1. Provided that any person accused before any Criminal Court of an offence may, with the permission of the Court, but not otherwise, appoint any person to assist him in his defence :

Provided further that any person, ex-officio or otherwise, authorized to act for Government in respect of any judicial proceeding, may make, and do appearances, acts, and applications, within the scope of his authority on behalf of Government.

The application shall be accompanied by certificates proving the qualifications of the applicant under these rules.

Provided that no person who has now been allowed to practise in the Courts of the Civil and Military Station of Bangalore, shall be allowed to continue practising in the said Courts after three months from the date of the promulgation of these rules, unless he has been admitted by the Resident in Mysore under these rules.

10. The Resident in Mysore may suspend or dismiss any Advocate or Pleader enrolled under the foregoing rules, who is convicted of any criminal offence implying a defect of character, which unfits him to be an Advocate or Pleader, or who is guilty of fraudulent or grossly improper conduct in the discharge of his professional duty.

11. If any Advocate or Pleader practising in the Resident's Court or in any Court subordinate thereto, is charged in such Court with fraudulent or grossly improper conduct in the discharge of his professional duty, the Judge of the Court shall cause a formal charge to be drawn up, set-

ting forth concisely and exactly the alleged misconduct, and shall send a copy of the charge to the said Advocate or Pleader, and also a notice that on a day to be therein appointed, such charge will be taken into consideration. Such copy and notice shall be served upon the Advocate or Pleader at least 10 days before the day so appointed. On such day, or any subsequent day to which the enquiry may be adjourned, the Court shall receive and record all evidence properly adduced in support of the charge or by the Advocate or Pleader, and shall proceed to adjudicate upon the charge.

12. If the Judge is the Judge of the Court subordinate to the Resident's Court, and he finds the charge established, and considers that the Advocate or Pleader should be suspended or dismissed in consequence, he shall record his finding and the grounds thereof, and shall report the same to the Resident's Court, and that Court shall proceed to acquit, suspend or dismiss the Advocate or Pleader.

13. Such report, when made by the Judge of any Court subordinate to the District Court, or by any Magistrate subordinate to the District Magistrate, shall be submitted through the District Judge or through the District Magistrate, as the case may be, who shall append to the report any remarks that he may think necessary and an expression of his own opinion of the case.

14. The District Judge or the District Magistrate may, pending the investigation and orders of the Resident's Court, suspend any Pleader charged before him or before any Court or Magistrate subordinate to him.

15. The Resident's Court, in any case in which an Advocate or Pleader has been acquitted otherwise than by an order of its own, may call for the record and pass such order thereon as it may deem fit.

16. The Resident's Court may also direct that any charge preferred against an Advocate or Pleader in any Court subordinate to it, shall be transferred for adjudication to itself or to any other Court of equal or superior grade to that in which the charge is preferred.

17. The suspension of any Advocate or Pleader shall be noted in the roll of Advocates or Pleaders in the Resident's Court, and notice thereof shall be sent to all Courts subordinate to that Court.

CHIEF COMMISSIONER OF AJMERE-MERWARA.

NOTIFICATIONS.

Abu, the 20th March 1886.

No. 273—115-*II.*—In exercise of the powers conferred by section 5, Act XIV of 1874 (the Scheduled Districts Act) the Chief Commissioner of Ajmere-Merwara is pleased, with the previous sanction of the Governor-General in Council, to extend Act XIX of 1883 (the Land Improvement Loans Act) to the Scheduled District of Ajmere-Merwara, with effect from the 1st of January 1886.

The following rules are made by the Chief Commissioner of Ajmere-Merwara with the previous sanction of the Governor-General in Council, under section 10, Act XIX of 1883 :—

Rules made by the Chief Commissioner of Ajmere-Merwara, with the previous sanction of the Governor-General in Council, under section 10, Act IX of 1883.

I.—The Chief Commissioner will inform the Commissioner of Ajmere what amount will be placed at his disposal for loans under the Act for each financial year. The Commissioner will divide the sum between Ajmere and Merwara at his discretion, and may transfer for expenditure in either of the tracts any part of the amount allotted by him for expenditure in the other. But the total expenditure in the two tracts must be kept within the amount assigned by the Chief Commissioner. If an additional grant is required, application should at once be made for it.

II.—Subject to the provisions of these rules, the Commissioner may sanction loans not exceeding ₹5,000 for purposes specified in the Act. Loans exceeding ₹5,000 require the sanction of the Chief Commissioner. The Commissioner or Chief Commissioner may call for such detailed plans and estimates or such professional opinion with respect to a project as may seem to him to be necessary.

III.—An application for a loan may be made to any Revenue Officer of or above the rank of a Tahsildar.

IV.—The application, if made in writing, should be as nearly as possible in Form A If an oral application is made, the officer to whom it is made shall cause it to be recorded as nearly as possible in that form.

