RESERVED FORESTS.

Power to constitute reserved forest.

4. The Local Government may constitute any land at the disposal of the Government a reserved forest in manner hereinafter provided.

Notification by Local Government of proposal to constitute a reserved forest.

5. (*1*) Whenever it is proposed to constitute any land a reserved forest, the Local Government shall publish a notification in the official Gazette—

(*a*) specifying as nearly as possible the situation and limits of such land;

(*b*) declaring that it is proposed to constitute such land a reserved forest; and

(*c*) appointing an officer (hereinafter called the Forest-settlement-officer) to inquire into and determine the existence, nature and extent of any rights claimed by, or alleged to exist in favour of, any person in or over any land comprised within such limits, and any claims relating to the practice within such limits of jhum-cultivation, and to deal with the same as provided in this Chapter.

(*2*) The Forest-settlement-officer shall ordinarily be a person other than a Forest-officer, but a Forest-officer may be appointed by the Local Government to assist the Forest-settlement-officer in the inquiry prescribed by this Chapter.

Proclamation by Forest-settlement-officer.

6. When a notification has been published under section 5, the Forest-settlement-officer shall publish in the language of the country, at the head-quarters of each district and subdivision in which any portion of the land comprised in such notification is situate, and in every town and village in the neighbourhood of such land, a proclamation—

(*d*) fixing a period of not less than three months from the date of the publication of such proclamation, and requiring every person claiming any right or making any claim referred to or mentioned in section 5 either to present to such officer within such period a written notice specifying, or to appear before him within such period and state, the nature of such right or claim.

Bar of accrual of forest-rights after proclamation.

7. (*1*) During the interval between the publication of such proclamation and the date fixed by the notification declaring the forest to be reserved as hereinafter provided, no right shall be acquired in or over the land comprised in such notification, except by succession or under a grant or contract in writing made or entered into by, or on behalf of, the Government or some person in whom such right or power to create such right was vested when the proclamation was published; and on such land no new house shall be built or plantation formed, no fresh clearings for cultivation or for any other purpose shall be made, and no trees shall be cut for the purpose of trade or manufacture except as hereinafter provided.

(*2*) Nothing in this section shall be deemed to prohibit any act done with the permission in writing of the Forest-settlement-officer, or any clearings lawfully made for jhum-cultivation by persons in the habit of practising such cultivation on such land.

Inquiry by Forest-settlement-officer.

8. (*1*) The Forest-settlement-officer shall take down in writing all statements made under section 6, and shall inquire into all claims made under that section, and the existence of any right or practice mentioned in section 5 in respect of which no claim is made.

(*2*) The Forest-settlement-officer shall at the same time consider and record any objection which the Forest-officer, if any, appointed under section 5 to assist him, may make to any such claim or with respect to the existence of any such right or practice.

Powers of Forest-settlement-officer.

The Assam Forest Regulation, 1891.

(Chapter II.—Reserved Forests.—Sections 11-14.)

(*2*) On receipt of the statement and opinion the Local Government may make an order permitting or prohibiting the practice wholly or in part.

(*3*) If such practice is permitted wholly or in part, the Forest-settlement-officer may arrange for its exercise—

(*a*) by altering the limits of the land under settlement so as to exclude land of sufficient extent, of a suitable kind and in a locality reasonably convenient for the purposes of the claimants, or

(*b*) by causing certain portions of the land under settlement to be separately demarcated, and giving permission to the claimants to practise jhum-cultivation therein under such conditions as he may prescribe.

All arrangements made under this sub-section shall be subject to the previous sanction of the Local Government.

(*4*) The practice of jhum-cultivation shall in all cases be deemed to be a privilege subject to control, restriction and abolition by the Local Government, and not to be a right.

Power to acquire land over which right is claimed.

11. (*1*) In the case of a claim to a right in or over any land other than the following rights, namely:—

(*a*) a right of way,

(*b*) a right to a watercourse or to use of water,

(*c*) a right of pasture or to forest-produce,

the Forest-settlement-officer shall pass an order specifying the particulars of such claim and admitting or rejecting the same wholly or in part.

(*2*) If such claim is admitted wholly or in part, the Forest-settlement-officer may—

(*x*) come to an agreement with the claimant for the surrender of the right, or

(*y*) exclude the land from the limits of the proposed forest, or

(*z*) proceed to acquire such land in the manner provided by the Land Acquisition Act, 1870.

X of 1870.

(*3*) For the purpose of so acquiring such land—

(i) the Forest-settlement-officer shall be deemed to be a Collector proceeding under the Land Acquisition Act, 1870;

(ii) the claimant shall be deemed to be a person interested and appearing before him in pursuance of a notice given under section 9 of that Act;

(iii) the provisions of the preceding sections of that Act shall be deemed to have been complied with; and

(iv) the Collector, with the consent of the claimant, may award compensation in land, or in money, or partly in land and partly in money.

Order on claims to rights of way, watercourse or pasture, or to forest-produce.

12. (*1*) In the case of a claim to a right of a kind specified in clause (*a*), clause (*b*) or clause (*c*) of section 11, sub-section (*1*), the Forest-settlement-officer shall pass an order specifying the particulars of such claim and admitting or rejecting the same wholly or in part.

(*2*) When a claim to any such right is admitted, if the right is for the beneficial enjoyment of any land or building, the Forest-settlement-officer shall record the designation, position and area of such land or the designation and position of such building.

(*3*) Where the right is a right to forest-produce, the Forest-settlement-officer shall record whether the forest-produce obtained by the exercise of such right may be leased, sold or bartered, and such other particulars as may be necessary in order to define the nature, incidents and extent of the right.

Provision for rights of pasture or to forest-produce admitted.

13. (*1*) When the Forest-settlement-officer has admitted wholly or in part and recorded under the last foregoing section a claim to a right of pasture or to forest-produce, he shall as far as possible provide for the exercise of such right—

(*a*) by altering the limits of the proposed reserved forest so as to exclude land of sufficient extent, of a suitable kind and in a locality reasonably convenient for the purposes of the claimant, or

(*b*) by recording an order continuing to the claimant a right of pasture or to forest-produce, as the case may be, subject to such rules as may be prescribed by the Local Government.

(*2*) An order passed under clause (*b*) of sub-section (*1*) shall record, as far as practicable,—

(i) where the right is a right of pasture, the number and description of the cattle which the claimant is from time to time entitled to graze, and the local limits within which, and the seasons during which, such pasture is permitted, and

(ii) where the right is a right to forest-produce, the quantity of such produce which the claimant is authorised to take or receive, and the local limits within which, the season during which, and the mode in which, the taking or receiving of such produce is permitted, and,

(iii) whether the right is a right of pasture or a right to forest-produce, such other particulars as may be required in order to define the extent of the right which is continued, the mode in which it may be exercised and the extent to which the benefit thereof may be leased, sold or bartered.

Commutation of such rights.

14. Whenever any right of pasture or to forest-produce admitted under section 12 is not provided for in one of the ways prescribed in section 13, the Forest-settlement-officer shall,

The Assam Forest Regulation, 1891.

(Chapter II.—Reserved Forests.—Sections 15-23.)

subject to such rules as the Local Government may prescribe in this behalf, commute such right by paying a sum of money in lieu thereof, or, with the consent of the claimant, by the grant of land, or in such other manner as such officer thinks fit.

Appeal from order passed under foregoing sections.

15. Any person who has made a claim under this Chapter may, within three months from the date of any order passed on such claim by the Forest-settlement-officer under section 11, 12, 13 or 14, present an appeal from such order to such officer of the Revenue Department, of rank not lower than that of a Deputy Commissioner, as the Local Government may, by notification in the official Gazette, appoint by name, or as holding an office, to hear appeals from such orders.

Appeals under the last foregoing section.

16. (*1*) Every appeal under the last foregoing section shall be made by petition in writing and may be delivered to the Forest-settlement-officer, who shall forward it without delay to the officer competent to hear the same.

(*2*) Every such appeal shall be heard in the manner prescribed for the time being for the hearing of appeals in matters relating to revenue, and, except as hereinafter provided, the order passed on the appeal shall be final.

Notification declaring forest reserved.

17. (*1*) When the following events have occurred, namely :—

(*a*) the period fixed under section 6 for preferring claims has elapsed, and all claims, if any, made within such period have been disposed of by the Forest-settlement-officer, and

(*b*) if such claims have been made, the period fixed by section 15 for appealing from the orders passed on such claims has elapsed, and all appeals, if any, presented within such period have been disposed of by the appellate officer, and

(*c*) all lands, if any, to be included in the proposed reserved forest which the Forest-settlement-officer has, under section 11, elected to acquire under the Land Acquisition Act, 1870, have become vested in the Government under that Act,

X of 1870.

the Local Government may publish a notification in the official Gazette, specifying the limits of the forest which it is intended to reserve and declaring the same to be reserved from a date fixed by such notification.

(*2*) From the date so fixed such forest shall be deemed to be a reserved forest.

Extinction of rights not claimed.

18. Rights in respect of which no claim has been preferred under section 6 and of the existence of which no knowledge has been acquired by inquiry under section 8 shall thereupon be extinguished, unless, before the publication of such notification, the person claiming them has satisfied the Forest-settlement-officer that he had sufficient cause for not preferring such claim within the period fixed under section 6.

Publication of translation of such notification in neighbourhood of forest.

19. The Deputy Commissioner of the district in which the forest is situate shall, before the date fixed by such notification, cause a translation thereof in the language of the country to be published in the manner prescribed for the proclamation under section 6.

Power to revise arrangement made under section 13 or 16.

20. The Local Government may, within five years from the publication of any notification under section 17, revise any arrangement made under section 13 or 16, and may rescind or modify any order made under this Chapter, and direct that any one of the proceedings specified in section 13 be taken in lieu of the other of such proceedings, or that a right admitted under section 12 be commuted in the manner mentioned in section 14.

Acquisition of rights over reserved forests.

21. No right of any description shall be acquired in or over a reserved forest, except by succession or under grant or contract in writing made by, or with the previous sanction of, the Governor General in Council, or some person in whom such right, or the power to create such right, was vested when the notification under section 17 was published.

Alienation of rights in reserved forests.

22. (*1*) Notwithstanding anything herein contained no right continued under section 13 shall be alienated by way of grant, sale, lease, mortgage or otherwise without the previous sanction of the Local Government :

Provided that, when any such right is continued for the beneficial enjoyment of any land or building, it may be sold or otherwise alienated with such land or building without such sanction.

8. The rule (Article 266, clause (*a*), Army Regulations, India, vol. I, part I) requiring commandants to vacate on completion of seven years' tenure will not for the present be applied to the commandants of the corps now reformed.

And whereas by an Order of Her Majesty the Queen in Council, dated the fifth day of March, one thousand eight hundred and eighty-five, it was directed that the Extradition Acts, 1870 and 1873, should apply in the case of the Oriental Republic of the Uruguay:

And whereas by an Act of the Parliament of Canada passed in 1886, and entitled "An Act respecting the Extradition of Fugitive Criminals," provision is made for carrying into effect within the Dominion the surrender of fugitive criminals:

And whereas by an Order of Her Majesty the Queen in Council dated the seventeenth day of November, one thousand eight hundred and eighty-eight, it was directed that the operation of the Extradition Acts, 1870 and 1873, should be suspended within the Dominion of Canada so long as the provision of the said Act of the Parliament of Canada of 1886 should continue in force and no longer:

And whereas a Protocol was concluded on the twentieth day of March, one thousand eight hundred and ninety-one, between Her Majesty and the President of the Oriental Republic of the Uruguay providing for the extension of the period stipulated in Article IX of the above-mentioned Treaty of the twenty-sixth day of March, one thousand eight hundred and eighty-four, which Protocol is in the terms following:—

"MONTE VIDEO, the twentieth day of March, one thousand eight hundred and ninety-one, their Excellencies Mr. Ernest Mason Satow, Companion of the Most Distinguished Order of St. Michael and St. George, Her Britannic Majesty's Minister Resident and Consul-General, and Dr. Manuel Herrero y Espinosa, Minister for Foreign Affairs, having met together at the Ministry for Foreign Affairs with the object of providing for the extension of the period stipulated in Article IX of the Treaty for the Extradition of Criminals, in force between their respective countries, for the provisional arrest of persons charged with any of the crimes or offences specified in the said Treaty, and having exchanged their full powers, which were found to be in good and due form, have agreed to the following Declaration, which shall be considered an integral part of the said international compact:

"The period of thirty days fixed by Article IX of the Treaty for the Extradition of Criminals in force between the Oriental Republic of the Uruguay and Great Britain, for the provisional arrest of persons charged with any of the crimes or offences specified in the said Treaty, being thoroughly recognized as insufficient, both Governments agree that the said period shall henceforth be fixed at sixty days.

"In witness whereof the said Plenipotentiaries have caused the present Protocol to be drawn up in duplicate, and have signed both copies, and thereto affixed their seals on the date above expressed.

"(L.S.) ERNEST MASON SATOW.

"Siendo notoriamente insuficiente el término de treinta dias que establece el Artículo IX del Tratado de Extradición de Criminales vigente entre la Gran Bretaña y la República Oriental del Uruguay, para la detención preventiva de las personas perseguidas por alguno de los crímenes ó delitos especificados en el referido Tratado, ambos Gobiernos convienen en que dicho plazo quede desde luego fijado en sesenta dias.

"En fé de lo cual, los Señores Plenipotenciarios hicieron labrar el presente Protocolo por duplicado, cuyos ejemplares firmaron y sellaron con sus sellos en la fecha arriba espresada.

"(L.S.) ERNEST MASON SATOW.

FIELD OPERATIONS.

No. 132.—The Governor-General in Council is pleased to direct the publication, in continuation of G. G. O. No. 585 of 1891, of the following correspondence:—

No. 547-M.—"*Field Operations-Manipur*",—dated Simla, 31st December, 1891.

From—The Adjutant-General in India,

To—The Secretary to the Government of India, Military Department.

With reference to this office No. $\frac{423}{M.}$, dated 11th July, 1891, I have the honour, by direction of the Commander-in-Chief, to forward extracts from a letter* from Brigadier-General Sir H. Collett, K.C.B., Commanding the Assam District, bringing to notice the good services rendered by Lieutenant-Colonel St. J. F. Michell, Assistant Quarter Master General, Manipur Field Force, during the advance on, and occupation of, Manipur; and to recommend that, in consideration of the strong representation made by Brigadier-General Collett, Lieutenant-Colonel Michell's name may be added to the list of those mentioned in paragraph 13 of Lieutenant-Colonel Rennick's despatch, dated 3rd May, 1891, published in Government General Order No. 585, dated 19th June, 1891.

* No. 518, dated 8th December, 1891.

No. 518, dated Shillong, the 8th December, 1891.

From—BRIGADIER-GENERAL H. COLLETT, C.B.,

To—The Adjutant-General in India.

As to Colonel Michell's services while with the Silchar Column, Colonel Rennick of course can alone speak, but from the 27th April, the date of the occupation of Manipur, Colonel Michell worked directly under me as Assistant Quarter Master General, and I beg to bring his services during that time to His Excellency's favourable consideration.

His duties were exceptionally important and onerous owing to the outbreak of cholera; he also served as President of the Committee which examined and, as far as possible, identified the remains of the murdered officers, and placed them in a new grave in the Residency compound. This duty was most painful and disagreeable, and Colonel Michell performed it in a most thorough and satisfactory manner. He also served as President of the Court to try the Ex-Regent, the Jubraj, and other State prisoners, and performed this difficult duty with judgment and discretion, and in a completely satisfactory manner.

No. 9.—The following Statute is published for general information:

ARMY (ANNUAL) ACT, 1892.

[55 VICTORIA, CHAPTER 2.]

An Act to provide during twelve months for the Discipline and Regulation of the Army.

[29TH MARCH, 1892.]

WHEREAS the raising or keeping of a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law:

And whereas it is adjudged necessary by Her Majesty and this present Parliament that a body of forces should be continued for the safety of the United Kingdom and the defence of the possessions of Her Majesty's Crown, and that the whole number of such forces should consist of one hundred and fifty-four thousand and seventy-three men, including those to be employed at the depôts in the United Kingdom

of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within Her Majesty's Indian possessions:

And whereas it is also judged necessary for the safety of the United Kingdom and the defence of the possessions of this realm that a body of Royal Marine forces should be employed in Her Majesty's fleet and naval service under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid:

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the Government of Her Majesty's forces by sea:

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm; yet nevertheless it being requisite for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert Her Majesty's Service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow:

44 & 45 Vict., c. 58. And whereas the Army Act will expire in the year one thousand eight hundred and ninety-two on the following days:

(*a*) In the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April; and

(*b*) Elsewhere in Europe, inclusive of Malta, also in the West Indies and America, on the thirty-first day of July; and

(*c*) Elsewhere, whether within or without Her Majesty's dominions, on the thirty-first day of December:

and the day from which the Army Act is continued in any place by this Act is in relation to that place referred to in this Act as the commencement of this Act.

(*2*) The Army Act, while in force, shall apply to persons subject to military law, whether within or without Her Majesty's dominions.

(*3*) A person subject to military law shall not be exempted from the provisions of the Army Act by reason only that the number of the forces for the time being in the service of Her Majesty, exclusive of the marine forces, is either greater or less than the number herein-before mentioned.

FIELD OPERATIONS.

HÚNZA.

No. 397.—His Excellency the Viceroy and Governor-General in Council is pleased to direct the publication of the subjoined letter from the Adjutant-General in India submitting a despatch from Lieutenant-Colonel A. G. A. Durand, British Agent in Gilgit, Commanding the Húnza-Nagar Field Force, in which are described the operations of the force between the 30th November 1891 and 10th January 1892.

2. The object of the expedition was to disperse the gatherings of Húnza and Nagar tribesmen which were threatening the Kashmir fort of Chalt and the road between Chalt and Gilgit, and generally to bring under control the Húnza and Nagar chiefs who had broken their engagements with the British Agent, and had long acted in open defiance of their nominal superior, the Maharaja of Kashmir. These objects have been fully attained.

3. The Governor-General in Council cordially endorses the approval expressed by the Commander-in-Chief in India of the energy displayed in carrying out the operations in this exceptionally mountainous and difficult region, and of the gallantry shown both in the attack on the fort of Nilt and subsequently on the 20th December in storming the almost inaccessible position held by the enemy. The greater part of the troops engaged in this thoroughly successful expedition were supplied by those corps of the Kashmir army which His Highness the Maharaja has loyally reorganised for Imperial Service, and it is with special gratification that the Governor-General in Council has observed the good spirit displayed by these troops on this the first occasion of their employment against an enemy for an object of Imperial interest.

4. His Excellency in Council desires to convey to Lieutenant-Colonel Durand and to all the officers and troops employed the acknowledgments of the Government of India for the excellent service rendered by them on this occasion.

No. 2130-A—*Field Operations*,—dated Fort William, 24th March, 1892.

From—MAJOR-GENERAL W. GALBRAITH, C.B., Adjutant-General in India,

To—The Secretary to the Government of India, Military Department.

I have the honor, by direction of the Commander-in-Chief, to submit, for the information of the Government of India, a despatch, with enclosures, from Brevet-Major and local Lieutenant-Colonel A. G. A. Durand, Indian Staff Corps, British Agent in Gilgit, describing the operations of the Húnza-Nagar Force between 30th November 1891 and 10th January 1892, and to express His Excellency's warm approbation of the manner in which the expedition was conducted.

2. In assembling and provisioning his troops in a thinly populated region of mountains and glaciers devoid of supplies, Lieutenant-Colonel Durand had to encounter very great difficulties, augmented by an unusually early winter, which closed many of the passes, and, but for his energy and resource, would have involved the postponement of all movements for several months. He was further deprived at the outset of the services of his second-in-command, Captain Barrett, 1st Battalion, 5th Gurkha Rifles, and a number of his men, who were disabled by frost-bite. By the 29th November, however, all arrangements were completed, and on the 1st December he entered Nagar territory, and the next day captured the strong fort of Nilt, as more fully described in the enclosures to my No. 279-F-C of the 13th January 1892. In this brilliant affair he was severely wounded, and obliged to make over command to Captain Bradshaw, 35th (Sikh) Bengal Infantry.

3. For some days the obstacles to a further advance proved insurmountable, but a practicable path was at length discovered by Sepoy Nagdú of the Kashmir Body-Guard Regiment, and on the 20th December the position was carried by Captain (now local Major) Colin Mackenzie, Seaforth Highlanders, with a loss of only two men wounded, the enemy suffering severely. This success was promptly followed up, and Major Mackenzie occupied Nagar on the 21st and Húnza on the 22nd, when all opposition ceased.

4. Despite the inclemency of the season the health of the troops was excellent, and their conduct all that could be desired.

His Excellency notices with satisfaction the good services rendered by the soldiers of the Kashmir regiments, who on this the first occasion of the employment of Imperial Service Troops in the field gained the confidence of the officers and men of the Indian Army with whom they were associated.

5. The conspicuous gallantry displayed by Captain Aylmer, Royal Engineers, and Lieutenants Boisragon and Badcock, 1st Battalion, 5th Gurkha Rifles, at the storming of Nilt, and by

Lieutenant J. Manners Smith in leading the advance on the 20th December, has already been reported,* and separate recommendations will hereafter be submitted in regard to other officers; but I am desired by the Commander-in-Chief to bring more particularly to the favorable notice of the Government of India the services of Lieutenant-Colonel Durand, Indian Staff Corps; Surgeon-Major Robertson, Indian Medical Service; and Major C. J. Mackenzie, Seaforth Highlanders.

* No. 279-F-C, dated 13th January 1892.
No. 2113-A. dated 24th March 1892.

6. The despatches having been so long delayed, it seems necessary to point out that in consequence of the difficulty of communication between Húnza, Gilgit, and India, they only reached the British Resident in Kashmir on the 17th instant, and were forwarded by him the same day to the Secretary to the Government of India, Foreign Department.

No. 249, dated Gilgit, 27th January and 6th February 1892.

From—LIEUTENANT-COLONEL A. G. A. DURAND, Commanding Húnza-Nagar Field Force,

To—The Adjutant-General in India (through the Resident in Kashmir).

I have the honor to submit the following despatch on the Húnza-Nagar Expedition for the information of His Excellency the Commander-in-Chief.

2. The Húnza-Nagar Field Force was embodied on the 30th November at Chalt, the fort at the boundary of Kashmir territory to the north of Gilgit.

The force was composed as under:

2nd Kashmir Rifles	3	484
Total	11	1,172

	12	1,031

Accompanying the force were 200 Pathan road coolies under Mr. Charles Spedding, with a strong European staff placed at the disposal of Government by Mr. Spedding to make roads.

3. The Staff consisted of—

Lieutenant-Colonel A. G. A. Durand.	Commanding.
Captain R. H. Twigg, 12th (Khelat-i-Ghilzai) Bengal Infantry.	Deputy Assistant Adjutant-General.
Captain C. J. Mackenzie, Seaforth Highlanders,	Aide-de-Camp to His Excellency the Commander-in-Chief.

4. On the 1st December, the force, strength as below, crossed the Húnza river into Nagar territory:

	British officers.	Fighting men.
Section of Hazara Mountain Battery	2	76
1-5th Gurkha Rifles	2	188
Bengal Sappers and Miners	1	7
20th (Punjab) Bengal Infantry	...	18
Gatling gun detachment, 20th (Punjab) Bengal Infantry	1	10
Signallers	...	12
1st Kashmir Infantry	2	257
2nd Kashmir Rifles	3	404
Total	11	872
Punial Levy	1	159
	12	1,031

5. On the 2nd December the force advanced and captured the fort of Nilt, the first in Nagar territory. The fort was one of great strength, placed at the junction of two precipitous cliffs several hundred feet high, which form the banks of the Húnza river, and of a great ravine which here runs into it. Owing to the configuration of the ground, the fort could not be properly seen till the force was within 300 yards of it. The walls of the fort were of solid stone, cemented by mud and strengthened by large timbers. In front of the main wall ran a loop-holed wall completely hiding the gate-way; before this again was a very deep ditch encumbered with *abattis*, and a broad band of *abattis* filled the space intervening between the ditch and a precipitous spur projecting from the mountain above into the narrow strip of cultivated land before the fort. Although this hill was crowned with infantry, guns could not be taken up, and the fire of the infantry could not touch the defenders of the fort, who were under perfect cover. The attack had therefore to be delivered straight to the front over a space narrowing to a width of about sixty yards. The guns, though admirably served, could make no impression on the walls, and the fort was assaulted by the detachment of the 1-5th Gurkha Rifles,

and carried after Captain Aylmer, Royal Engineers, had blown in the main gate. The gallantry of this officer and of Lieutenants Boisragon and Badcock of the 1-5th Gurkha Rifles has been made the subject of separate representation. The brunt of the fighting fell on the detachment 5th Gurkha Rifles, for from the nature of the ground the troops in support could be of little use. The Gurkhas behaved with their usual gallantry and dash, and the Kashmir Imperial Service Troops showed remarkable coolness in this their first action. The casualties amounted to three British officers wounded, three men killed, three mortally wounded, and one Native officer and twenty-two non-commissioned officers and men wounded. Eleven men of the Gurkhas and Sappers who displayed particular bravery have been recommended for the Order of Merit. The enemy's loss was over 80 killed and many wounded.

6. I had given orders that Captain C. J. Mackenzie, who with 20 men of the 20th Bengal Infantry and the Punial Levy under their own Rajas, directed by Lieutenant J. Manners Smith, should, after seizing the heights above the fort, attempt to cross the great ravine and turn the enemy's position, and that the moment the fort fell, the Body-Guard Regiment of the Imperial Service Troops, who were in reserve, should follow the flying enemy and carry any defences on the opposite bank of the *nala*. The precipitous sides of the ravine, the paths in which had been destroyed by the enemy, prevented Captain Mackenzie from carrying out my intention; while Captain Bradshaw, who succeeded to the command when I was wounded, came to the conclusion that any forward move was that day impossible.

7. The force was, therefore, halted for the night at Nilt. In front of it was the great ravine running from the river-bed to the glaciers some thousands of feet above. The far bank was lined with *sangars*, which commanded every possible track up it. Its height varies from six hundred feet, where it joins the river bank, to twelve hundred feet, and it is absolutely precipitous. To the left of the force ran the Húnza river, on the opposite bank of which was the strongly fortified place of Mayun, standing on the high cliff of the river, and full of men. Half a mile up the river, on the left bank, was a strongly fortified *ziárat*, from which to the junction of the great ravine ran one continuous line of *sangars*. During the night all the *sangars* were strongly reinforced, and those exposed to shell fire were provided with such heavy roofs as to defy the seven-pounders.

On our side the edge of the ravine was held by a line of picquets up to the snow line, the Punial Levy holding the upper positions.

8. On the morning of the 3rd December an advance was attempted, but after a loss of one man killed and seven wounded, including Lieutenant Gorton, Royal Artillery, was abandoned. Every *sangar* on the opposite hill was held in great force; the path leading down from the fort was precipitous, impassable for mules, and swept from end to end by a searching fire; while the path by which the enemy had fled the day before, and which ran up a cliff on to the cultivated land above the river, had been broken away and encumbered with *abattis*. It was, moreover, barred by a large *sangar*, holding about a hundred men, which during the night had been so strengthened as to be bomb-proof.

9. The position was one of great difficulty. The force was very small, and before it was an enemy many times more numerous than itself, holding a position of enormous natural strength and heavily entrenched. To attack the lower *sangar* with any chance of success seemed impossible, while an advance up the river-bed against the strongly fortified *ziárat* position under a raking cross fire from both banks of the river, though feasible with a large force, must have led to very heavy loss; and a very heavy loss, which would necessarily have involved many casualties amongst the British officers, already none too many, was not to be faced, except as the last resource.

10. For seventeen days the little force therefore remained stationary. It was evident that only two courses remained—the first to transfer the force to the right bank of the river and storm Mayun; the second to storm the opposite bank of the ravine. A force was crossed on the night of the 12th December to capture Mayun, but the attempt offered such difficulties in the darkness that it was given up. Night after night a few men of the Body-Guard Regiment, who volunteered for the dangerous service, explored the precipice for a road. The task was one of great danger, for at the least noise a heavy fire was opened, and, what was far more dangerous, avalanches of rock, started by the holders of the *sangars* above, thundered down the cliff into the ravine below.

11. During this enforced inactivity the conduct of the troops was all that could be desired; and, despite the depressing effect which a check in the face of the enemy must exercise, they showed the most soldierly spirit, the Gurkhas, Ragu Pertab, and Body-Guard all claiming to share the dangers of exploring the cliff face.

12. After many nights of patient searching, a Dogra sepoy of the Body-Guard Regiment named Nagdú, whose bravery and perseverance deserve special mention, discovered a practicable path, and an assault was resolved on. The command had devolved on Captain Colin J. Mackenzie, Seaforth Highlanders, in the temporary absence of Captain Bradshaw, who had come to Gilgit to see me on the question of supply.

13. During the night of the 19th December a hundred men of the Body-Guard were moved silently into the ravine, accompanied by Lieutenants J. Manners Smith and Taylor, the former of whom was to lead the assault. Captain Mackenzie's report on the operations of the 20th and subsequent days is attached, and gives an excellent description of the operation. On the morning of the 20th four parties of picked shots were moved on to our bank of the ravine, and with the guns opened such a well-aimed fire on the four *sangars* guarding the path by which the storming party was to ascend, that not a man could show himself. Shortly after the fire was opened, Lieutenant Smith led off his party of 50 men, followed by Lieutenant Taylor with the rest. At first a wrong direction was taken, and after an arduous climb Lieutenant Smith found his way barred by a sheer

precipice absolutely impassable for his men; descending several hundred feet, he again led his men up, and after another hour of hard climbing neared the top. The fire had been so well directed that the holders of the *sangars* were unaware of the danger which threatened them until the small party was observed from Mayun, and word was passed across the river and up the mountain side. Showers of stones were then thrown from the inside of the *sangars*, and crashed down over the storming party; but it had by this time passed the most dangerous points on the cliff, and was in safety. Lieutenant Smith, collecting a handful of his men, dashed forward, carried the nearest *sangar*, and in so doing assured the success of the expedition; for, as more men arrived at the top of the cliff, *sangar* after *sangar* was carried, and the roof set fire to. The rising smoke was the signal for a general *sauve qui peut;* the defenders of Mayun streamed away in hundreds. Wazir Dadu and Raja Uzr Khan, the leaders of the Húnza and Nagar forces, fled from the *ziárat*, and did not halt till they had put the passes of the Hindu Kúsh between them and our troops; and the defenders of the positions on the Nagar bank broke up and fled for their homes. Our loss in this brilliant attack, led up a precipice, at this point 1,200 feet in height, with consummate skill and daring by Lieutenant Smith, amounted to only two men wounded. The enemy's loss was heavy, and amounted to over 100 men killed and wounded, with 118 prisoners. A separate representation was forwarded by Captain Mackenzie while in command with reference to Lieutenant Smith's gallantry.

14. An immediate advance was made by the force, and receiving on the way the complete submission of the Raja of Nagar, Captain Mackenzie occupied Nagar on the 21st, and on the 22nd December, the Raja of Húnza having fled, the Húnza people made submission, and surrendered the Fort of Húnza into our hands.

15. All resistance being broken down, active operations ceased on the 22nd December 1891. The direction of affairs then passed to Mr. G. S Robertson, Surgeon-Major, Indian Medical Department, the Chief Political Officer. Under his instructions a flying column followed the fugitives as far as Misgar, six marches up the valley.

16. I resumed command of the force on the 7th January 1892, and on the 10th January the Húnza-Nagar Field Force was broken up; and a sufficient garrison being left in the country, the head quarters, with the section of the Hazara Mountain Battery and a detachment of the 1-5th Gurkhas, returned to Gilgit.

17. The conduct and discipline of the troops had throughout been admirable. As the officer to whom has fallen the honor of commanding a body of the Imperial Service Troops on the first occasion in which they have been called upon to fight in the interests of the Empire side by side with our own troops, it is with pride and pleasure that I would wish to draw special attention of His Excellency the Commander-in-Chief to the conduct of the Body-Guard and Ragu Pertab Regiments.

18. I have had these regiments under my orders for two years, and have seen them grow in efficiency under the careful instruction of Captain Twigg and Lieutenant Townshend, and the steady efforts of some of their own officers. The result has been most satisfactory, and they have proved themselves fit to take their place in line with our own regiments in frontier warfare.

19. They have shown coolness under fire and discipline in camp. The attack by the detachment of the Body-Guard Regiment on the *sangars* crowning the side of the ravine was a task to try the best regiment; and if the Ragu Pertab Regiment had not the opportunity of showing such high qualities, yet they showed no lack of keenness when they had a chance of meeting the enemy.

20. I had under my orders a picked body of officers, and they showed that they had not been selected for nothing.

Captain R. H. Twigg, 12th (Khelat-i-Ghilzai) Bengal Infantry, Staff Officer at Gilgit, was appointed Deputy Assistant Adjutant-General to the Force. The whole of the preparations for the expedition, involving, in the absence of all departmental officers, the consideration of all transport, commissariat, and ordnance details, passed through his hands. It is not too much to say that much of the success of the expedition was due to his untiring energy and tactful management previous to the opening of the expedition; while the manner in which he discharged his duties during the expedition met with the entire approval of the officers commanding. I wish to bring this officer most prominently to the notice of His Excellency the Commander-in-Chief.

Captain C. J. Mackenzie, Seaforth Highlanders, Aide-de-Camp to His Excellency the Commander-in-Chief, was appointed Deputy Assistant Quartermaster-General to the Force. He gave me and Captain Bradshaw, during the command of the latter, much valuable assistance in this capacity from his thorough knowledge of his duties. His determination and energy were of much value during the enforced inactivity of the force at Nilt. His brilliantly successful fight on the 20th December, which terminated the expedition, speaks for itself.

Captain F. J. Aylmer, Royal Engineers, did excellent work. His practical knowledge on an expedition where all scientific appliances were wanting was invaluable to the force. His gallantry in blowing open the gate of the Nilt Fort has been the subject of a separate recommendation.

Surgeon-Major G. S. Robertson, Indian Medical Department, succeeded me in the chief political charge. His intimate knowledge of the country and acquaintance with the people rendered his services extremely valuable. His refusal to treat with the Raja of Húnza, except after the latter's complete submission, did much during the halt of the force at Nilt to impress the rebellious chiefs and their followers with the hopelessness of continuing the struggle; while his judicious treatment of rajas and people when opposition ceased facilitated the subsequent pacification of the country.

Captain W. H. M. Stewart, Political Officer, acted as my galloper, and after I was wounded was employed in superintending the forwarding of supplies from Gilgit, which important work was executed most satisfactorily.

Lieutenant J. Manners Smith, Political Officer, was at first attached to the Puniali Levy. After the capture of Nilt, when the detachment of the 1-5th Gurkha Rifles had but one officer, he was attached to that corps, to which he had belonged. His gallantry in leading the attack on the heights on the 20th December has been reported on separately. In my opinion his leading the detachment of the Body-Guard Regiment on the 20th in the attack up the cliff deserves as great credit as the storming of the gate at Nilt. Indeed, until successful, it must have seemed more dangerous and difficult, and there are but few officers who would have been capable of finding a path and of rapidly leading men over such terrible ground.

Surgeon-Captain J. R. Roberts carried out the duties of Principal Medical Officer to my entire satisfaction. In the absence of many medical stores, &c., applied for from Kashmir for the use of the Imperial Service Troops, he improvised sick transport appliances for carrying stores, &c. His arrangements left nothing to be desired, and his medical skill and care for the wounded was shown by the success of his efforts.

21. The following officers attached to the Imperial Service Troops deserve mention:

Captain L. J. E. Bradshaw, 35th (Sikh) Bengal Infantry, on my being wounded, took command of the force, and remained in command till the 7th December.

Lieutenant C. V. F. Townshend, who for some months had superintended the drill and discipline of the Ragu Pertab Regiment, had brought them to a creditable decree of efficiency, as was shown by their good conduct and discipline in the field.

Lieutenant F. Duncan, 23rd Bengal Infantry (Pioneers), was attached to the Ragu Pertab Regiment on the forward movement of the troops. Previous to this, and during the expedition, he was in charge of the transport and commissariat. In addition to this, at Nilt, and subsequently owing to Captain Aylmer's being incapacitated by wounds, he performed the duties of field engineer very satisfactorily. He is most energetic and untiring in his exertions.

Lieutenant J. M'D. Baird, 24th Bengal Infantry, was attached to the Body-Guard Regiment. He was posted at Búnji in November, and had the whole responsibility of forwarding grain for the use of the force. Owing to the complete break down of the Kashmir contractors' arrangements, very little of the grain required for the troops had passed Búnji by the middle of November. In ten days Lieutenant Baird put the whole of the grain required by me previous to advancing over the Indus, which enabled me later to make a forward move. The excellent manner in which the Body-Guard Regiment was handled in the advance to Nagar from Nilt was largely due to his presence.

Lieutenant C. S. Williams, 43rd Bengal Infantry (Gurkha Rifles), attached to the Ragu Pertab Regiment, after the fight at Nilt was given the important command of the advanced base at Chalt, where he did uncommonly well. I have formed a very high opinion of his professional capacity.

Lieutenant G. T. Widdicombe, 9th Bengal Infantry, attached to the Ragu Pertab Regiment, was put in command of Nilt Fort from the date of its capture to the 26th December. He is very hard-working and capable.

Lieutenant F. H Taylor, 3rd Sikh Infantry, attached to the Body-Guard Regiment, led his men well in the fight of the 20th, and shewed himself a cool-headed and reliable officer.

Lieutenant C. A. Molony, Royal Artillery, had been attached to the Kashmir Mountain Battery, and during the expedition, in which it did not at first take part, was in charge of the Gatling gun. After Lieutenant Gorton was wounded, he took charge of the section of the Hazara Mountain Battery. During the action at Nilt he brought the Gatling into action under a smart fire within 200 yards of the fort, and subsequently did good work with the guns.

Lieutenant G. H. Boisragon commanded the detachment of the 1-5th Gurkha Rifles, and shewed himself a model regimental officer. His gallantry and that of Lieutenant Badcock has been made the subject of a special recommendation.

Lieutenant R. St. G. Gorton, commanding the section of the Hazara Mountain Battery, brought his guns into action against Nilt Fort at a distance of 250 yards. He shewed marked coolness, and fought his guns as if on parade, his example being naturally followed by his men.

Surgeon-Captain H. B. Luard's skill and care will be remembered by all who passed under his hands.

22. Mr. E. F. Knight, who had accompanied the force in a private capacity, volunteered his services after the actions of the 2nd and 3rd December. They were gladly accepted owing to so many officers having been wounded. He proved a most valuable acquisition to the force, and is spoken of in high terms of praise by all the officers with whom he was associated.

23. General Suram Chand, who commands the Gilgit Brigade of Kashmir, was with the Imperial Service Troops, and gave every assistance in his power.

Major Kalé Khan, the Acting Wazír Wizarat of Gilgit, has rendered much valuable service in arranging for and forwarding supplies.

Major Makhan, Body-Guard Regiment, Commandant at Nomal, had incessant work in connection with the passage of stores to the front, and carried it out satisfactorily.

In the Ragu Pertab Regiment, Subadar Gulábú and Jemadar Kishan Singh were prominent, showing activity and efficiency in carrying out orders. I should strongly recommend these officers for promotion.

In the Body-guard Regiment, Adjutant Náin Singh in the frequent absence of the officer commanding owing to indisposition practically commanded the regiment. He is most efficient, and I should strongly recommend him for the command.

Subadar Mán Singh commanded the fifty men led by Lieutenant Smith in the attack of the 20th. He was frequently selected to command parties where courage and steadiness were likely to be required. He is an officer whom I desire to recommend.

24. The following papers are attached:

(1) Captain Mackenzie's report on the action of the 20th December and on the movements of the force from 18th to 21st December.

(2) List of killed and wounded in the Húnza-Nagar Field Force.

No. 1, dated Camp Húnza, 28th December 1891.

From—CAPTAIN C. J. MACKENZIE, Seaforth Highlanders, Deputy Assistant Quartermaster-General, Húnza-Nagar Field Force,

To—The Officer Commanding Húnza-Nagar Field Force.

I have the honor to report as under the operations of the Húnza-Nagar Field Force from the 18th to the 21st December, inclusive, while acting under my command.

During the 18th and 19th instant the force remained in camp, and the usual routine was observed. A parade of all the troops was held on the 19th instant, and a telegram from His Highness the Maharajah of Kashmir read out conveying his congratulations on the success obtained on the 2nd instant, when the fort of Nilt was taken by assault.

On the 19th December, at 7 P.M., 100 rifles of the Body-Guard Regiment (2nd Kashmir Rifles) paraded under Lieutenants J. Manners Smith and F. H. Taylor, and under cover of darkness moved across the exposed ground to the north of the fort and up into the *nala* beyond. This movement was performed so silently that the enemy were unaware of its having taken place. The party took their great-coats and blankets, and remained in the *nala* all night, and when daylight broke, owing to their position and the precipitous slopes on each side, they were still effectually concealed from the enemy's view. Cooked rations for the 20th instant were carried in the havresacks. Of this detachment of 100 rifles, Lieutenant Smith with 50 rifles was to form the advance of the storming party, and Lieutenant Taylor with the remaining 50 rifles to support. Each of these officers was furnished with written orders detailing the course of action to be pursued by them. The portion of the enemy's position which had been selected for attack was towards their extreme left and on the summit of a precipitous declivity, which, without a break, descended some 1,500 feet to the water in the bed of the ravine.

The whole of the force was directed to hold itself in readiness for a forward movement by 10 A.M. on the 20th instant, and orders issued regarding the storage and protection of tents and supplies remaining behind, supply of ammunition and rations to accompany the column, and guards for the line of communication and convoys.

At 6 A.M. on the 20th instant the following details paraded and took up a position on our side of the ravine, facing the enemy's *sangars, viz.*, 25 rifles of the 20th Bengal Infantry under Mr. E. F. Knight (a volunteer accompanying the force), 50 rifles of the 1-5th Gurkha Rifles under Lieutenant Boisragon, 30 rifles of the Ragu Pertab Regiment (1st Jammu and Kashmir Infantry), under Lieutenant Townshend, 30 rifles of the Body-Guard Regiment under Lieutenant Baird and two guns of No. 4 (Hazara) Mountain Battery under Lieutenant Molony. The above were all selected shots, and, with the guns, were in position before daylight. It was considered necessary to keep all movements as secret as possible to prevent the enemy placing more than their ordinary garrison at the point to be attacked.

The *sangars*, which commanded the line of advance of the storming party, were four in number, and the covering party on the ridge were told off into four parties, whose fire was directed on these *sangars*. The distance was 400 to 600 yards, and the fire was so steady and well aimed that almost every shot hit the particular *sangar* it was directed at, and prevented to a great extent any return fire; while it was equally impossible for any of the enemy to leave a *sangar* to hurl down stones, though, in fact, a considerable number were thrown from inside these *sangars* from those parts of them which were not roofed over. The fire of the guns was also directed on these four *sangars*.

The loopholes of Nilt Fort were lined at 7-45 A.M., and the dispositions generally were such as to prevent the enemy retiring from, or reinforcing, any particular *sangar*.

At 7-55 A.M. fire was opened on the *sangars*. Lieutenant Smith, after ascending the precipice half-way, was obliged to return to where he originally started from, having accidentally got on to a place which was quite impracticable, and rather to the north of that previously selected. However, at 10 A.M. the ascent was recommenced, and on this occasion by the right line. Foot by foot and yard by yard the perilous ascent was made, and the summit was eventually reached at 11-30 A.M. Lieutenant Smith manœuvred his small party in the most admirable manner, moving them from point to point as opportunity offered, and the showers of stones from above permitted. The first *sangar* was successfully attacked and captured. Lieutenant Taylor's party now commenced the ascent, and on attaining the summit, in combination with the first party, they attacked all the *sangars* in succession and cleared them of the enemy, whose line was now completely turned and taken in flank. The garrisons of the *ziárat* and of the fort of Mayun now streamed out of those places in full flight. Their numbers were respectively estimated at 100 and 400 men. Had they not fallen back, their retreat must have been quite cut off. Owing to the distance from Nilt, they were enabled to effect this movement with slight loss.

The guns and details of 125 rifles on the ridge were now withdrawn, and fell back on the camp. At 1-30 A.M. the force was formed up, and a general advance ordered. The road led round by the north of the fort down into the ravine, and up the opposite bank, through the large *sangar*, in which 92 prisoners were taken, including two wounded. Some time was taken up in removing the eight feet of stones and wood built up behind the door of this *sangar*. All the prisoners, 118 in number, were sent back immediately to Chalt, escorted by the detachment of the 20th Bengal Infantry under Mr. Knight, who had instructions to rejoin the main body again without delay.

The Ragu Pertab Regiment in advance marched directly on the Thol Fort, throwing out left flanking parties towards the *ziárat* and the *sangars* near it, which were taken at the point of the bayonet. Twenty-two of the enemy were killed here. Lieutenant Townshend occupied Thol, and had orders as to his subsequent movements and disposition of guards at important points.

The Puniali Levy, 65 in number, crossed the river at Nilt on the *mashak* raft, and occupied Mayun very soon after it had been evacuated, and afterwards reported that they had killed ten of the enemy there. They subsequently advanced along the Húnza bank of the river and destroyed the defences of the fort at Hini, having previously levelled those of Mayun.

The 5th Gurkha Rifles, under Lieutenant Boisragon, now formed the advance guard, and our left being protected by the river, a right flanking party of 50 rifles of the 5th Gurkhas under a native officer moved up the heights on that flank, and held them during the night; a few of the enemy were seen, and fired on on these heights. Gulmit was reached and occupied by a small guard, the remainder of the force pushing on and reaching Pisan at dusk.

Just west of Pisan is the strong position of the Gall Pari, but it was not held, and the pursuit was so rapidly pushed that some men were fired on at this place while retreating.

Pisan is estimated to be some seven miles from Nilt.

The path over the ravine at Nilt was not practicable for guns, but Lieutenant Molony with a sufficient escort was instructed to advance as soon as it could be made so. With eight mules carrying the guns and carriages, the ammunition being carried on coolies, Lieutenant Molony joined me at Pisan at 3 A.M. on the 21st instant.

The baggage with an ample guard was ordered to follow the main body with all despatch.

The villages had been set on fire by the enemy as they retreated.

The night at Pisan passed without incident, one of the picquets firing on some men who tried to approach. Ample supplies of *áta* and meat were procured from the interior of the fort, and a full ration served out to all the troops.

Our casualties during the 20th instant had been two sepoys of the Body-Guard Regiment wounded. The enemy's loss on the Nagar side of the river was about 100 killed (this number has received confirmation from local native sources of information) and 118 prisoners. Their wounded they carried away.

At dawn on the 21st instant the advance was resumed, the total force consisting of 100 of the 1-5th Gurkha Rifles, 250 of the Body-Guard Regiment, and two guns of No. 4 (Hazara) Mountain Battery. The baggage had not come up, but supplies were obtainable ahead, and ammunition accompanied regiments and corps on coolies. A few miles beyond Pisan a letter was received by Surgeon-Major G. S. Robertson, Indian Medical Service, the Political Officer, from Jafr Ali Khan, the Thum of Nagar, who said he was waiting at the village of Fike to tender his submission. An answer was sent to him saying that the force was advancing on Nagar, and that Mr. Robertson would interview the Thum at Fike as he desired.

From Fike the march was continued to Nagar, which was eventually reached at 6 P.M. The road was a very trying one for troops, and full of steep ascents and descents. When any occasion was afforded of doing so, fire was opened on the enemy on the Húnza bank of the river. The distance from Pisan to Nagar is estimated to be twenty-one miles.

Before reaching Nagar, Mr. Robertson received letters from Húnza, which stated that the people on that side of the river were prepared to submit. This was considered possible, and, as any delay in the occupation of the fort at Húnza was unadvisable, I issued orders for Captain Twigg to cross the river and take possession of it with the 5th Gurkhas. This was satisfactorily accomplished by 2 P.M. on the 22nd instant.

The troops, though fatigued by the day's exertion, were in excellent health and spirits. Lieutenant Townshend, with the head-quarters of his regiment, the detachment of the 20th Bengal Infantry, a detachment (50 rifles) of the 5th Gurkhas, and all the baggage, reached Samaya, a village about five miles west of Nagar, on the morning of the 22nd instant.

I have to thank especially the following officers for their cordial co-operation and assistance:

Captain Twigg, the Senior Staff Officer, whose valuable aid I take this opportunity of gratefully acknowledging.

Lieutenants Townshend and Baird, commanding respectively the Ragu Pertab and Body-Guard Regiments.

Lieutenant Duncan, the Commissariat and Transport Officer.

Lieutenants J. Manners Smith (whose conduct I have made the subject of a special report) and Taylor, whose united storming parties turned the enemy's formidable position at Nilt.

Lieutenant Molony, Royal Artillery, and Mr. E. F. Knight.

Surgeon-Captain Roberts, Indian Medical Service, Principal Medical Officer.

CHAPTER II.

RULES FOR REGULATING THE MODE IN WHICH, AND THE SPEED AT WHICH, ROLLING STOCK USED ON THE RAILWAY IS TO BE MOVED OR PROPELLED: AND GENERALLY FOR REGULATING THE TRAVELLING UPON, AND THE USE, WORKING, AND MANAGEMENT OF THE RAILWAY.

SECTION I.

Systems of working trains—General Rules.

System of working.

4. Every line of State railway upon which engine power is used for the public carriage of passengers, animals, or goods must be worked on one of the following systems, namely:—

"*Line clear and caution message,*"
"*Train following,*"
"*Absolute block,*"
"*Train staff and Ticket,*"
"*Pilot Guard,*"
"*One engine only,*"

in accordance with the rules laid down in Sections II to VII for the system adopted.

Time.

5. Madras time, or such time as is adopted on each railway in India, shall be sent to the principal stations in accordance with special instructions.

