Rep. 22. 8

To,

His Excellency the Governor in Council

Most Respected Sir,

We, the undersigned public of Bellary, on hearing that the Director has refused recognition to the Hindu Lower Secondary School, most humbly beg to approach your Excellency with this appeal for your favourable consideration.

For want of a Lower Secondary School in the heart of the town of Bellary, three years ago we induced Mr. Rama Rao who was a well-known qualified teacher in the Wardlaw College for about 13 years and who had then resigned his place, to open a Hindu Lower Secondary School so that the young children in the town may easily find a place for their education nearer their homes. Mr. Rama Rao complying with our request has opened and worked his present school to our entire satisfaction. We all tried our best to help him in every respect to get the school recognized. The school satisfies all the conditions of recognition, taking into consideration that your Excellency has been pleased to exempt the Ceded Districts from the operation of the Rules 23 and 28. We are sorry that the Director does not seem to have been properly informed of the educational needs of the locality. We beg to represent that even though the Municipal High School is brought into the town, the necessity for this Lower Secondary School still exists, for (1) the people in general, desire their children educated in the town.

urged that in places where the population is far less two or more schools have been opened; for instance, in Kurnool which has a population of 25000 there are two High Schools. According to this proportion, population of 60000 requires at least five such High Schools. Such being the case, while there are only two High Schools here, - a number quite inadequate in the humble opinion of the appellants for such a large town in a proverbially backward district - just to afford encouragement to private enterprise, we beg your Excellency will be pleased to grant kind recognition to the Lower Secondary School of Mr. Rama Rao who, being a tried First-in-arts man, we believe, will work to merit your Excellency's kindness and --- deserve recognition we pray for.

For this act of mercy we shall ever pray.

We beg to remain,

Most Respected Sir,

Bellary.

Your most obedient and humble servants.

8th June 1907.

Bellary,*

MOST RESPECTFULLY SHOWETH:—

That there is a recognized Upper Primary School in Bellary known by the name of Rama Rau's Upper Primary School. It has been in existence for the last 12 years. It came under the management of the appellant 3 years ago, and is one of the most successful primary schools in the town imparting instruction from the infant to the fourth standard. The parents of the boys of this primary school pressed the appellant to independently start a school with the three lower secondary forms and locate it nearer their homes as most of the boys are of tender age. The appellant therefore started the Lower Secondary School with only first form in 1905 and has gradually developed it into a complete Lower Secondary School with the three lower forms and applied recognition of the same.

The appellant begs to submit that it is the recognition of this school that has been refused by the Director on the following grounds:—

- (a) That the staff of the school does not comply with the requirements of the new rules, and
- (b) That there is no satisfactory evidence that the school is really needed in the locality.

The appellant on the receipt of this proceedings again submitted a review application to the Director for a reconsideration of his order but with no effect.

The appellant has therefore been obliged to approach Your Excellency with this humble appeal on the following grounds.

i. The Director does not seem to have been properly informed of the educational needs of the locality. Bellary is a growing town with a large population of over 60,000. There are only two schools in the town (one, a Second Grade College managed by the London Mission, and the other a High School under the Municipality) a number quite inadequate in the humble opinion of the appellant for such a large town in a proverbially backward District. The Municipal High School was till very recently located in the Fort far away from Bruce Pett and it was really a hardship to compel the young boys to go this long distance from the town to the Fort. The Wardlaw Mission College is strong in its lower forms and the parents are naturally very desirous of having their children in a Hindu School managed by themselves where they could have efficient instruction. It is under the pressure of

DD

such a kind that the appellant was obliged to start the Lower Secondary School. The school is very popular as it is in Bruce Pett near the very doors of the young pupils and it is very efficiently managed. It is a point worth consideration that though the new school has on its rolls a large number of boys, viz. 70, either the Municipal High School or the Wardlaw College authorities have not come forward with any complaint of loss of strength in their lower forms, which they would have naturally done if there was any fall in their strength:—a point which is admitted even by the Inspector of Schools (please vide enclosure No. 7). It therefore shows beyond doubt that the new school is a necessity and with the exception of a single student all the boys of this school are those that finished their course in the Upper Primary School under the appellant's management and a few outsiders. The school is situated far away from either the Wardlaw College or the Municipal High School even if the latter is brought into the town to the building now approved.

