Letter—from the Trustees to the Wooley Scholarship Fund.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 11th January 1907.

With reference to the Extract of the Minutes of Consultation, No. 1143, dated 9th December 1851, which sanction the payment to Bishop Corrie's Grammar School of a moiety of the whole of the disposable interest on the principal of the Wooley scholarship fund on the condition that the school educates 30 boys, the sons of distressed Europeans and their descendants, we have the honour to report that it has been brought to our notice that the interest is more than sufficient to educate the above number of boys. We understand that it is sufficient to provide for 40 instead of 30 boys, and we bring the matter to the notice of Government, in case Government should see fit to revise the conditions under which the interest on the Wooley fund is paid to the school.

With reference to Memorandum No. 76-2, Educational, dated 7th February 1907, requesting to ascertain the views of the Committee of Bishop Corrie's Grammar School on the desirability of extending the scope of the Wooley scholarships to girls also, I have the honour to enclose copy of letter dated 8th instant addressed to the Headmaster by the Honorary Secretary to the Committee of the school.

ENCLOSURE.

Letter—from the Rev. W. G. BARRY, Chaplain, Honorary Secretary, Bishop Corrie's Grammar School.
To—the Headmaster, Bishop Corrie's Grammar School.
Dated—the 8th April 1907.

Please inform Mr. Stone with reference to the Wooley fund correspondence, "that the Committee of Bishop Corrie's High school point out that the fees paid for Wooley scholars do not represent the cost of educating them. Last year the cost of educating each child in the school, without books, was Rs. 80 to which if Rs. 10 a head is added for books, the cost is brought up to Rs. 90, instead of Rs. 60 as estimated by the late headmaster. They therefore do not think any change in the number of Wooley scholars should be made; but are quite prepared to let the scholars be "boys or girls". The Committee would also point out that under the new Code for European schools, extra expenditure may be anticipated.

In paragraph 9 of the Extract from the Minutes of Consultation No. 683, dated 25th July 1851, the Government resolved that a moiety of the whole of the disposable interest on the principal—Rs. 1,06,182—of the Wooley fund be granted to the Bishop Corrie's Grammar school "on the Government being satisfied in every respect that "the money would be strictly expended for the purpose to which it was assigned, viz., "the education and maintenance of the children of distressed Europeans and their "descendants". institution were accordingly requested to state the number of children they were prepared to admit into the school under their control and also the extent and mode of provision to be made for each child in addition to education.

2. The Directors stated that they would receive 25 boys as Wooley scholars; the monthly amount of interest to be paid being Rs. 220 and each scholar costing about Rs. 9 a month, including books and stationery but that if the Government still insisted on the number being increased, they would be prepared to admit 35 boys.

3. The Government, however, fixed the number as 30 and directed the disbursement to the Committee of Rs. 10,000 from the accumulated interest on the Wooley fund to be laid out in buildings and also a moiety of the whole of the disposable interest on the principal of that fund.

4. A short history of the institution which is all the information available regarding it will be found in the demi-official from the Revd. Canon Sell, B.D., printed on pages 2 and 3 of the notes with G.O., No. 81, Educational, dated 14th February 1902.

5. The trustees of the Wooley Scholarship fund now state that it has been brought to their notice that the interest is sufficient to provide for 40 instead of 30 boys. They therefore request that the conditions under which the interest on the Wooley fund is paid may, if found fit, be revised so as to provide for 40 boys.

6. A report of the Bishop Corrie's Grammar school for 1903 is put up. From page 25 of that report it is observed that the Wooley fund interest, in 1903, amounted to Rs. 2,403-11-8.

P.R.—22-1-07.

Paragraph 1 of the Extract from the Minutes of Consultations, No. 1143, Public, dated 9th December 1851, says—

"The Committee of Bishop Corrie's Grammar school having intimated that for the promised aid from the Wooley fund they are prepared to educate 30 boys, the sons of distressed Europeans and their descendants, the Governor in Council accedes to these terms and accordingly authorises the disbursement to the Committee of Rs. 10,000 from the accumulated interest on the Wooley fund, to be laid out in buildings and also a moiety of the disposable interest on the principal of that fund."

2. The trustees of the fund now say that the interest derived from the fund is sufficient to educate 40 boys. There appears to be no objection to modify the orders contained in paragraph 1 of E.M.C. No. 1143, Public, dated 9th December 1851, by increasing the number of scholars from 30 to 40, provided the increase in the numbers does not reduce the scale on which provision was hitherto made for the scholars. Perhaps the Director of Public Instruction may be consulted in the matter unofficially.

Will Director of Public Instruction please advise?

C. A. SOUTER—25-1-07.

Director of Public Instruction u.o.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION.