Interval of time between trains.

6. Where the absolute block system as prescribed in Section IV is not in operation, no train shall be allowed to follow any other train on the same line within ten minutes unless it has been ascertained that the preceding train has arrived at the next station in advance.

Following trains.

7. Where the line is not worked under the absolute block system, no passenger train shall follow a goods train, nor shall a fast goods train follow a stopping passenger train, from a station within fifteen minutes; nor even then until the Driver has been properly warned of the time of the departure of the preceding train, and where it will next stop. But in case the distance to the next station in advance exceeds ten miles, the interval must be increased under special instructions.

Ballast train working between stations.

8. In case a train may have to stop between stations to take up or put down material, the permission of the Station Master of the last station before the stoppage has to be made must be obtained

before the train leaves such station. The Station Master must take care to give all necessary instructions.

Double and single line working.

9. (1) On a double line trains must invariably be run on the left hand road, except under special instructions to the contrary, and in accordance with Rule 10.

(2) On a single line no train shall be permitted to leave one station for another until it has been ascertained that the line between those stations is clear of trains coming from the opposite direction, and of all impediments as far as can be known.

(3) When allowable under the system adopted for working, trains may on both single and double lines follow one another between stations in the same direction under special instructions, and in accordance with Rules 6 and 7.

When line is blocked.

10. On the double line, should an accident block one of the lines of railway so as to necessitate the passing of all up and down trains on a single line, immediate steps must be taken to establish single line working on the rules adopted by the railway concerned for working in such cases.

Running of special trains or light engines.

11. No special train or light engine shall leave a station unless previous notice has been given to all stations concerned.

Engine not to push.

12. No engine shall be allowed to push a train, or portion of a train, or fuel truck unless within station limits, or under special instructions.

SECTION II.

Rules for working trains on the system termed "Line clear and caution message" in Rule 4.

Signals not dispensed with.

13. The working of trains on the "line clear and caution message" system does not in any way dispense with the use of station, distant, or other signals whenever and wherever such signals may be requisite.

Line clear and caution messages.

14. Under this system, no train shall be permitted to leave one station for another—

until it has been ascertained by means of the electric telegraph that the line on which the train will travel between those stations is absolutely clear of trains and of all impediments as far as can

be known, in which case a "line clear" message must be obtained in the manner prescribed in the special instructions; or

unless the line is occupied only by trains running in advance and in the same direction at time intervals, in which case a "caution" message must be obtained in the manner prescribed in the special instructions.

Following trains.

15. Trains may follow one another between stations in the same direction on both single and double lines, subject to the following conditions in addition to those prescribed in Rules 6 and 7:—

(*a*) No train shall be allowed to follow another unless permission has been obtained in each and every case from the station to which the train is proceeding.

(*b*) The "caution" message shall contain an entry of the time at which the preceding train left the station.

(*c*) When a flag station or station without telegraph intervenes between two telegraph stations, special instructions must be issued regarding following trains, *e.g.*, the following train must stop some distance before arrival at the flag station and pull slowly up to it, and, if necessary, wait at such flag station until the interval prescribed in Rule 6 or Rule 7, as the case may be, is fully restored.

Authority to give and seek line clear.

16. No one except the Station Master or other duly authorised person is to give or seek a "line clear" or "caution" message.

Time for seeking line clear.

17. Except at train terminal stations, the Station Master must not apply for a "line clear" message from the station in advance until he has received advice that the approaching train has left the station in rear: provided that, where this procedure might involve delay to a train in consequence of the short distance between any two stations, such extended time for seeking "line clear" as may be needed may be allowed by special instructions.

Driver to obtain written permission.

18. (1) No train shall be moved from any station until the Driver has in his

possession a "line clear" or "caution" message, or other permission written on the authorised form showing that he may proceed to the next station.

Delivery of written permission to Driver.

(2) Except in the case mentioned in clause (4) of this Rule, the Driver is to receive the written permission from no other person than the Guard of his own train, or from the Station Master, or from one of the station staff duly authorised for such duties. On all such occasions, when the Guard does not personally deliver the written permission to the Driver, it must be countersigned by the Guard before delivery to the Driver.

Starting signal.

(3) The Driver must also receive from the Guard the usual starting signal before moving.

Delivery of written permission for trains running through.

(4) When a train is arranged to run through a station without stopping, the Station Master or other authorised person of the station staff of that station may hand the written permission to proceed to the next station direct to the Driver, and in that case a duplicate of the permission shall be handed to the Guard in the same manner.

Delivery of written permission to Guard.

19. (1) Except in the case mentioned in clause (4) of Rule 18, the Station Master or other authorised person of the station staff is to hand the written permission to the Guard. The Guard must satisfy himself that the written permission is properly filled up and dated, with the time added, and is signed in full and in ink, and that it applies to the particular train for which it is given and received. The Guard must also sign the written permission in cases where he does not personally deliver it to the Driver. The Driver must also satisfy himself before starting that the written permission has been properly filled up, and applies to his train.

Station Master responsible for correctness of written permission for trains running through.

(2) When, in the case mentioned in clause (4) of Rule 18, the written permission is handed both to the Driver and the Guard of the train, the Station Master will be held wholly responsible to see that it applies to the particular train for which it is given, and that it is properly filled up and dated, with the time added, and is signed in full and in ink.

Written permission not to be delivered to Driver till train is ready to start, or incoming train is clear of points.

(3) The written permission, when a train is timed to stop at a station, is never to be given to the Driver until the train is to start; and when waiting to pass another train, it must not be given to the Driver until the whole of such other train has come in and is clear of the points.

Forms and books.

20. No forms other than those specially provided from time to time for the purpose are to be used in working under this system. The regular books prescribed by the working orders in force must be kept at each station.

Messages cancelled.

21. The leaves of the said books shall be progressively numbered in type, and when any message has from any cause to be cancelled, the form to which it applies must also be marked as cancelled both on the form and counterfoil, and must be carefully preserved by doubling it on the counterfoil. Each book shall contain a certificate showing the number of pages the book contains.

Messages to be numbered.

22. In addition to the progressive printed number, every message from each station to stations on each side must be numbered from midnight to midnight, commencing with number one to each station; and this number is to be treated as a portion of the message and entered on the counterfoil.

Number to be quoted.

23. (1) When a message is in reply to another, each station's number must be quoted at the beginning of the message.

(2) When a message bears reference to a prior message in the same direction, the number of such prior message must also be quoted at the beginning of the later message.

Train to be described in messages.

24. In train messages the train must be distinctly described; as, for instance, "No. 2 down ballast," "No. 4 up goods," and so on. For every train a separate enquiry and reply must be sent, and an enquiry and reply message must never be sent on one form.

Line clear enquiries.

25. In "line clear" enquiries, the Station Master must always give the time at which the last train, in the opposite direction, arrived at his station. If the train follows another on a "caution" message, the time of departure of the preceding train must be endorsed on the message.

Starting train in opposite direction on single line on cancellation of line clear.

26. After a "line clear" message has been given, and has been subsequently cancelled, no train is to be started in the opposite direction on a single line until a telegram has been received stating that the train for which the "line clear" had

RULES FOR WORKING TRAINS ON THE SYSTEM TERMED "TRAIN FOLLOWING" IN RULE 4.

been first given is, and will be, detained, and that the message has been cancelled.

Messages to be wholly written out before being acted on.

27. No part of a message affecting the passage of trains may be forwarded or acted upon until the whole has been written out, except in view to the prevention of an accident or in some other case of emergency.

Messages not to be signed before required.

28. "Line clear" or "caution" messages are not to be written out in full or in part, or signed, before they are required.

Messages to be written in ink and signed.

29. All messages connected with train working, including "line clear" messages, are to be written in ink or other indelible substance, and are to be signed in full by the Station Master or other authorised person.

Messages to be filed.

30. "Line clear" and enquiry messages must be retained for at least a fortnight.

Working of trains between stations when telegraph is interrupted.

31. In case of accident to the line or train, or of failure or interruption of telegraphic communication, trains must be worked between stations in accordance with special instructions.

SECTION III.

Rules for working trains on the system termed "Train following" in Rule 4.

Applicable to double line.

32. This system is applicable only to double line working.

Following trains.

33. Trains may follow one another between stations in the same direction, subject to the conditions prescribed in Rules 34 and 35 in addition to those prescribed in Rules 6 and 7.

When train is to be stopped.

34. Should a train arrive at a station within the limits of time mentioned in Rule 6 or Rule 7, as the case may be, it must be stopped until the prescribed interval has elapsed.

Caution to following train.

35. When one train follows another before the first has reached the next station, the Station Master must caution the Guard and Driver of the second train, giving them the time of departure of the preceding train. The order to proceed must be given in writing, and an acknowledgment in writing must be obtained from the Driver, the train being stopped out of course if not booked to stop.

RULES FOR WORKING TRAINS ON THE SYSTEMS TERMED "ABSOLUTE BLOCK" AND "TRAIN STAFF AND TICKET" IN RULE 4.

SECTION IV.

Rules for working trains on the system termed "Absolute block" in Rule 4.

Object of electric train-signalling system.

36. The object of the system of electric train-signalling is to prevent more than one train being between any two signal stations on the same line at the same time. This is accomplished by not allowing any train to leave a signal station till the previous train has been signalled clear.

Other signals not dispensed with.

37. The block system of train working by electric train-signalling does not in any way dispense with the use of out-door and hand signals, whenever and wherever such signals may be requisite.

Instruments.

38. The special electric block instruments, if provided, are to be used only in strict accordance with special instructions.

Absolute block working.

39. (1) On those portions of any railway which are worked on the absolute block system, a train must not be allowed to enter any section until it has been ascertained by telegraph that the section is clear of trains, or, in cases of double line working, of trains going in the same direction.

(2) Except when otherwise specified, a section is to be understood to be the line between two stations outside station limits.

Lines fouled.

40. Should there be reason to suppose that from accident or otherwise either or both lines are obstructed, care must be taken to advise other stations concerned so as to prevent trains from entering the section.

Working of trains between stations in case of accident or when telegraph is interrupted.

41. In the event of accident to the line or train, or of failure of the train-signalling instruments used for block-working, so that the ordinary signals cannot be forwarded and received, trains must be worked between stations in accordance with special instructions.

SECTION V.

Rules for working trains on single lines of railway on the system termed "Train staff and ticket" in Rule 4.

Signals not dispensed with.

42. The train staff and ticket system of train working does not in any way dispense with the use of out-door and hand signals, whenever and wherever such signals may be requisite.

Staff stations.

43. The working time-tables will contain the necessary information from time to time as to the places which are appointed staff stations.

RULES FOR WORKING TRAINS ON SINGLE LINES OF RAILWAY ON THE SYSTEM TERMED "TRAIN STAFF AND TICKET" IN RULE 4.

Train not to leave without staff or ticket.

44. A train staff or train staff ticket must be carried with each train, and without this staff or ticket no train shall be allowed to leave any station.

Staff at station.

45. No train shall be permitted to leave any staff station unless the staff for that portion of the line over which the train is to travel is then at the station.

Receipt and delivery of staff or tickets.

46. The Station Master for the time being is the only person authorised to receive and deliver the staff or ticket, and all tickets must be cancelled directly they are handed to him after use.

Delivery of staff to Driver.

47. When a train is ready to start from a station, and no second train is intended to follow before the staff will be required for a train in the opposite direction, it is the duty of the Station Master to give the staff to the Driver, who shall then place it in a conspicuous place provided for that purpose on the engine.

Tickets and staff for Drivers of trains following in succession.

48. If other trains are intended to follow in succession before the staff can be returned, a ticket indicating that the staff is following must be given by the Station Master to the Driver of the first train, the staff for the section being shown to him, and so on with any other train except the last, the staff itself being given to the Driver of the last train as directed in Rule 47. After the staff has been sent away, no other train shall under any circumstances leave the station to follow in the same direction until the staff for that station has been returned.

Duties of Driver in regard to staff or ticket.

49. No Driver with a train shall leave a station until he has received the proper staff or ticket for that section of the line over which he is about to travel, and he must not take the staff or ticket from any person other than the Station Master. After receiving the staff or ticket, he must not start until the proper signals have been exhibited, nor, when with a train in charge of a guard, until a signal has also been given by the Guard. But he must not accept a ticket in any case unless he sees the staff at the same time in the possession of the person who gives him the ticket. On arriving at the station to which the staff or ticket extends, the staff or ticket must immediately be given up to the Station Master, and all tickets so given up must be immediately cancelled.

Distinguishing marks on staff, &c.

50. Each staff must have shown upon it the name of the staff stations at each

RULES FOR WORKING TRAINS ON SINGLE LINES OF RAILWAY ON THE SYSTEM TERMED "TRAIN STAFF AND TICKET" IN RULE 4.

end of the portion of line to which it applies. The staff, boxes, and tickets for the different portions of the line must be distinguished by different colours.

Tickets, how kept.

51. The tickets must be kept in the proper ticket-box fastened by an inside spring, the key to open the box being the staff to which the tickets apply.

Record of tickets issued.

52. The Station Master must keep a record in a book of each ticket issued, showing the number of each ticket, and the particular train for which it is issued.

Custody of staff at station.

53. The staff, when at the station, must not be left in the box, but must be kept by the Station Master in safe custody.

Surrender of staff or ticket by Driver.

54. No Driver must take any staff or ticket beyond the station at which it ought to be left.

Staff or ticket when assisting engines are used.

55. When trains are assisted by a second engine in the front, the leading engine must carry the staff or ticket; but when the assisting engine is pushing the train, the train engine must carry a ticket and the assisting engine the staff, except in cases where the train and assisting engines are travelling over the entire length of line to which the staff applies, and have to be followed by another train or engine, in which case the train and assisting engine must each have a ticket. When the assisting engine is intended to return to the station from which it started without running through the entire portion of line to which the staff applies, it must always carry the staff.

Engine disabled.

56. (1) In the event of an engine which carries the staff breaking down between two stations, the Fireman must take the staff to the staff station in the direction whence assistance can be obtained in order that the staff may be at the station on arrival of the engine.

(2) Should the engine that fails be in possession of a ticket instead of the staff, assistance must ordinarily come only from the station at which the staff has been left. But if assistance can be more readily obtained at a station other than that where the staff is, immediate steps must be taken to have the staff transferred to the other end of the section.

(3) The Fireman must accompany the assisting engine to the place where he has left his own engine.

RULES FOR WORKING TRAINS ON SINGLE LINES OF RAILWAY ON THE SYSTEM TERMED "PILOT GUARD" IN RULE 4.

Ballast trains at work on the line.

57. (1) When a ballast train has to work between stations, the staff must be given to the Driver in charge of the train: this will close the line whilst the train is at work. The train must proceed afterwards to one of the staff stations to open the line before the ordinary traffic can be resumed.

(2) Ballast trains not stopping to work between stations may run with staff or ticket as ordinary or special trains.

SECTION VI.

Rules for working trains on single lines of railway on the system termed "Pilot guard" in Rule 4.

Application of system.

58. This system is only applicable to short branch lines.

Pilot Guard to start trains.

59. The Pilot Guard will be distinguished by a red dress or badge, and no train shall under any circumstances be allowed to run on the line unless it is either accompanied or personally started by the Pilot Guard wearing such dress or badge.

RULES FOR WORKING TRAINS ON SINGLE LINES OF RAILWAY ON THE SYSTEM TERMED "ONE ENGINE ONLY" IN RULE 4.

Pilot Guard, when practicable, to accompany every train.

Exception.

60. The Pilot Guard will, when practicable, accompany every train; but, when it is necessary to start two or more trains from one end of the portion of line under his control before a train has to be started from the other end, the Pilot Guard must furnish the Guard in charge of each train not accompanied by himself with a Pilot Guard's ticket (on a printed form, where such are provided) properly filled up and signed, and must personally start each such train, and must himself accompany the last train. The ticket will apply only to the single journey to the station named on it, where it must be immediately given up to the Station Master; and all tickets so given up must be immediately cancelled.

Duties of Driver.

61. The Driver must not start his train without seeing the Pilot Guard, or, if the Pilot Guard does not accompany the train, without receiving from the Guard of his train the Pilot Guard's ticket authorising him to proceed. A Driver working an engine, unaccompanied by a Guard, must himself observe the rules prescribed in this section for a Guard with a train.

SECTION VII.

Rules for working trains on single lines of railway on the system termed "One engine only" in Rule 4.

Application of system.

62. This system is only applicable to short branch lines.

One engine in steam.

63. Only one engine in steam, or two or more engines coupled together, which are then to be treated as one engine or train, may be allowed to be on the line at one and the same time, except as provided in Rule 64.

Disabled engine.

64. In the case of a train becoming disabled and requiring assistance, or an accident occurring which renders it impossible for the engine to proceed, the Guard in charge must instruct the Driver to keep the engine stationary until his return, and then make the best of his way to the station whence assistance can be obtained, and inform the Station Master there of the circumstances, who will, on receipt of such information, allow a second engine to enter the line. The second engine must be accompanied by the Guard of the disabled train, who must explain to the Driver where, and under what circumstances, the disabled train is situated.

SIGNALS.

65. The Guard of the disabled train will be held responsible for the safe and proper working of the line until both engines have left it and it is again clear.

Responsibility of Guard of disabled train.

66. Should an engine without a Guard become disabled, the Fireman, or, if necessary, the Driver, must perform the duties prescribed in this section for the Guard.

Absence of Guard.

SECTION VIII.

Signals.

67. RED is a signal of "DANGER"—Stop.

GREEN is a signal of "CAUTION"—Go slowly.

WHITE is a signal of "ALL RIGHT"—Go on.

Colours.

68. Except in the case mentioned in Rule 72, the hand signals shall be made by flags in the day, and by lights at night or in foggy weather or in tunnels.

Hand signals.

69. If it be necessary to stop, the red flag will be shown and waved to and fro, the Signalman facing the engine thus—

DANGER.

or the red light shown.

70. (1) Except as provided in clause (2) of this Rule, if it be necessary to proceed with "Caution," the green flag will be elevated thus—

CAUTION.

or the green light shown.

(2) If it be necessary to proceed with "Caution" from any defect in the road or rails, the green flag will be depressed thus—

CAUTION (DEFECTIVE ROAD).

or the green light shown.

SIGNALS.

71. When the line is clear, the Signalman must either stand erect with his flag in his hand, thus—

ALL CLEAR.

or display a white flag, or white light.

72. In the absence of flags—

(*a*) Both arms raised above the head denotes "Danger," thus—

DANGER.

(*b*) One arm raised with the hand above the head denotes "Caution," thus—

CAUTION.

(*c*) One arm held in a horizontal position across the line of rails denotes "All Right," thus—

ALL RIGHT.

Danger signal with any light.

73. In the absence of a red light, any light moved up and down or waved violently denotes "Danger"—Stop.

Caution with white light.

74. In the absence of a green light, a white light waved slowly from side to side denotes "Caution"—Go slowly.

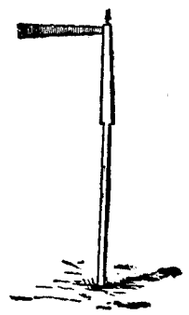

Fixed signals.

75. (1) The fixed signals are for the most part constructed with one or more Semaphore arms for day signals, and with one or more lamps for night; but disc and other signals are in some cases used.

SIGNALS.

(2) The day signal is invariably made by the arm on the left hand side of the post, as seen by the Driver of an approaching train.

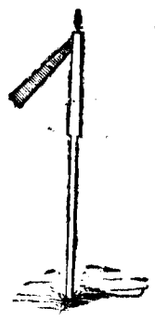

76. The "Danger Signal" is shown in the day time by the arm on the left hand side of the post being raised to the horizontal position, thus—

DANGER.

and at night by the exhibition of a *red* light.

77. The "Caution Signal" is shown in the day time by the arm on the left hand side of the post being placed half way to the horizontal position, thus—

CAUTION.

and at night by the exhibition of a *green* light.

78. The "All Right Signal" is shown in the day time by the arm on the left hand side being lowered to the post, thus—

ALL RIGHT.

and at night by the exhibition of a *white* light.

Fixed signals to be kept at "Danger."

79. Fixed signals are always to be kept at "Danger," and lowered or reversed only to allow a train to pass.

Station Signals.

Station signals.

80. Station signals are placed at stations, junctions, sidings, outside station limits, and signal boxes, and when at "Danger," no train may pass them, or foul the crossings or points to which they apply, except as prescribed in Rules 82 and 88.

Junction signals.

81. A station signal at a junction must never be passed when at "Danger" by the train to which the signal applies.

Passing station signals.

82. Station signals at stations, sidings, and signal boxes (other than at junctions) must never be passed when at "Danger" unless the Driver is signalled past by hand

SIGNALS.

by a person duly appointed by an authorised officer.

Station signals at "Danger."

83. Station signals must invariably stand at "Danger," except when lowered for an approaching train.

Distant signals.

84. Distant signals are fixed at a considerable distance from the station, and are constructed to exhibit the "Danger" and "Caution" signals only.

Distant signals to be replaced at "Danger."

85. Distant signals must be replaced at "Danger" immediately they are passed by an engine.

Fixed signals to fly to "Danger."

86. Fixed distant signals must be constructed to exhibit "Danger" in case of any failure of their connections.

Use of Signals.

Use of distant and station signals together.

87. The following rules are prescribed regarding the use of the station and distant signals together:—

(*a*) *Distant signal at "Danger" and station signal at "Danger."*—The Driver of an approaching train must bring his train to a dead stop outside of the distant signal, and must then ascertain if the line is clear to admit the train within it. If the line be clear, he must at once draw the train cautiously within the distant signals so as to be protected by it, but not so as to foul the outer points, and then stop until signalled into the station in accordance with special instructions. If, however, there is any obstruction on the line so near to the distant signal as to prevent the whole of the train from passing safely within it, the rules for the protection of trains when stopped outside station limits must be immediately carried out (see Rules 245 to 254).

(*b*) *Distant signal at "Caution" and station signal at "Danger."*—With these signals shown, the train may at once be brought inside the distant signal, but must be stopped without fouling the outer points; and all further action must be taken as in the preceding case, clause (*a*).

(*c*) *Distant signal at "Caution" and station signal at "Caution."*—These signals will be shown only when the yard is clear to admit a train which is to stop at the station.

SIGNALS.

With these signals shown, the train may be cautiously brought into the station yard, the train being kept well in hand; and must be stopped at the proper platform or place at which signalled to stop.

(*d*) ***Distant signal at "Caution" and station signal at "All Right."***— These signals will be shown only when the yard is clear to admit a train which is not to stop at the station, but to run through without stopping. With these signals shown, the train may enter the station yard and run through, but the speed over facing points is not to exceed ten (10) miles an hour, as prescribed in Rule 230, or such lower speed as may be prescribed by the authorised officer. If, however, the points are interlocked with a signal and automatically fastened in a manner approved by an Inspector of Railways appointed under the Indian Railways Act (IX of 1890), they may be passed over at a speed not exceeding twenty (20) miles per hour.

Signals apply only to proper direction.

88. Station and distant signals apply only to trains running in the proper direction, and must not be used for any other purpose. Trains shunting from one main line to another, or shunting into or out of sidings connected with the main line, must, unless special signals are provided for the purpose of signalling such operations, be signalled past the station signal either verbally or by hand-lamp or flag, as occasion may require, it being necessary in such cases that the danger signal should be exhibited at the station signal as well as at the distant signal for the protection of the train so employed.

Defective signals.

89. (1) Every Station Master and every other railway servant must, in the event of any signal under his charge or used by him becoming defective, forthwith report the case to his immediate superior and to the nearest Permanent-way Inspector; and the Station Master shall place a competent man or men, with the necessary hand signals and detonators, to signal in lieu of such defective signal until it is again in proper working order.

(2) When the Station Master cannot provide proper men from his own staff, he must apply to the nearest Permanent-way Inspector for competent men.

SIGNALS.

Signal lights.

90. (1) Whenever any train is timed to run, or from any cause is expected to run, on any portion of the line later than sunset and before sunrise, all the signal lamps must be lighted at sunset, or at such hour as shall be directed by the authorised officer. During twilight in the mornings and evenings, both day and night signals must be used. The signal lights must not be put out until broad daylight, except under special instructions.

(2) In foggy or stormy weather, when the day signals cannot be seen plainly, the signal lamps must be lighted, and kept burning; and at such times both the day and night signals must be used.

Signals ready for use.

91. All signals must be kept ready for immediate use.

Trimming signal lamps.

92. The greatest care must be exercised in the cleaning, trimming, and lighting of signal lamps, and Station Masters will be held responsible that this work is efficiently performed. The signal lamps must be lighted and extinguished in accordance with Rule 90.

Obstruction of line by shunting, &c.

93. No line shall be obstructed or occupied by shunting or otherwise until the signals applicable to it have been placed at "Danger."

Duties of Pointsmen and Signalmen in case of obstruction.

94. Should any obstruction exist upon the line within the sight or knowledge of the Pointsman or Signalman, he must exhibit the "Danger" signals, and must not allow any train to pass in that direction until the obstruction has been removed, and the line made clear and safe; and he must as soon as practicable take steps to report the obstruction to his superior officer.

Attention to signal rules.

95. Men in charge of signals must pay particular attention to the rules for working signals.

Passing trains to be observed.

96. If a Signalman or Pointsman observe anything wrong or unusual in a passing train, he must report the circumstance to his superior officer; but if it is of such a nature as to involve danger to the train or the public, he must at once take all practicable steps to stop the train.

Use of detonating signals.

97. In thick, foggy, or tempestuous weather, and in cases of obstruction, detonators must be used in addition to the regular day and night signals, in accordance with Rules 100, 101, 102, 103, and 244 to 254.

SIGNALS.

Supply of detonators.

98. Every Guard, Driver, Foreman of works, and Ganger will be provided with detonators or fog signals, which they are always to have ready for use whilst on duty; and every Station Master must keep a supply of these signals in a suitable place, easy of access.

Testing detonators.

99. Detonators must be carefully handled, as they are liable to explode if roughly treated. It is necessary to keep them well protected from damp. At least one from each person's stock must be tested, at intervals of not more than one month, to ensure that they are in good condition. Where extra supplies are kept for Guards and others, Station Masters shall test at least one from each box before issue.

Placing detonators.

100. Detonators must be placed on the rail (label or brand upwards) and secured by bending the clasp round the upper flange of the rail. A detonator explodes with a loud report when an engine passes over it, and the Driver must stop as quickly as possible, and then proceed cautiously to the place of obstruction, or until he receives an "All Right" signal.

Engine passing over detonators.

Use of detonators in foggy weather.

101. In thick, foggy, or tempestuous weather two detonators, ten yards apart, must be placed on the rail by the Signalman or some other trained servant selected by the Station Master at least one hundred (100) yards outside the distant signal-post; or, in the absence of a distant signal, at least seven hundred (700) yards from the outside points. Drivers and Guards must report all cases of omission to do this.

Renewal of detonators.

102. On a double line detonators must be renewed immediately after a train has passed over them; and on a single line they must be placed before an approaching train is due or expected.

Fresh supplies of detonators and relief of men.

103. The Station Master must see that fresh supplies of signals are sent to the men in place of those exploded, and in case it is necessary to keep a man out for any length of time, he must be relieved every six hours and visited as often as practicable to ensure that he is on the alert.

Fixed signals not to be used by platelayers or labourers.

104. Platelayers and labourers must not, except in case of emergency, or as provided in Rule 127, avail themselves of the fixed signals; and must in all cases use their own special signals for their own purposes.

Signals to be used by labourers.

105. (1) The signals to be used by the men engaged in repairing the permanent-

SIGNALS.

way are red and green flags, red and green hand lamps, and detonators. The flags must be used during daylight, the lamps after sunset and in foggy weather, and the detonators whenever necessary by day or night.

(2) The red and detonating signals indicate "Danger," and must be used only when it is necessary to stop a train. The green signal indicates "Caution," and must be used when it is necessary to slacken the speed of a train.

Platelayer's signal to reduce speed.

106. A green flag or a green light exhibited by Platelayers indicates that speed must not exceed fifteen miles an hour, or such lower speed as may be ordered, over the portion of the line protected by such signal.

Observance of signals by Driver.

107. The Driver and Fireman must pay immediate attention to and obey all signals, whether the cause of a signal being shown is known to them or not. The Driver must not, however, trust entirely to signals, but must on all occasions be vigilant and cautious.

Absence of signals.

108. Except at places specially exempted upon each railway, the absence of a signal at a place where a signal is ordinarily shown, or a signal imperfectly exhibited, must be considered a "Danger" signal, and treated accordingly, and the fact reported to the Station Master.

Defective signals to be reported.

109. Drivers, Guards, and others must invariably report to the nearest Station Master any defective signals or obstruction of or neglect in working signals.

Engine and train lights.

110. (1) On both double and single lines between sunset and sunrise and during foggy weather, every train must exhibit a red tail light and two red side lights in rear of the train; and every engine running alone must exhibit at least one red tail light. In both cases head lights prescribed by the authorised officer must be exhibited.

(2) In the case of two or more engines running coupled together without vehicles attached, the first engine only must exhibit the prescribed head lights, and the last engine only must exhibit at least one red tail light.

(3) Clauses (1) and (2) do not apply to trains doing station work.

Lights on shunting engines.

111. Shunting engines employed in station yards and sidings must after sunset and in foggy weather carry the prescribed head and tail lights.

SECTION IX.

Maintenance of permanent-way.

Road to be inspected daily.

112. Every portion of the permanent-way must be inspected daily on foot by some authorised person responsible for its condition; and bridges and all other works (including signals and signal wires) must be regularly inspected in accordance with special instructions.

Defects in wires, &c.

113. (1) Each Ganger must report to the Inspector of Permanent-way when any telegraph post on his length of line appears to be in an unsafe state, or any of the signal or telegraph wires are broken, slack, entangled, or touching each other or any building. He must also see that all grass, creepers, boughs of trees, and rubbish are removed from the wires.

(2) Where the maintenance of the telegraph posts and wires is under the control of the Government Telegraph Department, the removal of grass, creepers, boughs of trees, and rubbish will be carried out by the Government Telegraph officers, and all reports of defects in posts or wires should be made to the officers of that Department by the Inspector of Permanent-way.

Lifting permanent-way.

114. In lifting the permanent-way, no lift shall be greater than three inches at once, and then it must be effected in such a manner as not to occasion any sudden change of gradient. Both rails must be raised equally and at the same time, and, if possible, the ascent must be made in the direction in which the trains run.

Ballast thrown up.

115. Ballast must not be thrown up between the rails to a higher level than three inches on the standard gauge, or higher than rail level on the metre or other narrow gauge, and it must be thrown as much as possible on the outside of each line, or between the two roads. The rails must be kept clear of gravel, ballast, and other material.

Blasting.

116. No blasting shall be allowed on or near to the railway without the authority of the authorised officer.

Gates to be closed.

117. Gangers must close and fasten all gates they find open, and report the circumstances.

Duties of Ganger in case of floods.

118. Each Ganger must, in the event of a flood, carefully examine the action of the water through the culverts and bridges on his length of line; and should he see any cause to apprehend danger to the works, he must immediately exhibit the proper signals for the trains to proceed cautiously or to stop, as necessity may require, and inform the Inspector of Permanent-way thereof; and, until the Inspector arrives, he must take precautionary measures for securing the safety and stability of the line.

Fire.

119. In the event of a fire occurring upon or near the line, the men employed on the line must take immediate measures for putting it out.

Cleaning of signals.

120. Gangers must keep clean the working parts of signals, unless the duty is otherwise specially provided for.

Line to be kept clear.

121. Each Ganger must keep his portion of the line clear and safe, and the fences in repair; and if any sheep, cattle, or other animals be on the line or within the fences, he must immediately remove them, and report the circumstance to the Inspector of Permanent-way.

Defective materials.

122. (1) Gangers must see that all broken chairs, rails or sleepers, or other defective materials are removed from the road with the least possible delay, and sound materials substituted.

Materials to be kept clear of rails.

(2) All tools, rails, sleepers, pieces of iron or wood, and other implements or materials must be carefully placed so as to be quite clear of the line, and at least three feet away from the rails.

Custody of materials.

123. Each Inspector of Permanent-way will be held responsible for the security of all rails, chairs, sleepers, and other permanent-way materials in his district. They must be kept clear of both lines and properly stacked.

Platelayers and labourers when train is approaching.

124. When a train is approaching, platelayers and labourers must stop work and stand clear of all the lines.

Materials found on the line.

125. Each Ganger will be responsible for collecting any coupling chains, hooks, pins, iron, or other materials which may be found on the line, and for having them conveyed to the nearest station.

Permission to be obtained before commencing work on line.

126. No person may put in any points and crossings without the written authority of the authorised officer, or begin or perform any operation which will involve danger to trains or traffic without the previous permission of the Inspector of Permanent-way, or some other authorised competent person, who must himself be present to superintend such operation, and who shall be responsible that all necessary

signals are shown and other precautions taken as prescribed in Rule 127 or Rule 128, as the case may be, before the commencement of work, and that such signals and precautions are continued until the line is again clear for trains or traffic. But in cases of emergency, when it may be necessary for safety to replace or turn any rail or otherwise obstruct traffic before the Inspector of Permanent-way can arrive, the Ganger or other person in charge of the gang must take all necessary steps to protect trains and traffic as prescribed in Rule 127 or Rule 128, as the case may be.

Work in station limits.

127. (1) Whenever it is necessary within station limits to change or turn a rail, or in any manner to obstruct the line, or to do any work of a character to make the exhibition of a signal necessary, the permission of the Station Master must be first obtained by the Ganger, and the work must not be commenced until all necessary signals have been placed at "Danger;" and the signals must remain in that position until the Station Master is informed by the same Ganger that the line is again clear and safe for traffic.

(2) The Ganger must in addition protect the operations by hand signals.

Works outside station limits.

128. Whenever outside station limits, a rail has to be taken out, or the line is from any cause not safe, a "Danger" signal must be exhibited, and two detonators placed on the line, ten yards apart, at a distance of at least three quarters of a mile on a gradient of one in two hundred and fifty ($\frac{1}{250}$) or steeper, falling in the direction of the obstruction, or half a mile on a flatter or rising gradient or on the level, in rear of the place of obstruction on a double line, and in both directions on a single line, and hand signals must also be exhibited at the place where the work is being done.

Signals when repairing line.

129. When repairing, lifting the line, or performing any operation so as to make it necessary for a train to proceed cautiously, the Ganger must himself be present at the spot, and must send a man on a double line backwards, and on a single line in both directions, at least a quarter of a mile, and as much further as the circumstances of the case render necessary, to exhibit a "Caution" signal so as to be plainly visible to the Driver of an approaching train.

He must also exhibit another "Caution" signal at the site of the repairs. If the Ganger has any doubt whatever as to the line being in a fit state to pass a train at slow speed, he must invariably display "Danger" signals as laid down in Rule 128 instead of the "Caution" signals herein prescribed.

Rail not to be displaced in a fog or storm.

130. In no case, except when absolutely necessary, is a rail to be displaced or any other work to be performed by which an obstruction may be made to the passage of trains during a fog or storm; and in every case the times for effecting repairs which involve the stopping of trains must be so selected as to interfere as little as possible with the passage of the traffic.

Protection of lorry, truck, or trolly on line.

131. A lorry or truck, loaded or empty, used for conveying materials, or a light trolly so loaded that it cannot be readily removed from the line, must on a double line be taken in the same direction as that in which the trains run, and must be followed at a distance of not less than half a mile by a man with "Danger" hand signals and detonators. In the case of a single line, where trains run in both directions, such lorry, truck, or trolly must be protected in both directions.

Responsibility for lorries and trollies.

132. No lorry used for the conveyance of material, or trolly used for the conveyance of men, may in any case be placed on the line, except by the authorised person who is responsible for its proper protection and use according to special instructions.

Security of lorries and trollies.

133. (1) No lorry or trolly shall under any circumstances be attached to a train; and all lorries and trollies, when not in use, must be taken off the rails, placed well clear of the line, and the wheels secured with chain and padlock.

Main line to be clear.

(2) No wagon, truck, lorry, or other impediment shall be allowed to be on any part of the main line within ten minutes of a train being due, except on lines worked on the absolute block system, when the time must not be less than five minutes; and, excepting in cases of accident or absolute necessity, all repairs must be effected, and the line made clear and safe for the passage of trains, not less than ten or five minutes, as the case may be, before a train is due or expected.

Lorries, &c., not to run during a fog.

134. No wagon, truck, or lorry shall be run, if it can be avoided, except during daylight, and when the weather is sufficiently clear for a signal to be distinctly seen at a distance of half a mile. Whenever it is necessary to run a truck or

lorry at night, or during a fog, it must be protected by the prescribed lights.

Trespassing.

135. No trespassing upon the railway shall be allowed, and no person, other than a railway servant, shall be permitted to walk on the line unless provided with a license to do so signed by an authorised officer of the railway.

Trespassers.

136. Gangers and others employed on the line must order off the railway all trespassers, and these, if they persist in remaining, may be immediately removed from the railway by, or by the direction of, any railway servant.

Articles found on line.

137. All luggage, goods, or articles found on the line must be taken to the nearest station, and a report made containing the best information that can be obtained respecting the train from which they may have fallen.

SECTION X.

Ballasting.

Ballast train rules.

138. Ballast trains must, except where specially exempted, be worked under the same rules as other trains.

Persons in charge of ballast trains.

139. All persons in charge of ballast trains must obey the orders of Station Masters so far as relates to the time of their running on the line, and no Driver of a ballast train shall leave a siding without the necessary permission.

Guards and Brakesmen.

140. (1) Guards and Brakesmen of ballast trains shall be experienced men selected from the train Guards.

(2) A Guard or Brakesman must accompany each ballast train.

Permanent-way men to assist in working signals.

141. The Guard or Brakesman of a ballast train has authority to require persons employed in repairing the permanent-way and works to assist him in working signals.

Rules for Guards of ballast trains.

142. Guards of ballast trains are responsible for carrying out Rules 245 to 252 inclusive and 259, and all other rules or regulations prescribed for Guards for the protection of trains.

Ballasting.

143. No ballasting is to be carried on except with the permission of the authorised officer.

Working of ballast trains at night, &c.

144. Ballast trains are prohibited from passing along the main line at night or in a fog, or during heavy rain, except when authorised to do so under special circumstances, and then must not move faster than fifteen (15) miles an hour. Whenever it is necessary to run a ballast train at night or during a fog, it must be protected by the prescribed lights.

Ballast train to keep clear of traffic trains.

145. The Guard of a ballast train is held responsible for keeping clear of all other trains. When a ballast train has to work on the line between two stations, the Guard must, when practicable, arrange with the Station Masters of both stations where and when the next train is to be passed.

When ballast train is to be clear of main line.

146. No ballast train or other impediment shall be allowed to be on any part of the main line within ten minutes of a train being due or expected, except on lines worked on the absolute block system, when the time must be not less than five minutes.

Ballast train running through.

147. When a ballast train is intended to run through from one station to another without working between them, it must be treated as a special train.

Working outside station limits.

148. Ballast trains, the working of which requires that they must stop outside station limits, may be protected by special instructions; but in cases in which their protection is not so specially provided for, they must be protected as prescribed in Rules 245 to 254 inclusive.

Ballast train with pushing engine.

149. Ballast trains may, on a written order, be run with a pushing engine, but in such cases the speed must not exceed fifteen (15) miles an hour, or such lower speed as may be ordered.

Coolies.

150. Guards in charge of ballast trains must, before giving the starting signal, tell the coolies working with the train and riding in the open trucks to sit down.

Security of wagons left outside station limits.

151. When ballast wagons are left on a siding outside station limits, the Guard must secure a wheel of the wagon nearest to the points of the siding, and he is responsible that the vehicles are properly secured in accordance with special instructions, and that scotch blocks, where provided, are fastened.

SECTION XI.

Level-crossings.

Gate signals.

152. All level-crossings, of which the gates close across the railway, must be provided with red signal boards, and with lamps showing red, up and down the line, when the gates are closed across the line. The lamps must be kept lighted from sunset to sunrise, and during thick, foggy, or stormy weather.

LEVEL-CROSSINGS.

Gates open to railway.

153. Unless specially ordered to the contrary, the gates at all thoroughfares must be kept open for the passage of trains and securely closed across the thoroughfares, except when required to be opened for the road traffic, and must then as quickly as possible be closed again across the thoroughfares. The Gateman must, before opening the gates, look up and down the line to assure himself that no train is approaching, and he must be prepared night and day with danger signals to be exhibited in case of necessity. At all crossings where there is only one man on duty, the gates closing across thoroughfares must be locked between sunset and sunrise.

Gates open to roads.

154. Where special authority is given, gates made to close across the railway may be kept open to the public thoroughfare, except when a train is due or expected, at which time such gates must be closed, and fastened across the public thoroughfare; and, until such train has passed, the gates must be kept closed, and no person or thing is to be allowed within them. The gates should not be closed across the thoroughfare any longer than is absolutely necessary to secure the safety of the trains and of the public. While the gates are closed across the railway and open to the thoroughfare, the "Danger" signal must be exhibited both up and down the line. In opening double gates closing across the railway for an approaching train, where there is only one signal lamp to each gate, the half with the signal lamp attached is not to be moved until the other half is shut across the thoroughfare.

Farther gate to be first opened.

155. Where gates are kept open for passage of trains, the gate towards which road traffic is approaching must not be opened until the opposite gate has been opened, so as to allow the traffic to cross over without stopping upon the line.

Trains to be observed.

156. Particular notice must be taken of each train, and, if anything be wrong, a "Danger" signal to the Guard and Driver must be shown.

Position of Gateman when signalling.

157. In all cases the Gateman, when signalling, is to stand in a position clear of the rails, where he can be seen by the approaching Driver.

Gates out of order.

158. If any gates or fastenings are out of order, the Gateman must immediately report to his superior officer and to the nearest Ganger in order that the gates may be made safe.

WORKING TRAFFIC WITHIN STATION LIMITS.

Rails, &c., to be kept clear.

159. Gatemen must take care that the channel for the flange of the wheels is always clear before the passage of each train; that the rails and way are clear; and that rubbish is not allowed to accumulate near the hut and crossings.

Obstructions.

160. In the event of the road being from any cause obstructed, the Gateman must do everything in his power by warning approaching trains to prevent an accident.

Fixed signals to be tested.

161. At level-crossings where fixed signals are provided, the Gateman must satisfy himself of the proper working of his signals both by day and by night, and must report immediately any defect to the Inspector of Permanent-way or other person in charge of the repair of signals, and also to the Station Master or other person under whose supervision he acts.

Knowledge of signals.

162. All Gatemen must have a knowledge of hand signals.

Gatemen to prevent trespassing.

163. Gatemen are to prevent as much as possible any trespassing on the railway; and every case of trespass must be immediately reported. They are also to report any irregularity in the signals, or their working, or other infringement of these rules or of special instructions.

Gateman's equipment.

164. Every Gateman must be provided with day and night signals, which he must keep in proper order, reporting immediately any defect he may observe to his superior officer.

Transfer of charge of gate.

165. No Gateman is to leave his gate unless another man has arrived to take charge of it.

SECTION XII.

Working traffic within Station limits.

Stores.

166. The Station Master must be careful that all stores supplied for the station are prudently and economically used, and that there is no waste of oil, stationery, or other stores.

Notices at stations.

167. The Station Master must see that the proper time bills and notices are exhibited, and that time bills and notices are renewed when necessary, and removed when out of date.

Closing of safety points.

168. The Station Master is responsible that all safety points and catch sidings, when it is not necessary that they should be opened, are closed against the line which they are intended to protect.

Fastening, &c., of facing points.

169. Facing points must in all cases be securely fastened or held for the passage of trains or vehicles.

Fastening of points.

170. Points must not under any circumstances be fastened in any other manner than that prescribed by an authorised officer.

Securing vehicles in sidings.

171. (1) The Station Master is responsible that vehicles standing at the station in sidings are properly secured in accordance with special instructions, and that scotch blocks, where provided, are fastened.

(2) No vehicle shall be left in any siding outside station limits without the wheels being properly secured, clear of all running lines.

Protection of lines obstructed.

172. Before the commencement of any loading or other operation by which any line of rails in use for traffic purposes may be fouled or obstructed, the person in charge of such operation must obtain the permission of the Station Master, who must see that all necessary steps are taken for the protection of traffic during such obstruction.

Passage for Guard to carriages.

173. Except when it is necessary to carry passengers in goods vehicles, no passenger train or mixed train shall be allowed to move from any station unless it be provided with an arrangement by which the Guard can communicate with, or make his way or otherwise get access to, every passenger carriage in the train.

Brake-vans, &c.

174. Except in the case of an engine running without vehicles, no train shall be despatched from any station without one or more brake-vans and one or more Guards, and all the necessary lamps and other appliances.

Brake on trains.

175. A brake must be placed at the rear of every train, unless special instructions are given to the contrary.

Load of trains.

176. The Station Master must leave it to the discretion of the Driver to determine what load the engine can take, but every instance of refusal to take the prescribed load must be reported to the authorised officer.

Duties of Guard in charge.

177. The Guard in charge of a train must satisfy himself before starting and during the journey that the train is properly loaded, marshalled, coupled, and lamped; that the vehicles are sheeted; that lashings and chains are secure; and that the brakes are in good working order;

also, as far as he can ascertain, that the train is in a state of efficiency for travelling, and has the proper signals attached to it. He must carefully examine the loading of any vehicles he may attach on the way; and should any vehicle become unsafe from the shifting or derangement of the load, he must at once have the load re-adjusted or the vehicle removed from the train.

Guards responsible that brakes, lamps, &c., are in working order.

178. Guards are responsible that their brakes and lamps are in good working order, and that the lamps are trimmed and lighted and brightly burning between sunset and sunrise and during a fog; also that the vehicles of the train are in good order, and that the cord or other appliance for communication between Guard and Driver, if provided, is in order and properly arranged throughout.

Windows of empty compartments to be closed.

179. The windows and lamp-holes of all empty compartments must be closed, not only while the carriages are standing at stations, but also when they are running on trains.

Unprotected light in vehicles.

180. No unprotected light shall be allowed in any railway vehicle.

Load of vehicles.

181. No vehicle shall be loaded beyond its marked carrying capacity.

Loading of large articles.

182. Carriages, machinery, timber, and other large articles in open trucks must be loaded within the authorised loading dimensions.

Travelling cranes.

183. Before attaching any travelling crane, the Guard must see that the jib is properly lowered and secured. The crane must, when practicable, be so placed that the jib will point towards the rear of the train.

Dummy wagon.

184. When the jib of a crane or a load projects beyond its truck, whether standing in a yard or on a running train, the jib or load must be protected by a dummy, which dummy may be loaded.

Screw couplings.

185. All goods vehicles attached to passenger or mixed trains must be furnished with screw couplings.

Examination of trains.

186. At stations where Carriage Examiners are kept, the Station Master before starting the train must satisfy himself that the examination of it has been completed, and that the train is all right and fit to proceed. Where Examiners are not kept, steps must be taken to remedy any defects that may be observed in the running of vehicles by supplying oil or

grease to the axle-boxes where required, or removing the defective vehicles from the train when necessary.

Unfit vehicles.

187. No vehicle which is pronounced unfit by the Carriage and Wagon Examiner shall be run on a train; and no vehicle which has been off the road shall be allowed to run on the line between stations until it has been examined and passed by a competent Examiner, except in the case of derailment outside station limits, when, if the Driver considers it safe to do so, the vehicle may be taken slowly to the next station.

Tail and side lamps.

188. Should a vehicle be attached to, or detached from, the rear of a train at an intermediate station, the Guard, or, if there be more than one, the Guard in the rear van, must see that the tail and side lamps are in their proper places on the train.

Private vehicles.

189. No engine or other vehicle, the property of a private owner, shall be allowed to enter upon the main line except under special instructions.

Engine entering main line.

190. An engine shall not enter upon or cross the main line without the permission of the person in charge of the points and signals, and the Driver must satisfy himself that the proper signal has been exhibited.

Duties of Driver as regards engine-lamps.

191. The Driver must before starting see that his lamps are in good order, and that his engine carries the proper distinguishing lights, or other indicators of the train. At and after sunset, and during foggy weather, he must have the necessary lamps lighted. He is responsible that they are always in proper order and trimmed, and that, when lighted, they burn brightly.

Driver leaving engine.

192. The Driver when on duty at stations or on the line must not leave his engine unless it is absolutely necessary for him to do so, and under no circumstances may he leave his engine without a competent man being placed in charge of it.

Driver to receive orders from Guard, &c.

193. The Driver must place his engine in front of the train not less than five minutes before the time of starting; after so placing it, and until the end of the journey, he will receive his orders from the Guard in all matters affecting the starting, stopping, or movement of the train; and he must promptly obey all orders or signals given to him, whether by the Station Master or the Guard, so far as the safe and proper working of his engine will allow.

Driver to assist in forming train.

194. The Driver must afford such assistance with his engine as may be required for the formation, arrangement, and despatch of his train.

Whistle to be sounded.

195. Drivers must always sound the whistle before putting an engine in motion.

Drivers to leave hose or water crane clear of line.

196. After taking water from tanks or water columns, Drivers must be careful to leave the hose or water crane clear of the line and properly secured.

Trains over-running or stopping short.

197. When a passenger or mixed train has come to a stand at a station—whether alongside, beyond, or short of the platform—the Driver must not move it for any purpose whatever, except upon instructions from the Guard under orders of the Station Master. The signal for the train to move again must not be given by the Guard until he has satisfied himself that no passenger is getting into or out of the train, and that all the carriage doors are closed.

Arrival and departure of trains.

198. It is the special duty of every Station Master, or such other person as may be appointed for the purpose by the authorised officer, to attend to the arrival and departure of trains.

Despatch of trains, &c.

199. Every exertion must be made for the expeditious despatch of the station duties, and for ensuring the safety of the public and the punctuality of the trains. But no train conveying passengers shall be started before the advertised time.

Authority to leave station.

