GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers:—

I

G.O., No. 509, Educational, dated 31st July 1906.

II

Letter—from the Hon'ble Mr. T. T. LOGAN, B.A., Acting Director of Public Instruction, Madras.
To—the Secretary to Government, Educational Department.
Dated—the 6th May 1907.
No.—Ref. on Cur. No. 1405.

With reference to article 83 of the Madras Educational rules and paragraph 7 of G.O., No. 509, Educational, dated 31st July 1906, I have the honour to point out that it is desirable that the instructions given in the above-quoted article should be carried out only in the case of Local Boards and Municipalities that have accepted and provided for the carrying out of all the other recommendations made in chapter VI of the Madras Educational rules. It is obvious that it would be in many cases hard on the teachers of schools possessing five or more standards (when the scale of salaries is lower than that now prescribed in the Madras Educational rules) if the results stipends which they have been previously drawing are suddenly withheld without the corresponding increase in salaries contemplated by the Madras Educational rules. In the Government Order quoted above, the reason given for withholding capitation allowance from schools possessing five or more standards is, that teachers in these schools have a prospect of rising to higher salaries. Until this prospect is definitely assured there should not be this marked difference of treatment between the two classes of schools.

As it is not at present clearly understood that the instructions contained in article 83 of the Madras Educational rules should not be applied without simultaneous application of the instructions contained in articles 81 and 82, definite orders may be passed on the point.

III

Memorandum No. 1092-1, Educational, dated 13th June 1907.

With reference to his R.O.C. No. 1405, dated 6th May 1907, pointing out that it would in many cases be hard on the teachers of schools possessing five or more standards if the results stipends they have hitherto been drawing were withdrawn without the corresponding increase in their salaries contemplated by rule 82 of the new Educational rules, the Director of Public Instruction is requested to report the probable amount of substantial loss which, he considers, will be incurred by the teachers of elementary schools by reason of a rigid application in the current year of rule 83 of the Educational rules.

2. It is observed that all Local Boards and Municipal Councils have submitted proposals for revising the establishments of the existing elementary schools under their management in accordance with rules 81 and 82 of the Educational rules, and that sanction will be accorded to these proposals as soon as the funds required to meet the extra expenditure on their account have been allotted, from the special grant of six lakhs. As regards the new rural schools which have recently been started out of the six lakhs grant, proposals for revising their establishments have been called for from the several Local Boards and these will be dealt with in the near future.

(By Order.)

C. A. SOUTER,
Asst. Secretary to Government.

To the Director of Public Instruction.

IV

Letter—from A. G. BOURNE, Esq., D.Sc., F.R.S., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 27th September 1907.

No.—R.C. No. 1405.

I have the honour to state that on receipt of your Memorandum No. 1092-1, dated 13th June 1907, the Inspecting officers were required to furnish the particulars therein called for. The file of replies is not yet complete, but the general purport of those to hand is to the effect that as the new scale of salaries is being introduced there are but few cases where any loss will be entailed. This loss may, I think, be mitigated by suitable transfers.

The whole question would not, it appears to me, have arisen but for the assumption that benefits accruing to certain teachers under rule 83 which were offered to induce teachers to come forward for work in small village schools with four or fewer standards would necessarily affect the position of teachers in schools with a fourth or higher standards.

The giving effect to rule 83 was a procedure *sui generis*. No proposals to alter the emoluments of teachers not affected by it need have been entertained until action had been taken in connection with rule 82 in schools having a fourth or higher standards.

Order—No. 729, Educational, dated 1st November 1907.

The Government are unable to accept the proposal which has been made that the provisions of rule 83 of the Madras Educational rules, 5th edition, in regard to the grant of capitation allowance should be enforced only in the case of Local Boards and Municipalities which have accepted and provided for the carrying out of all the recommendations in chapter VI of the rules, and that in the other cases results stipends should be paid under the old rules. The Government do not think it necessary to lay down that the teachers of a school shall be eligible for the capitation allowance, only if the new establishments conform in all respects to the standard scale; it will be enough if it approximates thereto and is approved by Government, as part of the general revision. Nor are they prepared to revert in part to the old result stipends system and to have two separate systems side by side.

