The 7th June, 1888.

UNDER SECTION 9 OF THE SUITS VALUATION ACT, 1887.

No. 563-719.—Whereas the subject-matter of the following classes of suits does not admit of being satisfactorily valued, the Chief Commis-

sioner of Ajmere-Merwara is pleased to direct, in supersession of Notification No. 1111-719, dated the 10th September, 1887, published at page 539 of the *Gazette of India*, Part II, of 17th idem, that they shall be treated for the purposes of the Court-fees Act, 1870, and of the Suits Valuation Act, 1887, and the Ajmere Courts Regulation, 1877, as if their subject-matter were of the value hereinafter stated.

(1) Suits in which the plaintiff in the plaint asks for a decree against the other party to the alleged marriage either alone, or with other defendants, for restitution of conjugal rights, or for a decree for the recovery of a wife.

(2) Similar suits for a decree establishing, or annulling, or dissolving a marriage.

(3) Suits in which the plaintiff in the plaint asks for a decree establishing a right to the custody or guardianship of a minor, including guardianship for the purpose of marriage.

VALUE.—The value of suits of these four classes shall be deemed to be as follows:—

(*a*) For the purpose of the Court Fees Act—

Suits of class 1, ₹100.

Suits of classes 2, 3, and 4, ₹200.

(*b*) For the purpose of the Suits Valuation Act, 1887, and the Ajmere Courts Regulation, 1877, such sum exceeding ₹500, and not exceeding ₹1,000, as the plaintiff shall specify in the plaint.

(5) Suits by a plaintiff during the lifetime of a person alleged to have a restricted power of alienation in respect of immoveable property, in which the plaintiff in the plaint seeks to have an alienation of immoveable property made by such person declared to be void except for the life of such person or for some other determinate period.

VALUE.—When the alienation is by a written instrument which declares the value of the interest purporting to be created, or the amount of the consideration for which the alienation is made, such value or amount. In other cases the value, at the date of institution of the suit, of the property alienated.

EXPLANATION.—When the property alienated is a right of occupancy in land, the value shall be deemed to be half the value of the land discharged from such right of occupancy.

(6) Suits in which the plaintiff in the plaint asks for accounts only, not being suits for the amount which will be found due to the plaintiff on taking unsettled accounts between him and the defendant, or suits of either of the kinds described in Section 213, Civil Procedure Code.

(7) Suits in which the plaintiff in the plaint seeks to establish or to negative any right hereinafter mentioned, with or without any injunction, and with or without damages, *viz.*, a right of way; a right to open, or maintain, or close a door or a window, or a drain or a water shoot (parnala); a right to or in a watercourse or to use of water; a right to build, or raise, or alter, or demolish a wall, or to use an alleged party wall or joint staircase.

The 8th June, 1888.

No. 572-374.—In exercise of the powers conferred upon him by Sections 4 and 5 of Act XIV of 1879 (The Hackney Carriages Act, 1879) the Chief Commissioner of Ajmere-Merwara is pleased, with the previous sanction of the Governor-General in Council, to make the following rules for the regulation and control of hackney carriages in the Military Cantonment of Nusseerabad. The rules shall be published within the cantonment limits, in such manner as the Cantonment Committee may direct, for a period of not less than one month, at the expiration of which they shall have the force of law.

Rules.

1. No hackney carriage of any of the classes determined by these rules shall be let to hire or taken to ply or offered for hire except under a license granted in that behalf by the Cantonment Committee.

2. Such license shall be issued from the Cantonment Magistrate's Office after the carriages have been approved of by the Cantonment Committee or such person as they shall appoint to determine the class to which the carriages shall belong.

3. There shall be four classes of hackney carriages according to the quality of horses and vehicles, and licenses shall be granted to them subject to all the provisions contained in these rules and to the following conditions, *viz.*:—

(*a*) That the carriage is in good order and repair in all its parts.

(*b*) That it is provided with two serviceable lamps, with the exception of carriages of the 4th class, which shall be required to carry one lamp only.

