ENCLOSURE.

Proceedings of the Director of Public Instruction, Dis. No. 3434, dated 3rd June 1907.

Read—the following paper :—

Letter—from M.Ry. Rao Bahadur M. RANGACHARYA, M.A., Curator, Government Oriental Manuscripts Library.

To—the Director of Public Instruction.

Dated—the 5th May 1907.

No.—C. No. 66.

I have the honour to submit the report on the working of the Government Oriental Manuscripts Library during the year 1906-1907.

2. *Staff*.—Owing to illness I had to take privilege leave for 3½ months, from 31st July 1906 and during the major portion of my leave, i.e., from 28th August 1906 to 30th October 1906, Mr. R. Krishnamachariar, Sub-Assistant Inspector of Sanskrit Schools, was in charge of the office of Curator. P. Varadachari, B.A., the late Vernacular Munshi of the Library, was transferred to Bellary as Head Clerk, office of the Inspector of Schools, II Circle, and the vacancy caused thereby was filled up by the appointment as Vernacular Munshi, of T. S. Rangachari, B.A., who was a clerk in the Military Accounts Department, Madras. K. Venkateswara Sastri, the Assistant Librarian, took privilege leave for two months from the 6th February 1907 and D. S. Satagopachari, the next junior clerk, was appointed to act for him, the latter's place having been filled up by the appointment of E. R. Krishnamachari as acting clerk.

3. *Contingent and travelling expenses*.—A sum of Rs. 2,200 was sanctioned by the Director of Public Instruction in his No. 2993, dated 8th May 1906, on account of contingent and travelling expenses. A large number of rare and useful manuscripts brought by me, on loan, from Cochin in the previous year, remained to be copied during this year and the provision of Rs. 650 made under the head "Transcription of manuscripts" was found inadequate. The publications of the Madhva Vilāsa Book Depot, Kumbakōnam, and several other printed works were received in loose leaflets and as these had to be bound, extra provision was also required under "Other contingencies." To meet the extra demand under these two heads, viz., "Transcription of manuscripts" and "Other contingencies," additional sums of Rs. 300 and Rs. 50 were made available under these respective heads, by reductions of Rs. 250 and Rs. 100 from the heads "Purchase of manuscripts, etc.," and "Travelling allowances," respectively. The amount allotted for the purchase of manuscripts, etc., was thus reduced from Rs. 1,050 to Rs. 800 and out of this sum Rs. 180 was utilised in connection with (1) the printing of the "Ganitasārasaṅgraha", (2) the publication of a rare and useful philosophical work called "Sarvasiddhāntasaṅgraha" with an English translation, and (3) the publication of the descriptive catalogue of Tamil manuscripts in the library.

4. *Visitors, and manuscripts consulted*.—The slight increase in the number of visitors and in the number of works consulted and copied, indicates that the popularity and utility of the library has been more than maintained. Forty-six thousand four hundred and thirty "Granthas" of manuscript matter as against 36,000 "Granthas" during last year, were supplied during the year under report to European and Indian scholars. This figure represents the work done for the public under the supervision of the staff of the library, and does not include the copying work done by students and visitors for themselves. This increase of more than 10,000 "Granthas" in respect of copies supplied to scholars is a further proof of the growing popularity of the library as also of the steady increase in the work which has to be done by the staff. The library has also been rendering help in the matter of correction and collation to publishers of oriental works. The addition, year after year, of printed works of reference to the library is of much value to the staff in relation to the various kinds of work to be done in the library, and is also greatly appreciated by students. The value of the manuscripts in the library is specially significant from the fact that some of them were summoned for by the High Court at Madras and also by the District Court of Vizagapatam as necessary to decide certain important questions in law suits.

5. *Tours for the collection of manuscripts*.—Owing to my ill-health I was not able to undertake any long tours for the collection of manuscripts. But I visited certain private libraries in the North Arcot and Chingleput Districts and examined them with the help of a Pandit of the office. As it was not possible to make any prolonged stay in any of the places without prejudice to my other duties, I was able to get only a small but valuable collection of manuscripts as will be seen from appendix B at the end. T. S. Rangachari was sent out to the Tanjore, Trichinopoly and Madura districts and was able to collect 148 manuscripts. Some of these were presented and some purchased and some others again were obtained on loan. D. S. Satagopachari was sent out to certain villages in the Chingleput district and he was able to obtain for the library a collection of 54 manuscripts. As usual, such manuscripts as were considered to be of value and could not be obtained on loan were ordered to be copied at outside stations.