(True Extract.)

H. D. TAYLOR,
Ag. Secretary to Government.

To the Director of Public Instruction.

„ Accountant-General.

„ Local and Municipal Department.

NOTES CONNECTED WITH G.O., No. 729, EDUCATIONAL, DATED
1st NOVEMBER 1907.

[SUBJECT.—*Requesting orders as regards the application of Rule 83 of the new Educational rules.*]

From the Director of Public Instruction, dated 9th May 1907, No. 1405.

Rule 83 of the revised Educational rules says—

* I.e. Schools under public management.
G. S. F[ORRES].
“In schools* containing the four lower standards only, each trained teacher will be eligible, where funds permit, for a share of a capitation allowance made to the school calculated on the average daily attendance at the rate of Re. 1 a year per head or Rs. 2 in the case of girls, Panchamas and pupils belonging to the castes or classes which have been declared by the Government to be backward. The total amount to be paid will be reduced on the recommendation of the Inspecting officers if the result of the inspection of school is unsatisfactory.”

2. The Director of Public Instruction (the Hon'ble Mr. Logan) points out that it is desirable that the provisions of the above rule should be enforced only in the case of Local Boards and Municipal Councils, “which have accepted and provided for the carrying out of “all the recommendations made in chapter VI of the Educational rules.”

3. His reasons for the above proposal are—

(1) It would in many cases be hard on the teachers of schools possessing five or more standards (when the scale of salaries is lower than that prescribed by the Educational rules), if the results stipends are withheld without the corresponding increase of salary.

(2) The reason for withholding capitation allowance from schools possessing five or more standards is that the teachers of these schools have better prospects of rising to higher salaries and until this prospect is ensured, there should not be this marked difference between the two classes of schools.

Paragraph 7 of G.O., No. 509, Educational, dated 31st July 1906.

4. Chapter VI of the Educational rules deals with the following matters :—

(1) A scale of teachers which would be suitable for the several grades of elementary schools (Rule 81).

(2) A scale of salaries for these teachers (Rule 82).

(3) Payment of capitation grant to teachers of elementary schools containing the four lower standards (Rule 83).

(4) Rates of fees to be levied in elementary schools (Rule 84).

(5) Use of prescribed text-books in these schools (Rule 85).

5 It is not clear what the Director of Public Instruction exactly means by his present proposal, whether he thinks that the restriction in Rule 83 that the capitation grant should be paid to the teachers of Local Board or Municipal schools containing the four lower standards only should be removed and the grant paid to all elementary

schools, until the establishments in the schools with higher standards have been revised with reference to Rules 81 and 82, or whether the payment of results stipends should be continued to the teachers in schools with more than four standards until their salaries have been raised in accordance with the new rules.

* It was article 89—*vide* page 35 of K.W. G.O., No. 509, Educational, dated 31st July 1906. 6. This * rule (Rule 83) Dr. Bourne originally proposed to apply to all elementary schools, but in the draft as submitted to Government he restricted its application to lower primary schools or to schools with the four lower standards—*vide* the notes on page 36 of K.W. G.O., No. 509, dated 31st July 1906, and the Honourable Member's remarks (paragraphs 11 and 12) on page 116 of the same notes. It does not, therefore, appear that the proposal to extend the scope of this rule to all elementary schools can be entertained. Nor does it appear desirable to continue the payment of results stipends under the old rules, which have been superseded, until the establishments have been organized in accordance with the new rules.

7. In this connection it may be noted that the establishments of all the existing elementary schools both under the management of Local Boards and Municipal Councils have been revised as far as possible in accordance with the Rules 81 and 82 of the revised Educational rules, and that sanction will be accorded to the revision of these establishments as soon as the Director of Public Instruction certifies that the funds required to meet the extra charge on this account can be allotted out of the six lakhs grant. In the case of new schools which have recently been started in rural areas, proposals have been called for † on the subject of revising their establishments with reference to Rules 81 and 82 and the extra cost on this account also is to be met out of the six lakhs grant.