(*c*) That the horse is not or the horses are not less than 12½ hands high for carriages driven with a pair, and 13 hands for carriages driven with a single horse, and not less than 3 years of age.

(*d*) That the harness is complete and serviceable.

4. Licenses shall continue in force for the official year during which they are granted. But they shall be liable to revocation within that time by order of the Cantonment Committee or such person appointed on their behalf, on proof

before them or him that the proprietor or his agent has been guilty of an infringement of any of these rules, or that the conditions on which the license was granted are not fully maintained.

5. An application to renew the license shall be made one month before the expiry of the year of license and the renewed license shall be granted in the same way and by the same officers as provided in rules 2 and 3, on payment of the same fee as for the original license.

6. When a licensed hackney carriage is transferred to a new proprietor during the time of license, the name of such proprietor shall be duly reported both by the transferor and transferee to the Cantonment Magistrate's Office and shall be substituted in the license for the name of the transferor without further payment.

7. Each license shall bear a serial number and this number shall be printed in English, Hindi, and Urdu, in a conspicuous place on the licensed hackney carriage.

8. All hackney carriage licenses and carriages shall be produced for inspection whenever ordered by the Cantonment Committee or such person as they may empower to do so on their behalf.

9. No person shall be allowed to act as the driver of a licensed vehicle except under a driver's license granted to him on that behalf by the officers mentioned in rule 2. A driver's license is not transferable and shall be granted for the official year. A driver's license shall not be granted to any person under 18 years of age.

10. Every driver so licensed shall wear, while driving a licensed carriage or plying for hire, a badge on his arm, bearing the number of his license.

11. The licenses for hackney carriages and drivers shall be in the form attached to these rules and shall be printed on strong paper. The fee for carriages of the 4th class shall be annas 8 only, and drivers of such carriages shall not be required to take out a license.

12. Any proprietor or agent of the proprietor or driver of any licensed vehicle, who knowingly permits it to be drawn by a less number of horses than is provided in the license, or knowingly permits more passengers to be carried in such carriage than is permitted by these rules, or who shall do any act in contravention of rules 1, 7, 8, 9, 10, 13, 15, 16, 18, 22, 23, and 25, shall, in addition to the forfeiture of his license, be liable to a fine which may extend to ₹50.

13. Any driver who cruelly beats, illtreats, overdrives or otherwise misuses any horse driven in a licensed vehicle, shall be liable to forfeiture of his license to drive, in addition to any other punishment to which he may be liable under any law in force for the time being.

14. It shall be lawful for any person named in rule 2 to enter premises on which licensed vehicles, horses, harness, &c., are kept, in order to carry out the provisions of these rules.

15. The Cantonment Committee shall from time to time appoint places as stands for licensed carriages, which shall use these places and none other.

The regulation of the order in which hackney carriages shall rank on the stand shall be under the control of the police.

16. The driver of a licensed carriage waiting on a public stand or plying for hire, shall, at any time of day or night, be bound to give such carriage on hire to any person demanding the same, unless for a good or sufficient reason, the burden of proving which shall lie on the driver so refusing, but shall be entitled to claim his discharge after a continuous hire of a day of nine hours.

One copy shall be provided yearly at the time of licensing by the Cantonment Committee, but the renewal of a list which has become lost, destroyed, or defaced, shall rest with the proprietor who shall renew it at once.

'That under the head English literature there ought to be both Prose and Poetry; that the pieces selected should in point of quantity be such as can be conveniently mastered by the students within the time allowed, and that in point of quality they should be such as can be well and easily appreciated by an Indian youth of fifteen or sixteen years of age.

'That English grammar and composition should be studied by Entrance students more with a view to be able to write plain English correctly than with a view to learn the philology of the English tongue.

'That there be two examination papers only in English as at present: the first to contain questions on the text-books and questions on grammar arising therefrom, the second to contain passages in a vernacular as defined in paragraph 6 of the Regulations for the Entrance examination, for translation into English, together with questions on English composition.

'That in the case of students whose vernacular is English, a special paper be set in which simple essays or letters or other original composition should replace the passages for translation into English.'