ii. There has been an increase in the school going population in the growing town and the need was felt for another Lower Secondary School. How the Director found out that there was no need for this Lower Secondary School is not known and the burden was thrown on the appellant to establish the necessity for the school. This the appellant has satisfactorily done by showing

- a. The strength and the prosperous condition of the school,
- b. The non-affecting of the other schools in their strength,
- c. The general desire evinced by the public of Bellary to have a school under their own management as shown by the memorial submitted to the Director of Public Instruction,
- d. The absence of complaint by the heads of the two institutions, regarding any loss of strength in their schools,
- e. The lack of advancement of education in the Ceded Districts,
- and
- f. Above all the prohibitive distance of other schools from the homes of young pupils necessitating the existence of the new school amidst them.

iii. The conditions prevailing in Bellary now are not those that prevailed a decade or two ago and it cannot be said that only two institutions which were then in existence are still sufficient to satisfy the growing desire for education.

iv. The Assistant Inspector of Schools Mr. T. S. Ince who has been here for many years made an exhaustive enquiry and recommended that the Lower Secondary School in question might be recognized. It is stated that the Inspector of Schools was not satisfied with the reasons for the necessity. But it has to be borne in mind that Mr. L. C. Williams Pillay B. A., Inspector of Schools has been only in the second circle for not more than a year and the Lower Secondary Schools are not immediately under his charge. ^{any} enquiry was made by the Inspector of Schools, and the information he gathered must perhaps be from interested sources.

v. The appellant therefore submits that he has sufficiently made out a case for a new school and that no reasons have been urged to justify a refusal of recognition.

vi. The Director of Public Instruction has modified the rigour of the new educational rules and has granted certain concessions regarding the rules 23 and 28, to the managers in the Ceded Districts. Accordingly the appellant besides being himself a certificated and qualified First-in-arts man having 13 years approved service in a recognized institution has recently employed a trained matriculate as his 1st assistant in compliance with the requirements of the rules.

vii. In conclusion, the appellant begs to submit that this ^{is} a School managed by a committee of three members, two of whom are retired Government Pensioners who own large property and who had held high and responsible posts under Government, that he has sufficiently made out the necessity for the school, that the staff now complies with the requirements of the rules and that an undertaking by a private body deserves encouragement.

Under these circumstances your humble appellant prays that Your Excellency be graciously pleased to accord recognition to the school.

For this act of mercy Your Excellency's humble appellant shall ever pray.

Manager, Hindu Lower
Secondary School, Bellary.

D. S.

The appellant begs to draw your Excellency's attention to the fact that the strength of the 1st form in the Municipal High school is 66 and in the Wardlaw college about 55. This strength in the two schools is far more than the maximum number viz 40 allowed to a class by the Madras Educational Rules. (Please vide Rule 29). The strength of the 2nd and 3rd forms has also increased the maximum number. Hence your humble appellant begs to submit that it is very evident that a third school viz a lower secondary school is very essential.

From,

B. Rama Rao,

Manager, Hindu Secondary School,

To,

The Director of Public Instruction,

Through

The Inspector of Schools,

2nd Circle, B E L B A R Y.

Sir,

I beg to inform you that at the request of several of the gentry of the town I opened a school styled 'Hindu Secondary School' in April 1905 with the object of getting it recognized after gradual development of 1st three years after year. Last year when the Inspector of Schools visited it, there were only two forms and I told him that I would apply for recognition early this year after the formation of the third. I have now therefore submitted to your honour the application for recognition for your favourable consideration. The school is now only one year and nine months old and as such it contains nearly 80 pupils on its roll. Since the 5th edition of the Madras Educational Rules came into existence, I have been trying my very best to see that the school satisfies all the conditions laid down in it: but unfortunately I have failed to procure suitable staff at present. I beg to promise that I shall in the near future try to fulfil all the conditions required according to the New Code. I, therefore, request your honour will be so good as to graciously have some of the pupils now reading in your school transferred to the Hindu Secondary School Bellary and

or the Municipal High School. Bellary and

If there are any the names of these pupils together
 with the information regarding the production
 of leaving certificates should be given.
 6. Please inform me how the school is being
 maintained and what the constitution of
 the managing body is together with a statement
 showing the income and the charges incurred
 from the date of opening of the school. I shall
 be glad if you will kindly obtain & submit
 an agreement executed by the members of the
 trustee maintaining your school that they
 will meet the deficit of the school and that
 they will stand as guaranties for the
 stability of the school.

