings in progress. Prices of food-grains generally stationary, rising in Ferozepore and Peshawar districts. |
| **Central Provinces—(July 22nd)** | | |
| Nagpur ... | 9·63; weather rainy | Sowings nearly completed. Fever and small-pox in places. Prices steady. |
| Jubbulpore ... | 4·28; weather showery | Cotton sowings finished; plants 2 to 3 inches and healthy; other sowings still continue. 282 cases of cholera, 157 deaths. Prices unchanged. |
| Sangor (July 21st) ... | 7·20 | Heavy rain; weather cloudy. *Kharif* ploughings and sowings still in progress. Health good. Prices stationary. |
| Seoni ... | 5·4 | Weather cloudy. Rice transplanting progressing. 3 cases of cholera, 2 deaths; cattle-disease and small-pox continue. Prices stationary. |
| Hoshangabad ... | 6·90 | Weeding continues. 71 cases of cholera, 38 deaths. Prices stationary. |
| Khandwa ... | 3·61; weather showery | Prospects good. Prices steady. Health good. |
| Raipur ... | 8·25 | Weather cloudy and clear alternately. Sowings completed. 763 cases of cholera, 571 deaths; slight cattle-disease. Prices steady. |
| | | *General Remarks.*—Good rain with favourable weather for agricultural operations. Cholera continues in Chhattisgarh and in two other districts. Prices steady. |
| **British Burma—(July 22nd)** | | |
| Akyab ... | 4·86 | Total rainfall 76·43. Public health good; slight cattle-disease in town and in one circle. Ploughing progressing. |
| Bassein ... | 2·98 | Total rainfall 36·23. Public health good in town; sporadic cholera of fatal type in one circle; cattle-disease severe in one district and in three townships. |
| Rangoon ... | 4·57 | Total rainfall 30·30. Public health good; cattle healthy. |
| Amherst (Moulmein) ... | 10·62 | Total rainfall 80·86. Public health good; cattle healthy. Ploughing progressing. Excessive rainfall inundated fields, destroying young crops. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **British Burma**—*contd.* | | |
| Pegu ... | 7·24 | Total rainfall 44·69. Public health good; cattle healthy. Ploughing progressing. |
| Henzada ... | 6·92 | Total rainfall 33·59. Public health good; cattle-disease slight in one township. Ploughing progressing. |
| Prome ... | 0·98 | Total rainfall 17·65. Public health good in town; severe cholera in one township, now apparently over and also in two circles. Seedlings planted. |
| Toungoo ... | 2·72 | Total rainfall 36·81. Slight cholera in town and in five circles; cattle healthy. Ploughing progressing. |
| Thayetmayo (July 11th) | 3·56 | Total rainfall 15·00. Public health good; cattle healthy. Ploughing progressing. Slight rain in Myedi subdivision. Cattle healthy. Ploughing progressing. |
| Ditto ( „ 18th) | 2·18 | |
| | | *General Remarks.*—Cholera severe in four and slight in four districts; small-pox slight in one district, elsewhere public health good; cattle-disease severe in two and slight in three districts, elsewhere health of cattle good. Ploughing, sowing, and transplanting progressing. Rains seasonable. |
| **Assam—(July 22nd)** | | |
| Gauhati ... | 7·0; weather rainy | Fever very prevalent; cholera decreasing in Kahajar, prevailing in Luki tahsil; cattle-disease from some of the mouzahs disappearing. Gathering of *aus* almost finished; transplantation of *sali* in progress; tea and sugarcane doing well. |
| Sylhet ... | 6·48 | State and prospects of crops favourable. Fever and cattle-disease reported from Habiganj. |
| Silchar ... | 4·67 | Weather warm. Some damage done to *dumahi* and *murali* crops by insects; transplanting of *aus* crops nearly finished; ploughing for *sali* crops progresses; prospects of tea favourable. Common rice 13½ seers per rupee. 3 deaths from cholera from Lakhimpur and 1 from Hailakandi reported; general health good. |
| Dibrugarh ... | ..... | |
| **Mysore and Coorg—(July 22nd)** | | |
| Bangalore ... | Slight rain has fallen in most parts of the State. | More rain is required. Crops somewhat improving in Kolar district, where prospects are still uncertain; elsewhere in fair condition, except in the lowlying tracts of the districts of Shimoga and Kadur; favourable on the whole elsewhere. Cases of cholera still continue in Bangalore and Mysore, otherwise public health fair; cattle-disease reported from Bangalore and Mysore districts. No material change in prices. |
| Mysore ... | | |
| Mercara ... | 7·10 | Coffee and cardamom crops in good condition. Prices of food-grains slightly fallen. Prospects of season and public health good. |
| **Berar and Hyderabad—(July 22nd)** | | |
| Amraoti ... | 4·88 | Weather rainy. Cotton plants thriving; *juari* sowing completed. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | 1·48 | Weather cloudy. *Kharif* sowings continue. |
| Hyderabad ... | 3·07 | Standing crops good. Cholera continues in some places, general health fair Prices—Wheat 14¾, coarse rice 12½, white *juar* 19, yellow *juar* 23, and *tur* 15½ seers per current sicca rupee. |
| **Central India States—(July 22nd)** | | |
| Indore ... | 2·40 | Health and prospects good. |
| Morar (Gwalior) ... | 2·41 | Health good. |
| Sutna ... | 2·76 | Prospects good. Cholera decreasing; 13 cases, 4 deaths in Rewah. |
| Neemuch ... | 1·75 | Weather cloudy and warm; health good. |
| Goona ... | 2·5 | Cholera in Kumraj of Gwalior, otherwise health good. |
| **Rajputana—(July 22nd)** | | |
| Abu ( July 22nd) | 4·0 | Weather very cloudy, close and seasonable. |
| Sirohi ( „ 19th) | ·81 | Tanks fair; wells and health good. Sowing again begun. Rain light. |
| Marwar ( „ 17th) | ·42 | Very little water in Jodhpore city tanks. Health good. *Kharif* operations proceeding where heavier rain fell extremely. Weather close and warm. Considerable anxiety prevails where rains are partial and scanty. Prices tending to rise. |
| Meywar ( „ „ ) | 1·83 | Tanks and wells filling. Crops improved by rain during week. Health good. Prices slightly falling. Rain general. |
| Harowti ( „ „ ) | ·93; Deoli, 3·11; Tonk, 1·59; Shahpura, 3·49. | Tanks and wells full. Crops prospect excellent. Health good. Prices stationary. Weather pleasant. |
| Jhallawar ( „ „ ) | 4·66 | Sowing progressing favourably. Health good. |
| Kherwara ( „ 20th) | ·10 | Tanks and wells fair. Indian-corn sown in low lands; no rice yet sown. Health good. Prices low, but slightly rising. Weather cloudy. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Rajputana**—*contd.* | | |
| Ajmere ( July 21st) | ·66 | Health good. Weather sultry, clouds hovering about. |
| Jeypore ( „ „ ) | ·98 | Prospects favourable. Prices stationary. Health good. |

**REVENUE REPORT OF IRRIGATION WORKS IN SIND FOR 1883-84.**

No. 1681, Simla, July 13, 1885.

RESOLUTION.—By the Government of India, Public Works Department.

Read—

Letter from the Government of Bombay, No. 97W.I.—216, dated 13th May 1885, submitting the Revenue Report of the Irrigation Department in Sind for 1883-84, and the Resolution of the Government of Bombay thereon.

OBSERVATIONS.—The capital expenditure during the year 1883-84, from Productive and Ordinary funds, amounted to R4,42,032 and R39,896, respectively. The total capital outlay up to the close of the year was R1,01,13,681, of which sum R67,74,709 had been spent on Productive Public Works.

2. The gross revenue from all sources was by assessments R28,66,726 and by collections R28,10,861. The revenue due to irrigation works other than agricultural was by assessment R28,66,186 and by collections R28,06,517; against this the maintenance charges, direct and indirect, and including the charges for collection, amounted to R14,58,228. The net revenue calculated on the earnings of the year was therefore R14,07,958. It would, however, appear from paragraph 12 of the Superintending Engineer's report and from paragraph 4 of the Commissioner's memorandum, that some claims for remission were still unsettled at the close of the year, and that deductions from the canal share of the consolidated revenue to the amount of about R80,000 will have to be made in the accounts for 1884-85. This adjustment will not affect the returns from the canals which are classed as Productive—their earnings give a percentage of 4·60 on the capital invested—whilst the return from those works for which Capital and Revenue Accounts are kept was, according to the figures recorded, 15·06 per cent.

3. The area cultivated by the aid of the irrigation works was 1,540,831 acres, of which 178,724 acres were in jaghir estates and are assessed at a lower water rate. The water share of the net consolidated revenue assessed on the 1,362,107 acres of Government land amounted to R31,68,358, which gives a rate of R2·33 per acre. This is again an improvement on the rate per acre recorded in the previous year, and is attributable to the same cause, *viz.*, the progress of the revision of the settlement; and there is no doubt that the improvement will be continuous, as in consequence of the more accurate measurements and assessments of the new settlement full credit will be obtained for the benefits derived from the canals.

4. There were no high floods during the irrigating season, and the distribution of water was rendered more difficult than usual by the fluctuations in the levels of the water in the river, which are described in detail in the report. The area cultivated was for the above reasons less than in the previous year, but compares favorably with the areas recorded for other years in which there were no extraordinary floods. Owing to the absence of high floods the breaches in the protective embankments were few and unimportant. It is very satisfactory to find that the money expended on these extensive embankments has already begun to yield a return, and that lands which have long been allowed to lie uncultivated through fear of the constantly recurring inundations are now again being brought under cultivation. The Superintending Engineer's report shows that steady progress has been made in extending and strengthening these most necessary works along the whole line of the river, and their completion in the immediate future may now be confidently looked for.

5. The working expenses shown in the administrative statement amount, as before stated, to R14,58,228, which gives a percentage of 44 on R33,06,512, which is the total of the gross assessed revenue and hakaba, and a maintenance charge of R0·95 per acre irrigated. It is mentioned in paragraph 16 of the report that there has been an increase in mileage both of Canals and Protective Works in charge of the Department. The length of canals is now 5,701 and of bunds 524 miles.

6. The greatest area irrigated by a cubic foot of water was 74·22 acres on the Desert, and the least 20·70 acres on the Kalri, Canal. The average duty of the canals for which records are given in the Table VIII attached to the report was 38 acres per cubic foot of average discharge. The discharge of the main canals was, as a rule, much less and the duty better than in the previous year.

7. Both the Commissioner and the Superintending Engineer remark on the large balances of canal revenue which remained uncollected at the close of the year, and state that strenuous efforts will now be made to diminish these outstandings, and it is to be hoped that the next report will record a great improvement in this respect.

8. There has again been great delay in the submission of this report. The Superintending Engineer, in his forwarding letter, states that he was unable to complete his report until 2½ months after the due date; but no explanation is afforded by the Government of Bombay of the further delay which has resulted in its reaching this office half a year later than the prescribed date. The Government of India hopes that the Government of Bombay have already taken steps to prevent a repetition of these continually recurring delays.

---

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Government of Bombay, in the Public Works Department, for information.

Also that a copy of this Resolution, of the Report, and of the Resolution by the Government of Bombay, be forwarded for information to the Governments, noted in the margin, in the Public Works Department.

Madras, Bengal, the North-Western Provinces and Oudh, and the Punjab.

Also, that a copy of this Resolution, of the Report, and of the Resolution by the Government of Bombay, be forwarded to the Department of Finance and Commerce, and to the Revenue and Agricultural Department, for information.

Also, that a copy of this Resolution, the Resolution by the Local Government, and the memorandum by the Commissioner in Sind, together with the general abstract of financial results, be forwarded to the Publisher of the *Gazette of India*, for publication in the Gazette Supplement.

Also, that a copy of this Resolution be forwarded to Her Majesty's Secretary of State.

HENRY A. BROWNLOW, *Colonel, R.E.*,
*Deputy Secretary to the Govt. of India.*

---

## *Resolution No. 97 W. I.—216, dated 13th May 1885, by the Government of Bombay on the Revenue Report of Irrigation Works in Sind for 1883-84.*

---

Letter from the Superintending Engineer for Irrigation in Sind, No. 325, dated 4th February 1885.

Forwards the Revenue Report of Irrigation Works in Sind for 1883-84 with the usual tables, charts and a copy of the index map of Sind, recently revised at the request of the Commissioner in Sind; and explains the cause of delay in submitting the report.

Memorandum from the Commissioner in Sind, No. 666, dated 20th February 1885.

Forwards the report, with accompaniments, with his observations thereon.

RESOLUTION.—The inundation of 1883 was an unfavorable one, as the chart of gauge readings clearly shows, and in consequence the area of cultivation (as shown in Table II) was 1,32,462 acres less than that of the previous year. The difference in the total canal revenue for collection, shown in the same table, was only R31,792—a result which is mainly due to the introduction of the temporary revision settlements; but this, however, does not include any portion of the remissions (R83,093), the claims for which were not disposed of until after the close of the year. On the other hand, the actual realizations on account of hakaba from jaghirs were only R85,130 out of a total sum for collection of R2,05,508, and the balance due was R1,20,378. The outstandings of hakaba in Khelat, R95,174, are far too large, and the Political Agent at Jacobabad should be requested to make arrangements for their clearance.

2. The total area cultivated during the year was 1,540,831 acres, including 178,724 acres of jaghir land; the area of cultivation on which revenue was assessed was 1,362,107 acres, and the irrigation share of net consolidated assessment was R31,68,358 giving an average rate of R2·3 per acre. The gross assessed revenue from all sources was R28,66,726, and the net revenue R14,99,020. The net profit, after paying of interest, from Productive Irrigation works was R55,625.

3. The total amount expended on maintenance and repairs and revenue collection during the year was R13,67,706, which is about the same as in the two previous years, and R2,18,448 more than the average of the four years ending 1880-81. The percentage of expenditure on revenue was 41·36, and the cost of maintenance per acre R0 88, or about 14 annas, which are both reasonable. The percentage of cost of Public Works Establishment on expenditure on maintenance and repairs was 24·37, which is also reasonable.

4. It is satisfactory to find that the cultivation and revenue on the Mithrau and Thar Canals are increasing, and there is every reason to hope that in another year or two, when the protective embankments and the deepening of the Nara Supply Channel are completed, the financial results of the Eastern Nara Works will show a profit. The canal revenue, as shown in Table III, is R43,313 more than that of 1882-83, when it was stated that the minimum had been reached, and the loss during the year under review was only R52,870.

5. Government notice with much satisfaction that the increased expenditure which has been incurred on the maintenance of, and on improvements to, the canals, and the construction of river embankments in Sind for the past three years, has been productive of great good; and that the Commissioner in Sind is confident that the result of the work which has been done by the Irrigation Department will, in the course of a few years, be a large and steady increase in canal revenue.

6. The report is considerably overdue, as explained by the Superintending Engineer for Irrigation in his forwarding letter. Every endeavour should be made to ensure its more punctual submission in the future.

7. Copies of the report, of the Commissioner's endorsement thereon, and of the review of this Government should be forwarded as usual to the Government of India and the Secretary of State.

---

No. 666 OF 1885.

PUBLIC WORKS DEPARTMENT,

COMMISSIONER'S OFFICE,

*Camp Tando Adam, 20th February 1885.*

Superintending Engineer's No. 325, dated the 4th February 1885, forwarding the Irrigation Report.

Submitted to Government.

2. The inundation was not a good one, "its fluctuating nature being its chief and worst characteristic." The canals, in consequence of the lowness of the inundation, were not well filled, the result being that cultivation was contracted and collections were also affected. Remissions also had to be granted to a considerable extent. One result of the lowness of the inundation was that the protective embankments were not greatly tried and breaches and floods were rare.

3. There was a decrease in kharif cultivation amounting to 84,178 acres and in rabi of 62,007 acres, total 146,185 acres, but the canal revenue for collection was only less than that of the previous year by R31,792,—a result mainly attributable to higher rates on lands—which, owing to improvements in canals, have been converted into rice lands instead of being classed only as fit for dry crops.

4. The amount of remissions (para. 12 of the report) does not correctly represent the losses on the year's cultivation, as, unfortunately, especially in the Hyderabad District, the Collector failed to dispose of remission claims within the year, and after the close of the year claims amounting to R83,093 were admitted, namely, in Hyderabad R66,762, in Shikarpur, R15,749, and in the Frontier District R581. These remissions, however, are not solely on account of lands watered from canals, so the exact sum admitted against canal revenue cannot be stated.

5. The table in para. 5 of the report shows the increase or decrease in each Canal Division—the largest increase is in the Fuleli Division—but the greater part of the increase thus shown has since been remitted. The Superintending Engineer has fully explained the causes of increase or decrease in the other Divisions and they call for no remark. It is unnecessary for the Commissioner to follow the Superintending Engineer in his account of the different canals. All details have been very fully given. Suffice it to say that the financial results (para. 19) are satisfactory.

6. The work of recent years done by the Irrigation Department has been productive of great good, but the full return from the work done cannot be expected at once, especially in a country like Sind where agricultural labourers are not easily obtained. The revenue realizations of the year to which the

report refers, though less than those of the previous year, yet illustrate how much has been done, as with a low inundation the revenue would have shown a much larger decrease but for recent improvements to canals. Land too in the rear of the protective embankments is now being fast got ready for cultivation, and the Commissioner will be very much surprised if, in the course of a few years, there is not a large and steady increase in realizations. He has only recently travelled along the Thar and also the Nara protective embankments and was struck with the change in the country since he saw it three years ago. Everywhere lands were being got ready for the plough, and what was very satisfactory to notice was that the people were much better off than formerly. Before the erection of the protective embankments, cultivation was risky: one year splendid returns, the next sad losses; and this condition of things affected the morale of the people. Now with protection from floods they are becoming steady cultivators, working harder, and more anxious for improvements; and what is true of the Nara valley is, the Commissioner believes, true of every part of Sind, and that the protective embankments, if properly maintained, will do much to improve the condition and raise the character of the agricultural population. Much still remains to be done, but the results of the year, as shown in this report, show that satisfactory progress is being made.

H. N. B. ERSKINE,

*Commissioner in Sind.*

*Under-Secretary.*

GOVERNMENT OF INDIA.

## DEPARTMENT OF FINANCE AND COMMERCE.

No. 170 Accounts and Finance, dated 20th June, 1885.
*Stores*

From—The Government of India,

To—The Secretary of State for India.

In continuation of our Despatch of the 28th April, 1884, No. 117, we have the honour to forward, in original, returns showing the expenditure on stores for the year 1883-84, and the extent to which articles of Indian manufacture were substituted for stores imported from England for the public service in India during the year.

2. A classified abstract, compiled from these returns, is appended to this Despatch. For facility of comparison, the figures for the year 1882-83 have also been entered in the abstract.

3. The figures in column 4 of the abstract show that considerable progress has been made in the substitution of Indian manufactured stores for imported stores, such substitution having been 80 per cent. larger in 1883-84 than in 1882-83. At the same time we think it necessary to say that the figures cannot be taken to be absolutely accurate, although no doubt they afford a tolerably fair indication of the progress made by Indian industry in supplying the wants of the public service.

4. The principal articles are the following :—

*Building and engineering materials, Rs. 41,474.*—Cement made in India forms an important item under this head, the value of cement purchased being Rs. 37,782.

*Cabinetware and furniture, Rs. 26,271.*—The Rajputana-Malwa State Railway purchased articles to the value of Rs. 21,082.

*Canvas, Rs. 78,211.*—The principal items composing this amount are—

| | Rs. |
|---|---|
| Rajputana-Malwa State Railway (paulins) . . . | 44,761 |
| Tirhoot State Railway (paulins) . . . | 31,959 |

Under this head a saving of Rs. 3,011 is said to have been effected by the Tirhoot State Railway.

*Chemical products and drugs and medicines, Rs. 1,08,363.*—The most important items composing this amount are—

| | Rs. |
|---|---|
| Bengal Medical Department . . . | 43,230 |
| Madras Medical Department . . . | 37,318 |
| Bombay Medical Department . . . | 18,519 |
| Government of Bengal . . . | 8,860 |
| Total | 1,07,927 |

By substituting the chinchona febrifuge for quinine, a saving was effected during the year to the extent of nearly Rs. 2,57,939 in the Presidency of Bengal alone. The financial result of the use of the febrifuge in the Presidencies of Madras and Bombay has not been ascertained.

*Coal and Coke, Rs. 15,86,047.*—The largest consumers of country coal and coke were—

| | Rs. |
|---|---|
| Public Works Department, North-Western Provinces ... | 11,526 |
| Public Works Department, Bengal ... ... ... | 27,046 |
| Public Works Department, Panjab ... ... ... | 13,497 |
| Wardha Coal State Railway ... ... ... | 38,693 |
| Nagpur-Chhattisgarh Railway ... ... ... | 1,13,877 |
| Rajputana-Malwa State Railway ... ... ... | 13,33,281 |
| Government of Bengal ... ... ... | 9,167 |
| Mint Master, Calcutta ... ... ... | 5,296 |
| | 15,55,383 |

*Cordage and rope of vegetable fibre, Rs. 38,598.*—The consumption of locally made articles of this class has increased from Rs. 14,517 in 1882-83 to Rs. 38,598 in 1883-84. Further improvement may be expected under this head.

*Cotton, linen, and silk goods, Rs. 1,23,281.*—There was an increase of over Rs. 50,000 under this class of articles as compared with the preceding year. The principal items were—

| | Rs. |
|---|---|
| Bengal Commissariat Department ... ... ... | 29,259 |
| Madras Commissariat Department ... ... ... | 15,931 |
| Settlement of Port Blair ... ... ... | 35,910 |
| Government of Bombay ... ... ... | 9,491 |
| Rajputana-Malwa State Railway ... ... ... | 23,580 |

There was a saving of Rs. 22,754 in the Bengal Commissariat Department and Rs. 1,270 in the Madras Commissariat Department by using country-made sheeting.

*Hardware and cutlery, Rs. 56,293.*—The most noticeable items are—

| | Rs. |
|---|---|
| Government of Madras ... ... ... | 12,257 |
| Government, North-Western Provinces, Public Works Department ... ... ... ... | 11,309 |
| Rajputana-Malwa State Railway ... ... ... | 12,559 |

*Leather and leather goods, Rs. 1,75,207.*—Boots made at Cawnpore of the value of Rs. 1,40,670 were purchased by the Army Clothing Department, Bengal. The transaction resulted in an estimated saving of Rs. 24,018, as shown below :—

| Articles. | Actual cost in India. | Estimated cost if obtained through India Office. | Estimated saving. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| Boots, ankle ... | 1,13,033 | 1,32,691 | 19,658 |
| Ditto, knee ... | 22,231 | 26,273 | 4,042 |
| Ditto, Wellington ... | 5,466 | 5,724 | 318 |
| | 1,40,670 | 1,64,688 | 24,018 |

*Malt liquor, Rs. 20,98,676.*—In 1882-83 the cost of Indian-brewed beer amounted to Rs. 18,24,835. The increase in the year 1883-84 is due to the extended issue of Indian beer to the regiments in Northern India and in Madras. A saving of Rs. 7,72,763 is estimated by the issue of Indian beer in 1883-84 in Bengal. In the return for Madras, however, a loss amounting to Rs. 4,845 is exhibited out of a transaction of Rs. 1,03,282.

*Machinery, Rs. 22,960.*—The Public Works Department in British Burma purchased locally made machinery of the value of Rs. 16,604, principally consisting of boring apparatus, capstans, mortar mills, and road rollers.

*Metals, Rs. 5,96,606.*—The important items are—

*Brass.*—Ordnance Department, Bengal, Rs. 47,200; Public Works Department, Bengal, Rs. 29,310.

*Copper.*—Military Works Department, Rs. 5,059.

*Iron.*—Telegraph Department, Rs. 1,44,740; Public Works Department, North-Western Provinces, Rs. 72,175; Assam, Rs. 9,074; Bombay, Rs. 6,991; British Burma, Rs. 47,757; Bengal, Rs. 33,116; Rajputana-Malwa State Railway, Rs. 18,077; Tirhoot State Railway, Rs. 1,22,383.

*Oils, Rs. 1,50,003.*—Compared with 1882-83, the consumption of oil of Indian manufacture increased in 1883-84 by Rs. 1,32,672.

*Paper and pasteboard, Rs. 3,79,060.*—The chief purchasers of articles of this class are the Governments of Bengal (Rs. 3,55,427), Madras (Rs. 5,505), and Bombay (Rs. 16,507).

In the year under review there was a total increase of Rs. 12,218 and a saving of Rs. 35,650. Arrangements are being made by the Government of Madras to procure printing paper from the Bally Paper Mills.

*Scientific instruments and apparatus, Rs. 81,099.*—This amount is composed of the following principal items :—

| | Rs. |
|---|---|
| Mathematical Instrument Department ... ... | 17,243 |
| Indian Telegraph Department ... ... ... | 17,522 |
| Medical Department, Bengal ... ... | 25,247 |
| Medical Department, Madras ... ... ... | 19,491 |

**There was a saving under this head of Rs. 12,012.**

*Stationery, Rs. 4,946.*—By the use of country-made writing ink a saving of Rs. 1,090 was effected in the Presidency of Madras.

*Tools and plant, Rs. 2,33,811.*—Locally made articles of this class are being largely used by most of the Departments concerned.

*Wood: articles made of, Rs. 9,85,217.*—In 1882-83 local purchases amounted to only Rs. 2,62,466.

*Woollen goods, Rs. 1,01,854.*—As far as can be ascertained, there was an estimated saving under this head of Rs. 35,194. The principal consumers of woollen goods were—

| | Rs. |

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 29th JULY 1885.

GENERAL REMARKS.—Rain has fallen in varying quantities throughout the Madras Presidency, but more is wanted in Bellary, Tanjore, and Madura. General prospects are fair, and have improved in Bellary and Anantapur; in Madura prospects are reported to be discouraging. Harvesting continues in some districts. From Mysore the reports are less favourable than last week: more rain is much needed for recently sown dry crops and for tanks. Good rain is reported from Coorg, where prospects are satisfactory.

In Bombay good rain has fallen in most districts, but more is wanted in parts of Khandesh, Nasik, Poona, Bijapur, and Sholapur. *Kharif* sowings are in general progress throughout the Presidency, and transplanting operations have commenced in places. There has been rain throughout the Berars, the Nizam's Territories, and the Central India and Rajputana States, and agricultural prospects are on the whole promising.

In the North-Western Provinces and Oudh rain has been abundant, and the prospects of the autumn crop are good. In the Punjab and in the Central Provinces good rain has fallen. *Kharif* sowings are in general progress in the former Province and have been completed in the latter, where transplanting has commenced.

In Bengal good rain has fallen during the week, except in parts of the Burdwan and Presidency Divisions, where more rain is wanted for the transplanting of late rice. The prospects of the autumn crops and of sugarcane are good, and a fair outturn is expected from the early rice and jute harvests, which are in progress in Northern and Eastern Bengal. In Assam the weather is seasonable, and the state and prospects of the crops are good.

In British Burma ploughing, sowing, and transplanting are in progress.

Cholera is chiefly prevalent in the Madras and Bombay Presidencies; in other Provinces the public health is generally fair.

Prices are fluctuating in the Punjab, but are generally steady elsewhere. From Bengal no material change is reported.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(July 29th)** | | |
| Bellary ... | ·19 (average) | More rain required almost everywhere. Standing crops wet moderately good, dry fair, except in two taluks, where caterpillars have appeared; harvest paddy in one taluk, outturn average. Fever in one taluk; 17 deaths from cholera. |
| Kurnool ... | ·48 ( „ ) | Standing crops good. Small-pox in one taluk and cattle-disease in three; 32 deaths from cholera. |
| Ganjam ... | 1·51 ( „ ) | 293 deaths from cholera. |
| Kistna ... | ·69 ( „ ) | Wet and dry crops sown in many taluks. River 9 feet 6 inches over anicut. Fever and small-pox in parts; 99 deaths from cholera unreported last week, 76 this week. |
| Chinglepnt (Madras) ... | ·04 ( „ ) | Standing crops good; harvest paddy in parts, outturn below average. Cattle-disease in two taluks, and fever in one. |
| Coimbatore ... | ·15 ( „ ) | Standing crops generally good, but *cholum* and *cumboo* damaged in parts; harvest outturn generally average. Fever in one taluk; 36 deaths from cholera. |
| Tanjore ... | ·17 ( „ ) | Rain wanted in parts of four taluks. Standing crops generally good; harvest dry crops, outturn below average. 11 deaths from cholera. |
| Madura ... | ·19 ( „ ) | Fever prevalent. |
| Malabar ... | 12·14 ( „ ) | Transplanting over, except in Wynaad. Small-pox in seven, cattle-disease in three, and fever in two taluks; 26 deaths from cholera. |
| Travancore ... | 2·03 ( „ ) | Paddy cultivation progressing. Small-pox and fever prevalent in parts. |
| | | *General Remarks.*—General prospects fair, improved in Bellary and Anantapur; in Madura reported to be discouraging. |
| **Bombay—(July 29th)** | | |
| Karachi ... | *Nil* | River at Kotri on 27th, 19 feet 1 inch against 15 feet 3 inches on same date last year. Rats doing some damage in Shahbandar taluka. Fever and cattle-disease in three talukas. Loss of 37 buffaloes in Ghorabari taluka. Small-pox in three villages in districts, 6 fresh cases, 3 deaths; 171 cases of cholera in the Karachi collectorate, 165 deaths. Prices—wheat, red rice, and *bajri* in Karachi 26, 36 and 32; in Ghorabari 22, 38 and 36; in Sehwan 40, 40 and 44; and in Mirpur Botoro, 24, 48 and 42 pounds per rupee, respectively. |
| Hyderabad ... | *Nil* | River at Kotri on 27th, 19 feet 1 inch against 15 feet 3 inches on same date last year. *Kharif* cultivation good and still in progress; slight damage done to *bajri*, *tili*, and melon crops in Dero Mohobat taluka by grasshoppers, and by young locusts at different places in Tando Allahyar taluka; lands adjoining river bank in Haleo and Sakrand talukas are under water, and slight damage caused thereby. Fever in one, small-pox in three, cattle-disease in three, and cholera in seven talukas. Wheat 28, *juari* 42, *bajri* 40, white rice 20, and red rice 30 pounds per rupee. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Ahmedabad ... | 3·48 | Total rainfall 12·58. Sowing operations progressing, except in Gogha, where they are retarded in consequence of excessive rain. Public health good. Wheat 38 and *bajri* 32 pounds per rupee. |
| Baroda ... | 5·20 | Total rainfall 8·99. Cholera continues in Baroda. Sowing operations going on. *Bajri* 27, wheat 25, and rice 19 pounds per rupee. |
| Surat ... | 9·67; maximum in Bardoli, 17·74; minimum in Olphad, 6·01. | Total rainfall 16·61. A good fall throughout the district. Sowing and transplantation progressing; young crops healthy; in a few places cotton and *juari* seeds will be sown again, where there is a break. 1 case of cholera in Jallalpur. *Juari* 35¾ and *nagli* 41 pounds per rupee. |
| Nasik ... | 1·66; Sinnar, 1·88; Dindori, 2·68; Niphad, ·98; Chandor, 1·96; Yeola, 1·05; Malegaon, ·58; Nandgaon, ·28; Baglan, ·48; Kalwan, 1·04; Igatpuri, 14·67; Punt, 9·74. | Transplantation of rice, *nagli*, and *vari* progessing in Igatpuri, Punt, and the Dang villages at Nasik and Kalwan; sowing of *tasur* and *kharif* crops commenced in Dindori and in parts of Nasik, Sinnar, Niphad, and Yeola; young plants of *tili*, *kulti*, &c., flourishing in parts of Baglan. More rain wanted in Niphad, Yeolar, Malegaon, Nandgaon, and in parts of Chandor. Want of fodder still felt in the Deoli talukas. Cholera in Nasik, Sinnar, Dindori, Niphad, Nandgaon, and Yeola; 190 attacks, 112 deaths. Wheat 34½, *bajri* 34, and rice 21 pounds per rupee. |
| Colaba (Bombay) ... | Rain every day; total of week, 4·54; being 17·02 below average. | Total rainfall to date 26·56. Abnormal temperature 1° warm on 22nd, 2° warm on 23rd, *nil* on 24th and 25th, and 1° warm from 26th to 28th; vapour in air slightly in excess of normal; abnormal wind northerly on 23rd, 24th, and 28th; westerly from 25th to 27th; wind normal on 22nd. |
| Poona ... | Rain in six talukas and slight showers in two: maximum in Maval, 10·5; minimum in Purandhar, 1·47; | Sowing operations in progress, but more rain is wanted for the purpose in four talukas. 142 cases of cholera in five talukas, 77 deaths. *Bajri* 29 and *juari* 36, in Poona *bajri* and *juari* 33 pounds per rupee. |
| Ahmednagar ... | Akola, 2·32; Sheogaon, 1·91; Sangamner, 1·07; Parner, 1·03; Newasa, ·96; Jamkhed, ·77; Karjat, ·74; Nagar ·43; Kopargaon, ·34; Shrigonda, ·27; Rahuri, 17. | *Kharif* sowings in progress in forty-five villages of Nagar, forty of Kopargaon, parts of Shrigonda, Sheogaon, Karjat, Jamkhed, and in poor soils only in Parner, Newasa, Rahuri, and Sangamner, and in the Deohi portions of Akola; sowing finished in eight or ten villages and in parts of about twenty-five others of Karjat; crop, where it has sprung up, doing well in Dangi and part of Akola owing to good fall of rain; *nagli* and rice ready for transplantation; want of fodder in Parner, Kopargaon, Ganjam, and Deohi portion of Akola. 10 head of cattle died in Kopargaon for want of it; cholera—14 attacks and 4 deaths in Nagar; 20 attacks, 3 deaths in Parner; 3 attacks and 3 deaths in Karjat; 82 attacks, 33 deaths in Jamkhed; 88 attacks, 47 deaths in Newasa; 46 attacks, 17 deaths in Rahuri; 25 attacks, 13 deaths in Kopargaon, and 14 attacks, 3 deaths in Sangamner; slight cattle-disease in Newasa, Kopargaon, and Sangumner. *Bajri* from 35 to 45 and *juari* from 42 to 69 pounds per rupee. |
| Sholapur ... | Sholapur, ·65; Barsi, ·54; Madha, ·27; Karmala, ·48; Sangola, ·35; Pandharpur and Malsiras, *nil*. | Sowing of *kharif* crops in *ziarat* lands is generally in progress in the Sholapur and Barsi talukas, and the state of Akalkot in all the other talukas; it has commenced in parts only, where the moisture was sufficient. The water in wells used for irrigation is failing, and the crops are suffering thereby; a good fall of rain is urgently required. There are as yet no signs of distress. Fodder is becoming scarce in all the talukas, except Sholapur and Barsi. *Juari* 44 pounds 38 tolas and *bajri* 30 pounds 7 tolas per rupee. |
| Dharwar ... | Kalghatgi, 2·32; Kod, 2·12; Hangal, 1·96; Mugud, 1·65; Dharwar, 1·35; Bankapur, 1·14; Hubli; ·84; Karajgi, ·64; Ranibennur, ·48; Ron, ·38; Navalgund and Gadag, ·24; Mundargi, ·15; Nargund, *nil*. | Sowing of early *juari* in progress throughout the district, except Navalgund, Ron, and parts of Ranibennur, where it is retarded for want of sufficient moisture; rice crops are good, but require heavy showers; season prospects promising. Slight cholera in four talukas. Rice 27 and *juari* 47 pounds per rupee. |
| Kanara ... | Karwar, 3·95; Kumpta, 5·50; Sirsi, 7·31; Haliyal, 3·04. | Crops thriving. Fever and small-pox in five talukas, and cattle-disease in one, cholera in Haliyal, 2 cases, 2 deaths. Common rice at Karwar 13½ seers, district average 14 seers per rupee. |
| Rajkot ... | 8·93 | Total rainfall 11·95. General health fair; fever prevalent in some places; small-pox in Jalia and Dewani. *Bajri* 31 and *juari* 36 pounds per rupee. |
| | | *General Remarks.*—Good rain in most districts; more wanted in parts of Khandesh, Nasik, Poona, Bijapur, and especially in Sholapur. Young crops injured by insects in parts of Hyderabad and Upper Sind Frontier, and by rats in parts of Karachi; scarcity of fodder in parts of Nasik, Sholapur, Ahmednagar, and in Panch Mehals. Cholera in parts of seventeen and fever, small-pox, and cattle-disease in parts of seven districts. |
| **Bengal—(July 29th)** | | |
| Chittagong ... | 5·68 | Weather seasonable. Cultivation and sowing in progress; early rice being harvested; prospects generally fair. Prices stationary. Cholera continues. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| Dacca ... | 1·40 | Harvesting of early rice and jute proceeding; late rice and sugarcane thriving; rapid rise of water has injured early rice in Manickganj; prospects of crops and public health generally good. |
| 24-Pergunnahs (Calcutta) | *Nil* | Prospects of early rice and jute good; transplanting of late rice going on, but in some places retarded by insufficient rain. Price of common rice 13 to 15 seers per rupee. Public health generally good. |
| Kulna ... | 2·28 | Weather cloudy and rainy. Early rice doing well; transplanting of late rice continues; prospects favourable. Price of rice remains high. Health good. |
| Moorshedabad ... | 2·65 | Prospects of early rice tolerably good; transplanting of late rice being delayed by scanty rain. Price of rice 12 to 13½ seers per rupee. A few cases of cholera reported from Berhampur town and vicinity, otherwise public health good. |
| Burdwan ... | ·56 | More rain wanted for transplanting; prospects good. Price of rice 12 to 14½ seers per rupee. Health good. |
| Rungpore ... | 3·0 | Transplanting of late rice and harvesting of early rice proceeding; prospects promising. Price of rice still stationary. Cholera abated; fever and bowel-complaints prevalent. Several shocks of earthquake during last fortnight |
| Bhagalpur ... | 3·32 | Prospects much improved by heavy rain of last two days. Price of rice 12 seers 10 chittacks per rupee. Public health good. |
| Purneah ... | 2·65 | Crops promise well; transplanting progressing. Common rice 14 seers per rupee. Health fair. Rivers high. |
| Patna ... | 4·26 | *Bhadoi* prospects good; transplanting of *murwa* and paddy seedlings, where ready, going on. Cholera reported from Barh and Behar subdivisions. |
| Durbhunga ... | 4·01 | Prospects of *bhadoi* crops very favourable; transplanting of paddy going on. Prices almost stationary. A few cases of cholera reported from Madhobani subdivision. |
| Hazaribagh ... | 2·14 | Weather seasonable. Heavy and continuous rain reported from all parts, except Khurukdiha and Jugeshur police stations. Agricultural operations being vigorously pressed on everywhere and all crops promise well. Prices steady. Cholera prevalent in various parts. |
| Cuttack ... | 3·01 | Weather partly cloudy and partly sunny. Early and late rice growing well. Prices nearly stationary. Cholera prevails, otherwise public health good. |
| Midnapur ... | 1·85 | Prospects generally good, but more rain wanted. Public health fair. |
| Dinagepore ... | 1·93 | Frequent showers throughout week. Prospects of jute, sugarcane, and *bhadoi* good; transplanting of winter crops progressing. Cases of cholera still reported from three thanas. Average price of rice 14 seers per rupee. |
| Pubna (Serajganj) ... | 4·96 | Crops progressing. Public health good. Price of rice falling. Rivers rising. |
| Gya ... | 4·21 | Prospects of crops excellent. Cholera still reported from some parts. Prices not materially changed. |
| Chumparun ... | 2·91 | Prospects of crops favourable. Prices stationary. Some cases of cholera reported from the interior and Motihari town. |
| | | *General Remarks.*—Good general rain during the week, except in parts of the Burdwan and Presidency divisions, where more rain is wanted for the transplanting of late rice, elsewhere transplanting is proceeding well; prospects of autumn crops and sugarcane continue to be good; harvesting of early rice and jute progressing in Northern and Eastern Bengal, and a fair average outturn is expected. No material change in prices. Public health generally fair in Bogra, Rungpore, Rajshahye, and Serajganj. Several slight shocks of earthquake have been felt since the severe shock of the 14th instant. |
| **N. W. Provinces and Oudh—(July 30th)** | | |
| Benares (July 28th) | 5·0 (average) | Weather cloudy, and at times oppressively close. *Kharif* crops coming up well and appear promising; weeding, transplanting, and *rabi* ploughing in progress. Supplies ample. Prices steady. No sickness of men and cattle. |
| Gorakhpore ( „ 27th) | Local showers | Crops generally promising. Prices rising slightly. Sporadic cholera in south and east of district. |
| Fyzabad ( „ 28th) | Good rainfall | *Kharif* crops flourishing, and weeding in hand. Public health good; occasional cattle-disease. |
| Lucknow ( „ 27th) | Rainfall at Sadr, 2·5 | Weather cloudy. Supplies ample. Prices slightly rising. Condition both of men and cattle good. |
| Rae Bareli ( „ „ ) | 3·9 of rain at Sadr during the week. | A break wanted. Crops coming up well. Prices steady. Genera health good. |
| Partabgarh ( „ 28th) | Rain has fallen in sufficient quantities during the week. | Accounts from all tahsils are favourable. |
| Allahabad ( „ „ ) | 1·6 (average) | *Kharif* sowings completed; rice transplanting commenced; prospects good. Markets well supplied. Prices stationary. General health of men and cattle good. Sporadic cholera continues. |
| Cawnpore ( „ 27th) | Rain in eight parganas during the week. | The young crops promise well, but weeding retarded by heavy rains. Prices steady. Fever in three and cattle-disease in one pargana. |
| Banda ( „ 28th) | Rain good and general | *Kharif* sowings in progress; prospects continue good. Health good; cattle-disease in one village. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Ballia (July 28th) | 1·6 | Weather cloudy and rainy. *Kharif* prospects good. Health good; 13 deaths from cholera. |
| Farakhabad ( „ „ ) | Light rain during the week. | Flood in Kali Nadie subsiding; much damage done to houses; one man and two women still missing, and about 50 head of cattle washed away. *Kharif* prospects fair, except flooded lands. Prices steady. No sickness. |
| Sitapur ( „ „ ) | ..... | There has been a partial break in the rains. Prospects continue excellent. |
| Bareilly ( „ „ ) | Rain ample ... | Sowings continue. Market fairly steady. Public health good; occasional slight cattle-disease. |
| Kumaon ( „ 27th) | ..... | Alternate sun and rain, favourable for crops. Some typhoid fever, otherwise health fair; cattle-disease and foot and mouth disease prevalent. |
| Agra ( „ „ ) | Rain in all parganas from ·40 to 4·3 during the week. | Sowings continue. Prices steady. Indigo slightly damaged by rain. No cholera. |
| Jhansi ( „ 28th) | Good rain | Crops germinating and look well. Prices steady. Some isolated cases of cholera reported, otherwise public health good. |
| Meerut ( „ „ ) | Good rain during the week. | Weather very favourable. Sowings for *kharif* nearly completed; prospects excellent. Fall in prices of *juari*, otherwise prices stationary. Health good. |
| | | *General Remarks.*—Rainfall has been abundant, and *kharif* prospects are promising. Some damage has been caused by heavy floods in the Farakhabad and Aligarh districts. Prices are generally steady; and public heaith good. A few cases of cholera are reported from Gorakhpur, Allahabad, Ballia, and Jhansi. |
| **Punjab—(July 29th)** | | |
| Hissar (July 28th) | ..... | Sky overcast and cloudy. Health fair. *Kharif* sowings nearly completed. Prices stationary. |
| Delhi ( „ „ ) | 1·15 | Health fair. *Kharif* sowings progressing. Prices fluctuating. |
| Umballa ( „ „ ) | 2·0 | Health good. *Kharif* sowings in progress; crops doing well. Prices almost stationary. |
| Jullundur ( „ „ ) | ·30; more wanted | Health good. *Kharif* sowings in progress. Prices rising. |
| Ferozepore ( „ „ ) | 3·2 at city | *Kharif* sowings in progress. Prices falling. |
| Amritsar ( „ „ ) | 1·4 | Health and crops good. Prices stationary. |
| Sialkot ( „ „ ) | 2·2 | Health good. *Kharif* sowings in progress. Prices stationary. |
| Lahore ( „ „ ) | ·90 | Health good. *Kharif* sowings continue. Prices stationary. |
| Mooltan ( „ „ ) | *Nil* | Crops and health good. Prices almost stationary. |
| Rawalpindi ( „ „ ) | 1·3; more wanted | Health good, with exception of a few cholera cases in the Rawalpindi city. *Kharif* sowings in progress. Prices rising. |
| Shahpur ( „ „ ) | Rain at Miani in tahsil Bhera. | Health good. Prices stationary. |
| Dera Ismail Khan ( „ „ ) | ·40 | Health good. Prices stationary. |
| Peshawar ( „ „ ) | *Nil* | Health good. *Kharif* sowings in progress. Slight rise in prices. |
| | | *General Remarks.*—Rainfall almost general. Health generally good, with exception of a few cholera cases in the Rawalpindi city. *Kharif* sowings in progress; prospects seem favourable. Prices of foodgrains rising in the Jullundur, Rawalpindi, and Peshawar districts, falling in the Ferozepore district, stationary elsewhere. |
| **Central Provinces—(July 29th)** | | |
| Nagpur ... | 1·50; weather rainy | Prospects good. Fever in places. Prices steady. |
| Jubbulpore ... | 2·69; weather showery | Crops thriving; agricultural operations progressing favourably. 309 cases of cholera, 197 deaths. Wheat 22 and rice 14 seers per rupee. |
| Saugor (July 28th) ... | 2·14; light rain | Weeding in hand; crops progressing favourably. Health fair. Prices steady. |
| Seoni ... | 1·37 | Rain needed for rice transplantation. 12 cases of cholera, 5 deaths; small-pox and cattle-disease abated. Prices unchanged. |
| Hoshangabad ... | 7·82 | Weeding continues; prospects fair. 13 cases of cholera, 9 deaths. Prices steady. |
| Khandwa ... | 2·73; weather showery | Prospects favourable. Health good. Prices stationary. |
| Raipur ... | ·85 | Weather seasonable; break very beneficial. Transplanting of rice commenced. Cholera disappearing from town, but still virulent in interior. Prices stationary. |
| Sambalpur (July 25th) | 6·58 | Weather cloudy, with heavy showers. Prospects favourable. Health good. Prices stationary. |
| | | *General Remarks.*—Weather seasonable. Agricultural prospects continue good. Cholera continues in Raipur and Jubbulpore. Prices steady. |
| **British Burma—(July 29th)** | | |
| Akyab ... | 9·51 | Total rainfall 85·94. Slight cholera in one circle; slight cattle-disease in town. Sowing commenced. |
| Bassein ... | 8·90 | Total rainfall 45·13. Sporadic cholera severe in town and two subdivisions; severe cattle-disease of fatal type in most townships. Seedlings planted. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|

| **Nepal—(July 23rd)** | | |
| Khatmandu ... | 1·73 | Total rainfall 27·92. Rain is now required. Weather very hot. Cholera continues. Transplanting of rice on high lands stopped for want of rain. |

E. C. BUCK,

*Secretary to the Government of India.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

**ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.**

The Council met at the Viceregal Lodge, Simla, on Wednesday, the 29th July, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.

His Honour the Lieutenant-Governor of the Punjab, LL.D., K.C.S.I., C.I.E.

His Excellency the Commander-in-Chief, G.C.B., C.I.E.

Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.

The Hon'ble C. P. Ilbert, C.I.E.

The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.

The Hon'ble T. C. Hope, C.S.I., C.I.E.

The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.

The Hon'ble W. W. Hunter, C.S.I., C.I.E., LL.D.

### CENTRAL PROVINCES CIVIL COURTS BILL, 1885.

**The Hon'ble MR. ILBERT introduced the Bill to amend the Law relating to Civil Courts in the Central Provinces, and moved that it be referred to a Select Committee consisting of the Hon'ble Sir S. C. Bayley, the Hon'ble Mr. Hunter and the Mover, with instructions to report within two months.**

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill and Statement of Objects and Reasons be published in the *Central Provinces Gazette* in English and in such other languages as the Local Administration thinks fit.

The Motion was put and agreed to.

### BURMA COURTS BILL, 1885.

**The Hon'ble MR. ILBERT also moved that the Report of the Select Committee on the Bill to amend the Burma Courts Act, 1875, and section 360 of the Code of Civil Procedure, be taken into consideration. He explained that the Report was a very short one, and merely stated that the Bill as introduced had been approved by the local authorities and consequently did not call for any modification.**

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill be passed.

The Motion was put and agreed to.

### NORTHERN INDIA FERRIES ACT, 1878, AMENDMENT BILL.

**The Hon'ble MR. HOPE moved for leave to introduce a Bill to amend the Northern India Ferries Act, 1878. He said:—**

**"The object of this Bill is to remedy a defect which may almost be described as one of drafting and nothing more, and which experience has brought to light. In section 3 of the present Ferries Act XVII of 1878, the word 'ferry' is defined as including a bridge-of-boats and other things; but by some accident**

**section 13 provides that 'no person shall, except with the sanction of the officer charged with the superintendence of a public ferry, keep a ferry-boat for the purpose of plying for hire to or from any point within a distance of two miles from the limits of such public ferry'; and section 26 imposes a penalty for contravening section 13. The result of this is that, although the definition of 'ferry' is perfectly correct, the penalty clause is only applied to a person who plies a ferry-boat without a license, and it has been found that individuals are sufficiently ingenious to make a bridge-of-boats within the limits of a public ferry, and that they cannot be touched in any way. This defect it is now proposed to remedy; the proposed amendment is undoubtedly in accordance with the intention of the original Act.**

**"I may here mention a small matter which we intend to take this opportunity of providing for; that is, we propose to take power for leases being given by or with the sanction of the local authorities, otherwise than by public auction and for long terms. This is necessary in order to meet the case of ferries leased to Railway Companies on special agreements for long terms."**

The Motion was put and agreed to.

The Council adjourned to Wednesday, the 5th August, 1885.

N.B.—As regards the figures in column "*Total receipts from 1st April 188– to date*," audited figures have been availed of as far as possible.

(a) Return not received.
(b) Total receipts from 1st April to 30th June 1884.
(c) Total receipts from 1st April to 30th June 1885.
(d) Including Rewari-Ferozepore State Railway.
(e) Total receipts from 1st April to 4th July 1885.
(f) Total receipts from 1st April to 27th June 1885.
(g) Total receipts from 2nd April to 12th July 1884.
(h) Total receipts from 1st April to 5th July 1884.

SIMLA,
*The 1st August 1885.*

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 5th AUGUST 1885.

GENERAL REMARKS.—In the Madras Presidency all districts report rain, but more rain is wanted in Bellary, Ganjam, Coimbatore, and Tanjore. Prospects have improved in Bellary and Anantapur and are generally fair, except in Madura, where they are unsatisfactory. In Mysore the rainfall was slight and insufficient for the young crops. Fodder is reported to be becoming scarce, and ploughing and sowing operations are retarded in places. In Tumkur and Kolar prospects are uncertain; and though they are moderately fair elsewhere, the harvest will depend on the future rainfall. In Coorg the season continues favourable.

General rain is reported from the Bombay Presidency, but more is wanted in parts of Karwar, Ahmednagar, Bijapur, Poona, and especially in Sholapur, Khandesh, and Nasik. The condition of the young crops is generally good, though in places they are reported to be slightly injured by blight and insects. Fodder is scarce in some districts. In the Berars, Hyderabad, the Central India and Rajputana States rain has been general, and the crops promise well.

Little or no rain fell in the Punjab during the week under report. The *khurif* sowings have been nearly completed, and prospects are on the whole good; but more rain is wanted. In the North-Western Provinces and Oudh good rain continues to fall, but a break would now be beneficial. Prospects are everywhere good. Wet weather continues in the Central Provinces, where a break is now wanted in some districts. *Rabi* sowings have commenced, and weeding and transplanting continue.

Rain has fallen throughout Bengal, and prospects are favourable everywhere. Transplanting is progressing favourably, but more rain would be beneficial in some parts. In Central and Eastern Bengal the *bhadoi* harvest is in progress, with prospects of a good average yield of early rice. Seasonable weather prevails in Assam, and agricultural prospects continue good.

In British Burma ploughing, sowing, and transplanting continue.

The public health is generally fair in most Provinces.

Prices are generally stationary, except in the Punjab, where they fluctuate with a tendency to rise. In Bengal the price of rice is still high.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Aug. 5th)** | | |
| Bellary ... | ·22 (average) | More rain required almost everywhere. Standing crops wet moderately good, dry generally fair, but withering in parts for want of rain. Caterpillars have appeared in a few villages of Hospet. Harvest paddy in one taluk, yield average. Fever in one taluk; 32 deaths from cholera. |
| Kurnool ... | ·22 ( „ ) | Standing crops good. Small-pox in two taluks and cattle-disease in one; 24 deaths from cholera. |
| Ganjam ... | Average including reports since received, 1·75; this week, ·64. | More rain wanted, especially in Berhampore, Gumsor, and Kirnedi taluks. 280 deaths from cholera. |
| Kistna ... | ·61 ( „ ) | Fever and small-pox slight; 111 deaths from cholera unreported last week, 89 this week. River 12 feet over anicut. |
| Chingleput (Madras) ... | ·38 ( „ ) | Standing crops good; harvest paddy in parts, outturn below average. Anthrax in Chingleput and Sydapet. |
| Coimbatore ... | ·09 ( „ ) | Standing crops generally good, but want rain in parts; harvest dry crops in parts, outturn generally average. Small-pox and fever in parts; 40 deaths from cholera. |
| Tanjore ... | ·17 ( „ ) | Standing crops generally good, but not flourishing in parts of five taluks for want of rain; harvest dry crops and cotton, outturn below average. 14 deaths from cholera. |
| Madura ... | ·10 ( „ ) | Fever prevalent; 3 deaths from cholera. |
| Malabar ... | 3·20 ( „ ) | First crop cultivation progressing. Small-pox in seven, cattle-disease in three, and fever in two taluks; 53 deaths from cholera. |
| Travancore ... | 3·65 ( „ ) | Paddy cultivation progressing. Fever prevalent. |
| | | *General Remarks.*—General prospects fair, improved in Bellary and Anantapur; in Madura reported to be discouraging. |
| **Bombay—(August 5th)** | | |
| Karachi ... | Dadu, ·19; Mirpur Botoro, ·05. | River at Kotri on 3rd, 18 feet 10 inches against 17 feet 3 inches on same date last year. Damage to *kharif* crops in Schwan and Manjhand, owing to rise of water. Fever and cattle-disease in two talukas; no fresh cases of small-pox nor deaths, 9 remaining sick in districts; cholera abated considerably in Karachi city; 9 cases, 9 deaths, 12 remaining; in districts 92 cases, 63 deaths, 47 remaining. Prices—wheat, red rice, and *bajri* in Karachi 26, 36 and 32; in Sakro *nil*, 34 and 47; in Sujawal 26, 48 and 42; in Dadu 36, 42 and 42 pounds per rupee, respectively. |
| Hyderabad ... | *Nil* | *Kharif* cultivation good. River at Kotri on 3rd, 18 feet 10 inches against 17 feet 3 inches on same date last year. Fever in three, small-pox in one, cattle-disease two, and cholera in five talukas. Prices of grain steady. |
| Ahmedabad ... | 1·02 | Total rainfall 13·60. Sowing operations progressing. Cholera in the city, 6 cases, 4 fatal. Wheat 37 and *bajri* 32 pounds per rupee. |
| Baroda ... | ·60 | Total rainfall 9·59. Cholera abating in Baroda city. Sowing operations going on. Prices—*bajri* 27, wheat 25, and rice 19 pounds per current sicca rupee. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay**—*contd.* | | |
| Surat ... | Maximum in Mandvi, 3·87; minimum in Chorasi, ·31. | Total rainfall 24·5. Average sowing nearly completed; transplantation progressing; young plants healthy; scarcity of fodder is over. Cholera in Bardoli taluka, 6 cases, 4 deaths. Average prices of *juari* 36 and *nagli* 41½ pounds per rupee. |
| Nasik ... | ·38; Sinnar, ·55; Igatpuri, 8·67; Dindori, ·84; Niphad, ·56; Chandor, ·50; Yeola, ·02; Malegaon, ·12; Kalwan, ·40; Baglan, ·09; Nandgaon, *nil.* | Transplantation of rice, *nagli*, and *vari* nearly completed in Igatpuri, Punt, and Dangi villages of Nasik; fairly progressing in Kalwan and western parts of Baglan; sowing of *kharif* crops progressing in Dindori, Nasik, western parts of Sinnar and Chandor, and parts of Niphad; sowing stopped in Yeola, Malegaon, and Nandgaon for want of rain; want of fodder badly felt in Deohi talukas. Cold and fever in Sinnar and Nandgoan; cholera in Nasik Sinnar, Dindori, and Niphad, 1 attack, 1 death in Yeola and Malegaon; total attacks 179; total deaths 97. Prices of wheat and *bajri* rising, of rice going down. Wheat 33, *bajri* 29½, and rice 23¼ pounds per rupee. |
| Colaba (Bombay) ... | Rain every day, total of week, 1·43. | Total rainfall to date 27·99, being 19·88 below average. Abnormal temperature 1° cool on 30th, 1° warm on 1st, *nil* on 4th, and 2° warm on all other days; vapour in air normal; abnormal wind easterly on 20th and 31st; wind normal on all other days. |
| Poona ... | Rain in four talukas; maximum 4·42 in Maval; minimum, ·54 in Poona; slight showers in three talukas. | Sowing operations in progress, but more rain wanted for the purpose in three talukas. Cholera in six talukas, 234 cases, 132 deaths. Prices of *bajri* 28 and *juari* 35; in Poona *bajri* 28 and *juari* 33 pounds per rupee. |
| Ahmednagar ... | Parner, ·15; Shrigonda, ·06; Karjat, ·07; Sheogaon, ·06; Newasa, ·03; Sangamner, ·12; Akola, ·09; Nagar, Rahuri, Kopargaon and Jamkhed, *nil.* | *Kharif* sowings are almost finished in Jamkhed, Sheogaon, and Akola, and in some villages in Kopargaon, Shrigonda, and Karjat, and in progress in Nagar, Rahuri, and Sangamner and in poor soils only in Parner and Newasa; the young crops doing well, but require rain soon; want of fodder in Parner, Kopargaon, Sangamner, and in the Deohi part of Akola. Cholera 342 cases, 141 deaths; cattle-disease in Sangamner. *Bajri* from 33 to 42 and *juari* from 42 to 60 pounds per rupee. |
| Sholapur ... | Sholapur, ·42; Barsi, ·19; Madha, ·08; Karmala, ·11; Sangola, ·26; Pandharpur and Malsiras, *nil.* | *Kharif* crops in *ziarat* lands are fair in the Sholapur and Barsi talukas and in the State of Akalkot, elsewhere very little; *kharif* has been sown in the southern and western talukas. The water in wells used for irrigation is failing and the crops are suffering in consequence. Rain urgently required. Fodder getting scarce, except in the Sholapur and Barsi talukas. There are as yet no signs of distress. Average price of *juari* 44 pounds 33 tolas and *bajri* 30 pounds 24 tolas per rupee. Cholera 957 cases, 514 deaths. |
| Dharwar ... | Kalghatgi, 1·97; Mugud, 1·77; Hangal, 1·65; Bankapur, 1·42; Dharwar and Karajgi, 1·05; Hubli and Kod, ·78 Navalgund, Nargund, Gadag, Mundargi, and Ranibennur, below ·30; Ron, *nil.* | More rain generally required. Sowing of *juari* nearly completed, except in Navalgand, Ron, and part of Gadag, Karajgi, and Ranibennur, where it is at a standstill for want of rain; rice and other early crops good, but required heavy showers. Slight cholera in four talukas, but severe in one of the Dharwar villages; slight cattle-disease in one taluka. Average price of rice 26 pounds and *juari* 46 pounds per rupee. |
| Kanara ... | Karwar, 3·56; Kumpta, 2·95; Sirsi, 3·74; Haliyal, 2·38. | Crops healthy. Fever and small-pox in four talukas and cattle-disease in one. Common rice in Karwar 13⅓ seers, district average 14¼ seers per rupee. |
| Rajkot ... | 3·56 | Total rainfall 15·61. General health good; fever prevalent in some places; small-pox in Jalia and Dewani. *Bajri* 33 and *juari* 44 pounds per rupee. |
| | | *General Remarks.*—Rain throughout the presidency; more wanted in parts of Karwar, Ahmednagar, Bijapore, Poona, and especially in Sholapur, Khandesh and Nasik. Young crops generally good, but slightly injured by blight and insects in parts of Bijapur, by insects in part of Upper Sind Frontier, and by floods in parts of Karachi; fodder scarce in parts of Nasik, Ahmednagar, Sholapur, and Bijapur. Cholera in parts of sixteen, fever and cattle-disease in parts of seven, and small-pox in parts of four districts. |
| **Bengal**—(Aug. 5th) | | |
| Chittagong ... | 4·19 | Weather seasonable. Cultivation and sowing progressing; early rice being harvested; prospects generally fair. Prices stationary. Cholera still lingers; public health otherwise good. |
| Dacca ... | 1·13 | Prospects of crops good; harvesting of early rice and jute proceeding; late rice doing well. Public health good. |
| 24-Pergunnahs (Calcutta) | 2·13 | Prospects of early crops continue good; transplanting of late rice going on, but more rain required. Price of common rice 13 to 15 seers per rupee. Public health generally good. |
| Kulna ... | 3·70 | Weather very wet. Early rice coming into ear; transplanting of late rice progresses favourably. Price of rice remains high. Public health good. |
| Moorshedabad ... | 3·32 | Weather seasonable. Prospects of early rice favourable; more rain wanted for transplanting of late rice in Lalbagh and Jangipore subdivisions. Rice 11 to 13⅓ seers per rupee. Sporadic cholera reported; fever prevalent in Lalbagh subdivision. |
| Burdwan ... | 1·72 | More rain wanted for transplanting; prospects good. Rice 11¾ to 14¼ seers per rupee. Health good, except in Sadar subdivision. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| Rungpore ... | ·34 | Prospects good; harvesting of early rice not yet finished; transplanting of late rice going on. Price of common rice falling. Fever and bowel-complaints prevalent. |
| Bhagalpur ... | 1·38 | Prospects good; transplanting of paddy going on; some autumn crops north of the Ganges submerged, elsewhere they are good. Some cholera reported, more in south than elsewhere. |
| Purneah ... | 1·81 | More rain required for transplanting; autumn harvest partly commenced. Common rice 14 seers per rupee. Health good. Ganges on high flood. |
| Patna ... | ·68 | *Bhadoi* and paddy seedlings growing well; *bhadoi* crops on *dearah* lands injured to a certain extent, owing to rise of water. Cholera reported from Barh and Behar subdivisions. |
| Durbhunga ... | ·87 | Prospects of autumn crops very favourable; transplanting of paddy going on everywhere. Prices stationary. Public health good. |
| Hazaribagh ... | 1·50; heavy and continuous rain generally reported. | Weather seasonable. Crops promise well and agricultural operations proceed vigorously. Prices continue steady. Cholera reported from some thanas. |
| Cuttack ... | ..... | Early and late rice growing well. Price of rice nearly stationary. Cholera prevalent; public health generally good. |
| Midnapur ... | 5·17 | Indigo manufacture and transplanting of rice progressing; prospects generally good. Public health fair. |
| Dinagepore ... | 6·46 | Prospects excellent; early rice being harvested in some places. Cholera reported from south, but health generally good. Price of rice averages 14 seers per rupee. |
| Pubna (Serajganj) ... | 2·64 | Prospects of crops very good. Rivers rising. Public health fair. Another earthquake shock on night of 3rd. |
| Gya ... | 1·62 | All crops doing very well; transplanting of rice seedlings commenced. Prices nearly stationary. Health fair. |
| Chumparun ... | 1·3 | Autumn and winter crops look promising; transplanting of paddy in progress. Prices stationary. Cholera prevails in Motihari town and jail. |
| | | *General Remarks*—General rain in all districts, and agricultural prospects favourable; transplanting is generally well forward, but in some parts more rain is wanted; *bhadoi* harvest progresses in Central and Eastern Bengal, with prospect of a good average yield of early rice. Price of rice is still high. General health continues fair. |
| **N. W. Provinces and Oudh**—(Aug. 6th) | | |
| Benares (Aug. 4th) | Average rainfall little over 1·0. | Weather still close. Prospects good, but more rain needed. Markets fairly steady. Isolated cases of small-pox reported from each district, otherwise health good; no cattle-disease. |
| Gorakhpore ( „ 3rd) | Light showers, except a heavy local fall at Sadar. | Rain wanted. Crops failing. Cholera spreading in south of district. |
| Fyzabad ( „ 4th) | *Nil* | Crops generally promising; rice transplanting commenced; weeding going on. General health good; condition of cattle fair. |
| Lucknow ( „ 3rd) | No rain since the 31st ultimo. | Break is very beneficial. Weeding progresses; young crops look well; supplies ample. Prices steady. Health both of men and cattle good. |
| Rae Bareli ( „ „ ) | Ample rainfall at Sadar during the week, about 1·9 in some portions of the district. | The putting in of the transplanted rice delayed on account of too much water; prospects of *kharif* crops good. Prices slightly rising. General health fair. |
| Partabgarh ( „ 4th) | Rain from 2·0 to 8·6 | Reports from each tahsil continue favourable. Prices stationary. Health good. |
| Allahabad ( „ „ ) | Rainfall west and centre 2·0 to 3·0; eastern parganas, ·30 to ·40. | Condition of crops good; supplies ample. Prices stationary. Health of men and cattle on the whole good; isolated cases of cholera and slight autumnal fever reported. |
| Cawnpore ( „ 3rd) | General rain during the week. | Sowing retarded by the heavy rain and a break would now be beneficial to the young crops. Prices steady. Fever and ague in four parganas and cattle-disease in one. |
| Banda ( „ „ ) | Good rain now for three days. | Break very acceptable. Crops flourishing; prospects excellent. 1 death from cholera; cattle-disease in one village. |
| Ballia ( „ 4th) | 2·1 (average) | Break since 31st July. Condition of crops and market satisfactory. 16 deaths from cholera. |
| Farakhabad ( „ „ ) | Rain during the week from 1·8 to 3·6. | *Kharif* prospects fair on the whole. Prices steady. Silght fever in parts; no other sickness. |
| Sitapur ( „ „ ) | *Nil* | A break has succeeded the rain which fell at the beginning of the week, and cultivators are engaged in weeding their crops; prospects continue favourable. |
| Bareilly ( „ „ ) | Rain ample; towards the north somewhat excessive. | Sowings continue. Grain slightly cheaper. Public health good; sporadic cattle-disease slight. |
| Kumaon ( „ 3rd) | Rainfall heavy, but not incessant. | Crops good, except in Kali and Kumaon. Prices stationary. Some typhoid fever; cattle-disease continues. |
| Agra ( „ „ ) | Good rain during the week. | Prospects good. Prices stationary. Cholera again appeared in one village. |
| Jhansi ( „ 4th) | Good rain | Young crops promise well. Prices steady. Cholera disappearing. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Meerut (Aug. 4th) | *Nil* | *Kharif* sowing finished; ploughing going on; prospects excellent. Prices nearly stationary. Slight fever in two tahsils, otherwise health good. *General Remarks.*—Rain fell generally throughout the provinces; a break would be beneficial. Prospects everywhere good. Prices steady on the whole. Public health good; cases of cholera reported from Gorakhpur, Allahabad, Ballia, and Agra. |
| **Punjab—(Aug. 5th)** | | |
| Hissar (Aug. 4th) | Rain much needed | Health fair. Crops, where sown, flourishing. Prices nearly stationary. |
| Delhi ( „ „ ) | 2·40 | Health fair. *Kharif* prospects good. Prices falling. |
| Umballa ( „ „ ) | *Nil* | Health good. *Kharif* sowings nearly completed; crops thriving, but rain is wanted for rice; prospects generally good. Prices almost stationary. |
| Jullundur ( „ „ ) | *Nil* | Health good. *Kharif* sowings in progress; crops suffering from want of rain. Prices rising. |
| Ferozepore ( „ „ ) | *Nil* | Health good. *Kharif* sowings in progress. Prices rising. |
| Amritsar ( „ „ ) | Rain wanted | Health good. Prices rising. |
| Sialkot ( „ „ ) | *Nil* | Health good. State of crops in some parts critical. Prices stationary. |
| Lahore ( „ „ ) | *Nil* | Slight cholera in Chunian tahsil, otherwise health is good. *Kharif* sowings almost finished. Rain wanted. Prices rising. |
| Mooltan ( „ „ ) | *Nil* | Crops and health good. Prices fluctuating. |
| Rawalpindi ( „ „ ) | *Nil* | Health good, with exception of a few cases of cholera and fever in the Rawalpindi city and cantonments. *Kharif* sowings nearly finished. Rain wanted. Prices rising. |
| Shahpur ( „ „ ) | Rainfall general | Health good. Prices falling. |
| Dera Ismail Khan ( „ „ ) | *Nil* | Health good. Prices stationary. |
| Peshawar ( „ „ ) | *Nil* | Health and *kharif* prospects good. Prices stationary. *General Remarks.*—Rain in the Delhi, Simla, and Shahpur districts. Slight cholera in the Lahore and Rawalpindi districts; elsewhere health is generally good. *Kharif* sowings nearly completed; prospects on the whole good, but more rain is needed. Prices of foodgrains fluctuating, with tendency to rise. |
| **Central Provinces—(August 5th)** | | |
| Nagpur ... | 1·69 | Weather rainy. Sowings completed; crops flourishing. Fever prevalent; small-pox in places. Prices steady. |
| Jubbulpore ... | 9·71 | Weather showery and cool. Crops flourishing; weeding continues; *rabi* sowings commenced. 223 cases of cholera, 143 fatal. Prices steady. |
| Sangor (Aug. 4th) ... | 4·04 | Rain light, but continues. Weeding retarded. Health fair. Prices steady. |
| Seoni ( „ 5th) ... | 8·50 | Weather cloudy and rainy. Transplanting of rice progressing; *rabi* sowings commenced. Slight cholera and cattle-disease. Prices stationary. |
| Hoshangabad ... | 3·40 | Break wanted. Prospects of crops fair. Slight cholera. Prices stationary. |
| Khandwa ... | ·64 | Weather cloudy and showery. Prospects good. Slight cholera and small-pox. Prices steady. |
| Raipur ... | 3·30 | Weather generally clear, with occasional rain. Rice transplanting continues. 641 cases of cholera, 518 deaths. Prices steady. |
| Sambalpur ... | 3·77 | Weather cloudy and rainy. Prospects favourable. Health good. Prices steady. *General Remarks.*—Weather cloudy and rainy; break wanted in some districts. Weeding and transplanting continue; *rabi* sowings commencing. Cholera continues in Raipur and Jubbulpore. Prices steady. |
| **British Burma—(August 5th)** | | |
| Akyab ... | 12·18 | Total rainfall 98·12. Slight cholera in four circles and slight cattle-disease in one. Sowing continues. |
| Bassein ... | 6·49 | Total rainfall 51·62. Sporadic cholera in four townships; cattle-disease of fatal type in northern townships. |
| Rangoon ... | 10·95 | Total rainfall 49·79. Public health and health of cattle good. |
| Amherst (Moulmein) ... | 15·16 | Total rainfall 113·56. Public health good; cattle healthy. Ploughing progressing; transplanting commenced. |
| Tavoy ... | 18·57 | Total rainfall 123·75. Public health good. Ploughing and sowing progressing. |
| Pegu ... | 9·61 | Total rainfall 59·26. Public health good. Slight cattle-disease in one circle. |
| Henzada ... | 8·52 | Total rainfall 47·94. Public health good; slight cattle-disease in three townships. Transplanting commenced. |
| Prome ... | 1·15 | Total rainfall 19·82. Slight cholera in town and in five townships; severe in one township; cattle healthy. Seedlings in good condition. |
| Toungoo ... | 7·7 | Total rainfall 47·84. Public health good; cattle healthy. |
| Thayetmyo ... | 2·44 | Total rainfall 17·54. Slight cholera in one subdivision; cattle healthy. *General Remarks.*—Cholera severe in district, slight in five districts; small-pox slight in one district, elsewhere public health good; cattle-disease severe in two and slight in three districts, elsewhere health of cattle good. Ploughing, transplanting, and sowing progressing. Rains continual and heavy during the month of July. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Assam—(Aug. 5th)** | | |
| Gauhati ... | ·44 of rain during the week ending the 4th instant. | Weather hot; more rain wanted. Public health fair, though fever prevails in Kalajar, still in Luki tahsil; cattle-disease newly reported from some mauzahs besides Poti, Darrang, and Luki tahsils. Transplantation of *sali* in fair progress; prospects of all crops good. |
| Sylhet ... | 5·39 | State and prospects of crops good. Fever prevalent in parts of the district. |
| Cachar ... | ·85 | Weather warm. Reaping of *dumahi, murali,* and transplanting of *sali* crops continue. Common rice 14½ seers per rupee. Tea doing well. 5 deaths from cholera from Hailakandi reported. |
| Dibrugarh ... | 3·94 | Weather seasonable. Transplanting of *sali dhan* in progress; tea good. No epidemic. |
| **Mysore and Coorg—(Aug. 5th)** | | |
| Bangalore ... | Slight rain throughout the State. | Rain insufficient for the young crops, which are suffering in consequence; fodder getting scarce; ploughing and sowing operations retarded in parts; prospects uncertain in Tumkur and Kolar; elsewhere moderately fair, but dependent on future rainfall. Cholera still prevalent in parts of Bangalore and Mysore districts; small-pox in Tumkur and cattle-disease in parts of Mysore; public health otherwise fair. Prices show slight upward tendency. |
| Mysore ... | | |
| Mercara ... | 2·20 | Crops in good condition. Prices stationary. Prospects of season and public health good. |
| **Berar and Hyderabad—(Aug. 5th)** | | |
| Amraoti ... | ·57 | Weather cloudy. Crops progressing favourably; weeding in band. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | ·37 | Weather cloudy. Crops doing well; weeding progressing. |
| Hyderabad ... | Average rainfall during the week, ·31. | *Rabi* sowings continue; *kharif* crops prospering. Cholera prevails in the city and suburbs; general health in talukas fair. Prices—wheat 14½, coarse rice 12½, white *juari* 19¼, yellow *juari* 22½, and *tur* 15¾ seers per current sicca rupee. |
| **Central India States—(August 5th)** | | |
| Indore ... | 1·34 | Total rainfall 15·89. Health and prospects good. |
| Morar (Gwalior) ... | 3·37 | Total rainfall 18·14. Health and prospects good. |
| Sutna ... | 2·82 | Cholera at Rewah 22 cases, 6 deaths. Prospects good. |
| Neemuch ... | ·89 | Weather cloudy. 1 case of cholera, otherwise health good. Prospects good. |
| Goona ... | 4·28 | Break much wanted. Health generally good. |
| Agar ... | ·66 | Health and prospects good. |
| Sehore ... | 3·02 | Weather cloudy and cool. Crops damaged by rain. Slight cholera at Bhopal. |
| Nowgong ... | 8·16 | Total rainfall 23·91. Weather seasonable. Health good. |
| Manpur (Bhopawar) ... | 1·15 | Total rainfall 19·0. Health and prospects good. Prices steady. |
| **Rajputana—(August 5th)** | | |
| Abu (Aug. 5th) | 1·36 | Total rainfall from 1st June, 12·20. Monsoonish windy. |
| Sirohi ( „ 2nd) | ·64; slight rain | Tanks full, wells and health good. Sowings still progressing. Weather cloudy and cool. |
| Marwar (July 31st) | 3·16 at Jodhpore | City tanks store full year's supply. Water in wells rising. Health good. *Kharif* operations progressing; prospects vastly improved. Prices tending to fall. |
| Kherwara (Aug. 3rd) | 1·78 | Tanks and wells filling. Crops promising. Health good. Prices low. Weather seasonable. |
| Meywar ( „ 1st) | ·75 | Tanks and wells filling. Crop prospects excellent so far. Health good. Prices falling. Weather cloudy. |
| Harowti ( „ „ ) | Deoli, 2·97; Tonk, 5·63; Shahpura, 2·16; rain in previous week in Deoli, 3·82; Shahpura, 1·96; Kotah this week, 4·81. | Break in parts needed. Cholera reappeared in Tonk; elsewhere health good. |
| Jhallawar (July 31st) | 5·54 | |
| Ajmere (Aug. 4th) | 4·55 | Few cases of cholera, health otherwise good. |
| Jeypore ( „ „ ) | 6·18 | Weather cloudy. Prices steady. Health good. Prospects good. |
| Kerowlee ( „ 1st) | 2·60 | Tanks and wells full. Crop prospects excellent. Health good. Prices falling. |
| Dholepore ( „ „ ) | 5·15 | Tanks and wells full. Crop prospects excellent. Health good. Slight fever. Heat moderate. |
| Bhurtpore ( „ „ ) | 3·60 | Tanks and wells full. Ploughing and sowing almost completed. Health good. Prices steady. |

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

### ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at the Viceregal Lodge, Simla, on Wednesday, the 12th August, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.
The Hon'ble W. W. Hunter, C.S.I., C.I.E., LL.D.