Sentences in each language in which the candidate is examined shall be given for translation into the other language, and where a candidate takes up an oriental language for his second language he shall be required to translate sentences in English into one of the following vernacular languages :—

Under the provisions of Section 15 of the Code of Criminal Procedure, the Resident in Mysore is pleased to direct that the aforesaid special (honorary) Magistrates shall sit as a Bench of Magistrates with powers of a Magistrate of the third class to try offences coming within Sections 352 and 504 of the Indian Penal Code, and offences against the conservancy clauses of Police Acts.

3. Under the provisions of Section 261 of the Code of Criminal Procedure, the Resident in Mysore is further pleased to invest the said Bench of Special (honorary) Magistrates with powers to try summarily the offences against the conservancy clauses of Police Acts punishable only with fine or with imprisonment for a term not exceeding one month.

4. Under the provisions of Section 191 of the Code of Criminal Procedure, the Resident in Mysore is further pleased to empower the said Bench to take cognizance, under clause (a) and clause (b) thereof, of offences against the conservancy clauses of Police Acts.

5 Under the provisions of Section 265 of the said Code, the Resident in Mysore is also pleased to empower the said Bench to prepare the record of cases tried summarily by them by means of any clerk of the regular establishment who may be deputed by the Magistrate of the District to perform such duty.

No. 3208—3838.—Under Section 16 of the Criminal Procedure Code, the Resident in Mysore is pleased to lay down the following rules for the guidance of the Bench of Magistrates constituted under Notification No. 3207—3838, dated 24th September, 1888.

(1) The Bench shall sit on three days in the week, *viz.*, on Monday, Wednesday and Friday, at such time as District Magistrate may fix. The sittings shall be held in the Municipal Office (Mayo Hall) or other public place which the District Magistrate may appoint.

(2) The following special Magistrates—

1. Mr. R. P. Campbell,
2. Mr. M. Ganesh Sing,
3. Mr. B. Sreenivasa Iyenagar,
4. Mr. T. Vijiaragvalu Naidu,

shall be the Chairmen of the Bench, each Chairman shall preside in rotation at the Bench meetings. The Bench shall not consist of more than four members (including the Chairman) at a time, and the Chairman with one other special Magistrate shall form a quorum. The Special Magistrates will sit in the rotation arranged by the District Magistrate.

(3) The Bench may hold one or more adjourned sittings if this be found necessary for the disposal of business or part heard cases. Provided that if any case is adjourned and the members at the adjourned sessions are not the same as sat at the first hearing of the case, the provisions of Section 350 of the Criminal Procedure Code will be held to apply to the case.

(4) The Chairman shall conduct the proceedings of the Court, and shall exercise all the functions in that behalf usually exercised by a Magistrate when sitting alone. He shall decide upon the admissibility of evidence and maintain order in the Court; but it shall be open to any member of the Bench to put any question to the parties or witnesses, either direct or through the Chairman, as the latter may deem advisable, and to suggest any matter for the Chairman's consideration.

(5) In the trial of ordinary cases, the Chairman shall generally record the evidence and judgment, but such duty may, with his consent, be performed by any one of his colleagues.

In the trial of summary cases, where the Bench has been invested with summary powers, the necessary record shall be prepared by the Chairman or one of his colleagues, or by means of the Clerk of the Court, but in every case the record must be signed by each member of the Bench who is present.

(6) Each member of the Bench shall have a voice in the finding and sentence, which shall be signed by the Chairman and by the members present.

In regard to the finding, when the number of members is uneven, the opinion of the majority shall prevail; when the number is even, and the members are equally divided, the accused shall get the benefit of the doubt.

In regard to the sentence, the opinion of the majority shall prevail; when the members are equally divided, the Chairman shall have the casting vote: when the opinions of members are all different (as in a full Bench of three members), the opinion of the Chairman shall prevail.

(7) The District Magistrate may make over cases in which accused persons are charged under Sections 352 and 504 of the Indian Penal Code, to the Bench for trial, but a complicated and somewhat difficult case should not be referred.

