(a) Includes 588 acres irrigated in the Kalah State, which was shown separately against that State in the Returns for Kharif 1884-85.  
 (b) The difference of 1,794 acres between the area shown in the half-yearly returns for Kharif 1884-85 and that shown in this statement is due to the fact that in the former the area of Changa Manga plantation was shown approximately, viz.: 6,150 acres, and now the actual area, as reported by the Forest Department, viz.: 7,944 acres is shown.  
 (c) The comparison has been made with the half-yearly returns for Kharif and Rabi of 1884-85 in which the acreage of the Sirhind Canal for 1883-84 is shown.

J. M. HEYWOOD, Lieut.-Colonel, R.E.,  
 Offg. Joint Secy. to Govt. of Punjab, F. W. D., Irrigation Branch.

## GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

No. 44, dated Lahore, 6th August, 1885.

From—H. C. FANSHAW, Esq., Officiating Junior Secretary to the Government of the Punjab and its Dependencies,

To—The Secretary to the Government of India, Revenue and Agricultural Department.

I am directed by the Lieutenant-Governor to forward, for the information of the Government of India in the Revenue Department, a copy of the Resolution noted in the margin, regarding the manual for the construction and maintenance of District Canals written by Lieutenant-Colonel Grey, C.S.I., and the Inundation Canals of the Ferozepore District which were constructed under the direction of that officer.

2. The inception of these works was noticed in the Punjab Administration Report for the year 1874-75 (*vide* paragraph 32 of the Summary), and the efforts of Colonel Grey received the commendation of Her Majesty's Secretary of State in his despatch No. 27 of 17th April 1876, which was forwarded to this Government by the letter of the Government of India in the Home Department, No. 938, dated 23rd May 1876. Since then the facts of the case have been indirectly before the Government of India in connection with the correspondence relating to the creation of a special establishment for the management of the canals (*vide* Proceedings of this Government in Department of Revenue, Agriculture and Commerce, No. 2 of March 1881), and a detailed account of the success of the work will be found at the pages marginally noted of the recent Revenue Administration Reports of the Province.

3. Sir Charles Aitchison desires to take this opportunity to bring prominently to the notice of the Government of India the services of Colonel Grey in the above matter, which do not appear to His Honour to have been sufficiently recognised as yet. The outcome of these services may be easily estimated from the brief summary given in paragraph 5 of the accompanying Resolution, and as far as the Lieutenant-Governor is aware they are unparalleled of late years in the north of India at least. Colonel Grey has by his unassisted efforts induced the villagers of the Ferozepore District to combine to construct over 600 miles of canals capable of irrigating 130,000 acres of land, and this area has thus been practically secured against failure of the light and insufficient rainfall of 18 inches, which is all that the Ferozepore District receives. This work has been accomplished without costing Government a single rupee, and will presently add in one way or another at least a lakh of rupees annually to the revenue of the district. But great as the results of this achievement are from a Government point of view, they are nothing in comparison with the advantages which have been reaped by the people both materially from the addition made to their wealth and morally from the lesson which they have learnt of what may be done by combination and public spirit. That the work of a single officer should have borne these fruits appears to the Lieutenant-Governor to be very remarkable; and His Honour believes that the Government of India will agree with him that it is only proper that wide publicity should be given to the achievement of Colonel Grey in the Ferozepore District.

Extract from the proceedings of the Government of the Punjab, in the Revenue Department (Irrigation),—No. 43, dated 6th August 1885.

Read—

A Manual of construction and management of district canals by Lieutenant-Colonel Grey, C.S.I., submitted by the Financial Commissioner under cover of the letter of his Senior Secretary, No. 143 of 16th August 1883.

REMARKS.—In the Circular of this Government, No. 316 of 20th September 1882, on the subject of Famine Preventive Works, the attention of

District Officers was specially invited to the importance of developing inundation canals. At that time the Extra Assistant Commissioner in charge of Ferozepore canals was engaged, under the direction of Lieutenant-Colonel Grey, in revising the various orders which had been issued from time to time by the latter officer for the guidance of the Revenue staff of the district in the construction and management of inundation canals, and seeing that special interest was likely to be turned to the subject, Colonel Grey offered to throw the compilation into the form of a brief manual for the instruction of Revenue Officers. This offer was accepted by the Financial Commissioner, and the manual under review has accordingly been completed by Colonel Grey.

2. The special thanks of the Lieutenant-Governor are due to Colonel Grey for the trouble which he has taken in this matter, and for the valuable assistance which the manual will be found to afford to all officers in those districts in which the construction of inundation canals can be undertaken and is desirable. The manual is particularly valuable in that it embodies the details of a system which has been worked for 10 years in the Ferozepore District with great success. It is not necessary of course nor is it desirable that the system set forth in it should be followed without modification elsewhere. On the contrary, success in the construction and management of inundation canals must always depend largely on the power of local officers to adapt the details of the system selected by them to the circumstances of the country and the genius of the people. The Ferozepore system has proved very successful in a district of strong village communities, and will probably be found the best to follow in other parts of the Province similarly circumstanced. Where, however, the communal bond is less strong, as in the south-east of the Punjab, a modified form of the "ehher" system prevailing in the Mooltan and Mazaffargarh Districts will perhaps prove more suitable for adoption. Details of this system will be found in the correspondence on the subject recently circulated by the Financial Commissioner. Where the conditions of native society permit of it, the Ferozepore system is preferable in that it affords greater scope for the development of powers of management and combination on the part of the people. But whatever system is adopted must be so framed as to be popular with the irrigators themselves, for, unless the element of popularity is present, continued success in the working of inundation canals must always be problematical.

3. The manual prepared by Colonel Grey, will, as already observed, be of the greatest use in assisting District Officers to devise schemes for the construction and management of inundation canals, but no such schemes must be undertaken without the special sanction of Government in each case. Unless the plans and designs of such works are correctly prepared in the first instance, it is impossible that the results looked for can ever be fully attained, and it is possible, as has been the case in one or two instances in the Province, that the work may prove a complete failure, and a severe shock be caused to the confidence of the people who may have been inconsiderately induced to undertake it. It is absolutely necessary therefore that the designs for all inundation canals should receive the general approval of Government in the Department of Public Works before the work of excavation is put in hand, and to this rule there can be no exception. Similarly it is necessary that the exact scheme of management, and the precise conditions on which Government will permit water to be taken from the rivers of the Punjab, should be clearly settled in the first place, and should be accepted by the villages concerned with a full knowledge of the whole facts of the case. Unless provision is carefully made beforehand regarding these points misunderstandings are apt to arise, and the people who have been committed to the construction of the canals may not unnaturally become possessed of the idea that faith has not been fully kept with them. Such provision is particularly necessary where it is proposed to introduce inundation canals into tracts which have been placed under a fluctuating assessment on account of the uncertainty of cultivation, and no time can be considered as lost which is spent on carefully maturing schemes for inundation canals before the work of construction is undertaken. As a rule, it will be found possible, after obtaining the preliminary sanction of Government, to prepare designs, to ascertain the willingness of the villagers to combine to give

their labour for the work, and to settle the terms as regards both Government and themselves on which such labour should be given, during a single cold weather. The designs and proposals can then be elaborated and submitted to Government for approval and acceptance during the ensuing hot weather, and arrangements can be made for starting the work by the January following when the villagers are most free from field labour. Under ordinary circumstances this will allow of the completion of any work not of an unusual character within 15 months from the time of its conception, and having regard to the important nature of such works as inundation canals, the Lieutenant-Governor does not think that this period can be considered unduly long. In every case it must be definitely settled for what length of time Government will permit the use of water free of charge; when Government will impose a water-rate; what powers of interference in case of disunion among the shareholders shall be exercised by the Deputy Commissioner; what rights Government shall have to take over the canal, with or without payment; and when these rights shall accrue. A statement of the principal remaining points, which must be settled beforehand, will be found in Appendix I of Colonel Grey's manual.

4. It will often be found that at first starting it is desirable to assist the villagers who have agreed to undertake the construction of an inundation canal either by the grant of takavi or by aid from the District Fund. Under the present Act for the grant of loans for agricultural improvements (Act XIX of 1853) advances can be made to village communities for such purposes, and there is no purpose for which they can be more usefully given than for that under consideration, and for the construction of wells which are always needed to supplement irrigation from inundation canals. As regards money assistance given from District Funds, the Lieutenant-Governor is of opinion that such aid should not ordinarily take the form of an out-and-out gift. This plan is apt to prove unfair to those payers of the Local Rate whose villages cannot be reached by the canal-water, and in view of the very great profits which invariably accrue from inundation canals when properly constructed, there is no reason why the villagers should be treated with special consideration in this matter. When therefore in future assistance towards the construction of such works is given from District Funds, the District Board or Committee should usually acquire an interest in the work, and should gradually recover the sum advanced by it in the form of a light water-rate, to be levied by agreement with the villagers during the period of exemption from payment of such rates to Government. By this means a District Board will be enabled in some cases to undertake a series of useful works by the repeated outlay of one and the same sum, and in all cases will be able to further the completion of at least two public works instead of one alone.

5. The great success which has attended the canals constructed in the Ferozepore District under the directions of Colonel Grey with the advice of Mr. J. Burns, late Superintendent of Irrigation in the Bahawalpur State, shows what may be done in this respect by energy and sympathy with the people, provided the designs of the works are in a general way scientifically though roughly correct. This success does not appear to Sir Charles Aitchison to have been adequately recognized so far, and His Honour would therefore wish to take the present opportunity of placing more fully on record the remarkable results which have been obtained under Colonel Grey's system in Ferozepore. The canals, which including two recently constructed in the Fazilka tahsil, number 13, and possess a total length of nearly 630 miles of waterway, where for the most part commenced in 1873, and were advanced towards completion in 1874 and 1875. Since then they have been gradually improved and developed, and they now irrigate an area of 120,000 acres lying in the Utar, low lands, which for many years past have not been reached by the floods of the Sutlej. The area irrigated by the canal since 1874 is shown in the statement annexed to this Resolution as far as existing statistics permit.