## NORTHERN INDIA FERRIES ACT, 1878, AMENDMENT BILL.

The Hon'ble MR. HOPE introduced the Bill to amend the Northern India Ferries Act, 1878, and moved that it be referred to a Select Committee consisting of the Hon'ble Messrs. Ilbert and Hunter and the Mover.

The Motion was put and agreed to.

The Hon'ble MR. HOPE also moved that the Bill and Statement of Objects and Reasons be published in the *Punjab Government Gazette*, the *North-Western Provinces and Oudh Government Gazette*, and the *Central Provinces* and *Assam Gazettes* in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

The Council adjourned to Wednesday, the 26th August, 1885.

SIMLA;
*The 13th August, 1885.*

D. FITZPATRICK,
*Secretary to the Government of India,*
*Legislative Department.*

*Note.*—The Meeting fixed for the 5th August, 1885, was subsequently postponed to the 12th idem.

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### CIRCULATING THE PROCEEDINGS OF THE FIRST MEETING OF THE ROYAL COMMISSION IN CONNECTION WITH THE LONDON EXHIBITION.

Circular No. [illegible] Ex.

*Extract from the Proceedings of the Government of India, Revenue and Agricultural Department (Museums and Exhibitions),—dated Simla, the 12th August 1885.*

### RESOLUTION.

Read the following:—

Statistics and Commerce Despatch, No. 49, dated London, the 14th May 1885, from Her Majesty's Secretary of State for India.

I forward 225 copies of the official report of a meeting of the Royal Commissioners for the Colonial and Indian Exhibition of 1886, held at Marlborough House on the 30th March, sent to me by Sir Philip Cunliffe Owen, Secretary to the Commission, for distribution to intending private Exhibitors in India.

2. You may perhaps consider it advisable to publish the report in the Official Gazettes, for general information.

---

*Proceedings of the First Meeting of the Royal Commission for the Colonial and Indian Exhibition, held at Marlborough House on Monday, the 30th March 1885.*

The Royal Commission appointed by Her Majesty the Queen for the purpose of organizing the above exhibition met for the first time on Monday, the 30th March, at Marlborough House, under the presidency of His Royal Highness the Prince of Wales. The following members of the Commission were present:—Field-Marshal Commanding-in-Chief His Royal Highness the Duke of Cambridge, the Marquis of Salisbury, the Marquis of Normanby, the Marquis of Lorne, the Marquis of Hamilton, the Earl of Derby, the Earl of Dalhousie, Earl Cadogan, the Earl of Kimberley, the Earl of Lytton, Viscount Bury, Field-Marshal Lord Strathnairn, the Hon. Edward Stanhope, M.P., the Right Hon. Sir Stafford Henry Northcote, M.P., the Right Hon. William Edward Forster, M.P., the Right Hon. Sir Michael Edward Hicks-Beach, M.P., the Right Hon. Anthony John Mundella, M.P., the Right Hon. Sir Louis Mallet, the Right Hon. the Lord Mayor of London, Sir Henry Thurstan Holland, M.P., Sir Daniel Cooper, Sir John Rose, Field-Marshal Sir Patrick Grant, General Sir Frederick Paul Haines, Major-General Sir Henry Creswicke Rawlinson, Lieutenant-General Sir Charles Henry Brownlow, General Sir Edwin Beaumont Johnson, Lieutenant-General Sir Henry Dominick Daly, Lieutenant-General Sir Samuel James Browne, Sir Robert George Wyndham Herbert, Major-General Sir Frederick Richard Pollock, Lieutenant-General Sir Harry Burnett Lumsden, Sir Barrow Helbert Ellis, Lieutenant-General Sir D. Macnaghten Probyn, Surgeon-General Sir Joseph Fayrer, Sir Joseph Dalton Hooker, Colonel Sir Owen Tudor Burne, Major-General Sir A. Clarke, General Sir Edward Selby Smyth, Sir Arthur Blyth (Agent-General for South Australia), Sir Charles Tupper (High Commissioner for the Dominion of Canada), Sir Francis Dillon Bell (Agent-General for New Zealand), Sir Saul Samuel (Agent-General for New South Wales), Sir William Charles Sargeaunt (Crown Agent for the Colonies), Sir Charles Hutton Gregory, Sir John Coode, Sir George Christopher Molesworth Birdwood, Colonel Henry Yule, Lieutenant-General Charles John Foster, Mr. John Arthur Godley, Mr. Horace George Walpole, Lieutenant-General Richard Strachey, Colonel James Michael, Colonel Arthur Edward Augustus Ellis, Mr. Charles Mills (Agent-General for the Cape of Good Hope), Mr. Arthur Hodgson, Captain Montagu Frederick Ommanney (Crown Agent for the Colonies), Mr. Robert Murray Smith (Agent-General for Victoria), Mr. James Francis Garrick (Agent-General for Queensland), the President of the Royal Agricultural Society, the President of the Institution of Civil Engineers, Mr. Henry Coppinger Beeton, Mr. Edward Birkbeck, M.P., Mr. Bertram Wodehouse Currie, Mr. William George Pedder, and Sir Philip Cunliffe-Owen, secretary.

His Royal Highness, in opening the proceedings, said:—

My Lords and Gentlemen,—In addressing you for the first time, I would remind you that the objects for which Her Majesty has been pleased to appoint this Commission are, briefly, to organise and carry out an Exhibition by which the reproductive resources of our Colonies and of the Indian Empire may be brought before the people of Great Britain, and by which also the distant portions of Her Majesty's Dominions may be enabled to compare the advance made by each other in trade, manufactures, and general material progress.

This project, to the realisation of which I have looked forward for some years, is essentially one of a National and Imperial character, differing in this respect from former Exhibitions, in which the elements of trade rivalry and profit largely predominated.

No such opportunity of becoming practically acquainted with the economic condition of our Colonies and the Indian Empire has ever been afforded in this country. The attractive display in the Indian and Colonial Courts at the Paris Exhibition of 1878 could only be witnessed by a comparatively small number of the population of these Islands, millions of whom may be expected to view and profit by the evidence which the Exhibition of 1886 will afford of the marvellous progress made by their fellow-countrymen beyond the seas.

I also trust that this gathering may serve even a higher purpose, and be the means not only of giving a stimulus to commercial interests and intercourse but of strengthening that Bond of Union between Her Majesty's subjects in all parts of the Empire, the growth and manifestation of which are most sincerely appreciated by us all.

Whilst Her Majesty's Government have given their hearty approval to the objects for which the Commission has been appointed, they have not so far found it desirable to make any definite grant towards it. The Commission have, therefore, to rely entirely upon the public support of the great purposes which the Exhibition is intended to promote; and on the attractive form which it will be the endeavour of all concerned to give to it.

I cannot doubt but that, under such conditions, should no untoward events occur, the project will be more than self-sustaining.

At the same time, it has been thought prudent not to dispense with the usual provision of a Guarantee Fund, though I trust no circumstances may arise rendering it necessary to make any call on the Guarantors. To this Fund the Indian and Colonial Governments have made liberal contributions, amounting to £51,000.

I have also to announce with much gratification that the most cordial and generous response has already been made by Corporations, Firms and individuals in the United Kingdom to an invitation to participate in this Guarantee. Although no formal or public appeal has yet been made, and the number invited to contribute to it has so far been limited, the list of subscribers not only embraces those whose interests may be supposed to be specially affected by the Exhibition, but comprehends every class of the community. Though but recently commenced, these further subscriptions already amount to £77,600, making a total Guarantee Fund of £128,600 to the present date.

I feel sure that you will unite with me in the expression of cordial thanks to those who have so promptly and liberally come forward to our assistance. It is a gratifying proof of the interest which exists among all classes at Home and in the outlying countries of the Empire, and of the desire felt by them to embrace every occasion to promote the common advancement and prosperity of the United Kingdom and its Colonies and Dependencies.

Considering the inconvenience which would have resulted to the Members of the Commission had they been summoned to meet at an earlier date, and in view of the immediate assembling of the various Colonial Legislatures, whose co-operation had to be obtained, I deemed it necessary, in order that full time might be given for the preparation of contributions, to take certain preliminary steps, which I trust will meet with your approval.

I have accordingly to announce that arrangements have been made by which the Buildings and Grounds at South Kensington, where the Fisheries

and Health Exhibitions were recently held, have been placed at the disposal of this Commission, on fair terms, and the Buildings can be made available for our purposes at a moderate outlay.

I therefore caused plans of these Grounds and Buildings to be prepared, showing the space which the Commission could assign to India and the various Colonies, and the arrangements which were deemed most convenient. These were communicated to the Government of India, to the High Commissioner for the Dominion of Canada, to the various Agents-General of the Colonies, and, through the Colonial Office, to the Crown and other Colonies, and have met with their approval. Similar communications have been made through the Secretary of State for the Colonies direct to the various Governments, and to the Secretary of State for India with like results.

In the despatch which contained this information, I also stated that it was considered advisable that, in place of any awards being granted by Juries, as has been the case in previous Exhibitions, Commemorative Medals only should be given to each exhibitor. The object in suggesting this change was, that as some Colonies, from their age and circumstances, were more advanced than others, those in their infancy should not be placed at an undue disadvantage in an Exhibition from which all thoughts of trade rivalry should be excluded.

I am pleased to say that answers have been received which show that the suggestions made on this and other matters have been favourably accepted; and to inform you that the project of holding the Exhibition has been everywhere received with the utmost cordiality.

I trust that these preliminary arrangements may meet with your approval.

I have also to submit for your consideration the general method of administration which I recommend should be adopted.

As President of the Royal Commission, it is my intention personally to take the same active part in the work as I did at the Paris Exhibition of 1878.

The details of the Executive duties will devolve on Sir Philip Cunliffe-Owen, whose ability and experience have so often been tested with satisfactory results, and who has also been entrusted by the Indian Government and certain of our Colonies with Executive duties on their behalf.

I have also thought it desirable to nominate a Finance Committee for the purpose of controlling and regulating the expenditure of the Commission and guarding the interests of the Guarantors. This Committee, it is proposed, shall consist of the following members of the Commission, who have kindly placed their services at my disposal, *viz.*, Sir John Rose, Bart. (Chairman); Sir George C. M. Birdwood; Mr. Edward Birkbeck; Sir Barrow Helbert Ellis; Sir William Charles Sargeaunt.

I will ask you to confirm the appointment of these gentlemen.

As arrangements advance, it may be necessary for me to recur in matters of special importance to your counsel and aid.

While no effort will be spared to render the Exhibition worthy of the primary objects, it is intended to promote, as well as to insure its attractiveness to the Community, the Guarantors may be assured that, subject to the attainment of these ends, no needless outlay will take place; but that, on the contrary, the expenditure will be kept within proper and legitimate limits. As an earnest of this endeavour I have directed full and detailed estimates of the different heads of proposed expenditure—guided by the experience of former Exhibitions—to be prepared for submission, first, to the Finance Committee, and subsequently for my own approval.

Though it is impossible to foresee what eventualities may arise, I trust no obstacles may occur to prevent this Exhibition from being, not only self-sustaining, but as successful, financially, as those of late years have been.

It has been suggested that advantage should be taken of the great numbers who will doubtless visit England during the Exhibition from the Colonies and from India, to procure for them special facilities for visiting the great manufacturing centres and chief places of interest in Great Britain, not only as an expression of welcome, but that they and we may profit by a comparison of

their own with the more matured commercial systems of the Mother-Country, and that by bringing manufacturers, producers and consumers together, an impetus may be given to the general extension of industry and trade.

Negotiations are in progress to effect this object which I hope may result, not only in mutual advantage, but in proving to our fellow subjects that they are as welcome elsewhere in Great Britain as I am sure they will be in the Metropolis.

In conclusion, let me express the hope that this great undertaking and the many occasions for friendly intercourse with our fellow subjects from India and the Colonies which it will afford, may convey to them the assurance that, while we are deeply moved by the spirit of patriotism they have lately shown in desiring to bear their share in the graver trials of the country, we, on our part, wish to participate in every effort to further and develope their material interests, interests which we feel to be inseparably bound up with the prosperity of the Empire. We must remember that, as regards the Colonies, they are the legitimate and natural homes, in future, of the more adventurous and energetic portion of the population of these Islands. Their progress, and their power of providing all that makes life comfortable and attractive, cannot, therefore, but be a matter of serious concern to us all. And, as regards India, the increasing knowledge of that vast Empire and the rapid and easy means of communication to all parts of it which now exist, render its remarkable and varied products and its social and political condition a source of yearly increasing interest and importance to us.

For the attainment of the purposes I have indicated, I am sure I may rely on your friendly co-operation and assistance, in your several localities, and within the sphere of your individual influence. Although it has been impossible from the pressure of their duties elsewhere for some members of the Commission to be present at this meeting, I am gratified by the assurance from them that we may none the less rely on their practical and earnest assistance on every occasion in furthering the work which has been entrusted to us, and achieving the important ends which I trust may flow from its successful accomplishment.

It only remains for me to express my cordial thanks to you for your kindness in attending here to-day, and my confidence that I shall continue to receive the same measure of support which it has been my good fortune to obtain from many of you on former occasions.

Sir Philip Cunliffe-Owen then read the correspondence relating to the appointment of the Commission and the participation of the various colonies, all of which were most willing to take advantage of this opportunity of displaying their resources and progress, and gaining a larger knowledge respecting their sister colonies.

A preliminary list of Guarantors was also read, the amount of the Guarantee Fund being already £128,600.

The EARL OF DERBY said: I have been asked to move a resolution, and I do it with great pleasure, but also very briefly, because argument is superfluous where I presume we are all of one mind, and it would be a mere waste of time to relate the circumstances, with which you are no doubt familiar, which should induce you to accept this resolution. There was a time, a few years ago, when it was said exhibitions were played out, and that it would be well, for a time at least, to discontinue them. I do not know whether that feeling was ever justified by the facts; it may have represented a passing phase of opinion in London, but it is not the case now. We have had recent experience, and we have seen that, whatever the ostensible objects of the exhibition, whether appliances of health, fisheries, forestry, or whatever the subject may be, the interest that is felt in these exhibitions is unabated, and ever-increasing. The numbers frequenting them seem to increase every year, and if they are well conducted, there can be no doubt they will be a financial success. If this be true, generally, it is still more likely to be true in the case of the exhibition which is to be held next year. I think we must all see and feel that there never was a time in the history of the country when so deep and general an interest was taken in the affairs of the Colonies; and I think also we all feel that, living as we do in a small and overcrowded island, it is both

our duty and our interest to do all in our power to bring before the minds of our fellow countrymen those vast countries beyond the sea, in which those who have comparatively small opportunities of making a successful career in this country may have a better chance in another state of society. After the correspondence which has been read, it will not be necessary for me to recapitulate the details of what has passed, especially as His Royal Highness has been kind enough to state what is most important on that point. I will only say that to me, and those with whom I have acted departmentally, and I think I may say the agents of the colonies, it has been a source of pride and satisfaction to be able to help according to the measure of our power in promoting the wishes of His Royal Highness. I think, although the matter is not completed, and therefore it is undesirable to enter into details, that our colonial fellow subjects, both as regards governments and communities have responded to the appeal made to them in that liberal and patriotic manner we have every reason to expect. You have heard the list of Guarantors read; it is, I believe, an ample one for all purposes, and no doubt can be increased if necessary; and, looking at the increased interest in Colonial affairs, and the way the Colonies have taken the matter up, I think there is no doubt that this exhibition will be a great success. The purpose of the resolution I have to propose is that the Royal Commission may endorse the steps taken by His Royal Highness; and I think I may say that no passage in His Royal Highness's address has given so much satisfaction as that in which he gives us an assurance that he will take the same position in this exhibition as in that of 1878.

The EARL OF KIMBERLEY seconded the resolution, and said: As regards India, I have this exhibition much at heart. There is, perhaps, nothing more desirable for India than that its products and industries should be well known in this country, although we have much more to learn from than to teach them. Their beautiful manufactures which they have produced for so many ages have proved that there is a knowledge of many branches of art which it would be a thousand pities should be diminished under our rule. I have often been struck with the calamity of the introduction of our taste into Eastern arts and manufactures; for their taste is far better than ours, although we have no doubt engineering knowledge and skill and the command of capital; and I cannot conceive of any advantage greater than that the two countries should be brought together. The Government of India will itself undertake the collection and management to a great extent of what is to be sent into this country. You will see from the immense size of our Indian Empire, and the position of the Government there, that it is much better this should be taken in hand by the Government. It is a great satisfaction to me to concur entirely with the proposals made by His Royal Highness, and with my noble friend that this exhibition will be a remarkable success.

The following is the resolution, which was carried unanimously: "That this Commission entirely approves of the arrangements made by His Royal Highness the Prince of Wales, the Executive President, and now reported by him in detail: and they desire to convey their cordial thanks to His Royal Highness for the interest he has shown in the undertaking, and their appreciation of the judicious steps taken by him to insure its success. The Commission further desire to express their cordial appreciation of the liberal and gratifying contributions already made to the Guarantee Fund, and their warm thanks to the subscribers."

The PRINCE OF WALES: I feel very grateful to Lord Derby for the kind way in which he has moved this resolution, and to Lord Kimberley also for the kind expressions that have fallen from him, and for the hearty and unanimous approval of this Commission, which I look upon as a vote of confidence in myself. I may say that to the utmost of my power and endeavour I will do all I can to further the exhibition, and I feel sure that I shall have the hearty support and concurrence of the distinguished gentlemen of whom I see so many around me. I thank you again for having listened to the address I read to you, and only hope that no untoward event may occur between now and next year to prevent this resulting in perhaps the finest exhibition that has ever been held.

The Meeting then terminated.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 12th AUGUST 1885.

GENERAL REMARKS.—Rain has fallen in all districts in the Madras Presidency, with the exception of Bellary, where it is much wanted for the dry crops, which are suffering. In Madura prospects continue unsatisfactory, and more rain is wanted in Ganjam, Kistna, Coimbatore, Tanjore, and Malabar. In Mysore prospects are uncertain in consequence of the deficient rainfall. Dry crops recently sown are reported to be withering in many places, and agricultural operations have been retarded. In Coorg seasonable weather prevails, and prospects are good.

Slight rain has fallen generally throughout the Bombay Presidency, but more is wanted in parts of Sholapur, Ahmednagar, Bijapur, Nasik, Khandesh, and Dharwar. Young crops are withering in some districts, and have in some places been injured by insects. In the Berars slight rain has fallen, and crops are promising. In the Nizam's Territories rain is much needed for the standing *kharif* crops. In the Central India and Rajputana States good rain has fallen generally, and agricultural prospects are satisfactory.

In the North-Western Provinces and Oudh heavy rain has injured the crops in some places, and a break is now much needed. The condition of the crops is, however, generally very favourable. Rain has fallen in most districts in the Punjab. *Kharif* sowings have nearly been completed, and prospects are on the whole good. In the Central Provinces the weather is seasonable, and crop prospects are favourable. Transplanting and weeding continue in most districts.

In Bengal rain has been general, but in parts of the Presidency Division more is needed. Some damage has been caused to crops by floods in the Midnapur District and the Bhagalpur Division, but otherwise prospects are generally favourable. The *bhadoi* harvest is yielding a good average outturn. In Assam rainy weather prevails, and the transplanting of *sali* rice is in progress. Tea promises well. Seasonable rain has fallen in all districts in British Burma, and prospects are good.

The public health is generally fair in most Provinces. Prices are fluctuating in the Punjab, but elsewhere they are generally steady. In Bengal the price of rice continues high.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Aug. 12th)** | | |
| Bellary ... | *Nil* | Want of rain much felt all over the district. Dry crops partly withering for want of rain. Caterpillars have appeared in a few villages of two taluks. Wet crops moderately good, except in parts of two taluks; harvest paddy in one taluk, yield average. 60 deaths from cholera. |
| Kurnool ... | ·03 (average) | Standing crops good. Small-pox and cattle-disease in one taluk. 10 deaths from cholera. |
| Ganjam ... | ·94 ( „ ) | More rain wanted. 338 deaths from cholera. |
| Kistna ... | ·23 ( „ ) | More rain required. River 5 feet 8 inches over anicut. Dry crops sown in parts and transplantation of paddy commenced. Fever and small-pox in parts; cattle-disease in three taluks; 89 deaths from cholera reported last week, 77 this week. |
| Chingleput (Madras) ... | ·36 ( „ ) | Standing crops generally good, but withering in parts of two taluks; harvest paddy in parts. Outturn below average. Anthrax in Conjeeveram. |
| Coimbatore ... | ·31 ( „ ) | Standing crops generally fair, but want of rain in parts. Harvest *ragi* and *cumboo* in parts. Outturn generally average. Small-pox, fever, and cattle-disease in parts; 52 deaths from cholera. |
| Tanjore ... | ·36 ( „ ) | Standing crop generally good, but not flourishing in parts of five taluks for want of rain. Harvest *cholum*, tobacco, and indigo, outturn up to average. 21 deaths from cholera. |
| Madura ... | ·60 ( „ ) | Fever prevalent. |
| Malabar ... | ·23 ( „ ) | Standing crops require rain. Small-pox in six taluks, and fever and cattle-disease in two; 20 deaths from cholera. |
| Travancore ... | ·05 ( „ ) | Fever prevalent; small-pox exists. |
| | | *General Remarks.*—General prospects fair, improved in Bellary and Anantapur; in Madura reported to be discouraging. |
| **Bombay—(Aug. 12th)** | | |
| Karachi ... | Manora, ·10 on 6th | River at Kotri on 10th, 16 feet 11 inches against 17 feet 4 inches on same date last year. Fever in two talukas; 3 cases of small-pox in districts, no fresh cases, nor deaths; 4 cases of cholera in Karachi city, 3 deaths; 38 cases in districts, 37 deaths. Prices—wheat, red rice, and *bajri* in Karachi 26, 36 and 32; in Tatta 26, 40 and 40; in Jati 26, 42 and 42; and in Manjhand 32, 38 and 40 pounds per rupee, respectively. |
| Hyderabad ... | *Nil* | River at Kotri on 10th, 15 feet 11 inches against 7 feet 4 inches on same date last year. *Kharif* cultivation good; entire crops injured by *bokhroy* insect in Shahdadpur taluka. Fever in three, cattle-disease in two, and cholera in Hyderabad city, Shahdadpur, and Kandiaro talukas. Prices of grain steady. |
| Ahmedabad ... | ·51 | Total rainfall 14·11. Young crops thriving. Cholera in the city, 10 cases, 5 fatal. Wheat 37 and *bajri* 33 pounds per rupee. |
| Baroda ... | ·87 | Total rainfall 10·46. Cholera abating in Baroda city. Sowing operations completed, and young plants thriving. Prices—*bajri* 27, wheat 27, and rice 21 pounds per current sicca rupee. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay**—*contd.* | | |
| Surat ... | Maximum in Bardoli, 3·64; minimum in Olphad, 1·83. | Sowing nearly completed; transplantation progressing; young crops healthy. Cattle healthy. Fodder sufficient. Fever and cough in Bardoli. *Juari* 37 and *nagli* 43 pounds per rupee. |
| Nasik ... | Nasik, ·84; Sinnar, ·44; Igatpuri, 7·32; Dindori, ·51; Niphad, ·41; Chandor, ·22; Yeola, ·06; Nandgaon, ·18; Baglan, ·11; Kalwan, ·28; Punt, 3·89; Malegaon, *nil*. | Transplantation of rice, *nagli*, and *vari* nearly completed in the Dangi villages of Nasik, Igatpuri, and Punt; sowing of *kharif* crops vigorously progressing in Nasik, in the western parts of Sinnar, in Dindori, western part of Chandor, Baglan, and Kalwan. Crops have come up in places and are looking healthy, sowings stopped for want of rain in the eastern part of Sinnar, Niphad, eastern part of Chandor, Yeola, Malegaon, and Nandgaon. The season for sowing *kharif* crops is nearly gone; want of fodder badly felt in Sinnar, in the eastern part of Chandor, Yeola, Malegaon, and Nandgaon. Cattle dying of starvation; fever in parts of Nasik, Sinnar, and Nandgaon; cholera in Nasik, Sinnar, Dindori, and Niphad; total 130 attacks, 78 deaths. Prices—wheat 33, *bajri* 29½, and rice 22¾ pounds per rupee. |
| Colaba (Bombay) ... | Rain every day; total of week, 1·89. | Total rainfall to date 39·88, being 20·49 below average. Average abnormal temperature 1° warm; vapour in air normal; abnormal wind southerly on 5th, 7th, and 8th; wind normal on all other days. |
| Poona ... | Maximum in Maval, 2·44; minimum in Haveli, 1·72; light showers in three talukas—Indapur, Sirur, and Bhimthadi—*nil*. | Cholera in seven talukas, 356 cases, 178 deaths; cattle free from disease, but in parts in poor condition. Sowing operations in progress, where rain is sufficient. More rain wanted in Indapur, Sirur, and Bhimthadi. Scarcity of fodder in the eastern talukas. Prices—*bajri* 29 and *juari* 37; in Poona *bajri* 28 and *juari* 35 pounds per rupee. Unless heavy rain falls within a week in the eastern talukas; people will have to wait for *rabi* sowing as *kharif* sowing will be futile. |
| Ahmednagar ... | Nagar, ·05; Karjat, ·07; Jamkhed, ·20; Sangamner, ·21; Akola, ·38; none in the remaining talukas. | Sowing of *kharif* completed in Jamkhed and Sheogaon, and nearly so in Akola and in parts of Parner, Newasa, and Karjat, in fifty villages of Kopargaon and a few of Shrigonda; in progress in Rahuri and retarded in Nagar and Sangamner; young crops are yet promising in Jamkhed, Akola, Sangamner, Parner, and in about eleven villages of Karjat, but are beginning to wither or require rain at once elsewhere; transplantation of rice and *nagli* is finished in Akola; want of fodder in Parner, Sangamner, Kopargaon and the Deoli portion of Akola. Rain urgently wanted throughout the district. Cholera in nine talukas, 193 attacks, 70 deaths; cattle-disease in Sangamner; slight fever in Akola. *Bajri* from 33 to 42 and *juari* from 39 to 54 pounds per rupee. |
| Sholapur ... | Barsi, ·06; Madha, ·06; Malsiras, ·17; none elsewhere. | Condition of *kharif* crops in *ziarat* lands in the Sholapur and Barsi talukas, and in the State of Akalkot is fair; very little *kharif* crop has been sown in the other talukas. Rain urgently required in the southern and western talukas; water in wells used for irrigation is drying up, and crops are suffering in consequence; grass has not sprung up and the stock of fodder is at present very scarce; there are as yet no signs of distress. Average price of *juari* 46 pounds 7 tolas and of *bajri* 30 pounds 12 tolas per rupee. Cholera 825 cases, 299 deaths. |
| Dharwar ... | ·29; Hangal, Dharwar, Hubli, Kalghatgi, and Bankapur, nearly ·25; Mugud, Ranibennur, and Kod, below ·10; Mundargi, Navalgund, Nargund, Gadag, and Karajgi, *nil*. | Heavy rain urgently required for rice and other early crops and to enable *juari* sowing being carried on in eastern talukas and in parts of Bankapore and Ranibennur; land is being prepared for late crops; rice and garden crops good for the present. Slight cattle-disease in Ranibennur, and slight cholera in four talukas. Average prices of rice 27 and *juari* 45 pounds per rupee. Weather cloudy; there are signs of rain. |
| Kanara ... | Karwar, 1·43; Kumpta, 2·13; Sirsi, 1·77; Haliyal, ·68. | Crops thriving. Fever and small-pox in five talukas and cattle-disease in two. Common rice at Karwar 13½ seers, district average 14½ seers per rupee. |
| Rajkot ... | 2·58 | Total rainfall 18·09. General health good; fever prevalent in some places; 35 cases of cholera reported at Shahpore under Morvi between 1st and 4th; 3 proved fatal; cattle-disease in Bhatia, Mahal under Nawanagar. *Bajri* 34 and *juari* 46 pounds per rupee. |
| | | *General Remarks.*—Slight rain in most districts; more wanted in parts of Sholapore, Ahmednagar, Poona, Bijapur, Nasik, Khandesh, Hyderabad, Upper Sind Frontier, and Bijapur; fodder scarce in parts of Khandesh, Sholapore, Nasik, Ahmednagar, Poona, Bijapur, and Belgaum. Cholera in parts of eighteen, fever and cattle-disease in parts of nine, and small-pox in parts of four districts. |
| **Bengal—(Aug. 12th)** | | |
| Chittagong ... | 4·10 | Weather seasonable. Prospects of crops generally fair; transplanting of late rice continues; early rice being harvested. Prices steady. Cholera abated; sporadic cattle-disease reported. |
| Dacca ... | 1·61 | Prospects of crop good; early rice and jute being harvested; late rice and sugarcane doing well. Public health good. |
| 24-Pergunnahs (Calcutta) | 2·88 | Prospects of early crops continue satisfactory; transplanting of late rice going on, but more rain wanted. Common rice 13 to 14 seers per rupee. Fever in places. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| Moorshedabad ... | 2·32 | Weather seasonable. Prospects of late rice now fairly good, but transplanting still being delayed in the Jangipore subdivision for want of sufficient rain; prospects of early rice favourable, except on low lands flooded by the Ganges; sugarcane and mulberry good. Sporadic cholera reported. |
| Burdwan ... | 2·98 | Prospects of crops good. Price of rice 11¾ to 14¼ seers per rupee. Public health generally good. |
| Rungpore ... | 4·56 | Harvesting of early rice and transplanting of late rice still going on; other crops doing well. Cholera much abated; fever and bowel-complaints prevalent. Price of common rice fallen. |
| Bhagalpur ... | 9·91 | Prospects of crops good, but floods have done some damage. Price of rice 12 seers 10 chittacks per rupee. Cholera still prevalent in south. |
| Purneah ... | 3·85 | Floods in Ganges have done considerable damage. Considerable damage also done by caterpillars in Kadwa; otherwise *bhadoi* prospects excellent. Rain has promoted transplanting. Common rice 14 seers per rupee. Health fair. |
| Patna ... | 6·75 | *Bhadoi* crops growing well; transplanting of paddy commenced; *cheena* and *makai* on *dearah* lands destroyed in some places by a rise in the river. Cholera reported from Barh and Behar subdivisions. |
| Durbhunga ... | 2·17 | Prospects of *bhadoi* very favourable; *marwa*, *maki*, *kaund*, and *shama* coming into ear; indigo cutting in progress. Prices stationary. Public health good. |
| Hazaribagh ... | 2·15 | Weather seasonable. Sufficient rain everywhere. Agricultural prospects generally favourable; transplanting in progress. Prices steady. Cholera reported from several thanas, otherwise general health good. |
| Cuttack ... | 1·27 | Weather cloudy, with light rain. Early rice ripening in places; late rice being harrowed and transplanted. Price of rice unchanged. Cholera reported from all sides. |
| Midnapur ... | 5·12 | Very heavy rain all over the district. Much damage from floods in north, elsewhere crops doing well. Public health fair. |
| Kulna ... | 1·47 | Weather cloudy and sultry. Early paddy coming into ear; progress of late paddy transplanting favourable. Price of rice still high. Public health good. |
| Dinagepore ... | 4·92 | Ample rain all over the district. *Bhadoi* crops good and being harvested. Fair outturn expected. Cultivation of late rice progressing. Cholera reported from four thanas, otherwise public health good; some cattle-disease reported. Average price of rice 14 seers per |
| [illegible] ... | [illegible] | [illegible] |
| Champaran ... | [illegible] | [illegible] |
| [illegible] | [illegible] | [illegible] |
| [illegible] | [illegible] | [illegible] General rain over the whole province; more rain wanted in parts of Presidency division. Floods in Midnapur and the Bhagalpore division have done some damage to the crops. Prospects continue generally favourable. Transplanting proceeding well in Central and Eastern Bengal; *bhadoi* harvest is yielding a good average outturn. Price of rice continues high. Public health generally fair. |
| **N. W. Provinces and Oudh—(Aug. 13th)** | | |
| Benares (Aug. 11th) | 2·5 (average) | Weather cooler. Crops flourishing; supplies sufficient. Prices fluctuating slightly. Isolated cases of small-pox, otherwise health good; no cattle-disease. |
| Gorakhpore ( „ 10th) | Good rain in varying quantities throughout the district. | Prices stationary. Cholera severe in certain towns in south, sporadic in east. |
| Fyzabad ( „ 11th) | Ample rain | Prospects good; *kharif* crops good. Prices stationary. General health fair. |
| Lucknow ( „ 10th) | Heavy rain during the week, 2·5 inches. | [illegible] to some extent by [illegible] rains. Prices [illegible]. Health bad at [illegible]; cattle [illegible]. |
| Rae Bareli ( „ „ ) | Heavy local rain all over the district; at Sadar, 5·3 during the week. | [illegible] Prices slightly rising. General health fair. |
| Partabgarh ( „ 11th) | *Nil* | Owing to constant rain very little *bajri*, *moth* or *mash* has yet been sown; *mash* coming up well; weeding active in *juari* and *dhan* fields; general prospects favourable. |
| Allahabad ( „ „ ) | 1·0 (average) | Crops flourishing. Markets well supplied. Prices stationary. Health of men and cattle generally good, though sporadic cholera still continues. |
| Cawnpore ( „ 10th) | Rain in all but three parganas. | Weather rainy and cloudy; a break much needed for weeding the young crops. Prices stationary. Fever continues in five parganas and cattle-disease in one. |
| Banda ( „ 11th) | *Nil* | Fair weather for four days; break very beneficial. Prices steady. Public health very good; cattle disease in two villages. |
| Ballia ( „ „ ) | Good steady rain throughout Ballia. | Crops damaged by floods, others flourishing; supplies ample. Cholera [illegible] 99 deaths. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Farakhabad (Aug. 11th) | General rain during the week, averaging 5·0. | Prospects fair, but crops on low lands have suffered. Prices steady. A few cases of cholera reported. |
| Sitapur ( „ „ ) | Rain from 7·0 to 10·0 has fallen throughout the district during the week. | All crops but rice have suffered injury. |
| Bareilly ( „ „ ) | *Nil* | Sowing suspended owing to continuous rain. Markets slightly variable. Public health remains good; a cattle-disease. |
| Kumaon ( „ 10th) | Heavy constant rain | Sunshine required. Prices rising slightly. Health fair; cattle-disease continues. |
| Agra ( „ „ ) | Rain in four parganas | Prospects good. Prices stationary. Slight cholera in three villages. |
| Jhansi ( „ „ ) | *Nil* | Weeding in *mar* soil retarded by heavy rains, a break wanted. Cotton and *juari* damaged by excessive rain. Prices continue steady. Slight fever and cholera disappearing. |
| Meerut ( „ 11th) | Good rain | Break now required. Prospects excellent. Slight rise in prices of *juari*, otherwise prices stationary. Slight fever, otherwise health good. |
| | | *General Remarks.*—Heavy rain has fallen throughout the provinces, and caused injury to the crops in some districts; a break is much required. Prices are fairly steady, and public health good; cases of cholera reported from Gorakhpore, Allahabad, and Agra. |
| **Punjab—(Aug. 12th)** | | |
| Hissar (Aug. 11th) | 1·80 | Health good. Crops flourishing. |

| | | | | | | | | | | | | | | | *Remarks by Executive Engineer.* | | |
| | | | | | | | | | | | | | | | Northern Division, Ganges Canal—Demand steady up to 28th of the month when heavy rain fell in the division. Rice irrigation still being effected. | | |
| | | | | | | | | | | | | | | | Anupshahr Division, Ganges Canal—Decrease in indigo 7,000 acres due to bad prices realised last year. Increase of sugarcane 4,000 acres partly replacing indigo. Demand very heavy to 25th, after which no demand except for rice. | | |
| | | | | | | | | | | | | | | | Meerut Division, Ganges Canal—Heavy demand up to the 27th June, when the rain commenced, after which no demand except for rice only. | | |
| | | | | | | | | | | | | | | | Bulandshahr Division, Ganges Canal—Demand very strong up to 22nd, when monsoon-like weather set in. Heavy and general rain fell on 27th and stopped all demand. Cause of decrease was explained last month. | | |
| | | | | | | | | | | | | | | | Aligarh Division, Ganges Canal—There is a falling off of 14,000 acres in indigo due to bad sales last year. Areas under all other crops have increased. Heavy rain fell on the 29th June, when all demand ceased. | | |
| | | | | | | | | | | | | | | | Narora Division, Lower Ganges Canal—Decrease as compared with last year altogether under indigo and due to low prices for last year's crop. | | |
| | | | | | | | | | | | | | | | Mainpuri Division, Lower Ganges Canal—Strong demand for water till the 23rd when the rains set in and all demand ceased. | | |
| | | | | | | | | | | | | | | | Cawnpore Division, Lower Ganges Canal—Rain commenced on the 21st, and all demand ceased by the 24th. | | |
| | | | | | | | | | | | | | | | Etáwah Division, Lower Ganges Canal—Executive Engineer shows an increase of 3,065 acres as compared with last year's kharif. The increase is chiefly in sugarcane. | | |
| | | | | | | | | | | | | | | | Eastern Jumna Canal—High demand up to 24th. Heavy and general rain on 28th and 29th, and canal closed for a few days. Sugarcane 5,400 acres over last year. The net decrease is due to the season, which has kept all other irrigation backward. | | |
| | | | | | | | | | | | | | | | Agra Canal—Demand very strong till the 24th. Heavy rain fell between the 24th and 26th. No demand. Great demand for sugarcane up to 22nd, when rain set in and fair demand for rice since that date. | | |
| | | | | | | | | | | | | | | | Rohilkhand—Great demand for sugarcane up to 22nd, when rain set in and fair demand for rice since that date. | | |
| | | | | | | | | | | | | | | | Dún Canals—Month began with light demand for gardens, sugarcane and 2nd class rice paleo; this increased to heavy demand up to the 18th, when rain fell; from this time to the end of the month water was in demand for the most part for rice only. | | |
| | | | | | | | | | | | | | | | No remarks from the other divisions. | | |

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

No. $\frac{114}{1-11}$ Met.

*Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department (Meteorology),—dated Simla, the 20th August, 1885.*

Read the following:—

Summary of the Weather Reports for July 1885.

Heavy rain fell at Mangalore on the 1st. This proved to be the beginning of a burst of rather heavy rain on the west coast, lasting until the 9th, and spreading northward as far as Ratnagiri, without, however, reaching Bombay. Between the 10th and 16th, though rain fell daily along the west coast, the amounts were not large, but on the 17th a fall of six inches occurred at Bombay and larger amounts on the neighbouring hills. This was the first downpour of the season on the Konkan coast, and resulted in extensive floods in the neighbourhood of Bombay. Rather heavy rain again fell along the Malabar Coast on the 23rd; but on the whole the amounts recorded in the west of the peninsula, subsequent to the middle of the month, were moderate, and, except in Malabar, the total rainfall of the month was below the average. In Gujarat the rainfall was nearly up to the average of the month, but this result was due rather to the occurrence of heavy local and spasmodic falls at Rajkot, Ahmedabad, and Broach than to steady continuous rain throughout the month. In Sind and Cutch and northward over the Punjab there was very little rain, the relative deficiency during the present month being even greater than in those provinces during June. In the central parts of the country, *i.e.*, Rajputana, Central India, and the Central Provinces, though the average was not actually equalled, the deficiency was small, and in the Berars, the Deccan, and Hyderabad the average was slightly exceeded.

In the eastern and central parts of the peninsula the normal westerly winds appear to have been exceptionally dry; and Madras, Bellary and the Carnatic had even less than the small average rainfall. Further north, in the Northern Circars, Orissa, Chutia Nagpur and Lower Bengal, there has also been a slight deficiency; but in Assam, Kachar, Northern Bengal, and over the whole of the North-Western Provinces and Oudh the rainfall has been excessive. During the month several small, and in general feeble, depressions have travelled slowly up the Gangetic plain—some apparently having been formed over the Gangetic Delta, others over Behar or that neighbourhood. Though very slight when measured by barometric differences, some of these disturbances have occasioned heavy falls of rain, of which the more important are as follow:—

| | Inches. | | Inches. |
|---|---|---|---|
| Darjeeling, 2nd. ... | ... 4·38 | Dinagepur, 12th ... | ... 4·41 |
| Bahraich, 3rd ... | ... 4·02 | Sutna, 13th ... | ... 5·01 |
| Muzaffarpore, 4th ... | ... 5·20 | Aligarh, 16th ... | ... 5·50 |
| Naini Tal, 3rd and 4th | ... 14·80 | Benares, 22nd ... | ... 4·68 |
| Sangor Island, 7th ... | ... 4·27 | Sangor Island, 29th | ... 6·15 |
| Bareilly, 11th ... | ... 4·21 | Mussoorie, 30th ... | ... 5·48 |

On the whole the rainfall of the month has been more favourable in many respects than that of June. The Punjab, Sind, Cutch, the Konkan, and Orissa again exhibit more or less important deficiencies; but in North Bengal and Behar, where last month a serious deficiency seemed impending, there has now been an almost compensating excess, and in the Deccan, Hyderabad, and Berars, though the excess of the present month does not make up for the deficiency of the last, there has at least been no further failure.

The figures for the season, up to date, show that the rains have been unfavourable in two regions. One includes the Konkan, Khandesh, and the Bombay Deccan, where the amount of rainfall for the two months, June and July, has been only from $\frac{1}{5}$ to $\frac{1}{2}$ of the average amount, and the other the Punjab, where (though there are some exceptions) the general rainfall of the Province has

been only $\frac{1}{3}$ to $\frac{1}{2}$ of the normal. In all other parts of the country the seasonal average has been fairly well maintained.

The other meteorological elements exhibit few variations worthy of note. There has been a pretty general excess of pressure over the peninsula, extending on the western side, northward into Gujarat and Rajputana, and a general deficiency over Northern and Central India. The temperature has been above the average in the Punjab, the Central Provinces, Central India, Sind, Gujarat and the Konkan, but generally below it in the peninsula and Burma. The amount of humidity in the atmosphere has been below the mean in the Punjab, and has varied irregularly elsewhere.

The following table shows the amount of rain and the difference from the average during the month of July 1885, according to districts, as far as is indicated by the telegraphic reports :—

| Districts. | Average Rainfall in July. | Difference from the average in July 1885. |
|---|---|---|

SIMLA;
*The 5th August, 1885.*

W. L. DALLAS,
*Asst. Meteorological Reporter to the Govt. of India.*

ORDER.—Ordered, that the papers be printed in the Supplement to the *Gazette of India*.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 19th AUGUST 1885.

GENERAL REMARKS.—Rain has fallen during the week in all districts of the Madras Presidency from which reports are received. In Bellary heavy rain is urgently required for the early dry crops. Prospects are still unsatisfactory in Madura, and more rain is wanted in Ganjam, Coimbatore, and Tanjore. Elsewhere prospects are generally good, and improvement has taken place in Anantapur. In Mysore very slight rain has fallen, the crops are in a critical condition, and pasturage and water are failing. In Coorg prospects continue good.

Prospects have greatly improved in the Bombay Presidency, in consequence of the recent rainfall, but more rain is urgently wanted in parts of Sholapur and Bijapur. In these districts and in Nasik, Poona, and Ahmednagar fodder is scarce. *Kharif* sowings are still in progress in places. Rain has fallen in the Berars and Hyderabad, and the condition of the crop is favourable. In the Central India and Rajputana States rain has been general, and the crops are generally in a satisfactory condition.

Good rain is reported to have fallen throughout the Punjab, with the exception of the Lahore district. *Kharif* prospects are generally favourable. Rain has fallen in most districts in the North-Western Provinces and Oudh, and a break is now wanted. Crop prospects are good, though some damage has been caused to cotton, indigo, and the crops on low lands. Rain has been general in the Central Provinces, and prospects are good.

In Bengal rain has been fairly general, but more is wanted in some districts. Early crops are generally doing well, but in some places in Behar and the Burdwan divisions and in Moorshedabad injury has been caused by floods. The *aus* rice harvest is progressing, with prospects of a fair average outturn; and *amun* rice is being transplanted. Seasonable weather prevails in Assam, but in Sylhet more rain is much needed for the paddy crops on high lands. Transplanting continues.

In British Burma the rains have been seasonable in all districts, except Prome, where more rain is required. Ploughing, sowing, and transplanting are in progress.

The public health is generally fair.

Prices are fluctuating in the Punjab, and have risen slightly in Mysore. Elsewhere they are fairly steady.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Aug. 19th)** | | |
| Bellary ... | ·76 (average) | Dry crops generally withering, diseased in parts of Kudligi. Caterpillars prevailing in some villages of Hospet. Wet crops moderately good, except in Kudligi and parts of Harpanhalli; harvest paddy in one taluk; yield average. 12 deaths from cholera. |
| Kurnool ... | 2·66 ( „ ) | Irrigation canal breached in places. Standing crops good. Small-pox and cattle-disease in taluk; 5 deaths from cholera. |
| Ganjam ... | 3·09 ( „ ) | More rain wanted for transplanting paddy. Cattle-disease slight in Berhampore taluk; 833 deaths from cholera. |
| Kistna ... | 1·79 ( „ ) | Paddy transplantation began. Fever and small-pox in parts; cattle-disease in Guntur taluk; 68 deaths from cholera unreported last week, 62 this week. River 5·45 feet over anicut. |
| Chingleput (Madras) ... | 1·52 ( „ ) | Standing crops good; harvest paddy and *cumboo* in parts. Outturn below average. Rinderpest in two taluks. |
| Coimbatore ... | ·46 ( „ ) | Standing crops generally fair, but want rain in parts; harvest dry crops, outturn about average. Fever, small-pox, and cattle-disease in parts; 29 deaths from cholera. |
| Tanjore ... | ·14 ( „ ) | Dry crops in critical condition for want of rain; harvest gingelly and *cholum*, outturn up to average. 10 deaths from cholera. |
| Madura ... | ·02 ( „ ) | Fever prevalent. |
| Malabar ... | 12·38 ( „ ) | Standing crops fair. Cattle-disease slight in two taluks; fever and small-pox in parts; 14 deaths from cholera. |
| Travancore ... | 5·09 ( „ ) | Fever prevalent. |
| | | *General Remarks.*—General prospects fair, improved in Anantapur; in Bellary early dry crops will be lost, if heavy rain does not fall soon; in Madura reported to be discouraging. |
| **Bombay—(Aug. 19th)** | | |
| Karachi ... | Slight rain on 18th at Karachi; in Manjhand, ·55; average of three other stations, ·18. | Weather cloudy. River at Kotri on 17th, 17 feet 11 inches against 17 feet 6 inches on same date last year. *Kharif* crops transplantation completed in three talukas; damage by warm *kookai* to crops in Tatta taluka and drought in Ghorabari taluka. Fever in five talukas, 2 remaining sick in districts, no fresh cases nor deaths; cholera in Karachi city, 6 cases, 3 deaths; in districts, 7 cases, 6 deaths. Prices—wheat, red rice, and *bajri* in Karachi 26, 34 and 32; in Ghorabari 22, 38 and 36; in Shahbandar 22, 38 and 46; and in Kotri 32, 40 and 40 pounds per rupee, respectively. |
| Hyderabad ... | Rain in six talukas, average fall, ·38. | *Kharif* cultivation good; *bajri* crops injured by *tid* insect in Mirpur khas taluka and *tili* crops by *bokhroy* insect, and cotton crops by *moraba* insect in Shahdadpur taluka. River at Kotri on 17th, 17 feet 11 inches against 17 feet 6 inches on same date last year. Fever in two, cattle-disease in one, and small-pox in two talukas; cholera in Hyderabad city and Moro taluka. Wheat 28, *juari* 40, *bajri* 40, white rice 20, and red rice 30 pounds per rupee. Sky cloudy. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay**—*contd.* | | |
| Ahmedabad ... | 3·28 | Total rainfall 17·39. Young crops healthy. More rain is wanted in Dholka and Parantej for rice crops. Cholera in the city, 26 cases, 15 fatal; in Dholka, 4 cases, 1 fatal; fever prevails in the Ahmedabad taluka. Wheat 37 and *bajri* 33 pounds per rupee. |
| Baroda ... | 5·48 | Total rainfall 15·94. Cholera abating in Baroda city. Sowing operations completed and young plants thriving and in good condition. *Bajri* 27, wheat 27, and rice 21 pounds per current sicca rupee. |
| Surat ... | Rain in all talukas, maximum in Chikhli, 15·11; minimum in Chorasi, 2·58. | Sowing of cotton incomplete in a few places for want of break; transplantation progressing; young crops healthy. Cattle healthy; fever in Chikhli; 1 death from cholera in Jallalpur. Prices—*juari* 33 and *nagli* 43 pounds per rupee. |
| Nasik ... | Excellent rain throughout the district. | Prospects improved. Transplantation of rice, *nagli*, and *vari* nearly completed in Igatpuri, Punt, and Dangi villages of Nasik and Kalwan; crops healthy; sowing of *kharif* nearly completed and recommenced in Niphad, eastern part of Chandor and Sinnar, in Yeola, Malegaon, and Nandgaon, where it had entirely stopped for want of rain; want of fodder badly felt in Deohi talukas. Orders issued to stop sales of grass in waste lands in Nandgaon, Malegaon, Baglan, Kalwan, Yeola, Chandor, and Sinnar, and in the remaining talukas, if thought necessary. Cholera in Nasik, Sinnar, Dindori, Niphad, Chandor, and Yeola, has almost ceased in Nasik. Total attacks 187, deaths 81. Wheat 33, *bajri* 29½, and rice 23¾ pounds per rupee. |
| Colaba (Bombay) ... | Rain every day; heavy on 14th and 15th; total of week, 18·54. | Total rainfall to date 48·42, being 5·52 below average. Average abnormal temperature 2° cool from 12th to 15th, afterwards *nil*; vapour in air slightly in excess of normal; abnormal wind northerly on 12th and 15th, easterly on 13th and 14th, westerly on 16th and southerly on 17th and 18th; thunder on 14th and lightning on 14th and 15th. |
| Poona ... | Rain throughout the district; maximum in Junnar, 4·63; minimum in Purandhar, ·92. | Sowing nearly completed. Prospects slightly improved in the eastern division by the recent rain, although scarcity of fodder is still felt. Cholera in seven talukas, 375 cases, 181 deaths; cattle free from disease. Price of *bajri* 27 and *juari* 38; in Poona *bajri* 28 and *juari* 35 pounds per rupee. |
| Ahmednagar ... | Rain in all talukas; maximum in Kopargaon, 2·96; minimum in Newasa, ·82. | Sowing of *kharif*, though late, will be resumed in Rahuri, Kopargaon, Newasa, and Sangamner, owing to the present good rainfall which has been beneficial to the crops already sown throughout the district; crops are generally good, but more rain much wanted in Newasa and Nagar; want of fodder is still felt in Parner Kopargaon, Sangamner and in Deohi, portion of Akola. Cattle-disease in Newasa and Sangamner; cholera in seven talukas, 122 attacks, 56 deaths. *Bajri* from 33 to 42 and *juari* from 42 to 60 pounds per rupee. |
| Sholapur ... | 1·31; Barsi, 1·44; Madha, ·26; Karmala, 2·01; Pandharpur, ·17; none elsewhere. | *Kharif* crops in the Sholapur and Barsi talukas and in the State of Akolkot doing well, elsewhere very little *kharif* crop has been sown. Good rain fall in Karmala, more rain urgently needed in four talukas, where water-supply is failing; green grass has not sprung up generally, and stock of fodder is getting low, there are as yet no signs of distress. *Juari* 45 pounds 31 tolas and *bajri* 30 pounds 7 tolas per rupee. Cholera 251 cases, 95 deaths. |
| Dharwar ... | Hangal, 3·64; Dharwar and Mugud, 3·53; Kalghatgi, 2·38; Hubli, 2·20; Kod, 2·08; Bankapur, 1·65; Karajgi, 1·47; Ranibennur, 1·36; Navalgund, ·72; Nargund, ·50; Gadag and Ron, ·40; Mundargi, ·08. | More rain required specially in Navalgund, Gadag, and Ron talukas, in parts of which sowing of *juari* is retarded. Rainfall of the week has done immense good to the standing crops; rice crops and young *juari* plants good. Slight cholera in five talukas. Prices—*juari* 44 and rice 27 pounds per rupee. |
| Kanara ... | Karwar, 10·15; Kumpta, 11·04; Sirsi, 7·78; Haliyal, 5·21. | Crops good. Fever and small-pox in four talukas; cattle-disease in one. Common rice at Karwar 13½ seers, district average 14 seers per rupee. |
| Rajkot ... | 3·06 | Total rainfall 21·15. Fever and bowel-complaints prevalent; 8 cholera cases at Shahpur under Morvi on 8th and 9th, 4 proved fatal. *Bajri* 32 and *juari* 44 pounds per rupee. |
| | | *General Remarks.*—Good rain throughout the Presidency. General prospects greatly improved. More rain urgently wanted in parts of Sholapur and Bijapur. Crops injured by insects in parts of Karachi, Hyderabad, and Upper Sind Frontier; scarcity of fodder in parts of Nasik, Poona, Ahmednagar, Sholapur, and Bijapur, and of water in parts of Sholapur. Cholera in parts of eighteen, fever in parts of nine, cattle-disease in parts of seven, and small-pox in parts of three districts. |
| **Bengal—(Aug. 19th)** | | |
| Chittagong ... | 1·20 | Weather cloudy, with occasional rain. Transplanting of *amun* rice continues. Prospects continue fair. Prices somewhat high. Public health good. |
| Dacca ... | 1·75 | Prospects of crops good; early rice and jute being harvested. Public health good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| 24-Pergunnahs (Calcutta) | 1·93 | Early crops doing well; prospects of *amun* fair; transplanting going on, but more rain required in places. Common rice 12½ to 14 seers per rupee. Public health generally good. |
| Moorshedabad ... | 4·15 | Weather seasonable. Prospects of *amun* rice now fairly good; transplanting in rapid progress; early rice will be a good crop, but in *dearah* and low lands it has been greatly injured, if not destroyed by high flood of the Padma. Common rice 11 to 13 seers per rupee. Public health fair. |
| Burdwan ... | 1·18 | Prospects of crops good. Rice 11¾ to 14½ seers per rupee. General health good. |
| Rungpore ... | 1·68 | Weather cloudy. Prospects of crops good; harvesting of *aus* and transplanting of *amun* still going on; cutting of jute commenced. Seasonal malarious fever and bowel-complaints prevalent. Prices stationary. |
| Bhagalpur ... | ·39 | Great damage done to *jenera* crop by floods in Sadar subdivision and some damage in Banka by excessive rain; otherwise prospects in south very good; more rain wanted for transplanting in north. Much cholera in Banka and in thanas Sultangunge and Colgong. |
| Purneah ... | ·84 | Crops promise well; but more rain required for late rice; transplanting in fair progress. Common rice 14 seers per rupee. Public health fair. Ganges in flood. |
| Patna ... | ·31 | *Bhadoi* crops promising well; transplanting of paddy seedlings going on. Cholera in Barh and Behar subdivisions; small-pox in thana Bickrum and Hilsa. |
| Durbhunga ... | 1·62 | Prospects of *bhadoi* very promising; transplanting of paddy still going on. Prices stationary. Public health generally good. |
| Hazaribagh ... | 2·53 | Weather seasonable; sufficient rain everywhere, except in two thanas. *Bhadoi* slightly damaged by too much rain; transplanting completed and the rice generally promises well. Prices steady. Cholera very prevalent; small-pox reported from a few villages. |
| Cuttack ... | 3·92 | Weather cloudy. Early rice ripening and in some places being cut with fair outturn, late rice being harrowed. Rice 15 seers per rupee. Cholera reported from all sides, otherwise public health good. |
| Midnapur ... | 3·43 | Ghatal and Tamlook subdivisions have suffered much by flood, elsewhere prospects fair. |
| Kulna ... | 2·81 | Weather cloudy and rainy. Early paddy ripening; transplanting of *amun* paddy progresses favourably. Price of rice high. Public health good. |
| Dinagepore ... | 1·28 | Rain light, but general. Early rice being harvested; late rice doing well; other crops satisfactory. Rice 14 seers per rupee. Cattle-disease in extreme north and south; cholera in villages in south-east. |
| Pubna (Serajganj) ... | 2·61 | Weather cloudy; more rain expected, but not wanted now. Crops doing very well. Rivers have risen again. Public health good. |
| Gya ... | 2·0 | *Bhadoi* slightly damaged by rain; prospects otherwise favourable. Prices still high. Cholera and fever still prevalent. |
| Chumparun ... | 1·17 | Prospects of *bhadoi* and *aghani* crops favourable. Some damage has been done by floods. Prices stationary. Cholera prevails in all epidemic form in Motihari town. |
| | | *General Remarks.*—Rain has been fairly general in all districts, more rain is wanted in some districts. Early crops are generally doing well, but in some places in Behar and the Burdwan divisions and in Moorshedabad, they have suffered from floods; *aus* rice harvest is progressing, with prospect of a fair average outturn; transplanting of *amun* rice still proceeding. Price of rice continues high. General health not so satisfactory as before; fever and cholera being prevalent in many places. |
| **N. W. Provinces and Oudh—(Aug. 20th)** | | |
| Benares (Aug. 18th) | 1·3 | Prospects good. Markets steady. No sickness; condition of cattle good. |
| Gorakhpore ( „ 17th) | Rain in earlier part of the week. | Weather latterly fine. Crops promising. Prices falling. Cholera unabated in south. |
| Fyzabad ( „ 18th) | *Nil* | Prospects of *kharif* crops good; weeding going on. Public health good; condition of cattle fair. |
| Lucknow ( „ 17th) | *Nil* | Fair weather since the last four days. State of crops good; *bajri*, *moth*, and *mash* are being sown; supplies ample. Prices stationary. Cholera has appeared in the city and suburbs; health of cattle good. |
| Rae Bareli ( „ „ ) | Rain during the week at Sadar, about 3·0. | Weather cloudy. *Kharif* prospects good. Prices steady. General health fair. |
| Partabgarh ( „ 18th) | *Nil* | A break in the rains throughout the district. *Bajri* and *mash* sown; *chaumasa* land under preparation for *rabi*; prospects good. |
| Allahabad ( „ „ ) | Rainfall in Doab and trans-Ganges averaging ·70 and none in trans-Jumna. | Crops good. Markets fully supplied. Prices stationary. Health fair; cholera increasing slightly; condition of cattle generally good. |
| Cawnpore ( „ 17th) | Good and general rain during the week. | Break in rain has facilitated the weeding of the young crops and completion of the *bajri* sowings; cotton and *til* on low ground slightly injured by heavy rains. The usual autumnal fever is generally prevalent; cattle-disease in three pargunas. |
| Banda ( „ 18th) | Slight rain during the week. | *Kharif* crops flourishing. Prices easy. Cholera again appeared in one village of pargana Khamashin; cattle-disease in one village. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Ballia (Aug. 18th) | 4·8 (average) | Crops, except on riparian lands, promising; supplies ample. 134 deaths from epidemic cholera. |
| Farakhabad ( „ „ ) | General rain during the week, averaging 1·0. | Prospects good, but crops on low lands have suffered from floods. Prices stationary, excepting a slight rise in Farakhabad. Fever reported in all tahsils; and a few cases of cholera. |
| Sitapur ( „ „ ) | Heavy rain fell throughout the district during the first two days of the week. | A beneficial break has since set in, and people are at work in their fields again. No sickness reported. |
| Bareilly ( „ „ ) | Rain holding up | Crops coming on well. Market steady. Public health good; cattle-disease almost disappeared. |
| Kumaon ( „ 17th) | *Nil* | Heavy rain to 12th; since a break. Crops much improved. Prices rising slightly. Cattle-disease continues; health fair. |
| Agra ( „ „ ) | Good rain all over | Crops generally good, but clear weather necessary. Prices falling slightly. Slight cholera. |
| Jhansi ( „ „ ) | Heavy rain | A break very acceptable. Damage to crops in *mar* soil apprehended; weeding in *patro* soil in active progress. Public health good. |
| Meerut ( „ 18th) | Rain all over the district. | Some damage done to crops on low lands, elsewhere crops flourishing; ploughing has been stopped by heavy rains. Fall in price of *juari*; price of other grains stationary. Health fair. |
| | | *General Remarks.*—Rain has been pretty general during the week, and a break is now needed. Prospects are good, though some damage has been caused to cotton, indigo, and crops on low lands. Markets well supplied, and prices generally steady. Public health fair; cases of cholera reported from a few districts. |
| **Punjab—(Aug. 19th)** | | |
| Hissar (Aug. 18th) | 4·20 at Sadar | Heavy fall in Hansi and Bhiwani tahsils. Health fair. *Kharif* flourishing. Prices falling. |
| Delhi ( „ „ ) | 4·90 | Health fair. *Kharif* prospects favourable. Prices fluctuating. |
| Umballa ( „ „ ) | 1·60 | Health good. *Kharif* crops flourishing; prospects good. Prices stationary. |
| Jullundur ( „ „ ) | ·50 | More wanted. Health good. Crops suffering. Prices stationary. |
| Ferozepore ( „ „ ) | 2·10 at Moga; slight falls at Ferozepore, Muktsar, and Zira. | More wanted. Health good. *Kharif* prospects improved. Prices rising. |
| Amritsar ( „ „ ) | 1·20 | Health and crops good. Prices stationary. |
| Sialkot ( „ „ ) | 1·0 | Health good. Crop prospects improved. Prices rising. |
| Lahore ( „ „ ) | *Nil* | Rain much wanted. Health good. *Kharif* sowings nearly finished. Prices stationary. |
| Mooltan ( „ „ ) | 3·20 | Health good. *Kharif* prospects favourable. Slight rise in prices. |
| Rawalpindi ( „ „ ) | 4·0 | Health and *kharif* prospects good. Prices rising. |
| Shahpur ( „ „ ) | Rain throughout the district. | More much needed. Health good. Prices almost stationary. |
| Dera Ismail Khan ( „ „ ) | 4·5 | Health good. Prices stationary. |
| Peshawar ( „ „ ) | 1·70 | *Kharif* prospects good. Prices falling. |
| | | *General Remarks.*—Good rain throughout the province, with the exception of the Lahore district. Health good *Kharif* prospects generally favourable. Prices falling in the Delhi and Peshawar districts, rising in the Ferozepore, Sialkot, Mooltan and Rawalpindi districts, and generally stationary elsewhere. |
| **Central Provinces—(August 19th)** | | |
| Nagpur ... | 3·95 | Weather showery. Crops in good condition; weeding continues. Small-pox and cattle-disease in parts. Prices steady. |
| Jubbulpore ... | 1·84 | Weather seasonable. Crops in good condition. 73 cases of cholera, 49 deaths. Wheat 22 and rice 14 seers per rupee. |
| Saugor (Aug. 18th) ... | ·83 | Crops favourable; weeding in hand. Health fair. Prices steady. |
| Seoni ... | 2·58 | Alternate sunshine and heavy rain. Transplanting of rice continues. Slight cholera. Prices steady. |
| Hoshangabad ... | 1·71 | Weather rainy. Prospects of crops fair; weeding continues. Fever in Seoni tahsil. Prices stationary. |
| Khandwa ... | ·82 | Weather cloudy and close. Prospects good; slight cholera. Wheat 17, rice 11, and *juari* 26 seers per rupee. |
| Raipur ... | 4·13 | Weather cloudy, with heavy showers. Crops doing well; *rabi* preparations commenced. 760 cases of cholera, 577 deaths. Prices slightly fallen. |
| | | *General Remarks.*—Weather alternately clear and wet. Weeding continues; prospects of crops favourable. Cholera in Raipur, elsewhere health generally good. Prices steady. |
| **British Burma—(August 19th)** | | |
| Akyab (Aug. 15th) | 3·68 | Total rainfall 124·58. Slight cholera in two circles; slight cattle-disease in town and in one township. Sowing continues. |
| Rangoon ( „ „ ) | 6·78 | Total rainfall 59·89. Public health good; cattle healthy. |
| Bassein ( „ „ ) | 6·65 | Total rainfall 65·09. Sporadic cholera in three townships; cattle-disease prevalent in one subdivision. Seedlings in good condition. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **British Burma**—*contd.* | | |
| Amherst (Moulmein) (Aug. 15th) | 9·08 | Total rainfall 131·17. Public health good; cattle healthy. Transplanting progressing. |
| Toungoo ( „ „ ) | 0·80 | Total rainfall 55·65. Public health good; cattle healthy. Ploughing and sowing progressing. |
| Pegu ( „ „ ) | 6·86 | Total rainfall 76·67. Public health good; cattle healthy. Ploughing and sowing well forward. |
| Prome ( „ „ ) | 0·93 | Total rainfall 21·06. Cholera prevalent in town and district; health of cattle fair. Transplanting progressing. Rain required. |
| Henzada ( „ „ ) | 5·62 | Total rainfall 56·95. Public health good; slight cattle-disease in one township. Transplanting half completed. |
| Thayetmyo ( „ „ ) | 0·16 | Total rainfall 18·59. Slight cholera in one subdivision; cattle healthy. Ploughing half completed. |
| Tavoy ( „ „ ) | 13·42 | Total rainfall 149·0. Public health good; cattle healthy. General appearance of crops good. |
| | | *General Remarks.*—Cholera prevalent in one district, slight in four districts; small-pox slight in one district, elsewhere public health good; cattle-disease somewhat prevalent in one district, slight in three districts, elsewhere health of cattle good. Ploughing, sowing, and transplanting progressing. Rains seasonable in all districts, except Prome where more rain is required. |
| **Assam—(Aug. 19th)** | | |
| Gauhati ... | ·48 of rain during the week ending the 18th instant. | Weather hot. Public health fair; cattle-disease still reported from some mauzahs. Transplanting of *sali* in progress; prospects of all crops good; sugarcane and tea doing well. |
| Sylhet ... | 3·95 | Prospects of standing crops good; rain much wanted for the paddy on high land. Public health generally good; sporadic cases of small-pox reported from South Sylhet. |
| Cachar ... | 4·84 | Weather warm. Reaping of *dumahi* and *murali* crops nearly finished; transplanting of *sali* crops in progress. Common rice 16 seers per rupee. Prospects of tea good. Health good. |
| Dibrugarh ... | 2·39 | Weather seasonable. Transplanting of *sali dhan* continues; prospects of tea good. Fever prevalent and cattle-disease prevail. |
| **Mysore and Coorg—(Aug. 19th)** | | |
| Bangalore ... | [illegible] | [illegible] |
| Mysore ... | 19·21 | Crops in good condition. Price of foodgrains has slightly risen. Prospects of season and public health good. |
| Mercara ... | | |
| **Berar and Hyderabad—(Aug. 19th)** | | |
| Amraoti ... | 1·91 | Weather cloudy. Crops in good condition. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | 2·92 | Weather cloudy. Crops progressing favourably. |
| Hyderabad ... | 3·59 average rainfall during the week. | Rain very beneficial to standing crops. *Abi* sowings progressing. Cholera still prevails in the city and suburbs and at Seram, but general health in the districts good. Prices—wheat 14¼, coarse rice 19¼, white *juari* 19½, yellow *juari* 22½, and *tur* 15¼ seers per current silver rupee. |
| **Central India States—(August 19th)** | | |
| Indore ... | 4·11 | Total rainfall 20·2. Weather cloudy, with frequent rain. |
| Morar (Gwalior) ... | ·64 | Total rainfall 19·97. Health and prospects good. |
| Sutna ... | ·40 | No cases of cholera at Rewah. Prospects of crops good. |
| Neemuch ... | 3·28 | Total rainfall 18·7. A break in rains desirable. Health good. Prices stationary. |
| Goona ... | ·62 | Partial break in the rains. Health good. |
| Agar ... | ·50 | Health and prospects good. |
| Sehore ... | ·73 | Weather very hot, with thunderstorms and occasional showers. 15 deaths from cholera in Sewri, 2 or 3 deaths daily in Bhopal. Prospects of crops unfavourable. |
| Nowgong ... | 3·1 | Total rainfall 29·97. Weather cloudy. Prices stationary. Health good. |
| Manpur (Bhopawar) ... | ·40 | Total rainfall 21·15. Health and crops good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Rajputana—(August 19th)** | | |
| Abu (Aug. 19th) | 3·90 | Heavy clouds and thunder; weather warm and close; steady rain begun. |
| Sirohi ( „ 16th) | ·65 | Tanks full; wells and health good. Crops good. Weather cloudy and cool. |
| Marwar ( „ 14th) | Jodhpore, 2·18 | City tanks almost full. Small-pox prevails. Crops thriving. Weather cloudy and oppressively warm. Prospects bright. Prices stationary. |
| Meywar ( „ 15th) | 2·35 | Tanks and wells rising. Crops prospects good. Health good. Price low. Weather close and heavy storms. |
| Harowti ( „ „ ) | Deoli, 2·20; Tonk, ·23; Shahpura, *nil*; rain in previous week in Kotah, 2·40. | Weather seasonable. Crops thriving. Slight cholera in Tonk. Prices fallen. |
| Jhallawar ( „ 14th) | ·56 | Total rainfall 38·82. Wells and tanks full. Prospects good. |
| Ajmere ( „ 18th) | ·20 | Break in weather. Few stray cases of cholera in city. |
| Jeypore ( „ „ ) | ·42 | Strong easterly winds. Prospects favourable. Health fair. |
| Kerowlee ( „ 15th) | 2·13 | Tanks and wells full. Health good. Prices falling. Heat moderate. |
| Dholepore ( „ 13th) | 1·33 | Tanks and wells full. Crop prospects good. Health good. Prices steady. Health moderate. |
| Bhurtpore ( „ 18th) | 3·02 | Tanks and wells full. Crops germinating. Health good. Prices steady. Weather overcast and cloudy. |
| Ulwar ( „ „ ) | ·50 (average) | *Rabi* preparations commenced. Prices falling. Health and prospects good. |
| Bickaneer ( „ 15th) | ·31 | Tanks and wells low. Prospects fair. More rain wanted. Health good. Prices rising at Bickaneer. Weather cloudy. |
| Kherwara ( „ 17th) | 2·63 | Tanks and wells falling. Crops very promising. Health good. Prices low. Weather seasonable. |
| Pertabgurh ( „ 15th) | 3·65 | Tanks and wells full. Crops and health good. Prices low. Weather occasionally clear. |
| **Nepal—(Aug. 19th)** | | |
| **Khatmandu (Aug. 13th)** | **4·75** | **Prospects good. Cholera continues.** |

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 26th AUGUST 1885.