8. The revision of the establishments of all the Board and Municipal elementary schools of all grades may thus become an accomplished fact in the course of a month or two, and there appears to be no ground for any alteration of Rule 83, as appears to have been proposed by the Director of Public Instruction.

K. RANGASWAMI AIYANGAR—4-6-07.

The Director of Public Instruction does not put his request very clearly. He seems to ask (1) that Rule 83 shall not be enforced in all schools; but (2) that it shall be enforced only in the schools of such Local Boards and Municipalities as have agreed to accept all the provisions of chapter VI of the rules. This seems a very retrograde request. Presumably the rules are for the good of schools. It should, therefore, be the aim of the department to get schools to adopt them as soon as possible. They will not do so if they are allowed concessions. On other grounds also, as the office points out, there seems no reason to accept the Director of Public Instruction's recommendation.

C. A. SOUTER—5-6-07.

The power of the Board and Municipal schools to adopt the revised standard scale of establishments depends largely on the grant that can be made to them to keep up that standard. Proposals for the revision of Board school or Municipal school establishments have been worked out as far as possible on the lines of the rules, in consultation with the Director of Public Instruction, who has been asked to submit proposals for the allotment of the necessary grant out of the six lakhs. As soon as the requisite grants are made the proposition statements will be sanctioned.

2. After these scales of establishments have been finally approved—whether or no they conform precisely to the standard scale, I submit that the rules as to capitation

No.

G. S. F[ORBES].

fees as laid down in the rules must be adhered to. We cannot go back in part to the old results stipends system, and have two separate systems side by side.

3. Proposals may, however, be considered for the payment of results stipends in respect of the current year for such portion of the year for which effect has not been given to the revised scales as now to be approved.

Capitation grant should not of course be given simultaneously with result stipends. As the latter are abolished on the recognition of the establishments, the former will become payable. It is not necessary that the new establishments should conform in all respects to the standard scale, provided that it approximates thereto

G. S. F[ORBES]. and is approved by Government as part of the general revision.

4. But to have two separate systems existing side by side would lead to great confusion.

H. D. TAYLOR—6-6-07.

I agree generally, but I am not satisfied as to the need of the proposal in paragraph 3 of Mr. Taylor's note. No estimate even approximate has been made of the supposed loss to teachers in the lower elementary schools. I presume they are already taking the fees. Besides only *trained* teachers are eligible. Nor am I quite satisfied that the capitation allowance under Rule 83 is not too high. The object of the capitation is to induce teachers to qualify.

Better ask the Director of Public Instruction by official memorandum at what he estimates the substantial loss incurred by teachers by a rigid application this year of Rule 83; pointing out, if the statements in paragraph 7 of the office-note are correct, that salaries have been raised, etc.

G. S. F[ORBES]—7-6-07.

application of educational rules.

REMINDER.

Director of Public Instruction.
~~The Commissioner for Govt. Examinations.~~
~~Superintendent, Govt. Museum.~~

is requested to state what
action has been taken upon the above reference,
the stage at which the matter now is and when a
final reply may be expected.

2. It is requested that this reminder may
be returned with a reply within three days of
receipt without fail.

Fort St. George,
OOTACAMUND,

Date 26 - 8. 1907

Asst. Secretary.

Particulars regarding the
probable amount of loss have been
called for from the Inspecting Officers.
These officers have to get figures for
the several institutions under public
management in their respective circles.
A reply to the Government Memorandum
will be submitted on receipt of the
particulars in this office. The
urgency of the matter has been impressed
on Inspecting Officers and periodic
reminders are being sent. It is hoped
that a final report to Government will
be possible in about a fortnight's
time.

x in Local Board.

started in rural areas, proposals have been called for on the subject of revising their establishments with reference to Rules 81 and 82 and the extra cost on this account also is to be met out of the six lakhs grant.