6. *Manuscripts acquired*.—Six collections of manuscripts were purchased and six collections were received as presents during the year. The total number of manuscripts added during the year is 349 as against 424 in the previous year. The decrease is due to the utilisation for transcription purposes, of a portion of the funds allotted for the purchase of manuscripts. The number of manuscripts copied was 93 as against 123 in the previous year. The reason of the numerical decrease here is not that the quantity of matter copied has been less, but that the works copied are more voluminous; and most of them have had to be copied in Devanāgarī characters to secure greater utility.

7. *Catalogues*.—(1) *Catalogue of manuscripts acquired during the year 1906-1907*.—A list of manuscripts acquired with details regarding their importance, rarity and usefulness is given in appendix B of this report.

(2) *Descriptive catalogue of the manuscripts acquired since 1899*.—Out of the 353 slips which, as stated in last year's report, related to works acquired during 1899-1900, 1900-1901 and 1901-1902, and which remained to be included in the Descriptive Catalogue, 52 slips pertained to the subject that was being dealt with during the year under report and these have accordingly been incorporated in the Descriptive Catalogue of Sanskrit manuscripts printed during the year. Similarly some slips that related to Tamil manuscripts have also been included in the Tamil catalogue. The very heavy work in connection with the printing of the Sanskrit descriptive catalogue, together with that connected with the descriptive catalogue of the Tamil manuscripts, took up so much of the time of the staff that the preparation of descriptive slips in relation to manuscripts acquired since 1902-1903 could not be particularly attended to.

(3) *Descriptive catalogue of Sanskrit manuscripts*.—During the year under report 1,079 slips relating to as many works from No. 2366 to 3444 were revised and printed, these slips covering 951 pages in the descriptive catalogue, as against 1,049 slips covering 697 pages in the previous year. The third volume consisting of 337 pages relating to works on "Grammar, Lexicography and Prosody" was published

during the year; and Part I of the fourth volume, consisting of 532 slips and covering 354 pages of printed matter, is now in proof and will shortly be issued. This part refers to works known as Itihāsa and Mahāpurāṇa.

(4) *Descriptive catalogue of the Vernacular manuscripts—Tamil manuscripts.*—The 93 slips that had been sent to the press during last year have all been printed during the year under report, and in addition 107 slips were revised and sent to the press.

Telugu manuscripts.—Of these, 565 works were examined and described. Some of these works consisted of several volumes each, and these had to be picked up and described in a single slip. Consequently the number of manuscripts actually examined is very much in excess of the number of slips prepared. To do this work, so many as 621 manuscripts have had to be examined with great care.

8. *Publication of works.*—In regard to the publication of works undertaken by the library, the printing of the Sanskrit original of the “Sarvasiddhāntasaṅgraha” is very nearly complete, and the translation is ready to be sent to the press. The poem “Rāmacarita” referred to in last year’s report has been copied and compared and sent to one of the editors of the Kāvya-mālā series in Bombay for publication therein. The comparing and collating of the “Lingānuśāsana” has been finished. This kind of work is still going on in relation to “Padyacūdāmaṇi” and “Kautilya-Arthaśāstra.” The publication of “Gaṇitasārasaṅgraha,” including the original and the translation, has also been making progress. There would have been more progress in connection with this item of work, if I had not had to take leave owing to illness; and it was naturally impossible for Mr. R. Krishnamachariar to look after this item of work during the short time he was appointed to be in charge of the Curatorship, without prejudice to his own duties.

9. *Preservation of manuscripts.*—During the year under report 409 manuscripts as against 205 in the previous year were coated with Naptha oil. The Tamil, Telugu, Marathi, Malayalam and Canarese manuscripts were all dusted.

10. *Printed books.*—A list of books purchased as well as obtained as presents is given in Appendix A. It will be seen that, in all 128 works in Sanskrit, Tamil and English were purchased and their cost came up to Rs. 364-14-0. As already pointed out, these printed books are of great help to the staff as well as to the public; and even those who come to work with the manuscripts find these printed books of great value whenever they meet with difficulties that require clearing up.

2. There was a falling off in the number of manuscripts acquired and in the number transcribed; but on the whole the report shows the steadily increasing popularity and usefulness of this institution. There was some improvement made in the preparation of descriptive catalogues; but much still remains to be done in this respect.

Dis. No. 3434.

PROCEEDINGS OF THE DIRECTOR OF PUBLIC INSTRUCTION, dated 3rd June 1907.

Government Oriental Manuscripts Library.

