9. On such mutation a fee of R1-4 per cent. on the income of Khalsa, and R2-8 on that of Muafi lands shall be levied; provided that the minimum fee shall be 4 annas for Khalsa and 8 annas for Muafi lands. An extract from the register (Form No. I), showing the amount of fees levied, and the dates of payment into the Treasury, shall be sent once a month to the Collector.

10. The Tehsildar shall visit all the villages in his Tehsil at least once in every three months, to clear off mutation cases.

11. The Naib Tehsildar may, with the previous sanction of the Collector, perform in uncontested cases the duties above assigned to the Tehsildar.

UNDER SECTION 73.

Payment of Revenue.

12. The revenue shall ordinarily be paid at the head-quarters of the Tehsil to the Tehsildar or such subordinate as he, with the sanction of the Collector, may appoint to receive it. With the permission of the Collector, the revenue may be paid direct into the head Treasury.

13. The instalments of revenue shall be paid on the dates fixed at settlement, namely, 1st January and 15th June in each year.

14. All money paid into the Tehsil shall be accompanied by an arz irsal.

The arz-irsal shall first be taken to the Wasilbakinavis, who shall, after verifying the correctness of the payment, endorse it for payment to the Tahvildar (Treasurer).

15. No native officer other than the Tahvildar (Treasurer) shall on any account receive or keep any public money whatever.

16. In all cases in which land revenue and cesses are due, the sum paid shall first be credited to cesses and the balance, if any, to land revenue.

17. On receipt of the arz-irsal endorsed by the Wasilbakinavis, the Tahvildar shall take the money, and enter the payment in his own siaha, and endorsing the arz-irsal with his receipt, pass it to the Siahanavis.

18. The Siahanavis shall on the authority of the Tahvildar's receipt, enter the sum as paid in his siaha, and shall draw out the dakhila or receipt, which, after having been duly signed by the Tahvildar and the Tehsildar or other officer in charge of the Tehsil, shall be given to the payer.

19. Information of the credit shall then be given to the Wasilbakinavis, who shall note the same in his khatauni (ledger), initialling the siaha to show that he has done so.

20. The dakhila bahis shall be kept in printed counterfoil registers, each book containing one hundred duplicates bound up and paged.

21. At the end of each day, and before the siaha is sent to the head office, the Wasilbakinavis and the Siahanavis shall compare the siaha with the khatauni, item by item, and the Wasilbakinavis shall number each item in the khatauni with the number borne by such item in the siaha. The Siahanavis and the Tahvildar shall then compare the totals of their siahas, and at once bring to the notice of the Tehsildar or officer in charge of the Tehsil, any discrepancy they may discover. The dakhila bahi shall then be compared with the siaha by the Wasilbakinavis and the Siahanavis.

22. To each arz-irsal, a serial number shall be given, according to the order in which the money is credited in the Tahvildar's roznamcha or daily ledger. The series of these numbers shall commence daily, and the Tahvildar shall number each irsal before passing it to the Siahanavis. The same numbering shall be shown in the daily siaha, in the Wasilbakinavis' khatauni, in the dakhila, and in the record of any payments kept up for special departments.

UNDER SECTION 110 (*a*).

Assessment of Land Revenue.—Lands variably assessed.

23. Of land variably assessed to revenue, there shall be two classes:—

Class 1.—The portions of villages lying in the beds of certain tanks which are liable to submergence, and which have been demarcated by the Settlement Officer.

Class 2.—Whole villages in which a standard revenue has been assessed on a standard cultivated area by the Settlement Officer.

24. In lands of class I, the cultivation of each harvest shall be recorded and measured up. The revenue due shall be found by applying to the cultivated area the rate or rates fixed by the Settlement Officer at settlement.

25. In variably assessed villages (class 2), the assessments shall be made by a rate varying between a maximum and minimum assessed at settlement on the cultivated area found under the rules hereinafter provided. The standard rate on which variation is calculated is the rate for the dry cultivation, and to it as a basis all other rates in the village must be referred. All the other rates are multiples of the dry rate, and to find the dry unit area, the area under each class of cultivation (chahi, talabi, abi and dry) must be multiplied by the multiplie of its own class.

NOTE.—*When the rate falls below the minimum, the minimum rate shall be collected and the excess credited to Government; when the rate rises above the maximum, the maximum rate only shall be collected and the balance of the revenue remitted.*

26. The area to be assessed shall comprise all cultivation except that of Muafi and Bhum lands.

27. The record of measurements for purposes of assessment shall give the necessary details for—

1. Lands assessable at well (chahi) rates;
2. Lands assessable at tank (talabi) rates;
3. Lands assessable at wet (abi) rates;
4. Lands assessable at dry rates.