(8) No Bench shall take cognizance of any offence committed by any European British subject or Government official. Any such case shall be forwarded to the District Magistrate for disposal.

By Order,

F. E. K. WEDDERBURN.
Assistant to the Resident.

NOTIFICATION.

Abu, the 11th October, 1888.

AJMERE IRRIGATION RULES, 1887.

The following Rules, to be called "The Ajmere Irrigation Rules," have been framed by the Chief Commissioner under Section 4 of the Ajmere Irrigation Regulation, 1887, and having received the sanction of the Governor-General in Council, are hereby promulgated for general information :—

RULES.

A.—The rates at which Water Revenue is to be assessed and the Mode of Assessment. (Regulation, Section 4 (1) (a).)

1. For the purposes of these Rules, tanks in Ajmere-Merwara are divided into four classes, as follows :—

1st Class.—Those in which the irrigated area pays either a crop-rate, varying as the crop sown, or a special contract rate settled by agreement in lieu of the same.

2nd Class.—Those in which a standard area, and a standard revenue have been fixed and under which the land pays a rate which, within defined limits, varies in proportion to the area on which crops are irrigated or brought to maturity, and (when the supply for the spring crop runs short) as the number of waterings given to the field.

3rd Class.—Those paying an assessment fixed for a period of years and which are maintained by Government.

4th Class.—Those paying an assessment fixed for a period of years, and which are repaired by the villagers.

2. All lands irrigated from a Government tank are liable to pay water-rate according to the rules herein given, provided that nothing herein contained shall be deemed to affect the special rules for variably assessed villages.

3. Except where the rates have been fixed by special contract, the crop-rates in tanks of the 1st class shall be fixed at each settlement by order of the Chief Commissioner. Provided that no change shall be made in the rates once fixed, without the previous sanction of the Governor-General in Council, and unless such alterations have been notified to the lumberdars of the villages concerned not less than three months before the commencement of the agricultural year in which they are to take effect.

4. The following crop-rates per acre shall be charged on land irrigated from tanks of the 1st class, not paying special contract rates during the currency of the present settlement or until further orders :—

	Rs.	a.
Ordinary Autumn crop, per crop . .	3	12
Cotton per crop	5	0
Spring crops, per crop . . .	5	0
Lucerne ,, annum . . .	5	0
Sugarcane and opium, per annum . .	7	13
Rice ,, ,, ,, . .	10	15
Gardens ,, ,, ,, . .	11	14
Sowing watering ,, ,, ,, . .	1	4

(*a*) Should single waterings at special rates be applied for, they may be given for ordinary spring crops at the rate of two-fifths of the above rate (Rs 5) for one watering and four-fifths for two waterings.

(*b*) In Istimrar or Jagir fields irrigated from these tanks and paying crop-rates, when the crop is divided between the Istimrardar or Jagirdar and the cultivator, an amount of grain representing in value the water-rate, shall, previous to the division of such crop, be set aside and made over to the Istimrardar or Jagirdar, who shall thereupon be responsible for the water-rate. If by former usage the irrigated crops so grown pay a money rent higher than the dry rate, the Istimrardar or Jagirdar shall pay the water rate, and shall be entitled to collect two-thirds of the same from the actual cultivator of the land; but if he only collects the dry rate, the cultivator shall be responsible for the whole water-rate.

5. In tanks of the 2nd class, a standard revenue has been fixed on a standard khalsa area which shall be liable to revision only at each settlement. This revenue will be collected by a rate varying between a maximum and a minimum on the principles hereinafter given. Provided that (*a*) when in consequence of the smallness of the assessable area, ascertained under rule 16 the rate exceeds the standard maximum rate, the latter only shall be collected and the balance remitted; but, (*b*), when the assessable area, ascertained as aforesaid, is greater than the standard area and the rate consequently falls below the minimum standard rate, the latter shall be collected and the surplus credited to Government.

6. The assessment of tanks of the 3rd and 4th class have been distributed on the holdings, and shall remain unchanged during the currency of the period for which such assessment was made.