During the years 1877-1880 the canal suffered somewhat from want of a regular establishment independent of the subordinate Revenue staff of the district, which was no longer able to devote sufficient time to their management, and accordingly a special establishment was created for their working early in 1881.

This establishment consists of an Extra Assistant Commissioner as Superintendent, an Assistant Superintendent, a Surveyor, a few Office Clerks, certain officers in charge of the canals of each tahsil, and a small number of necessary subordinate officials. The total cost of the establishment is Rs. 12,600 per annum, of which one-sixth is paid by the Mamdot estate, in which the canals have been constructed by the Nawab, and the rest by a cess levied from the irrigating villages. This cess, including an item of 6 pie on account of Lambardars and Patwaris, amounted to 3 annas 3 pie per acre irrigated by flow in 1883-84, and has been reduced to considerably less for the past year. The Mamdot canals have been constructed and maintained at a cost of Rs. 2,50,000, and the direct income derived from them by the Nawab up to date has been Rs. 1,16,000. This income consists of a water-rate which is levied at 8 annas per acre on lands owned by the Nawab and at Rs. 2 per acre on other lands. The indirect advantages to the Mamdot estate have, however, been greatly in excess of the direct advantages derived from the canals. By their means a very large area of waste rakh land owned by the Nawab has now been brought under cultivation, and the income derived by the estate from this source has been no less than Rs. 3,57,000 in the last nine years. The expenditure on the canals constructed by the irrigators themselves cannot be exactly stated, as under the system of management in force the labour of excavation and clearance is given by the people. It has been calculated by Colonel Grey that the capital outlay on the irrigators' own canals between 1875-76 and 1882-83 was about 2½ lakhs of rupees, and that the net additional income derived from the area irrigated during the same period, viz., 424,000 acres, was not less than two lakhs of rupees yearly. These estimates are based on very moderate data, and would appear to be well within the mark. Neither on the canals constructed by the Nawab nor on those dug by the irrigators has a single rupee of Government money been spent. Until the expiry of present settlement the people are permitted to use the water free of charge; thereafter a light water-rate will be taken in addition to the wet revenue of the land which is now assessed at dry rates only. Meanwhile, the people have reaped the money's worth of their labour over and over again, especially in years of partial drought when the crops failed on most of the adjoining unirrigated lands, and the prosperity of the Utar tract which was somewhat on the wane in parts has been completely restored. The result of the work of Colonel Grey and of his assistants in the Ferozepore District is therefore that without entailing any cost whatever upon Government an extensive stretch of country has been secured against drought and restored to prosperity, and a net addition will hereafter be made to the Government revenue demand which at the most moderate computation may be put at one lakh of rupees. This is a result of which in the opinion of Sir Charles Aitchison any officer in India might well be proud.

6. The Lieutenant-Governor therefore hopes that the success which has been obtained in Ferozepore will encourage officers in other districts favourably situated for the construction of inundation canals to carefully consider the feasibility of the creation of such works, and to use their best efforts to induce the villagers to combine for their execution. In a number of the districts of the Punjab at least much may be done in this way, and, while considerable areas of existing cultivation can be secured against famine, large tracts now lying waste can be brought under crops. Measures have already been adopted by Government with the view of partially obtaining this end by the construction of the Chenawan, Sidhni, Para and Lower Sohag Inundation Canals. Much, however, still remains to be done by the people themselves under the guidance of District Officers, and the Lieutenant-Governor would be glad to see a general development of minor inundation canals throughout all areas in the Punjab which are suitable for their construction.

ORDER.—Ordered, that the above remarks be printed and published with the manual prepared by Colonel Grey.

Also that they be published in the *Punjab Government Gazette*.

Also that they be communicated to the Financial Commissioner of the Punjab and to the Government of India in the Department of Revenue and Agriculture.

Statement of Irrigation and Cost of the Ferozepore Inundation Canals from 1874-75 to 1884-85.

Notes.—The cost of original works represents the value of the labour shown by them for the most part, the actual cash expenditure from Local Funds bearing but a very small proportion to the whole. On the canal of the Mamdot estate, viz., Nos. 7 (in part), 8, 9, 10, 11 and 12, the cost represents the actual cash expenditure. The average area irrigated annually during the last five years has been 92,563 acres.

H. C. FANSHAW, Esq., Junior Secretary to the Government of the Punjab.

No. 7518, dated Simla, 2nd November 1885

From—C. S. BAYLEY, Esq., Under-Secretary to the Government of India, Revenue and Agricultural Department,

To—The Secretary to the Government of the Punjab.

I am directed to acknowledge the receipt of Mr. Fanshawe's letter No. 44, dated the 6th August, giving cover to a copy of a Resolution recorded by His Honour the Lieutenant-Governor of the Punjab, on the subject of the "Manual of Construction and Management of District Canals," which has recently been compiled by Lieutenant-Colonel L. J. H. Grey, c.s.i.

2. The Governor-General in Council fully concurs in the cordial approbation expressed by Sir Charles Aitchison of the great value of the services which Colonel Grey has, by his exertions in the construction of inundation canals, rendered to the Ferozepore district. His Excellency in Council trusts that other districts similarly situated may derive benefit from the results of Colonel Grey's experience as embodied in his Manual and from the excellent example which he has afforded of the power possessed by a zealous and judicious district officer of inducing the inhabitants of his district to co-operate with him in overcoming natural disadvantages.

3. A copy of the Resolution and of this correspondence will be published in the *Gazette of India* for general information.

*Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department (Agriculture),—No. 915A, dated Simla, the 3rd November 1885.*

Read the following :—

Letter from the Principal, Royal Agricultural College, Cirencester, dated 28th August 1885, to the Secretaries to the Government of Bengal and the North-Western Provinces and Oudh, notifying that the Governing Body of the College have passed a Resolution establishing an entrance fee of £5, to be paid by all out-students admitted to the College from and after the Winter Session beginning 6th October 1885.

Dated Cirencester, 28th August 1885.

From—JOHN B. McCLELLAN, Esq., M.A., Principal, Royal Agricultural College,

To—The Secretaries to the Lieutenant-Governors of Bengal and the North-Western Provinces and Oudh.

I have the honour of informing you that the Governing Body have passed a Resolution establishing an entrance fee of five pounds, to be paid by all out-students admitted to the College from and after the Winter Session beginning October 6th of this year.

May I beg the favour of this fact being taken into consideration in the terms of the contracts with all future scholars?

In making this communication, I would take the opportunity of explaining that hitherto the out-students have not contributed by their fees towards the maintenance of the buildings of the College. Their fees have been solely in regard of the instruction. The number of out-students, however, has in the last few years increased so considerably that, in order to meet a want very strongly felt, the Governing Body are now building a commodious out-students' common room with lavatory and locker room attached, and it is in consideration of this large outlay and of the circumstances generally that the resolution mentioned has been passed.

The comfort and convenience of the out-students and their opportunities for study also will be, I have no doubt, materially enhanced hereby.

**ORDER.**—Ordered, that a copy of this Resolution be published in the Supplement to the *Gazette of India* for general information.

# REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 4th NOVEMBER 1885.

**GENERAL REMARKS.**—Rain continues to fall in the Madras Presidency, where the prospects are now fair. In Bellary and Anantapur the crops have been much improved by the recent rain. Rain has also fallen in the Mysore State, where the standing crops are in good condition and the *rabi* harvest is in general progress. Murrain is decreasing in the Mahad district, and elsewhere the cattle are in good condition.

In the Bombay Presidency slight rain is reported from places in four districts. In Khandesh more rain is urgently required for the *rabi* crops. Reaping of *khurif* and sowing of *rabi* crops are in progress generally. No rain is reported from the Berars and Hyderabad. In the former the prospects of the *khurif* are good and *rabi* sowings have commenced; but in Hyderabad fears are entertained of damage to the standing crops, and *rabi* sowings have been postponed for want of rain. In Central India agricultural prospects continue favourable. In Rajputana the crops are suffering in many places for want of rain. *Rabi* sowings have commenced in a few States.

In the Central Provinces prospects continue favourable, and the *khurif* harvest and *rabi* sowings are in progress. In the Punjab the *khurif* is being harvested and *rabi* sowings have commenced. Prospects are generally good. Seasonable weather prevails in the North-Western Provinces and Oudh, but the crops require more rain on highlands. The *khurif* harvest has been nearly completed and *rabi* sowings are in general progress.

No rain fell in Bengal during the week under report, and the cold weather is reported to be setting in. Except in flooded tracts, the prospects of the late rice harvest are generally very good. In some places in Behar the want of rain is still much felt. *Rabi* cultivation is in active progress, and the crops already sown promise well. In Assam prospects continue good.

In British Burma the crops promise well, except in Prome and Thayetmyo, where the rainfall has been insufficient.

Fever is more or less prevalent in most Provinces; otherwise the public health is fair.