Read the following letter from M.R.Ry. Rao Bahadur M. RANGACHARYA, M.A.,
Curator, Government Oriental Manuscripts Library, to the Director of Public
Instruction, dated 5th May 1907, C. No. 66 :—

I have the honour to submit the report on the working of the Government
Oriental Manuscripts Library during the year 1906-1907.

2. *Staff.*—Owing to illness I had to take privilege leave for 3 months, from 31st
July 1906 and during the major portion of my leave, i.e., from 28th August 1906 to
30th October 1906, Mr. R. Krishnamachariar, Sub-Assistant Inspector of Sanskrit
Schools, was in charge of the office of Curator. P. Varadachari, B.A., the late Vernacu-
lar Munshi of the Library, was transferred to Bellary as Head Clerk, office of the
Inspector of Schools, II Circle, and the vacancy caused thereby was filled up by
the appointment as Vernacular Munshi, of T. S. Rangachari, B.A., who was a clerk in
the Military Accounts Department, Madras. K. Venkateswara Sastri, the Assistant
Librarian, took privilege leave for two months from the 6th February 1907 and
D. S. Satagopachari, the next junior clerk, was appointed to act for him, the latter's
place having been filled up by the appointment of E. R. Krishnamachari as acting
clerk.

3. *Contingent and travelling expenses.*—A sum of Rs. 2,200 was sanctioned by the
Director of Public Instruction in his No. 2993, dated 8th May 1906, on account of
contingent and travelling expenses. A large number of rare and useful manuscripts
brought by me, on loan, from Cochin in the previous year, remained to be copied
during this year and the provision of Rs. 650 made under the head "Transcription of
manuscripts" was found inadequate. The publications of the Madhva Vilāsa Book
Depot, Kumbakonam and several other printed works were received in loose leaflets
and as these had to be bound, extra provision was also required under "Other
contingencies." To meet the extra demand under these two heads, viz., "Transcrip-
tion of manuscripts" and "Other contingencies," additional sums of Rs. 300 and
Rs. 50 were made available under these respective heads, by reductions of Rs. 250
and Rs. 100 from the heads "Purchase of manuscripts, etc.," and "Travelling allow-
ances," respectively. The amount allotted for the purchase of manuscripts, etc., was
thus reduced from Rs. 1,050 to Rs. 800 and out of this sum Rs. 180 was utilised in
connection with (1) the printing of the "Ganitasārasaṅgraha", (2) the publication of
a rare and useful philosophical work called "Sarvasiddhāntasaṅgraha" with an English
translation, and (3) the publication of the descriptive catalogue of Tamil manuscripts
in the library.

4. *Visitors, and manuscripts consulted.*—The slight increase in the number of
visitors and in the number of works consulted and copied, indicates that the popularity
and utility of the library has been more than maintained. Forty-six thousand four
hundred and thirty "Granthas" of manuscript matter as against 36,000 "Granthas"
during last year, were supplied during the year under report to European and Indian
scholars. This figure represents the work done for the public under the supervision
of the staff of the library, and does not include the copying work done by students
and visitors for themselves. This increase of more than 10,000 "Granthas" in

respect of copies supplied to scholars is a further proof of the growing popularity of
the library as also of the steady increase in the work which has to be done by the
staff. The library has also been rendering help in the matter of correction and colla-
tion to publishers of oriental works. The addition, year after year, of printed works of
reference to the library is of much value to the staff in relation to the various kinds
of work to be done in the Library, and is also greatly appreciated by students. The
value of the manuscripts in the library is specially significant from the fact that some
of them were summoned for by the High Court at Madras and also by the District
Court of Vizagapatam as necessary to decide certain important questions in law suits.

5. *Tours for the collection of manuscripts.*—Owing to my ill-health I was not able
to undertake any long tours for the collection of manuscripts. But I visited certain
private libraries in the North Arcot and Chingleput Districts and examined them with
the help of a Pandit of the office. As it was not possible to make any prolonged stay
in any of the places without prejudice to my other duties, I was able to get only a
small but valuable collection of manuscripts as will be seen from appendix B at the
end. T. S. Rangachari was sent out to the Tanjore, Trichinopoly and Madura districts
and was able to collect 148 manuscripts. Some of these were presented and some
purchased and some others again were obtained on loan. D. S. Satagopachari was
sent out to certain villages in the Chingleput district and he was able to obtain for
the library a collection of 54 manuscripts. As usual, such manuscripts as were
considered to be of value and could not be obtained on loan were ordered to be copied
at outside stations.

