GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT

Buildings and Roads.
Civil Works.

READ—the following papers:—

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Bezwada, 20th February 1897, No. 3342 K.N.

In reference to G.O., No. 2956 W., dated 19th October 1896, I have the honour to forward a letter, No. 645 S.E., dated 21st December 1896, from Mr. Keeling on the subject of the note by the Chief Engineer printed with the above Government Order.

2. A memorandum showing how the church can be arranged to seat a larger congregation than originally estimated is also attached.

3. The question of the best site is still an open one, and I think it will be necessary to appoint another committee to decide it.

4. The committee may consist of —

The Collector,
„ Superintending Engineer,
„ Executive Engineer, Kistna Northern division;

and the Rev. J. Stone might be asked to join the committee to represent the Church Missionary Society.

5. I forward plans of the three sites that have so far been seriously considered, and I should mention that the site in the enclosure of the Church Missionary Society was strongly supported by the Rev. J. Harrison and approved of by the Lord Bishop of Madras and the Madras Committee of the Church Missionary Society. This site, however, is strongly objected to by the Collector and I understand also that objections will be raised to it by the educational members of the Church Missionary Society.

6. I trust that it will be possible to settle this question soon and that funds will be available to commence construction early next year. The Church Missionary Society have, I understand, the full amount of their share of the funds ready, viz., Rs. 7,000, but it would not do to commence work until the whole of the money is likely to be available.

Note by the Chief Engineer, Public Works Department.

The Superintending Engineer's proposal that another committee should be appointed to select a site for the church to be constructed at Bezwada, is submitted for the approval of Government.

2. The Chief Engineer is unable to recommend the adoption of the site mentioned in paragraph 3 of the Superintending Engineer's letter of the 15th May 1896, printed with G.O., No. 2956 W., dated 19th October 1896. It is far too near the river, and the rise and fall of the water would affect the soil in foundations. It is well known that all the rest-houses built near canals crack when there is no water, and that these cracks fill up when the canals are full.

3. On the selection of a fresh site, the foundations must be re-estimated for, and the plans when resubmitted, should be signed by the Superintending Engineer.

(Signed) D. McNEIL CAMPBELL, Col., R.E.,
Chief Engineer.

12th March 1897.

ORDER—No. 880 W., dated 29th March 1897.

His Excellency the Governor in Council approves the suggestion of the Superintending Engineer, II Circle, that a fresh committee be appointed to select a site for the proposed church at Bezwada. The committee will be composed as follows:—

The Collector, Kistna district,
„ Superintending Engineer, II Circle,
„ Executive Engineer, Kistna Northern division;

and the Rev. J. Stone will be invited to join it as representative of the Church Missionary Society.

2. Attention is drawn to the Chief Engineer's note above recorded.

(True Extract.)

Adm. App.
Under Secretary to Government.

To the Superintending Engineer, II Circle, with twenty-three enclosures.

„ Revenue Department.
„ Ecclesiastical Department. ✓
„ Rev. J. Stone, Church Missionary Society, Bezwada.