In Bengal the price of rice has fallen in almost all districts; and in Mysore and Coorg prices continue to fall. Elsewhere they are generally steady, except in the Punjab, where they are fluctuating, and in Rajputana, where they are rising in some places.

| Presidency or Province and District. | Rainfall for week under report.          | State of agricultural prospects.                                                                                                                                                                                                                                                                                                                         |

| Cuttack ...                                | Nil                             | Weather cloudy. <i>Sarad</i> rice in ear; early <i>sarad</i> flowering. Insects have appeared in some parts of Jajpur and Kendrapara subdivisions. Public health generally good.                                                                                                                                                                                                                                                                                                               |
| Khoolna ...                                | Nil                             | Days hot, nights cool. <i>Amun</i> paddy in seed; prospects very good, except in small flooded parts; ploughing and sowing of winter crops continue favourably. Prices of rice stationary. Some fever; public health fair.                                                                                                                                                                                                                                                                     |
| Dinagepur ...                              | Nil                             | Prospects of <i>amun</i> good. Cholera reported from seven thanas.                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Pubna (Serajganj) ...                      | Nil                             | <i>Amun</i> good. Health fair, but considerable fever and a little cholera.                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Gya ...                                    | Nil                             | Want of rain very much felt for rice crops and <i>rabi</i> sowings. Prices slightly lower. Health fair.                                                                                                                                                                                                                                                                                                                                                                                        |
| Chumparun ...                              | Nil                             | Standing crops look well; <i>rabi</i> sowings commenced. Prices fallen slightly. Some cholera and fever in interior.                                                                                                                                                                                                                                                                                                                                                                           |
| Shahabad ...                               | Nil                             | Weather favourable for poppy; sowings in full progress.                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>N. W. Provinces and Oudh—(Nov. 5th)</b> |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Benares (Nov. 3rd)                         | Nil                             | General Remarks.—No rain during the week; cold weather setting in. Outside the flooded tracts prospects of late rice harvest are generally very good. In Behar, however, want of some more rain continues to be much felt in places for rice on highlands. Cultivation of <i>rabi</i> is in active progress, and crops already sown are thriving well. Price of rice has somewhat fallen in almost all districts. Fever prevalent in several localities; public health is, on the whole, fair. |
| Gorakhpur ( „ 2nd)                         | .....                           | No noticeable change in the weather since last report. <i>Kharif</i> crops promise well, except late rice for which more rain is wanted; <i>rabi</i> sowings are almost completed. Markets are well stocked, and there is but slight fluctuation in prices. Health of the district is good, though cases of fever and ague still continue; there is no cattle-disease in the district.                                                                                                         |
| Fyzabad ...                                | .....                           | Fine weather. Early rice harvested; late rice promising. Prices stationary. Cholera continues.                                                                                                                                                                                                                                                                                                                                                                                                 |
| Lucknow (Nov. 2nd)                         | .....                           | No report received.                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Rae Bareilly ( „ „ )                       | Nil                             | Season getting cold. Sowing of wheat and barley in progress; <i>howat</i> crops on highlands have somewhat suffered for want of rain. In the district, some cases of cholera reported in the city; slight cattle-disease in tahsil Lucknow.                                                                                                                                                                                                                                                    |
| Partabgarh ( „ 3rd)                        | Nil                             | Weather clear. <i>Rabi</i> sowings going on. Markets full. Prices almost unchanged. Cholera continues; fever prevalent.                                                                                                                                                                                                                                                                                                                                                                        |
| Allahabad ( „ „ )                          | Nil                             | <i>Juari</i> is being cut; <i>mathi</i> and <i>mash</i> nearly ripe; <i>rabi</i> sowings actively carried on. Wind variable. Prices steady. Cholera seems slightly diminishing.                                                                                                                                                                                                                                                                                                                |
| Cawnpore ( „ 2nd)                          | Nil                             | Weather seasonable; rain wanted. <i>Rabi</i> sowings continue, and crops sown germinated well. Markets well supplied. Prices show a slight fall. Fever and cholera still continue, no cases in city; slight foot-and-mouth disease.                                                                                                                                                                                                                                                            |
| Banda ( „ 3rd)                             | Nil                             | The <i>kharif</i> harvest has begun in places; <i>rabi</i> sowings nearly over. Prices firm. SUPPLEMENT TO  
**The Gazette of India.**

N<sup>o</sup> 47. { CALCUTTA; SATURDAY, NOVEMBER 21, 1885.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully or made known.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of six Rupees per annum, delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR  
THE WEEK ENDING 11th NOVEMBER 1885.

**GENERAL REMARKS.**—Good rain has fallen in the Madras Presidency during the fortnight under report, and agricultural prospects are now good everywhere. In Bombay and Aherpur the prospects of the season continues to be favourable. In Mysore, where there was a fair amount of rain, the prospects of the season are favourable, and the standing crops are in good condition, except that in parts of the Tumkur and Bangalore district more rain would be beneficial. In Coorg prospects continue good.

In the Bombay Presidency there has been rain in several districts during the fortnight under report. The reaping of the *kharif* and the sowing of the *rabi* crops continue. In the Berars the *kharif* harvest has commenced and sowings have been resumed in the Nizam's Territories owing to the break in the rains which has been beneficial to the crops. Prospects continue good in the Central India States, and the *kharif* harvest and *rabi* sowings are in progress in Rajputana.

In the Central Provinces slight rain fell in two or three districts and prospects continue favourable. Rain is much needed in some places in the Punjab where none has fallen during the fortnight under notice. The *kharif* harvest is approaching completion and the *rabi* operations are in progress. Seasonable weather prevails in the North-Western Provinces and Oudh, where *rabi* operations are still in progress, and have been completed in places. Agricultural prospects are good.

In Bengal the rains have ceased and the cold weather has set in. Outside the flooded tracts and parts of Behar the rice crop promises generally an excellent harvest. The cultivation of *rabi* and *bora* paddy is proceeding well and the harvesting of the earlier sorts of *aman* rice has commenced; but in Behar and poppy sowings are backward for want of rain. In Assam agricultural prospects continue good.

Crop prospects are good in British Burma except in the Prome and Thayetmyo districts where there has been a deficiency of rain.

The public health is generally fair.

Diseases are fluctuating in the Punjab and in Rajputana, have slightly risen in Coorg, and are falling in Mysore. In Bengal the price of rice has fallen in several districts; elsewhere prices are generally stationary.

| Presidency or Province and District. | Rainfall for week under report.                    | State of agricultural prospects.                                                                                                                                                        |

General health good.                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Hazaribagh . . . . .                        | Nil                             | Weather clear. Reaping of early <i>sarad</i> rice commenced; late <i>sarad</i> rice in ear. Public health generally good.                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Cuttack . . . . .                           | 1.47                            | <i>General Remarks</i> .—Some rain fell in Orissa and in Singhbhum and Manbhoom; cold weather is setting in. Prospects of crops are generally very favourable, except in the flooded tracts previously reported, and in South Behar where want of later rain has done harm; <i>rabi</i> crops are being largely sown, but in Behar <i>rabi</i> and poppy sowings are backward for want of rain. Price of rice has fallen in almost all districts. Public health generally fair.                                                                            |

| Cuttack . . . . .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | <i>Nil</i>                        | Weather clear. Early <i>sarad</i> rice being reaped with a fair outturn; late <i>sarad</i> flowering. Price of rice unchanged. Cholera reported from Jajpore, and some fatal cases at Cuttack; public health generally good.                                                                                               |
| <b>General Remarks.</b> —Rains have ceased, and cold weather has set in. Outside the flooded tracts, and except in parts of Behar where some harm has been done by the failure of rain in October, the rice crops generally promise an excellent harvest; cultivation of <i>rabi</i> crops and <i>boro</i> paddy is proceeding well, but in Behar want of rain somewhat interferes with <i>rabi</i> and poppy sowings; harvesting of earlier sorts of <i>amun</i> rice has commenced; the price of rice has consequently fallen in several districts. Public health continues generally fair. |                                   |                                                                                                                                                                                                                                                                                                                            |

| Bangalore . . . . .                         | 10                              | Rain fell more or less abundantly in the Malnad district, and slightly in parts of the Maidan Taluks of the State. In the Tumkur district and in parts of the Bangalore district late sown crops are reported to be in want of more rain, otherwise standing crops in good condition. Prospects of season favourable. Public health generally good; smallpox at some places. In Tumkur and Shimoga districts drinking water and pasturage available. Cattle in good condition, except in parts of the Shimoga district where murrain still prevails. Prices in the Tumkur district reported stationary, elsewhere have fallen. |

# SUPPLEMENT TO The Gazette of India.

N<sup>o</sup> 48. { CALCUTTA, SATURDAY, NOVEMBER 28, 1885.

## OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

### GOVERNMENT OF INDIA.

### REVENUE AND AGRICULTURAL DEPARTMENT.

#### REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 25th NOVEMBER 1885.

GENERAL REMARKS.—Good rain continues to be reported from parts of the Madras Presidency. The prospects of the crops are generally fair. In Mysore the crops are in good condition, though more rain is needed for the *harvest* and *rain* crops. The *harvest* is in progress in some districts, and the *rain* crops are in good condition.

No rain has fallen in the Bombay Presidency during the week under report. The *harvest* and *rain* sowings have been completed in some districts. In parts of Poona, Ahmednagar and Khandesh the *rain* crops need more rain. In the Berars and Hyderabad the *harvest* is being cut and the *rain* promises well. In the Central India and Rajputana States the crops are in good condition, and the *harvest* and *rain* sowings are in general progress.

In the Central Provinces *rain* sowings have been nearly completed and promises well, though the October rains were deficient in places. A good cotton crop is expected.

Rain is much needed in some places in the Punjab. The *harvest* is nearly complete and operations continue. Seasonable weather prevails in the North-Western Provinces and Oudh, and prospects are favourable.

In Bengal the rainfall of the past week has been confined to the districts of Dacca, Khosla and Chittagong, in the last named of which it has done some damage to the crops. The *rain* harvest promises a good outturn except in the flooded districts, and the *rain* crops are coming up well. In Assam the reaping of the *rain* crop has commenced and prospects are favourable.

In British Burmah the rice crop is being reaped.

The public health continues generally fair.