7. The assessment of tanks of the 1st and 2nd class shall be made half-yearly while the crops are in the ground, after an inspection of such crops and a testing of the statements in the field by the officer deputed for this purpose. Each sharer shall be informed by notice of the sum due from him, and no assessments so made shall be collected until five weeks have elapsed from the date of such notice to allow of objections being lodged and disposed of.

8. Any objection to the assessment of a field irrigated from tanks of the 1st or 2nd class, made on the ground that the crops have not reached maturity, must be filed while the crop is on the ground and pending the disposal of any such objection the crop shall not be removed without the sanction of the Assistant Commissioner or of some officer empowered by him.

9. Any watering taken from tanks of the 1st class shall, unless special rates have been granted under rule 4 (*a*), render the cultivator liable to pay the full rates for the crop to which it is given. Provided that when the water in the tank fails before the crop is brought to maturity (as hereinafter defined), the land shall be assessed at such reduced rate as may seem to the Assistant Commissioner equitable.

10. If in tanks of the 1st or 2nd class a cultivator take water for the autumn crop with the obvious intention of softening the ground for the spring crop next ensuing, the assessing officer may direct that he shall pay the rate chargeable for a matured spring crop.

11. Land assessed at well rates at settlement, if irrigated with the permission of the Assistant Commissioner or officer empowered to act under Rule 59 from any tank of the 1st or 2nd class, shall be paid for at the uniform rate of Rs 5 per acre for the harvest. If without the permission of either of the aforesaid officers water from such tanks has been taken to such land, an extra rate not exceeding 50 per cent. of the assessment, calculated at the rate of Rs 5 per acre, may be imposed by the Assistant Commissioner as a punitive measure.

12. Water run to waste by neglect on uncultivated land from a tank of the 1st or 2nd class may be measured up and charged for at such rate, not exceeding the highest crop rate, as the Assistant Commissioner may direct; in addition to any penalty inflicted under Rule 67.

13. "Bhum" and "Muafi" lands, which have been declared to be entitled to receive water at privileged rates, shall pay uniformly Re 1-4 the acre per harvest, however many waterings they have had and irrespective of whether such lands bring a crop to maturity or not. When such lands have not been declared entitled to get water at privileged rates, they shall pay the rate of the harvest as paid under the rules by the khalsa lands of the same tank.

14. Fodder crops grown in the beds of tanks during the hot months will not be assessed.

15. The irrigated area of a village shall be shown in acres without fractions, and the water revenue of a village in rupees without fractions. In distributing water revenue on the holdings, fractions of an anna other than ¼, ½, and ¾ shall be omitted.

16. The area to be assessed in tanks of the 2nd class shall be reckoned as follows :—

(1) It will include all irrigated khalsa lands watered from the tank sluices either by flow or lift; or from wells or lifts or other irrigation works, made within the boundaries laid down under the provisions of Section 3 (1) of the Ajmere Irrigation Regulations, 1887. Provided that such land has not been already assessed to revenue at well rates by the Settlement Officer, and provided also that each acre watered from a well constructed or brought into use during the currency of the settlement within boundaries above referred to and assessed at dry rates, shall, for assessment under this rule only, count as half-an-acre.

(2) It will include all lands demarcated as part of the tank area, which in the autumn harvest bring a crop to maturity whether such crop be irrigated or not, unless it be shown that no water came into the tank, in which case no rate shall be assessed. Provided that each acre not irrigated, assessed under this Rule, shall only count as ¾ of an acre; and provided that a crop shall be considered brought to maturity in which the yield, as estimated by the assessing officer, is not less than 25 per cent of a full average yield.

(3) In the spring crop if the water is above sluice level, on February 15th, every area getting water shall ordinarily be considered as fully irrigated.

(4) When water is not above sluice level on February 15th, the number of waterings received by the standing crop in each field shall be counted, but in such countings a sowing watering shall not be included. An acre receiving only one watering shall count as ⅓rd of an acre, and one which has received two waterings as ⅔rds, every acre which has received three waterings shall be considered to have been fully irrigated. No extra charge shall be made for land which has received more than three waterings.