200. The Guard must, before leaving a station, receive either a "line clear" message with the necessary instructions endorsed upon it, or the usual authority for leaving a station in accordance with the system in force for working the traffic.

Starting of trains.

201. Before a train starts, care must be taken that all carriage doors are fastened, and it will be the duty of the Guard to see that this has been done. The signal to the Driver to start must be given by the Guard upon receiving intimation from the Station Master that all is right for the train to proceed. But no train shall be started until the rules of the system of working have been complied with.

Drivers to have permission before starting.

202. Before starting the Driver must have the permission prescribed by the rules of the system adopted for working the line, and must satisfy himself that the line before him is clear.

WORKING TRAFFIC WITHIN STATION LIMITS.

Name of station to be called out.

203. The Station Master is responsible that immediately on the stopping of each passenger train, the name of the station is called out along the train in a distinct and audible manner, and that the station servants pay immediate attention to any indication shown by the passengers of their desire to alight.

Roof lamps.

204. At stations where roof lamps are supplied to trains, Station Masters are responsible that the lamps are properly cleaned and trimmed, and that no smoky, defective, or badly burning lamp is placed in the train.

Lamps of passing trains.

205. The Station Master must look at the head and tail lamps of every passing train, and, if necessary and possible, must see that they are re-trimmed. But if the train does not stop at the station, and any of the lamps require trimming, he must immediately telegraph to the station in advance to stop the train and re-trim the lamps.

Shunting not to cause danger.

206. Station Masters must see that the shunting of trains or crossing from one line to another is performed only at such times and in such manner as will not incur danger.

Side lamps of shunted trains.

207. When a train is shunted for another train to pass, the side lamps must be reversed, or so disposed of as not to exhibit the red light to a following train.

Shunting operations to be protected.

208. No engine or vehicle shall be shunted or moved so as to obstruct the main line until the proper signals have been exhibited in one or both directions, as may be necessary; and care must be taken when the main line is about to be obstructed, after a distant signal has been placed at "Danger" for the purpose of protecting the line, that sufficient time is allowed to elapse for any approaching train (which may have been near to or within such signal before it was so placed at "Danger") to pass before the obstruction takes place.

Shunting on inclines.

209. When vehicles are shunted at places situated on steep gradients, proper precautions must be taken to prevent any vehicle from running down the incline; a sufficient number of brakes must be put on, and sprags or hand scotches used, when necessary, to prevent the possibility of any vehicle running away. At such places a supply of scotches must be kept for the purpose.

Fly shunting.

210. Fly shunting of vehicles against loaded passenger trains, or of vehicles containing passengers or live-stock, is strictly prohibited.

RUNNING TRAINS.

Examination, &c., of empty vehicles shunted off at stations.

211. All vehicles shunted off at stations as empties must be carefully searched. The windows and lamp-holes of all empty compartments must be closed when the carriages are standing on the sidings at the stations.

Vehicles escaping.

212. Should any vehicle or portion of a train escape from a station, immediate steps must be taken to warn the other station concerned, and prevent accidents as far as practicable.

Guards not to leave trains till handed over.

213. Guards must not leave their trains until they have been properly handed over.

SECTION XIII.

Running trains.

Engine not to run tender foremost.

214. (1) No engine of a train conveying passengers may be driven outside station limits with tender or fuel truck foremost, except under a written order, or in cases of unavoidable necessity to be established by the Driver, or in the cases mentioned in clause (2) of this rule.

(2) When necessary on short branch lines or on other short lengths of line, passenger trains may be drawn by engines running tender foremost at a maximum speed of fifteen (15) miles an hour on either the standard or the metre gauge. On the standard gauge this maximum speed may be increased on special occasions on the written authority of an Inspector of railways appointed under the Indian Railways Act (IX of 1890) within the limit of twenty-five (25) miles an hour.

Manning of engines in motion.

215. No engine shall be allowed to be in motion outside station limits unless both the Driver and the Firemen are upon it.

Management of train by Driver.

216. (1) The Driver must start and stop his train steadily and without a jerk.

(2) He must exercise care in approaching stations at which his train is required to stop, and in passing stations at which he is not required to stop.

(3) In stopping his train, he must pay particular attention to the state of the weather and the condition of the rails as well as to the length of the train; and these circumstances must have due weight in determining when to shut off steam.

No unauthorised person to ride on engine.

217. No person other than the Driver and Firemen is to ride on the engine or tender without permission from the authorised officer.

Driver and Firemen to look back.

218. The Driver and Firemen must frequently during the journey look back

and see that the whole of the train is following in a safe and proper manner.

Driver and Firemen to observe signals and use precaution in foggy weather and storms.

219. The Driver and Firemen must carefully observe all signals; and when from fog or storm, or any other cause, the fixed signals are not visible as soon as usual, every possible precaution must be used, especially in approaching stations and junctions, so that the train can be stopped short of any obstruction, should the signals be against it.

Train drawn by more than one engine. Responsibility of Driver and Firemen of leading engine.

220. When two or more engines are employed in drawing the same train, the Driver and Firemen of the leading engine are responsible for the observance of signals; the Drivers of the other engines must watch for, and take signals from, the Driver of the leading engine.

Train in motion under control of Guard.

221. The train when in motion is under the control of the Guard when there is only one, and of the head Guard when there are more than one. The passengers and property in the train are under his charge, and he is responsible for the safety and regularity of the whole. He must regulate his time-piece in accordance with special instructions.

Guards to travel in their vans.

222. Each Guard must ride in his proper van and not on the engine, nor in a carriage or wagon, except under special circumstances.

Carriage doors to be closed.

223. Guards must see that the doors of the carriages are properly closed.

Passengers not to ride outside.

224. Guards must not allow any person to ride outside the carriages, nor may they permit any unauthorised person to travel in any compartment or vehicle not intended for the carriage of passengers, except under special instructions.

Guard to keep a good look-out.

225. Every Guard when travelling must keep a good look-out; and should he see any reason to apprehend danger, he must use his best endeavours to attract the attention of the Driver, and give notice to him of the apprehended danger.

Defective carriages.

226. Should complaint be made of the running of any carriage, the Guard must report the complaint to the Station Master and enter the particulars in his journal, giving the number and class of the carriage; but if the Guard has reason to apprehend danger from such carriage before it can be inspected, he must have it detached from the train.

Light engine.

227. If an engine is running without a Guard, the Driver is responsible for

carrying out all rules and for taking all necessary precautions which the Guard is required to observe for the safe working and protection of trains.

Exchange of signals between Guard and Driver.

228. After each train has left the platform, and before it reaches the distant signal, the Guard and the Driver must exchange signals with each other. This exchange of signals must also be made whenever a train runs through a station without stopping. The Driver must stop if the proper signals are not exchanged.

Regulation of speed.

229. The Driver must regulate the running of his engine as accurately as practicable, according to the working time-table, so as to avoid either extreme speed or loss of time.

Speed through facing points.

230. Drivers must not pass through facing points at a speed exceeding ten (10) miles an hour, or such lower rate as may be prescribed by special instructions.

If, however, the points are interlocked with a signal and automatically fastened in a manner approved by an Inspector of railways appointed under the Indian Railways Act (IX of 1890), they may be passed over at a speed not exceeding twenty (20) miles per hour.

Speed of trains.

231. (1) Drivers must run their trains within the limits of speed fixed for the section of the line upon which they are running.

(2) These limits are not on any line to exceed the following rates respectively :—(*a*) on the standard gauge for passenger trains, sixty (60) miles an hour, and for goods and mixed trains, forty (40) miles an hour; (*b*) on the metre gauge, or any other narrow gauge for passenger trains, forty (40) miles an hour, and for goods and mixed trains, twenty-five (25) miles an hour.

Making up time.

232. Drivers must not make up between any two stations more time than is allowed in that behalf under special instructions.

Driver's signal to Guard with whistle.

233. In the absence of special instructions to the contrary, when a Driver requires the assistance of the Guard's brake he must give three or more short, sharp whistles, or sound the brake whistle (when a special whistle is supplied for that purpose), and apply the communication, where such exists.

Ditto.

234. In the absence of special instructions to the contrary, when the Driver gives three or more short, sharp whistles, or sounds the brake whistle or applies the

communication, the Guard or Guards must immediately apply the brakes.

Guard to assist Driver with brake on steep inclines.

235. In travelling down steep inclines, Guards must, in order to steady the train, assist the Driver with their brakes if required.

Driver observing trains following too closely on double lines.

236. Whenever on the double line a Driver observes a train following too closely any preceding train on the road opposite to that on which he is running, he must sound his whistle and exhibit a "Caution" or "Danger" signal, as occasion may require, to warn the Driver of such following train.

Driver observing obstruction on double line.

237. Whenever on the double line a Driver observes anything wrong on the road opposite to that on which he is running, he must sound his whistle and exhibit a "Danger" signal to any train he may meet, and stop at the first signal-box or station in order to report what he has observed.

Occasions when engine whistle should be used.

238. (1) Should another train be approaching, stopping at, or leaving a station on the opposite line, or should shunting operations be going on, the Driver must on approaching, and whilst passing through the station, sound the engine whistle.

(2) The whistle must also be sounded on entering a tunnel, and repeatedly when passing through a long tunnel.

Train obscured by steam.

239. Should a Driver observe a train obscured by steam or smoke on the opposite line to that on which he is running, or on a siding, he must sound his whistle and approach the train cautiously, so as to be able to stop if necessary.

Trains not to stop where not timed to call.

240. Except under special instructions, no passenger train shall be stopped for the purpose of taking up or setting down passengers at a station where it is not timed to call.

Driver observing defect in road or signals.

241. (1) Should a Driver observe any irregularity in the working of signals, or any obstruction on the line or defect in the signals, or any defect in the works, permanent-way, or telegraph, he must report the same at the first station at which he stops, and at the end of his journey; he must also report any other unusual circumstance that he may have observed.

(2) Should any of the circumstances referred to in clause (1) of this rule involve danger, the Driver must stop at the next station or signal-box in order to report; and should it be necessary for the

safety of the traffic to do so, he must either stop, or endeavour to stop, the train at once.

Spirituous liquors.

242. Drivers, Guards, and others directly connected with the working of trains shall not, when on duty, be supplied with spirituous liquors at refreshment-rooms, except under rules framed by an authorised officer.

Train parting.

243. Should any part of a train become detached when in motion, care must be taken not to stop the front portion before the rear portion has been stopped, and the rear Guard must promptly apply his brake to prevent a collision with the front portion.

Portion of train left on main line.

244. (1) When a portion of a train is left on the line outside station limits from accident or inability of the engine to take the whole forward, the Guard must put down the brakes and carefully secure the rear portion, so that it will remain stationary, and it must be protected in the manner prescribed in Rules 245 to 254, inclusive. The Driver must not return for the second portion on the same line except upon written instructions from the Guard; and if upon a double road no such written instructions are given, the engine must return upon the proper line under the rules of the system adopted for working, and cross at the nearest points to the rear of the portion left, which he must work to a station or siding where he can again shunt to the front of the train. If it is necessary for the engine to return to the rear portion of the train on the same line, the Driver must, before starting with the front portion, obtain from the Guard the necessary written instructions authorising him to do so, and the Guard must in such cases continue to protect his train in the rear, and must not permit a following train to move it.

(2) When there are two Guards with a train so divided, the second Guard, or, if there is only one Guard, the Fireman, must, if it is practicable and safe to do so, ride upon the last vehicle of the front portion until it is placed in a siding.

Protection of trains stopping outside station limits.

245. Except as provided in Rule 259, when a train has been stopped from any cause outside station limits on a double line, the head Guard must go (or see that a competent person is sent) back, showing "Danger" hand signals, having with him detonators (to be used by day as well as by night) to stop any train approaching on the same line of rails.

RUNNING TRAINS.

Protection of trains stopping outside station limits.

246. The person going to protect the train in accordance with Rule 245 must place upon the rails on which the train has been running two detonators, ten yards apart, at a distance of three quarters of a mile on a gradient of one in two hundred and fifty ($\frac{1}{250}$) or steeper falling in the direction of the train, or half a mile on any flatter or rising gradient or on the level; and he must also on his way out place one detonator at half those distances respectively. He must remain exhibiting his hand "Danger" signal at the further distance until recalled by engine whistle or otherwise, when he must leave down the two most distant detonators, taking up the other on his way back.

Ditto.

247. On a double line, should both roads be fouled, detonators and hand signals must be used on each line in the manner prescribed in Rule 246, and all trains approaching from either direction must be stopped.

Ditto.

248. In the case of a single line, the train must be protected in the manner prescribed in Rules 245 and 246 in front as well as in rear.

Ditto.

249. If two or more trains approach the obstruction, the train which last arrives must be protected in the rear in the manner prescribed in Rules 245 and 246; and when the other train or trains is or are thus protected in that direction, the person or persons who protected such other train or trains may return, and the intermediate detonators may be removed.

Ditto.

250. When the mixed gauge is laid, detonators must be placed on each rail for both the broad and the narrow gauge trains.

Ditto.

251. On a single line the rear of a train must be protected first, and in cases on a double line in which both roads are obstructed and men are not available to be sent out in both directions at the same time, the Guard must use his discretion as to which road should be first protected.

Ditto.

252. When necessary, a Fireman must be sent out with the signals for the protection of the train.

Ditto.

253. Should the stoppage occur to an engine not attached to a train, or to a train without a Guard, the Driver must himself take the precautions prescribed in Rules 245 to 252 for its protection, employing the Fireman or some other competent person to assist him.

REPORT OF OBSTRUCTIONS.

Protection of trains stopping outside station limits.

254. On a double road, should both lines be fouled, the Driver must aid the Guard and at once display a "Danger" signal to the front; and, if the engine is not disabled, it should be used to convey the person who goes forward to the proper distance.

Ditto.

255. When starting a train which has stopped outside station limits, the Guard and Driver must exchange signals. Unless these signals are exchanged, the Driver must stop.

Ditto.

256. Should an accident to a train cause an obstruction and the Driver run forward without being aware of it, the Guard must take steps in accordance with Rules 245 to 251 to protect either or both lines, as may be necessary.

Ditto.

257. Where a line is being worked on the absolute block system, or a section of the line has been temporarily blocked under the orders of an authorised officer, Rules 245 to 254 apply only to actual breakdowns and not to incidental stoppages.

Attaching and detaching vehicles where line is not level.

258. (1) When from any cause a train has been brought to a stand on the line, where the line is not level, and it is necessary for the engine to be detached from the train for the purpose of attaching or detaching vehicles, the Guard must, before the engine is uncoupled, satisfy himself that the van-brakes have been put on securely, and, as an additional precaution, must pin down a sufficient number of other brakes, or carry out such other special instructions as may be given.

Where line is level.

(2) Where the line is level, the van-brakes must be put on securely.

Protection of trains working between stations.

259. Ballast or other trains, the working of which require that they must stop outside station limits, may be protected by special instructions; but in cases in which their protection is not so specially provided for, they must be protected as prescribed in Rules 245, to 254, inclusive.

SECTION XIV.

Report of obstructions.

Failure of works.

260. Any failure of any part of the works affecting the safety of a line must be reported as soon as possible to the nearest Inspector of Permanent-way and to the Station Masters on both sides of the point at which the failure has occurred.

PASSENGERS.

261. In case of obstruction to a train, the Guard must take steps to report in the quickest possible manner to the nearest Station Master; and if the telegraph be injured, or if there be no telegraph, the report must be sent to the stations on both sides. — Obstruction to trains.

262. In case of obstruction to a train, the Station Master must obtain all necessary assistance as soon as possible, and must report the occurrence by telegraph, or by the most expeditious means available, to the next station on the other side of the obstruction, so that notice may be given to the Drivers and Guards of approaching trains. — Duty of Station Master.

SECTION XV.

Fires in trains.

263. Special instructions shall be given by the authorised officer for dealing with cases of fires in trains. — Fires in trains.

CHAPTER III.

RULES FOR PROVIDING FOR THE ACCOMMODATION AND CONVENIENCE OF PASSENGERS, AND REGULATING THE CARRIAGE OF THEIR LUGGAGE: AND GENERALLY FOR REGULATING THE TRAVELLING UPON, AND THE USE, WORKING, AND MANAGEMENT OF THE RAILWAY.

SECTION I.

Passengers.

264. Tickets are available only from the date and for the period specified by the railway administration by which they are issued. — Period for which tickets are available.

265. If the Guard has reason to suppose that any passenger is without a ticket, or is not in the proper class of carriage, he must request the passenger to show his ticket, reporting to the Station Master any irregularity he may detect. When a passenger is desirous of changing from an inferior to a superior class of carriage on payment of the difference in fare, the Guard must have this arranged by the Station Master. — Proper booking, &c.

266. When ladies are travelling alone, the Guards are to pay every attention to their comfort; and in placing them in the train they must, if requested, endeavour — Ladies.

LUGGAGE, PARCELS, &c.

to select a carriage (according to the class of their tickets) in which other ladies are travelling.

267. Prisoners and persons afflicted with insanity must not be allowed to mix with other passengers, but must be placed, with their escort, in a prison-van or in a separate compartment, as the case may be, upon reserved accommodation being paid for. — Prisoners and insane persons.

268. The power of arrest given by section 132 of the Indian Railways Act (IX of 1890) is to be exercised with the greatest caution. — Detention of offenders.

269. Guards must exert themselves to prevent any breach of rules by passengers or others, and report to the Station Master any breach that comes to their notice. — Guards to prevent breach of rules.

270. In the event of any person being drunk or disorderly, or causing annoyance to others, the Station Master is to use all reasonable means to stop the annoyance; and if the offender persists, the Station Master is to have him removed from the railway premises, and to direct the necessary steps to be taken for his prosecution under the Indian Railways Act (IX of 1890). — Disorderly persons.

271. Any person (*a*) found smoking, or having an open light or fire, in a goods-shed or store yard, or (*b*) having an open light or a lighted mineral oil lamp in a carriage, or (*c*) who persists in smoking after being warned by a railway servant or police officer to desist on any other portion of the railway premises where such practice may be deemed dangerous by the authorised officer, shall be immediately removed from the railway premises. — Smoking on railway premises.

272. If a passenger commits any offence not mentioned in Rule 270 or Rule 271, the case must be immediately investigated by the Station Master, who is to exercise his discretion as to the proceedings to be taken, always reporting, by telegraph if necessary, to his immediate superior. — Discretion to be used when other offences are committed.

SECTION II.

Luggage, parcels, &c.

273. A certain weight of passenger's luggage, to be fixed from time to time by the railway administration under section 54 of the Indian Railways Act (IX of — Free allowance of luggage.

V.—General Rules applicable to railway employés engaged in dealing with explosive goods.

General rules applicable to railway employés.

(21) The following rules are applicable to railway employés:—

(*a*) Ordinary merchandise must not be laden in powder-vans with explosives.

(*b*) Martini-Henri and Snider ammunition, packed as required, can be despatched by ordinary covered wagons placed in rear of the train when powder-vans are not available.

(*c*) Powder-vans and cattle trucks when loaded with explosives are to be sent by goods train only, being placed in the rear of the train, but not next to the rear brake-van, with the following exception:—

When loaded with ammunition, &c., belonging to troops, in which case they should be put next behind the front brake-van on the train by which the troops travel.

APPENDIX B.

(*d*) If upon any part of the line there should be no goods train running within the next twenty-four hours, they can be put on the mixed train next to the leading brake-van. Whenever this is done, a special note should be made of the fact in the Guard's journal.

(*e*) Powder-vans and vans for combustibles, as well as cattle trucks, when loaded with explosives should always have a "Dangerous goods" label placed on each side of the vehicle.

(*f*) Special care must be exercised by Guards and others who may have during the night to approach or open powder-vans, wagons containing combustibles, or other vehicles specially labelled "Dangerous," not to use naked lights, and not to leave lamps or lights of any kind near the wagons.

APPENDIX B. [SEE RULE 281 (2).]

Notifications by the Government of India in the Home Department (Public), No. 1417, dated the 24th June 1887, and No. 1191, dated the 20th June 1890.

RULES NOW IN FORCE UNDER THE INDIAN EXPLOSIVES ACT, 1884.

PRELIMINARY.

1. For the purposes of these rules, explosives shall be classified as follows, *viz.*:—

Class 1—Gunpowder.
„ 2—Nitrate mixture.
„ 3—Nitro-compound.
„ 4—Chlorate mixture.
„ 5—Fulminate.
„ 6—Ammunition.
„ 7—Fireworks.

And when an explosive falls within the description of more than one class, it shall be deemed to belong exclusively to the latest of the classes within the description of which it falls.

Class 1.—Gunpowder class.

The term "gunpowder" means exclusively gunpowder ordinarily so called.

Class 2.—Nitrate mixture class.

The term "nitrate mixture" means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

The nitrate mixture class comprises such explosives as—

Pyrolithe,
Pudrolithe,
Poudre Saxifragine,

APPENDIX B.

and any preparation coming within the above definition.

Class 3.—Nitro-compound class.

The term "nitro-compound" means any chemical compound possessed of explosive properties, or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid), or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions :—

Division 1 comprises such explosives as—

Nitro-glycerine, Dynamite, Lithofracteur,	Dualine, Glyoxiline, Methylic nitrate,

and any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or of some other liquid nitro-compound.

Division 2 comprises such explosives as—

Gun-cotton ordinarily so-called, Gunpaper, Xyloidine, Gun sawdust, Nitrated gun-cotton,	Cotton gunpowder, Schultz's powder, Nitro-mannite, Picrates, Picric powder, Tonite (or cotton-powder),

and any nitro-compound as before defined which is not comprised in the first division.

Class 4.—Chlorate mixture class.

The term "chlorate mixture" means any explosive containing a chlorate. The chlorate mixture class has two divisions :—

Division 1 comprises such explosives as—

Horsley's blasting powder,
Brain's do. do.

and any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound.

Division 2 comprises such explosives as—

Horsley's original blasting powder, Erhardt's powder, Reverley's powder,	Hochstadter's blasting charges, Reilchen's blasting charges, Teutonite,

Chlorated gun-cotton,

and any chlorate mixture as before defined which is not comprised in the first division.

Class 5.—Fulminate class.

The term "fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing classes or not, which, from its great susceptibility to detonation, is suitable for employment in percussion caps or any other appliances for developing detonation, or which, from its extreme sensibility to explosion, and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

This class consists of two divisions :—

Division 1 comprises such compounds as the fulminates of silver and of mercury, and preparations of these substances, such as are used in percussion caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphurate, with or without carbonaceous matter.

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazo benzole, and the nitrate of diazo benzole.

APPENDIX B.

Class 6.—Ammunition class.

The term "ammunition" means an explosive of any of the foregoing classes when enclosed in any case or contrivance, or otherwise adapted or prepared so as to form a cartridge or charge for small-arms, cannon, or any other weapon, or for blasting, or to form any safety or other fuze for blasting or for shells, or to form any tube for firing explosives, or to form a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war rocket, or other contrivance other than a firework.

The term "percussion-cap" does not include a detonator.

The term "detonator" means a capsule or case which is of such strength and construction, and contains an explosive of the fulminate-explosive class in such quantity, that the explosion of one capsule or case will communicate the explosion to other like capsules or cases.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms, of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges.

The ammunition class has three divisions :—

Division 1 comprises exclusively—

Safety cartridges.
Safety fuzes for blasting.
Railway fog signals.
Percussion-caps.

Division 2 comprises any ammunition as before defined which does not contain its own means of ignition, and is not included in division 1, such as—

Cartridges for small arms, which are not safety cartridges,
Cartridges and charges for cannon, shells, mines, blasting, or other like purposes,
Shells and torpedoes containing any explosive,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells,
Tubes for firing explosives,
War rockets,

which do not contain their own means of ignition.

APPENDIX B.

Division 3 comprises any ammunition as before defined which contains its own means of ignition, and is not included in division 1, such as—

Detonators,
Cartridges for small arms, which are not safety cartridges,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells,
Tubes for firing explosives,

which do not contain their own means of ignition.

By ammunition containing its own means of ignition is meant ammunition having an arrangement, whether attached to it or forming part of it, which is adapted to explode or fire the same by friction or percussion.

Class 7.—Firework class.

The term "firework" comprises firework composition and manufactured fireworks.

Division 1.—The term "firework composition" means any chemical compound or mechanically mixed preparation of an explosive or inflammable nature which is used for the purpose of making manufactured fireworks, and is not included in the former classes of explosives, and also any colored fire composition.

Division 2.—The term "manufactured firework" means any explosive of the foregoing classes, and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, serpent, rocket (other than a war rocket), maroon, star, lance, wheel, Chinese fire, Roman candle, or other article adapted for the production of pyrotechnic effects or pyrotechnic signals.

TRANSPORT.

(*A*).—*Packing.*

2. The following general rules shall be observed with respect to the packing of explosives for conveyance:—

I.—Each class of explosive shall be separately packed.

II.—An explosive not being an explosive of the 5th (fulminate) class, or of the 2nd and 3rd divisions of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, shall, if not exceeding five lbs. in quantity, be contained in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosive from escaping.

III.—An explosive of the 1st (gunpowder) class, which is intended to be used for blasting purposes, may be carried in barrels covered with wax cloth or gunny.

IV.—In every other case the explosive shall be contained in a double package. The inner package shall be a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosive from escaping, and the outer package shall be a box, barrel, or case of wood or metal or other solid material, and shall be of such strength, construction, and character that will not be broken or accidentally opened, or become

APPENDIX B.

defective or insecure whilst being conveyed, and will not allow the explosive to escape.

Provided as follows:—

(*a*) If the explosive is explosive of the 1st (or gunpowder) class, or is explosive of the 2nd (nitrate mixture) class, or is gun-cotton or other explosive of the second division of the 3rd (nitro-compound) class, the quantity of explosive in any one outer package shall not, in the case of explosives of the first two classes, exceed 100 lbs., and in the case of the last, 50 lbs.; and if the explosive be gun-cotton, it shall be carried thoroughly saturated with water;

(*b*) If the explosive belongs to the first division of the 3rd (nitro-compound) class or to the 4th (chlorate mixture) class, the inner package shall be without any metal in its construction, and the inner or outer package, or both, shall be thoroughly water-proof. No one of the inner packages shall contain more than 10 lbs., and the aggregate quantity of the explosive in any one outer package shall not exceed 50 lbs.

(*c*) If the explosive belongs to the 5th (fulminate) class, it shall be packed in such manner as the Governor General in Council may specially direct;

(*d*) If the explosive belongs to the first division of the 6th (ammunition) class, or is any explosive of the second division, an outer package shall not be required; but it may be contained in quantity not exceeding 100 lbs. in a single package, which shall be a box, barrel, or case not less than three-fourths of an inch in thickness, of such strength, construction, and character as will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow the explosive to escape;

(*e*) If the explosive belongs to the third division of the 6th (ammunition) class, it shall be packed in a double package. The inner package shall not contain more than 2 lbs. of such explosive, and no more than 50 lbs. shall be contained in the outer package;

(*f*) If the explosive belongs to the first division of the 7th (firework) class, it shall be contained in a double package. The inner package shall be a substantial canister, case, or other receptacle hermetically closed and containing no more than 1lb. of explosive, and no more than 20lbs. shall be contained in the outer package; and

(*g*) If the explosive belongs to the second division of the 7th (firework) class, it shall be contained in a box, barrel, or case of wood, metal, or other solid material, and of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any

APPENDIX B.

explosive to escape, and the quantity of explosive in any one package shall not exceed 100 lbs.

V.—Whatever be the amount of the explosive, and to whatever class or division of a class it belongs, the following conditions shall be observed :—

(*a*) The interior of every package, whether single or double, shall be kept free from grit and otherwise clean ;

(*b*) Every package, whether single or double, when actually used for the packing of explosive, shall not be used for the packing of any other explosive of the same or any other class or for any other purpose ;

(*c*) There shall not be any iron or steel in the construction of any such single package, or inner or outer package, unless the same is effectually covered with tin, zinc, or other suitable material ;

(*d*) On the outermost package there shall be affixed, in conspicuous characters, by means of a brand or securely attached label or mark, the word "Explosive," followed by name of the explosive or other description of the contents, and the name and address of the owners or sender ; and

(*e*) The amount of explosive in any single package, or, if there is a double package, in any one outer package, shall not exceed the amount specified in the foregoing rules, except with the consent of, and under conditions to be approved by, an officer appointed by the local Government in this behalf.

3. If any person commits a breach of any of the foregoing rules relating to the packing of explosives for conveyance, he shall be punished with fine which may extend to Rs. 1,000.

(*B*).—*Mode of conveyance.*

4. The following general rules shall be observed with respect to the conveyance of explosives :—

I.—No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

II.—There shall not be conveyed in any carriage or vessel, which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition, unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

III.—No explosive shall be loaded or unloaded except between sunrise and sunset.

IV.—Whilst the explosive is being loaded on, or unloaded out of, any carriage or vessel, no fire or artificial light, nor any article which is liable to cause or communicate fire or explosion (such as charcoal, lucifer-matches, articles for striking a light, petroleum to which the Petroleum Act or any Act repealing or amending the same applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit) shall be, or shall be allowed to be, brought, had, or used dangerously near to such carriage, ship, or boat, and no smoking shall be

APPENDIX B.

allowed in, on, or dangerously near to the same : provided that when the use of a light for the purpose of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used ; and no person while handling any explosive (except gunpowder, explosive of division 1, class 6, or explosive of class 7, if packed in accordance with the packing rules) shall wear boots or shoes with iron or steel nails, heels, or tips.

V.—In loading or unloading any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground ; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

VI.—The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, or in the hold of a ship or a boat having a close deck so closed as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

VII.—There shall not be any iron or steel in the interior of the portion of the carriage or vessel with which the case containing the explosive is in contact, unless the same be effectually covered with leather, wood, cloth, or other suitable material.

VIII.—In the stowing of explosives due precautions shall be taken by means of a partition or otherwise, and by careful stowing, to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such carriage or vessel which is liable to cause fire or explosion ; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

IX.—The amount of explosive conveyed in any one carriage or vessel at any one time shall not exceed 2,000 lbs. unless the carriage be so enclosed on all sides with wood or metal, or the vessel have a close deck so closed as effectually to protect the explosive against accident by fire from without, in which case the amount of explosive conveyed shall not exceed the following :—

In any one carriage on a railway	... 10 tons.
In any one other carriage	... 2 „
In any one vessel	... 20 „

NOTE.—This rule must, in the case of dynamite conveyed by railway be read subject to paragraph XII of Rule 6.

X.—Nothing in the foregoing rules (except Rule I) shall apply to any explosive of the 1st division of the 6th (ammunition) class, provided all due precautions are taken for the prevention of accidents.

5. * * * *

6. The following rules shall be observed with respect to the conveyance of explosives by public railway :—

I.—No person shall send for carriage upon any railway any consignment of an explosive unless he has given to the officer in charge of the railway station previous notice in writing, which, at the option of the railway administration, may

APPENDIX B.

extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity, and mode of packing of the explosive proposed to be conveyed, and his own name and address, and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorised officer of the railway that such consignment will be received.

II.—No explosive which a railway administration shall, by any notice or regulation for the time being in force, notify that they will not receive shall be brought, sent, or forwarded to, or upon, any railway of the said railway administration.

III.—Consignments of explosives shall be sent to the forwarding station, and shall be received by the railway servants only at such times between sunrise and sunset as the railway administration may appoint; and every package containing any explosive proposed to be conveyed on any railway shall, immediately on arrival at the station, be unloaded and placed in a safe place under the special direction of the officer in charge of the station.

IV.—An explosive must be removed by the consignee from the receiving station during the twelve hours of daylight after arrival. If this condition is not strictly complied with, the railway administration may return the consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far from the station buildings as possible in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and, if necessary, shall be protected by a police guard.

V.—The railway administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package which the railway administration suspect shall be upon any railway, they may open, or require to be opened, any such package to ascertain the fact at the risk and expense of the consignor, and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages pending such return in the manner prescribed in the preceding rule.

VI.—Subject to the exception provided for in clause (*e*), no explosive shall be conveyed by passenger train except of the kinds and in the manner hereinafter specified in this rule :—

(*a*) Safety cartridges and percussion-caps and safety-fuze (for blasting), also fog-signals for railway use, which may be conveyed in ordinary wagons or carriages.

(*b*) Dynamite which may be carried in the form of cartridges up to the limit of 5 lbs., provided that no detonators are carried in the same compartment.

(*c*) Detonators which may be carried to the number of 200, provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 3 ozs.

APPENDIX B.

(a certificate to this effect being given by the company, firm, or person tendering the detonators for transport, or by its or his Agent); provided also that no dynamite is carried in the same compartment.

(*d*) Sporting gunpowder or non-safety cartridge packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the railway administration. But no outer case shall contain more than 25 pounds of gunpowder, and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80 lbs.

(*e*) Explosives may be carried by mixed trains on any line on which goods trains are not running, subject to the conditions that not more than one vehicle containing explosives is forwarded at any one time by a mixed train; that the precautions prescribed for conveyance by goods trains are observed; and that directly a wagon containing explosives arrives at a section on which goods trains are running, it is detached from the mixed train.

VII.—Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriage shall be specially built and approved of by the Government of India for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of small-arms ammunition.

VIII.—There shall not be conveyed in the same carriage with any explosive any lucifer or other matches, fuzes, pipe-lights, acids, naphtha, paraffin, petroleum to which the Petroleum Act or any Act repealing or amending the same applies, or any other volatile spirit or substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

IX.—The consignor shall attach to the consignment note a certificate signed by an officer authorised by the local Government in this behalf that the explosive, if it is gun-cotton, dynamite, or blasting gelatine, is of the standard purity, and has undergone no deterioration since its manufacture; and further, in the case of dynamite, that the cartridges have been examined and show no signs of exuded nitro-glycerine. The consignor shall also certify that the cartridges have been packed in this country in accordance with the packing rules.

X.—In the case of dynamite, the outer package shall be marked with the date on which the dynamite was packed, and be secured with a leaden seal in token of the inspection having been made.

XI.—The certificate referred to in Rule IX shall be valid for six months after date, if the examination has been made between the 15th

APPENDIX B.

October and 31st March; but any railway administration which accepts dynamite for transport may demand a fresh certificate for dynamite presented for conveyance between 1st April and 15th October (both inclusive).

XII.—Packages containing dynamite shall be stowed in one layer only, and secured so as to prevent movement during transit. The gross load in any one wagon shall not exceed three tons.

XIII.—No explosive belonging to the 5th (fulminate) class or to class VI, division 3, shall be carried in the same train with dynamite, or with any other explosive belonging to class III, division 1.

XIV.—Wagons used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Haircloth, hides, or other suitable material shall be spread on the floor of the wagon, and between each layer of packages, except when the packages are covered with gunny or felt, or contain small-arms ammunition packed in tin-lined service-pattern boxes.

XV.—Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings.

XVI.—More than three layers of packages containing explosives shall never be packed one above another, except in the case of small-arms ammunition packed in tin-lined service-pattern boxes, when such a restriction is unnecessary. The loading and unloading of explosives when once begun shall be diligently proceeded with during daylight until the same is completed.

XVII.—When the train is being marshalled, wagons loaded with explosives may be shunted by a locomotive, provided that they are separated from the engine by not less than three wagons containing no explosive nor easily inflammable substance; this precaution is not necessary with wagons specially constructed for the carriage of explosives. The speed of these movements will be restricted to five miles an hour; they will be superintended by a duly authorised officer, who will be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

XVIII.—Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close coupled to one another, as well as to the adjoining wagons, and must be preceded and followed by three wagons not loaded with explosive or other traffic of an inflammable nature.

XIX.—If the wagons employed in the transport of explosives as well as those immediately adjoining them are provided with brakes, the brakes shall on no account be worked.

XX.—Wagons must in every case be locked when loaded with explosives.

XXI.—All operations connected with the transshipment of explosives at junction station shall take place during daylight.

7. If any person commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives, he shall be punished with a fine which may extend to Rs. 1,000.

2. The Budget Estimate of 1890-91 anticipated a surplus of Rx. 270,400 only, while the accounts of the year have closed with a surplus of Rx. 3,688,171, the increase as compared with the estimate being no less than Rx. 3,417,771. Of this increase, Rx. 2,094,345 appears under the head "Exchange," and is due mainly to the temporary rise in the rate of exchange during the year. The increase of Revenue and reduction in Expenditure in India as compared with the Budget Estimate amounted to Rx. 645,451 and Rx. 739,614 respectively. Of this total improvement of Rx. 1,385,065 in Revenue and Expenditure in India, Rx. 559,073 occurred in the Provincial and Local section and the balance, Rx. 825,992, in the Imperial section. In England there was an improvement in Revenue of £146,509 and a reduction in Expenditure of £350,925.

3. The total increase in Indian Revenues of Rx. 645,451 is made up as follows:

	Increase + Decrease —
Principal Heads of Revenue	+ 694,334
Interest	+ 10,552
Post Office, Telegraph, and Mint...	+ 118,137
Civil Department	+ 49,094
Miscellaneous	— 312,031
Railways	+ 83,598
Irrigation	+ 137,578
Buildings and Roads	+ 60,281
Army	— 196,092
TOTAL ...	645,451

The increase of Rx. 694,334 under the Principal Heads of Revenue is distributed over all the heads of the group except Opium and Tributes.

The Opium revenue fell short of the estimate by Rx. 324,118 in consequence of a fall in the price of Bengal opium and the reduction in the duty on Malwa opium. The tributes realised during the year were less than the Budget Estimate by Rx. 15,779.

The increase under the other heads of the group amounted to Rx. 1,034,231, the more important items contributing to this increase being Salt (Rx. 289,868), Customs (Rx. 182,118), Land Revenue (Rx. 170,809), Provincial Rates (Rx. 141,840), and Excise (Rx. 103,280).

The greater part of the increase under the group Post Office, Telegraph, and Mint occurred under the head "Mint," and was derived from the unusually heavy silver coinage of the year.

The falling off under "Miscellaneous" is accounted for by a decrease of Rx. 365,302 under XXIV—Exchange, due partly to the rise in the rate of exchange in the year, and partly to the transactions which give rise to the receipts being smaller.

4. The improvement of Rx. 739,614 under Expenditure in India occurred mainly under the groups Direct Demands on Revenues (Rx. 225,085), Civil Departments (Rx. 162,255), Railway Revenue Account (Rx. 370,039), and Special Defence Works (Rx. 173,402).

These decreases were partially counterbalanced by an increase of Rx. 164,580 under Interest in connection with the partial conversion of the 4½ per cent. loans of 1878 and 1879 into the 4 per cent. loan of 1854-55. The variations under the other groups are unimportant.

5. The improvement of Rx. 559,073 in the Provincial and Local section of the Accounts was produced by an increase of Rx. 627,815 in Revenue counterbalanced by an increase in Expenditure of Rx. 68,742.

6. The increase of £146,509 in sterling Revenue occurred chiefly under Interest (£104,194), due to larger temporary investments of cash balances at a

high rate of interest, and under Civil Departments (£31,526) owing to the sale of the Royal Lunatic Asylum estate at Ealing.

7. Of the saving of £350,925 in sterling expenditure, £141,230 was under Special Defences, due to delay in the supply of stores for the Defences, and £179,975 under Army, due to delay in the supply of Magazine rifles.

8. The reduction of Rx. 2,076,756 in the charge for Exchange is due to a small extent to the saving in sterling expenditure, but mainly to the rise in the rate of exchange. The average rate of exchange of the year was 1*s.* 6·089*d.* against the Budget Estimate of 1*s.* 4·55*d.*

9. The several heads of Revenue and Expenditure are noticed in detail in the following paragraphs :

PRINCIPAL HEADS OF REVENUE.

10. *Land Revenue.*—The collections of the year exceeded the Budget Estimate by Rx. 191,705. The Revenue was less than the Budget Estimate in Madras, the North-Western Provinces and Oudh, and the Punjab, remissions and suspensions being necessitated by an unfavourable season in most districts of Madras, by floods in some districts of the North-Western Provinces and Oudh, and by the ravages of locusts in some districts of the Punjab. In all other Provinces the Revenue was higher than the Budget Estimate, the more important increases occurring (1) in Burma in consequence of extended cultivation and the assessment of a larger area as surveys progress; better prices were also obtained for leases of fisheries in Lower Burma which fell in during the year; and (2) in Bombay in consequence of revision of settlements in some districts and advance collections in one district, and good floods and improved water-supply in Sindh leading to extended cultivation.

		Credit under Land Revenue.	Portion due to Irrigation.	TOTAL.
		Rx.	Rx.	Rx.
1889-90	Accounts ...	23,981,399	689,766	24,671,165
1890-91	Budget ...	23,874,400	688,100	24,562,500

	Accounts ...	24,045,209	708,996	24,754,205

The collections of the past five official years (including Land Revenue due to Irrigation) and those of the last five revenue years ending with 30th September are as follows:

	Year ending 31st March	Year ending 30th September.
	Rx.	Rx.
1886-87	23,653,200	23,402,400
1887-88	23,791,800	23,924,700
1888-89	23,687,400	23,961,700
1889-90	24,671,200	24,782,300
1890-91	24,754,200	24,890,900

11. *Opium.*—The revenue from both the Bengal and Malwa opium was much below the Budget Estimate of the year and the actuals of the preceding year. The number of chests of Bengal opium sold during the year was the same as in 1889-90, *viz.*, 57,000, but the average price realised was Rs. 1,037 per chest against Rs. 1,136 obtained in 1889-90 and Rs. 1,060 assumed in the Budget. As regards Malwa opium, the weighments in the year were 28,828 chests against 29,042 chests in 1889-90, but the main cause of the large falling-off was the reduction in the rate of duty from Rs. 650 to Rs. 600 a chest from the 5th July 1890.

		Rx.
1889-90	Accounts	8,583,056
1890-91	Budget	8,203,300

	Number of chests produced.
1884-85	65,993
1885-86	64,925
1886-87	64,500
1887-88	57,500
1888-89	69,500
1889-90	38,305
1890-91	44,760

In Bengal there was again a failure of the opium crop, the outturn of the season having been 44,760 chests against 38,305 chests in 1889-90 and 69,500 chests in the previous year. The figures in the margin show the yield of the crop for the last seven years.

12. *Salt.*—There was a considerable increase in the Salt Revenue of the year as compared both with the Budget Estimate and with the actuals of 1889-90. This increase is due partly to increased consumption of salt, but chiefly to unusually large cash receipts in Madras and Bombay, where, owing to the high price of Government Securities during the year, the purchasers availed themselves to a much smaller extent than usual of the permission to defer payment of duty on lodging security.

		Rx.
1889-90	Accounts	8,187,739
1890-91	Budget	8,233,500
	Revised	8,453,200
	Accounts	8,523,368

13. *Stamps and Excise.*—The Stamp Revenue, though slightly better than the Budget, shows a decline as compared with the actuals of the previous year. The falling-off occurs under "Court Fee Stamps." The Excise Revenue continues to increase.

		Stamps. Rx.	Excise. Rx.
1889-90	Accounts	4,087,908	4,891,894
1890-91	Budget	4,034,900	4,844,500
	Revised	4,096,100	4,923,700
	Accounts	4,068,969	4,947,780

14. *Provincial Rates.*—Here the improvement occurred principally in Madras.

		Rx.

1890-91	Budget	3,349,400
	Revised	3,475,400
	Accounts	3,491,240

15. *Customs: Import duties.*—The receipts, though slightly less than the Budget Estimate, exceeded the actuals of 1889-90 by Rx. 48,482. The excess occurred in Bengal, Bombay, and Madras, there being a decrease in Burma caused by a smaller importation of kerosine oil.

		Total Customs Revenue. Rx.
1889-90	Accounts	1,506,686
1890-91	Budget	1,561,100
	Revised	1,722,500
	Accounts	1,743,218

Customs: Export duties.—A good rice harvest, combined with a large demand from Japan consequent on the failure of the rice crop in that country, caused the revenue in Burma to exceed the Budget Estimate and the actuals of 1889-90 by Rx. 175,703 and Rx. 164,766 respectively. There were also larger exports of rice from Bengal.

16. *Assessed Taxes.*—The revenue continues to improve. The points that require special notice in regard to the collections of the year are—(1) there was an increase on account of larger payments of interest on the partial conversion of the 4½ per cent. Loans of 1878 and 1879 into the 4 per cent. Loan of 1854-55; (2) the tax levied on surplus profits of Railway Companies was smaller on account of a falling off in the earnings of Guaranteed Railways.

1890-91	Budget	1,558,700
	Revised	1,603,500
	Accounts	1,617,396

17. *Forest Revenue.*—The Revenue in Burma was exceptionally high in 1889-90 owing to an unusually favourable season for floating down timber, and this fact was taken into account in framing the Budget Estimate of 1890-91. The actual realisations proved higher than the Budget Estimate by Rx. 37,197. As regards the other provinces, (1) there was some increase in Madras due to the credit of revenue from tree rents under this head instead of under Land Revenue; (2) in the North-Western Provinces large demands for railway sleepers and scantlings and recoveries of previous year's outstandings [illegible] the Estimate; (3) in the Punjab there was a decline in the receipts owing to slackness in the demands for timber and in the supply of fuel to the North-Western Railway; and (4) in Bombay the revenue was lower than anticipated under "Timber and other produce removed by Government Agency" owing chiefly to a reduction in the sales for want of sufficient means of transport and in the supply of fuel to the Southern Mahratta Railway.

1889-90	Accounts	1,486,303
1890-91	Budget	1,414,400
	Revised	1,451,200

18. *Registration.*—The revenue exceeded the Budget Estimate in every Province except Burma, the increase being largest in Bengal and Madras.

		Rx.
1889-90	Accounts	353,792
1890-91	Budget	345,500
	Revised	369,100
	Accounts	365,449

19. *Tributes.*—The falling-off as compared with the Budget occurred in Burma and Bombay. In Burma it was due again to the non-realisation of the tributes from the Shan States. In Bombay a portion of the Kathiawar tribute remained outstanding, and a portion of the Baroda tribute was received in advance in 1889-90.

22. *Land Revenue.*—The increase in the charges over the previous year occurred principally in Burma owing to more extended survey operations in the country and the payments of larger amounts of commission on the larger revenue collected in the year. Savings as compared with the Budget Estimate occurred in most provinces in the charges of District Administration and in Survey and Settlement charges. These savings were partly counterbalanced by an excess under allowances to district and village officers in the Punjab produced by revision of assessments and other causes.

23. *Opium.*—As already stated in paragraph 11, there was a partial failure of the opium crop in Bengal in 1890-91, though the failure was not so great as in the previous year. The variations among the charges of different years occur almost entirely in the payments to the cultivators which depend on the actual produce of the season.

24. *Salt.*—The Budget Estimate for this head provided for the full sanctioned establishments in Madras, but these were not all entertained. This, combined with the fact that the Mine Superintendents employed in Northern India were of lower grades than provided for, caused some savings in the charges for Establishment and Contingencies. The estimate of charges for purchase and freight in Madras and Bombay also proved too high. The increase in the actuals of 1890-91 over the previous year is distributed over all the heads.

26. *Excise.*—The expansion of departmental operations in Madras and an increase in the number of Excise Deputy Collectors in Bengal account for the increased charges in 1890-91 as compared with the previous year, while increased expenditure on rewards for information as to smuggling explains the small increase over the Budget Estimate.

INTEREST.

29. *Revenue.*—The receipts exceeded those of the previous year by Rx. 57,849 and the Budget Estimate of the year by Rx. 141,150. Of these excesses, £30,561 and £104,194 respectively were obtained in England. The improvement in England is due to the temporary investment of cash balances at unusually high rates of interest. The balances available for investment were also exceptionally large, as the loan required for the purchase of the South Indian Railway had been raised early in the year in consequence of the favourable state of the money market. In India the receipts are increasing as compared with previous years because of the large advances made in recent years to the Bombay and Calcutta Port Trusts, and because of the growth of advances under the Provincial and Local Loan scheme. The Budget Estimate was exceeded in consequence of larger receipts from the Guaranteed Railway Companies for interest on overdrawn capital and of a special recovery from the Ramnad Zemindari in Madras. The receipts of the year also included interest on advances to a Presidency Bank not anticipated in the Budget.

30. *Expenditure: Interest on Debt.*—The charges in India exceeded the Budget Estimate mainly because of the conversion of a portion of the 4½ per cent. Loans of 1878 and 1879 into the 4 per cent. Loan of 1854-55. The payment in advance of the half per cent. difference in the rate of interest for the remainder of the term of the 4½ per cent. Loans and the payment of commission, together with changes in the dates on which the interest became payable, resulted in an increase in the charge of the year. The increase over the expenditure of 1889-90 is due also to these conversion operations and to the loan raised in India in that year for Rx. 2,000,000. In England a sterling loan of £5,400,000 was raised in the

year, but no provision for the discount on this, amounting to £40,519, was made in the Estimate. On the other hand, £10,000 provided for interest on Temporary Loans was not required, and there was a net excess of £30,512 over the Estimate in the payments of the year charged to ordinary debt. As regards the comparison with 1889-90, the increase in 1890-91 was due chiefly to the interest on the new loan just mentioned.

31. *Interest on other obligations.*—The charges of the year were slightly less than the Budget Estimate, but exceeded those of 1889-90 owing partly to arrears of payments for the King of Oudh's charities having been left over from that year, and partly to increased payments of interest on Savings Bank Deposits.

REVENUE.

32. *Post Office.*—The Revenue under this head is steadily increasing with the expansion of the Department. The increase as compared with 1889-90 is Rx. 101,256, but the actual increase, if allowance be made for the effect on the Revenue of 1889-90 of the change of system referred to in paragraph 30 of Resolution No. 1977, dated 12th May 1891, was Rx. 60,256 only. This increase was obtained notwithstanding the reduction in the rates of letter postage to the United Kingdom from 1st January 1891. The improvement over the estimate is due chiefly to the non-payment during the year of the amount due on account of open and transit mails and the amounts due to certain Colonial Governments, and to a reduction in the payments in India to the London Post Office under the revised arrangements. These payments are adjusted by deduction from Revenue.

