ALLAHABAD.

Six New Commercial Scholarships.

To be Given to Indians for Training in England.

ALLAHABAD, June 29.—The Government of India have decided, as an experiment, to offer half-a-dozen scholarships of £150, a year, tenable at the Birmingham and Manchester Universities for commercial subjects in connection with the development of Industrial enterprises. It has come to be recognised that the ignorance of Western methods of business is a handicap to native capitalists, and greatly restricts their operations, or forces them to the employment of middlemen. The aim in selecting these scholarship-holders, therefore, will not be to pick out clever students, who, on returning to this country, will have acquired training and experience, enabling them to command better salaries as superior clerks in business concerns, to their own individual benefit, but rather to send Home lads of good position, sons or relations of men of standing, with capital and business connection, so that, when these come back to India, they may turn their abilities and experience to the development and training of others, and act as teachers and practical pioneers of Western commercial methods. The scheme is experimental and it remains to see how it will answer.

C. No. 1647 From the G. W. A. Pints. No. , dated 6-7-1907.

SUBJECT. Commercial Scholarship.

C.

Please see the Correspondence in "the Hindu" of 1st July 1907, in which it is stated that the Government of India have decided, as an experiment, to offer half-a-dozen scholarships of £150 a year tenable at the Birmingham & Manchester University for commercial subjects in connection with the development of industrial enterprises.

2. With reference to this report of "the Hindu", G. W. A. Pints who intends applying for one of the scholarships asks how many of these are allotted for the Madras Presidency.

3. In May last, the Government of India asked the opinion of this Government concerning the ^{proposal} of that Govt. to award ^{to deserving students} one or two Government scholarships a year for higher Commercial studies. The Government of India then stated that the number of the scholarships must in any case be very limited; and ^{that} probably not more than one or two could be allotted in the year. This Government accepted generally the proposals of the Government of India.

4. Submitted that no further communication has been received from the Government of India on this subject.

M. S. S. and that the petitioners may be informed that the Govt have ^{yet} received no official information on the subject.
