SANITARY.

*The 29th June, 1893.*

**No. 107.**—The following Rules for Quarantine against cholera, which have been made by the Bombay Government in exercise of the power conferred by Section I, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The Rules have effect from the 14th June 1893, as a temporary measure, in the ports of Aden, Perim, and the Somáli Coast :

I.—The Commander of every vessel, including buggalows or other native craft, arriving from the ports of the Hedjaz and Yemen as far as Babelmandeb and from Bussorah, Fao, and Muhamrah, shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale :

| | |
|---|---|
| After eight days of voyage . . . . | Six days of quarantine. |
| Do. nine ditto . . . . . | Five ditto. |
| Do. ten ditto . . . . . | Four ditto. |
| Do. eleven ditto . . . . . | Three ditto. |
| Do. twelve ditto . . . . . | Two ditto. |
| Do. thirteen ditto and upwards . . . | Twenty-four hours of quarantine. |

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of 15 days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somáli Coast which may have communicated with vessels coming from the ports of the Hedjaz and Yemen as far as Babelmandeb and from Bussorah, Fao, and Muhamrah shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somáli Coast from the ports of the Hedjaz and Yemen as far as Babelmandeb and from Bussorah, Fao, and Muhamrah.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills of health.

## PUBLIC WORKS DEPARTMENT.

### NOTIFICATIONS.

*Simla, the 29th June, 1893.*

**No. 250.**—The following is published for general information:

No. 372-R. T., dated 27th June, 1893.

RESOLUTION—By the Government of India, Public Works Department.

*General Rules for working railways open for traffic.*

Read—

Section 47 of the Indian Railways Act (IX) of 1890.

Government of India Circular No. 3 Railway, dated the 19th April 1892, promulgating General Rules for all open state railways in British India administered by the Government.

Public Works Department Notification No. 174, dated the 7th May 1892, publishing in the *Gazette of India* of the 14th May 1892 the circular and the General Rules read above.

Government of India Resolution No. 0058 R. T., dated the 28th February 1893, published in the *Gazette of India* of the 4th March 1893 under Public Works Department Notification No. 82, dated the 1st March 1893.

Government of India Resolution No. 321 R. T., dated the 7th June 1893, published in the *Gazette of India* of the 24th June 1893 under Public Works Department Notification No. 249, dated the 23rd June 1893.

Letter from the Director General of Railways, No. 230 T., dated the 23rd June 1893.

OBSERVATIONS.—The Director General of Railways has applied that the General Rules for working open lines of railway in British India, which have been sanctioned by the Governor General in Council and published under Public Works Department Notification No. 174, dated the 7th May 1892 (*vide* the *Gazette of India* of the 14th May 1892), as modified by the Government of India Resolutions Nos. 0058 R. T. and 321 R. T., dated respectively the 28th February 1893 and the 7th June 1893, which were published under Public Works Department Notifications Nos. 82, dated the 1st March 1893, and 249, dated the 23rd June 1893 (*vide* the *Gazette of India* of the 4th March 1893 and the 24th June 1893), may be made applicable to the Godavery-Vizianagram section, including the Cocanada and Vizagapatam branches, of the East Coast Railway from the date on which it may be opened for the public carriage of passengers, animals, or goods.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules for Indian railways, with the modifications cited in the foregoing observations, to the Godavery-Vizianagram section, including the Cocanada and Vizagapatam branches, of the East Coast Railway.

ORDER.—Ordered, that the General Rules which have already been published in the *Gazette of India*, dated the 14th May 1892, be further notified to the railway servants and to the public by a copy thereof, as modified by the Resolutions of the 28th February 1893 and 7th June 1893, being kept open to inspection, free of any charge, in the office of the station master of every station on the said railway.

Ordered also, that this Resolution be communicated to the Director General of Railways for information and guidance, and that it be published under a notification in Part I of the *Gazette of India*.

*The 30th June, 1893.*

**No. 251.**—The following is published for general information:

No. 1664-G., dated 26th June, 1893.

RESOLUTION—By the Government of India, Public Works Department.

*Orders on certain questions raised in connection with the establishment of a Provincial Service recruited in India for the Engineer Branch, Public Works Department.*

Read again—

Public Works Department Resolution No. 2112 G., dated the 19th July 1892.

Read also—

Letter from the Secretary to the Government of the North-Western Provinces and Oudh in the Public Works Department, No. C-1786-E., dated 14th October 1892.

Letter from the Secretary to the Chief Commissioner of Burma in the Public Works Department, No. 15635, dated the 15th November 1892.

In the letters read in the preamble, the following questions are raised:

(i) Whether the provisions of Article 720 of the Civil Service Regulations are applicable to the Provincial Engineer Service, and whether Civilian Upper Subordinates promoted to the Provincial Engineer Service may be permitted to serve on after they have attained the age of 55 years.

(ii) Whether Upper Subordinates promoted to the Provincial Engineer Service are required to pass examinations in professional subjects and in the native languages under Public Works Department Code, Vol. I, Chapter II, paragraphs 12-14 and 17.

(iii) Whether Upper Subordinates shall on promotion to the Provincial Engineer Service be graded according to the salary they have been drawing in the Upper Subordinate grades, or whether they shall be placed in the 2nd grade of Assistant Engineers, receiving the difference between the pay of their grade in the Upper Subordinate establishment and that of the 2nd Assistant Engineer grade as a personal allowance. Also whether the sub-divisional allowance which they may have been in receipt of at the time of their promotion will be continued to them as a personal allowance on promotion.

(iv) Whether students of the Indian Colleges appointed to the Provincial Engineer Service shall, under Regulation IV of the Resolution of the 19th July 1892, be promoted to the 1st grade of Assistant Engineers immediately on passing the professional examination required by Public Works Department Code, Vol. I, Chapter II, paragraphs 12-14.

(v) Whether the Imperial and Provincial Services are to be one and the same or on separate lists for purposes of promotion.

(vi) Whether any, and if so what, portion of the military service of Military Upper Subordinates promoted to the Provincial Engineer Service shall count towards civil pension.

2. The Governor General in Council is pleased to issue the following orders on the several questions raised:

*Question i.*—The 55 years rule is at present applicable to all members of the Engineer establishment (*vide* note to Article 720 of the Civil Service Regulations), and it will therefore be applicable to all persons appointed to the Provincial Engineer Service, and no one will be allowed to remain in the service after he has attained the age of 55 years.

*Question ii.*—In Regulation V of the Resolution of the 19th July 1892 it is laid down that the men of the Upper Subordinate class shall be ordinarily Sub-Engineers chosen for their ability and merit. As these men will be selected for promotion on account of their general efficiency and experience in practical work, it is unnecessary that they should be required to pass the examinations in question.

*Question iii.*—On promotion to the Provincial Engineer Service, men of the Upper Subordinate class will be ordinarily placed in the 2nd grade of Assistant Engineer, and will draw the pay of that grade, *viz.*, Rs. 250. The difference between this sum and the pay of their grade in the Upper Subordinate establishment, including the increments they may have at the time of promotion earned as Sub-Engineers, will be granted to them as a personal allowance. The Governor General in Council is, however, pleased to rule that men of the Upper Subordinate class shall be as a rule selected for promotion to the Provincial Service before they have qualified for the increments of Sub-Engineers.

It is also ruled that Sub-Engineers promoted to the Provincial Engineer Service shall not be granted the sub-divisional allowance which they may have been receiving prior to their promotion.

It will be optional with any subordinate to decline promotion.

*Question iv.*—Promotions from 2nd to 1st grade Assistant Engineer in the Provincial Service will be made only as vacancies admit, and on recommendations. Promotions will also be regulated by selection for vacancies within the sanctioned scale, as laid down in Regulation VI of the Resolution of the 19th July 1892. Passing the examination prescribed in Public Works Department Code, Vol. I, Chapter II, paragraphs 12-14, merely qualifies for promotion, subject to the above conditions, in the case of students appointed from the Indian Colleges.

*Question v.*—Officers of the Imperial and Provincial Services will be on one list for purposes of promotion.

*Question vi.*—Warrant officers of the rank of Conductor and Sub-Conductor and non-commissioned officers and soldiers when promoted from the Upper Subordinate class to the Provincial Engineer Service are required to take their discharge from the Army, and will then count their whole departmental service for civil pension (*vide* Article 388, clause 3, Civil Service Regulations). It will, however, be optional with such officers to decline promotion. The case of honorary commissioned officers is under consideration, and orders in regard to them will issue hereafter.

3. The question has also been raised whether Upper Subordinates of the Military Works Department are eligible for appointment to the Provincial Engineer Service of the Public Works Department. His Excellency the Governor General in Council is pleased to rule that the claims of the Upper Subordinates of the Military Works Department shall be considered when selecting men for promotion to the Provincial Establishment.

---

ORDER.—Ordered, that this Resolution be communicated to the Local Governments, Administrations, and Officers noted in the margin for information and guidance, and that it be published in Part I of the *Gazette of India*.

The Governments of Madras and Bombay, Public Works Department, General and Railway Branches.
The Governments of Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Burma, Assam, and Coorg.
The Resident at Hyderabad.
The Agents to the Governor General for Rajputana, Central India, and Baluchistan.
The Accountant General, Public Works Department.
The Director General of Railways.
The Consulting Engineers to the Government of India for Railways, Calcutta, Central Division, Lucknow, and Assam.

Ordered also, that it be forwarded to the Finance and Commerce, Home, Revenue and Agricultural, and Military Departments.

**No. 252.**—The following is published for general information:

No. 138-I., dated 29th June, 1893.

RESOLUTION—By the Government of India, Public Works Department.

*Review of the Revenue Report of Irrigation Works in the North-Western Provinces for the year 1891-92.*

Read—

Letter No. C. 348-I., dated the 23rd May 1893, from the Government of the North-Western Provinces, forwarding the Revenue Report of Irrigation Works in the North-Western Provinces for 1891-92, and the Resolution of that Government reviewing the Report.

---

OBSERVATIONS.—The number of Irrigation Works in operation for which Capital and Revenue Accounts are kept is nine, as in the preceding year. Four are classed as Productive, one, the Betwa Canal, as Protective, and four as Minor Works. The direct and indirect capital outlay for each class of

works during and up to the end of the year under review is shown in the following statement :

| | Number of works. | During the year 1891-92. Works. | Establishment. | Tools and Plant. | Suspense Account. | Total direct charges. | Indirect charges. | Total direct and indirect charges. | Total direct and indirect to end of 1891-92. |

2. The aggregate capital outlay was Rs. 51,810 more than in 1890-91. On the Betwa Canal the capital outlay amounted to Rs. 10,626, about 2 miles of new distributary and 4½ miles of drainage cut being opened. Levelling of the crest of the weir was also completed.

On the Upper Ganges canal the capital outlay was Rs. 1,75,793. The raising of the Puth bridge was begun, two new inspection houses were finished, and 59 miles of new drainage works were opened.

On the Lower Ganges canal the expenditure was Rs. 2,33,140. A tail fall on the Malhausi escape was constructed ; seven miles of new distributary and 153 miles of new drainage cut were opened.

On the Agra canal the capital outlay was Rs. 26,517, principally in the improvement of distributaries.

On the Eastern Jumna canal the outlay was Rs. 69,368 on distributaries and drainage works.

The capital outlay on Minor Works amounted to Rs. 19,623, principally on the Rohilkhand canals. There was also a charge of Rs. 243 on account of the surveys for the Bundelkhand Irrigation Works.

3. The following statement shows for the Major Works the mileage of main channel and distributary sanctioned and in operation at the close of the year :

| | Sanctioned. Miles of canals. | Sanctioned. Miles of distributaries. | Completed. Miles of canals. | Completed. Miles of distributaries. |

(a) Refunds deducted from Revenue.

5. The gross revenue derived from the Major Works was more by Rs. 5,35,780 than in 1890-91, and is the highest on record in any year with the exception of 1884-85. The working expenses on the Major Works show a reduction of Rs. 63,170 as compared with the figures for the previous year, so that the net revenue is better by Rs. 5,98,950.

The net revenue realised is equivalent to a return of 5·5 per cent. on the capital outlay. These results of the working of the Major Works during the year under review are considered by the Government of India to be extremely satisfactory.

6. The interest charges for the year on the Major Works amounted to Rs. 29,49,355. After meeting these the balance of net revenue amounts to Rs. 14,22,858. The total interest charges to the end of 1891-92 amounted to 648 lakhs in round numbers against a total net revenue of 726 lakhs. The clear profit derived is thus 78 lakhs, or nearly 16 per cent. on the capital outlay.

7. The net revenue derived from the Minor Works was Rs. 7,603 more than in the previous year.

8. Paragraph 6 of the Chief Engineer's note gives the result of the working as regards irrigation of the Provincial contract which terminated on 31st March 1892. Under the contract the Provincial Government retained the direct revenue from Productive and Minor Works, and paid interest at 4 per cent. on—

(1) The old capital outlay from Imperial funds on Minor Works and Navigation (Rs. 23,35,555).

(2) The total capital outlay from all sources on Major Works, less capital outlay from April 1st, 1887, on the new Nadrai aqueduct.

The contract figures were—

| | Rs. | Rs. |
|---|---|---|
| Revenue, gross earnings ... ... | | 55,40,000 |
| Working Expenses ... ... ... | 22,98,000 | |
| Interest ... ... ... ... | 26,91,000 | 49,89,000 |
| Anticipated net revenue ... ... | ... | 5,51,000 |
| Total for 5 years ... ... | ... | 27,55,000 |

The actual results for the five years were—

| | | |
|---|---|---|
| Revenue, gross earnings ... ... | | 2,52,06,172 |
| Working expenses ... ... ... | 1,24,44,783 | |
| Interest ... ... ... ... | 1,38,07,190 | 2,62,51,973 |
| Net revenue ... ... ... ... | | —10,45,801 |
| Anticipated deficit owing to the failure of the Nadrai aqueduct, to be met by transfer from land revenue | | 12,00,000 |
| Actual net revenue ... ... ... | | 1,54,199 |

The Province was, therefore, so far as canals are concerned, a loser by the contract of Rs. 26,00,801.

9. The statement in paragraph 4 gave the actual collections for the year. In the following statement details of the assessed revenue are given, and the total for each canal is compared with the area irrigated:

| Canals. | Area irrigated. | | Assessment, 1891-92. | | | | Assessments, 1890-91. | Rate per acre irrigated. | |
|---|---|---|---|---|---|---|---|---|---|
| | 1891-92. | 1890-91. | Occupier's rates. | Owner's rates. | Share of land revenue. | Gross assessed revenue, excluding miscellaneous. | | 1891-92. | 1890-91. |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| | Acres. | Acres. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |

10. The area irrigated continues to exhibit a satisfactory increase, the figures for 1891-92 being 30,916 acres more than those for the previous year. The increase was entirely in the kharif irrigation, the rabi showing a small falling off. The area under kharif crop was 766,215 acres, or 37·47 per cent. of the total; that under rabi crop being 1,278,815 acres, or 62·53 per cent.

11. The season was on the whole favourable for irrigation, the monsoon beginning late and feebly, and the winter rains also coming late and being below the average.

12. The areas under the principal crops were as follows:

| Crops. | 1891-92. | 1890-91. |
|---|---|---|
| | Acres. | Acres. |
| Sugarcane ... ... ... ... | 245,667 | 198,577 |
| Rice ... ... ... ... | 149,045 | 167,868 |
| Indigo ... ... ... ... | 174,546 | 224,663 |

| Wheat ... ... ... ... | 755,786 | 736,297 |
| Barley ... ... ... ... | 108,821 | 107,352 |
| Gram ... ... ... ... | 55,557 | 57,158 |
| Poppy ... ... ... ... | 11,290 | 12,744 |

The increase in the area under sugarcane was very marked, especially on the Ganges canal. The estimated value of all the irrigated crops was 751 lakhs, which is equivalent to about Rs. 36 per acre, and amounts to 92 per cent. of the entire capital outlay on open canals. The average occupier's rate per acre amounted to Rs. 2·59.

13. The balance of demands remaining unrealised at the beginning of the financial year was Rs. 2,21,266, which had been reduced to Rs. 1,83,106 at its close. The remissions aggregated Rs. 47,920.

14. The following statement gives the details of the working expenses for the year under review and compares the total with that of the previous year:

NOTE.—Sundries and plantation charges have been included in item "Works."

Under extensions and improvements the expenditure amounted to Rs. 2,33,326 principally on the Upper Ganges canal, on the Nildhara and Dudhia weirs, and on training works in the river. On the Lower Ganges and Agra canals the principal expenditure under this head was also on training works.

The repair outlay amounted to Rs. 10,01,751, and was more by Rs. 26,315 than in the previous year. This increase is satisfactorily explained in paragraph 12 of the Chief Engineer's report. The trouble due to weeds on the Lower Ganges canal, which was referred to in paragraph 12 of last year's review, was much less in 1891-92.

15. The details of the charge for establishment as shown in the last statement are as follows:

| — | Revenue management. | Maintenance. | Total. | Percentage. |
|---|---|---|---|---|
| | Rs. | Rs. | Rs. | |
| Direction ... ... ... | 1,55,948 | 60,604 | 2,16,552 | 15·95 |
| Executive ... ... ... | 4,10,360 | 3,04,906 | 7,15,266 | 52·69 |
| Revenue (Irrigation Branch) ... | 2,44,170 | ... | 2,44,170 | 18·00 |
| „ Payments by Civil Officers, including fees ... ... ... | 1,50,340 | ... | 1,50,340 | 11·08 |
| Navigation ... ... ... | 11,284 | ... | 11,284 | 0·83 |
| Medical ... ... ... | ... | 6,179 | 6,179 | 0·46 |
| Plantation ... ... ... | ... | 13,494 | 13,494 | 0·99 |
| GRAND TOTAL ... | 9,72,102 | 3,85,183 | 13,57,285 | 100·00 |

The establishment charges against Revenue Account were Rs. 28,690 less than during the previous year principally owing to an increased outlay under capital.

16 The working expenses formed about 39 per cent. of the gross revenue realised. Of this percentage, Revenue management formed 13 per cent., maintenance 23 per cent., and leave and pension allowances 3 per cent.

17. The length of navigable channel open on the Ganges and Agra canals at the end of the year was 535 miles, as in the previous year. The ton mileage amounted to about 7 millions, the estimated value of the cargoes to nearly 25 lakhs, and of rafts to nearly 2½ lakhs. The number of passengers carried was only 3,255 on the Ganges canals and 641 on the Agra Canal.

18. The receipt and charges on account of navigation were as follows:

| Canal. | RECEIPTS. | | CHARGES. | |
|---|---|---|---|---|
| | 1890-91. | 1891-92. | 1890-91. | 1891-92. |
| | Rs. | Rs. | Rs. | Rs. |
| Upper and Lower Ganges ... ... ... | 15,816 | 16,630 | 21,425 | 19,654 |
| Agra ... ... ... ... | 5,966 | 7,679 | 9,394 | 9,993 |
| TOTAL ... | 21,782 | 24,309 | 30,819 | 29,647 |

The deficit on the navigation operations on the Upper and Lower Ganges canals was reduced from Rs. 5,609 to Rs. 3,024, but the navigation on this system is not expected to show satisfactory progress until the completion of the Cawnpore extension, the estimate for which has been sanctioned by the Secretary of State subsequent to the year under review.

The principal traffic on the canals consists of building materials, timber and firewood, and grain.

19. The revenue realised on account of water-power amounted to Rs. 72,861, principally on the Ganges and Dun canals. The discharge available was 11,582 cubic feet per second, so the revenue is equivalent to Rs. 6·29 per cubic feet.

The figures of revenue given in paragraph 18 of the Chief Engineer's report do not agree with those in statement I. C.

20. The following hydraulic details are given in the report:

| Canals. | Number of irrigating days. | Mean discharge at head, cubic feet per second. | Discharge utilised, cubic feet per second. | PERCENTAGES. | |
|---|---|---|---|---|---|
| | | | | Discharge utilized. | Discharge escaped. |
| Ganges ... ... | 272 | *4,407 | 4,123 | 93·6 | 6·4 |
| Lower Ganges ... ... | 272 | 4,395 | 2,951 | 67·1 | 32·9 |
| Agra ... ... | 249 | 1,156 | 910 | 78·7 | 21·3 |
| Eastern Jumna ... ... | 323 | 1,046 | 910 | 87·0 | 13·0 |

*Exclusive of the volume passed on to the Lower Ganges Canal.

The figures for the Upper and Lower Ganges canals should be considered together, the surplus water which is run through the upper canal to maintain depth sufficient for navigation being passed on and escaped from the lower canal. The volume escaped from the lower canal is very large, but it will be reduced when the Cawnpore extension project is carried out. The increase in the volume entering the heads of the upper and lower canals over the figures for the previous year is owing to the larger volumes of the water available in the river. The increase in the case of the Eastern Jumna is due to the adoption of a new table of discharges.

21. The following figures relate to the water-duty obtained and the occupier's rate per cubic foot of discharge:

| Canals. | AREA IRRIGATED PER CUBIC FOOT | | Occupier's rate per cubic foot of discharge utilised. | Occupier's rate per acre. | Total water-rate per acre. |
|---|---|---|---|---|---|
| | of discharge at head. | of discharge utilised. | | | |
| | Acres. | Acres. | Rs. | Rs. | Rs. |
| Ganges ... ... | 189 | 202 | 562 | 2·78 | 3·73 |
| Lower Ganges ... ... | 150 | 224 | 533 | 2·38 | 2·99 |
| Agra ... ... | 143 | 181 | 521 | 2·87 | 3·41 |
| Eastern Jumna ... ... | 214 | 246 | 802 | 3·27 | 4·41 |

The area irrigated and the occupier's rate assessed per cubic foot of discharge show a falling off compared with the previous year due to the increased supply used in the kharif season on account of the late setting in of the monsoon.

22. The following particulars relate to the distributaries:

| Canals. | Area irrigated per mile of distributary. | Number of outlets per mile. | Area irrigated per outlet. |
|---|---|---|---|
| | Acres. | | Acres. |
| Ganges ... ... ... ... | 318 | 7·2 | 44 |
| Lower Ganges ... ... ... | 307 | 5·5 | 56 |
| Agra ... ... ... ... | 291 | 7·4 | 39 |
| Eastern Jumna ... ... ... | 338 | 6·2 | 60 |

23. The measurements of the level of water in wells near the major canals showed that the level had a tendency to rise. The preparation of projects for a complete system of drainage for the Agra Canal is, however, being pushed on, and a hope is expressed that construction will be begun early in 1892-93. The capital outlay on drainage works during the year amounted to Rs. 1,39,041, the additions to the length of drainage cuts amounting to 227 miles. The maintenance charges for drainage cuts in connexion with the Major Works amounted to Rs. 57,980, and under Agricultural to Rs. 57,273.

24. The following figures relate to the Tarai and Bhabar canals, which were under the charge of an Executive Engineer of the Irrigation Branch. They are not included in the general statements in the review, as no separate water-rate is levied on them. The amount entered under water-rate is an arbitrary portion of the land revenue:

| Canals. | Irrigated area. | Revenue Receipts. | | | | Revenue Expenditure. | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | Water-rate. | Plantation. | Water power. | Total. | Original works. | Repairs. | Establishment. | Tools and Plant. | Total. |
| | Acres. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |
| Tarai ... ... ... | 28,462 | 30,325 | ... | ... | 30,325 | 3,460 | 11,632 | 5,329 | ... | 20,421 |
| Bhabar ... ... ... | 51,507 | 1,78,247 | ... | 35,353 | 2,13,600 | 39,476 | 56,098 | 17,018 | 1,490 | 1,14,082 |

25. The Revenue Report was received by the Government of India on May 25th, which was considerably later than the receipt of that for the previous year, and is long after the due date. It was the last of the Revenue Reports to be received. The Government of India regret to find that the expectation of the submission of future reports being expedited, which was expressed by the Government of the North-Western Provinces and Oudh in the letter forwarding the report for 1890-91, has not been realized.

26. The report has been very well prepared, and the maximum flood level is now indicated on the river diagrams.

27. The Government of India notice with approval that the officers and subordinates of all grades performed their duties during the year to the satisfaction of His Honour the Lieutenant-Governor.

RESOLUTION—By the Government of India, Finance and Commerce Department.

Read—

Despatch from Her Majesty's Secretary of State for India, No. 36 (Revenue), dated 16th March 1893, forwarding a copy of a question asked in the House of Commons, and of the answer given thereto by the Under-Secretary of State, regarding the appointment of a Commission to enquire into the production and consumption of hemp drugs in India.

Read also—

Correspondence ending with Despatch from the Secretary of State, No. 99 (Revenue), dated 20th October 1892, regarding the consumption of ganja in India.

RESOLUTION.—In the despatch recited in the preamble, Her Majesty's Secretary of State informed the Government of India that, in answer to a

question put in the House of Commons, he had expressed his willingness to request the Government of India to appoint a Commission to enquire into the cultivation of the hemp plant in Bengal, the preparation of drugs from it, the trade in those drugs, the effect of their consumption upon the social and moral condition of the people, and the desirability of prohibiting the growth of the plant and the sale of ganja and allied drugs. In accordance with the announcement thus made, Lord Kimberley requested the Government of India to appoint a Commission for the purposes stated, and to issue such instructions as would ensure that the enquiry should be thorough and complete. His Lordship is of opinion that the investigation can hardly be confined to Bengal, but should extend to the whole of India, and that the Commission should be instructed to ascertain to what extent the existence of the hemp plant all over India affects the practical difficulty of checking or stopping the consumption of ganja as distinguished from other narcotic drugs prepared from the hemp plant, and whether there is ground for the statement that bhang is less injurious than ganja to consumers.

2. In accordance with these instructions, His Excellency the Governor General in Council has been pleased to appoint a Commission to conduct the enquiry desired by the Secretary of State. The following gentlemen are appointed to form the Commission:

*President:*

The Hon'ble W. Mackworth Young, M.A., C.S.I., First Financial Commissioner, Punjab.

*Members:*

1. Mr. H. T. Ommanney, Collector, Panch Mahals, Bombay.
2. Mr. A. H. L. Fraser, M.A., Commissioner, Chattisgarh Division, Central Provinces.
3. Surgeon-Major C. J. H. Warden, Professor of Chemistry, Medical College, and Chemical Examiner to Government, Calcutta, Officiating Medical Storekeeper to Government, Calcutta.
4. Raja Soshi Sikhareswar Roy, of Tahirpore, Bengal.
5. Kanwar Harnam Singh, Ahluwalia, C.I.E., Punjab.
6. Lala Nihal Chand, of Muzaffarnagar, North-Western Provinces.

3. His Excellency the Governor General in Council desires that the enquiry should be thorough and searching, but he leaves to the Commission full discretion to determine the best means of securing that result. Certain instructions are given in the following paragraphs; but these are not intended to be exhaustive, and the Commission have full authority to take up any branch of enquiry which in their opinion is likely to elucidate the subject and to aid the Government of India and the Secretary of State in deciding on the policy to be adopted in regard to hemp drugs.

4. It is desirable that the Commission should visit and take evidence in all or most of the Provinces of India: there are political objections to their holding sittings in Native States; but any information similar to that required regarding British India, which can be obtained regarding Native States, should be included in the Report.

5. The Commission should ascertain with as much precision as possible the extent to which the hemp plant is cultivated in each of the Provinces of India in which it is grown. They should collect full information as to the manner in which the plant is cultivated for the production of drugs and the methods of preparing the manufactured drug from the raw product, whether of the wild or the domesticated plant. Little is known at present as to the extent to which the wild plant can be used for the preparation of drugs, whether in the milder or the more noxious forms. This point has an important bearing on the possibility of introducing restrictive measures, and will require careful investigation. Full particulars should be obtained regarding all the different forms of the drug which are commonly used, especially ganja, charas, and bhang; and regarding the classes of the people by whom, and the extent to which, each is used. The physical and other effects of the use of hemp drugs should be thoroughly investigated, each variety of the drug being separately treated, so far as that can be conveniently done. In conducting this branch of the enquiry, the Commissioners should avail themselves freely of the evidence of medical

experts. They should endeavour to ascertain what proportion of the population habitually consumes hemp drugs, and should thoroughly examine the testimony in support of the commonly received opinion that the use of hemp drugs is a frequent cause of lunacy. They should ascertain whether, and in what form, the consumption of the drugs is either harmless or even beneficial, as has occasionally been maintained.

6. Full information should be compiled regarding the administrative arrangements in force in each Province for controlling the growth of the plant, the manufacture and sale of the drugs, and their importation from other Provinces or from Native States, and for imposing duties on cultivation and sale. It is understood that charas is imported into the Punjab on a considerable scale from foreign territory, and the question of the importation of hemp drugs generally from foreign territory should receive the special attention of the Commission. The various systems employed for taxing the drug or the cultivation of the plant should be reviewed with especial reference to the comparative incidence of this taxation in different parts of India and to the comparative efficacy of the taxation imposed in restricting consumption, whether by the mere weight of the tax or by the method and stage of imposition. It is known that the rates vary considerably in different Provinces, but the precise effect of the variations is not fully understood. In this connection the Commissioners should notice any case in which the proximity of a Native State affects the production or consumption of the drug in British territory.

7. There are two points connected with the subject-matter of the enquiry which call for special investigation. The first of these is the danger lest prohibition or restrictive measures of a stringent character may give rise to serious discontent, and be resented by the people as an unjustifiable interference with long-established social customs. In some parts of India the use of hemp drugs is, it is believed, common among fakirs and ascetics held in veneration by large classes of the population. In Bengal it has been stated that an infusion of the leaves of the plant is commonly offered to every guest and member of the family on the last day of the Durga Puja: it has no ill-effects, and its use is not considered reprehensible in any way. The Governor General in Council desires that the Commissioners will endeavour to ascertain to what extent these and similar customs prevail in Bengal and other parts of India, and how far the use of hemp drugs forms a part of social or possibly religious, ceremonial, or observance, and they should, if possible, take the evidence of witnesses drawn from the classes among whom the use of hemp drugs is chiefly prevalent. The Commissioners should state their opinion whether the prohibition of the use of hemp drugs, or any restrictive measures which they may deem practicable, would be likely to give rise to political discontent in any parts of India or among any classes of the population. It is believed that in some parts of the country bhang is in a special degree the poor man's narcotic, and the possible unpopularity of a measure which would deprive the very poorest of the population of the use of a narcotic to which they have always been accustomed should not be overlooked.

8. Another point to which the attention of the Commissioners should be directed is the probability or possibility that if the use of hemp drugs is prohibited, those who would otherwise continue to use them may be driven to have recourse to alcohol, or to other stimulants or narcotics which may be more deleterious.

9. Finally, the Governor General in Council requests that the Commissioners, if they should be of opinion that the prohibition of the consumption of any hemp drug should not, or could not, be enforced, will indicate, for the consideration of the Government of India, any reforms and improvements which their investigations may lead them to recommend in the existing arrangements of each Province for controlling the cultivation of the hemp plant, and the manufacture, sale, and taxation of hemp drugs. In framing their recommendations regard should, of course, be had to the considerations which have been stated in paragraphs 7 and 8 of this Resolution. Absolute prohibition or repressive measures of a stringent nature may involve inquisitorial proceedings of an unpopular character, and afford opportunities for the levy of blackmail; and in framing regulations for the prohibition or for the restriction of the use of hemp drugs these considerations should be borne in mind.

If the Commission should be of opinion that the cultivation of the hemp plant for the production of drugs or the consumption of any hemp drug should be absolutely prohibited, it will be their duty to state the regulations which should be adopted for this purpose.

10. All Local Governments and Administrations have been requested to render every assistance to the Commission, to collect and place at its disposal whatever information may be available, and to make to the Commission any suggestions regarding the enquiry which local knowledge and experience may suggest.

11. The Governor General in Council directs that the Commission shall assemble in Calcutta on the 1st August 1893.

---

ORDER.—Ordered, that a copy of the Resolution be forwarded to all Local Governments and Administrations for information, and with special reference to paragraph 10 of the Resolution.

---

Ordered also, that a copy of the Resolution be forwarded to the President and to each Member of the Commission.

---

Ordered further, that the Resolution be published in the *Gazette of India* for general information.

[54 & 55 VICTORIA, CHAPTER 31.]

*An Act to enable Her Majesty in Council to carry into effect Conventions which may be made with Foreign Countries respecting Ships engaged in Postal Service.*

[21ST JULY, 1891.]

BE it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

Application of Act by Order in Council.

1. (*1*) Where Her Majesty the Queen has made a convention with a Foreign State respecting the postal service between such Foreign State and the United Kingdom, or respecting the privileges of mail ships, that is to say, ships engaged in any postal service of such Foreign State or of any part of Her Majesty's dominions, it shall be lawful for Her

Majesty in Council to order that this Act shall, and this Act shall accordingly, subject to any conditions, exceptions and qualifications contained in the Order, apply during the continuance of the Order as regards such Convention and Foreign State and the postal service and mail ships described in the Convention; and where by virtue of any such Order this Act or any section thereof applies as regards any Convention, Foreign State, postal service or mail ship, the same is in this Act referred to as a Convention, Foreign State, postal service or mail ship to which this Act or section applies.

(2) The Order shall recite or embody the terms of the Convention, and may be varied or revoked by Order in Council, but shall not continue in force for any longer period than the Convention.

(3) Every Order in Council under this Act shall be laid before both Houses of Parliament forthwith after it is made, or, if Parliament be not then sitting, after the then next meeting of Parliament, and shall also be notified in the *London Gazette*, and published under the authority of Her Majesty's Stationery Office.

Conveyance of letters by crew or passengers of mail ships forbidden.

2. (1) Where this section applies to a Convention with a Foreign State, the master of a British mail ship to which this section applies when carrying mails to or from any port of the Foreign State, and the master of a mail ship of the Foreign State to which this section applies when carrying mails to or from any port of the United Kingdom, shall not, nor shall any person on board the ship, whether a passenger or belonging to the ship or any other person, convey in the ship for delivery to another person in the Foreign State or United Kingdom, as the case may be, any letter, other than the letters contained in mail bags entrusted to the master by a postal officer of the United Kingdom or of any Foreign State, or than the despatches sent by the Government either of the United Kingdom or of any Foreign State.

(2) If a person on board such ship acts in contravention of this section, or refuses or fails on demand to give up to a postal officer, or, if such person is not the master, to the master, any letter so conveyed by him, he shall be liable on summary conviction to a fine not exceeding five pounds.

(3) It shall be the duty of the master of the ship to secure the observance of this section by all persons on board the ship, and to inform the proper authorities at the port at which the ship arrives of any breach of this section by any of those persons, and if he wilfully fails to perform that duty, he shall be liable to a fine not exceeding five pounds.

(4) Provided that a person shall not be liable under this section to a fine for any offence for which he has been punished by the law of the Foreign State.

(5) Nothing in this section shall apply to any letters which, if sent from the United Kingdom, would be exempted from the exclusive privilege of the Postmaster-General under the Act of the session of the seventh year of King William the Fourth and the first of Her present Majesty, chapter thirty-three, intituled "An Act for the management of the Post Office." 7 Will., 4 & Vict., c. 33.

Regulation as to giving of security for ships engaged in postal service.

3. (1) Where the owner of any ships, British or foreign, applies to the High Court in England, and

(a) produces a certificate of a Secretary of State that such owner is subsidised for the execution of any postal service within the meaning of a Convention with a Foreign State to which this Act applies by reason of receiving from the Foreign State or from the Government of the United Kingdom or of a British Possession a *bonâ fide* subsidy for the postal service mentioned in the certificate, and

(b) produces sufficient evidence of the nature of the said service and the number of, and the prescribed particulars respecting, the ships engaged therein, and

(c) gives notice of the application to the Board of Trade,

the High Court, after hearing the owner, and the Board of Trade if they wish to be heard, shall fix the nature and amount of the security which the owner ought to place under the control of the Court for the purposes of this Act as respects the ships engaged in that postal service, and fix the maximum number and tonnage of the ships to which the security is to apply.

(2) The security shall be the bond of the owner guaranteed either—

(a) by the personal security of a surety, accompanied by an adequate real security given by the surety; or

(b) by the payment or transfer into Court of cash or of securities of the Government of the United Kingdom.

(3) If the owner gives such security to the satisfaction of the High Court, then so long as the security is maintained and is sufficient to the satisfaction of the Court, and the number and tonnage of the ships for the time being actually engaged in carrying mails for the postal service in respect of which the security is given does not exceed the number and tonnage of the ships to which the security applies, the ships actually engaged in carrying mails for the said service shall be deemed to be exempted mail ships, and be entitled to the exemptions and privileges given by this Act to exempted mail ships; and the Board of Trade shall give the prescribed notices for informing the arresting authorities that the ships actually engaged in carrying the mails for the said postal service are exempted mail ships.

(4) Notice of every application respecting any security given in pursuance of this section shall be given to the Board of Trade.

(5) If at any time it appears to the Board of Trade that a security given as respects ships engaged in any postal service is from any cause (whether pending claims, variation of the conditions of the service, or otherwise) insufficient, the Board of Trade shall apply to the High Court, and that Court, if satisfied of such insufficiency, shall require the security to be made sufficient to the satisfaction of the Court within a reasonabe time, and direct that in default the ships engaged in the postal service shall cease to be exempted mail ships, and that the Board of Trade shall give the prescribed notices for informing the arresting authorities of such cesser.

(6) The amount and nature of the security may be varied and the whole security may be withdrawn, and the income of the security may be disposed of by order of the High Court from time to time on such application either of the shipowners or of the Board of Trade, or of any person appearing to be interested, and in such manner and after such notice, and upon such terms and conditions as may be prescribed by rules of Court, or, so far as the rules do not extend, as the Court may think just.

(7) Provided that before the security is actually withdrawn the High Court shall be satisfied—

(a) that the prescribed notice of the order for withdrawal has been given to the arresting authorities; and

(b) that there is no pending claim for the purposes of which the security may be required;

and upon the prescribed notice of the order for withdrawal being given to an arresting authority, the ships shall, as respects that authority, cease, after the date specified in the notice, to be exempted ships.