V.—The officer to whom the application is made shall either make an enquiry himself, or cause one to be made by a Revenue officer not below the rank of a Naib Tahsildar or supervising Kanungo, for the purpose of ascertaining the particulars mentioned on the reverse of Form A. If, in the opinion of the officer to whom the application is made, it is expedient that public notice of the application should be given under section 5 of the Act, he will publish a notice thereof by fixing it up in a conspicuous place in the village, or in each village, which will be affected by the proposed improvement. If he determines not to give public notice of the application, he shall record with his own hand his reasons for considering such notice not to be expedient.

VI.—When the value of the applicant's interest in the land to be improved is sufficient to cover the loan, collateral security need not be required. Personal security may be accepted when the sureties are a body of village residents who bind themselves jointly and severally to the Government for the payment of the whole amount payable in respect of the loan. Moveable property should rarely be accepted as security.

VII.—The date for the repayment of the first instalment shall be fixed with reference to the time when the improvement will begin to yield a return.

VIII.—The date for the repayment of the last instalment shall not, without the sanction of the Chief Commissioner, exceed fifteen years from the date on which the loan, or the last instalment of it, was advanced. The amount of the instalments shall be fixed with reference to the annual profit likely to accrue from the improvement.

IX.—If the Chief Commissioner has prescribed tables consolidating principal and interest in instalments, the repayment of the loan shall be arranged in accordance with those tables. If such tables have not been prescribed, the instalments of principal may be so arranged as to increase approximately in proportion as the charge for interest decreases.

X.—On completion of the enquiry and verification of the security, the officer to whom the application was made may sanction the loan himself if empowered to do so, otherwise he shall forward the application with his report through such channel as the Chief Commissioner may prescribe, to the officer who is empowered to sanction the loan.

XI.—An order granting a loan shall be in Form B hereto annexed, and shall be signed by the applicant in token that he understands and agrees to the conditions contained therein. When the sureties (if any) whom the applicant is required to furnish give personal security only, the bond to be executed by them shall be in Form C hereto annexed. When immoveable property is required to be given as collateral security, the security bond shall be in Form D hereto annexed.

XII.—A copy of the order shall be given to the applicant, and payment of the loan, or where the loan is advanced in instalments, of each instalment of the loan, shall be made at the tahsil on its presentation.

XIII.—(*a*) The rate of interest shall be one anna in the rupee, or 6¼ per cent. per annum.

(*b*) But the Chief Commissioner may, for special reasons, sanction a loan at a lower rate of interest or without interest.

(*c*) If an instalment of principal is not paid when it falls due, the Commissioner may, if he thinks fit, charge interest on it at any rate not exceeding 6¼ per cent. per annum from the date of its falling due to the date of payment.

XIV.—The dates for repayment of instalments of a loan should usually be the dates fixed for payment of instalments of land revenue.

XV.—Instalments may be suspended by order and at the discretion of the Commissioner on proof of failure of crops or other exceptional calamity.

XVI.—When any portion of a loan made under these rules is found to be irrecoverable, special report shall be made to the Chief Commisioner.

XVII.—Any Revenue officer not inferior in rank to the Tahsildar may at any time enter on and inspect any land for the benefit of which a loan has been granted, and any work in progress thereon.

XVIII.—As soon as may be after a loan has been granted, the officer or authority granting it shall cause the patwari of the circle in which the land to be improved is situated to copy into his *roznamcha* so much of the order granting the loan as relates to the amount of the loan, the manner in which the loan is to be advanced, the nature of the improvement for the purpose of which it has been granted, and the time or times by which the whole or parts of the improvement is or are to be completed.

XIX.—At such intervals as the Chief Commissioner may by general order prescribe in this behalf, the patwari shall submit, through the supervising kanungo, the tahsildar, and the Assistant Commissioner, to the Commissioner a report as to the expenditure of the loan and the progress of the work for the purpose of which the loan was granted.

XX.—The Chief Commissioner shall regulate the forms of all returns, registers, and accounts relating to advances under the Act.

POST OFFICE.

NOTIFICATIONS.

Simla, the 5th April 1886.

With effect from the 1st May 1886, the limit of weight for *light* parcels exchanged with the United Kingdom through the *British Post Office** will be raised from 7 lbs. to 11 lbs. The postage rate (8 annas per lb.) and general conditions relative to such parcels despatched from India remain unaltered.

* See Clauses 216 to 221, and Clauses 225 to 228 of the Postal Guide, dated April 1886.

2. From the same date the maximum limit of weight for parcels exchanged with Malta and Gibraltar will be raised from 7 lbs. to 11 lbs.

3. *Heavy* parcels exchanged with the United Kingdom through the medium of the Peninsular and Oriental Steam Navigation Company* are not affected by this change; the maximum limit of weight for such parcels is 50 lbs. as heretofore.