28. The assessments shall be made under the superintendence and orders of the Collector.

29. In determining the rates of assessments, the following general rules shall be observed:—

(*a*) The rate for the autumn (kharif) harvest shall be struck on the completion of the records of that harvest at a time when the prospects of the ensuing spring (rabi) harvest are fairly well known. The rate to be taken will depend partly on the area under crops in the autumn harvest, and partly on the prospects of the ensuing spring harvest, and shall, subject to the maximum and minimum referred to in Rule 25, be so fixed that the revenue of the whole year may be collected in full without loss or balance. Provided that if, with a view to making good any possible loss of revenue by failure of the rabi harvest, a rate higher than the minimum rate is imposed in the kharif, allowance shall be made for the excess when the rabi assessment is being made, and the assessable area for the whole year is known, and conversely if, at the time of making the assessment for the rabi harvest, it appears that the kharif assessment ought to have been made at a higher rate than that actually assessed, the deficiency shall be recovered along with the rabi instalment.

(*b*) The rate for the spring (rabi) harvest shall, subject to the rule of maximum and minimum referred to in Rule 25, be found by dividing the balance of the assessment of the year not assessed in the autumn (kharif) harvest by the conventional area of the spring harvest.

(*c*) Lands irrigated from a well, existing as such at Mr. LaTouche's settlement, shall be liable to assessment at well (chahi) rates.

(*d*) Lands irrigated from a village tank or nadi, existing as such at Mr. LaTouche's settlement, shall be liable to assessment at the same rate as lands assessed as irrigated from such tank or nadi.

(*e*) Lands cultivated in the beds of village tanks or nadis, existing as such at Mr. LaTouche's settlement, shall be liable to assessment at abi rates.

(*f*) Lands irrigated from a well or village tank or nadi not existing as such at Mr. LaTouche's settlement or lying in the bed of such village tank or nadi and cultivated, shall be assessed as dry.

(*g*) Lands assessed at settlement as irrigated or as abi but growing dry crops only shall be assessed as dry.

Explanation.—Irrigated includes irrigation from wells, village tanks, and nadis referred to in clauses (*c*) and (*d*), but does not include irrigation from variably or permanently assessed tanks.

(*h*) Lands assessed as irrigated from a permanently assessed tank shall pay full talabi rates, whether irrigated or not.

(*i*) Lands assessed as irrigated from a variably assessed tank shall pay talabi rates under the rules in force for such tanks.

(*j*) Lands irrigated from any stream that feeds or issues from any Government tank that has been permanently assessed, or feeds or issues from any such village tank or nadi as is referred to in clause (*d*), shall be liable to assessment at talabi rates.

(*k*) In the case of lands irrigated from different sources in the same harvest, the rate shall be regulated by the source supplying the greatest number of waterings, or where that number is equal, by the source assessable at the highest rate.

(*l*) Double-cropped irrigated lands which are irrigated from such wells, village tanks, or nadis as are referred to in clauses (*c*) and (*d*), and are liable to be assessed as such, shall pay the full irrigated rate for the first harvest and one-fourth of the rate for the second harvest.

Explanation.—This rules does not apply—

I, to double-cropped lands irrigated from—

(A) Permanently assessed tanks;
(B) Variably assessed tanks;
(C) Any of the sources mentioned in clauses (*f*) and (*j*);

II, or to double-cropped abi lands referred to in clause (*e*).

(*m*) Double-cropped dry lands assessed as such shall only pay the assessment for one harvest.

(*n*) Lands growing dry crops or crops assessed as dry in the autumn (kharif) harvest shall pay the dry rate only, and if such lands become liable to assessment as irrigated for the spring (rabi) harvest, the rate for this latter shall be the full irrigated rate minus the amount collected on account of the autumn harvest. Similarly lands paying full irrigated rates for the autumn harvest, and growing dry crops, or crops assessed as dry in the spring harvest, shall not be liable to assessment for the latter.

(*o*) Lands paying a higher rate for their position under a variably assessed tank shall be assessed at this higher rate, if cultivated, even though not irrigated during that harvest.

(*p*) Lands growing fodder crops for cattle in the hot weather shall not be liable to assessment, and in no case shall lucerne grass grown under wells pay more than a single rate for the whole year.