34. *Mint.*—Owing to the speculation connected with the temporary rise in the rate of exchange, the imports of silver were exceptionally heavy in 1890-91, and the greater part of the silver imported was tendered at the Mints for coinage. This resulted in a large excess in the receipts from seignorage duty as compared with the Estimate and the actuals of 1889-90.

35. *Post Office.*—Here the saving compared with the Budget Estimate occurred chiefly in the charges in England. REVENUE.

38. The increase as compared with the Budget Estimate and the actuals of 1889-90 occurred chiefly under Marine and Medical. The Marine receipts in India were enhanced by a larger outturn of work at the dockyards for other departments and private persons, and also by larger supplies made to Her Majesty's vessels on the Indian Station. The increase under Medical is due to the sale during the year of the Royal Lunatic Asylum estate at Ealing, which realised £31,000.

42. *Police.*—The Police charges in Burma were lower than those in 1889-90 by Rx. 136,992, and fell short of the Budget Estimate by Rx. 147,113. The reduction was caused chiefly by the transfer of three battalions of Military Police to the Army to take the place of three regiments disbanded, by the Police Force being below the sanctioned strength in consequence of a difficulty in obtaining recruits, and by the disbandment of the Punitive police in some districts. The above reductions in Burma were, however, largely counterbalanced by increased charges in Assam and Bengal connected with the administration of the Northern and Southern Lushai Hill Districts.

43. *Marine.*—The decrease in the expenditure in India compared with the actuals of 1889-90 is accounted for by the special payment in that year of Rx. 98,900 for the purchase of two steamers. The saving compared with the Budget Estimate was due to the non-arrival of some of the defence vessels for which additional establishments had been provided, and to the postponement of certain special items of expenditure. The increase in the sterling payments was caused by larger indents for stores.

RECEIPTS.

47. *Superannuation Receipts.*—As stated in previous years, the subscriptions to the Military Orphan and Medical Retiring Funds are declining with the retirement of old subscribers. In 1890-91 the Budget Estimate did not allow sufficiently for this decline, but the falling off in those subscriptions was counterbalanced by larger recoveries of contribution for the pensions of officers lent to Berar and by arrear contributions realised from employés of District Boards in Bengal.

49. *Exchange.*—The very large reduction under this head is due mainly to rise in the rate of exchange during the year. As the Government remits funds to the Railway Companies from England at the fixed rates named in the contracts, which are in every case higher than the rates now prevailing, an improvement in the price of the rupee necessarily reduces the gain that would otherwise have been made. Part of the decrease is also due to smaller capital transactions with some of the Railway Companies.

58. *Net Earnings.*—The net earnings of Railways during the year exceeded the actuals of the previous year and the Budget Estimate by Rx. 722,876 and Rx. 408,638 respectively. The improvement was distributed almost equally between the Guaranteed and State lines, but was partly nominal in the case of State Railways, as the net receipts of the Bengal and North-Western Railway from 1st July 1890 to the end of the year were included in the accounts, and were not paid to the Company till the following year. Part of the increase over the preceding year was due to additions to the open mileage of some of the Railways. There was a decrease in the gross receipts as compared with the Budget on the East Indian, Rajputana-Malwa, and Indian Midland Railways owing to a falling off in traffic, but corresponding reductions took place under working expenses, and the net receipts on the whole were not diminished. The improvement in the net receipts of the Guaranteed Railways as compared with 1889-90 occurred chiefly on the Great Indian Peninsula Railway owing to heavy goods traffic and an increase in the third class passenger traffic. The Madras and the Bombay, Baroda and Central India Railways also showed satisfactory improvement over both the actuals of the previous year and the Budget Estimate.

60. *Other Expenditure.*—The total expenditure does not differ much from that of the previous year or from the Budget Estimate, but there are some variations in the details. The payments of surplus profits were higher than in the preceding year owing to better traffic on the Great Indian Peninsula Railway, but they were taken at too high a figure in the Budget. 63. *Receipts.*—The variations are unimportant.

64. *Expenditure.*—The increase as compared with 1889-90 occurred chiefly in Bengal and Madras owing to larger capital outlay in the former province on the remodelling of the Hidgelee Tidal Canal, and in Madras to larger funds having been made available for expenditure on Provincial and Local Works. The saving compared with the Budget Estimate occurred mainly in Bengal, Bombay, and Baluchistan.

BUILDINGS AND ROADS.

65. *Revenue.*—The improvement compared with the Budget Estimate is due chiefly to increased receipts from Military Buildings and to the sale of the Custom House at Calcutta to the East Indian Railway for Rx. 31,700. The receipts from tolls on roads and ferries were also underestimated in some provinces.

66. *Expenditure.*—The expenditure was only slightly in excess of the Budget Estimate, but exceeded the actuals of 1889-90 by Rx. 318,718. This excess occurred chiefly in the Provincial and Local Section of the Accounts, and was due to (1) larger outlay in Burma for new public offices at Rangoon and a Central Jail at Insein; (2) larger expenditure in Assam, North-Western Provinces, and Madras on buildings and communications; (3) heavy outlay in Bengal on certain Telegraph and Railway buildings, on the Port and Shipping offices at Calcutta, and the Salt golahs at Sulkea; and (4) increased outlay in Bombay on the Jails at Bombay and Ahmedabad and other civil works. In the Imperial Section there was some increase under India on account of

extensive repairs to buildings in Quetta damaged by the abnormal winter rainfall and of relief works in Ajmere; in Bengal Rx. 43,000 was spent on the construction of the Imperial Secretariat buildings, Calcutta, and there was heavy outlay in Bombay on Postal and Paper Currency buildings and on works on the Somali Coast.

ARMY.

REVENUE.

67. The decrease in the Revenue as compared both with the actuals of 1889-90 and the Budget Estimate occurred chiefly in Commissariat receipts owing to the discontinuance of the employment of State agency for the supply of malt liquor to the British troops in Madras and Bombay.

1890-91	Budget	982,600

EXPENDITURE.

68. *India.*—The Expenditure was lower than in 1889-90 by Rx. 144,967. Of this decrease, Rx. 105,000 occurred in special charges and the balance under ordinary charges. As regards special expeditions, the extra charges for Upper Burma and the Chin-Lushai Expedition were lower than the previous year by Rx. 85,500 and Rx. 54,400 respectively, while the expenditure on other minor operations was higher by Rx. 34,900. The ordinary charges included in 1889-90 Rx. 209,700 for mobilisation purposes shown under a separate head: the similar charges in 1890-91 were distributed over the ordinary heads, and were smaller; but there were increases aggregating Rx. 269,200, due to (1) to the Native Army having been more nearly up to the sanctioned strength, (2) to large purchases of ordnance stores, (3) to manufacture of clothing in advance for the following years, and (4) to a change in the system of paying military pensioners. These excesses were partly counterbalanced by smaller payments to British troops on account of the higher rate of exchange.

69. *England.*—In England the excess in the sterling payments over the actuals of 1889-90 occurred chiefly in the payments for Magazine rifles and retired pay of British officers, counterbalanced to some extent by smaller payments to the War Office on account of Home charges of British Forces serving in India. As compared with the Budget, there was a lapse of £210,470 in the grant for stores, the actual payments on account of Magazine rifles having been much less than the amount entered in the estimate. On the other hand, there was payment not provided for in the Estimate of £70,000 to the War Office on account of arrears of Deferred Pay for the years 1888-89 and 1889-90.

SPECIAL DEFENCE WORKS.

70. The decrease as compared with 1889-90 and with the Budget Estimate was due partly to the rise in the rate of exchange, partly to delay in the supply of the stores ordered from England, and partly to the progress of work in India having been retarded pending settlement and revision of details.

CAPITAL EXPENDITURE.

71. *Railways.*—The large lapse on the Budget grant was due to some extent to the rise in the rate of exchange resulting in smaller payments for English Stores, but chiefly to the progress in construction having been less rapid than was hoped.

72. *Irrigation.*—The increase over 1889-90 is attributable to the vigorous prosecution of works in connection with the Chenab Canal and Periyar Project. The lapse on the Budget Estimate is due to the postponement of the Cawnpore Branch extension of the Lower Ganges Canal and to over-estimates of the requirements for the Orissa Canals and the Periyar Project.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

No. 1495-G., dated 19th May, 1892.

RESOLUTION—By the Government of India, Public Works Department.

Completion of the Chenab Canal.

Read—

Letter from the Government of the Punjab, Public Works Department, No. 931 E. I., dated 26th February 1892, and enclosures.

RESOLUTION.—The Chenab Canal project as at present sanctioned having been practically completed, His Excellency the Governor General in Council is pleased to record his appreciation of the successful and speedy manner in which the work has been executed in the face of great difficulties.

2. The original project provided only for an Inundation Canal, but a revised estimate amounting to Rs 1,03,74,591, which was sanctioned by the Secretary of State in January 1890, provided for the completion of the original project with the addition of permanent head works in the Chenab river at Khanke (about 10 miles below Wazirabad), the object being to assure a perennial supply of 2,250 cubic feet per second to the canal. The head works comprise a weir across the river 4,000 feet long with a set of twelve scouring sluices, each of 20 feet span, on its left flank and massive training works on its right flank. The supply channel which

connects the head works with the original canal is 8 miles long with a bed width of 108 feet, and at its head is a regulator with 36 bays of 6½ feet each, which is large enough to allow of 8,000 cubic feet per second being passed through. Bridges and drainage inlets have also been provided where required. Besides the abovementioned works, there remained when the revised estimate was sanctioned much to be done in remodelling channels, constructing distributaries, and demarcating boundaries of new villages in the Government waste land commanded by the canal.

3. The forecasts submitted with the revised estimate provided for the completion of the works by the end of 1893-94, but owing to funds having been provided more liberally than the forecast contemplated, and to the talent and energy displayed by the officers responsible for the execution of the work, the weir, scouring sluices, and supply channel have now been completed, and the training works have been so far advanced that a constant supply is assured to the kharif sowings of the current year. At the same time the progress on the distributaries and on the demarcation of the waste lands has kept pace with that on the head works and supply channel, and settlers are now being introduced into the new villages. The general result is that the works are two years in advance of the forecast.

4. His Excellency the Governor General in Council considers that these results are highly creditable to the officers concerned, and desires specially to record his appreciation of the services of the following officers, whose names have been prominently brought forward as deserving of praise:

The Rules have effect from the 24th May 1892, as a temporary measure, in the ports of Aden, Perim, and the Somáli Coast:

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Zaila shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale :

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of 15 days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somáli Coast which may have communicated with vessels coming from Zaila shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somáli Coast from Zaila.

The Rules have effect from the 3rd June 1892, as a temporary measure, in the ports of Aden, Perim, and the Somáli Coast:

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Bussorah shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on any such arrival being signalled, the Health Officer of the Port shall go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague; and if the Health Officer is satisfied by such enquiry that no person on board is

suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage, duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival in the harbour. The Health Officer shall also direct the Commander to prohibit during the period for which the vessel remains at the quarantine anchorage as aforesaid all communication, except such as is hereinafter provided for, between such vessel and the shore or other vessels and boats in the harbour.

IV.—If the Health Officer shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days intercourse between the said vessel and the shore, or other vessels and boats in the harbour, shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days, or, if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somáli Coast which may have communicated with vessels coming from Bussorah shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somáli Coast from Bussorah.

FAMINE.

The 24th June, 1892.

No. 1398—66.—The following papers are published for general information:

No. 32, dated Simla, 4th May, 1892.

From—The Government of India,

To—The Secretary of State for India.

In compliance with the request made in paragraph 5 of Your Lordship's Despatch No. 24 (Revenue), dated the 17th March, we have the honour to

submit our report for the month of March on the agricultural position and prospects in India. We had already prescribed a new form for monthly reports from Provinces in a Resolution, which is one of the enclosures of this Despatch, and it is from the reports we have received in conformity with these instructions that the information now supplied is chiefly drawn.

No. 5-F., dated 2nd March 1892.
No. 7-F., dated 18th March 1892.

2. The areas of distress remain practically the same as those which were described in our Despatch No. 12 of the 17th February last. We expressed our opinion that no general amelioration can be expected in the districts affected by agricultural failure until the advent of the monsoon, and Your Lordship will observe that the Provincial reports generally confirm our anticipations. The demand for relief is, as we expected, slowly increasing in many of the affected districts, though we are glad to say that no important or serious change for the worse in the position has yet occurred, while in some tracts the conditions are even more favourable than they were when we last wrote on the subject.

3. Excellent reports have been received of the spring harvests in the North-Western Provinces and Oudh and in the Central Provinces, the outturn in the first named having been the best experienced for some years. As the last autumn harvest also yielded an unusually heavy outturn in the same Provinces, there is a large surplus of the cheaper food-grains available for export to other Provinces. The effect of the good harvests in Northern India is apparent in the comparatively low prices of popular food-grains, which even in the affected tracts still prevail. Current rates are considerably cheaper than those of the corresponding period in 1877, while in the greater part of India the general level of prices is materially below that which prevailed twelve months ago. We shall have the pleasure of submitting to Your Lordship shortly diagrams of prices in each Province, which will clearly illustrate this encouraging fact.

4. Turning now to the measures which have been taken in each Province in which relief has been called for, we may first inform Your Lordship that we have recently directed renewed attention to the main principles laid down by the Famine Commissioners. The most important of these were that works should be in readiness in every part of India for the relief of people in want of food; that every person in need should receive on the works when opened wages sufficient to buy food enough to sustain health and strength; that, in order that the general community might not be unnecessarily taxed for the maintenance of those requiring relief, wages should not materially exceed the amount required to ensure a fully healthy condition; that every able-bodied person in receipt of relief should give in return a reasonable amount of labour; and, finally, that weakly persons and those unaccustomed to work should be supplied with gratuitous and sufficient relief either without any demand for labour at all or in return for a light and easy task.

5. Your Lordship in Despatch No. 6 (Revenue) of the 14th January last drew special attention to the first of the principles above enumerated, *viz.*, the importance of maintaining an efficient scheme of famine relief-works. Instructions on the subject were conveyed to Local Governments in a Resolution which accompanies this Despatch, and have been, as will be observed from the reports, carried out. The return for Ajmere alone indicates a provision of relief-works insufficient for the possible requirements of an expanding demand for labour, but urgent measures are being taken to supplement the programme.

No. 8-F., dated 21st March 1892.

6. A Resolution which we have issued on the subject of famine-wages is also forwarded. As Your Lordship will observe, some tendency to depart from the principles laid down by the Famine Commissioners had occurred in some cases which it seemed desirable to check. But it is satisfactory to understand that this circumstance was materially due to the different conditions which exist now, when food is comparatively cheap, from those which prevailed in the great famine of 1877, in respect to which the original Famine Codes were framed. Owing, indeed, to the development of the railway system, it is almost impossible that the condition of extreme famine prices can ever recur. In this connection we draw Your Lordship's special attention to our letters addressed to the Governments of Madras and Bombay, which are also forwarded.

No. 6-F., dated 17th March 1892.

No. 498-F., dated 17th March 1892.
No. 518-F., dated 17th March 1892.

7. Local Governments and Administrations were enjoined, as directed by Your Lordship, to supply full statistics of mortality for their respective Provinces

as well as explanations of any abnormal increase in the death-rate. These have not been received in every instance with the March reports, but will be furnished in future. In the meantime we are still able to inform Your Lordship that no cases of starvation or even of serious emaciation have come to light notwithstanding the vigilant inspection maintained by the local officers throughout the affected tracts. We think it right to add that the effect of influenza, which prevailed throughout the winter, has not been fully appreciated, and that much of the increased mortality recorded as due to fever in various parts of India owed its origin to this exceptional epidemic.

8. We now proceed to summarise briefly the more important facts included in the Provincial reports for March. In *Madras* there had not been, and it was hardly possible that there should have been, any material change in the agricultural condition and prospects of the affected area. The condition of the people is, however, reported to be well maintained; a great deal of private employment is still available, and the numbers on relief-works were not seriously increasing, although the wages offered err, if anything, on the side of liberality. Prices remained almost stationary, and trade continued to be active. Except in the case of the Nellore and Kistna Districts, which apparently have been invaded by a severe epidemic of cholera, the death-rate in February was normal. With the object of ascertaining beyond possibility of question that the abnormal mortality in Nellore and Kistna was not due to want of relief, we have called upon the Local Government for further explanation, which we shall not fail to submit to Your Lordship with our next report. The Government of Madras has in our opinion throughout the recent period of distress acted with most commendable foresight, promptitude, and activity.

In *Bengal* prospects have been decidedly improved lately by rain, which has enabled agricultural operations to be recommenced. Sir Charles Elliott, to whose opinion special experience in earlier famines lends authority, has confirmed upon personal inspection the reports of the local officers that the people in the affected parts are physically fit for work; that cases of emaciation or weakness due to hunger are remarkably few; and that the works in progress afford sufficient employment to those who require it. Prices are still easy, and, so far as can be judged from the District reports, there has been no serious increase in the death-rate. The Local Government has, however, been pressed to communicate fuller information on the latter point in its next report.

In *Bombay* the situation has improved since the end of March. In Dharwar the Collector reports the scarcity to be practically at an end, subject only to the continuance of the ante-monsoon rains. In Belgaum prices are still very easy, and no suspension of the land-revenue has yet been necessary; while in Bijapur ample employment is available to the people upon the agricultural works, which land-owners of the better class have been enabled to open with the assistance of Government loans.

A report has been received from the Government of the *North-Western Provinces and Oudh* reporting the existence of scarcity in parts of the Almora and Garhwál Districts. There is no deficiency of food at present in the affected tracts, the grain locally in stock being expected to hold out till the end of June. From then, however, till the middle of September there will be an insufficiency which the Local Government proposes to meet by importing grain from the plains, which will be sold at rates sufficient to cover all cost of purchase, transport, and waste. No relief-works are yet called for in the affected districts. The conditions are believed to be somewhat similar in the Himalayan tracts west of Garhwál, and we have called upon the Punjab Government for a special report upon the agricultural position in that region.

In *Burma* prices of food-grains have risen considerably, but the number of relief-works has nevertheless fallen. The decline in the number of persons demanding relief is due to the combined effect of (1) the reduction in the famine-wage which was ordered by the Chief Commissioner in his Resolution of the 8th March in pursuance of our orders directing a stricter uniformity with the provisions of the Famine Code; and (2) to the simultaneous removal of many works on which labour was employed from the category of "Relief" to that of ordinary works on which more than the famine-wage can be earned.

In *Ajmere-Merwara* the reports as to the condition of labourers on relief-works and the statistics of mortality were less satisfactory than elsewhere. We, therefore, telegraphed for an explanation which will be found in the reports of the Chief Commissioner and Residency Surgeon appended hereto. It is

shown that the excessive death-rate occurred only in the months of January and February, during which time small-pox and influenza epidemics of unusual virulence seem to have been prevalent. We agree with the Chief Commissioner that, if the exceptional mortality had been due directly or indirectly to insufficiency of food, the remarkable fall in the death-rate of February and March could hardly have happened. It is possible, no doubt, that owing to imperfect nutrition due to the scarcity a larger number than usual may have fallen victims to the epidemics, but the increased death-rate was certainly not caused either directly by starvation or by want of timely relief. The local executive officers, who have been exceptionally active in their personal inspections of the affected tracts, have assured us that the physical condition of the people is satisfactory; and although the wages on relief-works have erred on the side of liberality, the fact that large numbers have deserted the works opened in Merwara indicates that the relief offered to the people has been more than adequate. No deaths from starvation are reported; food-gains are freely imported, and the available stocks are ample.

The condition of the *Rajputana Native States*, reports from which we enclose, is practically unchanged since the submission of our last Despatch. We also enclose a copy of a report received from the Government of Bombay on the scarcity in the States of Kolhapur and the Southern Mahratta country. The situation is, however, not one of gravity, and is being adequately dealt with by the authorities concerned.

9. The following is a *conspectus* of the relief operations in each Province:

11. With reference to paragraph 4 of Your Lordship's Despatch on the question of expenditure and of provision of funds for relief purposes, we beg to invite attention to the Statement B accompanying the Provincial Famine Reports, which contains such information as the Local Governments are at present able to supply regarding outlay on relief operations, advances, and suspensions of revenue. We propose to call upon Local Governments to furnish us with more complete statements of charges on account of the Provincial scarcities since their commencement, and we shall address Your Lordship in a separate communication regarding the utilization of the Famine Insurance grant, upon which under existing orders only a small proportion of the expenditure hitherto incurred is likely to fall.

12. Your Lordship will observe that the simplified form in which reports are now called for has enabled Local Governments to supply such information as is required by ourselves as well as by Your Lordship within a comparatively short period after the conclusion of the month for which the report is submitted. The following statement shows the date borne on the report for each Province:

Madras	11th April.
Bombay	26th ,,
Bengal	21st ,,
North-Western Provinces	25th ,,
Burma	19th ,,
Ajmere-Merwara	11th ,,
Western Rajputana States and Jeypore	16th ,,
Bikanir	14th ,,

13. We have in conclusion to direct attention to the enclosed map of India in which the tracts affected by scarcity are indicated by colours.

No. 36, dated Simla, 31st May, 1892.

From—The Government of India,

To—The Secretary of State for India.

In continuation of our Despatch No. 32 of the 4th instant, we have the honour to submit our report for the month of April on the agricultural position and prospects in India.

2. The situation on the whole exhibits improvement. The light rains which usually occur in certain parts of India preliminary to the monsoon have fallen in abundance over considerable portions of the affected areas in Burma, Eastern Bengal, and Southern India. Except, however, in a few districts, they have not yet been sufficient to enable agricultural operations to be generally commenced. In Southern India, including Mysore, and in Burma there has been a considerable decline of distress. In the remainder of the affected tracts reported on last month, except in Rajputana, the numbers demanding relief have, as was expected, continued to increase. As will be gathered from the enclosed note submitted by our Meteorological Reporter, the south-west monsoon is already established in the Bay, and advancing in the east into Tenasserim and Lower Burma and in the west up the Malabar and Konkan Coast. Its general prospects continue to be on the whole favourable, but Your Lordship will have received telegraphic information as to its further development before this Despatch reaches England.

3. The reports from Local Governments contain interesting information regarding the encouragement given to the construction of canals, tanks, wells, or other irrigation projects either directly by employment of labour at Government relief-works, or indirectly by advances to land-owners. In Madras it is estimated that at the end of April there were 9,200 wells in process of construction, upon which between 50,000 and 80,000 persons were employed, while the loans granted for this purpose aggregated Rs. 15,76,000. Besides these wells, Government irrigation works opened for famine relief afforded employment to over 17,000 people. In Bombay Rs. 1,10,000 had up to the end of April been advanced as loans for the construction of wells. Small sums have also been sanctioned with the same object in Bengal, in which Province, however, irrigation is less needed.

In Burma the relief projects have been generally designed with the object of providing irrigation for the affected districts. Several of these contain remains

of large and important works, which in former times must have secured them to a great extent against the effects of deficient rainfall. In the two districts of Yamethin and Meiktila it has been found advisable to take special measures for the completion of the works so begun by continuing them after the demand for labour at famine rates had ceased. It is believed that before the expiration of the current year the two districts mentioned will in this manner be rendered practically secure against famine.

In Ajmere-Merwara most of the larger relief-works consist of projects for the improvement and repair of tanks and ducts, while of the sums advanced under the Land Improvement Loans' Act, which amount to nearly a year's revenue of the district, the greater portion has been expended on the deepening of wells.

Your Lordship will thus observe that every effort has been made to utilize the opportunity afforded by the necessities of the affected areas in order to improve their permanent condition and to diminish their liability to famine. Unfortunately this policy cannot be applied with equal success to the Deccan districts of Bombay and Madras, which, it is feared, must always remain liable to suffer greatly from drought.

4. The present reports contain fairly complete information on the subject of the death-rate. The instances of abnormal mortality are few, and we have no reason at present for believing that any of them are attributable to the want of timely relief. The influenza epidemic, however, seems to have made itself felt in four out of the seven affected districts in Bengal, from which Province also comes the report of a single death from starvation. The case, though a doubtful one, is being made the subject of careful enquiry.

5. We invite Your Lordship's attention to the considerable amounts of land-revenue suspended in some of the affected provinces. In Madras, in addition to the large remissions allowed at the last annual settlement of the revenue, suspensions amounting to nearly 31 lakhs, or 26·3 per cent. of the revenue of the affected districts, have been granted. Similar relief does not appear to have been found necessary in Bombay, where, as Your Lordship is aware, the assessment rates are pitched lower with the express object of minimising remissions; but enquiries are being made from the Local Government on the subject. In Burma over 7¾ lakhs of the house-tax, which there takes the place of land-revenue, has been remitted.

6. We proceed in this paragraph to give a brief summary province by province of the more important facts submitted in the reports for April. In *Madras* alleviation was brought to some of the affected districts by a fall of rain during the last week in April. Prices were very nearly stationary during the month; trade was sufficiently active; and the condition of the people in the villages and on the public works was everywhere reported to be fair and well maintained. In the Kistna, Nellore, Kurnool, Bellary, and Anantapur districts the mortality returns for March show an abnormally high death-rate. This is attributed by the Local Government partly to fever and partly to that improvement in registration which always takes place during a period of scarcity. We have not yet received the report which we asked for in respect of the high February mortality in the Kistna and Nellore districts. Although we have no reason to think that the Madras Government is wrong in its view of the causes of the high death-rates for March, we are calling for special and careful report by its medical advisers. This will, we trust, establish beyond all possibility of question the adequacy of the relief which has been given and the absence of deaths from preventible causes.

In *Bombay* the general condition and prospects of the affected areas give at present no great cause for anxiety. Seasonable showers have continued to fall in the affected parts, the rainfall of which is indeed in excess of the normal at this period of the year, and should the monsoon extend to them at its usual time, all difficulties will disappear.

In *Bengal* the rain which fell in April has improved the condition in several districts where cultivation is being actively commenced. In addition to the Government relief-works in progress, private works have been started in some districts by the wealthier zamindars. The death-rate statistics in Bengal are wanting in reliability. In only four out of the seven affected districts does the mortality at all exceed the normal rate, and the excess, which is not serious, is beyond doubt partly attributable to the influenza epidemic.

In the *North-Western Provinces and Oudh* there has been no change for the worse in the affected parts of Almora and Garhwal. The Local Government has sanctioned the purchase and importation of grain, and the local officials have been directed not to press for payment of the revenue. Similar distress has also been reported from the hill-tracts of the Dehra Dun district. Grain will, if necessary, be imported for sale to the people, and in the meanwhile the Local Government has sanctioned the grant of advances under the Agriculturists' Loans Act, which should keep the people from distress until the early crops are reaped in August. It is not at present considered necessary to open any relief-works.

In the Himalayan districts of the *Punjab*, although in consequence of the prolonged drought there has been a considerable failure of crops, the Local Government does not anticipate famine or even the necessity for relief-works. It is proposed, however, to suspend revenue largely. The Provincial Government has been asked whether loans are not required.

In *Burma* the prospects in the affected districts considerably improved in April, and the affected area shows a substantial decrease. The physical condition of the people continues to be satisfactory, the normal death-rate appears to be nowhere affected by the prevailing scarcity, and no deaths are known to have occurred from starvation. Prices have risen considerably, but trade is active, and large quantities of rice are being imported into Upper Burma.

In *Ajmere-Merwara* there was no material change during April. The physical condition of the people was generally fair. The March death-rate was high, but the reasons have been fully explained in our last report. The proportion of the population receiving relief, whether on works or gratuitously, is considerably higher in Ajmere-Merwara than in any of the affected Provinces or neighbouring States, and nowhere can there be less room for apprehension that the relief afforded is inadequate. No death from starvation has been reported.

As regards the Native States where scarcity exists, we are glad to report that in *Mysore* the crops and prospects have been improved by the rain which fell in April and May. Prices have declined and the stocks of grain which the people have been holding back to meet a possible famine are being brought to the markets. The Darbar is carefully watching the situation. The condition of the Rajputana States in April showed no change for the worse; indeed, the numbers on relief-works have somewhat declined.

7. The following is a *conspectus* of the relief operations in each Province:

THE MEDICAL ACT, 1886.

[49 & 50 VICTORIA, CHAPTER 48.]

An Act to amend the Medical Acts.

[25TH JUNE, 1886.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. This Act may be cited as the Medical Act, 1886, and shall be construed as one with the Medical Acts.

Short title and construction.

PART I.

ADMISSION TO MEDICAL PRACTICE AND CONSTITUTION OF GENERAL COUNCIL.

Qualifying Examinations.

2. On and after the appointed day a person shall not be registered under the Medical Acts in respect of any qualification referred to in any of those Acts unless he has passed such qualifying examination in medicine, surgery and midwifery as is in this Act mentioned.

Examination before registration.

3. (*1*) A qualifying examination shall be an examination in medicine, surgery and midwifery held, for the purpose of granting a diploma or diplomas conferring the right of registration under the Medical Acts, by any of the following bodies, that is to say,—

Qualifying examinations held by medical authorities.

(*a*) any university in the United Kingdom or any medical corporation legally qualified at the passing of this Act to grant such diploma or diplomas in respect of medicine and surgery; or

(*b*) any combination of two or more medical corporations in the same part of the

United Kingdom who may agree to hold a joint examination in medicine, surgery and midwifery, and of whom one at least is capable of granting such diploma as aforesaid in respect of medicine, and one at least is capable of granting such diploma in respect of surgery; or

(c) any combination of any such university as aforesaid with any other such university or universities, or of any such university or universities with a medical corporation or corporations, the bodies forming such combination being in the same part of the United Kingdom.

(2) The standard of proficiency required from candidates at the said qualifying examinations shall be such as sufficiently to guarantee the possession of the knowledge and skill requisite for the efficient practice of medicine, surgery and midwifery; and it shall be the duty of the General Council to secure the maintenance of such standard of proficiency as aforesaid; and for that purpose such number of inspectors as may be determined by the General Council shall be appointed by the General Council, and shall attend, as the General Council may direct, at all or any of the qualifying examinations held by any of the bodies aforesaid.

(3) Inspectors of examinations appointed under this section shall not interfere with the conduct of any examination, but it shall be their duty to report to the General Council their opinion as to the sufficiency or insufficiency of every examination which they attend and any other matters in relation to such examination which the General Council may require them to report; and the General Council shall forward a copy of every such report to the body or to each of the bodies which held the examination in respect of which the said report was made, and shall also forward a copy of such report, together with any observations thereon made by the said body or bodies, to the Privy Council.

(4) An inspector of examinations appointed under this section shall receive such remuneration, to be paid as part of the expenses of the General Council, as the General Council, with the sanction of the Privy Council, may determine.

Withdrawal from medical authorities of right to hold qualifying examinations.

4. (1) If at any time it appears to the General Council that the standard of proficiency in medicine, surgery and midwifery, or in any of those subjects or any branch thereof, required from candidates at the qualifying examinations held by any of the bodies for the time being holding such examinations, is insufficient, the General Council shall make a representation to that effect to the Privy Council, and the Privy Council, if they think fit, after considering such representation, and also any objections thereto made by any body or bodies to which such representation relates, may by order declare that the examinations of any such body or bodies shall not be deemed to be qualifying examinations for the purpose of registration under the Medical Acts; and Her Majesty, with the advice of Her Privy Council, if upon further representation from the General Council or from any body or bodies to which such order relates it seems to Her expedient so to do, shall have power at any time to revoke any such order.

(2) During the continuance of any such order the examinations held by the body or bodies to which it relates shall not be deemed qualifying examinations under this Act, and any diploma granted to persons on passing such examinations shall not entitle such persons to be registered under the Medical Acts, and any such body shall not choose either separately or collectively with any other body a member of the General Council, and the member (if any) for the time being representing such body in the General Council shall, unless he was chosen by such body collectively with any other body not subject to an order under this section, be suspended from taking part in the proceedings of the General Council.

Qualifying examinations held by medical corporation, with assistant examiners.

5. (1) If a medical corporation represents to the General Council that it is unable to enter into such combination as is in this Act mentioned for the purpose of holding qualifying examinations, and the General Council are satisfied that the said medical corporation has used its best endeavours to enter into such combination as aforesaid, and is unable to do so on reasonable terms, it shall be lawful for the General Council from time to time, if they think fit, on the application of such corporation, to appoint any number of examiners to assist at the examinations which are held by such corporation for the purpose of granting any diploma or diplomas conferring on the holders thereof, if they have passed a qualifying examination, the right of registration under the Medical Acts.

(2) It shall be the duty of the said assistant examiners to secure at the said examinations the maintenance of such standard of proficiency in medicine, surgery and midwifery as is required under the foregoing provisions of this Act from candidates at qualifying examinations, and for that purpose the said assistant examiners shall have such powers and perform such duties in the conduct of those examinations as the General Council may, from time to time, by order prescribe; and any examination held subject to the provisions of this section shall be deemed to be a qualifying examination within the meaning of this Act.

(3) Assistant examiners appointed under this section shall receive such remuneration, to be paid by the medical corporation at whose examinations they take part, as the General Council determine.

(4) A medical corporation shall have power to admit to its examinations assistant examiners appointed under this section, and to conduct its examinations in accordance with the requirements of this section and of any orders made thereunder, anything in any Act or charter relating to such corporation to the contrary notwithstanding.

Effect of Registration.

Privileges of registered persons.

6. On and after the appointed day a registered medical practitioner shall, save as in this Act mentioned, be entitled to practise medicine, surgery and midwifery in the United Kingdom, and (subject to any local law) in any other part of Her Majesty's dominions, and to recover in due course of law in respect of such practice any expenses, charges in respect of medicaments or other appliances, or any fees to which he may be entitled, unless he is a fellow of a college of physicians, the fellows of which are prohibited by byelaw from recovering at law their expenses, charges or fees, in which case such prohibitory byelaw, so long as it is in force, may be pleaded in bar of any legal proceeding instituted by such fellow for the recovery of expenses, charges or fees.

COLONIAL PROBATES ACT, 1892.

[55 VICTORIA, CHAPTER 6.]

An Act to provide for the Recognition in the United Kingdom of Probates and Letters of Administration granted in British Possessions.

[30TH MAY, 1892.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled and by the authority of the same, as follows:

Application of Act by Order in Council.

1. Her Majesty the Queen may, on being satisfied that the legislature of any British possession has made adequate provision for the recognition in that possession of probates and letters of administration granted by the courts of the United Kingdom, direct by Order in Council that this Act shall, subject to any exceptions and modifications specified in the Order, apply to that possession, and thereupon, while the Order is in force, this Act shall apply accordingly.

Sealing in United Kingdom of colonial probates and letters of administration.

2. (1) Where a court of probate in a British possession to which this Act applies has granted probate or letters of administration in respect of the estate of a deceased person, the probate or letters so granted may, on being produced to, and a copy thereof deposited with, a court of probate in the United Kingdom, be sealed with the seal of that court, and thereupon shall be of the like force and effect, and have the same operation in the United Kingdom, as if granted by that court.

(2) Provided that the court shall, before sealing a probate or letters of administration under this section, be satisfied—

(a) that probate duty has been paid in respect of so much (if any) of the estate as is liable to probate duty in the United Kingdom; and

(b) in the case of letters of administration, that security has been given in a sum sufficient in amount to cover the property (if any) in the United Kingdom to which the letters of administration relate;

and may require such evidence, if any, as it thinks fit as to the domicile of the deceased person.

(3) The court may also, if it thinks fit, on the application of any creditor, require, before sealing, that adequate security be given for the payment of debts due from the estate to creditors residing in the United Kingdom.

(4) For the purposes of this section, a duplicate of any probate or letters of administration sealed with the seal of the court granting the same, or a copy thereof certified as correct by or under the authority of the court granting the same, shall have the same effect as the original.

(5) Rules of court may be made for regulating the procedure and practice, including fees and costs, in courts of the United Kingdom, on and incidental to an application for sealing a probate or letters of administration granted in a British possession to which this Act applies. Such rules shall, so far as they relate to probate duty, be made with the consent of the Treasury, and, subject to any exceptions and modifications made by such rules, the enactments for the time being in force in relation to probate duty (including the penal provisions thereof) shall apply as if the person who applies for sealing under this section were a person applying for probate or letters of administration.

Application of Act to British courts in foreign countries.

3. This Act shall extend to authorise the sealing in the United Kingdom of any probate or letters of administration granted by a British court in a foreign country, in like manner as it authorises the sealing of a probate or letters of administration granted in a British possession to which this Act applies, and the provisions of this Act shall apply accordingly with the necessary modifications.

Orders in Council.

4. (1) Every Order in Council made under this Act shall be laid before both Houses of Parliament as soon as may be after it is made, and shall be published under the authority of Her Majesty's Stationery Office.

(2) Her Majesty the Queen in Council may revoke or alter any Order in Council previously made under this Act.

(3) Where it appears to Her Majesty in Council that the legislature of part of a British possession has power to make the provision requisite for bringing this Act into operation in that part, it shall be lawful for Her Majesty to direct by Order in Council that this Act shall apply to that part as if it were a separate British possession, and thereupon, while the Order is in force, this Act shall apply accordingly.

But no member at any such meeting of any Council shall have power to submit or propose any resolution, or to divide the Council in respect of any such financial discussion, or the answer to any question asked under the authority of this Act, or the rules made under this Act: Provided that any rule made under this Act by a governor in council, or by a lieutenant-governor, shall be submitted for and shall be subject to the sanction of the Governor General in Council, and any rule made under this Act by the Governor General in Council shall be submitted for and shall be subject to the sanction of the Secretary of State in Council: Provided also that rules made under this Act shall not be subject to alteration or amendment at meetings for the purpose of making laws and regulations.

Meaning of 24 & 25 Vict., c. 67, s. 22; 3 & 4 Will. IV, c. 85; and 16 & 17 Vict., c. 95.

3. It is hereby declared that in the twenty-second section of the Indian Councils Act, 1861, it was and is intended that the words "Indian territories now under the dominion of Her Majesty" should be read and construed as if the words "or hereafter" were and had at the time of the passing of the said Act been inserted next after the word "now"; and further, that the Acts third and fourth William the Fourth, Chapter eighty-five, and sixteenth and seventeenth Victoria, Chapter ninety-five, respectively, shall be read and construed as if at the date of the enactment thereof respectively it was intended and had been enacted that the said Acts respectively should extend to and include the territories acquired after the dates thereof respectively by the East India Company, and should not be confined to the territories at the dates of the said enactments

respectively in the possession and under the government of the said company.

Repeal. Power to fill up vacancy in number of additional members.

4. Sections thirteen and thirty-two of the Indian Councils Act, 1861, are hereby repealed, and it is enacted that—

(1) If any additional member of Council or any member of the council of a lieutenant-governor appointed under the said Act or this Act shall be absent from India or unable to attend to the duties of his office for a period of two consecutive months, it shall be lawful for the Governor General, the governor, or the lieutenant-governor to whose council such additional member or member may have been nominated (as the case may be) to declare, by a notification published in the Government Gazette, that the seat in Council of such person has become vacant:

(2) In the event of a vacancy occurring by the absence from India, inability to attend to duty, death, acceptance of office, or resignation duly accepted of any such additional member or member of the council of a lieutenant-governor, it shall be lawful for the Governor General, for the governor, or for the lieutenant-governor, as the case may be, to nominate any person as additional member or member, as the case may be, in his place; and every member so nominated shall be summoned to all meetings held for the purpose of making laws and regulations for the term of two years from the date of such nomination: Provided always that it shall not be lawful by such nomination, or by any other nomination made under this Act, to diminish the proportion of non-official members directed by the Indian Councils Act, 1861, to be nominated.

Powers of Indian provincial legislatures.

5. The local legislature of any province in India may from time to time, by Acts passed under and subject to the provisions of the Indian Councils Act, 1861, and with the previous sanction of the Governor General, but not otherwise, repeal or amend as to that province any law or regulation made either before or after the passing of this Act by any authority in India other than that local legislature: Provided that an Act or a provision of an Act made by a local legislature, and subsequently assented to by the Governor General in pursuance of the Indian Councils Act, 1861, shall not be deemed invalid by reason only of its requiring the previous sanction of the Governor General under this section.

"CHAPITRE I.—PAYS DE TRAITE. MESURES À PRENDRE AUX LIEUX D'ORIGINE.

"ARTICLE I.

"Les Puissances déclarent que les moyens les plus efficaces pour combattre la traite à l'intérieur de l'Afrique sont les suivants:

"1. Organisation progressive des services administratifs, judiciaires, religieux, et militaires dans les territoires d'Afrique placés sous la souveraineté ou le protectorat des nations civilisées;

"2. Établissement graduel, à l'intérieur, par les Puissances de qui relèvent les territoires, de stations fortement occupées, de manière que leur action protectrice ou répressive puisse se faire sentir avec efficacité dans les territoires dévastés par les chasses à l'homme;

"3. Construction de routes et notamment de voies ferrées reliant les stations avancées à la côte et permettant d'accéder aisément aux eaux intérieures et sur le cours supérieur des fleuves et rivières qui seraient coupés par des rapides et des cataractes, en vue de substituer des moyens économiques et accélérés de transport au portage actuel par l'homme;

"4. Installation de bateaux à vapeur sur les eaux intérieures navigables et sur les lacs, avec l'appui de postes fortifiés établis sur les rives;

"5. Établissement de lignes télégraphiques assurant la communication des postes et des stations avec la côte et les centres d'administration;

"6. Organisation d'expéditions et de colonnes mobiles, qui maintiennent les communications des stations entre elles et avec la côte, en appuient l'action répressive et assurent la sécurité des routes de parcours;

"7. Restriction de l'importation des armes à feu, au moins des armes perfectionnées, et des munitions dans toute l'étendue des territoires atteints par la traite.

"ARTICLE II.

"Les stations, les croisières intérieures organisées par chaque Puissance dans ses eaux et les postes qui leur servent de ports d'attache, indépendamment de leur mission principale, qui sera d'empêcher la capture d'esclaves et d'intercepter les routes de la traite, auront pour tâche subsidiaire:

"1. De servir de point d'appui et au besoin de refuge aux populations indigènes placées sous la souveraineté ou le protectorat de l'État de qui relève la station, aux populations indépendantes, et temporairement à toutes autres en cas de danger imminent; de mettre les populations de la première de ces catégories à même de concourir à leur propre défense; de diminuer les guerres intestines entre les tribus par la voie d'arbitrage; de les initier aux travaux agricoles et aux arts professionnels, de façon à accroître leur bien-être, à les élever à la civilisation et à amener l'extinction des coutumes barbares, telles que le cannibalisme et les sacrifices humains;

"2. De prêter aide et protection aux entreprises du commerce, d'en surveiller la légalité en contrôlant notamment les contrats de service avec les indigènes et de préparer la fondation de centres de culture permanents et d'établissements commerciaux.

"3. De protéger, sans distinction de culte, les Missions établies ou à établir;

"4. De pourvoir au service sanitaire et d'accorder l'hospitalité et des secours aux explorateurs et à tous ceux qui participent en Afrique à l'œuvre de la répression de la traite.

"ARTICLE III.

"Les Puissances qui exercent une souveraineté ou un protectorat en Afrique, confirmant et précisant leurs déclarations antérieures, s'engagent à poursuivre, graduellement, suivant que les circonstances le permettront, soit par les moyens indiqués ci-dessus, soit par tous autres qui leur paraîtront convenables, la répression de la traite, chacune dans ses possessions respectives et sous sa direction propre. Toutes les fois qu'elles le jugeront possible, elles prêteront leurs bons offices aux Puissances qui, dans un but purement humanitaire, accompliraient en Afrique une mission analogue.

"ARTICLE IV.

"Les Puissances exerçant des pouvoirs souverains ou des protectorats en Afrique pourront toutefois déléguer à des Compagnies munies de Chartes, tout ou partie des engagements qu'elles assument en vertu de l'Article III. Elles demeurent néanmoins directement responsables des engagements qu'elles contractent par le présent Acte Général et en garantissent l'exécution.

"Les Puissances promettent accueil, aide et protection aux Associations nationales et aux initiatives individuelles qui voudraient coopérer dans leurs possessions à la répression de la traite sous la réserve de leur autorisation préalable et révocable en tout temps, de leur direction et contrôle, et à l'exclusion de tout exercice des droits de la souveraineté.

"ARTICLE V.

"Les Puissances Contractantes s'obligent, à moins qu'il n'y soit pourvu déjà par des lois conformes à l'esprit du présent Article, à édicter ou à proposer à leurs Législatures respectives, dans le délai d'un an au plus tard à partir de la date de la signature du présent Acte Général, une loi rendant applicables, d'une part, les dispositions de leur législation pénale qui concernent les attentats graves envers les personnes, aux organisateurs, et coopérateurs des chasses à l'homme, aux auteurs de la mutilation des adultes et enfants mâles et à tous individus participant à la capture des esclaves par violence; et, d'autre part, des dispositions qui concernent les attentats à la liberté individuelle, aux convoyeurs, transporteurs, et marchands d'esclaves.

"Les coauteurs et complices des diverses catégories spécifiées ci-dessus de capteurs et trafiquants d'esclaves seront punis de peines proportionnées à celles encourues par les auteurs.

"Les coupables qui se seraient soustraits à la juridiction des autorités du pays où les crimes ou délits auraient été commis seront mis en état d'arrestation soit sur communication des pièces de l'instruction de la part des autorités qui ont constaté les infractions, soit sur toute autre preuve de culpabilité, par les soins de la Puissance sur le territoire de laquelle ils seront découverts, et tenus sans autre formalité à la disposition des Tribunaux compétents pour les juger.

"Les Puissances se communiqueront, dans le plus bref délai possible, les lois ou Décrets existants ou promulgués en exécution du présent Article.

"ARTICLE VI.

"Les esclaves libérés à la suite de l'arrestation ou de la dispersion d'un convoi à l'intérieur du Continent seront renvoyés, si les circonstances le permettent, dans leurs pays d'origine; sinon, l'autorité locale leur facilitera, autant que possible, les moyens de vivre et, s'ils le désirent, de se fixer dans la contrée.

"ARTICLE VII.

"Tout esclave fugitif qui, sur le Continent, réclamera la protection des Puissances Signataires, devra l'obtenir et sera reçu dans les camps et stations officiellement établis par elles, ou à bord des bâtiments de l'État naviguant sur les lacs et rivières. Les stations et les bateaux privés ne sont admis à exercer le droit d'asile que sous la réserve du consentement préalable de l'État.

"ARTICLE VIII.

"L'expérience de toutes les nations qui ont des rapports avec l'Afrique ayant démontré le rôle pernicieux et prépondérant des armes à feu dans les opérations de traite et dans les guerre [illegible] entre tribus indigènes, et cette même expérience ayant prouvé manifestement que la [illegible] des populations [illegible] est une impossibilité radicale et des mesures restrictives du commerce des armes à feu et des munitions ne sont établies, les Puissances décident, pour autant que le permet l'état actuel de leurs frontières, que l'importation des armes à feu et spécialement des armes rayées et perfectionnées, ainsi que de la poudre, des balles, et des cartouches, est, sauf dans les cas et sous les conditions prévus à l'Article suivant, interdite dans les territoires compris entre le 20e parallèle nord et le 22e parallèle sud et aboutissant vers l'ouest à l'Océan Atlantique, vers l'est à l'Océan Indien et ses dépendances, y compris les îles adjacentes au littoral jusqu'à 100 milles marins de la côte.

"ARTICLE IX.

"L'introduction des armes à feu et de leurs munitions, lorsqu'il y aura lieu de l'autoriser dans les possessions des Puissances Signataires qui exercent des droits de souveraineté ou de protectorat en Afrique, sera réglée, à moins qu'un régime identique ou plus rigoureux n'y soit déjà appliqué, de la manière suivante, dans la zone déterminée à l'Article VIII.

" Toutes armes à feu importées devront être déposées aux frais, risques, et périls des importateurs, dans un entrepôt public placé sous le contrôle de l'Administration de l'État. Aucune sortie d'armes à feu ni de munitions importées ne pourra avoir lieu des entrepôts sans l'autorisation préalable de l'Administration. Cette autorisation sera, sauf les cas spécifiés ci-après, refusée pour la sortie de toutes armes de précision telles que fusils rayés, à magasin ou se chargeant par la culasse, entière ou en pièces détachées, de leurs cartouches, des capsules ou d'autres munitions destinées à les approvisionner.

" Dans les ports de mer et sous les conditions offrant les garanties nécessaires, les Gouvernements respectifs pourront admettre aussi les entrepôts particuliers, mais seulement pour la poudre ordinaire et les fusils à silex, et à l'exclusion des armes perfectionnées et de leurs munitions.

" Indépendamment des mesures prises directement par les Gouvernements pour l'armement de la force publique et l'organisation de leur défense, des exceptions pourront être admises, à titre individuel, pour des personnes offrant une garantie suffisante que l'arme et les munitions qui leur seraient délivrées ne seront pas données, cédées, ou vendues à des tiers, et pour les voyageurs munis d'une déclaration de leur Gouvernement constatant que l'arme et ses munitions sont exclusivement destinées à leur défense personnelle.

" Toute arme, dans les cas prévus par le paragraphe précédent, sera enregistrée et marquée par l'autorité préposé au contrôle, qui délivrera aux personnes dont il s'agit des permis de port d'armes, indiquant le nom du porteur et l'estampille de laquelle l'arme est marquée. Ces permis, révocables encas d'abus constaté, ne seront délivrés que pour cinq ans, mais pourront être renouvelés.

" La règle ci-dessus établie de l'entrée en entrepôt s'appliquera également à la poudre.

" Ne pourront être retirés des entrepôts pour être mis en vente que les fusils à silex non rayés ainsi que les poudres communes dites de traite. A chaque sortie d'armes et de munitions de cette nature destinées à la vente, les autorités locales détermineront les régions où ces armes et munitions pourront être vendues. Les régions atteintes par la traite seront toujours exclues. Les personnes autorisées à faire sortir des armes ou de la poudre des entrepôts s'obligeront à présenter à l'Administration, tous les six mois, des listes détaillées indiquant les destinations qu'ont reçues les dites armes à feu et les poudres déjà vendues, ainsi que les quantités qui restent en magasin.