* See Clauses 217 and 225 of the Postal Guide, dated April 1886.

4. The Commissioners of Customs in the United Kingdom have recently pointed out the frequent omission, on the part of senders, to give a proper or true description of the contents of parcels forwarded from India; special attention is called to Clause 211 of the Postal Guide, where it is distinctly stated that "the contents (of a parcel) should be stated *in full detail*, a separate description of each article, and its value, being given" and that "an incorrect declaration of value renders a parcel liable to confiscation."

1. The Map Record and Issue Office, Calcutta, supplies printed maps from stock on book-debit on the public service. It also arranges for the colouring and mounting of maps when required, but work of this description must be paid for *in cash*, as well as charges for packing cases, carriage, and postage.

4. The mode of transit and address or station to which the maps are to be sent should invariably be specified.

5. Indent forms for maps on the public service can be obtained from the Assistant Surveyor General, in charge of the Surveyor General's Office.

6. Lists of all newly published maps are periodically notified inh te Gazettes of India and Local Governments.

Requisitions for Lithographic or Photographic Work.

7. The Lithographic and Photographic Offices at Calcutta reproduce maps, plans and drawings by lithography and by photography on book-debit on the public service, and on cash payment in certain special cases only. The Trigonometrical Branch Office at Dehra Dun does not, as a rule, undertake work for other Departments.

8. As a rule, drawings in line can be reproduced by photozincography if suitably drawn in accordance with instructions, which may be obtained on application to the Assistant Surveyor General, Photographic Office, No. 1, Wood Street, Calcutta. Coloured and other drawings unsuitable for photozicography must be lithographed, but the cost is considerably greater.

9. Photographs if required in large numbers can be cheaply reproduced by the photo-collotype and heliogravure processes from suitable negatives.

10. All applications for Lithographic or Photographic work on the public service should, if possible, be submitted in the following form, which is not required in duplicate. Blank forms may be obtained on application to the Assistant Surveyor General, Surveyor General's Office.—

INDENT No. on the LITHOGRAPHIC / PHOTOGRAPHIC OFFICE, S. I. DEPT., for ..... to be reproduced by .....

for the use of ..... *dated* ..... 188 .

Description of Map or drawing.	Number of original sheets.	Scale.	Sale of reproduction.	Number of copies required.	Quality and size of paper to be printed on.	Purpose for which required.	How and where to be despatched and other special instructions.
							The address which should be affixed to the parcels or cases to be distinctly given in full. Abbreviations sometimes lead to mistakes.

I do hereby certify that the maps, &c., specified in this indent are indispensably necessary to the best of my knowledge and belief, after the most careful examination.

Recommended.

Countersignature of approvnig authority. *Signature of Indenting Officer, with designation of appointment in full.*

11. All necessary information as to the scale of reproduction, number of copies required, quality and size of paper, mode of transit, and address to which proofs and printed copies are to be despatched, should be shown on the face of the indent and not in a covering letter, unless more explanation is required than can be given on the face of the indent.

12. All indents must be duly approved and countersigned by the heads of departments, or the Government under which indenting officers may be serving, before they can be supplied, *viz.* :—

and they should be addressed to the Assistant Surveyor General, in charge of the Lithographic and Photographic Offices, Calcutta, at No. 1, Camac Street and No. 1, Wood Street, respectively.

13. Lithographic and Photographic work will be undertaken on behalf of Municipalities, Port Trusts, Railway Companies, the Trustees Indian Museum, and other quasi-official bodies for cash payment on indents in the form prescribed above. Private work cannot be undertaken except in very special cases, when it cannot possibly be done otherwise, and when the Office can take it up without inconvenience. On such work an extra charge of 10 per cent. will be made over and above the usual rates. In all cases where cash payment is required, an estimate will be given and the amount must be remitted before the work can be put in hand.

14. As a rule, maps and drawings reproduced by lithography or photography are not coloured, but in special cases where colouring is essential, it can be arranged for on cash payment, as prescribed under Rule 1. Packing and transit charges must also be paid by indentors.

15. To enable the indenting officer, as well as the officer who countersigns and finally passes an indent, to know the cost involved thereby, the average ordinary price of each description of work executed in the Lithographic or Photographic Offices is given in the annexed list.

16. Indents should be regulated, not according to what an officer would like to have, but by what is absolutely necessary. It is in all cases an economy to have maps and drawings reproduced on as small a scale as possible.

With effect from the 1st May 1886, the limit of weight for *light* parcels exchanged with the United Kingdom through the *British Post Office** will be raised from 7 lbs. to 11 lbs. The postage rate (8 annas per lb.) and general conditions relative to such parcels despatched from India remain unaltered.

* See Clauses 215 to 221, and Clauses 225 to 228 of the Postal Guide, dated April 1886.