8. The revision of the establishments of all the Board and Municipal elementary schools of all grades may thus become an accomplished fact in the course of a month or two, and there appears to be no ground for any alteration of Rule 83, as appears to have been proposed by the D.P.I.

4-6-07
D. P. I. does not
Sec.

The D.P.I. puts his request very ~~clearly~~ clearly. He seems to ask (1) that rule 83 shall not be enforced in all schools; but (2) that it shall be enforced only in the schools of such Local Boards and Municipalities as have agreed to accept all the provisions of Chapter VI of the rules. This seems a very retrograde request. Presumably the rules are for the good of schools. It should therefore be the aim of the Department to get schools to adopt them as soon as possible. They will not do so if they are allowed concessions. In other

ground^{also}, as the office points out,
then seems no reason to accept
the D.P.H. recommendation.

Chs ^{outer}
5.6.7.

The power of the Board & H.C. school to adopt
the revised standard scale of establishment
depends largely on the grant that can
be made to them to keep up that standard.
Proposals for the revision of Board school
& Municipal school establishments have
been worked out as far as possible
on the lines of the Rules, in consultation
with D.P.H., who has been asked to
submit proposals for the allotment of
the necessary grants out of the blocks.
As soon as the requisite grants are made
the proposed statements will be
sanctioned.

2 After these scales of establishment have
been finally approved - whether or no
they conform precisely to the standard
scale, I submit that the rules as to
capitation fees & laid down in the
rules must be adhered to. We cannot
go back in part to the old ^{small stipend} ~~Salaries~~
system, and have two separate
systems side by side. ~~Until the~~

No

1
b
21 6P
3 Proposal may however be considered for the
purpose of results superior in respect
of the current year for such portion of the
year for which effect has not been
given to the revised scales as would
be approved.

Capitation grant should not of
course be given simultaneously with
results superior. As the latter are
abolished on the reorganization of the
schools, the former will become payable.

It is not necessary that the new schools should
conform in all respects to the standard
scale provided that it approximates
thereto and is approved by Govt. as part of
the general revision.

4 But to have two separate systems existing
side by side would lead to great confusion

W. Taylor
667

HM

I agree generally but I am not
satisfied as to the need of the proposal
in para. 3. ^{of Taylor's note} No estimate even approximate
has been made of the supposed
loss to teachers in the lower
elementary schools. I presume
they are already taking the fees.
Besides only trained teachers are eligible

Now am I quite satisfied that ~~where~~ the capitation all^{ce} under rule 83 is not too high. The object of the capitation is to induce teachers to qualify.

Better ask D.P. I by Mr. ~~whether~~ ~~whether~~ ~~whether~~ at what he estimates the substantial loss incurred by teachers by a rigid application this part of rule 83; ~~have not~~ pointing out, if the statements in para. 7 of the office note are correct, that salaries have been raised &c

As to the Hon'ble member's query, namely, at what the Director estimates the substantial loss incurred by teachers by a rigid application this year of rule 83 of the Educational rules, the Hon'ble Mr. Bourne reports that as the new Scale of Salaries is being introduced there are but few cases where any loss will be entailed. This loss may, he thinks, be mitigated by suitable transfers.

ORDER No. 729, dated 1-11-1907.
P.S.

The Government are unable to accept the proposal of the Director of Public Instruction that the provisions of rule 83 of the Madras Educational rules, Fifth Edition, in regard to the grant of capitation allowance should be enforced only in the case of Local Boards and Municipalities which have accepted and provided for the carrying out of all the recommendations made in Chapter VI of the rules, and that in the other cases results stipends should be paid under the old rules. Nor are they prepared to ~~revert~~ ^{revert} back in part to the old result stipends system and to have two separate systems side by side. ^{It is not necessary that, in order to enable the teachers of a school for the capitation allowance, the new establishments should conform in all respects to the standard scale. It will be enough if provided}

These should be with effect in the cases of Local Boards and Municipalities which have accepted and provided for the carrying out of all the recommendations made in Chapter VI of the rules.