17. In tanks of the and class the rate for the autumn harvest shall be fixed at the close of the irrigation of such harvest, and shall depend partly on the khalsa area under crops, and partly on the height of water remaining over sluice level. If at that time little or no water remain, the rate shall, subject to the maximum and minimum mentioned in Rule 5, be obtained by dividing the khalsa irrigated area found, according to the last rule, into the tank assessment. If a considerable amount of water remains over the sluice level, and there is a reasonable prospect of a further assessment in the spring harvest, then the rate charged shall be either the minimum rate, or such rate intermediate between it and the maximum as may seem to the assessing officer most likely to ensure the collection of the standard water revenue.

18. Before the rate for the spring harvest is struck, there shall be deducted from the standard tank assessment :—

(1) Collections made under the last rule.

(2) Collections on account of sowing waterings for the spring harvest made at the uniform rate of Re 1-4 the acre, which sum shall be due, even though the land so irrigated has been ploughed only and not sown. Provided that this assessment shall not be collected from land afterwards irrigated in the same harvest from the tank.

19. If after making the deductions referred to in the preceding rule there be no balance, the rate for the spring crop shall be the minimum standard rate fixed at settlement; but if there is a balance, the rate shall be obtained by dividing such balance by the khalsa assessable area found under Rule 16 and shall be collected subject to the rules of maximum and minimum mentioned in Rule 5.

B.—The collection, suspension, remission, and the refund of water revenue. (Regulation, Sec. (4) 1 (b).)

20. The dates for the collection of the instalments of water revenue shall be the same as those sanctioned for the land revenue of the district.

21. In tanks of the 1st class, lumberdars and patels, or whosoever collects water revenue, shall receive R3 2 per cent. on collections paid in by them on or before the day on which the collections become due.

22. Subject to the orders of the Commissioner, the Assistant Commissioner may suspend the collections of any water revenue or other dues payable under these rules.

23. The Commissioner may, of his own motion or on the recommendation of the Assistant Commissioner, remit the revenue of any tank to the amount of one-quarter of the whole assessment of the same, if the tank be of the 2nd, 3rd, or 4th class. And to the amount of one-quarter of the assessment in any particular holding in tanks of the 1st class. All other remissions require the sanction of the Chief Commissioner, to whom they shall be submitted half-yearly for orders.

24. No refund of collections made under these rules shall be granted except with the sanction of the Commissioner.

C.—Distribution of water of tanks and the decision of disputes with respect thereto. (*Regulation, Sec. 4 (1) (c).*)

25. In tanks of the 1st class the Assistant Commissioner may distribute water according to his discretion.

In tanks of the 2nd, 3rd, and 4th class the punchayet, hereinafter provided and appointed under these rules shall, three weeks previous to the opening of the sluices, draw up a list of the fields in the order in which they are to get water, and furnish each lumberdar with a copy of the same. Provided that nothing in this or any other rule shall, without the order of the Commissioner, interfere with, or change any, arrangements made in this behalf at settlement.

26. All applications for water from tanks of the 1st class shall be in writing, and shall state specifically the period for which the water is required and no change in such application, except in the form of an amended written one, shall be permitted. Such applications need not be delivered in person, but must be signed by the applicant. They may be on unstamped paper.

27. No order granting water passed on any such application shall, unless it specifically states the reverse, remain in force after the 31st March immediately succeeding the date of the order. Water required after that date and before the next succeeding autumn harvest, may be given by the Assistant Commissioner on the terms laid down in Rule 4 (*a*) for ordinary spring crops, and without additional payment in the case of crops paying a yearly rate.

Except for sugarcane or garden produce, no land shall be entitled to more than three waterings and a sowing watering, in the spring harvest.

28. Water shall not be given to any land commanded by a well held in the same interest as the land, except for special reasons to be recorded by the authority granting the water.