" ARTICLE X.

" Les Gouvernements prendront toutes les mesures qu'ils jugeront nécesssaires pour assurer l'exécution aussi complète que possible des dispositions relatives à l'importation, à la vente, et au transport des armes à feu et des munitions, ainsi que pour en empêcher soit l'entrée et la sortie par leurs frontières intérieures, soit le passage vers les régions où sévit la traite.

" L'autorisation de transit, dans les limites de la zone spécifiée à l'Article VIII, ne pourra être refusée lorsque les armes et munitions doivent passer à travers le territoire d'une Puissance Signataire ou adhérente occupant la côte, vers des territoires à l'intérieur placés sous la souveraineté ou le protectorat d'une autre Puissance Signataire ou adhérente, à moins que cette dernière Puissance n'ait un accès direct à la mer par son propre territoire. Si cet accès était complètement interrompu, l'autorisation de transit ne pourra non plus être refusée. Toute demande de transit doit être accompagnée d'une déclaration émanée du Gouvernement de la Puissance ayant des possessions à l'intérieur, et certifiant que les dites armes et munitions ne sont pas destinées à la vente, mais à l'usage des autorités de la Puissance ou de la force militaire nécessaire pour la protection des stations de missionaires ou de commerce, ou bien des personnes désignées nominativement dans la déclaration. Toutefois, la Puissance territoriale de la côte se réserve le droit d'arrêter, exceptionnellement et provisoirement, le transit des armes de précision et des munitions à travers son territoire si, par suite de troubles à l'intérieur ou d'autres graves dangers, il y avait lieu de craindre que l'envoi des armes et munitions ne pût compromettre sa propre sûreté.

" ARTICLE XI.

" Les Puissances se communiqueront les renseignements relatifs au trafic des armes à feu et des munitions, aux permis accordés ainsi qu'aux mesures de répression appliquées dans leurs territoires respectifs.

" ARTICLE XII.

" Les Puissances s'engagent à adopter ou à proposer à leurs Législatures respectives les mesures nécessaires afin que les contrevenants aux défenses établies par les Articles VIII et IX soient partout punis, ainsi que leurs complices, outre la saisie et la confiscation des armes et munitions prohibées, soit de l'amende, soit de l'emprisonnement, soit de ces deux peines réunies, proportionellement à l'importance de l'infraction et suivant la gravité de chaque cas.

" ARTICLE XIII.

" Les Puissances Signataires qui ont en Afrique des possessions en contact avec la zone spécifiée à l'Article VIII, s'engagent à prendre les mesures nécessaires pour empêcher l'introduction des armes à feu et des munitions, par leurs frontières intérieures dans les régions de la dite zone, tout au moins celle des armes perfectionnées et des cartouches.

" ARTICLE XIV.

" Le régime stipulé aux Articles VIII à XIII inclusivement restera en vigueur pendant douze ans. Dans le cas où aucune des Parties Contractantes n'aurait, douze mois avant l'expiration de cette période, notifiée son intention d'en faire cesser les effets, ni demandé la revision, il continuera de rester obligatoire pendant deux ans, et ainsi de suite, de deux en deux ans.

" CHAPITRE II.—ROUTES DES CARAVANES ET TRANSPORTS D'ESCLAVES PAR TERRE.

" ARTICLE XV.

" Indépendamment de leur action répressive ou protectrice aux foyers de la traite, les stations, croisières, et postes dont l'établissement est prévu à l'Article I et toutes autres stations établies ou reconnues aux termes de l'Article IV par chaque Gouvernement dans ses possessions, auront en outre pour mission de surveiller, autant que les circonstances le permettront, et au fur et à mesure du progrès de leur organisation administrative, les routes suivies sur leur territoire par les trafiquants d'esclaves, d'y arrêter les convois en marche ou de les poursuivre partout où leur action pourra s'exercer légalement.

" ARTICLE XVI.

" Dans les régions du littoral connues comme servant de lieux habituels de passage ou de points d'aboutissement aux transports d'esclaves venant de l'intérieur, ainsi qu'aux points de croisement des principales routes de caravanes traversant la zone voisine de la côte déjà soumise à l'action des Puissances Souveraines ou Protectrices, des postes seront établis dans les conditions et sous les réserves mentionnées à l'Article III, par les autorités dont relèvent les territoires, à l'effet d'intercepter les convois et de libérer les esclaves.

" ARTICLE XVII.

" Une surveillance rigoureuse sera organisée par les autorités locales dans les ports et les contrées avoisinant la côte, à l'effet d'empêcher la mise en vente et l'embarquement des esclaves amenés de l'intérieur, ainsi que la formation et le départ vers l'intérieur de bandes de chasseurs à l'homme et de marchands d'esclaves.

" Les caravans débouchant à la côte ou dans son voisinage, ainsi que celles aboutissant à l'intérieur dans une localité occupée par les autorités de la Puissance territoriale, seront, dès leur arrivée, soumises à un contrôle minutieux quant à la composition de leur personnel. Tout individu qui serait reconnu avoir été capturé ou enlevé de force ou mutilé, soit dans son pays natal, soit en route, sera mis en liberté.

" ARTICLE XVIII.

" Dans les possessions de chacune des Puissances Contractantes, l'Administration aura le devoir de protéger les esclaves libérés, de les rapatrier, si c'est possible, de leur procurer des moyens d'existence et de pourvoir en particulier à l'éducation et à l'établissement des enfants délaissés.

" ARTICLE XIX.

" Les dispositions pénales prévues à l'Article V seront rendues applicables à tous les actes criminels ou délictueux accomplis au cours des opérations qui out pour objet le transport et le trafic des esclaves par terre, à quelque moment que ces actes soient constatés.

" Tout individu qui aurait encouru une pénalité, à raison d'une infraction prévue par le présent Acte Général, sera soumis à l'obligation de fournir un cautionnement avant de pouvoir entreprendre une opération commerciale dans les pays où se pratique la traite.

" CHAPITRE III.—RÉPRESSION DE LA TRAITE SUR MER.

" § I. *Dispositions Générales.*

" ARTICLE XX.

" Les Puissances Signataires reconnaissent l'opportunité de prendre d'un commun accord des dispositions ayant pour objet d'assurer plus efficacement la répression de la traite dans la zone maritime où elle existe encore.

" ARTICLE XXI.

" Cette zone s'étend entre, d'une part, les côtes de l'Océan Indien (y compris celles du Golfe Persique et de la Mer Rouge), depuis le Béluchistan jusqu'à la pointe de Tangalane (Quilimane), et, d'autre part, une ligne conventionelle qui suit d'abord le méridien de Tangalane jusqu'au point de rencontre avec le 26° degré de latitude sud ; se confond ensuite avec ce parallèle ; puis contourne l'Ile de Madagascar par l'est en se tenant à 20 milles de la côte orientale et septentrionale, jusqu'à son intersection avec le méridien du Cap d'Ambre. De ce point, la limite de la zone est déterminée par une ligne oblique qui va rejoindre la côte du Béluchistan, en passant à 20 milles au large du Cap Raz-el-Had.

"ARTICLE XXII.

"Les Puissances Signataires du présent Acte Général, entre lesquelles il existe de Conventions particulières pour la suppression de la traite, se sont mises d'accord pour restreindre les clauses de ces Conventions concernant le droit réciproque de visite, de recherche, et de saisie des navires en mer, à la zone susdite.

"ARTICLE XXIII.

"Les mêmes Puissances sont également d'accord pour limiter le droit susmentionné aux navires d'un tonnage inférieur à 500 tonneaux.

"Cette stipulation sera revisée dès que l'expérience en aura démontré la nécessité.

"ARTICLE XXIV.

"Toutes les autres dispositions des Conventions conclues entre les dites Puissances pour la suppression de la traite, restent en vigueur pour autant qu'elles ne sont pas modifiées par le présent Acte Général.

"ARTICLE XXV.

"Les Puissances Signataires s'engagent à prendre des mesures efficaces pour prévenir l'usurpation de leur pavillon et pour empêcher le transport des esclaves sur les bâtiments autorisés à arborer leurs couleurs.

"ARTICLE XXVI.

"Les Puissances Signataires s'engagent à prendre toutes les mesures nécessaires pour faciliter le prompt échange des renseignements propres à amener la découverte des personnes qui se livrent aux opérations de la traite.

"ARTICLE XXVII.

"Un Bureau International au moins sera créé; il sera établi à Zanzibar. Les Hautes Parties Contractantes s'engagent à lui faire parvenir tous les documents spécifiés à l'Article XLI, ainsi que les renseignements de toute nature susceptibles d'aider à la répression de la traite.

"ARTICLE XXVIII.

"Tout esclave qui se sera réfugié à bord d'un navire de guerre sous pavillon d'une des Puissances Signataires sera immédiatement et définitivement affranchi, sans que cet affranchissement puisse le soustraire à la juridiction compétente, s'il a commis un crime ou délit de droit commun.

"ARTICLE XXIX.

"Tout esclave retenu contre son gré à bord d'un bâtiment indigène aura le droit de réclamer sa liberté.

"Son affranchissement pourra être prononcé par tout agent d'une des Puissances Signataires, à qui le présent Acte Général confère le droit de contrôler l'état des personnes à bord des dit bâtiments, sans que cet affranchissement puisse le soustraire à la juridiction compétente, si un crime ou délit de droit commun a été commis par lui.

"§ II. *Règlement concernant l'Usage du Pavillon et la Surveillance des Croiseurs.*

"1. *Règles pour la Concession du Pavillon aux Bâtiments Indigènes, le Rôle d'Équipage, et le Manifeste des Passagers Noirs.*

"ARTICLE XXX.

"Les Puissances Signataires s'engagent à exercer une surveillance rigoureuse sue les bâtiments indegènes autorisés à porter leur pavillon dans la zone indiquée à l'Article XXI, et sur les opérations commerciales effectuées par ces bâtiments.

"ARTICLE XXXI.

"La qualification de bâtiment indigène s'applique aux navires qui remplissent une des deux condition suivantes:

"I. Présenter les signes extérieurs d'une construction ou d'un gréement indigène;

"2. Être montés par un équipage dont le capitaine et la majorité des matelots soient originaires d'un des pays baignés par les eaux de l'Océan Indien, de la Mer Rouge, ou du Golfe Persique.

"ARTICLE XXXII.

"L'autorisation d'aborder le pavillon d'une des dites Puissances ne sera accordée à l'avenir, qu'aux bâtiments indigènes qui satisferont à la fois aux trois conditions suivantes:

"1. Les armateurs ou propriétaires devront être sujets ou protégés de la Puissance dont ils demandent à porter les couleurs;

"2. Ils seront tenus d'établir qu'ils possèdent des biens-fonds dans la circonscription de l'autorité à qui est adressée leur demande, ou de fournir une caution solvable pour la garantie des amendes qui pourraient être éventuellement encourues;

"3. Les dits armateurs ou propriétaires, ainsi que le capitaine du bâtiment, devront fournir la preuve qu'ils jouissent d'une bonne réputation et notamment n'avoir jamais été l'objet d'une condamnation pour faits de traite.

"ARTICLE XXXIII.

"L'autorisation accordée devra être renouvelée chaque année. Elle pourra toujours être suspendue ou retirée par les autorités de la Puissance dont le bâtiment porte les couleurs.

"ARTICLE XXXIV.

"L'acte d'autorisation portera les indications nécessaires pour établir l'identité du navire. Le capitaine en sera détenteur. Le nom du bâtiment indigène et l'indication de son tonnage devront être incrustés et peints en caractères Latins à la poupe, et là ou les lettres initiales de son port d'attache, ainsi que le numéro d'enregistrement dans la série des numéros de ce port, seront imprimés en noir sur les voiles.

"ARTICLE XXXV.

"Un rôle d'équipage sera délivré au capitaine du bâtiment au port de départ par l'autorité de la Puissance dont il porte le pavillon. Il sera renouvelé à chaque armement du bâtiment ou, au plus tard, au bout d'une année, et conformément aux dispositions suivantes:

"1. Le rôle sera, au moment du départ, visé par l'autorité qui l'a délivré;

"2. Aucun Noir ne pourra être engagé comme matelot sur un bâtiment sans qu'il ait été préalablement interrogé par l'autorité de la Puissance dont ce bâtiment porte le pavillon ou, à défaut de celle-ci, par l'autorité territoriale, à l'effet d'établir qu'il contracte un engagement libre;

"3. Cette autorité tiendra la main à ce que la proportion des matelots ou mousses ne soit pas anormale par rapport au tonnage ou au gréement des bâtiments;

"4. L'autorité qui aura interrogé les hommes préalablement à leur départ les inscrira sur le rôle d'équipage, où ils figureront avec le signalement sommaire de chacun d'eux en regard de son nom;

"5. Afin d'empêcher plus sûrement les substitutions, les matelots pourront, en outre, être pourvus d'une marque distinctive.

"ARTICLE XXXVI.

"Lorsque le capitaine du bâtiment désirera embarquer des passagers Noirs, il devra en faire la déclaration à l'autorité de la Puissance dont il porte le pavillon ou, à défaut de celle-ci, à l'autorité territoriale. Les passagers seront interrogés et, quand il aura été constaté qu'ils s'embarquent librement, ils seront inscrits sur un manifeste spécial donnant le signalement de chacun d'eux en regard de son nom, et indiquant notamment le sexe et la taille. Les enfants Noirs ne pourront être admis comme passagers qu'autant qu'ils seront accompagnés de leurs parents ou de personnes dont l'honorabilité serait notoire. Au départ le manifeste des passagers sera visé par l'autorité indiquée ci-dessus, après qu'il aura été procédé à un appel. S'il n'y a pas de passagers à bord, mention expresse en sera faite sur le rôle d'équipage.

"ARTICLE XXXVII.

"A l'arrivée dans tout port de relâche ou de destination, le capitaine du bâtiment produira devant l'autorité de la Puissance dont il porte le pavillon ou, à défaut de celle-ci, devant l'autorité territoriale, le rôle d'équipage et, s'il y a lieu, les manifestes de passagers antérieurement délivrés. L'autorité contrôlera les passagers arrives à destination ou s'arrêtant dans un port de relâche, et fera mention de leur débarquement sur le manifeste. Au départ, la même autorité apposera de nouveau son visa au rôle et au manifeste, et fera l'appel des passagers.

"ARTICLE XXXVIII.

"Sur le littoral Africain et dans les îles adjacentes, aucun passager Noir ne sera embarqué à bord d'un bâtiment indigène en dehors des localités où réside une autorité relevant d'une des Puissances Signataires.

"Dans toute l'étendue de la zone prévue à l'Article XXI, aucun passager Noir ne pourra être débarqué d'un bâtiment indigène hors d'une localité où réside une autorité relevant d'une des Hautes Parties Contractantes et sans que cette autorité assiste au débarquement.

"Les cas de force majeure qui auraient déterminé l'infraction à ces dispositions devront être examinés par l'autorité de la Puissance dont le bâtiment porte les couleurs, ou, à défaut de celle-ci, par l'autorité territoriale du port dans lequel le bâtiment inculpé fait relâche.

"ARTICLE XXXIX.

"Les prescriptions des Articles XXXV, XXXVI, XXXVII, et XXXVIII, ne sont pas applicables aux bateaux non pontés entièrement, ayant un maximum de dix hommes d'équipage, et qui satisferont à l'une des deux conditions suivantes:

"1. S'adonner exclusivement à la pêche dans les eaux territoriales;

"2. Se livrer au petit cabotage entre les différents ports des la même Puissance territoriale, sans s'éloigner de la côte à plus de 5 milles.

"Ces différents bateaux recevront, suivant les cas, de l'autorité territoriale ou de l'autorité Consulaire, une licence spéciale, renouvelable chaque année et révocable dans les conditions prévues à l'Article XL, et dont le modèle uniforme, annexé au présent Acte Général, sera communiqué au Bureau International de Renseignements.

"ARTICLE XL.

"Tout acte ou tentative de traite, légalement constaté à la charge du capitaine, armateur, ou propriétaire d'un bâtiment autorisé à porter le pavillon d'une des Puissances Signataires, ou ayant obtenu la licence prévue à l'Article XXXIX, entraînera le retrait immédiat de cette autorisation ou de cette licence. Toutes les infractions aux prescriptions du paragraphe 2 du Chapitre III seront punies, en outre, des pénalités édictées par les lois et ordonnances spéciales à chacune des Puissances Contractantes.

"ARTICLE XLI.

"Les Puissances Signataires s'engagent à déposer au Bureau International de Renseignements les modèles types des documents ci-après:

"1. Titre autorisant le port du pavillon;

"2. Rôle d'équipage;

"3. Manifeste des passagers Noirs.

"Ces documents, dont la teneur peut varier suivant les Règlements propres à chaque pays, devront renfermer obligatoirement les renseignements suivants, libellés dans une langue Européenne:

"1. En ce qui concerne l'autorisation de porter le pavillon:

"(*a*) Le nom, le tonnage, le gréement, et les dimensions principales du bâtiment;

"(*b*) Le numéro d'inscription et la lettre signalétique du port d'attache;

"(*c*) La date de l'obtention du permis et la qualité du fonctionnaire qui l'a délivré.

"2. En ce qui concerne le rôle d'équipage:

"(*a*) Le nom du bâtiment, du capitaine, et de l'armateur ou des propriétaires;

"(*b*) Le tonnage du bâtiment;

"(*c*) Le numéro d'inscription et le port d'attache du navire, sa destination, ainsi que les renseignements spécifiés à l'Article XXV.

"3. En ce qui concerne le manifeste des passagers Noirs:

"Le nom du bâtiment qui les transporte et les renseignements indiqués à l'Article XXXVI, et destinés à bien identifier les passagers.

"Les Puissances Signataires prendront les mesures nécessaires pour que les autorités territoriales, ou leurs Consuls, envoient au même Bureau des copies certifiées de toute autorisation d'arborer leur pavillon, dès qu'elle aura été accordée, ainsi que l'avis du retrait dont ces autorisations auraient été l'objet.

"Les dispositions du présent Article ne concernent que les papiers destinés aux bâtiments indigènes.

"2. *De l'Arrêt des Bâtiments Suspects.*

"ARTICLE XLII.

"Lorsque les officiers commandant les bâtiments de guerre de l'une des Puissances Signataires auront lieu de croire qu'un bâtiment d'un tonnage inférieur à 500 tonneaux, et rencontré dans la zone ci-dessus indiquée, se livre à la traite, ou est coupable d'une usurpation de pavillon, ils pourront recourir à la vérification des papiers de bord.

"Le présent Article n'implique aucun changement à l'état de choses actuel en ce qui concerne la juridiction dans les eaux territoriales.

"ARTICLE XLIII.

"Dans ce but, un canot, commandé par un officier de vaisseau en uniforme pourra être envoyé à bord du navire suspect, après qu'on l'aura hélé pour lui donner avis de cette intention.

"L'officier envoyé à bord du navire arrêté devra procéder avec tous les égards et tous les ménagements possibles.

"ARTICLE XLIV.

"La vérification des papiers de bord consistera dans l'examen des pièces suivantes:

"1. En ce qui concerne les bâtiments indigènes, les papiers mentionnés à l'Article XLI;

"2. En ce qui concerne les autres bâtiments, les pièces stipulées dans les différents traités ou Conventions maintenus en vigueur.

"La vérification des papiers de bord n'autorise l'appel de l'équipage et des passagers que dans les cas et suivant les conditions prévus à l'Article suivant.

"ARTICLE XLV.

"L'enquête sur le chargement du bâtiment ou la visite ne peut avoir lieu qu'à l'égard des bâtiments naviguant sous le pavillon d'une des Puissances qui ont conclu, ou viendraient à conclure, les Conventions particulières visées à l'Article XXII, et conformément aux prescriptions de ces Conventions.

"ARTICLE XLVI.

"Avant de quitter le bâtiment arrêté, l'officier dressera un procès-verbal suivant les formes et dans la langue en usage dans le pays auquel il appartient.

"Ce procès-verbal doit être daté et signé par l'officier, et constater les faits.

"Le capitaine du navire arrêté, ainsi que les témoins, auront le droit de faire ajouter au procès-verbal toutes explications qu'ils croiront utiles.

"ARTICLE XLVII.

"Le Commandant d'un bâtiment de guerre qui aurait arrêté un navire sous pavillon étranger doit, dans tous les cas, faire un rapport à son Gouvernement, en indiquant les motifs qui l'ont fait agir.

"ARTICLE XLVIII.

"Un résumé de ce rapport ainsi qu'une copie du procès-verbal dressé par l'officier envoyé à bord du navire arrêté seront, le plus tôt possible, expédiés au Bureau International de Renseignements, qui en donnera communication à l'autorité Consulaire ou territoriale la plus proche de la Puissance dont le navire arrêté en route a arboré le pavillon. Des doubles de ces documents seront conservés aux archives du Bureau.

"ARTICLE XLIX.

"Si, par suite de l'accomplissement des actes de contrôle mentionné dans les Articles précédents, le croiseur est convaincu qu'un fait de traite a été commis à bord durant la traversée ou qu'il existe des preuves irrécusables contre le capitaine ou l'armateur pour l'accuser d'usurpation de pavillon, de fraude, ou de participation à la traite, il conduira le bâtiment arrêté dans le port de la zone le plus rapproché, où se trouve une autorité compétente de la Puissance dont le pavillon a été arboré.

"Chaque Puissance Signataire s'engage à désigner dans la zone et à faire connaître au Bureau International de Renseignements les autorités territoriales ou Consulaires, ou les Délégués spéciaux qui seraient compétents dans les cas visés ci-dessus.

"Le bâtiment soupçonné peut également être remis à un croiseur de sa nation, si ce dernier consent à en prendre charge.

"3. *De l'Enquête et du Jugement des Bâtiments saisis.*

"ARTICLE L.

"L'autorité visée à l'Article précédent, à laquelle le navire arrêté a été remis, procédera à une enquête complète, selon les lois et règlements de sa nation, en présence d'un officier du croiseur étranger.

"ARTICLE LI.

"S'il résulte de cette enquête qu'il y a eu usurpation de pavillon, le navire arrêté restera à la disposition du capteur.

"ARTICLE LII.

"Si l'enquête établit un fait de traite défini par la présence à bord d'esclaves destinés à être vendus, ou d'autres faits de traite prévus par les Conventions particulières, le navire et sa cargaison demeurent sous séquestre, à la garde de l'autorité qui a dirigé l'enquête.

"Le capitaine et l'équipage seront déférés aux Tribunaux désignés aux Articles LIV et LVI. Les esclaves seront mis en liberté après qu'un jugement aura été rendu.

"Dans les cas prévus par cet Article, il sera disposé des esclaves libérés conformément aux Conventions particulières conclues ou à conclure entre les Puissances Signataires. A défaut de ces Conventions, les dits esclaves pourront être remis à l'autorité locale, pour être renvoyés, si c'est possible, dans leur pays d'origine; sinon cette autorité leur facilitera, autant qu'il dépendra d'elle, les moyens de vivre, et, s'ils le désirent, de se fixer dans la contrée.

"ARTICLE LIII.

"Si l'enquête prouve que le bâtiment est arrêté illégalement, il y aura lieu de plein droit à une indemnité proportionnelle au préjudice éprouvé par le bâtiment détourné de sa route.

"La quotité de cette indemnité sera fixée par l'autorité qui a dirigé l'enquête.

"ARTICLE LIV.

"Dans le cas où l'officier du navire capteur n'accepterait pas les conclusions de l'enquête effectuée en sa présence, la cause serait, de plein droit, déférée au Tribunal de la nation dont le bâtiment capturé aurait arboré les couleurs.

"Il ne sera fait d'exception à cette règle que dans le cas où le différend porterait sur le chiffre de l'indemnité stipulée à l'Article LIII, lequel sera fixé par voie d'arbitrage, ainsi qu'il est spécifié à l'Article suivant.

"ARTICLE LV.

"L'officier capteur et l'autorité qui aura dirigé l'enquête désigneront, chacun dans les quarante-huit heures, un arbitre, et les deux arbitres choisis auront eux-mêmes vingt-quatre heures pour désigner un sur-arbitre. Les arbitres devront être choisis, autant que possible, parmi les fonctionnaires Diplomatiques, Consulaires, ou judiciaires des Puissances Signataires. Les indigènes se trouvant à la solde des Gouvernements Contractants, sont formellement exclus. La décision est prise à la majorité des voix. Elle doit être reconnue comme définitive.

"Si la juridiction arbitrale n'est pas constituée dans les délais indiqués, il sera procédé, pour l'indemnité comme pour les dommages-intérêts, conformément aux dispositions de l'Article LVIII, paragraphe 2.

"ARTICLE LVI.

"Les causes sont déférées, dans le plus bref délai possible, au Tribunal de la nation dont les prévenus ont arboré les couleurs. Cependant les Consuls ou toute autre autorité de la même nation que les prévenus, spécialement commissionnés à cet effet, peuvent être autorisés par leur Gouvernement à rendre les jugements aux lieu et place des Tribunaux.

"ARTICLE LVII.

"La procédure et le jugement des infractions aux dispositions du Chapitre III auront toujours lieu aussi sommairement que le permettent les lois et règlements en vigueur dans les territoires soumis à l'autorité des Puissances Signataires.

"ARTICLES LVIII.

"Tout jugement du Tribunal national ou des autorités visées a l'Article LVI déclarant que le navire arrêté ne s'est point livré à la traite sera exécuté sur le champ, et pleine liberté sera rendue au navire de continuer sa route.

"Dans ce cas, le capitaine ou l'armateur du navire arrêté sans motif légitime de suspicion ou ayant été soumis des vexations, aura le droit de réclamer des dommages-intérêts dont le montant serait fixé de commun accord entre les Gouvernements directement intéressés ou par voie d'arbitrage, et payé dans le délai de six mois à partir de la date du jugement qui a acquitté la prise.

"ARTICLE LIX.

"En cas de condamnation, le navire séquestré sera déclaré de bonne prise au profit du capteur.

"Le capitaine, l'équipage, et toutes autres personnes reconnus coupables seront punis, selon la gravité des crimes ou délits commis par eux, et conformément à l'Article V.

"ARTICLE LX.

"Les dispositions des Articles L à LIX ne portent aucune atteinte ni à la compétence, ni à la procédure des Tribunaux spéciaux existants, ou de ceux à créer pour connaître des faits de traite.

"ARTICLE LXI.

"Les Hautes Parties Contractantes s'engagent à se communiquer réciproquement les instructions qu'elles donneront, en exécution des dispositions du Chapitre III, aux Commandants de leurs bâtiments de guerre naviguant dans les mers de la zone indiquée.

"CHAPITRE IV.—PAYS DE DESTINATION DONT LES INSTITUTIONS COMPORTENT L'EXISTENCE DE L'ESCLAVAGE DOMESTIQUE.

"ARTICLE LXII.

"Les Puissances Contractantes dont les institutions comportent l'existence de l'esclavage domestique et dont, par suite de ce fait, les possessions situées dans ou hors l'Afrique servent, malgré la vigilance des autorités, de lieux de destination aux esclaves Africains, s'engagent à en prohiber l'importation, le transit, la sortie, ainsi que le commerce. La surveillance la plus active

et la plus sévère possible sera organisée par elles sur tous les points où s'opèrent l'entrée, le passage, et la sortie des esclaves Africains.

"ARTICLE LXIII.

"Les esclaves libérés en exécution de l'Article précédent seront, si les circonstances le permettent, renvoyés dans leur pays d'origine. Dans tous les cas, ils recevront des lettres d'affranchissement des autorités compétentes, et auront droit à leur protection et à leur assistance afin de trouver des moyens d'existence.

"ARTICLE LXIV.

"Tout esclave fugitif arrivant à la frontière d'une des Puissances mentionnées à l'Article LXII sera réputé libre, et sera en droit de réclamer des autorités compétentes des lettres d'affranchissement.

"ARTICLE LXV.

"Toute vente ou transaction dont les esclaves visés aux Articles LXIII et LXIV auraient été l'objet par suite de circonstances quelconques, sera considérée comme nulle et non avenue.

"ARTICLE LXVI.

"Les navires indigènes portant le pavillon d'un des pays mentionnés à l'Article LXII, s'il existe des indices qu'ils se livrent à des opérations de traite, seront soumis par les autorités locales, dans les ports qu'ils fréquentent, à une vérification rigoureuse de leur équipage et des passagers, tant à l'entrée qu'à la sortie. En cas de présence à bord d'esclaves Africains, il sera procédé judiciairement contre le bâtiment et contre toutes personnes qu'il y aura lieu d'inculper. Les esclaves trouvés à bord recevront des letters d'affranchissement par les soins des autorités qui auront opéré la saisie des navires.

"ARTICLE LXVII.

"Des dispositions pénales en rapport avec celles prévues par l'Article V seront édictées contre les importateurs, transporteurs, et marchands d'esclaves Africains, contre les auteurs de mutilation d'enfants ou d'adultes mâles et ceux qui en trafiquent, ainsi que contre leurs coauteurs et complices.

"ARTICLE LXVIII.

"Les Puissances Signataires reconnaissent la haute valeur de la loi sur la prohibition de la traite des Noirs, sanctionnée par Sa Majesté l'Empereur des Ottomans le 4 (16) Décembre, 1889 (22 Rebi-ul-Akhir, 1307), et elles sont assurées qu'une surveillance active sera organisée par les autorités Ottomanes, particulièrement sur la côte occidentale de l'Arabie et sur les routes qui mettent cette côte en communication avec les autres possessions de Sa Majesté Impériale en Asie.

"ARTICLE LXIX.

"Sa Majesté le Schah de Perse consent à organiser une surveillance active dans les eaux territoriales et sur celles des côtes du Golfe Persique et du Golfe d'Oman qui sont placées sous sa souveraineté, ainsi que sur les routes intérieures qui servent au transport des esclaves. Les Magistrats et les autres autorités recevront à cet effet les pouvoirs nécessaires.

"ARTICLE LXX.

"Sa Hautesse le Sultan de Zanzibar consent à prêter son concours le plus efficace pour la répression des crimes et délits commis par les trafiquants d'esclaves Africains sur terre comme sur mer. Les Tribunaux institués à cette fin dans le Sultanat de Zanzibar appliqueront strictement les dispositions pénales prévues à l'Article V. Afin de mieux assurer la liberté des esclaves libérés, tant en vertu des dispositions du présent Acte Général que des décrets rendus en cette matière par Sa Hautesse et ses prédécesseurs, un Bureau d'Affranchissement sera établi a Zanzibar.

"ARTICLE LXXI.

"Les Agents Diplomatiques et Consulaires, et les officiers de Marine des Puissances Contractantes prêteront, dans les limites des Conventions existantes, aux autorités locales leurs concours, afin d'aider à réprimer la traite là où elle existe encore; ils auront le droit d'assister aux procès de traite qu'ils auront provoqués, sans pouvoir prendre part à la délibération.

"ARTICLE LXXII.

"Les Bureaux d'Affranchissement ou des institutions qui en tiennent lieu seront organisés par les Administrations des pays de destination des esclaves Africains, aux fins déterminées à l'Article XVIII.

"ARTICLE LXXIII.

"Les Puissances Signataires s'étant engagées à se communiquer tous les renseignements utiles pour combattre la traite, les Gouvernements que concernent les dispositions du présent

Chapitre échangeront périodiquement avec les autres Gouvernements les données statistiques relatives aux esclaves arrêtés et libérés, ainsi que les mesures législatives ou administratives prises afin de réprimer la traite.

"CHAPITRE V.—INSTITUTIONS DESTINÉES À ASSURER L'EXÉCUTION DE L'ACTE GÉNÉRAL.

"§ I. *Du Bureau International Maritime.*

"ARTICLE LXXIV.

"Conformément aux dispositions de l'Article XXVII, il est institué à Zanzibar un Bureau International où chacune des Puissances Signataires pourra se faire représenter par un Délégué.

"ARTICLE LXXV.

"Le bureau sera constitué dès que trois Puissances auront désigné leur Représentant.

"Il élaborera un Règlement fixant le mode d'exercice de ces attributions. Ce Règlement sera immédiatement soumis à la sanction des Puissances Signataires qui auront notifié leur intention de s'y faire représenter et qui statueront à cet égard dans le plus bref délai possible.

"ARTICLE LXXVI.

"Les frais de cette institution seront répartis, à parts égales, entre les Puissances Signataires mentionnées à l'Article précédent.

"ARTICLE LXXVII.

"Le bureau de Zanzibar aura pour mission de centraliser tous les documents et renseignements qui seraient de nature à faciliter la répression de la traite dans la zone maritime.

"A cet effet, les Puissances Signataires s'engagent à lui faire parvenir, dans le plus bref délai possible :—

"1. Les documents spécifiés a l'Article XLI.

"2. Le résumé des rapports et la copie des procès-verbaux visés à l'Article XLVIII.

"3. La liste des autorités territoriales ou Consulaires et des Délégués spéciaux compétents pour procéder à l'égard des bâtiments arrêtés, aux termes de l'Article XLIX.

"4. La copie des jugements et arrêts de condamnation rendus conformément à l'Article LVIII.

"5. Tous les renseignements propres à amener la découverte des personnes qui se livrent aux opérations de la traite dans la zone susdite.

"ARTICLE LXXVIII.

"Les archives du bureau seront toujours ouvertes aux officiers de la marine des Puissances Signataires autorisés à agir dans les limites de la zone définie à l'Article XXI, de même qu'aux autorités territoriales ou judiciaires et aux Consuls spécialement désignés par leurs Gouvernements.

"Le bureau devra fournir aux officiers et agents étrangers autorisés à consulter ses archives, les traductions en une langue Européenne des documents qui seraient rédigés dans une langue Orientale.

"Il fera les communications prévues à l'Article XLVIII.

"ARTICLE LXXIX.

"Des bureaux auxiliaires en rapport avec le bureau de Zanzibar pourront être établis dans certaines parties de la zone, en vertu d'un accord préalable entre les Puissances intéressées.

"Ils seront composés des Délégués de ces Puissances et établis conformément aux Articles LXXV, LXXVI, et LXXVIII.

"Les documents et renseignements spécifiés à l'Article LXXVII, en tant qu'ils concernent la partie afférente de la zone, leur seront envoyés directement par les autorités territoriales et Consulaires de cette région, sans préjudice de la communication au bureau de Zanzibar prévue par le même Article.

"ARTICLE LXXX.

"Le bureau de Zanzibar dressera, dans les deux premiers mois de chaque année, un rapport sur ses opérations et celles des bureaux auxiliaires pendant l'année écoulée.

"§ II. *De l'Échange entre les Gouvernements des Documents et Renseignements relatifs à la Traite.*

"ARTICLE LXXXI.

"Les Puissances se communiqueront, dans la plus large measure et le plus bref délai qu'ils jugeront possibles :—

"1. Le texte des Lois et Règlements d'Administration existants ou édictés par application des clauses du présent Acte Général.

"2. Les renseignements statistiques concernant la traite, les esclaves arrêtés et libérés, le trafic des armes, des munitions, et des alcools.

"ARTICLE LXXXII.

"L'échange de ces documents et renseignements sera centralisé dans un bureau spécial attaché au Département des Affaires Étrangères à Bruxelles.

"ARTICLE LXXXIII.

"Le bureau de Zanzibar lui fera parvenir, chaque année, rapport mentionnée à l'Article LXXX sur ses opérations pendant l'année écoulée et sur celles des bureaux auxiliaires qui viendraient à être établis conformément à l'Article LXXIX.

"ARTICLE LXXXIV.

"Les documents et renseignements seront réunis et publiés périodiquement et adressés à toutes les Puissances Signataires. Cette publication sera accompagnée, chaque année, d'une table analytique des documents législatifs, administratifs, et statistiques mentionnés aux Articles LXXXI et LXXXIII.

"ARTICLE LXXXV.

"Les frais de bureau, de correspondence, de traduction, et d'impression qui en résulteront, seront supportés par toutes les Puissances Signataires, et recouvrés par les soins du Département des Affaires Etrangères à Bruxelles.

"§ III. *De la Protection des Esclaves Libérés.*

"ARTICLE LXXXVI.

"Les Puissances Signataires ayant reconnu le devoir de protéger les esclaves libérés dans leurs possessions respectives s'engagent à établir, s'il n'en existe déjà, dans les ports de la zone déterminée à l'Article XXI et dans les endroits de leurs dites possessions qui seraient des lieux de capture, de passage, et d'arrivée d'esclaves Africains, des bureaux ou des institutions en nombre jugé suffisant par elles, et qui seront chargés spécialement de les affranchir et de les protéger, conformément aux dispositions des Articles VI, XVIII, LII, LXIII, et LXVI.

"ARTICLE LXXXVII.

"Les bureaux d'Affranchissement ou les autorités chargées de ce service délivreront les letters d'affranchissement et en tiendront registre.

"En cas de dénonciation d'un fait de traite ou de détention illégale, ou sur le recours des esclaves eux-mêmes les dits bureaux ou autorités feront toutes les diligences nécessaires pour assurer la libération des esclaves et la punition des coupables.

"La remise des lettres d'affranchissement ne saurait, en aucun cas, être raterdée, si l'esclave est accusé d'un crime ou délit de droit commun. Mais, après la délivrance des dites lettres, il sera procédé à l'instruction en la forme établie par la procédure ordinaire.

"ARTICLE LXXXVIII.

"Les Puissances Signataires favoriseront, dans leurs possessions, la fondation d'établissements de refuge pour les femmes et d'éducation pour les enfants libérés.

"ARTICLE LXXXIX.

"Les esclaves affranchis pourront toujours recourir aux bureaux pour être protégés dans la jouissance de leur liberté.

"Quiconque aura usé de fraude ou de violence pour enlever à un esclave libéré ses lettres d'affranchissement, ou pour le priver de sa liberté, sera considéré comme marchand d'esclaves.

"CHAPITRE VI.—MESURES RESTRICTIVES DU TRAFIC DES SPIRITUEUX.

"ARTICLE XC.

"Justement préoccupés des conséquences morales et matérielles qu'entraîne pour les populations indigènes l'abus des spiritueux, les Puissances Signataires sont convenues d'appliquer les

dispositions des Articles XCI, XCII, et XCIII dans une zone délimitée par le 20e degré latitude nord et par le 22e degré latitude sud, et aboutissant vers l'ouest à l'Océan Atlantique et vers l'est à l'Océan Indien et à ses dépendances, y compris les îles adjacentes au littoral jusqu'à 100 milles marins de la côte.

"ARTICLE XCI.

"Dans les régions de cette zone où il sera constaté que, soit à raison des croyances religieuses, soit pour d'autres motifs, l'usage des boissons distillées n'existe pas ou ne s'est pas développé, les Puissances en prohiberont l'entrée. La fabrication des boissons distillées y sera également interdite.

"Chaque Puissance déterminera les limites de la zone de prohibition des boissons alcooliques dans ses possessions ou protectorats, et sera tenue d'en notifier le tracé aux autres Puissances dans un délai de six mois.

"Il ne pourra être dérogé à la susdite prohibition que pour des quantités limitées, destinées à la consommation des populations non indigènes et introduites sous le régime et dans les conditions déterminées par chaque Gouvernement.

"ARTICLE XCII.

"Les Puissances ayant des possessions ou exerçant des protectorats dans les régions de la zone qui ne sont pas placées sous le régime de la prohibition, et où les spiritueux sont actuellement importés librement ou soumis à un droit d'importation inférieur à 15 fr. par hectolitre à 50 degrés centigrades, s'engagent à établir sur ces spiritueux un droit d'entrée qui sera de 15 fr. par hectolitre à 50 degrés centigrades, pendant les trois années qui suivront la mise en vigueur du présent Acte Général. A l'expiration de cette période, le droit pourra être porté à 25 fr. pendant une nouvelle période de trois années. Il sera, à la fin de la sixième année, soumis à revision, en prenant pour base une étude comparative des résultats produits par ces tarifications, à l'effet d'arrêter alors, si faire se peut, une taxe minima dans toute l'étendue de la zone où n'existerait pas le régime de la prohibition visé à l'Article XCI.

"Les Puissances conservent le droit de maintenir et d'élever les taxes au delà du minimum fixé par le présent Article dans les régions où elles le possèdent actuellement.

"ARTICLE XCIII.

"Les boissons distillées qui seraient fabriquées dans les régions visées à l'Article XCII et destinées à être livrées à la consommation intérieure, seront grevées d'un droit d'accise.

"Ce droit d'accise, dont les Puissances s'engagent à assurer la perception, dans la limite du possible, ne sera pas inférieur au minimum des droits d'entrée fixé par l'Article XCII.

"ARTICLE XCIV.

"Les Puissances Signataires qui ont en Afrique des possessions en contact avec la zone spécifiée à l'Article XC s'engagent à prendre les mesures nécessaires pour empêcher l'introduction des spiritueux, par leurs frontières intérieures, dans les territoires de la dite zone.

"ARTICLE XCV.

"Les Puissances se communiqueront, par l'entremise du bureau de Bruxelles, dans les conditions indiquées au Chapitre V, les renseignements relatifs au trafic des spiritueux dans leurs territoires respectifs.

"CHAPITRE VII.—DISPOSITIONS FINALES.

"ARTICLE XCVI.

"Le présent Acte Général abroge toutes stipulations contraires des Conventions antérieurement conclues entre les Puissances Signataires.

"ARTICLE XCVII.

"Les Puissances Signataires, sans préjudice de ce qui est stipulé aux Articles XIV, XXIII, et XCII, se réservent d'introduire au présent Acte Général, ultérieurement et d'un commun accord, les modifications ou améliorations dont l'utilité serait démontrée par l'expérience.

"ARTICLE XCVIII.

"Les Puissances qui n'ont pas signé le présent Acte Général pourront être admises à y adhérer.

"Les Puissances Signataires se réservent de mettre à cette adhésion telles conditions qu'elles jugeraient nécessaires.

"Si aucune condition n'est stipulée, l'adhésion emporte de plein droit l'acceptation de toutes les obligations et l'admission à tous les avantages stipulés par le présent Acte Général.

"Les Puissances se concerteront sur les démarches à faire pour amener l'adhésion des États dont le concours serait nécessaire ou utile pour assurer l'exécution complète de l'Acte Général.

"L'adhésion se fera par un Acte séparé. Elle sera notifiée par la voie diplomatique au Gouvernement de Sa Majesté le Roi des Belges, et par celui-ci à tous les États Signataires et adhérents.

"ARTICLE XCIX.

"Le présent Acte Général sera ratifié dans un délai qui sera le plus court possible et qui, en aucun cas, ne pourra excéder un an.

"Chaque Puissance adressera sa ratification au Gouvernement de Sa Majesté le Roi des Belges, qui en donnera avis à toutes les autres Puissances Signataires du présent Acte Général.

"Les ratifications de toutes les Puissances resteront déposées dans les archives du Royaume de Belgique.

"Aussitôt que toutes les ratifications auront été produites, ou au plus tard un an après la signature du présent Acte Général, il sera dressé Acte du dépôt dans un Protocole qui sera signé par les Représentants de toutes les Puissances qui auront ratifié.

"Une copie certifiée de ce Protocole sera adressée à toutes les Puissances intéressées.

"ARTICLE C.

"Le présent Acte Général entrera en vigueur dans toutes les possessions des Puissances Contractantes le soixantième jour à partir de celui où aura été dressé le Protocole de dépôt prévu à l'Article précédent.

"En foi de quoi les Plénipotentiaires respectifs ont signé le présent Acte Général et y ont apposé leur cachet.

" DÉCLARATION.

" Les Puissances réunies en Conférence à Bruxelles, qui ont ratifié l'Acte Général de Berlin du 26 Février, 1885, ou qui y ont adhéré ;

" Après avoir arrêté et signé de concert, dans l'Acte Général de ce jour, un ensemble de mesures destinées à mettre un terme à la traite des Nègres sur terre comme sur mer et à améliorer les conditions morales et matérielles d'existence des populations indigènes ;

" Considérant que l'exécution des dispositions qu'elles ont prises dans ce but impose à certaines d'entre elles, qui ont des possessions ou exercent des protectorats dans le bassin conventionnel du Congo, des obligations qui exigent impérieusement, pour y faire face, des ressources nouvelles,

" Sont convenues de faire la Déclaration suivante :

" Les Puissances Signataires ou adhérentes qui ont des possessions ou exercent des protectorats dans le dit bassin conventionnel du Congo pourront, pour autant qu'une autorisation leur soit nécessaire à cette fin, y établir sur les marchandises importées des droits dont le tarif ne pourra dépasser un taux équivalent à 10 pour cent de la valeur au port d'importation, à l'exception toutefois des spiritueux, qui sont régis par les dispositions du Chapitre VI de l'Acte Général de ce jour.

" Après la signature du dit Acte Général, une négociation sera ouverte entre les Puissances qui ont ratifié l'Acte Général de Berlin ou qui y ont adhéré, à l'effet d'arrêter, dans la limite maxima de 10 pour cent de la valeur, les conditions du régime Douanier à instituer dans le bassin conventionnel du Congo.

" Il reste néanmoins entendu :

" 1. Qu'aucun traitement différentiel ni droit de transit ne pourront être établis ;

" 2. Que, dans l'application du régime Douanier qui sera convenu, chaque Puissance s'attachera à simplifier, autant que possible, les formalités et à faciliter les opérations du commerce ;

" 3. Que l'arrangement à résulter de la négociation prévue restera en vigueur pendant quinze ans à partir de la signature de la présente Déclaration.

" A l'expiration de ce terme et à défaut d'un nouvel accord, les Puissances Contractantes se retrouveront dans les conditions prévues par l'Article IV de l'Acte Général de Berlin, la faculté d'imposer à un maximum de 10 pour cent les marchandises importées dans le bassin conventionnel du Congo leur restant acquise.

" Les ratifications de la présente Déclaration seront échangées en même temps que celles de l'Acte Général du même jour.

"His Highness the Sultan of Zanzibar; Sir John Kirk; and M. Guillaume Göhring,

"Who, furnished with full powers which have been found in good and due form, have adopted the following provisions:

"CHAPTER I.—SLAVE TRADE COUNTRIES.—MEASURES TO BE TAKEN IN PLACES OF ORIGIN.

"ARTICLE I.

"The Powers declare that the most effective means for counteracting the slave trade in the interior of Africa are the following:

"1. Progressive organization of the administrative, judicial, religious, and military services in the African territories placed under the sovereignty or protectorate of civilized nations.

"2. The gradual establishment in the interior, by the responsible Power in each territory, of strongly occupied stations in such a way as to make their protective or repressive action effectively felt in the territories devastated by man-hunts.

"3. The construction of roads, and in particular of railways, connecting the advanced stations with the coast, and permitting easy access to the inland waters, and to the upper reaches of streams and rivers which are broken by rapids and cataracts, so as to substitute economical and speedy means of transport for the present means of portage by men.

"4. Establishment of steam-boats on the inland navigable waters and on the lakes, supported by fortified posts established on the banks.

"5. Establishment of telegraphic lines assuring the communication of the posts and stations with the coast and with the administrative centres.

"6. Organization of expeditions and flying columns to keep up the communication of the stations with each other and with the coast, to support repressive action, and to assure the security of roadways.

"7. Restriction of the importation of fire-arms, at least of modern pattern, and of ammunition throughout the entire extent of the territories infected by the slave trade.

"ARTICLE II.

"The stations, the cruizers organized by each Power in its inland waters, and the posts which serve as ports for them shall, independently of their principal task, which is to prevent the capture of slaves, and intercept the routes of the slave trade, have the following subsidiary duties:

"1. To serve as a base and, if necessary, as a place of refuge for the native populations placed under the sovereignty or the protectorate of the State to which the station belongs, for the independent populations, and temporarily for all others in case of imminent danger to place the populations of the first of these categories in a position to co-operate for their own defence; to diminish intestine wars between tribes by means of arbitration; to initiate them in agricultural works and in the industrial arts so as to increase their welfare; to raise them to civilization and bring about the extinction of barbarous customs, such as cannibalism and human sacrifices.

"2. To give aid and protection to commercial undertakings; to watch over their legality, especially by controlling contracts of service with natives; and to lead up to the foundation of permanent centres of cultivation and of commercial establishments.

"3. To protect, without distinction of creed, the Missions which are already or may hereafter be established.

"4. To provide for the sanitary service, and to grant hospitality and help to explorers and to all who take part in Africa in the work of repressing the slave trade.

"ARTICLE III.

"The Powers exercising sovereignty or protectorate in Africa, in order to confirm and give greater precision to their former declarations, undertake to proceed gradually, as circumstances permit, either by the means above indicated, or by any other means which they may consider suitable, with the repression of the slave trade, each State in its respective possessions and under its own direction. Whenever they consider it possible, they will lend their good offices to the Powers which with a purely humanitarian object may be engaged in Africa upon a similar mission.

"ARTICLE IV.

"The Powers exercising sovereignty or protectorate in Africa may, however, delegate to Chartered Companies all or a portion of the engagements which they assume in virtue of Article III. They remain, nevertheless, directly responsible for the engagements which they contract by the present General Act, and guarantee the execution thereof.

"The Powers promise to receive, aid, and protect national Associations and enterprises due to private initiative which may wish to co-operate in their possessions in the repression of the slave trade, subject to their receiving previous authorization which is revocable at any time; subject also to their being directed and controlled, and to the exclusion of any exercise of rights of sovereignty.

"ARTICLE V.

"The Contracting Powers undertake, unless this has already been provided for by laws in accordance with the spirit of the present Article, to enact or propose to their respective Legislatures, in the course of one year at latest from the date of the signature of the present General Act, a law applying, on the one hand, the provisions of their penal laws concerning grave offences against the person, to the organizers and abettors of man-hunts, to perpetrators of the mutilation of adults and male infants, and to all persons who may take part in the capture of slaves by violence; and, on the other hand, the provisions relating to offences against individual liberty, to carriers, transporters, and dealers in slaves.