(8) Rules of Court may be made for carrying this section into effect, and in particular for regulating the nature, amount and value of the security to be given, and the mode of giving security, and of giving notices to the arresting authorities, and for providing for the evidence of the exemption of ships under this section, and for the information to be given from time to time to the High Court respecting the ships to which the security applies and for the jurisdiction of the High Court under this Act being exercised in chambers.

Arrest and execution of process on board exempted mail ships.

4. (1) Where this section applies to a Convention with a Foreign State, and an exempted mail ship to which this section applies is in a port in the United Kingdom, no person shall be arrested without warrant on board such ship, and before any process, civil or criminal, authorising the arrest of any person who is on board such ship is executed against that person, the following provisions of this section shall be observed; that is to say,—

(a) written notice of the intention to arrest a person who is, or is suspected to be, on board the ship, stating the hour at which, if necessary, the ship will be searched, shall, if it is a ship of a Foreign State and there is at the port a consulate of that State, be left at the consulate, addressed to the consular officer:

(b) it shall be the duty of the master upon demand, if the said person is on board his ship, to enable the proper officer to arrest him:

(c) if the officer is unable to arrest the said person, he may, but if it is a foreign ship, only after the expiration of such time after notice was left at the consulate as is specified in the Convention, search the ship for such person, and if he is found may arrest him.

(2) The ship may be delayed for the purposes of this section for the time specified in the Convention, but not for any longer time.

(3) If the master of a ship refuses to permit a search of the ship in accordance with this section, any officer of Customs may detain the ship, and such master shall be liable to a fine of five hundred pounds.

(4) This section shall apply to the arrest of the master in like manner as in the case of any other person.

Exemption from seizure of exempted mail ship.

5. (1) An exempted mail ship to which this section applies shall not, subject as in this Act mentioned, be liable to be arrested or detained by any arresting authority either for the purpose of founding jurisdiction in any Court of Admiralty, or of enforcing the payment of any damages, fine, debt, or other claim or sum, or enforcing any forfeiture whether arising from the misconduct of the master or any of the crew or otherwise, but every Court of the United Kingdom by the process of which the ship could have been under the circumstances arrested or detained shall have the same jurisdiction as if the ship had been so arrested or detained, and any legal proceeding in relation to any such matter as aforesaid may be commenced by such service in the United Kingdom of any writ or process as may be prescribed by rules of Court; and the High Court on application shall, in accordance with rules of Court, cause the security to be applied in discharge of any such damages, fine, debt, claim, sum or forfeiture.

(2) Provided that nothing in this section shall render invalid the arrest or detention of a ship before the prescribed notice has been given to the arresting authority, but such authority, on proof that the ship is an exempted mail ship, shall release the ship. Where the Commissioners of Customs, in pursuance of any Act or as a condition of waiving any forfeiture, require a deposit to be made by any exempted mail ship to which this section applies, the amount of such deposit shall, on notice from the Commissioners of Customs, and without any further proceeding, be set apart out of the security as money belonging to the said Commissioners, and shall be paid and applied as they direct, and any rules of Court relating to such notice, payment or application shall be made with the consent of the Treasury.

Application of Act to public ships.

6. (1) Where the Convention with a foreign State provides that any provisions of the Convention similar to those contained in this Act shall in any cases apply to a public ship of a Foreign State when employed as a mail ship, it shall be lawful for Her Majesty the Queen to agree that the like provisions shall apply to a public ship of Her Majesty in the like cases when employed as a mail ship, and to give effect to such agreement.

(2) An order in Council applying this Act as regards a Convention with a Foreign State may, if it seems to Her Majesty in Council to be consistent with the Convention so to do, apply this Act as regards a public ship of that Foreign State when employed as a mail ship in the

cases authorised by the Convention; and this Act shall apply accordingly as if such ship were an exempted mail ship belonging to a private owner, and any person may be arrested on board such ship accordingly.

Legal proceedings.

7. (1) Every fine under this Act, if exceeding fifty pounds, may be recovered by action in the High Court in England or Ireland or in the Court of Session in Scotland, and the Court in which it is recovered may reduce the amount of such fine, and a fine under this Act not exceeding fifty pounds may be recovered on summary conviction, provided that every offence for which a fine exceeding fifty pounds can be imposed under this Act may be prosecuted on summary conviction, but the fine imposed on such conviction shall not exceed fifty pounds.

(2) In the case of a summary conviction, any person who thinks himself aggrieved by such conviction may appeal to quarter sessions. In Scotland such person may appeal in manner provided by the Summary Prosecutions Appeals (Scotland) Act, 1875.

38 & 39 Vict., c. 62.

(3) Service of any summons or other matter in any legal proceeding under this Act shall be good service if made by leaving the summons for the person to be served on board the ship to which he belongs with the person being or appearing to be master of the ship.

(4) If a fine under this Act imposed on the master of a ship is not paid, and cannot be recovered out of any security given in pursuance of this Act, the Court may, in addition to any other power for enforcing payment of the fine, direct the amount to be levied by distress or poinding and sale of the ship, her tackle, furniture or apparel. An officer of Customs in detaining a ship or releasing a ship after detention in pursuance of this Act shall act upon such requisition or authority and under such regulations as the Commissioners of Customs may make with the consent of the Treasury.

Application of Act to British Possessions.

8. (1) An Order in Council may, for the purpose of a Convention with a Foreign State, apply this Act, subject to any exceptions or modifications not inconsistent with the provisions of this Act, to any British Possession, and this Act, when so applied, shall, subject to those exceptions and modifications, and subject as hereinafter mentioned, have effect as if it were re-enacted with the substitution of such British Possession for the United Kingdom;

Provided that before it is applied to any British Possession named in the schedule to this Act, the Government of such Possession shall have adhered to the Convention.

(2) Where this Act applies to a British Possession, it shall not be necessary for the owner of any mail ship to give security in any Court in that Possession, and the provisions of this Act with respect to the jurisdiction of any Court of the United Kingdom, other than any jurisdiction relating to the application of the security, shall apply as if a Court in the British Possession were substituted for a Court of the United Kingdom.

(3) It shall be lawful for Her Majesty in Council to make rules for carrying into effect, as respects British Possessions, the provisions of this Act with respect to the security given by mail ships, and in particular with respect to the commencement of a legal proceeding by service of a writ or process in the Possession, and to the notices to be given to arresting authorities in the Possession, and the evidence to be receivable by such authorities of the security having been given or withdrawn, and the application of the security in discharge of any damages, fine, debt, claim, sum or forfeiture, where the same are or is recovered or payable either in the British Possession, or under proceedings pending concurrently in that British Possession and in any other British Possession or the United Kingdom.

(4) If by any law made either before or after the passing of this Act by the Legislature of any British Possession provision is made for carrying into effect within such Possession any Convention to which this Act applies, Her Majesty in Council may suspend the operation within such Possession of this Act or of any part thereof so far as it relates to such Convention, and so long as such law continues in force there, or direct that such law or any part thereof shall have effect in such British Possession with or without modifications and alterations as if it were part of this Act.

*To His Excellency the Most Honourable the Governor General of India in Council.*

MY LORD MARQUIS,—In continuation of my Despatch, dated the 6th of April last, No. 79, I forward, for the information of your Government, ten copies of the Order of Her Majesty in Council of the 16th of May 1893, entitled "the Mail Ships (France) Order in Council (India), 1893."

I have, &c.,

KIMBERLEY.

AT THE COURT AT WINDSOR.

*The 16th day of May, 1893.*

PRESENT:

*The Queen's Most Excellent Majesty.*

Lord President.

Marquess of Ripon.

Mr. Secretary Asquith.

Whereas on the thirtieth day of August 1890 a Convention was made at London between Her Majesty and the President of the French Republic respecting the postal service between France and the French possessions and the United Kingdom and British possessions;

And whereas the ratifications of the said Convention were exchanged on the 23rd March 1891;

And whereas by "the Mail Ships (France) Order in Council, 1892," "The Mail Ships Act, 1891," is applied during the continuance of that Order as regards the said Convention, and as regards the French Republic and the postal service and mail ships described in that Convention;

And whereas by section 8 of the said Act it is provided that an Order in Council may, for the purpose of a Convention with a foreign State, apply the said Act, subject to any exceptions or modifications not inconsistent with the provisions of the said Act, to any British possession, and that the said Act, when so applied, should, subject to those exceptions and modifications, and subject as thereinafter mentioned, have effect as if it were re-enacted with the substitution of such British possession for the United Kingdom, provided that, before it should be applied to any British possession named in the Schedule to the said Act, the Government of such possession should have adhered to the Convention;

And whereas the Government of India, one of the possessions named in the Schedule to the said Act, has adhered to the said Convention, and it is expedient that the said Act should, for the purposes of the said Convention, apply to India, subject to the exceptions and modifications in this Order contained:

Now, therefore, Her Majesty, by virtue and in exercise of the powers in this behalf by "The Mail Ships Act, 1891," or otherwise in Her Majesty vested, is pleased by and with the advice of Her Privy Council to order, and it is hereby ordered, as follows:

1. "The Mail Ships Act, 1891," shall, for the purpose of the said Convention, apply to India, subject to the provisions of section 8 of the said Act, and also to the exceptions and modifications following, that is to say—

(1) The expression "Officer of Customs" means an officer of Customs authorized under "The Sea Customs Act, 1878," or other Law for the time being regulating sea customs in India.

(2) The [illegible] amounts were [illegible] rupees at the rate of 10 rupees to the pound sterling.

(3) In lieu of sub-sections 1 and 2 of section 7 of the said Act, the following provisions shall be substituted, that is to say—

Every fine under the said Act, if exceeding 500 rupees, may be recovered by suit in the principal Civil Court having original jurisdiction in the place in which the person liable to the fine may be found.

A fine under the said Act not exceeding 500 rupees may be recovered by criminal proceedings before a Presidency Magistrate, or Magistrate of the First Class, having jurisdiction in the place in which the person liable to the fine may be found: provided that (*a*) every offence for which a fine exceeding 500 rupees can be imposed under the said Act may be prosecuted before such Magistrate, but the fine imposed on such conviction shall not exceed 500 rupees; and (*b*) in every case of conviction and fine by a

Magistrate there shall be an appeal to the same Court as in other cases of fine of such amount as, under the Law for the time being in force in India, to give a right of appeal.

Every Court, whether of original or appellate jurisdiction, may reduce the amount of any fine.

(4) The Regulations required to be made under sub-section 4 of section 7 of the said Act by the Commissioners of Customs with the consent of the Treasury shall in India be made by the Governor General in Council.

(5) Section 5 of the said Act, so far as relates to the Commissioners of Customs, shall not apply to India.

2. The said Act shall apply as regards any public ship of the French Republic when employed as a mail ship in the cases authorised by Article V of the said Convention.

3. This Order may be cited as "The Mail Ships (France) Order in Council (India), 1893."

And the Right Honourable the Earl of Rosebery, K.G., and the Right Honourable the Earl of Kimberley, K.G., two of Her Majesty's Principal Secretaries of State, are to give the necessary directions herein as to them may respectively appertain.

RESOLUTION—By the Government of India, Public Works Department.

*Completion of the bridge over the Kistna river at Bezvada.*

OBSERVATIONS.—This bridge, which forms a portion of the East Coast Railway, connects that line and His Highness the Nizam's Guaranteed Railway system north of the Kistna with the Bellary-Kistna metre gauge railway south of that river at Bezvada. Provision has been made both for standard and metre gauge lines crossing the bridge in order to accommodate the possible future extension of the East Coast Railway to Madras, and to afford access for the metre gauge railway into Bezvada. A roadway for ordinary traffic is carried at the same level as the rails. The site finally selected for the bridge is about half a mile below the anicut, where the course of the river is fixed by two hills flanking the anicut.

The bridge itself consists of 12 spans of 300 feet girders, carried on piers 50 feet high, which are founded on double hexagonal wells, of the type used in the bridge over the Chenab at Shershah, sunk to an average depth of 80 feet, and was estimated to cost Rs. 42,70,000. The girder work especially has been erected expeditiously and cheaply, nine spans weighing 4,500 tons being erected in the short space of four months.

Work was commenced in August 1890, and the bridge was opened by His Excellency the Governor of Madras on 17th March 1893 ; so that the time occupied in construction was only $2\frac{1}{2}$ years.

---

RESOLUTION.—The Governor General in Council desires to record his appreciation of the successful manner in which this important work has been carried out and of the rapidity and cheapness with which the work has been executed, which reflects the highest credit on the officers and subordinates employed.

2. His Excellency in Council desires specially to recognise the services of Mr. F. J. E. Spring, L.C.E., M.I.C.E., Engineer-in-Chief, and Mr. E. W. Digby, the Engineer in charge.

The services of the foremen and of the subordinate native employés on the bridge have been rewarded by the grant of bonuses under the sanction of the Government of India.

---

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Director General of Railways for information and communication to the officers concerned, and that it be published in the *Gazette of India*.

SIMLA, FRIDAY, JULY 14, 1893.

## FINANCE AND COMMERCE DEPARTMENT.

### *NOTIFICATIONS.*

*ACCOUNTS AND FINANCE.*

*PUBLIC DEBT.*

**No. 2984.**

*The 14th July, 1893.*

The Governor General in Council has determined to borrow three hundred and fifty lakhs of Rupees, being the amount required for the public service.

The following Notification is therefore published:

### *THREE AND A HALF PER CENT. LOAN OF 1893-94.*

His Excellency the Right Honourable the Governor General in Council has resolved to borrow three hundred and fifty lakhs of rupees for the public service in the following manner:

2. Promissory Notes will be issued for the said amount, bearing interest at the rate of three and a half per centum per annum, payable half-yearly on the 30th day of June and 31st day of December. The notes will be in Form A annexed to this Notification, and they will not be discharged without a previous notice of three months to be published in the Government Gazette.

3. Tenders for the whole or any part of the said amount of ₹3,50,00,000 will be received by the Comptroller General from this date to noon of Tuesday, the 15th August next. Tenders must be in sums of 500 Rupees or multiples of 500 Rupees.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three and a half Per Cent. [illegible]*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment certificate may be issued, if any part of the loan is allotted to such tenderer.[1]

(*a*) Each tender must be accompanied by a receipt from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or by a cheque drawn

---

[1] Tenders made in accordance with these instructions will also be received by the Accountants General, Madras and Bombay, on account of the Comptroller General, Calcutta, on the 14th August and up to 11-30 or 11 o'clock local time respectively (corresponding with 12 o'clock in Calcutta) on the 15th August; provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);

(*b*) they are made on printed Forms, to be obtained at the same office or at the local Presidency Bank;

(*c*) each tender is for not less than ₹10,000;

(*d*) that the deposit is either a promissory note or a Treasury Receipt from the Head Office of the local Presidency Bank, or a cheque on a local Bank in Madras or Bombay in favour of the Accountant General, Madras or Bombay, respectively;

(*e*) that the amount of the tender is made payable either in Calcutta, Madras, or Bombay;

and the Accountant General will return deposits on non-accepted tenders, and will issue allotment-certificates so far as the tenders are payable in Madras or Bombay.

in favour of the Comptroller General on a Bank in Calcutta, Madras, or Bombay, or by[1] Government Promissory Notes standing in the name of or endorsed to the tenderer or the person making the deposit for not less than one-hundredth, or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender.

(*b*) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionally in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 14 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in even tens of rupees in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(*c*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled; provided that the notes of the 4½ per cent. loans of 1878 and 1879 advertised for discharge by Notification No. 2985 of this date may, if the depositors so desire, be credited, as far as possible, proportionately in payment of the allotment-certificates issued in respect of the tender with which they were deposited, the amount so credited, however, bearing interest only from the 14th October 1893 (the interest up to 13th October being paid separately as provided in the above quoted Notification).

5. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

6. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

7. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

8. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Tuesday, the 15th August next, and those received under the terms of the footnote under clause 4 will be similarly opened by the Accountant General, Madras, at 11-30 (Madras time), and by the Accountant General, Bombay, at 11 o'clock (Bombay time), on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 10.

9. Tenders at the recorded minimum rate and at rates above the recorded minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate; the amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than ₹500.

10. To each tenderer (or to his agent) whose tender is accepted in whole or in part such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[2] as soon as possible after the 15th August; and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay.

11. If the allotment made on any tender is less than ₹3,000, then the whole of the allotment-certificates (after credit of the deposit under clause 4 (*b*)) will be made payable upon the 26th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:

*Instalment I.*—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 29th August:

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.*

[2] For tenders received by the Accountant General, Madras or Bombay, and payable at those places, the Accountant General will issue the allotment-certificates.

*Instalment II.*—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 26th September:

*Instalment III.*—The balance payable upon the 14th October:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of ₹500.

12. Any allotment-certificate will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

13. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued, either in cash or by tendering duly receipted Notes (or Stock Certificates issued in lieu thereof) or Loan Certificates of the 4½ per cent. Loans of 1878 and 1879 advertized for discharge in Notification No. 2985 of this date, which will, as provided in that Notification, be accepted in payment of a sum equivalent to the principal amount of such Notes, Stock, or Loan Certificates. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the Officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate.

14. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than ₹500), bearing interest from 31st December 1893, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th of December 1893.

(*b*) Or he may, at his option, by paying interest at the said rate from 30th June 1893 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1893.

Provided that, if any payment has been made by tendering Notes or Stock or Loan Certificates of the 4½ per cent. Loans of 1878 and 1879, such payment shall for the purpose of determining from what date the holder should receive interest under clause (*a*) or to what date he should pay interest under clause (*b*) be held to have been made on the 14th October 1893.

## FORM B OF TENDER (see Clause 4).

I, *A. B.*, hereby tender for Rupees (*X*) of *The Three and a half Per Cent. Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 14th July 1893, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (*Y*) Annas (*Z*) for every hundred rupees allotted to me.

I enclose a *deposit receipt** for Rupees (*XX*), and engage, if my offer be accepted, to pay to the account of the Government at the *Bank of*† *(or at the*† *Branch of the Bank of*† *; or into the Public Treasury at*† *as the case may be*)—

* Or Cheque or Government Promissory Note.
† Here enter the name of Bank, Branch Bank, or Treasury.

The first instalment, not exceeding 35 per cent., on or before 29th August 1893.

The second instalment, not exceeding 35 per cent., on or before 26th September 1893.

The balance on or before 14th October 1893.

Or, if the amount allotted to me be less than ₹3,000, then the whole amount on or before 26th September 1893.

Any allotment made to me may be communicated to *C. D. at**

* Here insert *C. D.'s* address, which must be in India. This paragraph should only be inserted if *A. B.* does not reside in India, or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

NOTE (1).—*A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount: thus, "One hundred and two" or "One hundred" or "Ninty-nine"; not "Two per cent. premium" or "Par" or "One per cent. discount."*

By order of the Governor General in Council,

J. F. FINLAY,

*Secretary to the Government of India.*

## NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

*Filling up Tenders.*

(1) They are requested to use only the printed forms of tender which will be available at his Office and at the Currency Office on application to the Durwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

*Presentation of Tenders.*

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General, Madras and Bombay, will do likewise in respect of tenders presented to them under the note to clause 4 of the Government Notification.

*Return of Deposit in case of Non-acceptance.*

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General, Madras or Bombay, a receipt for the deposit accompanying it. This form should on the third day after the opening of the tenders be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General, or Accountant General, Bombay or Madras. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposit upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

*Accepted Tenders.*

(6) The Comptroller General, and the Accountant General, Madras or Bombay (in the case of tenders received by such Accountant General and payable in Madras or Bombay), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—₹500, ₹1,000, ₹2,000, ₹5,000, ₹10,000, ₹20,000, ₹50,000, ₹1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

*This is to certify that, in accordance with the terms of Notification No. 2984, dated 14th July 1893* (Gazette of India, Extraordinary, *dated 14th July 1893*), *the abovenamed tenderer has engaged to take up ₹2,000 of the 3½ Per Cent. Loan of 1893-94 at the rate abovementioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for ₹2,000, bearing interest from*

## No. 2985.

*The 14th July, 1893.*

Whereas the 4½ per cent. Loans noted on the margin mature upon 15th September 1893, and Promissory Notes or Loan Certificates of these loans can be paid off and discharged at any time on or after the 15th September 1893, on the expiration of a previous notice of three months to that effect, which notice may be given on the 15th June 1893, or at any time thereafter;

4½ per cent. Loan of 1878.
Transfer Loan of 1879, 4½ per cent. portion including the 4½ per cent. Loan of 1880.

And whereas the Governor General in Council has determined to pay off the said Promissory Notes or Loan Certificates on the 14th October 1893:

2. Notice is hereby given that on the 14th day of October 1893 all the Notes (or Stock Certificates issued in lieu thereof) and Loan Certificates of the 4½ per cent. Loans aforesaid will be paid off at the Public Debt Office, Bank of Bengal, Calcutta; and that from the said 14th day of October 1893 interest on the said Promissory Notes (or Stock Certificates) and Loan Certificates will cease.

3. Any of the Notes, Stock, or Loan Certificates hereby advertised for payment may be tendered, duly receipted, in lieu of cash, in payment of any allotment certificate or certificates issued under clause 10 of the Notification of this date, No. 2984, inviting tenders for the 3½ per cent. loan of 350 lakhs of rupees. The principal amount of the Notes or Stock or Loan Certificates so tendered will be accepted in discharge of an equivalent sum due on any such allotment-certificate or certificates payable either at the Head Office of the Bank of Bengal or at any other Bank or Treasury at which the interest on the Notes, Stock, or Certificates is payable, and the interest overdue on such surrendered Notes, Stock, or Certificates, and the further interest thereon from the last half-yearly date of payment of interest to 13th October 1893, inclusive, at the rate of four and a half per centum per annum, will be paid at the time when the Notes or Stock or Loan Certificates are surrendered.

4. Nothing in the preceding part of this Notification relates to any notes of the 7 shillings per cent. portion of the Transfer Loan of 1879.

# FINANCE AND COMMERCE DEPARTMENT.

## NOTIFICATIONS.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

**No. 2984.**

*Simla, the 14th July, 1893.*

The Governor General in Council has determined to borrow three hundred and fifty lakhs of Rupees, being the amount required for the public service.

The following Notification is therefore published:

### *THREE AND A HALF PER CENT. LOAN OF 1893-94.*

His Excellency the Right Honourable the Governor General in Council has resolved to borrow three hundred and fifty lakhs of rupees for the public service in the following manner:

2. Promissory Notes will be issued for the said amount, bearing interest at the rate of three and a half per centum per annum, payable half-yearly on the 30th day of June and 31st day of December. The notes will be in Form A annexed to this Notification, and they will not be discharged without a previous notice of three months to be published in the Government Gazette.

3. Tenders for the whole or any part of the said amount of ₹3,50,00,000 will be received by the Comptroller General from this date to noon of Tuesday, the 15th August next. **Tenders must be in sums of 500 Rupees or multiples of 500 Rupees.**

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed *"Tender for the Three and a half Per Cent. Loan."* If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment certificate may be issued, if any part of the loan is allotted to such tenderer.[1]

(*a*) Each tender must be accompanied by a receipt from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or by a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, or Bombay, or by[2] Government Promissory Notes standing in the name of or endorsed to the tenderer or the person making the deposit for not less than one-hundredth, or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender.

(*b*) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionally in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 14 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in even

[1] Tenders made in accordance with these instructions will also be received by the Accountants General, Madras and Bombay, on account of the Comptroller General, Calcutta, on the 14th August and up to 11-30 or 11 o'clock local time respectively (corresponding with 12 o'clock in Calcutta) on the 15th August; provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);

(*b*) they are made on printed Forms, to be obtained at the same office or at the local Presidency Bank;

(*c*) each tender is for not less than ₹10,000;

(*d*) that the deposit is either a promissory note or a Treasury Receipt from the Head Office of the local Presidency Bank, or a cheque on a local Bank in Madras or Bombay in favour of the Accountant General, Madras or Bombay, respectively;

(*e*) that the amount of the tender is made payable either in Calcutta, Madras, or Bombay;

and the Accountant General will return deposits on non-accepted tenders, and will issue allotment-certificates so far as the tenders are payable in Madras or Bombay.

[2] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.*

tens of rupees in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(*c*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled; provided that the notes of the 4½ per cent. loans of 1878 and 1879 advertised for discharge by Notification No. 2985 of this date may, if the depositors so desire, be credited, as far as possible, proportionately in payment of the allotment-certificates issued in respect of the tender with which they were deposited, the amount so credited, however, bearing interest only from the 14th October 1893 (the interest up to 13th October being paid separately as provided in the above quoted Notification).

5. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

6. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

7. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

8. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Tuesday, the 15th August next, and those received under the terms of the footnote under clause 4 will be similarly opened by the Accountant General, Madras, at 11-30 (Madras time), and by the Accountant General, Bombay, at 11 o'clock (Bombay time), on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 10.

9. Tenders at the recorded minimum rate and at rates above the recorded minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate; the amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than ₹500.

10. To each tenderer (or to his agent) whose tender is accepted in whole or in part such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[1] as soon as possible after the 15th August; and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay.

11. If the allotment made on any tender is less than ₹3,000, then the whole of the allotment-certificates (after credit of the deposit under clause 4 (*b*)) will be made payable upon the 26th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:

*Instalment I.*—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 29th August:

*Instalment II.*—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 26th September:

*Instalment III.*—The balance payable upon the 14th October:

and allotment-certificates will be issued for each instalment separately.

[1] For tenders received by the Accountant General, Madras or Bombay, and payable at those places, the Accountant General will issue the allotment-certificates.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of ₹500.

12. Any allotment-certificate will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

13. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued, either in cash or by tendering duly receipted Notes (or Stock Certificates issued in lieu thereof) or Loan Certificates of the 4½ per cent. Loans of 1878 and 1879 advertized for discharge in Notification No. 2985 of this date, which will, as provided in that Notification, be accepted in payment of a sum equivalent to the principal amount of such Notes, Stock, or Loan Certificates. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the Officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate.

14. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than ₹500), bearing interest from 31st December 1893, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th of December 1893.

(*b*) Or he may, at his option, by paying interest at the said rate from 30th June 1893 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1893.

Provided that, if any payment has been made by tendering Notes or Stock or Loan Certificates of the 4½ per cent. Loans of 1878 and 1879, such payment shall for the purpose of determining from what date the holder should receive interest under clause (*a*) or to what date he should pay interest under clause (*b*) be held to have been made on the 14th October 1893.

I, *A. B.*, hereby tender for Rupees (*X*) of *The Three and a half Per Cent. Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 14th July 1893,

and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (*Y*) Annas (*Z*) for every hundred rupees allotted to me.

I enclose a *deposit receipt** for Rupees (*XX*), and engage, if my offer be accepted, to pay to the account of the Government at the *Bank of*† (*or at the*† *Branch of the Bank of*† ; *or into the Public Treasury at*† *as the case may be*)—

* Or Cheque or Government Promissory Note.
† Here enter the name of Bank, Branch Bank, or Treasury.

The first instalment, not exceeding 35 per cent., on or before 29th August 1893.

The second instalment, not exceeding 35 per cent., on or before 26th September 1893.

The balance on or before 14th October 1893.

**Or, if the amount allotted to me be less than ₹3,000, then the whole amount on or before 26th September 1893.**

* Here insert *C. D.'s* address, which must be in India. This paragraph should only be inserted if *A. ## NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

*Filling up Tenders.*

(1) They are requested to use only the printed forms of tender which will be available at his Office and at the Currency Office on application to the Durwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

*Presentation of Tenders*

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General, Madras and Bombay, will do likewise in respect of tenders presented to them under the note to clause 4 of the Government Notification.

*Return of Deposit in case of Non-acceptance.*

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General, Madras or Bombay, a receipt for the deposit accompanying it. This form should on the third day after the opening of the tenders be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General, or Accountant General [illegible]. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposit upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

*Accepted Tenders.*

(6) The Comptroller General and the Accountant General, Madras or Bombay (in the case of tenders received by such Accountant General and payable in Madras or Bombay), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—₹500, ₹1,000, ₹2,000, ₹5,000, ₹10,000, ₹20,000, ₹50,000, ₹1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

*This is to certify that, in accordance with the terms of Notification No. 2984, dated 14th July 1893* (Gazette of India, Extraordinary, *dated 14th July 1893*), *the abovenamed tenderer has engaged to take up ₹2,000 of the 3½ Per Cent. Loan of 1893-94 at the rate abovementioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for ₹2,000, bearing interest from*

CALCUTTA,
*The 14th July, 1893.*

STEPHEN JACOB,
*Comptroller and Auditor General.*

## No. 2985.

*The 14th July, 1893.*

Whereas the 4½ per cent. Loans noted on the margin mature upon 15th September 1893, and Promissory Notes or Loan Certificates of these loans can be paid off and discharged at any time on or after the 15th September 1893, on the expiration of a previous notice of three months to that effect, which notice may be given on the 15th June 1893, or at any time thereafter;

4½ per cent. Loan of 1878.
Transfer Loan of 1879, 4½ per cent. portion including the 4½ per cent. Loan of 1880.

And whereas the Governor General in Council has determined to pay off the said Promissory Notes or Loan Certificates on the 14th October 1893:

2. Notice is hereby given that on the 14th day of October 1893 all the Notes (or Stock Certificates issued in lieu thereof) and Loan Certificates of the 4½ per cent. Loans aforesaid will be paid off at the Public Debt Office, Bank of Bengal, Calcutta; and that from the said 14th day of October 1893 interest on the said Promissory Notes (or Stock Certificates) and Loan Certificates will cease.

3. Any of the Notes, Stock, or Loan Certificates hereby advertised for payment may be tendered, duly receipted, in lieu of cash, in payment of any allotment certificate or certificates issued under clause 10 of the Notification of this date, No. 2984, inviting tenders for the 3½ per cent. loan of 350 lakhs of rupees. The principal amount of the Notes or Stock or Loan Certificates so tendered will be accepted in discharge of an equivalent sum due on any such allotment-certificate or certificates payable either at the Head Office of the Bank of Bengal or at any other Bank or Treasury at which the interest on the Notes, Stock, or Certificates is payable, and the interest overdue on such surrendered Notes, Stock, or Certificates, and the further interest thereon from the last half-yearly date of payment of interest to 13th October 1893, inclusive, at the rate of four and a half per centum per annum, will be paid at the time when the Notes or Stock or Loan Certificates are surrendered.

4. Nothing in the preceding part of this Notification relates to any notes of the 7 shillings per cent. portion of the Transfer Loan of 1879.

By order of the Governor General in Council,

J. F. FINLAY,
*Secretary to the Government of India.*

### LEGISLATIVE DEPARTMENT.

### NOTIFICATION.

*Simla, the 28th July, 1893.*

**No. 25.**—The following Statute (with so much of the schedule as extends to repeal in India Statutes in force there) is published for general information:

### THE STATUTE LAW REVISION ACT, 1893.

[56 VICTORIA, CHAPTER 14.]

*An Act for further promoting the Revision of the Statute Law by repealing Enactments which have ceased to be in force or have become unnecessary.*

[9TH JUNE, 1893.]

WHEREAS it is expedient that certain enactments, which may be regarded as spent, or have ceased to be in force otherwise than by express specific repeal by Parliament, or have by lapse of time or otherwise become unnecessary, should be expressly and specifically repealed:

Be it, therefore, enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

Enactments in schedule repealed.

1. The enactments described in the schedule to this Act are hereby repealed, subject to the provisions of this Act and subject to the exceptions and qualifications in the schedule mentioned; and every part of a title, preamble, or recital specified after the words "*in part, namely,*" in connexion with an Act mentioned in the said schedule may be omitted from any revised edition of the Statutes published by authority after the passing of this Act, and there may be added in the said edition such brief statement of the Acts, officers, persons, and things mentioned in the title, preamble, or recital as may in consequence of such omission appear necessary:

Provided as follows:

The repeal of any words or expressions of enactment described in the said schedule shall

not affect the binding force, operation, or construction of any statute, or of any part of a statute, whether as respects the past or the future;

and where any enactment not comprised in the said schedule has been repealed, confirmed, revived, or perpetuated by any enactment hereby repealed, such repeal, confirmation, revivor, or perpetuation shall not be affected by the repeal effected by this Act;

and the repeal by this Act of any enactment or schedule shall not affect any enactment in which such enactment or schedule has been applied, incorporated, or referred to;

nor shall such repeal of any enactment affect any right to any hereditary revenues of the Crown, or affect any charges thereupon or prevent any such enactment from being put in force for the collection of any such revenues, or otherwise in relation thereto;

and this Act shall not affect the validity, invalidity, effect, or consequences of anything already done or suffered,—or any existing status or capacity,—or any right, title, obligation, or liability already acquired, accrued, or incurred, or any remedy or proceeding in respect thereof,—or any release or discharge of or from any debt, penalty, obligation, liability, claim, or demand,—or any indemnity,—or the proof of any past act or thing;

nor shall this Act affect any principle or rule of law or equity, or established jurisdiction, form or course of pleading, practice, or procedure, or the general or public nature of any statute, or any existing usage, franchise, liberty, custom, privilege, restriction, exemption, office, appointment, payment, allowance, emolument, or benefit, or any prospective right, notwithstanding that the same respectively may have been in any manner affirmed, recognised, or derived by, in, or from any enactment hereby repealed;

nor shall this Act revive or restore any jurisdiction, office, duty, drawback, fee, payment, franchise, liberty, custom, liability, right, title, privilege, restriction, exemption, usage, practice, procedure, form of punishment, or other matter or thing not now existing or in force;

and this Act shall not extend to repeal any enactment so far as the same may be in force in any part of Her Majesty's dominions out of the United Kingdom, except where otherwise expressed in the said schedule.

Application of repealed enactments in local courts.

**2.** If and so far as any enactment repealed by this Act applies or may have been by Order in Council applied to the court of the county palatine of Lancaster, or to any inferior court of civil jurisdistion, such enactment shall be construed as if it were contained in a local and personal Act specially relating to such court, and shall have effect accordingly.

Citation by short titles.

**3.** Where any Act cites or refers to another Act otherwise than by its short title, the short title may, in any revised edition of the Statutes printed by authority, be printed in substitution for such citation or reference.

Short title.

**4.** This Act may be cited as the Statute Law Revision Act, 1893.

### NOTIFICATIONS.

#### MEDICAL.

*Simla, the 25th July, 1893.*

**No. 437.**—In supersession of the Notification of this Department, No. 813, dated the 18th December 1888, the Governor General in Council is pleased to make the following rules regarding the remuneration of Medical Officers for attendance on Native Chiefs and Nobles and Native gentlemen of high position in a Native State.

2. When a Native Chief or Noble or gentleman of high position desires the professional attendance of any Medical Officer of Government, the latter will be at liberty to attend him, provided that such attendance does not interfere with the due performance of his ordinary duties. The special permission of the Local Government will, however, be necessary when such attendance involves the absence of the officer from those duties for any substantial time.

3. The Native Chief, Noble or gentleman may offer any Medical Officer of Government attending him such fee as he thinks fit. The offer made will be reported by the Medical Officer through the Political Agent or other officer of Government exercising political functions in the State of which the said Chief, Noble or gentleman is a resident for the consideration of the Local Government within whose jurisdiction the Native State is situated. In reporting the offer, the Medical Officer will state, so far as he is able to do so consistently with his position as a medical adviser, the nature and extent of the relief afforded, the importance of the case from a professional point of view, and the circumstances under which he attended the patient. The Political Agent or officer forwarding the report will submit it with such remarks as he considers necessary. The Local Government will have authority to sanction the acceptance of any fee so reported unless the amount appears to be out of proportion to the relief afforded and to the circumstances of the case, in which event the matter will be submitted, with the Local Government's opinion, for the consideration and orders of the Government of India.

4. The report prescribed in the preceding paragraph will not be required from a Medical Officer in the following cases:

(1) When the officer names his own charge in accordance with a scale which he has fixed for his patients generally who are not Native Princes or Chiefs, and when such charge is accepted by the patient; and

(2) When the officer and patient reside in the same station and the fee does not exceed Rs. 50 for each visit, or Rs. 1,000 in the aggregate for repeated visits during the course of a year.

5. For the purposes of this Notification the term "Local Government" will be held to include an Agent to the Governor General and a Resident of the 1st class.

### THE FRENCH OR THE GERMAN LANGUAGE.

Translation into English, with questions in Grammar.

### MATHEMATICS.

ARITHMETIC—

The Ordinary Rules of Arithmetic.
Vulgar and Decimal Fractions.
The Rule of Three and its Applications.
Simple and Compound Interest.
Present Value, Discount, and Annuities.
Extraction of the Square Root.

ALGEBRA—

The Ordinary Rules of Algebra.
Reduction and Manipulation of Algebraical Fractions.
Ratio, Proportion, and Variation.
Permutations and Combinations.
Arithmetical and Geometrical Progressions.
Simple and Quadratic Equations.
Determination of Common Factors.
The Theory of Indices.
The Nature and Use of Logarithms.

GEOMETRY—

The Relations and Properties of Similar Rectilinear Figures.
The Elementary Properties of the Plane, including those of the Angles made by Planes with Right Lines and with each other.
The Elementary Properties of the Sphere, including those of the Great and Small Circles on the Surfaces of Spheres.
The Mensuration of the Simpler Plane and Solid Figures, including that of the Circle, the Sphere, the Cylinder, and the Cone.
Elements of Co-ordinate Geometry, in Rectangular and Polar Co-ordinates, as far as the Equations and Properties of the Right Line and Circle.

TRIGONOMETRY—

The different Measurements of Angles and the Ordinary Relations of their Trigonometrical Ratios.
The Elementary Formulæ connecting the Trigonometrical Ratios of two or more Angles.
The solution of the several cases of Plane Triangles, including the determination of their Areas.
The determination of the Heights and Distances of Inaccessible Objects.

