From Major W. B. BROWNING, Honorary Secretary, Countess of Dufferin's Fund, to the Chief Secretary to Government, dated Ootacamund, 3rd July 1899, No. 98.

I have the honour again to request that the Government will be pleased to sanction, as they did last year, a grant-in-aid of Rs. 1,000 to the Victoria Caste and Gosha Hospital for the year 1899.

2. The voluntary subscriptions to the hospital have not so far been large, and the Committee do not anticipate that they will be larger this year than they were last year. They trust, therefore, that Government will be pleased to sanction the grant now applied for, with the help of which, they hope to be in a position to meet the annual expenditure connected with the institution, for the current year.

## FINANCIAL DEPARTMENT.

## NOTES CONNECTED WITH G.O., No. 889, FINANCIAL, DATED 8TH AUGUST 1899.

*From the Honorary Secretary, Countess of Dufferin's Fund, No. 98, dated 3rd July 1899.*

*For the Chief Secretary—*

In the foregoing paper the Honorary Secretary of the Countess of Dufferin's fund applies for a grant-in-aid of Rs. 1,000 to the Victoria Caste and Gosha hospital for the year 1899. Attention is solicited to G.O., No. 20, Financial, dated 9th January 1896, and to the notes therewith. The history of the case is there fully set out. While declining to accede to the application then made for a fixed annual grant of Rs. 1,500, the Government remarked that it must adhere to the determination already frequently expressed that the committee must not look for permanent assistance from State funds, but must gradually manage to maintain the hospital from contributions raised by itself. The Government, however, expressed its willingness to provide a grant of Rs. 1,500 for 1896-97, and this was sanctioned in G.O., No. 293, Financial, dated 22nd April 1896.

2. Since then, grants-in-aid of Rs. 1,100 and of Rs. 1,000 have been sanctioned from the provisions in the budgets for G.Os., Nos. 232 and 149, Financial, dated 15th March 1897 and 16th February 1898, respectively. When the Honorary Secretary in March 1897 applied for the grant of Rs. 1,100 referred to above,

he pointed out that by economical management the committee had, for several years past, been able to manage with a steadily decreasing grant from Government; that starting with a grant of Rs. 10,000 the committee was then able to manage satisfactorily with Rs. 1,100; and that the committee hoped in the very near future to be entirely independent of Government aid. In January 1898, when the grant of Rs. 1,000 was applied for, the Honorary Secretary remarked that with a tendency to agricultural distress it was believed that there would be a falling off in subscriptions and donations, while the experience of the committee led it to assume that there would be no falling off in the disbursements—rather the contrary. The committee considered, however, that by judicious management and with the grant-in-aid applied for they would be able to tide over the period. In the present case the Honorary Secretary states that the voluntary subscriptions to the hospital have not so far been large and that the committee does not anticipate that they will be larger this year than they were last year. It is for orders whether the grant applied for should be sanctioned.