GENERAL REMARKS.—Except in Malabar and Travancore, the rainfall during the past week in the Madras Presidency has been very slight. In Bellary heavy rain is urgently wanted for the dry crops, which are generally withering and are in a critical condition. More rain is also wanted in Ganjam, Kistna, Coimbatore, Tanjore, and Madura. In Mysore little or no rain has fallen since the date of the last report. The young dry crops are reported to be withering, and agricultural operations have been retarded. Prospects are unsatisfactory in Tumkur, Kolar, Kadur, Shimoga, and Mysore.

Good rain has fallen in most districts of the Bombay Presidency, but in Nasik, Poona, Ahmednagar, Sholapur, and Dharwar more is needed. In Sholapur especially the situation is unsatisfactory; very little *kharif* is sown, and the season is now over. Fodder is scarce in several districts. In the Berars and in the Nizam's Territories the season is favourable and crop prospects are good. Rain has fallen throughout the Central India and Rajputana States, and agricultural prospects are on the whole very satisfactory.

In the Central Provinces the weather continues favourable for the crops, which are progressing satisfactorily. A break is much needed in Saugor and Hoshangabad. Except in two districts, rain has been general in the Punjab, and *kharif* prospects are favourable. Heavy rain has fallen in many districts in the North-Western Provinces and Oudh, causing injury to crops on low lands. Agricultural prospects are fair.

Rain has been general throughout Bengal, but excessive in Moorshedabad, Burdwan, Hazaribagh, and Midnapur. Considerable injury has been done to both *aus* and *amun* crops in Burdwan, and to the *bhadoi* crops in Moorshedabad and in parts of Behar. Elsewhere agricultural prospects are favourable, and the *aus* harvest is yielding a fair outturn. The weather is seasonable in Assam, but in Sylhet more rain is wanted. Transplanting of *sali* crops continues.

Heavy rain is reported from British Burma, where ploughing and transplanting continue.

Cholera is chiefly prevalent in the Madras and Bombay Presidencies and in Raipur in the Central Provinces. Elsewhere the public health is generally fair.

Prices are generally steady, except in the Punjab, where they are fluctuating.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Aug. 26th)** | | |
| Bellary ... | ·09 (average) | Heavy rain urgently wanted. Dry crops generally withering. Caterpillars prevailing in some villages of Hospet. Wet crops moderately good, except in Hadsjalli and parts of Harpanhalli; harvest paddy in one taluk, outturn average. 28 deaths from cholera. |
| Kurnool ... | ·12 ( „ ) | Standing crops good. Small-pox and cattle-disease in two taluks; 2 deaths from cholera. |
| Ganjam ... | Last week, average 2·35; this week 1·44. | More rain much wanted. Cattle-disease in Berhampore taluk; 267 deaths from cholera. |
| Kistna ... | ·04 (average) | More rain wanted. River 11·85 feet over anicut. Paddy transplanted and dry crops sown. Fever and small-pox in parts; 44 deaths from cholera unreported last week, 33 this week. |
| Chingleput (Madras) ... | ·57 ( „ ) | Standing crops good; harvest paddy, *ragi*, and *cumboo* in one taluk, outturn below average. Rinderpest in Conjeeveram. |
| Coimbatore ... | ·19 ( „ ) | Standing crops generally good, but want rain in parts; harvest dry grains, outturn about average. Fever, small-pox, and cattle-disease in parts; 6 deaths from cholera. |
| Tanjore ... | ·59 ( „ ) | Dry crops in critical condition for want of rain; harvest *cholum*, outturn average. 21 deaths from cholera. |
| Madura ... | Last week, average ·07; this week, ·16. | Fever prevalent. |
| Malabar ... | 4·80 (average) | Standing crops fair. Small-pox in six taluks; fever and cattle-disease in two; 10 deaths from cholera. |
| Travancore ... | 1·02 ( „ ) | Harvest paddy in parts. Fever prevalent. |
| | | *General Remarks.*—General prospects fair, improved in Bellary and Anantapur; crops are in very critical condition and in some villages already past revival; in Madura and Coimbatore reported to be discouraging. |
| **Bombay—(Aug. 26th)** | | |
| Karachi ... | Rain in last week throughout the district; 3·75 in Mirpur Sakro; average of three other stations, 1·26. | River at Kotri on 24th, 19 feet against 18 feet 8 inches on same date last year. Damage to *kharif* crops at Sakro by *toran* and at Mirpur Botoro by rats and blight. Fever in four and cattle-disease in one taluka; cholera cases in the Karachi city 2 deaths, 21 cases; in districts 4 cases, 3 deaths. Prices—wheat, red rice, and *bajri* in Karachi 26, 34 and 32; in Sakro *nil*, 38 and 48; in Mirpur Botoro 24, 46 and 42; and in Jati 32, 40 and 36 pounds per rupee respectively. |
| Hyderabad ... | Average fall, 1·73 | *Kharif* cultivation good. River at Kotri on 24th, 19 feet against 18 feet 8 inches on same date last year. Fever in three, small-pox in one, and cattle-disease in two talukas; cholera reappeared in Naushahro taluka on 12th and ceased on 19th, 13 cases, 9 deaths. Prices—wheat 28, *juari* 42, *bajri* 40, white rice 20, and red rice 30 pounds per rupee. |
| Ahmedabad ... | 3·89 | Total rainfall 21·28. Young crops healthy; cotton crops slightly damaged by excessive rain in Dhanduka and Dholka. Cholera in the city, 20 cases, 8 fatal; in Dholka, 12 cases, 4 fatal. Wheat 39 and *bajri* 32 pounds per rupee. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay**—*contd.* | | |
| Baroda ... | 4·86 | Total rainfall 20·80. Cholera almost disappeared in Baroda city Young plants in good condition and transplantation of rice in progress. Prices—*bajri* 27, wheat 27, and rice 24 pounds per current sicca rupee. |
| Surat ... | Rain in all talukas; maximum in Jallalpur, 12·96; minimum in Surat, 1·30. | Sowing and transplantation completed; cotton and *juari* crops injured in places by excessive moisture; rice crops healthy. Cattle healthy cholera in Jallalpur taluka, 3 cases, 1 death. *Juari* 36 and *nagli* 43 pounds per rupee. |
| Nasik ... | Nasik, 1·52; Sinnar, 2·63; Igatpuri, 17·77; Dindori, 3·61; Niphad, 1·30; Chandor, 1·78; Yeola, ·50; Nandgaon, ·45; Malegaon, ·15; Baglan, ·48; Kalwan, 1·62; Punt, 14·03. | More wanted in Niphad, Yeola, and Malegaon. Transplantation of rice, *nagli*, and *vari* nearly completed in Igatpuri, Punt, and Dangi villages of Nasik and Kalwan; crops healthy; sowing of *kharif* nearly completed and recommenced in Niphad, eastern part of Chandor and Sinnar in Yeola, Malegaon, and Nandgaon; want of fodder is still felt in Deohi talukas. Cholera in Nasik, Sinnar, Dindori, Niphad, Chandor, and Nandgaon; total attacks 199, deaths 90; fever in a few villages of Sinnar and Nandgaon. Wheat 33, *bajri* 29½, and rice 22½ pounds per rupee. |
| Colaba (Bombay) ... | Rain every day; total of week, 3·26. | Total rainfall to date 51·68, being 4·78 below average. Average abnormal temperature *nil*; vapour in air slightly in excess of normal; abnormal wind southerly. |
| Poona ... | Rain in five talukas, maximum in Maval, 4·88; minimum in Sirur, ·18 | More rain wanted in eastern division. Cattle free from disease; cholera in seven talukas, 283 cases, 147 deaths. Prices of *bajri* 29 and *juari* 37; in Poona *bajri* 38 and *juari* 33 pounds per rupee. |
| Ahmednagar ... | Akola, 1·63; Sangamner, 1·24; Kopargaon, 1·0; Parner, ·39; Newasa, ·23; Nagar, ·13; Rahuri, ·10; Sheogaon, ·06; Shrigonda, ·03; Karjat and Jamkhed, *nil*. | Sowing of *kharif* in progress in Rahuri, Kopargaon, Newasa, and Sangamner, completed in the remaining talukas, crops so far in fair condition; more rain wanted for *rabi* sowing; want of fodder still felt in Kopargaon, Sangamner, and Deohi, portion of Akola. Cattle-disease in Newasa and Sangamner; cholera—15 attacks, 4 deaths in Nagar; 9 attacks, 4 deaths in Sheogaon; 26 attacks, 15 deaths in Newasa; 12 attacks, 5 deaths in Kopargaon; 3 attacks, 22 deaths in Sangamner; 12 attacks, 1 death in Karjat; and 2 attacks in Jamkhed. *Bajri* from 33 to 43 and *juari* from 42 to 60 pounds per rupee. |
| Sholapur ... | Barsi, ·14; Madha, ·25; Karmala, ·46; none elsewhere in the Barsi and Sholapur talukas. | *Kharif* crops showing signs of withering for want of rain, except in the State of Akalkot, where they are doing well; very little *kharif* has been sown in the other parts of the districts, and the *kharif* sowing season is now over. Cattle are being brought for sale at a reduced price. Fodder is rising in price. *Juari* 14 pounds 32 tolas and *bajri* 30 pounds 1 tola per rupee. Cholera 201 cases, 96 deaths. |
| Dharwar ... | Haugal, 2·04; Mugud, 1·57; Kalghatgi, 1·23; Bankapur, 1·01; Hubli, ·76; Dharwar, Karajgi, and Kod, nearly ·60; Ramibennur, ·45; Gadag, ·07; Navalgund, Nargund, Mundargi, and Ron, *nil*. | More rain generally required. Most of the land in Navalgund, Gadag, and Ron talukas was not sown with early crops, owing to deficient rainfall, and wherever sown, the young plants are suffering from drought; sowing of cotton commenced in Hubli and Karajgi talukas; rice crops are good. Slight cholera in six talukas. Prices—*juari* 44 and rice 25 pounds per rupee. |
| Kanara ... | Karwar, 2·80; Kumpta, 6·67; Sirsi, 11·62; Haliyal, 2·43. | Crops good. Fever and small-pox decreasing; cattle-disease in Sirsi taluka. Common rice at Karwar 13½ seers, district average 14½ seers per rupee. |
| Rajkot ... | 6·10 | Total rainfall 27·25. Weather cloudy. Fever and bowel-complaints prevalent. *Bajri* 32 and *juari* 45 pounds per rupee. |
| | | *General Remarks.*—Good rain in most districts, more wanted in parts of the Deccan and Southern Mahratta Country, especially in Sholapur. Crops withering for want of rain in two talukas of Sholapur and injured by excessive rain in parts of Gujarat and by insects in parts of Karachi and Upper Sind Frontier; fodder scarce in parts of Khandesh, Sholapur, Ahmednagar, Nasik, Bijapur, and Belgaum. Cholera general; fever and cattle-disease in parts of eight, and small-pox in parts of three districts. |
| **Bengal—(Aug. 26th)** | | |
| Chittagong ... | 14·31; heavy rain throughout the week. | Prospects of crops fair; transplanting still continues. Prices steady. General health good; cattle-disease has appeared. |
| Dacca ... | 5·31 | Prospects of crops good; early rice and jute being harvested. Public health generally good. |
| 24-Pergunnahs (Calcutta) | 15·22 | Prospects of both early and *amun* crops look satisfactory; transplanting of *amun* going on. Common rice 12 to 14 seers per rupee. Fever prevalent in places; public health generally good. |
| Moorshedabad ... | 3·14 | Weather seasonable. Prospects of *amun* good; considerable damage done to *aus* by floods; large areas having been entirely submerged. Common rice 11½ to 13 seers per rupee. Public health good. |
| Burdwan ... | 8·79 | Very heavy rain throughout the district. Damage done to *aus* and *amun* crops by inundation, extent not yet known. Price of rice 11 to 14 seers per rupee. |
| Rungpore ... | 1·24 | Weather seasonable. Prospects of crops good; harvesting of *aus* and jute and transplanting of *amun* still going on. Malarious fever and bowel-complaints still prevalent. Price of food-grains stationary. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| Bhagalpur ... | 5·79 | Prospects of crops good. Price of rice 12½ seers per rupee. Cholera in south decreasing. |
| Purneah ... | 1·42 | More rain required. *Bhadoi* crops good; transplanting progressing where possible. Price of common rice 14 seers per rupee. Public health fair. Ganges still very high. |
| Patna ... | 4·12 | Transplanting of paddy going on; *bhadoi* crops promising. A few cases of cholera reported from Barh and Behar subdivisions. |
| Durbhunga ... | 2·72 | Prospects of *bhadoi* continue very favourable; transplanting of paddy still going on. Prices stationary. Public health generally good. |
| Hazaribagh ... | 3·41 | Weather seasonable. Heavy rain in all parts of the district and *bhadoi* injured in places; transplanting nearly completed and crops everywhere promise well. Cholera still very prevalent in several places and small-pox reported from a few villages. |
| Cuttack ... | 7·3 | Weather cloudy. Early rice being cut and promises well, late rice doing well. Common rice 10 to 12 seers per rupee. In town cholera subsiding. |
| Midnapur ... | 10·73 | Extensive floods in many parts of the district; damage cannot be estimated at present. Public health fair, but fever beginning to prevail. |
| Khoolna ... | 5·43 | Incessant rain. Prospects of *aus* and *amun* paddy good; *aus* ripening and ploughing and transplanting of *amun* progressing favourably. Price of rice high. Public health fair; some fever; cattle-disease in one station. |
| Dinagepore ... | 2·55 | General but light rain. Early crops being harvested, with good outturn; *amun* doing well. Price of rice 14½ seers per rupee. General health good; cattle-disease in one thana. |
| Pubna (Serajganj) ... | *Nil* | Weather gusty and showery. Rivers rose but are falling. Very heavy crop of *aus* being harvestd; jute good; *amun* promises excellently. Fever in Serajgunge; general health in mufassal good. Price of rice easier. |
| Gya ... | 4·20 | Crop reports favourable. Health fair. Prices stationary. |
| Chumparun ... | 1 94 | Prospects of crops favourable. Prices stationary. Cholera still reported from Motihari and Betteah towns and from thanas Dhaka Madhoban and Kessarya. |
| | | *General Remarks.*—Rain has been general throughout the province, but excessive in some parts. In places in the Burdwan division floods are doing considerable injury to both *aus* and *amun* crops; much damage has also been caused by floods to *bhadoi* crops in Murshedabad, and on low Dearah lands, and in parts of Behar; elsewhere agricultural prospects are favourable; *aus* harvest is promising and is yielding a fair outturn; transplanting is still progressing in Behar. Price of rice continues high. Public health generally fair. |
| **N. W. Provinces and Oudh—(Aug. 27th)** | | |
| Benares (Aug. 25th) | 3·5 | Crops flourishing. Markets steady. Slight fever; no cattle-disease. |
| Gorakhpore ( „ 24th) | Some rain everywhere, but not very heavy falls. | Crops promising. Prices falling slightly. Cholera extending in the north. |
| Fyzabad ( „ 25th) | 3·6 at Sadar during the week. | Prospects good; *mothi* and *mash* are being sown. Prices stationary. Cholera has appeared in parganas Tanda and Birhar. |
| Lucknow ( „ 24th) | Rain almost every day | State of crops fair; sowing of *hewat* crops in progress; supplies sufficient. Prices steady. Cholera in the city and suburbs; health of cattle good. |
| Rae Bareli ( „ „ ) | Heavy rain throughout the district. | Break needed. Prospects of *kharif* crops good. Markets well supplied. Prices steady. |
| Partabgarh ( „ 25th) | About 3·0 | *Juari* and *mash* somewhat injured, but prospects generally good. Wheat, barley, and gram are cheaper. Prices stationary. |
| Allahabad ( „ „ ) | Heavy rains in all tahsils, average 4·5. | Crops in lowlying lands damaged, elsewhere flourishing. A break would be beneficial. Markets fully supplied. Prices steady. Sporadic cholera still continues, but shows little increase; health of cattle good. |
| Cawnpore ( „ 24th) | Rain throughout the district. | A break needed. *Kharif* crops in lowlying lands slightly damaged; indigo manufacture commenced. Markets well supplied. Prices steady. Fever continues; also slight cattle-disease. |
| Banda ( „ „ ) | Heavy and general rain. | *Kharif* crops commenced in parts by excessive rain. Prices steady. Cholera reported from Mau; cattle-disease in one village. |
| Ballia ( „ 25th) | 3·3 (average) | Prospects generally good. Markets full. 145 deaths from cholera. |
| Farakhabad ( „ „ ) | 7·0 average in three tahsils and 1·10 fell in about two days. | Rain has caused much destruction to *kutcha* houses; a break is urgently wanted for crops. Some fever and a few cases of cholera in district; several cases of cholera not of a bad type in Farakhabad. |
| Sitapur ( „ 26th) | Rain has been more or less continuous during the week. | Damage to *bajri* and *sawan* is reported. The low lands are heavily flooded, but health of people and cattle remains good. |
| Bareilly ( „ 25th) | Rain plentiful | Crops doing well. Markets well supplied. Prices slightly lower. Health of men and cattle good. |
| Kumaon ( „ 24th) | Heavy rain during the week, lighter in end. | Crops doing well. Prices unchanged. General health good; cattle-disease continues. |
| Agra ( „ „ ) | Very heavy rain throughout the district. | Cotton and indigo injured, also other crops on low lands. Prices steady. Cholera slight. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Jhansi (Aug. 24th) | *Nil* | Crops suffered from excessive rain. Prices slightly falling. Condition of men and cattle fair. |
| Meerut ( „ 25th) | *Nil* | Weather hot and damp. Crops generally good. Some damage from excessive rain; break wanted. Supplies ample. General health fair; no cholera reported during last four days. |
| Saharanpore ... | ..... | No report received. |
| | | *General Remarks.*—Heavy rain has fallen in many districts and caused injury to crops on low lands; prospects are, however, fair. Markets are well supplied, and prices generally steady. Cholera continues in several places, otherwise public health is good. |
| **Punjab—(Aug. 26th)** | | |
| Hissar (Aug. 25th) | ·20 | Health good. *Kharif* flourishing. Prices falling. |
| Delhi ( „ „ ) | 5·0; break desirable; considerable damage caused by floods. | Health fair. Prices fluctuating. |
| Umballa ( „ „ ) | ·70 | Health good. *Kharif* crops flourishing; prospects good. Prices almost stationary. |
| Jullundur ( „ „ ) | 3·10 | Health good. *Kharif* prospects much improved. Prices stationary. |
| Ferozepore ( „ „ ) | 1·50 at Sadar; 1·80 at city; ·30 at Zira; ·10 at Muktsar; more rain wanted. | Health good. *Kharif* prospects improved. Prices falling. |
| Amritsar ( „ „ ) | ·60 | Health and crops good. Prices stationary. |
| Sialkot ( „ „ ) | ·30; more wanted | Health good. Prices rising. |
| Lahore ( „ „ ) | 3·10; more wanted | Health good. Prices stationary. |
| Mooltan ( „ „ ) | ·70 | Health and crops good. Prices stationary. |
| Rawalpindi ( „ „ ) | 4·0 | Health and *kharif* prospects good. Prices stationary. |
| Shahpur ( „ „ ) | Rainfall general, but more still wanted in tahsils Bhera and Shahpur. | Health good. Prices rising. |
| Dera Ismail Khan ( „ „ ) | *Nil* | Health good. Prices stationary. |
| Peshawar ( „ „ ) | *Nil* | Fever increasing. *Kharif* prospects good. Prices stationary. |
| | | *General Remarks.*—Rainfall general, except in Dera Ismail Khan and Peshawar districts. Fever in the Peshawar district, elsewhere the health is good. *Kharif* prospects favourable. Prices of food-grains rising in the Sialkot and Shahpur districts, falling in Hissar and Ferozepore, and generally stationary elsewhere. |
| **Central Provinces—(August 26th)** | | |
| Nagpur ... | 2·0 | Weather cloudy and showery. Crops thriving. Fever prevalent; cattle-disease in Ramtek tahsil. Prices steady. |
| Jubbulpore ... | 2·79 | Light showers almost daily with intervals of sunshine; weather most favourable. Crops thriving; prospects good. Cholera continues. Prices stationary |
| Saugor (Aug. 26th) ... | 2·19 | Weather very wet, with strong winds. Crops progressing favourably. Clear weather urgently wanted. Health fair. Prices steady. |
| Seoni ... | 1·41 | Weather cloudy, with daily showers. Transplanting and weeding in progress. 10 cases of cholera; 4 deaths. Prices stationary. |
| Hoshangabad ... | 1·83 | Weather rainy and cloudy. Prospects of crops fair; weeding continues. Break wanted. Fever and cholera in parts. Prices stationary. |
| Khandwa ... | ·73 | Weather cloudy and showery. Prospects good. 25 cases of cholera, 14 fatal; health good. Prices steady. |
| Raipur ... | ·19 | Weather showery. Weeding progressing; prospects of crops good. 736 cases of cholera, 560 deaths. Wheat 31 and rice 25 seers per rupee. |
| Sambalpur (Aug. 22nd)... | 2·4 | Weather showery. Prospects good; transplanting of rice commenced. Health generally good. Prices unchanged. |
| | | *General Remarks.*—Except in Saugor, where a break is much needed, the weather has been very favourable for the crops; showers alternating with bright sunshine. Cholera continues severe in Raipur. |
| **British Burma—(August 26th)** | | |
| Akyab (Aug. 22nd) | 25·37 | Total rainfall 149·95. Slight cholera in two circles, slight cattle-disease in town and in one circle. Sowing nearly completed. |
| Bassein ( „ „ ) | 19·54 | Total rainfall 78·63. Sporadic cholera and cattle-disease of a fatal type in two townships. Transplanting nearly completed. |
| Rangoon ( „ „ ) | 7·27 | Total rainfall 67·16. Public health good; cattle healthy. |
| Amherst (Moulmein) ( „ „ ) | 14·08 | Total rainfall 145·26. Public health good; cattle healthy. Transplanting progressing. |
| Tavoy ( „ 26th) | 13·41 | Total rainfall to date 162·41. Public health good; cattle healthy. General appearance of crops good, except in low lands. |
| Pegu ( „ „ ) | 7·84 | Total rainfall 84·51. Public health good; slight cattle-disease. Transplanting progressing. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **British Burma**—*contd.* | | |
| Henzada (Aug. 26th) | 11·69 | Total rainfall to date 68·55. Public health good; cattle healthy. Transplanting nearly finished. |
| Prome ( „ „ ) | 1·13 | Total rainfall to date 22·19. Cholera slight in town, prevalent in district; cattle healthy. Ploughing backward in certain parts for want of rain. |
| Toungoo ( „ „ ) | 5·40 | Total rainfall 61·05. Public health good; cattle healthy. Ploughing and sowing progressing. |
| Thayetmyo ( „ „ ) | 3·58 | Total rainfall 22·44. Public health good; cattle healthy. Ploughing half completed. |
| | | *General Remarks.*—Cholera prevalent in one district, slight in three districts, elsewhere public health good; cattle-disease severe in two districts, slight in five districts, elsewhere health of cattle good. Ploughing and transplanting progressing. The rain has been exceedingly heavy in all districts, except Prome, and slight damage to crops from floods is reported in two districts. |
| **Assam—(Aug. 26th)** | | |
| Gauhati ... | 3·81 of rain during the week ending the 25th instant. | Weather hot. Public health fair; cattle-disease still reported from some mouzahs. Transplantation of *sali* in progress; prospects of all crops good; sugarcane and tea doing well. |
| Sylhet ... | 5·36 | State and prospects of crops fair. More rain wanted. Public health indifferent. |
| Cachar ... | 1·83 | Weather warm. Reaping of *dumahi* and *murali* crops not altogether finished; transplanting of *sali* crops continues. Common rice 16 seers per rupee. Tea doing well. Health good. |
| Dibrugarh ... | 1·40 | Weather seasonable. Transplantation of *sali dhan* continues; prospects of tea good. Fever and bowel-complaints prevalent. |
| **Mysore and Coorg—(Aug. 26th)** | | |
| Bangalore<br>Mysore | Either *nil* or insignificant. | Young dry crops reported to be withering; agricultural operations retarded and uneasiness prevalent; in Tumkur prospects reported as critical, in Kolar as uncertain, in Kadur low lands as unfavourable, in parts of Shimoga low lands rice crops need heavy rain; water and fodder becoming scanty. Cattle-disease continues in parts; condition of cattle poor; public health fair. Cholera appears to be abating. No material change in price. Reports generally more unfavourable than last week. |
| Mercara ... | 1·90 | Coffee and cardamom crops in good condition. Prices of food-grains slightly fallen. Prospects of season and public health good. |
| **Berar and Hyderabad—(Aug. 26th)** | | |
| Amraoti ... | ·36 | Weather cloudy. *Kharif* plants healthy; weeding operations continued. Wheat 22 and *juari* 36 seers per rupee. |
| Akola ... | 2·0 | Weather cloudy. Crops in good condition; weeding continued. |
| Hyderabad ... | ·38 (average) | *Abi* sowings concluded; weeding of *kharif* crops commenced. General health good. Prices—wheat 14¼, coarse rice 12¾, white *juari* 19½, yellow *juari* 22½, and *tur* 15½ seers per current sicca rupee. |
| **Central India States—(August 26th)** | | |
| Indore ... | 1·04 rain during the week. | Total rainfall 21·24. |
| Morar (Gwalior) ... | 8·42 | Total rainfall 28·37. Break is wanted. Health and prospects good. |
| Sutna ... | 3·16 | Cholera reported from several districts of the Rewah State. Prospects of crops good. |
| Neemuch ... | 1·69 | Total rainfall 20·39. Prices falling. Crops thriving. Weather clear. Health good. |
| Geena ... | 4·69 | Break much wanted. Health good. |
| Agar ... | 2·20 | Health and prospects good. |
| Sehore ... | [illegible] | Prospects of crops unfavourable; Cholera in Sehore city and cantonments, almost disappeared from Bhopal. |
| Nowgong ... | 3·65 | Total rainfall 33·62. Weather cloudy. Prices steady. Health good. |
| Manpur (Bhopawar) ... | Not received | Health and prospects good. |
| **Rajputana—(August 26th)** | | |
| Abu (Aug. 26th) | 11·05 | Total rainfall 34·56. Regular monsoon; weather very cloudy and windy, still raining. |
| Sirohi ( „ 23rd) | 3·56 | Tanks full; wells and health good. Crops doing well. Rain fell in sufficient quantity, but much later this year. |
| Marwar ( „ ) | ..... | No report received. |
| Kherwara ( „ 24th) | 5·48 | Tanks and wells nearly full. Crops satisfactory, but break required. Health good. Prices cheap. Weather very wet. |
| Pertabgurh ( „ 22nd) | 5·59 | Tanks and wells full. Crops good. Health good. Prices cheap. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Rajputana**—*contd.* | | |
| Meywar (Aug. 22nd) | 8·07 | Tanks full; wells filling. Crops slightly damaged through excessive rain. Health good. Prices low. Break required. |
| Harowti ( „ „ ) | Deoli, 1·76; Tonk, 2·45; Shahpura, 1·55; rain in previous week in Kotah, ·91. | Weather cloudy and rainy. Prospects good. Slight cholera in Tonk, elsewhere health good. |
| Jhallawar ( „ 21st) | 4·20 | Total rainfall 43·02. Break required. Prospects generally good. |
| Ajmere ( „ 25th) | 1·07 | Slight fever prevalent; health otherwise good. |
| Jeypore ( „ „ ) | 7·58 | Crop prospects favourable. Prices stationary. Health fair. |
| Kerowlee ... | ..... | No report received. |
| Bhurtpore (Aug. 25th) | 5·07 | Tanks and wells full. Weeding of young crops retarded by heavy rain. Health good. Prices steady. Weather rainy. |
| Dholepore ... | ..... | No report received. |
| Ulwar (Aug. 25th) | 2·38 (average) | Tanks and wells full. Crops healthy. Prospects good. Prices of gram and *bajri* falling and *juari* rising. |
| Bickaneer ( „ 22nd) | ·13 | Tanks and wells low. Prospects fair. Health good. Prices rising. Weather hot and cloudy. |
| **Nepal—(Aug. 26th)** | | |
| Khatmandu (Aug. 20th) | 2·26 | Weather cool. Prospects good. Cholera disappearing. |

E. C. BUCK,
*Secretary to the Government of India.*

GOVERNMENT OF INDIA.

N. B.—As regards the figures in column "*Total receipts from 1st April 1885 to date*," audited figures have been availed of as far as possible.

(a) Return not received.
(b) Total receipts from 1st April to 2nd August 1884.
(c) Total receipts from 1st April to 1st August 1885.
(d) Including Rewari-Ferozepore State Railway.
(e) Total receipts from 1st April to 25th July 1885.
(f) Total receipts from 2nd April to 2nd August 1884.
(g) Of this length 40·5 miles are opened for passenger and goods traffic and the remainder for goods traffic only. The calculations are based upon total mileage.

SIMLA,
*The 28th August 1885.*

FRED. FIREBRACE, *Major*,

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 2nd SEPTEMBER 1885.

GENERAL REMARKS.—Very slight rain has fallen in the Madras Presidency during the past week. In Bellary rain is urgently wanted, and prospects are reported to be very discouraging. In Madura, Coimbatore, and Salem prospects are also unfavourable. Rain is also wanted in Kurnool, Ganjam, Kistna, and Tanjore for the standing crops. In Mysore the situation remains unimproved, as little or no rain has fallen during the week under report. Generally speaking, prospects are fair in the hill tracts, but unfavourable in the plains; and it is believed that, if rain does not fall within the next fortnight, there will be a great loss of the dry crops of the Province. In Coorg the season continues favourable.

In Bombay rain has fallen generally in all districts, but more is wanted in several talukas of the Deccan and Southern Mahratta Country. Crops are withering in parts of Poona, Ahmednagar, Sholapur, Dharwar, and Bijapur; and fodder is scarce in parts of several districts. In the Berars and Hyderabad more rain is wanted for the standing crops. In the Central Provinces wet weather prevails, and a break is much wanted in the northern districts. Crop prospects are favourable. Rain has been almost general in the Panjab, and the *kharif* prospects continue good. In the North-Western Provinces and Oudh rain has fallen in most districts, causing injury to crops on low lands. General prospects are good, but a break would be very beneficial. General rain has fallen in all districts in Bengal during the week, but in places in the Rajshahye Division and Behar more is wanted. Excessive rain and floods have caused considerable damage, particularly to the ripe *aus* crops in the Burdwan and Presidency Divisions, and the *bhadoi* crops in Behar and Chutia Nagpur have also been injured to some extent. The *aus* harvest is progressing, and the transplanting of *amun* is nearly completed. In Assam the weather is seasonable and prospects generally good. In British Burma ploughing and transplanting have been nearly completed.

Cholera continues to be prevalent in the Madras and Bombay Presidencies, in Raipur in the Central Provinces, and in some districts of the North-Western Provinces. Elsewhere the public health is generally fair; and prices are fairly steady, except in Bengal, where the price of rice continues high, and in Mysore, where prices show a slight tendency to rise.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Sept. 2nd)** | | |
| Bellary ... | ·14 (average) | Heavy rain urgently required for sowing later crops; standing dry crops generally withering. Caterpillars prevailing in some villages of Hospet. Wet crops under channels moderately good; early crops ruined in many villages of all taluks, except Raidrug and Adoni, where alone they are pretty fair; harvest *cholum* under wells in Bellary, outturn below average; paddy in Hospet average. Migration reported from parts of Alur and Bellary. Cattle in very poor condition. 10 deaths from cholera. |
| Kurnool ... | ·01 ( „ ) | Standing crops good, except in Cumbum division, where they fade for want of rain. Small-pox and cattle-disease in one taluk; 3 deaths from cholera. |
| Ganjam ... | ·24 ( „ ) | More rain wanted throughout. Transplantation impeded and seed beds drying up in parts. Cattle-disease slight in two taluks; 235 deaths from cholera. |
| Kistna ... | ·002 ( „ ) | Rain urgently wanted. Standing crops withering. Fever and small-pox in parts; cattle-disease in two taluks; 58 deaths from cholera unreported last week, 34 this week. River 6·58 feet over anicut. |
| Chingleput (Madras) ... | ·92 ( „ ) | Standing crops fair; harvest paddy and *cumbu* in parts, outturn below average. Small-pox in Trivellore and rinderpest in Ponneri. |
| Coimbatore ... | ·025 ( „ ) | Standing crops generally good, but want rain in parts; harvest dry grains in parts, outturn about average. Fever and cattle-disease in parts; 27 deaths from cholera. |
| Tanjore ... | ·004 ( „ ) | Dry crops, especially *cumbu* and *dholl*, in very critical condition for want of rain; harvest dry crops, outturn up to average. Fever in parts of Tiraturaipundi; 38 deaths from cholera. |
| Madura ... | ·29 ( „ ) | Fever prevalent. |
| Malabar ... | 1·78 ( „ ) | First crop ripening; operations for second crop partially commenced. Small-pox in five; cattle-disease in three; and fever in two taluks; 26 deaths from cholera. |
| Travancore ... | ·025 ( „ ) | Harvesting progressing. Fever prevalent. |
| | | *General Remarks.*—General prospects fair, improved in Anantapur; in Bellary very discouraging; in Madura, Coimbatore, and Salem reported to be unfavourable. |
| **Bombay—(Sept. 2nd)** | | |
| Karachi ... | Shahbandar, 6·70; average of eight other stations, 3·09. | River at Kotri on 30th, 19 feet 11 inches against 18 feet 11 inches on same date last year. Damage to *kharif* crops in Tatta by worm *kookai* and to rice crops in Mirpur Botoro by rats and blight, crops also suffered from inundation in the abovementioned two talukas. Fever in seven and cattle-disease in one taluka; cholera 3 cases, 3 deaths. Prices—wheat, red rice, and *bajri* in Karachi 26, 34 and 32; in Tatta 26, 40 and 40; in Sujawal 26, 48 and 42; and in Sehwan 40, 40 and 44 pounds per rupee, respectively. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Hyderabad ... | Rain in Tando Allahyar taluka, ·92. | Weather cloudy. *Kharif* cultivation good; *til* crops injured by *bokkrag* insect; cotton in some places attacked by blight; *juari* crops in Sakrand taluka attacked by *kron* insect. River at Kotri on 31st, 20 feet 1 inch against 18 feet 11 inches on same date last year. Fever in six and cattle-disease in two talukas. Prices of grain steady. |
| Ahmedabad ... | ·03 | Total rainfall 21·31. Crops doing well. Cholera in the city, 16 cases, 11 fatal; in Dholka 7 cases, 3 fatal; dysentery in Viramgaum and Sanand. Wheat 38 and *bajri* 32 pounds per rupee. |
| Baroda ... | ·18 | Total rainfall 20·98. Cholera disappeared in Baroda city; at Sadar cholera appeared amongst the troops, 3 out of 4 proved fatal. Crops in good condition, transplantation of rice continues; young crops thriving. Prices—*bajri* 27, wheat 27, and rice 21 pounds per current sicca rupee. |
| Surat ... | Maximum in Chikhli, 27·12; minimum in Olphad, ·15. | Cotton and *juari* crops injured in places by excessive rain, they will have to be sown again; rice and other young crops healthy. Cattle healthy, 4 cholera cases in Jallalpur; fever and cough in Bardoli and Pardi talukas. *Juari* 36 and *nagli* 42 pounds per rupee. |
| Nasik ... | Nasik, ·43; Sinnar, ·72; Igatpuri, 5·17; Dindori, ·86; Niphad, ·38; Chandor, ·37; Yeola, ·11; Nandgaon, ·03; Kalwan, ·27; Punt, 2·43; Malegaon and Baglan, *nil*. | More rain wanted in Niphad, Yeola, Malegaon, Nandgaon, and Baglan. Transplantation of rice and *nagli* completed in Igatpuri and Punt, nearly completed in Nasik and Kalwan; sowing of *kharif* crops nearly completed; crops healthy; want of fodder is still felt in Malegaon and Yeola. Cholera in Nasik, Sinnar, Dindori, Niphad, Chandor, Malegaon, and Nandgaon; total attacks 158, deaths 86; fever in a few villages of Sinnar and Nandgaon. Wheat 33, *bajri* 29½, and rice 20¾ pounds per rupee. |
| Colaba (Bombay) ... | Rain every day; total of week, ·91. | Total rainfall to date 52·59, being 6·30 below average. Abnormal temperature 1° warm from 26th to 31st and 1° cool on 1st; vapour in air slightly in excess of normal; abnormal wind southerly from 26th to 31st; wind normal on 1st. |
| Poona ... | Rain in four and light showers in four talukas; maximum in Maval, 1·96; minimum in Sinnar, ·47. | Young crops withering for want of rain in two eastern talukas. 139 cholera cases, 84 deaths; cattle free from disease. Prices of *bajri* 30 and *juari* 36; in Poona *bajri* 25 and *juari* 32 pounds per rupee. |
| Ahmednagar ... | Jamkhed, ·32; Akola, ·13; Kopargaon, ·12; Newasa, ·08; Sangamner, ·06; Nagar, Parner, Shrigonda, Karjat, Sheogaon, and Rahuri, *nil*. | *Kharif* crops so far in good condition in Akola and Jamkhed; in fair condition in Sangamner and Kopargaon, but require rain soon; crops are withering in places in Nagar, Parner, Shrigonda, Karjat, Sheogaon, Newasa, and Rahuri for want of rain. Rain urgently wanted. Want of fodder is felt in Kopargaon and Sangamner. Cattle-disease in Newasa and Sangamner; cholera 17 cases, 11 deaths in Nagar; 22 attacks, 8 deaths in Jamkhed; 18 attacks, 8 deaths in Sheogaon; 2 attacks, 2 deaths in Newasa; 5 attacks, 3 deaths in Kopargaon; and 22 attacks, 12 deaths, in Sangamner. *Bajri* from 35 to 43 and *juari* from 42 to 60 pounds per rupee. |
| Sholapur ... | Sholapur, ·05; Barsi, ·25; Madha, ·24; Karmala, ·26; Malsiras, ·35; Akalkot, ·16; none elsewhere. | *Kharif* crops still doing well in Akalkot; they have begun withering in the Sholapur and Barsi talukas, elsewhere little has been sown; want of fodder much felt everywhere; *karbi* varies from Rs. 12 to Rs. 16 per maund; *juari* 43 pounds 12 tolas and *bajri* 29 pounds 32 tolas per rupee. Cholera 103 cases, 52 deaths. |
| Dharwar ... | Hangal, 1·49; Kalghatgi and Bankapur, ·75; Mugud and Hubli, ·66; Dharwar and Karajgi, ·45; Kod, ·14; Gadag, ·06; Navalgund, Nargund, Mundargi, Ron, and Ranibennur, *nil*. | Heavy showers urgently required throughout the district both for rice and *juari* crops; young *juari* crops are suffering from drought in black soil talukas, especially in Navalgund, Gadag, and Ron, where sowing of early *juari* was only partially effected; rice crops are good for the present, but if rain does not fall shortly, they will be withering. Slight cholera in five talukas. Prices—*juari* 44 and rice 25 pounds per rupee. |
| Kanara ... | Karwar, 1·26; Kumpta, 2·83; Sirsi, 2·57; Haliyal, 1·48. | Crops thriving. Fever and small-pox in four talukas; cattle-disease in one. Common rice at Karwar 13½ seers, district average 14 seers per rupee. |
| Rajkot ... | *Nil* | Weather warm and cloudy. Fever and bowel-complaints prevalent; 4 cholera cases at Kherati under Morvi, 3 fatal. *Bajri* 32 and *juari* 44 pounds per rupee. |
| | | *General Remarks.*—Rain in most districts; more wanted in several talukas of the Deccan and Southern Mahratta Country districts. Crops withering in parts of Poona, Ahmednagar, Sholapur, Dharwar, and Bijapur, and damaged by excessive rain in parts of Surat and by insects and blight in parts of Karachi and Hyderabad; fodder scarce in parts of Nasik, Ahmednagar, Sholapur, Khandesh, Bijapur, and Belgaum. Cholera general; fever and cattle-disease in parts of nine, and small-pox in parts of two districts. |
| **Bengal—(Sept. 2nd)** | | |
| Chittagong ... | 1·52 | Prospects of crops fair; transplanting still continues. Prices rising. Cholera continues; public health good. |
| Dacca ... | *Nil* | Prospects of crops continue favourable; harvesting of early crops continues. Public health good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal—*contd.*** | | |
| 24-Pergunnahs (Calcutta) | 4·96 | Prospects of *aus* crops rendered gloomy by heavy rain; farming operations also stopped. Common rice 10½ to 14 seers per rupee. Public health good, except for usual fever. |
| Moorshedabad ... | 7·36 | Weather cool, with heavy rain almost daily. Prospects of *aus* now very unfavourable, as very large areas, where the crop was growing, have been submerged by floods. Floods have done unusually great damage owing to a break in Bagiruthi embankment at Lalitakuri. *Amun* crop now doing fairly well. Common rice 10 to 12 seers per rupee. Public health good. |
| Burdwan ... | 6·5 | Some damage done by inundation, but prospects are generally good. Rice 11¼ to 14¼ seers per rupee. Health generally good. |
| Rungpore ... | ..... | No report received. |
| Bhagalpur ... | 3·37 | *Bhadoi* harvest begun with good outturn; prospects of winter rice good. More rain wanted. Rice 12 seers 10 chittacks per rupee. Cholera still very bad in Banka. |
| Purneah ... | 6·61 | Prospects of *bhadoi* excellent, except where inundated; good rain has fallen for transplanting. Coarse rice 16 seers per rupee. Public health fair. Ganges very high. |
| Patna ... | ·65 | Transplanting of paddy in progress, but more rain wanted; *bhadoi* crops promising. Cholera prevalent in the district. |
| Durbhunga ... | 1·83 | Prospects of *bhadoi* continue very promising; more rain still wanted for paddy. Prices almost stationary. Public health generally good. |
| Hazaribagh ... | 5·03 | Weather seasonable; abundant and general rain. *Bhadoi* injured in places by excessive rain; rice promises well. Cholera still very prevalent; small-pox reported from a few villages. |
| Cuttack ... | ·69 | Weather hot; occasionally cloudy. Early rice being reaped, outturn fair; late rice requires rain. Price of common rice very high, 10 to 12 seers per rupee. Public health good. |
| Midnapur ... | 9·88 | Flood somewhat subsiding, but much rice spoilt. Fever appearing. |
| Khoolna ... | 4·65 | Weather rainy. *Aus* paddy ripening; cutting delayed by rain; cultivation of *amun* paddy continues. Price of rice high. Public health good. |
| Dinagepore ... | 1·46 | General, but light rain. Crops doing well; early crops being harvested. Average price of rice 15 seers per rupee. Cholera in thanas along railway; a few cases of cattle-disease reported; public health good. |
| Pubna (Serajganj) ... | 1·98 | Prospects of *amun* crop good. Rivers falling, which is not desirable. Price of rice stationary. Fever in Serajgunge; general health in mufassal good. |
| Gya ... | 2·85 | Heavy rain has caused slight injury to crops, but general prospects good. Cholera in Nowada subdivision. Prices slightly better. |
| Chumparan ... | 3·04 | Prospects of crops continue favourable; transplanting of paddy continues; price of rice stationary. Cholera still reported from Motihari and Bettiah towns and from the interior. |
| | | *General Remarks.*—General rain has fallen in all districts during the week; more rain is wanted in places in the Rajshahye division and Behar. In parts of the Burdwan and Presidency division excessive rain and floods have caused considerable damage particularly to the ripe *aus* crops, for the same reason the *bhadoi* crops in Behar and Chota Nagpur have been injured to some extent, elsewhere the agricultural prospects are satisfactory; the *aus* harvest is progressing, and the transplanting of *amun* is nearly completed. Price of rice continues high throughout the Province. General health is good, but fever is appearing in some districts. |
| **N. W. Provinces and Oudh—(Sept. 3rd)** | | |
| Benares (Sept. 1st) | 2·20 | *Rabi* ploughing in progress; prospects fair. Prices fallen slightly. General health good. |
| Gorakhpore (Aug. 31st) | Daily showers in all the tahsils; heavy rain in Maharajgunj. | Crops promising. Prices falling. Cholera abating in south-west, increasing in north-east. |
| Fyzabad (Sept. 1st) | Some rain everywhere, but not very heavy falls. | Crops promising; *mash* being sown. Prices stationary. Cholera appeared in three tahsils; condition of cattle fair. |
| Lucknow (Aug. 31st) | Heavy rain during the week; average fall 6·00. | Crops on low lands seriously injured, otherwise prospects fair; sowing of *bajri* and *mash* continues. Supplies ample. Prices stationary. Cholera is still reported in the city and suburbs; health of cattle good. |
| Rae Bareli ( „ „ ) | Heavy and general rain at Sadar during the week, 6·70; from evening of 25th to evening of 26th, 4·30 at Sadar; and 7·20 at tahsil Digbijaiganj. | Crops injured here and there. Considerable damage to houses at Sadar and elsewhere. Prices almost steady. Markets well supplied. Cases of cholera reported. |
| Partabgarh (Sept. 1st) | Rain from 2·40 to 5·00. | A satisfactory break since. *Sawan, makka, kakun*, and indigo are being cut; *makka* already in the market. Slight fever in Kunda. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Allahabad (Sept. 1st) | Average rainfall during the week, nearly 5·00. | Rain still continues; break required. Crops in low lands damaged, elsewhere flourishing. Markets well supplied. Prices stationary. Sporadic cholera still continues, otherwise health of men and cattle good. |
| Cawnpore (Aug. 31st) | General and heavy rain during the week. | Rain has injured the standing crops, and retarded the completion of the *bajri* sowings and weeding; *kakun* and *sawan* being cut. No indications of a break. Prices steady. Fever generally prevalent; cattle-disease in three parganas. |
| Banda ( „ „ ) | *Nil* | Heavy rain has caused considerable damage to *kharif* crops. Usual autumnal fever prevails; cholera on decrease; cattle-disease in two villages. |
| Ballia (Sept. 1st) | Rain plentiful | Crops generally promising; some damage from flood and excessive rain. 117 deaths from cholera. |
| Farakhabad ( „ „ ) | Average rainfall 6·00 | Crops suffering from excessive moisture; break wanted. Hundreds of houses destroyed or injured by persistent rain. 124 deaths from cholera in Farakhabad, 22 in Fatehgarh. |
| Sitapur ( „ „ ) | Heavy showers | Clear weather has prevailed during the week. The *sawan* crops have been much injured; *mash* and *bajri* cannot be got into the ground. |
| Bareilly ( „ „ ) | ..... | Crops coming forward. Rain has damaged the low lands. Markets fully steady. Health of men and cattle good. |
| Kumaon ( „ „ ) | Constant rain, but not heavy. | Sun required. Prospects fair. Prices stationary. Health fair; cattle-disease still prevalent. |
| Agra (Aug. 31st) | *Nil* | Cloudy weather and heavy rain has done much injury to the *kharif* crops. West Fatehpur Sikri flooded. Prices steady. Cholera slight; fever spreading. |
| Jhansi ( „ „ ) | Rains continue | Prices unchanged. Fever broken out in places. |
| Meerut (Sept. 1st) | Heavy rain during the week. | Break very necessary. Weather seems more settled now. Considerable damage done to *kharif* crops, especially in low-lying lands. Prices almost stationary. Markets well supplied. Slight fever prevails, otherwise health good. |
| | | *General Remarks.*—Heavy rain has fallen in most districts, causing injury to crops on low lands and to houses in Farakhabad. General prospects are good, and wants a break. Markets well supplied. Fever [illegible] in some places, has [illegible] however, of men and cattle is good. |
| **Punjab—(Sept. 2nd)** | | |
| Hissar (Sept. 1st) | 2·80 | Health good. *Kharif* flourishing. Prices almost stationary. |
| Delhi ( „ „ ) | 2·40; excessive rainfall has caused some damage to crops on low-lying lands. | Health fair. Prices almost stationary. |
| Umballa ( „ „ ) | 6·30 | Break desirable. Health fair. *Kharif* prospects excellent. Prices almost stationary. |
| Jullundur ( „ „ ) | 2·60 | Health good. Prospects fair. Prices stationary. |
| Ferozepore ( „ „ ) | ·50 at city | More wanted. Health good. *Kharif* prospects improved. Prices stationary. |
| Amritsar ( „ „ ) | 2·0 | Health and crops good. Prices stationary. |
| Sialkot ( „ „ ) | ·20 | Health good. Prices stationary. |
| Lahore ( „ „ ) | Rain wanted | Health good. Prices stationary. |
| Mooltan ( „ „ ) | *Nil* | Crops and health good. Prices almost stationary. |
| Rawalpindi ( „ „ ) | 6·5 | Health good. Prospects fair. Prices stationary. |
| Shahpur ( „ „ ) | Rain general | Health good. Prices rising. |
| Dera Ismail Khan ( „ „ ) | *Nil* | Health and prospects good. Prices stationary. |
| Peshawar ( „ „ ) | *Nil* | A little fever, otherwise health good. Prospects good. Prices falling. |
| | | *General Remarks.*—Rainfall almost general. Health and *kharif* prospects good. Prices generally stationary. |
| **Central Provinces—(Sept. 2nd)** | | |
| Nagpur ... | ·75 | Weather cloudy, with occasional drizzle. Prospects good. Fever, small-pox, and cattle-disease in places. Prices steady. |
| Jubbulpore ... | 4·14 | Light and seasonable rain, but sunshine very necessary now. Crops thriving. Cholera decreasing. Prices stationary. |
| Betul (Sept. 1st) | ·21 | Crops favourable; weeding in progress. Health fair. Prices steady. |
| Seoni ... | 4·77 | Weather very wet. Transplanting completed; weeding continues. Slight cholera. Prices unchanged. |
| Hoshungabad ... | ·46 | Weather cloudy; break wanted. Prospects of crops fair. Fever and cholera in places. Prices stationary. |
| Khandwa ... | ·33 | Weather cloudy. Prospects good. 49 cases of cholera, 21 deaths; slight cattle-disease. Prices steady. |
| Raipur ... | 2·94 | Weather cloudy and rainy. Prospects excellent. 623 cases of cholera, 467 deaths. Prices falling. |
| | | *General Remarks.*—The weather has been very wet in the northern districts and clear weather is much wanted; there has also been heavy rain in Chhattisgarh; elsewhere the weather has been fine, with occasional showers and has been very suitable for cotton and millet. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **British Burma—(Sept. 2nd)** | | |
| Akyab (Aug. 29th) | 10·82 | Total rainfall 160·77. Public health good; slight cattle-disease in town and two circles. Sowing nearly completed. |
| Bassein ( „ „ ) | 18·00 | Total rainfall 96·63. Public health good; cattle-disease severe in one township and slight in one. |
| Rangoon ( „ „ ) | 11·59 | Total rainfall 78·75. Public health good; cattle healthy. |
| Amherst (Moulmein) ( „ „ ) | 18·28 | Total rainfall 163·53. Public health good; cattle healthy. Transplanting progressing. |
| Tavoy ( „ „ ) | 9·14 | Total rainfall 171·55. Public health and health of cattle good. General appearance of crops good. |
| Pegu ( „ „ ) | 6·31 | Total rainfall 90·82. Public health good; slight cattle-disease in one township. Ploughing and sowing nearly completed; transplanting going on. |
| Henzada ( „ „ ) | 3·95 | Total rainfall 72·50. Small-pox slight; cattle-disease slight in two subdivisions. Ploughing and transplanting nearly finished. |
| Prome ( „ „ ) | 0·77 | Total rainfall 22·96. Slight cholera in town and still prevalent in the district. Transplanting continues. |
| Toungoo ( „ „ ) | 5·9 | Total rainfall 66·14. Slight cholera in town and one township; cattle healthy. Ploughing and sowing progressing. |
| Thayetmyo ( „ „ ) | 0·64 | Total rainfall 23·98. Slight cholera in one subdivision; cattle healthy. Ploughing completed. |
| | | *General Remarks.*—Slight cholera in three districts; small-pox slight in one district, elsewhere public health good; cattle-disease severe in one district, slight in six districts, elsewhere health of cattle good. Ploughing and transplanting nearly completed. Rains seasonable. |
| **Assam—(Sept. 2nd)** | | |
| Gauhati ... | 3·94 of rain during the week ending the 1st instant. | Weather hot. Public health fair; cattle-disease still reported from some mouzahs. Transplantation of *sali* nearly finished; prospects of all crops good. |
| Sylhet ... | 1·52 | Tea accounts good; *amun* suffering from want of rain in most parts of the district. Fever still very prevalent in South Sylhet. |
| Cachar ... | ·24 | Weather warm. Reaping of *dumahi* and *murali* crops finished; transplanting of *sali* crops continues. Common rice 15 seers per rupee. Weather is too dry for tea. Health good. |
| Dibrugarh ... | 5·25 | Weather seasonable. Transplanting of *sali dhan* still continues; prospects of tea and other crops good. Fever prevalent. |
| **Mysore and Coorg—(Sept. 2nd)** | | |
| Bangalore | Nil | No practicable rain since last report. Dry crops in critical condition. No present appearance of rain falling soon. Pasturage and water reported to be failing. Cattle in poor condition. Public health fair, only 20 cases of cholera reported during week. Prices show a slight tendency to rise. Generally speaking prospects are fair in the hill tracts, but unfavourable in the plains; the common opinion is that if rain does not fall within the next fortnight there will be a great loss amongst all the dry crops of the province. |
| Mysore | | |
| Mercara ... | ·82 | Transplanting of paddy nearly completed; coffee and cardamom crop; in good condition. Prices of foodgrains slightly falling. Prospects of season and public health good. |
| **Berar and Hyderabad—(Sept. 3rd)** | | |
| Amraoti ... | ·13 | Rain wanted for cotton and *juari* plants; weeding completed in certain parts; wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | ·25 | Sky cloudy; *kharif* in good condition. Preparations for *rabi* sowings continue. |
| Hyderabad ... | ·59 average rainfall during the week. | More rain needed to prevent standing crops being damaged. Cholera still prevails in the city and suburbs, but general health in the district is good. Prices—wheat 14, white *juari* 19½, coarse rice 12½, salam (?) 25½, gram 14½, cotton (?) 10½ seers per rupee. |
| **Central India States—(Sept. 2nd)** | | |
| Indore ... | ·13 | Total rainfall 21·37. Weather cloudy and cool. Health and prospects good. |
| Morar (Gwalior) ... | ..... | No report received. |
| Sutna ... | 7·58 | Total rainfall, 34·45. Flood at Rewah on night of the 24th ultimo, after fall of 12·0; considerable damage to house property, but no loss of life. Cholera still reported from several districts of Rewah. Prospects fair. Break much needed. |
| Neemuch ... | ·80 | Weather clear. Crops thriving. Health good. |
| Goona ... | 2·79 | Break much wanted. *Makki* and *juari* on low lands damaged by excessive rain. Health good. |
| Agar ... | ·33 | Health and prospects good. |
| Sehore ... | ·18 | Total rainfall 57·81. Weather cloudy. Prospects of crops favourable. 71 cases of cholera, 28 deaths. |
| Nowgong ... | 1·71 | Total rainfall 35·33. Weather cloudy. Prices steady. Health good. |
| Manpur (Bhopawar) ... | ·85 | Total rainfall 29·83. Crops good. Cholera is prevalent at Amjhera, otherwise health good. |

| Presidency or Province and District. | | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|---|
| **Rajputana—(September 2nd)** | | | |
| Abu | (Sept. 2nd) | 1·75 | Weather occasionally clear; no rain during the last four days; weather cloudy and windy. |
| Sirohi | (Aug. 30th) | ·62 | Tanks, wells, health, and crops good. Weather dull and cloudy; occasional sunshine. |
| Marwar | ( „ 28th) | Jodhpore rain in past week, 2·53; present week, 1·53. | City tanks all full; wells filling fast. Health good. Crops flourishing. Weather very cloudy and rainy. Prospects bright. Prices falling. |
| Kherwara | ( „ 31st) | ·62 | Tanks and wells full. Crops promising. Health good. Prices cheap. Weather fair, appearance of a break. |
| Pertabgurh | ( „ 29th) | 2·14 | Tanks and wells full. Crops good. Health good. Prices low. Weather occasionally clear. |
| Meywar | ( „ „ ) | ·38 | Tanks full, wells filling. Crops and health good. Prices stationary. Weather fine, apparent break in monsoon. |
| Harowti | ( „ „ ) | Deoli, 10·05; Tonk, 17·60; Shahpura, 5·46; rain in previous week in Kotah, 3·14. | Indian-corn and *juari* in parts slightly damaged. Weather cloudy. Slight cholera in Tonk. |
| Jhallawar | ( „ 28th) | ·95 | Total rainfall 43·97. Break much needed. Cholera sporadic throughout the State. |
| Ajmere | (Sept. 1st) | 4·95 | Health good. |
| Jeypore | ( „ „ ) | 4·79 | Weather clear. Crop prospects favourable. Prices stationary. Health fair. |
| Kerowlee | (Aug. 29th) | 6·64; previous week, 4·86. | Tanks and wells full. Several bunds breached. Crops suffering from heavy rain. Health good; slight fever. Prices falling. |
| Dholepore | ... | ..... | No report received. |
| Bhurtpore | ( „ „ ) | 4·25 | Tanks and wells full. Crops damaged on low land, elsewhere flourishing. Health good. Prices falling. |
| Ulwar | (Sept. 1st) | 5·45 (average) | Slight damage to crops. Fever prevalent; cattle-disease in two districts. |
| Bickaneer | ( „ 29th) | 1·17; Sujangarh, 4·75. | Wells and tanks fair. Prospects good. Health good. Prices fallen. Weather cloudy. |
| **Nepal—(Aug. 27th)** | | | |
| Khatmandu | ... | 3·29 | Health and prospects good. A few cases of cholera only. |

GOVERNMENT OF INDIA.

## PUBLIC WORKS DEPARTMENT.

### RAILWAY TRAFFIC.

### COAL TRANSACTIONS OF THE EAST INDIAN RAILWAY COMPANY.

No. 59 R., dated 18th May 1885.

From—The Government of India,
To—The Secretary of State for India.

We have the honor to invite your Lordship's attention to the correspondence ending with your Lordship's predecessor's Railway Despatch No. 1 of the 5th January 1882, on the subject of the conditions under which coal should be raised from the East Indian Railway collieries, and, with reference thereto, to forward, for consideration, copies of a joint memorial from the Bengal Coal Company, limited, and the Raneegunge Coal Association, Limited, and of a letter from the Secretary to the Bengal Chamber of Commerce, dated the 6th February 1885, praying that the East Indian Railway Company might be restrained from competing with private enterprise in the sale of coal.

2. In the memorial two grievances are submitted for redress, *viz.*, (1) the sale to other railways of surplus coal from the East Indian Railway collieries, and (2) the exchange between the East Indian Railway Company and the New Beerbhoom Coal Company, Limited, of coal raised from their respective mines at Giridih and Asansol.

3. With regard to the alleged irregular sale to other railways of surplus coal, we forward a letter from our Consulting Engineer for Guaranteed Railways at Calcutta, from which it would appear that the sales hitherto effected by the East Indian Railway Company have not always been quite in consonance with the terms of the contract for working the colliery. In order to prevent any undue competition with Coal Companies, we had previously issued

certain instructions,* copy of which we enclose for perusal. On this point, therefore, we shall not at present ask your Lordship to interpose.

* Letter to Consulting Engineer, Calcutta, No. 129 R. T., dated the 14th February 1885.

4. As regards the exchange of coal between the East Indian Railway Company and the New Beerbhoom Coal Company, Limited, we would beg to invite a persual of the correspondence marginally noted; and with reference thereto would observe that at the time we brought the matter to the notice of your Lordship's predecessor in our Railway Despatch No. 107 of the 16th September 1881, and obtained His Lordship's decision, as communicated in paragraph 3 of Despatch No. 1 Railway of the 5th January 1882, we did not, we fear, attach sufficient importance to the effect of the arrangement on parties owning collieries in the vicinity of the East Indian Railway collieries.

Public Works Department letter No. 130 R.T., dated the 14th February 1885, to Solicitor to Government.

Opinion of the Hon'ble the Advocate General, dated the 23rd February 1885.

Public Works Department letter No. 225 R. T., dated the 16th March 1885, to Solicitor to Government.

Opinion of the Hon'ble the Advocate General, dated the 17th March 1885.

5. Such exchange would appear to us to give the New Beerbhoom Company, Limited, who do not possess a colliery at Giridih, the power to compete with those who do to the extent of the quantity of coal exchanged, and to vitiate *pro tanto* the natural advantage secured by the latter; and consequently to enable coal from the East Indian Railway collieries to be placed in the market to the detriment of private enterprise. Under the circumstances we trust your Lordship will see fit to reconsider and revise existing orders on the subject after communication with the Board of Directors of the East Indian Railway Company.

---

To—His Excellency the Right Hon'ble EARL OF DUFFERIN, K.P., G.C.B., G.C.M.G, &c., &c., Viceroy and Governor-General of India.

The Memorial of the Bengal Coal Company, "Limited," and the Rangeegunge Coal Association, "Limited."

RESPECTFULLY SHEWETH,—

YOUR Memorialists are the proprietors of extensive coal fields in Bengal, which have been developed and opened out at a very costly expenditure of private capital.

2. In 1881 your Memorialists were compelled to petition the Governor-General in Council and the Under-Secretary of State for India to restrain the East Indian Railway Company from illegally and improperly competing with the Coal Companies in the sale of coal.

3. After due consideration of the grievances complained of, and upon receipt of a despatch from the Secretary of State for India directing that the East Indian Railway should not be "permitted to take up the position of competitors in the general market with those who had embarked capital in mining enterprise," the Government of India passed the following orders *inter alia*:—

(*a*) The Railway Company was directed to regulate its output of coal, as far as possible, in accordance with its own demands.

(*b*) The Company was desired to withdraw from its agreements with other Railways for the monthly supply of coal and coke at the earliest date possible, which the existing contracts would permit.

(*c*) And it was further ordered, so as to prevent all competition with the trade, that all sales of surplus coal raised *bonâ fide* in excess of requirements of its own working consumption, should take place at the pit's mouth by public auction.

4. A copy of the official correspondence relating to the matter is annexed* for easy reference, and your Memorialists pray that it may be read and considered as a portion of the present Memorial.

* Not printed.

5. In full reliance on the orders of Government as a guarantee for the protection of private enterprise in the coal trade from State competition, your Memorialists have continued to sink a large amount of capital in working their coal-fields.

6. Your Memorialists regret, however, that these orders, deliberately passed by the Secretary of State for India and by the Indian Government, have been extensively and continuously contravened directly and colorably.

7. In 1882 the said Railway sold 24,000 tons of coal, disposed of not by public auction but by private tenders.

8. In 1883 tenders were invited for 8,000 tons of coal.

9. In 1884 offers were invited by advertisement for the purchase of 10,000 tons of steam coal, alleged to have been raised in excess of anticipated requirements.

10. Your Memorialists have valid grounds for believing that these 10,000 tons have been sold privately to certain of the State Railways, all of whom have hitherto been constituents of your Memorialists. This is an open and direct violation of Government orders.

11. In addition to this open contravention of Government orders, the Railway Authorities have adopted a system of exchange with one of the lower or Raneegunge District Coal Companies, especially selected, by means of which the Railway Company is in the habit of selling indirectly to the Up-Country Railways large supplies of its coal, and receiving in exchange large quantities of inferior Raneegunge coal; this system is a transparently colorable evasion of the orders of Government above alluded to.

12. Your Memorialists desire to impress upon your Excellency in Council the very serious consequences which will necessarily follow if this State competition is permitted to continue. The Railway Authorities have a complete monopoly over the freightage of the line; it is perfectly competent, therefore, for them to undersell the existing Coal Companies, and virtually to close all competing collieries.

13. Your Memorialists desire to point out that there can be no practical difficulty to the Railway Authorities in giving full effect to the Government orders to abstain from competing with the Coal Companies.

14. It is perfectly feasible when coal has been raised in excess of requirements to direct that the output shall be decreased until such excess coal shall have been consumed. In this way all supposed necessity for coal-sales would be obviated.

15. In conclusion your Memorialists pray for immediate redress, and that your Excellency in Council may be pleased to direct that all further transgressions of the Government orders may be stayed, and all illegal agreements with, and sales to, the State Railways may be cancelled.

---

Dated 6th February 1885.

From—The Secretary to the Bengal Chamber of Commerce, Calcutta,

To—The Secy. to the Government of India, Railway Department.

In their letter of 23rd of March 1881 the Committee of the Chamber of Commerce submitted, for the consideration of the Government of India, an appeal on behalf of the Coal Companies of Bengal, against the action of the East Indian Railway Company in producing supplies of coal from their coal-fields greatly in excess of their own requirements and in disposing of such surplus to other coal-consuming concerns, thereby seriously affecting the interest of the proprietors of commercial Companies.

In support of that representation, the Committee of the Chamber submitted ample justification for the course which they adopted in endeavouring to protect private properties from the consequences of unlawful competition by the Rail-

way Company; they emphatically declared against a violation of a special clause of the contract between the Company and Her Majesty's Secretary of State for India, which provided that "the Company shall not, during the continuance of this contract, without the sanction of the Secretary of State in writing first obtained, engage in or carry on any business other than the business which is the subject of this contract," which was obviously limited to the proper functions of the Company as carriers by rail and managers of the railway, and to which the Company were restricted by Acts of Parliament under which they were incorporated as well as by their own Articles of Association.

The Committee's representation having received the consideration which its important nature called for, both from the Government of India and Her Majesty's Secretary of State, a reply, dated 16th August 1881, was communicated to the Chamber, which informed them "that Her Majesty's Government had decided that the East Indian Railway Company, as at present placed, in reference to their Act and Contract, cannot lawfully work their collieries except for the purpose of their own undertaking, and for any branch line of railway worked directly by them;" and that orders had in consequence been issued to the Company to regulate their output of coal, as far as possible, in accordance with their own demands and to withdraw from their agreements with other railways for the supply of coal and coke at the earliest date that their agreements would permit without involving the Company in breach of contract.

The Government's reply further stated—"By a little foresight, it is believed that the sales of surplus coal need not be so large as in any way to affect the interests of the private Companies, but such sales may now and then be necessary, and the inferior descriptions of coal which are necessarily brought up with the good will have to be disposed of. However, not more inferior coal will be allowed to be raised than is obligatory in order to get the description of coal required for the undertaking, and in order to prevent all competition in the Calcutta market all sales of coal by the Railway Company have been ordered to take place at the pit's mouth by public auction to the best advantage of the Company." And the Committee were informed, in conclusion, that "by attention to these orders, the Government of India believes that the East Indian Railway Company will not exceed the powers granted them, and all danger of competition with the colliery Companies will be avoided."

The Committee of the Chamber received these authoritative assurances with much satisfaction and in the confident expectation that the action of the East Indian Railway Company would be in entire conformity with the views expressed by Government and the orders that had been issued for the Company's guidance as to their proceedings in the future.

But the Committee have to record with much regret and disappointment that this expectation, based on the deliberate orders of Government, has not been realised, since they learn on unquestionable authority that the Railway Company have disregarded and evaded the orders which restricted them to their legitimate business by raising coal largely in excess of their requirements, and disposing of such surplus by private bargain, in direct contravention of Government orders, to the detriment of private commercial Companies.

The grievances of owners of collieries having been fully set forth in a memorial recently addressed to His Excellency the Viceroy and Governor General, the Committee desire to confine themselves to an expression of their entire disapproval of the course adopted by the Railway Company, and trust that the State will at once interfere and prevent such increase in an illegal traffic which obstructs the development of the proper functions of private enterprise.

---

No. 129 R.T., dated 14th February 1885.

From—The Secretary to the Government of India, Public Works Department,

To—The Consulting Engineer to the Government of India for Guaranteed Railways, Calcutta.

In continuation of Public Works Department letter No. 76R.T., dated 26th January 1885, I am directed to request that, in dealing with questions connected with the disposal of surplus steam coal and other descriptions of coal

from the East Indian Railway collieries, you will be careful to see that the Company keep strictly within the terms of their contract in *all* respects.

2. It appears to the Government of India essential that all such questions should be considered on the following basis:—

(1) that the steam coal to be sold is such as by its magnitude could be fairly called surplus, and is not a quantity (such as the 10,000 tons sold not long ago) which could easily be worked off by a slight reduction of the monthly winning; and

(2) that the prices at which all sales are to be made are not lower than the ordinary market price.

3. The Government of India has also again had under consideration the nature of the exchanges of coal between the East Indian Railway Company and the New Beerbhoom Coal Company, and has referred the matter for the opinion of the Hon'ble the Advocate General. I am accordingly to request that you will see that no fresh agreement be entered into between the two Companies prior to the receipt of further orders on the point from the Government of India.

---

No. 130 R.T., dated 14th February 1885.

From—The Secretary to the Government of India,

To—The Solicitor to the Government of India.

In forwarding the under-noted papers connected with the question of an exchange of coal between the East Indian Railway Company and the New Beerbhoom Coal Company, I am directed to request that the Hon'ble the Advocate General may be asked to favor the Government of India with his opinion as to whether this exchange comes strictly under the terms of the agreement between the Secretary of State and the East Indian Railway Company, a copy of which, together with the Company's main contract, is herewith forwarded.

2. The point on which the Government of India more particularly desires an authoritative opinion is whether the system of exchange in force can be equitably considered as giving the New Beerbhoom Coal Company, who do not own a colliery at Giridih, an artificial and unfair advantage in the competition for the up-country business with other Coal Companies who do own collieries there, by nullifying the natural advantage possessed by the latter, in a shorter lead.

3. I am to add that the question of exchange of coal was referred to the Secretary of State, and he replied that it might be allowed and was not inconsistent with previous orders on the case.

Despatch to Secretary of State, No. 107R., dated 16th September 1881, paragraph 3.
Despatch from Secretary of State, No. 1R., dated 5th January 1882, paragraph 3.
Despatch from Secretary of State, No. 81, dated 16th June 1881.
(Return requested.)

This will be seen by the correspondence noted in the margin, copy of which is attached, but the Government of India believe that the Secretary of State has not before him, when giving his decision, the point of undue favor now referred.

---

Dated 23rd February 1885.

Opinion—By A. PHILLIPS, Esq., B.L., Officiating Advocate General, Bengal.

I am of opinion that the exchange in question is not open to objection on the ground suggested, the object being merely to obtain for the East Indian Railway the utmost benefit, and not to give any undue preference to the New Beerbhoom Coal Company.

I am asked whether this arrangement comes strictly within the agreement between the Railway Company and the Secretary of State.