The amount of interest given to the school from the Wooley fund is Rs. 2,400 a year. The scholars do not receive any money but are exempted from payment of fees and are supplied with books. The rate of fee is Rs. 48 a year and the total cost of the books is less than Rs. 150 a year, so that each scholar costs about Rs. 53 a year to educate. The interest is thus sufficient to provide for 40 scholars without reducing the scale on which provision is made for each scholar. As the school is now a "mixed one," I think it highly desirable that girls should be allowed to participate in the benefits of the Wooley fund as well as boys.

Please put up the original trust deed or will of Ensign Wooley. Did it specifically provide for boys only?

According to the will the amount was vested "in the hands of the Governor in Council of Madras, for the time being, as a charitable fund appropriated to the education and provision (in such manner as they may think proper) of the CHILDREN of distressed Europeans, male or female."

[Memorandum No. 76-2, dated 7th February 1907.]

From the Director of Public Instruction, No. 807, dated 20th April 1907.

In Memorandum No. 76-2, Educational, dated 7th February 1907, the Director of Public Instruction was requested to ascertain the views of the Committee of Bishop Corrie's Grammar school on the desirability of extending the scope of the Wooley scholarships to girls also. In reply, the Director now forwards a copy of letter, dated 8th April 1907, addressed to the Headmaster of Bishop Corrie's Grammar school by the Honorary Secretary to the Committee of the school.

2. The Honorary Secretary states that the Committee are prepared to let the Wooley scholars be boys or girls, but that they do not think that any change in the number of scholars should be made. The Committee point out that the fees paid for Wooley scholars do not represent the cost of educating them; that the cost of educating each child in the school, without books, was Rs. 80 during last year; and that if Rs. 10 a head is added for books, the cost is brought to Rs. 90 instead of Rs. 80 as estimated by the late headmaster of the school. The Committee also point out that, under the new Code for European schools, extra expenditure may be anticipated.

3. It is not known how the Committee arrive at the cost of educating a child at Rs. 80 and the cost of books at Rs. 10 per head. The Director who estimated the cost of educating a child, including books, at Rs. 53 a year does not state, in forwarding the Honorary Secretary's letter, whether the Committee's estimate is correct or not. Perhaps he may be consulted u.o. on the point.

T. KANAKASUNDARAM PILLAI—27-4-07.

C. A. SOUTER—29-4-07.

H. D. TAYLOR—30-4-07.

Director of Public Instruction u.o.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION.

Rupees 80 was arrived at by dividing the total expenditure by the number of pupils. Rs. 53 represents actual fees paid and cost of books provided.

T. T. LOGAN—9-5-07.

The amount of Wooley fund interest paid to this school is Rs. 2,400 per annum and this sum is sufficient to educate 44 children if the cost of educating a child is taken to be Rs. 53 a year as calculated by the Director of Public Instruction; but if

the Committee's estimate of the cost of educating a child, viz., Rs. 90, is accepted, the amount of interest paid to the school is only sufficient to educate 26 children, which is less than the number now actually educated, namely, 30.

2. It is for consideration whether the number of children to be educated should be increased from 30 to 40 as suggested by the Government Directors.

T. KANAKASUNDARAM PILLAI—10-5-07.

H. D. TAYLOR. Funds do not seem to warrant an increase. Total expenditure must be taken and not net expenditure per pupil.

C. A. SOUTER—11-5-07.

The report of the Bishop Corrie's Grammar school put up in the file is for the year 1903. The statement of account for that year (page 28) shows receipts from the Wooley fund of Rs. 2,404 from interest; but does not show any separate statement of expenditure on Wooley scholars, other than Rs. 135 for books. No separate account of receipts and expenditure from the Wooley fund appears to be maintained, the amount of interest being shown as a general contribution to the school funds. The net expenditure in 1903 on the school was Rs. 12,352, and there were 141 pupils on the rolls at the commencement of the year (page 4 of report) and 171 at the end or an average of 151, which at Rs. 80 a head would amount to Rs. 12,080, so that for 1903 at least the figure Rs. 80 as the average cost of each pupil would seem to be about right. It is a pity that we have no copy of the report for 1906. Please get reports for the last three years (1904-06) if available. The Director of Public Instruction may have copies.

H. D. TAYLOR—13-5-07.

[Memorandum No. 936-2, dated 14th May 1907.]

From the Director of Public Instruction, dated 1st July 1907, No. 4069.

The Director of Public Instruction submits copies of the reports of the Bishop Corrie's Grammar school for the last three years—1904 to 1906. The statement below gives the amount of Wooley fund interest, the cost of books for Wooley fund boys, the total expenditure of the school, the average number on rolls and the cost of educating each pupil during the last four years:—

Year.	Wooley fund interest.	Cost of books for Wooley fund boys.	Total expenditure.	Average number on rolls.	Cost of each pupil.	Average cost of books.

