Letter—from M.R.Ry. M. GOPALA MENON AVARGAL, Chairman, Municipal Council, Tellicherry.
To—the Secretary to Government, Local and Municipal Department (through the Sub-Collector, Tellicherry.)
Dated—the 28th January 1907.
No.—1627.

In their order, dated the 18th January 1906, the Government of Madras placed at the disposal of the Madras University a sum of Rs. 80,000 for the improvement of the colleges affiliated to it. I have the honour to request a contribution from this fund for the improvement of the Brennen College, Tellicherry.

This institution is a second-grade college managed by the Tellicherry Municipal Council, and is therefore one of the four second-grade colleges (Government College, Mangalore, and Municipal Colleges of Palghat, Salem and Tellicherry) in the whole Presidency whose constitution and management are under the complete control of Government. It has, therefore, to be a model institution and maintained in as efficient a condition as possible.

The special report of the University Inspection Commission on this college gives its history, and I need not, therefore, repeat it here. I may, however, mention that it was once a Government High school, and that on its transfer to the Tellicherry Municipality, Government undertook at first to bear the net cost of the school, and subsequently to aid it under the salary grants system. On the advice of the Director of Public Instruction the high school was raised in 1890 to a second-grade college. The reasons for this step are fully set forth in the Director's letter to Government quoted in the Commission's special report.

The college has been doing useful work. It has been mainly instrumental in spreading higher education in North Malabar, especially among the Mappilla and Thiyar communities, and is therefore deserving of the sympathetic consideration of Government and the University.

The Tellicherry Municipality is one of limited means, and it is therefore not possible for it to spend on the college as much as it would like to. It had, besides, Rs. 6,500 spent on two previous occasions for the extension of the building undertaken to effect vast improvements to the college buildings at a cost of Rs. 8,000, and plans and estimates were accordingly prepared. Meanwhile, the finances of the Municipality were thrown into disorder, owing to the outbreak of the plague in the town and, in consequence, only part of the work could be taken in hand this year. A separate block of buildings for the location of the college classes as suggested by the University Commission and the Educational Department is now being built at a cost of Rs. 5,000. But the Council feels itself unable in the near future to complete the other improvements unless the University comes to its relief. I have therefore to apply to Government for a grant of Rs. 3,000 to be applied to the improvement of the college buildings. Other improvements of which the college stands in urgent need are—

Furniture.—The teaching of practical mathematics is now insisted upon, and the University has very kindly supplied the college with 26 sets of drawing instruments; but the college is not provided with tables and stools suitable for drawing and practical work. Thirty tables and 30 stools of the type used by the drawing students of the Madras Engineering College are required and they are estimated to cost Rs. 600.

The College Library.—In the opinion of the University Commission, the library needs improvement. The Board of Studies in History have already recommended the purchase of a costly set of historical works and very soon the English and Mathematics Boards are expected to send in their suggestions also. Books to the value of Rs. 2,000 are therefore required; and if a grant under this head is sanctioned, I shall submit for the approval of the University a list of books to be purchased.

Laboratory.—The new regulations of the University render it imperative that the college should have a well-equipped physical and chemical laboratory. The college laboratory is at present fairly well equipped for purposes of the Matriculation examination, but it is not good enough for the new Intermediate examination. I request a contribution of Rs. 2,000 under this head too.

I have therefore the honour to request that the Government will be pleased to assign to this college a sum of Rs. 7,600. The well-being of the University depends on that of its affiliated colleges; and the Brennen College is deserving of support as it is an institution under public management, and has been doing useful work among some backward classes. That the Municipal Council has been doing all that it can for the college is evidenced by its having undertaken the costly extension of the college accommodation at a time when its resources are taxed to their utmost on account of the heavy expenditure which the fight against the plague involves. It is because the Council does not see its way unaided to effect all the improvements required by the University that it now seeks help on the hope that it would be given to an institution which has been doing its utmost to help itself.

Memorandum No. 1356-1 M., dated 9th April 1907.

The Municipal Council is requested to submit detailed estimates of the proposed improvements to the college. In the absence of such estimates, the Government are unable to consider the application of the Council for a special grant from Provincial funds towards the cost of the proposed improvements. It is observed, however, that no portion of the special grant in aid of University education will ordinarily be available for second-grade colleges.