"Accomplices and accessories of the different categories of slave captors and dealers above specified shall be punished with penalties proportionate to those incurred by the principals.

"Guilty persons who may have escaped from the jurisdiction of the authorities of the country where the crimes or offences have been committed shall be arrested either on communication of the incriminatory evidence by the authorities who have ascertained the violation of the law, or on production of any other proof of guilt by the Power on whose territory they may have been discovered, and shall without other formality be held at the disposal of the Tribunals competent to try them.

"The Powers will communicate to each other with the least possible delay the laws or decrees already in existence or promulgated in execution of the present Article.

"ARTICLE VI.

"Slaves liberated in consequence of the stoppage or dispersal of a convoy in the interior of the continent shall be sent back, if circumstances permit, to their country of origin; if not, the local authorities shall help them as much as possible to obtain means of subsistence, and, if they desire it, to settle on the spot.

"ARTICLE VII.

"Any fugitive slave claiming on the continent the protection of the Signatory Powers shall obtain it, and shall be received in the camps and stations officially established by them, or on board Government vessels plying on the lakes and rivers. Private stations and vessels are only permitted to exercise the right of asylum subject to the previous sanction of the State.

"ARTICLE VIII.

"The experience of all nations who have intercourse with Africa having shown the pernicious and preponderating part played by fire-arms in slave trade operations, as well as in intestine wars between native tribes, and this same experience having clearly proved that the preservation of the African populations, whose existence it is the express wish of the Powers to safeguard, is a radical impossibility if restrictive measures against the trade in fire-arms and ammunition are not established, the Powers decide, in so far as the present state of their frontiers permit, that the importation of fire-arms, and especially of rifles and improved weapons, as well as of powder, balls, and cartridges, is, except in the cases and under the conditions provided for in the following Article, prohibited in the territories comprised between the 20th parallel of north latitude and the 22nd parallel of south latitude, and extending westward to the Atlantic Ocean, and eastward to the Indian Ocean and its dependencies, comprising the islands adjacent to the coast as far as 100 nautical miles from the shore.

"ARTICLE IX.

"The introduction of fire-arms and ammunition, when there shall be occasion to authorize it in the possessions of the Signatory Powers which exercise rights of sovereignty or of protectorate in Africa, shall be regulated in the following manner in the zone laid down in Article VIII, unless identical or more rigorous Regulations have been already applied:

"All imported fire-arms shall be deposited at the cost, risk, and peril of the importers in a public warehouse placed under the control of the Administration of the State. No withdrawal of fire-arms or imported ammunition shall take place from such warehouses without the previous authorization of the Administration. This authorization shall, except in cases hereinafter specified, be refused for the withdrawal of all arms of precision, such as rifles, magazine-guns, or breech-loaders, whether whole or in detached pieces, their cartridges, caps, or other ammunition intended for them.

"At the seaports the respective Governments may permit the establishment of private warehouses under conditions affording the needful guarantees, but only for ordinary powder and flint-lock guns, and to the exclusion of improved arms and their ammunition.

"Besides the measures directly taken by Government for the arming of the public force and the organization of their defence, individual exceptions shall be admitted for persons affording sufficient guarantees that the arm and ammunition delivered to them will not be given, assigned, or sold to third persons, and for travellers provided with a declaration of their Government stating that the weapon and ammunition are destined exclusively for their personal defence.

"In the cases provided for in the preceding paragraph, all arms shall be registered and marked by the authorities appointed for the control, who shall deliver to the persons in question licences to bear arms, indicating the name of the bearer and showing the stamp with which the arm is marked. These licences are revocable in case of proved abuse, and will be issued for five years only, but may be renewed.

"The rule above set forth as to warehousing shall also apply to gunpowder.

"Only flint-lock unrifled guns and common gunpowder, called trade powder ('pouders de traite'), can be withdrawn from the warehouses for purposes of sale. At each withdrawal of arms and ammunition of this kind for sale, the local authorities shall determine the regions in which these arms and ammunition may be sold. The regions infected by the slave trade shall always be excluded. Persons authorized to take arms or powder out of the warehouses shall present to the administration every six months detailed lists indicating the destinations of the said fire-arms and powder sold as well as the quantities still remaining in store.

"ARTICLE X.

"The Governments shall take all measures they may deem necessary to insure as complete a fulfilment as possible of the provisions respecting the importation, sale, and transport of fire-arms and ammunition, as well as to prevent either the entry or exit thereof by their inland frontiers, or the conveyance thereof to regions where the slave trade exists.

"The authorization of transit within the limits of the zone specified by Article VIII cannot be withheld when the arms and ammunition are to pass across the territory of a Signatory or adherent Power in the occupation of the coast towards inland territories placed under the sovereignty or protectorate of another Signatory or adherent Power unless this latter Power have direct access to the sea through its own territory. Nor, if this access be completely interrupted, can the authorization of transit be withheld. Any demand for transit must be accompanied by a declaration emanating from the Government of the Power having the inland possessions, and certifying that the said arms and ammunition are not destined for sale, but are for the use of the authorities of such Power, or of the military forces necessary for the protection of the missionary or commercial stations, or of persons mentioned by name in the declaration. Nevertheless, the territorial Power of the coast retains the right to stop, exceptionally and provisionally, the transit of arms of precision and ammunition across its territory if, in consequence of inland disturbances or other serious danger, there is ground for fearing that the despatch of arms and ammunition might compromise its own safety.

"ARTICLE XI.

"The Powers shall communicate to each other information relating to the traffic in fire-arms and ammunition, the licences granted, and the measures of repression in force in their respective territories.

"ARTICLE XII.

"The Powers undertake to adopt or to propose to their respective Legislatures the measures necessary to insure that those who infringe the prohibitions laid down in Articles VIII and IX, and their accomplices, shall, besides the seizure and confiscation of the prohibited arms and ammunition, be punished either by fine or by imprisonment, or by both penalties together, in proportion to the importance of the offence, and in accordance with the gravity of each case.

"ARTICLE XIII.

"The Signatory Powers who have possessions in Africa in contact with the zone specified in Article VIII bind themselves to take the necessary measures for preventing the introduction of fire-arms and ammunition across their inland frontiers into the regions of the said zone, at least that of improved arms and cartridges.

"ARTICLE XIV.

"The system established under Articles VIII to XIII inclusive shall remain in force for twelve years. In case none of the Contracting Parties shall have notified twelve months before the expiration of this period their intention of putting an end to it, nor shall have demanded its revision, it shall continue to remain obligatory for two more years, and shall thus continue in force from two years to two years.

"CHAPTER II.—CARAVAN ROUTES AND LAND TRANSPORT OF SLAVES.

"ARTICLE XV.

"Independently of the repressive or protective action which they exercise in the centres of the slave trade, the stations, cruizers, and posts, the establishment of which is provided for in Article I, and all other stations established or recognized according to the terms of Article IV by each Government in its possessions, will furthermore have the mission of watching, so far as circumstances permit, and in proportion to the progress of their administrative organization, the routes on their territory followed by the slave-dealers, of stopping the convoys on the march, and of pursuing them wherever they can legally take action.

"ARTICLE XVI.

"In the regions of the coast known to serve habitually as places of passage or terminal points for slave traffic coming from the interior, as well as at the points of intersection of the principal caravan routes crossing the zone contiguous to the coast already subject to the influence of the Sovereign or Protecting Powers, posts shall be established, under the conditions and with the reservations mentioned in Article III, by the authorities responsible for such territories with the purpose of intercepting the convoys and liberating the slaves.

"ARTICLE XVII.

"A strict supervision shall be organized by the local authorities at the ports and in the countries adjacent to the coast with the view of preventing the sale and shipment of slaves brought from the interior, as well as the formation and departure for the interior of bands of man-hunters and slave-dealers.

"Caravans arriving at the coast or its vicinity, as well as those arriving in the interior at a locality occupied by the authorities of the territorial Power, shall on arrival be submitted to a minute inspection as to the persons composing them. Any individual ascertained to have been captured or carried off by force or mutilated either in his native country or on the way shall be liberated.

"ARTICLE XVIII.

"In the possessions of each of the Contracting Powers the Administration shall have the duty of protecting liberated slaves, of repatriating them if possible, of procuring for them means of subsistence, and in particular of providing for the education and support of abandoned children.

"ARTICLE XIX.

"The penal arrangements provided for in Article V shall be made applicable to all crimes or offences committed in the course of operations for the transport of and traffic in slaves on land whenever proved.

"Any person having incurred a penalty in consequence of an offence provided for by the present General Act shall be under the obligation of providing security before he is allowed to undertake any commercial operation in countries where the slave trade is carried on.

"CHAPTER III.—REPRESSION OF THE SLAVE TRADE BY SEA.

"§ I. *General Provisions.*

"ARTICLE XX.

"The Signatory Powers acknowledge the opportuneness of taking steps in common for the more effective repression of the slave trade in the maritime zone in which it still exists.

"ARTICLE XXI.

"This zone extends, on the one hand, between the coasts of the Indian Ocean (those of the Persian Gulf and of the Red Sea included) from Baluchistan to Point Tangalane (Quilimane), and, on the other hand, a conventional line which first follows the meridian of Tangalane till it meets the 26th degree of south latitude; is then merged in this parallel; then passes round the Island of Madagascar by the east, keeping 20 miles off the east and north shore, till it crosses the meridian of Cape Amber. From this point the limit of the zone is determined by an oblique line which extends to the coast of Baluchistan, passing 20 miles off Cape Ras-el-Had.

"ARTICLE XXII.

"The Signatory Powers of the present General Act, between whom there are special Conventions for the suppression of the slave trade, have agreed to restrict to the above-mentioned zone the clauses of these Conventions concerning the reciprocal right of visit, search, and detention ('droit de visite, de recherche, et de saisie') of vessels at sea.

"ARTICLE XXIII.

"The same Powers have also agreed to limit the above-mentioned right to vessels of less than 500 tons burthen.

"This stipulation shall be revised as soon as experience shall have shown the necessity of such revision.

"ARTICLE XXIV.

"All other provisions of the Conventions concluded between the aforesaid Powers for the suppression of the slave trade remain in force in so far as they are not modified by the present General Act.

"ARTICLE XXV.

"The Signatory Powers undertake to adopt effective measures for preventing the usurpation of their flag and putting a stop to the transport of slaves on vessels authorised to fly their colours.

"ARTICLE XXVI.

"The Signatory Powers undertake to adopt all measures necessary for facilitating the rapid exchange of information calculated to bring about the discovery of persons taking part in slave trade operations.

"ARTICLE XXVII.

"At least one International Bureau shall be created; it shall be established at Zanzibar. The High Contracting Parties undertake to forward to it all the documents specified in Article XLI as well as information of all kinds likely to assist in the suppression of the slave trade.

"ARTICLE XXVIII.

"Any slave who may have taken refuge on board a ship of war flying the flag of one of the Signatory Powers shall be immediately and definitely freed; such freedom, however, shall not withdraw him from the competent jurisdiction if he has committed a crime or offence at common law.

"ARTICLE XXIX.

"Every slave detained against his wish on board a native vessel shall have the right to claim his liberty.

"His freedom may be declared by any Agent of one of the Signatory Powers on whom the General Act confers the right of ascertaining the status of persons on board such vessels; such freedom, however, shall not withdraw him from the competent jurisdiction if he has committed a crime or offence at common law.

"§ II. *Regulation concerning the Use of the Flag and Supervision by Cruisers.*

"1. *Rules respecting the Grant of the Flag to Native Vessels; and respecting Crew Lists and Manifests of Black Passengers.*

"ARTICLE XXX.

"The Signatory Powers undertake to exercise a strict supervision over the native vessels authorized to fly their flag in the zone indicated in Article XXI, and over the commercial operations carried on by such vessels.

"ARTICLE XXXI.

"The term 'native vessel' applies to vessels fulfilling one of the two following conditions:

"1. It must present the outward appearance of native build or rig.

"2. It must be manned by a crew of whom the captain and the majority of the seamen belong by origin to a country having a sea-coast on the Indian Ocean, the Red Sea, or the Persian Gulf.

"ARTICLE XXXII.

"Authority to fly the flag of one of the said Powers shall in future only be granted to such native vessels as shall satisfy all the three following conditions:

"1. Their fitters-out or owners must be either subjects of or persons protected by the Power whose flag they claim to fly.

"2. They must furnish proof that they possess real estate situated in the district of the authority to whom their application is addressed, or to supply a solvent security as a guarantee for any fines to which they may eventually become liable.

"3. Such fitters-out or owners, as well as the captain of the vessel, must furnish proof that they enjoy a good reputation, and especially that they have never been condemned for acts of slave trade.

"ARTICLE XXXIII.

"The authorization, when granted, shall be renewed every year. It can at any time be suspended or withdrawn by the authorities of the Power whose colours the vessel flies.

"ARTICLE XXXIV.

"The deed of authorization shall bear the indications necessary to establish the identity of the vessel. The captain shall have the custody of it. The name of the native vessel and the

indication of its tonnage shall be inlaid and painted in Latin characters on the stern; and the initial or initials of the name of the port of registry, as well as the registration number in the series of numbers of that port, shall be printed in black on the sails.

"ARTICLE XXXV.

"A crew list shall be issued to the captain of the vessel at the port of departure by the authorities of the Power whose colours it flies. It shall be renewed each time the vessel is fitted out, or at latest at the end of a year, and in conformity with the following provisions:

"1. The list shall be *visé* at the moment of departure by the authority who has issued it.

"2. No Negro can be engaged as a seaman on a vessel without having been previously questioned by the authority of the Power whose colours it flies, or, failing such authority, by the territorial authority, with a view to establish that he has contracted a free engagement.

"3. Such authority shall see that the proportion of seamen and boys is not out of proportion to the tonnage or rig of the vessels.

"4. The authority who shall have interrogated the men before their departure shall inscribe them on the crew list, in which they shall be mentioned with a short description of each of them against his name.

"5. In order the more effectively to prevent any substitution, the seamen may, moreover, be provided with a distinctive mark.

"ARTICLE XXXVI.

"If the captain of a vessel should desire to embark Negro passengers, he shall make a declaration thereof to the authority of the Power whose colours he flies, or, failing such authority, to the territorial authority. The passengers shall be interrogated, and after it has been ascertained that they embark of their own free will, they shall be inscribed in a special manifest, bearing the description of each of them against the name, and indicating especially sex and height. Negro children shall not be admitted as passengers unless they are accompanied by their relations, or by persons whose respectability is well known. On departure the passenger manifest shall be *visé* by the aforesaid authority after it has been called over. If there are no passengers on board, this shall be specially mentioned on the crew list.

"ARTICLE XXXVII.

"On arrival at any port of call or of destination, the captain of the vessel shall show to the authority of the Power whose flag he flies, or, failing such authority, to the territorial authority, the crew list, and, if need be, the passenger manifests previously delivered. Such authority shall check the passengers arrived at their destination or stopping at a port of call, and shall mention their landing in the manifest. On departure the said authority shall affix a fresh *visa* to the list and to the manifest, and shall call over the passengers.

"ARTICLE XXXVIII.

"On the African coast and on the adjacent islands no Negro passenger shall be shipped on board a native vessel, except in localities where there is a resident authority belonging to one of the Signatory Powers.

"Throughout the zone mentioned in Article XXI no Negro passenger shall be landed from a native vessel, except at a place in which there is a resident authority belonging to one of the High Contracting Powers, and unless such authority is present at the landing.

"Cases of *force majaure* which may have caused an infraction of these provisions shall be examined by the authority of the Power whose colours the vessel flies, or, failing such authority, by the territorial authority of the port at which the inculpated vessel puts in.

"ARTICLE XXXIX.

"The provisions of Articles XXXV, XXXVI, XXXVII, and XXXVIII are not applicable to vessels only partially decked, having a maximum crew of ten men, and satisfying one of the two following conditions:

"1. That it is exclusively employed in fishing within territorial waters.

"2. That it is occupied in the small coasting trade between different ports of the same territorial Power, and never goes further than 5 miles from the coast.

"These different boats shall receive, according to circumstances, from the territorial or Consular authority, a special licence renewable every year, and revocable under the conditions provided for in Article XL, and the uniform model of which annexed to the present General Act shall be communicated to the International Information Office.

"ARTICLE XL.

"All acts or attempted acts of slave trade legally brought home to the captain, fitter-out, or owner of a vessel authorized to fly the flag of one of the Signatory Powers, or holding the

licence provided for in Article XXXIX, shall entail the immediate withdrawal of the said authorization or licence. All offences against the provisions of section 2 of Chapter III shall in addition be punished by the penalties enacted by special laws and ordinances of each of the Contracting Powers.

"ARTICLE XLI.

"The Signatory Powers undertake to deposit at the International Information Office specimen forms of the following documents:

"1. Licence to fly the flag;

"2. Crew list;

"3. Manifest of Negro passengers.

"These documents, the tenour of which may vary according to the different Regulations of each country, shall compulsorily contain the following particulars drawn up in a European language:

"1. As regards the authorization to fly the flag:

"(*a.*) The name, tonnage, rig, and principal dimensions of the vessel;

"(*b.*) The register number and the signal letter of the port of registry;

"(*c.*) The date of obtaining the licence, and the office held by the person who has issued it.

"2. As regards the crew list:

"(*a.*) The name of the vessel, of the captain, and of the fitter-out or owner;

"(*b.*) The tonnage of the vessel;

"(*c.*) The register number and the port of registry of the vessel, its destination, and the particulars specified in Article XXV.

"3. As regards the manifest of Negro passengers:

"The name of the vessel which contains them, and the particulars indicated in Article XXXVI for the proper identification of the passengers.

"The Signatory Powers shall take the necessary measures in order that the territorial authorities or their Consuls may send to the said office certified copies of all authorizations to fly their flag as soon as such authorizations shall have been granted, as well as notice of the withdrawal of any such authorization.

"The provisions of the present Article only concern the papers intended for native vessels.

"2. *Detention of Suspected Vessels.*

"ARTICLE XLII.

"When the officers in command of vessels of war of any of the Signatory Powers have reason to believe that a vessel of less than 500 tons burthen found in the above mentioned zone is engaged in the slave trade, or is guilty of the fraudulent use of a flag, they may proceed to the verification of the ship's papers.

"The present Article does not imply any change in the present state of things as regards jurisdiction in territorial waters.

"ARTICLE XLIII.

With this object, a boat commanded by a naval officer in uniform may be sent on board the suspected vessel after it has been hailed to give notice of such intention.

"The officer sent on board the vessel detained shall act with all possible consideration and moderation.

"ARTICLE XLIV.

"The verification of the ship's papers shall consist in the examination of the following documents:

"1. As regards native vessels, the papers mentioned in Article XLI.

"2. As regards other vessels, the documents required by the different Treaties or Conventions remaining in force.

"The verification of the ship's papers only authorizes the muster of the crew and passengers in the cases and under the conditions provided for in the following Article.

"ARTICLE XLV.

"Investigation of the cargo or search can only take place with respect to a vessel navigating under the flag of one of the Powers which have concluded, or may conclude, special Conventions as mentioned in Article XXII, and in accordance with the provisions of such Conventions.

"ARTICLE XLVI.

"Before quitting the detained vessel, the officer shall draw up a Minute according to the forms and in the language of the country to which he belongs.

"This Minute shall be dated and signed by the officer, and shall relate the facts.

"The captain of the detained vessel, as well as the witnesses, shall have the right to cause to be added to the Minute any explanations they may think expedient.

"ARTICLE XLVII.

"The Commander of a man-of-war who may have detained a vessel under a foreign flag shall in all cases make a report thereon to his own Government, and state the grounds upon which he acted.

"ARTICLE XLVIII.

"A summary of this report, as well as a copy of the Minute drawn up by the officer sent on board the detained vessel, shall be sent as soon as possible to the International Information Office, which shall communicate the same to the nearest Consular or territorial authority of the Power whose flag was used by the vessel in question. Duplicates of these documents shall be kept in the archives of the office.

"ARTICLE XLIX.

"If in carrying out the supervision provided for in the preceding Articles the officer in command of the cruizer is convinced that an act of slave trade has been committed on board during the passage, or that irrefutable proofs exist against the captain or fitter-out to justify a charge of fraudulent use of the flag, of fraud, or of participation in the slave trade, he shall take the detained vessel to the nearest port of the zone where there is a competent authority of the Power whose flag has been used.

"Each Signatory Power undertakes to appoint in the zone territorial or Consular authorities or special Delegates competent to act in the above-mentioned cases, and to notify such appointments to the International Information Office.

"The suspected vessel can also be handed over to a cruizer of its own nation, if the latter consents to take charge of it.

"3. *Examination and Trial of Vessels seized.*

"ARTICLE L.

"The authority referred to in the preceding Article, to whom the detained vessel has been handed over, shall proceed to make a full investigation, according to the laws and rules of his country, in the presence of an officer belonging to the foreign cruizer.

"ARTICLE LI.

"If it is proved by the inquiry that the flag has been fraudulently used, the detained vessel shall remain at the disposal of its captor.

"ARTICLE LII.

"If the examination shows an act of slave trade, made clear by the presence on board of slaves destined for sale or by any other slave trade offence provided for by special Convention, the vessel and cargo shall remain sequestrated in charge of the authority who has directed the inquiry.

"The captain and crew shall be handed over to the Tribunals fixed by Articles LIV and LVI. The slaves shall be set at liberty as soon as judgment has been delivered.

"In the cases provided for by this Article, liberated slaves shall be disposed of in accordance with the special Conventions concluded, or which may be concluded, between the Signatory Powers. In default of such Conventions, the said slaves may be handed over to the local authority, to be sent back, if possible, to their country of origin; if not, such authority shall help them so far as possible to obtain means of subsistence, and, if they desire it, to settle on the spot.

"ARTICLE LIII.

"If it should be proved by the inquiry that the vessel has been illegally detained, a right will accrue to an indemnity in proportion to the damages suffered by the vessel being taken out of its course. The amount of this indemnity shall be fixed by the authority which has directed the inquiry.

"ARTICLE LIV.

"In case the officer of the capturing vessel should not accept the conclusions of the inquiry carried on in his presence, the matter shall, as a matter of course, be handed over to the Tribunal of the nation under whose flag the captured vessel sailed.

"No exception shall be made to this rule unless the disagreement arises in respect of the amount of the indemnity provided for in Article LIII, when it shall be fixed by arbitration, as specified in the following Article.

"ARTICLE LV.

"The capturing officer, and the authority which has directed the inquiry, shall each appoint an arbitrator within forty-eight hours; and the two arbitrators shall have twenty-four hours to choose an umpire. The arbitrators shall, as far as possible, be chosen from among the diplomatic, consular, or judicial officers of the Signatory Powers. Natives in the pay of the Contracting Governments are formally excluded. The decision shall be taken by majority of votes, and shall be considered final. If the Court of Arbitration is not constituted within the time indicated, the procedure in respect of indemnity and damages shall be in accordance with the provisions of Article LVIII, paragraph 2.

"ARTICLE LVI.

"Cases shall be referred with the least possible delay to the Tribunal of the nation whose colours have been used by the accused. Nevertheless, Consuls or any other authority of the same nation as the accused specially commissioned to that effect may be authorized by their Government to deliver judgments instead and in the place of the Tribunals.

"ARTICLE LVII.

"The procedure and judgment in regard to offences against the provisions of Chapter III shall always take place in as summary a manner as is permitted by the laws and regulations in force in the territories subject to the authority of the Signatory Powers.

"ARTICLE LVIII.

"Any judgment of the national Tribunal, or of the authorities referred to in Article LVI, declaring that the detained vessel did not carry on slave trade shall be immediately executed, and the vessel shall be entirely free to continue its course.

"In such case the captain or fitter-out of a vessel detained without legitimate ground of suspicion, or which has been subjected to annoyance, shall have the right of claiming damages, the amount of which shall be fixed by agreement between the Governments directly interested or by arbitration, and shall be paid within a period of six months from the date of the judgment acquitting the captured vessel.

"ARTICLE LIX.

"In case of condemnation, the sequestered vessel shall be declared a lawful prize for the benefit of the captor.

"The captain, crew, and all other persons found guilty shall be punished according to the gravity of the crimes or offences committed by them, and in accordance with Article V.

"ARTICLE LX.

"The provisions of Articles L to LIX do not effect in any way the jurisdiction or procedure of existing special Tribunals, or of those which may hereafter be formed to take cognizance of slave trade offences.

"ARTICLE LXI.

"The High Contracting Parties undertake to make known to each other reciprocally the instructions which they may give to the Commanders of their men-of-war navigating the seas of the zone referred to for carrying out the provisions of Chapter III.

CHAPTER IV.—COUNTRIES TO WHICH SLAVES ARE SENT, THE INSTITUTIONS OF WHICH RECOGNIZE THE EXISTENCE OF DOMESTIC SLAVERY.

"ARTICLE LXII.

"The Contracting Powers whose institutions recognize the existence of domestic slavery, and whose possessions, whether in or out of Africa, consequently serve, in spite of the vigilance of the authorities, as places of destination for African slaves, engage to prohibit the importation, transit, and exit as well as traffic in slaves. They shall organize the most active and the strictest supervision at all places where the arrival, transit, or exit of African slaves takes place.

"ARTICLE LXIII.

"Slaves liberated under the provisions of the preceding Article shall, if circumstances permit, be sent back to the country from whence they came. In all cases they shall receive letters of freedom from the competent authorities, and shall be entitled to their protection and assistance for the purpose of obtaining means of subsistence.

"ARTICLE LXIV.

"Every fugitive slave arriving at the frontier of any of the Powers mentioned in Article LXII shall be considered free, and shall have the right to claim letters of freedom from the competent authorities.

"ARTICLE LXV.

"Any sale or transaction to which the slaves referred to in Articles LXIII and LXIV may have been subjected through circumstances of any kind whatsoever shall be considered as null and void.

"ARTICLE LXVI.

"Native vessels flying the flag of one of the countries mentioned in Article LXII, if there is any indication that they are employed in slave trade operations, shall be subjected by the local authorities in the ports they frequent to a strict verification of their crew and passengers both on arrival and departure. Should African slaves be on board, judicial proceedings shall be taken against the vessel and against all persons who may be implicated. Slaves found on board shall receive letters of freedom through the authorities who effected the seizure of the vessels.

"ARTICLE LXVII.

"Penal provisions in harmony with those provided for by Article V shall be issued against persons importing, transporting, and trading in African slaves, against the mutilators of children or of male adults, and those who traffic in them, as well as against their associates and accomplices.

"ARTICLE LXVIII.

"The Signatory Powers recognize the great importance of the law respecting the prohibition of the Negro slave trade sanctioned by His Majesty the Emperor of the Ottomans on the 4th (16th) December, 1889 (22 Rebi-ul-Akhir, 1307), and they are assured that an active supervision will be organized by the Ottoman authorities, especially on the west coast of Arabia and on the routes which place this coast in communication with the other possessions of His Imperial Majesty in Asia.

"ARTICLE LXIX.

"His Majesty the Shah of Persia consents to organize an active supervision in the territorial waters, and on those portions of the coast of the Persian Gulf and Gulf of Oman which are under his sovereignty; and over the inland routes which serve for the transport of slaves. The Magistrates and other authorities shall receive the necessary powers for this purpose.

"ARTICLE LXX.

"His Highness the Sultan of Zanzibar consents to give his most effective support for the repression of crimes and offences committed by traders in African slaves on land as well as at sea. The Tribunals created for this purpose in the Sultanate of Zanzibar shall strictly apply the penal provisions mentioned in Article V. In order the better to insure the freedom of liberated slaves both in virtue of the provisions of the present General Act and of the Decrees issued in this matter by His Highness and his predecessors, a Liberation Office shall be established at Zanzibar.

"ARTICLE LXXI.

"Diplomatic and Consular Agents and Naval officers of the Contracting Powers shall, within the limits of existing Conventions, give their assistance to the local authorities in order to assist in repressing the slave trade where it still exists. They shall be entitled to be present at trials for slave-trading brought about at their instance without, however, being entitled to take part in the deliberations.

"ARTICLE LXXII.

"Liberation offices, or institutions in lieu thereof, shall be organized by the Administrations of the countries to which African slaves are sent for the purposes specified in Article XVIII.

"ARTICLE LXXIII.

"The Signatory Powers having undertaken to communicate to each other all information useful for the repression of the slave trade, the Governments whom the present Chapter concerns shall periodically exchange with the other Governments statistical data relating to slaves detained and liberated, as well as the legislative and administrative measures taken for suppressing the slave trade.

"CHAPTER V.—INSTITUTIONS INTENDED TO INSURE THE EXECUTION OF THE GENERAL ACT.

"§ I. *International Maritime Office.*

"ARTICLE LXXIV.

"In accordance with the provisions of Article XXVII, an International Office is instituted at Zanzibar, in which each of the Signatory Powers may be represented by a Delegate.

"ARTICLE LXXV.

"The office shall be constituted as soon as three Powers have appointed their Representatives.

"It shall draw up Regulations fixing the mode of exercising its functions. These Regulations shall immediately be submitted for the approval of those Signatory Powers who shall have notified their intention of being represented in the office, and who shall come to a decision with regard to them with the least possible delay.

"ARTICLE LXXVI.

"The expenses of this institution shall be divided in equal parts among the Signatory Powers mentioned in the preceding Article.

"ARTICLE LXXVII.

"The object of the office at Zanzibar shall be to centralise all documents and information of a nature to facilitate the repression of the slave trade in the maritime zone. For this purpose the Signatory Powers undertake to forward to it within the shortest possible time:

"1. The documents specified in Article XLI.

"2. Summaries of the reports and copies of the Minutes referred to in Article XLVIII.

"3. The list of territorial or Consular authorities and special Delegates competent to take action as regards detained vessels according to the terms of Article XLIX.

"4. Copies of judgments and decrees of condemnation delivered in accordance with Article LVIII.

"5. All information likely to lead to the discovery of persons engaged in the slave trade in the above-mentioned zone.

"ARTICLE LXXVIII.

"The archives of the office shall always be open to naval officers of the Signatory Powers authorised to act within the limits of the zone defined in Article XXI, as well as to the territorial or judicial authorities, and to Consuls specially appointed by their Governments.

"The office shall supply to foreign officers and agents authorised to consult its archives translations in a European language of documents written in an Oriental language. It shall make the communications provided for in Article XLVIII.

"ARTICLE LXXIX.

"Auxiliary offices in communication with the office at Zanzibar may be established in certain parts of the zone on agreement beforehand between the interested Powers.

"They shall be composed of Delegates of such Powers, and established in conformity with Articles LXXV, LXXVI, and LXXVIII.

"The documents and information specified in Article LXXVII, so far as they relate to the part of the zone specially concerned, shall be sent to them direct by the territorial and Consular authorities of the region in question without prejudice to the communication to the Zanzibar office provided for by the same Article.

"ARTICLE LXXX.

"The office at Zanzibar shall draw up within the two first months of every year a report upon its own operations, and those of the auxiliary offices during the past year.

"§ II. *Exchange between the respective Governments of Documents and Information relating to the Slave Trade.*

"ARTICLE LXXXI.

"The Powers shall communicate to each other to the fullest extent, and with the least delay which they shall consider possible—

"1. The texts of the Laws and Administrative Regulations, whether already existing, or enacted in application of the clauses of the present General Act.

"2. Statistical information concerning the slave trade, slaves detained and liberated, and the traffic in arms, ammunition, and spirituous liquors.

"ARTICLE LXXXII.

"The exchange of these documents and information shall be centralized in a special office attached to the Foreign Office at Brussels.

"ARTICLE LXXXIII.

"The office at Zanzibar shall forward to it every year the report mentioned in Article LXXX upon its operations during the past year, and upon those of the auxiliary offices which may have been established in accordance with Article LXXIX.

"ARTICLE LXXXIV.

"The documents and information shall be collected and published periodically, and addressed to all the Signatory Powers. This publication shall be accompanied every year by an analytical table of the legislative, administrative, and statistical documents mentioned in Articles LXXXII and LXXXIII.

"ARTICLE LXXXV.

"The office expenses and the expenditure incurred for correspondence, translation, and printing shall be shared by all the Signatory Powers, and shall be recovered through the Foreign Office at Brussels.

"§ III. *Protection of Liberated Slaves.*

"ARTICLE LXXXVI.

"The Signatory Powers, having recognized the duty of protecting liberated slaves in their respective possessions, undertake to establish, if they should not already exist, in the ports of the zone determined by Article XXI, and in such parts of their said possessions as may be places for the capture, passage, and arrival of African slaves, as many offices or institutions as they may deem sufficient, the business of which will specially consist in freeing and protecting the slaves in accordance with the provisions of Articles VI, XVIII, LII, LXIII, and LXVI.

"ARTICLE LXXXVII.

"Such offices, or the authorities charged with this service, shall deliver letters of freedom, and keep a register thereof.

"On receiving notice of an act of slave trade or of illegal detention, or at the instance of the slaves themselves, the said offices or authorities shall exercise all necessary diligence to insure the liberation of the slaves and the punishment of the offenders.

"The delivery of letters of freedom should in no case be delayed if the slave be accused of a crime or offence against common law. But after the delivery of the said letters, the ordinary legal procedure shall take its course.

"ARTICLE LXXXVIII.

"The Signatory Powers shall encourage the foundation in their possessions of establishments of refuge for women and of education for liberated children.

"ARTICLE LXXXIX.

"Freed slaves shall always be able to resort to the offices to be protected in the enjoyment of their liberty. Whoever shall have used fraud or violence to deprive a liberated slave of his letters of freedom or of his liberty shall be considered as a slave-dealer.

"CHAPTER VI.—RESTRICTIVE MEASURES CONCERNING THE TRAFFIC IN SPIRITUOUS LIQUORS.

"ARTICLE XC.

"Justly anxious respecting the moral and material consequences which the abuse of spirituous liquors entails on the native populations, the Signatory Powers have agreed to apply the provisions of Articles XCI, XCII, and XCIII within a zone extending from the 20th degree north latitude to the 22nd degree south latitude, and bounded by the Atlantic Ocean on the west and on the east by the Indian Ocean and its dependencies, comprising the islands adjacent to the shore up to 100 marine miles from the coast.

"ARTICLE XCI.

"In the regions of this zone, where it shall be ascertained that either on account of religious belief or from other motives the use of distilled liquors does not exist, or has not been developed, the Powers shall prohibit their importation. The manufacture therein of distilled liquors shall equally be prohibited.

"Each Power shall determine the limits of the zone of prohibition of alcoholic liquors in its possessions or protectorates, and shall be bound to notify the limits thereof to the other Powers within the space of six months.

"The above prohibition can only be suspended in the case of limited quantities destined for the consumption of the non-native population, and imported under the system and conditions determined by each Government.

"ARTICLE XCII.

"The Powers having possessions or exercising protectorates in the regions of the zone which are not placed under the system of prohibition, and into which spirituous liquors are at present either freely imported or pay an import duty of less than 15 fr. per hectolitre up to 50 degrees

centigrade, undertake to levy on these spirituous liquors an import duty of 15 fr. per hectolitre up to 50 degrees centigrade for the three years next after the present General Act comes into force. At the expiration of this period the duty may be increased to 25 fr. for a fresh period of three years. At the end of the sixth year it shall be submitted to revision, taking as a basis the average results produced by these tariffs, for the purpose of then fixing, if possible, a minimum duty throughout the whole extent of the zone where the system of prohibition referred to in Article XCI should not be in force.

"The Powers retain the right of maintaining and increasing the duties beyond the minimum fixed by the present Article in those regions where they already possess that right.

"ARTICLE XCIII.

"Distilled liquors manufactured in the regions referred to in Article XCII, and intended for inland consumption, shall be subject to an excise duty.

"This excise duty, the collection of which the Powers undertake to insure as far as possible, shall not be lower than the minimum import duty fixed by Article XCII.

"ARTICLE XCIV.

"The Signatory Powers which have possessions in Africa contiguous to the zone specified in Article XC undertake to adopt the necessary measures for preventing the introduction of spirituous liquors into the territories of the said zone across their inland frontiers.

"ARTICLE XCV.

"The Powers shall communicate to each other through the office at Brussels, and according to the terms of Chapter V, information relating to the traffic in spirituous liquors within their respective territories.

"CHAPTER VII.—FINAL PROVISIONS.

"ARTICLE XCVI.

"The present General Act repeals all contrary stipulations of Conventions previously concluded between the Signatory Powers.

"ARTICLE XCVII.

"The Signatory Powers, without prejudice to the stipulations contained in Articles XIV, XXIII, and XCII, reserve the right of introducing into the present General Act later on, and by common agreement, such modifications or improvements as experience may prove to be useful.

"ARTICLE XCVIII.

"Powers who have not signed the present General Act shall be allowed to adhere to it.

"The Signatory Powers reserve the right to impose the conditions which they may deem necessary on such adhesion.

"If no conditions should be stipulated, adhesion implies full acceptance of all the obligations and full admission to all the advantages stipulated by the present General Act.

"The Powers shall concert among themselves as to the steps to be taken to procure the adhesion of States whose co-operation may be necessary or useful in order to insure the complete execution of the General Act.

"Adhesion shall be effected by a separate Act. It shall be notified through the diplomatic channel to the Government of His Majesty the King of the Belgians, and by that Government to all the Signatory and adherent States.

"ARTICLE XCIX.

"The present General Act shall be ratified within a period which shall be as short as possible, and which shall not in any case exceed one year.

"Each Power shall address its ratification to the Government of His Majesty the King of the Belgians, which shall give notice thereof to all the other Signatory Powers of the present General Act.

"The ratifications of all the Powers shall remain deposited in the archives of the Kingdom of Belgium.

"As soon as all the ratifications have been produced, or at latest one year after the signature of the present General Act, their deposit shall be recorded in a Protocol which shall be signed by the Representatives of all the Powers which have ratified.

"A certified copy of this Protocol shall be forwarded to all the Powers interested.

"ARTICLE C.

"The present General Act shall come into force in all the possessions of the Contracting Powers on the sixtieth day after the date of the Protocol of Deposit provided for in the preceding Article.

"In witness whereof the respective Plenipotentiaries have signed the present General Act, and have thereto affixed their seals.

"Done at Brussels the 2nd day of the month of July, 1890.

"DECLARATION.

"The Powers assembled in Conference at Brussels, who have ratified the General Act of Berlin of the 26th February, 1885, or who have acceded thereto;

"After having drawn up and signed in concert in the General Act of this day a collection of measures intended to put an end to the Negro slave trade by land as well as by sea, and to improve the moral and material conditions of existence of the native races;

"Taking into consideration that the execution of the provisions which they have adopted with this object imposes on some of them who have possessions or protectorates in the conventional basin of the Congo obligations which absolutely demand new resources to meet them,

"Have agreed to make the following Declaration:

"The Signatory or adhering Powers who have possessions or protectorates in the said conventional basin of the Congo are authorized, so far as they require any authority for the purpose, to establish therein duties upon imported goods, the scale of which shall not exceed a rate equivalent to 10 per cent. *ad valorem* at the port of entry, always excepting spirituous liquors, which are regulated by the provisions of Chapter VI of the General Act of this day.

"After the signature of the said General Act, negotiations shall be opened between the Powers who have ratified the General Act of Berlin or who have adhered to it, in order to draw up, within the maximum limit of 10 per cent. *ad valorem*, the conditions of the Customs system to be established in the conventional basin of the Congo.

"Nevertheless, it is understood—

"1. That no differential treatment or transit duty shall be established;

"2. That in applying the customs system which may be agreed upon, each Power will undertake to simplify formalities as much as possible, and to facilitate trade operations;

"3. That the arrangement resulting from the proposed negotiations shall remain in force for fifteen years from the signature of the present Declaration.

"At the expiration of this period, and failing a fresh Agreement, the Contracting Powers shall return to the conditions provided for by Article IV of the General Act of Berlin, retaining the power of imposing duties up to a maximum of 10 per cent. upon goods imported into the conventional basin of the Congo.

"The ratifications of the present Declaration shall be exchanged at the same time as those of the General Act of this day.

"In witness whereof the undersigned Plenipotentiaries have drawn up the present Declaration, and have affixed thereto their seals.

No. 1357-E.—The following order of Her Majesty in Council published in the *London Gazette* of the 13th May, 1892, is republished for general information:

AT THE COURT AT WINDSOR,

The 9th day of May, 1892.

PRESENT:

The Queen's Most Excellent Majesty.

Lord President.
Lord Steward.
Earl of Yarborough.
Sir Walter Barttelot, Bart.
Mr. Forwood.

WHEREAS by an Act passed in the thirty-seventh year of Her Majesty's reign, Chapter eighty-eight, intituled "The Slave Trade Act, 1873," it was, amongst other things, provided that where any Treaty in relation to the slave trade is made after the passing of that Act by or on behalf of Her Majesty with any foreign State, Her Majesty may, by Order in Council, direct that as from such date, not being earlier than the date of the Treaty, as may be specified in the Order, such Treaty shall be deemed, and that thereupon (as from the said date, or if no date should be specified, as from the date of such Order) such Treaty shall be deemed to be an existing Slave Trade Treaty within the meaning of the Act, and all the provisions of the Act should apply and be construed accordingly.

And whereas on the second day of July one thousand eight hundred and ninety a Treaty for the suppression of the African slave trade was concluded between Her Majesty and Her Majesty the Queen Regent of Spain, in the name of His Majesty the King of Spain, in the following terms, that is to say:

"Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and Her Majesty the Queen Regent of Spain, in the name of her august son, His Majesty the King Don Alfonso XIII, being mutually animated by a sincere desire to co-operate by all means in their power towards the extinction of the trade in African slaves wherever that traffic may still exist, and being convinced of the necessity of terminating the ancient Treaties now in force, and of replacing them by another more in harmony with the present state of things, and with the provisions of the general Act of the Conference of Brussels, have resolved to conclude a special Treaty to that effect, and for this purpose have named as their Plenipotentiaries, that is to say:

"Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India; Lord Vivian, a Peer of the United Kingdom, Her Majesty's Envoy Extraordinary and Minister Plenipotentiary to the Court of the King of the Belgians; and Sir John Kirk, one of Her Majesty's Plenipotentiaries to the Conference of Brussels;

"Su Majestad la Reina del Reino Unido de la Gran Bretaña é Irlanda, Emperatriz de las Indias, y Su Majestad la Reina Regente de España, en nombre de su augusto hijo, Su Majestad el Rey Don Alfonso XIII, igualmente animadas del sincero deseo de contribuir por todos los medios posibles á la supresion del tráfico de esclavos Africanos en los lugares en que todavia existe, y convencidas de la necesidad de derogar sus antiguos Tratados vigentes, reemplazándolos por otro mas en armonia con el estado de cosas actual, asi como con las disposiciones del Acta General de la Conferencia de Bruselas, han resuelto concluir un Tratado especial y nombrado al efecto por sus Plenipotenciarios, á saber:

"Su Majestad la Reina del Reino Unido de la Gran Bretaña é Irlanda, Emperatriz de las Indias; á Lord Vivian, Par del Reino Unido, Su Enviado Extraordinario y Ministro Plenipotenciario cerca de Su Majestad el Rey de los Belgas; y á Sir John Kirk, Su Plenipotenciario en la Conferencia de Bruselas;

"And Her Majesty the Queen Regent of Spain; Don José Gutierrez de Aguëra, Her Envoy Extraordinary and Minister Plenipotentiary to the Court of His Majesty the King of Belgians;

"Who, having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles:

"ARTICLE I.

"Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and Her Majesty the Queen Regent of Spain, engage to prohibit all trade in slaves carried on either by their respective subjects or under their respective flags, or by means of capital belonging to their respective subjects, and to punish all persons engaged in such traffic with all the severity permitted by the laws which are actually or which hereafter may come into force in the respective countries. Their Majesties further declare that any vessel which may attempt to carry on the slave trade shall by that fact alone forfeit all right to the protection of their respective flags.

"ARTICLE II.

"In order more fully to attain the object of the present Treaty, the High Contracting Parties have mutually agreed to restrict all measures for the more effectual suppression of the slave trade to the maritime zone within which the traffic still exists, which is limited on the one side by the shores of the Indian Ocean (including the Persian Gulf and the Red Sea), from the coast of Beluchistan to Tangalani Point (Quilimane), and on the other by a conventional line which, after following the meridian of Tangalani to the point of intersection with the 26° of south latitude, follows that parallel, skirting the Island of Madagascar on the eastern side, at a distance of twenty miles from its eastern and northern coasts, as far as its point of intersection with the meridian of Cape Amber. From this point the limit of the zone is fixed by an oblique line which strikes the coast of Beluchistan, keeping twenty miles outside of Cape Ras el-Had.

"ARTICLE III.

"The two High Contracting Parties have likewise agreed to limit the operation of the present Treaty to vessels of less than five hundred tons measurement, reserving the right of revising this clause whenever experience shows the necessity of it.

"ARTICLE IV.

"In addition to the measures adopted by common agreement by all the Signatory Powers of the General Act of the Conference of Brussels with a view to prevent the usurpation of their respective flags, and to insure the exercise of a strict supervision over native vessels authorised to hoist their colours, as well as for the liberation of slaves, and for the early exchange of information necessary for the suppression of the slave trade, the two High Contracting

"Y Su Majestad la Reina Regente de España; á Don José Gutierrez de Aguëra, Su Enviado Extraordinario y Ministro Plenipotenciario cerca de Su Majestad el Rey de los Belgas;

"Los cuales, despues de haberse comunicado sus respectivos plenos poderes, y halládolos en buena y debida forma, han convenido en los Artículos siguientes:

"ARTÍCULO I.

"Su Majestad la Reina del Reino Unido de la Gran Bretaña é Irlanda, Emperatriz de las Indias, y Su Majestad la Reina Regente de España, se obligan á prohibir todo tráfico de esclavos ya por parte de sus súbditos respectivos, ya bajo sus respectivas banderas, ó ya por medio de capitales pertenecientes á sus respectivos súbditos, y á castigar á todo el que se ocupe en dicho tráfico con todo el rigor que permitan las leyes que esten ó puedan estar en vigor en uno ú otro pais. Sus Majestades declaran además que todo buque que intente ejercer el tráfico de esclavos perderá por este solo hecho todo derecho á la proteccion de su bandera.

"ARTÍCULO II.

"A fin de conseguir mas completamente el objeto del presente Tratado, las dos Altas Partes Contratantes convienen de comun acuerdo en restringir todas las medidas para la mas eficáz represion del tráfico de esclavos á la zona maritima en que todavia existe y que esta limitada de una parte por las costas del Oceano Indico (comprendidas las del Golfo Pérsico y del Mar Rojo) desde el Belouchistan hasta la punta de Tangalane (Quilimane), y de otra por una linea convencional que, despues de seguir el meridiano de Tangalane hasta el punto de union con el grado 26° de latitud sur, se confunde con este paralelo y rodea al este la Isla de Madagascar á una distancia de 20 millas de sus costas oriental y septentrional, hasta su nterseccion con el meridiano de Cabo Ambar. Desde este punto el limite de la zona queda determinado por una linea oblicua que va á unirse con la costa del Belouchistan, pasando á 20 millas de distancia del Cabo Raz-el-Had.

"ARTÍCULO III.

"Las dos Altas Partes Contratantes están igualmente de acuerdo en limitar los efectos del presente Tratado á los buques de una cabida inferior á 500 toneladas, reservándose la facultad de revisar esta cláusula si la experiencia demuestra que es necesario.

"ARTÍCULO IV.

"Ademas de las medidas adoptadas de comun acuerdo por todas las Potencias Signatarias del Acta General de la Conferencia de Bruselas para prevenir la usurpacion de sus pabellones respectivos y ejercer una vigilancia rigorosa sobre los buques indigenas autorizados á enarbolar sus banderas, asi como para poner en libertad á los esclavos y comunicar sin perdida de tiempo los datos oportunos para la represion del dicho trafico, las dos Altas Partes Contratantes

Parties have agreed that their respective ships of war may, within the above-defined zone, and after verification of the ships' papers, search all merchant vessels of the tonnage indicated in Article III, belonging to one or other of the High Contracting Parties, which may afford reasonable ground of suspicion that they have been engaged in the slave trade, or have been fitted out for that purpose, or have been engaged in the traffic during the voyage in which the vessel may have been met by the said cruizers; and all such cruizers may detain, send, or take such suspected vessels for trial in the manner hereinafter agreed to.

convienen en que sus buques de guerra podrán visitar, dentro de la zona que queda definida y despues del examen de los papeles de á bordo, á todo buque mercante de la cabida especificada en el Artículo III, perteneciente á una ú otra de las dos Atlas Partes Contratantes, que con fundados motivos pueda dar lugar á sospechas de que se ocupa en el tráfico de esclavos, ó de haber sido equipado con el mismo objeto, ó de haberse dedicado á dicho tráfico durante el viaje en que lo encuentren los referidos cruceros; y en que estos cruceros podran detener y enviar é conducir dichos buques á fin de que puedan ser juzgados del modo convenido á continuacion.

"ARTICLE V.

"In no case shall the mutual right of search and visit be exercised over ships of war or over vessels belonging to the Governments of either of the High Contracting Parties, but their cruizers shall afford each other mutual assistance in all cases in which it may be useful that they should act in concert.

"ARTÍCULO V.

"En ningun caso se ejercerá el derecho mutuo de visita sobre los buques de guerra ó pertenecientes al Gobierno de cada una de las dos Altas Partes Contratantes; pero sus cruceros se prestarán asistencia reciprocamente en todas las circunstancias en que pueda ser util que procedan de concierto.

"ARTICLE VI.

"Whenever a merchant-vessel sailing under the flag of one of the High Contracting Parties shall have been detained by a cruizer of the other Power in conformity with the provisions of the present Treaty, the vessel, together with the captain, crew, cargo, and any slaves that may be found on board, shall be conveyed to one or other of the places designated in this Article, and given over to the authorities appointed for this purpose by the respective Governments in order to their being proceeded against before the competent Tribunals in the manner hereinafter specified.

"ARTÍCULO VI.