The Secretary of State has expressed the opinion that it is warranted by his Railway Despatch of the 16th June 1881, in which (paragraph 4) he states the effect of the agreement with reference to dealings in coal. If I am desired to

express an opinion upon this point, I must say, with deference, that such an exchange is not, in my opinion, within the agreement. The Company is only authorised to raise coal for the purposes of the undertaking, and not for the purpose of being disposed of to outsiders; and it is authorised to dispose of its accidental surplus only. In the present case the Company raises coal in order to dispose of it, and not to use it. The coal thus dealt with appears not to be exactly suited to the requirements of the Company; and consequently, by means of it they acquire other coal more suitable for their purposes. But they have no power, as I understand their agreement, to raise coal for the purpose of acquiring other coal; and if they had, I see no reason why they might not effect their object by sale of their own coal and purchase of other coal. Exchange or barter is only a rudimentary form of sale, and, I think, is equally beyond the Company's powers.

---

No. 225R. T., dated 16th March 1885.

From—The Secretary to the Government of India, Public Works Department;
To—The Solicitor to Government.

I am directed to acknowledge the receipt of your letter No. 216, dated 25th February 1885, forwarding the opinion of the Hon'ble the Advocate General on the question of exchange of coal between the East Indian Railway and the New Beerbhoom Coal Companies.

2. Mr. Phillips says:—

"In the present case the Company raises coal in order to dispose of it, and not to use it. The coal thus dealt with appears not to be exactly suited to the requirements of the Company; and, consequently, by means of it they acquire other coal more suitable for their purposes. But they have no power, as I understand their agreement, to raise coal for the purpose of acquiring other coal; and if they had, &c., &c."

With regard to this, I am to inquire whether the Government of India rightly understand the phrase "not to be exactly suited to the requirements of the Company" to mean that the coal, though good steam coal, is not, when raised, in as convenient a spot for the Company's requirements as it would have been if raised at Asensol.

3. Mr. Phillips also says "the exchange is not open to objection on the ground suggested," &c. With regard to this, I am to explain that paragraph 2 of the Government of India letter of the 14th instant was meant to suggest whether, as the avowed object of the contract was to tie the East Indian Railway down strictly to the raising of coal for their own purposes, and to debar them from competing with private enterprise at Giridih, an arrangement which had the practical effect of enabling third parties, having no colliery at Giridih, to sell coal raised there by the East Indian Railway Company in competition with other private parties possessing collieries there, was not an indirect evasion or contravention of the agreement.

4. I am to request that you will be so good as to obtain the views of the Advocate General on these two points before his departure for England.

---

Dated 17th March 1885.

Opinion—By A. PHILLIPS, Esq., B. L., Officiating Advocate General, Bengal.

I was under the impression that the coal raised by the East Indian Railway was not, in its character, exactly suited to the requirements of the Company. But I do not think that it makes any substantial difference if the unsuitability, instead of being one of character or quality, is one of locality. In either case the coal is raised, not for the purpose of consumption but for the purpose of exchange.

As regards the other point, I am still unable to see that the exchange, if warrantable at all, is objectionable on the ground suggested. I think it objectionable upon grounds which include that suggested. If those grounds are negatived, I do not see any further ground of objection.

No. 1151, dated 16th April 1885.

From—The Consulting Engineer to the Government of India for Guaranteed Railways,
To—The Secretary to the Government of India, Public Works Department.

I have the honour to acknowledge the receipt of your letter No. 76R.T., dated 26th January 1885, and of the memorial to which it gave cover, from the Bengal Coal Company and the Raneegunge Coal Association, protesting against the sale of coal by the East Indian Railway Company.

2. The information required by the Government of India will be found in the accompanying statements prepared by the Manager of the Railway Collieries at Kurhurbaree and Serampore, and received with letter No. 159G., dated 13th February 1885, from the Agent of the Company.

3. That Railway Companies, and in fact all associations incorporated as carriers, enjoying, as they generally do, a complete monopoly over freightage, "should not be permitted to *compete* in the general market with those who have embarked capital in mining and other enterprises," few right-thinking men will care to deny; and as the charge brought against the East Indian Railway Company practically amounts to interference with the coal trade of Bengal, I think it my duty to place the Government of India in possession of the entire facts of the case, to enable it to decide whether the Railway authorities have done anything to justify the charge.

4. The Act, and the contract under which the Company is now placed, leave no room for doubt that the Company cannot work the collieries made over to it, except for the purposes of the Undertaking; but as in raising steam coal a certain quantity of other coal of inferior description, for which the Company has only partial use, has to be brought up, and as fluctuations in traffic over which the Company can of course have no control, render it impossible for its officers to estimate with *absolute* accuracy the amount of good coal that will be required for the Undertaking and its branches, the agreement with the Company for the working of the Kurhurbaree and Serampore Collieries very properly provides that—

"*Clause 3.*—The Company shall be at liberty to sell and dispose of, in their discretion, any coal which, having been raised in anticipation of the reasonable requirements of the Undertaking and lines worked in connection therewith, shall be found to be in excess of such requirements, and also any coal not suitable for use on locomotives, or any products from such coal, or any lime, clay or other minerals, or earths, which it may be necessary to raise for the safe, proper, and economical working of the mines, at such price as may be from time to time fixed and determined by the Company with the approval of the Secretary of State."

5. This agreement, dated the 27th of July 1882, was concluded after mature deliberation, and it cannot be honestly contended that "it places the coal companies at a disadvantage by the infrigement of their rights, or that it is in any way calculated to discourage private enterprise." If in their transactions in regard to the disposal of inferior or surplus steam coal the Railway authorities have kept strictly within the provisions of this agreement, they can hardly have prejudiced the interests of the memorialists and other colliery proprietors to any *serious* extent. The facts in this connection are shown in the following table which has been prepared at my request by the Chief Auditor of the East Indian Railway Company, as the colliery accounts do not show the entire transactions:—

*Statement showing the quantity of coal raised at the collieries, that consumed and sold, and the balance in hand, from 1880 to 1884.*

| PERIOD. | Balance in hand. | Outturn from collieries. | Purchase. | Coal in exchange. | TOTAL. | Consumption. | Coal in exchange. | Sales. | TOTAL. | Balance. |
|---|---|---|---|---|---|---|---|---|---|---|
| STEAM. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. | Tons. |

The sales to the public or other railways during these five years were thus 51,410 tons of steam coal. From this quantity, however, may be deducted 18,502 tons *purchased* from the coal companies in 1880 and 1883, leaving only 32,908 tons of steam coal sold in five years, or 6,581 tons per annum on an average.

The outturn of steam coal from the collieries during the same period averaged 193,104 tons per annum, while the issues for the company's own consumption during the same period were about 187,662 tons per annum; so that, leaving out of consideration the stock balances but adding the sales of steam coal, we find that the output of steam coal from the mines has not on an average been more than 6 per cent. in excess of requirements—a very satisfactory result as all those who are called upon to frame estimates must admit.

The stock of steam coal in hand during the same period has averaged 40,542 tons, of which 10,981 tons were at the collieries. There were thus about 59 days' supply at the fuel stations on the East Indian Railway and branches, and 21 days' supply at the collieries:

6. In the foregoing calculation, I have not taken into account certain quantities of steam coal issued to the New Beerbhoom Coal Company in exchange for their coal, but as these transactions have been referred to in paragraph 11 of the memorial under consideration, and also in paragraph 3 of your further letter No. 129 R. T., dated 14th ultimo, I now proceed to show that, so far from being, as the memorialists describe them, "transparently colorable evasions of the orders of government" prohibiting the East Indian Railway Company from entering the coal market as dealers, they are in the words of the Marquis of Hartington himself, "*not* inconsistent with the terms of His Lordship's Railway Despatch No. 81, dated 16th June 1881" which presumably are the "orders alluded to." For "coal is," still quoting his Lordship's language, (when Secretary of State for India—see Despatch No. 1 of 5th January 1882), "exchanged for coal on fair terms, and the quantity of coal raised from the Railway Company's collieries is in no way affected by the transaction." The exchange was begun in 1881, the total receipts in four years being 97,067 tons at Asansol and the total issues being 78,140 tons at Giridih; the New Beerbhoom Company giving 1,143 tons of their steam coal in exchange for 1,000 tons of Kurhurbaree (railway) coal, the greater quantity of the former being given to make up for its less power in raising steam. The Railway Company thus gets this other coal at a large engine station, to which place an equivalent amount of its own coal would have to be led from Giridih, *a distance of 74 miles*, and so saves carriage; it also secures the freight between Giridih and Madhupur junction, 23 miles, of the coal sent up-country by the New Beerbhoom Coal Company; while at the same time it may lose the freight between Asansol and Madhupur junction, 51 miles, of that quantity of Beerbhoom coal which might otherwise be despatched from Asansol up-country. This arrangement is also advantageous to the New Beerbhoom Coal Company, as the latter obtain good coal at Giridih and save carriage over 51 less 23 or 28 miles.

The Bengal Coal Company and the Raniganje Coal Association, who possess coal mines at Giridih, do not approve of this exchange, as it places the New Beerbhoom Coal Company in a position to sell the coal thus acquired to the public on equal terms with themselves; but to say that by means of this system the East Indian Railway Company "is in the habit of selling large supplies of its coal indirectly to the up-country railways," is a perversion of facts; for the Company, if it can be called a dealer, is likewise a *purchaser* to the same extent, both the payments and receipts being not in money but in kind. The transaction by direct exchange is legitimate and equitable, not one ton of coal for this purpose has to be raised in addition to the ordinary requirements of the railway, and the objections made arise simply from the desire to prevent the new Beerbhoom Coal Company from competing in the same market.

7. Turning now to the question of the disposal of coal not suitable for use on locomotive and the products from such coal, we find that the Railway actually uses all it possibly can, as will appear from the following facts:—

(1) 22,188 tons of hard and soft coke have been made annually from the refuse or slack coal, out of which quantity 20,068 tons have been burnt in locomotives instead of steam coal, thus reducing the quantity of steam coal raised by an equivalent amount every year. It will be noted that the consumption of coke on the railway has increased from 14,467 tons in 1880 to 22,672 tons in 1884.

The total quantity sold to the public during these 5 years has been 10,758 tons, or an average of 2,151 tons per annum. The excess of coke manufactured over consumption has thus been about 10 per cent.

(2) 14,076 tons of rubble coal have been raised annually against 10,301 tons consumed on the railway and 4,039 tons to the public. It

will be noted that the railway consumption of this article has increased from 507 tons in 1880 to 18,207 tons in 1884. The Locomotive Department now takes four waggons of rubble coal in every train of steam coal, in other words $\frac{1}{10}$th rubble is burnt with $\frac{9}{10}$ths steam coal.

(3) 26,341 tons of smithy coal have been raised annually, out of which 14,714 tons have been consumed on the railway, and 17,202 tons have been sold to the public. Smithy coal is used partly in the railway workshops and partly for conversion into soft coke, each ton of the latter representing $1\frac{1}{4}$ tons of the former.

(4) 52,534 tons of the slack or refuse coal have been raised annually against 41,337 tons consumed on the railway, and 350 tons sold to the public. Slack coal is used on the railway chiefly for conversion into the hard coke, each ton of the latter representing $2\frac{1}{2}$ tons of the former. The Engineering Department also use it for burning bricks.

It will be noted that there was a balance of slack on the books of 59,387 tons on the 1st January 1880, and that a deficiency of 59,180 tons was written off to profit and loss in 1883. Great waste of this article goes on from exposure to sun, wind, and rain and from petty pilfering of all hands.

8. The quantity of these inferior descriptions of coal used by the Undertaking is thus being steadily increased, and as the small surplus sold to the public is offered fairly in the market at reasonable and profitable rates, determined in *every* case with the approval of Government, the interest of the other collieries cannot be seriously affected.

9. As the East Indian Railway Company is making every endeavour to utilise all its raisings, no better assurance could, I think, be given to the proprietors of private collieries that it has no wish to participate in their trade, or supplant them in their business. The Company's officers are fully alive to the fact that their collieries are exhaustible, and it is very improbable that, with a lease of 45 years still before them, they would be so imprudent as to *court* a failure of the supply by raising larger quantities of coal than they really need for current wants, in order to raise their revenue by a few thousand rupees a year.

10. The idea of calling the sale of a few thousand tons of surplus coal annually from the East Indian Railway Collieries,—State competition with private enterprise,—is preposterous. A regular outturn of coal is indispensable for the efficient and economical working of the mines, and if the railway traffic fluctuates and causes variation in the consumption, a surplus of steam coal must occasionally arise. As coal cannot be kept long in the open air in a tropical climate exposed to the sun and rain without deterioration, either the occasional excess must be sold off at once, or if kept for use, the outturn must be decreased and become irregular to the detriment of working the mines, and the East Indian Railway would have to burn spoilt coal in larger quantity at an increase of expense.

11. So long as the average yearly outturn from the East Indian Railway Collieries is kept within moderate limits, there can be no real ground of complaint on the part of the coal mining companies, and if the statement made in the commercial article of the *Pioneer* newspaper of the 3rd ultimo, to the effect that the Bengal Coal Company have declared a dividend of 12 per cent. on the operations of the past year be true, they evidently have not suffered from what they are pleased to call State competition.

12. I wish to lay some stress on the fact that the raising of steam coal is the backbone of colliery work and on the disadvantage which the collieries would experience if, after the annual requirements of steam coal are estimated, any sudden reduction of outturn should be determined upon. When the work of mining is in full swing, the Manager could not diminish the rate of outturn to a much lower figure, without seriously injuring the colliery in respect of

labour. Even in England miners possess what almost amounts to a natural monopoly of the trade, and in India, as the memorialists themselves urged in 1881, "once miners are dispersed, it will be difficult to get them together again, or to get them at all on short notice." The suggestion therefore to work off surplus steam coal by reduction of the monthly winning, instead of selling it to the public, involving as it would do, restrictions in the outturn of coal and in the labour employed, would, if carried out, be extremely detrimental to economical working, would cause great uncertainty and distress among the coolies, and would tend to raise the price of labour.

13. It only remains to notice the prices at which the surplus coal has been sold to foreign railways and to the public. These are fixed so as to yield a fair margin of profit, and have in every instance been submitted for the approval of the Government of India as required in Clause 3 of the colliery agreement. The accompanying table recorded *in res* 28 of East Indian Railway Meeting No. 1, dated 8th January 1885, is a fair example of the sale prices. The rates for coal demanded by the Coal Companies vary so much that it has not been found possible to follow any ordinary market prices.

It is evident that the more favourably all surplus stock can be disposed of, the cheaper will the coal required for the Company's own use be to it, and the more will it be in its power to reduce the rates of carriage, to the benefit of the public, including both the producers and the consumers of coal.

No. 99R., dated 6th August 1885.

From—The Secretary of State for India,
To—The Government of India.

Coal transactions of the East Indian Railway Company.

Your Excellency's Railway letter No. 59, dated the 18th May 1885, regarding the coal transactions of the East Indian Railway Company, has received my consideration in Council.

2. The point calling for action in this country owing to receipt of your letter was the existing practice of exchanges of coal between the East Indian Railway and the new Beerbhoom Coal Companies, and you will learn from the accompanying correspondence* that it has been decided that the practice in question must be discontinued, as one opposed to the terms of the agreement between Government and the East Indian Railway Company, and that the necessary communication to that effect has accordingly been made to the Company.

* Letter to East Indian Railway Company, dated 26th June 1885.
Ditto from ditto, dated 17th July 1885.
Ditto to ditto, dated 6th August 1885.

3. I am glad to learn from your Excellency's letter that you have issued the necessary instructions to prevent any irregular sale to other railways of surplus coal by the East Indian Railway Company.

---

No. 1034-85 P. W., dated 26th June 1885.

From—Lord Harris, Under-Secretary of State for India,
To—The Secretary to the East Indian Railway Company.

I am directed to transmit herewith copies of documents which have recently been received from the Government of India, relating to complaints made of the action of the East Indian Railway Company in respect to the disposal of their coal in India.

It will be observed that the Government of India have issued such orders as will obviate any cause of complaint so far as the sale of surplus coal by the Company is concerned, but there remains the question of exchange of coal with the New Beerbhoom Coal Company, or any other Company similarly situated, and before taking this point into his consideration the Secretary of State will be glad to be furnished with any observations which your Board may have to make on the matter.

No 92, dated 17th July 1885.

From—A. P. DUNSTAN, Esq., Secretary to the East Indian Railway Company,
To—The Under-Secretary of State for India.

I am instructed to acknowledge the receipt of Lord Harris's letter of the 26th July, transmitting copies of documents, lately received from the Government of India, on the question of the exchange, by this Company, of coal with the New Beerbhoom Coal Company, and asking for any observations the Board may have to make on the matter.

In reply I am desired to say that the parties interested in the question under reference are :—

(1.) The East Indian Railway Undertaking.
(2.) The two Kurhurbaree Coal Companies,
(3.) The New Beerbhoom Coal Company;

the fields of (1) and (2) being at or in the neighbourhood of Giridih, miles 206—8 from Howrah; and of (3) in the neighbourhood of Raneegunge, miles 120 from Howrah.

In 1881 it appeared to the Locomotive Superintendent of this railway that it would be advantageous to his department, in the saving of transport charges when stocking with coal the stations at the lower end of the line, if an arrangement were entered into with the New Beerbhoom Coal Company for mutual exchange of coal, and thereupon that Company undertook to supply their coal to the Railway Company at Asansol (miles 132 from Howrah) in exchange for 12½ per cent. less of Kurhurbaree coal delivered by the Railway Company to them at Giridih.

This arrangement saved to the East Indian Railway Undertaking the carriage of coal from Giridih to Asansol, a distance of 74 miles, and as, during the year 1881, 48,000 tons of coal were thus exchanged (with the approval of the Government), a saving to the Undertaking during that period of over 3,400*l.* was effected. Four-fifths of this amount, or 2,720*l.*, is received by the Government to the benefit of the Indian taxpayer.

As to the allegation of the Kurhurbaree Coal Companies that, in exchanging coal with the Raneegunge Coal Company, the Railway Company is "in the habit of selling indirectly to the up-country railways large supplies of its coal," the Board desire me to say that the arrangement above indicated does not involve the raising by the Railway Company of a single ton of coal in excess of the quantity that would be raised if no such arrangement existed. In the latter case the Railway Company would simply send the same 48,000 tons of coal down the line, although at a cost, as shown above, of over 3,400*l.* for transport.

But the Kurhurbaree Coal Companies urge that by giving the New Beerbhoom Company coal at Giridih, where their (the Kurhurbaree Companies') fields are situated, the Railway Company enables the New Beerbhoom Coal Company to compete with them for the trade of Upper India in Kurhurbaree coal.

This may be so; still the general coal interests of India are not prejudicially affected. That which one Indian Coal Company loses, another Indian Coal Company gains, and as it is not contended that the Government of India are the protectors of the Kurhurbaree Coal Companies only, the Board fail to see the equity of the proposal to restrict the output of the New Beerbhoom Coal Company by over 54,000 tons a year, and to impose an avoidable charge of over 3,400*l.* a year on the East Indian Railway Undertaking, with the further result of excluding the New Beerbhoom Coal Company to the extent of 48,000 tons of coal a year from the trade of Upper India, to the advantage of the Kurhurbaree Coal Companies to a corresponding extent, and to the disadvantage of the consumer.

The Marquis of Hartington, when Secretary of State for India, appears to have decided, in a Despatch which the Board have not had the advantage

of seeing, that the exchange in question is warranted under the circumstances, and the Officiating Advocate General, Calcutta, has expressed the opinion that "the exchange in question is not open to objection on the ground" that it gives the New Beerbhoom Coal Company, who do not own a colliery at Giridih, an unfair advantage in the competition for the up-country business with other coal companies who do own collieries there, by multiplying the natural advantage possessed by the latter in a short lead. To this might have been added that the consumers in Upper India are, doubtless, materially benefited by the introduction of a third competitor for their custom in the trade of Kurhurbaree coal.

The Board apprehend that the contention of the Officiating Advocate General that the exchange of these coals is of the nature of barter, and therefore of sale, weighs with the Government of India in constraining them to refer the matter to the Secretary of State. On this point, the Board would observe that however much "barter"—which is defined by an admitted authority to be "the exchange of one commodity for *another*,"—may be a rudimentary form of sale, the exchange in question, of one commodity for a similar commodity, does not come within the definition either of barter, which is defined as above, or sale, in which money is paid for the commodity transferred.

The Board submit that there are no grounds on which the Secretary of State can reasonably be asked to terminate the arrangement.

---

No. 1300-85 P. W., dated 6th August 1885.

From—J. A. GODLEY, Esq., Under-Secretary of State for India,
To—The Secretary, East Indian Railway Company.

I am directed to acknowledge receipt of the Board's letter No. 92, dated the 17th July 1885, urging reasons for a continuance of the existing practice by which coal is exchanged between the East Indian Railway Company and the New Beerbhoom Coal Company.

The Secretary of State for India in Council has given full consideration to the representations made by the Board.

The practice in question is, no doubt, beneficial to the East Indian Railway Company, but Lord Randolph Churchil, as well as the Government of India, is advised that it is opposed to the terms of the agreement between Government and the Company.

His Lordship, therefore, is unable to avoid the conclusion that the opinion expressed in Lord Hartington's Railway Despatch to the Government of India, No. 1, of the 5th January 1882, in an opposite sense cannot be sustained, and he regrets that he feels compelled to inform the Government of India that in future nothing should be done directly or indirectly in the way of selling coal to Coal Companies or others, except as arranged under Clause 3 of the Colliery Agreement.

GOVERNMENT OF INDIA.

DEPARTMENT OF FINANCE AND COMMERCE.

## PRICES CURRENT OF FOOD-GRAINS THROUGHOUT INDIA FOR THE 1st HALF OF AUGUST 1885.

*N. B.*—As regards the figures in column "*Total receipts from 1st April to date,*" audited figures have been availed of as far as possible.

(a) Return not received.
(b) Total receipts from 1st April to 9th August 1884.
(c) Total receipts from 1st April to 8th August 1885.
(d) Including Rewari-Ferozepore State Railway.
(e) Total receipts from 1st April to 1st August 1885.
(f) Of this length 40·5 miles are opened for passenger and goods traffic and the remainder for goods traffic only. The calculations are based upon total mileage.
(g) Total receipts from 2nd April to 16th August 1884.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 9th SEPTEMBER 1885.

GENERAL REMARKS.—In Madras rain in varying quantities has fallen in all districts, but more is urgently needed in several places, especially in Bellary, Coimbatore, Madura, and Salem. The reports from Bellary are very discouraging. Rain continues to hold off in Mysore; crops are generally reported to be withering, agricultural operations are at a standstill, and the prospects of the dry crops are critical and entirely dependent on a very early fall of rain. Fodder is becoming scarce, and the migration of cattle from Kolar into British territory is reported. In Coorg prospects continue favourable.

Slight rain has fallen throughout the Bombay Presidency, excepting Sind; but more is urgently required in several parts of the Deccan and Southern Mahratta Country, where fodder is scarce. In parts of Poona, Ahmednagar, Dharwar, Bijapur, and Belgaum the crops are withering for want of rain. They have been injured by floods and insects in parts of Karachi, by blight and worms in parts of Hyderabad, and by excessive rain in parts of Surat. In the Berars and Hyderabad rain is wanted for the standing crops, which are at present doing well. Rain has fallen generally throughout the Central India States, and the crops are doing well. In Manpur, however, rain is much wanted. In the Rajputana States rain has been almost general, and prospects are satisfactory.

In the Central Provinces agricultural prospects continue good; but more rain would be beneficial in Nimar and the southern districts, where the break has been of long duration. In the North-Western Provinces and Oudh rain has fallen in several districts; but a break has set in to the advantage of the crops, which have already suffered from excessive rain. Prospects are, on the whole, good. Moderate rain has fallen in most parts of the Punjab, and *kharif* prospects are generally good.

In Bengal rain has fallen in all districts, and a break is now much needed for the crops. Excessive rain and floods have caused considerable damage in parts of Burdwan and the Presidency Divisions, and some injury to the *bhadoi* crops in places in Behar and Chutia Nagpur. Seasonable weather prevails in Assam, where agricultural prospects are generally good.

In British Burma ploughing and transplanting have been nearly completed.

Cholera continues in the Madras and Bombay Presidencies and in Raipur in the Central Provinces, and in some districts of the North-Western Provinces. Elsewhere the public health is generally fair.

Prices are rising in Bengal and Mysore; in the Punjab they are falling, and elsewhere they are generally steady.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Sept. 9th)** | | |
| Bellary ... | ·18 (average) | Dry crops generally withering. Caterpillars prevailing in parts of Hospet. Wet crops under channels moderately good; early crops have withered almost everywhere, excepting parts of Raidrug and Adoni. Heavy rain urgently required for sowing later crops. Harvest *cholum* under wells in Bellary, outturn below average. Paddy in Hospet, yield average. Migration reported from Bellary, Alur, and Hadgalli. 9 deaths from cholera. |
| Kurnool ... | ·12 ( „ ) | Standing crops good, except in parts where they wither for want of rain. Cattle-disease in one taluk; 1 death from cholera. |
| Ganjam ... | 1·22 ( „ ) | Seedlings withering in Berhampore and Surada for want of rain. Cattle-disease in Berhampore taluk; 84 deaths from cholera. |
| Kistna ... | ·39 ( „ ) | Standing crops withering. River 4·6 feet over anicut. Cattle-disease in Guntur taluk; fever and small-pox in parts; deaths from cholera unreported last week 22, this week 22. |
| Chingleput (Madras) ... | ·23 ( „ ) | Standing crops generally good, but withering in parts; harvest *cumba* in Saidapet, outturn below average. Small-pox in Trivellore and rinderpest in Ponneri. |
| Coimbatore ... | ·235 ( „ ) | Standing crops generally good, but want rain in parts; harvest *cholum*, *ragi*, and *cumbu* in parts, outturn about average. Fever and small-pox in parts; cattle-disease in one village; 11 deaths from cholera. |
| Tanjore ... | 1·27 ( „ ) | Standing crops generally good, but the dry crops are still in critical condition for want of rain; harvest dry crops, outturn below average. 19 deaths from cholera. |
| Madura ... | ·95 ( „ ) | Crime increasing. Emigration commenced on a small scale. Fever prevalent. |
| Malabar ... | ·12 ( „ ) | Rain required for second crop cultivation. Small-pox and cattle-disease in five taluks, and fever in two; 7 deaths from cholera. |
| Travancore ... | *Nil* | Harvesting busy, yield good. Fever prevalent. |
| | | *General Remarks.*—General prospects discouraging in Madura, Coimbatore, and Salem, especially so in Bellary. More rain urgently needed in several districts besides these. |
| **Bombay—(Sept. 9th)** | | |
| Karachi ... | *Nil* | River at Kotri on 7th, 19 feet 4 inches against 18 feet 3 inches on same date last year. Damage to *kharif* crops in Ghorabari taluka owing to inundation, and *eura* insects in Mirpur Botoro taluka. Fever in six and cattle-disease in one taluka; 10 cases of cholera in Karachi city, 7 deaths, and in Johi 48 cases, 14 deaths. Prices of wheat, red rice, and *bajri* in Karachi 24, 34 and 32; in Ghorabari 22, 38 and 36; in Jati 26, 42 and 42; and in Dadu 32, 34 and 38 pounds per rupee, respectively. |
| Hyderabad ... | *Nil* | *Kharif* cultivation good; *til* crops attacked by disease in Tando Allahyar taluka and in Shahdadpur taluka; *til* crops total failure in Sakrand taluka; *jwari* crops attacked by worms. River at Kotri on 7th, 19 feet 4 inches against 18 feet 3 inches on same date last year. Fever in seven and cattle-disease in two talukas. Prices of grain steady. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay**—*contd.* | | |
| Ahmedabad ... | ·09 | Total rainfall 21·40. Crops doing well. Cholera in the city, 5 cases, 3 fatal; in Dholka 8 cases, 2 fatal. Wheat 38 and *bajri* 32 pounds per rupee. |
| Baroda ... | ·44 | Total rainfall 21·42. Crops in good condition. Prices—*bajri* 27, wheat 27, and rice 21 pounds per rupee. |
| Surat ... | Maximum in Jalalpur, 3·19; minimum in Mandvi, ·81. | *Juari* and cotton crops injured in places by excessive rain; rice and other young crops are healthy. Cattle healthy; cholera in Mandvi taluka, 19 cases, 5 deaths; fever and cough in Bardoli, Chikhli, and Pardi talukas. *Juari* 36 and *nagli* 44 pounds per rupee. |
| Nasik ... | Nasik, ·26; Igatpuri, 3·24; Dindori, ·59; Niphad, ·08; Chandor, ·15; Nandgaon, ·23; Kalvan, ·36; Peint, 1·67; Sinnar, Yeola, Malegaon, and Baglan, *nil*. | Rain wanted throughout the district. Transplantation of rice, *nagli*, and *vari* completed; sowing of *kharif* crops completed; crops healthy; want of fodder still felt in Yeola, Malegaon, Niphad, eastern part of Chandor, and Sinnar. Cholera in Sinnar, Dindori, Niphad, Malegaon, and Nandgaon, total attacks 50, deaths 28; fever in a few villages in Sinnar and Nandgaon. Wheat 33, *bajri* 29½, and rice 20¼ pounds per rupee. |
| Colaba (Bombay) ... | Rain every day; total of week, 1·02. | Total rainfall 53·31, being 7·70 below average. Average abnormal temperature *nil* on all days, except the 2nd, when it was 1° warm, and the 5th, when it was 2° cool; vapour in air normal; abnormal wind southerly from 3rd to 5th; wind normal in all other days. |
| Poona ... | Rain ·70 in Maval taluka only. | More rain wanted throughout the district. Young crops withering in three eastern talukas, and scarcity of fodder felt in Bhimtrali, Indapur, and Sirur. 60 cholera cases in three talukas, 25 deaths. Prices—of *bajri* 28 and *juari* 37; in Poona *bajri* 28 and *juari* 33 pounds per rupee. |
| Ahmednagar ... | Jamkhed, 2·01; Kopargaon, ·60; Sheogaon, ·49; Rahuri, ·30; Newasa and Shrigonda, ·13; Akola, ·05; Parner, ·03; none in the rest. | *Kharif* crops are so far good in Jamkhed and Akola, fair in Kopargaon, Sangamner, and Parner, and withering in Sheogaon, Shrigonda, Nevasa, Nagar, Karjat, and Rahuri. Rain urgently wanted everywhere. Want of fodder severely felt in Kopargaon, Sangamner, and Parner. Slight cattle-disease in Sangamner; cholera 75 attacks, 45 deaths; slight fever in Akola. *Bajri* from 35 to 42 and *juari* from 42 to 60 pounds per rupee. |
| Sholapur ... | Sholapur, ·37; Barsi, ·51; Madha, ·57; Karmala, ·09; Pandharpur, ·63; Akalkot, ·37; none elsewhere. | Rain urgently required for the *kharif* crops and for *rabi* sowings; some good has been done by showers which have fallen in some talukas. The wells in *bagayat* land have failed. Want of fodder is telling on the cattle, and in Karmala and Pandharpur people have begun to take their cattle away in search of grass; *karbi* is sold at from Rs. 12 to Rs. 16 a maund. *Juari* 43 pounds 11 tolas and *bajri* 29 pounds 92 tolas per rupee. Cholera 45 cases, 11 deaths. |
| Dharwar ... | Kalghatgi, 1·03; Bankapur, ·57; Hangal, ·39; Karajgi, ·30; Mugud, ·23; Nargund, ·20; Dharwar, Hubli, and Kod, below ·14; Navalgund, Gadag, Ranibennur, and Ron, *nil*. | Heavy rain urgently required throughout the district. Cotton sowing in progress, where there has been some moisture; rice crops in Karajgi and Kod and *juari* in Navalgund, Gadag, Karajgi, and Ron are suffering from drought; scarcity of fodder severe in Mundargi petha, Navalgund, and Ron talukas. Slight cholera in three talukas. Prices average rice 25 and *juari* 40 pounds per rupee. |
| Kanara ... | Rain up to 6th in Karwar, 92·29; Kumpta, 3·63; Sirsi, 1·05; Haliyal, ·27. | Crops good. Dysentery in Honore; fever in two talukas, and cattle-disease in four. Common rice at Karwar 13 seers, district average 13½ seers per rupee. |
| Rajkot ... | ·20 | Total rainfall 27·45. Weather warm and cloudy. Crops good. Public health generally good. *Bajri* 32 and *juari* 45 pounds per rupee. |
| | | *General Remarks.*—Slight rain throughout the Presidency, excepting Sind; more required urgently in several talukas of the Deccan and Southern Mahratta Country, districts and in parts of Kaira. Crops withering in parts of Poona, Ahmednagar, Dharwar, Bijapur, and Belgaum, and damaged by floods and insects in parts of Karachi, by blight and worms in parts of Hyderabad, and by excessive rain in parts of Surat; fodder scarce in parts of most districts in the Deccan and Southern Mahratta Country. Cholera in parts of sixteen, fever in parts of ten, and cattle-disease in parts of eight districts. |
| **Bengal**—(Sept. 9th) | | |
| Chittagong ... | 11·60 | Prospects generally fair; outturn of *aus* 8 annas; transplanting of *amun* continues. Prices steady. Cholera and cattle-disease continue. |
| Dacca ... | *Nil* | Prospects of crops good; *aus* harvest nearly completed; cutting of jute proceeding. Public health generally good. |
| 24-Pergunnahs (Calcutta) | 2·65 | Owing to accumulation of rainwater prospects of *aus* have become somewhat gloomy, and those of *amun* on low lands very uncertain. Common rice 10 to 13 seers per rupee. Public health good, though usual fever reported. |
| Moorshedabad ... | 3·29 | Prospects of *amun* rice on high lands good, but most of *aus* rice destroyed by floods; *amun* in Sadar has also suffered from floods. Common rice 10 to 11½ seers per rupee. Public health fair, but fever prevalent in places. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| Burdwan ... | ·84 | Much damage done by inundation in Culna and Cutwa subdivisions. Crops on high lands promising. Price of rice 10¼ to 14 seers per rupee. Health good. |
| Rungpore ... | 7·78 | Weather cloudy. Harvesting of *aus* almost over; *amun* benefited by the rain. Prices stationary. Fever and bowel-complaints prevalent. |
| Bhagalpur ... | 13·87 | Prospects of rice crops in north improved by rain, in south heavy rain and floods continue to do harm to *bhadoi*. Cholera still bad in Banka. |
| Purneah ... | 3·60 | *Bhadoi* and *aghani* crops good; transplanting almost over. Common rice 16 seers per rupee. Health good. |
| Patna ... | 3·64 | Transplanting of paddy still continues; *makki* and *kanni* promising. Cholera prevails in the district, but not in an epidemic form. |
| Durbhunga ... | 9·21 | *Bhadoi* being harvested; sufficient rain for paddy cultivation. A break in the weather necessary. Prices stationary. Public health generally good. |
| Hazaribagh ... | 5·32 | Weather seasonable. Abundant and general rain. *Bhadoi* damaged in places; rice and other crops promise well. Cholera still prevalent in many places, and small-pox reported from a few villages. |
| Cuttack ... | ·87 | Weather hot and clear. Early rice being cut, outturn fair; late rice being weeded, but requires rain. Prices of rice very high. Common rice 11 seers per rupee in town and 18 seers in interior. Public health good. |
| Midnapur ... | ·09 | Weather seasonable. Floods subsiding, but much damage caused in almost every part of the district. Fever begins to be prevalent. |
| Khoolna ... | 2·38 | Weather cloudy and rainy. *Aus* paddy being harvested, outturn good; transplanting of *amun* continues. Prices of rice risen Public health fair. |
| Dinagepore ... | 9·98 | Heavy rain throughout district. Jute and *aus* harvest continuing; cultivation of late rice progressing; new rice coming to market. Average price of rice 16 seers per rupee. A few cases of cattle-disease and cholera reported, otherwise public health good. |
| Pubna (Serajgunj) ... | 5·63 | Rivers risen again slightly. Jute almost harvested; *amun* doing well. Public health good. |
| Gya ... | 8·30 | Prospects of crops good; *bhadoi* being harvested. Prices easy. Public health good. |
| Chumparun ... | 10·31 | Sunshine needed. Prospects of crops continue good. Prices fallen slightly. Cholera abated in Motihari, but still prevails in Bettiah and in the interior. |
| | | *General Remarks.*—Rain in all districts during the week; a break or fine weather is now much needed for all crops in many districts; excessive rain and floods have caused considerable damage in parts of Burdwan and Presidency Divisions, and some injury to *bhadoi* crops in places in Behar and Chota Nagpur, elsewhere prospects of crops are favourable. Price of rice rather higher in several districts. Public health continues generally fair, but fever is appearing in some districts. |
| **N. W. Provinces and Oudh**—(Sept. 10th) | | |
| Benares (Sept. 8th) | 2·80 | Prospects fair. Prices falling. Health generally good. |
| Gorakhpore ( „ 7th) | Good rain throughout the greater part of the week. | Crops promising. Prices slightly rising. Cholera has almost disappeared in south, but spreading elsewhere. |
| Fyzabad ( „ 8th) | 1·40 rain at Sadar during the week. | *Kharif* prospects good. Cholera still reported in all parts of the district; health of cattle fair. |
| Lucknow ( „ 7th) | *Nil* | Weather fair. Harvesting of *sawan, kakun, mandwa, &c.*, commenced; other *kharif* crops are nearly ripe; sowing of *hewat* crops continues. Supplies ample. Prices steady. Cholera decreasing in the city, condition of cattle good. |
| Rae Bareli ( „ „ ) | *Nil* | Break in the rains at last with strong west wind. Prospects of crops generally fair. Markets well supplied. Prices steady. Cholera continues; cattle-disease reported in two tahsils. |
| Partabgarh ( „ 8th) | *Nil* | Much less rain throughout the district. A large area of land being ploughed for the *rabi*; prospects, on the whole, very good; but in Patti tahsil *juari* has been attacked by insects. A few cases of cholera in Kunda and Partabgarh tahsils. |
| Allahabad ( „ „ ) | 0·50 average at the commencement of the week. | Break set in. *Juari* and cotton slightly injured by previous heavy rain, otherwise crops good. Markets well supplied. Prices steady. Occasional cases of cholera and mild fever still reported, otherwise health generally good. |
| Cawnpore ( „ 7th ) | General rain during the week. | Fine weather for the three days, and sky now clear. *Kakun, sawan* and maize being cut; complaint general that crops have been more or less injured by the recent heavy rains, especially *juari* and cotton. Prices steady. Fever prevalent; cattle-disease in two parganas, severe in one. |
| Banda ( „ „ ) | Slight rainfall | Numerous breaks, which have considerably benefited the crops; prospects improving. Prices steady. The usual autumnal fever prevalent everywhere; condition of cattle excellent. |
| Ballia ( „ 8th) | *Nil* | Heavy rain causing damage; break will benefit crops. Cholera abating, 42 deaths. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh—*concld.*** | | |
| Farakhabad (Sept. 8th) | 0·80 (average) | A fine break, with west winds. Crops reported to be damaged by excessive rain. Cholera still prevalent, especially in city and suburbs. |
| Sitapur ( „ „ ) | *Nil* | A break has established itself and a strong west wind prevails; satisfactory accounts from all but Biswan tahsil, where floods have done much damage in the low lands; and cattle-sickness is reported. |
| Bareilly ( „ „ ) | *Nil* | Crops not damaged by rains, doing very well; early rice being cut. Prices steady. Slight fever prevalent; no cattle-disease. |
| Kumaon ( „ 7th) | Slight showers occasionally. | Weather fine. Crops ripening; prospects fair. Prices stationary. Health fair; cattle-disease still prevalent. |
| Agra ( „ „ ) | Rain in five parganas, 0·10 to 1·40. | Good break during the week, which was much needed. Prices steady. Cholera slight; fever spreading. |
| Jhansi ( „ „ ) | *Nil* | Rains doing much damage to cotton and *juari*. Slight fever in two parganas and cattle-pox in one village. |
| Meerut ( „ 8th) | *Nil* | Fine weather, with westerly winds, during the week. Prospects of *kharif* crops greatly improved; *rabi* sowings commenced; supplies sufficient. Prices stationary. Health fair. |
| | | *General Remarks.*—Rain has fallen in some districts; a break has set in to the advantage of crops which have already suffered from excessive rain. Prospects are, on the whole, good. Markets are well supplied, and prices generally steady. Cholera continues to be reported from a few districts. |
| **Punjab—(Sept. 9th)** | | |
| Hissar (Sept. 8th) | *Nil* | Health fair. *Kharif* flourishing; *rabi* ploughing commenced. Prices falling. |
| Delhi ( „ „ ) | *Nil* | Health fair. Prices almost stationary. |
| Umballa ( „ „ ) | ·20 | Health fair. *Kharif* prospects good. Prices stationary. |
| Jullundur ( „ „ ) | ·30 | Health good. *Kharif* prospects fair. Prices falling. |
| Ferozepore ( „ „ ) | ·30 at Moga and 1·10 at Tila. | Health good. *Kharif* prospects much improved. Prices stationary. |
| Amritsar ( „ „ ) | ·80 | Health and crops good. Prices stationary. |
| Sialkot ( „ „ ) | 2·0 | Health good. Harvest prospects fair. Prices stationary. |
| Lahore ( „ „ ) | Rain wanted | Health good. Prices almost stationary. |
| Mooltan ( „ „ ) | *Nil* | Health and *kharif* crops good. Prices almost stationary. |
| Rawalpindi ( „ „ ) | 1·20 | Health good. *Kharif* prospects fair. Prices almost stationary. |
| Shahpur ( „ „ ) | Rain general | Health good. Prices almost stationary. |
| Dera Ismail Khan ( „ „ ) | ·26 | Health good. Prices stationary. |
| Peshawar ( „ „ ) | Slight fever | *Kharif* prospects good. Prices almost stationary. |
| | | *General Remarks.*—Moderate rainfall in most districts. Health and *kharif* prospects generally good. Prices falling in the Hissar and Jullundur districts; stationary elsewhere. |
| **Central Provinces—(Sept. 9th)** | | |
| Nagpur ... | ·02 | Weather cloudy and hot. Crops flourishing; weeding continues; *rabi* ploughings commenced. Fever and small-pox prevalent; cattle-disease in parts. Prices risen. |
| Jubbulpore ... | ·62 | Weather favourable. Cotton plants healthy; *til* sowing in hand. Cholera decreasing. Prices stationary. |
| Saugor (Sept. 8th) ... | ·83 | Weather clear and sunny. Weeding operations and *rabi* preparations progressing; prospects fair. Health good. Prices stationary. |
| Seoni ... | ·52 | Weather clear. Prospects good; weeding completed; *rabi* ploughings commenced. Slight cholera and cattle-disease. Prices steady. |
| Hoshangabad ... | *Nil* | Weather clear. Prospects fair; weeding continues. Fever in places; 80 cases of cholera, 48 deaths. Prices stationary. |
| Khandwa ... | *Nil* | Days warm, with occasional clouds; rain much wanted. Prospects good. 18 cases of cholera, 14 deaths. Wheat 20, rice 13, and *juari* 26 seers per rupee. |
| Raipur ... | ·45 | Weather clear. Prospects excellent; *rabi* preparations progressing. 504 cases of cholera, 440 deaths. Wheat 31 and rice 23 seers per rupee. |
| Sambalpur (Sept. 5th) ... | 2·16 | Weather clear and showery alternately. Prospects good, especially cotton. Rain wanted in parts. Cholera and cattle-disease in places. Prices steady. |
| | | *General Remarks.*—Rain wanted in Nimar and in the southern districts, where there has been a long break; elsewhere there has been no deficiency. Prospects continue good. |
| **British Burma—(Sept. 9th)** | | |
| Akyab (Sept. 5th) | 4·16 | Total rainfall 164·93. Slight cholera in one circle; slight cattle-disease in town and three circles. Plants healthy. |
| Bassein ( „ „ ) | 3·75 | Total rainfall 100·38. Sporadic cholera of fatal type in three townships; cattle-disease still prevalent in one subdivision and three townships. Crops submerged in one township; other parts planting interrupted owing to bursting of bund. |
| Rangoon ( „ „ ) | 6·46 | Total rainfall 85·21. Public health good; cattle healthy. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **British Burma—*contd.*** | | |
| Amherst (Moulmein) (Sept. 5th) | 11·03 | Total rainfall 174·56. Public health good; cattle healthy. Transplanting progressing. |
| Tavoy ( „ „ ) | 2·92 | Total rainfall 174·47. Public health good; cattle healthy. General appearance of crops good. |
| Pegu ( „ „ ) | 7·01 | Total rainfall 97·83. Public health good. Ploughing, sowing, and transplanting progressing. Lowlying lands much affected by floods. |
| Henzada ( „ „ ) | 4·78 | Total rainfall 77·28. Cholera slight in one subdivision; cattle-disease slight in two townships. General appearance of crops good. |
| Prome ( „ „ ) | 1·91 | Total rainfall 24·87. Public health good; cattle-disease slight in one township. Ploughing and transplanting progressing. |
| Toungoo ( „ „ ) | 2·64 | Total rainfall 68·78. Slight cholera in town; cattle healthy. Ploughing and sowing progressing. |
| Thayetmyo ( „ „ ) | 2·11 | Total rainfall 25·19. Slight cholera in one subdivision; cattle healthy. Ploughing completed and sowing commenced. |
| | | *General Remarks.*—Cholera severe in one district, slight in three districts, elsewhere public health good; cattle-disease slight in seven districts, elsewhere health of cattle good. Ploughing and transplanting nearly completed. Rains seasonable. |
| **Assam—(Sept. 9th)** | | |
| Gauhati ... | 4·12 of rain during the week ending the 8th instant. | Weather rainy. Fevers very prevalent; cattle-disease still reported from some mouzahs. Transplantation of *sali* almost finished; prospects of all crops good. |
| Sylhet ... | 13·27 | State and prospects of crops fair. Public health as last week. |
| Cachar ... | 6·86 | Weather rainy. Outturn of *dumaki* and *murali* crops about one-eighth in excess of last year; transplanting of *sali* crops continues. Common rice 16 seers per rupee. General health good. Tea doing well. |
| Dibrugarh ... | 1·24 | Weather rainy. Transplanting of *sali dhan* nearly finished; land being prepared for pulses. |
| **Mysore and Coorg—(Sept. 9th)** | | |
| Bangalore | Insignificant showers nowhere exceeding 1·0 in all in two talukas of Tumkur and at Mysore. | Elsewhere rain continues to hold off and crops generally reported to be withering; agricultural operations almost at a standstill; prospects of the dry crops critical and the future entirely dependent on a very early fall of rain. Drinking-water failing, and fodder for cattle decreasing; leaves being used as fodder in parts of Bangalore, Tumkur, and Kolar. Crops the last-named district most [illegible] reported have reached their cattle into British territory. Distress poor; [illegible] prevailing [illegible]; cholera and fever in Mysore; elsewhere public health fair. Prices slowly rising. |
| Mysore | ·18 | Slight fall in period of fortnight. Prospects of season and public health good. |
| Mercara ... | | |
| **Berar and Hyderabad—(Sept. 9th)** | | |
| Amraoti ... | ·23 | Crops in good condition. Rain much wanted. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | ·19 | Weather cloudy. *Kharif* crops doing well, but require more rain. |
| Hyderabad ... | *Nil* | Break damaging standing crops. General health fair. Wheat 13¾, coarse rice 12½, white *juari* 18¾, yellow *juari* 22, and *tur* 15½ seers per current sicca rupee. |
| **Central India States—(Sept. 9th)** | | |
| Indore ... | ·18 | Mornings and evenings cool; day warm. Health good. |
| Morar (Gwalior) ... | ·62 | Total rainfall 29·44. Fever in *tashkar* and Morar. Prospects good. |
| Sutna ... | ·82 | Weather clear and hot. Cholera prevalent in many villages of the Rewah State. Prospects of crops fair. |
| Neemuch ... | *Nil* | Weather clear. Crops thriving. Health generally good. |
| Gooma ... | ·78 | [illegible] |
| Sehore ... | ·30 | Total rainfall 27·31. Weather cloudy. Prospects of crops improving. Cholera decreasing in Sehore city and cantonment, none in Bhopal. |
| Nowgong ... | 3·23 | Total rainfall 38·56. Weather clear. Prices falling. Health good. |
| Manpur (Bhopawar) ... | Not received | Rain much wanted throughout the agency. Tanks and wells almost empty. |
| **Rajputana—(September 9th)** | | |
| Abu (Sept. 9th) | ·08 | Weather occasionally cloudy, windy, and seasonable. |
| Sirohi ( „ 6th) | *Nil* | Tanks, wells, health, and crop prospects good. Weather cloudy; rain wanted. |
| Marwar ( „ 4th) | *Nil* | Jodhpore city tanks all full; wells filling up. Health good. Crops good. Weather clear and windy. Prices falling. |
| Kherwara ( „ 7th) | ·03 | Tanks and wells full. Crops very promising. Health good. Prices cheap. Weather fine; favourable break. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Rajputana**—*concld.* | | |
| Meywar (Sept. 5th) | *Nil* | Tanks and wells full. Crops in few districts slightly damaged by excessive rain. Health good. Prices low. Weather fine. |
| Pertabgurh ( „ „ ) | ·16 | Tanks and wells full. Crop prospects good. Health good. Prices cheap. Weather occasionally cloudy. |
| Harowti ( „ „ ) | *Nil* | Weather fair. Prospects and health good. |
| Jhallawar ( „ 4th) | ·14 | Health and prospects good. |
| Kotah ( „ 5th) | Previous week, 3·38 | Tanks and wells full. Crop prospects fair. Health good. Prices low. Heat moderate. |
| Ajmere ( „ 8th) | *Nil* | Weather seasonable. Health good. |
| Jeypore ( „ „ ) | *Nil* | Weather clear and seasonable. Prospects and health fair. |
| Kerowlee ( „ 5th) | ·11 | Tanks and wells full. Prospects good. Health good; slight fever. Prices falling. Weather seasonable. |
| Bhurtpore ( „ „ ) | ·43 | Tanks and wells full. Prospects good; crops on low lands have suffered much from late inundations. Health good. Prices steady. Fine weather. |
| Dholepore ( „ „ ) | ·51 | Tanks and wells full. Prospects average. Health good. Prices stationary. Weather seasonable. |
| Ulwar ( „ 8th) | *Nil* | Crop prospects good in three tahsils. Health good. Weather clear. |
| Bickaneer ( „ 5th) | *Nil*; Sujangarh, 4·40; in some districts also good rain. | Tanks and wells fair. Prospects good. Health good. Prices falling. |
| **Nepal—(Sept. 3rd)** | | |
| Khatmandu ... | 1·79 | Prospects good. Cholera ceased. |

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

RAILWAY TRAFFIC.

### RETURNS OF ACCIDENTS ON INDIAN RAILWAYS FOR THE 1st QUARTER OF 1885.

No. 810 R.T., dated Simla, 8th September 1885.

RESOLUTION—By the Government of India, Public Works Department.

Read again—

Public Works Department Resolution No. 840R.T., dated 9th September 1884.

Public Works Department Resolution No. 559R.T., dated 20th June 1885.

Read also—

Director General of Railways' No. 616T., dated 10th August 1885.

Abstract Returns of Accidents to trains, &c., on the open lines of Railway in India for the quarter ending 31st March 1885.

OBSERVATIONS.—As compared with the corresponding quarter of the previous year, the number of accidents to trains, rolling-stock, permanent-way, &c., shows an increase of 60 or 9·5 per cent. against an increase of 1,222 miles or 11·52 per cent. in the mean mileage open, and of 1,081,743 miles or 10·46 per cent. in the train mileage. The following are the Railways on which the numbers chiefly vary:—

| Railway. | Accident. | | | | Train mileage. | |
|---|---|---|---|---|---|---|
| | Increase. | Decrease. | Percentage of increase. | Percentage of decrease. | Percentage of increase. | Percentage of decrease. |
| Great Indian Peninsula | 33 | .... | 67·3 | ... | 21·4 | .... |
| Bombay, Baroda and Central India | ... | 16 | ... | 37·2 | 4·3 | ... |
| Darjeeling-Himalayan | ... | 14 | ... | 63·6 | ... | ... |
| Eastern Bengal | 59 | .... | 173·5 | ... | 30·0 | ... |
| Rajputana-Malwa | ... | 25 | .... | 25·0 | 6·0 | ... |
| Burma | ... | 10 | ... | 50·0 | ... | 2·6 |

2. Besides the above there were 20 accidents on the Southern Mahratta Railway, 11 on the Bengal and North-Western Railway, 5 on the Rohilkhand-Kumaon Railway, and 3 on the Bareilly-Pilibhit Railway. Of these lines a section of the Southern Mahratta (40½ miles) was only opened on 24th March 1884, and consequently no return was received for the first quarter of 1884, and the remaining three were not opened during this period.

3. Of the increase of 33 accidents on the Great Indian Peninsula Railway, 32 appear under "Fire in trains" alone, the number entered under this head being 37 against 5. There was also an increase of 6 accidents under "Trains running over cattle" and a decrease of 6 under accidents classified as "Other accidents."

4. The decrease on the Bombay, Baroda and Central India Railway, chiefly took place under "Other accidents," and that on the Darjeeling-Himalayan in the number of cases of derailments of trains, engines, &c.

5. On the Eastern Bengal Railway the increase occurred under "Trains running over cattle on the line," "Failure of machinery, springs, &c., of engines" and "Failure of couplings." The number of accidents returned under these heads was 54, 15 and 11; against 28, nil, and 2, respectively.

6. On the Rajputana-Malwa Railway there was a decrease of 16 accidents under "Trains running over cattle," 6 under "Bursting of boilers, or tubes, &c., of engines" and 5 under each of the heads "Trains or engines travelling in the wrong direction through points," "Failure of couplings," and "Fire in trains." The number of cases of "Trains running into stations or sidings at too high a speed" rose from 1 to 8.

7. On the Burma Railway there does not appear to be any noticeable fluctuations under any particular head.

8. The casualties resulting from accidents to trains, &c., were among passengers and others, 3 killed and 22 injured against 1 injured; and among servants, 6 killed and 11 injured against 1 killed and 11 injured. The larger number of casualties during the quarter under review was due to 4 accidents, 2 on the East Indian Railway, 1 on the Great Indian Peninsula Railway, and 1 on the Punjab Northern State Railway. On the East Indian Railway alone 14 passengers were injured by two accidents, 6 by a collision which occurred on the 18th February 1885, during shunting operations at Agra Fort, owing to the driver being drunk, and 8 by a collision on the 25th March at Gya, between a wagon, which got uncoupled while being shunted, and some passenger vehicles.

9. In a collision on the Great Indian Peninsula Railway between an up and a down goods train at Kareli on the 8th March, caused through the carelessness of the driver of the latter train and the station master, 1 railway servant was killed and 5 injured.

10. On the Punjab Northern State Railway 3 soldiers were killed and 4 officers and 3 soldiers injured on the 15th March, in consequence of the derailment of a down troop special near Gujar Khan. The cause of this accident is obscure, but was most probably due to malice. Suspicions fell upon two men who had been railway servants, and they were tried; but the evidence was not strong enough to secure a conviction: a full report of it has been under the consideration of the Government of India.

11. The following table exhibits the number of accidents under the different classes, and the number of persons killed and injured thereby:—

| Description. | Number of accidents. | Number of passengers or others. | | Number of servants. | | Total. | |
|---|---|---|---|---|---|---|---|
| | | Killed. | Injured. | Killed. | Injured. | Killed. | Injured. |
| Collisions between passenger trains, or parts of passenger trains | 4 | .... | 14 | .... | 1 | .... | 15 |
| Collisions between passenger trains and goods or mineral trains, engines and vehicles, standing foul of the line | 7 | ... | ... | ... | ... | ... | ... |
| Collisions between goods trains or parts of goods trains | 15 | ... | ... | 1 | 6 | 1 | ... |
| Collisions between light engines | 2 | ... | ... | ... | ... | ... | ... |
| Passenger trains or parts of passenger trains leaving the rails | 17 | 3 | 7 | ... | ... | 3 | 7 |
| Goods trains, or parts of goods trains, engines, &c., leaving the rails | 77 | ... | ... | ... | ... | ... | ... |
| Trains or engines, travelling in the wrong direction through points | 18 | ... | ... | 1 | 1 | 1 | 1 |
| Trains running into stations or sidings at too high a speed | 8 | ... | ... | ... | 1 | ... | 1 |
| Trains running over cattle on the line | 226 | ... | 1 | 1 | ... | 1 | 1 |
| Trains running over obstructions on the line | 28 | ... | ... | ... | 1 | ... | 1 |
| Trains running through gates at level crossings | 12 | ... | ... | 1 | ... | 1 | ... |
| The bursting of boilers or tubes, &c., of engines | 27 | ... | ... | ... | ... | ... | ... |
| The failure of machinery, springs, &c., of engines | 55 | ... | ... | ... | ... | ... | ... |
| The failure of axles | 10 | ... | ... | ... | ... | ... | ... |
| The failure of couplings | 34 | ... | ... | ... | ... | ... | ... |
| Broken rails | 8 | ... | ... | ... | ... | ... | ... |
| The flooding of portions of permanent-way | 2 | ... | ... | ... | ... | ... | ... |
| Slips in cuttings or embankments | 4 | ... | ... | ... | ... | ... | ... |
| Fire in trains | 78 | ... | ... | ... | ... | ... | ... |
| Fire at stations, or involving injury to bridges or viaducts | 11 | ... | ... | ... | ... | ... | ... |
| Other accidents | 43 | ... | ... | 2 | 1 | 2 | 1 |
| Total | 686 | 3 | 22 | 6 | 11 | 9 | 33 |

12. The number of cases of "Goods trains, or parts of goods trains, engines &c., leaving the rails" increased from 69 to 77, of which 13 occurred on the Great Indian Peninsula Railway, 11 on the Bombay, Baroda and Central India, and 10 on the Sind, Punjab and Delhi. On the latter line there has, however, been a decrease of 7 in the total number of accidents under this head.

13. The cases of "Running over cattle" numbered 226 against 210 and were most numerous on the Eastern Bengal Railway, the number on that line being 54 or about 24 per cent. of the total. As compared with the corresponding period of 1884, there was an increase of 26 cases or 93 per cent. against an increase of 30 per cent. in the train mileage. Next to the Eastern Bengal stand the Rajputana-Malwa and South Indian Railways, with 31 and 24 cases respectively. On the Rajputana-Malwa Railway, however, the number shows a decrease of 16 or 34 per cent. against an increase of 6 per cent. in the train mileage.

14. Of the 27 cases of "Bursting of boilers or tubes, &c., of engines," 13 were on the Indus Valley, 8 on the Sind, Punjab and Delhi and 5 on the Nagpur-Chhattisgarh Railway. On the Sind, Punjab and Delhi Railway there was only 1 accident of this description in the 1st quarter of 1884. On the Rajputana Railway the number has decreased from 7 to 1.

15. The number of "Failures of machinery, springs, &c., of engines" were the largest on the Sind, Punjab and Delhi and Eastern Bengal Railways, being 13 and 15 respectively, out of a total of 55. In the corresponding previous quarter there was no accident under this head on the latter line.

16. It is noticeable that there was not a single case of "Failure of tyres" or "Failure of wheels" during the quarter under review.

17. The number of "Failures of couplings" was the same as previously, *viz.*, 34, of which 11 occurred on the Eastern Bengal Railway, 8 on the Indus Valley, and 9 on the Rajputana-Malwa.

18. Of 8 cases of "Broken rails," 6 occurred on the Rajputana-Malwa Railway; and of 11 cases of "Fire at stations, or involving injury to Bridges or viaducts," 6 occurred on the Northern Bengal Railway.

19. Under "Fire in trains" the number of cases has increased from 53 to 78, of which 14 were on the Madras Railway and 37 on the Great Indian Peninsula. As already noticed there was an increase of 32 cases under this head on the latter Railway, the total giving 1 case of fire for every 72,409 train miles, against 1 for every 441,191 train miles in the corresponding quarter of 1884.

20. The casualties to passengers from causes other than accidents to trains, &c., were :—

| | Killed. | Injured. |
|---|---|---|
| From falling between carriages and platforms | 1 | ... |
| Falling on to the platforms, ballast, &c., when getting into or out of trains | 5 | 4 |
| Falling out of carriages during the travelling of trains | 2 | 19 |
| Other accidents | 3 | 6 |
| TOTAL | 11 | 29 |

21. The accidents to servants in the employ of Railways, or of contractors whilst performing duties connected directly with the transit of passengers and goods, from causes other than accidents to trains, &c., were :—

| | Killed. | Injured. |
|---|---|---|
| During shunting operations | 6 | 12 |
| Falling off engines, vans, wagons, &c. | 1 | 8 |
| Coming in contact with over-bridges, &c., during the travelling of trains | 1 | 1 |
| Getting in or off trains, engines, &c. | 3 | 11 |
| Whilst loading, unloading, or sheeting | 3 | 12 |
| Whilst breaking, spragging or choking wheels | ... | 3 |
| Whilst working at cranes or capstans | ... | 4 |
| Whilst working on the permanent-way or in sidings | ... | 2 |
| Whilst walking, crossing, or standing on the line | 7 | 1 |
| Whilst passing between vehicles | 4 | 1 |
| Whilst attending to the machinery of engines, cleaning them, &c. | 2 | 7 |
| Whilst attending to gates at level-crossings | 2 | 2 |
| Falling or being caught between vehicles and platforms | 2 | 2 |
| Falling off ladders, scaffolds, platforms, &c. | 1 | 1 |
| By falling of lamps, wagon doors, timber, weights, &c. | 1 | 12 |
| Whilst coupling or uncoupling wagons | 2 | 4 |
| Miscellaneous | 4 | 38 |
| TOTAL | 39 | 121 |

22. Of other persons killed and injured by running trains, &c., 4 were killed whilst passing over the line at level-crossings, 30 were killed and 7 injured whilst trespassing on the line, 12 committed suicide, and 2 were injured in attempting to commit suicide; and 2 were killed and 1 injured from miscellaneous causes.

23. The following table shows the total number of persons killed and injured from causes connected with the working of trains, as compared with the corresponding quarter of 1884 :—

| First Quarter, 1884. | | First Quarter, 1885. | | | First Quarter, 1884. | | First Quarter, 1885. | |
|---|---|---|---|---|---|---|---|---|
| Open mileage. | Train mileage. | Open mileage. | Train mileage. | | Killed. | Injured. | Killed. | Injured. |
| | | | | *Passengers.* | | | | |
| | | | | From causes beyond their own control | ... | 1 | 3 | 21 |
| | | | | From misconduct or want of caution | 11 | 16 | 11 | 29 |
| | | | | *Servants.* | | | | |
| | | | | From causes beyond their own control | 3 | 11 | 6 | 18 |
| | | | | From misconduct or want of caution | 32 | 94 | 39 | 114 |
| | | | | *Others.* | | | | |
| | | | | Whilst passing at level-crossings | 2 | ... | 4 | ... |
| | | | | Trespassers including suicides | 30 | 4 | 42 | 9 |
| | | | | Other persons | 2 | 5 | 2 | 1 |
| 10,604½ | 10,344,757 | 11,826¾ | 11,426,500 | TOTAL | 80 | 131 | 107 | 192 |

24. In addition to the above, 19 persons are reported to have been killed and 51 injured in yards, workshops, &c., and 127 passengers to have met death in carriages and at stations from causes unconnected with the working of trains.

---

RESOLUTION.—The attention of the officers concerned should be drawn to the increase in the number of accidents on the Great Indian Peninsula and Eastern Bengal Railways. The Government of India at the same time notices with pleasure the decrease in the number of accidents on the Bombay, Baroda and Central India, Darjeeling-Himalayan, Rajputana-Malwa, and Burma Railways.

2. Special reports of the serious accidents at Gya, Kareli and Gujar Khan have been received and considered by the Government of India, but no such report of the accident at Agra Fort has been received. The attention of the officers concerned should be drawn to this omission.

---

ORDER.—Ordered that this Resolution be communicated to the Local Governments, Administrations and Officers noted in the margin for information.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh and the Punjab.
The Chief Commissioners of the Central Provinces, Assam, and British Burma.
The Residents, Hyderabad and Mysore.
The Agents to the Governor General for Rajputana, Central India, and Biluchistan.
The Director General of Railways.
The Consulting Engineers to the Government of India for Guaranteed Railways.

Ordered, also, that copies be forwarded to the Secretary of State, for the information of Her Majesty's Government.

Ordered, further, that this Resolution, with the Abstract Returns, be published in the Supplement to the *Gazette of India*.

FRED. FIREBRACE, *Major, R.E.*,
*Under-Secretary.*

Documents accompanying.
Abstract Returns of Accidents on Indian Railways for the first quarter of 1885.

*Statement showing the dates on which the Returns of Accidents on the undermentioned Railways for the First Quarter of 1885 were received by the Government of India.*

*N. B.*—As regards the figures in column "*Total receipts from 1st April to date,*" audited figures have been availed of as far as possible.

(a) Return not received.
(b) Total receipts from 1st April to 16th August 1884.
(c) Total receipts from 1st April to 15th August 1885.
(d) Including Rewari-Ferozepur State Railway.
(e) Of this length 40·5 miles were opened for passenger and goods traffic, and the remainder for goods traffic only. The calculations are based upon total mileage.
(f) Total receipts from 2nd April to 23rd August 1884.

SIMLA,
*The 12th September 1885.*

FRED. FIREBRACE, *Major, R.E.,*
*Under-Secretary.*

*Remarks by Executive Engineer.*

Northern Division, Ganges Canal—Good rain fell on the 15th and 16th causing cessation of demand. Canal was closed for repairs on 17th. Rain fair throughout the month. Decrease in rice will be made up in September. Smaller area of indigo cultivated.

Anúpshahr Division, Ganges Canal—Light demand for sugarcane and rice up to 15th, after which no demand. Decrease in indigo as before explained, and in cotton, food-grains and fodder for which there has been no demand.

Meerut Division, Ganges Canal—Demand for rice only during the first ten days, and after that up to the 14th for sugarcane also; heavy rain fell on the 14th, 15th and 16th, after which there was no demand up to the end of the month.

Bulandshahr Division, Ganges Canal—No demand whatever during the month. Tremendously heavy rain on 15th and 16th, over twenty inches falling in twenty-five hours. Canal closed on 17th.

Aligarh Division, Ganges Canal—General rain on the 9th and 10th stopped all demand. Large areas of irrigated crops were destroyed by the excessive rainfall of the 15th and 16th.

Narora Division, Lower Ganges Canal—Falling off altogether under indigo.

Mainpuri Division, Lower Ganges Canal—No irrigation was done during the month. The decrease as compared with last year is entirely under indigo. Average rainfall 10·7″. Maximum 15·7. Minimum 5·1.

Cawnpore Division, Lower Ganges Canal—No new irrigation has been effected. All water passing down the division has been escaped.

Etáwah Division, Lower Ganges Canal—The increase is in sugarcane. Indigo shows a falling off from area of last year.

Eastern Jumna Canal—Frequent rain. Very broken demand for rice only. Cane in large excess and rice as much below last year, the latter will increase greatly. The rest of the deficiency is in miscellaneous crops and indigo.

Agra Canal—There was no demand throughout the month. The decrease under indigo is due to the low prices realised by the manufactured article last year.

Rohilkhand Canals—A very wet month. Rain nearly every day and constant floods in the rivers. The total monthly rainfall varies from 18·7″ at Bareilly to 37·6″ at Pilibhít. The heaviest floods of the season came down on the 25th, up to which date there was a steady demand for rice in the 1st sub-division, but very little demand in the 2nd sub-division. A few days' fine weather is now much wanted for the grain crops and sugarcane.

Dún Canals—Decrease of 160 acres over corresponding month of last year. Demand good throughout the month for rice only.
Jhánsi Lakes—No irrigation effected from the Jhánsi lakes during the month.
Hamírpur Lakes—No irrigation during the month.

ALLAHABAD,
[illegible] August 1885.

At Roorkee, more than double the normal amount fell during the month. In Northern Bengal about the average, while in Assam and Cachar there was a slight deficiency. In Central India and Rajputana there was very little departure from the average.

The figures for the season up to date, show that the deficiency noticed at the close of July in the Northern and Eastern Punjab has disappeared; except as regards the Sialkot district, where the rains are still very short of the average, but that at the Indus Valley stations, there has been only about half the normal amount. At Purneah (Northern Bengal), there is also some deficiency. The most serious deficits are, however, reported from the Peninsula. In Khandesh and the Bombay Deccan, the rainfall has been less than half the normal average; and further to the southward, in Mysore, at Bangalore and Chittaldroog, the conditions are nearly as bad.

With regard to the other meteorological elements it appears that, with a few local exceptions, principally in the south of the Peninsula, there has been a considerable deficiency in pressure throughout the whole country. This deficiency was greatest in Sind, the Indus Valley, and Rajputana, but was almost equally great in parts of the North-Western Provinces and Bengal. It was apparently as great on the hills as on the plains. Owing to the slightness of the rainfall, temperature has been somewhat above the average over the Peninsula, but below it in Northern and Central India; while the humidity variations have naturally been the reverse of this, the excess being in the north and the deficiency in the south.

The following table shows the mean amount of rain and the difference from the average during the month of August 1885, according to districts, as far as is indicated by the telegraphic reports :—

| Districts. | Average Rainfall in August. | Difference from the average in August 1885. |
|---|---|---|
| Punjab, West ... ... ... | 5·74 | + 0·37 |
| „ East ... ... ... | 8·49 | + 3·14 |

SIMLA; *The 5th September, 1885.*

W. L. DALLAS, *Asst. Meteorological Reporter to the Govt. of India.*

ORDER.—Ordered, that the papers be printed in the Supplement to the *Gazette of India*.

Circular No. 1178. 98—2

*Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Surveys),— dated Simla, the 12th September, 1885.*

Read—

The General Report on the Operations of the Survey of India Department for 1883-84.

## RESOLUTION.

PERSONNEL. Several changes took place in the *personnel* of the Survey Department of India during the year under report, of which the principal were due to the retirement from the service of the Government of Lieutenant-General J. T. Walker, R.E., C.B., and Mr. J. B. N. Hennessey, M.A., F.R.S., late Deputy Surveyor General in charge of the Trigonometrical Branch. The Government of India has already recorded its appreciation of the long and distinguished services rendered to the Department by the former officer, and His Excellency in Council has observed with satisfaction that Her Majesty the Queen-Empress has been pleased to recognize the valuable scientific work done by the latter by conferring on him the companionship of the Order of the Indian Empire.

2. The results of the working of the three Branches of the Department are described in Part II. of the report.

TRIANGULATION. 3. The Secondary Triangulation Party visited and erected beacons on the old stations of the East Coast Series, from Puri to Balasore. The positions of the beacons and buoys of False Point Harbour and the Dhamra river were accurately fixed, as were those of all prominent objects on the coast which could be used as land marks for ships. This work will, it is hoped, facilitate navigation and the future work of the Marine Survey.

The connection by triangulation of the Peninsula of India with the Straits Settlements and Malacca has been held in abeyance during the year, and it has recently been decided in view of financial exigencies that it shall not be undertaken for the present.

TOPOGRAPHICAL SURVEYS. 4. Eleven Topographical parties were employed. Of these three were in the field in Bombay, two in the North-Western Provinces, and one each in the Andaman Islands, Assam, Baluchistan, Central India, Mysore, and Rajputana.

5. The three Bombay parties worked in Cutch, Guzerat, and the South Deccan respectively.

In Cutch 2,154 miles were surveyed topographically on the scale of two inches to the mile, and 1,086 miles on the scale of half an inch to the mile, and 2,100 square miles were triangulated in advance. The Guzerat party executed some topographical surveys of Native States on the two-inch scale, and completed the survey of the Panch Mahals on the four-inch scale, including the demarcation of village and forest boundaries. The area already surveyed in Guzerat amounts to 18,191 square miles, or about two-fifths of the whole. In the South Deccan the area surveyed amounted to 1,832 square miles of a more mountainous and difficult country than any with which the party had previously met. It is estimated that the 15,200 square miles, which still remain unsurveyed in the area assigned to the South Deccan party, will occupy about 8 years.

6. The parties in the North-Western Provinces were employed in the Aligarh and Etah districts, and in the Mirzapur district, respectively. In the Aligarh and Etah districts 1,503 square miles were surveyed on the 2-inch scale. The riparian tracts on either side of the river Ganges covering an extent of 98·09 square miles were surveyed on the 4-inch scale. It has recently been decided to suspend the topographical survey of the remainder of the North-Western Provinces and Oudh, the existing revenue maps being

sufficiently accurate to answer the present requirements of the Civil Administration, and topographical surveys of other tracts being more urgently required. The work of the Mirzapur party consisted of a survey of a portion of the district on the 2-inch scale, and the execution of theodolite traversing round the village boundaries of the Dadhi pargana, and certain villages of the hilly tracts of Robertsganj. This work was of a very laborious description, owing to the nature of the country.