1906	2,404	90	13,000	149 *	87	3 0 0

* The average number on rolls during the years 1905 and 1906 are not given in the report. The figures 135 and 149 represent the number on rolls at the end of the years 1905 and 1906, respectively.

C. A. SOUTER—16-7-07.

G.O., No. 1143, Public, dated 9th December 1851.

At present there are 30 boys educated at Bishop Corrie's Grammar school under the Wooley trust, the annual interest derived from Trust funds being Rs. 2,404.

2. The Trustees of the Wooley fund (Messrs. Twigg and Dobbie) bring to notice that the interest derived from the Trust funds is sufficient to provide for the education of more than 30 boys.

3. The Director of Public Instruction estimates cost of fees and books in respect of Wooley scholars at Rs. 53 per head per annum. The Committee point out that the net cost of educating each boy is Rs. 80 with Rs. 10 extra in respect of books. The figures in the annual report show that the figure of Rs. 80 may be accepted as approximately accurate, but that the average cost of books is only Rs. 3 or Rs. 4.

In these circumstances the interest derived from the trust (Rs. 2,404) is not sufficient to educate more than 30 boys, and the Trustees may be informed accordingly.

4. Hitherto under G.O., No. 1143, Public of 9th December 1851, only boys have been educated under the trust, which contemplates the education of girls also. The See the Will on page 3 of G.O., No. 414, Committee of the school is prepared to Educational, dated 15th July 1889. admit girls also.

G.O., No. 1143, dated 9th December 1851, may be modified accordingly, if the Trustees, who may be consulted in the first instance, see no objection.

H. D. TAYLOR—17-7-07.

It does not seem necessary to consult the Trustees further on the last point. The trust declares the eligibility of girls; and now that the school is a mixed school, there is no reason why they should not be admitted. It will be enough to say that in view of the Committee's representation the Government are not prepared to increase the number of Wooley scholars at the school.

I would add that as the school is a mixed school, girls may be admitted as "scholars" as well as boys in conformity with the intentions of the benefactor.

2. The Directors ^{stated that they would} ~~proposed to~~ receive 25 boys as Woolley Scholars; the monthly amount of interest to be paid being Rs 220/- and each scholar costing about Rs 9 a month, including books & stationery. ^{but that} if the Government still insisted on the number being increased, ~~they said that they~~ ^{would be} prepared to admit 35 boys.

3. The Government, however, fixed the number as 30 & directed the disbursement to the Committee of Rs 10,000 from the accumulated interest on the Woolley Fund to be laid out in buildings and also a moiety of the whole of the disposable interest on the Principal of that Fund.

4. A short history of the institution which is all the

information available regarding it will be found in the D.O. from the Reverend Canon Selk, B.D., printed on pages 2 D. and 3 of the notes with font 81 Educational of 14th February

4. The Trustees of the Woolley Scholarship Fund now state that it has been brought to their notice that the interest is ~~now~~ sufficient to provide for 40 instead of 30 boys. They therefore request that the Conditions under which the interest on the Woolley Fund is paid may, if found fit, be revised so as to provide for 40 boys.

5. A report of the Bishop Corrie's Grammar School for 1903 is put up. From page 25 of that report it is observed ~~that~~ that the Woolley Fund interest, in 1903, amounted to Rs 2,403-11-8.

2. The Trustees of the fund now say that with the interest derived from the fund is sufficient to educate 40 boys. There appears to be no objection to modify the orders contained in paragraph 1 of G. M. C. No 1143 Public, dated 9th December 1851 by increasing the number of scholars from 30 to 40, provided the increase in the numbers does not ^{reduce} ~~diminish~~ the ^{scale on which} ~~extent of~~ provision to be made for the scholars. Perhaps the D.P.G. may be consulted in the matter also.

The amount of interest given to the school from the Woolley fund is Rs 2400 a year. The scholars do not receive any money but are exempted from payment of fees and are supplied with books. The rate of fee is Rs 48 a year & the total cost of the books is less than Rs 150 a year, so that each scholar costs about Rs 53 a year to educate. The interest is thus sufficient to provide for 40 scholars without reducing the scale on which provision is made for each scholar.

[Memo. no. 76-2. Dt. 7-2-07]

From the D.P.I. no. 807 dated 20th April 1907.

In memo. no. 76-2. Edl. dated 7th Feb. 1907 the D.P.I. was requested to ascertain the views of the Committee of Bishop Corrie's Grammar School on the desirability of extending the scope of the Woolley Scholarships to girls also. In reply the Director now forwards a copy of letter dated 8th April 1907 addressed to the Headmaster of Bishop Corrie's Grammar School by the Honorary Secretary to the Committee of the School.