29. Water shall not be taken before daylight or after dark without special permission of the administering authority.

30. When so ordered, fields must be divided into beds of not more than 100 to the bigha before water is admitted.

31. The outlets from Government tanks are the property of Government.

In tanks of the 1st class, where cisterns have been made outside these outlets, cultivators shall regulate their supplies from such cisterns and no one, save an official properly authorised by the Assistant Commissioner, shall open or close the outlets.

In tanks of the 2nd, 3rd, and 4th class the outlets shall be opened and closed only by some one duly authorised by the punchayet.

32. Where the Assistant Commissioner decides that a new water-course should be constructed through the lands of one cultivator to irrigate those of another, or where he decides that the water-course of one cultivator should, under any conditions which may seem equitable, be used for the conveyance of water by another cultivator who was not a party to its construction, such order shall not be carried out until the lapse of the period hereinafter prescribed for appeal to the Commissioner, nor, if appealed against, until the Commissioner's decision is received.

33. Whenever a dispute arises as to the use, maintenance or construction of any water-course by persons having or claiming to have rights in the same, the order of the officer determining the dispute shall be final as regards the irrigation of any crops then standing, but shall be subject to an appeal as regards future harvests.

34. Either with or without the consent of the punchayet, the Assistant Commissioner may appoint a watcher or watchers to tanks of the 2nd, 3rd and 4th class. These watchers shall be paid by the persons using tank water in proportion to the water-rate paid by them. Provided that no such appointment or appointments shall relieve the punchayet of the tank of its responsibility.

35. Subject to such orders as may be issued from time to time under Rules 58 (*h*) and 59 (*b*), cultivators shall regulate their own supply of water and shall be responsible for any waste of water by whomsoever occasioned taking place on days when they are irrigating at openings or in water-courses, which are in their power and usually opened, closed, or used by them; also for any waste occasioned by neglect to properly close any water-course when ceasing to irrigate from it. The authorised distribution of water must not be interfered with, nor must the water be used in any way not authorised by these rules.

36. In tanks of the 2nd, 3rd and 4th class when disputes as to the distribution of water arise, the principle to be observed in dealing with such disputes is that land demarcated as tank land at the current assessment and paying a higher soil rate for the advantage of its position, has the prior claim to water; and that in years of failure of the rain the land nearest the tank should, *cæteris paribus*, be preferred to that further off.

D.—Repairs of tanks, ducts and water-courses and of works connected therewith. (*Regulation, Sec. 4 (1) (d).*)

37. For facility of supervision of repairs the Chief Commissioner may divide the tanks of the district into such number of circles as he may deem fit, and may from time to time vary such division.

38. With reference to Rule 60 (*e*) and (*f*) in tanks of the 1st class, the lumberdar of the village taking water, and in those of the 2nd, 3rd and 4th classes the punchayet (acting through its head member) is responsible that all water-courses are kept in proper repair by their owners, and that no water is allowed to pass into any water-course which is not in a fit state of repair. The Assistant Commissioner may, if he deems it necessary, cause any repair to such water-courses to be executed, and the cost of such repair shall be recovered from the owners in the manner provided for the recovery of arrears of land revenue.

39. In tanks of the 4th class the punchayet shall be responsible for carrying out all repairs; should such repairs be neglected, the Assistant Commissioner may, either on the complaint of a sharer or of his own motion, cause such repairs to be executed, and the cost of such repairs shall be recovered in the manner provided for the recovery of arrears of land revenue. Provided that this rule shall not authorise altering the capacity of any tank, unless the majority of those taking water are willing to pay for the cost of such alteration and to meet the charges for maintenance of the tank in its altered condition.

40. Water-courses must be kept in proper repair by their owners, and water shall not be admitted into a water-course which is not in a fit state of repair.

41. Water-courses must, when deemed necessary by the Assistant Commissioner, be provided with proper regulators at their heads of such pattern as may be directed.

42. Water-courses must be provided with culverts and other masonry works of such pattern as may be directed, wherever necessary, for the prevention of waste of water.

43. In case of failure by the owners to comply with any order issued under Rules 40, 41, and 42, or at the request of the owners, necessary repairs to or works on water-courses may be executed by Government and the cost recovered from the owner or owners of the water-courses.