2. From the same date the maximum limit of weight for parcels exchanged with Malta and Gibraltar will be raised from 7 lbs. to 11 lbs.

* See Clauses 217 and 225 of the Postal Guide, dated April 1886.

3. *Heavy* parcels exchanged with the United Kingdom through the medium of the Peninsular and Oriental Steam Navigation Company* are not affected by this change; the maximum limit of weight for such parcels is 50 lbs. as heretofore.

* See Clauses 217 and 225 of the Postal Guide, dated April 1880.

4. The Commissioners of Customs in the United Kingdom have recently pointed out the frequent omission, on the part of senders, to give a proper or true description of the contents of parcels forwarded from India; special attention is called to Clause 211 of the Postal Guide, where it is distinctly stated that "the contents (of a parcel) should be stated *in full detail*, a separate description of each article, and its value, being given" and that "an incorrect declaration of value renders a parcel liable to confiscation."

The 13th April 1886.

On and after the 1st May next the four descriptions of embossed envelopes described below will be available for sale to the public at Post Offices or by licensed stamp vendors at the prices stated:—

2. The new half-anna and one-anna envelopes are larger in size than those now in use, and the quality of paper is also superior in the case of the new envelopes.

3. The existing half-anna and one-anna embossed envelopes will still be offered for sale at the value denoted upon them.

4. The registration envelopes of both sizes are now introduced into India, for the first time: they are recommended for use in connection with registered letters as providing security against damage in transit and against tampering. It should be borne in mind that the embossed stamp on the registration envelopes represents the registration fee only, and that when using these envelopes postage stamps to the required amount should be affixed in the usual way in payment of ordinary postage.

5. An adhesive stamp of the value of 4½ annas will also be available for sale to the public by the 1st May or shortly afterwards. This stamp is intended for use on letters addressed to the United Kingdom and to countries served through the United Kingdom.

2. The new half-anna and one-anna envelopes are larger in size than those now in use, and the quality of paper is also superior in the case of the new envelopes.

3. The existing half-anna and one-anna embossed envelopes will still be offered for sale at the value denoted upon them.

4. The registration envelopes of both sizes are now introduced into India, for the first time : they are recommended for use in connection with registered letters as providing security against damage in transit and against tampering. It should be borne in mind that the embossed stamp on the registration envelopes represents the registration fee only, and that when using these envelopes postage stamps to the required amount should be affixed in the usual way in payment of ordinary postage.

5. An adhesive stamp of the value of 4½ annas will also be available for sale to the public by the 1st May or shortly afterwards. This stamp is intended for use on letters addressed to the United Kingdom and to countries served through the United Kingdom.

The 6th May 1886.

With immediate effect, parcels will be received at any Indian Post Office for transmission *vid* the *United Kingdom* to the Barbadoes and the Leeward Islands (Antigua, Dominica, Montserrat, Nevis, St. Kitts and Tortola).

2. The rate of postage for parcels addressed to the places named above will be one rupee per pound.

3. The limit of weight for such parcels will be seven pounds.

4. The conditions as to size, contents, value, customs declarations and manner of posting generally will be the same as those prescribed for parcels addressed to the United Kingdom and intended for delivery through the British Post Office.

Clause 16.—Nothing in this agreement shall be construed to prevent the said Committee from taking up any of the public streets or roads traversed by the said tramway for the purposes for which the said Committee may lawfully take up the same, and the said grantees shall have no right to claim cost from the said Committee for obstructing the tramway or causing delay in the traffic so long as the delay shall not be unreasonable for the work to be performed.

Clause 17.—If at any time after the opening of any tramway for traffic the said grantees shall discontinue the working of such tramway or any part thereof for the space of six calendar months (such discontinuance not being occasioned by circumstances beyond the control of the said grantees), it shall be lawful for the said Committee, without any previous notice to the said grantees, to remove the tramway or part of the tramway so discontinued, and the said grantees shall pay to the said Committee the cost of such removal and of the making good of the street, road or bridge, and the certificate of the said Committee or of their engineer as to such costs shall be conclusive.

Clause 18.—The provisions of this agreement shall remain and be in force for a term not less than twenty-one (21) years from the date thereof. Clause 20.—The said grantees will, if required by the Municipality, before opening and breaking up the soil and pavement of any street or bridge, deposit in an approved Bank in Lahore, in the name of the said Municipality, the sum of Rs. 1,000 or in their option Promissory Notes of the Government of India or Municipal Bonds of the nominal value of Rs. 1,000, and the same will remain so deposited until the completion by the said grantees of the lines of tramway herein sanctioned for immediate construction. But all interest accruing on the said sum or the said notes shall be credited to the said grantees, and subject as next hereinafter mentioned, be paid to them as the same shall accrue due: provided, nevertheless, that the said Municipality shall be entitled to deduct out of the sum so deposited or the interest accruing on the said sum or notes, or out of the proceeds of sale of the said notes, all moneys to which they may be entitled under any clause or clauses of these presents.