Candidates shall not be approved by the Examiners unless they have shown a competent knowledge in—

1. Latin and Roman History.
2. Greek.
3. Either the French or the German Language.[2]

**The University of London has acceded to the request of the Government of India that the Intermediate Examination in Arts and the B.A. Examination of the University may be held in Calcutta. These examinations begin each year on the third Monday in July and the fourth Monday in October respectively.**

2. As it is necessary that applications for permission to appear at these examinations should reach the University of London four months before the date of the examination, candidates for examination must submit their applications to the Director of Public Instruction in the first week of January for the Intermediate Examination, and in the first week of April for the Bachelor's Degree Examination.

[1] The questions in Mental and Moral Science will have no special reference to the writings of any one author or school of authors. In matters of opinion answers will be judged according to their accuracy of thought and expression.

3. For each examination a fee of £5 (five pounds sterling) will be charged. Each applicant will be required to remit in the first week of June for the Intermediate Examination and in the first week of September for the Bachelor's Degree Examination the sum of Rs. 100 (one hundred rupees) to the Director of Public Instruction either by money-order or by a note or notes for that amount in a cover registered and insured, or to pay the said amount in person to the Director. The £5 (five pounds sterling) fee will subsequently be paid by Government to the University, and the difference between the sum of one hundred rupees and the equivalent of five pounds sterling at the current rate of exchange for postal money-orders, or such rate as may hereafter be determined, will be returned to the candidate.

**No. 1596-E.**—The following Order of Her Majesty the Queen in Council is republished from the *London Gazette* of the 19th May, 1893, for general information:

AT THE COURT AT WINDSOR.

*The 16th day of May, 1893.*

PRESENT:

*The Queen's Most Excellent Majesty.*

Lord President.
Marquess of Ripon.
Mr. Secretary Asquith.

Whereas by treaty, grant, usage, sufferance, and other lawful means, Her Majesty the Queen has jurisdiction within the dominions of the Sultan of Zanzibar:

Now, therefore, Her Majesty, by virtue and in exercise of the powers by "The Foreign Jurisdiction Act, 1890," or otherwise in Her Majesty vested, is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows:

1. Any act which, if done in British India, would be an offence against the law for the time being in force in British India relating to trade-marks, merchandise-marks, copyright, designs, or inventions, shall, if done in Zanzibar by a person subject to the Orders in Council relating to Zanzibar, be an offence, whether such act is done in relation to any property or right of a British subject, or of a foreigner or native, or otherwise; and any person guilty of such offence shall be punished with imprisonment for a term which may extend to two months, or with a fine which may extend to 1,000 rupees, or with both.

2. Any Act of the Governor-General of India in Council, or of the Governor of Bombay in Council, amending or substituted for any of the Acts of those Legislatures respectively which are made applicable to Zanzibar by or under the provisions of Article 8 of "The Zanzibar Order in Council, 1884," or shall hereafter be made so applicable, shall apply to Zanzibar without any orders of the Secretary of State in that behalf, subject, however, to the provisions made in that article for facilitating the application of enact-

3. This Order shall be read and construed as part of "The Zanzibar Order in Council, 1884," and may be cited as "The Zanzibar (Trade-marks, &c.) Order in Council, 1893."

4. (*a*) This Order shall come into operation at the expiration of one month after it is first exhibited in the public office of the Consulate at Zanzibar: provided that any Act of the Imperial Parliament extending to India, or any Act of the Governor-General in Council which is passed after the commencement of this Order and applies to Zanzibar by virtue of this Order, shall not take effect until the expiration of one month

after such Act has been exhibited in like manner.

(*b*) The Consul-General shall cause a copy of this Order and of every such Act to be exhibited, and for the said period kept exhibited, in the public office of the Consulate accordingly.

And the Right Honourable the Earl of Rosebery, K.G., one of Her Majesty's Principal Secretaries of State, is to give the necessary directions herein.

*C. L. Peel.*

**No. 2592-*I.***—Whereas His Highness the Maharaja of Bikanir (Bikanir being a Native State within the meaning of the Native Coinage Act, IX of 1876) has, pursuant to the authority contained in section 5 of the said Act, sent to the Mint of Bombay silver which has been coined under the said Act into two lakhs of rupees, and has requested the Government of India to declare that a tender of payment of money, if made in rupees so coined, shall be a legal tender in British India:

And whereas the silver so sent has been coined into rupees of fineness identical with that prescribed by law for rupees of the Government of India:

And whereas the rupees so coined are identical in weight with the rupees of the Government of India, and the devices upon their obverse and reverse differ from the devices on coins now made or issued by the Bikanir State, and have been approved by the Governor-General in Council, and upon each of the rupees so coined its value in money of the Government of India is inscribed in the English language:

And whereas the said Maharaja, on behalf of himself, his heirs, and successors, has undertaken to abstain, during a term of thirty years from the date of this notification, from coining silver and copper in his own Mint, and has also undertaken that no coins resembling coins for the time being a legal tender in British India shall, after the expiration of the said term, be struck under his or their authority or with his or their permission at any place within or without his or their jurisdiction:

And whereas the said Maharaja has formally declared that a tender of payment of money, if made in silver coins of the Government of India, shall, in the territories subject to His Highness, be a legal tender in the cases in which payment made in such coins would, under the law for the time being in force, be a legal tender in British India:

And whereas the said Maharaja for himself, his heirs, and successors has agreed that the law and rules for the time being in force respecting the cutting and breaking of coin of the Government of India reduced in weight by reasonable wearing or otherwise, or counterfeit, or called in by proclamation, shall apply to the coins made for the said Bikanir State under the said Act, and that the said State will defray the cost of cutting and breaking them:

And has also agreed not to issue the same coins below their nominal value, and not to allow any discount or other advantage to any person in order to bring them into circulation:

And has also agreed that, if at any time the Government of India call in their coinage in silver and copper, he, the said Maharaja, his heirs, or successors, will, if so requested by the Government of India, call in, at his or their own expense, all the said rupees so coined for him:

Now, therefore, the Governor-General in Council, in consideration of the premises and in exercise of the power conferred by the Native Coinage Act (IX of 1876), section 3, is pleased to declare that a tender of payment of money, if made in the said rupees coined under the said Act for the said State of Bikanir, shall, subject to the provisions of the Indian Coinage Act (XXIII of 1870), be a legal tender in British India.

RESOLUTION—By the Government of India, Public Works Department.

*Review of Provincial Civil Works Budget Estimates of Expenditure for 1893-94.*

Read—

Public Works Department Code, Volume II, Chapter XV, paragraphs 42 and 43.

Finance Department Resolution No. 1142, dated 17th March 1892.

RESOLUTION.—Under the rules regulating the administration by Local Governments and Administrations of Provincial Revenues and Expenditure, the Government of India are required to exercise a general control over the expenditure on Public Works from Provincial and Incorporated Local Funds. The funds set aside for outlay on Provincial Civil Works under the control of Public Works officers during 1893-94, the second year of a new Provincial contract, are analysed in the following paragraphs.

A separate review of the expenditure by Public Works officers on Civil Works from Incorporated Local Funds will issue in due course.

2. In the following table the grants for 1893-94 are compared with the outlay on Provincial Civil Works during the five years ending 1891-92 and the Revised Estimate for 1892-93 :

| Province. | Outlay on Civil Works, Provincial. | | | | | Revised estimate, 1892-93. | Budget estimate, 1893-94. |

8. In the undermentioned provinces allotments are made for original works for which estimates have not been sanctioned. The number of works and the aggregate amounts are noted against each:

| Name of Province. | Number of works. | Amount. |
|---|---|---|
| | | Rs. |
| Central Provinces ... ... ... ... ... | 38 | 4,70,300 |
| Lower Burma ... ... ... ... ... | 63 | 4,34,160 |
| Assam ... ... ... ... ... .. | 27 | 3,48,800 |

In considering proposals for the construction of quarters for public servants, Local Governments and Administrations should restrict the provision to the cases specified in Vol. I, Public Works Department Code, Chapter XI, para. 15.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Burma, and Assam.
The Accountant-General, Public Works Department.

ORDER.—Ordered, that the foregoing be communicated to the Local Governments and Administrations noted in the margin for information and guidance.

Ordered also, that a copy be forwarded to the Finance Department for information, and that it be published in the *Gazette of India*.

No. 110-A. G., dated 17th July, 1893.

RESOLUTION—By the Government of India, Public Works Department.

*Review of Budget Estimates of Expenditure from Incorporated Local Funds on Civil Works for 1893-94.*

Read—

Public Works Department Resolution No. 209 A. G., dated 8th August 1892.
Ditto ditto No. 211 A. G., dated 9th August 1892.
Ditto ditto No. 109 A. G., dated 17th July 1893.

RESOLUTION.—This review refers to *Civil Works* under the control of Public Works officers, the outlay on which is met from *Incorporated Local* funds. The outlay on Public Works under district boards, which is not administered directly by the Public Works Department, is excluded, because it does not appear in the Public Works estimates of departmental officers, but in the Civil estimates, and accounted for to Civil Account officers. The total amount provided for expenditure on such works during the current year amounts to Rs. 1,19,00,000. The bulk of the outlay is to be incurred in Bombay (Rs. 14,75,000), Bengal (Rs. 43,10,000), and Madras (Rs. 45,68,000).

2. The following statement shows the grants of the year contrasted with the actual outlay during the five years ending 1891-92 and with the Revised Estimate for 1892-93 :

### FIELD OPERATIONS.

BURMA.

**No. 733.**—The Most Hon'ble the Viceroy and Governor-General of India in Council is pleased to direct the publication of the subjoined correspondence, including a letter from the Adjutant-General in India, submitting, under the orders of the Commander-in-Chief in India, despatches received from the Commander-in-Chief of the Madras Army and the General Officer commanding the Burma district describing the operations carried out in the Northern Chin Hills during the cold season of 1892-93.

---

No. 2448-B,—"*Field Operations—Burma,*"—dated 27th July, 1893.

From—The Secretary to the Government of India, Military Department,

To—The Adjutant-General in India.

I am directed to acknowledge the receipt of your letter No. 4052-A, dated the 1st instant, forwarding, for submission to the Government of India, Brigadier-General Palmer's despatch describing his operations in the Northern Chin Hills during the cold season of 1892-93.

2. In reply, I am to state, for the information of the Commander-in-Chief, that the Government of India concur in the opinion expressed by His Excellency as to the satisfactory result of these operations, the vigorous manner in which they were conducted by Brigadier-General Palmer, and the excellent conduct of the troops employed.

3. The despatch will be published in an early Gazette.

---

No. 4052-A,—"*Field Operations—Burma,*"—dated Simla, the 1st July, 1893.

From—MAJOR-GENERAL W. GALBRAITH, C.B., Adjutant-General in India,

To—The Secretary to the Government of India, Military Department.

I have the honor, by direction of the Commander-in-Chief, to submit, for the information of Government and publication in the *Gazette of India*, the accompanying despatch* from Brigadier-General A. P. Palmer, C.B., commanding the Myingyan district, descriptive of the operations carried out under his direction in the Chin Hills during the cold season of 1892-93.

* No. 218-R, dated 27th March 1893, with return of casualties and skeleton map.

2. The service on which the troops were engaged entailed considerable loss, and was extremely trying and laborious; but toils and hardships were encountered in an admirable spirit, and the recalcitrant tribes were reduced to a state of subjugation never before attained, as evinced by the surrender of 1,656 firearms up to the 16th June, with a prospect of further disarmament before the close of the year.

3. His Excellency attributes these gratifying results to the vigorous conduct of operations by Brigadier-General Palmer and the untiring energy and perseverance of all ranks under his command, which allowed the Chins no rest, but incessantly harassed and dispersed them until they were driven to tender submission.

---

No. 2437-W, "*Field Operations—Burma,*"—dated Ootacamund, the 2nd June, 1893.

From—MAJOR-GENERAL R. C. STEWART, C.B., Provisional Commander-in-Chief, Madras Army,

To—The Adjutant-General in India.

I have the honor to forward herewith letter No. 747-A, dated the 21st April 1893, with enclosures, from the General Officer commanding the Burma district, submitting a report by Brigadier-General A. P. Palmer, C.B., of the operations on the Chin Hills during the season 1892-93, together with letter No. 2188-C, enclosing a list of officers considered specially deserving of reward for good service rendered during the late operations.

---

No. 747-A, dated Rangoon, the 21st April, 1893.

From—MAJOR-GENERAL R. C. STEWART, C.B., commanding the Burma district,

To—The Adjutant-General, Madras Army.

I have the honor to forward a report by Brigadier-General A. P. Palmer, C.B., of the operations on the Chin Hills during the season 1892-93.

2. Brigadier-General Palmer's report relates the circumstances under which the outbreak of the Siyins originated and the progress of the operations, and it is with as much pride as satisfaction that I now express my great appreciation of the gallantry of the troops.

3. It will be seen that the casualties have been exceptionally severe, and no operations can be carried on in the Chin country without excessive hardships. I trust, therefore, that I may with confidence anticipate an expression of satisfaction from higher authority on the conduct of the troops.

4. I shall in another letter submit Brigadier-General Palmer's recommendations for rewards to officers and others who have distinguished themselves, and it only remains for me to express my great satisfaction with the manner in which these operations have been conducted by Brigadier-General Palmer. He at once appreciated the importance of occupying the vantage points of the tract in rebellion, and the result has been the submission of the tribes and the taking of 1,080* guns, which more than doubled the number originally estimated under the most sanguine computations. I have also to thank Brigadier-General Palmer not only for his admirable conduct of the operations, but for his thoughtful care of the soldiers under him, and for the personal supervision by which he maintained all subsidiary departments in a state of energy and efficiency.

* 1,158 guns up to 19th April.

No. 218-R,—"*Field Operations—Chin Hills,*"—dated Fort White, the 27th March, 1893.

From—BRIGADIER-GENERAL A. P. PALMER, C.B., commanding the Myingyan district,

To—The Assistant Adjutant-General, Burma District.

I have the honor to submit the following report of the late field operations in the Chin Hills.

2. It will be remembered that at the close of last open season it was necessary to withdraw our troops from Botong, a post in the Nwengal country on the west of the Manipur river, which had been temporarily established, until the column sent in May 1892 from these hills under Captain Rose had joined hands with the troops then operating in the Lushai hills.

3. Botong post had been attacked by men from seven Nwengal villages, and it was very desirable that the withdrawal immediately after these attacks should not have the appearance of a retreat; so opportunity was taken to punish the men of Hèlè, one of these Nwengal villages, who had lately committed themselves by taking the head of a Burman, and so cover the withdrawal by a punitive expedition. This was effectively carried out by small columns under Captain Stevens, 4th Madras Infantry (Pioneers), and Lieutenant Henegan, 10th Madras Infantry (1st Burma Rifles), who, making a night march, simultaneously surprised Hèlè at daybreak on the 1st of May 1892, and inflicted some loss. The withdrawal of the Botong post was then effected, and not a shot was fired on our troops in their return march to Fort White, instead of their having to fight an undignified rear guard action, as would most undoubtedly have been the case had the withdrawal been attempted without the counter-attack attendant on the punitive expedition against Hèlè.

4. A few months after, however, the Nwengals attempted to revenge themselves by crossing to the east of the Manipur river and committing a series of attacks and some murders on the Fort White line of communication.

5. The Nwengals had always paid a nominal tribute to the Tashons, another tribe, whose territory is continuous with theirs and the Siyins on the south. Fort White is in the Siyin country. The Political Officer in the Chin Hills accordingly called on the Tashons to apprehend the Nwengal offenders or admit their inability to do so. The Tashons during August were able to prevent the Nwengals from committing crimes, but in September admitted themselves to be powerless in the matter, so the Political Officer then arranged [illegible] no longer be administered [illegible] shons, but by the Assistant Political Officer at Fort White, informing the Nwengals that they should be punished by a fine in firearms unless certain outlaws and murderers were surrendered.

Mr. Carey, Political Officer in the Chin Hills, is of opinion that orders having been, with the sanction of the local Government, about this time issued forbidding Chins to appear with firearms within five miles of a military post and within a mile of the lines of communication were construed into a belief by the Nwengals and Siyins that this action was only preliminary to a general disarmament, and that the Nwengals then decided to fight for their firearms, prevailing on the Siyins to rise and do the same. The real cause of the Siyin rebellion will doubtless eventually be disclosed. At any rate on the 9th October the whole tribe rose, fired into our posts, attacking Tiddim and burning buildings close to the stockade, and ambushed the escort of the *Myoôk* (native magistrate) Maung Tun Win near the village of Pombar, seven miles west of Fort White, killing the *Myoôk*, his clerk, interpreter, peon, and seven sepoys, and wounding seven more sepoys. The wounded were saved from being carried off and mutilated (according to the usual Chin custom) by the gallant conduct of the remaining 16 sepoys of the escort under Havildar Harak Sing Gúrung, 10th Madras Infantry (1st Burma Rifles), who has been recommended for the Order of Merit. From recent information it appears that some 2,000 Chins were on the spot.

The attack was a treacherous one, as up to that date the Siyins had posed as our faithful subjects, some taking service as civil policemen. Moreover, the *Myoôk* was proceeding to meet and accept the formal submission of a Nwengal chief at the latter's invitation.

6. The news of this outrage and general rebellion of the Siyins spread over the Chin Hills, north and south, and prompt measures on our part were imperative, as at a time of such local excitement there could be no certainty of the attitude of the other Chin tribes.

Reinforcements were accordingly rapidly pushed up to Fort White, and two guns of No. 7 Mountain Battery, Royal Artillery, from Rangoon, 200 rifles of the 1st Battalion, Norfolk Regiment, from Rangoon, 100 rifles of the 39th (Garhwal) Bengal Infantry from South Chin, and 100 rifles of the 10th Madras Infantry from their depôt in the Mandalay District arrived between the 17th and end of October.

Before the end of December every Siyin village whose inhabitants had not begged for peace in response to our proclamation was visited in succession by punitive columns. Five of these villages were burned by the Chins themselves, and evacuated just before our troops arrived within striking distance.

Grasscutters had to go out daily with an escort to about a mile south of Fort White. On the 10th of November they were ambuscaded by the Chins, who, on reinforcements being sent out from Fort White, were driven off and pursued, suffering considerable loss.

On the 17th November a village in the Kalè [illegible] successfully raided by the Chins.

The following is a *précis* of the work done by the punitive columns alluded to above:

*Yon, 19th and 20th October 1892.*—One hundred rifles under Lieutenant Henegan, 10th Madras Infantry. Village found burned by the Chins and deserted.

*Dimlo and Shwimpi, 3rd to 7th November 1892.*—One gun of No. 7 Mountain Battery and 166 rifles under Captain Presgrave, 10th Madras Infantry. Both villages destroyed. Column ambuscaded by Chins on return march. One native soldier killed and the Subadar-Major of the 10th Madras Infantry severely wounded.

*Htanwè, 10th October 1892.*—One hundred and thirty-five rifles under Lieutenant Henegan, 10th Madras Infantry. Village burned; Chins fired on column going and returning. No casualties; only one Chin seen to drop from our fire; another afterwards reported killed.

*Tompa, 12th November 1892.*—One hundred and forty rifles under Captain Caulfeild, 10th Madras Infantry. Reconnoitred and returned.

*Pimpi, 15th to 20th November 1892.*—One gun of No. 7 Mountain Battery and 250 rifles under Captain Presgrave, 10th Madras Infantry. Chins burned their two villages on approach of column, and fired volleys into camp while column remained; one native soldier severely wounded from ambuscade on return march to Fort White. Chins fired into camp at Kennedy Peak at night, but were dispersed by a party of Gurkhas, who, creeping round, fired into them at 30 yards.

*Montôk, 24th November to 3rd December 1892.*—Two hundred rifles under Captain Caulfeild, 10th Madras Infantry. The village of Tanya *en route* found burned by Chins. Village occupied. Chins fired into camp at night, but were driven off by picquets; one follower wounded. From the 25th to the 27th, police from Kalè valley co-operated. Another village found burned by Chins. Column returned by Kalemyo, 28th. Rear-guard, being fired into, dispersed Chins.

*Nashwin, 3rd December 1892.*—One hundred and fifty rifles under Captain Beale, 1st Battalion, Norfolk Regiment. Burned village; fired into small bodies of Chins at from 200 to 250 yards; rear-guard harassed on return march; no casualties; some Chins seen to fall.

*Laibon, 10th to 13th December 1892.*—One hundred and seventy-five rifles under Captain Presgrave, 10th Madras Infantry. Village seen burning; was rushed with fixed bayonets, a volley having been received from it at 100 yards. Attempts made to ambuscade Chins by leaving a party concealed in village and other "Naga parties" (ambuscades) laid out by us were unsuccessful. At night Chins fired into camp at 150 yards, and were driven off by picquets. The following day there were several skirmishes; one soldier of the 1st Norfolk Regiment slightly wounded and one follower mortally. In rushing an ambuscade the rear-guard (Garhwal Rifles), after killing three Chins, had one havildar and one sepoy slightly wounded from a flanking ambuscade.

The return march was unmolested after flankers had cleared away an ambuscading party.

Mr. Carey, Political Officer, Chin Hills, or Mr. Tuck, Assistant Political Officer (sometimes both), accompanied each of these punitive columns, which it was necessary to send against the villages whose inhabitants were hostile.

7. At the end of November, when I arrived at Fort White, it had become evident from the demeanour of the Chins that something more than small punitive columns was necessary to reduce the Siyin tribe to submission, and that for this purpose new posts must be established at the chief centres of cultivation, from which the troops could act all round to a convenient distance, and carry on a constant guerilla warfare against the Chins without a wearisome march each time to Fort White, and in many instances having to fight a rear-guard action back, almost invariably harassed and ambuscaded, when much exhausted after the real hard day's work that such marches entail in these rugged hills, as, although the actual distances traversed were never excessive, the steep *khuds* and Chin paths rendered each expedition a severe trial on the men's marching powers.

For these new posts reinforcements to the extent of at least 750 rifles and additional transport were necessary, and were on my representation most promptly afforded from other districts by Major-General R. C. Stewart, C.B., commanding in Burma.

8. During December, as the reinforcements arrived, three posts of from 125 to 200 rifles each were established at Phunum-Kholai, Pimpi, and Montôk respectively.

A considerable portion of the success of the operations in the North Chin Hills this season is due to the manner in which the officers in these independent commands performed the difficult duties entrusted to them, and which in many ways tried the nerve, discipline, and other qualities of the troops very highly; as not only in some instances had they to endure being fired into all night, but the Chins, especially round Pimpi, showed themselves such adepts at ambuscading that it was only by a mixture of great precaution combined with dash that the whole country was eventually cleared.

The same remarks apply to Lieutenant Wardell's operations at and near Phunum-Kholai, where the Chins were outmanœuvred at their own guerilla warfare and successfully ambuscaded.

Captain Taylor, 30th Madras Infantry, commanding the Montôk Post, also by his activity effectively cleared that portion of the country of Chins and prevented others settling in the vicinity.

The following is a *précis* of the work of these posts in the Siyin country, north-east, south-east, and west of Fort White.

*Phunum-Kholai (west of Fort White).*—One hundred rifles of the 39th (Garhwal) Bengal Infantry under Lieutenant Wardell, established 16th December 1892, increased to 125 rifles on 27th December 1892; withdrawn 31st January 1893. Slight opposition encountered on march from Fort White; one man wounded in occupation of post, which was stockaded so as to be defensible by 50 men, while remainder were available to work the surrounding country. One man killed 18th. On the 19th of December 1892 ambuscaded Chins, killing and wounding six. On 23rd December 1892 searched Phunum ravine; one man wounded by a log hurled from precipice above.

From 26th to 31st December 1892, under orders from the General Officer commanding, men were employed day and night in ambuscading paths leading from Montôk south-east, where another new post was being established; reconnoitring parties were pushed south, and a ravine below Kholai post cleared of Chins from Pombar, who had been hiding there.

During the first week in January 1893 a systematic search was carried out of all ravines,

sites of demolished villages, and cultivated areas, ambuscades being put out at night to prevent return of Chins.

From 16th to 23rd January 1893, having, in reconnoitring, discovered that the Chins from Phunum to Dimpi escaped north in the direction of Dimlo, devoted energy to driving all Chins in same direction from vicinity of post, and on 25th, having arranged for a party to co-operate from the Dimlo post and another from the Tiddim post, a very successful little affair came off at and near Dimlo village in a large ravine below Dimlo Post; the Chins, getting between two fires, had some casualties and other losses. On the 27th the large ravine near Shwimpi was searched and cleared.

On the 28th a night march was made to prevent Chins returning to cultivations near Dimpi, and next night the same steps were taken as regards Phunum cultivations. On 31st, under orders from the General Officer commanding, Lieutenant Wardell burned his stockade and returned to Fort White preparatory to his rejoining the head-quarters of the 30th Bengal Infantry, which was moving from South Chin, *viâ* Kalewa to Rangoon, *en route* to India. Lieutenant Wardell brings to notice the names of Subadar Pirthi Chand, two havildars, one naik, and four men who distinguished themselves. I am making a special recommendation on the part of the subadar, whom I consider deserving of high reward.

*Pimpi Post (north-east of Fort White).*—One hundred and fifty rifles of the 31st Madras Infantry (6th Burma Battalion), under Captain Keary, D.S.O., established 21st December 1892, increased to 200 rifles, 29th December 1892. One hundred rifles withdrawn, leaving 100 under Lieutenant Murray at post, 29th January 1893.

On first occupying Pimpi, Captain Keary's detachment had six casualties,—namely, three native soldiers killed and one British officer (Lieutenant Geoghegan) and two native soldiers wounded. The Chins of this part of the country have proved the most determined and recalcitrant of the Siyin tribe, and were fully persuaded that they could drive this party away and prevent a post being established in their midst. The troops had to lie in shelter trenches all the first two nights, as a fire was kept up in the camp till daylight, the Chins shouting threats of extermination.

The latter had commenced blocking with felled trees and carefully constructed ambuscades all the paths leading in different directions from the post, and the work and difficulties of the detachment proved so trying and arduous that I reinforced it with 50 rifles, as I was apprehensive that the battalion, having only lately arrived from Burma, might suffer in *morale* from the incessant ambuscading to which they were subjected, unless the strength of the post was augmented.

By perpetually attacking in every direction and laying out ambuscading parties of his own, Captain Keary, whose energy and soldierlike qualities are most commendable, so cleared the whole of that part of the country that by the end of January I was able to reduce the post to 100 rifles, who remained to prevent the Chins returning to their extensive cultivations, while Captain Keary proceeded with 100 rifles and 50 more withdrawn from No. 3 Post on the line of communication to work the country between Fort White and the Manipur river in order to accelerate the compliance with our terms of the chiefs in that direction, who showed signs of procrastination in order to tide over the time when they could sow for next season's crops.

The post at Pimpi expended 3,400 rounds of ammunition. In the thick bush but few men could actually be seen to fall, but from shrieks heard after our volleys and pools of blood found the inference is that the Chins suffered severely. Captain Keary brings to notice the gallant conduct of Jemadar Bahadur Khan, who has been recommended for the Order of Merit; also one lance-naik and one sepoy.

*Montôk Post (south-east of Fort White).*—Established 26th December 1892; 150 rifles of the 30th Madras Infantry (5th Burma Battalion) under Lieutenant (now Captain) H. N. Taylor.

Mr. Carey, Political Officer, guided the column for this post from Kalemyo, Captain Baker, Intelligence Officer, accompanying. The post was fired into daily and nightly while it was being stockaded, but the fire of picquets kept the Chins at a distance.

Daily patrols and reconnoitring parties were sent out, being always fired on and sometimes ambushed. Ambuscades from the post were laid out, and, owing to unceasing activity on the part of the troops under Captain Taylor and Lieutenant Drage, 30th Madras Infantry, the Chins were driven southwards off their cultivations, which had been considerable in the vicinity of the post.

On the 24th January 1893 two small columns moved against the Chins, starting at 2 A.M.; failed to surprise the enemy, but cleared them off further south after some brisk firing on both sides, with the loss of two sepoys wounded. The Chins are believed to have suffered. From the 1st February to the 4th February 1893 acted against Chins to south-east, being co-operated with by military police under Lieutenant A. C. M'Crea, accompanied by Mr. Porter, Deputy Commissioner, Kindat, and 30 men of the 31st Madras Infantry from the Kalè valley. Chins fled further south after sharp fight: one sepoy wounded. Destroyed new villages and Chins kept off cultivation. Continued to patrol country to south and cleared away Chins, who now seemed to have lost heart. The assistance rendered by the military police has been acknowledged by the General Officer commanding.

Captain Taylor brings to notice the good services of Jemadar Jwala Singh, 30th Madras Infantry.

9. From the middle of October to the end of November telegraphic communication between Fort White and Kalemyo in the Kalè valley, the first post in the Chin Hills command, had been constantly interrupted, the Chins, as in 1888-89, sometimes carrying away some miles of wire to make bullets; convoys and escorts on the line of communication were constantly fired into and casualties sustained.

At the suggestion of Major-General Stewart, the undergrowth was cleared by the 21st Madras Infantry (Pioneers) to within fifty yards of the road on the line of communication; and

ambuscades having been laid out at night by the troops from Fort White and No. 3 Post, and a fourth post established six miles east of Fort White, telegraphic communication was restored on the 3rd December, which has since been maintained, except for sixteen hours on the 25th January and thirty-three hours on the 30th and 31st idem. The telegraph line, which had also been taken down between Fort White and Tiddim, is now in course of reconstruction, and will be completed about the 15th proximo.

10. By the 2nd January 1893 the new posts above referred to, having been established in the Siyin country and rationed up to the end of the month, I was able to start from Fort White, with a force as per margin to operate against the Nwengal tribe west of the Manipur river, our objective being Kaptial, the chief town of the tribe and the home of Twemtung, the chief implicated in the murder of the *Myoòk* (see *ante*), and who has been most prominent in inciting his own and the Siyin tribe to revolt.

2 guns, No. 7 Mountain Battery, under Lieutenant T. E. Marshall, R.A.
100 rifles, 1st Norfolk Regiment, under Captain Beale.
30 men, No. 4 Company, Madras Sappers, under Lieutenant G. A. F. Sanders.
200 rifles, 10th Madras Infantry, under Captain Presgrave.
50 rifles, 21st Madras Infantry (Pioneers), under Lieutenant Hendley.
100 rifles, 30th Madras Infantry, under Lieutenant Baldwin.
450 Darjeeling coolies, under Lieutenant Camilleri, 13th Bengal Infantry.
450 Government mules, under Lieutenant Daly, Transport Officer.

*Staff.*

Major Greenfield, Royal Inniskilling Fusiliers, Assistant Adjutant-General.
Captain Baker, 1st Norfolk Regiment, Intelligence Officer and officiating Superintendent, Army Signalling.
Lieutenant H. O. Parr, 7th Bengal Infantry, Orderly Officer and Brigade Quartermaster.
B. S. Carey, Esq., Political Officer.
H. N. Tuck, Esq., Assistant Political Officer.
G. O. Fowler, Esq., Assistant Political Officer.

We carried fifteen days' rations, and fifteen days' more supplies as a reserve had been collected at Tiddim post, which is only one march from the Manipur river. The force which marched in two columns had only one casualty before reaching the river-bank.

11. The villages of Chinwe and Sayan, belonging to the Sokte tribe, which had not responded to our proclamation in October, lay in our path. We surprised the inhabitants, and, being in position on the heights above, could easily have shot them down with artillery and rifle fire at 800 and 300 yards. I decided, however, to spare them and leave them to be dealt with hereafter by the political officers, as it was undesirable to have declared enemies on our line of communication. They were thereby committed to our cause, and were afterwards most useful.

12. After reconnoitring for the most favourable point to cross the Manipur river so as to strike direct at Kaptial, a point was chosen which, besides having the advantage of being a salient, was so placed that it would be difficult for the Chins on the opposite heights to depress sufficiently to harm with their fire our troops when crossing.

13. On the 7th January both columns concentrated on a plateau 1,000 feet above the river and 1,000 yards from the opposite heights, and the sappers and pioneers were pushed down to the bank to improvise a means of crossing.

A pioneer, who gallantly swam across and stretched a rope to the west bank which was in possession of the Chins, and a havildar of the 10th Madras Infantry, have been recommended for the Order of Merit; but the river proved to be so rapid and deep, though less than 250 feet in width, that with the means available a bridge could not be thrown across: a raft was therefore the only means of reaching the opposite shore, but on cutting down timber it was found to be so wanting in buoyancy that it was useless; however, in anticipation of such a difficulty, a raft had been put together at Tiddim post composed of empty rum kegs; and this when brought out and covered with a light scantling enabled the force to be got over, nine men at a time.

It was not in working order till the 11th January, and the troops being told off into reliefs to haul it backwards and forwards, everything, including guns, ammunition, gear, baggage, and rations, reached the west bank by the morning of the 14th. All hands worked with a will unremittingly night and day, as it was realized that it was the only means of getting at the Chins. The mules swam across.

14. The crossing was opposed by the Chins, the Siyins having crossed lower down stream to join the Nwengals, and a constant fusilade was kept up on the 9th and 10th, accompanied by much shouting and beating of gongs, twenty-seven Chin picquet fires being visible from our bivouac; but, though their shots struck the water close to the raft and struck the trees above the shore bivouac, the Chins were unable to depress sufficiently to do damage, and their fire was kept down a good deal by shrapnel and rifle fire at 1,000 yards from the bivouac on the plateau above; while attempts to cut the rope across the river were frustrated by volleys at 100 yards from the shore bivouac, though they pluckily, notwithstanding fire at such close quarters, succeeded in cutting one strand.

15. The 10th Madras Infantry were pushed across on the 11th January and occupied a spur on the west bank, and simultaneously a well-directed shrapnel fire at 1,500 yards from the plateau before mentioned drove back a body of Chins who had collected above on the western heights.

16. After this the crossing was not further opposed, and by the morning of the 14th, the troops being all across the river, we marched on Kaptial. Considerable importance was attached to the fall of this place, and the Nwengals had given out that they would make their final stand there; but on the force arriving near the town, it was found in ashes and deserted.

The direct approach was through jungle; it was defended by a trench 4½ feet deep and 8 feet wide, running into ravines on either side. Each house and street was stockaded with thick planks 12 feet high, and there were many excavated rifle-proof defensible posts, so, had it been obstinately held, it could only have been taken by assault with heavy loss, as it covered many acres of ground, and even with artillery and rifle fire would have been difficult to render untenable.

17. The Chin paths by which the force had had to march were so broken and precipitous, even where the worst places on the edges of cliffs were improved by the pioneers, and the gradients were so steep, that 30 mules fell over the khuds, of which two battery mules and six transport mules were killed, and one sepoy of the 10th Madras Infantry was killed by a stone displaced by a mule.

18. The Chins having disappeared from Kaptial, it became necessary, not only to send out columns to hunt them up, but to attack certain large villages, whose inhabitants were known to have been either implicated in the outrage of the 9th of October, or to have assisted the Siyins and fired into posts on our line of communication. Columns were accordingly sent out from Kaptial between the 15th and 27th January, and the country north and south, and as far west as the Imboklang range (8,300 feet), was searched, and the Chins driven further afield into the woods and jungles, my object being in this, as on the east side of the river, to give them no rest till they submitted to our terms. The only column that encountered any serious opposition was one under Captain Presgrave, 10th Madras Infantry (accompanied by Messrs. Tuck and Fowler, Assistant Political Officers), which proceeded southwards on the 17th January and returned on the 22nd, having occupied Hèlè, and also dealt with the Nwengal villages of Shwungzan and Shwimpi in the same direction.

Before reaching Hèlè on the 18th January, it became clear that the Chins intended to dispute the advance by holding a stockaded position some 1,000 yards in length and a wood on the left of the road taken by the column. The stockades, composed of wood and stone, loop-holed, were erected on high ground commanding the line of advance, but Captain Presgrave, by his dispositions, succeeded in turning the position and broke and searched the stockades by artillery fire, followed by a direct attack. The Chins, who had held on to their line of defence, were obliged to abandon it, the wood on the left of the advance being also cleared by volleys and shrapnel. They had meantime attacked the column in rear, but were repulsed by the rear-guard.

The troops then marched against Hèlè in two parties, having previously shelled it at 2,000 yards to prevent its being fired by the Chins themselves.

Shortly after advancing, the detachment of the Norfolk Regiment, under Captain Beale, who had proceeded by a spur to the left, became engaged with the enemy occupying a hill. The Chins were driven off by a cross-fire, and the advanced guard, having been fired on from its right and left fronts simultaneously, they were again cleared away by a combined movement of the different detachments, all of whom were engaged, including the 21st Madras Infantry (Pioneers) under Lieutenant Hendley.

The whole affair was carried through with considerable spirit, and reflects credit on Captain Presgrave and the troops engaged.

19. On the 27th January, leaving Captain Caulfeild, 10th Madras Infantry, with 200 men of his regiment and 50 of the 30th Madras Infantry at Kaptial to complete the subjugation of the Nwengal tribe and those who had harboured delinquents, I returned to the east of the Manipur river with the guns, the detachment of the Norfolk Regiment, and 50 of the 30th Madras Infantry. The river, having slightly fallen, had in the meantime been bridged by the Madras Sappers under Lieutenant Sanders, Royal Engineers, a cleverly constructed cantilever bridge partially suspended on twisted telegraph wire and rope having been thrown across.

20. The effect of the late operations and of the good work done by the posts that had been established in the Siyin country was to produce a cessation of hostilities on the part of the Chins and a commencement of compliance with our terms by a gradual surrender of their much-prized firearms; but it soon became evident that their object, by surrendering a few at a time, was to procrastinate till the time for sowing had passed, when, having got their seed in the ground, they would not be so much at our mercy for their future necessaries of life. Active operations had therefore to be continued to prevent this and hasten an unconditional surrender; so the following arrangements were made:

From 3rd February to 7th February 1893 a column of 110 rifles revisited Laibon, east of the Fort White-Tiddim road, clearing away the Chins, who had returned to settle.