Prices are generally stationary, except in the Punjab where they are fluctuating, and in Coorg and Bengal where they are falling.

| Presidency or Province and District. | Harvest of the week under report. | State of agricultural prospects.                                                                                                                                                                                                                                        |
|--------------------------------------|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Madras—(Nov. 25th)<br>Madras         | Nil                               | Early dry crops much improved; later sowings thriving, but in parts of one taluk white cholera attacked with disease, and pulses affected by insects; wet crops good; harvest wet and dry grains, outturn about average. 2 deaths from cholera.                         |
| Karnool                              | average last week 28              | Standing crops fair, but in parts of two taluks matured dry grains suffered from excessive rain; harvest early cereals, outturn below average. Smallpox in two taluks and cattle-disease in parts; 3 deaths from cholera.                                               |
| Conjeveram                           | Nil                               | Irrigated paddy generally thriving; harvest light paddy. Cattle-disease in two taluks; 42 deaths from cholera.                                                                                                                                                          |
| Krishna                              | Nil                               | Standing crops generally good, but cholera damaged by late rain in two taluks and castor affected by insects. River 3.5 feet over its bed. Fever and smallpox in parts; deaths from cholera unreported last week 1, this week 3; cattle-disease in parts of two taluks. |

| Hazaribagh                                  | Nil                             | Weather clear and cold. Harvesting of paddy continues with good outturn; prospects of cold weather crops favourable; poppy cultivation has commenced in some places. General health good.                                                                                                                                                                                                                                                                                                                                                     |
| Cuttack                                     | Nil                             | Weather fine. <i>Sarad</i> rice ripening; early <i>sarad</i> being cut with fair outturn; <i>rabi</i> doing well. Cholera in Jajpore Subdivision. Public health generally good.                                                                                                                                                                                                                                                                                                                                                               |
|                                             |                                 | <i>General Remarks.</i> —No rain fell in any of the reporting districts except Chittagong, Dacca, and Khoolna. In Chittagong rain heavy and has done some harm to the standing crops. <i>Amun</i> harvest is progressing with prospect of a good outturn, except in the flooded thanas and in parts of Behar which have suffered for want of October rain; <i>rabi</i> crops generally look well, but want of rain somewhat interferes with <i>rabi</i> and poppy sowings. Price of rice has generally fallen. General health continues fair. |
| <b>N. W. Provinces and Oudh—(Nov. 26th)</b> |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Benares (Nov. 24th)                         | Nil                             | Weather clear and cold increases daily. <i>Rabi</i> crops are doing well and fields are under irrigation where practicable. Late rice is being cut, but only an average outturn, for want of later rain, is anticipated. Markets are well supplied, and there is but slight fluctuation in prices. The health of the district is generally good and there is no cattle-disease.                                                                                                                                                               |

N.B.—As regards the figures in column "Total receipts from 1st April to date," audited figures have been availed of as far as possible.  
(b) Including Kewari-Perozepore State Railway.

(b) Total receipts from 12th to 18th October 1884.  
(c) Total receipts from 2nd April to 18th October 1884.

SUPPLEMENT TO  
**The Gazette of India.**

No. 49. CALCUTTA, SATURDAY, DECEMBER 5, 1885.

## OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the public, and such as may usefully be made known.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the only of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 2nd DECEMBER 1885.

**GENERAL REMARKS.**—With the exception of the Madras District of Madras and the Dibrugarh District of Assam, no rain has been reported from any part of India during the past week. In the Madras Presidency prospects are generally fair, and continue favourable in Bellary and Anantapur. In Mysore the standing crops are in good condition and harvesting of *ragi* and sowing of gram, *jowari*, and paddy continue. Water and pasturage are abundant, but cattle-disease is reported from three districts. In Coorg the season promises well.

In parts of the Puna, Nasik, Khandesh and Ahmednagar districts of the Bombay Presidency rain is wanted for *rabi* crops. Reaping of the *kharif* and sowing of the *rabi* crops continue in most districts. In the Berars and Hyderabad the crops promise well. In the Central India States and in most of the Rajputana States the prospects of the crops are good; but in Sirohi, Meywar, Kerauli and Dholpur tanks and wells are low.

Prospects continue favourable in the Central Provinces and the *rabi* sowings are complete, except in the Chhatisgarh Division, and the *kharif* harvest is in active progress. In parts of the Punjab rain is much needed; *rabi* operations are in general progress. In the North-Western Provinces and Oudh the *rabi* promises well, but more rain would be beneficial for sowings. The weather continues seasonable.

Some damage has been caused to crops in East Bengal by the rain and wind of the previous week. The *amun* harvest promises a good outturn, and the *rabi* crops are coming up well, though in parts of Behar and Hazaribagh more rain would be beneficial for these and for poppy. Prospects continue good in Assam.

No report has been received from British Burma for the week under notice.

The public health continues fair.

Prices are falling in Coorg and are fluctuating in Mysore; elsewhere they are generally steady. In Bengal the price of rice is lower than last year in almost all districts.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects.                                                                                                                                                                                                                              |
|--------------------------------------|---------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Madras—(Dec. 2nd)<br>Bellary         | Nil                             | Early dry crops much improved; later sowings thriving, but in parts white cholera attacked with disease, and pulses affected by insects. Wet crops good; harvest wet and dry grains yield paddy average; dry grains about average. Three deaths from cholera. |
| Kurnool                              |                                 | Standing crops fair, but paddy crops under canal want water owing to breach of anicut. Harvest paddy and early cereals yield below average. Smallpox and cattle-disease in two taluks; 2 deaths from cholera.                                                 |

WILLIAM,  
The 24th November 1885.

FRED. FIREBRACE, Major, R.E.,  
Under-Secretary.

Prospects of poppy good. Public health good.                                                                                                                                                                                                                                                                                                                                                                |
| Gya . . . . .                              | Nil                             | <i>Rabi</i> and poppy crops doing very well. Rice yielding a good outturn. Health good. Prices better than last year.                                                                                                                                                                                                                                                                                                                                                                                                       |
| Shahabad . . . . .                         |                                 | Weather favourable for germination of poppy. Crop backward owing to dry weather, artificial irrigation having been necessary. Sowings completed.                                                                                                                                                                                                                                                                                                                                                                            |
| Hazaribagh . . . . .                       | Nil                             | Weather clear and cold with westerly winds. Paddy being harvested. <i>Rabi</i> prospects generally good; in some places rain much needed. Poppy sowings completed, and nearly one-half of the crop has germinated well. Public health generally good.                                                                                                                                                                                                                                                                       |
| Cuttack . . . . .                          | Nil                             | Weather cold. Early <i>sarad</i> rice being reaped. Late <i>sarad</i> ripening. Cholera severe in Jajpore, otherwise public health good.                                                                                                                                                                                                                                                                                                                                                                                    |
|                                            |                                 | <i>General Remarks.</i> —No rain during the week. Cold weather has fairly set in. Rain and wind of the previous week have done some damage to standing crops in East Bengal. <i>Aman</i> harvest is progressing, generally with prospect of a good outturn, except in flooded tracts. <i>Rabi</i> crops are coming up well, but in parts of Behar and Hazaribagh these crops and poppy are somewhat backward for want of rain. Public health continues generally fair. Rice cheaper than last year in almost all districts. |
| <b>N.-W. Provinces and Oudh—(Dec. 3rd)</b> |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Benares (Dec. 1st) . . . . .               | Nil                             | Weather seasonable. <i>Rabi</i> as yet doing well and irrigation in progress where practicable. Supplies ample. No alteration in prices since last report. Public health good; no cattle-disease.                                                                                                                                                                                                                                                                                                                           |
| Gorakhpur (Nov. 30th) . . . . .            | Nil                             | Weather clear. Poppy sowings completed and germinating well; irrigation of <i>rabi</i> in full progress. Prices stationary. Cholera abating.                                                                                                                                                                                                                                                                                                                                                                                |
| Fyzabad (Dec. 1st) . . . . .               | Nil                             | Weather fair. <i>Jarhan</i> rice being cut; <i>rabi</i> sowings nearly over; cultivators engaged in irrigating <i>joney rabi</i> ; poppy is being sown. Cholera still prevails in the district. Condition of cattle good.                                                                                                                                                                                                                                                                                                   |

E. C. BUCK,  
Secretary to the Government of India.SUPPLEMENT TO  
The Gazette of India.

No 50. } CALCUTTA, SATURDAY, DECEMBER 12, 1885.

## OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

## GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR  
THE WEEK ENDING 9th DECEMBER 1885.

GENERAL REMARKS.—Heavy rain has fallen in British Burma and slight rain in parts of the Madras Presidency, Mysore, and Coorg. Elsewhere the week has been rainless.

Agricultural prospects continue fair in the Madras Presidency, though in one or two places some injury has been caused by insects and in parts of Coimbatore more rain would be beneficial. In Mysore the standing crops are in good condition, but there is some late seed rain. The rabi and paddy harvests are in progress. In Coorg the season promises well.

In the Bombay Presidency kharif crops are still being harvested and rabi sown. In parts of Nasik, Ahmednagar, Sholapur, and Nasik, more rain is wanted for the latter. In the Berars, Hyderabad, and Central India and Rajputana, the cutting of the kharif crops is in progress, and the rabi crops promise well.

The rabi sowings have been almost completed in the Central Provinces and in the Punjab. In the latter province rain is much wanted in several districts. In the North-Western Provinces and Oudh the rabi crops are coming up well, but more rain is wanted in the districts of Allahabad, Banda, Kumaon and Jhansi.

The rice harvest in Bengal is yielding a good outturn and the rabi crops promise well. In Assam the state and prospects of the crops continue favourable.

In British Burma crop prospects are generally good in all districts except in Thayetmyo.

The public health is fair in all provinces.