7. A suitable map of the South Andaman Island being much needed by the Settlement officers, a party was deputed in November 1883 to make a complete survey of that island. The only datum available on which to base the survey was the position of a point on Chatham Island in the harbour of Port Blair, the latitude and longitude of which had been determined astronomically in 1863. The result of the season's work is a map of Barren Island and the Island of Narcondam on the scale of 8 inches = 1 mile and sheet No. 14 on the 4-inch scale. It has been decided that the survey shall extend to the remainder of the Andaman Islands. The general survey will be executed on the ½-inch scale, though certain portions of the South Andamans will be surveyed on the 4-inch scale. Advantage is being taken of the survey to investigate the geology and flora of the Island.

8. The Assam and North-Eastern Frontier party was originally to have been employed in the survey of the Noa Dihing valley up to the Pátkai crest, but the Aka raid on the Darrang district having necessitated the despatch of a punitive expedition against the offending tribes, it was determined to take advantage of the opportunity offered for the Survey of the Aka Hills. Subsequently the Daphla country was also surveyed. The detailed survey executed covers 1,931 square miles of the Aka and Daphla hills on the scale of 1 inch to 4 miles; 622 square miles on the scale of 1 inch = 2 miles and 143 linear miles of route and river survey by native explorers within British territory.

9. The Baluchistan party was divided into three sections, of which one was employed with the Takht-i-Sulaiman Expedition; one accompanied Sir R. Sandeman's Mission into South-Western Baluchistan, and one was employed on the regular detailed survey. The area triangulated amounted to 6,100 square miles, and the area topographically surveyed to 4,840 square miles on the half-inch scale. This work was carried out in the Thal-Chotiáli territory and the Kachi desert.

10. The Malwa party executed 1,390 square miles of triangulation and 1,587 square miles of detail survey on the 1-inch scale besides completing the triangulation and traversing for the large scale survey of the Dúngarpur city and the Kherwára cantonment. The country is intricate and much cut up by small streams and hillocks. The party has now completed its work, and a portion of it will, during the ensuing field season, probably be sent into Ajmere, the remainder being transferred to Bengal.

11. In Mysore 1,417 square miles, including the work required as a basis for the Mysore city survey, were triangulated. The area topographically surveyed on the 1-inch scale amounted to 3,975 square miles in the districts of Shimoga, Kadur, Mysore, and Bangalore.

12. The Rajputana party was chiefly employed in surveying on the scale of 1 inch=1 mile portions of the Sirohi and Palanpur States and the sanitarium on the Abu Range. The Sunda and Dorra ranges were surveyed on the 2-inch scale; and the revised survey of the city and environs of Ajmere was nearly completed for the Municipality on the scale of 12 inches = 1 mile. The total area surveyed was 1,211 square miles on the 1-inch scale and 120 square miles on the 2-inch scale, besides the 12-inch survey of Ajmere city; 4,133 square miles were also triangulated.

MAUZAWAR, RIVERAIN AND FOREST SURVEYS.

13. Three parties were employed in mauzawar, riverain and forest surveys in British Burma, the Punjab and Bombay, respectively. The first-named party surveyed 211 square miles of reserved forest tracts on the scale of 4 inches = 1 mile; and 52 square miles of unreserved forest and ground likely to be brought under cultivation on the scale of 2 inches = 1 mile. The area prepared in advance for next season was 321 square miles. The surveyed area lies on the western slope of the Pegu Yoma range in the Tharrawaddy district. The

country is very difficult for survey on account of the almost impenetrable undergrowth and the rugged, and in many parts inaccessible, character of the range. The several high ridges running parallel to the range are covered with forest, and intersected by streams while the Yoma or back-bone of the range stands up like a wall above the lower hills. In a part of the Thonzé reserve a rise of more than 2,000 feet occurs in a little more than a mile from the crest.

14. The party employed in the Punjab continued its previous year's work in Hissar of a topographical survey on the 2-inch scale, combined with a system of skeleton traverses to aid an approaching settlement survey. In the report the system followed is thus described:—

> The traversing follows village boundaries, in the interior of which sub-traverses are run at distances of about ½ a mile apart, furnishing fixed points at short intervals, all of which are permanently marked. From the data obtained of these points, skeleton plots can be prepared on any required scale. These will furnish an efficient frame-work for the cadastral survey of fields to be undertaken by the *patwaris* of the district under the superintendence of the Settlement Department.

The object of the Hissar experiment is to ascertain by actual trial in what way the Settlement and Survey Departments can best assist each other. While it is hoped that the survey skeletons will on the one hand form a frame-work for patwari field maps, so on the other it is expected that the details furnished by the field maps will be incorporated in the topographical maps. A fuller report on this subject is expected in the Surveyor General's Report for 1885-86, as at present there is no reason to believe that the work of the survey party is to be made in any way the basis of patwaris' maps, as was intended by the Government of India.

The areas surveyed comprised 1,782 square miles of the district on the 2-inch scale, the Hissar farm (64 square miles) on the 6-inch scale, and the city and station of Hissar, 14 square miles, on the 12-inch scale.

On the completion of the survey of Hissar, it had been intended to employ detachments of the party in Ferozepore, Umballa, Jullundur and Ludhiana. The experience gained in Hissar has, however, shown that in the plains districts of the Punjab, so elaborate a system is unnecessary, and in future the operations will consist of a modified skeleton traverse survey, tri-junction platforms being erected for stations, and fixed in each village, and of a scientific survey of all streams in tracts subject to fluvial action. The topography of revised 2-inch maps of the province will be taken from the settlement maps, the details being tested and additions made where necessary.

15. The third mauzawar survey party was employed in the Thana district of the Bombay Presidency. The work done by it embraced the survey of the Thana Collectorate on the 4-inch scale and the 2-inch survey of the Jawhar State. On the larger scale, 612 square miles were surveyed and 288 square miles on the smaller. The country surveyed lies between the Western Ghats and the sea, and is very difficult in parts.

CADASTRAL SURVEYS.

16. Cadastral or field survey parties were employed in the Ajmere-Merwara district, in three districts in British Burma, in three districts in the North-Western Provinces, in one district in the Central Provinces and in one district in Assam. The areas surveyed are given in the margin.

| | | |
|---|---|---|
| North-Western Provinces | ... | 1,747 square miles. |
| British Burma | ... | 1,749 " |
| Central Provinces | ... | 81 " |
| Assam | ... | 228 " |

The Ajmere-Merwara survey was begun in connection with the revision of the settlement of the district. The fluctuating character of the cultivation rendered an ordinary cadastral survey of the district unsuitable and after consideration it was determined to adopt a system of traverse and village boundary survey, under which fixed points are established by professional traversing, and skeleton maps are provided showing the boundaries of each village and the position of each permanent mark within it. On these data the *patwaris* map in the cultivation at the time of their survey and whenever changes may become necessary.

17. The three cadastral parties in British Burma were employed respectively in the Bassein and Henzada districts, the Pegu and Shwegyin districts, and the Prome and Akyab districts. All the cadastral work required in the

Pegu and Prome districts has been completed; and now only one and a half parties are employed in Burma, half a party having been withdrawn altogether for financial reasons and another party having been diverted to topographical work.

18. In the North-Western Provinces the parties employed worked in the Benares and Basti districts, the Dehra Dun district (a detachment), and the Gorakhpur district.

The so-called Benares system under which the survey and settlement establishments work together, each preparing its own copy of the *khasra* and *jamabandi*, was followed in the Benares-Basti survey. In Gorakhpur a slightly different system has been adopted. There the survey officer furnishes with the map a correct record of all undisputed facts of ownership and tenancy, a complete list of all disputes, and a classification of the soils and statistics for assessment purposes. The Revenue Officer then fills up the dispute list and checks the soil classification. The success of this system in respect both of expedition and economy, when compared with cadastral work hitherto turned out by the Survey Department, has been shown by the result of the operations of the work of the first season. The detachment in Dehra Dun was employed in surveying the cultivated lands on the Benares system.

19. The detachment in the Central Provinces was employed in the Raipur district in the cadastral survey of a certain number of villages as a test of the accuracy of the settlement maps. The survey establishments prepare a skeleton survey of the boundaries of villages, together with those of moderately sized blocks of fields, and the interior divisions are afterwards to be filled in by the *patwaris* who also write up the record-of-rights. A survey class has been organized for the instruction of junior civilians, native officials and *patwaris*.

The arrangements for the survey of the remaining districts of the Central Provinces of which the settlement will expire within the next few years is now under the consideration of the Government of India.

TRAINING OF CIVILIANS, &c.

20. The cadastral survey of the Kámrúp district was begun on the completion of the Hooghly River survey. The Benares system of survey has been adopted in Kámrúp at the instance of the Chief Commissioner.

21. A new system of training young Civilians in cadastral survey work by attaching them to regular field parties has been begun. In the North-Western Provinces, seven Civil Servants have been thus instructed in field surveying; and native soldier students from the Roorkee College have also been attached to the regular field parties of the Topographical Branch, and instructed in the method of delineating ground by plane-table survey.

[illegible] on [illegible]

22. In explanation of the foregoing paragraphs it may be stated that there are three systems of cadastral survey now at work, one in the Punjab where, except possibly in the case of the Hissar experiment, no use is made of the Surveyor General's Department, all field maps being constructed by patwaris under the control of the Settlement Officer. The actual cost of this work has not been ascertained, but it is believed to be cheap, and sufficiently accurate for revenue purposes, although it has the drawback of not fitting in with sufficient precision into the general survey maps of the country. The next system is that now under adoption in the Central Provinces, where, as already explained, the field plotting will be filled in by patwaris on a traverse skeleton provided by the Survey Department. The third is that in progress in the Gorakhpur and Basti districts of the North-Western Provinces, where the entire survey map of each village together with a considerable portion of the village record is turned out by the Survey Department. This system is the most accurate and complete in its results, but is probably the most expensive, and can only be justified in districts where the patwaris are insufficiently trained to do the field plotting. The Surveyor General is requested to bring forward in his next annual report as clear a statement as he can furnish of the cost and results of each of these systems. The subject of cost is more fully dealt with in paragraph 28 of this review.

[illegible] AND

23. Under the head of *Geographical* and *Miscellaneous*, the Darjeeling party surveyed the Sumesar Hills, the Daling Hills, and a portion of Sikkim,

besides triangulating and sketching Himalayan topography and demarcating and surveying the Nepal-Bengal Boundary. Explorations were also conducted in Tibet. This party did some interesting work and has helped towards an extended knowledge of Himalayan geography.

TIDAL AND LEVELLING OPERATIONS.

24. The Tidal and Levelling party has continued its scientific work; tidal observations being taken at 19 stations. The reduction of the observations has progressed steadily, and the final results have been determined, so that the co-efficients will be presented in the manner recommended by Professor Darwin and explained in the Report for 1882-83. The Spirit-levelling operations completed a line of levels between two sea-coast stations, *viz.*, from Kurrachee to Agra and thence to Bombay with an error only of ·624 of a foot or less than 4 inches per 1,000 miles. This line was linked with that of last year and its length was over 425 miles over ground with rises and falls amounting in the aggregate to nearly 22,000 feet.

GEODETIC.

25. The two Astronomical parties were engaged in the extension of the electro-telegraphic longitude arcs eastwards of Calcutta, and measured six arcs during the season—Akyab-Calcutta, Akyab-Chittagong, Prome Chittagong, Prome-Akyab, Moulmein-Prome, and Moulmein-Akyab. The link between Kurrachee and Moulmein was thus completed.

HEAD-QUARTERS OFFICES.

26. The work of the Head-Quarters Offices, both at Calcutta and at Dehra, is dealt with in Part III. The several offices have again turned out a very large amount of work for other departments and Local Governments. The total number of maps issued during the year amounted to nearly 200,000, and their value exceeded a lakh and a half of rupees. Much good work was done in these offices in connection with the Calcutta International Exhibition. The 3,000 ornamental award certificates were produced with the aid of the heliogravure and collotype processes. Some of the special maps which were drawn for the Exhibition have been prepared for publication and the rainfall, railway and telegraph maps have already been published. Maps showing trade routes, distribution of languages, and river basins have also been printed. Maps showing the density of population and the distribution of the different religions and missionary stations are in course of publication. The forest map is, it is understood, now ready. The Government of India attaches great importance to these maps; and a Crop-map of India, shortly to be prepared, will be completed in time for the Colonial and Indian Exhibition of 1886.

MATHEMATICAL INSTRUMENT DEPARTMENT.

27. The Mathematical Instrument Department issued 33,365 instruments valued at Rs. 1,61,529 to departments. The number issued exceeded that of last year by 12,000, their value being greater by Rs. 34,000. The Government of India is also glad to notice that there has been a considerable use of articles of Indian manufacture for this department. An innovation has been introduced into the department by the entertainment of apprentices in the several technical offices. Their work should be carefully watched; and the result of the experiment should be noticed in future annual reports.

COST RATE PER MILE OF SURVEY WORK

28. The statements at pages LXXX and LXXXI of the Appendix, showing the cost rate per mile of work executed by the several parties are, as far as they go, very valuable. The opportunity is taken however to impress upon the Surveyor General the very great importance of reducing the expenditure on revenue surveys of all kinds to the very lowest limit as urged in the Resolution of September 4th, 1882. Notwithstanding the comparatively small cost, compared with the charges of former years, of the North-Western Provinces Surveys, the charge is still too high to admit of the system being extended to any Province in which it is possible to utilize patwaris under the supervision of local officers for field plotting. Great credit is due to Majors Barron, Sandeman and Steel for their unremitting efforts to make the cadastral parties serve the Provincial Governments in the most effective manner, but it is now a question whether similar efforts should not, on account of the financial exigencies of the case, be directed to the perfection of a system in which the very utmost use should be made of the village officers for field plotting, under the control of an efficient staff of native supervisors. The fact that the Government, whether Imperial or Provincial, is obliged in any case to provide payment for a village staff, makes it imperative to require the education of that staff in the duty of making and

maintaining village maps so that the cost of a second establishment may be avoided, and it will be found that unless the Survey Department can make the above system the goal of its efforts, it will be difficult for it on financial grounds to maintain that connection with the cadastral surveys still remaining to be accomplished which it is very desirable to preserve. The two points to be aimed at, in modification of the North-Western Provinces system, seem to be the more liberal employment of the village staff, and the reduction of the charges for supervision. The Government of India would be glad if in future reports the information as to "cost" could, with the assistance of the Provincial authorities, be made to comprise a comparison between the total cost of various systems adopted in any districts in which the Survey Department is employed, whether to do the whole work as in the North-Western Provinces, or a part of the work as in the Central Provinces and Hissar. At present the table in page LXXX is not sufficiently instructive. The cost per acre for instance of a complete cadastral survey (including traverse, field plotting, and survey record) in Ajmere cannot be compared with that of a complete cadastral survey in the North-Western Provinces.

29. In conclusion, the Government of India thanks Colonel DePrée for his interesting report.

ORDER—Ordered, that the above Resolution be forwarded to the Local Governments and Administrations named in the margin; and to the Surveyor General of India and to the Foreign and Military Departments for information.

| North-Western Provinces and Oudh. | Assam. |
| | Coorg. |

Ordered also, that it be published in the Supplement to the *Gazette of India*.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 16th SEPTEMBER 1885.

GENERAL REMARKS.—Good rain has fallen, both in Bellary and Anantapur, since the date of the last report. Migration continues from Alur, Bellary, and Hadgalli. In Salem and Coimbatore prospects are reported to have improved, but more rain is urgently needed in several districts in the Madras Presidency.

In Mysore there has been good rain in two or three districts, and more or less rain has fallen also throughout the State, though not in sufficient quantity to remove all cause for apprehension. It is hoped that a considerable portion of the standing crops will be saved if more good rain falls. Water and pasturage are still scarce, and the cattle are generally in poor condition. Future prospects depend much on further timely rain. In Coorg the season continues favourable.

Good rain has fallen throughout the Deccan and in parts of Bijapur, and the young crops have been much benefited thereby. More rain is still wanted in parts of the Deccan, and urgently in parts of Dharwar, Belgaum, Gujarat, and the Konkan, where the crops are withering. Fodder continues scarce in parts of some districts. In the Berars the standing crops are generally doing well, but more rain is wanted. In Hyderabad the rainfall of the week has been beneficial to the crops. In the Central India and Rajputana States there was little or no rain during the week under report, and it is much wanted in some places. Crop prospects are, on the whole, generally good.

In the Central Provinces rain is wanted everywhere, but especially in Nimar and Sambalpur. Preparations for the *rabi* have commenced. In the Punjab *kharif* prospects are generally good, but more rain is wanted in Ferozepore, Lahore, and Shahpur. In the North-Western Provinces and Oudh there has been a break in the rains, but prospects continue good.

In Bengal there has not been much rain during the week, and the cessation has greatly benefited the crops in many districts. In Orissa more rain is wanted. General prospects of crops are fair, except in inundated tracts in the Burdwan and Presidency Divisions and in Behar.

No reports have been received from Assam and British Burma.

The public health is generally fair in all Provinces.

In Bengal the price of rice has risen in several places, owing to excessive rain and floods. In the Punjab prices are fluctuating. Elsewhere they are generally steady, except in Sambalpur in the Central Provinces. In Mysore there has been no material change in prices. In one district, however—Kolar—they are falling slightly.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Sept. 16th)** | | |
| Bellary ... | ·04 (average): Telegram received to-day gives rain at Anantapur 3·35 and at Bellary 7·8 since yesterday. | Heavy rain anxiously awaited for sowing later crops. Standing dry crops generally withering. Caterpillars prevail in parts of Hospet. Wet crops under channels moderately good; early crops withered everywhere, excepting parts of Adoni and Raidrug. Harvest *cholum* under wells in Bellary, outturn below average. Paddy in Hospet average. Migration continues from Alur, Bellary, and Hadgalli. Cattle-disease in Harpenhalli; 11 deaths from cholera. |
| Kurnool ... | ·22 (average) | Standing crops withering in parts for want of rain; elsewhere good. Small-pox and cattle-disease in one taluk. |
| Ganjam ... | ·98 ( „ ) | More rain much wanted. Seedlings withering in five taluks. Cattle-disease in Berhampore taluk; 114 deaths from cholera. |
| Kistna ... | ·74 ( „ ) | Crops not thriving. More rain required. River 3·5 feet over Anicut. Fever and small-pox in parts; deaths from cholera unreported, last week 10, this week 25. |
| Chingleput (Madras) ... | ·43 ( „ ) | Standing crops good in Madhurantakam and Trivellore, and withering elsewhere. Harvest paddy, *ragi*, and *cumbu*, outturn below average. Rinderpest in Conjeeveram and Ponneri. |
| Coimbatore ... | 1·40 ( „ ) | Standing crops generally good, but want rain, and damaged by insects in parts. Harvest dry grains in parts; outturn generally average. Fever and small-pox in two taluks; cattle-disease in one village. |
| Tanjore ... | 1·75 ( „ ) | Standing crops generally good, but *cumbu* has failed about Vallam. Harvest dry crop, outturn up to average. Small-pox in parts of Patukota; 15 deaths from cholera. |
| Madura ... | ·83 ( „ ) | Crime increasing. Emigration commenced on a small scale. Fever prevalent; one death from cholera. |
| Malabar ... | ·66 ( „ ) | Rain required for second crop cultivation. Harvesting of first crop commenced. Cattle-disease in seven taluks, small-pox in five, and fever in one; six deaths from cholera. |
| Travancore ... | 1·56 ( „ ) | Harvesting almost over, yield good. Fever and small-pox in parts. |
| | | *General Remarks.*—General prospects discouraging in Madura, particularly so in Bellary and Anantapur; improved in Salem and Coimbatore. More rain urgently needed in several districts. |
| **Bombay—(Sept. 16th)** | | |
| Karachi ... | *Nil* | Weather cool. River at Kotri on 14th, 17 feet 3 inches against 15 feet 11 inches on same date last year. Damage to *kharif* crops in Ghorabari by *kukoi* turtle and *torau* insect, in Shahbandar by *kung* waterfowl, and in Sujawal by rats. Crops submerged in Sakro taluka. Fever in nine talukas; cholera cases in Karachi city 6, deaths 8; Johi rural circle 28 cases, 8 deaths. Prices—wheat, red rice, and *bajri* in Karachi 26, 34 and 34; in Sakro *nil*, 42 and 50; in Shahbandar 22, 38 and 46; and in Manjhand 32, 36 and 42 pounds per rupee, respectively. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay**—*contd.* | | |
| Hyderabad ... | No rain | *Kharif* cultivation continues good. River at Kotri on 12th, 17 feet 3 inches against 15 feet 11 inches on same date last year. Fever in eight and cattle-disease in five talukas. Price—wheat 28, *juari* 40, *bajri* 40, white rice 20, and red rice 30 pounds per rupee. |
| Ahmedabad ... | ·19 | Total rainfall 2·19. Crops doing well. More rain is urgently wanted. Cholera in Dholka, 12 cases, 7 fatal; fever in Sanand; cattle-disease in Parantij. Wheat 38 and *bajri* 32 pounds per rupee. |
| Baroda ... | ·7 | Total rainfall 21·49. Cholera in some parts of Baroda and Sinnar talukas. Crops in good condition. Prices—*bajri* 27, wheat 27, and rice 21 pounds per rupee. |
| Surat ... | Maximum at Pardi, ·91; minimum at Chorasi, ·01; none in Surat and Olpad. | Young crops are healthy on account of partial break. Winter crops will be grown in certain places in which *juari* and cotton seed were rotten and could not be sown again. Cattle healthy; fever in Bardoli and Pardi talukas. *Juari* 37½ and *nagli* 43¾, pounds per rupee. |
| Nasik ... | Nasik, 2·16; Sinnar, 4·12; Igatpuri, 4·71; Dindori, ·80; Niphad, 3·40; Chandor, ·67; Yeola, 1·98; Malegaon, 2·34; Nandgaon, 1·19; Baglan, ·55; Peint, ·15; none in Kalwan. | Rain throughout the district. Transplantation of rice, *nagli*, and *vari* completed; sowing of *kharif* crops completed. Crops healthy. Prospects improving. Want of fodder still felt in Chandor, Malegaon, and Nandgaon. More rain wanted in Yeola, Nandgaon, Baglan, and Kalwan. Cholera in Dindori, Niphad, Yeola, Malegaon, and Nandgaon; total attacks 29, deaths 26. Wheat 33, *bajri* 29½, and rice 20¾ pounds per rupee. |
| Colaba (Bombay) ... | Rain on 11th and from 13th to 15th. | Total rainfall for week 2·81. Total rainfall to date 56·42, being 7·39 below average; abnormal temperature 2° warmer on 12th, 2° cooler on 13th, and *nil* on all other days; vapour in air normal; wind normal on 9th and 10th. Abnormal wind northerly from 11th to 15th; lightning on 12th; thunder and lightning on 13th. |
| Poona ... | **Rain throughout the district; maximum 2·98 at Sinnar; minimum ·15 at Khadkala.** | **Young crops improved by the late rains, but more still wanted. 46 cholera cases in two talukas, 28 deaths. Prices of *bajri* 28 and *juari* 36; in Poona *bajri* 27 and *juari* 30 pounds per rupee.** |
| Ahmednagar ... | **Ahmednagar, 2·12; Nagar, 1·35; Shrigonda, 1·27; Jamkhed, 1·68; Rahuri, 1·64; Sangamner, 1·13; Akola, ·98; Koprgaon, ·84; Newasa, ·45; Karjat, ·36; Sheogaon, ·6.** | **In Parner *kharif* crops generally greatly benefited. Rain wanted in Parner. *Rabi* sowing commenced in Shrigonda. Want of fodder felt in Kopargaon, Sangamner, and Parner. Slight cattle-disease in Sangamner. Cholera 60 attacks and 20 deaths; slight fever in Akola. *Bajri* from 35 to 42 and *juari* from 43 to 60 pounds per rupee.** |
| Sholapur ... | Barsi, ·48; Madha, ·18; Karmala, ·91; Pandharpur, ·7; Akalkot, ·10; none elsewhere. | Rain that has fallen has done some good to existing crops. Since the 13th instant, there has been a general fall of rain of from 2 to 3 inches and more is expected; this rain will save the existing *kharif* crops and enable cultivators generally to commence *rabi* sowing. *Juari* 43 pounds 26 tolas and *bajri* 30 pounds 11 tolas per rupee. Cholera 16 cases, 8 deaths. |
| Dharwar ... | **Rainfall highest; in Mundargi, ·44.** | **Heavy rain urgently required even where crops withering from drought and sowing stopped. Great scarcity of fodder; cattle being sent to western villages to get grazing. Prices of grain stationary or rise very slightly; this probably is due to importation of grain by railway, about 5,000 maunds arriving daily. Public health good. Land ready for sowing.** |
| Kanara ... | **Karwar, ·10; Sirsi, 1·10; Haliyal, ·22.** | **Early rice crops on coast in ear. Cattle-disease in Karwar, Bhatkul, Sirsi, Mundgod, and Supa; fever in Yellapur. Common rice at Karwar 12½ seers, district average 13¼ seers per rupee.** |
| Rajkot ... | ·55 | Total rainfall 28. Fever and bowel-complaints prevalent. *Bajri* 35 and *juari* 46 pounds per rupee. |
| | | *General Remarks.*—Good rain throughout the Deccan and in parts of Bijapur. Young crops much benefited by it. More rain still wanted in parts of the Deccan and urgently in parts of Dharwar, Belgaum, Gujarat, and the Konkan where crops are withering. Standing crops injured by rats, insects and floods in parts of Karachi, and by blight in parts of Hyderabad. Scarcity of fodder continues in parts of Nasik, Ahmednagar, Dharwar, Satara, Bijapur, and Belgaum. Cholera in parts of fifteen, fever in parts of eleven, and cattle-disease in parts of eight districts. |
| **Bengal—(Sept. 16th)** | | |
| Chittagong ... | 5·20 | Weather seasonable. Prospects of crop fair. Transplanting of *aman* continues. Prices gradually rising. Cattle-disease still lingers; general health good. |
| Dacca ... | 1·90 | Prospects of crops continue good. *Aus* paddy and jute being cut. outturn good. Public health good. |
| 24-Pergunnahs (Calcutta) | ·67 | Prospects of both *aus* and *aman* on high lands good. Harvesting of *aus* commenced. Common rice 10 to 13 seers per rupee. Public health generally good, though fever reported in many places. |
| Khoolna ... | ·74 | Weather cloudy and hot. *Aus* paddy harvest nearly done; *aman* paddy transplanting continues. Price of rice tending to rise. Public health fair. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| Moorshedabad ... | 4·63 | Weather seasonable. High floods have almost entirely destroyed *aus* crops; *aman* doing well, except on low lands, where it also has been destroyed by floods. Common rice 10 to 12 seers per rupee. Public health fair. |
| Burdwan ... | 3·16 | *Aus* being harvested; transplanting of paddy nearly finished. Crops everywhere promising, except near riverbanks and in low lands, where rain and floods have done much mischief. Common rice 11¼ to 14 seers per rupee. Fever in parts of the district. |
| Rungpore ... | 3·11 | *Aus* harvest completed; jute being cut and steeped; transplanting of *amun* going on. Prices rising. Malarious fever rising in Sudder station; otherwise public health good. |
| Bhagalpur ... | 2·66 | Prospects of crops in north good, but in south damage has been caused by floods. Rice 12 seers 10 chittacks per rupee. Cholera bad in Banka. |
| Purneah ... | 4·48 | Prospects good, but crops near Ganges and Kusi much destroyed by floods. *Bhadoi* harvested. Common rice 14 seers per rupee. Fever prevalent. River receding. |
| Patna ... | *Nil* | *Bhadoi* crops in low and *dearah* lands greatly damaged by unusual overflow of the Ganges. Transplanting of paddy still continues. Cholera still reported from subdivisions. |
| Durbhunga ... | 6·81 | Reaping of *bhadoi* harvest rapidly coming to an end. Rivers again in flood, causing considerable damage to low-lying paddy lands. Prices stationary. Public health generally good. |
| Hazaribagh ... | *Nil* | Weather bright and clear. *Bhadoi* being harvested; outturn below average; rice and other crops promise well. Cholera very prevalent in several thanas; small-pox reported from a few villages. |
| Dinagepore ... | 1·12 | Stormy weather and sunshine. Harvest of early crops successful; late crops prospering. Prices of rice falling slightly. A little cattle-disease and cholera, otherwise general health good. |
| Pubna (Serajganj) ... | 1·82 | Rivers still rising. *Amun* crops very promising. Market of rice rising. Public health good. |
| Gya .. | *Nil* | Prospects of crops and public health good. Prices stationary. |
| Chumparun ... | ·86 | Excessive rain has done some damage to *makai* and other *bhadoi* crops. Prospects of *aghan* crops excellent. Prices fallen slightly. Cholera abated. |
| Cuttack ... | ·08 | Weather cloudy; more rain wanted. Outturn of early rice fair; late rice being weeded. Price of rice almost unchanged. Public health good. |
| Midnapur ... | 1·25 | Weather seasonable. Crops not drowned by recent flood doing well. Health fair. |
| | | ***General Remarks.*—Generally not much rain during the week, and the comparative cessation of it in many districts has greatly benefited all crops. In Orissa, however, more rain is wanted. General prospects of crops are fair, except in inundated tracts in the Burdwan and Presidency Divisions and Behar. Price of rice already high; has risen in several districts owing to excessive rain and floods. General health continues fair, but fever has appeared in some districts.** |
| **N. W. Provinces and Oudh—(Sept. 17th)** | | |
| Benares (Sept. 15th) | *Nil.* | More rain required for rice; other crops good. Prices steady. Health good. |
| Allahabad ( „ „ ) | *Nil* | More rain wanted for late rice. Markets well supplied; prices rising slightly. Sporadic cholera continues, otherwise health good. |
| Gorakhpur ( „ 14th) | ..... | A break in the rains. Reaping commenced; rice outturn excellent. Prices stationary. Cholera abated in south, elsewhere still prevalent. |
| Jhansi ( „ „ ) | ..... | A break has been very beneficial. Prices pretty steady. Slight fever and cattle-disease. |
| Agra ( „ „ ) | *Nil* | Crops not damaged by rain doing well; *rabi* ploughings begun. Prices steady. Fever prevalent; cholera slight. |
| Bareilly ( „ 15th) | ..... | Crops so far doing well, but more rain needed. Market well supplied, and prices steady. Slight fever generally prevalent, and cholera reported from village in tahsil Baheri; no cattle-disease. |
| Meerut ( „ „ ) | *Nil* | **West winds. *Kharif* crops flourishing. Supplies sufficient. Prices stationary. Health good.** |
| Kumaon ( „ 14th) | ..... | Rains almost ceased. Rice reaping commenced. Prices slightly risen. Fever increasing: cattle-disease continues. |
| Lucknow ( „ „ ) | ..... | Weather fair; west winds. State of crops good. Rain wanted for the highland rice crops; some of the *kharif* crops are being cut; *mash* sowing nearly finished. Supplies abundant. Prices steady. Cholera decreasing, but disease among cattle is reported in some places. |
| Partabgarh ( „ 15th) | *Nil* | *Juari* and *bajri* have in consequence improved; *makka*, *sawan*, and *kakun* nearly all cut. Prices rising. General health good. |
| Sitapur ( „ „ ) | ..... | Dry westerly winds have prevailed during the week, and more rain is hoped for. *Dhan* is being cut in some places, and an average outturn reported. Cholera is reported from the trans-Chamka parganas of tahsil Biswan. |
| Fyzabad ( „ „ ) | ·30 rain at Sadar during the week. | *Kharif* prospects continue good. Fever prevalent in tahsils Fyzabad and Akbarpur, and also cattle-disease; some cholera in part of the district. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*concld.* | | |
| Banda (Sept. 15th) | Very little rain during the week. | Heat excessive. *Kharif* crops flourishing. Prospects excellent. Market well supplied. Prices steady. Usual autumnal fever prevalent everywhere; cholera in one village of Kunasin; cattle-disease in four villages. |
| Ballia ( „ „ ) | ... | Beneficial break. Market full. Cholera decreasing. 18 deaths. |
| Rae Bareli ( „ 14th) | *Nil* | Weather bright, with westerly wind. *Dhan* in some places being irrigated. Prices almost steady. Cholera and cattle-disease continue. |
| Cawnpore ( „ „ ) | No rain to speak of during past week. | Weeding in progress, and *rabi* ploughings have commenced. *Kakun*, *sawan*, and maize being cut. Some injury to crops on lowlands from heavy rains. Fever prevalent and a few fatal cases of cholera in two parganas; cattle-disease in six parganas, severe in one. |
| Farakhabad ( „ 15th) | *Nil* | Continued fine weather, with west winds. Crops fair. Cholera abated in Farakhabad, but prevalent in Fatehgarh. |
| | | *General Remarks.*—There is a general break in the rains. Prospects good. Markets well supplied. Prices generally steady. Cholera is abating in some places, but showing itself in others, though in a mild form; the general health is, however, good. |
| **Punjab—(Sept. 16th)** | | |
| Hissar (Sept. 15th) | *Nil* | Fever prevalent. *Kharif* flourishing. Prices stationary. |
| Delhi ( „ „ ) | *Nil* | Health fair. *Kharif* prospects average. Prices slightly rising. |
| Umballa ( „ „ ) | *Nil* | Health fair. *Kharif* prospects good. Prices stationary. |
| Jullundur ( „ „ ) | *Nil* | Health good. *Kharif* prospects fair. Prices falling. |
| Ferozepore ( „ „ ) | *Nil* | Rain wanted. Health and *kharif* prospects good. Prices stationary. |
| Amritsar ( „ „ ) | *Nil* | Health and *kharif* crops good. Prices stationary. |
| Sialkot ( „ „ ) | *Nil* | Health good. Prices stationary. |
| Lahore ( „ „ ) | *Nil* | Rain wanted. Health good. Prices almost stationary. |
| Mooltan ( „ „ ) | *Nil* | Health and *kharif* crops good. Prices fluctuating. |
| Rawalpindi ( „ „ ) | ·60 | Health good, with exception of a few cases of cholera in tahsil Kahuta. *Kharif* prospects fair. Prices stationary. |
| Shahpur ( „ „ ) | Rain throughout the Shahpur and Bhera tahsils. | Rain needed in tahsil Khushab. Health good. Prices almost stationary. |
| Dera Ismail Khan ( „ „ ) | *Nil* | Health good. Prices stationary. |
| Peshawar ( „ „ ) | *Nil* | Fever prevalent. *Kharif* prospects good. Prices falling. |
| | | *General Remarks.*—Slight rain in the Simla, Rawalpindi, and Shahpur districts. Fever prevalent in the Hissar and Peshawar districts; a few cases of cholera in the Kahuta tahsil of the Rawalpindi district; elsewhere the health is generally good. *Kharif* prospects generally good. Prices falling in the Jullundur and Peshawar districts, rising in the Delhi district, and stationary elsewhere. |
| **Central Provinces—(Sept. 16th)** | | |
| Nagpur ... | *Nil* | Weather cloudy and sultry; rain wanted for light soils. Fever prevalent; small pox and cattle-disease in places. Prices steady. |
| Jubbulpore ... | *Nil* | Weather hot and close. Cotton and *til* very favourable. Rain wanted for rice and other wet crops. *Rabi* ploughings in hand. Cholera decreasing. Prices stationary. |
| Saugor (Sept. 15th) ... | *Nil* | Weather clear and hot; rain wanted. *Kharif* crops reported good. Land under preparation for *rabi* sowings. Health good. Prices steady. |
| Seoni ... | ·77 | Rain wanted. Prospects tolerably good. Ploughing going on. Slight cholera and cattle-disease. Prices stationary. |
| Hoshangabad ... | *Nil* | Weather hot and close; rain much wanted. Cholera in two tahsils. Prices steady. |
| Khandwa ... | ·09 | Weather unusually hot, with occasional clouds. Crops withering for want of rain. 28 cases of cholera, 14 deaths. Prices steady. |
| Raipur ... | ·71 | Weather clear and sunny; rain wanted for *kharif*; prospects otherwise good. Cholera decreasing. Prices unchanged. |
| Sambalpur (Sept. 12th) | ·06 | Weather very warm; rain much wanted. Rice in critical condition, and has already been seriously injured on high lands. Cotton and sugarcane doing well. Cholera in parts. Prices rising. |
| | | *General Remarks.*—Weather continues clear and hot, and rain is wanted more or less in every district, especially in Nimar and Sambalpur. Prices, however, remain steady, except in Sambalpur. Cholera decreasing. |
| **Mysore and Coorg—(Sept. 16th)** | | |
| Bangalore } (Sept. 17th) Mysore } | Bangalore, 4·80; Mysore, 3·31; Tumkur, 1·33; Kolar, ·79. | Rain has also fallen more or less throughout the State, though not in sufficient quantity, to remove all apprehensions. If more good rain falls it is hoped that a considerable part of the standing dry crops which are already waving will be saved. Water and pasturage still scarce; in parts of Bangalore leaves occasionally being used for fodder; cattle generally in poor condition; no material change in prices, except in Kolar, where they have fallen a little. Cholera abating in Mysore district, elsewhere public health generally good. The late unexpected downpour has lessened the gloomy anticipations which prevailed a week ago. Prospects are, however, still uncertain, and much depends on further timely rain. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Mysore and Coorg**—*contd.* | | |
| Mercara (Sept. 16th) | ·66 | Transplanting of paddy fields completed. Prices of foodgrains stationary. Prospects of season and public health good. |
| **Berar and Hyderabad—(Sept. 16th)** | | |
| Amraoti ... | *Nil* | Weather cloudy. Crops doing well, but require rain. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | *Nil* | Weather cloudy, but rain holding off. Standing crops good, except in parts where they wither for want of rain. |
| Hyderabad ... | ·83 (average rainfall during the week). | Rain proved beneficial to crops; break in previous week injured *juari* crops in Asifnagar. 40 deaths from cholera in Pathir taluk; no sickness in other talukas. Prices—wheat 13¼, coarse rice 12¼, white *juari* 18¾, yellow *juari* 21, and *tur* 15 seers per current sicca rupee. |
| **Central India States—(Sept. 16th)** | | |
| Indore ... | 1·28 | Total rainfall 22·83. Weather cloudy and warm. Prices steady. |
| Morar (Gwalior) ... | *Nil* | Fever still in Lashkar and in Morar. Prospects good. |
| Sutna ... | *Nil* | Weather clear and hot. Cholera still reported from many parts of Rewah State. |
| Neemuch ... | *Nil* | Rain much wanted. Crops doing well. Prices slightly rising. Health good. |
| Goona ... | *Nil* | Health good. |
| Agar ... | ·08 | Health and prospects good. |
| Sehore ... | ·05 | Total rainfall 57·86. Prospects of crops improving. Weather hot and clear. Cholera disappeared. |
| Nowgong ... | ·20 | Total rainfall 38·76. Weather clear Prices steady. Health good. |
| Manpur (Bhopawar) ... | *Nil* | Total rainfall 29·20. Rain much needed. Cholera abated in Amjhera, but 2 fatal cases reported from Sirdarpur. |

*N. B.*—As regards the figures in column "*Total receipts from 1st April to date*," audited figures have been availed of as far as possible.

(a) Return not received.

(b) Total receipts from 1st April to 23rd August 1884.

(c) Total receipts from 1st April to 22nd August 1885.

(e) Including Rewari-Ferozepore.

(e) Total receipts from 1st April to 15th August 1885.

(f) Of this length 40·5 miles are opened for passenger and goods traffic, and the remainder for goods traffic only. The calculations are based upon total mileage.

(g) Total receipts from 2nd April to 30th August 1884.

FRED. FIREBRACE, *Major, R.E.,*
*Under Secretary.*

The 19th September 1885.

## LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at the Viceregal Lodge, Simla, on Wednesday, the 23rd September, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.
His Honour the Lieutenant-Governor of the Punjab, LL.D., K.C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.
The Hon'ble W. W. Hunter, C.S.I., C.I.E., LL.D.

### LAND ACQUISITION (MINES) BILL, 1885.

The Hon'ble MR. HOPE presented the Report of the Select Committee on the Bill to provide for cases in which Mines or Minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870.

### LOCAL AUTHORITIES LOAN ACT, 1879, AMENDMENT BILL.

The Hon'ble MR. HOPE also presented the Report of the Select Committee on the Bill to amend the Local Authorities Loan Act, 1879.

### CENTRAL PROVINCES CIVIL COURTS BILL, 1885.

The Hon'ble MR. ILBERT presented the Report of the Select Committee on the Bill to amend the Law relating to Civil Courts in the Central Provinces.

The Council adjourned to Thursday, the 1st October, 1885.

SIMLA; *The 25th September, 1885.*

D. FITZPATRICK,
*Secretary to the Government of India, Legislative Department.*

*Note.*—The Meeting fixed for the 26th August, 1885, was subsequently postponed to the 23rd September, 1885.

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 23rd SEPTEMBER 1885.

GENERAL REMARKS.—Rain is reported from all the districts of the Madras Presidency. In Bellary and Anantapur prospects have much improved. Elsewhere they are said to be fair, though more rain is required in most districts. In Mysore slight rain fell during the week in the Tumkur, Kolar, and Bangalore districts, but more is urgently required throughout the State, especially in the two districts first-named and in Chitaldroog. Agricultural operations have been resumed in some places, and the prospects of the season have slightly improved, except in parts of Tumkur, Chitaldroog, Shimoga, and Kadur. The cattle continue in poor condition, but pasturage is reported to be more plentiful.

Good rain has fallen throughout the Deccan and Southern Mahratta Country, and the condition of crops has been much improved. In most districts of Guzerat and in parts of Tanna and Colaba more rain is urgently needed. The *kharif* harvest generally promises well, and preparations for the *rabi* crops have commenced in places. In the Berars and in Hyderabad the rainfall of the week has been beneficial to the crops, which are generally doing well. In parts of Akola more rain is badly wanted. In Rajputana more rain is wanted in several States, but crop prospects are, on the whole, favourable. Rain is also wanted throughout the Central India States.

From the Central Provinces good rain is reported in the districts in which it was most wanted, and prospects have much improved. More rain is, however, very generally required. In the Punjab slight rain fell during the week. *Kharif* prospects are generally good, and agricultural operations for the spring crops have commenced in places. In the North-Western Provinces and Oudh the rainfall has been slight, and more rain is wanted, both for rice crops and *rabi* sowings. General prospects are, however, good.

In Bengal rain has been general, though fortunately less heavy than in previous weeks, and the cessation has been very beneficial. The *bhadoi* harvest is in progress, and late rice crops on lands not inundated are doing excellently. Floods have caused more or less damage in many places, particularly in parts of the Burdwan and Presidency Divisions. In Assam much rain has fallen during the past fortnight. In Sylhet crops have been much injured by floods, which are, however, reported to be subsiding. In the other districts agricultural prospects continue generally good.

In British Burma the weather continues seasonable.

The public health is generally fair in most Provinces.

Prices are fluctuating in the North-Western Provinces and Oudh and in the Central Provinces. In the Shimoga district of Mysore they are reported to be rapidly rising, and a slight rise has also occurred in Coorg. In Bengal the price of rice continues high. Elsewhere prices are fairly steady.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Sept. 23rd)** | | |
| Bellary ... | 2·75 (average) | Early dry crops already mostly withered; partially withered crops reviving in parts; wet crops moderately good. Moisture generally sufficient for sowing later crops on black soils. Harvest *cholum* under wells in Bellary, outturn below average. Paddy in Hospet in Harpanhalli. Migration from parts of Bellary and Alur. Cattle-disease |
| Kurnool ... | 1·94 ( „ ) | Crops revived by recent rains. Small-pox in two taluks and cattle-disease in one. |
| Ganjam ... | 1·0 ( „ ) | Transplantation impeded and seedlings withering in parts for want of rain. Cattle-disease in Berhampore; 80 deaths from cholera. |
| Kistna ... | 1·53 ( „ ) | Crops reviving. River 6·8 feet over anicut. Fever and small-pox in parts; deaths from cholera unreported last week 24, this week 16. |
| Chingleput (Madras) ... | 3·19 ( „ ) | Standing crops good. Harvest paddy, *ragi*, and *cumbu* in parts, outturn below average. Cattle-disease slight. |
| Coimbatore ... | ·43 ( „ ) | Standing crops generally good, but want rain and are damaged by insects in parts; harvest dry grains in parts, outturn about average. Fever and small-pox in parts; cattle-disease in one village. |
| Tanjore ... | ·89 ( „ ) | Standing crops generally good, except in parts of Patukota, where they want rain; harvest paddy and dry crops, outturn below average. 9 deaths from cholera. |
| Madura ... | ·87 ( „ ) | Fever prevalent; 1 death from cholera. |
| Malabar ... | ·27 ( „ ) | Rain required for second crop cultivation. Harvest first crop paddy, outturn below average. Cattle-disease in six taluks; small-pox in five; and fever in two. |
| Travancore ... | ·04 ( „ ) | Harvesting almost over. Fever in parts. |
| **Bombay—(Sept. 23rd)** | | *General Remarks.*—General prospects fair; much improved in Bellary and Anantapur under the recent heavy rains. |
| Karachi ... | *Nil* | Weather sultry. River at Kotri on 21st, 13 feet 11 inches against 15 feet 6 inches on same date last year. Fever in nine talukas. *Kharif* crops coming into ear. Cholera cases in Karachi city 8, 6 deaths, and in Johi Rural circle 7 cases, 5 deaths. Prices—wheat, red rice, and *bajri* in Karachi 26, 34, and 32; in Johi 26, 42, and 42; in Ghoraberi 22, 38, and 36; and in Kotri 32, 40, and 36 pounds per rupee, respectively. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Hyderabad ... | Rain at Hala on 16th Sept. ·30 | *Kharif* cultivation continues good. Rice crops injured by rats in Tando Bago taluka and in Tando Alahyar taluka. Crops have suffered from unfavourable winds, and consquently will not yield good harvest. River at Kotri on 21st, 13 feet 10 inches against 15 feet 6 inches on same date last year. Cholera reappeared in Hyderabad, 1 attack on 20th September; cattle-disease in one and fever in six talukas. Prices of gram steady. |
| Ahmedabad ... | ·20 | Total rainfall 21·69. Crops withering for want of rain, which is urgently required. Cholera in Dholka 7 cases, 3 fatal; fever in Sanand and Viramgam; cattle-disease in Parantij. Wheat 68 and *bajri* 32 pounds per rupee. |
| Baroda ... | No rain during week | Want of it is felt. Young crops suffering. Public health fair; slight cholera in Sidhpur. Prices—*bajri* 27, wheat 27, and rice 22 pounds per rupee. |
| Surat ... | Maximum at Pardi, 2·60; minimum at Bardoli, ·14. | Rice and other young crops now require more rain. Weeding completed. Cattle-disease in Bardoli taluka. River in Pardi and Bardoli talukas. Average prices *juari* 38¼ and *nagli* 43¾ pounds per rupee. |
| Nasik ... | Rain throughout the district, maximum in Nandgaon, 4·89; minimum in Baglan, 1·34. | Sowing of *kharif* crops completed. Land being prepared for *rabi* crops. Season healthy. Want of fodder is still felt to some extent in Nandgaon and in the south-eastern part of Baglan. Cholera in Nasik, Dindori, and Niphad, attacks 6, deaths 5. Wheat 34½, *bajri* 33¾, and rice 20¾ pounds per rupee. |
| Colaba (Bombay) ... | Rain every day, except on 20th and 21st, heavy on 17th and 22nd; total of week 6·17. | Total rainfall to date 62·59, being 3·97 below average. Abnormal temperature 2° cool on 17th, 1° warmer on 20th and 21st, and *nil* on all other days; vapour in air slightly in excess of normal; abnormal wind northerly, except on 17th, when wind was normal; thunder and lightning on 16th; lightning on 17th; and thunderstorm on 22nd. |
| Poona ... | Rain throughout the district, maximum in Indapur, 10·82; minimum in Khadkala, ·89. | Young crops in good condition. 58 cholera cases in two talukas, 28 deaths. Prices of *bajri* 29 and *juari* 36; in Poona *bajri* 28 and *juari* 30 pounds per rupee. |
| Ahmednagar ... | Shrigonda, 9·24; Kopargaon, 6·31; Akola, 5·78; Newasa, 4·27; Sheogaon, 3·95; Nagar, 3·76; Rahuri, 3·70; Jamkhed, 3·59; Karjat, 2·96; Parner, 2·92; Sangamner, 2·58. | Rainfall has been beneficial to the *kharif* crops which are doing well throughout the district. Sowing of *rabi* will be begun as soon as there is a break. Cattle are now improving in condition; slight cattle-disease in Sangamner; fever in Akola, 32 attacks, 13 deaths. *Bajri* from 33 to 42, and *juari* highest in Sangamner 39 and lowest in Jamkhed 60 pounds per rupee. |
| Sholapur ... | Sholapur, 5·84; Barsi, 7·24; Madha, 11·17; Karmala, 6·99; Pandharpur, 11·88; Sangola, 9·21; Malsiras, 12·12; Akalkot, 5·22. | Prospects much improved. *Kharif* crops are reviving, and *rabi* sowings will commence generally when the rain ceases. There is a scarcity of fodder in parts, but young grass is springing up. *Juari* 42 pounds 31 tolas and *bajri* 30 pounds 39 tolas per rupee. Cholera 9 cases, no deaths. |
| Dharwar ... | Rain at all stations, varying from 4·02 in Gadag to ·14 in Hubli. | Heavy rain has fallen in eastern talukas, where it was most required, and where the crops which were withering are reviving, and cotton sowing has commenced. Rice crops require heavy showers which, it is expected from the cloudy weather, will fall soon. Slight cholera in two talukas. Prices—*juari* 41 and rice 23 pounds per rupee. Season prospects improving. |
| Kanara ... | Karwar, 1·58; Kumpta, 2·21; Haliyal, ·37. | Early crops in ear on coast. Dysentery in Honore; fever in three talukas and cattle-disease in two. Common rice at Karwar 12, district average 13¼ seers per rupee. |
| Rajkot ... | ·76 | Fever prevalent in Rajkot and Virpur; general health good. *Bajri* 35 and *juari* 46 pounds per rupee. |
| | | *General Remarks.*—Good rain throughout the Deccan and Southern Mahratta Country. Condition of crops and grazing much improved by it; more rain urgently needed in most districts of Guzerat and in parts of Tanna and Colaba. Preparations for *rabi* crops commenced in parts of Nasik, Bijapur, Belgaum, and Broach. Standing crops injured by rats and storms in parts of Hyderabad. Cholera in parts of fifteen; fever in parts of twelve; and cattle-disease in parts of nine districts. |
| **Bengal—(Sept. 23rd)** | | |
| Chittagong ... | 1·33 | Weather seasonable. Prospects of crops generally fair. Transplanting of *amun* continues. Prices falling. Cholera still reported. |
| Dacca ... | 2·26 | Prospects of crops continue favourable. Harvesting of *aus* nearly completed and that of jute going on. Floods decreasing. Public health good. |
| 24-Pergunnahs (Calcutta) | 1·05 | Prospects of *aus* on the whole good. *Amun* on highlands doing well, but loss expected on lowlands, especially on north-eastern parts of the district. Harvesting of *aus* continues. Common rice 10 to 13 seers per rupee. Fever in places. Public health good. |
| Moorshedabad ... | 4·30 | Weather seasonable. *Amun* on highlands doing well, but in lowlands it has suffered, as well as *aus*. What proportion of *aus* will be reaped not yet fully estimated. Sowing of *kalai* commenced in Jungipore *churs*. Common rice 10 to 13 seers per rupee. Public health good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal**—*contd.* | | |
| Burdwan ... | ·78 | Prospects of crops good everywhere, except where lands have been inundated. Harvesting of *aus* progressing. Price of rice 12 to 15 seers per rupee. Public health generally good. |
| Rungpore ... | 1·38 | No complaints of want of rain. Transplanting not yet completed. Prospects of crops good. Price of rice still rising, though a full *aus* crop harvested. Fever still prevalent in Sadr station. |
| Bhagalpur .. | *Nil* | Prospects of winter rice excellent. Break in the rains very opportune for *bhadoi* harvest and *kurthi* sowing. Floods subsiding, and sowing of peas, &c., begun. Prices falling. Cholera increasing in north, but decreasing in south. |
| Purneah ... | 1·57 | *Bhadoi* harvest good, where not flooded; *aghani* where planted in time fair; *kolai* being sown. Rivers falling. Coarse rice 16 seers per rupee. Health poor. |
| Patna ... | ·11 | Transplanting of paddy nearly over; harvesting of *bhadoi* progressing. Cholera still reported from sub-division. |
| Durbhanga .. | *Nil* | Harvesting of *bhadoi* almost over. Prospects of paddy promising. Floods subsiding. Prices still stationary. Public health generally good. |
| Hazaribagh ... | *Nil* | Weather unsettled. Sunshine and cloudy weather alternating. *Bhadoi* being harvested, outturn below average; rice crops promise well. Cholera abating; fever prevalent. |
| Cuttack .. | 1·79 | Weather stormy and rainy; heavy gale since night of 21st; rain will greatly benefit late rice. Common rice 10½ seers per rupee. Public health generally good. |
| Midnapur .. | 1·17 | Prospects of crops very poor in east of district, but good to the west. Fever increasing. |
| Khoolna ... | 9·76 | Weather rainy, with a few fine days. *Aus* paddy in one part of the district damaged by flood; transplanting of *amun* paddy completed. Public health fair. |
| Dinagepur ... | ·87 | Little rain, but constant threatening. Both harvest and cultivation progressing most favourably. A little sporadic cholera; general health good. Average price of rice 15 seers per rupee. |
| Pubna (Serajganj) ... | 2·63 | *Amun* crop promises well. Rivers falling, but slightly. Rice selling high. Fever prevalent. |
| Gya .. | ·58, and more falling | Average outturn of *bhadoi* 10 to 12 annas. *Kharif* promising. Prices stationary. Health good. |
| Chumparan ... | ·15 | Excessive rain has done some damage to *bhadoi* crops. Prospects of *aghani* excellent. Prices fallen slightly. Cholera abated. |
| | | *General Remarks.*—Rain in almost all districts, but generally not so much as in previous weeks. The comparative cessation of rain has been very beneficial to all crops. *Bhadoi* harvest is proceeding, and late rice crop on lands not inundated is doing excellently. Floods have done more or less damage in many places, particularly in parts of the Burdwan and Presidency Divisions. Price of rice generally continues high. Fever is beginning to be prevalent in some districts, but general health, on the whole, is fair. |
| **N. W. Provinces and Oudh—(Sept. 24th)** | | |
| Benares (Sept. 22nd) | ·50 rain at Sadr | Crops fair. Rain wanted. Fever prevalent, otherwise health good. |
| Gorakhpur ( „ 21st) | Showers in all the tahsils. | Rice harvest commenced, outturn good. Prices falling. Cholera still prevalent. |
| Fyzabad ( „ 22nd) | 1·30 rain in the week at Sadr. | *Kharif* prospects good. A few cases of cholera in some parts of the district; condition of cattle fair. |
| Lucknow ( „ 21st) | ..... | Weather cloudy since the last night. *Kharif* crops being gathered. Rain very much wanted for the rice and *mash* crops on the upland. Supplies ample. Prices slightly rising. Slight fever and cholera reported in the district; condition of cattle good. |
| Rae Bareli ( „ „ ) | No rain during the week until to-day, when between mid-day and 4 P.M. 1·40 rain fell at Sadr—not before wanted. | *Kuari dhan* and *makka* being cut; transplanted rice, and *jarhan* has been irrigated. Prices generally steady. Cholera in a few villages; cattle-disease continues. |
| Partabgarh ( „ 22nd) | ..... | Rain wanted for *jarhan* rice. Prices steady. Fever prevalent in Kunda; cattle suffering somewhat from foot and mouth disease. |
| Allahabad ( „ „ ) | ..... | Weather cloudy; every appearance of rain which is required for late rice and *rabi* sowing. Markets well supplied. Prices falling slightly. Fever and sporadic cholera continue; foot and mouth disease reported in places. |
| Cawnpore ( „ 21st) | *Nil* | A good shower required for standing crops, especially where unirrigated, and for *rabi* ploughings. *Maize* being cut. Prices steady. Fever generally prevalent; cholera in two parganas; cattle-disease in six parganas, severe in one. |
| Banda ( „ „ ) | Fair shower on 20th | Rain much wanted. Markets well supplied. Prices steady. Fever still prevalent; no epidemic. |
| Ballia ( „ 22nd) | Slight rain | Sky clear. Crops generally good. 132 deaths from cholera; slight fever. |
| Farakhabad ( „ „ ) | *Nil* | Easterly wind and cloudy. Prospects fair. Cholera still prevalent; some cattle-disease in Chibraman. |
| Sitapur ( „ „ ) | ..... | The wind has been easterly and the weather cloudy during the week, but no rain has fallen; it is much wanted for later *kharif* crops and *rabi* sowings. Condition of cattle and people good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Bareilly (Sept. 22nd) | ..... | Want of rain generally felt. Prices rising slightly. Fever still prevalent; no cattle-disease. |
| Kumaon ( „ 21st) | *Nil* | Crops being reaped. Prices stationary. General health fair; cattle-disease continues. |
| Agra ( „ „ ) | *Nil* | *Rabi* ploughings going on. Prices rising slightly. Fever prevalent; cholera slight. |
| Jhansi ( „ „ ) | ..... | No change since. Rain again wanted. |
| Meerut ( „ 22nd) | *Nil* | Rain now needed for *rabi* ploughings and sowings; *kharif* prospects good. Prices steady. Slight fever, otherwise health good; some cattle-disease in tahsil Murvana. |
| | | *General Remarks.*—A slight sprinkling of rain in some places; more is needed in other places both for rice crops and *rabi* sowings. General prospects are, however, good. Cholera generally abating; fever prevails in places, as also cattle-disease; the general health continues good. |
| **Punjab—(Sept. 23rd)** | | |
| Hissar (Sept. 22nd) | ·40 | Fever prevalent. *Kharif* flourishing; *rabi* ploughing commenced. Prices stationary. |
| Delhi ( „ „ ) | *Nil* | Health fair; cholera in one village. Prices stationary. |
| Umballa ( „ „ ) | ·20 | Health fair. *Kharif* prospects good; *makki* and rice being harvested; gram sowing commenced. Prices stationary. |
| Jullundur ( „ „ ) | ·40 | Health good. *Rabi* ploughing commenced. Prices stationary. |
| Ferozepore ( „ „ ) | ·20 at Moga; ·10 at Muktsar. | Health good. *Kharif* prospects good, but more rain is wanted. Prices stationary. |
| Amritsar ( „ „ ) | ·30 | Health and crops good. Prices stationary. |
| Lahore ( „ „ ) | *Nil* | Health good. *Kharif* prospects of canal and well-irrigated lands good. Prices stationary. |
| Mooltan ( „ „ ) | Drizzle at Sadr | Health and *kharif* crops good. Prices almost stationary. |
| Rawalpindi ( „ „ ) | 1·0 | Health good, with exception of fever in tahsil Kahuta. *Kharif* prospects average. Prices stationary. |
| Shahpur ( „ „ ) | Rain still wanted | Health good. Prices stationary. |
| Dera Ismail Khan ( „ „ ) | ·24 | Health good. Prices stationary. |
| Peshawar ( „ „ ) | *Nil* | Fever prevalent. Prospects good. Prices falling. |
| rers | | *General Remarks.*—Slight rain. Health and *kharif* prospects generally good. *Rabi* operations commenced in the south-east. Prices stationary. |
| **Central Provinces—(Sept. 23rd)** | | |
| Nagpur ... | 2·49 | Weather showery. More rain wanted. Rice has suffered; other crops still in good order. Fever and cattle-disease in places. Price of rice risen slightly. |
| Jubbulpore ... | Two good showers on 22nd. | Weather seasonable. Cotton and *til* favourable. Rice and other wet crops languishing for rain. Cholera very slight. Prices steady. |
| Saugor (Sept. 22nd) ... | ·12 | Weather cloudy. More rain wanted. Prospects fair. Health good. Prices stationary. |
| Seoni ... | ·52 | Weather occasionally cloudy. Crops on highland withering. *Rabi* ploughing nearly completed. Fever and cattle-disease continue. Prices slightly risen. |
| Hoshangabad ... | 1·35; heavy shower on 21st. | Weather cloudy. Prospects good. Slight cholera. Prices unchanged. |
| Khandwa ... | 2·11 | Weather showery and cloudy. Rain beneficial, but more wanted. Slight cholera. Wheat 19, rice 12, and *juari* 25 seers per rupee. |
| Raipur ... | 1·21 | Weather cloudy at times. More rain wanted. Rice on highland drying up. Cholera in interior, 132 cases, 114 deaths. Prices steady. |
| Sambalpur (Sept. 19th) | 1·8 | Weather warm and cloudy. Rain very much wanted. Rice on highland irretrievably injured. Cholera abating. Prices rising. |
| | | *General Remarks.*—There has been a good fall of rain in the districts in which it was most wanted, and prospects have much improved, but more rain is required. Rice on highland in the Chhattisgarh division has been damaged by lack of moisture, and is reported to have been ruined in Sambalpur. |

| **Assam**—(Sept. 16th) | | |
| „ ( „ 23rd) | | |
| Gauhati (Sept. 16th) | 1·76 inches of rain fell during the week ending the 15th instant. | Weather fair. Fever very prevalent; *kalajar* still in Luki circle; cattle-disease reported from some mouzahs. Transplantation of *sali dhan* nearly finished. Prospects of all crops good. |
| „ ( „ 23rd) | 1·68 inches of rain during the week ending the 22nd instant. | Weather rainy. Fever very prevalent; cattle-disease reported from some mouzahs. Transplantation of *sali* finished. Prospects of all crops good. |
| Sylhet ( „ 16th) | 27·41 at Sadr on the 9th; 26·01 rain fell at Karimganj. | Whole country flooded more or less; water falling. *Aus* paddy much damaged, also *sali*; injury to *amun* apprehended. Much mortality in south Sylhet and Habiganj from fever. |
| „ ( „ 23rd) | 5·33 | The floods have done injury to crops. Rivers falling. Public health good. |
| Cachar ( „ 16th) | 8·50 | Weather rainy. Transplanting of *sali* and reaping of *aus* crops progressing; prospects of tea good. Common rice 14 seers $8\frac{3}{5}$ chittacks per rupee. Health good. |
| „ ( „ 23rd) | 2·40 | Weather warm. Transplanting of *sali* and reaping of *aus* crops nearly finished. Common rice 14 seers $8\frac{3}{5}$ chittacks per rupee. Health good. Tea doing well. |
| Dibrugarh ( „ 16th) | 2·79 | Weather seasonable. Transplanting of *sali dhan* finished; *mati kalai* being sown. Prospects of tea and other crops good. Fever prevalent. |
| „ ( „ 23rd) | 5·64 | Weather seasonable. *Mati kalai* being sown. Prospects of tea and other crops good. Fever prevalent. |
| **Mysore and Coorg**—(Sept. 23rd) | | |
| Bangalore ... | Slight rain during the week reported from Tumkur, Kolar, and Bangalore districts; no rain in Mysore district. | Standing crops are said to have improved; but more rain at an early date is urgently required throughout the State. Outturn of *jnari* and *daragu* in Tumkur poor. Agricultural operations reported from some places. Prospects of season slightly improved, except in northern Tumkur, where reported indifferent, and in Chitaldroog report bad. In Maidan talúks of Shimoga and Kadar prospects said to be unfavourable, except in the case of the Nagur taluk. The fall of rain in these two districts on the 12th and 13th instant nowhere exceeded two-thirds of an inch, and was, for the most part, insignificant. Drinking-water procurable, but scanty; pasturage on the whole increasing. Cattle continue in poor condition. Prices not materially altered, except in Shimoga, where they are said to be rising rapidly. Public health good; no cholera deaths reported for the week. |
| Mysore ... | | |
| Mercara ... | 1·50 | Crops in good condition. Picking of *cardamom* crop commenced. Prices of food-grains slightly risen. Prospects of season and public health good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Berar and Hyderabad**—(Sept. 23rd) | | |
| Amraoti ... | 1·23 | The rainfall of the week has been beneficial to the crops. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | 2·62 | More rain wanted in parts of the districts and urgently in Akote and Jalgaon talúks. Crops generally doing well. |
| Hyderabad ... | 5·29 (average) | Rain has been beneficial to standing crops. Cholera has disappeared from Pathar talúka. Prices—wheat 13½, coarse rice 12½, white *juari* 18; yellow *juari* 21¼, and *tur* 15 seers per current sicca rupee. |
| **Central India States**—(Sept. 23rd) | | |
| Indore ... | ·95 | Total rainfall 23·78. Weather cloudy, but cooler; more rain required. |
| Morar (Gwalior) ... | *Nil* | Total rainfall 29·14. More rain wanted. Fever still at Morar and among *lushkur*. Prospects good. |
| Sutna ... | *Nil* | Cholera continues in parts of Rewah State. Prospects fair, but rain urgently required. |
| Neemuch ... | *Nil* | Total rainfall 21·10. More rain urgently needed. Health good. |
| Goona ... | ·08 | Rain much needed. Health good. |
| Agar ... | ·22 | More rain urgently required. Health fair. |
| Sehore ... | ·50 | Total rainfall 58·36. Weather very hot; rain wanted. Prospects of crops fair. Cholera has disappeared. |
| Nowgong ... | *Nil* | Total rainfall 38·76. Weather clear. Prices stationary. Health good. |
| **Rajputana**—(Sept. 23rd) | | |
| Abu (Sept. 23rd) | ·62 | Weather clear and cooler. |
| Sirohi ( „ 20th) | 1·82 | Tanks, wells, health, and crops good. Weather fair and warm; clouds towards evenings, with short heavy showers. |
| Marwar ( „ 18th) | *Nil* | Jodhpur city tanks all full; wells filling up. Health good. Generally crops needing rains. Weather partially cloudy; rain fell more or less in north-eastern districts. Crops likely to suffer where rains are delayed. Prices tending to rise. |
| Kherwara ( „ 21st) | *Nil* | Tanks and wells full. Crops need rain. Health good. Prices still cheap. Weather fine and warm. |
| Meywar ( „ 19th) | 1·53 | Tanks full; wells filling. Crops good in most districts, in some crops have suffered from want of rain. Health good. Prices stationary. Weather fine; more rain still wanted, but no alarm yet for general safety of *kharif* crops. |
| Partabgurh ( „ „ ) | *Nil* | Tanks slightly decreasing; wells full. Crops good. Health good. Prices cheap. Weather dry. |
| Harowti ( „ „ ) | Deoli, 1·72; Tonk, ·42 | Weather clear and hot. Rain needed in parts. Health good. |
| Jhallawar ( „ 18th) | *Nil* | Health and prospects continue good. |
| Kotah ( „ 19th) | *Nil* | Tanks and wells full. Crop prospects good. More rain needed in parts. Cholera abating; fever continues. Prices rising. Weather clear. |
| Ajmere ( „ 22nd) | ·21 | More rain wanted. Health good. |
| Jeypore ( „ „ ) | ·37 | Weather clear. More rain needed. Prices steady. Prospects and health fair. |
| Kerowlee ( „ 19th) | ·86 | Tanks and wells drying. Prospects good. More rain wanted. Health good. Prices steady. Heat moderate. |
| Bhurtpore ( „ „ ) | *Nil* | Tanks and wells full. Prospects good. Health good. Prices stationary. Weather fine; westerly wind. |
| Dholepore ( „ „ ) | *Nil* | Tanks drying; wells full. Prospects good. More rain wanted. Fever prevalent. Prices rising. Weather hot. |
| Ulwar ( „ 22nd) | Slight rain | More rain wanted. Fever continues. Prices of gram and barley fallen; of other grain steady. |
| Bickaneer ( „ 19th) | Rain drops | Tanks and wells fair. Prospects fair, but rain wanted. Fever in some districts. Prices stationary. Weather cloudy. |
| **Nepál**—(Sept. 17th) | | |
| Khatmandu ... | ·70 | Weather getting cold. Prospects good. |

GOVERNMENT OF INDIA.

# REVENUE AND AGRICULTURAL DEPARTMENT.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 30th SEPTEMBER 1885.

GENERAL REMARKS.—Rain has fallen in all districts of the Madras Presidency from which reports are received. Prospects are generally fair, and have greatly improved in Bellary and Anantapur.

More or less rain has fallen throughout the Mysore State, and prospects are less discouraging. More rain is wanted generally, especially in the Mysore and Kolar districts. In Coorg prospects continue favourable, but more rain is required in parts for the rice crop.

Good rain is reported from all districts of the Deccan and Southern Mahratta Country. In Guzerat and in parts of Khandesh more rain is urgently required. *Rabi* sowings have commenced in most districts in the Deccan and in parts of Bijapur and Belgaum. Fodder is scarce in parts of Belgaum and Dharwar.

In the Berars the crops are progressing favourably, but more rain is wanted in Akola. In the Nizam's Territories the rainfall of the week under report has been beneficial to the crops, and prospects are favourable. More rain is much wanted in most States in the Central India and Rajputana Agencies.

The recent rain has much improved prospects in the Central Provinces, but more is still required, especially in Nimar. Preparations for the *rabi* crop have commenced. In the Punjab no rain fell during the past week, but prospects are on the whole good. *Rabi* operations have commenced in parts. Rain has fallen throughout the North-Western Provinces and Oudh, but more is needed in places. *Kharif* crops have benefited by the rain, and harvest operations have begun in a few places. Prospects are on the whole good. In Bengal rain has again been general. Prospects of crops are good, except in the flooded tracts in the Burdwan and Presidency Divisions,—in Behar, and also on the sea-coast of Orissa. *Bhadoi* crops, where not injured by floods, are being harvested with fair results. In Assam agricultural prospects continue favourable.

Crop prospects are good in British Burma.

The public health is generally fair.