If the said rent or any part thereof shall not be paid on due date, the said grantees shall be liable to pay interest thereon at the rate of 8 per cent. per annum from the due date until payment.

Clause 23.—The sleepers, rails, materials and implements and other erections placed and erected by the said grantees on the streets, bridges or roads under the powers hereby granted shall be and remain the property of the said grantees, and the said grantees shall have the exclusive use of their tramway or tramways for carriages with flanged wheels or other wheels suitable only to run on the prescribed rail.

Clause 24.—Unless the said grantees shall have commenced the work of laying down the said tramways within twelve months from the date of the execution of these articles of agreement, the said Committee shall be at liberty to cease and determine this contract and to enter into arrangements with any other person or persons for the construction of tramways; it being agreed, however, that these conditions of contract are subject to the sanction of Government, and that, in the event of their being executed prior to such sanction being given, the said 12 months shall date from the day on which notice of such sanction is given to the said grantees: provided also that any delay in commencing the work beyond 12 months shall not have been due to any cause beyond the control of the said grantees.

Clause 25.—If any doubt, difference or dispute shall arise between the said grantees and the said Committee touching the construction of these presents or anything herein contained, or touching or concerning any other matter or thing relating to these presents, then and in every such case such doubt, difference or dispute shall be referred to the arbitration of two persons, one to be chosen by the said grantees and the other by the said Committee within one calendar month after either of them shall have made to the other a requisition to that effect, and should the arbitrators fail to agree they shall refer the question or questions at issue to the decision of an umpire to be chosen by the said arbitrators, and the decision of such arbitrators if they agree, or of such umpire if they disagree, shall be final; and in case either party shall neglect or refuse to appoint an arbitrator within the specified time, the arbitrator appointed by the other party shall make a decision alone, and the decision of such arbitrators, umpire or arbitrator, as the case may be, shall be effectual and binding upon both parties.

Clause 26.—The said grantees are to be at liberty to form a Company or Limited Liability Company for the purpose of constructing, maintaining and working the tramways authorized by or hereafter to be authorized under the terms of this agreement. The words "the said grantees" used in this agreement shall include such Company or Limited Liability Company so formed as aforesaid.

S. HARVEY JAMES,
Offg. Secretary to the Government of India.

The following Report of the Select Committee on the Bill to authorize the making, and to regulate the working, of Street Tramways in Lahore was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd December, 1885:—

LEGISLATIVE DEPARTMENT.

WE, the undersigned, Members of the Select Committee to which the Bill to authorize the making, and to regulate the working, of Street Tramways in Lahore was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

Office memorandum from Government of India, Public Works Department, No. 554 R. C., dated 17th June, 1885 [Paper No. 1].
From Officiating Secretary to Government, Punjab, No. 870, dated 9th November, 1885, and enclosures [Papers No. 2].

2. A portion of the tramways mentioned in the agreement between the Municipal Committee of Lahore and the grantees would lie beyond the limits of the municipality. As the Committee has authority only within the municipality, we have, with the concurrence of the Lieutenant-Governor of the Punjab, limited the operation of the Bill to the local area within municipal limits. The tramway which it is proposed to construct beyond those limits can be authorized hereafter when the Indian Tramways Bill has been passed.

3. In section 3 we have provided that the fitness of a tramway for public traffic shall be certified by an Inspector appointed by the Local Government. At Lahore there is not now an officer holding the office of Engineer to the Municipal Committee. In England the Inspector is appointed by the Board of Trade.

4. To section 20 we have prefixed a sub-section empowering the Local Government to make rules for regulating the use of steam or other mechanical power on the tramways, and for the inspection of the engines worked on or in connection with the tramways. In England the Board of Trade by its provisional orders reserves to itself the power of making rules for these purposes.

5. As some time has elapsed since the agreement between the Municipal Committee and the grantees was executed, and some works have to be constructed within limited periods after the commencement of the contract, we have in effect provided in section 21 that the contract shall not be deemed to have commenced till the Bill has been passed.

In section 24 we have provided for a case which section 165 of the Punjab Municipal Act, 1884, renders possible.

7. The other alterations which we have made are unimportant and do not call for special notice.

8. The publication ordered by the Council has been made as follows:—

Clause 2.—The said grantees shall further (subject to clauses 3 and 4) have the exclusive right of laying, constructing, maintaining and using a tramway or tramways within the limits of the Lahore Municipality on the terms contained in these presents: provided always that if the said grantees shall at any time or times, not being a period less than three months after the construction of the lines 1 and 2 enumerated in clause 1, refuse or neglect for three months to accept any proposal by the said Lahore Municipality for the construction, maintenance and use of any tramway or tramways other than those mentioned in clause 1, which the said Lahore Municipality may consider necessary or desirable, it shall be lawful for the said Lahore Municipality to employ any other person or company for the purposes aforesaid or any of them, and to make such arrangements as they may think proper independently of the said grantees.