30. When the rate for the harvest for the village has been settled, the revenue of each sharer shall be found by multiplying the rate into the area of his cultivation as shown in the khatauni.

31. Ordinarily the area bearing crops shall be assumed to be that producing a sufficient crop to supply seed, and if in any particular village in any harvest the crop happens to fall below this standard, the Collector may remit the assessment, provided that in years when there is any general failure of rain over the whole country, the Commissioner may declare, for reasons to be recorded, that the crop in unirrigated lands is only a half or a quarter of an average crop or is nothing (see Example (*d*) under Rule 32).

32. When the actual assessable cultivated area has been found by the above rules, the assessment shall be made in the manner indicated in Rule 25.

Example (*a*).—At the time of settlement the Settlement Officer determined that the assessable area of a village ordinarily cultivated was—

	Area.	Rate of assessment per acre.	Total assessment.
	Acres.	₹ a.	₹ a.
Dry	124	0 10	77 8
Abi	40	1 9	62 8
Tank	8	2 13	22 8
Well	50	3 12	187 8
TOTAL	222		350 0

This area is reduced to a multiple of dry units in the following manner:—

The abi rate of ₹1-9 the acre is $2\frac{1}{2}$ times the dry rate.
The tank rate of ₹2-13 the acre is $4\frac{1}{2}$ times the dry rate.
The well rate of ₹3-12 the acre is 6 times the dry rate.

The area in terms of dry units will therefore be—

Dry	124 × 1 = 124 acres.
Abi	40 × $2\frac{1}{2}$ = 100 ,,
Tank	8 × $4\frac{1}{2}$ = 36 ,,
Well	50 × 6 = 300 ,,
TOTAL	560 acres.

This 560 acres is called the standard dry unit area, and when multiplied by the dry rate of 10 annas gives the standard revenue of ₹350.

Example (*b*).—To continue with the above example, in all variably assessed villages of class 2, a maximum and a minimum rate has been fixed as has been stated in Rule 25. Say that in this village the variation allowed on the standard of 10 annas is between $8\frac{3}{4}$ annas and $11\frac{1}{4}$ annas the acre, then according as the dry unit area increases, the rate to be paid will approximate to the minimum, and according as the dry unit area decreases, the rate will approximate to the maximum, the rate being always found by dividing the standard revenue by the dry unit area. Thus, if in any year the areas are—

Dry	199 × 1 = 199 acres
Abi	30 × $2\frac{1}{2}$ = 75 ,,
Tank	8 × $4\frac{1}{2}$ = 36 ,,
Well	60 × 6 = 360 ,,
TOTAL DRY UNIT AREA	670 acres.

This dry unit area would give a rate of $8\frac{3}{4}$ annas the acre (₹$\frac{350}{670}$ = $8\frac{3}{4}$ annas); but $8\frac{3}{4}$ being the minimum, this rate must be collected, and the excess ₹16-6 credited to Government.

Example (*c*).—Take another year in which the areas are—

Dry	102 × 1 = 102 acres.
Abi	40 × $2\frac{1}{2}$ = 100 ,,
Tank	4 × $4\frac{1}{2}$ = 18 ,,
Well	40 × 6 = 240 ,,
TOTAL DRY UNIT AREA	460 acres.

This dry unit area would give a rate of $12\frac{1}{4}$ annas the acre (₹$\frac{350}{460}$ = $12\frac{1}{4}$ annas), but, $11\frac{1}{4}$ annas being the maximum, this rate must be collected which will give a revenue of ₹323-7, or ₹26-9 less than the standard revenue, which deficit must be remitted.

Example (*d*).—The following is an example (continuing the same village as used above) of the assessment in a year in which the Commissioner has declared the dry crop to be a quarter one (see Rule 31)—

The assessable area is found to be—

Dry	80 acres.
Abi	40 ,,
Tank	0 ,,
Well	30 ,,

Then the dry unit area will be ascertained in the following manner—

Dry	$\frac{80}{4}$ = 20 acres.
Abi	40 × $2\frac{1}{2}$ = 100 ,,
Tank	0 × $4\frac{1}{2}$ = 0 ,,
Well	30 × 6 = 180 ,,
TOTAL DRY UNIT AREA	300 acres.

2. Guardians appointed under section 12 shall receive such remuneration as may be determined by the Court of Wards.

3. The amount of the security which is taken from a manager appointed by the Court of Wards shall in each case be fixed by the Court and shall, as a general rule, not be less than the maximum amount of receipts, which it is estimated may be in the manager's hands at any one time.