Prices are generally steady everywhere except in the Punjab and Coorg, where they show a tendency to rise, and in Mysore where they are fluctuating.

| Presidency or Province and District. | Rainfall for week under report. | State of agricultural prospects.                                                                                                                                                                                                                                               |
|--------------------------------------|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Madras—(Dec. 9th)                    | Nil                             | Early dry crops much improved; later sowings thriving, but white cholera suffering from disease in two taluks, and pulses from insects in one taluk; crops good; harvest wet and dry grains, yield paddy average, dry grains about average.                                    |
| Bellary                              | Nil                             | Standing crops fair, but paddy crops under canal want water owing to breach of Anicut; harvest paddy and early cereals, yield below average. Smallpox in two and cattle-disease in four taluks.                                                                                |
| Kurnool                              | Nil                             | Harvest paddy. | Hazaribagh                                  | Nil                             | Weather seasonable. Harvesting of paddy continues with fair outturn, except in one part of the district; <i>rabi</i> crops generally doing well; poppy prospects so far favourable. General health good.                                                                                                                                                                                                                                     |
|                                             |                                 | <i>General Remarks.</i> —No rain during the week. Rice harvest is proceeding, and is generally yielding a good outturn. <i>Rabi</i> crops everywhere, and poppy in Behar and Hazareebagh, are promising, but want rain in parts of Behar. Price of rice remained stationary in almost all districts during the week. Public health continues generally fair.                                                                                 |
| <b>N. W. Provinces and Oudh—(Dec. 10th)</b> |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|                                             |                                 | Weather clear. <i>Rabi</i> crops continue good, and cultivators are busily engaged in irrigating their fields, wherever practicable. Average outturn of late rice a ten-anna crop. Poppy sowings almost completed. This season's poppy crop will be a late one, but prospects are good, as germination has taken place freely. Supplies sufficient and prices of food grains show a tendency to fall. General health of men and cattle good. |

| Thayetmyo.                                            | 0.08                            | Total rainfall 34.46. Slight cholera; cattle-disease prevalent in one township.<br><i>General Remarks.</i> —Slight cholera in eight districts, elsewhere public health good; cattle-disease severe in one district, slight in five districts, elsewhere health of cattle good. Crop prospects good in all districts except in Tharrawaddy and Prome where the rainfall has not been sufficient. There has been heavy rain over the whole province and a violent gale on the seaboard; the extent of damage which the rain and the gale may have done to the crops is not yet known. |

  SUPPLEMENT TO  
**The Gazette of India.**

N<sup>o</sup> 51. } CALCUTTA, SATURDAY, DECEMBER 19, 1885.

**OFFICIAL PAPERS.**

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of six Rupees per annum, if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the copy of the GAZETTE must be looked to.

Printed & published for the GOVT. OF INDIA at the Office of SUPR. GOVT. PRINTING, 8, Hastings Street, Calcutta.

GOVERNMENT OF INDIA.  
DEPARTMENT OF FINANCE AND COMMERCE.

*Comparative Statement of the Net Indian Sea and Land Customs Revenue (excluding Salt Revenue) for the first eight months of the official year 1885-86, and of the fourteen preceding years.*  
(IN THOUSANDS OF RUPEES.)

N. B.—As regards the figures in column "Total receipts from 1st April to date," audited figures have been availed of as far as possible.  
(a) Including Rewari-Ferozepore State Railway.  
(b) Total receipts from 12th October to 22nd November 1884.

(c) Returns not received.  
(d) Total receipts from 1st April to 14th November 1885.  
(e) Total receipts from 2nd April to 22nd November 1884.  
(f) Total receipts from 1st to 22nd November 1884.

FORT WILLIAM,  
The 17th December 1885.

FRED. FIREBRACE, Major, R.E.,  
Under-Secretary.

SUPPLEMENT TO  
**The Gazette of India.**

N<sup>o</sup> 52. CALCUTTA, SATURDAY, DECEMBER 26, 1885.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.  
PUBLIC WORKS DEPARTMENT.  
RAILWAY TRAFFIC.

RETURNS OF ACCIDENTS ON INDIAN RAILWAYS, FOR THE SECOND QUARTER  
OF 1885.

No. 1155 R. T., Fort William, 15th December 1885.

RESOLUTION.—By the Government of India, Public Works Department.

Read again—

Public Works Department Resolution No. 39 R. T., dated 13th January 1885.

Public Works Department Resolution No. 810 R. T., dated 6th September 1885.

Read also—

Director General of Railways No. 015 T., dated 27th November 1885.

Abstract Returns of Accidents to trains, &c., on the open lines of Railway in India for the quarter ending 30th June 1885.

OBSERVATIONS.—As compared with the corresponding quarter of the previous year, the number of accidents to trains, rolling stock, permanent-way, &c., shows an increase of 82, or 8.41 per cent., with an increase of 1,029 miles, or 9.47 per cent. in the mean mileage worked, and of 1,597,744 miles, or 14.18 per cent. in the train mileage. The following are the Railways on which the fluctuations chiefly took place:—

| RAILWAY.                 | ACCIDENTS. |           |                         |                         | TRAIN MILEAGE.          |                         |

| Cawnpore-Achnera         | 25         | ...       | 178.6                   | ...                     | 90.6                    | ...                     |
| Burma                    | ...        | 13        | ...                     | 52.0                    | ...                     | 17.4                    |

2. Besides the above, there were 4 accidents on the Rohilkhand-Kumaun Railway, and 37 on the Jorhat Railway. These lines were not opened during the corresponding period of 1884.

3. The increase on the Madras, Southern Mahratta, Rajputana Malwa, and Cawnpore-Achnera mainly occurred under "Trains running over cattle on the line." The accidents under this head on the Madras Railway numbered 36 against 19, on the Rajputana-Malwa Railway 128 against 101, and on the Cawnpore-Achnera Railway 29 against 12.

4. The increase on the Bengal and North-Western Railway may be attributed to increased open length and train mileage. Out of a total of 24 accidents, 9 were under "Goods trains, or parts of goods trains, engines, &c., leaving the rails," and 7 under "Trains running over cattle on the line."

5. Of the increase of 49 accidents on the Eastern Bengal Railway, 17 were under "Trains running over cattle," 11 under "Failure of machinery, springs, &c., of engines," and 6 under "Failure of couplings." The total number shows an increase of 87.5 per cent. against a decrease of 15.4 per cent. in the train mileage.

6. On the Northern Bengal State Railway, the number of accidents classified as "Other accidents" increased from 1 to 11. The variations under the other heads do not appear to call for any notice.

7. The decrease on the Sind, Punjab and Delhi Railway principally took place under "Trains running over cattle" and "Failure of machinery, springs, &c., of engines," and that on the Oudh and Rohilkhand Railway under "Trains running over cattle."

8. The improvement on the Darjeeling-Himalayan Railway is general, the total being 9 against 40.

9. On the Indus Valley Railway, the number of cattle accidents diminished from 53 to 12, but that of "failures of machinery, springs, &c., of engines" rose from 5 to 16, and that of "the bursting of boilers or tubes, &c., of engines" from 2 to 9.

10. The number of cattle accidents on the South Indian Railways shows a decrease of 16, but owing to increases under other heads there has been a net decrease of 9 accidents only.

11. The casualties resulting from accidents to trains, &c., were—among passengers and others—1 killed and 2 injured against 12 injured, and among servants, 6 injured against 16 killed and 26 injured. In the second quarter of 1884 the number of casualties was heavy in consequence of 14 Railway servants having been killed and 14 injured by the derailment of a ballast train on the Sind, Punjab and Delhi Railway.

12. The following table exhibits the number of accidents under the different classes, and the number of persons killed and injured thereby:—

| DESCRIPTION.                                                                                                    | Number of accidents. | NUMBER OF PASSENGERS AND OTHERS. |          | NUMBER OF SERVANTS. |          | TOTAL.  |          |

| Other accidents                                                    | 71                   | 1                                | ...      | 2                   | ...      | 1       | 2        |
| TOTAL                                                              | 1,057                | 1                                | 2        | 6                   | ...      | 1       | 8        |

13. The number of collisions between goods trains, or parts of goods trains, decreased from 27 to 19, or by 8, chiefly owing to there being only one accident of this description against 8 on the Great Indian Peninsula Railway.

14. The cases in which passenger trains, or parts of passenger trains, left the metals numbered 16 against 24. On the Darjeeling-Himalayan Railway alone there was a decrease of 10 accidents under this head.

15. On the Madras Railway, as the mail train from Madras—consisting of the engine, tender, and 13 carriages—was approaching the Cuddapah Station at 1.40 A.M. on the 29th April 1885, the last 11 carriages and the hind wheels of the tender were thrown off the rails, owing to some fish-plates and keys having been maliciously removed by gate-watchman. With the exception of some slight damage to the rolling stock and permanent-way, no other injury was done. The offender was tried at the Sessions Court of Cuddapah and sentenced to seven years' rigorous imprisonment.

16. The cattle accidents were the most numerous on the Rajputana-Malwa Railway, being 128 out of a total of 401. Next to this line stand the Eastern Bengal and Great Indian Peninsula Railways, the numbers on which were 62 and 40 respectively. The increase on the Rajputana-Malwa Railway appears to be due, to a large extent, to increased train mileage, the percentage of increase in the number of accidents being 28 against an increase of 23 per cent. in the train mileage.

17. The numbers of "Failures of machinery, springs, &c., of engines" and of "Failures of couplings" were very large on the Indus Valley and Eastern Bengal Railways. Under the former head there have been on these two lines 16 and 15 accidents, respectively, out of a total of 59, and under the latter, 10 and 7 out of a total of 20.

18. There were 35 cases of failure of "wheels, &c.," of which 34 occurred on the Jorhat Railway alone. It is understood that new and stronger wheels are being substituted on this Railway.