Prices are high in Bengal, and are generally steady elsewhere—except in Mysore, where they are rising slightly.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Sept. 30th)** | | |
| Bellary ... | 2·24 (average) | Crops partially withered. Dry crops reviving in parts; wet crops moderately good. Moisture generally sufficient for later crops, except in parts of Harpanhalli. Harvest *cholum* under wells and in tank beds, and gingelly, outturn below average. Migration reported chiefly from Bellary and Hospett. |
| Kurnool ... | Average last week, including report since received, 2·10; average this week, 1·66. | Standing crops fair. Small-pox in two taluks and cattle-disease in one. |
| Ganjam ... | 1·31 (average) | More rain wanted. Seedlings withering in parts. Cattle-disease in Berhampore; 112 deaths from cholera. |
| Kistna ... | Average last week, including report since received, 1·81; average this week, 1·73. | Standing crops thriving. Harvest *cumbu* and maize, outturn below average. River 6·5 feet over anicut. Fever and small-pox in parts; cattle-disease in three taluks; deaths from cholera unreported last week 13, this week 6. |
| Chingleput (Madras) ... | ·49 (average) | Standing crops withering in parts of Chingleput, elsewhere good; harvest paddy, *ragi*, and *cumbu*, outturn below average. Fever in Ponneri; anthrax in Madurantakam; 1 death from cholera. |
| Coimbatore ... | ·67 ( „ ) | Standing crops generally good, but want rain, and are damaged by insects in parts; harvest dry grains in parts, outturn about average. Fever and small-pox slight in parts; cattle-disease in one taluk. |
| Tanjore ... | ·12 ( „ ) | Rain much wanted. Crops not flourishing in parts of several taluks; harvest paddy and dry crops, outturn below average. 19 deaths from cholera. |
| Madura ... | ·22 ( „ ) | Fever prevalent. |
| Malabar ... | ·38 ( „ ) | More rain wanted. Harvest first crop paddy, outturn below average. Small-pox and cattle-disease in six taluks and fever in two; 6 deaths from cholera. |
| Travancore ... | ·54 ( „ ) | Fever and small-pox in parts. |
| | | *General Remarks.*—General prospects fair. Much improved in Bellary and Anantapur. |
| **Bombay—(Sept. 30th)** | | |
| Karachi ... | *Nil* | River at Kotri on 27th, 12 feet 8 inches against 14 feet on same date last year. Fever in eleven talukas. Damage to *kharif* crops in Dadu and Manjand, owing to drought. Cholera cases in Karachi city 3, deaths 3. Prices—wheat, red rice, and *bajri* in Karachi 26, 24 and 34; in Tatta 26, 40 and 40; in Mirpur Botoro 24, 48 and 42; and in Johi 32, 40 and 36 pounds per rupee, respectively. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Hyderabad ... | *Nil* | Rice crops injured by rats in Tando Bago and Gani talukas, and *til* crops by unfavourable winds in Dar Malahat taluka, in Shahdadpur taluka. Cotton crops injured by worms in some places of the Gani, Ralin, and Tando Bago talukas. Reaping of crops commenced. River at Kotri on 28th, 12 feet 6 inches against 13 feet 3 inches on same date last year. Fever in seven and cattle-disease in two talukas. Wheat 28, *juari* 42, *bajri* 40, white rice 20, and red rice 30 pounds per rupee. |
| Ahmedabad ... | *Nil* | Crops withering, owing to excessive heat from want of rain, which is urgently required throughout the district. Cholera in Dholka, 15 cases, 6 fatal; fever in Gogo; Viramgam, and Sanand; cattle-disease in Parantij. Wheat 35 and *bajri* 31 pounds per rupee. |
| Baroda ... | *Nil* | Crops suffering in Gaekwar's territory. Cholera and slight cattle-disease at Sidhpur. Prices—*bajri* 27, wheat 27, and rice 22 pounds per British rupee. |
| Surat ... | Slight rain in four talukas. | More rain much needed. Young crops suffer, particularly rice. Cattle healthy; cholera in Bardoli taluka, 4 cases, 2 deaths; fever in Bardoli and Pardi. *Juari* 38 and *nagli* 42 pounds per rupee. |
| Nasik ... | Nasik, ·74; maximum at Sinnar, 2·97; minimum at Peint, ·09. | *Kharif* crops promise to do well; land being prepared for *rabi*; *juari* sowing in progress in Malegaon and Baglan. More rain wanted in Malegaon for *kharif* crops. Slight inconvenience is felt as regards fodder for cattle in Baglan and Chandor. Cholera in Chandor and Yeola, total attacks 22, deaths 10. Wheat 34½, *bajri* 33¾, and rice 24¾ pounds per rupee. |
| Colaba (Bombay) ... | Rain on 23rd, 27th and 29th; total of week 1·74. | Total rainfall to date 61·38, being 3·57 below average. Abnormal temperature rose from 1° cool on 23rd to 4° warm on 29th; vapour in air excessive; abnormal wind easterly; thunder and lightning on 23rd and 29th; lightning on 28th; thunderstorm on 29th. |
| Poona ... | Rain throughout the district; maximum at Haveli, 4·88; minimum at Sinnar, 1·91. | Standing crops good; sowing of *rabi* begun in five talukas. 61 cholera cases in three talukas, 32 deaths. Prices of *bajri* 29 and *juari* 36; in Poona *bajri* 28 and *juari* 30 pounds per rupee. Cattle free from disease. |
| Ahmednagar ... | **Shrigonda, 3·69; Karjat, 3·34; Parner, 2·96; Sheogaon, 2·64; Rahuri, 2·30; Nagar, 2·16; Jamkhed, 2·10; Newasa, 1·55; Akola, 1·26;** Sangamner, ·87; Kopargaon, ·12. | **Kharif crops are good all over the district. Sowing of *rabi* begun in Nagar, Karjat, Sheogaon, Newasa, and Kopargaon, and will be commenced soon in the rest. Cholera 14 attacks, 4 deaths; slight cattle-disease in Sangamner; fever in Akola. *Bajri*—maximum 42 pounds in Newasa and minimum 33 in Akola; *juari*—maximum 60 in Jamkhed and minimum 42 in Akola.** |
| Sholapur ... | Sholapur, 5·60; Barsi, 3·47; Madha, 2·51; Karmala, 2·57; Pandharpur, 7·18; Sangola, 2·73; Malsiras, 2·57; Akalkot, 2·96. | *Kharif* crops doing well; *rabi* sowing commenced in parts. A break in the weather will facilitate sowing operations. Scarcity of fodder will soon cease. *Juari* 44 pounds 22 tolas and *bajri* 30 pounds 16 tolas per rupee. Cholera 15 cases, 9 deaths. |
| Dharwar ... | Rain at all stations, varying from 4·79 in Navalgund to ·22 in Hubli. | More rain urgently required in rice sowing talukas, which it is expected will fall soon. *Juari* crops are good; cotton sowing in progress. Scarcity of fodder in the eastern talukas. Season prospects hopeful. Slight cattle-disease in two talukas and slight cholera in Navalgund and Bankapur. Prices—*juari* 46 and rice 24 pounds per rupee. |
| Kanara ... | Karwar, 2·92; Kumpta, 2·11; Sirsi, 1·09. | Rain wanted in Haliyal. Rice crops nearly ready for harvest on coast. Dysentery in Honore; fever in three talukas; cattle-disease in four. Common rice at Karwar 12 seers; district average 13¼ seers per rupee. |
| Rajkot ... | *Nil* | General health good. Weather warm. *Bajri* 33 and *juari* 42 pounds per rupee. |
| | | *General Remarks.*—Good rain in all the districts of the Deccan and Southern Mahratta Country. More rain urgently required throughout Guzerat, where crops are withering and in parts of Khandesh; sowing of *rabi* crops commenced in most districts of the Deccan and in parts of Bijapur and Belgaum. Fodder scarce in the eastern talukas of Belgaum and Dharwar. Standing crops damaged by rats, worms, and storms in parts of Hyderabad, and by drought in parts of Karachi. Cholera in parts of sixteen, and fever and cattle-disease in parts of ten districts. |
| **Bengal—(Sept. 30th)** | | |
| Chittagong ... | ·28 | Weather seasonable. Prospects of crops generally fair. Transplanting of *amun* finished. Prices rising. Public health generally fair. |
| Dacca ... | 1·0 | Prospects of crops good. River falling. Public health good. |
| 24-Pergunnahs (Calcutta) | 1·63 | Prospects of crops appear good, except in parts of thana Atchipore and Bistoopore, in Sadr, Bankipore, and Deorpore, in Diamond Harbour and in north-eastern parts of Baraset and Bassirhat subdivisions, where *amun* on lowlands has suffered from rain water and floods. Harvesting of *aus* going on. Estimated outturn 10 to 12 annas. Price of common rice 10 to 13½ seers per rupee. Public health on the whole good. Floods subsiding. |
| Moorshedabad ... | 3·94 | Weather stormy and unsettled. Brighter weather wanted for all crops. *Amun* on highlands of the Barh doing well; *kalai* sowings commenced on *dearah* and other lands that were flooded. Public health good. Price of common rice 10 to 12½ seers per rupee. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal—*contd.*** | | |
| Burdwan ... | 1·85 | Prospects of crops good, except in inundated parts. Harvesting of *aus* proceeding. Price of rice 11½ to 15½ seers per rupee. |
| Rungpore ... | 4·68 | Prospects of *amun* good. Transplanting nearly finished. Jute outturn below average. Sugarcane damaged by excessive moisture. Fever and bowel complaints still prevalent in the station; otherwise public health good. Prices normal. |
| Bhagalpur ... | 1·64 | Prospects of winter rice good. Floods have subsided, and *kurthi* and *kalai* being largely sown. Cholera in many parts of district. Rice 12 seers 10 chittacks per rupee. |
| Purneah ... | 10·04 | *Bhadoi* yield good. Prospects of *aghani* fair where grown. *Kalai* and *kurthi* being sown. Common rice 16 seers per rupee. Much fever. Rivers falling, but floods from rainfall. |
| Patna ... | 5·48 | Paddy growing well. Harvesting of *bhadoi* going on. *Rahar* and cotton promising. *Moolpa* still reported from Behar; otherwise public health good. |
| Durbhunga ... | 5·71 | Prospects of paddy favourable, except in flooded tracts. Harvesting of *bhadoi* nearly completed. Prices falling. A few cases of cholera reported from the subdivisions. |
| Hazaribagh ... | 3·15 | Weather seasonable. Heavy rain all over the district. Crops promise well. Cholera abating; general health good. |
| Cuttack ... | 5·0 | Weather clear, sometimes cloudy. Late rice growing well. Cyclone of 22nd caused great damage. Men, cattle, and wild animals on coast drowned by storm waves in great numbers. Wells and tanks filled with salt; houses and crops washed away. Enquiry being made as to the actual loss. Provision sent for supply to the distressed. Public health good. Common rice 12 seers per rupee in town. |
| Midnapur ... | 4·22 | Prospects of crops outside the flooded area good. Fever prevelent. |
| Khoolna ... | 6·29 | Rain on two days; rest of the week fine. Prospects of *amun* and yield of *aus* good, except in northern thanas in Satkhira subdivision, where some damage to *amun* has been done by floods. Rivers now subsiding. Some fever; public health fair. |
| Dinagepur ... | 7·12 | Heavy rain throughout district. Weather now fine. Early rice and jute harvested. Transplanting of late rice progressing. Cholera somewhat severe in one thana, otherwise health good; cattle-disease reported from north. Average price of rice 15 seers per rupee. |
| Pubna (Serajgauj) ... | 4·71 | *Amun* doing well. Prices stationary. Market of rice still rising. Fever prevailed. |
| Gya .. | 1·23 | Prospect of crops and public health good. Prices slightly easier. |
| Chumparun .. | 5·14 | *Bhadoi* being harvested. Prospects of *aghani* good. Prices stationary. Cholera still reported from interior, but gradually decreasing. |
| | | ***General Remarks.*—Rain in all districts during the week. Prospects of crops are good, except on the flooded tracts in the Burdwan and Presidency Divisions, and in Behar, and also on the sea coast of Orissa, where cyclone of the 22nd instant caused great damage. *Bhadoi* crops, where not injured by floods, are being harvested with fair results. Price of rice continues high all over the province. Fever is prevalent in some districts, but public health, on the whole, is fair.** |
| **N. W. Provinces and Oudh—(Oct. 1st)** | | |
| Benares (Sept. 29th) | 3·3 (average) | Rain has benefited *kharif* crops. Fever still prevalent. |
| Gorakhpur ( „ 28th) | *Nil* | Violent storm on the 23rd ultimo. Weather fine since 24th. Rice harvest commenced, outturn good. Prices stationary. Cholera still prevalent. |
| Fyzabad ( „ 29th) | 0·9 at Sadr during the week. | *Kharif* crops are now being gathered, and land is being prepared for *rabi*. Prospects good. Health of people fair; no cattle-disease reported. |
| Lucknow ( „ 28th) | Slight shower, 0·7 (average). | More rain wanted. *Kharif* nearly harvested; *mash* crop in highland suffering for want of rain. Supplies ample. Prices steady. Cholera reported in tahsils Mohanlalganj and Lucknow; slight cattle-disease. |
| Rae Bareli ( „ „ ) | 11·3 at Sadr during the week. | Weather bright and clear. State of crops good. Prices steady. Cholera and cattle-disease continue. |
| Partabgarh ( „ 29th) | 1·3 (average) | Condition of the crops very good. A few cases of cholera in Partabgarh and Kunda; some fever and cattle-disease in the latter tahsil. |
| Allahabad ( „ „ ) | Good rain, averaging 1·2. | *Kharif* standing crops have been much benefited, and *rabi* ploughing and sowing facilitated. Markets well supplied. Prices steady. Sporadic cholera and fever still continue; health otherwise good. |
| Cawnpore ( „ 28th) | Slight rainfall during the week in five parganas, including head-quarters. | A good general rainfall is much needed for the standing crops and the *rabi* ploughings. Prices steady. Fever prevalent and cholera in five tahsils; cattle-disease in six. |
| Banda ( „ 29th) | Fair and general rain for three days during the week. | Rain has proved very beneficial. Prospects good. Prices steady. Fever still prevalent; no cattle-disease. |
| Ballia ( „ „ ) | Heavy rain, 4·5 at the beginning of the week. | Weather now fair. Crops doing well; indian corn being harvested. General health good; 117 cholera deaths. |
| Farakhabad ( „ „ ) | *Nil* | Weather clear; rain wanted for *rabi* sowings. Cholera still prevails. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Sitapur (Sept. 29th) | Very little rain has fallen in the Sadr tahsil; sufficient rain has fallen in tahsils Biswan and Sidhauli. | The wind has been easterly during the week; rain is much wanted also for the tahsil Misrikh. Prospects are favourable. |
| Bareilly ( „ „ ) | *Nil* | Crops much benefited by rain during the week, but more still needed. Prices steady. Slight fever and cholera in a few villages in Bareilly tahsil. |
| Kumaon ( „ 28th) | Slight hail in some places. | Weather showery. Crops being reaped. Prices stationary. Fever prevalent; cattle-disease continues. |
| Agra ( „ „ ) | *Nil* | Rain is now much wanted. *Rabi* ploughings in progress. Prices steady. Fever prevalent; cholera slight. |
| Jhansi ( „ „ ) | 0·3 | More rain needed for standing crops and *rabi* sowings. Prices generally steady. Slight fever and cattle-disease continue. |
| Meerut ( „ 29th) | *Nil* | No rain during the week; rain now urgently needed for *rabi* operations. Gram being sown and irrigated; *makka* and paddy are being cut; other *kharif* crops flourishing. Prices almost stationary. Slight fever still prevalent. |
| | | *General Remarks.*—Rain has fallen generally throughout the provinces, but more is needed in some places. *Kharif* crops have benefited from the rain, and harvesting operations have begun in a few districts. Prices are steady, and prospects on the whole good. Cases of cholera and fever continue to be reported; otherwise public health is fair. |
| **Punjab—(Sept. 30th)** | | |
| Hissar (Sept. 29th) | *Nil* | Fever prevalent. *Kharif* flourishing; *rabi* ploughing progressing. Prices stationary. |
| Delhi ( „ „ ) | *Nil* | Fever prevalent. Prices fluctuating. |
| Umballa ( „ „ ) | *Nil* | Health fair. *Makki* and rice being harvested; grain sowings in progress. Prices stationary. |
| Jullundur ( „ „ ) | *Nil* | Health good. *Rabi* ploughings commenced. Prices stationary. |
| Ferozepore ( „ „ ) | *Nil* | Health good. *Kharif* crops withering for want of rain. Prices stationary. |
| Amritsar ( „ „ ) | *Nil* | Health and crops good. Prices stationary. |
| Sialkote ( „ „ ) | *Nil* | Health good. Crops below average on unirrigated tracts. |
| Lahore ( „ „ ) | Rain wanted | Health good. Prices stationary. |
| Mooltan ( „ „ ) | *Nil* | Health and crops good. Prices stationary. |
| Rawalpindi ( „ „ ) | *Nil* | Health good, with exception of fever in Kahuta tahsil. *Kharif* prospects average. More rain wanted. Prices stationary. |
| Shahpur ( „ „ ) | Hailstorm in the Sein Valley. | Health good. Prices almost stationary. |
| Dera Ismail Khan ( „ „ ) | *Nil* | Health good. Prices stationary. |
| Peshawar ( „ „ ) | *Nil* | Fever prevalent. Prospects good. Prices falling. |
| | | *General Remarks.*—No rain. Fever in the Hissar, Delhi, and Peshawar districts, and in the Kahuta tahsil of the Rawalpindi district; elsewhere the health is generally good. *Rabi* operations in progress in the south-east. Prices on the whole steady. |
| **Central Provinces—(Sept. 30th)** | | |
| Nagpur ... | ·50 | Weather clear. Prospects much improved by rain. Fever prevalent; cattle-disease in parts. Prices fallen. |
| Jubbulpore ... | ·14 | Light opportune rain, but much heavier fall in the talsils. Crops benefited, but more rain wanted, especially for late sowings and poor soils; cotton very good; *til* fair; *rabi* ploughings commenced. Cholera slight; fever prevalent. Prices steady. |
| Saugor (Sept. 29th) ... | ·27 | Weather clear. More rain wanted. Crops reported good; *rabi* preparations continue. Health good. Prices stationary. Prospects fair. |
| Seoni ... | 1·60 | Weather cloudy. Heavy shower on the 26th; more rain still needed. Ploughing completed. Slight cholera and cattle-disease. Prices steady. |
| Hoshangabad ... | ·09 | Weather clear. Prospects and health good. 56 cases of cholera, 47 deaths. Prices unchanged. |
| Khandwa ... | *Nil* | Weather sultry. More rain wanted. Slight cholera. Prices rising. |
| Raipur ... | 1·32 | More rain wanted for crops on highland. Cholera disappearing. Prices unchanged. |
| Sambalpur (Sept. 26th) | 3·61 | Weather cloudy and warm. Rain has done much good. Prospects improved. Cholera abating. Prices slightly fallen. |
| | | *General Remarks.*—Prospects much improved by recent rain, but more is still required, especially in Nimar, where fall is much below average. Prices steady. |
| **British Burma—(Sept. 30th)** | | |
| Akyab (Sept. 26th) | 0·64 | Total rainfall 169·89. Public health good. Slight cattle-disease in two townships. Crop prospects good. |
| Bassein ( „ „ ) | 2·84 | Total rainfall 109·29. Public health good; cattle-disease severe in three townships. Plants damaged by rats in five circles. |
| Rangoon ( „ „ ) | 1·92 | Total rainfall 95·58. Public health good; cattle healthy. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **British Burma**—*contd.* | | |
| Amherst (Moulmein) (Sept. 26th) | 2·70 | Total rainfall 180·46. Public health good; cattle healthy. Crop prospects good. |
| Tavoy ( „ „ ) | 3·02 | Total rainfall 184·46. Public health good; cattle healthy. Crop prospects good. |
| Pegu ( „ „ ) | 3·12 | Total rainfall 110·98. Public health good; cattle-disease slight in one township. Transplanting nearly completed. |
| Henzada ( „ „ ) | 1·02 | Total rainfall 83·64. Cholera slight in one subdivision; cattle healthy. Crop prospects good. |
| Prome ( „ „ ) | 0·57 | Total rainfall 27·29. Cholera slight in town and district; cattle-disease slight in one township. Transplanting nearly completed. |
| Toungoo ( „ „ ) | 2·60 | Total rainfall 77·58. Cholera slight in town and one township; cattle healthy. Sowing progressing. |
| | | *General Remarks.*—Cholera slight in four districts; elsewhere public health good. Cattle-disease severe in one district; slight in three districts; elsewhere health of cattle good. Crop prospects good. |
| **Assam—(Sept. 30th)** | | |
| Gauhati ... | 2·50 rain during the week ending the 29th instant. | Weather fair. Fever prevalent; cattle-disease still reported from some mouzahs. Ploughing operations commenced for sowing *matti kalai* and mustard. Prospects of all crops good. |
| Sylhet ... | 2·55 | State and prospects of crops fair. Public health good. |
| Cachar ... | ·07 | Weather dry. Reaping of *aus* and transplanting of *sali* crops not altogether finished. Common rice 14 seers 8⅜ chittacks per rupee. Health good. Tea doing well. |
| Dibrugarh ... | 3·80 | Weather showery. Sowing of *matti kalai* and highland crops continues. Prospects good. |
| **Mysore and Coorg—(Sept. 30th)** | | |
| Bangalore ... | ·70; Tumkur, 2·87; heavy showers in Kolar district; elsewhere more or less rain has fallen throughout the State. | More rain needed everywhere. Standing crops withering in Mysore district and backward in parts of Kolar district, but in Tumkur district they are reported to be reviving in localities where rain fell. Outturn of irrigated *ragi* in Tumkur district poor. Cattle in poor condition. Water-supply sufficient for the moment. Prospects of the season reported good in Malnad taluks of Kadur and Shimoga districts, and less gloomy in Mardan taluks. Improving in Bangalore and Tukur districts. Fodder scanty. Public health generally good, except in parts of Tumkur, Kadur, and Shimoga districts, where fever prevails. Prices slightly rising, except in Shimoga and Kolar. The recent rise in Shimoga reported last week due to exportation and to Bellary. Speaking generally the rain has done good and the outlook is a little less discouraging than it was last week. |
| Mysore ... | ·30 | Rain deficient in parts of Nanjarajpatna taluka, and also in the south of Coorg, where planting of rice is delayed. Prospects of season and public health good. |
| Mercara ... | 2·59 | |
| **Berar and Hyderabad—(Sept. 30th)** | | |
| Amraoti ... | ·15 | Crops progressing favourably. *Rabi* ploughings commenced. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | 2·35 | In the Akola and Julgaon taluks prospects have improved, but more rain is required. Crops on other taluks in good condition. |
| Hyderabad ... | Average infall during the week, 1·27. | Rain has been beneficial to standing crops. General health fair. Prices—wheat 13¼, coarse rice 12½, white *juari* 17, yellow *juari* 21, and *tur* 14½ seers per current sicca rupee. |
| **Central India States—(Sept. 30th)** | | |
| Indore ... | *Nil* | Rain most urgently needed; heat intense. Prices rising. |
| Morar (Gwalior) ... | *Nil* | Total rainfall 29·44. Fever in Morar and Lashkar. Prices of food-grains rising. Rain wanted for the *rabi* crops. |
| Sutna ... | ·05 | Heavier showers in other parts of the agency. Cholera decreasing. Weather hot and dry. |
| Goona ... | ·25 | More rain much wanted. Health good. |
| Agar ... | *Nil* | Rain much required. Health fair. |
| Sehore ... | ·72 | Total rainfall 59·08. Weather clear, with cool nights. Prospects of crops improving. |
| Nowgong ... | ·43 | Total rainfall 39·19. Weather clear. Prices stationary. Health good. |
| **Rajputana—(Sept. 30th)** | | |
| Abu (Sept. 30th) | *Nil* | Weather clear and cool. |
| Sirohi ( „ 27th) | ·17 | Tanks full; wells good. Health and crops good. Weather fine and warm. Rainfall below average. |
| Marwar ( „ 25th) | Jodhpore, 0·2 | Tanks full; wells filling. Health good. Crops only good in districts where recent rains have fallen. Weather cloudy. General crops suffering, where there is no rain. Prices stationary. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Rajputana**—*contd.* | | |
| Kherwara (Sept. 28th) | ·27 | Tanks and wells full. Rain much needed. Crops withering from its want. Health good. Prices cheap. Weather fine and hot. |
| Pertabgurh ( „ 26th) | *Nil* | Tanks decreasing; wells full. Crops good. Health good. Prices cheap. Weather fine. |
| Meywar ( „ „ ) | *Nil* | Tanks and wells unchanged. Crops suffering from want of rain. Health good. Prices slightly rising. Weather clear and hot; rain wanted. |
| Harowti ( „ „ ) | *Nil* | Heat great during day; mornings cool. Crops suffering from want of rain. Fever prevalent. |
| Jhallawar ( „ 25th) | *Nil* | Health good. Preparations for ploughing *rabi* commenced. Rain much wanted. Prices falling. |
| Deoli ... | ·14 | Tanks and wells full. Crops good, except in parts where they are withering from want of rain. Cholera disappeared; fever continues. Prices rising. Weather fine. |
| Ajmere ( „ 29th) | *Nil* | Rain wanted. Prices rising. Outturn below average expected. Health good. |
| Kerowlee ( „ 26th) | ·06 | Tanks and wells drying. Crops suffering from want of rain. Health good. Prices rising. Rain urgently required. |
| Dholepore ( „ „ ) | *Nil* | Tanks and wells drying. Rain urgently wanted. Health good; slight fever. Prices slightly rising. |
| Bhurtpore ( „ „ ) | *Nil* | Tanks and wells full. Prospects good. Rain wanted. Health good. Prices steady. Weather fine. |
| Ulwar ( „ „ ) | *Nil* | Rain wanted. *Bajri* being harvested. Fever continues. |
| Bickaneer ( „ „ ) | Rain in districts | Crop prospects fair. More rain wanted. Two cases of cholera in the city amongst pilgrims; fever at Sujangarh. Prices stationary. Weather clear. |
| **Nepal—(Sept. 17th)** | | |
| Khatmandu ... | 3·67 | Prospects good. |

E. C. BUCK,
*Secretary to the Government of India.*

*Printed and published for the* GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL BRANCH PRESS, *Simla.*

SUPPLEMENT TO

# The Gazette of India.

No. 41. CALCUTTA, SATURDAY, OCTOBER 10, 1885.

## OFFICIAL PAPERS.

*A* SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.*

*Non-Subscribers to the* GAZETTE *may receive the* SUPPLEMENT *separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.*

*No Official Orders or Notifications, the publication of which in the* GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

### GOVERNMENT OF INDIA.

### DEPARTMENT OF FINANCE AND COMMERCE.

### REPORT ON THE OPERATIONS OF THE CURRENCY DEPARTMENT FOR THE YEAR 1884-85.

No. 178, dated Calcutta, the 10th October 1885.

From—The Officiating Head Commissioner of Paper Currency, Calcutta,

To—The Secretary to the Government of India, Department of Finance and Commerce.

I have the honour to submit the report upon the operations of the Currency Department for the year 1884-85.

**Arrangement of Subjects.**

PARAS.
2. OFFICERS IN CHARGE.
3. ACCOUNTS AND AUDIT.
4. CIRCULATION.
12. ANALYSIS OF CIRCULATION.

Prescribed Statements.
No. I.—Statistics of Circulation during 1884-85.
„ II.—Statement of Notes issued, received and cancelled.
„ III.—Statement of Receipts and Expenditure.
„ IV.—Classification of Treasuries according to encashment of Notes.
„ V.—Statistics of Treasury and other Balances on December 31st, 1884.
Other Statements.
No. VI.—Issues and Receipts of Home Notes.
„ VII.—Issues and Receipts of Coin.
„ VIII.—Value of Notes in circulation from 1862.
„ IX.—Details of ditto ditto 1872.
„ X.—Outstanding Notes of Issue Register compared with Circulation Balance.

### OFFICERS IN CHARGE.

2. Mr. J. Westland was Head Commissioner, but Mr. E. T. Atkinson officiated for him from 20th March to 18th September 1884. In Madras, Mr. H. F. Clogstoun was Commissioner, but Mr. W. Donald acted for him from the 6th October to 5th November 1884. In Bombay, Mr. E. Gay was Commissioner, and in Rangoon Mr. W. Wells.

## ACCOUNTS AND AUDIT.

3. The monthly audit of the accounts has been duly reported for each office to the Comptroller General, and the following special audits have also been made :—

| Accounts of | Auditing Officer. | Date of report. | Period under audit. |
|---|---|---|---|
| Calcutta | Deputy Auditor General. | 1st July 1885 | 1st April 1884 to 31st March 1885. |
| Lahore | Ditto ditto | 30th January 1885 | 1st January to 31st December 1884. |
| Calicut | J. Twigg, Esq., M.C.S. | 1st October 1884 | 1st April to 30th September 1884. |

## CIRCULATION.

4. The following figures show the state of the net circulation :—

| | Gross Circulation. | Retired by other Offices. | Net Circulation. |
|---|---|---|---|
| 1st April 1884 | 13,08,17,520 | 32,52,110 | 12,75,65,410 |
| 31st March 1885 | 14,94,58,675 | 36,89,635 | 14,57,69,040 |

As explained in previous reports, a note is in "Gross Circulation" when it is not yet returned to the original office of issue; but if it has meantime been paid off by another office of issue, and is held by it pending return to the original office of issue, then it has ceased to be in "Net Circulation," though it is still part of the "Gross Circulation."

5. The details of the net circulation of March 31st, 1885, are as follows :—

| | Number of Notes for Rupees | | | | | | | | Total. | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 5 | 10 | 20 | 50 | 100 | 500 | 1,000 | 10,000 | Pieces. | Value. |
| Calcutta | 316,193 | 1,413,069 | 75,792 | 85,145 | 193,304 | 13,525 | 19,255 | 689 | 2,016,968 | 5,29,26,445 |
| Allahabad | 34,180 | 97,120 | 16,017 | 14,399 | 18,381 | 1,193 | 2,584 | ... | 183,874 | 48,48,390 |
| Lahore | 14,344 | 59,069 | 22,137 | 18,431 | 28,314 | 3,282 | 3,997 | 806 | 149,380 | 39,63,638 |
| Bombay | 164,440 | 348,384 | 121,699 | 88,694 | 74,100 | 6,047 | 13,997 | 974 | 966,313 | 4,54,93,980 |
| Kurrachee | 4,364 | 23,236 | 9,598 | 4,248 | 5,689 | 535 | 1,184 | 151 | 49,813 | 41,89,680 |
| Madras | 37,979 | 72,814 | 34,060 | 25,063 | 70,388 | 5,805 | 1,854 | 24 | 248,482 | 1,45,42,785 |
| Calicut | 6,827 | 5,127 | 3,438 | 2,383 | 3,884 | 99 | 46 | ... | 27,004 | 7,78,525 |
| Rangoon | 3,220 | 4,130 | 1,920 | 1,190 | 1,815 | 333 | 345 | 48 | 13,001 | 13,38,300 |
| TOTAL FOR MARCH 31ST, 1885 | 557,474 | 2,143,262 | 265,420 | 176,183 | 309,870 | 28,489 | 43,760 | 2,643 | 3,525,500 | 14,57,69,040 |
| TOTAL FOR MARCH 31ST, 1884 | 532,508 | 2,010,682 | 249,263 | 167,931 | 289,767 | 25,825 | 34,096 | 1,644 | 3,311,799 | 12,93,63,410 |
| TOTAL FOR MARCH 31ST, 1883 | 475,457 | 1,955,081 | 264,819 | 173,132 | 301,585 | 28,513 | 36,138 | 2,661 | 3,239,406 | 14,30,64,075 |

The figures under Bombay include the outstanding circulation of the abolished Sub-Circles of Nagpur and Akola.

6. There is, it will be observed, an increase in the net circulation under all denominations. As compared with the figures of the previous year, the total increase in value is 182 lakhs, but there was a falling-off of 175 lakhs in 1883-84 as compared with the year 1882-83. The lower denominations show a steady increase and the fluctuations only occur in the Notes of Rs. 1,000

and Rs. 10,000 which are mainly held by the Banks. The increase, in the 20-rupee Notes of the Calcutta Circle, the circulation of which during the last two years had considerably diminished on account of the forgery detected in August 1882, and brought to notice in the report for 1882-83, would show that public confidence in these Notes is beginning now to be restored.

7. From these figures it will be found that the average value of each Note in circulation on the last day of the year, compared with the past two years, was :—

| | 1882-83. | 1883-84. | 1884-85. | | 1882-83. | 1883-84. | 1884-85. |
|---|---|---|---|---|---|---|---|
| Calcutta Circle | 39 | 30 | 32 | Kurrachee Circle | 58 | 61 | 84 |
| Allahabad „ | 94 | 60 | 67 | Madras „ | 71 | 63 | 58 |
| Lahore „ | 71 | 73 | 69 | Calicut „ | 34 | 32 | 33 |
| Bombay „ | 41 | 41 | 47 | Rangoon „ | ... | 167 | 12 |

The large fall in the average in Rangoon is due principally to the small number of 10,000-rupee Notes which happened to be in circulation on 31st March, but the Commissioner states that there was no difference in the issues of these Notes, taking the whole year, as compared with the previous year.

8. The variations in the net circulation of each circle are shown in the following table, omitting 000 :—

| Last day of | Calcutta. | Allahabad. | Lahore. | Bombay. | Kurrachee. | Madras. | Calicut. | Rangoon. | Total. |
|---|---|---|---|---|---|---|---|---|---|
| | R | R | R | R | R | R | R | R | R |
| March 1884 | 589'38 | 51'61 | 75'62 | 338'47 | 20'64 | 136'99 | 9'08 | 20'84 | 1,242'63 |
| April „ | 584'31 | 53'02 | 76'16 | 364'88 | 20'90 | 139'41 | 9'09 | 19'83 | 1,273'80 |
| May „ | 604'86 | 62'32 | 74'84 | 371'30 | 21'26 | 137'60 | 10'89 | 20'54 | 1,303'61 |
| June „ | 547'84 | 79'96 | 72'10 | 302'30 | 17'26 | 116'51 | 12'09 | 24'34 | 1,172'40 |
| July „ | 679'14 | 75'80 | 74'97 | 430'38 | 19'36 | 120'09 | 17'84 | 28'98 | 1,446'56 |

| November „ | 723'68 | 72'45 | 83'56 | 499'76 | 21'73 | 134'34 | 12'99 | 21'82 | 1,570'27 |
| December „ | 665'61 | 83'00 | 80'33 | 492'38 | 20'66 | 129'00 | 9'35 | 22'17 | 1,508'43 |
| January 1885 | 621'30 | 107'30 | 82'28 | 484'29 | 31'11 | 146'10 | 8'81 | 15'30 | 1,496'99 |
| February „ | 593'74 | 81'79 | 80'89 | 479'62 | 34'97 | 103'30 | 8'16 | 11'20 | 1,453'37 |
| March „ | 652'26 | 62'15 | 82'64 | 454'24 | 41'90 | 148'43 | 7'79 | 13'28 | 1,457'69 |
| Average of last 12 figures | 657'43 | 75'99 | 87'32 | 444'12 | 30'00 | 133'49 | 12'59 | 20'56 | 1,462'40 |
| „ of 1883-84 | 612'93 | 69'21 | 76'70 | 390'17 | 29'99 | 139'22 | 10'44 | 10'03 | 1,338'69 |
| „ of 1882-83 | 715'04 | 84'16 | 78'45 | 459'02 | 34'38 | 134'13 | 23'69 | ... | 1,518'07 |

9. On these the following remarks are offered :—

*First*, for Calcutta I show for the last three years the figures of the net circulation (in lakhs of rupees), excluding the Reserve Treasury of Government—

| Last day of | 1882-83. | 1883-84. | 1884-85. | Last day of | 1882-83. | 1883-84. | 1884-85. |
|---|---|---|---|---|---|---|---|
| April | 554 | 576 | 506 | October | 627 | 539 | 603 |
| May | 540 | 574 | 496 | November | 535 | 575 | 624 |
| June | 546 | 548 | 490 | December | 549 | 553 | 607 |
| July | 523 | 569 | 497 | January | 656 | 552 | 573 |
| August | 538 | 547 | 548 | February | 603 | 536 | 594 |
| September | 557 | 520 | 545 | March | 586 | 552 | 633 |

Thus the state of circulation in Calcutta, during the year under report was somewhat different to past years. It commenced, as before, with a low range, but showed a tendency to rise from August. It fell in January, rose again in February, and attained an unusually high figure in March.

10. The same figures for Bombay and Madras are:—

| Month. | Bombay. | | | Madras. | | |
|---|---|---|---|---|---|---|
| | 1882-83. | 1883-84. | 1884-85. | 1882-83. | 1883-84. | 1884-85. |
| | R | R | R | R | R | |
| April | 344 | 330 | 324 | 126 | 130 | 120 |
| May | 406 | 334 | 342 | 116 | 121 | 116 |
| June | 394 | 311 | 349 | 117 | 111 | 118 |
| July | 389 | 338 | 408 | 105 | 106 | 111 |
| August | 388 | 331 | 408 | 108 | 106 | 112 |
| September | 457 | 351 | 404 | 110 | 106 | 118 |
| October | 450 | 373 | 497 | 112 | 110 | 122 |
| November | 399 | 381 | 482 | 111 | 108 | 130 |
| December | 323 | 344 | 468 | 107 | 116 | 127 |
| January | 400 | 316 | 412 | 127 | 117 | 125 |
| February | 386 | 319 | 398 | 123 | 122 | 125 |
| March | 345 | 332 | 445 | 123 | 118 | 136 |

In Bombay the circulation of the year under report as compared with the previous year is decidedly high and the Commissioner of Paper Currency offers the following observations in regard to it:—

"The circulation has been larger throughout this year than last year. It rose steadily from 324 in April to 482 in November, and then began to fall off a little from December to February, when banks and merchants required silver for their cold-weather operations. Still the circulation at the end of the latter month stood at 398, which is much in excess of even the maximum circulation of last year. In March following the circulation again showed a tendency to increase, as it rose at once from 398 to 445 in one month. This was due, I consider, in a great measure to a stagnation in the export trade, and to the steady influx of bullion. But these causes would affect the circulation of the higher denominations only, while the increase during 1884-85 is to be found in Notes of all denominations. It is difficult to account for this otherwise than by the assumption that the convenience arising from the use of Notes in the transactions of everyday life is becoming more generally appreciated, and that there was some actual rise in inland trade (apart from the cash transactions in country produce for export), which called for the use of Notes of smaller denominations."

In Madras also, the circulation, it will be observed, was comparatively high, the maximum being in March.

11. The following figures show (in lakhs and thousands) the "gross circulation" in the Presidency Circles, of Notes not exceeding Rs. 100 each:—

| Last day of | 1883-84. | | | 1884-85. | | |
|---|---|---|---|---|---|---|
| | Calcutta. | Bombay. | Madras. | Calcutta. | Bombay. | Madras. |
| | R | R | R | R | R | R |
| April | 312·05 | 175·48 | 89·91 | 296·00 | 172·84 | 85·54 |
| May | 303·20 | 175·50 | 84·48 | 289·32 | 174·69 | 82·55 |
| June | 291·99 | 172·49 | 78·72 | 287·02 | 170·89 | 80·98 |
| July | 291·36 | 175·86 | 75·15 | 285·86 | 175·74 | 79·67 |
| August | 293·09 | 176·80 | 74·62 | 288·22 | 176·67 | 80·74 |
| September | 294·90 | 179·34 | 77·14 | 314·18 | 182·40 | 81·28 |
| October | 308·07 | 182·72 | 77·85 | 299·78 | 186·36 | 81·93 |
| November | 302·78 | 181·18 | 76·84 | 298·56 | 182·16 | 84·33 |
| December | 308·10 | 177·41 | 83·13 | 307·09 | 184·24 | 91·94 |
| January | 313·67 | 168·27 | 86·50 | 318·62 | 176·27 | 92·74 |
| February | 312·51 | 169·00 | 91·39 | 321·68 | 179·68 | 98·21 |
| March | 307·74 | 171·33 | 89·75 | 325·46 | 188·04 | 100·54 |

## ANALYSIS OF CIRCULATION.

12. The following statement analyses the outstandings on 31st December 1884 by years of issue.

As explained in former reports, the amount thus shown is necessarily much greater than the circulation of the date in question, as it includes, among other things, balances of Notes held in Currency Offices themselves for re-issue to the public.

| Calendar year of issue. | Outstandings of Notes | | |
|---|---|---|---|
| | Amount issued in official years. | Value outstanding on 31st December 1883. | Value outstanding on 31st December 1884. |
| | R | R | R |
| 1862 | 6,72,55,500 | 3,35,090 | 3,28,140 |
| 1863 | 4,72,01,000 | 1,06,970 | 97,670 |
| 1864 | 4,53,00,110 | 1,11,790 | 1,09,850 |
| 1865 | 10,10,04,920 | 97,110 | 95,890 |
| 1866 | 26,80,12,150 | 1,13,560 | 1,05,050 |
| 1867 | 33,06,49,710 | 90,330 | 79,880 |
| 1868 | 44,00,73,020 | 1,46,050 | 1,35,070 |
| 1869 | 49,34,48,480 | 1,54,330 | 1,32,760 |
| 1870 | 56,63,02,620 | 2,61,710 | 2,08,440 |

| 1883 | 67,02,09,925 | 12,26,63,845 | 1,79,80,875 |
| 1884 | 73,99,22,010 | ... | 16,49,43,655 |
| | ... | 17,07,11,230 | 16,27,41,170 |

During the year Mr. Westland instituted a system of record by which it will be possible hereafter to verify the outstanding balance of the circulation account with the details obtained from the issue registers, the system is based on that adopted at the Bank of England, and it will remove a great defect of our previous system of record.

## THE RESERVE.

13. The value held against the net circulation upon 31st March 1885, was as follows:—

| | ₹ a. p. | ₹ a. p. |
|---|---|---|
| SILVER COIN— | | |
| At Calcutta | 1,87,82,294 14 11 | |
| „ Allahabad | 72,32,860 0 0 | |
| „ Lahore | 59,76,140 0 0 | |
| „ Bombay | 2,20,30,351 4 2 | |
| „ Kurrachee | 30,53,435 0 0 | |
| „ Madras | 1,00,58,020 0 0 | |
| „ Calicut | 2,33,020 0 0 | |
| „ Rangoon | 13,75,955 0 0 | |
| | | 6,87,42,076 3 1 |
| SMALL SILVER COIN— | | |
| At Bombay | 2,48,000 0 0 | |
| „ Kurrachee | 7,900 0 0 | |
| „ Madras | 5,60,000 0 0 | |
| | | 8,15,900 0 0 |
| SILVER BULLION— | | |
| At Calcutta | 98,79,900 [illegible] | |
| „ Bombay | 63,33,663 11 10 | |
| | | 1,62,13,563 12 11 |
| Invested in Government Securities | | 5,99,97,500 0 0 |
| TOTAL AGREEING WITH THE NET CIRCULATION | | 14,57,69,040 0 0 |

14. The half-yearly verifications of the Currency balances were held as follows:—

| | 1st-half. | 2nd-half. |
|---|---|---|
| CALCUTTA | Sept. 23, 1884 | March 31, 1885 |
| Allahabad | „ 25, „ | „ 30, „ |
| Lahore | „ 25, „ | „ 30, „ |
| BOMBAY | „ 30, „ | „ 31, „ |
| Kurrachee | „ 30, „ | „ 31, „ |
| MADRAS | „ 30, „ | „ 31, „ |
| Calicut | „ 30, „ | „ 31, „ |
| RANGOON | „ 30, „ | „ 31, „ |

The balances of the last working day of each half-year were verified, in accordance with the orders issued on the subject.

### Investment.

15. No alteration has been made since the last report in the amount of the invested reserve, which is held in book debt certificates as below—

| | ₹ |
|---|---|
| No. 59 of 4 per cent. loan of 1842-43 | 5,00,00,000 |
| „ 72 „ „ „ | 1,00,00,000 |
| „ 115 „ „ „ | 20,21,700 |
| „ 166 of 4½ per cent. loan (Transfer), 1879 | 5,00,000 |
| | 6,25,21,700 |

Taking the two loans together, the average rate is 95·96 per cent.

16. Its book value, *i.e.*, the actual price at which it was purchased, has been reduced from six crores, the maximum legal limit at which it was taken last year, to ₹5,99,97,500, thus:—

| | Nominal value. | | Book value. | |
|---|---|---|---|---|
| | 4% | 4½% | 4% | 4½% |
| | ₹ | ₹ | ₹ | ₹ a. p. |
| 1st April 1884.—Balance | 6,20,21,700 | 5,00,000 | 5,94,90,029-0-4 | 5,09,970 15 8 |
| *Deduct*— A year's interest @ ½% on 4½% securities to reduce cost of its purchase, *vide* letter. No. 1885 of 17th December 1883. | ... | ... | ... | 2,500 0 0 |
| 31st March 1885.—Balance | 6,20,21,700 | 5,00,000 | 5,94,90,029-0-4 | 5,07,470 15 8 |
| Net Book Value | | | 5,99,97,500 0 0 | |

### Profits of Circulation.

The interest realised on the above-stated nominal value for the year was—

| | ₹ | ₹ |
|---|---|---|
| On 4% paper of the loan of 1842-43 for | 6,26,21,700 | = 24,80,868 |
| „ 4½% „ 1879 „ | 5,00,000 | = 22,500 |
| | | 25,03,368 |
| *Deduct*— | | |
| The ½% interest taken as above | | 2,500 |
| Balance | | 25,00,868 |

## TRANSACTIONS WITH THE PUBLIC.

### Issue and Receipt of Notes.

17. The following are the gross statistics of the year, the details by circle being shown in Statement VI.—

| | ₹ | ₹ |
|---|---|---|
| Gross circulation, 1st April 1884 | | 13,08,17,520 |
| ISSUES— | | |
| *a.* Over the counter | 69,23,28,910 | |
| *b.* At Agencies | 82,72,575 | |
| *c.* In remittance transactions | 3,93,20,525 | |
| | | 73,99,22,010 |
| TOTAL | | 87,07,39,530 |

| | | |
|---|---|---|
| RECEIPTS— | | |
| *d.* Over the counter | 53,71,68,895 | |
| *e.* At Agencies | 23,10,065 | |
| *f.* From Currency Circles | 7,39,88,275 | |
| *g.* In remittance transactions | 10,78,13,620 | |
| | | 72,12,80,855 |
| Balance being gross circulation, March 31st, 1885 (*vide* paragraph 4) | ..... | 14,94,58,675 |

EXPLANATIONS.

*a* and *d*.—These are the ordinary issues and receipts in exchange for other notes or for coin.

*b* and *e*.—These are exchange transactions with treasuries, as the Agencies do not deal direct with the public, but only enable the treasuries to do so to a greater extent than would otherwise be the case.

*f*.—This figure represents notes cashed at other currency circles from March 16th, 1884, to March 15th, 1885, and returned during the year under report to the circles to which they belong.

*c* and *g*.—These remittances are for the most part payments and receipts of one currency office, in consideration of receipts or payments at another.

| COMPARISON. | Issues. R | Receipts. R |
|---|---|---|
| 1884-85 | 73,99,22,010 | 72,12,80,855 |
| 1883-84 | 67,02,69,925 | 68,93,02,090 |
| 1882-83 | 73,71,65,755 | 78,10,22,[illegible] |
| 1881-82 | 71,68,22,913 | 71,06,97,175 |

18. The aggregate issues and receipts of the several denominations of notes at both offices of issue and Agencies during the year, were as follows:—

| | Number of Notes for Rupees | | | | | | | | Total. | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 5 | 10 | 20 | 50 | 100 | 500 | 1,000 | 10,000 | Number. | Value. |
| | | | | | | | | | | R |
| Issues | 955,856 | 3,792,016 | 533,886 | 391,589 | 828,249 | 130,857 | 256,212 | 26,250 | 6,914,915 | 73,99,22,010 |
| Receipts | 931,479 | 3,657,823 | 516,104 | 384,279 | 799,437 | 128,517 | 248,937 | 25,737 | 6,692,313 | 72,12,80,855 |
| More issues | 24,377 | 134,193 | 17,782 | 7,310 | 28,812 | 2,340 | 7,275 | 513 | 222,602 | 1,86,41,155 |
| Receipts | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... |

As already stated in paragraph 6 the aggregate issues of all denominations from the various Circles and Agencies have been more than the receipts. (For details, see Statement II.) There has been no variation in any particular value calling for special remark.

19. The average number of Notes that passed over the counters at each Head Office on each working day during the past three years, and the daily average of cancellations, may be shown thus:—

| | Notes cashed. | | | Notes issued. | | | Notes cancelled. | | |
|---|---|---|---|---|---|---|---|---|---|
| | 1882-83. | 1883-84. | 1884-85. | 1882-83. | 1883-84. | 1884-85. | 1882-83. | 1883-84. | 1884-85. |
| At Calcutta | 12,595 | 13,480 | 12,812 | 13,275 | 14,116 | 13,547 | 8,661 | 9,667 | 10,091 |
| „ Bombay | 5,009 | 5,668 | 5,395 | 5,475 | 5,311 | 6,028 | 3,170 | 3,271 | 3,967 |
| „ Madras | 2,036 | 2,157 | 2,326 | 2,036 | 2,170 | 2,427 | 1,049 | 1,848 | 1,996 |
| „ Rangoon | ... | 84 | 105 | ... | 157 | 133 | ... | 6 | 24 |

To meet the increase in the work of the Calcutta Office noticed in the last report, an increase of establishment was sanctioned in Government of India, Financial Department, No. 2668, dated 6th August 1884.

**Encashment of Foreign Notes.**

20. The following is the foreign note account of the circles in aggregate:—

| | R | R |
|---|---|---|
| Balance held on April 1st | ... | 32,52,110 |
| Received over the counter | 7,39,25,800 | |
| From other circles | 87,27,310 | |
| At Agencies | 19,035 | |
| | | 8,26,72,145 |
| TOTAL | | 8,59,24,255 |
| Remitted to circles concerned | ... | 8,22,34,620 |
| Balance on March 31st | ... | 36,89,635 |
| TOTAL | | 8,59,24,255 |

21. The following statement shows the statistics of the encashment of foreign circle notes, giving for the year an aggregate total as just mentioned of Rs. 7,39,25,800.

*Statement of Foreign Circle Notes cashed during the year 1884-85.*

| CASHED BY | Calcutta. | Allahabad. | Lahore. | Bombay. | Akola. | Nagpur. | Kurrachee. | Madras. | Calicut. | Coconada. | Rangoon. | TOTAL. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | R | R | R | R | R | R | R | R | R | R | R | R |
| Calcutta | ... | (c) 1,19,27,075 | (c) 1,08,88,465 | 1,29,28,730 | 575 | 1,535 | 1,86,930 | 12,11,200 | 27,050 | 625 | 92,74,915 | 4,64,47,100 |
| Allahabad | 13,69,645 | ... | 2,43,165 | 2,21,845 | 25 | 20 | 7,190 | 54,445 | 1,155 | 1,005 | 995 | 18,99,490 |
| Lahore | 13,66,200 | 4,04,695 | ... | 4,60,125 | 30 | 465 | 1,58,740 | 2,08,105 | 2,425 | 100 | 2,485 | 26,03,310 |
| Bombay | 40,42,835 | 18,89,440 | 33,00,240 | ... | ... | ... | (c) 12,46,840 | 24,49,280 | 2,46,800 | 1,575 | 2,09,985 | 1,33,80,985 |
| Kurrachee | 3,030 | 1,090 | 8,800 | 12,575 | ... | ... | ... | 930 | (c) 2,800 | ... | ... | 31,215 |
| Madras | 6,94,305 | 2,81,185 | 9,98,250 | 9,00,850 | 180 | 80 | 14,485 | ... | 27,41,900 | ... | 15,315 | 75,71,185 |
| Calicut | 39,435 | 7,095 | 3,405 | 8,82,800 | 30 | 10 | 2,345 | 9,43,440 | 2,955 | ... | 2,885 | 18,51,445 |
| Rangoon | 1,04,625 | 2,340 | 1,005 | 7,070 | ... | 300 | 480 | 33,405 | ... | ... | ... | 1,41,070 |
| TOTAL | 76,20,075 | 1,48,54,820 | 1,44,70,335 | 4,65,20,715 | 840 | 2,100 | 20,10,950 | 88,80,585 | 30,21,875 | 3,305 | 95,06,500 | 7,39,25,800 |

The letter (c) marks the cases in which the foreign notes are legally encashable.

22. The comparison for three years is as follows:—

| NOTES CASHED AT— | 1882-83. R | 1883-84 R | 1884-85. R |
|---|---|---|---|
| Calcutta | 5,83,52,770 | 4,34,11,200 | 4,64,47,100 |
| Allahabad | 1,86,70,685 | 59,97,630 | 18,99,490 |
| Lahore | 52,56,945 | 27,89,085 | 26,03,310 |
| Bombay | 95,97,840 | 1,20,70,825 | 1,33,80,985 |
| Kurrachee | 2,50,935 | 1,32,[illegible]35 | 31,215 |
| Madras | 95,[illegible],890 | 65,23,660 | 75,71,185 |
| Calicut | 34,82,735 | 20,40,075 | 18,51,445 |
| Rangoon | ... | 300 | 1,41,070 |
| | 10,49,15,800 | 7,29,[illegible],410 | 7,39,[illegible],800 |

23. Thus the amount of notes issued by each Sub-Circle and cashed under the requirements of the law at its Head Circle Office, was in—

| | 1882-83. R | 1883-84. R | 1884-85. R |
|---|---|---|---|
| Calcutta | 4,11,08,575 | 2,21,82,940 | 2,28,15,540 |
| Bombay | 22,49,755 | 15,24,555 | 12,40,810 |
| Madras | 67,93,050 | 25,90,675 | 27,41,990 |
| | 5,01,51,380 | 2,62,98,170 | 2,67,98,340 |

### Issue and Receipt of Coin.

24. The transactions in coin are as follows (for details by circles refer to Statement VII) :—

| | Coin. R | a. | p. | Small Coin. R | a. | p. |
|---|---|---|---|---|---|---|
| Balance, April 1st, 1884 | 6,03,54,856 | 15 | 9. | 10,19,500 | 0 | 0 |
| RECEIPTS— | | | | | | |
| Over the counter | 15,42,00,603 | 0 | 0 | | | |
| From small coin account | 10,52,200 | 0 | 0 | | | |
| At Agencies | 1,41,97,210 | 0 | 0 | | | |
| In remittance transactions | 5,36,34,803 | 10 | 6 | | | |
| From treasury on account of Mint certificates | 859 | 6 | 1 | | | |

27. I give below statements similar to those given last year of the whole rupees coined and issued from the Indian Mints during the years 1835 to 1884, and the proportions of each of those issues found on examination in every District Treasury of a bag of 2,000 rupees of the coin ordinarily current in the district.

There is considerable difficulty in drawing any general conclusions from the movement of coin which these statements indicate. New coin being largely used for melting into ornaments the coinage of a prosperous year, or perhaps of the year preceding, is likely to disappear comparatively quickly. The large remittances of coin to the Punjab from Bombay in 1879 to provide for war expenditure account for the high proportion of coin of that year circulating in the Province. Very large specie remittances are made to Burma at the commencement of the rice season, but whether it is in new or old coin depends on whether it is found convenient to obtain the actual coin from Calcutta or Bombay, where it would probably be freshly minted, or from Madras where it would be accumulated from general circulation.

28. Statement of whole rupees coined and issued from the Indian Mints from 1835 to 1884 :—

## EXCHANGE OF SMALL COIN.

29. The receipts and issues of small change at the Currency Offices during the year were the following:—

| | Receipts. | Issues. | Net Issues. |
|---|---|---|---|
| | ₹ a. | ₹ a. | ₹ a. |
| Half Rupees | 3,48,962 8 | 7,97,277 8 | 4,48,315 0 |
| Quarter Rupees | 1,94,796 12 | 11,13,590 8 | 9,18,793 12 |
| One-eighth Rupees | 2,72,057 12 | 8,98,797 12 | 6,26,740 0 |
| Copper | 1,630 0 | 47,015 12 | 45,385 12 |
| TOTAL | 8,17,447 0 | 28,56,681 8 | 20,39,234 8 |
| TOTAL, 1883-84 | 6,19,681 12 | 30,66,179 14 | 24,46,498 2 |

## BULLION.

30. The following figures show the operations of the Bullion clauses of the Currency Act,—that is, the amount of bullion received by the Mint Masters on account of the Currency Offices at Calcutta and Bombay,—for the issue of certificates payable at the Currency Offices in notes of the circle or coin:—

| | Calcutta. | Bombay. |
|---|---|---|
| | ₹ a. p. | ₹ a. p. |
| Balance of bullion on April 1st, 1884 | 21,72,965 11 6 | 40,18,087 4 9 |
| Receipt of bullion at 979 per mille— | | |
| April 1884 | 5,89,224 0 0 | 92,13,366 9 2 |
| May ,, | 27,75,053 10 9 | 63,16,508 5 6 |
| June ,, | 6,67,559 4 0 | 16,59,556 15 11 |
| July ,, | 5,73,359 6 0 | 23,41,560 6 9 |
| August ,, | 17,22,418 11 0 | 15,43,113 9 10 |
| September ,, | 15,60,162 15 0 | 15,81,194 10 2 |
| October ,, | 21,14,301 10 0 | 32,57,052 14 7 |
| November ,, | 28,41,365 1 0 | 18,82,249 11 2 |
| December ,, | 6,74,693 2 0 | 18,61,937 13 2 |
| January 1885 | 16,14,836 0 0 | 48,82,751 1 6 |
| February ,, | 17,33,589 14 0 | 39,38,695 15 0 |
| March ,, | 8,52,789 11 0 | 68,22,848 12 1 |
| TOTAL OF 12 MONTHS | 1,77,19,353 4 0 | 4,53,00,826 12 4 |
| Additional 1 per mille credited on account of melting fees paid out of Currency Reserve | 19,263 12 6 | 43,751 5 11 |
| TOTAL RECEIPTS | 1,77,38,617 0 6 | 4,53,44,578 2 3 |
| TOTAL RECEIPTS AND BALANCE | 1,99,11,582 12 0 | 4,93,62,665 7 0 |
| Mint certificates realized from Treasury | 1,00,31,682 10 11 | 4,30,29,001 11 2 |
| Balance of bullion on 31st March 1885 (see para. 13.) | 98,79,900 1 1 | 63,33,663 11 10 |

31. The receipts for the last five years have been—

| | Calcutta. | Bombay. | TOTAL. |
|---|---|---|---|
| | ₹ | ₹ | ₹ |
| 1880-81 | 56,21,217 | 2,55,86,599 | 3,12,07,816 |
| 1881-82 | 59,87,643 | 1,53,84,809 | 2,13,72,452 |
| 1882-83 | 79,40,334 | 4,25,24,213 | 5,04,64,547 |
| 1883-84 | 89,36,643 | 2,40,52,521 | 3,29,89,164 |
| 1884-85 | 1,77,38,617 | 4,53,44,578 | 6,30,83,195 |

Thus it appears that the receipts were higher than for some years past, though not so high as in 1879-80, when the total was Rs. 9,31,22,111. The Secretary of State's drawings were small during the months of April to September.

The proportion of receipts between Calcutta and Bombay was much as usual. Specie from Europe naturally comes to Bombay as the nearest port, but it may be observed that of the large amount received in Calcutta about ⅔ came from Europe and ⅓ from or through China.

32. The operation of the bullion clauses of the Currency Act is shown in further detail in the following figures:—

Thousands of Rupees

| | Receipts at the Mint of bullion on account of the Currency Department. | | | Balance at end of month of bullion paid for by Currency Department and held as part of its reserve. | | | Balance of bullion held on Treasury Account, that is, the amount by which the deliveries of new coin failed to meet the Mint certificates payable by Treasury to Currency. | | |

## AGENCIES.

33. The following are the transactions at the Agencies:—

| | No. of Agencies. | Issues of Notes. | Receipts of Notes. |
|---|---|---|---|
| Agencies of the Calcutta Circle | 10 | 3,78,000 | 3,43,000 |
| ,, Allahabad ,, | 1 | 45,000 | 500 |
| ,, Lahore ,, | 6 | 64,89,000 | 4,60,000 |
| ,, Bombay ,, | 2 | 8,14,000 | 7,59,500 |
| ,, Madras ,, | 2 | 5,46,575 | 7,47,065 |
| | 21 | 82,72,575 | 23,10,065 |

34. The following are the Agencies enumerated in the above figures:—

| Calcutta Circle. | Allahabad Circle. | Lahore Circle. | Bombay Circle. | Madras Circle. |
|---|---|---|---|---|
| 1. Backergunge. | 1. Meerut. | 1. Rawal Pindee. | 1. Nagpore. | 1. Coconada. |
| 2. Cachar. | | 2. Delhi. | 2. Akola. | 2. Vizagapatam. |
| 3. Darjeeling. | | 3. Amballa. | | |
| 4. Hazareebaugh. | | 4. Peshawar. | | |
| 5. Lohardaga. | | 5. Simla. | | |
| 6. Moorshedabad. | | 6. Multan. | | |
| 7. Rajshahye. | | | | |
| 8. Sarun. | | | | |
| 9. Shillong. | | | | |
| 10. Sylhet. | | | | |

Five out of the eleven Agencies in the Punjab were closed during the year.

## CLOSING OF NAGPUR AND AKOLA ENCASHING AGENCIES.

The encashing agencies, which were established after the abolition of the Sub-Circles at Nagpur and Akola were closed at the end of the year and the balances held in them transferred to Calcutta and Bombay. The outstanding Notes, of which the circulation had fallen to about a lakh for each place, will be paid by the local treasuries in future.

## CLAIMS ON LOST NOTES.

35. The following is the statement of lost and mutilated notes paid during the year on bond of indemnity:—

| | Nature of loss. | Number of Notes for Rupees | | | | | | | | Total | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | 5 | 10 | 20 | 50 | 100 | 500 | 1,000 | 10,000 | Number. | Value. |
| | | | | | | | | | | | R |
| Half-Notes. | Lost by post | 26 | 96 | 42 | 59 | 85 | 8 | 13 | ... | 329 | 30,380 |
| | Lost accidentally | 44 | 84 | 28 | 23 | 92 | 4 | 6 | ... | 281 | 19,970 |
| | Mutilated | 5 | 31 | 9 | 14 | 22 | ... | ... | ... | 81 | 3,415 |
| | | 75 | 211 | 79 | 96 | 199 | 12 | 19 | ... | 691 | 53,765 |
| Whole Notes. | Lost by post | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... |
| | Lost accidentally | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... |
| | Mutilated | 3 | 8 | 1 | ... | 9 | 4 | 3 | ... | 28 | 6,015 |
| | | 3 | 8 | 1 | ... | 9 | 4 | 3 | ... | 28 | 6,015 |
| Mismatched Notes | | 2 | 2 | 1 | 2 | 1 | ... | ... | ... | 8 | 250 |
| | Total, 1884-85 | 80 | 221 | 81 | 98 | 209 | 16 | 22 | ... | 727 | 60,030 |
| | ,, 1883-84 | 73 | 233 | 122 | 86 | 233 | 21 | 18 | ... | 786 | 61,235 |
| | ,, 1882-83 | 122 | 268 | 153 | 77 | 193 | 16 | 12 | ... | 841 | 49,500 |

## FORGERY AND FRAUD.

36. No new class of forgeries has appeared during the year; a few of the same description as mentioned in previous reports have been presented, and two or three notes drawn by hand with more or less successful imitation of a genuine note, but there is nothing to call for special remark.

37. The details are as follows:—

Eleven more notes of Rs. 20, similar to the forgery reported in 1883, were detected; also 6 five-rupee notes very roughly executed: this forgery was noticed in last year's report, paragraph 45. Three ten-rupee notes drawn by hand and one of the old pattern altered to represent a Rs. 1,000 note: none of these were dangerous imitations. A man was detected in Bombay attempting to sell two forged Rs. 1,000 notes of the kind discovered in 1878.

## REMITTANCES OF SILVER.

38. The following is the detail of silver remittances:—

| | R |
|---|---|
| Allahabad to Calcutta | 50,22,000 |
| Kurrachee to Bombay | 14,000 |
| Bombay to Kurrachee | 60,30,300 |
| Bombay to Calcutta | 20,00,000 |
| Bombay to Madras | 50,00,000 |
| Bombay to Allahabad | 60,00,000 |

39. The remittance from Allahabad comprised thirty lakhs of current coin, and the remainder in shroff-marked coin sent for recoinage to the Calcutta Mint. The remittances from Bombay were as usual to disperse a part of the large sums tendered in Bullion for coinage.

## TREASURY STATISTICS.

40. The transactions in notes at the several treasuries in India during 1882-83, 1883-84, and 1884-85 have been as follows:—

| | 1882-83. | 1883-84. | 1884-85. |
|---|---|---|---|
| | R | R | R |
| Receipts from the public in payment of Government dues | 7,07,94,540 | 7,43,06,260 | 8,70,85,960 |
| ,, from the public in exchange for silver | 3,33,44,155 | 3,49,36,510 | 2,96,53,600 |
| ,, from the public for other notes | 17,92,155 | 18,17,815 | 18,76,485 |
| Total Receipts | 10,59,30,850 | 11,10,60,585 | 11,86,16,045 |
| Issues to the public in payment of Government dues | 3,25,26,280 | 3,41,97,260 | 3,41,81,990 |
| ,, to the public in exchange for silver | 3,22,30,285 | 3,46,51,510 | 3,45,13,420 |
| ,, to the public for other notes | 17,92,155 | 18,17,815 | 18,76,435 |
| Total Issues | 6,65,48,720 | 7,06,66,585 | 7,05,71,845 |

41. The total Treasury transactions in notes during the last three years have been as follows (in lakhs of rupees) :—

| | 1882-83. | 1883-84. | 1884-85. |
|---|---|---|---|
| | *R* | *R* | *R* |
| Government of India | 256 | 286 | 319 |
| Central Provinces | 36 | 39 | 44 |
| British Burma | 7 | 10 | 14 |
| Assam | 62 | 57 | 58 |
| Bengal | 536 | 530 | 526 |
| North-Western Provinces and Oudh | 160 | 191 | 173 |
| Punjab | 209 | 243 | 262 |
| Madras | 267 | 272 | 247 |
| Bombay | 174 | 178 | 237 |
| Hyderabad | 18 | 11 | 12 |
| TOTAL | 1,725 | 1,817 | 1,892 |

42. Statement IV classifies the Treasuries of the Government of India as follows :—

| | 1882-83. | 1883-84. | 1884-85. |
|---|---|---|---|
| Where notes were cashed throughout the year to the extent of the public demand | 163 | 170 | 140 |
| Where notes were ordinarily cashable, but not always | 24 | 30 | 50 |
| Where notes were not usually cashable | 20 | 23 | 35 |
| TOTAL | 207 | 223 | 225 |

43. Statement V shows the proportion of Treasury and Bank balances, which in each province was held in the form of Currency Notes. The state of the Reserve Treasuries greatly affects the comparisons in this statement.

Including Reserve Treasuries, the percentage of balances held in notes is—

| | 1884. | 1883. | | |
|---|---|---|---|---|
| Calcutta Circle | 31 | 34 | | 6,015 |
| Bombay „ | 30 | 48 | | |
| Madras „ | 11 | 11 | 28 | 6,015 |
| | | | 8 | |

But if Reserve Treasuries were omitted, the figures would be—

| | 1884. Balance in | | 1883. Balance in | | Percentage of Notes. | |
|---|---|---|---|---|---|---|
| | Notes. | Cash. | Notes. | Cash. | 1884. | 1883. |
| Calcutta Circle | 38,26 | 1,52,34 | 43,83 | 1,52,04 | 20 | 22 |
| Bombay „ | 14,75 | 94,72 | 12,52 | 94,77 | 13 | 12 |
| Madras „ | 9,54 | 86,41 | 7,02 | 82,54 | 9 | 8 |

*N. B.*—As regards the figures in column "*Total receipts from 1st April to date*," audited figures have been availed of as far as possible.

(a) Return not received.
(b) Total receipts from 1st April to 6th September 1884.
(c) Total receipts from 1st April to 5th September 1885.
(d) Including Rewari-Ferozepore State Railway.
(e) Total receipts from 1st April to 29th August 1885.
(f) Of this length 40·5 miles are opened for passenger and goods traffic and the remainder for goods traffic only. The calculations are based upon total mileage.
(g) Total receipts from 2nd April to 13th September 1884.

FRED. FIREBRACE, *Major, R.E.*

## LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at the Viceregal Lodge, Simla, on Friday, the 2nd October, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.

His Excellency the Commander-in-Chief, G.C.B., C.I.E.

Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.

The Hon'ble C. P. Ilbert, C.I.E.

The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.

The Hon'ble T. C. Hope, C.S.I., C.I.E.

The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.

The Hon'ble W. W. Hunter, C.S.I., C.I.E., LL.D.

The Hon'ble Amír Alí.

### LOCAL AUTHORITIES LOAN ACT, 1879, AMENDMENT BILL, 1885.

The Hon'ble MR. HOPE moved that the Report of the Select Committee on the Bill to amend the Local Authorities Loan Act, 1879, be taken into consideration. He said:—

"In March last, when I had the honour to move for leave to introduce the Bill to amend the Local Authorities Loan Act of 1879, I mentioned that a certain small local railway was required in the district of Tanjore, in the Madras Presidency, and that the proposal was that it should be constructed by a company, the interest upon the capital to be raised by the company being guaranteed by the Local Funds Board of Tanjore. At the same time I added that we considered that there was a legal difficulty in the way of the Board giving this guarantee, which existed in the general Local Authorities Loan Act of 1879, and that we thought that it would be better to amend that general Act in the first place, without any specific provision for Tanjore in particular. The Bill is an extremely simple one, as the Council will perceive, and I trust that the Council will accede to the Motion which stands in my name that it be passed to-day. It will be seen, however, from the Bill that, before it can take effect anywhere, a further special enactment is required. Such an enactment will, in the case of Local Governments possessing them, be one to be passed by their own legislatures—and by the legislature of the Madras Presidency in the first instance—if they should think it necessary. In the case of other Governments who do not possess legislatures, such as the North-Western Provinces and the Punjab, any enactment of this kind that might be required would have to be passed in our own Council, and it would probably take the form of amendment of some of the existing local Acts, such as the Municipalities or Local Boards Acts, applying to particular Provinces. The present case arises, as I have already said, out of the needs of the district of Tanjore, and those needs, as regards Tanjore, will no doubt be provided for by local legislation; but along with the Tanjore case it was brought to our notice that there were several other localities which would be very much benefited by a similar arrangement. The Tanjore case was put forward as a sort of test case, but other branch lines will probably be deemed by the Madras Government to be of importance also, and in that case it will be for them to consider whether they will make their Act general for all Local Boards in the Madras Presidency. Supposing that sanction had been accorded by the Secretary of State to this course, namely, that they should pass a general Act applying to their Presidency, it would then be for other Local Governments to consider whether it was desirable for them to follow suit. I may here add, in conclusion, that from my own point of view I look upon this little Bill as one of very great potential value. Throughout India a very large number of small

branches are wanted to our great trunk lines, and the need of this is being constantly pressed upon us by local authorities—commercial, administrative and others—with great urgency. At the same time it is quite obvious that we cannot out of Imperial Funds construct such branches, or give guarantees to Companies to construct them. If such branches are to be constructed at all, the funds for guarantees must be found in some way totally distinct from those of the Imperial Government, in fact, from sources which lie to hand in the local and municipal revenues of India. At the same time it will be an exceedingly good test of the real necessity of any such branches that such Local Boards or Bodies should have to bear the burden of their construction; and I think we shall thereby obtain an additional safeguard that money will not be thoughtlessly thrown away. On the other hand, I may add that in the proceedings of these Boards I earnestly hope the interests of the raiyats will not be lost sight of, and that care will be taken, while providing branches in cases where they are really necessary, not to allow them to absorb funds which should more properly be distributed in some manner better calculated to give the greatest amount of general benefit to all the contributors to the land-revenue, cesses and other sources from which those funds are raised."

The Motion was put and agreed to.

The Hon'ble MR. HOPE also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

## CENTRAL PROVINCES CIVIL COURTS BILL, 1885.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to amend the Law relating to Civil Courts in the Central Provinces be taken into consideration. He said :—

"I have fortunately very little to say on this Motion. The Bill to which the Motion relates is based upon a scheme which had been very carefully considered by the Chief Commissioner of the Central Provinces and his officers. The Bill itself was settled in personal consultation with the Chief Commissioner when he visited Simla a few months ago, and he has now informed us that, after referring again to his officers, he is of opinion that its provisions meet the requirements of the case. He has advised us to pass the Bill without alteration, and the Report of the Select Committee is framed in accordance with that advice."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill be passed.

The Motion was put and agreed to.

## KHOJÁ SUCCESSION BILL, 1885.

The Hon'ble MR. ILBERT also moved that the Hon'ble Mr. Amír Alí be added to the Select Committee on the Bill to amend and define the law of Testamentary and Intestate Succession to Khojás. He said :—

"Mr. Amír Alí has already been kind enough to give us, on behalf of one of the Muhammadan Associations, some valuable suggestions with respect to this Bill, and I am glad to avail myself of his visit to Simla by asking him to assist in the further deliberations of the Select Committee on a measure which undoubtedly raises some very difficult and important questions."

The Motion was put and agreed to.

## CENTRAL PROVINCES GOVERNMENT WARDS BILL, 1885.

The Hon'ble MR. ILBERT also presented the Report of the Select Committee on the Bill to make better provision for the Superintendence of Government Wards in the Central Provinces.

The Council adjourned to Thursday, the 8th October, 1885.

## REVENUE AND AGRICULTURAL DEPARTMENT.

No. 134 Met.
1—

*Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department (Meteorology),—dated Simla, the 9th October, 1885.*

Read the following :—

Summary of the Weather Reports for September 1885.

The chief features in the meteorology of the past month have been the practical cessation of the rains over the greater part of North-Western India, and the passage of a small but severe cyclone from the Bay across the Orissa coast and thence into Behar. Both branches of the monsoon have been more or less unsteady, and the rainfall has been chiefly determined by subsidiary depressions, occasioning thunder-storms with heavy local rain, and (in Bengal) by the larger disturbance noticed above.

Beyond a few showers, no rain of importance fell in the Punjab or the adjacent parts of the North-Western Provinces, either on the hills or plains, after the 7th; and in the Berars, Central India, and Rajputana, except a few showers, generally of small amount, during the third week, there was scarcely any rain throughout. Similar conditions prevailed in Khandesh. Malegaon and Dhulia had only slight and occasional showers and the rainfall was very deficient. In the Indus Valley not a drop of rain fell throughout the month.

From the 1st to the 5th there was fairly general, and in places heavy, rain over Bengal and for some distance up the Gangetic plain, and slight rain in the Peninsula. On the 6th and 7th rain was restricted to Bengal and a few places in the Central Provinces and the Peninsula. On the 8th heavy showers occurred in the South Carnatic, but on the 9th and the three following days little rain of importance fell in any part of the country. On the 13th showers recurred over the Peninsula, and from that date until the 18th they were fairly general throughout Southern India, Bengal, and Assam. On the 19th and 20th there was no rain of importance throughout the whole of India, and on the latter day a serious cyclonic depression began to form off the Orissa and Ganjam coasts. This cyclone passed over the land probably at about 7 or 8 A.M. on the 22nd. It occasioned heavy rain in its immediate neighbourhood and slight rain over the whole of India, except the North-West; but the heaviest precipitation connected with this disturbance occurred during the 23rd and 24th, when the storm had reached Behar and was breaking up. After the dispersion of this storm, a few showers occurred in different parts of the country; but these became less general, and the only rainfall reported, during the last few days, was from a few places in the peninsula.