On the 4th March 1893 a post of 150 rifles, under Captain Keary, D.S.O., 31st Madras Infantry, was established at Pombar between Fort White and the Manipur river, and from the 8th to 10th was co-operated with by 100 rifles under Captain Murray, 10th Madras Infantry, who were sent for the purpose north from Fort White to Wunkathé; these two columns drove the Chins of Pombar off a new settlement and hunted them through the ravines, capturing nine Chins.

21. It now seemed desirable to adopt coercive measures to a certain extent against the "Friendlies," as it was well-known that, if they chose to exert their influence over the recalcitrant in their vicinity, the latter would speedily come to terms; so posts were established as follows:

*13th February 1893.*—One gun, 100 rifles, at Sagyilaing, under Captain Keary, D.S.O., 31st Madras Infantry.

*15th February 1893.*—Seventy-five rifles, under Lieutenant Barnett, 31st Madras Infantry, at Yonga.

*16th February 1893.*—One gun, 90 rifles, under Captain Murray, 10th Madras Infantry, at Wunkathè.

The Shwimpi ravine was also searched on 18th February 1893 by 50 rifles under Lieutenant Sutton, 10th Madras Infantry, from Tiddim. Karmlung, the Chief of Pombar, was arrested on the 23rd February, and the Political Officer on the 8th March called a meeting of these so-called "Friendlies" at "Old" Fort White" (near where the *Myoòk* and others were murdered last October), and explained why they were being punished, definitely fixing their fines

in firearms. These terms were at once imposed, the troops remaining near their villages and preventing cultivation till our demands were complied with. This action has had the best effect, and the surrender of firearms, which had begun to drop off, thereby received the necessary impetus, and on the 23rd March Dolyin, the outlaw Chief of Tartan, was, on the information of the inhabitants of Sagyilaing (one of the friendly villages), arrested in one of their houses, which had been surrounded by a party of the 31st Madras Infantry. He will probably be transported for life.

22. There still remained to be dealt with the inhabitants of Pimpi, who had been driven north in January by Captain Keary's post, and who were known to have collected and to have formed a settlement at Angno, which they believed to be out of striking distance, and where they had been joined by malcontents and fugitives who had escaped from Montôk, Phunum, Kholai, Tanwe, and Shwimpi, the villages south and west that we have punished. It was important to strike one last blow at this collection, and finally break up the gathering. A column under Captain Presgrave, 10th Madras Infantry, consisting of 200 rifles (detachments of all corps), 30 sappers, and a mountain gun, accordingly moved from Fort White on the 12th March and surprised this new settlement on the 14th idem, scattering those collected there in all directions, with a loss on our side of only one soldier of the Norfolk Regiment slightly wounded. The approach for the last few miles was much hampered and delayed by numerous felled trees. Up to the 19th March the country was scoured in all directions, 200 military police under Lieutenant H. G. Maxwell having joined the column from Kanji in the Kalè valley on the 16th. The police losses were one sepoy and one follower killed. A post of 100 rifles under Captain Taylor, 30th Madras Infantry, was left in occupation at Angno to continue the pursuit and prevent the Chins returning to this settlement, the remainder of the troops and the police returning on the 20th to their respective posts.

23. Meantime the post of 250 rifles, under Captain Caulfeild, 10th Madras Infantry, that had remained west of the Manipur river since the return of the force from Kaptial on the 27th January, had not only thoroughly worked the Nwengal country, but had crossed further westwards across the Imbuklang range (over 8,000 feet) to deal with certain villages of the Whenhow tribe, which had harboured outlaws and fugitives from Kaptial, punishing them by inflicting fines in firearms. The resistance met with was slight, and we had but few casualties. The northern villages of the Nwengal country were also disarmed, and it being found that the inhabitants of Hèlè, whom Captain Presgrave's force had defeated, as described in paragraph 18, had formed a new settlement, they were again attacked twice and broken up. Refugees from Kaptial were also searched for and discovered in a place of concealment near the top of the range. The troops west of the Manipur river have been rationed to the 15th May to enable them to finish the work before the rains commence.

24. The *précis* of the work done by the posts established in the Northern Chin Hills this season and by the many punitive columns gives but a bald account of the real hard work and the constant risks from a concealed enemy that fell to the lot of the troops, and which, I trust, will receive due recognition.

25. In most field operations there are some engagements followed by more or less long rests; but it will be seen from the above that, in order to reduce such an active and restless enemy as the Chins to submission, our troops were incessantly on the move, the men sometimes not getting two nights in bed, and on one particular day seven columns were acting, besides two convoys moving and the force from the west of the Manipur river on their return march; but to have carried through what it was necessary to accomplish without putting a heavy strain on all employed would have necessitated trebling the strength of the force in the field.

The rationing of 2,700 men in the Northern Chin Hills (including the reinforcements suddenly thrown in) sufficiently tried the capacity of the Commissariat-Transport Department, so it was necessary to do as much as possible with the number that could be moved and fed.

26. Considering the great change in climate from the plains of Burma to these hills, where without tents operations had to be carried on at an elevation of from 4,000 to 8,000 feet above sea-level in the depth of winter in all weathers, the health of the troops has been very good. In a march of thirteen miles, containing a rise of 6,000 feet in six miles, not a man of a detachment of the 1st Norfolk Regiment fell out, although nearly ten hours under arms; and out of a party of the same regiment that, to straighten the Chins, had to spend a night in a downpour of rain on the hillside in January with only waterproof sheets and great-coats and carrying their own rations for two days, only one man went into hospital.

27. In the opinion of the Political Officer in the Chin Hills, who possesses a very intimate knowledge of the feelings of the people, the effect of the late operations, which he describes "as far "exceeding anything that he had anticipated," has been that "no combination of the tribes to "resist in future can now be expected, and that "the enemy's casualties have been far heavier "than reported; that the Siyins never owned "themselves beaten before, but that they do so "now, and the people that were scattered in "hamlets are now being collected into large "villages right under the posts; the hire of "carriers has been halved; that the Tashons "fear us now that they see the Siyins, the best "fighting clan in the hills, have had to give up "their arms for peace. The outlaws will be "picked up gradually, but some half dozen will "escape north, but will not be in a position to "do more damage than an occasional murder "or theft, and I look on their capture through "native agency as inevitable."

It is probable that, as in the north-west frontier of India, outlaws and others may for some time indulge in shots at individuals or convoys and in occasional raids; but this need not be looked on as an act of a tribe or community, as such latter, by the deprivation of their firearms and by the other steps that have been taken, have been rendered powerless for harm or combination.

28. The Chins have now quite lost heart and are surrendering on all sides to our demands.

Some of the chiefs are in irons in Fort White, and others will before long join them. Hostages for future behaviour are being given up, and the full number of firearms assessed as a fitting punishment are either in our hands, or their number, according to the Political Officer, "is insured." Over 1,000 have been given up.

It is desirable, however, to take advantage of the remaining few weeks of the open season to hunt up outlaws, punish those who have harboured them, and collect the remaining firearms from those who have been reduced to submission. For this purpose it will be necessary for the detachments of the 30th and 31st Madras Infantry to remain till the early part of May in the Northern Chin Hills.

Yesterday the section of No. 7 Mountain Battery and 100 of the 1st Battalion, Norfolk Regiment, marched for the South Chin Hills, and will return to their respective stations by the end of April after moving through the Tashon and Haka countries, where their presence will have a good effect on those tribes and disabuse them of any idea that we have had our hands full in dealing with their northern neighbours. It is also desirable to bring the farther western Tlangtlangs to their bearings for having harboured Lalwè, a proscribed outlaw, and failed to pay a fine of guns inflicted on them for their attack on a column under Lieutenant Mocatta last season.

Resistance is not expected, as the demeanour of the people is described as "sullen, but not hostile," and it is expected that a show of force will bring about the desired result. The column is commanded by Captain Beale, 1st Norfolk Regiment, and will be augmented by 50 rifles of the 12th Madras Infantry and 25 of the 21st Madras Infantry from Haka and Falam.

29. The breaking up of the force that has been operating under my command in the North Chin Hills for the last four months having commenced, I must, before returning to the plains, record the names of those to whom I have been so much indebted for the success of the operations:

*Return of Officers mentioned.*

(1) Major R. M. Greenfield, Royal Inniskilling Fusiliers, Assistant Adjutant-General, Myingyan district, as Chief Staff Officer, has been of the greatest assistance in the operations in the Chin Hills this season, and has untiringly devoted himself to the discharge of his responsible duties, which he has performed with much tact and ability. — Staff.

(2) Lieutenant H. O. Parr, 4th Bengal Infantry, Orderly Officer, also officiated as Brigade Quartermaster. He was ever ready, keen, and active in the discharge of all duties, and was of much assistance in the Staff Office when "on column."

(3) Captain G. F. Watson, Indian Staff Corps, Chief Commissariat Officer of the Myingyan district, has by his foresight, capacity for work, and devotion to the very arduous duties devolving on him contributed much to the successful carrying through of the operations, which were a heavy strain on the Commissariat-Transport Department.

(4) Captain R. F. C. Baker, 1st Norfolk Regiment, Intelligence Officer. His work will doubtless be recognized departmentally. He also rendered much assistance as officiating Superintendent of Signalling in the earlier part of the season's operations, for on signalling the force was dependent for the transmission of all intelligence between the numerous posts and our base, and the work performed was most valuable.

(5) Lieutenant T. E. Marshall, commanding a section of No. 7 Mountain Battery, proved himself a very capable officer of mountain artillery on service. — Royal Artillery.

(6) Captain H. Y. Beale, 1st Norfolk Regiment, exercised with ability the command of his detachment, and on the occasions when he commanded punitive columns proved himself to be a reliable officer in difficult situations. At the conclusion of the operations in the Northern Chin Hills, he proceeded to the Southern Chin Hills in command of a punitive expedition of artillery, British and Native troops, against the Tlangtlang tribe. — 1st Norfolk Regiment.

(7) Captain E. R. J. Presgrave has had great opportunities, considering his position in the service, as, besides being officiating commandant of his fine battalion of Gurkhas, which always behaved brilliantly in action, he commands in the Northern Chin Hills, and on him as executive commander (assisted by only one staff officer, Lieutenant B. Trydell, 10th Madras Infantry), fell the duty of carrying out all orders, not only for the movements of the troops, but for many details of organization, in the performance of which he has shown judgment and capacity. During the greater part of November he was senior officer in the Northern Chin Hills, and most of the punitive columns were either personally commanded by him or worked under his orders. His able conduct of affairs at the engagement with the Chins near Hèlè, west of the Manipur river, is detailed above. — 10th Madras Infantry (the 1st Burma Rifles).

(8) Captain G. N. Caulfeild, 10th Madras Infantry, was in command in the Northern Chin Hills when the rebellion broke out last October, and displayed much nerve and judgment, when, had he not shown those invaluable qualities, affairs might have assumed a very unpleasant aspect. After the withdrawal of the head-quarters of the force from the Nwengal country in January, he was left in command of 250 rifles for the completion of the subjugation of that tribe. The able manner in which he accomplished this duty entitles his services to be recognized.

(9) Lieutenant J. Henegan, 10th Madras Infantry, commanded several punitive columns, and could always be trusted to act independently and be equal to any emergency. The manner in which he performed his duties in command of the advanced post of Botong was brought to notice in the report of last year's operations. He possesses considerable knowledge of the North Chin tribes, and is deserving of advancement.

(10) Major G. S. Baugh commanded his battalion during the operations. The pioneers were usefully employed in counteracting the ambuscading power of the Chins by clearing the jungle on the line of communications. — 21st Madras Infantry (Pioneers).

(11) Lieutenant C. E. Hendley commanded a detachment of the 21st Madras Infantry that accompanied the Nwengal force, and by his energy and example rendered much assistance. He also commanded his detachment at the crossing of the Manipur river and the action near Hèlè.

(12) Captain H. N. Taylor commanded the post of 150 rifles at Montôk from the 26th December 1892 to the 10th March 1893, and afterwards the post of Angno (Pimpi), and by the measures he took for action against the Chins in the vicinity of these posts contributed considerably to the general success of the operations.

30th Madras Infantry (the 5th Burma Battalion).

**(13) Captain H. D'U. Keary, D.S.O., commandant, 31st Madras Infantry.** His previous experience of field service in Burma proved most valuable under difficult conditions, both in command of the post at Pimpi and afterwards in the country south-west of the line of communications. He showed himself to be possessed of soldierlike qualities of a high order and to be worthy of advancement in the service.

31st Madras (Light) Infantry (the 6th Burma Battalion)

(14) Lieutenant W. H. Wardell commanded a post of 125 men at Phunum-Kholai for six weeks in a manner that showed that he possesses qualifications for higher command. The result of his unceasing activity against some of the most troublesome of the Siyin tribe resulted in their being the first to surrender their firearms and submit to our terms.

39th Bengal Infantry (The Garhwal Rifle Regiment).

(15) Lieutenant G. A. F. Sanders, Royal Engineers, commanded a detachment of No. 4 Company at the crossing of the Manipur river, and afterwards supervised its bridging, by which the Nwengal force was able to recross on its withdrawal.

Queen's Own Madras Sappers and Miners.

(16) Lieutenant H. D. Daly, 32nd Madras Infantry (4th Burma Battalion), Transport Officer, Northern Chin Hills, was indefatigable in the discharge of his very onerous duties. He accompanied the expedition against the Nwengal tribe.

Transport.

(17) Lieutenant J. M. Camilleri, 13th Bengal Infantry, commanding the Darjeeling and Manipur Cooly Corps, is a transport officer of some experience, and his successful management, quite unassisted, of a large body of unruly hillmen, who performed most useful service, deserves the highest praise. He accompanied the expedition against the Nwengal tribe.

(18) Surgeon-Major T. R. Lucas, M.B., Army Medical Staff, as senior officer of the Medical Department in the Chin Hills, discharged his responsible duties with judgment and ability, and accompanied the Nwengal column west of the Manipur river.

Medical.

(19) Veterinary-Lieutenant F. Eassie, Army Veterinary Department, has for three successive seasons rendered good service in the veterinary supervision of transport animals in the Chin Hills, which owe much of their efficiency to his ready aid so continuously afforded, and to his professional knowledge. He accompanied the Nwengal force.

Veterinary Department.

(20) To the Political Officers as per margin my personal thanks are due for the cordial assistance that they have invariably afforded and the tact that they have displayed in working in such harmony with the military authorities. Both the assistants have shown that they can be trusted in difficult situations, and the services performed lately and on many previous occasions by Mr. Carey will doubtless be fully appreciated and recognized by the local Government. His nerve and sound judgment when the rebellion first broke out deserve the highest acknowledgment, and from the commencement of the punitive operations he has done the work of a dozen men. His knowledge of the Chins and of their country has proved most valuable.

*Political.*

B. S. Carey, Esq., Political Officer, Chin Hills.
H. N. Tuck, Esq., Assistant Political Officer, Chin Hills.
E. O. Fowler, Esq., Assistant Political Officer, Chin Hills.

*Native Officers.*

I had intended to recommend Subadar Pirthi Chand for the Order of Merit, but his services entitle him, in my opinion, to the higher reward of the Order of British India.

39th Bengal Infantry (Garhwal Rifle Regiment).

The good services of his fine young battalion for the last two years in the Chin Hills could not be more gracefully recognized than in the selection of this excellent native officer for the latter high distinction, as he has proved himself to be not only an officer of high courage, but possessed of many meritorious qualities, and the assistance he gave to Lieutenant Wardell when commanding the post of Phunum-Kholai (the valuable service rendered by which has been noticed above) well entitle him to a high reward.

The services of the following native officers have been brought to favorable notice:

Jemadar Ranjit Gurung, 10th Madras Infantry.
Jemadar Sulaiman Khan, 28th Madras Infantry.
Jemadar Jwala Singh, 30th Madras Infantry.
Jemadar Bahadur Khan, 31st Madras (Light) Infantry. (This native officer has been recommended for the Order of Merit.)

*Non-Commissioned Officers.*

Sergeant Walsh, Overseer, 1st Grade, Public Works Department, rendered most important service by the construction of a raft by which the whole of the Nwengal force was ferried across the Manipur river in January 1893. It was due to his initiative and good work that the column was not much hampered and delayed. He afterwards was of great assistance in bridging the river. He appears well worthy of departmental advancement or of some other recognition of his services.

I have confined myself in the above list to mentioning only the senior officers and a few others who have had the best opportunities of bringing themselves to prominent notice; but as it has been necessary to employ so many columns of various strengths, and often simultaneously, nearly all the officers in the force down to the youngest subaltern have had opportunities of exercising independent commands under fire, and have done well. I only omit their names as it would make the list unacceptably long.

*Simla, the 11th August, 1893.*

No. 3497-*A.*—In pursuance of Rule 22 of the Rules made by the Government of India under Section 14 of the Indian Securities Act, XIII of 1886, and published in the *Gazette of India* of the 7th January 1888, page 6, the following list is hereby advertised of Securities lost or destroyed, in respect of which an order has been made for payment of interest pending the issue of a duplicate Security, or for the issue of such duplicate Security. All persons, other than the respective claimants named below, who have any claim upon these Securities, should communicate immediately with the Comptroller General, the Treasury, Calcutta.

The list is divided into two parts,—Part A being the list of Securities now advertised for the first time, and Part B the list of Securities previously advertised.

*N.B.*—Under Section 13 of the said Act, Government will be discharged from all liability in respect of these original Securities after the lapse of six years from (*a*) the several dates stated against them in the last column of the list, or (*b*) the last payment of interest on them, whichever date is the later.

### NOTIFICATION.

*No. 1765-E.*

*Simla, the 19th August, 1893.*

IN March last the Agent to the Governor-General in Baluchistan reported to the Government of India that Mir Khudadad Khan, the Khan of Kalat, had suddenly murdered, at Bagh, on the 28th March 1893, Fakir Muhammad, the Mustaufi or Minister of the Kalat State, Ghulam Farukh, the Minister's son, Naib Abdul Aziz, the Minister's father, and Sherdad, the Minister's confidential agent. The Khan was called upon to give an explanation of his conduct, and summoned to meet the Political Agent at Bellpat. The Khan attended at Bellpat accordingly, and afterwards proceeded with the Political Agent to Quetta, where the Governor-General's Agent, assisted by a jirga of influential Sardars of the country, held an investigation into the Khan's conduct. The Government of India have considered the detailed report which has been submitted by Sir James Browne, with the record of evidence taken in a protracted and exhaustive enquiry. They have also taken into consideration the finding of the Baluch Sardars.

The evidence has established beyond all doubt Mir Khudadad Khan's responsibility for the murder of the above named persons. The Khan has also been proved to be responsible for other murders and mutilations last year, and it is shown that he has ruled his State oppressively and cruelly.

The finding of the Baluch Sardars is to the effect that Mir Khudadad Khan is guilty of the crimes with which he has been charged, and their recommendation is that he be deposed, and that his eldest son, Mir Mahmud Khan, be put in his place. The Khan himself has asked the Government of India to accept his resignation, and to recognise Mir Mahmud Khan as his successor.

In the judgment of the Governor-General in Council Mir Khudadad Khan's conduct would justify his deposition, but in consideration of the fact that he has been an ally of the British Government for many years, and in deference to his position and rank, His Excellency in Council has decided to accept his abdication.

Mir Mahmud Khan will accordingly be recognised as Khan of Kalat, in succession to his father, and the Governor-General in Council desires it to be clearly understood that the position of the Kalat State towards the British Government is not affected by the transfer of the Government of the State from Mir Khudadad Khan to Mir Mahmud Khan, and that Mir Mahmud succeeds to all his father's rights and privileges.

No. 26.—Whereas by Resolution passed by the Secretary of State for India in Council on the sixteenth day of March, 1871, the provisions of the 33rd of Vict., Chap. 3, Sec. 1, were declared applicable to Ajmere and Merwara;

And whereas the Chief Commissioner of Ajmere and Merwara has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft, and the same has received the Governor General's assent on the 16th day of August, 1893;

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* and local Gazette for Ajmere and Merwara.

### REGULATION NO. IX OF 1893.

*A Regulation to repeal certain Obsolete Enactments and to amend certain other Enactments applying to Ajmere and Merwara.*

WHEREAS it is expedient that certain enactments specified in the first schedule to this Regulation which are spent, or have ceased to be in force otherwise than by express specific repeal, or have by lapse of time or otherwise become unnecessary, should be expressly and specifically repealed;

And whereas it is also expedient that certain formal amendments should be made in the enactments specified in the second schedule to this Regulation;

It is hereby enacted as follows:

Title, extent and commencement.

1. (*1*) This Regulation may be called the Ajmere Repealing and Amending Regulation, 1893.

(*2*) It extends to the territories administered by the Chief Commissioner of Ajmere and

subject to the provisions of the Statute 33 Victoria, Chapter 3, section 1; and

(3) It shall come into force at once.

2. (1) The enactments specified in the first schedule are hereby repealed to the extent mentioned in the fourth column thereof.

Enactments in schedules repealed and amended respectively.

(2) The enactments specified in the second schedule shall be modified to the extent and in the manner mentioned in the fourth column thereof.

3. The repeal by this Regulation of any enactment shall not affect any Act or Regulation in which such enactment has been applied, incorporated or referred to;

Savings.

and this Regulation shall not affect the validity, invalidity, effect or consequences of anything already done or suffered, or any right, title, obligation or liability already acquired, accrued or incurred, or any remedy or proceeding in respect thereof, or any release or discharge of or from any debt, penalty, obligation, liability, claim or demand, or any indemnity already granted, or the proof of any past act or thing;

nor shall the repeal by this Regulation of any enactment provide or restore any jurisdiction, office, custom, liability, right, title, privilege, restriction, exemption, usage, practice, procedure or other matter or thing not now existing or in force.

*Simla, the 18th August, 1893.*

RESOLUTION—By the Government of India, Finance and Commerce Department.

During the past year and a half numerous representations have reached the Government of India from European officers in Government service, bringing to notice the hardship which they have undergone in consequence of the fall in the rate of exchange, and praying for the adoption of measures of relief. The facts which came to the knowledge of the Government of India left no doubt that the distress from which their servants were suffering was widespread and severe; and His Excellency the Governor General in Council has lost no opportunity of expressing his sympathy with those who have been affected, and of urging upon the Secretary of State the necessity of applying an early and adequate remedy. It was not, however, found possible to deal with the matter while measures regarding the reform of the currency were still under consideration. His Excellency the Governor General in Council is now able to announce that the Secretary of State has been pleased to accord his sanction to the following scheme:

To every European and Eurasian Officer of Government, Civil or Military, not domiciled in India (except those whose pay is fixed in sterling and converted into rupees annually at the official adjusting rate) will be granted an allowance, to be designated Exchange Compensation Allowance, sufficient to enable each officer to remit to Europe one-half his salary, subject to a maximum limit of £1,000 a year, at a privileged rate. The privileged rate has been fixed until further orders at 1*s.* 6*d.* the rupee. The allowance, which will be admissible whether any remittance is actually made to Europe or not, will be given in the form of a percentage on the officer's salary, varying with the rate of exchange assumed as the market rate for the quarter, and calculated to yield an amount equal to the difference between one-half salary converted at 1*s.* 6*d.*, and one-half salary converted at the average market rate. The allowance will be payable month by month along with pay, and under the rules under which pay is drawn; and will be subject in every case to an annual maximum equal to the difference between £1,000 converted at 1*s.* 6*d.*, and the same sum converted at the average market rate.

2. Rules have been framed prescribing the manner in which the percentage for each quarter shall be calculated, and defining the conditions under which the allowance may be drawn, and these are published herewith for general information. The Secretary of State has been pleased to authorize effect being given to the rules from the beginning of the current official year 1893-94, and the allowance will accordingly be granted in respect of all payments of salary which became payable on or after the 1st April 1893. For the first quarter of the present official year, April to June, the percentage has been fixed at 10·81, corresponding to an exchange of 1*s.* 2$\frac{4}{5}$*d.* to the rupee, this being the actual average rate during that quarter. For the second quarter, July to September 1893, the percentage has been fixed at 7·6, corresponding to an exchange of 1*s.* 3$\frac{5}{8}$*d.*, that being the actual average market rate from 1st July to the date of the Secretary of State's sanction to the scheme now announced. For future quarters the percentage will be fixed in the manner prescribed in the rules.

3. From the date when these rules come into force, the present system under which family remittances are made through the Government account by military officers and some others will cease, except in cases where this course is inconsistent with the terms of any contract of service. In the case of officers who have made family remittances since the 1st April last, an adjustment will be made when paying them their arrears of Exchange Compensation Allowance. Officers who have made family remittances since 1st April last should refer to their Account Officer before presenting for payment their bills for the arrears from 1st April of the Exchange Compensation Allowances now sanctioned.

4. The Secretary of State has further been pleased to sanction the payment of furlough allowances from the Home Treasury at the same privileged rate of 1*s.* 6*d.* to the rupee. This concession also will take effect from the 1st April last in lieu of the special rate of 1*s.* 4$\frac{3}{4}$*d.* provisionally sanctioned in the Notification in this Department, No. 823-A., dated the 27th February 1893, published in the *Gazette of India* of the 4th March 1893.

---

ORDER.—Ordered, that the Resolution be communicated to the several Departments of the Government of India; to all Local Governments and Administrations; to all Heads of Departments subordinate to the Finance Department; to the Comptroller and Auditor General; and to all Accountants General and Comptrollers.

Ordered also, that the Resolution be published in the *Gazette of India*.

---

***Rules referred to in paragraph 2 of Finance Department Resolution No. 3624-A. of 18th August 1893.***

---

### EXCHANGE COMPENSATION ALLOWANCE.

1. The allowance admissible under these rules is called Exchange Compensation Allowance. It is granted to European and Eurasian officers of Government not domiciled in India to compensate them for the extra cost of remittance to Europe occasioned by the fall of the value of the rupee below 1*s.* 6*d.*, which is herein called the "privileged rate."

2. The allowance is granted with the view of enabling every European or Eurasian officer of Government not domiciled in India to remit to Europe half his salary at the privileged rate, subject to a maximum limit of £1,000 a year.

3. In case of doubt the Local Government will decide whether any officer is domiciled in India or not so domiciled for the purposes of these rules. But any European or Eurasian officer to whom the rules in Chapter XIII of the Civil Service Regulations apply may be assumed without further proof to be entitled to the allowance admissible under these rules.

4. The allowance is not admissible to any officer whose pay is fixed in sterling and is converted into rupees at the rate of exchange fixed annually for the adjustment of transactions between England and India.

5. The allowance is granted irrespective of whether any remittance is actually made or not.

6. Officers will be enabled to remit half salary at the privileged rate if they receive a percentage on half salary equal to the proportion by which the privileged rate exceeds the market rate of remittance, or half that percentage on the full salary. The allowance is accordingly given in the form of a percentage on the full salary drawn limited to the amount which would be admissible on a remittance of £1,000.

7. The percentage will be calculated for each quarter with reference to the difference between the privileged rate and the rate fixed as the approximate market rate applicable to the quarter—see rule 8. Thus, if the market rate of exchange applicable to any quarter is 1*s.* 4*d.*, the difference between this and the privileged rate is equivalent to a percentage of 12½ on that market rate, and the difference between the cost of remitting £1,000 @ 1*s.* 6*d.* (Rs. 13,333⅓) and at 1*s.* 4*d.* (Rs. 15,000) is Rs. 1,666⅔. The

allowance payable during the quarter would therefore be granted at 6¼ per cent. on the full salary limited to the maximum of Rs. 1,666-10-8.

8. The market rate applicable to any quarter will be approximately the average of the Calcutta demand rate during the preceding quarter, and will be calculated and notified by the Comptroller General before the beginning of the quarter.

9. The market rate fixed for any quarter will be applicable to all payments of salary falling due during that quarter. Thus, the rate fixed for the quarter July to September will apply to salary payable between the 1st July and 30th September,—*i.e.*, ordinarily to the salary for the months of June, July, and August.

10. For the purpose of illustration, a table is appended showing the percentage admissible on full salary and the maximum allowance admissible at the rates which have been fixed as the market rates for the quarters April to June 1893 and July to September 1893, and at some other rates above and below 1*s.* 4*d.*

11. In the case of officers whose emoluments are regulated by the Civil Service Regulations, the allowance is admissible only on "Salary" as defined in Article 47, Civil Service Regulations. In the case of officers whose emoluments are regulated by the Army Regulations, India, it is admissible only on Pay, Indian Allowances, and Staff Pay.

12. The allowance may be drawn regularly with pay in the manner and under the rules under which pay is drawn; and will be charged to the same head as pay, but under a separate detailed head.

### NOTIFICATIONS.

*Simla, the 19th August, 1893.*

**No. 1765-*E.***—In March last the Agent to the Governor-General in Baluchistan reported to the Government of India that Mir Khudadad Khan, the Khan of Kalat, had suddenly murdered at Bagh on the 28th March, 1893, Fakir Muhammad, the Mustaufi or Minister of the Kalat State, Ghulam Farukh, the Minister's son, Naib Abdul Aziz, the Minister's father, and Sherdad, the Minister's confidential Agent. The Khan was called upon to give an explanation of his conduct, and summoned to meet the Political Agent at Bellpat. The Khan attended at Bellpat accordingly and afterwards proceeded with the Political Agent to Quetta, where the Governor-General's Agent, assisted by a jirga of influential Sardars of the country, held an investigation into the Khan's conduct. The Government of India have considered the detailed report which has been submitted by Sir James Browne with the record of evidence taken in a protracted and exhaustive enquiry. They have also taken into consideration the finding of the Baluch Sardars.

The evidence has established beyond all doubt Mir Khudadad Khan's responsibility for the murder of the abovenamed persons. The Khan has also been proved to be responsible for other murders and mutilations last year, and it is shown that he has ruled his State oppressively and cruelly.

The finding of the Baluch Sardars is to the effect that Mir Khudadad Khan is guilty of the crimes with which he has been charged, and their recommendation is that he be deposed and that his eldest son, Mir Mahmud Khan, be put in his place. The Khan himself has asked the Government of India to accept his resignation and to recognise Mir Mahmud Khan as his successor.

In the judgment of the Governor-General in Council, Mir Khudadad Khan's conduct would justify his deposition, but in consideration of the fact that he has been an ally of the British Government for many years, and in deference to his position and rank, His Excellency in Council has decided to accept his abdication.

Mir Mahmud Khan will accordingly be recognised as Khan of Kalat in succession to his father, and the Governor-General in Council desires it to be clearly understood that the position of the Kalat State towards the British Government is not affected by the transfer of the government of the State from Mir Khudadad Khan to Mir Mahmud Khan, and that Mir Mahmud succeeds to all his father's rights and privileges.

### MINT.

*The 25th August, 1893.*

**No. 3714-*A*.**—In supersession of the rules published with Notification No. 1714, dated the 16th July 1873, the Governor General in Council directs the publication for general information of the Rules for the receipt of gold bullion and coin in the Mints of Calcutta and Bombay and the Bye-laws of the Bullion Depôt of the said Mints hereunto appended:

J. F. FINLAY,

*Secretary to the Government of India.*

---

### RULES FOR THE RECEIPT OF GOLD BULLION AND COIN IN THE MINT.

*General Rules.*

1. The Mint is open for the receipt of gold bullion and coin between the hours of 10 A.M. and 3 P.M., Sundays and holidays excepted.

2. Gold bullion and coin must be tendered by the proprietor thereof in accordance with Form A or B, as the case may be, printed copies of which will be supplied by the Bullion Clerk of the Mint.

3. Gold bullion and coin brought to the Mint will be received by the Mint Master in accordance with the Notification of the Government of India, Finance and Commerce Department, No. 2662, dated the 26th June 1893, which is as follows:

"The Governor General in Council hereby announces that, until further orders, gold coins and gold bullion will be received by the Mint Masters of the Calcutta and Bombay Mints respectively in exchange for Government rupees, at the rate of 7·53344 grains troy of fine gold for one rupee, on the following conditions:

(1) Such coin or bullion must be fit for coinage.

(2) The quantity tendered at one time must not be less than 50 tolas.

(3) A charge of one-fourth per mille will be made on all gold coin or bullion which is melted or cut so as to render the same fit for receipt into the Mint.

(4) The Mint Master, on receipt of gold coin or bullion into the Mint, shall grant to the proprietor a receipt which shall entitle him to a certificate from the Mint and Assay Masters for the amount of rupees to be given in exchange for such coin or bullion payable at the General (Reserve) Treasury, Calcutta or Bombay. Such certificates shall be payable at the General Treasury after such lapse of time from the issue thereof as the Comptroller General may fix from time to time."

*Rules relating to Sovereigns and Half-Sovereigns.*

4. Sovereigns and half-sovereigns coined at the Royal Mint, or any authorized branch thereof, will be received at the Mint by weight, but without melting or assay, whether they are above or below current weight. The charge of one-fourth per mille for melting will accordingly not be made in the case of these coins.

5. On arrival at the Mint, such coins will be taken to the Bullion Clerk of the Mint for examination, weighment, and registry.

6. On delivery of such coins into the Mint, the Mint Master will give the proprietor a certificate in Form C. A notice will be hung up in the bullion office indicating the period after which such certificate will be payable at the General (Reserve) Treasury.

*Rules relating to Gold Bullion and Coin other than Sovereigns and Half-Sovereigns.*

7. Gold bullion and coin, other than sovereigns and half-sovereigns (hereinafter called gold bullion), tendered at the Mint must on arrival be taken to the bullion depôt of the Mint, where it will remain in deposit until it is required for melting.

8. Gold bullion must be melted in the melting room of the Mint under the superintendence of the Mint melting establishment to render the same fit for receipt into the Mint.

9. Gold bullion will be melted and otherwise dealt with in accordance with the bye-laws of the Mint bullion depôt annexed to these rules. After the gold bullion has been melted, the resulting ingots will be taken for weighment and registry to the First Assistant to the Mint Master in the bullion office of the Mint, on whose weighment it is received into the Mint.

10. Until such weighment is made, the gold bullion is in the custody and at the sole risk of the proprietor thereof, to whom every facility will be afforded for securing it in the strong room appropriated for this purpose.

11. The Mint Master, on the delivery of the gold bullion into the Mint, will grant to the proprietor a receipt in Form D.

12. Should gold bullion after being melted prove unfit for coinage, it shall be returned to the proprietor on his paying the melting charge specified in paragraph 3 of Government of India Notification No. 2662, dated the 26th June 1893, and a fee of Rs. 4 for each assay if the gold was subjected to assay.

13. On completion of melting and assay, the Mint Master will deliver to the proprietor a certificate in Form E from the Mint and Assay Masters on his surrendering the receipt in Form D given to him under rule 11. A notice will be hung up in the bullion office indicating the period after which such certificate will be payable at the General (Reserve) Treasury.

14. The proprietor of any gold bullion who, being dissatisfied with the Assay Master's report of its fineness, wishes to withdraw such bullion can do so within twenty-four hours of his receipt of the certificate in Form E on prepayment of a fee of Rs. 4 for each assay and of the charge for melting, and on surrender of the said certificate.

15. Gold bullion in the course of receipt by the Mint may be transferred by the original proprietor to another on his signing a letter in Form F to the Mint Master notifying the transfer and paying Rs. 4 for each transfer. Such transfer will be recognised on the transferee re-tendering such bullion or coin in a letter in Form G. If the receipt in Form D has been already given to the original proprietor, it should be surrendered, and another receipt in Form D will then be given to the transferee.

### BYE-LAWS OF the MINT BULLION DEPÔT.

*External.*

1. All tenders of gold bullion and coin should specify either the number of sovereigns and half-sovereigns or the number of parcels of gold bullion and coin other than sovereigns and half-sovereigns (hereinafter called gold bullion), and in either case the approximate weight of the whole amount of the tender.

2. The tenders should be numbered in the order of delivery into the bullion depôt when all the sovereigns and half-sovereigns or parcels specified in the tender are brought in. When a portion only is brought in, the tender should be numbered after the delivery of the number of coins or parcels specified is completed.

3. The gold bullion and sovereigns and half-sovereigns tendered should be delivered by the authorised agent, who will see to the locking up of the parcels or coins in the strong-room of the depôt.

4. The tenders will be dealt with according to priority of numbers if the authorised agent be in attendance; if not, the next in succession, having an agent in attendance, will be taken in hand. The order of succession only applies to gold taken out for melting.

5. Importers sending two or more invoices of gold bullion with only one tender are to understand that their agents alone will be responsible for keeping the gold bullion belonging to each invoice separate; but if the gold bullion of each invoice be separately tendered, care will be taken to keep each parcel distinct.

6. Proprietors are distinctly to understand that their agents are to satisfy themselves as to the accuracy of the weighments in the bullion office of their sovereigns and half-sovereigns and of their gold bullion after melting. If the proprietors' agent should observe anything either in the beam or in the method of weighing that he disapproves, he should make it known at once, and every facility will be given him to make the necessary corrections. Proprietors must therefore look only to their agents for explanation if any discrepancy should occur between the invoice and the Mint weighments.

7. *Registry of Bullion.*—Proprietors' gold bullion, after having been melted and when ready for registry, will be taken into the bullion office; and after the bullion has been registered, proprietors' agents, durwans, &c., are to go out through the Mint gate at the warder's lodge.

8. The spillage resulting from the gold bullion will, if the proprietor wishes it, be carefully worked up, if possible once a fortnight, by the establishment of the bullion depôt at the risk and responsibility and on behalf of the proprietors, to each of whom an account showing the value thereof, obtained by proportional distribution of the whole, is to be rendered and the amount paid by cash or cheque on the Bank of $\frac{\text{Bengal}}{\text{Bombay}}$.