2. The Hon. Secy states that the Committee are prepared to let the Woolley Scholars be boys or girls but that they do not think that any change in the number of Woolley Scholars should be made. The Committee point out that the fees paid for Woolley Scholars do not represent the cost of educating them; that the cost of educating each child in the school, without books, was Rs 80 during last year and that if Rs 10 a head is added for books the cost is brought to

to Rs 90, instead of Rs 60 as estimated by the late headmaster of the School. The Committee also point out that, under the new code for European Schools, extra expenditure may be anticipated.

3. It is not known how the Committee arrive at the cost of educating a child at Rs 80 and the cost of books at Rs 10 per head. The Director who estimated the cost of educating a child, including books, at Rs 53 a year does not state, in forwarding the Hon. Secy's letter, whether the Committee's estimate is correct or not. Perhaps he may be consulted U.O. on the point.

Rs 80 was arrived at by dividing the total expenditure by the number of pupils. Rs 53 represents actual fees paid + cost of books provided

9-5-07

The amount of Woolley Fund interest paid to this school is Rs 2,400 per annum and this sum is sufficient to educate 44 children if the cost of educating a child

a child is taken to be Rs 53 a year, as calculated by the D.P.I.; but if the Committee's estimate of the cost of educating a child, viz. Rs 90 is accepted, the amount of interest paid to the School is only sufficient to educate 26 children, which is less than the number now actually educated, namely 30.

2. It is for consideration whether the number of children to be educated should be increased from 30 to 40 as suggested by the Govt. Directors.

Funds do not seem to warrant an increase. Total expenditure must be taken & not net expenditure per pupil.

Ch.
11.5.7.

The report of the Bishop Conie's Grammar school put upon the file is for the year 1903. The statement of account for that year (p 20) shows receipts from the Cooley fund of Rs 2404 from interest; but does not show any separate statement of expenditure on Cooley scholars, other than Rs 135 for books. No separate account of receipts & expenditure from the Cooley fund appears to be maintained, the amount of interest being shown as a general contribution to ~~the~~ the school fund.

14 21

88 2

The net expenditure in 1903 ~~was~~ on the school was
 Rs 12352, there were 141 pupils on the rolls
 at the commencement of the year (price of report / - 4) at
 the end - on an average of 157, which at
 Rs 80 a head would amount to Rs 12080 -
 so that for 1903 at least the figure of Rs 80
 as the average cost of each pupil would
 seem to be about right. It is a pity that
 we have no copy of the report for 1906.
 Please get reports for the last three years if / 1904-6 /

The Director of Public Instruction submits
 copies of the Reports of the Bishop Corries Grammar
 School for the last three years - 1904 to 1906. The
 statement below gives the amount of Wooley fund
 interest, the cost of books for Wooley fund boys, the
 total expenditure of the school, the average number
 on rolls and the cost of educating ^{each} a pupil during the
 last four years :-

~~At present~~

At present there are 30 boys educated at Birla's Conic's Parman School under the Woolley Trust - the annual interest ~~the~~ derived from Trust funds being Rs 2,404.

2 The Trustees of the Woolley fund (Messrs Twiss and Dobbin) bring to notice that the interest derived from the Trust funds is sufficient to provide for the education of more than 30 boys.

3 The D.D. estimate cost of fees and books in respect of Woolley scholars at Rs 3 per head per annum. The Committee point out

people.

16 ¹⁰ 23 10 P 23

that the net cost of educating each boy is Rs 80 into Rs 10 extra in respect of books.

The figures in the annual report show that the figure of Rs 80 may be accepted as approximately accurate - but that the average cost of books is only Rs 3 or Rs 4.

In these circumstances, the interest derived from the Trust ^(Rs 2400) is not sufficient to educate more than 30 boys, and the Trustees may be informed accordingly.

C

4. Hereto under G.O 1143 Public of 9th Dec 57 only boys have been educated under the trust, which contemplates the education of girls also. The Committee of the school is prepared to admit girls also (p 4 cpts).

C

G.O 1143 of 9th Dec 57 may be modified accordingly, if the Trustees, who may be ~~also~~ consulted in the first instance see no objection.

H.M.

17 7.09

It does not seem necessary to consult the Trustees further on the last point. The Trust declares the eligibility of girls; & now that the School is a mixed school there is no reason why they should be admitted.

See ~~from~~ the table on p 15 of B.O. 414 of 15.7.57.

It will be enough to say that in view of the Committee's representation the Govt. are not prepared to increase the no. of Wesley scholars at the school. I would add that as the school is a mixed school girls may be admitted as 'Scholars' as well as boys, in conformity with the intentions of the benefactor.