"Siempre que un buque mercante, que navegue bajo la bandera de una de las dos Altas Partes Contratantes, haya sido detenido por un crucero de la otra, conforme á las disposiciones del presente Tratado, dicho buque, asi como el capitan, la tripulacion, el cargamento y los esclavos que puedan encontrarse á bordo, serán conducidos á uno u otro de los lugares designados en este Artículo, y la entrega se hará á las autoridades constituidas con este objeto por los Gobiernos respectivos, á fin de que se proceda respecto á ellos ante los Tribunales competentes de la manera que se expresa á continuacion.

"All British vessels which may be detained within the above-mentioned zone by a Spanish cruizer shall be conveyed and made over for trial to the competent authorities appointed for that purpose within the said zone by the Government of Her Britannic Majesty, or shall be handed over to a British man-of-war, provided the captain is willing to take charge of the prize.

"Todos los buques Ingleses que puedan ser detenidos en la zona arriba mencionada por un crucero Español serán conducidos y entregados á las autoridades competentes, designadas al efecto dentro de la misma zona por el Gobierno de Su Majestad la Reina de la Gran Bretaña, ó serán entregados á un buque de guerra Inglés, si su capitan consiente en hacerse cargo de la presa.

"All Spanish merchant-vessels that may be detained by a British cruiser shall be conveyed and made over for trial to the Consular authority whom Her Majesty the Queen Regent of Spain may appoint in one or more of the ports of the said zone, or shall be handed over to a Spanish man-of-war, provided the captain is willing to take charge of the prize.

"Todos los buques mercantes Españoles que puedan ser detenidos en la zona por un crucero Inglés serán conducidos y entregados á la autoridad Consular que el Gobierno de Su Majestad la Reina Regente de España ha de establecer en uno ó varios puertos de la misma zona; ó serán entregados á un buque de guerra Español, si su capitan consiente en hacerse cargo de él.

"ARTICLE VII.

"Every merchant-vessel belonging to one or other of the High Contracting Parties which may have been searched and detained at sea in virtue of the provisions of the present Treaty shall be liable to condemnation on the production of evidence establishing to the satisfaction of the national Tribunal that the vessel has been engaged in an act of slave trade in the course of the voyage during which it was detained.

"ARTÍCULO VII.

"Todo buque mercante perteneciente á una ú otra de las dos Altas Partes Contratantes que haya sido visitado y detenido en el mar en virtud de las disposiciones del presente Tratado, estará en condicion de ser condenado, si se presentan pruebas que acrediten, á satisfaccion del Tribunal nacional, que se ha dedicado á una operacion de tráfico de esclavos en el curso del viaje durante el cual ha sido detenido.

"ARTICLE VIII.

"The authorities specified in Article VI shall proceed immediately to inquire into, and adjudicate on, the case of any vessel detained in accordance with the stipulations contained in Articles L to LIX of the General Act of the Brussels Conference, the general provisions of which Act are also applicable in all cases not specially provided for in the present Treaty.

"ARTÍCULO VIII.

"Las autoridades especificadas en el Artículo VI procederán inmediatamente á instruir y juzgar la causa de todo buque detenido en virtud de las estipulaciones contenidas en los Artículos L á LIX inclusive del Acta General de la Conferencia de Bruselas, cuyas claúsulas generales serán aplicables tambien á todos los casos no previstos especialmente por el presente Tratado.

"ARTICLE IX.

India to the Engineer Establishment of the Public Works Department, have been approved by the Secretary of State for India:

I.—A Provincial Service recruited in India shall be established on a rate of pay differing from that of the Imperial Service recruited in England. This Service shall be under the leave rules of Indian Services, Chapter XIV, and under the General Pension Rules, Part IV, of the Civil Service Regulations. In all other respects there shall be no distinction between the members of this Service and those of the Imperial Service.

II.—The rates of pay of the Provincial Service shall be as follows:

		Rs.	
Chief Engineer, 1st Class	...	2,500	These are the rates of pay of the present establishment, and will continue to be the rates for both Imperial and Provincial officers in these classes.

„ 4th „	...	...	...	400
Assistant Engineer, 1st Grade	...	...	...	350
„ 2nd „	...	...	...	250

III.—The recruitment for the Provincial Service shall be—

(*a*) from students of the Indian Colleges, being natives of India as defined in the statute 33 Vict., cap. 3, section 6; and

(*b*) from Upper Subordinates of the Public Works Department.

The number of appointments annually shall for the present be 12 and 13 in alternate years, and they shall be distributed approximately in the ratio of 8 to 4 or 8 to 5 between the two classes, namely, students of the Colleges and the Upper Subordinates.

The detailed distribution of the appointments shall be approximately as follows:

To lists directly under the Government of India, excluding Bengal	...	Five apprentices from Thomason College, Rurki, *and* three Upper Subordinates.
To the Bengal list	...	One apprentice from Sibpur, *and*, in alternate years, one Upper Subordinate.
To the Madras list	...	One from the Madras Engineering College, *and*, in alternate years, one Upper Subordinate.
To the Bombay list	...	One L. C. E. of the Bombay University, who has kept six terms in a School or College of Civil Engineering recognised by that University, *and*, in alternate years, one Upper Subordinate.

This distribution of the appointments shall be strictly followed, provided, on the one hand, that the prescribed number of students from each college qualify for the appointments on each list; and, on the other hand, that there are in the opinion of the Government of India, or Madras, or Bombay, or Bengal, as the case may be, Upper Subordinates who possess the necessary qualifications. If there is

a deficiency in the number of qualified candidates of either the student or the Upper Subordinate Class, or of any of the Colleges, the full number of appointments on a list may be made up from the other class, or from some other college the students of which are qualified.

IV.—Recruits from the Indian colleges shall be appointed as apprentices on Rs. 100 a month, and shall remain on probation until they have proved their thorough fitness for service in the Department. They shall then be promoted to 2nd grade Assistant Engineer on Rs. 250, and shall be required to pass the examination laid down in Public Works Code, Volume I, Chapter II, paragraphs 12-14, before promotion to 1st grade Assistant Engineer. If they are not recommended within three years for promotion to 2nd grade Assistant Engineer, they shall be liable to removal from the Department.

V.—The men of the Upper Subordinate Class to be selected annually for special promotion to the Provincial Establishment shall be ordinarily Sub-Engineers chosen for their ability and merit. These officers shall be posted to a suitable grade of the Provincial Service, and may be granted a personal allowance to protect them from loss of pay. Military Upper Subordinates shall not be appointed unless they consent to forego their military rank.

VI.—After an officer has been appointed under these regulations to the Provincial Service in a grade not below that of Assistant Engineer, 2nd grade, he shall belong to the general graded establishment of Engineers. He shall, if qualified, rise in the grades by promotion, and, as regards the higher grades, by special selection under the present rules, and shall receive the rate of salary laid down in regulation II above according to his grade.

2. Students of the Rurki, Sibpur, Poona, and Madras Colleges, who, on the date of this Resolution, have begun the courses of training for the appointments allotted to those Colleges in Resolution of 13th December 1884, and who, within three years from date of this Resolution, succeed in obtaining appointments, shall, on admission to the Engineer Establishment, be entitled to pay and pension under the rules hitherto obtaining. As regards leave, they shall be subject to the rules laid down for the Indian services. But these provisions shall only apply to the number of appointments, namely 9, allotted by the Resolution of 13th December 1884. In respect of all appointments above that number, these regulations shall take effect at once.

3. The names of the students at each college who have on the date of this Resolution entered upon the course, together with information as to the date of entering the college, and the date on which they can compete for the several appointments under the Resolution of 1884, should be forwarded to the Government of India for information.

28. If the presiding officer of any Court subordinate to the Court of the Resident has reason to believe that any advocate or pleader practising before him has been guilty of fraudulent or unprofessional conduct, he shall reduce to writing in a concise form the grounds for his belief, and forward a copy of the same to the advocate or pleader, together with a notice that on a day therein appointed, not being less than 20 days from the date of despatch of the said copy, the matter will be taken into consideration.

34. An agreement between an advocate or pleader and his client shall bar any further claim on the part of the advocate or pleader beyond the terms of the agreement with respect to any services, fees, charges or disbursements in relation to the conduct and completion of the business in respect of which the agreement has been made, except such services, fees, charges or disbursements, if any, as have been expressly excepted by the agreement.

35. An agreement between an advocate or pleader and his client shall bar any further claim on the part of the advocate or pleader beyond the terms of the agreement with respect to any services, fees, charges or disbursements in relation to the conduct and completion of the business in respect of which the agreement has been made, except such services, fees, charges or disbursements, if any, as have been expressly excepted by the agreement.

WAR OFFICE,
12th July, 1892.

The Queen has been graciously pleased to signify her intention to confer the decoration of the Victoria Cross upon the undermentioned officers of Her Majesty's Army, whose claims have been submitted for Her Majesty's approval, for the conspicuous bravery displayed by them during the recent operations in the Hunza and Nagar country on the Gilgit frontier in December 1891 as recorded against their names:

Corps.	Name.	Act of courage for which recommended.
Royal Engineers	Captain Fenton John Aylmer.	For his conspicuous bravery in the assault and capture of the Nilt Fort on 2nd December 1891. This officer accompanied the storming party, burst open the inner gate with gun-cotton, which he placed and ignited, and though severely wounded, once in the leg and twice in the right hand, fired fifteen shots with his revolver, killing several of the enemy, and remained fighting until, fainting from loss of blood, he was carried out of action.
Indian Staff Corps.	Lieutenant Guy Huddleston Boisragon.	For his conspicuous bravery in the assault and capture of the Nilt Fort on 2nd December 1891. This officer led the assault with dash and determination, and forced his way through the obstacles in the [illegible] he returned for [illegible] moving fearlessly in the [illegible] a heavy cross-fire until he had collected sufficient men to relieve the hardly pressed storming party and drive the enemy from the fort.

Corps.	Name.	Act of courage for which recommended.
Indian Staff Corps.	Lieutenant John Manners Smith.	For his conspicuous bravery when leading the storming party at the attack and capture of the strong position occupied by the enemy near Nilt, in the Hunza-Nagar country, on the 20th December 1891. The position was, owing to the nature of the country, an extremely strong one, and had barred the advance of the force for seventeen days. It was eventually forced by a small party of 50 rifles, with another of equal strength in support. The first of these parties was under the command of Lieutenant Smith, and it was entirely owing to his splendid leading, and the coolness, combined with dash, he displayed while doing so, that a success was obtained. For nearly four hours, on the face of a cliff which was almost precipitous, he steadily moved his handful of men from point to point, as the difficulties of the ground and showers of stones from above gave him an opportunity, and during the whole of this time he was in such a position as to be unable to defend himself from any attack the enemy might choose to make. He was the first man to reach the summit within a few yards of one of the enemy's sangars, which was immediately rushed, Lieutenant Smith pistolling the first man.

[55 & 56 VICTORIA, CHAPTER 19.]

An Act for further promoting the Revision of the Statute Law by repealing Enactments which have ceased to be in force or have become unnecessary.

[20TH JUNE, 1892.]

WHEREAS it is expedient that certain enactments which may be regarded as spent, or have ceased to be in force otherwise than by express specific repeal by Parliament, or have, by lapse of time or otherwise, become unnecessary, should be expressly and specifically repealed:

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

Enactments in schedule repealed.

1. The enactments described in the schedule to this Act are hereby repealed, subject to the provisions of this Act and subject to the exceptions and qualifications in the schedule mentioned; and every part of a title, preamble, or recital specified after the words "in part, namely," in connexion with an Act mentioned in the said schedule may be omitted from any revised edition of the statutes published by authority after the passing of this

Act, and there may be added in the said edition such brief statement of the Acts, officers, persons, and things mentioned in the title, preamble, or recital as may in consequence of such omission appear necessary:

Provided as follows:

The repeal of any words or expressions of enactment described in the said schedule shall not affect the binding force, operation, or construction of any statute, or of any part of a statute, whether as respects the past or the future;

and where any enactment not comprised in the said schedule has been repealed, confirmed, revived, or perpetuated by any enactment hereby repealed, such repeal, confirmation, revivor, or perpetuation shall not be affected by the repeal effected by this Act;

and the repeal by this Act of any enactment or schedule shall not affect any enactment in which such enactment or schedule has been applied, incorporated, or referred to;

nor shall such repeal of any enactment affect any right to any hereditary revenues of the Crown, or affect any charges thereupon or prevent any such enactment from being put in force for the collection of any such revenues, or otherwise in relation thereto;

and this Act shall not affect the validity, invalidity, effect, or consequences of anything already done or suffered,—or any existing status or capacity,—or any right, title, obligation, or liability already acquired, accrued, or incurred, or any remedy or proceeding in respect thereof, —or any release or discharge of or from any debt, penalty, obligation, liability, claim, or demand,—or any indemnity,—or the proof of any past act or thing;

nor shall this Act affect any principle or rule of law or equity, or established jurisdiction, form or course of pleading, practice, or procedure, or the general or public nature of any statute, or any existing usage, franchise, liberty, custom, privilege, restriction, exemption, office, appointment, payment, allowance, emolument, or benefit, or any prospective right, notwithstanding that the same respectively may have been in any manner affirmed, recognised, or derived by, in, or from any enactment hereby repealed;

nor shall this Act revive or restore any jurisdiction, office, duty, drawback, fee, payment, franchise, liberty, custom, liability, right, title, privilege, restriction, exemption, usage, practice, procedure, form of punishment, or other matter or thing not now existing or in force;

and this Act shall not extend to repeal any enactment so far as the same may be in force in any part of Her Majesty's dominions out of the United Kingdom, except where otherwise expressed in the said schedule.

Application of repealed enactments in local courts.

2. If and so far as any enactment repealed by this Act applies, or may have been by Order in Council applied, to the court of the county palatine of Lancaster or to any inferior court of civil jurisdiction, such enactment shall be construed as if it were contained in a local and personal Act specially relating to such court, and shall have effect accordingly.

Short title.

3. This Act may be cited as the Statute Law Revision Act, 1892.

SCHEDULE.

"Si la demande d'extradition concerne une personne déjà condamnée, elle doit être accompagnée de l'arrêt de condamnation qui a été rendu contre le coupable par le Tribunal compétent de l'État requérant.

"In the examinations which they have to make in accordance with the foregoing stipulations, the authorities of the British dominions shall admit as valid evidence the sworn depositions or the affirmations of witnesses taken in Monaco, or copies thereof, and likewise the warrants and sentences issued therein, and certificates of, or judicial documents stating the fact of, a conviction, provided the same are authenticated as follows:

"The authorities of the Principality shall admit as valid evidence records drawn up by the British authorities of the depositions of witnesses, or copies thereof, and records of conviction or other judicial documents or copies thereof: Provided that the said documents be signed or authenticated by an authority whose competence shall be certified by the seal of a Minister of State of Her Britannic Majesty.

"ARTICLE XII.

"The extradition shall not take place unless the evidence be found sufficient, according to the laws of the State applied to, either to justify the committal of the prisoner for trial in case the crime had been committed in the territory of the said State, or to prove that the prisoner is the identical person convicted by the Courts of the State which makes the requisition, and that the crime of which he has been convicted

"ARTICLE X.

"Si le fugitif est arrêté sur le territoire Britannique, il sera aussitôt amené devant un Magistrat compétent, qui devra l'entendre et procéder à l'examen préliminaire de l'affaire de la même manière que si l'arrestation avait eu lieu pour un crime commis sur le territoire Britannique.

"Les autorités de la Grande-Bretagne, quand elles procéderont à l'examen établi par les stipulations précédentes, devront admettre comme preuves entièrement valables les dépositions assermentées ou les affirmations faites à Monaco, ou les copies de ces pièces, de même que les mandats d'arrêt et les sentences rendues dans ce pays, ainsi que les certificats de condamnation ou les pièces judiciaires constatant le fait d'une condamnation, pourvu que ces documents soient rendus authentiques de la manière suivante:

"3. Un certificat de condamnation ou un document judiciaire constatant le fait d'une condamnation doit être certifié par un Juge, Magistrat, ou officier de la Principauté de Monaco.

"4. Ces mandats, dépositions, affirmations, copies, certificats ou documents judiciaires doivent être rendus authentiques dans chaque cas, soit par le serment d'un témoin, soit par l'apposition du sceau officiel et la légalisation du Gouverneur-Général de la Principauté de Monaco; cependant, les pièces sus-énoncées pourront être rendues authentiques de toute autre manière qui serait reconnue par les lois locales en vigueur dans la partie du territoire Britannique où l'examen de l'affaire aura lieu.

"ARTICLE XI.

"L'extradition d'un fugitif arrêté dans la Principauté de Monaco sera accordée, s'il résulte de l'examen qui en sera fait par une autorité compétente que les documents fournis par le Gouvernement Britannique contiennent des preuves primâ facie suffisantes pour justifier l'extradition.

"Les autorités de la Principauté devront admettre comme preuves entièrement valables les procès-verbaux des dépositions de témoins dressés par les autorités Britanniques, ou les copies de ces procès-verbaux; ainsi que les procès-verbaux des condamnations ou autres documents judiciaires, ou les copies de ces actes, pourvu que ces documents soient signés ou rendus authentiques par une autorité dont la compétence sera certifiée par le sceau d'un Ministre d'État de Sa Majesté Britannique.

"ARTICLE XII.

"L'extradition n'aura lieu que dans le cas où les preuves fournies auront été trouvées suffisantes d'après les lois de l'État requis, soit pour justifier la mise sous jugement du prisonnier, dans le cas où le crime aurait été commis sur le territoire du dit État, soit pour constater l'identité du prisonnier avec l'individu condamné par les Tribunaux de l'État requérant, et prouver que le crime dont il a été reconnu coupable

is one in respect of which extradition could, at the time of such conviction, have been granted by the State applied to. In Her Britannic Majesty's dominions the fugitive criminal shall not be surrendered until the expiration of fifteen days from the date of his being committed to prison to await his surrender.

"ARTICLE XIII.

"ARTICLE XVI.

"All expenses connected with extradition shall be borne by the demanding State.

"ARTICLE XVII.

"Either of the High Contracting Parties who may wish to have recourse for purposes of extradition to transit through the territory of a third Power shall be bound to arrange the condition of transit with such third Power.

"ARTICLE XIII.

"Si l'individu réclamé par l'une des deux Hautes Parties Contractantes, en exécution du présent Traité, est aussi réclamé par une ou plusieurs autres Puissances, du chef d'autres crimes ou délits commis sur leurs territoires respectifs, son extradition sera accordée à l'État dont la demande est la plus ancienne en date.

"ARTICLE XIV.

"ARTICLE XV.

"Les objets saisis en la possession de l'individu réclamé au moment de son arrestation seront, si l'autorité compétente de l'État requis en a ordonné la remise, livrés lorsque l'extradition aura lieu; cette remise ne comprendra pas seulement les objets volés, mais encore tout ce qui peut servir de pièce de conviction.

"ARTICLE XIX.

This service shall be under the leave rules of Indian Services, Chapter XIV, and under the General Pension Rules, Part IV, of the Civil Service Regulations. In all other respects there shall be no distinction between the members of this Service and those of the Imperial Service.

II. The rates of pay of the Provincial Service shall be as follows:

III. The recruitment for the Provincial Service shall be from students of the Thomason College at Roorkee. Students from the other Engineering Colleges in India wishing to enter the Telegraph Department will be admitted to the Thomason College for training in telegraphy.

The students must be natives of India as defined in the Statute 33 Vict., Cap. 3, section 6.

The number of appointments offered shall ordinarily be two and one in alternate years; but these numbers may be varied according to the requirements of the Department, due notice whereof will be given.

IV. Candidates for employment in the Telegraph Department shall undergo a course of training for two years at the Thomason College similar to that prescribed for Assistant Engineers, but with such modifications as the Director General of Telegraphs in consultation with the Principal of the College may find to be necessary. They shall also be required to obtain certificates of proficiency in the same manner as Assistant Engineers. Qualified students who may be selected for appointment to the Telegraph Department shall be first appointed as apprentices on Rs. 100 a month, and shall remain on probation until they have proved their thorough fitness for service in the Department. They shall then be promoted to Assistant Superintendent, Class VI, 2nd grade, on Rs. 225 a month. If they are not recommended within three years for promotion to Assistant Superintendent, Class VI, 2nd grade, they shall be liable to removal from the Department.

V. The rules contained in the Civil Service Regulations, which are applicable to apprentice Engineers in the Public Works Department, shall also be applicable to apprentice Assistant Superintendents in the Telegraph Department.

VI. As an occasional measure, and subject to the approval of the Government of India in each case, a Sub-Assistant Superintendent who has displayed marked ability and merit may be promoted to a suitable grade of the Provincial Service, and may be granted a personal allowance to protect him from loss of pay.

VII. After an officer has been appointed under these regulations to a grade not below that of Assistant Superintendent, Class VI, 2nd grade, he shall belong to the General Graded Superior Establishment of the Indian Telegraph Department. He shall, if qualified, rise in the grades by promotion, and, as regards the higher grades, by special selection under the present rules, and shall receive the rate of salary laid down in regulation II above according to his grade.

RESOLUTION—By the Government of India, Finance and Commerce Department.

Read the following letters transmitting reports on the working of the Mints and Assay Offices of Bombay and Calcutta for the year 1891-92 :

From the Mint Master, Bombay, No. 770, dated 15th August 1892.

From the Assay Master, Bombay, No. 35, dated 1st May 1892.

From the Mint Master, Calcutta, No. 808, dated 21st June 1892.

From the Assay Master, Calcutta, No. 12, dated 19th May 1892.

I.—WORKING OF THE MINTS.

Imports and Coinage : Gold.—The net imports of gold into India in 1891-92 were much smaller than in the preceding year, having amounted in value to only Rs. 24,137,922 against Rs. 56,361,717 in 1890-91. Stated by weight, the imports were 423, 648 ounces last year compared with 1,014,229 ounces in 1890-91. The amount tendered for coinage in the Calcutta Mint (Rs. 119,916) was larger than that of the previous year by Rs. 22,758. No gold was tendered for coinage in the Bombay Mint during the year, and none was coined there ; but for the purpose of supplying the occasional requirements of specimen collectors, 3 mohurs, 3 two-third mohurs, and 6 one-third mohurs of the aggregate value of Rs. 150-11-2 were struck as samples and kept in stock.

2. *Imports and Coinage : Silver.*—The net imports of silver into India, like those of gold, also fell off largely, having amounted during the year to Rs. 90,221,841 against Rs. 141,751,359 in 1890-91. Stated by weight, the imports were 32,348,438 ounces against 51,529,085 ounces in 1890-91. As regards imports of both gold and silver, the year 1890-91 was entirely exceptional owing to speculation. The net imports into Bombay were Rs. 66,365,721 and into Calcutta Rs. 23,769,776 against Rs. 112,724,973 and Rs. 28,563,738 in the previous year. The amount tendered for coinage fell short of that tendered in the previous year by over 140 lakhs in the Calcutta Mint and by nearly 491 lakhs in the Bombay Mint, the figures for the two years being as follows :

		Calcutta.	Bombay.
		Rs.	Rs.
1890-91	... ...	31,323,377	94,153,370
1891-92	... ...	17,313,197	45,070,910
	Decrease ...	14,010,790	49,082,460

The coinage of silver in the two Mints was less than half that of the previous year, the value in 1891-92 being only Rs. 55,539,738 against Rs. 131,634,741 in 1890-91.

3. *Total Coinage: Gold and Silver.*—The value of the total coinage of gold and silver at each Mint for the last five years is shown below:

Years.	Gold.		Silver.		Total of Gold.	Total of Silver.

4. *Silver tendered for coinage by the Currency Department.*—Nearly the whole of the silver tendered for coinage was transferred by the Currency Department to the Mint in exchange for Mint certificates, the value of the metal so transferred being Rs. 55,301,381 as compared with Rs. 125,242,441 in the previous year. Of this sum, the value of the silver transferred in Calcutta was Rs. 14,982,178 and in Bombay Rs. 40,319,203.

5. The following statement shews the descriptions of silver received in the two Mints during the year:

6. *Re-coinage of Old Coin.*—The value of the uncurrent and defaced silver coin received in the year in the Calcutta and Bombay Mints from Government Treasuries and Departments for re-coinage was Rs. 2,015,349 and Rs. 160,228 respectively as compared with Rs. 3,565,900 and Rs. 234,357 in 1890-91.

The receipts of such coin in the Calcutta Mint were mainly composed of 220,000 Burma rupees, 1,514,000 shroff-marked rupees withdrawn from circulation, and about 270,000 worn rupees, coins reduced otherwise than by fair wear, and soldered coins.

The coins received in the Bombay Mint consisted of shroff-marked, light, soldered, and defaced British India Government rupees valued at Rs. 143,148, and syasi and treasure trove coins.

7. *Copper Coinage.*—The nominal value of the total copper coinage, which since the middle of 1889-90 has been entirely carried out at the Calcutta Mint, was Rs. 1,663,168 in 1891-92 against Rs. 1,783,092 in the preceding year. The decrease of Rs. 119,924 was due almost entirely to smaller requirements for the Straits Settlements and Ceylon and the British East Africa Company. The coinage of single pice, however, exceeded that of the previous year by 8,095,947 pieces or Rs. 126,499.

During the year 32,366 maunds of copper were purchased at the average rate of Rs. 30·31 per maund against 24,827·6 maunds at an average rate of Rs. 30·6 per maund in 1890-91.

The Governor General in Council notes the introduction into the Calcutta Mint of new counting tables for pice and pies devised by Colonel Baird, by which the counting has been made practically accurate and much more expeditious, a million of pieces being counted by one of these tables in a working day.

8. *Gain on Copper Coinage.*—The gain on the copper coin passed into circulation during the last five years is shown below:

	Rs.
1887-88	903,187
1888-89	637,195
1889-90	795,992
1890-91	664,192
1891-92	838,308

9. *Operative Losses: Silver.*—After making corrections for fictitious losses and gains, the operative losses for melting and coining in 1891-92 amounted to Rs. 4,725·5 in Calcutta and Rs. 17,759 in Bombay against Rs. 16,515 and Rs. 45,000 respectively in 1890-91, or Rs. 24·1 per lakh coined in Calcutta and Rs. 47·6 per lakh coined in Bombay, against Rs. 84·2 and Rs. 120·8 respectively in the previous year. In consideration, however, of the difficulty experienced in applying accurately the corrections for fictitious losses and gains, both the Mint Masters are of opinion that it would be safer to estimate the rate of loss at from Rs. 22 to Rs. 26 per lakh in Calcutta and Rs. 25 to Rs. 32 per lakh in Bombay.

Copper.—30,795·5 maunds of copper were operated on during the year against 28,647 maunds operated on in 1890-91, and, after accounting for by-products in the form of oxide and precipitate, the operative loss amounted to 4664 maunds, being at the rate of 0·19 per cent. (the rate attained in 1889-90) against a rate of 0·05 per cent. in 1890-91.

10. *Revenue and Expenditure*—The total revenue and expenditure of the two Mints for the last five years are as follows:

Years.	Revenue.							Expenditure.*		
	Seignorage.			Other Receipts.			Total.			
	Calcutta.	Bombay.	Total.	Calcutta.	Bombay.	Total.		Calcutta.	Bombay.	Total.

* The figures under the head of expenditure include the cost of the manufacture of copper coins, but those under the head of Revenue include no portion of the profits on the copper coinage.

Thus the total revenue of both Mints for the year under review fell short of the total expenditure by Rs. 500,789, the deficit being as usual in the Calcutta Mint.

The expenditure on salaries and establishments in the two Mints for the year 1891-92 was Rs. 533,357, being less than that of the previous year by Rs. 29,660, as shown below:

	Calcutta.			Bombay.			Both Mints.

11. *Local and English Stores.*—The expenditure on stores in the Calcutta Mint during the year was Rs. 85,326 and in the Bombay Mint Rs. 82,735 against Rs. 123,217 and Rs. 144,278 respectively in the previous year, showing a decrease of Rs. 37,891 in the Calcutta Mint and of Rs. 61,543 in the Bombay Mint.

12. *Pro formâ charges.*—These indirect charges in the two Mints compare with those of the previous year as follows:

	Calcutta.			Bombay.			Total of the two Mints.		
	1890-91.	1891-92.	Increase + Decrease −	1890-91.	1891-92.	Increase + Decrease −	1890-91.	1891-92.	Increase + Decrease −

The decrease of Rs. 186,916 under the head "Interest" is due to the smaller silver bullion balances awaiting coinage during the year.

13. *Miscellaneous Work.*—The cost of the miscellaneous work done in the Calcutta Mint during the year was Rs. 91,654 and the total realisations Rs. 99,445, giving a net profit of Rs. 7,791 against a profit of Rs. 8,262 in the year previous. In the Bombay Mint the profit realised was only Rs. 773 against Rs. 1,846 in 1890-91, the cost of the work done and the realisations being respectively Rs. 9,172 and Rs. 9,945 against Rs. 14,434 and Rs. 16,280 in the previous year. The most important of these works was the manufacture in the Calcutta Mint of 16,756 silver and bronze war medals and 13,568 silver and bronze war clasps.

14. *Capital Account.*—The balance of the capital account of the Calcutta Mint at the close of 1891-92 stood at Rs. 7,650,450, Rs. 2,828 having been debited to it during the year on account of buildings and Rs. 4,491 on account of plant. To the capital account of the Bombay Mint, Rs. 6,205 were debited during the year on account of buildings and Rs. 31,906 on account of plant, the balance at the close of the year standing at Rs. 3,784,846.

15. *Offences against the Coinage.*—During the year 792 cases were brought to trial for offences against the coinage and 578 persons were convicted, being an increase of 50 over the number of persons convicted in 1890-91. Of these by far the largest number of cases were, as usual, for possessing and delivering counterfeit and altered coin, there being 689 cases tried for those charges and 488 persons convicted against 662 cases tried in the previous year and 446 persons convicted. In 23 cases the charge was actually for counterfeiting coin, 40 persons being tried and 23 convicted against 28 tried and 13 convicted on the same charge last year.

II.—Working of the Assay Offices.

16. *Number of Assays made.*—The total number of gold assays made during the year in Calcutta was 1,569 against 998 in the previous year. In addition to the ordinary assays on small parcels of gold tendered for coinage, there were assays of meltings for a gold coinage and of pyx coins. The total number of silver and miscellaneous assays in Calcutta was 12,423 against 24,865 in 1890-91 and in Bombay 23,434 against 45,179 in the previous year, the decrease being due, as already stated, to the comparatively light work of the year. The miscellaneous assays in the Bombay Assay Office include a number of assays for persons in Native States, three cases of counterfeiting coin, some samples of ore of different kinds sent for assay by persons prospecting, and a considerable number of miscellaneous assays for bankers, merchants, &c.

17. *Assays of Bullion alligated to standard: Silver*—The average fineness of silver meltings for coinage in Calcutta was 916·153 per mille against 916·127 per mille in 1890-91. In Bombay the average fineness was 915·89 as compared with 915·97 per mille in 1890-91.

Gold.—The average fineness of the meltings for the gold coinage in Calcutta was 916·41 per mille against 916·375 per mille in 1889-90, when gold was last coined there. These figures must not, however, be understood to represent the actual fineness of the coinage executed, as gold coins are subjected to the operation of "pickling" in the course of their manufacture, and the fineness of the coins as issued is materially higher. The average fineness of the coins issued in 1891-92 was 916·533 per mille against 916·531 per mille in 1889-90.

18. *Parting assays of Silver Coins.*—The average proportion of gold found in the silver pyx coins at the Calcutta Mint during the year was ·311 per mille as compared with ·422 per mille in 1890-91; and the quantity of gold contained in the whole silver coinage of the year is estimated at about 4,469 tolas or 1,676 troy ounces, worth £7,106. In the Bombay Mint the average proportion of gold found in the silver pyx coins was ·109 per mille against ·127 per mille in the previous year.

19. *Pyx trials of Gold Mohurs.*—The average weight of 30 gold mohurs weighed singly in the Calcutta Mint during the year was found to be 179·913 grains against an average weight of 180·017 grains per mohur coined in 1889-90. The heaviest coin was found to weigh 180·17 grains and the lightest 179·67 grains, 36·66 per cent. of the coins struck being of the exact standard weight of 180 grains. The average fineness obtained from two trials of 9 coins assayed in duplicate gave a mean fineness of 916·533, as stated in paragraph 17.

20. *Pyx trials of Silver Coins.*—In the trials for weight in the Calcutta Mint no coin was found to be beyond the legal remedy in weight, and, while the average weight of all the coins proved to be 179·981 grains, 12·47 per cent. of the total number examined were of the exact standard weight of 180 grains. In the trials for fineness of the coins assayed singly, the extreme variations ranged from 914·7 to 928·6, the average fineness being 916·707; and of the coins assayed in groups the average was 916·864, the highest and lowest figure being 917·3 and 916·4.

In the Bombay Mint no coin was found beyond remedy either in weight or in fineness.

The following statement shows the results of the pyx trials of the two Mints for the year under review:

21. *Pyx trials in England.*—The examination of the pyx coins of the Indian Mints for the year 1890-91 by the Deputy Master and Comptroller of

the Royal Mint at London shows that, as usual, "the standard weight and fineness of the coins have been maintained with accuracy."

22. *Reference Standards.*—In the Resolution on the Reports for 1890-91 it was said that the Assay Masters at Calcutta and Bombay had discovered certain errors in the reference standards used by them, which were ascribed to be due to the oxidation of the gilding applied in England to the weights, and that the Government of India had called for a joint recommendation from the two Assay Masters for the provision of a set of reference standards which might be expected to remain permanently accurate. The recommendation was received in December last, when the following proposals were made:

I. That the gilt bronze reference standards used by the Assay Masters should continue to be used as such after the Bombay weights which had been sent to England to be adjusted had been re-gilded by the mercurial process, burnished, and verified, and the Calcutta weights adjusted against an iridio-platinum primary standard to be obtained from England.

II. That it was not necessary to substitute hard brass reference standards for these gilt bronze weights as recommended by the Standards Department of the Board of Trade, and that in any case, if hard brass weights were required, they could be made as well in this country as in England, and more cheaply.

III. That a set of iridio-platinum weights to be used as primary standards should be obtained from England—

For Bombay of 30, 20 and 10 tolas.

For Calcutta, one only of 30 tolas.

These recommendations were accepted by the Government of India, and indents based thereon were transmitted to the India Office for compliance; but it has since been pointed out that the re-gilding by the mercurial process of the gilt bronze weights would be very troublesome and expensive, and that it is impossible to estimate the time it would take. It has therefore been decided that the weights need not be re-gilt, but that they should be burnished, adjusted, and verified, and then sent out to Bombay.

23. The Governor General in Council acknowledges the efficiency with which the Mints and Assay Departments have been worked and controlled by the officers in charge.

ORDER.—Ordered, that this Resolution be published in the *Gazette of India*. Ordered also, that copies of the Resolution be forwarded to the Mint Masters, Calcutta and Bombay (with printed copies of the two reports on the working of the Mints), and to the Assay Masters, Calcutta and Bombay (with printed copies of the two reports on the working of the Assay Departments).

No. 246, dated Silchar, the 14th July 1892.

From—LIEUTENANT-COLONEL R. H. F. RENNICK, Commanding at Aijal,

To—The Deputy Assistant Adjutant-General, Assam District,

I have the honor to submit, for the information of the General Officer Commanding and such action as he may deem expedient to take, the accompanying report from Captain G. H. Loch, Commandant, Surma Valley Military Police Battalion, on the purely military operations of the Eastern Sonai (Aijal) Column during the recent rising in the Lushai Hills.

2. On the 31st March 1892 I had the honor of reporting to you on the march of the detachment of the 18th Bengal Infantry by the Rengti road to Changsil and Aijal, the timely arrival of which prevented the Western Lushais joining the Eastern Lushais in their rising.

The enemy were gathering in numbers all round as well as growing in boldness, as men were being shot down, two or three a day, at the water *ghats* in the jungles, within a hundred yards of the stockades, and on the line of communications.

3. The situation was most serious, and had to be faced. There was no use asking for further reinforcements, as they would not have reached in time, and the demand would have only alarmed Government and not helped us against the Lushais. Therefore, I determined with Mr. R. B. M'Cabe, Political Officer, North Lushai Hills, to at once clear the water *ghats* and the jungle round the stockades, to ensure our safety, and to complete the Sonai-Aijal road as soon as possible in order to assume the offensive before the rains had set in. The working parties of the 18th Bengal Infantry did most of this work, and made the better half of the Sonai-Aijal road, which hereafter proved so very useful. I also prevailed upon Mr. M'Cabe to give up his idea of proceeding south in two columns against Bungteya, and to attack the group of villages belonging to the powerful Poibois.

These facts have already been noted in my journal of the 30th March 1892, and have, I consider, in no small degree contributed to the success of the subsequent political and military operations.

4. From the date of the arrival of the detachment of the 18th Bengal Infantry at Changsil on the 17th March to the 10th June 1892 the men of both the 18th Bengal Infantry and the Surma Valley Military Police Battalion had a most arduous time of it for three months. The men on an average had a night in bed, and at times were on standing duty. They had to escort convoys, patrol roads and jungles, visit suspicious and refractory villages, keep up some fifty miles of line of communication, and to carry on a constant guerilla warfare. The men of both battalions most cheerfully answered all calls of duty, and behaved spendidly. I beg leave to bring their conduct to the special notice of the General Officer Commanding.

5. I have already noted from time to time in my journal, which I ceased to submit after the return of the Eastern Sonai Column to Aijal, the various measures I had taken at Aijal and Changsil to provide shelter and guard against sickness and also the efforts made to keep Mr. M'Cabe in the field as long as possible to enable him to make a finish of the political negotiations.

6. Captain Loch showed considerable ability, dash, and discretion in the conduct of all the operations and night marches in a country physically the most difficult in India troops were ever called upon to serve in, especially at a time of the year when the rainy season had set in. As an officer of the regular army, although in civil employ, I would beg leave to submit his name for the favorable consideration of the General Officer Commanding, as well as those of

Lieutenants R. M. Edwards, 18th Bengal Infantry, and H. C. Tytler, 11th Bengal Infantry, and Surgeon-Captains J. F. Evans, M.B., and H. B. Melville, M.B., he mentions in his report.

7. I would also beg to mention the names of Captain G. S. Goldsmid, who held Changsil during a very trying part of the year, and carried out all orders and requisitions to my entire satisfaction; and Conductor Brown of the Commissariat Department, who had charge of the transport bullocks, and handled them judiciously.

No. 601.

Forwarded to the Adjutant-General in India. Colonel Rennick's report speaks for itself, and I presume that Mr. M'Cabe's report as Political Officer in charge of the Lushai operations will be sent in to Government, and a copy of it sent me. Until I receive that, I would prefer not making any remarks, except that from the duty state of the detachment of the 18th Bengal Infantry in Lushai I am able to state that Surgeon-Captain Evans must have paid most careful attention to the health of the troops,—an all-important factor in a climate like that of Lushai.

SHILLONG; *The 19th July 1892.* } G. N. CHANNER, *Brigadier-General, Comdg. Assam District.*

Dated Fort Aijal, North Lushai, the 29th July 1892.

From—CAPTAIN G. H. LOCH, Commandant, Surma Valley Military Police Battalion,

To—The Officer Commanding at Aijal.

I have the honor to submit the following report on the operations of the Eastern Sonai (Aijal) Column during the recent rising in the Lushai Hills.

The column was composed as follows:

	75	rifles of the 18th Bengal Infantry, under Lieutenant Edwards;
	225	rifles of the Military Police under Lieutenant Tytler, Assistant Commandant, Military Police, with Lieutenants Roddy, 42nd Gurkha Rifles, and Johnson, 5th Gurkha Rifles, attached to the Military Police;
Total	300	

Surgeon-Captains Evans, 18th Bengal Infantry, and Melville, Civil Surgeon, North Lushai, accompanying the column as medical officers: 140 rounds of ammunition per man was taken,—75 rounds on the man, 65 by the *coolies* in reserve, [illegible] Khasia *coolies* provided the transport.

[illegible] Aijal, and marched to the Sonai river, distance twelve miles, camping on the banks of the stream. The enemy fired at the flanking parties of the advance guard on the road down, doing us no damage. On the 11th, about mid-day, Fort Aijal was reached, the whole column with difficulty finding accommodation. On the night of the 12th the enemy fired several shots over the fort, doing no harm.

As the moon was full, it was decided to make a night march towards Poiboi's villages with the object, if possible, to surprise them. The column [illegible] marched at 7.30 on the evening of the 13th. In order to draw off the enemy's attention, a force of 50 men, under a native officer, from the garrison of the fort, made a reconnaissance in the opposite direction to the march of the column, along the road to Bungteya's villages. They came across the enemy in some force, and, driving them back along the road, returned to the fort just before the march of the column.

The march of the latter along the road to Poiboi was much delayed owing to night-blindness amongst the *coolies;* so much so, that after 13½ hours' continuous marching the column found itself at 9 o'clock the next morning on the banks of the Tui Rini stream, still five miles and a half short of Poiboi's villages. As the *coolies* were tired out, a halt had to be called and camp formed on the banks. During the day a few of the enemy were seen to the west of the stream, and driven across the river.

At 2 o'clock on the night of the 14th camp was struck, and the advance on Poiboi continued. After a steep ascent of two miles and a half the enemy opened fire on the head of the column from a hill flanking the left of the road, and a short time afterwards from a stockade directly to our front. We kept down their fire by steady volleys from the main body of the 18th Bengal Infantry, and the advance guard of Military Police, after a few volleys, rushed the stockade in our front. Our casualties were one sepoy of the Military Police mortally wounded. The advance was continued up the ridge, but before the top was reached the enemy had succeeded in setting fire to the village of Labehnias, an outlying village of Poiboi's. The main village, at which greater resistance was expected, was about two miles distant, and after a short halt the advance was continued. A main stockade and two smaller flanking ones had been constructed by the enemy commanding the road. These were soon carried, the enemy only holding them in a half-hearted manner. As they bolted, the enemy set fire to the village in several places, and an advance of the column at the double was made to try and save accommodation for the troops. About 30 houses were saved out of 800—25 at each end of the village. As the north end was the better position of the two, it was decided to occupy it; the southern end was therefore burnt. From the 14th April to the 29th April the column halted at Poiboi's.

During that time small parties were out continuously, and destroyed all the grain that could be found. Large quantities were also found hidden in the village and burnt. Small parties of the enemy were frequently come across by our [illegible] each—one under Lieutenant Edwards, 18th Bengal Infantry, with Lieutenant Roddy, and one under myself, with Lieutenant Tytler—left Poiboi's,—the former to scour the country near the Sonai as far as the site of the old Sonai bazar; and the latter, the valleys of the Chilfel range. Both parties returned on the 28th to Poiboi's, having been successful in surprising encampments of the enemy and capturing a large amount of live-stock, clothing, guns, *dahs* &c.

On the 30th April the column left Poiboi's village, burning the houses which had been occupied. Rain had been descending steadily all the morning, making the marching heavy and

difficult; one stream had to be crossed waist-high six times in two miles, and the crossing of the Tui Rini river occupied six hours, the only means of crossing being an old cane suspension bridge, which was so rotten that only half a dozen men could go across at one time. The column did not get into Lalbura Fort till 6 A.M. the next day, having been continuously on the march for twenty-three hours without a halt; but the men and transport stood it wonderfully well, not a man or a *coolie* falling out.

From the 1st to the 5th May the column halted at Fort Lalbura, preparing for the advance on Bungteya. Convoys had to be sent to the post on the Sonai to bring up rations required for the force. These were stored at Fort Lalbura, to be taken on subsequently to Bungteya.

Owing to sickness amongst the *coolies*, the force for Bungteya had to be reduced to 250 rifles. The moon again serving, it was decided to make another night march.

The column left Fort Lalbura at 7-30 on the evening of the 6th May, and at daybreak had got within six miles of Bungteya. After a short halt, to enable the troops to have some food, the advance continued. About three miles from Bungteya the first of a series of stockades was come across. Much judgment had been exercised by the enemy in the choice of positions for these stockades, and they were strongly and scientifically built. The enemy was evidently taken by surprise, as the first three stockades were not held. The fourth stockade was, however, occupied, and was for a time obstinately held. A rush by the advance guard of Military Police, closely supported by the 18th Bengal Infantry, covered by volleys from the main body, caused the enemy to abandon it and bolt, and they were pursued by a small party of Military Police down the hill-side. The road to the village, which lay some 1,000 feet below the ridge, and about 1,000 yards to the east of it, was now open. A party of the 18th was told off to fire long distance volleys on any groups of Lushais they might see in the village in order to prevent them setting fire to the houses. In the meanwhile the column descended the ravine, and, ascending the spurs leading to the village, captured it without difficulty.

The northern part of the village, being on an isolated knoll, and sufficient for the accommodation of the troops, was occupied; the remainder, consisting of about 350 houses, being burnt in the evening.

The column halted at Bungteya from the 7th to the 23rd May, pursuing the same tactics as at Poiboi's.

On the 11th May, a force of 100 rifles of the Military Police, under myself, surprised at night the village of Chinleya, and, camping in the village that night, returned the next day to Bungteya, bringing in the headmen of Chinleya.

On the 24th May, the column, leaving 75 rifles under Lieutenant Roddy to occupy Bungteya, marched to Saitol village, situated to the east of Bungteya, about twelve miles off. The reception at this village was friendly, the people supplying us with pigs, goats, &c. The next day the advance on Maité village was commenced at daybreak. An ascent of 2,000 feet brought us to the Saitol Klang ridge, whence the road runs along the crest towards Maité. We passed about 1,000 feet above the village of Chinleya, which the enemy commenced burning, evidently thinking that the village was our objective. At Maité, however, we knew that the Chief Lalbura had collected the remnant of his fighting men; so we left Chinleya to burn itself out. About six miles from Maité, at a very difficult and precipitous part of the path, the enemy had erected a strong stockade. Although they were in the act of completing it as we advanced (they were actually working on it), they held it for sometime, and it was with some difficulty that we could bring any front of fire to bear. The stockade was eventually rushed by the advance guard, without loss on our side. Leaving the stockade, the road led down a long spur, and across *jhúmed* land to Maité At the ridge below the village the enemy were seen, and commenced shouting at us, saying they had no wish to fight; but as we knew this was only a ruse to gain time for their men to come up, we ascended the path to the village, sending round a flanking party on our right. As we neared the top of the ridge, the Lushais opened a hot fire on us from an ambuscade on the left of the road, luckily without any casualties on our side. They were soon driven back, and the village, still half a mile away, was rushed at the double, the enemy firing at us from behind their houses and from the jungle flanking the village.

The column halted at Maité from the 26th to the 29th, sending out small parties daily and destroying large quantities of grain. A large number of goats, pigs, and *mitun* were shot in the village, and eaten by the troops and transport *coolies*.

On the 28th May a party of 80 rifles, under Lieutenant Edwards, surprised an encampment of the enemy on the site of old Maité village (ten miles to the north-east of Maité village), driving them off in the direction of Leukom.

The column left Maité on the 30th May, reaching Bungteya the same day.

On the 1st June Fort Lalbura was again reached, the column finally returning to Aijal on the 8th June, having been absent nearly two months.

In conclusion, I would point out that for the sake of brevity I have mentioned the bare outlines only of the operations. During the greater part of the time the weather was exceedingly unfavourable to the troops, and the manner in which the work was done, and the cheerful spirit in which difficulties and discomforts were faced by all ranks, was beyond all praise.

Though our casualties were few, it would be unfair to infer therefrom that the risks were not great. We had fighting against us a powerful combination of at least four of the strongest of the Eastern Sonai villages, who, at the lowest computation, could have put into the field 1,000 men, all armed with guns, and probably half as many again would not be beyond the mark.

I attribute the smallness of our loss entirely to the fact that our careful flanking, prompt rushing of stockades, and the numerous small parties sent out daily for a distance of some miles from our various halting-places demoralized the enemy, and gave them little or no time for concerted action.

Where all, both officers and men, behaved so well, it may be perhaps invidious to single out individuals; but I feel bound to mention particularly the names of Lieutenants Edwards, 18th Bengal Infantry, and Tytler, Military Police, who by their dash and promptitude in action ensured the success of the operations. Of the services rendered to the column by Surgeon-Captain Evans, M.B., 18th Bengal Infantry, who acted as senior medical officer, I cannot speak too highly. By his untiring energy in camp and on the march, and by his careful treatment of the men, he undoubtedly enabled the force to keep as efficient as it did during a most trying and unhealthy season of the year.

NOTE.—I have not attempted to compute the loss inflicted by us on the enemy, as the well-known custom of the Lushais in invariably carrying off their dead and wounded renders it impossible to make any reliable estimate.

That they lost heavily from the beginning to the end may be assumed from the fact that they own to losses greater than we had anticipated, and their estimate to us would naturally be rather under than over the mark.

No. 706,—"*Field Operations—Lushai*,"—dated Shillong, the 5th August 1892.

From—BRIGADIER-GENERAL G. N. CHANNER, C.B., V.C., Commanding the Assam District,

To—The Adjutant-General in India.

With reference to your *Field Operations—Lushai* No. 4889-A, dated 29th July 1892, I have honor to record the following on the reports furnished (and attached) by Lieutenant-Colonel Rennick, 18th Bengal Infantry, and Captain Loch, Military Police.

2. From personal communication with Mr. M'Cabe, the Political Agent in charge of the Lushai operations, and who arrived on duty in Shillong at the end of June, I am enabled to state, for the information of the Right Hon'ble the Commander-in-Chief, that excellent service was rendered throughout the operations by Lieutenant-Colonel Rennick and his detachment of the 18th Bengal Infantry, and that this officer worked in complete harmony with the Political Agent in an undertaking which was essentially a civil affair. Lieutenant-Colonel Rennick gave the greatest assistance in pushing up convoys of provisions, in employing his men in road-making, in sanitation and housing of the troops, and in keeping the Western Lushais in check.

