CURRENT No. 204

Public Works Department.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following:-

From the Superintending Engineer, II Circle, No.241 W, dated 3rd May 1899.

From the Consulting Architect to Govt. dated 17th May 1899.

Note by the Chief Engineer, P.W.D. dated 25th May 1899:-

In G.O. No.2956 W, dated 19th October 1896, an estimate of Rs.14,000 was sanctioned for the construction of a church at Bezwada. The Executive Engineer, Kistna Northern Division, subsequently suggested various modifications, which rendered the revision of the design and estimate necessary. A revised estimate for Rs.17,080, prepared by the Consulting Architect, was sanctioned in G.O. No.491 W, dated 16th February 1899.

2. In his letter No.241 W, dated 3rd May, 1899, the Superintending Engineer, II Circle, reported that the rates allowed in the revised estimate were low, and suggested that Bezwada stone might be substituted for granite throughout the building, except in the Buttresses and in steps. The undersigned did not approve of the Superintending Engineer's suggestion, as the former is an inferior stone, and asked the Consulting Architect whether he could carry out the work for the amount of the sanctioned estimate. As the latter officer has replied that he can do so, it is recommended that the execution of the work be entrusted to him, and the allotment of Rs.7,989 provided for the work in the current year's budget transferred to his Division.

Order thereon No. 1435 W 25-6-99.

The Chief Engineer's recommendations in para 2 of his note read above are approved.
