Government Examinations.

Recording the report of the Commissioner for — on the examinations held in 1906-1907.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper :—

Letter—from the Hon'ble Mr. T. T. LOGAN, B.A., Acting Commissioner for Government Examinations, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 7th August 1907.

No—155/1-D.

I have the honour to submit my report on the examinations under the control of the Commissioner that were held during the year 1906-1907.

Dr. Bourne proceeded to Europe, on leave, on the 31st August last, when I assumed charge as acting Commissioner.

2. There were seven examinations in all held at various centres in the Presidency against eight in the previous year. Of these, the Technical Examinations were held also in the Native States of Travancore and Mysore.

3. Detailed information in respect of each examination is given below :—

(a) *The Upper Secondary Examination.*

The total number of candidates that registered their names for the compulsory test was 375 or ten more than in the previous year. Of this number, 354 presented themselves for examination, 246 of these being pupil candidates who came up from 64 institutions. Thirty-two candidates were successful, 25 of whom were pupils. The percentage of success fell from 14 to 9. As many as 248 of the number examined and as many as 25 of the number that passed were Brahmans. Only one of the candidates examined was a female candidate and she failed.

Twenty-three candidates appeared for examination in a second language only, of whom eighteen passed.

Ten candidates completed their success in the year. Including these, the total number of candidates that have passed the Upper Secondary Examination and have thus qualified themselves for appointments on Rs. 15 and upwards in "superior service", during the seventeen years that the examination has now been in existence, is only 107.

(b) *The Technical Examinations.*

Government having required in their Order No. 648, Educational, dated the 4th October 1906, that the date of the examination in Hygiene (Intermediate grade) and Animal Physiology (Intermediate grade) should be altered from April to the beginning of January, an examination in these subjects was held for the first time in January during the year.

Under G.O., No. 414, Educational, dated the 17th June 1905, the syllabus for Commercial Correspondence was replaced by a syllabus for Theory and Practice of Commerce and an examination according to the Advanced grade in Type-writing was instituted. In the same order revised syllabuses for Type-writing (Elementary and Intermediate grades), Book-keeping, Banking, Commercial Geography and Shorthand were approved. The examination in Theory and Practice of Commerce, the Advanced examination in Type-writing and the examinations in the other subjects according to the revised syllabuses were held for the first time during the year.

The total number of individual candidates registered for the three grades of examination was 6,923, of whom 162 were for the Advanced grade, 1,649 for the Intermediate, and 5,112 for the Elementary. There was an increase in the numbers registered for all three grades. Eighty-two of the candidates for the Advanced, 496 of those for the Intermediate, and 938 of those for the Elementary grade were pupils, who belonged to 8, 34 and 54 different institutions, respectively.

The total number of subject-candidates examined was 8,113, of whom 3,441 were successful. There was an increase in the total number of candidates both under "examined" and "passed" as also in the percentage of subject-passes for the Intermediate and Elementary grades, that for the Advanced grade showing a fall.

Six of the subject-candidates for the Advanced grade, 39 of those for the Intermediate, and 152 of those for the Elementary were female candidates, of whom 3, 24 and 102, respectively, were successful. Four of the six candidates for the Advanced grade came up in Needle-work and Dress-making, and the largest number of those for the Intermediate and Elementary grades took up Lace-making and Free-hand Outline Drawing, respectively.

The number of papers set last year for the Advanced, Intermediate and Elementary grades, respectively, was 42, 107 and 75, the number of subjects for the corresponding grades being 18, 66 and 53.

Brahmans and non-Brahman caste Hindus formed, as usual, the bulk of the subject-candidates that passed, in the case of all three grades.

Seventeen diplomas, of which one was for Chemists and Druggists, and 60 group certificates, among which there were two for Hydraulic Engineering, were issued during the year.

The silver medal of the Madras Musical Association was not awarded during the year, as none of the successful candidates satisfied the conditions prescribed.

(c) *The Handwriting and Dictation Test for Undergraduates.*

Two thousand and six candidates appeared for the test that was held in May, and 1,178 for the test held in December as part of the Upper Secondary Examination, and 566 of the former and 283 of the latter were successful.

(d) *Examinations in connection with the Subordinate Medical Department.*

There were ten vacancies for the grade of Civil Medical Pupil, and the number of applicants for admission to the competitive examination for this grade was 30, among whom there was only one Muhammadan. The general education qualification required in the case of candidates for the grades of Native Military Pupil and Madras-Burma Hospital Assistant Pupil having been lowered by Government in their Order, Mis. No. 279, Educational, dated the 20th April 1906, the great majority of the candidates for the competitive examination for these grades, for which there were ten and twenty-five vacancies, respectively, were men who had passed the Lower Secondary Examination, or were duly certified to be fit for admission to the fourth form.