9. *Passes.*—All passes for gold bullion required to be sent out of the bullion depôt, whether gold spillage from the melting room or bullion rejected by the Mint previous to registry or withdrawn by proprietors, will be made out by the bullion clerk and sent to the Mint Master for his signature, and then delivered to the proprietors' agents for the endorsement of the proprietors. Thereafter the bullion will be passed out through the Mint gate at the warder's lodge.

10. Proprietors will not be required, in addition to the one-fourth per mille charged by the Mint, to pay any other charges, such as for gunny bags or cooly hire, after the gold bullion has been once taken into the strong-room. Gold spillage will be removed at the expense of the proprietors.

11. Proprietors may have a guard at the strong-room door during working hours if they choose, as their treasure is in deposit at their risk.

12. Gold bullion once rejected by the Mint as unfit for coinage shall not again be received for the purpose of being melted without the special authority of the Mint Master.

### ORGANISATION.

#### NATIVE ARMY.

**No. 811.**—The Governor-General in Council is pleased to sanction the reconstitution of a regiment of Madras native infantry for service in Burma.

2. The corps selected for reconstitution is the 29th Regiment of Madras Infantry, which on re-formation will be designated "The 29th Regiment (the 7th Burma Battalion) of Madras Infantry."

3. This corps will be formed from companies of the Magwé and Mandalay Battalions of Military Police.

4. The existing material of the 29th Regiment of Madras Infantry will be mustered out, and the native officers, non-commissioned officers and men now serving in this corps will be transferred to other regiments, or pensioned or discharged in the manner hereinafter stated.

5. This corps as now reconstituted will ordinarily be stationed in Burma, but will be recruited for general service.

6. The strength of the corps will be as follows, organized in eight companies:

1 Commandant.
2 Wing commanders (the senior to be 2nd-in-command).
5 Wing officers (of whom one will be Adjutant and one Quartermaster).
1 Medical officer.
8 Subadars (one of whom will be Subadar-Major).
8 Jemadars (one of whom will be Native Adjutant).
41 Havildars (including one Havildar-Major).
40 Naicks.
16 Drummers or buglers.
720 Sepoys.

7. The British officers will be selected by the Commander-in-Chief, Madras, as far as possible from the officers of the 29th Madras Infantry and from volunteers from the Madras Army; but those now serving with the police corps about to be transferred to the army, if they belong to another presidency, may receive suitable appointments in the reconstituted regiment for a period of three years, should it be desired to employ them with it, and if they are willing to remain.

8. The rule (Article 266, clause (*a*), Army Regulations, India, vol. I, part I) requiring commandants to vacate on completion of seven years' tenure will not for the present be applied to the commandant of the corps now re-formed.

9. The pay and allowances of the British officers of this corps will be the same as those allowed for native infantry generally, but, in consideration of the circumstances of local service in Burma, each British officer will receive in addition a local allowance of Rs. 100 per mensem, and will also be eligible for the indulgence of three months' privilege leave in each year.

10. The British officers of this corps belonging to the Madras Army will be eligible for general staff employment in the same way as all other officers of that army. They will be subject to the same rules as regards exchanges and transfers as the officers of the six Burma battalions already formed.

11. Probationers for the Indian Staff Corps may be appointed direct to this corps, in succession to vacancies, without first going through a course of duty with other regiments of the Madras Army.

12. The native officers, non-commissioned officers and men now serving in the police battalions above named will be eligible to serve in the corps, on its conversion, on the terms now laid down.

13. Native Officers and non-commissioned officers will be on probation for six months. If within that period they are found to be not thoroughly efficient, they will be either re-transferred to the Military Police or placed on the pension establishment.

14. The following rates of pay are sanctioned for the native ranks of the corps, *viz.*,—

Pay as laid down for Madras in Army Regulations, India, vol. I, part II, articles 45-C and 68-D, *plus* the following monthly Burma allowance in lieu of batta allowed to Madras troops in Burma (*vide* article 109-A of the same Regulations):

| | Rs. | A. | P. |
|---|---|---|---|
| Subadar-Major | 50 | 0 | 0 |
| Subadar | 30 | 0 | 0 |
| Jemadar | 15 | 0 | 0 |
| Havildar | 7 | 8 | 0 |
| Naick | 6 | 0 | 0 |
| Drummer, bugler, and sepoy | 2 | 0 | 0 |

The Burma local allowance will be admitted to native officers, non-commissioned officers and men of the Burma battalions of Madras infantry during all authorised leave or furlough taken by them, whether in India or in Burma.

15. Good-conduct pay will be given as laid down in articles 85 and 86 of the Regulations above quoted.

16. The conditions of service as regards enlistment, kit money, clothing, half mounting, discharge, pensions, and free quarters will be the same as those sanctioned for the six Burma battalions already formed.

17. Former service in the police battalions and in the army will count towards the period of service required for the grant of good-conduct pay and pension.

18. All native ranks, including native officers, will be granted free rations as in Army Regulations, India, vol. V, para. 2145.

19. Furlough and leave will be granted under the rules in Chapter VIII, Section XIII, Army Regulations, India, vol. II, part II.

20. The indulgences conceded to the military police in regard to families will be continued on the transfer of these companies of military police to the Madras Army, *viz.*,—

(*a*) Native officers will be permitted to take their families to Burma on payment of half passage money.

(*b*) Twenty per cent. of havildars, 20 per cent. of naicks, and 5 per cent. of drummers, buglers, and sepoys will be allowed a similar indulgence free of cost.

(*c*) Free accommodation will be provided for families to the above extent.

The term "families" is held to apply to wives and children only.

21. Soldiers serving in the battalion as now re-formed will be liable to transfer to any other local Burma battalions to which this corps may hereafter be linked, as the exigencies of the service may require.

22. The class composition of the 29th (Burma) Regiment of Madras Infantry will be as noted below:

Three companies of Sikhs.
Three companies of Punjabi Mahomedans.
Two companies of Hindustanis.

23. The native officers, non-commissioned officers and men now serving in the 29th Regiment of Madras Infantry will cease to be borne on the rolls thereof from the 15th October, and will be disposed of as follows:

(*a*) Native officers, non-commissioned officers and men who have served for pension

for 25 years and upwards will be transferred to the pension establishment on the superior rate of pension of their rank, irrespective of the period they may have served therein, *plus* rice compensation.

(*b*) Native officers, non-commissioned officers and men of 15 years' service and upwards will be transferred to the pension establishment on the ordinary pension of their rank (irrespective of the period they may have served therein), *plus* rice compensation, with the option, in the case of drummers, buglers, and privates who have not completed 21 years' service, of being transferred to other regiments.

(*c*) Native officers, non-commissioned officers and men of more than 10 and less than 15 years' service will be transferred to the pension establishment on two-thirds of the ordinary rate of pension of their rank (irrespective of the period they may have served therein), *plus* rice compensation, with the option, in the case of drummers, buglers, and privates, of being transferred to other regiments.

(*d*) Non-commissioned officers and men of more than 5 years' and less than 10 years' service will have the option of transfer to other regiments, and, in the case of privates only, of joining the active reserve. Such as elect for discharge from the service, or for transfer to the active reserve, will receive a gratuity of one month's pay (including good-conduct pay) for each year of service.

(*e*) Non-commissioned officers and men of less than 5 years' service will have the option of being transferred to other regiments, or, in the case of privates only, of joining the active reserve.

24. The restriction as to the number of men (160) to be permitted to join the active reserve of any one battalion is suspended in regard to the 29th Madras Infantry.

25. The present reservists of the battalion to be reconstituted will be allowed the option of joining the reserves of the battalions linked to this corps under its former organization, or of taking their discharge.

26. The mess, band, and other property of the 29th Madras Infantry, together with the colors of this corps, will remain with the regiment as reconstituted.

*Simla, the 31st August, 1893.*

No. 1212.—The following letter from Her Majesty the Queen, Empress of India, published in the Supplement to the *London Gazette*, dated 11th July 1893, is republished for general information:

*Whitehall, July 10, 1893.*

The following Letter from the Queen has been received by The Right Honourable the Secretary of State for the Home Department:

*Windsor Castle, July 10, 1893.*

The Queen wishes once again to express to Her people how much gratified and touched She has been by the great loyalty and devotion to Herself and Her Family which has been so strikingly evinced on the occasion of the Marriage of Her Beloved Grandson, The Duke of York, and His dear Bride, Princess Victoria Mary of Teck.

It is, indeed, nothing new to The Queen; for in weal and woe She has ever met with the warmest, kindest sympathy, which She feels very deeply.

She knows that the peoples of Her vast Empire are aware how truly Her heart beats for them in all their joys and sorrows, and that in the existence of this tie between them and Herself lies the real strength of the Empire.

With them The Queen joins in fervent prayer and wishes for the welfare and happiness of Her dear Grandchildren.

VICTORIA, R. I.

**No. 1499-*G.***—Surgeon-Lieutenant W. E. A. Armstrong, Indian Medical Service (Madras), is appointed to officiate as Medical Officer of the Meywar Bhil Corps, with effect from date of joining, and until further orders.

**No. 3117-*I.***—Whereas His Highness the Maharaja of Bikanir (Bikanir being a Native State within the meaning of the Native Coinage Act, IX of 1876) has, pursuant to the authority contained in section 5 of the said Act, sent to the Mint of Bombay silver which has been coined under the said Act into one lakh and ninety thousand rupees, and has requested the Government of India to declare that a tender of payment of money, if made in rupees so coined, shall be a legal tender in British India:

And whereas the silver so sent has been coined into rupees of fineness identical with that prescribed by law for rupees of the Government of India:

And whereas the rupees so coined are identical in weight with the rupees of the Government of India, and the devices upon their obverse and reverse differ from the devices on coins now made or issued by the Bikanir State, and have been approved by the Governor-General in Council, and upon each of the rupees so coined its value in money of the Government of India is inscribed in the English language:

And whereas the said Maharaja, on behalf of himself, his heirs, and successors, has undertaken to abstain, during a term of thirty years from the date of this notification, from coining silver and copper in his own Mint, and has also undertaken that no coins resembling coins for the time being a legal tender in British India shall, after the expiration of the said term, be struck under his or their authority or with his or their permission at any place within or without his or their jurisdiction:

And whereas the said Maharaja has formally declared that a tender of payment of money, if made in silver coins of the Government of India, shall, in the territories subject to his Highness, be a legal tender in the cases in which payment made in such coins would, under the law for the time being in force, be a legal tender in British India:

And whereas the said Maharaja for himself, his heirs, and successors has agreed that the law and rules for the time being in force respecting the cutting and breaking of coin of the Government of India reduced in weight by reasonable wearing or otherwise, or counterfeit, or called in by proclamation, shall apply to the coins made for the said Bikanir State under the said Act, and that the said State will defray the cost of cutting and breaking them:

And has also agreed not to issue the same coins below their nominal value, and not to allow any discount or other advantage to any person in order to bring them into circulation:

And has also agreed that, if at any time the Government of India call in their coinage in silver and copper, he, the said Maharaja, his

heirs, or successors, will, if so requested by the Government of India, call in, at his or their own expense, all the said rupees so coined for him:

Now, therefore, the Governor-General in Council, in consideration of the premises and in exercise of the power conferred by the Native Coinage Act (IX of 1876), section 3, is pleased to declare that a tender of payment of money, if made in the said rupees coined under the said Act for the said State of Bikanir, shall, subject to the provisions of the Indian Coinage Act (XXIII of 1870), be a legal tender in British India.

RESOLUTION—By the Government of India, Finance and Commerce Department.

Read again—

Resolution in this Department, No. 3624-A., dated 18th August 1893, and the rules regarding the grant of Exchange Compensation Allowance appended thereto.

RESOLUTION.—The Governor General in Council directs that the following alterations be made in the rules appended to the Resolution read in the preamble:

To be substituted for the last sentence of rule 7:

"The allowance payable during each month of the quarter would therefore be granted at 6¼ per cent. on the full salary limited to a maximum of $\frac{1}{15}$th of Rs. 1,666-10-8, or Rs. 138-14-3."

To be substituted for rule 8:

"The market rate applicable to the quarters April to June and July to September 1893 has been fixed in Resolution No. 3624-A., dated 18th August 1893. For subsequent quarters, the market rate applicable to any quarter will be approximately the average of the Calcutta demand rate during the quarter ending on the 15th day of the last month of the preceding quarter, and will be calculated and notified by the Comptroller General, if possible, on such 15th day. The rate will be fixed at the nearest $\frac{1}{32}$ of a penny."

ORDER.—Ordered, that the Resolution be communicated to the several Departments of the Government of India; to all Local Governments and Administrations; to all Heads of Departments subordinate to the Finance Department; to the Comptroller and Auditor General; and to all Accountants General and Comptrollers.

**Ordered also, that the Resolution be published in the *Gazette of India*.**

**No. 1978-*E.***—The following Order of Her Majesty the Queen in Council is republished from the *London Gazette* of the 21st July, 1893, for general information:

AT THE COURT AT WINDSOR.

The 17th day of July, 1893.

*Present:*

THE QUEEN'S MOST EXCELLENT MAJESTY.

Lord President.
Lord Steward.
Marquess of Ripon.
Sir Edmund Monson.

Whereas by Treaty, grant, usage, sufferance, and other lawful means Her Majesty the Queen has jurisdiction in Zanzibar:

Now, therefore, Her Majesty, by virtue and in exercise of the powers in this behalf by "The Foreign Jurisdiction Act, 1890," or otherwise in Her Majesty vested, is pleased by and with the advice of Her Privy Council to order, and it is hereby ordered as follows:

1. This Order may be cited as "the Zanzibar (Jurisdiction) Order in Council, 1893," and shall be construed as one with "the Zanzibar Order in Council, 1884," and "The Zanzibar Order in Council, 1888" (herein respectively referred to as the Order of 1884 and the Order of 1888).

2. (1) Natives of any Protectorate of Her Majesty which is outside Zanzibar shall, when within Zanzibar, be deemed to be British-protected persons within the meaning of the Orders in Council relating to Zanzibar.

(2) Such of the provisions of those Orders as refer to British subjects shall extend also to Zanzibar subjects, but in so far only as by Treaty, Convention, grant, usage, or other lawful means Her Majesty has jurisdiction in Zanzibar in relation to Zanzibar subjects.

3. Article eight of the Order of 1884 is hereby amended, and from and after the commencement of this Order chapter thirty-three of the Act therein referred to as the Code of Criminal Procedure (Act X of 1882), which relates to criminal proceedings against Europeans and Americans, shall not be applicable to Zanzibar.

4. The Order of 1884 and the Orders amending the same shall be read and construed as if the expression "Consular Judge" had been substituted for "judicial assistant" wherever that expression occurs; provided that if the Consular Officer heretofore acting as judicial assistant is appointed to be Consular Judge, all past acts of that officer as judicial assistant shall have the same validity as if on the commencement of the Order of 1884 he had been appointed to be Consular Judge.

5. (1) The Secretary of State may appoint one of Her Majesty's Consular Officers in and for Zanzibar to be Assistant Consular Judge, and the Consul-General may in case of emergency appoint one of such officers to act temporarily as and for such Assistant Consular Judge.

(2) Subject to the provisions of this Order and to any directions of the Secretary of State, the Assistant Consular Judge shall have and exercise all the same powers and jurisdiction which under this Order and the Order of 1884 can be exercised by the Consular Judge.

6. So much of Article nine of the Order of 1884 as relates to the judicial assistant is hereby repealed, and in the application of the Code of Criminal Procedure and other enactments in that Article referred to the Assistant Consular Judge shall be deemed to be the Magistrate of the district, and the Consular Judge shall be deemed to be a Joint or Additional Sessions Judge.

7. The powers conferred upon the Consul-General by Article two of the Order of 1888 shall extend, and be deemed to have extended, to regulations for enforcing the observance of any Treaty, Convention, or International Agreement to which Her Majesty is, or may hereafter be, a party, whether the Sultan of Zanzibar is or is not a party thereto.

8. A copy of this Order shall forthwith be affixed and exhibited in the public office of the Consulate at Zanzibar, and the day on which it is so exhibited is herein referred to as the commencement of this Order, provided that any appointment authorized by this Order may be made at any time after its passing.

9. Save as by this Order provided, expressions used in this Order and in the Order of 1884 have the same meaning as in that Order.

And the Right Honourable the Earl of Rosebery, K.G., one of Her Majesty's Principal Secretaries of State, is to give the necessary directions herein.

## MARINE DEPARTMENT.

### PENSIONS.

**No. 56.—The Mo t Hon'ble the Governor-General in Council is pleased, with the approval of the Secretary of State for India,** to notify that officers and engineers of the Royal Indian Marine who have so elected will be admitted to the benefits of the Indian Military Service Family Pension Regulations, and their enrolment as subscribers will have effect from the 1st January 1893, upon the condition that their contributions are so regulated as to provide for the liabilities entailed by their admission to the benefits of the pension rules.

2. In accordance with this principle, a separate *pro formâ* account will be kept by the Examiner of Marine Accounts of all contributions levied

from officers of the Royal Indian Marine and of all payments made on account of their families, and it must be distinctly understood that the rates of contribution payable by them will be liable to alteration, irrespective of those that may be prescribed for members of the military service, and will be so regulated as to prevent any loss to existing subscribers.

3. A copy of the statement prepared by the Actuary at the India Office shewing the contributions due from officers will be furnished to the Examiner of Marine Accounts. Married officers promoted since the 31st December 1892 will pay the promotion donations prescribed in the Indian Military Service Family Pension Regulations in addition to the sums referred to in this statement.

4 Subscriptions and donations will now be recovered, with interest at the rate of 4½ per cent. per annum, from 1st January 1893.

Donations may, however, be paid in twenty-four monthly instalments from the 3rd August 1893, subject to the payment of interest on the unpaid balances.

5. Officers who have elected to subscribe will not be allowed to discontinue their subscription so long as they remain in the service, neither will those officers who have declined to subscribe be allowed at any future time to become subscribers.

6. Officers enrolled as subscribers under the terms of this order will for the present be permitted to pay the reduced rates of subscriptions laid down in the rules. Donations must, however, be paid at the full rates, and unmarried subscribers, who have been in the service for a number of years, may on marriage be required to pay a small additional donation. All such marriages should, therefore, be reported by the Examiner of Marine Accounts to the Director of Funds in order that the necessary calculation may be made by the Actuary.

7. Officers admitted to the Royal Indian Marine subsequently to the 1st January 1893 will be required to subscribe under these regulations as a condition of their appointment to the service.

8. In the uncertainty which exists as to the average age at which officers of the Indian Marine are likely to retire, it is not considered necessary for the present to rule that officers will be required to continue the full rates of subscription after retirement from the service.

9. Subscribers will be classed as shown in the margin. Any Commander holding a first class port appointment, or the appointment of Deputy Director of the Royal Indian Marine, may at his option subscribe in the next higher class to that in which he is placed according to his grade as Commander. An officer who has elected to subscribe in a superior class will not subsequently be allowed to revert to a lower one. Sub-Lieutenants (2nd and 3rd grade officers) and Assistant Engineers enrolled as subscribers, with effect from 1st January 1893, under the terms of this order will be allowed the option of subscribing either in class V or in class V-2. This option will not be given to future entrants into the service.

*Class III.*
1st grade Commanders.

*Class IV.*
2nd and 3rd grade Commanders.
Chief Engineers.

*Class V.*
Lieutenants (1st grade Officers).
Engineers.
Sub-Lieutenants (and and 3rd grade Officers).
Assistant Engineers.

10. All the necessary registers and accounts will be kept by the Examiner of Marine Accounts.

RESOLUTION—By the Government of India, Public Works Department.

*Terms on which the Government of India are prepared to consider offers for the construction by the agency of private companies of branch lines or extensions of existing railways to be worked, when constructed, by the main line administrations.*

Read—

Government of India Circular Resolution No. 1366-R.C., dated 30th December 1887.

OBSERVATIONS.—His Excellency the Governor General in Council has had under consideration the question of the extension of railways in India, and has determined to provide additional encouragement for the investment of private capital in the construction of branch lines and extensions of existing railways. It has been resolved accordingly to revise the concessions previously offered to persons willing to embark upon such undertakings, and to publish for general information the terms and conditions on which projects will be entertained.

2. The concessions offered are—

(1) the free use of land;

(2) the provision of rolling stock and the maintenance and working of the new lines at favourable rates by the main line administrations;

(3) the free use of surveys, etc., made at State expense;

(4) the carriage of stores and materials over State lines at favourable rates;

(5) the grant of a limited rebate from the main line earnings towards ensuring the proprietors of the new lines a dividend of 4 per cent. per annum on the approved capital expenditure.

3. In addition to the above, if it can be legally arranged, authority will be given to charge to the capital account of the branch railway during construction and until the close of the half-year next following the half-year in

which the branch railway may be fully opened for traffic such sum as, together with any net receipts from working, will suffice to pay interest at the rate of 4 per cent. per annum on the paid-up capital. The payment of interest out of capital as a part of the constitution of a company cannot, however, at present be recognised except under parliamentary sanction. The question of applying to Parliament for power to enable the Secretary of State for India in Council to recognise such payments in respect to Indian undertakings is under consideration.

4. It is not the intention of the Government of India to grant in every case the *maximum* concessions mentioned in this Resolution. Each project presented will be separately examined, and will be treated on its merits. No concession will be given for any project unless it is shown to possess reasonable prospects of financial success. His Excellency the Governor General in Council deems it essential to insist in all cases in view of the extent to which the new lines will be subsidised at the cost of State revenues, and in order to secure a proper return for that expenditure, that the new lines shall be worked as if they were part and parcel of the main line undertakings, and in a manner that will give the public the benefit of cheap transport over them, and at the same time attract new traffic to the main lines. For that purpose ultimate control over the rates and fares charged for the carriage over the new lines of passengers and goods will be retained in the hands of the Government.

5. The Government of India are prepared to undertake the construction by its Department of Public Works of branch lines or extensions of existing railways on behalf of persons who may have provided the necessary capital.

6. Applications for concessions to construct branch lines or extensions under the terms of this Resolution should be submitted in the form prescribed by memorandum (A) hereto attached to the address of the Secretary to Government of India, Public Works Department.

RESOLUTION.—Proposals for the construction of branch lines or extensions of existing railways made by persons who satisfy the Government that they are in a position to command substantial financial support will be considered on the undermentioned terms and conditions, *viz.*:

(1) The proposed railway (hereinafter called 'the branch railway') must be built in accordance with the fixed and moving dimensions for the time being prescribed by the Governor General in Council, and on plans and estimates that have been approved by that authority.

(2) The extent and details of the concessions to be granted in each case will be settled by agreement.

*Lines to be connected with State Railways.*

The following terms will apply to projects for the construction of branch railways to be connected with State railways:—

(3) Access will be given, on application and free of charge, to all information, plans, or estimates in the possession of Government that relate to railways whose construction the Government is prepared to entrust to companies; but no responsibility will be accepted by Government for the accuracy of any information, plan, or estimate thus made available.

(4) The use of such land as is necessary, in the opinion of the Government of India, for the construction of the branch railway and for the stations, station yards, offices, warehouses, houses for employés, conveniences, and works necessary or proper for the purposes of the railway, as well as for quarrying, ballast, brick-fields, and kindred purposes, will be provided by Government free of charge.

(5) The branch railway will be maintained and worked by the main line administration during the full currency of the contract to be entered into for the purpose at a fixed ratio of expenses to earnings in each half-year. The ratio will, when the branch railway is of the same gauge as that of the working railway, usually be that obtaining on the whole system, including the branch railway, and will not ordinarily exceed 50 per cent. of the gross earnings of the branch from all sources, and will be inclusive of charges for the use of the main line rolling-stock. Charges for Home Board direction of the branch railway will be excluded from the arrangement, and will have to be defrayed out of the share of the earnings pertaining to the branch railway.

(6) Railway materials for the branch railway will be carried over State lines at the special rates prescribed for such materials belonging to State railways.

(7) A return will be made to the branch line by the main line of such a sum from the traffic interchanged with it as shall out of the gross earnings of the main line, together with the branch company's share of branch earnings, be sufficient to give the branch company a dividend of 4 per cent. per annum on the actual expenditure charged in the capital account of the branch railway company as entered in the Company's books in India; provided always that the return so made to the branch company shall in no case exceed 10 per cent. of the gross earnings of the main-line from traffic interchanged between the main and branch lines. This rebate will be granted from the first earning of revenue by the branch line, such payment being calculated at the close of the "calendar" year, payments on account, however, subject to adjustment, being permissible at the close of the first-half of each year.

(8) Funds for the execution of new works—properly chargeable to capital—found necessary after the branch railway has been opened to traffic shall be provided by the branch railway company. Such works and their cost must be agreed upon between the branch railway company and the main line administration before they are put in hand. In the event of any difference of opinion arising between the branch line and the main line administration as to the necessity for and the cost of any new work, the matter will be referred to the Director General of Railways as arbitrator, and his decision shall be final.

(9) Rates and fares upon the branch railway shall be within the limits of the schedule of maximum and minimum rates that may be from time to time authorized by Government for the main line, and shall be controlled by the main line administration. Ordinarily the rates and fares charged on the branch railway shall be not more than the highest nor less than the lowest mileage rates charged for the time being for similar traffic on the main line. Deviations outside of these mileage rate limits will not be permissible except with the special sanction of Government in each case.

(10) Government will have the right on giving twelve months' notice to purchase the branch railway either—

(i) at the expiration of 21 years from the date of opening to traffic of the branch railway, and thereafter at successive intervals of 10 years, at 25 years' purchase, based on the average net earnings of the branch for the five years immediately preceding the purchase, provided that the price shall not in any case exceed the total capital expenditure by more than 20 per cent., and shall not be less than the capital expenditure; or

(ii) at the expiration of 50 years from the date of opening to traffic of the branch railway on payment of the actual capital expenditure.

(11) Electric telegraphs and telegraphic appliances will be supplied and maintained by the Government of India: the charges for rent, maintenance, and inspection of telegraphic works and appliances will be included in the working expenses. Free passes shall be granted over the branch railway for persons employed by the Government of India on the construction, maintenance, working, and inspection of the telegraphs.

(12) The rates and arrangements in force on State railways in the matter of services rendered to the Postal Department, to the Military, Police, and other Departments of the State, and to high Government officials shall be applicable to the branch railway.

(13) The general character of the supervision and control that will be exercised by the Government of India over the branch railway, apart from the provisions of the Railway Acts and the preceding provisions of this Resolution, is indicated in the following paragraphs:

(i) The route of the line and the situation of the stations, and other similar details, will be determined by the Government of India.

The line, while under construction, shall be inspected when and so often as an Inspecting Officer appointed for that purpose by the Government of India shall consider desirable with a view to ensure the construction of the line up to the standard agreed on.

(ii) The branch railway company, if required, shall keep capital accounts and statistics in forms approved by the Secretary of State, and shall render, free of cost, all accounts and statistics required by Government. The accounts and books will be subject to audit on behalf of Government.

(iii) No capital expenditure by the branch railway company will be allowed as between the Secretary of State and the company unless the prior sanction of the Secretary of State has been obtained.

(iv) The company shall have no power to increase its share or stock capital without the sanction of the Secretary of State, or to borrow money except within a fixed limit and on specified conditions.

*Lines to be connected with Railways belonging to, or worked by, Guaranteed or Assisted Companies.*

As regards branch railways connecting with railways belonging or leased to Guaranteed or Assisted Companies:

(14) Land necessary, in the opinion of the Government of India, for the purposes of the railway will be provided by Government free of charge as indicated in para. (4) above.

(15) The terms under which the branch railway will be maintained and worked by the main line administration will be subject in each case to agreement between the main line and branch line companies and to the approval of Government. The Government will endeavour to obtain for the branch railway company terms approximating to those that would be granted under the terms of this Resolution if the branch railway were connected with a State railway.

(16) Other relevant concessions and stipulations contemplated by this Resolution in the case of branch railways connecting with State railways will be applied.

*Alternative terms and surveys.*

2. The Government of India will be prepared to consider proposals for working branch lines on terms other than the above which may be put forward by promoters.

3. If, after consideration of the question on its merits, it be decided that the gauge of any branch line shall be different from that of the main line, the question of the ratio of expenses to earnings at which the branch shall be worked will be subject to arrangement in each case, but in such cases the branch line must be fully supplied with necessary rolling-stock and workshops by the branch railway company.

When application is made for permission to construct a branch line which the Government is inclined to entrust to a Company on a route which has not been surveyed, the survey will, if so desired, be carried out by the Public Works Department of the Government of India on the applicants undertaking to pay the cost of such survey and depositing the estimated amount thereof on the understanding that, if permission is eventually given for the construction of the line, the actual cost of the survey may be included in the capital cost of the undertaking.

4. Applications for permission to survey for the construction of a branch line should be submitted to the address of the Secretary to Government of India, Public Works Department, in the form prescribed by memorandum B hereto attached.

## MEMORANDUM A.

## For the guidance of persons or syndicates desirous of submitting proposals for the construction of railways in India.

---

1. All applications for leave to construct a railway in any part of British India are to be addressed to the Secretary to the Government of India, Public Works Department.

2. All such applications shall be printed, and shall be drawn up, as far as may be, in form A attached hereto, and shall specify—

(*a*) the company, person, or persons by whom the application is preferred; the proposed amount of capital, the number of shares, and the amount of each share;

(*b*) all the termini, together with the names of all the principal towns from, through, into, or near which the railway is intended to be constructed, as well as the names of each civil division and district to be traversed by the proposed alignment;

(*c*) the length, so far as known, of the proposed railway;

(*d*) the gauge, the weight of rails, &c.

(*e*) the motive power to be employed;

(*f*) the maximum tolls, rates, and fares proposed to be charged on the projected railway;

(*g*) the proposals for working the railway when constructed; and if any agreement is under contemplation, or has been provisionally arranged with any existing Railway Administration under which the proposed line, when constructed, is to be leased out for working by such Railway Administration, the exact nature and terms of such agreement;

(*h*) any further information that may be required to enable Government to thoroughly understand the scope of the proposals.

3. Every such application shall be accompanied by a map to a scale of one mile to one inch, with the line of the proposed railway delineated thereon, so as to show its general course and direction, and also by an estimate as correct as may be of the works proposed to be authorised.

4. When the applicants draw up their own detailed plans and estimates, these documents are invariably to be prepared in strict accordance with the rules for the preparation of railway projects issued under the authority of the Government of India, of which copies may be obtained on payment from the Superintendent of Government Printing, Calcutta.

5. List of all routes in British India along which new lines of railway have at any time been proposed, and which have for railway purposes been either reconnoitred or surveyed, may be had on application to the Superintendent of Government Printing, Calcutta, on payment of a fee of Rs. 5.

6. Upon written application to the Director General of Railways, permission will also be accorded to inspect at all reasonable hours the detailed plans, sections, and estimates at the disposal of Government in regard to any particular route already surveyed, provided that they relate to railways the construction of which the Government is prepared to entrust to Companies; and copies of such plans, sections, and estimates will be furnished on payment of the cost of copying.

7. But in regard to all such information, statistics, plans, sections, or estimates which may be furnished, it is to be recognized that the information thus offered to any person interested in the matter is simply the best information of the kind at the disposal of Government, and that Government cannot accept any responsibility whatever in regard to the accuracy of any of the documents.

RESOLUTION—By the Government of India, Public Works Department.

***Reorganisation of the Engineer Establishment of the Public Works Department.***

**Read**—

Despatch to Secretary of State, No. 65 P. W., dated 2nd November 1892.

Despatch from Secretary of State, No. 31 P. W., dated 27th July 1893.

Telegram to Secretary of State, dated 8th September 1893.

Telegram from Secretary of State, dated 27th September 1893.

RESOLUTION.—With the sanction of the Secretary of State for India, the Governor General in Council is pleased to promulgate the following rules and orders for regulating the organisation of the grades, the grade pay, and the promotion of Executive and Assistant Engineers of the Public Works Department.

2. In the case of officers entitled to draw the rates of pay of the Imperial Service, the present organisation of the grades and the pay are modified as shown below:

| Present organisation and pay. | Monthly pay. Rs. | Organisation and pay as now sanctioned. | Monthly pay. Rs. |
|---|---|---|---|
| Executive Engineer, 1st grade ... | ... 950 | Executive Engineer, 1st grade | ... 1,000 |
| „ „ 2nd „ ... | ... 800 | „ „ 2nd „ ... | ... 850 |
| „ „ 3rd „ ... | ... 700 | „ „ 3rd „ ... | ... 700 |
| „ „ 4th „ ... | ... 600 | Assistant Engineer, 1st „ ... | ... 550 |
| Assistant Engineer, 1st „ ... | ... 500 | „ „ 2nd „ ... | ... 450 |
| „ „ 2nd „ | 350 rising to 400 after 3 years | „ „ 3rd „ ... | ... 350 |
| „ „ 3rd „ ... | ... 250 | Ungraded—old 3rd grade (will eventually disappear) ... ... | ... 250 |

Officers in the present 3rd grade of Assistant Engineers will remain so graded, being denominated as *"old 3rd grade"* until they rise, in accordance with the present rules, to the new 3rd grade (old 2nd grade). Apprentice Engineers now in the Department, or entering it under the guarantee of 1884,* and not under the Provincial Service rules published in Resolution No. 2112-G., dated 19th July 1892, will rise in accordance with present rules to the old 3rd grade of Assistant Engineers, and thence to new 3rd grade (old 2nd grade).

NOTE.—Apprentice Engineers appointed to the Provincial service under the above quoted Resolution will be promoted under the rules of that Resolution to the 3rd Assistant grade of the Provincial establishment, the latter establishment being modified as indicated in paragraph 7 of this Resolution.

3. The increased rates of pay in the 1st and 2nd Executive grades will apply from 16th August 1893 to all members of the establishment in these grades or promoted to them. The reduced rates in the 1st, 2nd, and 3rd Assistant grades will apply to officers entitled to draw the Imperial rates of pay only in the case of those who have not entered the Colleges for their course of training before the issue of these orders. Others will continue to draw the present rates of Rs. 600, Rs. 500, and Rs. 350 rising to Rs 400 after three years' approved service if not promoted at the end of three years.

NOTE.—No officer passed over for promotion to the new 2nd grade of Assistant can draw the increment.

4. The following table compares the present and future staff scale of pay under these orders to be drawn by Royal Engineer officers who draw the staff scale of pay. The lower rates in the three Assistant grades will apply only to those who elect for the staff scale after the publication of these orders:

*Staff scale of pay.*

| PRESENT. | | | FUTURE. | | |
|---|---|---|---|---|---|
| Grades. | Staff in addition to Military pay. | Maximum. | Grades. | Staff in addition to Military pay. | Maximum. |
| | Rs. | Rs. | | Rs. | Rs. |

| „ „ 3rd „ | 450 | 800 | „ „ 3rd „ | 450 | 800 |
| „ „ 4th „ | 350 | 650 | Assistant Engineer, 1st „ | 300 | 600 |
| Assistant Engineer, 1st „ | 300 | 550 | „ „ 2nd „ | 250 | 500 |
| „ „ 2nd „ after 3 years' approved service. | 250 | 500 | „ „ 3rd „ | 200 | 450 |
| „ „ 2nd grade, for the first three years of service. | 200 | 450 | | | |

* Resolution No. 1443-G., dated 13th December 1884.

5. An officer who is substantively, or substantively for a time, in the present 4th Executive grade, although he may be graded as an Assistant Engineer, 1st grade, under the new organisation, may with the special sanction of the Local Government retain his present denomination, and may continue to draw travelling allowance as an Executive Engineer. Such officers will appear in the classified list as "Executive Engineers, old 4th grade," until promoted to the 3rd grade.

6. Promotions shall be made from grade to grade and class to class under the following rules, subject to the present rules regarding recommendation and selection of the officers most deserving of promotion—

(1) A cadre number shall be laid down from time to time for each list on which promotions are made. The distribution of this number over the six grades shall be apportioned as follows:—

The number in the 1st Executive grade shall not exceed 25 per cent. of the cadre number.

The number in the 1st and 2nd Executive grades together shall not exceed 40 per cent. of the cadre number.

The number in the 1st, 2nd, and 3rd Executive grades together shall not exceed 50 per cent. of the cadre number.

The number in the 1st, 2nd, and 3rd Executive grades and 1st Assistant Engineer grade shall not exceed 70 per cent. of the cadre number.

The number in the 1st, 2nd, and 3rd Executive grades and 1st and 2nd Assistant Engineer grades shall not exceed 85 per cent. of the cadre number.

The balance of the staff shall be either in the Assistant Engineer, 3rd grade, or shall remain nominally in the 3rd Assistant grade of the present organisation, according to the rules to which they are subject (see paragraph 2).

NOTE.—The old 3rd grade of Assistant Engineer will disappear as soon as all present incumbents and the apprentices under the guarantee of 1884 have been promoted to the new 3rd grade of Assistant Engineers.

(2) The scale, framed as above, shall be the limiting scale within and up to which promotions can be made, provided that the officers selected for permanent promotion fulfil the conditions of the following time rule:

| | Rs. | |
|---|---|---|
| Officers shall be eligible for promotion to Assistant Engineer, 2nd grade ... | 450 | On completing three years' service from date of entering the new 3rd grade (old 2nd grade) of Assistant Engineer. |
| Officers shall be eligible for promotion to Assistant Engineer, 1st grade ... | 550 | On completing 3½ years in the 2nd grade, or 6½ from date of entering the 3rd grade of Assistant Engineer. |
| Officers shall be eligible for promotion to Executive Engineer, 3rd grade ... | 700 | On completing 4½ years in the 1st grade, or 11 years from date of entering the 3rd grade of Assistant Engineer. |
| Officers shall be eligible for promotion to Executive Engineer, 2nd grade ... | 850 | On completing 3½ years in the 3rd grade of Executive Engineer, or 14½ years from date of entering the 3rd grade of Assistant Engineer. |
| Officers shall be eligible for promotion to Executive Engineer, 1st grade ... | 1,000 | On completing 4½ years in the 2nd grade of Executive Engineer, or 19 years from date of entering the 3rd grade of Assistant Engineer. |

NOTE.—In the case of officers who entered the Department above the rank of Assistant Engineer, 2nd grade (old organisation), an equitable allowance shall be made, if necessary, in estimating their title to promotion under this rule, which will ordinarily be the time period in each grade according to the above standard.