Clause 3.—The said grantees shall construct in such manner as to be available for use at least tramways 1 and 2 within two years from the date of obtaining the sanction and approval of the Government of the Punjab, and they shall, before the expiration of the third year, give notice in writing to the said Lahore Municipality of the lines they intend to construct during the next succeeding two years; and failing the observance by the said grantees of the terms of this clause, it shall be lawful for the said Lahore Municipality to withdraw and cancel the concessions and rights granted by these presents to the said grantees as regards the lines remaining to be constructed.

Clause 4.—If the grantees shall, at the expiration of five years from the date of commencement of this contract, have left any one or more lines hereinbefore in clause 1 specified unconstructed, and if the said Lahore Municipality shall not have exercised the rights conferred on them by clause 3, the said Lahore Municipality may call upon the said grantees to construct the line or lines, and if the said grantees do not construct the line or lines within twelve calendar months after receiving such formal notice, then their power granted in this concession shall, so far as relates to that line or lines, cease, and the said Lahore Municipality may make arrangements with other persons for the construction of the same.

Clause 5.—Any tramway or tramways to be constructed under this agreement shall be constructed on the metre gauge of 3 feet 3⅜ inches, or on such other gauge not exceeding 4 feet 8½ inches as may be mutually agreed upon, and especially the rails shall be laid and maintained in such manner that the uppermost surface of the rails shall be on a level with the surface of the road; and before the work of construction is begun the drawings and specifications showing the proposed construction of each tramway shall be submitted to the said Municipality and be approved by them, and the cars and carriages intended to run on the said tramways shall also be such as shall have been approved of by the Municipality. The rail to be used is the ordinary grooved rail of steel weighing 34 pounds per yard.

Clause 6.—If the said Municipality shall hereafter alter the level of any street or road along or across which any tramway by this agreement authorized is laid or authorized to be laid, the grantees shall alter or (as the case may be) lay their rails so that the uppermost surface thereof shall be on a level with the surface of the road so altered: provided always that any such alteration as aforesaid shall be so made as to interfere as little as possible with the safe and convenient working of the said tramways, and in any case so as not to stop or prevent the free use and working thereof.

Clause 7.—The cars and carriages of the said grantees on the tracks of the said tramways shall be worked with such power, animal or mechanical, as the said grantees may think suitable, provided that no steam carriages may be used without the special consent of the Municipality (Commissioners in special general meeting) and the sanction of the Punjab Government, and provided also that the said Municipality (Commissioners in special general meeting) shall have power at all times to make such regulations as to the rate of speed, number of passengers and mode of use of the said tracks as the convenience and safety of the public using the street may require.

Clause 8.—The said grantees shall have power from time to time to fix the rate of fares for carrying persons and goods in the cars or carriages to be run on the said tramway or tramways: provided that the rates of fares shall for any distance not exceed the rate of one anna per mile for the lower class and two annas per mile for the higher or first class for each passenger.

Clause 9.—The said grantees may, for the purpose of constructing and maintaining such tramways under such superintendence as is hereinafter

The Lahore Tramways Act, 1886.

(*The Schedule.*)

Clause 10.—Before the said grantees proceed to open or break up any street, road or bridge, they shall obtain the approval in writing of the said Committee to the tracks or lines of the said tramway being laid down on the said streets, roads or bridges, and the said grantees, before opening or breaking up any street, road or bridge, shall give to the said Committee or their Executive Engineer, or other municipal officer duly appointed for that purpose, notice in writing of their intention to open or break up the same not less than three clear days before beginning such work, except in such cases of emergency arising from defects in any of the rails or other works, and then so soon as is possible after the beginning of the work or the necessity for the same shall have arisen.

Clause 11.—No street, road or bridge shall, except in cases of emergency as aforesaid, be opened or broken up, except under the superintendence of the said Committee or of their Executive Engineer, or of some other municipal officer duly appointed for that purpose, and according to such plans as shall be approved of by him or them: provided always that, if the said Committee or their Engineer or other such officer as aforesaid fail to attend at the time fixed for the opening of any such street, road or bridge after having had such notice of the said grantees' intention as aforesaid, or shall not propose any plan for breaking up or opening the same, or shall refuse or neglect to superintend the operation, the said grantees may perform the work specified in such notice without such superintendence as aforesaid.