The table of the month's rainfall shows that it was deficient throughout the whole of the Punjab, the North-Western Provinces, the Central Provinces, the Peninsula (with the exception of the Deccan, Hyderabad, Mysore, and Bellary), the Eastern Peninsula, and Ceylon, while it was in excess over the whole of Bengal, from Behar to Orissa, and in Assam and Cachar. As compared with previous months, there is a great improvement in Mysore, Bellary, and the Deccan, but in some other parts of the country the rainfall has been very deficient.

The total rainfall of the season is very deficient in the Indus Valley—particularly at Peshawar,—slightly in the north of the Punjab and at Sirsa; also from Khandwa westward in Central India and Khandesh, and southward in the Bombay Deccan and North Mysore. Elsewhere the rainfall of the four months has been up to, or has exceeded, the average.

*The cyclone.*—The information respecting this cyclone, which was the most severe storm of the present year, is at present very scanty and, owing to the unfortunate disaster at False Point, all particulars from that most important station are wanting. From newspaper reports it appears that in about longitude 87° 30′ E. and latitude 20° 0′ N. the barometer read early on the morning of the 22nd as low as 28·20 inches; but the report received from Cuttack, which,

after False Point, was the station most directly in the path of the storm, reports no lower reading than 29·23 inches. The first indication of the formation of the cyclone was given by Diamond Island, which on the 20th reported a south-east wind and a very rough sea; but it was not till the morning of the 21st, when the wind backed to north-east on the Orissa and Ganjam coasts and the barometer began to fall at False Point, Saugor Island, and Gopalpore, that there was any direct evidence of the formation of a cyclone. After 10 A.M. on the 21st, however, the storm must have advanced and developed with great rapidity, as by 10 A.M. on the following morning the centre was at Cuttack, where the barometer had fallen half an inch. The following telegram was despatched from Cuttack at 7 P.M., 22nd: "Cyclone began 1 A.M., reaching greatest velocity at 9; a break at 14-30. Wind still blowing with greatest violence." After leaving Cuttack the storm rapidly decreased in intensity, and travelled quickly north-westward. The centre lay between Gya and Benares on the 23rd, and was almost indistinguishable on the 24th. As the intensity of the storm decreased, the rainfall appeared to increase. Before reaching Behar, the surrounding precipitation, though heavy, had not been exceptional, but on the 23rd and 24th the following amounts were reported from Northern Bengal :—

| | Inches. | | Inches. |
|---|---|---|---|
| Darjeeling ... ... | 13 | Gorakpur ... ... | 8½ |
| Purneah ... ... | 9 | Dinagepore ... ... | 6 |
| Patna ... ... | 4½ | | |

With the exception of a few places in the Peninsula, pressure was everywhere above the average of the month. This excess was greatest (between 0·05 inch and 0·08 inch) within a band which ran east and east-north-east from Guzerat across Central India, the south of the North-Western Provinces, and the Central Provinces to the Orissa Coast. On either side of this band the amount of the anomaly decreased, diminishing to + ·017 at Peshawar and to —·051 inch at Mangalore. The differences of temperature from the average in Northern India were somewhat irregular; but on the whole, September was a cool month, particularly in Bengal. In the Central parts of the country, in the Peninsula, and also in Burma, on the contrary, temperature was in excess. Humidity was below the average almost everywhere, the principal exceptions being North and East Bengal and a few places in Madras.

The following table shows the amount of rain and the difference from the average during the month of September according to districts, as far as is indicated by the telegraphic reports :—

| Districts. | Average rainfall in September. | Difference from the average in eptember 1885. |
|---|---|---|
| Punjab, West ... ... ... ... | 2·54 | —0·88 |
| Punjab, East ... ... ... ... | 4·28 | —3·02 |
| North-Western Provinces, trans-Gangetic ... ... | 7·46 | —2·39 |
| North-Western Provinces, cis-Gangetic ... ... | 6·10 | —4·75 |
| Behar ... ... ... ... | 7·35 | +7·90 |
| Northern Bengal ... ... ... ... | 14·46 | +8·44 |
| Assam, Cachar ... ... ... ... | 11·18 | +4·84 |
| Lower Bengal, Chutia Nagpur ... ... ... | 10·33 | +0·76 |
| Orissa, Northern Circars ... ... ... ... | 7·94 | +0·10 |
| Central Provinces, South ... ... ... ... | 9·66 | —7·01 |

SIMLA; } W. L. DALLAS,
*The 5th October 1885.* } *Asst. Meteorological Reporter to the Govt. of India.*

ORDER.—Ordered, that the papers be printed in the Supplement to the *Gazette of India*.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 7th OCTOBER 1885.

GENERAL REMARKS.—Good rain is again reported from the Madras Presidency;—in Bellary especially the fall was heavy; and both in that district and in Anantapur prospects have much improved. Elsewhere prospects are fair. From Mysore general rain is reported; the standing crops are improving, and agricultural operations are in general progress. Water and fodder are available. Murrain is reported in parts of Mysore, but the cattle are generally improving in condition. In Coorg the season continues favourable.

Good rain is reported throughout the Deccan and Southern Mahratta Country and in parts of Guzerat. In the north of Guzerat more rain is still needed for the crops, which are withering. *Rabi* sowings are going on in several districts.

In the Berars the crops are in good condition, except in parts of Akola, where more rain is required. In the Nizam's Territories the recent rain has been beneficial to the crops. In the Central India and Rajputana States little or no rain fell during the week under report. In Agar and Sehore in the former, and in Marwar, Kherwara, Meywar, Harowti, Jhallawar, and Ulwar in the latter, more rain is much wanted.

In the Central Provinces prospects are fair in all districts, except in Nimar and Raipur, where the crops are suffering from want of rain. Preparations for the *rabi* are in progress in some districts. In the Punjab the rainfall of the week was confined to the Ferozepore and Rawalpindi Districts, and more rain is wanted in places. *Rabi* operations are in progress in the south-east. In the North-Western Provinces and Oudh slight rain fell in a few districts, but more is required. General prospects are however good.

General rain is reported from Bengal. Prospects of the crops are generally good, except on the inundated tracts in the Burdwan and Presidency Divisions, and in Behar. On the Orissa coast crops have been much damaged by the late cyclone. The *bhadoi* crops are yielding fairly where not damaged by floods. In Assam agricultural prospects continue favourable.

In British Burma seasonable weather prevails, and crop prospects are good.

The public health is generally fair.

Prices are fluctuating in the North-Western Provinces and Oudh and in the Punjab;—in Mysore no material change is reported; while in Bengal the price of rice is falling in some districts. Elsewhere prices are generally steady.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Oct. 7th)** | | |
| Bellary ... | 5·13 (average) | Partially withered dry crops wonderfully revived; later sowings thriving; wet crops moderately good; harvest *cholum* in tank-beds in Hospet, outturn below average. Wanderers returning. Communications intercepted by heavy rain. |
| Kurnool ... | ·61 ( „ ) | Standing crops fair. Small-pox in two taluks; cattle-disease in one. |
| Ganjam ... | Average last week, 1·46; this week ·41. | Rain much wanted. Cattle-disease in Berhampore; 24 deaths from cholera. |
| Kistna ... | ·88 (average) | Standing crops thriving; harvest *cumbu* and *maize*, outturn below average. River 8·3 feet over anicut. Fever and small-pox slight; cattle-disease in three taluks; deaths from cholera unreported last week 11, this week 1. |
| Chingleput (Madras) ... | ·42 ( „ ) | Standing crops generally good, but withering in parts; harvest paddy, *ragi*, and *cumbu* in parts, outturn below average. Fever abating, anthrax in three taluks and small-pox in one. |
| Tanjore ... | 1·23 ( „ ) | Dry crops much improved by recent rains; harvest paddy and dry grains, outturn below average. Fever and cattle-disease in parts; 13 deaths from cholera. |
| Coimbatore ... | 2·32 ( „ ) | Standing crops generally good, but in Colegal much paddy has been lost; harvest paddy, *cholum*, and *ragi* in parts, outturn about average. Fever and small-pox slight; cattle-disease in parts of one taluk. |
| Madura ... | 1·01 ( „ ) | Fever prevalent. |
| Malabar ... | 4·45 ( „ ) | Transplanting second crop paddy; harvest first crop paddy. Small-pox in six taluks; cattle-disease in five and fever in two. |
| Travancore ... | 13·43 ( „ ) | Fever in parts. *General Remarks.*—General prospects fair; much improved in Bellary and Anantapur. |
| **Bombay—(Oct. 7th)** | | |
| Karachi ... | *Nil* | Weather sultry. River at Kotri on 4th, 11 feet 1 inch against 13 feet 3 inches on same date last year. Fever in nine and cattle-disease in three talukas. Harvesting commenced in Ghorabari taluk; damage to crops in Tatta, Dadu, Sehwan, and Johi talukas, owing to drought, and in Ghorabari taluka to salt water freshes. Rats doing damage in Jati taluka. Prices—wheat, red rice, and *bajri* in Karachi 26, 34 and 34; in Ghorabari 22, 38 and 36; in Jati 26, 42 and 42; and in Sehwan 32, 42 and 40 pounds per rupee, respectively. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Hyderabad ... | *Nil* | *Til* crops injured by unfavourable winds in Mirpurkhas, taluka; reaping of harvest commenced in some talukas. River at Kotri on 5th, 10 fee 10 inches against 13 feet 4 inches on same date last year. Fever in six talukas. Prices of grain steady. |
| Ahmedabad ... | ·56 | Total rainfall 22·35. Crops withering from want of rain. Weather cloudy; more rain expected. Cholera in Dholka, 15 cases, 12 fatal; fever in Sanand, Viramgam, Dholka, and Gogo; cattle-disease in Parantij. Wheat 34 and *bajri* 29 pounds per rupee. |
| Baroda ... | 1·02 | Raining in Baroda territory, where it is much needed. Prices—*bajri* 27, wheat 27, and rice 22 pounds per rupee. |
| Surat ... | Rain in all talukas; maximum at Chikhli, 2·18; minimum at Mandvi, ·01. | Crops generally improved; rice crops are not yet quite healthy in places. More rain wanted in Mandvi for all crops. Cattle-disease in Olpad and Bardoli talukas; fever and cough in Bardoli and Pardi talukas. Average prices—*juari* 37 and *nagli* 40 pounds per rupee. |
| Nasik ... | 3·13 rain throughout the district, maximum at Igatpuri, 3·69; minimum at Peint, ·66. | *Kharif* crops are good all over the district, except in Nandgaon and Baglan, where more rain is wanted; land being prepared for *rabi*; sowing of *rabi* commenced in some parts of Niphad, Yeola, and Baglan talukas, and will soon be commenced in others. Fodder for cattle is now available all over the district. Cholera in Yeola taluka, total attacks 19, deaths 11. Wheat 34½, *bajri* 33¾, and rice 20¾ pounds per rupee. |
| Colaba (Bombay) ... | Rain every day, total of week, 2·80, being 1·89 below average. | Total rainfall to date 67·13. Abnormal temperature fell from 3° warm on 30th to 2° cool on 4th, was still 2° cool on 5th and rose to 1° cool on 6th; vapour in air slight in excess of normal; wind normal on 30th; abnormal wind from east from 1st to 2nd and from south-east (and strong) from 4th to 6th; thunderstorm on 1st, 2nd, and 4th; lightning on 5th; thunder and lightning on all other days. |
| Ahmednagar ... | Heavy rain in all talukas, except Newasa, Sheogaon, Sangamner, and Akola, where it was slight. | *Kharif* crops are good. Sowing of *rabi* is in progress, except in Jamkhed, Rahuri, and Kopargaon, where it is suspended owing to excessive moisture. Cholera 25 attacks, 10 deaths; ague in Akola; cattle are now improving in condition. *Bajri*—minimum 36 and maximum 42 pounds and *juari*—minimum 42 and maximum 60 pounds per rupee. |
| Sholapur ... | Sholapur, 3·39; Barsi, ·95; Madha, 5·83; Karmala, 2·34; Pandharpur, 3·72; Sangola, 7·07; Malsiras, 2·64; Akalkot, 3·53. | *Kharif* crops doing well; *rabi* sowings commenced in lighter soils. A break in rain required. *Juari* 45 pounds 20 tolas and *bajri* 32 pounds 3 tolas per rupee. Cholera 24 cases, 11 deaths. |
| Dharwar ... | Rainfall general, varying from 6·52 in Navalgund to 2·03 in Kalghatgi. | More rain required in Bankapur and Kalghatgi. Rice crops which were withering are reviving; *juari* and other crops good; cotton sowing in progress everywhere, except in Navalgund and Gadag, where a break is required. Land ready for sowing late crops; garden crops good. Scarcity of fodder in eastern talukas will soon disappear as grass is springing up. Season prospects good. Slight cholera in Bankapur. *Juari* 45 and rice 24 pounds per rupee. |
| Kanara ... | Karwar, 2·89; Kumpta, 2·83; Sirsi, 2·15; Haliyal, 1·66. | Rice crops thriving; harvest commenced on coast. Fever and small-pox in three talukas and cattle-disease in four. Common rice at Karwar 12½ seers; district average 13¼ seers per rupee. |
| Rajkot ... | *Nil* | Crops unhealthy in many parts, owing to want of rain. Total rainfall 28·88. Fever in some talukas prevalent. *Bajri* 32 and *juari* 30 pounds per rupee. General health good. |
| | | *General Remarks.*—Good rain throughout the Deccan and Southern Mahratta Country and in parts of Guzerat. More still wanted in north of Guzerat, where the crops are withering. Sowing of *rabi* crops in progress in several districts; standing crops injured by drought and rat in parts of Karachi, by storms in parts of Hyderabad, and by blight in parts of Ratnagiri. Cholera and fever in parts of twelve and cattle-disease in parts of eight districts. |
| **Bengal—(Oct. 7th)** | | |
| Chittagong ... | 2·40 | Weather seasonable. Standing crops in certain localities damaged by grubs. Prices steady. Cholera lingers; public health generally good. |
| Dacca ... | 1·81 | Prospects of crops good; harvesting of jute and *aus* nearly completed; early *amun* blossoming. Public health good. |
| 24-Pergunnahs (Calcutta) | 1·17 | Prospects of *amun*, except on low inundated lands, are good; harvesting of *aus* going on, estimated outturn 10 to 12 annas. Prices of common rice 10 seers 10 chittacks to 15 seers per rupee. Public health generally good. |
| Moorshedabad ... | ·18 | Weather seasonable. Prospects of *amun* in the earth excellent; *kalai* being extensively sown and doing well; prospects generally much brighter. Common rice 13 to 15 seers per rupee. Public health good. |
| Rungpore ... | ·92 | *Amun* prospects good. Price of rice has risen. Public health normal. |
| Bhagalpur ... | *Nil* | Prospects of winter rice good; *kalai* and *kurthi* being sown; rice 13½ seers per rupee. Cholera decreasing. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| Bengal—*contd.* | | |
| Purneah ... | ·70 | Crops all doing well; sowing of cold weather crops progressing. Common rice 16 seers per rupee. Much fever; some cholera. Ganges still high. |
| Patna ... | ·50 | Harvesting of *bhadoi* crops nearly finished; paddy progressing well; sowing of *kurthi* and castor going on; *rahar* and cotton look well. Cholera and fever reported from Behar. |
| Durbhunga ... | 3·09 | Prospects of paddy very favourable; *bhadoi* crops, though injured in places, have yielded a fair outturn. Prices falling. A few cases of cholera reported from the interior. |
| Hazaribagh ... | *Nil* | Weather seasonable. *Bhadoi* being still harvested in certain places, outturn 8 to 12 annas; rice and other crops promise well. Cholera abating; general health good. |
| Cuttack ... | ·52 | Weather clear and hot. Reaping of early rice continues. This crop is much damaged by cyclone. White rice doing well. Houses damaged by cyclone being repaired. Price of rice has risen. Common rice 11 seers per rupee in town and 15 seers in average in interior. Public health generally good. |
| Midnapur ... | ·77 | Outside the flooded area prospects, on the whole, good; floods slowly subsiding. Fever prevalent. |
| Khoolna ... | 1·68 | Weather hot. Some damage to *amun* paddy in flooded parts, north of Satkhira; elsewhere prospects very good. Flood water receding. Public health good. |
| Dinagepur ... | ·44 | Occasional showers; mostly sunshine and cloud. Prospects of *amun* good; harvesting of *jute* and *aus* finished. Price of rice averages 16 seers per rupee. Health of people generally good, but scattered cases of cholera reported. |
| Pubna (Serajganj) ... | ·22 | *Amun* doing well. River rising slowly. Market of rice stationary. Fever prevalent. |
| Gya .. | *Nil* | Weather hot. Prospects of *kharif* excellent. Fields being prepared for *rabi*. Public health generally good. Prices easier. |
| Chumparun ... | ·82 | *Bhadoi* crops being harvested; *aghani* crops promise well. Prices stationary. A few cases of fever and cholera reported. |
| | | *General Remarks.*—Rain in almost all districts. Prospect of crops generally good, except on the inundated tracts in the Burdwan and Presidency Divisions and in Behar, and also on the Orissa coast, where stricken by cyclone. *Bhadoi* crops yielding fairly, where not damaged by floods. Price of rice getting easier in some districts. Public health generally good, though prevalence of fever and cholera is reported from some districts. |
| **N. W. Provinces and Oudh—(Oct. 8th)** | | |
| Benares (Oct. 6th) | *Nil* | Paddy being cut; average outturn twelve annas; other crops doing well. Fever still continues. |
| Gorakhpur ( „ 5th) | ..... | Fine weather, with occasionally slight showers. Harvest commenced; rice outturn average; other crops good. Prices falling. Cholera unabated. |
| Fyzabad ( „ 6th) | *Nil* | Weather cloudy. *Kharif* nearly harvested; sowing of gram commenced. Supplies ample. Prices steady. Cholera reported in three tahsils. |
| Lucknow ( „ 5th) | *Nil* | Weather clear. Rice and *hewat* crops suffering very much for want of rain. Fields are being reaped for *rabi*. Supplies sufficient. Prices slightly rising. Health of people good, but slight cattle-disease is still reported in tahsil Lucknow. |
| Rae Bareli ( „ „ ) | *Nil* | Weather occasionally cloudy. Fields being prepared for *rabi* sowings. Prices steady. Cholera and cattle-disease continue. |
| Partabgarh ( „ 6th) | ..... | Gram and peas sowing commenced; *jarhan* being irrigated. Cholera on the increase; cattle-disease in each tahsil. |
| Allahabad ( „ „ ) | ..... | Weather clear and bright; mornings and evenings cooler. Crops generally good. Markets well supplied. Prices falling slightly. Fever and cholera continue to be reported; health otherwise good. |
| Cawnpore ( „ 5th) | *Nil* | A general fall would benefit standing crops and *rabi* sowings. Prices steady. Fever prevalent, and cholera in six tahsils and city; cattle-disease in eight parganas, and many deaths reported. |
| Banda ( „ „ ) | *Nil* | Clouds about. Ploughing for *rabi* in full progress. Prospects fair. Prices steady. Fever decreasing; no cattle-disease. |
| Ballia ( „ 6th) | *Nil* | Weather clear. *Kharif* crops generally being harvested. General health good; cholera much the same. |
| Farakhabad ( „ „ ) | ..... | Rain wanted for *rabi* sowings. Cholera ceasing. |
| Sitapur ( „ „ ) | ..... | Skies cloudy and easterly wind, but rain is much wanted in places. Prices remain steady. Cholera hangs about the Transcholwka parganas. |
| Bareilly ( „ „ ) | Slight rain in two tahsils. | More still needed. *Rabi* sowings begun. Prices rising slightly. Cholera of a mild form in city; fever generally prevalent; cattle-disease reported from one village. |
| Kumaon ( „ 5th) | ..... | Rice and early millets being reaped. Prospects good. Prices falling. General health good; cattle-disease continues. |
| Agra ( „ „ ) | ..... | Rain greatly needed for *rabi*; *kharif* on highlands also suffering. Prices steady. Fever prevalent; cholera slight. |
| Jhansi ( „ „ ) | ..... | Weather cloudy, but no rain. Crops suffering for want of rain. Public health fair; cattle-disease continues. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh**—*contd.* | | |
| Meerut (Oct. 6th) | ..... | Weather clear, with west winds. Rain urgently required. Prices show a slight tendency to rise. Fever still prevalent. *General Remarks.*—A slight sprinkling of rain in places; more needed. General prospects, however, good. Cholera and fever somewhat abating, and so is cattle-disease; the general health is good. |
| **Punjab—(Oct. 7th)** | | |
| Hissar (Oct. 6th) | *Nil* | Fever prevalent. *Kharif* maturing fast; *rabi* operations progressing. Rain needed. Prices falling. |
| Delhi ( „ „ ) | *Nil* | Fever prevalent. Prices fluctuating. |
| Umballa ( „ „ ) | *Nil* | Health fair. Prices stationary. |
| Jullundur ( „ „ ) | Rain wanted | Health good. *Rabi* ploughing progressing. Prices fluctuating. |
| Ferozepore ( „ „ ) | ·20 at Zira, ·10 at City | Health good. *Kharif* crops withering for want of rain. Prices stationary. |
| Amritsar ( „ „ ) | *Nil* | Health and crops good. Prices stationary. |
| Sialkote ( „ „ ) | Rain needed | Health good. Prices high. |
| Lahore ( „ „ ) | *Nil* | Health good. Prices almost stationary. |
| Mooltan ( „ „ ) | *Nil* | Health and *kharif* crops good. Prices almost stationary. |
| Rawalpindi ( „ „ ) | 3·5 | Health good, with exception of fever in Kahuta tahsil. *Kharif* prospects average. Rain wanted. Prices stationary. |
| Shahpur ( „ „ ) | *Nil* | Health good. Prices falling. |
| Dera Ismail Khan ( „ „ ) | *Nil* | Health good. Prices stationary. |
| Peshawar ( „ „ ) | *Nil* | Fever prevalent. *Kharif* prospects good. Prices falling. *General Remarks.*—Slight rain in the Ferozepore and Rawalpindi districts. Fever prevalent in the Hissar, Delhi, and Peshawar districts and in the Kahuta tahsil of the Rawalpindi district. *Rabi* operations in progress in the south-east. Prices fluctuating. |
| **Central Provinces—(Oct. 7th)** | | |
| Nagpur ... | ..... | Weather cloudy and hot. Prospects good; linseed sowings commenced. Fever prevalent. Prices steady. |
| Jubbulpore ... | ..... | Weather cloudy. More rain wanted. Late *kodo, kutki* rice sowings seriously affected in places; grounds requires moistening to facilitate *rabi* sowings, which are retarded. Cholera slight; fever prevalent. Prices steady. |
| Saugor (Oct. 6th) ... | ..... | Weather cloudy, with intervals of sunshine. More rain wanted. Crops reported good; *rabi* preparations continue. Health good. Prices steady. Prospects fair. |
| Seoni ... | ..... | Weather cloudy and close. Rain much wanted. *Rabi* sowings commenced. Cattle-disease declining; fever prevalent. Prices slightly risen. |
| Hoshangabad ... | ·11 | Weather cloudy. Prospects good; *rabi* sowings commenced. 81 cases of cholera, 50 deaths; cattle-disease in Harda. Wheat 19 and rice 12 seers per rupee. |
| Khandwa ... | 1·32 | Weather cloudy and close. Rain beneficial. Health good. Wheat 16, rice 11, and *juari* 24 seers per rupee. |
| Raipur ... | *Nil* | Weather hot. Crops withering in places, there will be considerable loss if rain does not fall soon. Cholera very slight. Wheat 32 and rice 25 seers per rupee. |
| Sambalpur (Oct. 3rd) | ·31 | Weather warm and bright. Prospects of rice on lowland fairly good; sugarcane and cotton very good. Slight cholera. Common rice 22¾ seers per rupee. *General Remarks.*—There has been a timely fall of rain in Nimar, but more is required, especially in Raipur, where crops are reported to be withering. Prospects continue fair in other districts. Prices steady. |
| **British Burma—(Oct. 7th)** | | |
| Akyab (Oct. 3rd) | 3·15 | Total rainfall 173·04. 1 case of cholera in town, and slight in six circles; cattle-disease slight in three circles. Crop prospects good. |
| Bassein ( „ 7th) | 0·68 | Total rainfall 109·94. Public health good; cattle-disease slight in five townships. |
| Rangoon ( „ „ ) | 4·69 | Total rainfall 100·27. Public health good; cattle healthy. |
| Amherst (Moulmein) ( „ „ ) | 4·63 | Total rainfall 185·09. Public health good; cattle healthy. Crop prospect good. |
| Tavoy ( „ „ ) | 2·41 | Total rainfall 186·87. Public health good; cattle healthy. Crop prospect good. |
| Pegu ( „ „ ) | 1·52 | Total rainfall 112·50. Public health good; cattle-disease slight in one township. Crop prospects good. |
| Henzada ( „ „ ) | 0·70 | Total rainfall 84·34. Cholera slight in one town; cattle-disease slight in one township. Crop prospects good. |
| Prome ( „ „ ) | 1·55 | Total rainfall 28·84. Cholera slight in one town; cattle-disease slight in one township. Transplanting and ploughing nearly finished; general appearance of crops good. |
| Toungoo ( „ „ ) | 4·42 | Total rainfall 82·00. Cholera slight in town; cattle healthy. Transplanting progressing. Grown up crops promising. |
| Thayetmayo ( „ „ ) | 0·74 | Total rainfall 28·83. Public health good; cattle healthy. Transplanting progressing. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **British Burma**—*contd.* | | *General Remarks.*—Cholera slight in five districts; fever slight in one district; elsewhere public health good; cattle-disease slight in eleven districts; elsewhere health of cattle good. Crop prospects good. |
| **Assam—(Oct. 7th)** | | |
| Gauhati ... | 12·0 rain during the week ending the 6th instant. | Weather seasonable; days hot, but nights and mornings are cool. Public health improving; cattle-disease still in some mouzahs. Prospects of crops good. |
| Sylhet ... | 1·45 | State and prospects of crops favourable. Public health good. |
| Cachar ... | ·57 | Days warm, nights cool. Reaping of *aus* and transplanting of *sail* crop finished. Common rice 14 seers 8¾ chittacks per rupee. Health good. Tea doing well. |
| Dibrugarh ... | 1·24 | Weather seasonable. Prospects good. |
| **Mysore and Coorg—(Oct. 7th)** | | |
| Bangalore ... | 3·18; Kolar, ·63; Tumkur; 2·13. | Rain has fallen throughout the State. Standing crops improving; agricultural operations general. Horse gram being generally sown; irrigated *ragi* and *juari* harvested in Tumkur district No material change in prices. Prospects of the season considerably improved by the recent rains. Public health good. Water-supply and fodder available. Murrain reported in parts of Mysore, but generally cattle improving in condition. |
| Mysore ... | ·59 | |
| Mercara ... | 3·17 | Crops in good condition. Prices of food-grains stationary. Prospects of season and public health good. |
| **Berar and Hyderabad—(Oct. 7th)** | | |
| Amraoti ... | 1·12 | Crops progressing favourably; grain sowing commenced. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | ·15 | Weather sultry. Crops in good condition, except in Akote and Jalgaon taluks, where more rain is wanted. |
| Hyderabad ... | Average rainfall during the week, 2·52. | Rain beneficial to standing crops, except in Shahabad taluk, where *kharif* crops are slightly damaged. General health fair. Prices—wheat 13¼, coarse rice 12½, white *juari* 7¼, yellow *juari* 23, and *tur* 14 seers per current sicca rupee. |
| **Central India States—(Oct. 7th)** | | |
| Indore ... | 1·29 | Total rainfall 25·07. Prospects improved. Prices of food-grain falling. Health good. |
| Morar (Gwalior) ... | *Nil* | Total rainfall 29·44. Fever still in Morar and in Lashkar. Weather cloudy. |
| Sutna ... | *Nil* | Weather cloudy. Cholera reported from several districts of Rewah State. |
| Goona ... | *Nil* | Weather cloudy. Health good. |
| Agar ... | *Nil* | Rain much required. Weather cloudy. Health fair. |
| Sehore ... | *Nil* | Weather very hot. Prospects of crops unfavourable. Rain much needed. |
| Nowgong ... | *Nil* | Total rainfall 39·19. Weather clear. Prices steady. Health good. |
| **Rajputana—(Oct. 7th)** | | |
| Abu (Oct. 7th) | ·09 | Weather cloudy again, with indications of rain. |
| Sirohi ( „ 4th) | *Nil* | Tanks fairly full; wells good. Health good. Crops being cut. Weather very warm and dry for time of year. Rainfall to date below average. |
| Marwar ( „ 2nd) | ..... | Tanks all full. Weather unhealthy, but now improving. Some fatal cases of cholera during the week. Crops in danger of being damaged for want of rain. Weather warm and close, wind sometimes hot. Prices rising. |
| Kherwara ( „ 5th) | *Nil* | Tanks and wells full. Indian corn poor; rice withering. Rain much wanted. Health good. Prices rapidly rising. Weather sultry and cloudy. |
| Pertabgurh ( „ 3rd) | *Nil* | Tanks and wells decreasing. Crops and health good. Prices rapidly rising. Weather dry. |
| Meywar ( „ „ ) | ..... | Tanks and wells unchanged. Crops averaging in some districts, withering for want of rain. Health good. Prices rising. Weather dull and cloudy. |
| Harowti ( „ „ ) | *Nil* | Tanks and wells full. Rain much needed for *rabi*. Prices rising in Tonk. Heat great for the last two days; weather cloudy. Indian corn and *juari* suffering. Rain greatly needed for both present and *rabi* crops. Fever prevalent. |
| Jhallawar ( „ 2nd) | *Nil* | Tanks and wells full. More rain needed. Weather cloudy. |
| Ajmere ( „ 6th) | *Nil* | Weather cloudy. Heat during day. Health good. |
| Jeypore ( „ „ ) | Drops | Rain wanted. Weather cloudy. Prices steady. Health fair. |
| Ulwar ( „ „ ) | *Nil* | Crops suffering from want of rain. Fever continued. |
| Bickaneer ( „ 3rd) | *Nil* | Prospects fair. Rain wanted. Prices stationary. Weather cloudy. |
| **Nepal—(Sept. 24th)** | | |
| Khatmandu ... | ·08 | Cold weather set in. Prospects good. |

# PUBLIC WORKS DEPARTMENT.

## IRRIGATION OPERATIONS OF FASL KHARIF IN THE PUNJAB IN 1885-86 UP TO 31st JULY 1885.

| Canal Division. | Water distributed during July 1885: Depth in Canal at regulating gauge. Full supply. | Actual throughout. | Gross consumption, cubic feet per second. Estimated full supply. | Actual average throughout. | Navigation Return Canal. Principal items of Traffic. Up. | Down. | Land irrigated (approximate). Zilah. | Acres. | Rainfall. Average. | During month. | Chief crops (approximate). Name. | Area in acres. | Remarks. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| **Bári Doáb Canal.** | | | | | | | | | | | | | |
| 1st Division | 4·9 | 4·4 | 3,073·6 | 1,624 | ... | ... | Gurdáspur | 16,368 | 9·97 | 6·6 | Cotton | 9,287 | The Bári Doáb Canal had to be closed for 6 days early in the month for silt clearence at head. The supply has otherwise been excellent: the demand has been intense. The area irrigated exceeds that of last year by 25,421 acres. The prospects of the crop are good. |
| 2nd ,, Main Branch Lower | 4·6 | 3·0 | | 886 | ... | ... | Amritsar | 44,603 | 9·9 | 2·8 | Rice | 18,630 | |
| 2nd ,, Lahore Branch | 3·35 | 2·8 | | 592 | ... | ... | Lahore | 59,036 | 8·1 | 5·3 | Sugarcane | 31,584 | |
| Passed through Escapes | ... | ... | ... | 4 | ... | ... | | | | | Others | 60,496 | |

## LEGISLATIVE DEPARTMENT.

**ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.**

The Council met at the Viceregal Lodge, Simla, on Thursday, the 8th October, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.

His Honour the Lieutenant-Governor of the Punjab, LL.D., K.C.S.I., C.I.E.

His Excellency the Commander-in-Chief, G.C.B., C.I.E.

The Hon'ble C. P. Ilbert, C.I.E.

The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.

The Hon'ble T. C. Hope, C.S.I., C.I.E.

The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.

The Hon'ble W. W. Hunter, C.S.I., C.I.E., LL.D.

The Hon'ble Amír Alí.

### CENTRAL PROVINCES GOVERNMENT WARDS BILL, 1885.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to make better provision for the Superintendence of Government Wards in the Central Provinces be taken into consideration. He said:—

"This Bill has received the general approval of the Chief Commissioner, but there are one or two points of minor importance with respect to which the Committee thought that the Bill was susceptible of improvement, and we have made a few amendments accordingly.

"The class of persons who may be brought under the jurisdiction of the Court of Wards is described in the Bill as 'landholders,' and the term 'landholder' was defined in the original Bill, by reference to certain technical terms in use in the Central Provinces, as meaning málguzárs, certain zamíndárs who are mentioned in a schedule to the Scheduled Districts Act, and persons who, under various names, occupy the position of assignees of land-revenue.

"But it is possible that there are other persons who are interested in land, and to whom it would be convenient to apply the provisions of the law, and yet who would not fall precisely under any one of these terms. Consequently we have made the definition more elastic by empowering the Chief Commissioner, with the previous sanction of the Government of India, to extend the definition of landholder to other persons interested in land.

"Then we were not satisfied that the provisions of the original Bill were sufficiently clear with respect to testamentary guardians. It is very desirable to interfere as little as possible with testamentary arrangements. There are doubtless cases where it becomes necessary to remove or supersede a testamentary guardian for misconduct or incompetency, but this power should, in the opinion of the Select Committee, be exercised by a Civil Court after judicial inquiry, and not by an executive authority such as that which will discharge the functions of the Court of Wards under the present Bill. Accordingly we have made it clear that the minors who come under the jurisdiction of the Court of Wards are minors who have not guardians appointed for their property by will. If there is any doubt—I do not say that there is any doubt—about the power of a Civil Court to remove or supersede such guardians, it will be removed by a Bill which I hope to introduce before long, and which will consolidate and amend the general law relating to guardians and wards.

"Then, as we desire to avoid interference with testamentary dispositions, so we desire to interfere as little as possible with the relations of husband and wife.

The husband is the natural guardian of the wife, and it is not intended that a married heiress, even in cases where it is necessary to take or retain her property under the charge of the Court of Wards, should be removed from the custody of her husband. We have made this point more clear than it was in the original Bill, by altering the form and position of one of the provisions which declares that nothing in a particular section of the Bill 'shall authorize the Court of Wards to assume the superintendence of the person of a female who is married to a man of full age and is in his custody.'

"It has been suggested to me that, even in its amended form, the Bill possibly gives unduly large powers to the Court of Wards over the property of heiresses; but I think that, if the provisions of the Bill are carefully examined, it will be found that they are not open to this objection. If you look at section 7 you will find that the persons who are to be deemed, for the purposes of the measure, disqualified to manage their own property are divisible into two classes. The first class comprises minors who have not guardians appointed for their property by will and persons adjudged by a competent Civil Court to be of unsound mind and incapable of managing their affairs. These persons—minors and lunatics—are necessarily disqualified. Then there is another class of persons which is described by the Bill as follows:—

'persons declared by the Chief Commissioner to be incapable of managing their own property—

'(i) owing to any physical defect or infirmity,

'(ii) owing to their having been convicted of a non-bailable offence, and being unfitted by vice or bad character,

("It will be observed that the grounds of disqualification are cumulative.)

'(iii) owing to their being females, or

'(iv) on their own application.'

"Now, it was not intended to imply that a lady is, as such, incapable of managing her own property. Nothing was further from the intention of the framers of this Bill than to suggest anything so untrue or so ungallant as this. All that we meant to say was—and all that I think the Bill when properly read does say is this—that where a landholder is a lady the Chief Commissioner is to be empowered to enquire into her case,—and he will be bound to enquire into each case on its own individual merits,—and if he finds that she is not only a lady but is also incapable of managing her own property, in that case, and in that case only, is her property placed under the superintendence of the Court of Wards. The Chief Commissioner will be responsible for the exercise of his discretion in each individual case, and I need hardly say that the discretion thus exercised will be subject to the controlling orders of the Government of India.

"The only other amendment which I need notice is the addition of a clause which provides in effect that managers and other servants of the Court of Wards who are guilty of receiving bribes shall be punishable under the Indian Penal Code as though they were 'public servants' within the meaning of that Code.

"These are the principal alterations which the Select Committee have introduced into the Bill since its introduction."

The Hon'ble MR. AMÍR ALÍ said:—"With Your Lordship's permission I desire to say a few words with reference to this Bill and the remarks made by the Hon'ble Mr. Ilbert with regard to the provisions of section 7. I am bound to say, as I mentioned to my hon'ble friend the Law Member, that I had considerable objections to the language of the section and the provision respecting the disqualification of females. It seemed to me as if there was an invitation to disqualify a female from managing her own property owing to the mere fact of her being a female; but I think the explanation now offered by Mr Ilbert meets to a considerable extent the difficulties which I had apprehended, though I would have preferred the provision relating to the disqualification of females to have been put into a separate section. That, however, is too late now, and probably a substantive Motion would be required by the rules of this Council for putting the provision in that shape. I think the public may be satisfied with the explanation now given, and I trust that the discretion with which the Chief Commissioner is vested will be exercised

only when the female is found to be incapable of managing her estate, and not simply because she is a female.

"Regarding the provisions of section 10 it appeared to me they were likely to create considerable alarm in the public mind, but what has fallen from the Hon'ble Member in charge of the Bill, that the discretion must be exercised on some substantial grounds, and that there is after all a reference to the Government of India if the discretion is exercised upon grounds which do not furnish a reasonable basis for proceeding to declare a person disqualified to manage his or her estate, will, I believe, allay the doubts of the public on this point."

The Hon'ble MR. HUNTER said:—"My Lord, I think the alteration made by the Select Committee in regard to the penal responsibility of officers of the Court of Wards is an improvement. Those officers exercise in many matters the same powers as public servants, and they are practically shielded by the authority of the public servants to whom they are subordinate. It seems right, therefore, that in regard to taking bribes or other illegal gratifications, they should be subject to the same restraints, and to the same punishments, as public servants. The amendment made by the Select Committee, on the suggestion of the Chief Commissioner of the Central Provinces, will protect the interests of the public, and it will act as a salutary safeguard to the integrity of the officers concerned."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

## INDIAN SECURITIES BILL, 1885.

The Hon'ble Sir A. COLVIN presented the Report of the Select Committee on the Bill to amend the law relating to Government Securities.

## MIRZAPUR STONE MAHÁL BILL, 1885.

The Hon'ble MR. ILBERT moved for leave to introduce a Bill to declare and amend the law relating to the Stone Mahál in the District of Mirzapur in the North-Western Provinces. He said:—

"This is a Bill of a purely local character, and its object is to make better provision for regulating the use of the well-known quarries of building-stone situated near the hill fort of Chunar, under which we pass as we go by rail from Allahabad to the junction for Benares.

"These quarries are at present under an old Regulation of the year 1800, and the circumstances under which that Regulation was passed are described in its preamble, which runs as follows:—

'The stone-quarries at Chunár, Ghazípúr and Mirzápúr, in the Province of Benares, have been hitherto worked for the exclusive use of Government, and either let in farm, under the provisions contained in sections 81 and 82 of Regulation XXII, 1795, or managed (since August, 1797) by an agent, who disposed of the stones, at stated prices, chiefly in the city of Benares.

'With a view to encourage the excavation of the quarries, and bring a greater quantity of stones to sale for the general convenience of builders and others, a notification was published, under date the 9th April, 1799, that the stone-quarries in the Province of Benares had been laid open for public use, subject to a duty, the rates of which would be subsequently published for general information.

'In pursuance of this notification, and for the purpose of determining the rates of duty upon all stones quarried by individuals subsequent thereto, or which may be hereafter quarried under this Regulation, the following rules have been enacted by the Governor General in Council, to be considered in force, as far as they respect the rates of duty, from the 9th day of April last, and in all other respects from the period of their promulgation in the Province of Benares.'

"I may mention that a curious little blunder was made in drafting this Regulation. At the time when it was passed one of the principal quarries was situated at a village near Chunar, which is described in the records of the time by a name spelt variously as "Cassepoor," "Cassipoor," "Cassepore" and "Ghasseepoor." When the draft came up to Calcutta to be settled, the copyist, who had probably never heard of the village, turned the 's's' into 'z', and thus made the Regulation read as if it applied to the well-known district of Ghazipur, east of Benares. All this occurred in the pre-Hunterian period, and the Regulation, as originally printed,

spelt Ghazipur with two 'e's' and two 'o's' after the old fashion; though I observe that, in the edition which I hold in my hand, Mr. Stokes, who, in the matter of spelling, was a most conscientious follower of my hon'ble colleague, has substituted the orthodox spelling with an 'i' and a 'u'. Now, the district of Ghazipur is an alluvial tract where not a single vestige of stone can be found, and more than one critic has made merry over the official ignorance of those who applied a Regulation for quarries to a part of the country where it was as likely that stone would be found as in the jungles round Calcutta. This slip has not given rise to any inconvenience, but the Regulation itself is obsolete in many respects, and among those of its provisions which are still operative many are seriously defective. For instance, I find that the only punishment provided in the case of a person detected in fraudulently removing stone without payment of duty is the confiscation of the stone and of the cattle and carriages used in carrying it. Now, as the owners of the cattle and carriages are for the most part poor people who are hired by the day, and can often have little or no means of knowing whether or not the stone has had duty paid on it or not, it would be inequitable to confiscate their property. The man who really deserves punishment is the dealer who procures the use of their cattle and carriages for the purpose of transporting the stone, and for him the confiscation of the stone itself is a wholly inadequate penalty. Moreover, if the stone which has been removed without payment of duty has been used in the construction of a house or well, it is not easy to seize or confiscate it. Consequently the penalties prescribed by the Regulation are apt to fall upon the wrong persons, and when they do fall upon the right persons they are either inadequate or practically unimposable. For that reason it is proposed to repeal the Regulation and to supersede it by a new law.

"The Bill which I am asking leave to introduce begins by declaring the rights and powers of the Government, of landholders and of private persons. It declares that the Government is entitled to levy duty on all stone quarried in the district; it declares, in accordance with the existing law, that no private landowner is entitled to levy duty or place any restriction on the working of these quarries; and it also declares that any person, subject to certain rules and local customs, may open and work a quarry in the district.

"Some of these local customs are very curious. I find that under one of them the opener of a quarry has an exclusive right to quarry within a circular area of which the radius is measured by the distance to which he can throw a stone with his left hand. One is reminded of similar customs which prevail in various parts of England. For instance, in Derbyshire, the first discoverer of a vein of lead-ore is entitled to have assigned to him two meers of ground, while in certain parts of Cornwall tinners are entitled by local custom to 'bound' unappropriated waste to the extent of an acre. In the same way the free miners of the Forest of Dean are entitled to three gales or allotments for coal or iron mining, and this right has been regulated by statute.

"It is obvious that customs such as these are likely to lead to a good many disputes, and consequently amongst the various matters for which provision may be made by rules under the Bill is the mode of determining questions arising out of conflicting claims to the right to quarry. The Bill gives a somewhat extensive power to make rules, but it contains the usual clause which provides that a draft of the proposed rules is to be published in such a manner as to afford full opportunity for criticism and objection to all persons likely to be affected by the rules.

"There is little else that I need notice in connection with the Bill. It contains a provision for exempting from duty in certain cases; it saves for the present the existing rates of duty which, with very slight variations, have been in force for nearly forty years; and it continues to the inhabitants of the hills the privilege conceded to them by the Regulation of 1795 and maintained in their favour by the Regulation of 1800."

The Motion was put and agreed to.

The Council adjourned to Thursday, the 15th October, 1885.

SIMLA;
*The 15th October, 1885.*

D. FITZPATRICK,
*Secretary to the Government of India,*
*Legislative Department.*

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 14th OCTOBER 1885.

GENERAL REMARKS.—In the Madras Presidency general rain has again fallen, and agricultural prospects are fair. In Bellary and Anantapur especially great improvement has taken place. In Mysore there has also been good rain. The standing crops have improved; sowing, transplanting, and ploughing operations are in progress, and prospects are now said to be good. In Coorg crops are in good condition.

Rain has fallen throughout the Bombay Presidency, with the exception of Sind. The *kharif* crops promise well, and *rabi* crops are being sown. In Sind rain is wanted.

In the Berars and Hyderabad the recent rain has been beneficial to the crops, which promise well. Rain has fallen throughout the Central India States, but more is wanted at Neemuch and Agar. In Rajputana the rainfall has been slight, and limited to a few places. In Marwar, Meywar, Kherwara, Harowti, Kotah, Jeypore, Kherowlie, Dholepore, and Bhurtpore the rainfall has been insufficient, and more is wanted for the crops.

In the Central Provinces the rain of the week has been confined to the northern and western districts. Prospects continue fair; but in Chhattisgarh and Raipur more rain is much needed, especially on the highlands. There has been little or no rain in the Punjab during the week. Prospects are on the whole fair; but more rain is wanted in the Ferozepore and Sialkot districts. *Rabi* operations in progress. Slight rain has fallen in the North-Western Provinces and Oudh, and general prospects are fair.

In Bengal a little more rain is said to be wanted in places. Except in flooded tracts, the prospects of *amun* rice and other standing crops are generally favourable. The *bhadoi* outturn generally has not been good, owing to the damage caused to the crops by floods in many places. *Rabi* cultivation is progressing vigorously. In Assam seasonable weather continues, and the crops promise well.

In British Burma crop prospects are good.

The public health is on the whole fair.

Prices are fluctuating in the Punjab, the Central Provinces, and the North-Western Provinces and Oudh, and are falling in Mysore, and to some extent in Bengal.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Oct. 14th)** | | |
| Bellary ... | Average last week, 6·20; this week, 3·06. | Partially withered early dry crops revived everywhere; later sowings thriving; wet crops moderately good. Lands on which early crops failed completely being resown. Continued rain would injure standing crops. Harvest *cholum* and *cumbu*, yield below average. Wanderers returning. |
| Kurnool ... | 2·92 (average) | Standing crops fair. Small-pox and cattle-disease in one taluk. |
| Ganjam ... | ·04 ( „ ) | Rain wanted urgently for rain-fed paddy. Much land left unplanted. Cattle-disease in Berhampore; 66 deaths from cholera. |
| Kistna ... | ·58 ( „ ) | Standing crops generally good; harvest *cumbu*, outturn below average. River 9·65 feet over anicut. Fever and small-pox slight; deaths from cholera unreported last week 17, this week 4; cattle-disease in one taluk. |
| Chingleput (Madras) ... | ·54 ( „ ) | Standing crops generally good, but wither in parts of one taluk; harvest early paddy and *ragi*, outturn below average. Fever abating; cattle-disease in four taluks; 22 deaths from anthrax. |
| Coimbatore ... | 2·49 ( „ ) | Standing crops generally good; harvest paddy, *cholum*, and *ragi* in parts, outturn about average. Fever, small-pox, and cattle-disease slight. |
| Tanjore ... | 1·20 ( „ ) | Standing crops good, except in parts of one taluk, where rain is wanted; harvest paddy and dry grains, outturn below average. Cattle-disease in parts; 8 deaths from cholera. |
| Madura ... | Average last week, 1·40; this week, 1·19. | Fever prevalent. |
| Malabar ... | 4·58 (average) | Cultivation progressing; harvest first crop paddy. Small-pox in five taluks; fever in three and cattle-disease in six taluks; 10 deaths from cholera. |
| Travancore ... | 3·9 ( „ ) | Fever in parts.<br>*General Remarks.*—General prospects fair; continue favourable in Bellary and Anantapur. |
| **Bombay—(Oct. 14th)** | | |
| Karachi ... | *Nil* | River at Kotri on 12th, 9 feet 4 inches against 11 feet 7 inches on same date last year. Harvesting going on in talukas Tatta, Ghorabari, Sujawal, and Shahbandar; great damage to crops in Johi taluka, owing to early abatement of river. Fever in ten and cattle-disease in four talukas. Prices—wheat, red rice, and *bajri* in Karachi 26, 34, and 34; in Sakro *nil*, 39 and 50; in Shahbandar 22, 40 and 48; in Dadu 34, 50 and 40 pounds per rupee, respectively. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Hyderabad ... | *Nil* | Rice crops injured by rats in Guni and Tandobago talukas, and *til* crops by unfavourable winds in Mirpur Khas taluka. Reaping of harvest general; crops cultivated late in the season in Hyderabad. Badin, Hala, Moro, and Kandiaro talukas are suffering from deficiency of water. River at Kotri on 12th, 9 feet 4 inches against 11 feet 7 inches on same date last year. Fever in ten talukas. Days hot. Prices of grain steady. |
| Ahmedabad ... | ·02 rain in Ahmedabad, rain in Sanand, Parantij, Dholka, Modoso, Dhandhuka, Dholra, and Gogo; maximum in Gogo, 6·07; minimum in Sanand, ·25. | Total rainfall 22·37. Prospects improving. Fever in Sanand, Dholka, and Gogo. Wheat 36 and *bajri* 32 pounds per rupee. |
| Baroda ... | 1·51 | Total rainfall 24·02. Cholera in Dehgam and Siddapur; cattle-disease in Calal. Crops improving in Baroda division, but languishing in Kadi for want of rain. Prices—*bajri* 30, wheat 24, and rice 18 pounds per rupee. |
| Surat ... | Rain in all talukas; maximum at Mandvi, 4·62; minimum at Pardi, ·61. | Rainfall opportune. Prospects greatly improved; all standing crops generally healthy. Cattle-disease in Olphad and Bardoli talukas; fever in Olphad and Pardi; cholera in Jalalpur, 2 cases, 1 death. *Juari* 37 and *nagli* 40 pounds per rupee. |
| Nasik ... | 2·29; maximum at Malegaon, 4·83; minimum in Niphad, ·34. | *Kharif* crops good all over the district; land being prepared for *rabi* in some talukas; sowing in progress. Break in the weather is now required for *rabi* sowings; more rain might do damages to *kharif* crops in some talukas. Grazing for cattle is now obtainable. Cholera in Chandor, Yeola, and Nandgaon talukas, attacks 54, deaths 28. Prices—wheat 34½, *bajri* 33¾, and rice 20¾ pounds per rupee, respectively. |
| Colaba (Bombay) ... | Rain on 7th and 9th, total ·78, being 1·68 below average. | Total rainfall to date 67·91. Abnormal temperature 1° cool on 7th, 1° warm on 12th, 2° warm on 13th, and *nil* on all other days; vapour in air excessive, except on 8th, when it was normal; abnormal wind from south, south-east, and strong on 7th and 8th, from south-east on 9th and 10th, wind normal from 11th to 13th. Thunderstorm on 9th, thunder and lightning on 10th, lightning on 11th. |
| Poona ... | **Good rain throughout the district; maximum at Sirur, 4·60; minimum at Purandhar, 1·07.** | ***Kharif* crops doing well; sowing of *rabi* in progress. 196 cholera cases in five talukas, 142 deaths; cattle free from disease. Prices of *bajri* 29 and *juari* 35 pounds; in Poona *bajri* 28 and *juari* 30 pounds per rupee.** |
| Ahmednagar ... | Sheogaon, 6·83; Karjat, 5·97; Rahuri, 5·96; Jamkhed, 5·71; Sangamner, 4·65; Newasa, 4·65; Shrigonda, 4·22; Parner, 2·19; Kopargaon, 1·93; Nagar, 1·59; Akola, ·54. | *Kharif* crops good everywhere in Jamkhed. *Bajri* crop has suffered somewhat where lands lie low, and *juari* has suffered similarly in Sheogaon. Sowing of *rabi* in progress in five, and retarded in six talukas by excessive wet. Cholera 7 attacks, 3 deaths; ague in Akola. *Bajri*—minimum 34 and maximum 48 pounds and *juari*—minimum 39 and maximum 66 pounds per rupee. |
| Sholapur ... | Sholapur, 4·08; Barsi, 3·83; Madha, 2·77; Karmala, 4·10; Pandharpur, 4·55; Sangola, 1·69; Malsiras, 1·66; Akalkot, 4·0. | *Kharif* crops doing well; *rabi* sowing commenced generally. *Juari* 46 pounds 11 tolas and *bajri* 29 pounds 29 tolas per rupee. Cholera 12 cases, 8 deaths. |
| Dharwar ... | Rain at all stations, except in Hangal, varying from ·36 in Kod to 5·55 in Nargund. | Rice and *juari* crops good; cotton sowing in progress. Cholera disappeared. Slight cattle-disease in Hangal and Mugud potha. *Juari* 46 and rice 24 pounds per rupee. |
| Kanara ... | Karwar, 4·43; Kumpta, 4·41; Sirsi, 1·72; Haliyal, 1·70. | Rice harvest continues on coast. Rice crop in Bar above Ghat. Fever, small-pox, and cattle-disease in three talukas. Common rice at Karwar 12 seers; district average 13 seers per rupee. |
| Rajkot .. | ·47 | Fever and bowel complaints prevalent in some parts. *Bajri* 34 and *juari* 40 pounds per rupee. General public health good. |
| | | *General Remarks.*—Rain throughout the Presidency, excepting Sind; *kharif* crops generally doing well, and sowing of *rabi* crops in progress. River falling in Sind, and crops suffering in parts of Karachi and Hyderabad from deficiency of water; standing crops damaged by rats and storms in parts of Hyderabad, and by blight in parts of Ratnagiri. Cholera and fever in parts of thirteen and cattle-disease in parts of ten districts. |
| **Bengal—(Oct. 14th)** | | |
| Chittagong ... | ·36 | Weather somewhat hot. Prospects generally fair. Standing crops in some places damaged by grubs. Prices steady. Cholera still reported. General health good. |
| Dacca ... | ·39 | Prospects of crops and public health good. |
| 24-Pergunnahs (Calcutta) | 1·08 | Prospects of crops, except in inundated parts, good. Harvesting of *aus* going on, estimated outturn 10 to 12 annas. Public health, on the whole, good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal—*contd.*** | | |
| Moorshedabad ... | *Nil* | Weather clear and hot. Prospects of *amun* in the Barh very good; elsewhere *kalai* very extensively sown and doing well. Soil being prepared for *rabi* crops. Public health good. Common rice 13 to 15 seers per rupee. |
| Burdwan ... | *Nil* | Prospects of *amun* good. A fall of rain would benefit the crops. Rice 14 to 16 seers per rupee. Health generally good. |
| Rungpore ... | *Nil* | Weather dry. *Amun* prospects good; jute outturn below average. Sporadic cholera in places. Fever prevalent. |
| Bhagalpur ... | *Nil* | Prospects of crops good. Some rain required for rice on highlands and for *rabi* sowings. Cholera still prevalent. |
| Purneah ... | *Nil* | Prospect of crops fair. Cold weather crops progressing. Seasonal fever; some cholera. Ganges still high. |
| Patna ... | 0·15 | *Bhadoi* harvest almost completed; prospects of the paddy crop where sown continue good. Fever prevalent at the change of season; cholera still reported from Hilsa and Behar stations. |
| Durbhunga ... | *Nil* | Prospects of paddy favourable. *Bhadoi* harvest completed. Transplanting of tobacco going on. Prices falling. A few cases of cholera reported from Madhobani subdivision. |
| Hazaribagh ... | ·06 | Weather bright and clear. Crops suffering for want of rain in parts of district; elsewhere prospects good. Cholera abating; fever very prevalent. |
| Cuttack ... | ·36 | Weather hot, sometimes cloudy. *Beali* rice has yielded a fair outturn everywhere, except in tracts damaged by sea wave; early *sarad* rice in ear and late *sarad* doing well, but requires rain. Common rice 11 seers per rupee in town. Public health generally good. |
| Midnapur ... | 1·16 | Prospects generally good outside flooded area. *Boro* rice being sown. Fever prevalent. |
| Khoolna ... | *Nil* | Weather hot. Prospects of *amun* very good, except in flooded parts, *viz.*, two thanas in Satkhira subdivision. Flood water receded. Public health fair. |
| Dinagepur ... | ·08 | Crop prospects good. Cholera in places. |
| Pubna (Serajganj) ... | 1·78 | Crops look well. Rivers falling. Rice market stationary. Fever prevalent. |
| Gya .. | *Nil* | Weather hot. Rice prospects good, but a shower of rain anxiously awaited everywhere. Prices stationary. Health good. |
| Chumparun ... | *Nil* | *Bhadoi* crops being harvested; *aghani* crops promise well. Prices fallen slightly. Fever and cholera still reported from the interior. |
| | | *General Remarks*—Slight and not general rain during the week. A little more rain is now wanted in some places. Prospects of *amun* rice and other standing crops generally favourable, except in the flooded parts of Burdwan and Presidency divisions. *Bhadoi* outturn not very fair, on the whole, as the crops in many places suffered from excessive rain and floods in August and September. Cultivation of *rabi* crops being carried on vigorously. Price of rice improving slightly in some districts. Prevalence of fever reported in many places. |
| **N. W. Provinces and Oudh—(Oct. 15th)** | | |
| Benares (Oct. 17th) | *Nil* | *Kharif* crops are good and an average outturn is expected. Prices of food-grains are stationary, except barley and rice, which have slightly fallen. Markets well stocked. Few cases of cholera are now and then reported from the city and some villages in the district; fever in the district to the extent which is usual at this season; health generally good; no cattle-disease. |
| Gorakhpur ( „ 12th) | *Nil* | Weather fine. Harvest well advanced; rice outturn average. Cholera somewhat less. Prices slightly rising. |
| Fyzabad ( „ 13th) | *Nil* | Sowing of gram going on. Supplies ample. Ague, fever, and cholera in part of district. |
| Lucknow ( „ 12th) | ·50 at Sahr; ·30 at Malihabad; ·20 at Mohanlalgange. | *Kharif* harvesting nearly done, the outturn, on the whole, is fair; gram and peas are being sown. The rain during the week has benefited very much the drying crops. Cholera is gradually decreasing, but fever reported both in the city and district; condition of cattle good. Supplies sufficient. Prices slowly rising. |
| Rae Bareli ( „ „ ) | *Nil* | Weather clear and bright. *Kharif* nearly harvested. Cholera and cattle-disease continue; fever prevalent. Markets full. Prices slightly falling. |
| Partabgarh ( „ 13th | ..... | *Rabi* sowing curtailed, owing to want of rain; *bajri* nearly ripe. Serious increase in cholera which is travelling eastward. |
| Allahabad ( „ „ ) | ..... | Weather seasonable. *Rabi* sowings commenced. Markets well supplied. Prices steady. Cholera and fever still continue, otherwise health good. |
| Cawnpore ( „ 12th) | ·10 to ·40 average fall during the week in six parganas, including head-quarters. | Rain slight but beneficial. *Juari* and *bajri* in ear; *rabi* ploughing continues; gram being sown. Fever general; cholera decreasing; cattle-disease in all parganas, severe in two. Prices show a tendency to rise. |
| Banda ( „ 13th) | Three slight showers of rain during the week. | Cholera reappeared in one village; fever continues. Cotton and *bajri* flowering; rice and *kodon* being harvested; *rabi* ploughings almost completed. Cattle-disease in one village. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh—*contd.*** | | |
| Ballia (Oct. 12th) | *Nil* | Health good; cholera decreasing. Weather clear and bright, mornings cooler. *Rabi* sowing commenced; *kharif* crops nearly cut. |
| Farakhabad ( „ 13th) | Slight rainfall in every tahsil, not exceeding ·30. | *Kharif* reported poor; *channa* sowings began. Cholera ceased in the city and Fatehgarh, but still prevalent in district. |
| Sitapur ( „ „ ) | Slight rain at the Sadr and at Sidhauri, none at Misrakh. | More rain is much wanted at Misrakh. *Kharif* crops give an average outturn. Fever and cholera still prevalent in the Gangar tracts. |
| Bareilly ( „ „ ) | *Nil* | *Rabi* sowings general. Prices show a tendency to fall. Slight cattle-disease reported; fever everywhere prevalent, and cholera slightly increasing in city. |
| Kumaon ( „ 12th) | ..... | Weather fine. Rice and early millets harvested in most parts. General health fair. *Rabi* ploughing commenced. Cattle-disease continues. Prices stationary. |
| Agra ( „ „ ) | Slight rain in one pargana only. | A general fall much needed for standing crops and *rabi* sowings; well irrigation going on. Prices steady. Fever prevalent; cholera slight. |
| Meerut ( „ 13th) | *Nil* | Dry westerly wind; unless rain falls *rabi* sowings will be difficult, except on irrigated land; *kharif* prospects fair, but impaired by prolonged want of rain; gram and peas being sown; *rabi* ploughings in progress. Fever prevalent. Prices stationary. |
| | | *General Remarks.*—Slight rain in places. General prospects fair. Cholera, fever, and cattle-disease continue in places. General health fair. |
| **Punjab—(Oct. 14th)** | | |
| Delhi (Oct. 13th) | *Nil* | Fever prevalent. Prices slightly falling. |
| Hissar ( „ „ ) | ..... | *Kharif* being harvested; *rabi* operations progressing. Prices almost stationary. A few cases of cholera in Bhiwani. |
| Umballa ( „ „ ) | ..... | Health fair. *Makki* and rice being harvested; grain sowing in progress. Prices stationary. |
| Jullundur ( „ „ ) | ..... | Rain wanted. Health and *kharif* crops good. *Rabi* ploughing progressing. Prices stationary. |
| Amritsar ( „ „ ) | *Nil* | Health and crops good. Prices stationary. |
| Sialkote ( „ „ ) | *Nil* | Health good. Crops suffering. Few cases of cattle-disease in Bajwat. Prices rising. |
| Ferozepore ( „ „ ) | *Nil* | Health good. *Kharif* crops withering for want of rain. Prices rising. |
| Lahore ( „ „ ) | *Nil* | Health good. Sowing commenced. Prices tending to rise. |
| Rawalpindi ( „ „ ) | ·20 | Fever in Kahuta tahsil; health otherwise good. *Kharif* prospects average. Prices stationary. |
| Mooltan ( „ „ ) | *Nil* | Health and *kharif* crops good. Prices stationary. |
| Dera Ismail Khan ( „ „ ) | ·08 | Health good. Prices stationary. |
| Peshawar ( „ „ ) | ·05 | Fever prevalent. *Kharif* prospects good. Prices falling. |
| | | *General Remarks.*—Slight rain in the Rawalpindi, Dera Ismail Khan, and Peshawar districts. Fever prevalent in the Delhi and Peshawar district, and in the Kahuta tahsil of the Rawalpindi district; a few cases of cholera in Bhiwani and of cattle-disease in Bajwat, in the Sialkot district. *N. B.*—As regards the figures in column "*Total receipts from 1st April to date*," audited figures have been availed of as far as possible.

(a) Return not received.

(b) Total receipts from 1st April to 20th September 1884.

(c) Total receipts from 1st April to 19th September 1885.

(d) Including Rewari-Ferozepore State Railway.

(e) Total receipts from 1st April to 12th September 1885.

(f) Total receipts from 2nd April to 27th September 1884.

SIMLA,
*The 19th October 1885.*

A. B. SAMPSON,
*Under-Secretary.*

GOVERNMENT OF INDIA.

## HOME DEPARTMENT.

### MEASURES ADOPTED FOR THE DESTRUCTION OF NOXIOUS ANIMALS AND SNAKES DURING THE YEAR 1884.

No. $\frac{50}{1801-1811}$.

*Extract from the Proceedings of the Government of India, Home Department (Public),—dated Simla, the 23rd October 1885.*

Read—

Home Department Resolution No. 53—1890-1901, dated 14th November 1884, reviewing the reports on the results of the measures adopted for exterminating wild animals and poisonous snakes in British India during the year 1883.

Read also the following letters from Local Governments and Administrations submitting returns for the year 1884 :—

From the Government of Madras, No. 743A., dated 19th June 1885.

From the Government of Bombay, No. 2551, dated 10th July 1885.

From the Government of Bengal, No. 1699J.D., dated 14th September 1885.

From the Government of the North-Western Provinces and Oudh, No. $\frac{964}{111-201}$, dated 24th August 1885.

From the Government of the Punjab, No. 566S., dated 4th July 1885.

From the Chief Commissioner, Central Provinces, No. 1859-97, dated 18th May 1885.

From the Chief Commissioner, British Burma, No. 583-48N., dated 23rd March 1885.

From the Chief Commissioner, Coorg, No. 1770-240, dated 23rd March 1885.

From the Chief Commissioner, Assam, No. 649, dated 24th April 1885.

From the Resident at Hyderabad, No. 175G., dated 18th May 1885.

From the Chief Commissioner, Ajmere-Merwara, No. 132, dated 7th February 1885.

From the Resident in Mysore, No. $\frac{202}{205}$, dated 21st January 1885.

### RESOLUTION.

A Statement showing the loss of human and animal life caused by wild animals and venomous snakes, and the results of the measures adopted for the destruction of noxious animals and snakes, during the year 1884 as compared with the previous year is appended to this Resolution. The number of human lives lost decreased slightly, from 22,905 in the previous year to 22,425, and this decrease was common to all provinces except Bengal, British Burma, and Coorg. The deaths caused by wild animals fell from 2,838 to 2,795, and those due to snake-bite from 20,067 to 19,629. As has usually been the case, the returns from the Lower Provinces of Bengal and the North-Western Provinces and Oudh account for upwards of 75 per cent. of the total mortality. In the former of these provinces the deaths aggregated 11,161 and in the latter 5,856 against 10,455 and 6,298, respectively, in the previous year. Tigers caused 831 deaths, wolves 265, leopards 229, and 'other animals' 1,266. Under the head last mentioned are included 547 deaths caused by jackals in Bengal and 70 in the North-Western Provinces and Oudh; also 123 deaths due to alligators, sharks, and crocodiles in Bengal. Of the deaths caused by tigers, Bengal returns 419, Madras 139, Assam 138, and the Central Provinces 98. Wolves caused 177 deaths in the North-Western Provinces and Oudh and 73 in Bengal. The deaths under this head in other provinces were comparatively few.

2. The reported loss of cattle amounted to 49,672 against 47,478 in the previous year. Of these, 47,944 are said to have been caused by wild animals and 1,728 by snakes. The largest loss is reported from Bengal, where 12,397 head

were killed. Madras comes next, with a loss of 9,065, followed by the North-Western Provinces and Oudh with 8,409, Assam with 6,670, and the Central Provinces with 4,372. The losses reported from other provinces, though in some cases considerable in themselves, were insignificant when compared with the above figures. Tigers and leopards are shown as having been about equally destructive, having killed 19,680 and 19,699 head of cattle, respectively.

3. In the number of wild animals destroyed there was a satisfactory increase, from 19,890 in the previous year to 23,775. This increase was common to all kinds of animals, and in the case of tigers was chiefly due to the large number (495) of these animals destroyed by professional *shikaris* in the Rungpore district of Bengal. With the exception of those for Bombay, Assam, and Hyderabad, the reports are silent as to the number of licenses given for possession of arms for the destruction of wild beasts and for the protection of crops. In Bombay the total number of licenses issued during the year for the former of these purposes was 1,418, or 295 more than in 1883, in addition to which 926 licenses to possess arms, mostly for the protection of crops from wild animals, are said to have been granted in Kanara. In the plains of Assam no less than 6,791 licenses were issued for the possession of guns for the destruction of wild animals and the protection of crops. In Hyderabad 4,492 gun licenses were issued during the year; but it appears that the licensees directed their energies rather to obtaining food by shooting inoffensive animals than to the destruction of the more dangerous animals. As has been remarked on previous occasions, the Governor General in Council considers that such licenses should be freely given when necessary for the destruction of wild animals, efforts being made to induce the licensees to use their arms for the purpose for which the licenses are granted. In order to enable the Government of India to see what action is taken in this matter in the several provinces, it would be convenient if future reports contained full particulars regarding the number of licenses granted under the Arms Act rules either for purposes of protection of crops or destruction of wild animals.

4. The only provinces which show an appreciable destruction of poisonous snakes are Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab. The total number of snakes destroyed in all provinces declined from 412,782 in the previous year to 380,981. The system of paying rewards for the destruction of venomous snakes on the authority of certificates granted by selected Indigo planters, which was experimentally introduced in 1882 in the Patna Division of the Bengal Presidency, was during the year under report in operation in the districts of Mozufferpore, Durbhunga, and Monghyr. The results were so far satisfactory that the number of snakes destroyed in those districts increased from 10,534 in the previous year to 16,039. It is true that this result was accompanied by an increase in the number of deaths from snake-bite; but, as pointed out by the Local Government, this fact need not be considered to discredit the experiment, inasmuch as, since more attention is now paid to the destruction of snakes, it is very possible that more care is taken to record deaths from snake-bite. In the Madras Presidency the entries under the head of the number of snakes destroyed and the rewards given for such destruction are blank, and it would therefore appear that no special measures are taken in that presidency towards the extermination of venomous snakes. If this is the case, the matter would seem to be one deserving the attention of the Madras Government, inasmuch as the number of deaths recorded in the Madras Presidency as due to snake-bite is considerable (1,191), and is larger than in any other province except Bengal and the North-Western Provinces and Oudh.

5. The total amount given in rewards was Rs. 2,46,525 against Rs. 1,74,355 in the previous year, the increase being probably chiefly due to the larger number of wild animals destroyed during the year.

6. On the subject generally of the loss of life caused by wild animals and venomous snakes, the Governor General in Council has little to add to the remarks made in previous reviews, the object of which was to impress on

Local Governments the necessity for making every practicable experiment which may be suited to local circumstances. On the present occasion His Excellency in Council would only observe that the different results as regards the destruction of wild animals and snakes in districts similarly circumstanced appear to show how much depends on the degree of personal interest taken in the matter by district officers. Instances are not wanting to show that increased exertions on the part of the District Magistrates are at once followed by largely increased destruction. For example, owing to the personal interest and exertions of Mr. Kennedy, the District Magistrate of Gorakhpur in the North-Western Provinces, and to the arrangements made for the prompt payment of rewards, the number of snakes destroyed during the year under report at once rose from 203 to 4,418. The Governor General in Council trusts that Local Governments and Administrations will impress upon district officers that their personal exertions are essential if any real progress is to be made in the extermination of wild beasts and venomous snakes, and if the considerable loss of life which takes place year by year from this cause is to be sensibly diminished.

---

ORDER.—Ordered, that this Resolution, with the appended Table, be forwarded to Local Governments and Administrations for information and guidance, and that it be published in the Supplement to the *Gazette of India*.

*Statement showing the results of the measures adopted in British India with the view of exterminating wild animals and venomous snakes during the year 1884.*

A. MACKENZIE,
*Secretary to the Government of India.*

GOVERNMENT OF INDIA.

## LEGISLATIVE DEPARTMENT.

**ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.**

The Council met at the Viceregal Lodge, Simla, on Thursday, the 15th October, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.
The Hon'ble W. W. Hunter, C.S.I., C.I.E., LL.D.
The Hon'ble Amír Alí.

### LAND ACQUISITION (MINES) BILL, 1885.

The Hon'ble MR. HOPE moved that the Report of the Select Committee on the Bill to provide for cases in which Mines or Minerals are situate under land which it is desired to acquire under the Land Acquisition Act, 1870, be taken into consideration. He said:—

"On the occasion of moving for leave to introduce the Bill I gave so full an explanation of the objects which it was desired to attain that I think I need not trouble the Council with any further detailed remarks upon the subject. The only point which it is perhaps desirable to bring to the notice of the Council is that to the Bill, as first drafted, considerable objections on the part of owners of coal underlying contemplated railways in Bengal were found to exist. These coal-owners consequently submitted some representations to the Select Committee which have received most careful consideration. We found that in some instances the objections taken to the wording possessed considerable show of reason. We have modified the Bill in those and other particulars, and I am glad to say that we have now received from the Bengal Government, and from the coal-owners themselves, the statement that they are perfectly satisfied with the Bill as it now stands.

"Under these circumstances I feel no hesitation in recommending the Bill to the favourable consideration of the Council. Before, however, coming to the next Motion, I desire, with the permission of Your Excellency and the Council, due notice not having been given of it, to move a very small amendment in section 15. It is that in sub-section (2) of that section, after the words 'persons interested in the land' the words 'or entitled under the Land Acquisition Act, 1870, to act for persons so interested' be inserted. The object of this small amendment is to make it quite clear that minors or lunatics can give assent to the proceedings through their legal representatives."