LOCAL AND MUNICIPAL DEPARTMENT.

From M.R.By. M. Gopala Menon Avargal, Chairman, Municipal Council, Tellicherry,
dated 28th January 1907, No. 1627.

The Government of India have placed during 1905-1906 and 1906-1907 and have promised to place during the next two years at the disposal of this Government a grant of Rs. 1,05,000 to be assigned and expended for payment of grants on account of University education. Of this amount, Rs. 25,000 are to be applied primarily to meet charges incurred for strengthening the administration of the University and the balance of Rupees 80,000 is intended mainly for the improvement of colleges chiefly in those respects in which an inspection by the University shows them to be defective. In paragraph 1 of G.O., No. 29, Educational, dated 18th January 1906, the Government held that for the present, allotments from this grant would be devoted most usefully to the development of the hostel system.

2. The Chairman of the Municipal Council of Tellicherry (M. Gopala Menon) now requests that a contribution of Rs. 7,600 may be paid out of this grant of Rupees 80,000 towards the improvement of the Brennen College in the following directions :—

	RS.
Improvement of College buildings	3,000
Furniture	600
Library	2,000
Laboratory	2,000
Total ..	7,600

3. As the matter is one for consideration in the Educational Department, it is submitted that the Chairman's letter may be transferred to that department.

The contribution asked for cannot be paid out of the grant of Rs. 80,000 as that is reserved for first-grade colleges and the Brennen College is only of the second grade. If the Brennen College is to be maintained, and I think it should be, all the improvements on which the Council requires a grant seem to be necessary, but in default of any detailed estimates it is not possible to say whether the sums mentioned are really required.

The College Library. In the opinion of the University Commission the Library needs improvement. The Board of studies in History have already recommended the purchase of a costly set of Historical works, and very soon the English and Mathematics Boards are expected to send in their suggestions also. Books to the value of Rs 2000 are therefore required; and if a grant under this head is sanctioned I shall submit for the approval of the University a list of books to be purchased.

Laboratory

Laboratory. The new Regulations of the University render it imperative that the College should have a well equipped Physical and Chemical Laboratory. The College Laboratory is at present fairly well equipped for purposes of the Matriculation examination; but it is not good enough for the new Intermediate Examination. I request a contribution of Rs 2000 under this head too.

I have therefore the honor to request that the Government will be pleased to assign to this College a sum of Rs 7600. The well-being of the University depends on that of its affiliated Colleges; and the Brennen College is deserving of support as it is an institution under public management, and has been doing useful work among some backward classes. That the Municipal Council has been doing all that it can for the College is evidenced by its having undertaken the costly extension of the College accommodation at a time when its resources are taxed to their utmost on account of the heavy expenditure which the fight against the plague involves. It is because the Council does not see its way unaided to effect all the improvements required by the University that it now seeks help in the hope that it would be given to an institution which has been doing its utmost to help itself.

I have the honor to be

Your most obedient servant

The municipal council is requested to submit detailed estimates of the proposed improvements to the college. The Govt are unable to consider in the absence of such estimates the application of the Council for a special grant from Provincial funds towards the cost of the proposed improvements. It is assumed however that no portion of the special grant in aid of university education will be ordinarily available for second grade colleges.

SUBJECT.

Requesting that a contribution of Rs 7600 may
be paid out of Rs 80000 placed at the dis-
posal of the Madras University towards
the improvement of the Bremer College,
Tellicherry.

The Government of India have ^(placed during 1905-06)
and 1906-07 and have promised to place during the next two years
a sum at the disposal of this Govt., a
grant of Rs 10,50,000 to be assigned and expended
during the period ending with the year 1908-09
for payment of grants on account of university
education. of this amount, Rs 2,50,000 or
to be applied primarily to meet charges incurred
for strengthening the administration of the
university and the balance of Rs 80,000 is
intended mainly for the improvement of
colleges chiefly in those respects in which
an inspection by the university shows them
to be defective. In para. 1 of G.O. no. 2925.
Dated 18th January 1906, the Govt. held that
for the present, allotments from this grant
would be devoted most usefully to the
development of the hostel system.