Clause 12.—When the said grantees open or break up the roadway or pavement of any street, road or bridge, they shall with all convenient speed complete the work for which the same shall be broken up, and fill in the ground and make good the roadway or pavement so opened or broken up as aforesaid, and carry away the rubbish occasioned thereby, and deposit the same for the use of the said Committee at such place as the Executive Engineer of the said Municipality shall direct, and shall at all times, whilst any such roadway or pavement shall be so opened or broken up, cause the same to be guarded, and shall cause a light sufficient for the warning of passengers to be set up and maintained against or near such roadway or pavement where the same shall be open or broken up every night during which the same shall continue open or broken up.

Clause 13.—If the said grantees open or break up any street, road or bridge without giving such notice as hereinbefore mentioned, or in a manner different from that which shall have been approved of or determined as aforesaid, except in the cases in which the said grantees are hereby authorized to perform such work without any superintendence or notice, or if the said grantees shall make any unnecessary delay in completing any such work or in filling in the ground or reinstating and making good, so far as is consistent with the existence of the said tramway, the roadway or pavement so opened or broken up, or in carrying away the rubbish occasioned thereby, or if they neglect to cause the place where such roadway or pavement has been broken up to be guarded and lighted, they shall forfeit to the said Committee a sum not exceeding fifty (50) rupees for every such offence, and they shall forfeit an additional sum not exceeding fifty (50) rupees for each day during which any such delay or neglect as aforesaid shall continue after they shall have received notice thereof.

Clause 14.—The said grantees shall maintain and keep in repair such portion of the streets, roads and bridges as shall be occupied by their tracks or lines, including therein, not only the space between their tracks or lines, but a space eighteen inches on either side thereof, and in consideration of the maintenance of such streets, roads and bridges as aforesaid, and of the yearly rent hereinafter mentioned to be paid by the grantees, the plant, rolling-stock and other vehicles, yards, workshops, engine-sheds and depôts of the said grantees shall be exempt from municipal taxation for a period of five years, except lighting and water-rates for such yards, workshops, engine-sheds and depôts.

to do so upon their undertaking to indemnify the said Committee against all losses, damages and expenses in respect thereof: provided always that, if the said grantees fail to settle such suit or to indemnify the said Committee as is hereinbefore provided, it shall be lawful for the said Committee to settle the same without any consent or concurrence on the part of the said grantees, and the sums which they shall have to pay in making such settlement, together with interest thereon at the rate of 8 per cent. per annum from the date of payment, and with all expenses which they may be put to, shall be recoverable as a debt from the said grantees.

Clause 16.—Nothing in this agreement shall be construed to prevent the said Committee from taking up any of the public streets or roads traversed by the said tramway for the purposes for which the said Committee may lawfully take up the same, and the said grantees shall have no right to claim cost from the said Committee for obstructing the tramway or causing delay in the traffic so long as the delay shall not be unreasonable for the work to be performed.

Clause 17.—If at any time after the opening of any tramway for traffic the said grantees shall discontinue the working of such tramway or any part thereof for the space of six calendar months (such discontinuance not being occasioned by circumstances beyond the control of the said grantees), it shall be lawful for the said Committee, without any previous notice to the said grantees, to remove the tramway or part of the tramway so discontinued, and the said grantees shall pay to the said Committee the cost of such removal and of the making good of the street, road or bridge, and the certificate of the said Committee or of their engineer as to such costs shall be conclusive.

Clause 18.—The provisions of this agreement shall remain and be in force for a term not less than twenty-one (21) years from the date thereof. The said Committee shall have the right of purchasing the said tramways, with the plant, stores, rolling-stock, sheds, depôts and yards, and everything connected therewith, after the expiration of the said twenty-one (21) years, upon declaring its intention so to do within six months after the expiration of the said twenty-one (21) years; the amount to be paid in the event of such purchase shall be the actual *bonâ fide* value at the termination of this agreement, exclusive of any compensation for goodwill, premium on compulsory sale or other consideration whatever, of the tramways and of the work and materials connected therewith, and of the lands and buildings and all the other property of the grantees, such value to be decided by mutual agreement or by arbitration as hereinafter provided.

Clause 19.—The provisions hereinbefore contained shall, so far as applicable, apply to all tramways to be constructed by the said grantees by any route or routes to be hereafter sanctioned by the said Committee, and to the works connected with or incidental to such tramways, it being agreed that in the event of the Municipality failing to declare its intention as above provided to purchase the property of the said grantees, the terms of this contract shall continue in force during the period of six months from the date of the determination of these presents and for a further period of six months, and if the said Committee shall not within that time exercise the option of purchase hereby given, the said Committee and the said grantees shall enter into a fresh agreement.

Clause 20.—The said grantees will, if required by the Municipality, before opening and breaking up the soil and pavement of any street or bridge, deposit in an approved Bank in Lahore, in the name of the said Municipality, the sum of Rs. 1,000 or in their option Promissory Notes of the Government of India or Municipal Bonds of the nominal value of Rs. 1,000, and the same will remain so deposited until the completion by the said grantees of the lines of tramway herein sanctioned for immediate construction. But all interest accruing on the said sum or the said notes shall be credited to the said grantees, and subject as next hereinafter mentioned, be paid to them as the same shall accrue due: provided, nevertheless, that the said Municipality shall be entitled to deduct out of the sum so deposited or the interest accruing on the said sum or notes, or out of the proceeds of sale of the said notes, all moneys to which they may be entitled under any clause or clauses of these presents.