19. Under "Fire in trains" the number of cases has increased from 101 to 121, of which 39 have occurred on the Great Indian Peninsula Railway, 24 on the Indus Valley Railway, and 21 on the Madras Railway. On the Great Indian Peninsula Railway with an increase of 3 per cent. in the train mileage, the accidents under this class have increased 77 per cent.

20. The casualties to passengers from causes other than accidents to trains, &c., were—

|                                                                              | Killed.  | Injured.  |

24. In addition to the above, 18 persons are reported to have been killed and 78 injured in yards, workshops, &c., and 127 passengers to have met death in carriages and at stations from causes unconnected with the working of trains.

**RESOLUTION.**—The attention of the officers concerned should be drawn to the large increase in the number of cattle accidents on the Madras, Rajputana-Malwa, and Cawnpore-Achnera Railways, and to the large number of cases of fire in trains on the Madras, Great Indian Peninsula, and Indus Valley State Railways. The Bombay Government should be asked to report specially on the progress recently made in fencing the Rajputana-Malwa Railway; and what steps it is proposed to take to complete the fencing on those portions of the line where cattle accidents occur most frequently.

**ORDER.**—Ordered, that this Resolution, with the Abstract Returns, be communicated to the Local Governments, Administrations, and Officers noted in the margin, for information.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.  
The Chief Commissioner of the Central Provinces, Assam, and British Burma.  
The Residents, Hyderabad and Mysore.  
The Agents to the Governor General for Rajputana, Central India, and Baluchistan.  
The Director General of Railways.  
The Consulting Engineers to the Government of India for Guaranteed Railways.

Ordered also, that copies be forwarded to the Secretary of State, for the information of Her Majesty's Government.

Ordered further, that this Resolution, with the Abstract Returns, be published in the Supplement to the *Gazette of India*.

FRED. FIREBRACE, Major, R.E.,

Under Secretary.

Documents accompanying  
Abstract Return of Accidents for the second quarter of 1885.

Statement showing the dates on which the Returns of Accidents on the undermentioned Railways for the Second Quarter of 1885 were received by the Government of India.

| Number. | Railways.                         | Date of Receipt.    | REMARKS.         |

GOVERNMENT OF INDIA.  
PUBLIC WORKS DEPARTMENT.  
CIVIL WORKS.  
Irrigation.

REVIEW OF THE ADMINISTRATION REPORT OF IRRIGATION WORKS IN THE  
MADRAS PRESIDENCY FOR 1884-85.

No. 324 L, Fort William, December 23, 1885.

RESOLUTION.—By the Government of India, Public Works Department.

Read—

Administration Report of Irrigation Works in the Madras Presidency for 1884-85.

OBSERVATIONS.—The direct Capital outlay of 1884-85 is compared below with the final grant for the year :—

|                                                                           | No.<br>of works. | Final grant.<br>Rs. | Expenditure.<br>Rs. |
|---------------------------------------------------------------------------|------------------|---------------------|---------------------|
| Productive Public Works                                                   | 8                | 17,67,510           | 16,10,544           |
| Ordinary Irrigation Works for which Capital and Revenue Accounts are kept | 6                | *4,18,303           | +3,60,956           |
| Protective Works (Rushikuliya Project)                                    | 1                | 1,76,618            | 1,36,732            |

The short outlay was due to the prevalence of cholera in the Kistna and Nellore districts, to the competition of railways for labour, and to heavy rainfall and unusual floods in the southern districts.

2. The total Capital outlay (direct and indirect) incurred on Productive Irrigation Works up to the end of the year amounted to Rs. 4,32,65,737; the gross revenue of the year, direct and indirect, to Rs. 33,90,139; the maintenance charges, including cost of collection in Revenue Department, to Rs. 12,03,495, and the net revenue to Rs. 21,86,644, or 5.05 per cent. on the Capital outlay to the end of the year. The corresponding return of the previous year amounted to 6.16 per cent. If, however, the Kurnool Canal, Barur Tank, and Sangam Project—three works as yet absolutely unremunerative—be excluded from the account, the net returns of 1884-85 would amount to 9.31 per cent. on the Capital outlay to the end of the year.

3. The total areas irrigated from Productive Public Works and the revenue derived from them (including the areas and revenue due to the old Irrigation Works) are compared below with those of the previous year :—

| Year.   | Crop.  | Irrigated area.<br>Acres. | Irrigation<br>revenue.<br>Rs. | Rate per<br>acre.<br>Rs. |
|---------|--------|---------------------------|-------------------------------|--------------------------|
| 1883-84 | First  | 1,814,844                 | 56,07,840                     | 3.09                     |
|         | Second | 154,973                   | 4,11,351                      | 2.65                     |
|         | Total  | 1,969,817                 | 60,19,191                     | 3.05                     |
| 1884-85 | First  | 1,666,565                 | 52,54,870                     | 3.15                     |
|         | Second | 126,830                   | 3,23,020                      | 2.55                     |
|         | Total  | 1,793,395                 | 55,77,890                     | 3.11                     |

4. The area occupied for irrigation on the Godavari canals amounted to 553,905 acres, of which 545,472 acres were effectively irrigated, the corresponding areas of the previous year having been 563,041 and 545,981 acres, and the total area irrigable being 612,000 acres. The total income from all sources (exclusive of that derived from former works) amounted to Rs. 17,87,360; the maintenance charges (direct and indirect), including cost of collection at 5 per cent., to Rs. 6,15,532, and the net revenue to Rs. 11,71,828, or 9.90 per cent., on Rs. 1,18,33,177, the total Capital outlay of all kinds to the end of the year.

\* Rs. 1,60,000 grant-in-aid from "Protective" Funds towards Buckingham Canal included in this.  
† Rs. 1,01,318 expenditure on Buckingham Canal against grant from "Protective" included in this.

The river began to rise on June 27, 1884, and did not again fall below the level of crest of the weir until March 30, 1885. In September a flood, which lasted three days, rose to the unusual height of 14.70 feet on the crest of the weir, only 0.55 feet less than the highest flood hitherto recorded. The Gunnarum aqueduct in the Central Delta of the Godavari was breached for a length of 160 feet during August 1884, but, owing to the rapidity with which temporary repairs were effected, water was passed across the breach within ten days of the date of the accident.

5. The area irrigated and the irrigation revenue of the Kistna amounted to 309,479 acres and Rs. 10,16,039 during 1884-85; those of the previous year having been 298,226 acres and Rs. 9,72,379, and the total area irrigable being 475,000 acres.

The gross revenue, exclusive of old irrigation, amounted to Rs. 11,02,571; the maintenance charges to Rs. 3,44,079, including cost of collection, and the net revenue to Rs. 7,58,492, or 10.59 per cent. on Rs. 71,61,408, the total Capital outlay of all kinds to the end of the year.

The river did not rise over the weir crest until an unusually late date—July 4th, 1884; but the freshes, though late, were sufficient in quantity and not excessive, so that the year was, on the whole, favourable to irrigation.

6. The Navigation receipts and charges of 1884-85 on the Godavari and Kistna canals are compared below with those of the previous year and the averages of the 5 years ending with 1880 :—

|                                     |          | Receipts.<br>Rs. | Charges.<br>Rs. | Balance.<br>Rs. |
|-------------------------------------|----------|------------------|-----------------|-----------------|
| Average of 5 years ending with 1880 | Godavari | 50,548           | 68,038          | —17,490         |
|                                     | Kistna   | 19,379           | 32,421          | —13,042         |
|                                     | Total    | 69,927           | 1,00,459        | —30,532         |
| 1883-84                             | Godavari | 53,378           | 63,414          | —10,036         |
|                                     | Kistna   | 12,960           | 54,030          | —41,050         |
|                                     | Total    | 66,358           | 1,17,444        | —51,086         |
| 1884-85                             | Godavari | 82,559           | 1,47,261        | —64,702         |
|                                     | Kistna   | 19,160           | 61,819          | —42,659         |
|                                     | Total    | 1,01,719         | 2,09,080        | —1,07,361       |

The increase in charges appears to call for enquiry, although the outlay on the Godavari canals during 1884-85 was evidently due to exceptional causes.

7. The following statement gives the more important items of information for the remaining Productive Irrigation Works for 1884-85 :—

| Name of Irrigation System. | Capital outlay, direct & indirect, to end of 1884-85. | Acres irrigated. | Revenue from all sources. | Charges, including cost of collection. | Net revenue. | Per cent. on Capital outlay. |
|----------------------------|-------------------------------------------------------|------------------|---------------------------|----------------------------------------|--------------|------------------------------|
|                            | Rs.                                                   |                  | Rs.                       | Rs.                                    | Rs.          |                              |
| Penner                     | 16,57,072                                             | 63,043           | 1,27,928                  | 21,422                                 | 1,06,506     | 6.43                         |
| Kurnool                    | 1,75,62,464                                           | 25,651           | 1,32,286                  | 2,14,585                               | —82,299      | —0.47                        |
| Kavari                     | 14,24,263                                             | 814,196          | 1,56,333                  | —4,090                                 | 1,60,423     | 11.26                        |
| Srivaikuntham              | 14,03,058                                             | 35,854           | 89,580                    | 17,886                                 | 71,694       | 5.11                         |

8. The Revenue Account of the Sangam Anicut Project was opened during the year, a small area of land having been irrigated from the works for the first time, but the revenue was not booked, and there were no charges on Revenue Account except the usual percentage on revenue allowed to cover cost of establishment; Rs. 20,49,529 had been expended up to the end of the year on Capital Account against a sanctioned estimate of Rs. 35,69,049.