7. I request also you to be good enough to
 state the reasons as to why did not take
 steps to get the school re-opened after the
 lapse of a few months of the date of starting
 of the school. I have the honor to be,

MEMORANDUM.

On behalf of the Hindu Lower Secondary School Bellary.

1. History:-

There is a recognised upper Primary School in Bellary known by the name of Rama Rao's Upper Primary School located in Bruce Petta, Bellary Town. It has been in existence for last 12 years. It came under the present management 3 years ago. It is one of the most successful primary schools in the town, imparting instruction from the infant to the 4th standard with an average strength of about 80.

The boys of the primary school after passing from the 4th standard had to seek admission either in the Municipal High School located in the Fort far away from the Bruce Pett or in the Wardlaw College which in its lower forms has very large strength necessitating at times divisions in each forms. The parents therefore pressed the Manager Primary School to independently start at least the lower three forms to which the said Primary School may be a good feeder, and to locate it nearer their homes as most of the boys are of tender age. To satisfy this want a Lower Secondary School with the 1st form was started in 1905 and it has gradually developed into a complete Lower Secondary School this year. It is for the recognition of this Lower Secondary School ^{that} this application is now made.

2. FINANCIAL STABILITY:-

A committee of management consisting of three well-to-do members, two of them being Government pensioners of large property, respectability and popularity being natives of the Town, has been formed and the usual document evidencing the formation of the committee has been executed and submitted. Reference, if necessary, may be made to the Collector of the District about the solvency and respectability of the Committee members.

3. SATISFACTION OF THE CONDITIONS OF THE RECOGNITION:-

The staff and other conditions according to the Educational rules have mostly been satisfied. Plan of the school building and Sanitary certificate have also been submitted. Any defects which now do exist or will be pointed out will be rectified at short notice if necessary.

4. OTHER SCHOOLS NOT AFFECTED:-

The two schools in the town imparting instructions in the lower three forms are (1) The Wardlaw College and (2) The Municipal High School. Except a single student, none other is drawn from the above said two institutions to the newly formed Lower Secondary and the whole strength of this school consists of boys mostly from the said Primary School and a few outsiders. Thus the existence of this School affects in no way the other two institutions.

5. THE POPULARITY AND NECESSITY OF THE NEWLY STARTED SCHOOL:-

There are now 70 pupils in the three forms and this beyond anything else proves popularity. No advantages either pecuniary or otherwise are affected by way of inducement to boys in this school and there are no free scholars even.

6. OBJECTIONS THAT MIGHT BE URGED AGAINST THIS SCHOOL:-

In case the Municipal High School is removed from the Fort into the Town, there is no necessity for this School.

In answer to this objection it can at once be said that the Municipal High School has got a Primary School attached to itself and its removal into the Town will enable the students of the Government Training school also to join the Municipal High School. Thus the Municipal High School will have an increase in its strength and as such will have no room for any complaint regarding the existence of the new Lower secondary School.

7. GENERAL REMARKS:-

Bellary is a town with 60,000 population and a new Lower Secondary School with the increase of education in the town, of late will not be one too many. This is undertaken by private gentlemen and deserves encouragement while it does not affect the above said institutions, it will be a feeder to them in the higher forms.

Dis.No. 2202

Dated 11th April 1907.

Proceedings of the Director of Public Instruction.

Read the following paper:-

Endorsement of the Inspector of Schools, 2nd Circle, No.44B, dated 17th March 1907 on the application from the Manager, Hindu Lower Secondary School, Bellary, for the recognition of the School.

Also Memorandum from the Manager on behalf of the same School, dated 28th March 1907.

Also letter from the Inspector of Schools, II Circle, No.44B dated 4th April 1907.

The Manager should be informed that the Director cannot recognise the Hindu Lower Secondary School, Bellary, as the staff of the school does not comply with the requirements of the new rules and as there is no satisfactory evidence that the school is really needed in the locality.