Since 1906, the competitive examination of Medical Pupils for the grade of "Military Assistant Surgeon" has been held under arrangements made by the Government of India. It was conducted by me for the last time in May 1905.

(e) *Special Test Examinations.*

For these examinations, 5,066 candidates in all registered their names, 4,307 presented themselves for examination and 1,434 passed. The numbers that were registered and examined and that passed during the previous year were 5,411, 4,600 and 961, respectively. In all the tests except the Account Test, Higher Grade, there was a rise in the percentage of success. It was lowest for the Revenue Tests, for which it was not more than 19. On the whole about a third of the candidates examined, passed against a fifth in the previous year, the largest increase being in Précis-writing.

Under G.O., No. 779, Educational, dated the 27th November 1905, an examination in the Code of Criminal Procedure was held for graduates in law. Twenty-four candidates were examined for the higher grade, of whom 15 were successful, while ten appeared for the lower grade and all passed.

(f) *Special Tests for Officers of the Salt, Abkari, and Customs Department.*

For these tests, 178 candidates in all presented themselves, of whom 100 were successful, against 232 and 141, respectively, in the year previous. The results were fair on the whole, but there was a considerable fall in the percentage of success in Tests—A (Criminal Law), C (Accounts) and D (Engineering). The lowest percentage was, as in the previous year, in Test F (Excise).

4. *Finance.*—The receipts of the Commission amounted to Rs. 64,608, or Rs. 10,424 less than in the previous year, the fall being chiefly in the fee income for the issue of Primary Examination certificates, while the expenditure, inclusive of refunds and of the charges for printing work done at private presses, was Rs. 61,749 against Rs. 84,109 in the previous year, leaving a surplus of Rs. 2,859.

5. An inventory of valuable stock was duly maintained and checked during the year.

APPENDIX.

(a) *Upper Secondary Examination.*

TABLE I.

(Compares the numbers registered, examined and passed in 1905-1906 and 1906-1907.)

Year.	Registered.	Examined.	Passed.	Percentage of passed to examined.

(Designation) As: Commissioner for Govt. Examinations, Madras

To The Secretary to the Government of Madras,
Educational Department.

Sir,

No. ¹⁵⁵
111.

OFFICE OF THE COMMISSIONER
FOR GOVERNMENT EXAMINATIONS,
MADRAS, 7th August 1907.

From

THE HON'BLE MR. T. T. LOGAN, B.A.,
AG. COMMISSIONER FOR GOVERNMENT EXAMINATIONS,
MADRAS,

To

THE SECRETARY TO THE GOVERNMENT OF MADRAS,
EDUCATIONAL DEPARTMENT.

SIR,

I have the honour to submit my report on the examinations under the control of the Commissioner that were held during the year 1906-1907.

Dr. Bourne proceeded to Europe, on leave, on the 31st August last, when I assumed charge as acting Commissioner.

2. There were seven examinations in all held at various centres in the Presidency against eight in the previous year. Of these, the Technical Examinations were held also in the Native States of Travancore and Mysore.

3. Detailed information in respect of each examination is given below :—

(a) *The Upper Secondary Examination.*

The total number of candidates that registered their names for the compulsory test was 375 or ten more than in the previous year. Of this number, 354 presented themselves for examination, 246 of these being pupil candidates who came up from 64 institutions. Thirty-two candidates were successful, 25 of whom were pupils. The percentage of success fell from 14 to 9. As many as 248 of the number examined and as many as 25 of the number that passed were Brahmans. Only one of the candidates examined was a female candidate and she failed.

Twenty-three candidates appeared for examination in a second language only, of whom eighteen passed.

Ten candidates completed their success in the year. Including these, the total number of candidates that have passed the Upper Secondary Examination and have thus qualified themselves for appointments on Rs. 15 and upwards in "superior service", during the seventeen years that the examination has now been in existence, is only 107.

(b) *The Technical Examinations.*

Government having required in their Order No. 648, Educational, dated the 4th October 1906, that the date of the examination in Hygiene (Intermediate grade) and Animal Physiology (Intermediate grade) should be altered from April to the beginning of January, an examination in these subjects was held for the first time in January during the year.

Under G.O., No. 414, Educational, dated the 17th June 1905, the syllabus for Commercial Correspondence was replaced by a syllabus for Theory and Practice of Commerce and an examination according to the Advanced grade in Type-writing was instituted. In the same order revised syllabuses for Type-writing (Elementary and Intermediate grades), Book-keeping, Banking, Commercial Geography and Shorthand were approved. The examination in Theory and Practice of Commerce, the Advanced examination in Type-writing and the examinations in the other subjects according to the revised syllabuses were held for the first time during the year.