9. The area irrigated on the Kurnool Canal compares favourably with that of the previous year—

|         | Acres irrigated. | Irrigation revenue. |      | Rate per acre. |
|---------|------------------|---------------------|------|----------------|
|         |                  | Rs.                 | Rs.  |                |
| 1883-84 | 19,674           | 67,945              | 3.45 |                |
| 1884-85 | 25,651           | 84,815              | 3.30 |                |

1,561 acres of land, which had not been irrigated for ten years, were taken up for wet cultivation at  $\frac{1}{2}$  rates for the first 5 years and  $\frac{3}{4}$  rates for a second term of 5 years, and 3,324 acres of unoccupied land, free of charge for the first 5 years and at half rates for a second term of 5 years; full rates being in each case payable at the end of 10 years.

10. There was a considerable decrease both in area irrigated and irrigation revenue of the Kavari Delta, due to heavy floods which occurred at the close of 1884 and caused much injury both to irrigation channels and standing crops.

| Year.   | Acres irrigated. | Irrigation revenue. |      | Rate per acre. |
|---------|------------------|---------------------|------|----------------|
|         |                  | Rs.                 | Rs.  |                |
| 1883-84 | 1,001,848        | 29,31,551           | 2.92 |                |
| 1884-85 | 814,196          | 24,10,613           | 2.96 |                |

The *minus* quantity shewn in column of maintenance charges against these works is due to the cost of maintenance of the improved works being less than that of the old ones.

In November 1884 an extraordinary fall of rain occurred along the coast, 20 inches having been registered in 24 hours at Tiruvalur and Nandalar, and 25 inches in 7 days at Tranquebar.

11. The same heavy rainfall and the resulting floods caused a falling off of 4,517 acres in the irrigated area and of Rs. 17,091 in the irrigation revenue of the Srivaikuntham Anicut System. The average water-rates per acre, Rs. 5.75 for first and Rs. 3.22 for second crop, are higher on this system than on any of the others.

12. In the following statement are shewn the net revenue returns on Capital outlay obtained from the Ordinary Imperial and Provincial Irrigation Works for which Capital and Revenue Accounts are kept:—

| Name of System or Work.          | Capital outlay, direct and indirect, to end of 1884-85. | Acres irrigated. | Revenue from all sources. | Charges, including cost of collection. | Net revenue. | Per cent. on Capital outlay. |
|----------------------------------|---------------------------------------------------------|------------------|---------------------------|----------------------------------------|--------------|------------------------------|
|                                  | Rs.                                                     |                  | Rs.                       | Rs.                                    | Rs.          |                              |
| IMPERIAL { Chambrambakam Tank    | 7,36,589                                                | 18,547           | 38,601                    | 6,457                                  | 32,144       | 4.36                         |
| { Palar Anicut                   | 16,89,932                                               | 88,201           | 1,21,745                  | 42,522                                 | 79,223       | 4.69                         |
| { Pelandorai Anicut              | 3,94,142                                                | 4,237            | 8,115                     | 18,910                                 | -10,795      | -2.74                        |
| PROVINCIAL { Madras Water-supply | 17,53,981                                               | 8,804            | 13,164                    | 63,735                                 | -50,571      | -2.88                        |
| { Buckingham Canal               | 58,39,326                                               | ...              | 47,188                    | 99,077                                 | -51,889      | -0.89                        |

13. The irrigated area of the Chambrambakam Tank and Palar Anicut works agreed very closely with that of the previous year; but, on the Chambrambakam Tank, the net return rose from 3.33 per cent. in 1883-84 to 4.36 per cent. in 1884-85, owing to a decrease in maintenance charges; and on the Palar Anicut it fell off from 5.31 to 4.68 per cent., owing to a decrease in irrigation revenue.

On the Pelandorai Anicut the irrigated area and irrigation revenue fell from 5,187 acres and Rs. 13,860 in 1883-84 to 4,237 acres and Rs. 11,208 in 1884-85; but, owing to a large decrease in maintenance charges, the deficit of the latter year was only Rs. 10,795 against Rs. 17,807 in 1883-84.

The anicut was breached during December 1884 for the third time since its completion in 1876, and Rs. 30,000 will be required to repair the accident.

14. Owing to a serious breach in the embankment of the Red Hills Tank, during a cyclone on the night of November 20-21, 1884, the irrigated area and revenue fell from 10,554 acres and Rs. 23,228 during 1883-84 to 8,804 acres and Rs. 17,871 in 1884-85; the net result of the latter year being a loss of 2.88 per cent. against a profit of 0.68 per cent. in 1883-84. The receipts collected in the Public Works Department for the supply of fresh water to the town of Madras amounted to Rs. 5,529 only.

On the Buckingham Canal the receipts and charges amounted to Rs. 47,188 and Rs. 99,077 during 1884-85 against Rs. 50,111 and Rs. 1,74,859 in 1883-84; the deficit of the year having been reduced in consequence from Rs. 1,24,748 to Rs. 51,889 for 1884-85.

15. The direct outlay during 1884-85 upon Irrigation Works for which neither Capital nor Revenue Accounts are kept, amounted during the year to Rs. 19,39,604 against a final grant of Rs. 19,83,827.

Of the total outlay, Rs. 3,44,809 were allotted to meet old maintenance charges of works for which Capital and Revenue Accounts are kept; Rs. 2,28,849 were expended on extensions and improvements; Rs. 1,87,069 on the "Tank Maintenance" Schemes, and the balance on Repairs and Establishment charges. The grant for the year was Rs. 2,15,086 and the expenditure Rs. 2,39,745 in excess of the grant and expenditure of 1883-84. 2,571,738 acres of first crop rice were irrigated from those works, yielding an irrigation revenue of Rs. 68,02,656; the average incidence of irrigation revenue being Rs. 2.64 per acre; of second crop rice 688,502 acres were irrigated, yielding Rs. 13,71,985 at an average rate of Rs. 1.99 per acre.

The total outlay of all kinds\* amounted to 19.51 per cent. of the Irrigation revenue derived from the works, the corresponding proportion having been 15.19 in 1883-84.

\* Excluding old maintenance charges of works for which Capital and Revenue Accounts are kept.

16. The direct outlay upon Agricultural Works during the year amounted to Rs. 4,18,191 against an allotment of Rs. 4,47,815; the outlay of the previous year having been Rs. 4,32,902, and that of 1882-83, Rs. 5,67,999.

17. The expenditure on Protective Works amounted to Rs. 2,20,623, against a grant of Rs. 3,26,618. Of the total allotment under this head, Rs. 1,50,000 were given as a "grant-in-aid" towards completion of the Buckingham Canal.

18. The rainfall of the year averaged 37.60 inches over the Presidency, but was unequally distributed both in season and locality, the fall of the north-east monsoon having been 23.6 inches,—nearly 70 per cent. in excess of the 14 inches which fell in the south-west monsoon. The rainfall too, while unseasonable and scanty in some parts of the Presidency, was injuriously excessive in others. Heavy floods occurred towards the end of 1884 in the districts along the Coromandel Coast, breaching tanks and anicuts to a very serious extent.

**ORDER.**—Ordered, that a copy of the Resolution be forwarded to the Government of Madras for information.

The Governments of Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department.  
The Chief Commissioner, Central Provinces.  
The Agent to the Governor General for Rajputana.

Also, that a copy of the Resolution be forwarded to the Local Governments and Administrations marginally noted, for information.

Also, that a copy be forwarded to the Publisher of the *Gazette of India* for publication in the Supplement to the Gazette.

H. A. BROWNLOW, Colonel, R.E.,

Deputy Secretary to the Govt. of India.

## GOVERNMENT OF INDIA.

## REVENUE AND AGRICULTURAL DEPARTMENT.

## REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 23rd DECEMBER 1885.

**GENERAL REMARKS.**—Rain has fallen in all the reporting districts of the Madras Presidency, where the condition of the crops continue to be favourable. In Bellary the standing crops have been much improved, but in Kurnool and Tanjore they have been somewhat injured by last week's rain. Good rain has fallen generally in the Bangalore, Kolar, Tumkur, and Mysore districts of the Mysore Province, and the condition of the standing crops is good. In Coorg the week's rainfall has been unfavourable to the crops, but in other respects agricultural prospects continue good.

In Bombay there has been rain in most districts of the Deccan and Southern Mahratta Country and parts of Upper Sind Frontier. In parts of Nasik and Khandesh the *rabi* crops need more rain. Reaping of *khari*f and sowing of the *rabi* crops continue in some districts. In the Berars the *rabi* continues in good condition, but the *jowari* and cotton crops have been injured to some extent by the late rains. In Hyderabad the *khari*f harvest is over; the gram, wheat and tobacco crops are reported to have been slightly damaged by the rain. In Central India and Rajputana rain has been almost general and has been of much benefit to the standing crops, which promise well.

Good rain has fallen in the North-Western Provinces and Oudh, greatly benefiting the opium and *rabi* crops. In the Punjab also rain is reported from every district and prospects are on the whole favourable. In Shahpur, Peshawar, and Rawalpindi more rain is wanted for the crops. In the Central Provinces the heavy showers of the past two weeks have been beneficial to the *rabi* crops except in Nagpur and Raipur, where slight damage is reported. The general rain in Bengal has been very beneficial to the *rabi* crops which are everywhere doing well, and to the poppy in Behar and Hazaribagh. The *amun* harvest is generally yielding very well except where the crop was destroyed by floods in August and September. In Assam agricultural prospects continue favourable.

In British Burma the rice crop is being reaped with prospects of a good outturn. The public health continues fair.

