A. G. ROMILLY—24-6-07.

Note by the Chief Engineer.

The estimate for constructing a building for the Madras Progressive Union school at Georgetown is approved and recommended for sanction with the following remarks.

Four inches of concrete should be provided under the 8 inches square bricks and the Cuddapah slabs of the ground floor instead of 6 inches of sand.

The staircase should be 4' 3" wide.

It is assumed that the foundations will be taken down to sand.

The following alterations should be made in the scantlings of the roof timbers, etc. :—

Ground floor—					
Joists in hall	..	..	..	3" x 7"	3" x 6½"
Do. in front verandah	..	..	..	3" x 4½"	3" x 4½"

From (Name) The Hon'ble Mr. T.T. Logan, B.A.,

(Designation) Ag: Director of Public Instruction,

Madras.

To the Secretary to the Government of Madras,

Educational Department

Sir,

I have the honour to submit the enclosed plan with estimate amounting to Rs 15,200/- for the construction of a building for the Madras Progressive Union School, George Town, Madras, and to recommend that under Rule 51 of the Grant-in-Aid Code a grant of Rs 5066/- be sanctioned to be paid during the current official year.

2 The Madras Progressive Union was established in April 1880 as a Debating Society and was incorporated as a Society under Act XXI of 1860 on the 19th January 1892. In pursuance of a resolution passed at a special meeting of the Union held on the 5th August 1888 the present school was started by this society in September 1888. From the start the school was very popular and was gradually raised to the third form which is its highest form at present. The Managing Committee wish to have the school classified as secondary and will pro-

bably place it under the supervision of one of the large high schools in the vicinity for which it serves at present as a preparatory school. In 1892 one of the buildings in which the school is now held was purchased and the school transferred to it. In 1904 the adjoining building was purchased with a view to eventual construction of a proper school building.

3 The school now consists of 507 pupils and is situated in Audiappa Naick Street, the most congested part of the city. It is one of the best conducted schools under native management in Madras. The accommodation provided /an ordinary dwelling house/ is, however, insufficient and ^{un}suitable for school purposes. The management, therefore, proposes to pull down the existing buildings and to construct a new building. As there is not sufficient space to provide a good latrine play ground &c. the Municipality has, on my recommendation, undertaken to acquire a plot of ground adjoining the school and has provided therefor in the Budget.

4 The management has Rs 2,000/- for appropriation towards building purposes. The materials of the existing buildings are expected to realize Rs 1,500/- and it is reported that one of the members of the Union has offered a sum of Rs 1,000/- towards the construction of the proposed building. There are also other subscriptions which have been already promised. If, however, there be any deficit the Union proposes to meet it by raising a loan.

5 Out of the allotment for building grant in the current year's budget estimate payment of Rs 600 has been made up to date.

6. The delay in disposal of application is due to the fact that it was originally forwarded to the Corporation of Madras under the old code and was returned to this office after very long delay for disposal under the new code.

I have the honour to be,

S i r ,

Your most obedient servant,

Arthur Mayhew

For Director of Public Instruction.