4. The Court of Wards may in its discretion require any member of the subordinate managing establishment to furnish such security as it deems fit to ensure an efficient and faithful discharge of his duties.

5. The previous sanction of the Court of Wards shall be obtained to the following transactions by a manager, when the value in question exceeds ₹1,000, *viz.*:—

(*a*) The expenditure of any sum or the incurring of any liability.
(*b*) The compromise of any claim.

6. Subject to the previous sanction of the Court of Wards, and the Chief Commissioner, and subject also to the provisions of the Ajmere Government Wards Regulation, 1888, and of these rules, a manager appointed under section 10 of the Regulation may entertain such ministerial and subordinate managing establishment as may be required to assist him in the efficient discharge of his duties under the Regulation and these rules.

7. The Collector of the District or other Revenue Officer when he is appointed manager may, subject to the rules in force under section 40 of the Ajmere Laws Regulation, 1877, define the duties of the ministerial establishment entertained by him and make such orders, punishing, suspending, or dismissing any member of such establishment as he may think fit.

8. The establishment, ministerial as well as subordinate, managing now in the employ of the Court of Wards shall be deemed to have been entertained under this rule.

9. The manager shall keep in the forms given in the Appendix, or in such forms as the Chief Commissioner may, from time to time, prescribe, the following accounts in respect of each estate in his charge :—

10. As soon after the close of the financial year as possible, the manager shall submit the annual account together with a report of his operations to the Court of Wards, by whom it shall be submitted to the Chief Commissioner.

11. The annual report should give an account of the management during the past year with a full explanation of any considerable differences between the figures for the year and the year previous, and should show the condition of the estate, the system of management, the improvements effected, whether any scheme of systematic improvement is being carried out, and all other points of interest.

12. An explanation should be given whenever the cost of establishment exceeds 5 per cent. of the ordinary income. If villages have been leased, the character of the lessees, whether resident in the village or not, should be stated. 15. All Government securities, including stock notes and shares in Government Railways, the property of Government Wards, shall be forwarded to the Office of the Comptroller of India Treasuries, for safe custody, if it is likely that they will be held for a longer period than twelve months.

(5) Proposals for the appointment of guardian of person.

19. The Court of Wards may require any manager under its control to produce for inspection the accounts kept by him and take or cause stock to be taken of the property in his charge.

All applications must reach the Principal before the 4th May, 1889.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following changes in the Regulations of the University having been sanctioned by the Senate and approved by His Excellency the Governor-General in Council, are published for general information :—

In paragraph 7 of the F. A. Regulations, in lieu of head (*c*) under Mathematics, the following has been substituted—"*Geometry*, Euclid, Books I—IV; Book V, Definitions; Book VI. The more important properties of the Parabola, the Ellipse and the Hyperbola." The following footnote has been appended to the word "Hyperbola."

"The extent of the work in Geometrical Conics shall be equivalent to the first six chapters of Taylor's Elementary Geometry of Conics."

To paragraph 2 of the F. A. Regulations (Calendar for 1889, page 34), and also to paragraph 2 of the B. A. Regulations (Calendar for 1889, page 37), the following footnote has been appended :—

* "No candidate shall be considered to have prosecuted a regular course of study unless he has attended at least 66 per cent. of the lectures delivered in the institution to which he belongs, in each of the subjects in which he is to be examined."

The following note has been substituted for the note now appended to paragraph 2 of the F. A. and B. A. Regulations :—

The Syndicate have power to make exceptions to this rule in favour of those Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* Masters of English Schools who have served as such for the full period of two academical years. Their applications must be signed by the Inspector of Schools in whose circle they are employed.

The following has been substituted for the marginal note to the certificate appended to the F. A. and B. A. application forms (Calendar for 1889, pages 77 and 78.)

This certificate is to be signed by the Principal or Head Master of the affiliated institution in which the candidate has studied and in the case of those Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ fide* Masters of English Schools who have served as such for the full period of two academical years by the Inspector of Schools in whose circle they are employed.

The form of application for admission to the Entrance Examination (Calendar for 1889, page 76), has been amended as follows :—

In the second footnote, namely, that referring to the word "Private Student" in the marginal note to the certificate, the words "1st of September" have been substituted for "1st of November" so long as the Entrance Examination is held in February.

The following words have been added to the same footnote :—

The Inspector's sanction shall not be considered sufficient unless special grounds appear on the face of it.