Prices are unsteady in Mysore and falling in Coorg. In Bengal the price of rice is generally much cheaper than last year; elsewhere prices are generally stationary.

| Presidency or Province and District. | Rainfall for week under report.            | State of agricultural prospects.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------------------|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Madras—(Dec. 23rd)</b>            |                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Bellary . . . . .                    | (Average) 0.36                             | Early dry crops much improved; white <i>cholum</i> suffering from disease in parts of one taluk and pulses from insects in another; wet crops good; harvest wet and dry grains, yield, paddy about average, dry grains above average. Fever in parts of two talukas.                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Kurnool . . . . .                    | 1.06                                       | Standing early crops injured by recent unseasonable rains. Harvest paddy and early cereals, yield below average. Smallpox in one taluk and cattle-disease in another.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Ganjam . . . . .                     | (Average) 0.27                             | Harvest paddy, outturn below average. Smallpox in one taluk and cattle-disease in four places; 25 deaths from cholera.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Kistna . . . . .                     | " 0.91                                     | Standing crops generally fair. River 2 feet 9 inches over Anicut. Paddy harvest still continues in parts of district; <i>rabi</i> much benefited by late rain; poppy healthy, and its prospects favourable. Public health good.                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Cuttack . . . . .                           | 1.61                                                             | Weather cloudy. Reaping of late rice continues with fair outturn. Price of rice unchanged. Cholera still bad in Jajpore and Kendrapara; fever virulent in some parts.                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|                                             |                                                                  | <i>General Remarks</i> —Rain in all districts during the week. It has been very beneficial to <i>rabi</i> crops, which are everywhere doing well, and to poppy crop in Behar and Hazaribagh. In Gya, however, some injury to poppy is reported. <i>Amun</i> harvest is generally yielding very well, except where the crop was destroyed by August and September floods. Price of rice generally much cheaper than last year, except in Calcutta and neighbouring districts. Fever and cholera severe in some parts of Cuttack, and cholera increasing in Tipperah, elsewhere public health generally fair. |

Provinces and Oudh—(23rd Dec.)</b> |                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Benares . (Dec. 22nd)                       | 1.5                                                              | Weather cloudy till 21st. The rain has been of great benefit to <i>rabi</i> crops which are coming on well. Supplies ample, but owing to import of food grains being somewhat impeded by the rainfall which has lasted throughout the week from a drizzle to an occasional good shower, prices have slightly risen. Health generally good, and there is no cattle-disease in the district.                                                                                                                                                                                                                  |
| Gorakhpur . ( „ 21st)                       | 1.2 till the 19th instant                                        | Weather cloudy; rain beneficial to poppy and <i>rabi</i> sowings. Prices stationary. Cholera has disappeared.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Fyzabad . ( „ 22nd)                         | 2.5 at Sadar                                                     | Weather cloudy. Prospects of crops good. Poppy sowing completed. Markets well supplied. Cholera still prevalent in the district.                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Lucknow . ( „ 21st)                         | 2.4 to 2.5<br>Heavy rains and strong winds on the 17th and 18th. | The rains will be highly beneficial to <i>rabi</i> and poppy crops. If succeeded by clear weather, <i>rabi</i> crops will be well supplied. Prices risen. Fodder very dear. Health of people good, as well as the condition of cattle.                                                                                                                                                                                                                                                                                                                                                                      |
| Rae Bareilly . ( „ „ )                      | Rain all over the district, 2.6 at Sadar.                        | Weather cloudy. <i>Rabi</i> crops greatly benefited. Markets full. Prices stationary. General health fair.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Partabgarh . ( „ 22nd)                      | 2.0 at Sadar, 1.9 in Kunda, and 1.0 in Patti.                    | <i>Rabi</i> and opium crops are in general promising well, but the latter in low lands are likely to suffer from damp. Prices show a fall in <i>arhar</i> , rice, and gram.                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Allahabad . ( „ „ )                         | Good rain all over the district.                                 | Weather cloudy. Crops much benefited; poppy prospects reported good. Market well supplied. Prices fairly stationary. Health of men and cattle good.                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Cawnpore . ( „ 21st)                        | General and good rain during the week.                           | Rain has much benefited the <i>rabi</i> crops; poppy crops doing well and young plants reported to be strong and healthy. Prices show a tendency to rise. Some fever in four parganas; very little cattle-disease.                                                                                                                                                                                                                                                                                                                                                                                          |
| Banda . ( „ 22nd)                           | Good and general rain during the week.                           | Rain has greatly benefited <i>rabi</i> crops. Prices slightly lower. Public health and condition of cattle very good.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Ballia . ( „ 21st)                          | 0.9 average rainfall during the week.                            | Sky clear to-day. Prospects of <i>rabi</i> much improved. Sugarcane being pressed. Supplies sufficient. Health of men and cattle good.                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Farakhabad . ( „ 22nd)                      | 0.8 average throughout the district.                             | Weather not yet clear. Prices steady. Health of people fair.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

### HOME DEPARTMENT.

#### NOTIFICATION.

#### ESTABLISHMENTS.

*Simla, the 11th August, 1885.*

No. 216.

A temporary vacancy having occurred in the office of Lieutenant-Governor of Bengal, consequent on the grant of leave for one month to the Honourable Sir Augustus Rivers Thompson, K.C.S.I., the Governor-General of India is pleased, under the authority vested in him by the 29th Section of the Act 21 and 22 Vic., Cap. 106, and subject to the approbation of Her Majesty, to appoint Mr. H. A. Cockerell, C.S.I., Member of the Board of Revenue, Lower Provinces, to officiate as Lieutenant-Governor of Bengal temporarily during the absence of Sir A. R. Thompson on the said leave.

The Honourable Mr. Cockerell assumed charge of the office of Lieutenant-Governor of Bengal this forenoon.

By order of the Governor-General of India in Council,

A. MACKENZIE,

*Secretary to the Government of India.*

FOREIGN DEPARTMENT.

NOTIFICATION.

EXTERNAL.

*Simla, the 17th September, 1885.*

No. 12442.

The Governor-General in Council announces with deep regret the death, on the 12th instant, of **HIS HIGHNESS MAHARAJA RANBIR SINGH, INDAR MAHINDAR BAHADUR, SEPAH-SALTANAT**, Knight Grand Commander of the Most Exalted Order of the Star of India, Companion of the Indian Empire, Councillor of the Empress, Honorary General in Her Majesty's Army, **THE MAHARAJA OF JAMMU AND KASHMIR.**

**HIS HIGHNESS** succeeded as the Second Ruler of the Kashmir State twenty-eight years ago; and signalled his accession by rendering valuable services to the British Government during the Mutiny. The Governor-General in Council feels that by his death the Indian Empire has lost a great and honoured Chief, whose loyalty to the Crown had been conspicuously proved in time of trial.

By order of the Governor-General of India in Council,

H. M. DURAND,

*Secretary to the Government of India.*

### MILITARY SECRETARY'S OFFICE.

#### NOTIFICATIONS.

*Viceroy's Camp, Agra, the 26th November 1885.*

His Excellency the Viceroy and Governor-General will hold a Levée at Government House, Calcutta, on Thursday, the 17th December 1885, at 9-30 p. m.

All Civil and Military Officers and the Native Officers of the Native Regiments of the Garrison are invited to attend.

Gentlemen purposing to attend the Levée are requested to send their cards to the Aide-de-Camp in waiting not later than Monday, the 14th December 1885, after which "no cards" will be received, and to bring with them to the Levée two cards with their names legibly written on them, one to be given on entering Government House, and the other to the Aide-de-Camp in waiting at the time of presentation.

Gentlemen who have not already been presented at the Court of St. James or at Government House will be good enough to add the names of Gentlemen who will present them.

Gentlemen wearing uniform will appear in full dress.

Gentlemen not wearing uniform will appear in evening dress.

The carriages of Gentlemen (except such as have the private entrée) attending the Levée will enter by the North-East Gate, set down under the Grand Staircase, and pass out by the North-West Gate.

---

Their Excellencies the Viceroy and the Countess of Dufferin will hold a Drawing-room at Government House, Calcutta, on Monday, the 21st December 1885, at 9-30 p.m.

Ladies purposing to attend the Drawing-room are requested to send their cards and addresses to the Aide-de-Camp in waiting not later than Thursday, the 17th

December 1885, after which "no cards" will be received, and to bring with them to the Drawing-room two cards with their names legibly written on them, one to be given on entering Government House, and the other to the Aide-de-Camp in waiting at the time of presentation.

Ladies who have not already been presented at the Court of St. James or at Government House are requested to send their cards with their addresses and the name of the Lady by whom they are to be presented to the Aide-de-Camp in waiting as soon as possible.

Ladies who present others should themselves attend the Drawing-room.

The carriages of those who have the private entrée will enter by the South-East Gate and set down at the South entrance of Government House.

All other carriages will enter by the North-East Gate, set down under the Grand Stairs, and pass out by the North-West Gate.

By Command,  
W. BERESFORD, *Major*,  
*Military Secretary to the Viceroy.*

### MILITARY SECRETARY'S OFFICE.

#### NOTIFICATION.

*Calcutta, the 11th December 1885.*

The arrival of His Excellency the Viceroy has been postponed from Saturday, the 12th December 1885, to Wednesday, the 16th December 1885.

Arrangements for the reception of His Excellency the Viceroy, as laid down in Notification of the 16th October 1885, will hold good on the 16th instant.

By Command,

H. COOPER, *Major,*

*A.-D.-C.,*

*for Military Secretary to the Viceroy.*

Calcutta, MONDAY, DECEMBER 14, 1885.

**MILITARY SECRETARY'S OFFICE.**

**NOTIFICATION.**

*Calcutta, the 14th December 1885.*

His Excellency the Viceroy's arrival in Calcutta will be strictly private. The orders contained in the Notification from this Office on the 11th instant for His Excellency's official reception are therefore countermanded.

The Levee is again unavoidably postponed from Friday, the 18th, to Monday, the 21st instant; and the Drawing-Room from Monday, the 21st instant, to Tuesday the 22nd.

By Command,  
H. COOPER, *Major,*  
*A-D-C.,*  
*for Military Secretary to the Viceroy.*