The books and accounts shall at all times be open to the inspection of the Municipal Committee, and should any dispute arise as to the exact charge to be made by the said Municipality, then such matter or matters in dispute shall be referred to arbitrators as detailed in clause 25 of this agreement. If the said rent or any part thereof shall not be paid on due date, the said grantees shall be liable to pay interest thereon at the rate of 8 per cent. per annum from the due date until payment.

(The Schedule.)

Clause 22.—From and after the commencement of the 15th year of this contract to the end of the 21st, the said grantees shall not be at liberty to enter upon any fresh arrangements or expenditure which would increase their capital account in connection with this contract without first notifying their intention to the said Municipality and obtaining their approval thereof and sanction thereto in writing.

Clause 23.—The sleepers, rails, materials and implements and other erections placed and erected by the said grantees on the streets, bridges or roads under the powers hereby granted shall be and remain the property of the said grantees, and the said grantees shall have the exclusive use of their tramway or tramways for carriages with flanged wheels or other wheels suitable only to run on the prescribed rail.

Clause 24.—Unless the said grantees shall have commenced the work of laying down the said tramways within twelve months from the date of the execution of these articles of agreement, the said Committee shall be at liberty to cease and determine this contract and to enter into arrangements with any other person or persons for the construction of tramways; it being agreed, however, that these conditions of contract are subject to the sanction of Government, and that, in the event of their being executed prior to such sanction being given, the said 12 months shall date from the day on which notice of such sanction is given to the said grantees: provided also that any delay in commencing the work beyond 12 months shall not have been due to any cause beyond the control of the said grantees.

Clause 25.—If any doubt, difference or dispute shall arise between the said grantees and the said Committee touching the construction of these presents or anything herein contained, or touching or concerning any other matter or thing relating to these presents, then and in every such case such doubt, difference or dispute shall be referred to the arbitration of two persons, one to be chosen by the said grantees and the other by the said Committee within one calendar month after either of them shall have made to the other a requisition to that effect, and should the arbitrators fail to agree they shall refer the question or questions at issue to the decision of an umpire to be chosen by the said arbitrators, and the decision of such arbitrators if they agree, or of such umpire if they disagree, shall be final; and in case either party shall neglect or refuse to appoint an arbitrator within the specified time, the arbitrator appointed by the other party shall make a decision alone, and the decision of such arbitrators, umpire or arbitrator, as the case may be, shall be effectual and binding upon both parties.

S. HARVEY JAMES,
Offg. Secretary to the Government of India.

The following Report of the Select Committee on the Bill to authorize the making, and to regulate the working, of Street Tramways in Lahore was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd December, 1885:—

LEGISLATIVE DEPARTMENT.

WE, the undersigned, Members of the Select Committee to which the Bill to authorize the making, and to regulate the working, of Street Tramways in Lahore was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

Office memorandum from Government of India, Public Works Department, No. 554 R. C., dated 17th June, 1885 [Paper No. 1].
From Officiating Secretary to Government, Punjab, No. 870, dated 9th November, 1885, and enclosures [Papers No. 2].

2. A portion of the tramways mentioned in the agreement between the Municipal Committee of Lahore and the grantees would lie beyond the limits of the municipality. As the Committee has authority only within the municipality, we have, with the concurrence of the Lieutenant-Governor of the Punjab, limited the operation of the Bill to the local area within municipal limits. The tramway which it is proposed to construct beyond those limits can be authorized hereafter when the Indian Tramways Bill has been passed.

3. In section 3 we have provided that the fitness of a tramway for public traffic shall be certified by an Inspector appointed by the Local Government. At Lahore there is not now an officer holding the office of Engineer to the Municipal Committee. In England the Inspector is appointed by the Board of Trade.

4. To section 20 we have prefixed a sub-section empowering the Local Government to make rules for regulating the use of steam or other mechanical power on the tramways, and for the inspection of the engines worked on or in connection with the tramways. In England the Board of Trade by its provisional orders reserves to itself the power of making rules for these purposes.

5. As some time has elapsed since the agreement between the Municipal Committee and the grantees was executed, and some works have to be constructed within limited periods after the commencement of the contract, we have in effect provided in section 21 that the contract shall not be deemed to have commenced till the Bill has been passed.

In section 24 we have provided for a case which section 165 of the Punjab Municipal Act, 1884, renders possible.

7. The other alterations which we have made are unimportant and do not call for special notice.

8. The publication ordered by the Council has been made as follows:—