(3) If, however, an officer eligible for promotion under the time rule is not promoted for any reason, such as not being recommended or being otherwise superseded, for each officer so passed over another officer may be promoted within the measure of the limiting scale of clause (1).

The result of this rule will be that the actual scale will be the same as if all the officers eligible were promoted, so far as the limiting scale permits.

Under this rule any officer not qualified by length of service may be promoted in place of an officer who is eligible by the time rule, but not equally eligible with the former under the rule of selection.

(4) Officers on deputation for periods exceeding six months, provided they are absentees as defined in Articles 110 and 111, Civil Service Regulations, shall not be counted against the scale, but may be promoted, if recommended and considered deserving under the rules, *pari passu* with their contemporaries (juniors) on the Government list. Officers promoted sub. *pro tem.* to the Superintending Engineer class, or other corresponding posts in the place of officers who are similarly on deputation, shall be dealt with in the same way, and permanent promotions made in their places if the scale and time rule admit. Such officers on return to Government service, or on reverting from the Superintending Engineer class, shall be absorbed in the grades to which they belong on the occurrence of the first vacancy.

(5) Excesses over and above the limiting scale of clause (1), which may be found to exist in certain of the lower grades above the 3rd Assistant Engineer grade, after carrying out promotions in accordance with the above rules, shall be absorbed by refraining from promoting officers until the excesses disappear. Excesses in the 3rd Assistant grade caused by the promotion or appointment of officers to that grade under the ordinary rules are permissible. Such officers, as well as the ungraded officers below the 3rd grade, who are in excess of the total cadre, if any, will be considered as supernumeraries.

7. Officers of the Provincial establishment appointed under the rules contained in Resolution No. 2112 G., dated 19th July 1892, will be graded with the officers of the Imperial establishment in accordance with clause VI, paragraph 1, of that Resolution; and will be promoted, subject to the present rules regarding recommendation and selection, side by side with the officers of the Imperial establishment in accordance with the scale and time rule laid down in clauses (1) and (2), paragraph 6, of this Resolution. They will draw the rates of pay laid down in clause II of the Resolution of 19th July 1892 quoted above. The arrangement of the grades will, however, be modified in accordance with the terms of this Resolution, and will stand as follows:

| | | | Pay. Rs. |
|---|---|---|---|
| Executive | Engineer, | 1st grade ... ... ... | 650 |
| ,, | ,, | 2nd ,, ... ... ... ... | 550 |
| ,, | ,, | 3rd ,, ... ... ... ... | 475 |
| Assistant | Engineer, | 1st ,, ... ... ... ... | 400 |
| ,, | ,, | 2nd ,, ... ... ... ... | 350 |
| ,, | ,, | 3rd ,, ... ... ... ... | 250 |

8. Temporary promotions on account of officers absent on furlough, or temporarily promoted to the Superintending Engineer class for officers so absent, will be made, in accordance with present rules, from the Assistant Engineer, 1st grade, to the Executive Engineer, 3rd grade. The time limit in clause (2) of paragraph 6 will not apply to such promotions.

9. The following are the cadre numbers and limiting scale for each list calculated in accordance with clause (1) of paragraph 6:

| | Cadre No. | LIMITING SCALE. | | | | | |
|---|---|---|---|---|---|---|---|
| | | Executive Engineers. | | | Assistant Engineers. | | |
| | | 1st. | 2nd. | 3rd. | 1st. | 2nd. | 3rd. |
| Madras ... ... ... ... | 72 | 18 | 11 | 7 | 14 | 11 | 11 |
| Bombay ... ... ... ... | 78 | 19 | 12 | 8 | 16 | 11 | 12 |
| Bengal ... ... ... ... | 56 | 14 | 8 | 6 | 11 | 9 | 8 |
| North-Western Provinces and Oudh ... | 86* | 21 | 13 | 9 | 17 | 13 | 13 |
| Punjab ... ... ... ... | 112† | 28 | 17 | 11 | 22 | 17 | 17 |
| Local Administrations ... ... ... | 130 | 32 | 20 | 13 | 26 | 19 | 20 |
| Railways ... ... ... ... | 196 | 49 | 29 | 20 | 39 | 30 | 29 |

* 37 for Buildings and Roads Branch and 49 for Irrigation Branch ... } This distribution may, however, be modified by the Local Government.

† 44 ,, ,, ,, ,, 68 ,, ,, ... }

It should be carefully borne in mind that promotions cannot be made up to the full limit of this scale unless the officers are either eligible for the promotion under the time rule (clause (2) of paragraph 6), or are promoted in place of other officers eligible under the time rule, but of inferior merit (clause (3) of the same paragraph).

The above cadre numbers and scale shall take effect from the 16th August 1893, and shall regulate the promotion on each list up to the end of 1894; provided that, should the strength of any list be reduced within that period by transfers and retirements to such an extent that the difference between its actual strength and the cadre number equals or exceeds 10 per cent. of the latter, then the cadre number and corresponding scale shall be reconsidered with reference to the existing strength. At the end of 1894 all the cadre numbers will be subject to reconsideration.

10. Under the orders of Her Majesty's Secretary of State for India, the rules for the organisation of the Engineer establishment now promulgated are to be subject to revision at the end of seven years.

11. The condition in the rule of the Public Works Code, Vol. I, Chapter 1, paragraph 11, according to which the increments of Rs. 50 each at the end of four and eight years' service respectively in the Executive Engineer, 1st grade, can be claimed on account of satisfactory service only if the officer consents to forego all claims to promotion to the Superintending Engineer class, is hereby abrogated. In future, subject to the present condition of approved service, the increments may be granted to any officer in the Executive Engineer, 1st grade, on completion of the prescribed periods of service in that grade. Any officer who has completed eight years' continuous and efficient service in the 1st grade may be granted the two increments of Rs. 50 each from the 16th August last, in addition to the pay of the 1st grade now sanctioned, if he has not already drawn the first increment; and the second increment, if he has already drawn the first, notwithstanding that he has not completed the period of four years from the date on which he began to draw the first increment.

In future no officer holding the position of Superintendent of Works shall draw any local allowance as such which will have the effect of raising his salary above that of a Superintending Engineer, 3rd class.

12. The rules of the Public Works Department Code which now regulate promotion, after passing a qualifying examination, to the 4th grade of the Executive Engineer class and to the 1st and 2nd grades of the Assistant Engineer class shall now be read as applying to promotion to the corresponding grades under the new organisation, namely, to the 1st, 2nd, and 3rd grades respectively of the Assistant Engineer class.

13. In promulgating these rules, the Governor General in Council desires to call special attention to the previous orders directing that weight shall be given to merit rather than to mere seniority in selecting officers for promotion in the several grades.

RESOLUTION—By the Government of India, Finance and Commerce Department.

Read the following letters transmitting reports on the working of the Mints and Assay Offices of Calcutta and Bombay for the year 1892-93:

From the Mint Master, Calcutta, No. 983, dated the 6th July 1893
From the Assay Master, Calcutta, No. 1, dated the 1st April 1893.
From the Mint Master, Bombay, No. 484, dated the 1st July 1893.
From the Assay Master, Bombay, No. 57, dated the 26th June 1893.

### I.—WORKING OF THE MINTS.

*Imports and Coinage: Gold.*—The imports of gold into India during the year were very much smaller and the exports were very much larger than usual; and greatly in excess of the imports. Only once before (in 1878-79) during the last half-century have the exports of gold exceeded the imports. The following are the comparative figures for weight and value:

| | Imports. | | Exports. | | Net. Imports. | | Net. Exports. | |
|---|---|---|---|---|---|---|---|---|
| | oz. | Rs. | oz. | Rs. | oz. | Rs. | oz. | Rs. |
| 1891-92 ... ... ... | 709,102 | 41,189,291 | 285,454 | 17,051,369 | 423,648 | 24,137,922 | ... | ... |
| 1892-93 ... ... ... | 272,442 | 17,817,891 | 726,925 | 45,944,720 | ... | ... | 454,483 | 28,126,829 |
| Increase + or decrease— ... | −436,660 | −23,371,400 | +441,471 | +28,893,351 | −423,648 | −24,137,922 | +454,483 | +28,126,829 |

The value of the metal tendered for coinage in Calcutta was Rs. 107,173, being less than in the previous year by Rs. 12,743. No gold was tendered for coinage in Bombay, and none was coined there or in Calcutta, the stock of mohurs in the Reserve Treasury at Calcutta being sufficient to meet the outturn value of the gold tendered.

2. *Imports and Coinage: Silver.*—The net imports of silver during the year were on a scale which has been only three times exceeded during the last half-century, in 1865-66, 1877-78, and 1890-91. The two first of these three years were years of famine and borrowing, and in the third advantage was taken of the rise of price in silver which preceded the passing of the law known as the Sherman Act in the United States to pour silver into India for the purpose of being exchanged for gold in London. The quantity imported during the year was 45,523,512 ounces, value Rs. 128,635,693, compared with a net import of 32,348,438 ounces in 1891-92 and 51,529,085 ounces in 1890-91. The net imports into Calcutta and Bombay and the amounts tendered for coinage in each mint during the two years were as follows:

| | | Rs. | Rs. |
|---|---|---|---|
| Calcutta ... | 1891-92 ... ... | 23,769,776 | 17,313,197 |
| | 1892-93 ... ... | 16,404,308 | 19,486,781 |
| Increase + or decrease— ... ... | | −7,365,468 | +2,173,584 |
| Bombay ... | 1891-92 ... ... | 66,363,196 | 45,070,910 |
| | 1892-93 ... ... | 112,060,579 | 95,924,538 |
| Increase + or decrease— ... ... | | +45,697,383 | +50,853,628 |

The coinage of silver during the year in the two mints amounted to Rs. 126,915,264 (including ten lakhs of rupees coined in Bombay for the Bikanir State). It was more than double that of the preceding year, when the value amounted to Rs. 55,539,738 only.

3. *Total Coinage : Gold and Silver.*—The value of the total coinage of gold and silver in each mint during the last five years is shown below :

| Years. | Gold. | | Silver. | | Total of Gold. | Total of Silver. |
|---|---|---|---|---|---|---|
| | Calcutta. | Bombay. | Calcutta | Bombay. | | |
| | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |
| 1888-89 ... | 226,095 | ... | 10,474,551 | 62,347,990 | 226,095 | 72,822,541 |
| 1889-90 ... | 230,505 | ... | 10,938,612 | 74,532,075 | 230,505 | 85,511,587 |
| 1890-91 ... | ... | ... | 38,546,268 | 93 088,473 | ... | 131,634,741 |
| 1891-92 ... | 247,860 | *151 | 14,790,202 | 40,749,536 | 248,011 | 55,539,738 |
| 1892-93 ... | ... | ... | 29,980,183 | 96,935,081 | ... | 126,915,264 |

*Struck as samples and kept in stock.

4. *Silver tendered for coinage by the Currency Department.*—The silver transferred to the mint during the year by the Currency Department in exchange for mint certificates exceeded in value the silver received from the public by Rs. 6,632,273, and to this extent the value of currency bullion in the mints was reduced in the course of the year. The value of the metal transferred to the mint was Rs. 122,023,592 compared with Rs. 55,301,381 transferred in the preceding year. Of this sum, Rs. 26,432,583 was transferred in Calcutta and Rs. 95,591,009 in Bombay against Rs. 14,982,178 and Rs. 40,319,203 respectively transferred in 1891-92.

5. *Description of silver received in the mints.*—The following statement shows the principal descriptions of silver received in the two mints. Bar silver forms nearly 87 per cent. of the total quantity, and the bulk of the remainder consists of sycee silver and dollars :

| Description of silver tendered. | Calcutta. | Bombay. |
|---|---|---|
| | Value of certificates issued. (Lakhs of tolas.) | Weight of silver presented at the mint. (Lakhs of tolas.) |
| Bar silver from London ... | 139·98 | 364·01 |
| „ San Francisco ... | 4·29 | 12·78 |
| „ Australia ... | 11·58 | 55·34 |
| „ America ... | ... | 264·92 |
| „ Genoa ... | ... | 45·12 |
| Sycee silver from China ... | 15·63 | 25·87 |
| Mexican dollars from America *viâ* China ... | ... | 31·12 |
| „ chopped dollars from China ... | 22·73 | 20·70 |
| Cut Mexican dollars from the Straits ... | 0·03 | ... |
| Mixed dollars ... ... | ... | 1·77 |
| Peruvian dollars ... ... | ... | 7·47 |
| Other kinds ... ... ... | 0·58 | 4·90 |
| TOTAL ... | 194·87 | 834·00 |

6. *Re-coinage of old coin.*—The value of the uncurrent and defaced silver coin received from Government treasuries and departments for re-coinage during the year was in Calcutta Rs. 1,888,739 and in Bombay Rs. 186,608 compared with Rs. 2,015,349 and Rs. 160,228 respectively received in 1891-92. The receipts in Calcutta were chiefly composed of 1,679,800 shroff-marked rupees from Allahabad, Madras, and other treasuries; 143,900 Burma rupees; 46,800 worn and defective coins from Madras and other treasuries; and unclaimed war medals, valued at Rs. 6,180, received from the Military Department. In Bombay the receipts consisted of shroff-marked, light, soldered, dumb, bored, filed, and defaced rupees, valued at Rs. 84,506, old Bikanir rupees of the gross value of Rs. 102,030 received from the Political Agent, Bikanir, and treasure trove silver coins of the value of Rs. 72 received from the Bombay Branch of the Royal Asiatic Society.

7. *Copper coinage.*—The nominal value of the total copper coinage in the Calcutta Mint, where the whole of the copper coinage is now carried out, was Rs. 1,311,186 against Rs. 1,663,168 in 1891-92. The decrease was mainly in the coinage of pice, which was less in value by Rs. 280,398 than that executed in the preceding year. No Straits cents were coined in 1892-93, the coinage of these in 1891-92 having amounted in value to Rs. 135,090; but a larger coinage of cents and five-cents was executed for the Ceylon Government and of pice for the Imperial British East Africa Company than in 1891-92. On the whole the coinage for other Governments decreased in value by Rs. 50,434.

During the year, 22,926 maunds of copper were purchased at the average rate of Rs. 30·8 per maund against 32,366 maunds purchased in the previous year at the average rate of Rs. 30·31 per maund.

8. *Gain on Copper coinage.*—The gain on the copper coinage passed into circulation during the last five years is shown below :

| | Rs. |
|---|---|
| 1888-89 ... ... ... | 637,195 |
| 1889-90 ... ... ... | 795,992 |
| 1890-91 ... ... ... | 664,192 |
| 1891-92 ... ... ... | 838,308 |
| 1892-93 ... ... ... | 378,929 |

9. *Operative losses : Silver.*—The operative losses for melting and coining combined in 1892-93, after making corrections for fictitious losses and gains, amounted to Rs. 15,717 in Calcutta and Rs. 47,031 in Bombay compared with Rs. 4,7[illegible]5 and Rs. 17,759 in the previous year, or Rs. 28·6 per lakh rolled in Calcutta and Rs. 32·7 per lakh in Bombay against Rs. 24·1 and Rs. 28·6 respectively per lakh rolled in 1891-92. But in consideration of the difficulty experienced in applying accurately the corrections for fictitious losses and gains, both the Mint Masters are of opinion that a safer estimate of the rate of loss would be Rs. 26 to 30 per lakh in Calcutta and Rs. 30 to 35 per lakh in Bombay.

*Copper.*—The rate per cent. of the loss on the copper operated on in 1892-93 compares favourably with the rate of 1891-92, the figures for the two years, after excluding bye-products in the shape of oxide and precipitate, being 0·7 and 0·19 respectively. The percentage of good coin obtained from the weight of the metal operated on shows, as anticipated in the report for 1891-92, a marked improvement over the work of that year, which was considered an excellent outturn.

10. *Revenue and Expenditure.*—The total revenue and expenditure of the two mints in each of the last five years are shown below :

| Years. | Revenue. | | | | | | | Expenditure.* | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | Seignorage. | | | Other Receipts. | | | Total. | Calcutta. | Bombay. | Total. |

| TOTAL ... | 1,727,988 | 7,278,459 | 9,006,447 | 423,412 | 781,895 | 1,205,307 | 10,211,754 | 4,992,320 | 5,112,866 | 10,105,216 |

* The figures under the head of Expenditure include the cost of the manufacture of copper coins, but those under the head of Revenue include no portion of the profits on the copper coinage.

Thus, the total revenue of both the mints exceeded the total expenditure by Rs. 292,626, the increased revenue being principally due to the larger receipts of

silver for coinage during the year, and for the first time the net result of five years' transactions shows a profit of Rs. 106,538 on the working of the mints. The following statement shows the expenditure on salaries and establishments in the two mints in the year compared with that of the preceding year, the increase in 1892-93 being chiefly due, as already stated, to the larger silver coinage :

| | Calcutta. | | | Bombay. | | | Both Mints. | | |
|---|---|---|---|---|---|---|---|---|---|
| | 1891-92. | 1892-93. | Increase + Decrease — | 1891-92. | 1892-93. | Increase + Decrease — | 1891-92. | 1892-93. | Increase + Decrease — |
| | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |

11. *Local and imported stores.*—In consequence mainly of the large silver coinage, the expenditure on stores exceeded that of the preceding year by Rs. 28,704 in the Calcutta Mint and by Rs. 49,303 in the Bombay Mint, the cost of the stores purchased being Rs. 114,030 in the Calcutta Mint and Rs. 132,038 in the Bombay Mint compared with Rs. 85,326 and Rs. 82,735 respectively in 1891-92.

12. *Pro-formâ charges.*—These indirect charges in the two mints compare with those of the preceding year as shown below :

| | Calcutta. | | | Bombay. | | | Both Mints. | | |
|---|---|---|---|---|---|---|---|---|---|
| | 1891-92. | 1892-93. | Increase + Decrease — | 1891-92. | 1892-93. | Increase + Decrease — | 1891-92. | 1892-93. | Increase + Decrease — |
| | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |
| Cost of pensions and furlough allowances | 31,373 | 30,851 | −522 | 33,861 | 31,055 | −2,806 | 65,234 | 61,906 | −3,328 |
| Interest on stock and block ... ... | 446,506 | 603,771 | +157,265 | 361,680 | 677,910 | +316,230 | 808,186 | 1,281,681 | +473,495 |
| Total ... | 477,879 | 634,622 | +156,743 | 385,541 | 698,965 | +313,424 | 863,420 | 1,333,587 | +470,167 |

The large increase in the charges under the head of Interest is mainly due to the large silver balances awaiting coinage during the year.

13. *Miscellaneous work.*—The miscellaneous work done in Calcutta during the year cost Rs. 107,514, and gave a net profit of Rs. 9,636. In Bombay the cost of the work done was Rs. 11,012 and the total realisations Rs. 11,782. This miscellaneous work consisted largely of the manufacture in Calcutta of 28,329 gold, silver, and bronze medals and clasps. That mint also made 3,102 Army Temperance Association stars and medals, which yield no profit, but have become a regular and very large item of work.

14. *Capital account.*—At the close of the year the balance of the capital account of the Calcutta Mint stood at Rs. 7,675,398 and of the Bombay Mint at Rs. 3,790,918, Rs. 24,948 having been added to the account of the Calcutta Mint and Rs. 9,066 to that of the Bombay Mint during the year.

15. *Offences against the coinage.*—846 cases were brought to trial during the year for offences against the coinage and 650 persons were convicted against 792 cases brought to trial and 578 persons convicted in the preceding year. The largest number of cases was, as usual, for possessing and delivering counterfeited and altered coin, and 551 persons were convicted on these charges compared with 488 in 1891-92. The number of cases tried and persons convicted

on the charge of actually counterfeiting coin was also larger than in the preceding year, the figures for the two years being as shown below :

| | Number of cases brought to trial. | Number of persons tried. | Number of persons convicted. |
|---|---|---|---|
| 1891-92 | 23 | 40 | 23 |
| 1892-93 | 28 | 48 | 33 |

## II.—Working of the Assay Offices.

16. *Number of assays made: Gold.*—The number of gold assays made in Calcutta was 3,273 compared with 1,569 in the preceding year, the increase being due to an unusually large number of assays on gold ingots belonging to private individuals and intended for export. The gold assays made for the mint were on the usual small parcels tendered for coinage, but paid for by gold mohurs already in stock, as stated in paragraph 1, and on two small meltings for the manufacture of medals.

*Silver.*—The number of silver and miscellaneous assays made in the Calcutta and Bombay Mints during the year was also very large, the figures for the two mints being 19,205 and 50,328 respectively compared with 12,423 and 23,434 in 1891-92.

17. *Assays of bullion alligated to standard.*—In Calcutta the average fineness of the silver meltings for coinage was 916·088 per mille compared with 916·153 in the preceding year. In Bombay the average fineness was as shown below :

| | Rupees. | Half rupees. | Quarter rupees. | One-eighth rupees. |
|---|---|---|---|---|
| 1891-92 ... ... | 916·214 | ... | 915·65 | 915·80 |
| 1892-93 ... ... | 916·77 | 915·95 | 915·80 | 915·78 |

18. *Parting assays of silver coins.*—The average proportion of gold found in the silver pyx coins at the Calcutta Mint during the year was 0·177 per mille against 0·311 in 1891-92, the quantity of gold contained in the whole silver coinage of that mint for the year being estimated at about 5,330 tolas, or 1,998 troy ounces, of fine gold, valued at about £6,473, compared with 4,469 tolas, or 1,676 troy ounces, worth £7,106, in the preceding year. In the Bombay Mint the average proportion of gold found in the silver pyx coins of the year was 0·66 per mille against ·109 per mille in 1891-92.

19. *Pyx trials of silver coins.*—In the trials for weight in the Calcutta Mint the number of rupees weighed was 3,050, and the average weight was found to be 179·925 grains, the lightest coin being 178·90 and the heaviest 180·9 grains, 11·57 per cent. of the total number weighed being of the exact standard weight of 180 grains. In one trial only was a single coin found beyond the legal remedy in weight, but on a second pyx being furnished no faulty coin could be detected. In the Bombay Mint 18,640 rupees were weighed singly, but none were found beyond the legal remedy in weight, while the average over the number weighed gave a mean weight of 180·025 grains.

For fineness of the coin 280 trials were made in Calcutta, 2,800 coins having been assayed singly, and 5,480 in groups of 20 after melting. Of the coins assayed singly, the extreme variations ranged from 905·4 to 928·2, and the [redacted] called for in each case, with the result that in two cases defective coins were found on second trial, which necessitated the re-melting of the two lakhs of rupees which had yielded unsatisfactory coins. The coins assayed in groups after melting gave an average fineness of 916·824, the lowest and highest figures obtained being respectively 916·2 and 917·2. In Bombay 4,660 rupees were assayed singly and 23,300 after melting, and the average fineness taken over 27,960 coins was found to be 916·8938. A few coins were met with during the year beyond the remedy allowed in fineness, but not two in one delivery of those assayed singly, and no melted sample turned beyond remedy; thus it was not necessary to re-melt any lakh.

The following statement compares the results of the pyx trials of the two mints in the last two years:

| | Gold mohurs. | Rupees. | Half rupees. | Quarter rupees. | One-eighth rupees. |

20. *Pyx trials in England.*—The report of the Deputy Master of the Royal Mint at London on the pyx coins issued by the Indian mints in 1891-92 shows that, as usual, "the standard weight and fineness of the coins have been maintained with accuracy."

21. *Reference Standards.*—The working standard sets of tola and avoirdupois weights were duly verified in Calcutta during the year, but in Bombay the only check made was with the aid of a brass weight procured from Calcutta, as the bronze gilt standards of the Bombay Mint, which had been sent to England to be burnished, adjusted, and verified, had not been received back. In January last the new iridio-platinum weights which had been indented for from England were received, and the 30-tola weight was used in the Calcutta Mint to verify the 30-tola piece of the reference set in that mint, the result being brought out that only slight alterations would be necessary in the hitherto accepted values of the different standard tola weights in use. The standard weights in use in the Bombay Mint will be tested with the new iridio-platinum weights during the current year.

22. The Governor General in Council acknowledges the efficiency with which the Mints and Assay Departments have been worked and controlled by the officers in charge.

---

ORDER.—Ordered, that this Resolution be published in the *Gazette of India*.

Ordered also, that copies of the Resolution be forwarded to the Mint Masters, Calcutta and Bombay (with printed copies of the two reports on the working of the mints), and to the Assay Masters, Calcutta and Bombay (with printed copies of the two reports on the working of the Assay Departments).

RESOLUTION—By the Government of India, Public Works Department.

*Review of the Administration Report of the Indian Telegraph Department for the year 1892-93.*

Read—

Letter from the Director General of Telegraphs, No. 45 T., dated the 26th August 1893, and its enclosure, the Administration Report of the Indian Telegraph Department for the year 1892-93.

OBSERVATIONS.—The Administration Report of the Indian Telegraph Department deals with the whole of the operations under the control of the Director General, with the exception of those relating to the Indo-European Department, the Report on which will be separately submitted and reviewed.

2. The expenditure of the year charged to Capital Account amounted to Rs. 21,62,811. Rs. 17,62,365 were spent on new lines, Rs. 87,307 on buildings, and Rs. 94,201 on apparatus and plant. The Capital outlay to the close of the year under review amounted to Rs. 5,43,46,615 divided as follows:

| | Rs. | Percentage of net total. |
|---|---|---|
| Lines | 4,07,18,344 | 74·9 |
| Buildings | 56,59,279 | 10·4 |
| Apparatus and Plant | 21,21,183 | 3·9 |
| Stores and Suspense | 37,45,625 | 6·9 |
| Exchange on expenditure in England previous to 1887-88 | 24,09,440 | 4·4 |
| | 5,46,53,821 | |
| *Deduct*— | | |
| Receipts on Capital Account (including interest on Workshop Capital) | 3,07,206 | 0·5 |
| TOTAL | 5,43,46,615 | |

3. The additions made to the system during the year comprised 2,405 miles of line and 6,092 miles of wire and 21 miles of cable.

4. The following statement shows for a period of five years the progress that has been made in extending public telegraphic communication:

| | Capital expenditure. | Miles of line. | Miles of wire. | Miles of cable. | Offices opened. | | |
|---|---|---|---|---|---|---|---|
| | | | | | Departmental, Ordinary and Postal combined. | Railway and Canal. | Total. |
| Up to beginning of 1888-89 | Rs. 4,49,58,470 | 31,894 | 93,517 | 226 | 745 | 1,243 | 1,988 |
| During 1888-89 | 16,38,755 | 1,568 | 6,137 | 4 | 52 | 91 | 143 |
| „ 1889-90 | 16,75,871 | 1,817 | 6,485 | ... | 83 | 77 | 160 |
| „ 1890-91 | 19,68,580 | 1,791 | 7,373 | 21 | 69 | 17 | 86 |
| „ 1891-92 | 19,42,128 | 1,555 | 6,647 | 2 | 52 | —33 | 19 |
| „ 1892-93 | 21,62,811 | 2,405 | 6,092 | 21 | 99 | 58 | 157 |
| To end of 1892-93 | 5,43,46,615 | 41,030 | 1,26,251 | 274 | 1,100 | 1,453 | 2,553 |

5. The operations of the Department during the year under review may be considered satisfactory, although owing to increased Revenue outlay the net receipts were less than in 1891-92. The Revenue receipts amounted to Rs. 75,83,174, being an increase of Rs. 1,53,082 over the figures for the previous year. The Revenue expenditure amounted to Rs. 51,56,998, an increase of Rs. 3,22,703. This increase principally occurs under "Repairs of lines," Rs. 1,12,125, and under "Signalling Departmental Offices," Rs. 1,59,258. The increase under "Repairs of lines" is due to extensive renewals of material being now required on the older lines and to the fact that the outlay on this account was exceptionally low in the previous year. Under "Signalling Departmental Offices" the increase is consequent upon the entertainment of larger Signal Office establishments to cope with the increase in message traffic, and because the signalling staff in 1891-92 was below what was required. The net receipts thus amounted to only Rs. 24,26,176, showing a decrease of Rs. 1,69,621, and yielded a return of 4·46 per cent. on the Capital outlay. The Revenue receipts include Rs. 12,51,803 on account of State message and Rs. 51,448 on account of news-free and other *pro formâ* revenue. The receipts on account of State messages may properly be included in estimating the return on Capital outlay of the Department; but, as stated in the review of the Report for 1891-92, the *pro formâ* revenue should be excluded from the calculation in future Reports.

6. The Revenue receipts are made up as follows:

| | Rs. |
|---|---|
| Message revenue, including State messages | 57,67,950 |
| News-free and pro forma revenue | [illegible] |
| Rent of lines, &c., on railways and canals | [illegible] |
| Rent of private lines, &c. | 1,73,606 |
| Sale of books, gazettes, &c. | 18,856 |
| Miscellaneous | 31,660 |
| TOTAL | 75,83,174 |

7. The following statement summarises the Revenue receipts and charges during the last five years :

| Year. | Gross Receipts, including *pro formâ* revenue. | Charges. | Net Receipts. | Percentage of Net to Gross receipts. | Dividend on Capital. |
|---|---|---|---|---|---|
| | Rs. | Rs. | Rs. | | |

8. The following figures show for the last two years the division of the traffic between State and Private and between Inland and Foreign messages respectively :

| Class of telegrams. | 1891-92. | | 1892-93. | |
|---|---|---|---|---|
| | No. | Value. | No. | Value. |
| | | Rs. | | Rs. |

| Private Inland ... ... ... | 2,627,408 | 26,95,428 | 2,837,513 | 28,88,565 |
| „ Foreign ... ... ... | 513,282 | 14,84,055 | 533,610 | 16,27,582 |
| Total private ... | 3,140,690 | 41,79,483 | 3,371,123 | 45,16,147 |
| GRAND TOTAL ... | 3,808,998 | 56,82,729* | 3,981,411 | 57,67,950 |

* Includes Rs. 4,157, Provincial receipts.

The State Inland telegrams exhibit a decrease of 57,780, or 8·73 per cent. in number, and of Rs. 2,55,351, or 17·55 per cent. in value. The large amount of this class of traffic in the previous year was due to the outbreak in Manipur and to the other military expeditions.

**The Private Inland telegrams increased 2,10,105 in number and Rs. 1,93,137 in value, equivalent to 8·00 and 7·16 per cent. respectively.**

**In Foreign Private telegrams there was an increase over the figures for the previous year of 20,328 in messages. The receipts increased by Rs. 1,43,527.**

The heavy loss in this class of traffic alluded to in the previous year's report, owing to reduction in tariff, still continues. The revenue, which prior to the introduction of the lower transit rates stood at Rs. 7,31,553, amounted to only Rs. 5,79,053 in the year under review.

9. The following table gives the percentages of traffic in number and value due to each class of message :

| Class of Telegram. | Inland. | | Foreign. | | Total. | |
|---|---|---|---|---|---|---|
| | No. | Value. | No. | Value. | No. | Value. |
| | | Rs. | | Rs. | | Rs. |
| State ... ... ... ... | 15·17 | 20·79 | ·16 | ·91 | 15·33 | 21·70 |
| Private ... ... ... ... | 71·27 | 50·08 | 13·40 | 28·22 | 84·67 | 78·30 |
| TOTAL ... | 86·44 | 70·87 | 13·56 | 29·13 | 100·00 | 100·00 |

10. The following figures show the division of the Inland traffic into the three classes of Urgent, Ordinary, and Deferred during the last two years :

| | Percentages. | | | | | |
|---|---|---|---|---|---|---|
| | Urgent. | | Ordinary. | | Deferred. | |
| | 1892-93. | 1891-92. | 1892-93. | 1891-92. | 1892-93. | 1891-92. |
| State ... ... ... ... | 11·66 | 13·55 | 19·00 | 19·03 | 69·34 | 67·42 |
| Private ... ... ... ... | 6·04 | 5·48 | 42·36 | 43·08 | 51·60 | 51·44 |
| Press ... ... ... ... | 5·41 | 5·76 | 22·70 | 24·93 | 71·89 | 69·31 |

A comparison of the figures for 1892-93 with the average figures for the five previous years shows that the deferred class of message is steadily gaining in popularity.

**11. The growth of Inland private traffic in a period of ten years is shown by the following figures :**

| | Number of messages. | Value. Rs. |
|---|---|---|
| 1883-84 ... ... ... | 1,236,140 | 14,15,754 |
| 1892-93 ... ... ... | 2,837,513 | 28,88,565 |
| Increase ... | 1,601,373 | 14,72,811 |

During the ten-year period the number of messages has increased by about 130 per cent. and their value by over 100 per cent.

12. The following statement gives the distribution of the Revenue charges during the last five years under the principal heads :

| Year. | Line Maintenance. | | | | Signalling. | | | |
|---|---|---|---|---|---|---|---|---|
| | Establishment. | Repairs to lines and buildings. | Office stores and miscellaneous. | Total. | Establishment. | Repairs to buildings. | Office stores and miscellaneous. | Total. |
| | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |
| 1888-89 .. | 8,02,521 | 3,39,880 | 60,690 | 12,03,091 | 29,22,850 | 51,591 | 1,64,699 | 31,39,140 |
| 1889-90 ... | 8,22,820 | 3,93,551 | 69,851 | 12,86,222 | 30,15,465 | 64,818 | 1,69,941 | 32,50,224 |
| 1890-91 ... | 8,53,782 | 4,29,575 | 58,760 | 13,42,117 | 31,18,427 | 64,777 | 1,63,481 | 33,46,685 |
| 1891-92 ... | 8,79,200 | 3,70,357 | 72,080 | 13,21,637 | 32,45,459 | 64,596 | 2,02,603 | 35,13,658 |
| 1892-93 ... | 9,07,049 | 4,82,482 | 83,617 | 14,73,148 | 34,02,114 | 59,414 | 2,22,322 | 36,83,850 |

13. The strength of the signalling establishment amounted at the close of the year to 3,070, of whom 1,635 were departmental officers, 351 British military signallers, and 1,064 postal clerks. The net increase during the year to the number of postal telegraph offices amounted to 91, and the number of such offices stood at 845 at the close of the year.

14. Taking into consideration the increase in traffic, the speed of transmission has been satisfactorily maintained over the main lines of communication. Between Calcutta and Karachi the average time of transmission was reduced from 36 to 25 minutes owing to the break at Agra being done away with.

The number of complaints received relating to the Indian Telegraph Department was 1,218, equivalent to 0·027 of the total number of messages, of which 629 were admitted. Of those admitted, 209 applied to non-delivery, 134 to delay, and 194 to mistakes. The number of messages that for various causes could not be delivered amounted to 14,156, equivalent to 0·302 of the total number received for transmission.

15. The total number of interruptions to communications amounted to 2,017, which is rather less than during the previous year, but the total duration of the interruptions was more.

The principal causes of interruptions are cyclones, exceptional storms, and floods. It is satisfactory to notice that compared with the previous year defects in lines and cables (preventible) decreased in number from 313 to 184, and in duration from 5,045 hours to 2,952 hours.

The value of the remittances made by telegraphic money orders rose to Rs. 1,07,256.

The Inland press telegrams sent numbered 25,834, of the value of Rs. 95,088, against Rs. 96,521 in the previous year.

The decrease is due to the fact that during 1891-92 there was a slight increase on account of the Manipur expedition.

The Foreign press messages numbered 3,261, and the Indian share of the charges thereon amounted to Rs. 17,854.

16. As regards electrical improvements, the experiments made for the extension of the system of duplex telegraphy over long distances have been most successful. Much of the credit for this is due to Mr. W. F. Melhuish. The introduction of the system on the long circuits between Calcutta and Rangoon has resulted in the reduction of establishment employed on this one circuit alone of one Telegraph Master and twelve signallers.

Mr. J. J. Allen, the Electrician of the Department, was successful in transmitting messages of 1,000 words with Wheatstone's automatic apparatus between Calcutta and Nagpur, 770 miles, in four minutes, and between Calcutta and Bombay, 1,295 miles, in 5 minutes 10 seconds.

The experiments made with "dry" batteries shows that no form has yet been brought forward which is suitable for work in India.

17. The employment of the telephone increased. At the end of the year 1892 there were 1,231 subscribers and 1,237 exchange connections to the Telephone Companies at Bombay, Calcutta, Karachi, Madras, Moulmein, and Rangoon. There were also 23 exchanges and 188 exchange connections under the control of the Telegraph Department.

18. The control of the Kashmir State Telegraph system was taken over by the Indian Telegraph Department during the year, and the construction of a line of telegraph from Srinagar towards Gilgit *viâ* the Burzil and Tragbal passes was vigorously pushed forward, and the reconstruction of the line from Srinagar to the Kashmir Frontier (138 miles) was commenced.

19. The services of the officers of the Telegraph Department were utilised in the various military expeditions that took place during the year under review, and received the approval of the military authorities. Among the officers whose services were specially noticed may be mentioned Mr. Bignell and Lieutenant Moore, R.E., in connexion with the Isazai expedition.

Before leaving India, the late Commander-in-Chief, His Excellency Lord Roberts, placed on record his opinion of the admirable work done by the Government Telegraph Department in connection with the instruction of the Army in telegraphy and in connection with harbour defences, and expressed his special obligations to Mr. Brooke and the establishment under him for the assistance rendered by them.

20. The Administration Report was received from the Director General of Telegraphs on 28th August, earlier than on any previous occasion. It has been correctly prepared, and furnishes satisfactory evidence of successful administration on the part of the Director General and the officers under him.

---

ORDER.—Ordered, that a copy of this Review, and of the Report, be forwarded to the Secretary of State and to the Local Governments and Administrations noted on the margin, and to the Government of Ceylon for information. Also that a copy of the Review be forwarded to the Director General of Telegraphs for information.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Burma, Assam, and Coorg.
The Residents at Hyderabad and in Mysore.
The Agents to the Governor General in Central India, Rajputana, and Baluchistan.

