MEMORANDUM
Endorsement

Dated Madras, 14 March 1899.

Note by the Chief Engineer, P.W.D.

The rates compare favourably with those in the West Coast Division - the nearest P.W.D. Charge - and it is thought that no material reduction can be made unless the height and thickness of the wall are reduced, and the wall is founded on mud Concrete. As there will probably be objections to building a wall of different height and section from that now existing, the estimate is returned for further orders in the Ecclesiastical Department.

(Signed) A.W. Smart, Col. R.E.,
Ag. Chief Engineer.

Transferred to the Ecclesiastical Department with reference to G.O. in that Department No. 35 dated 17 February 1899.

not said, as he usually
does in cases of this kind,
by what agency the
work should be done.