44. Cutting grass, or grazing cattle, or cutting or injuring trees on the embankment of any Government tank, without due authority, is prohibited.

E.—Requisition of and the rates to be paid for labour in cases of serious emergency threatening sudden and extensive public injury. (*Regulation, Sec. 4 (1) (e).*)

45. When any tank is maintained by Government, the Chief Commissioner may, if he think fit, order the Commissioner to prepare a list of such villages as are benefited by such work, and such list shall set forth by name or office the person in each village to whom the requisition described in the rule next following is to be addressed, and shall further show the number of labourers to be supplied by each village in the case of emergent repairs.

46. On the occurrence of any case involving danger to the existence of the irrigation work, the administering authority, as described in Rule 49, shall address a written requisition to the person in each village to whom such requisition is to be sent, and such person shall thereupon be bound to at once supply his quota of labour for the repair of the work.

47. Such labour shall be paid for at the ordinary rates in force in the neighbourhood, eight hours' work being considered a full day's labour. Provided that every man called on to the work shall be entitled to claim one day's pay. Requisitioned labour shall be kept on the work until all danger to the tank has ceased.

48. In the case of tanks of the 1st class, when the delay of a reference to the administering authority would involve danger to the existence of the work, the person in local charge, whether circle subordinate, munshi, or chokidar, shall requisition the labour under the terms of Rule 46 above, reporting his action at once to the tehsildar for the information of the Assistant Commissioner.

F.—The person by whom and the time, place, or manner at or in which anything for the doing of which provision is made in any rule under the Regulation is to be done. (*Regulation, Sec. 4 (1) (f).*)

49. Tanks of the 1st class shall be administered under the orders of the Assistant Commissioner, who shall be the administering authority.

Tanks of the 2nd, 3rd, and 4th class shall, subject to the general control of the Assistant Commissioner, be administered by a punchayet of the village or villages using the water of such tanks, and such punchayet shall be the administering authority of the same. Punchayets appointed for the purposes of these rules, shall be tank punchayets and not village punchayets, and for executive purposes they shall be considered to be represented by their head member. The punchayets shall, except where these rules provide otherwise, report all matters to the Executive Engineer or other officer appointed to act under Rule 59.

50. The punchayet shall be elected subject to the approval of the Assistant Commissioner, and shall consist of not less than three or more than seven members, who shall be land-owners using the tank water. The head member shall be the lumberdar of the village, or, if there be more than one lumberdar, or more than one village using the water, the head member shall be chosen by the other lumberdars; and if there be a contest, that lumberdar shall be chosen who is supported by the largest water-rate paying interest. Provided that in all cases the lumberdar chosen must himself have the right of using the tank water.

51. The other members of the punchayet must be water-rate payers, and they shall be elected by the landowners who use the tank water; and, in case of contest, those sharers shall be chosen who are supported by the largest water-rate paying interest.

52. The members of the punchayet shall continue in office for two years; one-half being elected every May.

53. The Chief Commissioner shall prescribe periodical statements and forms for keeping accounts and reporting results, and may from time to time vary such statements and forms. The Chief Commissioner shall also prescribe the persons by whom, the date on which, and the channels through which, they are to be submitted.

55. The punchayets shall supply to the patwaris of the circles concerned such information as the patwaris may require to enable them to prepare the statements and returns referred to in Rule 54.

56. Any officer acting under Section 59 shall bring to the notice of the Assistant Commissioner without delay any matter regarding the operation of these rules with may come to his notice, and with which he himself is not competent to deal. All action taken under this section must be duly recorded and reported. In the settlement of disputes, the reasons for the decision must be recorded as well as the order, and no penalty may be inflicted without the evidence being duly recorded in proper form for transmission to the Assistant Commissioner; and all officers empowered to settle disputes shall prepare a record of their proceedings.

It shall further be the duty of the Executive Engineer or other officer appointed under Section 57 (*g*) to promptly report to the Assistant Commissioner any serious accident or other important occurrence likely to endanger the revenue or cause injury which may come to his notice.