6. *Manuscripts acquired.*—Six collections of manuscripts were purchased and six
collections were received as presents during the year. The total number of manuscripts
added during the year is 349 as against 424 in the previous year. The decrease is
due to the utilisation for transcription purposes, of a portion of the funds allotted for
the purchase of manuscripts. The number of manuscripts copied was 93 as against
123 in the previous year. The reason of the numerical decrease here is not that the
quantity of matter copied has been less, but that the works copied are more volumi-
nous; and most of them have had to be copied in Dēvanāgarī characters to secure
greater utility.

7. *Catalogues.*—(1) *Catalogue of manuscripts acquired during the year 1906-1907.*—
A list of manuscripts acquired with details regarding their importance, rarity and
usefulness is given in appendix B of this report.

(2) *Descriptive catalogue of the manuscripts acquired since 1899.*—Out of the
353 slips which, as stated in last year's report, related to works acquired during
1899-1900, 1900-1901 and 1901-1902, and which remained to be included in the
Descriptive Catalogue, 52 slips pertained to the subject that was being dealt with
during the year under report and these have accordingly been incorporated in the
Descriptive Catalogue of Sanskrit manuscripts printed during the year. Similarly some
slips that related to Tamil manuscripts have also been included in the Tamil catalogue.
The very heavy work in connection with the printing of the Sanskrit descriptive
catalogue, together with that connected with the descriptive catalogue of the Tamil
manuscripts, took up so much of the time of the staff that the preparation of descrip-
tive slips in relation to manuscripts acquired since 1902-1903 could not be particularly
attended to.

(3) *Descriptive catalogue of Sanskrit manuscripts.*—During the year under report
1,079 slips relating to as many works from No. 2366 to 3444 were revised and
printed, these slips covering 951 pages in the descriptive catalogue, as against 1,049
slips covering 697 pages in the previous year. The third volume consisting of 337
pages relating to works on "Grammar, Lexicography and Prosody" was published
during the year; and Part I of the fourth volume, consisting of 532 slips and
covering 354 pages of printed matter, is now in proof and will shortly be issued.
This part refers to works known as Itihāsa and Mahāpurāṇa.

(4) *Descriptive catalogue of the Vernacular manuscripts—Tamil manuscripts.*—
The 93 slips that had been sent to the press during last year have all been printed
during the year under report, and in addition 107 slips were revised and sent to
the press.

Telugu manuscripts.—Of these, 565 works were examined and described. Some of these works consisted of several volumes each, and these had to be picked up and described in a single slip. Consequently the number of manuscripts actually examined is very much in excess of the number of slips prepared. To do this work, so many as 621 manuscripts have had to be examined with great care.

8. *Publication of works.*—In regard to the publication of works undertaken by the library, the printing of the Sanskrit original of the “Sarvasiddhāntasaṅgraha” is very nearly complete, and the translation is ready to be sent to the press. The poem “Rāmacarita” referred to in last year’s report has been copied and compared and sent to one of the editors of the Kāvyaṃālā series in Bombay for publication therein. The comparing and collating of the “Lingānuśāsana” has been finished. This kind of work is still going on in relation to “Padyacūdāmaṇi” and “Kauṭilya-Arthaśāstra.” The publication of “Gaṇitasārasaṅgraha,” including the original and the translation, has also been making progress. There would have been more progress in connection with this item of work, if I had not had to take leave owing to illness; and it was naturally impossible for Mr. R. Krishnamachariar to look after this item of work during the short time he was appointed to be in charge of the Curatorship, without prejudice to his own duties.

9. *Preservation of manuscripts.*—During the year under report 409 manuscripts as against 205 in the previous year were coated with Naptha oil. The Tamil, Telugu, Marathi, Malayalam and Canarese manuscripts were all dusted.

10. *Printed books.*—A list of books purchased as well as obtained as presents is given in Appendix A. It will be seen that, in all 128 works in Sanskrit, Tamil and English were purchased and their cost came up to Rs. 364-14-0. As already pointed out, these printed books are of great help to the staff as well as to the public; and even those who come to work with the manuscripts find these printed books of great value whenever they meet with difficulties that require clearing up.

Proceedings, Dis. No. 3434 of 1907.

Recorded.

2. There was a falling off in the number of manuscripts acquired and in the number transcribed; but on the whole the report shows the steadily increasing popularity and usefulness of this institution. There was some improvement made in the preparation of descriptive catalogues; but much still remains to be done in this respect.