The Hon'ble MR. ILBERT said:—"It appears from the papers that we have received that all the persons interested in the mines affected by the measure have agreed not only that the Bill in its present form shall regulate their rights in future, but also that it shall be applied to pending proceedings. That I understand to be the effect of the communications just received by the Public Works Department. If that had not been the case, there would have been good reason for suspending the Bill until our arrival in Calcutta, but, as it appears to have been distinctly assented to by all the persons interested, I think we may now quite safely pass it into law."

The Motion was put and agreed to.

The Hon'ble MR. HOPE then moved that in section 15 of the Bill, sub-section (2), after the words "persons interested in the land" the words "or entitled under the Land Acquisition Act, 1870, to act for persons so interested" be inserted.

The Motion was put and agreed to.

The Hon'ble MR. HOPE also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

### INDIAN SECURITIES BILL, 1885.

The Hon'ble SIR A. COLVIN moved that the Report of the Select Committee on the Bill to amend the law relating to Government Securities be taken into consideration. He said:—

"When this Bill was introduced, it was explained that, before and since the passing of the Contract Act, the practice of the Indian Public Debt offices had been to treat the right of suing on and giving receipts for money payable under Government promissory notes as vesting in the survivor or survivors of two or more joint holders. But the law officers of the Government had recently given an opinion that, having regard to section 45 of the Contract Act, it was not safe to continue this practice. The Government of India therefore considered that legislation was desirable both for the purpose of confirming what had been done in the past, and for the purpose of laying down a convenient rule for the future. When, however, we came to undertake legislation, we found that, on the one hand, it was urged that any provision which might be contemplated in respect of Government securities should be generalised and extended to other classes of obligations besides those arising on such securities; and, on the other, that the rule of survivorship as applied to instruments of the description in question is one that does not fit in with the habits and ideas of certain classes of the Native population, and might, if extended to those classes as an absolutely binding rule, open a door to the perpetration of frauds. It was, therefore, proposed that we should legalise what had been done in the past, and leave the future to be dealt with administratively. It was suggested that it could be so arranged in the Loan Department of the Government that it should be in the option of persons, in whose favour securities are first issued or to whom they are subsequently transferred by endorsement, either to take them simply in their several names, that is to say, in favour, *e.g.*, of 'A, B & C,' without qualification, in which case the rule of the Contract Act would apply, or to take them under words giving a right of survivorship, as, *e.g.*, in favour of 'A, B & C, and the survivor or survivors of them,' in which case we are advised the rule of the Contract Act would be excluded and the rule of survivorship would apply. This, it was thought, would be likely to afford a more satisfactory solution of the difficulty as regards securities to be hereafter issued than any enactment establishing either the rule of survivorship or that of representation in a hard-and-fast manner, as it would leave it open to all concerned to adopt for themselves the rule best adapted to their requirements. To obviate mistakes or oversight, it was believed that a notice to the above effect might be enfaced on the security in such a manner as to ensure attention. When, however, the matter was referred to the Loan Department in Calcutta, and when the opinions of competent banking authority was taken on the subject, we found that there was considerable objection from their point of view on the ground that it would introduce, for a time at least, doubt and uncertainty in the case of Government securities; and we came to the conclusion that on the whole it

would be better to legalise up to the 1st of April of next year the present practice, leaving to be settled during the winter the course which should be ultimately adopted; so that during that time we shall have an opportunity of deciding whether the provision which we now propose to introduce should apply only to Government securities, and, on the other hand, whether the administrative arrangement by which we desire to supplement it is open to such objection as practically to require us to adopt some other treatment."

The Hon'ble MR. ILBERT said:—"I entirely agree with my hon'ble colleague, Sir Auckland Colvin, as to the propriety of the course which the Select Committee have recommended for adoption. I had occasion to touch on the main question raised by the Bill in the course of some remarks which I made last January when the Bill to amend the Negotiable Instruments Act was passed into law. The Bank of Bengal had then suggested that the opportunity afforded by that Bill should be taken to declare section 45 of the Contract Act inapplicable to negotiable instruments. I said that I was not aware of any case in which that section had been held to be applicable to such instruments, and that, if the question were to be argued, I was disposed to think that the application of this section might be held to be sufficiently limited by the express saving of any usage or custom of trade and by the provisions of the law with respect to partners, trustees and executors. But however this might be, I thought that, if any amendment of the law in the direction suggested by the Bank of Bengal was necessary, it might be more appropriately embodied in a Bill for amending the Contract Act, since there might well be other cases besides those of negotiable instruments from which the applicability of this section ought to be excluded.

"The Indian Public Debt authorities have now brought up a similar suggestion, but of a somewhat more limited character, and in order to make clear what their proposals amount to, and what they would involve, I think I ought to explain as briefly as I can the existing state of the law as to the devolution of joint rights and liabilities.

"The old rule of the English Common Law was that, on the death of one or more joint tenants, the interest under the tenancy devolved on the survivor or survivors to the exclusion of the representatives of the deceased person; and this rule was applied not only to joint tenants of land and other forms of real property, but also to joint owners of goods and chattels, including that form of personal property which is technically known as a chose in action, that is to say, a right enforceable through the Courts. But it was clear that the rule could not be applied to mercantile rights and interests without causing serious inconvenience and injustice, and consequently there was engrafted on it an exception which professed to be based on the law merchant. 'The wares merchandise, debts or duties', it was said, 'which joint merchants have, as joint merchants or partners, shall not survive, but shall go to the executors of the deceased, and this is *per legem mercatoriam* which is part of the laws of the realm for the advancement and continuance of commerce and trade, which is *pro bono publico*, for the rule is that *jus accrescendi inter mercatores pro beneficio commercii locum non habet*.' The Courts of Equity worked out and developed this exception, and formally established the principle that, even where the legal remedy for the recovery of property devolved exclusively on the survivor of two joint owners, he would be compelled in proper cases to account for the share of the deceased person to the representative of that person. The consequence is that, as the English law now stands, on the death of one of several joint creditors, the right to sue on the contract vests in the survivor or survivors, and, on the death of the last of two or more survivors, in his personal representative. But a person recovering money under this right of survivorship may be accountable for it to the representatives of the deceased person. Meanwhile, it was found that a rule which was unjust and inconvenient when applied to beneficial rights and interests was useful and convenient when applied to the rights and interests of a trustee. When one of several trustees dies you do not want his personal representatives to have anything to do with the trust-property; what you want is that the rights in respect of the property should vest in his surviving colleagues in the trust. Accordingly, it has become the practice that, when property is vested in two or more trustees, it is held by them as joint tenants subject to the rule of survivorship. The general result is eminently characteristic of English law. You have an old rule trimmed by judicial decisions into conformity with modern requirements, and adapted by legal ingenuity to purposes which were never contemplated when it first came into existence, neither the rule nor its qualifications being expressed in language adapted for use in a Code.

"This was the state of the law when the Indian Law Commissioners set to work to codify the law of contract for Indian purposes, and the course which they adopted was boldly to throw over the old English rule as to the survivorship of joint rights and to make that a rule which under the English law was the exception,—that is to say, to make the rule of representation the rule and the rule of survivorship the exception,—and they introduced into the Indian Contract Act two sections (42 and 45) which regulated the devolution of joint liabilities and of joint rights. Section 42 declared that—

'When two or more persons have made a joint promise, then, unless a contrary intention appears by the contract, all such persons, during their joint lives, and, after the death of any of them, his representative jointly with the survivor or survivors, and, after the death of the last survivor, the representatives of all jointly, must fulfil the promise';

whilst the other section in corresponding language declared that—

'When a person has made a promise to two or more persons jointly, then, unless a contrary intention appears from the contract, the right to claim performance rests, as between him and them, with them during their joint lives, and, after the death of any of them, with the representative of such deceased person jointly with the survivor or survivors, and, after the death of the last survivor, with the representatives of all jointly';

and by way of explanation the Law Commissioners state in their Report—

'In regulating the devolution of rights and liabilities, we propose, in accordance with the rule of English Courts of Equity and of the Indian Code of Civil Procedure, that joint liabilities and rights shall, after the death of one of the persons liable or entitled, go to his representative jointly with the survivor, and after the death of the survivor to the representatives of both jointly.'

"So far as we have been able to ascertain by examination of the papers, this proposal was accepted without any criticism whatever.

"Now, what happened after the passing of the Contract Act was what, I fear, has happened in the case of a good many enactments. People went on, just as they had before, in happy unconsciousness of any change in the law, until they were suddenly pulled up by some authoritative legal opinion or judicial decision which made them aware that their proceedings were altogether irregular and illegal. Thus, the Indian Public Debt officers made no alteration either in their rules or in their practice, and it is only a very short time ago that they were advised that their existing practice was not safe, and that in order to make themselves safe they must, after paying off the security held by the joint owners, obtain a receipt, not only from the survivor or survivors, but from the legal personal representatives of the deceased holder. Having been so advised, they come to us in a great hurry, and beg us to alter the law so as to make it conformable to their practice. But in making this request they raised some extremely difficult questions. For what one cannot help asking is whether, if the law is wrong for Government securities, it is right for other forms of contract; and I was not at all surprised to see that one of the criticisms of the Bill in the papers we have received runs as follows:—

'What is proposed is that there shall be one law for Government securities and a different law for all other securities and contracts—one principle to regulate the rights of Government and its creditors and a different principle to regulate the rights of creditors among themselves.'

"Very possibly this exceptional treatment is justifiable, but *primâ facie* there is something in the objection to it, and one cannot help doubting its propriety when one finds that several of those who are in favour of altering the

law would alter it more extensively than was proposed by the Public Debt authorities and by the Bill as originally drawn. In consequence of suggestions to the effect that a more general amendment of the law should be attempted, I tried my hand at an amendment of section 45 of the Contract Act, but I found that the task was very far from easy, and that it was extremely hard to frame a proviso which would not be either too wide or too narrow to suit the requirements of the case. Then, again, among the different legal authorities whom I consulted privately as to the best mode of dealing with the section,—and I may say that I consulted very eminent legal authorities, both in England and in this country,—I find that there is great difference of opinion. Some are in favour of repealing the section altogether; others would keep it, but would qualify it by exceptions more or less wide; whilst others would leave it alone, bringing the practice as far as possible into conformity with the law. Under these circumstances, whatever may be done hereafter, I think there can be no doubt as to what should be done now. You cannot alter past contracts, and I think that the Public Debt authorities have made out a very strong case for ratifying their past practice, and for doing so as soon as possible. I think also that we may with propriety extend this ratification to securities issued during the next four or five months, before the expiration of which time it would be practically impossible to pass a law of a more general character. So much as regards the past; but as regards the future there are two courses open to us: we may either adapt the law to the practice or adapt the practice to the law. The Bank authorities and the Public Debt authorities are naturally in favour of the former course, as giving them the least trouble, but I am by no means satisfied that they cannot by some such expedient as that indicated in the Report of the Select Committee, without inconvenience to themselves and the public, so adjust their practice as to bring it into conformity with the law. If that can be done, no amendment of the law is necessary. I may be wrong in thinking that this is practicable, but before coming to a final conclusion I should like to hear what lawyers and men of business have to say on the subject in Calcutta. It is quite obvious that if the alteration of the law is to be extended beyond the single case of Government securities,—and it apparently should in order to place the law in a satisfactory state,—the form which the amendment must assume will require very careful consideration. Accordingly I am in favour of confining the operation of section 3 of the Bill to the past and to the immediate future, leaving the two questions whether it should be applied to all Government securities hereafter issued, and whether it should be extended to other forms of contract besides Government securities, to be decided hereafter."

The Motion was put and agreed to.

The Hon'ble SIR A. COLVIN moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

## MIRZAPUR STONE MAHÁL BILL, 1885.

The Hon'ble MR. ILBERT introduced the Bill to declare and amend the law relating to the Stone Mahál in the District of Mirzapur in the North-Western Provinces, and moved that it be referred to a Select Committee consisting of the Hon'ble Sir S. Bayley, the Hon'ble Mr. Quinton and the Mover.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill and Statement of Objects and Reasons be published in the *North-Western Provinces and Oudh Government Gazette* in English, and in such other languages as the Local Government thinks fit.

The Motion was put and agreed to.

## MADRAS CIVIL COURTS ACT, 1873, AMENDMENT BILL, 1885.

The Hon'ble MR. ILBERT also presented the Report of the Select Committee on the Bill to amend the Madras Civil Courts Act, 1873.

## MAIMON BILL, 1885.

The Hon'ble MR. AMÍR ALÍ moved for leave to introduce a Bill rendering it permissive to the members of the Maimon community to declare themselves subject to Muhammadan Law. He said:—

"I will not detain the Council long with the few observations which I have to offer, in order to explain the circumstances under which this Motion is brought forward, and the necessity for the proposed enactment.

"Your Excellency and the Hon'ble members are aware that at present the Cutchee Maimons are, in matters relating to succession, &c, governed for the most part by customs of a Hindu origin. In March last a memorial on behalf of the Maimons of Calcutta was presented through me to Your Excellency in Council, praying that a law might be passed 'declaring that in future all disputes among the members of the Maimon community should be settled according to Muhammadan law, as laid down by Imám Abu Hanífa, and not according to Hindu customs conflicting with the Koran and the traditions of the Prophet.' This memorial, briefly but clearly, set forth the grounds upon which the prayer was made for the interference of the legislature. It was referred by the Government of India for the opinion of the Bombay Government, which has now been submitted to Your Excellency, and to which I shall shortly refer. About the same time a memorial was presented to the Bombay Government for submission to Your Excellency in Council by various Maimons of Bombay, which is also now before the Supreme Government. It was the outcome of a great movement among the Cutchee Maimons of the Bombay Presidency, and was adopted at a meeting numerously and influentially attended, which seemed to express the earnest desire of a large body of people to escape from the thraldom which in their view was forced upon them by the British Courts of Justice.

"The history of the movement now set on foot by these Cutchee Maimons is interesting, and requires some mention in order to make their present action intelligible. The Maimons do not constitute a sect; they do not hold any distinctive doctrines, like the Khojás, differentiating them from the general body of Musalmáns or from the principal recognized sects. They are strict Muhammadans, belonging to the Hanafi school of law, as they themselves mention in the memorial; they observe all the religious ordinances which are laid down in the Koran, and the traditions for the guidance of the orthodox Musalmáns. They regularly say their prayers, pay their *zakat*, perform the pilgrimage to Mecca, and keep the fast during the month of Ramzán.

"The origin of the Maimons is to some extent involved in obscurity; they themselves trace their origin to settlers in Cutch and Kattywar from the coast of Oman; but this seems to me only a half truth. It appears that, really speaking, they are the descendants of proselytes to Muhammadanism made by Arab missionaries from the coast of Oman and Hadramaut. These converts, as is usually the case, retained after their conversion a considerable portion of their original Hindu customs. But with the advance of time, and, as they themselves acknowledge, with a growing acquaintance with the tenets of Islam, these customs have gradually relaxed their hold. And now a large body of the community regard them with actual abhorrence.

"I may mention here that the Maimon community is divided into two sections—the Halai Maimons and the Cutchee Maimons. The former trace their origin to Kattywar, the latter to Cutch. The Halai Maimons have long since emancipated themselves from the customs which conflicted with Muhammadanism, and the decision which has had the effect of crystalizing the Hindu customs among the Cutchee Maimons has no reference to them; the learned Chief Justice who decided the case to which I am about to refer expressly excluded the Halais from the scope of his judgment. In the year 1847, a suit was brought in the Bombay Supreme Court, by a Maimon female, for the distribution of certain ancestral property in accordance with the Muhammadan law: the defence was that, by the customs existing among the Cutchee Maimons, females were excluded from inheritance. That and another case, which arose at the same time among the Khojás, were tried before Sir Erskine Perry, then

Chief Justice of Bombay, and he held that the Muhammadan law did not obtain with reference to either of these communities, and that they were to be governed by especial customs prevailing among them. Since then every question which has arisen among the Maimons has been decided in accordance with the precedent laid down by Sir Erskine Perry. In each particular case the customs have to be ascertained from oral testimony,—a process always attended with uncertainty and, in this country, with great risk of failure, and invariably entailing heavy costs on the litigant parties. One may say, without being charged with presumption, that Chief Justice Perry's decision was founded upon a misconception. It treated the subject from all points of view,—the Roman, the Frankish, the English,—all excepting the one from which it ought really to have been looked at, that of the Muhammadan law. There can be no doubt that it created considerable excitement at the time among the Cutchee Maimons, and though, as the learned Judge anticipated, no appeal was preferred to the Privy Council by the parties affected, owing probably to want of means, every other measure was adopted for the purpose of expressing the disapproval of the Maimon community. However, owing, it is said, to an unacquaintance on the part of the Maimons generally with the proper mode in which they should apply for redress, the matter remained in abeyance until a few years ago, when the strong movement, of which the present memorials are the outcome, set in among the community to invoke the assistance of the legislature. That a large body of Maimons—if not the bulk—are anxious for the interference of the legislature is evidenced by the fact that those resident in Calcutta have unanimously declared themselves in favour of the change. The meeting at Bombay in the Jakariah Mosque was attended by almost all the leaders, or Sethias, of the Cutchee Maimon community, and throughout the proceedings not a dissentient voice was raised against the demands of the memorialists. Still it is clear there are some Maimons who are unwilling to abandon their ancient customs. And it is with reference to the wishes of these men that the Bombay Government has recommended the introduction of a permissive enactment, and I have thought it right to put the measure in that form. That the appeal to the legislature by those Maimons who are anxious for emancipation is perfectly legitimate and reasonable will be apparent when it is remembered that with the Muhammadans their religion is their law, and their law is their religion. The Cutchee Maimons urge with reason that their brethren, the Halai Maimons, who have abandoned the Hindu customs as completely as their ancestors abandoned the Hindu faith, do not labour under any such disadvantages as they are subject to. Why then should they, as good Muhammadans as the Halais or any other Muhammadans, be tied for ever to pagan institutions? The Maimon memorialists have put their case very strongly in the following terms :—

'Your petitioners venture to characterise this state of things, which has been afflicting their community ever since Sir Erskine Perry's aforesaid judgment, as absolutely intolerable. They deem it a great hardship that they should be Musalmáns and yet be deprived of the benefit of the Muhammadan laws. They deem it a still greater hardship that the Hindu law, which is absolutely unsuitable to their circumstances, but which may at any moment be extended to them, should be applied to them even in matters of succession and inheritance, for which special provisions and laws have been laid down by the Muhammadan religion. They deem it an intolerable grievance that their rights in regard to all their worldly possessions, either in their own life or after their death, should be determined haphazard according to the credit any Judge may choose to attach to any witness in favour of, or against, a custom in a suit in which the community at large has no voice whatsoever.

* * * * * * * *

'The reasonableness of your petitioners' request will be apparent when it is borne in mind that even a Hindu can rid himself of his own laws and enjoy the benefit of the Muhammadan laws if he *bonâ fide* adopts the Muhammadan faith. What, however, a Hindu, Pársí, Christian or Jew may do without the least difficulty or objection, your petitioners are now absolutely debarred from doing according to the present decisions of the High Court. Is it not absurd, your petitioners venture to ask, that if they were pure Hindus they could, by the mere fact of becoming Musalmáns, at once, without interference of the legislature, have the full benefit of the Muhammadan law; but because they are already Musalmáns they cannot by any act of their own, either individually or collectively, without undergoing enormous trouble, delay and expense, divest themselves of the Hindu laws or have the benefit of the laws enjoyed by their other co-religionists.'

"The Hon'ble Budruddin Tyabjee, who is not given to the use of exaggerated language, in his speech at the Jakariah Mosque declared that nothing could be more scandalous than the present state of the law as applied to the Maimons, and stated that the relief prayed for by the memorialists was simply just and fair, and that they were as a matter of right entitled to enjoy full freedom like other Muhammadans, in the due observance of their religion, and the benefits of the Muhammadan law. My Lord, in India the legislature has preserved intact the laws of the Musalmáns in all matters relating to inheritance, disposition of property and status. The Muhammadan law is interwoven with the moral and social life of the Musalmáns. Why then, argue the memorialists, should a body of Musalmáns be subjected to customs in direct conflict with their religion? The Judicial Committee of the Privy Council, in the case of *Jowala Buksh* v. *Dhurum Singh*, made use of the following expressions :—

'The written law of India has prescribed broadly that in questions of succession and inheritance the Hindu law is to be applied to Hindus, and the Muhammadan law to Muhammadans; and in the judgment delivered by Lord Kingsdown in *Abraham* v. *Abraham*, it is said that "this rule must be understood to refer to Hindus and Muhammadans, not by birth merely but by religion also."'

"Though the Judicial Committee abstained from expressing a decided view in that case whether it was competent for a family converted from the Hindu to the Muhammadan faith to retain for several generations Hindu usages and customs, yet the tendency of their view is unmistakeable. In order to show that the Maimon memorialists are not wrong in the view they take of their present anomalous position, I will quote a passage from the judgment of Mr. Justice O'Kinealy in a recent case arising among Muhammadans in which also a custom *dehors* the Muhammadan law was put forward :—

'The Muhammadan law of inheritance is based on the Sura Nissa in the Koran, which was revealed in order to abrogate the customs of the Arabs, and on the Hadis or traditions of the Prophet. According to the principles of the Muhammadan law, any attempt to repudiate the law of the Koran would amount to a declaration of infidelity such as would render the individual concerned liable to civil punishment by the Kází in this world, and to eternal punishment in the next. No custom opposed to the ordinary law of inheritance, which was created to destroy custom, would be recognised by the doctors of the Muhammadan law, and in our opinion it follows as a natural consequence that no such custom should be recognised by our Courts, which are bound by express enactment to administer Muhammadan law in questions of inheritance among Muhammadans.'

"Besides these arguments, which may be urged on behalf of the Maimon memorialists in support of their present appeal, there is one consideration which brings this movement, *primâ facie* of sectional interest, to use the words of a writer in a Bombay journal, 'within the wider range of public sympathy.' The Hindu customs prevailing among the Cutchee Maimons have had the effect of excluding the widows and unmarried women of that community from succession to the estates of their parents and husbands, and from the advantages resulting from the beneficent policy of the Muhammadan law towards females. The Maimon widow, so long as she is under the Hindu customary law, receives a bare maintenance, which she forfeits on remarriage. The first result of a law such as the memorialists ask for would be to improve the status of women. One of the objections which I have to the Khojá Bill, now pending in your Excellency's Council, is that it will have the effect of stereotyping those customs which press so heavily upon women; but whatever may be the reason for introducing such provisions in the Khojá Bill, there is no reason why a large body of people who are urgently asking to be released from such customs should not have their prayer granted, the primary result of which concession would be a decided improvement in the social and legal position of their widows and unmarried women, and will be regarded by the whole of Musalmán India as a boon conferred on their co-religionists.

"The Bill which I ask leave to introduce is absolutely unobjectionable from every point of view. It only proposes to give facilities to those Maimons who wish henceforth to be governed by Muhammadan law to record a declaration to that effect. It imposes no restriction on the voluntary action of any individual; it interferes in no way with those members of the community who desire to continue subject to their ancient customs; it only provides an easy mode of escape for those who are legitimately anxious to free themselves from what they regard as the bondage of heathenism."

The Hon'ble MR. ILBERT said:—"I am very glad to hear from my hon'ble friend, Mr. Amír Alí, that the measure he is asking leave to introduce is likely to satisfy those members of the Maimon community who desire to be placed under the ordinary Muhammadan law. As I understand it, his Bill is of a purely permissive character, and, if so, it is in entire accordance with the principles which the Government of India desire to apply in similar cases. It has long been recognised that the time-honoured division of Natives of this country into Hindus or Gentus and Muhammadans is not an exhaustive division for legal purposes, and that there are numerous classes who, whilst professing the Muhammadan faith, have retained for certain purposes and to a certain extent Hindu or non-Muhammadan customs or usages with respect to succession and inheritance. If evidence on this point were required, it is to be found in abundance in the interesting compilations of Punjab customs prepared by my friend Mr. Tupper and others. Now, we do not desire to put the slightest pressure on any members of these communities to renounce or abandon their peculiar customs or usages, but we do wish to give them every reasonable facility for placing themselves under the ordinary Muhammadan law in all respects if they desire to do so; and that I understand to be the object of the present Bill with respect to the Maimon community."

The Motion was put and agreed to.

The Hon'ble MR. AMÍR ALÍ said that, with His Excellency's permission, he would ask leave to introduce the Bill, as it seemed doubtful whether there would be another meeting of the Council in Simla, and especially as he understood that his hon'ble friend Mr. Ilbert was about to visit Bombay, where he would have an opportunity of consulting with the members of the Maimon community on the spot.

Leave was granted.

The Hon'ble Mr. AMÍR ALÍ then introduced the Bill.

## BENGAL TENANCY ACT, 1885, POSTPONEMENT BILL.

The Hon'ble SIR STEUART BAYLEY moved for leave to introduce a Bill to postpone for a limited time the operation of certain provisions of the Bengal Tenancy Act, 1885. He said:—

"In making the Motion that stands in my name I have to explain to the Council how it is that I was able to give them only such very short notice of it, and also what is the urgency of the case.

"The urgency arises in this way. Several provisions of the Bengal Tenancy Act can only be brought into operation under rules to be framed by the Bengal Government or by the High Court. But section 190 of the Act prescribes that such rules shall be published in a draft form for at least a month, and only after that period shall they be taken into consideration, and be notified so as to have the force of law.

"Now, we are advised that the publication of draft rules, although it can be made by executive authority, will not have effect for the purposes of this section unless made after the law itself comes into force. The Government of Bengal have decided, with the consent of His Excellency the Governor General in Council, that the law shall come into force on the 1st November, so that the month during which the draft rules have to be published can only run from that date; and as a matter of fact, owing to the vacation of the High Court, the draft rules to be framed by that authority cannot well be published till late in November. It follows that, on whatever date the law comes into force, whether that date be the 1st November or any subsequent date, there must always be an interval, which in practice cannot be much less than six weeks, between the date on which the law comes into force and the date on which the rules can be legally notified as binding.

"This is an inconvenience which can be avoided in future legislation of the same kind by prescribing that the draft rules may be published before the Act comes into force, and I regret that a provision of this kind was not inserted in the Tenancy Act.

"In these circumstances we consulted the Bengal Government as to the best means of meeting the difficulty, and asked them, should they consider

legislation necessary, to consult the British Indian Association, as representing the landlords, on the subject.

"Unfortunately the Lieutenant-Governor was on tour in the flooded districts, and we therefore only received his final reply the day before yesterday. He explains that he was unable, owing to this cause and to the absence of many of the leading representatives of the British Indian Association during the Doorga Pooja, to consult them with any hope of getting an answer before the 1st of November, and he therefore decided to recommend that a short Act should be passed, which should continue in force the provisions of the existing law relating to distraint and deposit—the only two points on which the temporary absence of legal rules is likely to cause difficulty—till such time as the rules themselves are officially notified.

"There appears no serious objection to this course being followed, but in view of the fact that the Act comes into force on the 1st November, and that it is necessary for the parties interested to have as much notice as possible, with a view to making their own arrangements, it was clearly necessary to bring in the Bill on the earliest opportunity and pass it through without the delay attending the usual process of legislation.

"Coming now to the scope of the Bill, it will be observed that it merely keeps in force the provisions of the existing law on these two subjects pending the legal notification of the rules, which we may be sure will be effected by the 1st February, and that it involves nothing but a temporary suspension of the particular sections of the new law relating to distraint or deposit.

"Without this there would be no power for landlords to distrain for rent, and there might be a difficulty about their receiving such rents as their raiyats may wish to deposit in Court; and, in order to obviate any inconvenience which might arise from the temporary absence of such power, it devolves upon me to ask the Council to carry into effect the suggestions of the Lieutenant-Governor of Bengal."

The Motion was put and agreed to.

The Hon'ble SIR STEUART BAYLEY also introduced the Bill.

The Hon'ble SIR STEUART BAYLEY having applied to His Excellency the President to suspend the Rules for the conduct of Business,

THE PRESIDENT declared the Rules suspended.

The Hon'ble SIR STEUART BAYLEY moved that the Bill be taken into consideration.

The Motion was put and agreed to.

The Hon'ble SIR STEUART BAYLEY then moved that the Bill be passed.

The Motion was put and agreed to.

---

After some preliminary observations in regard to the next meeting of Council, His Excellency THE PRESIDENT spoke as follows:—

"As, however, in any case I shall be precluded from being present should such a Council be held, I desire to take this opportunity, on behalf of my colleagues and of myself, to express the very great regret which we all experience at the fact of this being the last occasion on which we shall have the co-operation and assistance of our hon'ble colleague Mr. Amír Alí.

"Every one of us has fully appreciated not only the great ability, conscientious industry, good sense and large and thorough knowledge of affairs which Mr. Amír Alí has brought to bear upon our deliberations, but we have also had occasion to admire the unfailing courtesy and good temper with which he has discharged his important duties. I may add for myself that he never speaks without exciting my personal envy at the eloquence and facility with which he uses the English language.

"In conclusion, I can assure him that he carries with him the personal respect and regard of us all, and that we are united in our deep regret at the loss of his valuable assistance."

The Council adjourned to Thursday, the 22nd October, 1885.

SIMLA;

# REVENUE AND AGRICULTURAL DEPARTMENT.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 21st OCTOBER 1885.

GENERAL REMARKS.—Rain has again fallen throughout the Madras Presidency, and prospects are improving in all districts. In Ganjam alone rain is still urgently wanted. In Bellary and Anantapur prospects are now favourable. From Mysore the report is also favourable; the standing crops are in good condition, and sowing of *ragi* and horse-gram is general. Except in parts of Kadur and Shimoga, where murrain prevails, the cattle are in good condition. In Coorg coffee-picking has commenced, and the prospects of the season are good.

In Bombay rain is reported from parts of eight districts, but more is still required in places in Guzerat and Khandesh. Reaping of *kharif* and sowing of *rabi* are in progress in several districts. In parts of Sind the crops are suffering from want of water and from damage by rats, insects, and storms. In the Berars and Hyderabad the *rabi* sowings have commenced; the crops promise well. Very little rain is reported from the Central India and Rajputana States. In the former prospects are good on the whole; but in Rajputana rain is needed for the *rabi* sowings in several places.

No rain has fallen in the Central Provinces during the week; but prospects are favourable everywhere, except in Raipur, where rain is wanted. *Rabi* sowings are in general progress. In the Punjab rain is much wanted in the Jullundur, Ferozepore, and Sialkot districts for the *kharif* crops. *Rabi* operations have commenced in some districts. From the North-Western Provinces and Oudh fair weather is reported, but more rain is wanted in most districts. The *kharif* harvest is approaching completion, and *rabi* sowings are in progress everywhere. General prospects continue good.

In the Lower Provinces slight rain has fallen in almost all districts of Bengal, but little or none in Behar and Orissa. In Bhagalpur, Durbhunga, Hazaribagh, and Gya more rain is wanted for the crops. Agricultural prospects are on the whole favourable, except in flooded tracts. In Assam the weather is seasonable and crop prospects good.

In British Burma the crops promise well.

Fever is more or less prevalent in all provinces; otherwise the public health is fair.

Prices are generally stationary, except in Mysore, where they are falling.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Oct. 21st)** | | |
| Bellary ... | Average last week, 3·69; this week, ·61. | Partially withered early dry crops reviving, later sowing thriving; wet crops moderately good; harvest *cholum* and *cumbu*, yield below average. One death from cholera. |
| Kurnool ... | Average last week, 3·33; this week, ·34. | Standing crops fair. Cattle-disease in one taluk; 1 death from cholera. |
| Ganjam ... | 1·0 (average) | More rain urgently wanted. Rain-fed paddy withering, except in Sompet. Cattle-disease slight in three taluks; 35 deaths from cholera. |
| Kistna ... | ·50 ( „ ) | Standing crops generally thriving, but want more rain; harvest *cumbu* and maize, yield below average. River 5·75 feet over anicut. Fever and small-pox slight; deaths from cholera unreported—last week 6, this week 2; cattle-disease in one taluk. |
| Chingleput (Madras) ... | ·65 ( „ ) | Standing crops generally good, but want water in parts of two taluks; harvest paddy and *ragi* in parts, yield below average. Small-pox and cattle-disease in parts. |
| Coimbatore ... | 2·45 ( „ ) | Standing crops generally good; harvest paddy and dry grains in parts yield average. Fever, small-pox, and cattle-disease slight. |
| Tanjore ... | 1·97 ( „ ) | Standing crops good, except in parts of one taluk, where rain is wanted; harvest paddy and dry grains, outturn below average. Fever in parts of Tiruteraipandi; 6 deaths from cholera. |
| Madura ... | Average last week, 1·42; this week, 1·30. | Fever prevalent; otherwise health good. |
| Malabar ... | 2·42 (average) | Cultivation second crop rice progressing; harvest first crop paddy, yield below average. Small-pox in five taluks; fever in two and cattle-disease in six. |
| Travancore ... | 1·81 ( „ ) | Fever in parts. *General Remarks.*—General prospects fair; continues favourable in Bellary and Anantapur. |
| **Bombay—(Oct. 21st)** | | |
| Karachi ... | *Nil* | Days warm. River at Kotri on 19th, 8 feet 4 inches against 9 feet 7 inches on same date last year. *Kharif* harvesting in progress in five more talukas, *viz.*, Sakro, Mirpur Botoro, Jati, Manjhand, and Kotri. Fever prevalent in ten and cattle-disease in five talukas. Prices—wheat, red rice, and *bajri* in Karachi 26, 34 and 34; in Tatta 26, 40 and 40; in Mirpur Botoro 24, 46 and 42; in Manjhand 32, 36 and 42 pounds per rupee, respectively. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Hyderabad ... | *Nil* | Crops have suffered from deficiency of water in Hyderabad, Badin, Shahdadpur, Hala, and Moro talukas. Rice crops injured by rats in Tando Bago taluka, and cotton and *til* crops by unfavourable winds in Mirpur khas taluka. *Bajri* crops suffering from unfavourable winds, and *til* crops by *moroho* insect in Tando Alahyar taluka. In Shahdadpur taluka cotton crops suffering by *moroho* insect and *til* by unfavourable winds. River at Kotri on 19th, 8 feet 4 inches against 9 feet 7 inches on same date last year. Small-pox in one, cattle-disease in one, and fever in nine talukas. Wheat 28, *juari* 42, *bajri* 37, white rice 20, and red rice 30 pounds per rupee. |
| Ahmedabad ... | *Nil* | Reaping of *kharif* crops commenced. Cholera in Parantij, 4 cases, 2 fatal; fever in Sanand, Viramgaum, Gogo, and Dholka. Wheat 36 and *bajri* 32 pounds per rupee. |
| Baroda ... | *Nil* | Crops generally in fair condition, except in Kadi division, where rain was insufficient. Prices—*bajri* 30, rice 24, and wheat 21 pounds per rupee. |
| Surat ... | Bulsar, ·05; Pardi, ·13; Mandvi, ·16. | All standing crops healthy, but in the Bardoli taluka a little more rain is wanted. Rice crops are middling in Bulsar for want of timely rainfall. Cattle healthy; cholera in Bardoli, 9 cases, 4 deaths; fever in Bardoli, Olphad, Jalalpur, and Pardi talukas. *Juari* 38 and *nagli* 42 pounds per rupee. |
| Nasik ... | Nandgaon, ·01; Kalwan, ·10; Peint, 3·15; none elsewhere. | Standing crops in good condition; sowing of wheat, gram, *juari*, and *shalloo* in progress; reaping of rice and *nagli* in Kalwan and Peint and of *bajri* in Baglan in progress. Condition of cattle good; cholera in Chandor, Yeola, Nandgaon, and Kalwan, attacks 89, deaths 33. Wheat 34½, *bajri* 33¾, and rice 20¾ pounds per rupee. |
| Colaba (Bombay) ... | *Nil* | Abnormal temperature 3° warm from 14th to 16th and 2° warm from 17th to 20th; vapour in air excessive from 14th to 16th, and normal from 17th to 20th; wind normal. |
| Poona ... | Khadkala, 1·20 | *Kharif* crops in good condition; sowing of *rabi* in progress. 206 cholera cases in five talukas, 131 deaths. Prices of *bajri* 30 and *juari* 34; in Poona *bajri* 28 and *juari* 35 pounds per rupee. |
| Ahmednagar ... | *Nil* | *Kharif* crops good; *rabi* sowings in progress. Slight cholera in Jamkhed only; ague in Akola; cattle improving in condition. *Bajri*—maximum 48 and minimum 36; *juari*—maximum 66 and minimum 42 pounds per rupee. |
| Sholapur ... | Sholapur, ·25; Barsi, ·57; Karmala, ·01; Sangola, ·15; Akalkot, ·82. | *Kharif* crops good; *rabi* sowings rapidly progressing. *Juari* 48 pounds 31 tolas and *bajri* 33 pounds 1 tola per rupee. Cholera 112 cases, 55 deaths. |
| Dharwar ... | Maximum at Kod, 3·60; maximum at Mugud and Karajgi, 2·65; maximum at Hangal, 2·10; Kalghatgi, 1·95; Nargund, 1·60; Ranibennur and Ron, 1·25; Gadag, ·40; Mandargi, ·59; Bankapur, ·83; Dharwar, *nil*; Hubli and Navalgund, not received. | Rice and *juari* crops good; cotton sowing in progress in Gadag and Ranibennur, and almost completed elsewhere. Public health good; slight cattle-disease in Hangal and Mugud Petha. Average prices—*juari* 47 and rice 24 pounds per rupee. |
| Kanara ... | Karwar, ·28; Sirsi, ·71; Haliyal, 1·20. | Weather hot. Rice harvest continues in coast talukas. Cattle-disease in three talukas; fever and small-pox in two talukas. Common rice at Karwar 12; district average 13 seers per rupee. |
| Rajkot ... | *Nil* | Weather hot. Prevailing diseases—fever and bowel-complaints. *Bajri* 34, *juari* 34, and wheat 36 pounds per rupee. *General Remarks.*—Rain in parts of eight districts; more still required in parts of Guzerat and Khandesh. Reaping of *kharif* and sowing of *rabi* crops in progress in several districts. River still falling in Sind. Standing crops suffering from deficiency of water, and damaged by rats, insects, and storms in parts of Hyderabad. Cholera in parts of thirteen, fever in parts of sixteen, cattle-disease in parts of eight, and small-pox in parts of three districts. |
| **Bengal—(Oct. 21st)** | | |
| Chittagong ... | 1·58 | Weather somewhat hot. Prospects generally fair. Standing crops damaged in some places by grub. Prices steady. Public health good. |
| Dacca ... | *Nil* | Harvesting of early rice and jute nearly completed. Lands being prepared for winter crops. Public health good. |
| 24-Pergunnahs (Calcutta) | 1·17 | Prospects of *amun* rice fair, except in low and inundated tracts; harvesting of early rice over; lands being prepared for cold weather crops. Public health fair. |
| Moorshedabad ... | ·19 | Weather hot, with occasional showers. Prospects of *amun* excellent; *kalai* extensively sown and doing well; ground being prepared for *rabi* crops. Public health fair. |
| Burdwan ... | ·3 | Prospects of *amun* good. Rain wanted. Health generally good. |
| Rungpore ... | ·28 | Prospects of *amun* good; lands being ploughed for *rabi* crops. Price of rice still stationary. Fever and bowel-complaints still prevalent. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal—*contd.*** | | |
| Bhagalpur ... | *Nil* | Crops doing well, but rain wanted for highland paddy. Much cholera still about. |
| Purneah ... | *Nil* | Prospects of crops good. Sowing of cold weather crops nearly finished. Some fever and a little sporadic cholera. |
| Patna ... | *Nil* | Prospects of paddy crops good; fields being prepared for sowing *rabi* crops. Fever prevalent in many places. |
| Durbhunga ... | *Nil* | Prospects of paddy on the whole favourable, but on highlands more rain wanted. Irrigation resorted to where water is available. *Rabi* and tobacco sowings in progress. Prices stationary. Cholera continues in the Madhubani subdivision. |
| Hazaribagh ... | *Nil* | Weather bright and clear; rain much wanted for the paddy; some injury to the crops reported from parts of the district for want of rain. General health good. |
| Cuttack ... | ·03 | Weather hot, sometimes cloudy. Early *sarad* rice in ear; late *sarad* doing well, but requires rain. Public health generally good. |
| Khoolna ... | ·45 | Weather hot. Highland *amun* paddy in flower; prospects very good, except in flooded parts of Satkhira. Public health good. |
| Dinagepur ... | Some slight showers | Crops progressing. Sporadic cholera reported. |
| Pubna (Serajganj) ... | ·15 | Crops look well. River become low. Rice market falling. Health tolerable. |
| Gya .. | *Nil* | Rain much wanted for rice crop. Prices nearly stationary. Health good. |
| Chumparun .. | *Nil* | *Bhadoi* crops nearly harvested; *aghani* crops promise well. Prices fallen slightly. Public health generally good. |
| | | *General Remarks.*—Slight rain has fallen in almost all districts of Bengal proper, but none in other parts of the province. Prospects of *amun* rice, except in places visited by inundation, are generally favourable, but some more rain is now much required in many places. *Aus* rice and other *bhadoi* crops, where not injured by floods, have yielded a fair outturn. Price of rice continues high, though in several districts it has fallen slightly. Fever is prevalent in some districts; otherwise the general health is fair. |
| **N. W. Provinces and Oudh—(Oct. 22nd)** | | |
| Benares (Oct. 20th) | *Nil* | A little more rain would greatly benefit late rice; *kharif* crops continue good; peas, barley, and wheat are being sown. Markets well stocked, but prices of all food-grains, except *bajra*, slightly risen. Fever still reported from city and some villages in the district, but health of the district may be considered generally good. No cattle-disease nor perceptible change in weather since last report. |
| Gorakhpur ( „ 19th) | *Nil* | Fine weather. Harvest well advanced; outturn rather above average. Prices rising slightly. Cholera abating. |
| Fyzabad ( „ 20th) | *Nil* | Weather fine. *Kharif* harvesting nearly done; *rabi* crops are being sown. Cholera is gradually decreasing. Condition of cattle good. |
| Lucknow ( „ 19th) | *Nil* | Sowing of peas and gram continues; *hewat* crops appear healthy. Supplies sufficient. Prices stationary. Slight fever still reported in the district. Condition of cattle good. |
| Rae Bareli ( „ „ ) | ..... | Weather bright and clear; wind westerly. *Rabi* sowings in progress. Markets full. Prices almost steady. Cholera and cattle-disease continue. |
| Partabgarh ( „ 20th) | ..... | Gram, peas, and linseed sowings progressing. Cholera shows no signs of decrease. Foot-and-mouth disease in cattle. |
| Allahabad ( „ „ ) | ..... | Weather getting cooler. *Rabi* sowings progressing. Prices and markets steady. Cholera decreasing. |
| Cawnpore ( „ „ ) | ..... | *Kharif* crops being irrigated where practicable, and, notwithstanding early close of the monsoons, the outturn will probably be average; *rabi* sowings continue. Prices steady. Fever general; cholera reported from four parganas, but decreasing in severity. Cattle-disease in seven parganas, severe in two. |
| Banda ( „ „ ) | *Nil* | *Juari* and *bajri* in ear; wheat and gram being sown. Prices stationary. Cholera in one village of Mau; fever continues. Cattle-disease in two villages. |
| Ballia ( „ 19th) | *Nil* | *Rabi* sowings in progress; sugarcane promising. Market well stocked. Health good; cholera abated, 47 deaths, slight fever in the district. |
| Farakhabad ( „ 20th) | *Nil* | Weather clear; rain wanted. *Rabi* sowings begun. Cholera still lingers in district. |
| Sitapur ( „ „ ) | *Nil* | Prospects reported as favourable, except in tahsil Misrikh, where there has been a scarcity of rain. Fever and cholera decreasing. |
| Bareilly ( „ „ ) | ..... | Rain entirely ceased; east wind. *Rabi* sowings going on. Prices fairly stationary. Fever among the people increasing; cholera slight and not increasing. Cattle-disease continues. |
| Kumaon ( „ „ ) | *Nil* | Weather fine. Rice and early millets almost reaped, yields fair; ploughing for *rabi* commenced. Prices stationary. General health good. Cattle-disease continues. |
| Agra ( „ 19th) | *Nil* | *Rabi* lands being ploughed and gram sown with help of well irrigation. Prices steady. Fever prevalent. |
| Jhansi ( „ „ ) | *Nil* | Crops doing well. Prices steady. Public health good. Cattle-disease lingering. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **N. W. Provinces and Oudh—*contd.*** | | |
| Meerut ... | 2·0 | Wind changed to east to-day; rain would be most beneficial. *Kharif* harvest in progress. Supplies ample. Prices stationary. Fever rather prevalent. |
| | | *General Remarks.*—Fair weather is reported from all districts, but rain would be beneficial in most. *Kharif* nearly harvested, and *rabi* sowings in progress everywhere. General prospects good, markets well supplied, and prices steady. Cholera and fever continue to be reported from some districts; otherwise public health is good. |
| **Punjab—(Oct. 21st)** | | |
| Delhi (Oct. 20th) | *Nil* | Fever prevalent. *Kharif* reaping and *rabi* ploughings commenced. Prices almost stationary. |
| Hissar ( „ „ ) | *Nil* | Fever still prevalent. *Kharif* being gathered. *Rabi* operations progressing. Prices stationary. |
| Umballa ( „ „ ) | *Nil* | Health fair. *Makhi* and rice harvested; gram sowing completed. Prices stationary. |
| Jullundur ( „ „ ) | *Nil* | Health good. Rain wanted. *Rabi* ploughings progressing. Prices stationary. |
| Amritsar ( „ „ ) | *Nil* | Health and crops good. Prices stationary. |
| Sialkote ( „ „ ) | *Nil* | Health good. Rain much wanted for autumnal sowings. Prices stationary. |
| Ferozepore ( „ „ ) | *Nil* | Health good. *Kharif* crops withering for want of rain. Prices stationary. |
| Lahore ( „ „ ) | *Nil* | Health and crops good. Prices almost stationary. |
| Rawalpindi ( „ „ ) | *Nil* | Health and *kharif* prospects good. Prices stationary. |
| Shahpur ( „ „ ) | *Nil* | Health good. Prices almost stationary. |
| Mooltan ( „ „ ) | *Nil* | Health and *kharif* crops good. Prices falling. |
| Dera Ismail Khan ( „ „ ) | *Nil* | Health good. Prices stationary. |
| Peshawar ( „ „ ) | ..... | Fever prevalent. *Kharif* prospects good. Prices almost stationary. |
| | | *General Remarks.*—No rain. Fever prevalent in the Hissar, Delhi, and Peshawar districts; otherwise the health of the province is good. Rain much wanted in the Jullundur, Ferozepore, and Sialkote districts. *Rabi* operations in progress. Prices falling in the Mooltan district; stationary elsewhere. |
| **Central Provinces—(Oct. 21st)** | | |
| Nagpur ... | *Nil* | Weather clear. Prospects good; *rabi* sowings continue. Fever prevalent. Prices stationary. |
| Jubbulpore ... | ..... | Weather cloudy. Prospects improved; *rabi* sowings in hand. Fever prevalent. Prices steady. |
| Saugor (Oct. 20th) | ..... | Weather clear. *Kharif* crops good; *rabi* sowings commenced. Health good. Prices stationary. Prospects fair. |
| Seoni ... | ..... | Weather clear. *Rabi* sowings progressing. Cattle-disease and fever diminishing; slight cholera. Prices unchanged. |
| Hoshangabad ... | ..... | Weather clear. *Rabi* sowings continue. Slight cholera and cattle-disease. Prices steady. |
| Khandwa ... | ..... | Weather clear. *Kharif* prospects fair; *rabi* sowings in progress. Health good. Wheat 18, rice 12, and *juari* 25 seers per rupee. |
| Raipur ... | ..... | Days hot and nights cool. Prospects unchanged. Cholera disappearing. Prices slightly risen. |
| Sambalpur (Oct. 17th) | ..... | Weather clear, but occasionally cloudy. Rain wanted. Rice on low lands fair; other crops good. Health good. Prices stationary. |
| | | *General Remarks.*—Prospects everywhere favourable, except in Raipur, where rain is wanted. *Rabi* sowings progressing. Health good. Prices steady. |
| **British Burma—(Oct. 21st)** | | |
| Akyab (Oct. 17th) | 3·44 | Total rainfall 176·57. Two cases of cholera in town, and slight in five circles; cattle-disease slight in one circle. Crop prospects good. |
| Bassein ( „ „ ) | 2·21 | Total rainfall 112·47. Public health good; cattle-disease slight in four townships. |
| Rangoon ( „ „ ) | 1·19 | Total rainfall 102·74. Public health good; cattle healthy. |
| Amherst (Moulmein) ( „ „ ) | 1·67 | Total rainfall 187·64. Public health good; cattle healthy. Crop prospects good. |
| Tavoy ( „ „ ) | 0·91 | Total rainfall 188·45. Public health good; cattle healthy. Crop prospects good. |
| Pegu ( „ „ ) | 0·87 | Total rainfall 114·86. Public health good; cattle healthy. Crop prospects good. |
| Henzada ( „ „ ) | 0·28 | Total rainfall 85·00. Cholera slight in one township; cattle healthy. Crop prospects good. |
| Prome ( „ „ ) | 0·12 | Total rainfall 20·95. Cholera slight in two townships; cattle-disease slight in one township. Transplanting and ploughing nearly completed. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **British Burma**—*contd.* | | |
| Toungoo (Oct. 17th) | 5·48 | Total rainfall 90·13. Cholera severe in town; cattle healthy. Crop prospects good. |
| Thayetmayo ( „ „ ) | 0·50 | Total rainfall 29·35. Public health good; cattle healthy. Crops failing in western portion of district. More rain wanted. |
| | | *General Remarks.*—Cholera severe in two districts, slight in four districts; elsewhere public health good; cattle-disease slight in eight districts; elsewhere health of cattle good. Crop prospects good in all districts, except Thayetmayo, where more rain is wanted, and in Mergui, where the crops have been partially flooded. |
| **Assam**—(Oct. 21st) | | |
| Gauhati ... | ·03 rain during the week ending 20th instant. | Weather seasonable. Public health improving; cattle-disease still in some mauzahs. Portion of *sali* crops reported to have been destroyed by insects in some villages. |
| Sylhet ... | 0·77 | State and prospects of crops good. Public health fair. |
| Cachar ... | 1·44 | Weather warm. Prospects of crops fair. Health good. Tea doing well. Common rice 14 seers per rupee. |
| Dibrugarh ... | ·46 | Weather seasonable. Prospects good. |
| **Mysore and Coorg**—(Oct. 21st) | | |
| Bangalore ... | Bangalore, 1·46; Mysore, 1·66; Kolar, ·61; Tumkur, ·40. | Tanks in the Bangalore and Tumkur districts are reported to have received good supply of water. Standing crops in good condition; sowing of *ragi* and horse-gram continues throughout the State. Season prospects and public health good. Six deaths from cholera reported in the Sorab taluk of the Shimoga district; cattle in good condition, excepting in parts of the Kadur and Shimoga districts, where murrain still prevails. Prices slightly falling. |
| Mysore ... | | |
| Mercara ... | ·49 | Picking of coffee crop commenced in South Coorg. Prices of food-grains slightly risen. Prospects of season and public health good. |
| **Berar and Hyderabad**—(Oct. 21st) | | |
| Amraoti ... | ..... | Weather cloudy. Cotton-picking commenced; *rabi* sowings progressing. Wheat 22 and *juari* 26 seers per rupee. |
| Akola ... | ..... | Crops progressing favourably; *rabi* sowings in hand. |
| Hyderabad ... | Average rainfall during the week, 52. | Standing crops good; *abi* weedings continue; *rabi* sowings commenced. General health fair, except in some places, where fever prevails. Prices—wheat 18, coarse rice 12½, white *juari* 19¼, yellow *juari* 24½, and *tur* 15½ seers per current sicca rupee. |
| **Central India States**—(Oct. 21st) | | |
| Indore ... | *Nil* | Prices stationary. Health good. Little water in wells and tanks. |
| Morar (Gwalior) ... | *Nil* | Weather seasonable. Health good. |
| Sutna ... | *Nil* | Weather hot. 29 cases of cholera in Rewah, 14 deaths; cholera generally prevalent throughout the agency. |
| Rutlam ... | ..... | No report received. |
| Neemuch ... | *Nil* | Weather warm. Health good. |
| Goona ... | ..... | Health and prospects good. |
| Agar ... | *Nil* | Health and prospects fair. |
| Sehore ... | *Nil* | Weather clear and fairly cool. Prospects improving. |
| Nowgong ... | *Nil* | Weather clear. Prices falling. Health good. |
| Maspur ... | 1·40 | Total rainfall 33·20. Prospects improving. Water supply still scanty. Prices falling. Health good. |
| **Rajputana**—(Oct. 21st) | | |
| Abu (Oct. 21st) | *Nil* | Bright warm days with passing clouds. A little fever. |
| Sirohi ( „ 18th) | ..... | Tanks, wells, and health good. *Bajri* and *moong* cut. Weather fine and warm,—exceptionally warm for time of year. |
| Marwar ( „ 16th) | ..... | Tanks all full. Health much improved, but cholera still hangs about. Crops suffered much from want of rain. Weather warm and almost clear; nights close. Prices rising. |
| Kherwara ( „ 19th) | ..... | Tanks and wells fair. *Kharif* very poor; prospects for *rabi* not overpromising. Health good. Weather fine and cloudless. |
| Pertabgurh ( „ 17th) | ..... | Wells full. Crops good. Health good. Wheat dearer; *mukka* and gram cheaper. Weather dry. |
| Meywar ( „ „ ) | ..... | Tanks and wells unchanged. Crops withering through want of rain. Fever prevalent. Prices rising. Weather fine. |
| Harowti ( „ „ ) | Shahpura previous week, ·07. | Weather clear. Rain urgently wanted. Fever prevalent. Prices risen. |
| Jhallawar ( „ 16th) | ..... | Rain needed for *rabi* sowings. Cholera in Pachpahar district. |
| Kotah ( „ 19th) | Slight rainfall in two districts. | More rain needed for *rabi* sowings. Health good. Prices rising. Weather clear and warm. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Rajputana**—*contd.* | | |
| Ajmere (Oct. 20th) | ..... | Weather warm. *Rabi* sowings commenced. Slight fever. Prices stationary. |
| Jeypore ( „ „ ) | ..... | Crop prospects and health fair. Prices stationary. |
| Bhurtpore ( „ 17th) | ..... | Tanks and wells full. Crops in places suffering for want of rain. Fever prevalent. Prices steady. Weather cool. |
| Dholepore ( „ „ ) | ..... | Tanks drying; wells decreasing. Fever continues. Prices steady. Days hot, nights cool. |
| Kerowlie ( „ „ ) | ..... | Tanks and wells drying. Crops suffering. Prices rising. |
| Ulwar ( „ 20th) | ..... | *Rabi* cultivation in progress. Weather cloudy. Fever continues. Tanks drying. |
| Bickaneer ( „ 17th) | ..... | Crop prospects fair. Health good. Prices stationary. Weather hot. |
| **Nepal**—(Oct. 15th) | | |
| Khatmandu ... | 0·5 | Prospects good. |

*Remarks by Executive Engineers.*

Northern Division, Ganges Canal—Heavy rain in upper part of division during month. Light rain below Roorkee. Rice crops taking water. There has been a good break since the 20th.

Anúpshahr Division, Ganges Canal—No demand during the month. Crops in low lands damaged by persistent rain.

Meerut Division, Ganges Canal—No irrigation in consequence of closure of Canal.

Bulandshahr Division, Ganges Canal— Ditto ditto.

Aligarh Division, Ganges Canal— Ditto ditto.

Narora Division, Lower Ganges Canal— Ditto ditto.

Mainpuri Division, Lower Ganges Canal—Very heavy rain throughout the month. All distributaries closed. The decrease, as compared with last year, is entirely under indigo, and is due to the low prices realised last year.

Cawnpore Division, Lower Ganges Canal—No irrigation in consequence of closure of canal.

Etáwah Division, Lower Ganges Canal—The decrease is chiefly in the area under indigo.

Bhognipur Division, Lower Ganges Canal—Almost continuous rain throughout the month. All distributaries closed.

Eastern Jumna Canal—Decrease on every item excepting sugarcane in which there is a rise of nearly 5,000 acres. Sky clouded over during the whole month and rain frequent. Extraordinarily heavy rain on 8th and 9th and very high floods in the Jumna river and all torrents. Canal was closed during 15 days.

Agra Canal—The canal was closed for repairs on the 6th of August.

Rohilkhand Canals—A very wet month. Rainfall ranged from 20 to 30 inches. Heaviest flood of the season on 6th and 7th. Low-lying sugar and rice has suffered, and much damage to kharif rain crops. Very little demand for canal water, mostly on Paha and Dhora. Rains now appear to be over, and brisk demand for rice is beginning.

H. W. CONDUITT,

*Offg. Asst. Secy. to Govt., N.-W. P. and Oudh, P. W. D., Irrigation Branch.*

## STATEMENT OF TRAFFIC ON THE AGRA CANAL FOR THE MONTH OF AUGUST 1885.

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 28th OCTOBER 1885.

GENERAL REMARKS.—In Madras the weather continues favourable; rain is again reported from all districts, and the standing crops are generally good. The harvest outturn will, however, be below the average in some districts. More or less rain has fallen throughout the Mysore State, where the prospects of the season are now good. Ploughing for *ryakh* paddy cultivation has commenced. The cattle are in good condition, except in the Malnad district. In Coorg prospects continue favourable.

In Bombay there has been slight rain in the Deccan and Southern Mahratta Country, and more is required for the *rabi* crops in parts of Nasik, Khandesh, and the Panch Mahals. The *kharif* harvest and *rabi* sowings are in progress in most districts. In the Central India and Rajputana States no rain fell in the week under report. In the former agricultural prospects are generally fair, but in Rajputana the want of rain has seriously injured the standing crops in many places. *Rabi* sowings are in general progress. In the Berars *rabi* sowings continue, but in the Nizam's Territories they have been postponed on account of the rainfall, and fears are entertained of damage to standing crops.

In the Central Provinces prospects are now favourable everywhere, and *rabi* sowings are in general progress.

Except in the Dehra Ismail Khan District, no rain is reported from the Punjab. The *kharif* crop is being harvested and *rabi* operations are in hand throughout the Province. In the North-Western Provinces and Oudh the weather is seasonable, but some rain is still needed in a few places for crops on highlands. The *kharif* outturn is fairly good, and *rabi* sowings are in active progress.

Rain has been general in Bengal, Orissa, and Chutia Nagpur; but in Behar slight rain has fallen in a few places only. Outside the flooded districts, prospects of *aman* and other standing crops are generally favourable; sowing of *rabi* is in full progress, and the crops already sown are doing well. In Assam the weather is seasonable, and prospects are good.

In British Burma crop-prospects are good, except in Prome and Thayetmyo, where more rain is required.

The general health is fair in all Provinces.

Prices are generally steady, except in Mysore and Bengal, where they are falling.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Madras—(Oct. 28th)** | | |
| Bellary ... | ·55 (average) | Partially withered early dry crops rapidly reviving; later sowings thriving; wet crops good; harvest *cholum* and *cumbu*, yield below average. |
| Kurnool ... | Average last week, ·39; this week, ·75. | Standing crops fair; harvest early cereals, outturn below average. Small-pox and cattle-disease in one taluk; 2 deaths from cholera. |
| Ganjam ... | 2·65 (average) | Rainfall most opportune. Prospects better than previous week. Cattle-disease in two taluks; 48 deaths from cholera. |
| Kistna ... | 1·27 ( „ ) | Standing crops generally good; harvest *cumbu*, outturn below average. River 3·2 feet over anicut. Fever and small-pox slight; deaths from cholera unreported last week 4; cattle-disease in one taluk. |
| Chingleput (Madras) ... | ·70 ( „ ) | Standing crops generally good, but want water in parts of two taluks; harvest paddy and *ragi* in parts yield below average. Small-pox in two taluks and cattle-disease in four. |
| Coimbatore ... | 3·28 ( „ ) | Standing crops generally good; harvest paddy and dry grains in parts, outturn average. Fever and small-pox slight. |
| Tanjore ... | 2·67 ( „ ) | Standing crops generally good; harvest paddy and dry grains, outturn below average. 8 deaths from cholera. |
| Madura ... | 2·72 ( „ ) | Fever prevalent, otherwise health good. |
| Malabar ... | 2·88 ( „ ) | Cultivation second crop rice progressing; harvest first crop paddy, yield below average. Small-pox in six taluks; fever in two and cattle-disease in five; 1 death from cholera. |
| Travancore ... | 3·45 ( „ ) | Fever in parts. *General Remarks.*—General prospects fair; continue favourable in Bellary and Anantapur. |
| **Bombay—(Oct. 28th)** | | |
| Karachi ... | *Nil* | River at Kotri on 26th, 7 feet 10 inches against 8 feet 8 inches on same date last year. Harvesting commenced in Sehwan and Dadu talukas, also in addition to nine talukas already reported. Fever prevalent throughout the district; cattle-disease in three talukas. Prices—wheat, red rice, and *bajri* in Karachi 26, 34 and 34; Ghorabari 22, 38 and 36, in Sujawal 26, 48 and 48; and Kotri 30, 40 and 40 pounds per rupee, respectively. |
| Hyderabad ... | *Nil* | Ravages by rats in Guni decreasing. Preparation for *rabi* cultivation in Hala, Sakrand, Moro, and Naushahro commenced; *kharif* reaping continues throughout the district. River at Kotri on 26th, 7 feet 10 inches against 8 feet 8 inches on same date last year. Fever general; small-pox and cattle-disease in Naushahro. Wheat 28, *juari* 40, *bajri* 38, white rice 28, and red rice 30 pounds per rupee. Northern winds have set in. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bombay—*contd.*** | | |
| Ahmedabad .. | *Nil* | Reaping of *kharif* crops continues. Cholera in Porantij, 5 cases, 3 fatal, and in village Sayera of Mo'asa Petha, 13 cases, 4 fatal; fever in Sanand, Viramgaum, Gogo, and Dholka. Wheat 37 and *bajri* 32 pounds per rupee. |
| Baroda .. | *Nil* | Public health fair; cattle-disease in part of Naosari and Kadi divisions. Crops ready for harvest; sugarcane and cotton in good condition. Prices—*bajri* 26, wheat 23, and rice 18 pounds per rupee. |
| Surat ... | *Nil* | Standing crops healthy; *kharif* harvest, and preparations for sowing of *rabi* crops commenced. Cattle healthy. Cholera in Bardoli, 16 cases, 4 deaths; fever in Olpad, Bardoli, Jalalpore, and Pardi talukas. *Juari* 38 and *nagli* 43 pounds per rupee. |
| Nasik ... | *Nil* | Standing *kharif* crops in good condition; reaping of *kharif* crops commenced in some parts of the talukas of Niphad, Chandor, Malegaon, Baglan, and Kalwan; sowing of *rabi* in progress. Rain for *rabi* crops will be required in Malegaon, Nandgaon, and Baglan. Cattle-disease prevails in Igatpuri and cholera in parts of Chandor, Yeola, Malegaon, Nandgaon, Baglan, and Kalwan, attacks 61, deaths 27. Wheat 34½, *bajri* 33¾, and rice 20¾ pounds per rupee. |
| Colaba (Bombay) ... | *Nil* | Abnormal temperature 2° warm, afterwards 3° warm; vapour in air normal on 21st and 22nd, afterwards excessive; abnormal wind southerly on 23rd and 24th; wind normal on all other days; lightning on 22nd, 24th, and 25th. |
| Poona ... | Light showers of rain in four talukas. | *Kharif* crops doing well; sowing of *rabi* continues. 260 cholera cases in five talukas, 93 deaths; cattle free from disease. Prices, *bajri* 30 and *juari* 38; in Poona *bajri* 28 and *juari* 33 pounds per rupee. |
| Ahmednagar .. | Nagar, ·02; none elsewhere. | *Kharif* crops good, and being harvested in six talukas. *Rabi* sowing in progress. Cholera 26 attacks, 12 deaths. Slight cattle-disease in Sangamner; ague in Akola. *Bajri*—maximum 48, minimum 36; *jauri*—maximum 66 and minimum 39 pounds per rupee. |
| Sholapur .. | Barsi, ·01; Madha, ·21; Karmala, ·10; Pandharpur, 1·09; Sangola, ·36; Malsiras, ·48. | *Kharif* crops doing well; *rabi* sowing in progress. *Juari* 47 pounds 1 tola and *bajri* 34 pounds 14 tolas. Cholera 127 cases, 59 deaths. |
| Dharwar .. | Rain at all stations, except Kalghatgi and Kod, varying from 4·40; in Nargund, ·10 in Haliyal. | Cotton sowing completed; sowing of late crops has commenced in Navalgund and Ron; all standing crops are good. Public health good. Average prices—rice 24 and *juari* 40 pounds per rupee. |
| Kanara .. | Slight rain fell during the week; total fall at Karwar station up to date, 184·62. | Rice harvest continues on coast talukas. Cattle-disease subsiding; fever and small-pox in three talukas. Common rice at Karwar 12; district average 13 seers per rupee. 22 heads of cattle killed by lightning in Bhatkal Petha. |
| Rajkot .. | *Nil* | Weather hot during the day. Prevalent diseases: fever and bowel complaints. Wheat 35, *bajri* 33, and *juari* 44 pounds per rupee. |
| | | *General Remarks.*—River still falling in Sind. Rain but generally light in parts of the Deccan and Southern Mahratta Country; more required for *rabi* crops in parts of Nasik, Khandesh, and Panch Mahals. *Kharif* harvest and sowing of *rabi* crops in progress in most districts; standing crops damaged by blight in parts of Ratnagiri. Cholera and fever in parts of thirteen; cattle-disease in parts of ten; and small-pox in parts of four districts. |
| **Bengal—(Oct. 28th)** | | |
| Chittagong ... | ·88 | Weather seasonable. Prospects of crops fair; standing crops still damaged by grubs. Prices stationary. Public health good. |
| Dacca ... | 2·28 | Prospects of crops good; winter crops being sown. Public health good. |
| 24-Pergunnahs (Calcutta) | 2·21 | Prospects of *amun* good, except in low and inundated parts of district; outturn of *aus* estimated at 10 to 12 annas; lands being prepared for winter crops. Public health good, though fever prevails in places. |
| Moorshedabad ... | ·2 | Weather hot. *Amun* crop on *barh* lands promises well; *rabi* crops being rapidly grown; *kalai* doing well. Public health fairly good. |
| Burdwan ... | 1·91 | Prospects of *amun* good. Public health good. |
| Rungpore ... | 1·90 | Prospects of rice and other standing crops good. Price of rice fallen. Cholera reported from Nilphamari. |
| Bhagalpur ... | *Nil* | High land rice suffering from want of rain. Prospects not very good. Cholera still bad in north. |
| Purneah ... | ·07 | Rice prospects fair; *rabi* sowings in full progress. Cholera has appeared in Arrareah; fever less than usual; public health good. |
| Patna ... | ·44 | Some more rain needed for paddy; *rabi* sowings progressing well. Fever less prevalent. |
| Darbhanga ... | *Nil* | Prospects of paddy continue favourable, but a little more rain is wanted to secure a good outturn. Prices stationary. Cholera abating. |
| Hazaribagh ... | 1·04 | Weather settled, fine, and much cooler. Rain has much improved prospects of all crops. Cases of cholera continue to be reported; general health otherwise good. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Bengal—*contd.*** | | |
| Cuttack ... | 1·71 | Weather clear. *Sarad* rice in ear; early *sarad* flowering. Common rice 12 seers per rupee in town. Public health generally good. |
| Khoolna ... | 1·82 | Weather hot. Rain useful to flowered *amun* paddy and for ploughing lands for winter crops; prospects very good, except in flooded parts of Satkhira. Price of rice stationary. Some fever, otherwise public health fair. |
| Dinagepur ... | ·10 | Weather showery early in the week, settling down into clear weather. Prospects of crops good. Rice cheaper. Cholera reported from several thanas. |
| Pubna (Serajganj) ... | 1·12 | Crops doing well. River fallen. Rice market falling. Fever prevails. |
| Gya .. | *Nil* | Rice crops have already suffered in some parts for want of rain. Public health good. |
| Chumparun ... | *Nil* | Prospects of rice crop good. Prices fallen slightly. Cholera and fever still reported from interior. |
| | | *General Remarks.*—Rain has been general in Bengal Proper, Orissa, and Chota Nagpur, but in Behar slight rain has fallen in a few places only. Prospects of *amun* and other standing crops are generally favourable, except in the inundated tracts previously reported and in places in Behar, where want of rain is much felt. Sowing of *rabi* crops is in full progress, and the crops already sown are doing well. Price of rice has generally fallen a little. Fever is prevalent in many places, but the general health on the whole is fair. |
| **N. W. Provinces and Oudh—(Oct. 29th)** | | |
| Benares (Oct. 27th) | *Nil* | Weather getting cooler. *Kharif* crops continue good, with the exception of late rice, for which more rain is still needed; rice fields are being irrigated where practicable; *rabi* sowings progressing. Supplies are ample and prices almost stationary. Slight fever and ague still reported from the district, otherwise health good; there is no cattle-disease in the district. |
| Gorakhpur ( „ 26th) | *Nil* | Fine weather. Early rice reaped, outturn average; late rice promising. Prices stationary. Cholera continues. |
| Fyzabad ( „ 27th) | *Nil* | Weather bright and clear. *Rabi* sowing in progress. Prices steady. Cholera decreasing. |
| Lucknow ( „ 26th) | *Nil* | Slightly cold at night. Barley and wheat are being sown; condition of *hewat* crops fair. Markets well supplied. Prices stationary. Fever is reported in some places; condition of cattle good. |
| Rae Bareli ( „ „ ) | *Nil* | Weather fair; wind westerly. *Rabi* sowings in progress. Supplies ample. Prices slightly falling. Cholera continues. |
| Partabgarh ( „ 27th) | *Nil* | *Bajri* nearly all cut; irrigation of *jarkan* rice very general. Cholera still severe. |
| Allahabad ( „ „ ) | *Nil* | Weather seasonable. *Rabi* sowings in full progress. Markets well supplied. Prices steady. Fever and cholera still continue in places, otherwise health good. |
| Cawnpore ( „ 26th) | *Nil* | Average *kharif* anticipated; cotton crop promises well; *rabi* sowings continue. Prices stationary. Fever still prevalent, but cholera decreasing; cattle-disease in six parganas. |
| Banda ( „ 27th) | *Nil* | *Kharif* crops ripening; *rabi* being sown; prospects continue good. Prices stationary. Cholera decreasing; fever continues; cattle-disease in three villages. |
| Ballia ( „ 26th) | *Nil* | Weather fair. General prospects good. *Rabi* sowing continues. Markets full. Health good. Cholera gradually decreasing; slight fever continues; and a few cases of cattle-disease reported from Rasra tahsil. |
| Farakhabad ( „ 27th) | *Nil* | *Rabi* sowings in progress. Rain much wanted. *Kharif* prospects moderate. A few cases of cholera still reported. |
| Sitapur ( „ „ ) | *Nil* | Westerly wind has prevailed during the week. Cultivators are engaged in their *rabi* fields. No complaints of want of moisture, except in Misrikh. Fever is abating; cholera still about in some parganas of Biswan. |
| Bareilly ( „ „ ) | ..... | Wind west. Early *rabi* germinating well. Prices steady. *Bajri* only much dearer. Fever abating; cholera not increased; no cattle-disease. |
| Kumaon ( „ 26th) | *Nil* | Weather fine. *Kharif* crops ripening; *rabi* operations in progress. Prices stationary. Public health good; cattle-disease continues. |
| Agra ( „ „ ) | *Nil* | *Rabi* continues to be sown. Well irrigation going on. Prices steady. Fever prevalent. |
| Jhansi ( „ „ ) | ..... | Weather getting cooler at night, but abnormally hot during the day. Harvesting of *kharif* crops and sowing of *rabi* begun. Supplies ample. Public health good; cattle-disease still lingers. |
| Meerut ( „ 27th) | *Nil* | Cold weather set in. *Kharif* harvest commenced; outturn below average; cane injured by heavy rains; *rabi* sowings in progress, but under difficulties for want of moisture; canal water being largely employed for *palewa*. Export trade in wheat brisk. Prices stationary. Fever still prevalent. |
| | | *General Remarks.*—Weather seasonable. A little rain is needed in some places for crops on highlands. *Kharif* outturn is fairly good, and *rabi* sowings are in progress. Markets are well supplied, and prices generally steady. Cases of cholera and fever continue to be reported from a few districts. |

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects. |
|---|---|---|
| **Punjab—(Oct. 27th)** | | |