Also that a copy of the Review, and of the Report and Appendices A, B and F, be forwarded to the Home Department of the Government of India for information, and that the Review be published in the *Gazette of India*.

## PART I.

### Government of India Notifications, Appointments, Promotions, &c.

### MILITARY SECRETARY'S OFFICE.

NOTIFICATIONS.

*Simla, the 18th October, 1893.*

HIS EXCELLENCY THE VICEROY will leave Simla on Tuesday, the 7th November 1893.

His Excellency will visit Agra, Rangoon, Mandalay, and Bhamo, and arrive in Calcutta about the 15th December 1893.

*The 19th October, 1893.*

HIS EXCELLENCY THE VICEROY AND GOVERNOR GENERAL will hold a Levée at Government House, Calcutta, on Saturday, the 16th December 1893, at 9-30 P.M.

All Civil and Military Officers, Members of the Consular body, and the Native Officers of the Native Regiments of the Garrison are invited to attend.

Gentlemen purposing to attend the Levée are requested to send their cards to the Aide-de-Camp in Waiting not later than Monday, the 4th December 1893, after which *No Cards* will be received, and to bring with them to the Levée two cards with their names legibly written on them—one to be given on entering the Government House, and the other to the Aide-de-Camp in Waiting at the time of presentation.

Gentlemen who have not already been presented at the Court of St James or at Government House will be good enough to add the names of Gentlemen who will present them.

Gentlemen who present others must themselves attend the Levée.

Gentlemen wearing uniform will appear in full dress.

Gentlemen not wearing uniform will appear in evening dress.

The carriages of Gentlemen (except such as have the Private Entrée) attending the Levée will enter by the North-East Gate, set down under the Grand Staircase, and pass out by the North-West Gate.

*The 20th October, 1893.*

THEIR EXCELLENCIES THE VICEROY AND MARCHIONESS OF LANSDOWNE will hold a Drawing Room at Government House, Calcutta, on Thursday, the 21st December 1893, at 9-30 P.M.

Ladies purposing to attend the Drawing Room are requested to send their cards and addresses to the Aide-de-Camp in Waiting not later than Monday, the 11th December 1893, after which *No Cards* will be received, and to bring with them to the Drawing Room two cards with their names legibly written on them—one to be given on entering the Government House, and the other to the Aide-de-Camp in Waiting at the time of presentation.

Ladies who have not already been presented at the Court of St. James or at Government House are requested to send their cards through the Ladies intending to present them, with their addresses, to the Aide-de-Camp in Waiting as soon as possible.

Ladies who present others must themselves attend the Drawing Room.

Ladies attending the Drawing Room will be expected to appear in full dress, but without trains.

**Gentlemen having the Private Entrée themselves and accompanying Ladies to the Private Entrée will be admitted to the Throne Room.**

Gentlemen accompanying Ladies by the Public Entrée will leave them at the Entrance to the Eastern Gallery, and will rejoin them in the Ball Room.

The carriages of those who have the Private Entrée will enter by the South-West Gate, and set down at the South Entrance of Government House.

All other carriages will enter by the North-East Gate, set down under the Grand Stairs, and pass out by the North-West Gate.

By Command,

WILLIAM BERESFORD, *Colonel,*
*Military Secretary to the Viceroy.*

### ACCOUNTS AND FINANCE.
PUBLIC DEBT.

*The 20th October, 1893.*

**No. 4565-A.**—With a view to confer on the holders of Government Promissory Notes of the 3½ per cent. loans the advantages enjoyed by holders of 4 per cent. Government Promissory notes of having their holdings in these notes registered in the form of a Book Debt, notice is hereby given that holdings in the 3½ per cent. loan of 1893-94 may at any time be converted into Stock Certificates on application at the Public Debt Office, Bank of Bengal. All the conditions laid down in Notification No. 44, dated 10th January 1867, for the conversion into Stock Certificates of Promissory Notes of the 4 per cent. loans, and for the sale, transfer, or reconversion of the Stock Certificates of these loans, will apply *mutatis mutandis* to Promissory Notes or Stock of the 3½ per cent. loan of 1893-94.

2. Notice is also given hereby that Government Promissory Notes of the 3½ per cent. loan of 1853-54 may at the option of the holders be transferred into the 3½ per cent. loan of 1893-94. No fee will be charged for such transfers, and interest on the notes up to the last half-yearly date for the payment of interest on the 3½ per cent. loan of 1893-94 immediately preceding the date of transfer of the notes will be paid on issue of the new notes.

3. The last clause of Notification No. 2896, dated September 20th, 1879, authorising the issue of Stock or Government Promissory Notes of the 4 per cent. loan of 1842-43 or 1865 in exchange for equal amounts of Stocks or Notes of the 3½ per cent. loan of 1853 and 4½ per cent. transfer loan of 1879, is hereby cancelled.

### EXAMINATIONS.

*The 27th October, 1893.*

No. 367.—With reference to Rules 3 and 7 of the Rules published in Home Department Notification No. 1817, dated 3rd July 1888, and to Rules 3 and 7 published in the Notification of the Government of Bengal, dated 29th April 1889, it is hereby notified that the examination prescribed for filling up vacancies in the Clerical Establishments of the Secretariat Offices of the Government of India and attached Offices will be held at Calcutta in the Senate House of the Calcutta University, and at Allahabad and Lahore at the places to be appointed by the Government of the North-Western Provinces and Oudh and the Punjab, respectively, in January 1893. The exact dates will be notified hereafter. The hours of examination will be from 10 A.M. to 1 P.M. and from 1-30 P.M. to 4-30 P.M. daily. There will be no examination for clerkships in either the Upper or the Lower Division under the Government of Bengal.

The probable number of vacancies in the Secretariat Clerical Service of the Government of India and attached Offices to be competed for is twelve in the Lower Division. Of these, six will be reserved for candidates domiciled in the North-Western Provinces and Oudh, the Punjab, the Central Provinces, Rajputana, Central India, and Baluchistan, provided that a sufficient number of such candidates, duly qualified, appear for the examination to be held at Allahabad and Lahore. The remaining six vacancies will be offered for competition among the candidates examined at Calcutta, and such candidates, temporarily resident, but not domiciled in any of the Provinces enumerated above, as may be permitted to present themselves for examination at Allahabad and Lahore. There will be no examination for the Upper Division of the Secretariats of the Government of India and attached Offices.

Candidates should pay the prescribed fee (Rs. 10 for the Lower Division) into the nearest Treasury, and forward the Treasury receipt to the Secretary to the Board of Examiners, Calcutta. Candidates paying their fees in Calcutta should pay them into the Bank of Bengal.

Application for permission to appear at the examination should be made to the Secretary to the Board of Examiners, Calcutta, between the date of this Notification and the 15th December next (inclusive).

The attention of intending candidates is called to Rule 6 of the Home Department Notification of the 3rd July 1888 prescribing the particulars* and documents which should accompany the application for permission to appear at the examination.

* (1) Evidence that the candidate at the date of making his application is not less than 18 and not more than 24 years of age. The date of the candidate's birth must be stated
(2) In case the candidate has been educated at a school in which students' good conduct registers are kept, the candidate's register for the last year of his attendance at school when a year has not elapsed since he left school. In other cases, a certificate that the candidate is of good moral character from the head of the institution in which he has last been educated, or from some respectable householder to whom he is well known in private life, and who is himself known to a District or Sub-divisional Magistrate or to the head of some Government office,—this last fact being certified by the countersignature of the officer in question.

Circular No. XV Railway, dated 11th October 1893.

RESOLUTION—By the Government of India, Public Works Department.

### STEAM TRAMWAYS NOT WITHIN MUNICIPAL LIMITS.

*Scrutiny of all applications for permission to construct tramways immediately they are received with the object of determining whether the projects should be classed as tramways or as railways.*

Read—

Government of India Circular No. 17 Railway, dated 15th August 1883.
" " " " 20 " " 11th September 1883.
" " " Resolution No. 1275-R.C., dated 21st November 1892.

Read also—

The Bengal Tramways Act, III of 1883.
The Indian Tramways Act, XI of 1886.
The Indian Railways Act, IX of 1890.

OBSERVATIONS.—In the circulars of 1883 quoted above, the Government of India ruled that no new railway, or extension or branch of an existing railway, and that no steam tramway not within municipal limits—whatever may be the estimated cost and whatever the agency, whether provincial or private, by which the work is to be executed—shall be commenced until the project for the same shall have been submitted to and sanctioned by the Government of India.

2. In connection with some recent schemes for the construction of steam tramways outside municipal limits, inconvenience and difficulties have arisen from the treatment under the Acts relating to tramways of projects which might more properly be classed as projects for light railways.

3. Although it appears impracticable to define in set terms the difference between a steam tramway and a railway, it is noteworthy that in none of the Acts relating to tramways is any provision made in regard to stations, signals, fencing, gates, and crossings. Generally speaking, projects which require these equipments, as well as projects which contemplate the running of trains at a speed exceeding 12 miles an hour, should, *primâ facie*, be held to come under the classification of railways.

4. The use of steam tramways as a means of communication in districts which are not well served by roads, and as feeders to existing railways, may be encouraged with advantage. Care should, however, be taken that the provision of steam tramways is not permitted to interfere with progress in railway construction by conceding to tramway companies the possession of alignments that may be likely to be required within a reasonable period for the location of railways. In cases where such a result may be anticipated, and in which nevertheless it may be considered expedient to allow the construction of a steam tramway, the tramway 'Order' should always contain terms on which the tramway may, when necessary, be compelled to give way to a railway.

5. Attention is invited to the Resolution of 1892 read above, with which was circulated a note—by Lieutenant-Colonel R. R. Pulford, R.E., Superintending Engineer of the 1st Circle, Provincial Works, North-Western Provinces and Oudh—describing the Powayan Steam tramway and giving particulars regarding its construction and working.

RESOLUTION.—The Government of India without wishing to lay down any hard-and-fast rule which might have the effect of discouraging the construction of steam tramways, desire to call the attention of Local Governments and Administrations to the necessity for closely scrutinising, immediately that they are received and before

negotiations are proceeded with, all applications for permission to construct steam tramways outside municipal limits with the object of determining whether the projects concerned will more properly and conveniently be classified as tramways to be constructed under the provisions of the Tramways Acts, or as railways to be constructed under the Indian Railways Act.

### NOTIFICATIONS.

PUBLIC.

*Simla, the 31st October, 1893.*

**No. 1599.**—In exercise of the power conferred by section 17 of the Indian Arms Act (XI of 1878), the Governor General in Council is pleased to make the following alterations in the rules published in Home Department Notification No. 321, dated the 10th March 1893:

(1) For Rule 16A. the following rules shall be substituted:

"16A. Licenses in Form D to possess arms and ammunition, and to go armed, may be granted by the District Magistrate, subject to the conditions endorsed on Form D and on payment of a fee of four annas for each license, in the following districts only, or in such portions of those districts as the Chief Commissioner may from time to time direct:

*Lower Burma.*

The Tavoy, Mergui, and Salween districts and the Hill Tracts of Northern Arakan.

*Upper Burma.*

The Bhamo, Ruby Mines, and Upper Chindwin districts."

(2) In the heading to Form D annexed to the said rules, for the words "the Mergui and Salween districts and the Arakan Hill Tracts only" the words "the Tavoy, Mergui, Salween, Bhamo, Ruby Mines, and Upper Chindwin districts and the Hill Tracts of Northern Arakan only" shall be substituted.

*The 3rd November, 1893.*

**No. 1619.**—Her Majesty's Warrant of Precedence, dated the 18th October 1876, published with the Table and Supplementary Graded List under Home Department Notification No. 2032, dated the 1st November 1877, directs "all other persons who may not be mentioned in this Table to take rank according to general usage which is to be explained and determined by the Governor General in Council in case any question shall arise." In exercise of the power thus conferred on him, His Excellency the Governor General in Council is pleased to determine that the Chief Secretary to the Chief Commissioner of Burma shall take rank with officers in entry 34 of the Table, *viz.*, with the Civil and Military Secretaries to the Governments of Madras and Bombay and the Civil Secretaries to the Governments of Bengal, North-Western Provinces, and the Punjab.

### EXAMINATIONS.

*The 27th October, 1893.*

**No. 380.**—The following Regulations respecting the examination of candidates for the Civil Service of India to be held in August 1894 are published for general information:

## EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

### REGULATIONS FOR THE OPEN COMPETITION OF AUGUST 1894.

*N.B.—The Regulations are liable to be altered in future years.*

1. On the 1st August 1894 and following days an Examination open to all qualified persons will be held in London (*a*). Not fewer than persons will be selected, if so many shall be found duly qualified—*viz.*, for the Lower Provinces of Bengal (including Assam); for the Upper Provinces of Bengal (including the Punjab, Oudh, and the Central Provinces); for Burma; for Madras; and for Bombay (*b*).

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners—

(i) that he is a natural-born subject of Her Majesty;

(ii) that his age will be above twenty-one years and under twenty-three years on the 1st April 1894;

[*N.B.—In the case of natives of India, it will be necessary for a Candidate to obtain a certificate of age and nationality signed, should he be a resident in British India, by the Secretary to Government of the Province or the Commissioner of the Division within which his family resides, or, should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.*]

(iii) that he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India;

(iv) that he is of good moral character.

3. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee (*c*), will be admitted to the Examination. The Commissioners shall however, in their discretion, require production of the Certificate of qualification hereinafter referred to, institute such further enquiries as they may deem necessary; and if the result of such enquiries in the case of any candidate should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India, and, if already selected, will be removed from the position of a probationer.

4. The Open Competitive Examination will take place only in the following branches of knowledge:

| | Marks. |
|---|---|
| English Composition | 500 |
| Sanskrit Language and Literature | 500 |
| Arabic ditto ditto | 500 |

(*a*) An order for admission to the Examination will be sent to each Candidate on the 18th July 1894.

(*b*) For the method of distribution, *see* No. (i) of the announcements on page 629.

(*c*) The fee (£5) will be payable by means of a special stamp according to instructions which will be communicated to Candidates.

| | Marks. |
|---|---|
| Greek Language and Literature | 750 |
| Latin ditto ditto | 750 |
| English ditto ditto (including special period named by the Commissioners) (*d*) | 500 |
| French Language and Literature | 500 |
| German ditto ditto | 500 |
| Mathematics (Pure and Applied) | 900 |
| Advanced Mathematical subjects (Pure and Applied) | 900 |
| Natural Science, *i.e.*, any number not exceeding *three* of the following subjects: | |
| Elementary Chemistry and Elementary Physics 600 | |
| (*N.B.*—This subject may not be taken up by those who offer either Higher Chemistry or Higher Physics.) | |
| Higher Chemistry 600 | |
| Higher Physics 600 | 1,800 |
| Geology 600 | |
| Botany 600 | |
| Zoology 600 | |
| Animal Physiology. 600 | |
| Greek History (Ancient, including Constitution) | 400 |
| Roman History (Ancient, including Constitution) | 400 |
| English History | 500 |
| General Modern History (period to be selected by Candidates from list in the syllabus issued by the Commissioners, one period at least to include Indian History) (*e*) | 500 |
| Logic and Mental Philosophy (Ancient and Modern) | 400 |
| Moral Philosophy (Ancient and Modern) | 400 |
| Political Economy and Economic History | 500 |
| Political Science (including Analytical Jurisprudence, the Early History of Institutions, and Theory of Legislation) | 500 |
| Roman Law | 500 |
| English Law, *viz.*, Law of Contract, Criminal Law, Law of Evidence, and Law of the Constitution | 500 |

Candidates are at liberty to name any or all of these branches of knowledge (*f*). No subjects are obligatory.

5. The merit of the persons examined will be estimated by marks; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (*g*) in order to secure that "a Candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer."

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The marks obtained by each Candidate in respect of each of the subjects in which he shall have been examined will be added up, and the names of the several Candidates who shall have obtained, after the deduction above-mentioned, a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate. A Candidate entitled to be deemed a selected Candidate, but declining to accept the nomination as such which may be offered to him, will be disqualified for any subsequent competition.

9. Selected Candidates before proceeding to India will be on probation for one year, at the end of which time they will be examined with a view of testing their progress in the following subjects (*h*):

*Compulsory*—

| | Marks. |
|---|---|
| 1. Indian Penal Code and Criminal Procedure Code, 1882 | 500 |
| 2. The Principal Vernacular Language of the Province to which the Candidate is assigned | 400 |
| 3. History of British India | 300 |

(*d*) In the syllabus referred to in Note (*f*) below.
(*e*) *See* Note (*f*).
(*f*) A syllabus defining in general terms the character of the Examination in the various subjects may be obtained on application to the Secretary, Civil Service Commission.
(*g*) Marks assigned in English Composition and Mathematics will be subject to no deduction. Each science will for the purpose of deduction be treated as a separate subject.
(*h*) Instructions *showing the extent of the* examination will be issued to the successful Candidates as soon as possible after the result of the open competition is declared.

*Optional*—[Not more than two of these subjects]

| | Marks. |
|---|---|
| 1. The Code of Civil Procedure, 1882, and the Indian Contract Act, 1872 | 450 |
| 2. Hindu and Muhammadan Law | 350 |
| *3. Sanskrit | 400 |
| *4. Arabic | 400 |
| 5. Persian | 400 |
| *6. Political Economy | 400 |

In this Examination, as in the open competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the open competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "*Final Examination.*"

10. The selected Candidates will also be tested during their probation as to their proficiency in riding.

The examinations in riding will be held as follows:

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(2) Again, at the time of the Final Examination, Candidates who may fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback shall receive a Certificate which shall entitle them to be credited with 200 marks to be added to their marks in the Final Examination.

(3) Candidates who fail to obtain this Certificate, but who gain a Certificate of minimum proficiency in riding, will be allowed to proceed to India, but will be subjected on their arrival to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government. A Candidate who fails at the end of the year of probation to gain at least the Certificate of minimum proficiency in riding will be liable to have his name removed from the list of Selected Candidates.

11. The selected Candidates who at the Final Examination shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force at the time for that service.

12. Persons desirous to be admitted as Candidates must apply on forms which may be obtained from "The Secretary, Civil Service Commission, London, S. W.," at any time after the 1st December 1893. The forms must be returned so as to be received at the office of the Civil Service Commissioners on or before 31st May 1894 (*i*).

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:

(i) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance amounting to £ 100 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrew's, and Aberdeen; University College, London; and King's College, London; provided such Candidates shall have passed the Final Examination to the satisfaction of the Civil Service Commissioners, and shall have complied with such rules as may be laid down for the guidance of Selected Candidates.*

(iii) *The allowance of £ 100 will not be paid to any Selected Candidate until he has been certified by the Civil Service Commissioners to be entitled to be appointed to the Civil Service of India; and every Certificated Candidate must, before receiving his allowance, attend at the India Office and give a written undertaking to refund the amount in the event of his failing to proceed to India.*

(iv) [illegible] *pensions for their families as may be approved by the Secretary of State for India in Council. The stamps payable on these covenants amount to £ 1.*

(v) *The seniority in the Civil Service of India of the Selected Candidates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*

(vi) *Selected Candidates will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates rejected at the Final Examination of 1895 will in no case be allowed to present themselves for re-examination.*

* These subjects may not be offered by any Candidate who has offered them at the open competition.

(*i*) These forms should be accompanied by evidence on the points mentioned in Regulation 7, and by a list of the subjects in which the Candidate desires to be examined. Evidence of health and character must be dated not earlier than *1st May 1894.*

SIR,

Being desirous to offer myself as a Candidate at the Examination for the Civil Service of India, which is appointed to commence on the 1st of August 1894, I transmit herewith, as required by the Regulations,—

(1) If a General Register Office certificate cannot be obtained, the instructions printed on the other side will show what evidence should be supplied. If evidence is already in the hands of the Commissioners, strike out "A certificate of my birth," and insert "Evidence is already in the possession of the Commissioners."

(1) A certificate of my birth, showing that I was born on the day of 18 , and that therefore my age was above 21 years and under 23 years on the 1st of April 1894.

(2) The terms indicated must appear in the certificate, which must be given after personal examination, and bear date not earlier than 1st May 1894.

(2) A certificate signed by

of my having no disease, constitutional affection, or bodily infirmity unfitting me, or likely to unfit me, for the Civil Service of India.

(3) Two testimonials must be sent bearing date not earlier than 1st May 1894. One of them should be given by an intimate acquaintance (not a relative) of not less than three or four years standing; the other, if the candidate has recently left school, should be given by his late schoolmaster, or, if he has had employment of any kind, by his employer. If the candidate has been at any University, he should send a certificate of good conduct from his College tutor.

(3) Proof of my moral character, *viz.*,—

## EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE OF INDIA.

I. Every Candidate born in the United Kingdom should produce a Certificate from the Registrar-General of Births, Marriages, and Deaths, or from one of his provincial officers. This Certificate may be obtained from the Registrar-General in London, Dublin, or Edinburgh, or from the Superintendent Registrar of the District in which the birth took place.

II. A Candidate born of European parents in India may produce a Certificate of Baptism from the district in which he was baptised. If this does not also mention the date of birth, it should be accompanied by a statutory declaration by one of the Candidate's parents stating the date and place of birth. When such certificates are not in the possession of the Candidates, an extract from the Registers kept at the India Office will probably be obtainable.

III. A Candidate who is a native of India must have his age and nationality certified by the Government of India, or of the Presidency or Province in which he may have resided.

[*No Certificates except those issued under Notification of the Government of India, No. 2252, dated 21st August 1888, will be accepted for this competition.*]

Except as noted in paragraphs II and III, every Candidate is expected to produce a Certificate of *Birth*. The Civil Service Commissioners will not in ordinary cases accept a Certificate of Baptism or other testimony unless they are first satisfied that a Certificate of Birth cannot be procured.

Official Certificates of Birth may generally be obtained as follows:

(*a*) *For persons born in England or Wales since 30th June 1837.*—From the Registrar-General, Somerset House, London, or from the Superintendent Registrar of the District in which the birth took place.

(*b*) *For persons born in Scotland since 31st December 1854.*—From the General Register Office, Edinburgh, or from the Registrar of the Parish or District in which the birth took place.

(*c*) *For persons born in Ireland since 1st January 1864.*—From the General Register Office, Dublin, or from the Superintendent Registrar of the District in which the birth took place.

(*d*) *For persons of English, Scottish, or Irish parentage born on board British ships since the dates mentioned in* (*a*), (*b*), *and* (*c*) *respectively.*—From the General Register Office, London, Edinburgh, or Dublin, according to parentage.

(*e*) *For persons born in India of European parents.*—From the India Office, London.

Any Candidate who cannot produce a Certificate of Birth from one of the authorities named should, if possible, procure a Certificate of Baptism, and should then apply to the Secretary, Civil Service Commission, for further instructions.

In the one the Candidates will be expected to show a general acquaintance with the course of English Literature as represented (mainly) by the following writers in verse and prose between the reign of Edward III and the accession of Queen Victoria:

*Verse*—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

*Prose*—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe, Addison, Johnson, Burke, Scott, Macaulay (Essays and Biographies).

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the Candidates have studied the chief productions of the greatest English writers *in themselves*, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English literature. Candidates will also be expected to show that they have studied in these authors the history of the English language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other year by year in the order indicated:

1. A.D. 1700 to A.D. 1800
(1894) [Pope to Cowper.]
2. A. D. 1800 to A.D. 1832
(1895) [Nineteenth Century writers to the death of Scott.]
3. A.D. 1360 to A. D. 1600
(1896) [Chaucer to Spenser.]
4. A. D. 1600 to A. D. 1700
(1897) [Shakespeare to Dryden.]

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English language and literature as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners.* The names placed under the dates are intended to suggest the general character of the literary development of the period, and consequently the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700; all the works of Swift within the period 1700 to 1800; all the works of Scott and Wordsworth within the period 1800 to 1832.

*General Modern History.*—Candidates may at their choice be examined in any one of the following periods:

1. From the accession of Charlemagne to the Third Crusade.
[A.D. 800 to A.D. 1193.]
2. From the Third Crusade to the Diet of Worms.
[A.D. 1193 to A.D. 1521.]
3. From the Diet of Worms to the death of Louis XIV.
[A.D. 1521 to A.D. 1715.]
4. From the accession of Louis XV to the French Revolution of 1848.
[A.D. 1715 to A.D. 1848.]

Periods 3 and 4 will include Indian History.

**No. 220.**—The following Rules for Quarantine against cholera, which have been made by the Bombay Government in exercise of the power conferred by Section I, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The Rules have effect from the 10th October 1893, as a temporary measure, in the ports of Aden, Perim, and the Somáli Coast:

I.—The Commander of every vessel, including buggalows or other native craft, arriving from all ports on the Arabian Coast of the Red Sea shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:

| | | | |
|---|---|---|---|
| After eight days of voyage | . . . . | Six days of quarantine. | |
| Do. nine | ditto . . . . | Five | ditto. |
| Do. ten | ditto . . . . | Four | ditto. |
| Do. eleven | ditto . . . . | Three | ditto. |
| Do. twelve | ditto . . . . | Two | ditto. |
| Do. thirteen | ditto and upwards . . . | Twenty-four hours of quarantine. | |

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of 15 days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somáli Coast which may have communicated with vessels coming from all ports in the Arabian Coast of the Red Sea shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somáli Coast from such ports.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills of health.

Es entendido que las estipulaciones de la presente Convención se aplicarán á cualquiera de las sobredichas Colonias ó posesiones extranjeras, respecto de la que el Representante de Su Magestad Británica lo haya notificado al Gobierno del Ecuador, dentro de un ano, á contar del canje de las ratificaciones de la presente Convención.

### ARTICLE III.

The present Convention shall be ratified, and the ratifications shall be exchanged at Quito as soon as possible.

It shall come into operation one month after the exchange of ratifications, and shall remain in force until the expiration of one year from the day on which either Party may give notice of its intention to terminate it.

In witness whereof the undersigned have signed the same, and have affixed thereto the seal of their arms.

Done in duplicate at Quito, the twenty-sixth day of August, one thousand eight hundred and ninety-two.

(Signed)
(L.S.) W. H. D. HAGGARD.

### ARTICULO III.

La presente Convención será ratificada, y las ratificaciones se cangearán en Quito á la brevedad posible.

Entrará en vigor un mes después del canje de las ratificaciones, y permanecerá obligatoria hasta la expiración de un ano contado desde el dia en que cualquiera de las Partes notificare su intención de denunciarla.

En testimonio de lo cual los Infrascritos han firmado la misma, sellándola con sus respectivos sellos.

Hecho por duplicado, en Quito, á veinte y seis de Agosto de mil ochocientos noventa y dos.

(Firmado)

No. 130, dated Simla, the 26th April, 1893.

From—The Government of India,
To—The Secretary of State for India.

We have the honour to acknowledge the receipt of Your Lordship's despatch No. 32 (Revenue), dated the 9th March, 1893, forwarding copy of a Convention between Great Britain and Ecuador for the protection of Trade-marks, and enquiring whether we have any observations to make as to the participation therein of India.

2. We beg to state that, for reasons similar to those stated in paragraph 2 of our despatch No. 233, dated the 6th September, 1892, relating to the Convention with Roumania for the protection of Trade-marks, we have no objection to the Convention with Ecuador being made applicable to India.

No. 123 (Revenue), dated India Office, London, 21st September, 1893.

From—The Secretary of State for India,
To—The Government of India.

With reference to your letter No. 130 (Finance and Commerce), dated 26th April last, I forward, for the information of Your Excellency's Government, copy of a letter from the Foreign Office, and enclosures, stating that the Convention between Great Britain and Ecuador has been made applicable to India.

Dated 9th September, 1893.

Dated Foreign Office, London, the 9th September, 1893.

From—The Assistant Secretary of State for Foreign Affairs,
To—The Under-Secretary of State for India.

With reference to your letter of the 8th June last, I am directed by the Secretary of State for Foreign Affairs to transmit to you, to be laid before the Earl of Kimberley, a copy of a despatch from Her Majesty's Representative at Quito respecting the accession of India to the Trade-mark Convention between Great Britain and Ecuador of the 26th August, 1892.

Mr. A. St. John, No. 11-T., dated 29th July, 1893.

No. 11 Treaty, dated Quito, the 29th July, 1893.

From—A. St. JOHN, Esq, Her Britannic Majesty's Minister at Quito,
To—The Secretary of State for Foreign Affairs.

With reference to Your Lordship's despatch No. 72 of this series of the 10th ultimo, I have the honour to transmit herewith to Your Lordship copy and translation of a note I have received from the Equatorian Minister for Foreign Affairs enclosing copy of a decree, of which I also enclose a copy and translation, whereby the Trade-mark Convention between Great Britain and Ecuador of the 26th of August last is made applicable to India.

Dated Quito, the 29th July, 1893.

From—SEÑOR LIZARZABURN, Minister for Foreign Affairs for the Republic of Ecuador,
To—Her Britannic Majesty's Minister at Quito.

With reference to the note which the Charge d'Affaires of Great Britain addressed to this Department on the 26th instant, and in accordance with Article II of the Trade-mark Convention signed on the 26th of August, 1892, and ratified on the 3rd of February of this year, the English East India Colony is hereby included in the operation of the said Convention, and entitled to the privileges accruing thereunder. Let it be registered, communicated, and published.

RESOLUTION—By the Government of India, Public Works Department.

*Special rules for the retirement of officers of the Engineer Establishment of the Public Works Department.*

Read—

Despatch to the Secretary of State, No. 65 P. W., dated 2nd November 1892.

Despatch from the Secretary of State, No. 31 P. W., dated 27th July 1893.

Resolution by the Government of India, Public Works Department, No. 2523-G., dated 28th September 1893.

RESOLUTION.—In the Resolution read above, the Governor General in Council was pleased to promulgate certain rules and orders regulating the organisation of the grades, the grade pay, and the promotion of Executive and Assistant Engineers of the Public Works Department. The Governor General in Council is now pleased, with the sanction of Her Majesty's Secretary of State for India, to publish the following rules permitting the retirement on special pensions of certain officers of the same establishment who entered the Department of Public Works in the years 1874 to 1881:—

(i) A certain number of Civil Engineers who joined the service in the years 1874 to 1881 inclusive shall be eligible, after completion of 15 years' total service, to retire with the pension due under the rules applicable to them, and an additional pension of one-third of their ordinary pension, up to a maximum of Rs. 4,000 per annum:

Provided that no officer who was originally appointed to the Department in any rank below that of Assistant Engineer, 2nd grade, and who shall not have completed on the 31st December 1893 12 years' service from the date of promotion to that grade, shall be eligible for retirement on these terms :

Provided also that no officer on foreign service shall be eligible for retirement on these terms.

(ii) The Government of India reserve to themselves absolutely the right to refuse the application of any officer to retire under these terms, and to exercise that right without specifying reasons.

(iii) Subject to rules (i) and (ii), a number not exceeding one-third of the total number of officers on each of the several lists eligible under the terms stated, and also not exceeding in the aggregate 110 men, may be allowed to retire.

(iv) Applications for leave to retire must be made as follows :

(1) By those who have completed 15 years' total service, or more, on the date of this Resolution, within three months of that date.

(2) By those who have not completed 15 years' total service on the date of this Resolution, within three months of the day on which they shall have completed 15 years' total service.

(v) All applications to retire under these orders must be forwarded to the Government of India for orders through the several Local Governments, with the recommendations of the latter.

---

**No. 433.**—The following is published for general information:

No. 259-T., dated 9th November, 1893.

RESOLUTION—By the Government of India, Public Works Department.

*Review of the Administration Report of the Indo-European Telegraph Department for the year 1892-93.*

**Read—**

Letter from the Director General of Telegraphs, No. 330 I.E., dated the 3rd October 1893, and its enclosure, the report for 1892-93.

OBSERVATIONS.—The Capital Account of the Department, which stood at Rs. 1,15,15,094 at the beginning of the year under review, amounted at its close to Rs. 1,14,59,696, a decrease of Rs. 55,398. The decrease is due to a reduction of the stores balance.

2. The net message revenue earned during the year under review on Indian, Trans-Indian, and local traffic, including the profit on mean rate *viâ* Turkey, and deducting Rs. 6,642 on account of payments to the Persian Government for the Bushire terminal rate, amounted to Rs. 15,08,288 as shown in Appendix B of the report. This amount was, however, reduced to Rs. 12,76,510, which are the net message receipts of the year, by the following adjustments aggregating Rs. 2,31,748:

*Adjustments.*

| | Rs. |
|---|---|
| Receipts on Joint Purse Account ... ... | +6,95,470 |
| Payments on ditto ... ... | —7,98,626 |
| Total ... | —1,03,156 |
| Receipts from Companies on account of Bushire terminal rate ... ... ... ... | +3,541 |
| Payable on account of interruptions *viâ* Turkey ... | —1,108 |
| Exchange ... ... ... ... | —60,598 |
| **Net total Joint Purse ... ...** | **—1,61,321** |
| *Australian Message Fund.* | |
| Loss on contribution ... ... ... | —43,900 |
| Exchange ... ... ... ... | —26,412 |
| Total Australian Message Fund ... | —70,312 |
| Profit and Loss ... | —115 |
| Net adjustments ... | 2,31,748 |

To the above message revenue an addition has to be made of Rs. 26,006 on account of miscellaneous receipts, making the total Revenue receipts Rs. 13,02,516, as shown in Appendix B of the report.

3. The traffic earnings were higher by Rs. 23,544 than in the previous year, although the actual number of messages carried was less than in the previous year by 9,589. The increase in value is due to the lower rates of exchange ruling during the year. The balance against the Department on the Joint Purse Account, which was Rs. 2,77,323 in 1891-92, was reduced to Rs. 1,61,321, a reduction of Rs. 1,16,002. The excess actually paid in to the Joint Purse amounted to £10,315, as shown in paragraph 6 of the report, against £19,289 in the previous year, the decrease being due to a larger proportion of the traffic having been sent by the Suez route.

4. The gross revenue charges amounted to Rs. 8,64,848 against Rs. 9,08,448 for 1891-92. The decrease is principally due to less expenditure having been incurred on cable maintenance owing to the approaching completion of the renewals of the Persian Gulf cables, and also to less outlay under line maintenance in the Persian Section owing to the re-insulation being nearly finished. The year's transactions resulted in a net profit of Rs. 4,37,668 compared with a profit of Rs. 1,62,034 in the previous year. The net profit is equivalent to a return of 3·8 per cent. on the Capital Outlay.

5. The working expenses of the year under review are compared in the following statement with those of the previous four years:

| Year. | Repairs. | | Cable Steamer. | Miscellaneous. | Establishment. | Apparatus and Plant. | Office expenses. | Store-keeping charges. | Subsidies. | Administrative charges. | Total. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | To line and buildings. | To cable. | | | | | | | | | |
| 1888-89 ... | 66,391 | 1,63,534 | 1,08,497 | 13,859 | 4,67,160 | 33,560 | 13,991 | 7,451 | 19,816 | 38,574 | 9,53,223 |
| 1889-90 ... | 54,570 | 2,61,789 | 1,14,539 | 8,771 | 4,80,889 | 22,685 | 34,709 | 9,576 | 23,214 | 16,827 | 10,47,568 |
| 1890-91 ... | 82,953 | 2,55,436 | 1,28,082 | 15,122 | 4,82,983 | 6,315 | 47,593 | 1,603 | 31,422 | 20,797 | 10,72,303 |
| 1891-92 ... | 1,09,195 | 1,76,676 | 90,795 | 11,603 | 5,22,008 | ... | 31,781 | 1,349 | 31,305 | 23,736 | 9,08,448 |
| 1892-93 ... | 88,315 | 82,819 | 91,866 | 7,350 | 5,12,309 | ... | 31,986 | 1,598 | 29,837 | 18,878 | 8,64,848 |

6. The percentages of gross traffic carried by the Suez and Indo-European routes during the last three years are respectively as follows:

| | Indian Traffic. | | Trans-Indian Traffic | |
|---|---|---|---|---|
| | *Vid* Suez. | *Vid* Indo-European. | *Vid* Suez. | *Vid* Indo-European. |
| 1890-91 ... ... | 46·67 | 53·33 | 83·21 | 16·79 |
| 1891-92 ... ... | 43·52 | 56·48 | 80·75 | 19·25 |
| 1892-93 ... ... | 48·09 | 51·91 | 82·49 | 17·51 |

7. The cable steamer *Patrick Stewart* made seven trips, occupying 126 days, during which period she steamed about 10,000 nautical miles. On the 31st March 1892 one small fault remained unremedied in the Fao-Bushire section of cables owing to it being impossible to localise it. During the year eight new faults occurred, all of which were repaired, with the exception of one in the Bushire-Jask cable of 1869, which had too high a resistance to admit of it being accurately localised.

8. The following statement shows the division of the messages tendered for transmission during the last two years:

| | | 1891-92. | 1892-93. |
|---|---|---|---|
| State ... ... | Messages ... ... ... | 3,318 | 2,866 |
| | Words ... ... ... | 105,353 | 91,235 |
| | Average words per message ... | 31·7 | 31·8 |
| Commercial and private | Messages ... ... ... | 122,037 | 113,157 |
| | Words ... ... ... | 1,577,445 | 1,459,295 |
| | Average ... ... ... | 12·9 | 12·9 |
| Press ... ... | Messages ... ... ... | 1,323 | 1,091 |
| | Words ... ... ... | 45,979 | 44,451 |
| | Average ... ... ... | 34·7 | 40·7 |
| *The Times* ... | Messages ... ... ... | 411 | 386 |
| | Words ... ... ... | 82,178 | 65,310 |
| | Average ... ... ... | 200 | 169·2 |

9. The percentage of errors in the Persian Section was 0·245 and in the Gulf Section 0·121. The accuracy of transmission between Karachi and Teheran thus amounted to 99·6 per cent. There were 120 complaints of error, delay, and non-delivery against 98 in the previous year.