2. He should also be informed that when he issues transfer certificates to the existing pupils of the school, he should endorse such certificates with the words "transfers regulated under rule 47 (V)" and with the number and date of this order.

3. The Director accepts the Inspector's recommendation that the present pupils of the school may be admitted from this school into the classes of recognised secondary schools for which they are found fit provided that the transfer is effected before the close of May 1907.

To,

J. J. Logan Esq. B.A.,

Ag. Director of Public Instruction
Madras.

Respected Sir,

With reference to your proceedings No. 2202 dated 11th April 07, I beg to appeal to your honor to re-consider the case & do justice.

Your honor has not been pleased to recognize the Hindu Lower Secondary School Bellary on the grounds that the staff of the school does not comply with the requirements of the new rules and that there is no satisfactory evidence that the school is really needed in the locality.

With reference to your first objection I beg to inform you that the Government on the strength of your recommendation of course have exempted the Ceded Districts from the operation of rules 23 & 28. As I have recently appointed a qualified matriculate as my 18th asst., I beg to point out that the staff now complies with the requirements of the rules according to the recent concession shown to the Ceded Districts. During my personal interview with you I even promised that I would follow the new rules requesting you to give me six months time if your honor is not pleased to show that concession to my school.

With reference to your second objection I beg

to point out that the following are the points by which satisfactory evidence has been fully shown that the school is really needed in the locality.

1 That the present strength of the school which is 70 consists of boys mostly from the Primary school under my management & a few outsiders. Except a single student none other is drawn from either the Wardlaw College or the Municipal High School. The strength itself shows that there is a necessity for it.

2 That the said school was started in 1905 at the request of the people of the Town. The Mahazar submitted to your honor on behalf of the school by the people of Bellary proves the truth of it.

3 That for Bellary District there is only one lower secondary school at Hoskote and that there is no lower secondary school at all in the Town of Bellary of 6000 population.

4 That the said school is situated far away from either the Wardlaw College or the Municipal High School even if the latter be brought into the Town.

5 That Bellary being a backward District, it is desirable that more schools of the kind when undertaken by private bodies are to be encouraged for the improvement of education.

6 The various items in the memorandum submitted to your honor for consideration fully explain the necessity for the school.

The assistant ^{of} Inspector of schools who has been here for years together & who inspected the school every now & then must have recommended the school for recognition having been favorably impressed of it.

When there are so many favorable points on behalf of the Hindu Lower Secondary school I request your honor will be graciously pleased to re-consider the order passed in your proceedings no 2202/11/4/07 and pass favorable orders in according recognition to the said school.

I beg to point out that the establishment of the Hindu Lower Secondary school Bellary will be a memorable event during your administration and place the people of Bellary to be greatly indebted to your honor for your kind favor.

I beg to remain

Explanation to the
lines underlined

The strength referred
to is the strength of the
institutions during
the 1st term of 1907 when
strictly speaking they
should have been closed
as the whole town
was nearly evacuated
for three months on
account of plague
and people were
allowed to re-occupy
their houses simultaneously
with the closing of the
two institutions
for summer vacation.

Now after the re-opening
of the schools, the strength
in each form of the Lower
Secondary sect. is
more than 40 the
maximum number
according to the Educational Rules.
The strength of the 1st Form especially
in the Municipal High School is
65 and in the Wardlaw
College nearly 55.

Although the Head Master of the Municipal
High School or the Principal of the Wardlaw
College did not make any complaint as to fall
in the strength of their school, the strength of
the Lower Secondary forms in the two
institutions bespeaks the absence of a need
for an additional Lower Secondary school
for Bruce Petah.

The grounds for refusal were

(a) Inadequate staff

(b) The school not needed

In regard to staff the Director has no discretion with reference to rule 23 of the M.E.R. (qualification of teachers). The Headmaster - Manager is not a graduate.

As to the necessity for the new school it has been held that the Municipal High School required protection.

The Manager of the Wardlaw College - the other ~~high~~ Complete Secondary School in Bellary has moreover protested to the Inspector against the recognition of this school.

The petitioner brings forward figures to support his contention the strength of ~~class~~ forms I-III in the other schools is given below:-