Encl ¹/₁₉₂₆₂₈₄₀₇

The total number of individual candidates registered for the three grades of examination was 6,923, of whom 162 were for the Advanced grade, 1,649 for the Intermediate, and 5,112 for the Elementary. There was an increase in the numbers registered for all three grades. Eighty-two of the candidates for the Advanced, 496 of those for the Intermediate, and 938 of those for the Elementary grade were pupils, who belonged to 8, 34 and 54 different institutions, respectively.

The total number of subject-candidates examined was 8,113, of whom 3,441 were successful. There was an increase in the total number of candidates both under "examined" and "passed" as also in the percentage of subject-passes for the Intermediate and Elementary grades, that for the Advanced grade showing a fall.

Six of the subject-candidates for the Advanced grade, 39 of those for the Intermediate, and 152 of those for the Elementary were female candidates, of whom 3, 24 and 102, respectively, were successful. Four of the six candidates for the Advanced grade came up in Needle-work and Dress-making, and the largest number of those for the Intermediate and Elementary grades took up Lace-making and Free-hand Outline Drawing, respectively.

The number of papers set last year for the Advanced, Intermediate and Elementary grades, respectively, was 42, 107 and 75, the number of subjects for the corresponding grades being 18, 66 and 53.

Brahmans and non-Brahman caste Hindus formed, as usual, the bulk of the subject-candidates that passed, in the case of all three grades.

Seventeen diplomas, of which one was for Chemists and Druggists, and 60 group certificates, among which there were two for Hydraulic Engineering, were issued during the year.

The silver medal of the Madras Musical Association was not awarded during the year, as none of the successful candidates satisfied the conditions prescribed.

(c) *The Handwriting and Dictation Test for Undergraduates.*

Two thousand and six candidates appeared for the test that was held in May, and 1,178 for the test held in December as part of the Upper Secondary Examination, and 566 of the former and 283 of the latter were successful.

(d) *Examinations in connection with the Subordinate Medical Department.*

There were ten vacancies for the grade of Civil Medical Pupil, and the number of applicants for admission to the competitive examination for this grade was 30, among whom there was only one Muhammadan. The general education qualification required in the case of candidates for the grades of Native Military Pupil and Madras-Burma Hospital Assistant Pupil having been lowered by Government in their Order, Mis. No. 279, Educational, dated the 20th April 1906, the great majority of the candidates for the competitive examination for these grades, for which there were ten and twenty-five vacancies, respectively, were men who had passed the Lower Secondary Examination, or were duly certified to be fit for admission to the fourth form.

Since 1906, the competitive examination of Medical Pupils for the grade of "Military Assistant Surgeon" has been held under arrangements made by the Government of India. It was conducted by me for the last time in May 1905.

(e) *Special Test Examinations.*

For these examinations, 5,066 candidates in all registered their names, 4,307 presented themselves for examination and 1,434 passed. The numbers that were registered and examined and that passed during the previous year were 5,411, 4,600 and 961, respectively. In all the tests except the Account Test, Higher Grade, there was a rise in the percentage of success. It was lowest for the Revenue Tests, for which it was not more than 19. On the whole about a third of the candidates examined, passed against a fifth in the previous year, the largest increase being in Précis-writing.

Under G.O., No. 779, Educational, dated the 27th November 1905, an examination in the Code of Criminal Procedure was held for graduates in law. Twenty-four candidates were examined for the higher grade, of whom 15 were successful, while ten appeared for the lower grade and all passed.

(f) *Special Tests for Officers of the Salt, Abkari, and Customs Department.*

For these tests, 178 candidates in all presented themselves, of whom 100 were successful, against 232 and 141, respectively, in the year previous. The results were fair on the whole, but there was a considerable fall in the percentage of success in Tests—A (Criminal Law), C (Accounts) and D (Engineering). The lowest percentage was, as in the previous year, in Test F (Excise).

4. *Finance.*—The receipts of the Commission amounted to Rs. 64,608, or Rs. 10,424 less than in the previous year, the fall being chiefly in the fee income for the issue of Primary Examination certificates, while the expenditure, inclusive of refunds and of the charges for printing work done at private presses, was Rs. 61,749 against Rs. 84,109 in the previous year, leaving a surplus of Rs. 2,859.

5. An inventory of valuable stock was duly maintained and checked during the year.

I have the honour to be,

Sir,

Your most obedient servant,

D. J. Logan
Ag. Commissioner.

7-8-7

APPENDIX.

(a) Upper Secondary Examination.