3. The detachments of the 18th Bengal Infantry employed separately on punitive expeditions were under command of Lieutenant and Adjutant R. M. Edwards, and did good service throughout. The officers attached for duty to the Police—namely, Lieutenant H. H. Roddy, 42nd Gurkha Rifles, and Lieutenant C. R. Johnson, 1-5th Gurkha Rifles—were also reported to me by Mr. M'Cabe as having done willing and good work. I regret to state that Lieutenant Johnson's health completely broke down on return to the base, and that he will have to be invalided home from the effects of malarious fever contracted on service.

4. As regards Surgeon-Captain J. F. Evans, M.B., 18th Bengal Infantry, I have much pleasure in reporting, for Lord Roberts' information, the unremitting care this officer displayed towards the sick of all ranks. To Surgeon-Captain Evans' energy and watchful care the 18th are indebted for a low sick report in a notoriously unhealthy part of the world. I have already myself thanked Surgeon-Captain Evans in District Orders for his medical zeal and energy, and trust that Lord Roberts will feel that this officer's services are worthy of being brought to the notice of Government.

5. Of Captain Loch, commanding the Sonai Military Police, I have no personal knowledge, but he agrees in his report with my recommendations regarding Lieutenants Roddy and Johnson and Surgeon-Captain Evans.

6. Finally, in my capacity as General Officer Commanding the Assam District, I beg to place on record my high sense of the able and cheerful manner in which Lieutenant-Colonel Rennick worked his detachment, composed as they were of Hindustanis from the plains, unused to dense jungle hills; and I am aware that Mr. M'Cabe agrees with me in thinking that a large measure of the success attained by the Lushai operations was due to Lieutenant-Colonel Rennick's zeal, energy, and hearty co-operation, and I beg to bring his name forward for the favor of Lord Roberts' consideration.

No. 245-T., dated Simla, the 19th October, 1892.

RESOLUTION—By the Government of India, Public Works Department.

Review of the Administration Report of the Indo-European Telegraph Department for the year 1891-92.

Read—

Letter from the Director General of Telegraphs, No. 801 I. E., dated the 26th September 1892, and its enclosure, the Report for 1891-92.

OBSERVATIONS.—The Capital Account of the Department, which stood at Rs. 1,14,33,245 at the beginning of the year under review, amounted at its close to Rs. 1,15,15,094, an increase of Rs. 81,849. The increase is mainly due to a payment of Rs. 70,918 on account of the extension of the Persian Concession, and partly to the purchase of buildings at Shiraz and to the construction of a new fresh water tank at Ormara.

2. The net message revenue earned during the year under review on Indian, Trans-Indian, and Local Traffic amounted to Rs. 14,84,714, but this was reduced by the following adjustments to Rs. 11,50,497, which are the net message receipts of the year:

Adjustments.

	Rs.
Receipts on Joint Purse Account	+6,76,782
Payments on ditto ditto	—8,69,675
	—1,92,893
Payable on account of interruptions *vid* Turkey ...	—463
Exchange	—83,967
Total Joint Purse ...	—2,77,323

Australian Message Fund.

Loss on contribution	...	—39,726
Exchange	...	—17,251
Total Australian Message Fund	...	—56,977
Profit and Loss	...	+83
Net Adjustments	...	—3,34,217

To the net message receipts an addition has to be made of Rs. 9,985 on account of Miscellaneous Receipts, making the total Revenue Receipts Rs. 11,60,482. The traffic earnings were higher by Rs. 2,18,489 than in the previous year owing to a larger number of messages having been carried. The balance against the Department on the Joint Purse Account, which was Rs. 2,43,832 in 1890-91, rose to Rs. 2,77,323, an increase of Rs. 33,491, of which Rs. 23,924 were on account of exchange, Rs. 9,319 on account of the division of receipts, and Rs. 248 on account of interruptions *viâ* Turkey.

3. The gross revenue charges amounted to Rs. 9,98,448 against Rs. 10,72,203 for 1890-91. The decrease is mainly due to the larger portion of the renewals of Persian Gulf cables having been completed in 1890-91. The year's transactions thus show a net profit of Rs. 1,62,034 as compared with a loss during the previous year of Rs. 8,734. The net profit is equivalent to a return of 1·4 per cent. on the capital outlay.

4. The working expenses of the year under review are compared in the following statement with those of the previous four years :

YEAR.	REPAIRS.		Cable Steamer.	Miscellaneous.	Establishment.	Apparatus and Plant.	Office Expenses.	Store-keeping Charges.	Subsidies.	Administrative Charges.	TOTAL.
	To Line and Buildings.	To Cable.

5. The percentages of gross traffic carried by the Suez and Indo-European routes during the last three years are respectively as follows :

	INDIAN TRAFFIC.		TRANS-INDIAN TRAFFIC.	
	Viâ Suez.	*Viâ* Indo-European.	*Viâ* Suez.	*Viâ* Indo-European.
1889-90	49·92	50·08	82·89	17·11
1890-91	46·67	53·33	83·21	16·79
1891-92	43·52	56·48	80·75	19·25

6. The cable steamer *Patrick Stewart* made eight trips, lasting 100 days, during which she steamed about 7,900 knots. On 1st April 1891 one fault

which could not then be localised was awaiting repair, and five new faults occurred during the year. Of these six faults, five were removed during the year, leaving a small one of very high resistance, which does not in any way interfere with the work.

7. The following statement shows the division of the messages tendered for transmission during the last two years :

		1890-91.	1891-92.
State	Messages	2,646	3,318
	Words	67,150	1,05,353
	Average words per message ...	25	32
Commercial and private	Messages	1,17,443	1,22,037
	Words	14,77,231	15,77,445
	Average...	12·6	12·9
Press	Messages	2,246	1,323
	Words	74,401	45,979
	Average...	33	34
London Times ...	Messages	313	411
	Words	53,342	82,178
	Average...	170	200

8. The average length of private messages has increased owing to the reduction in the Australian tariff.

The percentage of errors in the Persian Section was 0·385 and in the Gulf Section 0·215. The accuracy of transmission between Karachi and Teheran thus amounts to 99·4 per cent. There were 98 complaints of error, delay, and non-delivery against 104 in the previous year.

9. There were no interruptions which stopped traffic in the Persian Gulf Section, while in the Persian Section all wires were simultaneously unworkable on one occasion only, the interruption lasting for 5 hours. The number of acts of wilful damage in the Persian Section was 185 against 40 during the previous year. The increase is attributed to the year having been one of disturbance and excitement in Persia, but compensation was received as usual, and the good relations existing between the Persian authorities and the employés of the Indo-European Department were in no degree affected.

10. The average monthly mean rate of transmission between the United Kingdom and Karachi compares as follows with that in previous years :

	Viâ Teheran.		*Viâ* Turkey.	
	H.	M.	H.	M.
1887-88	0	55	15	54
1888-89	1	4	19	28
1889-90	0	59	12	14
1890-91	0	59	10	25
1891-92	0	59	16	12

The percentages of traffic sent by the two routes were respectively 92·37 and 7·63.

11. The Administration Report was received by the Government of India on the 27th September, or considerably earlier than on any previous occasion since the control of the Indo-European Department was undertaken by the Director General of Telegraphs in India. The Department has been administered throughout the year to the satisfaction of the Government of India by Mr. W. R. Brooke, the Director General. The Government of India is pleased to notice that the officers and staff of the Department have performed their duties to the entire satisfaction of the Director General. Mr. Ffinch and Lieutenant-Colonel Wells, the Directors of the Persian Gulf and Persian Sections respectively, are specially mentioned, and Mr. Possmann and the staff of the *Patrick Stewart* have done good work in cable laying, while Messrs. Fahie and Fargues upheld the credit of the Department at Shiraz and Teheran.

ORDER.—Ordered, that a copy of this Review be forwarded to the Director General of Telegraphs for information.

Also that copies of the Report and Review be forwarded to the Home Department of the Government of India and to the Government of Bombay for information.

Ordered further, that the Report and the Review be forwarded to the Secretary of State for the information of Her Majesty's Government, and that the Review be published in the *Gazette of India*.

FIELD OPERATIONS.

BURMA.

No. 1015.—The Most Hon'ble the Viceroy and Governor-General in India in Council is pleased to direct the publication of the subjoined correspondence, including a letter from the Adjutant-General in India, submitting, under the orders of the Commander-in-Chief in India, reports received from the Commander-in-Chief, Madras Army, and the General Officer Commanding the Burma District describing the operations carried out in the Chin Hills and on the North-Eastern Frontier of Burma in 1891-92.

2. It is to be understood that the reports now published are not "despatches."

No. 3235-B, dated Simla, the 7th October 1892.

From—The Secretary to the Government of India, Military Department,

To—The Adjutant-General in India.

I am desired to acknowledge the receipt of your letter No. 5140-A,—"*Field Operations—Burma*,"—dated the 13th August 1892, submitting, for the consideration of the Government of India, letters received from the Commander-in-Chief, Madras Army, containing reports descriptive of the operations carried out in the Chin Hills and on the North-Eastern Frontier of Burma during the season of 1891-92.

2. In reply, I am to say, for the information of the Commander-in-Chief, that the Government of India concur in His Excellency's opinion as to the satisfactory manner in which the operations were carried out, and consider that great credit is due to the officers and troops who took part therein. The Government of India also cordially acknowledge the services rendered by the Nwengal Column in its forced and difficult march under the command of Captain Rose, 39th Bengal Infantry, from Botong to Lungleh; also by the detachment under Lieutenant Harrison, Royal Engineers, which gallantly defended the Sadon post against the repeated attacks of the Kachins.

No. 5140-A,—"*Field Operations—Burma*,"—dated 13th August 1892.

From—The Adjutant-General in India,

To—The Secretary to the Government of India, Military Department.

I have the honor, by direction of the Commander-in-Chief, to submit, for the consideration of the Government of India, the accompanying letters,* with enclosures, from the Commander-in-Chief, Madras Army, containing reports descriptive of the operations carried out in the Chin Hills and on the North-Eastern Frontier of Burma during the season of 1891-92, to which sanction was accorded by Government in letter No. 3148-B, dated 31st October 1891, to the address of the Chief Commissioner of Burma.

*No. 2331-W, dated 31st July 1892.
No. 2332-W, dated 31st July 1892.

2. Lord Roberts fully concurs with the Commander-in-Chief, Madras Army, in his estimate of the satisfactory results of the operations and in the commendations bestowed on Major-General R. C. Stewart, C.B., Commanding the Burma District, and on Major J. H. Sewell and Major H. B. Jeffreys, Assistant Adjutant-Generals of the Mandalay and Myingyan Districts, respectively, on whom fell much of the work in connection with the organisation of the several columns, and on the officers and troops who took part in the operations.

3. The operations were attended with but little open resistance on the part of the tribes, but the forced and timely march of the Nwengal Column under Captain H. Rose, 39th Bengal Infantry, from Botong to Lungleh in relief of Captain Shakespear, Superintendent, South Lushai Hills, and the gallant defence of the Sadôn post by a handful of men under Lieutenant T. Harrison, Royal Engineers, against repeated attacks by the Kachins are incidents that stand out prominently and deserve special mention.

4. His Excellency is of opinion that these reports should not be published as despatches, but treated as reports, as in the case of the reports on the operations of the season 1890-91, which were forwarded to Government under cover of this office No. 5073-A, dated 25th July 1891.

5. His Excellency's recommendations for rewards will be submitted for the consideration of Government separately.

No. 2331-W,—"*Field Operations—Burma*,"—dated 31st July 1892.

From—LIEUTENANT-GENERAL THE HON'BLE SIR J. C. DORMER, K.C.B., Commander-in-Chief, Madras Army,

To—The Adjutant-General in India.

I have the honor to forward herewith the two reports noted in the margin received from Major-General R. C. Stewart, C.B., Commanding the Burma District, together with the reports from officers who commanded columns (*a*) during the past season (1891-92) in the Chin Hills and on the North-Eastern Frontier of Burma.

No. 179-D, dated 6th June 1892.
No. 180-D, dated 7th June 1892.

2. I would express my concurrence with the opinion held by Major-General Stewart as to the excellent work done by the various columns and the soldierlike spirit displayed by all ranks of the troops engaged.

3. The gallant defence of Sadôn by the force under Lieutenant Harrison, Royal Engineers, and the plucky march of the small party under Lieutenant MacMunn, Royal Artillery, from Hpong to that post, I have already brought to the notice of the Commander-in-Chief in India; whilst the arduous march of the column under Captain Rose, 39th Bengal Infantry, from Botong to Lungleh to assist Captain Shakespear has already been the subject of His Excellency's commendation.

4. The object aimed at by the several columns seems to have been most satisfactorily attained—a result due not only to the spirit, energy, and endurance of the troops employed, but also to the ability and forethought with which all was arranged and carried out by Major-General Stewart, whose valuable services I would again bring to His Excellency's notice.

5. I would also endorse the recommendations made by Major-General Stewart as to officers whose services he has specially brought to notice, and express my hope that these may meet with due recognition.

(*a*) Not published.

No. 179-D,—"*Field Operations—Burma*,"—dated Rangoon, the 6th June 1892.

From—MAJOR-GENERAL R.C. STEWART, C.B., Commanding the Burma District,

To—The Adjutant-General, Madras Army.

I have the honor to submit the reports (*a*) of the Officers Commanding the Columns which have been operating in the Chin Hills during the last season, together with a summary of the movements of each column prepared by the General Officer Commanding the Myingyan District.

2. The character of the operations, the reports of which are now submitted, differ from those of the season of 1890-91 in so much that, whilst in 1890-91 the various expeditions grew out of the aggressive attitude and treacherous conduct of the tribes, and were organized on the spur of the moment, the operations of the past season were the result of consultation between the civil and military departments, and were carefully planned and prepared.

3. The references which of necessity were made to the Commander-in-Chief and to the Government of India, and the arrival of the Cooly Corps from Darjiling at a later date than had been originally desired, caused some delay in the date on which the troops took the field, but that did not in any way prevent the work of the operations being carefuly completed. Indeed, I may say that more has been done, for, in addition to that plan of operations which was at first prepared, the Kanhaw Column has marched from Fort White to Manipur, and the Nwengal Column has penetrated from the Northern Chin Hills to the Lushai country, returning by Cachar and Rangoon. I need not remark on the original operations of the Kanhaw and Nwengal Columns, for full information will be found in the reports which are enclosed (*a*) as well as in the summary of the General Officer Commanding the Myingyan District (*a*), and when the maps and reports of the Intelligence Officers who accompanied the columns are completed, it will, I trust, be found that much information of unknown tribes and countries has been obtained, and many blanks in the map accurately filled in; but I would wish to express my satisfaction with the officers who controlled and successfully carried out the march of the Kanhaw Column from Tiddin to Manipur, and that still more arduous march from Botong to Daokhoma, Lungleh, and through the Lushai country to Chittagong.

4. As regards the former operation, it is remarkable to remember that in the beginning of 1891 nothing was known of the country north of Fort White beyond the limit of the operations of Brigadier-General Faunce's column in 1889, and that now the country of the Tornlongs on the north-west, Haitsi and Lopa on the north-east, to Yazagyo in the Kubo Valley have been penetrated and the country mapped, while northwards a column has marched unopposed, *vid* Tiddin, Tungzang, and Lenacot, into the valley of Manipur and to the town of Imphal.

5. The march of the Nwengal Column, under Captain H. Rose, 39th Bengal Infantry, from Botong to Daokhama and Lungleh is a still more remarkable feat. The position of Captain J. Shakespear, Superintendent, South Lushai Hills, at Vansanga (from the information received) seemed so precarious, and the call for assistance so urgent, that it was necessary to strain every effort to support him. This was only done by moving off the Kalemyo-Fort White line every available mule, and thus risking inopportune delay in the rationing of the posts in the Northern Chin Hills, and by the engagement of every available *coolie* to take their place; but no efforts of this sort would have availed if it had not been for the forethought and judgment of Captain Rose, whose experience of operations in the Chin Hills enabled him to appreciate the necessities of the movement, and but for the firmness and promptitude with which Mr. B. S. Carey, Political Officer, treated the tribes, and was thus able to supply a great portion of the necessary transport by the employment of Chin *coolies*.

I need refer no further here to the march of this column into the Lushai country. It is detailed in full in Captain Rose's report (*a*); but I wish to express my admiration of the determination displayed by all ranks in overcoming the difficulties, and of the fortitude with which they endured the hardships of the road—hardships which must have been of no mean order if it is right to judge by the appearance of the men of the column when they landed in Rangoon.

6. I must here make special mention of the Botong affair. When the Nwengal Column moved out to Nikwe towards Lushai, I left a post of 100 men of the 10th (Burma) Madras Infantry at the former place partly as a reserve to the column in case it required assistance, and partly to hold open the communications with Fort White and to prevent attacks on the rear of the column. This post was subsequently attacked, and when Captain G. B. Stevens, 4th Madras Infantry (Pioneers), moved out from Fort White to the assistance of Lieutenant J. Henegan, 10th Madras Infantry, he was attacked when endeavouring to cross the Nankathé river. Captain Stevens graphically describes the affair in his report (*a*), and brings to notice the gallantry of the pioneers,* who swam across the river and repaired the bridge, and I trust these men will meet with the reward they deserve.

*No. 2432, Private Mallary.
No. 2517, Private Munisamy.

(*a*) Not published.

The columns (as per margin) which have operated in the Southern Hills have been invariably successful, and the reports which are enclosed (*a*) show a record of hard work and successful arrangement in the face of considerable difficulties, which reflects the highest credit on the commanders. It is much to be regretted that the sickness in the Baungshè Column was so severe, and it would certainly have been better to have timed the departure of this column to a later date. It is remarkable that throughout these operations there has been no open resistance on the part of the tribes, and not a single instance has occurred of individuals being attacked on the road, which during former years was so common.

2 British officers, 100 rifles,—4th King's Royal Rifle Corps.
2 British officers, 150 rifles,—12th (Burma) Madras Infantry.

Yawdwin Column.

Lieutenant MacC. R. E. Ray, 7th Bengal Infantry, Commanding.
1 Native officer, 71 rifles,—7th Bengal Infantry.
10 rifles, mounted infantry,—7th Bengal Infantry.

7. I wish to place on record the appreciation I have for the officers and men of the 4th Battalion, King's Royal Rifle Corps, who have served in the several expeditions in the Chin Hills during the past season. They have done most excellent work and displayed a keenness which was pleasant to see. I would wish specially to bring to notice Captain W. D. Stuart, Lieutenant C. L. E. Eustace, and Second-Lieutenant W. J. Long, who accompanied the column to Lushai.

The 12th (Burma) Madras Infantry has done excellent service wherever it has been employed.

It is with much pleasure that I again record the high opinion I hold of the 39th Bengal Infantry (Garhwal Rifle Regiment). Their conduct has been exemplary in quarters, and in the field it is the admiration of all officers who have served with them.

The 4th Madras Infantry (Pioneers) have earned a name for themselves of which they may well be proud. At the work of pioneers they are excellent, and in willingness, powers of marching, and general endurance cannot be beaten; they have always shown a fine spirit in the field, and are a brilliant example of what a regiment can be made by its officers.

8. I wish to bring to notice of the Commander-in-Chief for special reward the services of Captain G. B. Stevens, 4th Madras Infantry, and Captain H. Rose, 39th Bengal Infantry.

The former has served for two seasons in the Chin Hills. He is of untiring energy: on this occasion he has superintended the whole of the pioneer work in the Northern Hills; he has commanded the Kanhaw Column with success, as well as the column which marched to Imphal; he commanded in the Botong affair, and led the attack on the village of Haili. To himself, I consider, is mainly due the excellent spirit in the 4th Madras Infantry (Pioneers).

Captain Rose has done excellent service on all occasions in the Chin Hills. He officiated as political officer at Fort White last year, and by tact and judgment kept the tribes in the vicinity in due subjection; he has commanded the Nwengal Column and that which marched from Fort White to Lushai, and by his excellent arrangements carried this force through a crisis which without due forethought might have had disastrous results.

I also beg to bring to notice the particularly good services rendered by the Native officers as per margin. Subadar-Major Bhupal Thápa has done excellent service with the Nwengal Column, and from his former experience in the Lushai campaign of 1871 was of the greatest help to Captain Rose.

Subadar-Major Bhupal Thápa, *Bahadur*, 39th Bengal Infantry.
Subadar Abdur Rahim, 4th Madras Infantry.
Jemadar Abdullah Khan, 4th Madras Infantry.

Subadar Abdur Rahim, 4th Madras Infantry, has done excellent work under Captain Stevens. He has unfailing energy and resource. In the Botong affair he superintended the building of the raft by which the garrison was brought in safety across the Manipur river, and he has displayed an admirable coolness under fire at a critical moment.

Jemadar Abdullah Khan was in sole command of the detachment of the 4th Madras Infantry which accompanied the Nwengal Column to Lushai. This party under this Jemadar, the first on the move, and the last into camp each day, did pioneer's work for the column on the march from Botong to Vansanga and Lungleh, which has been described to me as admirable, and this officer's conduct in particular as splendid. His control over his men and his energy stamps him as an officer of merit. I recommended these officers for special recognition.

The officers who commanded the columns as per margin have all shown ability and energy, and I trust their services may be acknowledged.

Lieutenant W. R. Festing, Royal Irish Fusiliers, has again commanded the Darjiling Cooly Corps, and again evinced judgment and discretion in dealing with these people.

Lieutenant J. K. Watson, 4th King's Royal Rifle Corps, who took up the duties of Transport Officer with the *coolies* in the Southern Hills after the death of Captain J. St. J. Knowles, Royal Irish Regiment, has managed the corps with judgment and energy, and I trust his services may also be acknowledged.

The medical officers who have served with the columns and at the rest-hospitals are reported as having performed their duties with ability and energy. I would specially bring to notice the services of Surgeon-Captain C. L. Williams, M.D., Indian Medical Service (Madras), who has served on the Northern Hills during two seasons, who served with the Kanhaw Column on its march to Imphal, and whose acquaintance with the tribes has been of material service to them, and Surgeon-Captains Dobson and Doyle, who accompanied the Nwengal Column to Lushai.

Surgeon-Captain C. A. Johnston, Indian Medical Service (Madras).

The Transport Officers who have been in charge of the Government mules on the lines of communications (Captain G. Rippon, 29th Madras Infantry, in the north; Captain G. P. Stewart, Royal Inniskilling Fusiliers, in the south) have performed arduous duties with skill and energy, and are worthy of commendation. Captain Rippon accompanied the Lushai Column from Fort White to Chittagong, and to his care and energy it is due that the loss in mules was not greater.

9. Though somewhat outside the province of a report of military operations, this report would be incomplete if I did not acknowledge how much of the success of those in the north is due to Mr. B. S. Carey, Political Officer, Northern Chin Hills. By his firmness and judgment in his treatment of the tribes he has them all in due subjection, and he has taught them the advantages of submission to our control, and by his tact, consideration, and cordial co-operation with the military he has gained the confidence and esteem of every officer with whom he has served, and their acknowledgment of the great value of his services.

The work of the officers attached to the Intelligence Branch will be hereafter treated of; but I beg specially to bring to notice the services of Major M. C. B. F. Walker, King's Royal Rifle Corps, who accompanied the column from Botong to Lushai. It is reported to me that he has done a large amount of most satisfactory work in the face of extreme difficulty, and I am glad to be able to express my appreciation of the zeal which prompted him to volunteer for so arduous an undertaking.

No. 180-D, dated Rangoon, the 7th June 1892.

From—MAJOR-GENERAL R. C. STEWART, C.B., Commanding the Burma District,

To—The Adjutant-General, Madras Army.

I have the honor to submit the reports (*a*) of the Officers Commanding the columns as per margin, which have been operating during the season of 1891-92 on the North-Eastern Frontier of Burma, together with the report of Brigadier-General M. W. E. Gosset, C.B., Commanding the Mandalay District, from which district the troops for these operations were drawn.

Maingkhwan Column.
Irrawaddy Column.
North-Eastern Column.
Eastern Column.

2. These operations originated in proposals which were submitted by the Commissioner of the Northern Division to the Chief Commissioner urging the desirability of exploring those tracts to the north, north-east, and north-west of Bhamo, of which little was known, and of bringing under British influence those tribes within our undoubted border which had not yet acknowledged our supremacy.

3. The general scheme of operations which was for the most part adopted will be found in my letter to the Quartermaster-General, Madras Army, No. 755-F, dated 18th August 1891, the only alterations being that subsequent to the submission of that letter another column was added to those detailed, and called the Irrawaddy Column

4. For ready reference I will deal with the work of the several columns in the order in which they stand in my letter to the Quartermaster-General, Madras Army, of the 18th August 1891, No. 755-F, and in Burma District Order No. 1, dated the 12th September 1891, in which full instructions for the formation of the columns were issued.

5. *Maingkhwan Column.*—This column, strength as per margin, rendezvoused at Mogaung on the 10th December, the object to be attained being to explore the Amber Mines, to march to Maingkhwan, and then to explore the district to almost unknown Hukong Valley, returning to Mogaung *viâ* the Jade Mines. Major the Hon'ble A. E. Dalzell in his final report (*a*) gives a graphic summary of the people and the country which his column visited, but scarcely enters into the operations of the columns so much as might be wished. It would seem that the operations might have been conducted with greater leisure, and as the country visited by the column as reported to be extremely fertile and well watered, and with a numerous population well affected towards us,

Major the Hon'ble A. E. Dalzell, 2nd Oxfordshire Light Infantry, Commanding.
Staff Officer,—Lieutenant W. MacL. Campbell, Royal Highlanders.

Troops.

1 British officer, 2 guns,—No. 6 (Bombay) Mountain Battery.
2 British officers, 50 rifles,—2nd Oxfordshire Regiment.
2 British officers, 150 rifles,—33rd (Burma) Madras Infantry.

(*a*) Not published.

it may be desirable to again visit the Hukong Valley at an early period.

6. *Irrawaddy Column.*—This column, strength as per margin, left Senbo on the 17th December 1891. Originally destined to work the country westwards from the confluence of the Irrawaddy, its objective was subsequently changed to Sadôn, on which place the column marched from Waingmaw, reaching it with slight opposition on the 26th December. Leaving a party of 200 rifles of the 33rd Madras Infantry under Lieutenant A. R. Denne, 2nd Madras Infantry, to construct a stockade, Major Yule with the rest of the column visited the country to the north-east of Sadôn, including Nawchôn and the country of the Marus as far as Kumpi, returning to Sadôn by a new route. Meanwhile the building of the post was pushed on, and on the 6th February Major Yule again left for Sadankong to the north of the 'Nmaikha, leaving Lieutenant T. Harrison, Royal Engineers, with 160 rifles, in command.

Major J. H. Yule, 2nd Devonshire Regiment, Commanding.
Lieutenant H. C. Holman, 2nd Devonshire Regiment, Staff Officer.

Troops.

1 British officer, 2 guns,—No. 6 (Bombay) Mountain Battery.
2 British officers, 100 rifles,—2nd Devonshire Regiment.
1 British officer, 50 rifles,—23rd Madras Infantry.
2 British officers, 200 rifles,—33rd (Burma) Madras Infantry.

7. The subsequent attack on Sadôn by the Kachins and the defence by the garrison under Lieutenant Harrison have already formed the subject of a report to your address. I therefore need here only refer to Major Yule's operations on Sadankong, which were carried on in a manner reflecting credit on Major Yule and the troops under his command, the passage of the 'Nmaikha, a deep and rapid river, being safely crossed by means of rafts constructed by the Gurkhas of the Mogaung Levy, who formed part of his column. Major Yule herein displayed a commendable foresight in the disposition of his force; for, leaving behind him at Sadôn the Sappers, the Punjabi soldiers of the 33rd Madras Infantry, and 50 of the 23rd Madras Infantry, he took with him the Mogaung Levy, which was formed of Gurkhas, who were more fitted for jungle-fighting, and whose experience in the construction of rafts was of untold advantage in the passage of the river 'Nmaikha.

8. The subsequent operations of the Irrawaddy column comprised visits to Tungor and Sagang, at the former of which places the whereabouts of the rebel Po Saw was ascertained and his camp attacked, and at the latter the Sawbwa of Kwitu was arrested. After working round the group of Loi Lem and Loi Ngu, the column returned to Sadôn on the 25th March, from which date up to its return to the river it was employed in preparing the road and in forwarding rations to the post at Sadôn, which it was arranged should be held by two guns of No. 6 (Bombay) Mountain Battery and 250 rifles of the Mogaung Levy. Major Yule reports that the objects of his expedition have been fully obtained. Brigadier-General Gosset acknowledges the record of good work done by the column, and it is a great pleasure to myself to bring to notice that the energy, forethought, and power of arrangement displayed by Major Yule has confirmed the high character I had of him after his services in the Momeik District during February of season 1890-91. Major Yule brings to notice the services of Lieutenant A. R. Denne, 2nd Madras Infantry, and Lieutenant H. C. Holman, Devonshire Regiment, and Surgeon-Captain J. S. Green, Medical Staff, for excellent service throughout the operations.

The list of killed and wounded in the Irrawaddy Column, inclusive of those at Sadôn, is as per margin.

The column was finally broken up on the 18th April 1892, and the troops returned to quarters.

9. *North-Eastern Column.*—This column, composed of the troops as per margin, commanded by Captain T. A. H. Davies, Devonshire Regiment, left Bhamo on the 15th December, the object being to work northwards from Bhamo along the hills bordering on the Chinese frontier, to visit the tribes which had not hitherto come under our subjection, and as far as possible to determine what was the original boundary between China and Burma. A glance at the map which accompanies Captain Davies' report (*a*) will show that the country through which the column passed has been thoroughly visited. The column met with no opposition on the march up the frontier, but at Kazu received the news of the attack on Sadôn, and Captain Davies, proceeding at once by forced marches, relieved that place on the 20th February. Subsequently the column turned south and visited the country between Watang and south to Pasao, and having completed this work struck the Irrawaddy at Talawgyi on the 31st March, and returned to Bhamo early in April. The casualties in the column during the fighting round Sadôn were as per margin. Captain Davies brings to notice the services of Captain G. H. H. Couchman, D.S.O., 2nd Somersetshire Light Infantry, of the Intelligence Branch, and of Lieutenant A. M. Anderson, 19th Madras Infantry, his staff officer, and I consider Captain Davies has conducted the operations of the column entrusted to his command with skill and discretion.

Captain T. A. H. Davies, 2nd Devonshire Regiment, Commanding.
Lieutenant A. M. Anderson, 19th Madras Infantry, Staff Officer.

Troops.

1 British officer, 2 guns,—No. 6 (Bombay) Mountain Battery.
2 British officers, 75 rifles,—2nd Devonshire Regiment.
1 British officer, 50 rifles,—mounted infantry, 2nd Devonshire Regiment.
1 British officer, 50 rifles,—23rd Madras Infantry.
1 British officer, 75 rifles,—33rd (Burma) Madras Infantry.

Wounded.

No. 485, Corporal J. Ford, 2nd Devonshire, severely.
No. 1692, Private J. Cudmore, 2nd Devonshire, slightly.
No. 2043, Private F. Hilliard, 2nd Devonshire, slightly.
No. 620, Sepoy Hazara Singh, 33rd Madras Infantry, severely.
Two Panthé drivers severely wounded.

10. *Eastern Column.*—This column, strength as per margin, has obtained satisfactorily the object with which it was entrusted, which was to operate in the country south of the Taping and in the Namkan Valley. It met with no opposition, but much valuable information regarding the Chinese frontier, the trade routes, &c., has been obtained. Captain Preston brings to notice the services of Lieutenant M. R. Hurly, 33rd Madras Infantry, his staff officer; Lieutenants G. M. Morris, 2nd Madras Infantry, Intelligence Officer; and R. C. Pierce, 2nd Royal Inniskilling Fusiliers, Transport Officer.

Captain J. E. Preston, 33rd (Burma) Madras Infantry, Commanding.
Lieutenant M. R. Hurly, 33rd (Burma) Madras Infantry, Staff Officer.

Troops.

1 British officer, 50 rifles,—2nd Devonshire Regiment.
1 British officer, 50 rifles,—33rd (Burma) Madras Infantry.
1 British officer, 30 rifles,—mounted infantry, 33rd (Burma) Madras Infantry.

11. It will be acknowledged, I feel sure, that the arrangements for the supply of ammunition, rations, &c., for columns destined to operate in a district practically unknown was a task of no mean order, and when the columns had once been organized, and the numerous movements completed to concentrate the troops on Bhamo, this task fell on Colonel J. H. Prendergast, commanding at that station, and I cannot speak too highly of the forethought and judgment with which these arrangements were made. The points at which supply depôts were to be established having been once settled, the arrangements, despite many and great difficulties, were completed in a manner which reflects the greatest credit on Colonel Prendergast. In making these arrangements Colonel Prendergast was ably seconded by Captain F. M. Barwick, Marine Transport Officer at Mandalay, and by Messrs. G. A. Lye and A. W. MacArthur, first grade officers, Royal Indian Marine, and J. M Puttock, Local Marine Department, who were stationed at convenient points on the Upper Irrawaddy for the purpose of pushing on stores. This in itself was a matter requiring the greatest energy and skill, for the navigation of the river between Senbu and Myitkyina had not been before accomplished by steamers at low water. This was ably managed by Mr. Lye, who took charge of the section between Senbo and Myitkyina, and who, with the assistance of Lieutenant G. Lubbock, Royal Engineers, arranged for the removal by dynamite of obstacles in the river, and was thus able to organise a regular service of steamers which plied between Bhamo and Myitkyina.

Arrangements for supply.

12. The river transport service having been arranged, the task of pushing forward the necessary supplies for so large a force fell on Lieutenant J. F. Barry, Executive Commissariat Officer at Bhamo. I had opportunity of personally satisfying myself of this officer's very complete arrangements, and I consider that they were carried out in a manner which stamps Lieutenant Barry as a Commissariat officer of much promise.

Commissariat Department.

13. All the officers commanding the columns have acted with energy and spirit, and I particularly wish to bring to notice the services of Captain Davies and Major Yule. The former officer, though a comparatively young officer, has commanded his column with judgment, and I consider his services worthy of notice. The latter officer has shown a marked ability for command, and I trust his services may receive special recognition. I have every reason to be most satisfied with the energy and ability displayed by all the medical officers attached to columns and at the base and rest-hospitals.

Officers brought to notice.

Lastly, I beg to acknowledge the cordial support and assistance I have received from Brigadier-General M. W. E. Gosset, C.B., who joined the Mandalay command before the troops took the field, and who accompanied me to Sadôn in February 1892.

14. I must not omit to mention that when the establishment of a post at Sadôn became apparent, the problem of keeping open the communication with the Irrawaddy during the rains was a source of much anxiety. This was ultimately solved by the construction of a suspension bridge over the Namli river, which was successfully accomplished in the face of many difficulties and not without considerable loss of health to both First-grade Officer G. A. Lye, Indian Marine, and Lieutenant Lubbock, Royal Engineers. To carry out this work every article used in the construction had to be brought from Mandalay and transported from the Irrawaddy at Waingmaw to the Namli on elephants, and there placed in position. I consider it is a work which reflects the greatest credit on these officers

and deserving of special consideration. The bridge is now completed, and is in good working order.

As this letter closes my report of the operations in Burma, I beg to bring to notice the excellent service rendered me by Lieutenant-Colonel H. H. Harvey-Kelly, Principal Commissariat Officer of the Columns, and to tender to that officer my most cordial thanks. Both in the supply and transport arrangements he has been of invaluable assistance to me, and has carried out difficult duties with tact and discretion.

No. 2332-W,—"*Field Operations—Burma*,"—dated Ootacamund, 31st July 1892.

From—LIEUTENANT-GENERAL THE HON'BLE SIR J. C. DORMER, K.C.B., Commander-in-Chief, Madras Army,

To—The Adjutant-General in India.

In continuation of my No. 2331-W of the 31st July 1892, I have honor to forward herewith letter No. 644-E of the 15th July 1892 from the General Officer Commanding the Burma District, bringing to notice the excellent services rendered by Major J. H. Sewell, 2nd Norfolk Regiment, Assistant Adjutant-General, Mandalay District, and Major H. B. Jeffreys, Royal Artillery, Assistant Adjutant-General, Myingyan District, in organizing the several columns within the districts of which they have been during the late operations in Burma the chief staff officers.

No. 644-E,—"*Honours and Rewards*,"—dated Rangoon, 15th July 1892.

From—MAJOR-GENERAL R. C. STEWART, C.B., Commanding the Burma District,

To—The Adjutant-General, Madras Army.

In continuation of my No. 180-D, dated 6th June 1892, I have honor to add that I inadvertently omitted to mention the names of Major J. H. Sewell, 2nd Norfolk Regiment, Assistant Adjutant-General, Mandalay District, and Major H. B. Jeffreys, Royal Artillery, Assistant Adjutant-General, Myingyan District, who have done excellent service in organising the several columns within the districts of which they are the chief staff officers.

2. Major Sewell has for the last two seasons performed the duties of Assistant Adjutant-General with marked ability, and had the arranging of the Wuntho expedition as well as those on the Eastern Frontier during 1890-91, and the whole of the columns on the North-Eastern Frontier during 1891-92, which he has carried out to my entire satisfaction.

3. Major Jeffreys joined the Myingyan District just as the columns were taking the field in 1891-92, and displayed all the qualifications necessary for a staff officer of so important a district at a critical period.

4. I think the services of these officers are entitled to acknowledgment and recognition.

FINANCIAL,
No. 204.

To His Excellency The Most Honourable The Governor-General of India in Council.

MY LORD MARQUIS,

Monthly payment of absentee allowances and pensions of Civil, Military, and other officers

It was recently decided that the practice of making monthly, instead of quarterly, payments of the furlough pay and pensions of Civil and Military officers, and members of the Ecclesiastical, Marine, and Pilot Establishments, should be adopted generally at the Home Treasury; and arrangements have now been made to carry out that decision.

2. I enclose a memorandum* by the Accountant-General at this Office, showing the details of the arrangements in question; and I request that you will take the necessary measures for making the change of system generally known.

* Dated 22nd September, 1892.

I have the honour to be,

MY LORD MARQUIS,

Your Lordship's most obedient humble Servant,

(Signed) KIMBERLEY.

ENCLOSURE.

Memorandum by the Accountant General, India Office, dated 22nd September, 1892.

I have to request that you will be good enough to inform the authorities in India that the furlough pay and pensions of all Civil and Military officers, and of members of the Ecclesiastical, Marine, and Pilot establishments, will henceforth be issued at the Home Treasury monthly in arrear.

The quarterly dates to which Military (including that of military officers in civil employ), Medical (including annuities), Ecclesiastical, and Marine pay, pension, etc., will be made up, will, for the future, be 15th February, 15th May, 15th August, and 15th November; whilst the quarterly dates to which civil pay, annuities, and pensions will be made up will be 15th January, 15th April, 15th July, and 15th October, respectively. Payment will in each case be made on or after the day following.

Advances (omitting shillings and pence) of one-third, approximately of the net quarterly amount will be payable on the 16th of the first and second month of each quarter, and the balance of the three months, less Income Tax and other deductions (if any), on the quarterly dates on which the pay will in future be payable as specified above.

TELEGRAPH.

The 2nd December, 1892.

No. 427.—In exercise of the powers conferred by section 4, sub-section (1), of the Electricity Act (XIII of 1887), the Governor-General in Council is hereby pleased to extend to Upper Burma the rules made under the said Act by Public Works Department Notification No. 134 Tel., dated the 3rd May 1889.

II. The Notification and rules above referred to are hereby republished for general information.

Notification No. 134 Telegraph, dated Simla, the 3rd May 1889.—In exercise of the powers conferred by section 4, sub-section (1), of the Electricity Act, 1887, the Governor-General in Council is pleased to make the following rules :—

General.

1. In these rules, unless the context otherwise requires,—

(1) expressions used in the Indian Telegraph Act, 1885, and the Electricity Act, 1887, have the same meanings as in those Acts :

(2) "electric supply line" means a wire or wires, conductor, or other means used for the purpose of conveying, transmitting or distributing electricity for light or power, with any casing, coating, covering, tube, pipe, or insulator enclosing, surrounding or supporting the same or any part thereof, or any apparatus connected therewith for the purpose of conveying, transmitting or distributing electricity or electric currents for light or power :

(3) "main" means a conductor used to convey electricity from the source of supply to the point or points where it is distributed for use :

(4) "lead" means a conductor used to distribute electricity from the mains to the various appliances in which it is to be used :

(5) "switch" means any appliance for permitting, arresting or changing the flow of electricity in conductors :

(6) "commutator" means any appliance for regulating or diverting the flow, or for altering the direction, of electricity in conductors :

(7) "cut-out" means any appliance for confining the flow of electricity to conductors capable of safely carrying it when its amount rises accidentally above the normal :

(8) "transformer" means any appliance by means of which electricity of high potential is converted to electricity of lower potential, or *vice versâ*.

Rules for the protection of person and property from injury by reason of contact with, or the proximity of, appliances or apparatus used in the generation or supply of electricity.

2. Whenever notice has been given under section 3 of the Electricity Act, XIII of 1887, of an intention of any person to undertake the business of supplying electricity or to use electricity for a public purpose or in a public place or such other place as is referred to in clause (*b*) of that section, the District Magistrate or Commissioner of Police receiving such notice shall forthwith report the circumstance to the Local Government, who may thereupon authorise an officer, either by name or in virtue of his office, to enter, inspect and examine any place, carriage or vessel in which the officer has reason to believe any appliances or apparatus used in the generation or supply of electricity are, and any building or place to and in which electricity is to be supplied and used.

3. The Local Government shall, if necessary, instruct the District Magistrate, or, in a Presidency-town, the Commissioner of Police, as to the roads or public places in which overhead electric supply lines are not to be allowed, and the persons undertaking the supply of electricity or using the same shall attend to any orders of these officers in this respect.

4. The person or persons who intend to undertake the business of supplying electricity, or intend to use the same for the purpose or in a place indicated in Rule 1, shall provide all means for testing the appliances or apparatus used in the generation or the supply and use of electricity.

5. Conductors must have a sectional area and conductivity so proportioned to the work they have to do that if double the current proposed is sent through them; the temperature of such conductors shall not exceed 150° Fahrenheit.

6. The conductors or their casings must be placed in sight as far as possible; and they must always be as accessible as circumstances will permit.

7. Within buildings the conductors must all be insulated; and this rule applies equally to all conductors and parts of fittings which may have to be handled.

8. Whatever insulating material is employed, it must not soften until a temperature of 170° F. has been reached, and in all cases the material must be damp-proof.

9. When leads pass through roofs, floors, walls or partitions, and where they cross, or are liable to touch metallic substances, such as bell-wires, iron girders or pipes, they must be thoroughly protected by suitable additional covering; and where they are liable to abrasion from any cause, or to the depredations of rats or mice, they must be encased in some suitable hard material.

10. In the case of portable fittings with which flexible leads are used, special precautions must be taken.

11. Conductors must be kept as far apart as circumstances will permit, the spacing between them being governed by their potential difference.

12. When conductors are carried in very inflammable structures, precautions must be taken to isolate them therefrom.

13. Conductors which are protected on the outside by lead or metallic armour of any kind require the greatest care in fixing on account of the large conducting surface which would become connected to the core in the event of metallic contact between them.

14. In cases where conductors pass into a building, from one building to another, or from one room to another, precautions must be taken to prevent the possibility of fire or water passing along the course of the conductors.

15. All joints must be mechanically and electrically perfect, to prevent heat being generated at these points. When soldering fluids are used in making joints, the latter must be carefully washed and dried before insulation is applied.

16 Under all circumstances complete metallic circuits must be employed. Gas and water-pipes must never form part of the circuit, as their joints are rarely electrically good, and therefore become a source of danger.

17. Overhead conductors, whether passing over or attached to buildings, must be insulated at their points of support. Precautions must be taken to obviate all risk of short circuiting where they are likely to touch a building or other overhead conductors and wires, either by their own falling or being fallen upon by other conductors.

18. In the case of overhead wires, every main conductor must have a lightning protector at each point where it enters or branches into a building.

19. Metal fastenings for fixing conductors must be avoided.

20. The insulation of a system of distribution must be such that the greatest leakage from any conductor to earth (and in case of parallel working from one conductor to the other, when all branches are switched on, but the lamps, motors, etc., removed) does not exceed one-five-thousandth part of the total current intended for the supply of the said lamps, motors, etc., the test being made at the usual working electromotive force.

21. It is desirable as a means for the prevention of accidents for the positive lead to be coloured differently to the negative, or made otherwise distinguishable.

22. Every switch or commutator must be of such construction as to comply with the following condition, namely, that, when the handle is moved or turned to and from the positions of "on" and "off," it is impossible for it to remain in any intermediate position or to permit of a permanent arc or heating.

23. The handle of every switch must be completely insulated from the circuit.

24. The main switches of a building must be placed as near as possible to the point of entrance of the conductors, or to the generators of the current if they are within the building itself. Switches must be provided on both leads.

25. Switch boards must bear clear instructions for their use by the inexperienced.

26. Switches, commutators, resistances, bare connections, lamps, etc., must be mounted on incumbustible bases. Cut-outs mounted on bases of wood rendered uninflammable are admissible. Vulcanite bases are undesirble in damp situations. The cracking of porcelain and earthenware fittings is a source of danger which can be avoided by precautions in fixing.

27. All circuits must be protected with cut-outs; and all leads from the mains or small conductors from larger ones must be fitted with cut-outs at their branching points.

28. Where fusible cut-outs are used, the section must so be situated within its frame that the fused metal cannot fall where it may cause a "short circuit" or an ignition.

29. For all main conductors a cut-out must be provided for both the "flow" and "return," and the two fusible sections must not be in the same compartment.

30. The flexible leads of portable fittings must in all cases be protected by cut-outs at their fixed points of connection.

31. Arc lamps must always be guarded by lanterns or netted globes, so as to prevent danger from ascending sparks and from falling glass and incandescent pieces of carbon.

32. All parts of the lamps and lanterns which are liable to be handled (except by the persons employed to trim them) must be insulated.

33. The armatures and field-magnet coils of dynamo-machines must be thoroughly insulated. Dynamo-machines must always be fixed in dry places; and they must not be exposed to dust flyings or other industrial waste products carried in suspension in the air. They must not be permitted in the working rooms of mills, where the liability to such dangers exists, or where any inflammable manufactures are carried on, or inflammable materials are stored.

34. Motors must be subject to the same conditions; but when it is necessary to use them in positions such as those referred to, they must be securely cased in, such cases having a non-combustible lining.

35. Both primary and secondary batteries must be placed and used under the same precautions as prescribed for dynamo-machines and the room in which they are placed must be well ventilated. The batteries themselves must be well insulated.

36. When transformers are used to transform either direct or alternating currents of high electromotive force, that is, from or to an electromotive force of, say, 200 volts, they, together with their switches and cut-outs, must be placed in a fire and moisture proof structure, preferably outside the building for which they are

required. No part of such apparatus must be accessible, except to the person in charge of their maintenance.

37. In all cases conductors conveying currents of high electromotive force inside buildings must be specially and exceptionally insulated cased in, the casing made fireproof.

38. The positive and negative terminals connected to such conductors must not be permitted to be nearer each other than 12 inches.

39. Transformers which, under normal conditions of load, heat above 150° Fahrenheit must not be permitted to remain in use.

40. Transformers must be so constructed that under no circumstances whatever should a contact between the primary and secondary coils lead the high electromotive force into the building

41. No repairs nor alterations must be made when the current is "on."

42. Full particulars of the proposed installation must be furnished when required to the officer authorised by the Local Government under Rule 1 These particulars must include a statement of the maximum current to be sent, by means of the various conductors, the electromotive force of the current, and the nature of the current (whether direct or alternating) that is to be employed. Samples of the conductors to be used must be furnished, that their conductivity and the quality of their insulation may be ascertained. Specimens of the cut-outs, protectors and switches may be required, if considered necessary by such officer.

Rules for preventing Telegraph lines from being injuriously affected by any appliances or apparatus used in the generation or supply of electricity.

43. Any persons supplying or using electricity shall not lay down any electric supply line or do any other work for the supply or use of electricity whereby any telegraph line established by, or by license from, the Governor-General in Council is or may be injuriously affected. Before any such electric supply line is laid down, or work is done within ten yards of any part of such telegraph line other than repairs or the laying of connections with the mains where the direction of the electric supply lines so laid down crosses such telegraph line at right angles at the point of shortest distance and continues the same for a distance of six feet on each side of such point), the person or his agent shall not more than twenty eight nor less than fourteen clear days before commencing such work give written notice to the Telegraph authority, specifying the course and nature of the work, including the gauge of any electric supply lines; and the person and his agent shall conform with such reasonable requirements either general or special, as may from time to time be made by the Telegraph authority for the purpose of preventing any telegraph lines established by, or by license from, the Governor-General in Council from being injuriously affected by the said work.

44. Any difference which arises between the Telegraph authority and the person supplying or using electricity or his agent with respect to any requirements so made shall be referred to the Local Government for decision, and the orders of that Government shall be final.

45. For the purposes of the foregoing rules, a telegraph line shall be deemed to be injuriously affected by a work if telegraphic communication by means of such line is, whether through induction or otherwise, in any manner affected by such work, or by any use made of such work.

46. Electric supply lines must throughout their entire lengths and in all localities be so constructed as to avoid contact with telegraph lines, and if carried overhead, must be so placed as to enable telegraph lines at any future time to be carried in any street on posts of 24 feet in height without contact with or interference from such electric supply lines.

47. Only one side of any street must be occupied by electric supply lines.

48. At all street crossings the minimum headway of electric supply lines must be 30 feet.

49. The provisions of Rules 5 and 6 may be relaxed in certain localities where it is not intended immediately to construct telegraph lines for, or by license from, the Governor-General in Council, on condition that the person or persons erecting the electric supply lines give a general undertaking to the Telegraph authority to comply with these rules within fourteen days from the time when notice may be given that telegraph lines are to be constructed in such localities.