10. There was a satisfactory improvement in the average rate of transmission of messages between Karachi and Teheran. The rate in 1891-92 was 8 minutes 42 seconds, while during the year under review it was only 5 minutes 51 seconds. In the reverse direction, *i.e.*, between Teheran and Karachi, the rate was also reduced from 6 minutes 25 seconds in 1891-92 to 4 minutes 26 seconds during the year under review.

11. On the Jask-Bushire cable duplex working has been very successful, and instruments have been received for extending similar working between Jask and Karachi.

12. Communication was not once interrupted between Karachi and Teheran throughout the year, while *viâ* Turkey an interruption occurred on the Fao-Bushire cable, which lasted over 10 days. Beyond Teheran the interruptions which stopped traffic amounted to nearly 6 days in all. The Turkish route beyond Fao was interrupted for 108 days.

13. The average monthly mean rate of transmission between the United Kingdom and Karachi compares as follows with that in previous years :

| | *Vid* Teheran. | | *Vid* Turkey. | |
|---|---|---|---|---|
| | H. | M. | H. | M. |
| 1888-89 ... ... ... ... ... | 1 | 4 | 19 | 28 |
| 1889-90 ... ... ... ... ... | 0 | 59 | 12 | 14 |
| 1890-91 ... ... ... ... ... | 0 | 59 | 10 | 25 |
| 1891-92 ... ... ... ... ... | 0 | 59 | 16 | 12 |
| 1892-93 ... ... ... ... ... | 0 | 45 | 27 | 47 |

The percentages of traffic sent by the two routes were respectively 92·96 and 7·04.

14. The Department has been administered throughout the year to the satisfaction of the Government of India by Mr. W. R. Brooke, the Director General. The Government of India are pleased to notice that the officers and staff of the Department have performed their duties to the entire satisfaction of the Director General. The behaviour of the Persian staff generally is very highly spoken of in connection with the serious cholera epidemic, which carried off about 18,000 Persians and 30 Europeans. Dr. Caldwell, specially deputed, in connection with this outbreak. Special mention is also made of the excellent service rendered by Mr. Navarra, Assistant Superintendent, in connection with the temporary transfer of the Teheran Office to Gulahek.

15. The administration of the Indo-European Telegraph Department, which was transferred to India in February 1888, and placed under the control of the Director General of Telegraphs in India, was re-transferred to London with effect from April 1st, 1893. As this is the last Administration Report of the Department which will be submitted to the Government of India by the Director General, His Excellency the Governor General in Council takes this opportunity of recording his cordial appreciation of the manner in which Colonel H. A. Mallock, the late Director General, and Mr. W. R. Brooke, the present Director General, administered the affairs of the Indo-European Department while under their charge.

SANITARY.

*The 20th November, 1893.*

**No. 241.**—The rules imposing quarantine at Aden, Perim and the Somáli Coast against cholera on arrivals from all ports on the Arabian Coast of the Red Sea have been withdrawn.

**No. 242.**—The following Rules for Quarantine against plague which have been made by the Bombay Government in exercise of the power conferred by Section I, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The Rules have effect from the 15th October, 1893, as a temporary measure in the Ports of Aden, Perim and the Somáli Coast :—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from the Arabian Coast of the Red Sea from Leet to Lohayya inclusive shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on any such arrival being signalled, the Health Officer of the Port shall go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague, and if the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival in the harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for between such vessel and the shore, or other vessels and boats in the harbour.

IV.—If the Health Officer shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days, intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantne anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrance of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim and the Somáli Coast, which may have communicated with vessels coming from the Arabian Coast of the Red Sea from Leet to Lohayya inclusive, shall be subjected to the same quarantine as vessels arriving at Aden, Perim and the Somáli Coast from the Arabian Coast of the Red Sea from Leet to Lohayya inclusive.

**No. 2418-*E.*** — The following letter from the Chief Secretary to the Chief Commissioner of Burma, regarding operations carried out by the Burma Military Police in the Kachin Hills during 1892-93, is published for general information:—

## BURMA.

POLITICAL DEPARTMENT.

No. 650-1O.—3, dated Rangoon, the 22nd June 1893.

From—E. S. SYMES, Esq., C.I.E., Chief Secretary to the Chief Commissioner of Burma,

To—The Secretary to the Government of India, Foreign Department.

I am directed to submit a copy of the papers cited in the margin, being reports on the operations during the past season of the North-Eastern Column of military police; the establishment of a post at Sima; and the fighting which occurred in that neighbourhood.

Letter No. 1656, dated 14th March 1893, from Inspector-General of Police, with Major Peile's diaries from 11th December 1892 to 10th March 1893.
Letter No. 726-19—111, dated 23rd May 1893, from Commissioner, Northern Division, with enclosed letter from Deputy Commissioner, Bhamo, and report and appendices by Mr. H. F. Hertz, Civil Officer with North-Eastern Column.
Letter No. 834B., dated 23rd May 1893, from Brigadier-General Commanding Burma District, to Adjutant-General, Madras Army, with enclosures from Brigadier-General Gosset, C.B., and Captain Davies, District Staff Officer.

2. The circumstances under which it was considered necessary to despatch a strong column to Sima and to establish a post there are known to the Government of India. I am to solicit a reference to the correspondence cited in the margin and particularly to this office letter No. 489-1O.—23, dated the 18th November 1892, with which the detailed instructions issued to the column were submitted. I am also to invite a reference to this office letters No. 469-4S.—5, dated the 17th March 1893, No. 539-1C.—10, dated the 18th March 1893, and No. 862-1C.—10, dated the 29th April 1893, submitting copies of the correspondence which took place with the Chinese authorities at Momein on the subject.

Letter to Government of India, Foreign Department, No. 182-1O.—16, dated 7th June 1892.
Letter to Government of India, Foreign Department, No. 583-1K.—1, dated 19th August 1892.
Letter from Government of India, Foreign Department, No. 1981E., dated 26th October 1892.
Letter to Government of India, Foreign Department, No. 489-1O.—23, dated 18th November 1892.

2. The column started from Talawgyi on the Irrawaddy on the 3rd December 1892 under the command of Captain Morton with Mr. H. F. Hertz as Civil Officer, and, after overcoming severe and persistent opposition on the part of the Kachins, reached Sima on the 14th. Captain Morton proceeded at once to erect a fort, while Mr. Hertz endeavoured to get into communication with the surrounding tribes and to procure their peaceable surrender. These efforts proved unsuccessful, and the Kachins collected in such numbers and attacked our forces with such persistence that it became necessary to send up strong reinforcements of military police to their assistance. A series of engagements followed, and by the 3rd February all opposition was crushed. At this time the number of military police at and around Sima was over 1,000. The necessary barracks having been erected and rations stored at Sima, N'krang and Kazu, permanent garrisons were left in those places and the reinforcements withdrawn. There was no further fighting till April, when the fort at Sima was again attacked by a comparatively small body of Kachins and Chinese from the Khownakha valley. The importance of this rising was over-estimated by the Officer Commanding at Sima, and, in consequence of urgent representations received from this officer, a military column was sent to his assistance. By the time the column arrived the gathering had dispersed, the column returned to Bhamo, and the Sima neighbourhood has since been undisturbed.

3. In the papers enclosed with this letter the operations briefly summarized in the preceding paragraph and the various actions in which our men were engaged are described in detail, and the Chief Commissioner now desires to invite the attention of the Government of India to the very severe character of fighting which took place, to the excellent conduct of the officers and men engaged in the operations, and to the heavy loss (British officers 3 killed and 3 wounded, Native ranks 34 killed and 66 wounded) which was incurred by the military police. The Inspector-General reports that the fighting was more severe than any which has occurred since the annexation. The Chief Commissioner believes that this is no exaggeration, and he trusts that the fact may be recognized by the grant of a medal or clasp to all ranks engaged. The general control of the operations was in the hands of Major Peile, Inspector-General of Police, and the Chief Commissioner desires to bring to the notice of the Government of India the energy, efficiency, and forethought displayed by this officer throughout. Major Peile's arrangements were made under considerable difficulties, the organization of the military police being unsuited to the carrying out of operations on so large a scale as proved necessary on the present occasion. The manner in which these difficulties were overcome reflects great credit upon Major Peile, and the Chief Commissioner desires to bring his services prominently to the notice of the Government of India. He was ably seconded by Captain MacMullen, Deputy Inspector-General of Military Police, by Captain Parkin, Deputy Inspector-General for Supply and Clothing, whose arrangements for the rationing of the force were admirable, and by Captain Lye, R.I.M., Transport Officer.

4. Three British officers lost their lives in the course of the operations. Captain Boyce Morton, who was killed in action on the 6th January, was selected for the command of the North-East Column as being one of the ablest of our Battalion Commandants. His conduct of the operations up to the time of his death fully justified his reputation, and his loss is deeply deplored. Mr. Brooke-Meares, who died on the 20th January of wounds received in action, and Lieutenant Master, who died on the 6th February, also of wounds received in action, were both promising young officers. The Chief Commissioner records their deaths with great regret.

5. Of the other British officers who were concerned in the operations, the Chief Commissioner desires in the first instance to refer to Surgeon-Major Lloyd. This officer conducted his duties throughout with the greatest assiduity and disregard of danger. I am to invite special attention to his gallant conduct on the occasion when Captain Morton was killed, and to express a hope that Surgeon-Major Lloyd may be recommended for the Victoria Cross. His Excellency the Commander-in-Chief in India has already recommended that the native officer and men named in the margin should be admitted to the 3rd class of the Order of Merit for conspicuous gallantry on this occasion, and that the gallant conduct of Bugler Purna Singh, No. 1889, who was killed while helping to carry Captain Morton into the fort, should be recognized by the admission of his widow to the pension attached to the Order. The Chief Commissioner cordially supports the above recommendations.

6. After the death of Captain Morton the command of the operations devolved upon Captain W. G. Alban, Commandant of the Mandalay Battalion of Military Police, who had been previously in command of Kaukkwè Battalion in the Katha district.

Captain Alban deserves the highest credit for the forced march of 100 miles in 78 hours over an exceedingly difficult country, by which he proceeded with his column to the relief of Sima; and in his subsequent conduct of the operations he exhibited all the best qualities of a soldier. The Chief Commissioner is of opinion that he has shown himself to be an officer of ability and dash and one thoroughly qualified for the command of a regiment. He desires to bring his services prominently to the notice of the Government of India. Captain G. D. Atkinson, Commandant of the Bhamo Battalion, the next senior officer deputed to the relief of Sima after the death of Captain Morton, behaved with conspicuous gallantry in the action of the 3rd February at Palap, and was on this occasion, for the third time during his service in Burma, wounded in action. The capture of the blockhouse was a brilliant exploit which dealt the final blow to the Kachins and practically brought the operations to a conclusion. Captain Atkinson's services on this occasion deserve special recognition. The Chief Commissioner regrets to add that Captain Atkinson has since been compelled to proceed to England on sick leave. The services of Lieutenant Dreyer and of Lieutenants Dent and Cooke-Hurle, of the Intelligence Department, both of whom were wounded in the course of the operations, also deserve special mention.

7. The Chief Commissioner supports the recommendation of the Inspector-General of Police that the following Native officers and men should be admitted to the Order of Merit:—

Jemadar Sowan Singh, Magwe Battalion;
Jemadar Lal Bir Thappa,
Jemadar Man Bir Thappa,
Sepoy Unbahadur Thappa, } Mogaung Levy;
Havildar Roda Singh,
Havildar Mahommed Khan, } Mandalay Battalion;

and that the widows (if any) of the following may be admitted to the pension attached to the Order:—

Naik Fakir Mahommed,
Lance-Naik Nar Sing Das, } Mandalay Battalion.
Naik Nur Jahan Khan,

Jemadar Sowan Singh was specially commended by Lieutenant Dent for the manner in which he led his men on the 12th December in the advance on Sima and again by Captain Morton for his gallantry in the attack on Kamjar village on the 13th December. Jemadar Lal Bir Thappa was specially commended by Captain Morton for his courageous conduct in rushing stockades and leading his men on the 13th December, and Jemadar (at that time Havildar) Man Bir Thappa for gallantry in rushing stockades and with flanking parties on the same occasion. These two Native officers again distinguished themselves in the attack on Palap on the 17th December. Jemadar (then sepoy) Unbahadur Thappa was dangerously wounded on the 13th December and was the first sepoy to scale the last stockade in the final rush on Kamjar village. The above Native officers were all strongly recommended by the late Captain Morton for the Order of Merit. The services

of Havildar Roda Singh, Havildar Mahommed Khan, and of the late Havildar Jaffer Khan, Naik Fakir Mahommed, Lance-Naik Nar Sing Das, and Naik Nur Jahan Khan are detailed in Captain Alban's letter of the 11th March to the Inspector-General of Police, which forms one of the enclosures submitted with the present letter.

8. In conclusion, the Chief Commissioner desires to record his high appreciation of the services of Mr. H. F. Hertz, Assistant Superintendent of Police, who was present throughout the operations as Chief Civil Officer with the column. Mr. Hertz has now been employed for several seasons on political duty in the Kachin hills. He has always conducted his duties with marked ability and judgment. He has acquired a knowledge of Kachin and has been remarkably successful in his dealings with the tribes. During the recent operations he exhibited on several occasions great bravery in the field, and it is probable that, if his advice had been followed during the period immediately succeeding Captain Morton's death, the subjugation of the Kachins would have been more rapid and the opposition to our forces would not have attained such serious dimensions. Mr. Hertz's health has broken down under the hardships and exposures which he underwent during the operations, and he has been compelled to proceed to Europe on furlough for one year on medical certificate.

The Resident at Aden will receive the Earl of Elgin with all the honours and distinctions which are due to the Viceroy of India.

His Excellency the Governor of Bombay will make arrangements, in communication with the Naval authorities, for the landing and reception of the Earl of Elgin at Bombay with all the honours and distinctions which are due to the Viceroy of India.

An Aide-de-Camp of the Viceroy will proceed to Bombay to attend upon the Earl of Elgin throughout his journey from Bombay to Calcutta.

One of the principal Civil Officers of each Government or Administration will be deputed to meet the Earl of Elgin as he enters the limits of such Government or Administration, and will remain in attendance upon His Lordship until he passes beyond those limits.

At the Railway stations at which halts are made for rest and refreshment, Civil and Military Officers will be in attendance. There will also be a Guard of Honour upon the platform.

Should the Earl of Elgin make any stay at Allahabad, His Honour the Lieutenant-Governor of the North-Western Provinces will make all arrangements, in communication with the Military authorities, for His Lordship's reception in a suitable manner.

At stations between Bombay and Howrah, other than those mentioned in the two preceding paragraphs, the attendance of officers is dispensed with.

Proper police precautions will be taken at all the stations along the line at which the train stops.

Upon the Earl of Elgin's arrival at the Howrah terminus of the East Indian Railway, His Lordship will be received by the Secretaries to the Government of India and by the Military Secretary and Aides-de-Camp to the Viceroy.

The following officers will also be in attendance upon the Howrah Railway platform :—

The Commissioner of Burdwan.

One of the Secretaries to the Government of Bengal.

The Brigadier-General Commanding the Presidency District with the District Staff.

The Commissioner of Police, Calcutta.

The Chairman of the Commissioners of Calcutta.

The Sheriff of Calcutta.

The Magistrate of Howrah.

A Guard of Honour of Native Infantry will be drawn up at the Howrah terminus.

The Earl of Elgin, attended by his personal staff, by the Secretaries to the Government of India, by the Military Secretary and Aide-de-Camp of the Viceroy, will proceed to Government House in the Viceroy's carriages escorted by the Body Guard.

The line of route will be lined throughout by troops under the orders of the Brigadier-General Commanding the Presidency District.

A Royal salute will be fired from the ramparts of Fort William as the cortége appears upon the Hooghly Bridge.

A Guard of Honour of British Infantry and a Guard of Honour of the Administrative Battalion, Presidency Volunteers, will be drawn up opposite the grand entrance of Government House.

The Earl of Elgin will be received as he alights from the carriage at the foot of the grand staircase by His Honour the Lieutenant-Governor of Bengal attended by his personal staff.

All the Civil and Military Officers of Government at the Presidency will be in attendance upon the grand staircase of Government House. Consular Officers and other Representatives of Foreign Governments at Calcutta, and all non-official gentlemen, are invited to be present upon the grand staircase.

His Excellency the Viceroy and Governor General, attended by his personal staff and the Members of the Governor General's Council, will receive the Earl of Elgin at the top of the grand staircase, and will conduct His Lordship to the Throne Room.

The troops will then be withdrawn.

Full dress will be worn by Civil and Military Officers, and morning dress by all gentlemen not entitled to wear uniform.

The date and hour of the Earl of Elgin's arrival at Howrah and the ceremonial to be observed on his assumption of the office of Viceroy and Governor General of India will be notified hereafter.

Despatch to the Secretary of State for India, No. 2 Tel., dated 25th January 1893.
Public Works Department Resolution No. 54 T. E., dated 27th March 1893.
Despatch from Secretary of State, No. 18 Tel., dated 27th July 1893.

OBSERVATIONS.—In Public Works Department Resolution No. 135 T. E., dated the 21st October 1887, the Government of India, with the approval of Her Majesty's Secretary of State, fixed the strength of the Superior Establishment of the Indian Telegraph Department at 84. The ultimate distribution of the total strength between the various grades into which the department is divided was fixed with reference to the normal requirements of the department, but in view of the fact that the total strength was liable to fluctuation owing to the special terms of retirement offered to officers of the blocked years, the Government of India reserved the right to fix, from time to time, the numbers to be allowed in each grade.

2. The special terms of retirement referred to have now been cancelled under Public Works Department Resolution No. 54 T. E. of 27th March 1893, and the deficiency in total strength occasioned by the retirements that took place is being met by special measures of recruitment. The total strength of the department is therefore now approximately normal, but the strength of 84 fixed in 1887 has to be increased to 86, in order to provide for the additional staff required in consequence of the working and control of the telegraphs in Kashmir having been transferred to the Director General of Telegraphs.

RESOLUTION.—The Government of India are accordingly pleased, with the approval of Her Majesty's Secretary of State, to sanction the increase in the aggregate strength of the Superior Establishment of the Indian Telegraph Department from 84 to 86. The ultimate distribution of the total strength between the various grades will be as follows :—

| | Gradation previously sanctioned. | Gradation now sanctioned. |
|---|---|---|
| Class I.—Director General | 1 | 1 |
| " II.—Deputy Director General | 1 | 1 |
| " III.—Directors | 2 | 2 |
| " IV.—Chief Superintendents | 4 | 4 |
| " V.—Superintendents, 1st grade | 10 | 10 |
| " V.— " 2nd " | 12 | 13 |
| " VI.—Assistant Superintendents, 1st grade | 12 | 12 |
| " VI.— " " 2nd " | 13 | 14 |
| " VII.— " " 1st " | 14 | 14 |
| " VII.— " " 2nd " | 15 | 15 |
| TOTAL | 84 | 86 |

The Government of India continue to reserve the power to fix from time to time the numbers in the various grades below class IV on the terms observed since 1887, which were explained in Public Works Department Resolution No. 55 T. E., dated 24th March 1892, published in the Supplement to the *Gazette of India*.

ORDER.—Ordered, that this Resolution be forwarded to the Director General of Telegraphs and to the Accountant General, Public Works Department, for information and guidance, and that it be published in Part I of the *Gazette of India*, also that copy of this Resolution be forwarded to the Finance and Commerce Department for information.

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

## REVENUE DEPARTMENT.

*[Revised Advertisement.]*

### A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

*Reporter on Economic Products.*

*Published under the authority of the Government of India in the Revenue and Agricultural Department.*

**The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.**

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts) Part I contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

## REVENUE DEPARTMENT.

[*Revised Advertisement.*]

### A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

*Reporter on Economic Products.*

***Published under the authority of the Government of India in the Revenue and Agricultural Department.***

**The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.**

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts) Part I contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

## CHIEF COMMISSIONER OF AJMERE-MERWARA.

### NOTIFICATIONS.

*Abu, the 5th July, 1893.*

**No. 686—562.**—The Chief Commissioner is pleased to substitute the following rules for those (*viz.*, 23—36) published, under section 110 (*a*) of the Ajmere Land and Revenue Regulation, II of 1877, in this Office Notification No. 110—695, dated the 6th February, 1889 :—

UNDER SECTION 110 (*a*).

*Assessment of Land Revenue—Lands variably assessed.*

23. Of land variably assessed to revenue there shall be two classes :—

*Class I.*—The portions of villages lying in the beds of certain tanks which are liable to submergence, and which have been demarcated by the Settlement Officer.

*Class II.*—Whole villages in which a standard revenue has been assessed on a standard cultivated area by the Settlement Officer.

24. In lands of class I, the cultivation of each harvest shall be recorded and measured up. The revenue due shall be found by applying to the cultivated area the rate or rates fixed by the Settlement Officer at settlement.

25. In variably assessed villages, class II, the assessment shall be made by the standard rate assessed at settlement on the cultivated area This standard rate is the rate for dry cultivation, and to it, as a basis, all other rates in the village must be referred. The other rates are all multiples of the dry rate, and to find the dry unit area, the area under each class of cultivation (chahi, talabi, abi, and dry) must be multiplied by the multiple of its own class.

(NOTE.—When the area actually cultivated exceeds the standard area, the excess of the demand over the standard revenue will be credited to Government. When such area falls below the standard area, the difference between the standard revenue and the amount actually demanded will be remitted.)

26. The area to be assessed shall comprise all cultivation except that of "muafi" and "bhum" lands.

27. The record of measurements for purposes of assessment shall give the necessary details for—

1. Lands assessable at well (chahi) rates.
2. Ditto at tank (talabi) rates.
3. Ditto at wet (abi) rates.
4. Ditto at dry rates.

28. The assessments shall be made under the superintendence and orders of the Collector.

29. The following general rules shall be observed :—

(*a*) Lands irrigated from a well, existing as such at Mr. La Touche's settlement, shall be liable to assessment at well (chahi) rates.

(*b*) Lands irrigated from a village tank or nadi, existing as such at Mr. La Touche's settlement, shall be liable to assessment at the same rate as lands assessed as irrigated from such tank or nadi.

(*c*) Lands cultivated in the beds of village tanks or nadis, existing as such at Mr. La Touche's settlement, shall be liable to assessment at abi rates.

(*d*) Lands irrigated from a well or village tank or nadi, not existing as such at Mr. La Touche's settlement, or lying in the bed of such village tank or nadi and cultivated, shall be assessed as dry.

(*e*) Lands assessed at settlement as irrigated or as "abi", but growing dry crops only, shall be assessed as dry.

*Explanation.*—Irrigated includes irrigation from wells, village tanks, and nadis referred to in clauses (*a*) and (*b*), but does not include irrigation from variably or permanently assessed tanks.

(*f*) Lands assessed as irrigated from a permanently assessed tank shall pay full "talabi" rates, whether irrigated or not

(*g*) Lands assessed as irrigated from a variably assessed tank shall pay "talabi" rates under the rules in force for such tanks.

(*h*) Lands irrigated from any stream that feeds or issues from any Government tank that has been permanently assessed, or feeds or issues from any such village tank or nadi, as is referred to in clause (*b*), shall be liable to assessment at "talabi" rates.

(*i*) In the case of lands irrigated from different sources in the same harvest, the rate shall be regulated by the source supplying the greatest number of waterings, or where that number is equal, by the source assessable at the highest rate.

(*j*) Double cropped dry lands assessed as such shall only pay the assessment for one harvest.

(*k*) Lands growing dry crops or crops assessed as dry in the autumn (kharif) harvest shall pay the dry rate only, and if such lands become liable to assessment as irrigated for the spring (rabi) harvest, the rate for this latter shall be the full irrigated minus the amount collected on account of the autumn harvest. Similarly, lands paying full irrigated rates for the autumn harvest, and growing dry crops or crops assessed as dry in the spring harvest, shall not be liable to assessment for the latter.

(*l*) Lands paying a higher rate for their position under a variably assessed tank shall be assessed at this higher rate, if cultivated, even though not irrigated during that harvest.

(*m*) Lands growing fodder crops for cattle in the hot weather shall not be liable to assessment, and in no case shall lucerne grass grown under wells pay more than a single rate for the whole year. Under each well land cultivated with lucerne grass shall, to the extent of one bigah, be assessed at dry rates only.

Land under lucerne grass in excess of that area shall be assessed at the usual rates.

30. When the total demand of a village for the harvest has been found, the amount payable by each sharer will be found by multiplying the standard rate into the area of his cultivation as shewn in the "khatauni."

31. The Commissioner may declare that in any particular village, the crop on unirrigated land has been only a three-quarter crop or half crop or quarter crop or *nil*, and may reduce the assessment on such land accordingly. If the crop on such land has only produced the amount of grain required for seed grain, it shall not be assessed.

32. When the actual assessable cultivated area has been found by the above rules, the assessment shall be made in the manner indicated in Rule 25.

*Example.*—At the time of settlement, the Settlement Officer determined that the assessable area of a village ordinarily cultivated was—

| | Acre. | Rate of assessment per acre. ₹ a. p. | Total assessment. ₹ a. p. |
|---|---|---|---|
| Dry | 124 | 0 10 0 | 77 8 0 |
| Abi | 40 | 1 9 0 | 62 8 0 |
| Tank | 8 | 2 13 0 | 22 8 0 |
| Well | 50 | 3 12 0 | 187 8 0 |
| TOTAL | 222 | ... | 350 0 0 |

This area is reduced to a multiple of dry units in the following manner :—

The abi rate of ₹1-9 the acre is $2\frac{1}{2}$ times the dry rate.
The tank rate of ₹2-13 the acre is $4\frac{1}{2}$ times the dry rate.
The well rate of ₹3-12 the acre is 6 times the dry rate.

The area in terms of dry units will therefore be—

| | | |
|---|---|---|
| Dry | 124 × 1 | = 124 acres. |
| Abi | 40 × $2\frac{1}{2}$ | = 100 „ |
| Tank | 8 × $4\frac{1}{2}$ | = 36 „ |
| Well | 50 × 6 | = 300 „ |
| TOTAL | | 560 „ |

This 560 acres is called the standard dry unit area, and when multiplied by the dry rate of 10 annas gives the standard revenue of ₹350.

33. An English register in the following Form (No. IV) shall be kept up in the Collector's Office, and an opening of two pages shall be assigned to each variably assessed village. In this register the assessment of each harvest shall be recorded.

FORM NO. 4.

34. In the column of remarks of the above register, a brief note of any of the remarkable events of the year, as affecting the revenue history of the village, shall be entered.

35. In villages variably assessed, the Lumberdars' fees shall be five per cent. on the amount actually collected by them, and all the cesses shall be calculated on the annual demand.

36. With his annual Revenue Report, the Collector shall submit three statements in the forms (Nos. V, VI, and VII) given below.

Statement No. I (Form V) refers to the assessment of variably assessed beds of tanks. It shall be prepared separately for each harvest and submitted whether any assessments have been made or not.

Statement No. II (Form VI) refers to the assessment of variably assessed villages in the autumn (kharif) harvest.

Statement No. III (Form VII) refers to the assessment of variably assessed villages in the spring (rabi) harvest.

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

## REVENUE DEPARTMENT.

[*Revised Advertisement.*]

### A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

*Reporter on Economic Products.*

*Published under the authority of the Government of India in the Revenue and Agricultural Department.*

**The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.**

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts) Part I contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

## REVENUE DEPARTMENT.

*[Revised Advertisement.]*

### A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

*Reporter on Economic Products.*

***Published under the authority of the Government of India in the Revenue and Agricultural Department.***

**The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.**

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts) Part I contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

## REVENUE DEPARTMENT.

*[Revised Advertisement.]*

### A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

*Reporter on Economic Products.*

*Published under the authority of the Government of India in the Revenue and Agricultural Department.*

The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): **packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.**

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts) Part I contains letters P to R. The whole work will be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

## REVENUE DEPARTMENT.

[*Revised Advertisement.*]

**A Dictionary of the Economic Products of India.**

BY DR. GEO. WATT, C.I.E.,

*Reporter on Economic Products.*

*Published under the authority of the Government of India in the Revenue and Agricultural Department.*

The first five volumes and Volume VI, Parts I and II, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts) Part I contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

## CHIEF COMMISSIONER OF AJMERE-MERWARA.

NOTIFICATIONS.

*Abu, the 1st August, 1893.*

**No. 814-373.**—Surgeon-Major D. ffrench-Mullen, M.D., I.M.S. (Bengal), Civil Surgeon, Ajmere, and in medical charge of the Merwara Battalion, is granted privilege leave for three months, with effect from the 26th ultimo.

**No. 818.**—In exercise of the powers conferred by Section 40 of Act II of 1886 (an Act for imposing a tax on income derived from sources other than agriculture, the Chief Commissioner is pleased to invest, and does hereby invest, Lala Gopinath, Income Tax Assessor in Ajmere-Merwara, with all or any of the powers which may be exercised by a "Collector" under Sections 41 to 44 (both inclusive) of the Act.

*The 4th August, 1893.*

**No. 831-866.**—With reference to this office Notification No. 413, dated the 18th April, 1893, the following rules have been made by the Chief Commissioner under Section 18 of the Indian Factories Act, XV of 1881, as amended by Act XI of 1891, and are hereby published for general information and guidance :—

Rule 1. The terms "Factory," "child," "mill-gearing," and "employed," when used in these rules, shall have the meaning given to them in the Act.

2. The Assistant Commissioners of Ajmere and Merwara for the time being are hereby appointed "Inspectors" under section 3 of the Act within the local limits of their respective jurisdictions. The District Superintendent of Police for the time being is hereby appointed "Joint Inspector" throughout Ajmere-Merwara. The Inspectors shall be officially subordinate to the Commissioner of Ajmere-Merwara; and the "Joint Inspector" shall be officially subordinate to each Inspector so far as his district is concerned.

3. Each Inspector shall keep a register of all factories within his jurisdiction in the Form A attached to these rules, and a permanent serial number shall be given to each factory.

4. Each Inspector shall inspect factories within his jurisdiction not less than twice a year and satisfy himself that the provisions of the Act are duly observed.

5. An Inspector may enter any factory for the purposes of section 4 of the Act at any time during the day, provided that he shall, in order to verify registers kept under section 9 of the Act, examine the children employed in working hours.

6. The Magistrate of the district or Inspector shall send through the post, under registered cover, a notice to the occupier of any factory which he may consider as coming within the purview of the Act, intimating his intention of placing the factory upon his register.

7. Any person served with a notice under the preceding rule, whose premises do not, in his opinion, fall within the definition of "Factory" given in the Act, may, within 15 days of the receipt of such notice, forward to the Magistrate of the district a statement setting forth his objections to the registration of the premises as a factory. The District Magistrate shall consider and dispose of such objections according to law, after making such inquiry as he may deem necessary, and intimate his decision to all concerned.

8. When any premises ceased to be occupied as a factory, the occupier may give notice of the fact to the Inspector of the district, who shall, if satisfied that the Act is no longer applicable to such premises, remove them from his register of factories, and intimate the fact of his having done so to the "Joint Inspector."

9. Each Inspector and "Joint Inspector" shall keep a register of inspection in Form B attached to these rules, in which shall be recorded all orders or remarks passed by him at each inspection.

10. Each Inspector shall at once forward a copy of his inspection memorandum to the Commissioner of Ajmere-Merwara, and also to the occupier of the factory inspected. The despatch through the post under a registered cover of a copy of the inspection memorandum shall be deemed to be sufficient service on the occupier of the factory of any orders or directions therein contained. The "Joint Inspector" shall forward copy of his inspection memorandum through the Inspector of the district to the Commissioner of Ajmere-Merwara.

11. Under section 5 of the Act, the Civil Surgeon of Ajmere is hereby appointed to be the certifying surgeon for the district of Ajmere; and the Assistant Surgeon of Beawar is appointed to be the certifying surgeon for the district of Merwara.

12. It shall be the duty of each certifying surgeon of the district to certify, in Form C attached to these rules, the age of any person employed or desirous of being employed in a factory when called upon to do so under section 5 of the Act. A fee of 4 annas shall be the fee payable to a certifying surgeon by or on behalf of the person to be examined for examining him and granting him a certificate in the said form. The Inspector of each district shall provide the certifying surgeon of his district with blank forms of such certificate.

13. Every occupier of a factory shall keep a file of all certificates of certifying surgeons relating to children in his employ, and shall produce it when required by the Inspector or "Joint Inspector." Every such certificate shall be returned by such occupier to the parent or guardian of the person to whom it relates on his leaving the factory for other employ, and on demand of such parent or guardian, and on receipt of the cost of such certificate, if such cost was originally paid by the occupier.

14. Every occupier of a factory shall keep a monthly register in Form D attached to these rules, and no such register shall be destroyed or removed from the factory without the written permission of the Inspector of the district.

15. The occupier of the factory shall, if required by the Inspector or "Joint Inspector," bring before him, on the occasion of any inspection, all children employed in the factory and any other persons in the service of such occupier whom the Inspecting Officer may wish to see; also all registers, certificates, and notices required by the Act or any rule made thereunder to be kept or issued by such occupier or in the factory.

16. Notice in writing of all accidents resulting in death, or from which the injury is evidently so severe that there is no reasonable hope that the injured person will be able to return to his work within 48 hours, shall be given on the same day on which the accident occurs. Notice of accidents of a less severe character, but which nevertheless prevent the person injured from returning to his work within 48 hours of their occurrence, shall be given immediately on the expiry

of the 48 hours' interval allowed by section 13 of the Act. All notices of accidents shall be in Form E, and shall contain the name of the person or persons injured and full information as to the nature and cause of the accident, and shall be sent by special messenger to each of the following officers, namely :—

(*a*) Inspector of the district ;
(*b*) The nearest Magistrate having jurisdiction ; and
(*c*) The officer in charge of the nearest police-station.

17. Every order for the fencing of any part of the machinery or mill-gearing of a factory, which the District Magistrate or Inspector may pass under section 12 (*c*) of the Act shall state clearly what is required, so that the said machinery or gearing may be securely fenced, and shall specify a reasonable time within which what is required to be done shall be completed, and it shall further give notice that if it shall not be so completed, the person responsible for the breach of the order will be prosecuted under section 15 of the Act.

18. Every occupier of a factory shall set up and maintain in a conspicuous place in the factory a printed or written notice in English, Urdu, and Hindi of the daily working hours of the factory in Form F annexed.

19. Appeals from the orders of Inspectors under the Act shall lie to the Commissioner of Ajmere-Merwara.

20. Appeals should be in the Form of a memorandum of appeal, similar to that contained in the fourth schedule to the Code of Civil Procedure No. 173, and the stamp fee for such appeal should be regulated according to the provisions of Article 11, Schedule II of the Court-Fees Act or such provisions as may for the time be in force.

21. If the order of an Inspector is set aside or modified in appeal, the Inspector shall, as early as possible, deliver to the occupant of the factory such amended orders as may be in conformity with the orders of the Commissioner.

22. In every factory a supply of pure potable water from one or other of the following sources shall be provided :—

(*a*) from a general Municipal water service ;
(*b*) from one or more wells or reservoirs so situated as not to be liable to be polluted or contaminated with organic matter or other impurities.

23. When taps are not used, a suitable establishment must be maintained for the drawing, protection, and distribution of the water.

24. Proper arrangements must be made for maintaining in drained and cleanly condition the area around the spot set apart for the distribution of the water.

25. Every occupier of a factory shall, on every day on which work is carried on in the factory he occupies, have available at the said factory for the use of the persons employed therein, free of cost to them, a water-supply consisting of at least twice as many gallons of water as there are persons employed in the factory. Of the whole supply at least as many gallons as there are persons employed in the factory shall be fit for potable purposes, and the remainder shall be fit for purposes of washing.

26. All the inside walls of the rooms of every factory and all the ceilings or tops of such rooms (whether such walls, ceilings, or tops be plastered or not) and all the passages and staircases of every factory, if they have not been painted with oil or varnished once at least within seven years, shall be limewashed by the occupier of the factory once at least within every 14 months to date from the period when last limewashed, and, if they have been so painted or varnished, shall be washed by the said occupier with hot water and soap once at least within 14 months to date from the period when last washed.

27. The floors of factories shall be swept at least once a week or oftener if to do so is necessary to maintain them in a cleanly condition.

28. The minimum space provided for each person employed in any room of a factory shall be 36 superficial feet, 500 cubic feet, and 10 square feet of lateral ventilating opening. Provided that in cases in which lateral ventilation cannot be contrived on account of the nature of the industry carried on in such room, sufficient interchange of fresh air shall be ensured by forced ventilation or other means as the Inspector may deem sufficient, or if this cannot be managed, a minimum of 54 superficial feet and 900 cubic feet shall be provided for each person employed.

Provided also that subject to the control of the Commissioner, the Inspector may, for reasons to be recorded in writing, relax the conditions of this rule where in his opinion this may be done with due regard to the health of the factory hands employed in any particular room or rooms of a factory.

29. All drains carrying waste or sullage water shall be constructed in masonry or other impermeable material, and shall be regularly flushed and connected with some recognised drainage line.

30. The compound surrounding every factory shall be maintained in a strictly sanitary and cleanly condition.

31. A legible copy of these rules, with translations thereof in Hindi and Urdu, shall be kept hanging in a conspicuous place in each factory. If the copy become defaced or illegible, a fresh copy must be supplied.

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

## REVENUE DEPARTMENT.

[*Revised Advertisement.*]

### A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

*Reporter on Economic Products.*

*Published under the authority of the Government of India in the Revenue and Agricultural Department.*

**The first five volumes and Volume VI, Parts I, II, and III, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings respectively will be charged extra for the whole set.**

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts) Part I contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

## THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

*Terms of subscription payable annually in advance.*
