Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction, Madras.

No.—R.C. No. 8968 No. of 1906.

With reference to G.O., No. 697, Educational, dated 1st November 1906, I have the honour to submit herewith a copy of letter R. Dis. No. 1057, dated 26th September 1907, from the Collector of Tanjore and to state that I concur in the views expressed therein.

Letter—from J. P. BEDFORD, Esq., I.C.S., Acting Collector of Tanjore.

To—the Director of Public Instruction.

Dated—the 26th September 1907.

No.—R. Dis. 1057/Rev.

With reference to your letter Ref. on Cur. No. 8968, dated 26th July 1907, and subsequent reminders, I have the honour to forward, for your information, a copy of the resolution of the Executive Committee of the Victoria Jubilee Hostel, Kumbakonam, No. 6, dated 11th February 1907, and the President's letter thereon, R.C. No. 55 C.H., dated 13th February 1907, and to state that the Committee considers it impracticable at present to remedy the defects noticed by the University Commission in respect of the hostel buildings, except to the limited extent proposed, namely, the provision of lattice work to the wooden partitions and glass tiles to the rooms in the first floor so as to improve light and ventilation. The estimate called for in respect of these works from the Executive Engineer, Canvey division, Tanjore, has not yet been received. The Committee reports that the cost of these works will not be excessive and that it can be met from the savings under the original estimate for the construction of the hostel, which amounts to

1. That the hostel has been built on a plan which cannot be approved.

2. That the rooms on the ground floor are only 10 feet high.

Rs. 128-2-10. To remedy the defects pointed out by the University Commission and noted in the margin would involve considerable structural alterations, not to say, a practical reconstruction of the whole building. This being impossible at present, the Committee has reiterated its previous request that the works already suggested by it may be carried out and that the building grant of Rs. 2,560 already applied for for the purpose may be sanctioned—vide this office letter R.C., No. 3559 G.R., dated 3rd August 1906.

2. With a view to ascertain the exact financial position of the hostel, I called for an estimate of the receipts and charges of the hostel for the current and the ensuing financial years. The Executive Committee has submitted an estimate for the period from February 1907 to December 1907 so as to correspond with the terms of the college.

3. From the estimates now received, it is clear that the improvements originally proposed by the Executive Committee cannot be carried out without a substantial aid from Government. The Committee has practically no funds to fall back on, and there is no prospect of any surplus income being derived in the near future. Government, in G.O., No. 1003 L., dated 21st

August 1906, disallowed the proposal of the Tanjore District Board to contribute Rs. 1,000 annually from the Chattram funds towards the maintenance of the hostel and the Committee feels very doubtful whether it will be able even to maintain the existing buildings in proper repair. In these circumstances, no addition or improvement to the present buildings can possibly be undertaken by the Hostel Committee without extraneous help, and I request you to be good enough to recommend to Government the grant of the Committee's application for funds. I feel bound to add that, after a perusal of the accounts of the institution and full discussion with the members of the General and Executive Committees, last week at Kumbakonam, I have completely lost confidence in the reliability of the estimate alluded to in paragraph 2 above. The present constitution of the institution is so nebulous and, in so far as it is definite, stands in such violent opposition to administrative necessities that it is almost impossible even to see what is being spent and received, much less to prepare an intelligent forecast. The General Committee has appointed a special sub-committee to consider and report what changes in the constitution of the Committees will be necessary in the interests of financial lucidity, practical efficiency and general harmony, all of which are endangered by the present system. Another meeting of the General Committee will be held about the middle of December next, after which I hope to be in a position to address Government fully and in detail. Meanwhile, I do not, for a moment, suppose that the preparation of a clear and complete financial statement will in any way modify the representations contained in this letter in regard to the specific matter now at issue.

## (2)

Letter—from the Sub-Collector and President, Executive Committee, Victoria Jubilee Hostel, Kumbakonam.

To—the Collector of Tanjore and President, General Committee, Victoria Jubilee Hostel, Kumbakonam.

Dated—the 13th February 1907.

No.—R.C. 55 C.H.

With reference to your letter R. Dis. No. 1213, dated 14th December 1906, forwarding copy of Government Order on the application for building grant, I have the honour to forward herewith a copy of the resolution of the Executive Committee thereon and to report as follows.

2. From a copy of the extract enclosed from the remarks of the University Commission regarding the hostel, it will be observed that the defects noticed therein are—

(1) The hostel has been built on a plan which cannot be approved.

(2) The light and ventilation are bad and when the doors have to be closed, there is no ventilation of any kind.

(3) The rooms on the ground floor are only 10 feet high.

Defects Nos. (1) and (3) are such that cannot apparently be remedied now. As regards No. (2), I have the honour to state that the Committee, in its resolution so long ago as 6th June 1905, resolved that the upper central portion of the partitions between the rooms be replaced by lattice work, so as to secure proper circulation of air. But, when the Executive Engineer was addressed to effect the improvement, he replied that the work was completed according to sanctioned estimate. He has now been requested to forward an estimate for the lattice work above referred to, as also for the glass tiles in each of the rooms in the first floor so as to admit of sufficient light and ventilation. Nothing more is possible under the circumstances. The Committee are prepared to carry out these works, without applying for any extra grant from Government, out of the savings of the original estimate which is reported to be Rs. 128-2-10, not yet refunded to the Committee, as it is not likely that the cost will exceed this amount.

3. In these circumstances, I request that Government may be addressed to accord their sanction for the grant as originally applied for.

Letter from the President, General Committee, forwarding a copy of Government Order on the application for building grant, to the effect that an estimate for the cost of carrying out the alterations suggested by the University Commission should first be submitted.

*Resolution No. 6.*—The Committee resolve, with reference to the remarks of the University Commission, to call for an estimate (a) for lattice work in the upper central panels of the partition in the ground floor (*vide* resolution of the Committee, dated 6th June 1905), and (b) for the glass tiles in each room in the first floor. The Committee are prepared to carry out these works without any grant out of the savings of the original estimate. Under these circumstances, they request that the Government grant applied for be sanctioned.

**Order—No. 774, Educational, dated 21st November 1907.**

The Government will be prepared to sanction the grant of one-third of the cost of carrying out the proposed improvements to the Victoria Jubilee Hostel, Kumbakónam, provided that the balance can be raised by private subscriptions.

*From the Director of Public Instruction, dated 14th October 1907, No. 8968.*

The Commission appointed by the University of Madras for the inspection of affiliated Colleges pointed out the following defects in the hostel attached to the Government College, Kumbakónam:—

- (1) that the hostel had been built on a plan which could not be approved.
- (2) that the light and ventilation of the rooms were bad, and

G.O., No. 697, dated 1st November 1906.

2. In 1906 the Committee of the Hostel applied for a grant towards the cost of certain works \* connected with the hostel, estimated to cost Rs. 2,560. The Government, however, observed that the alterations required for the purpose of remedying the defects referred to by the University Commission of inspection were of a more urgent character than the improvements then proposed, and desired to have an estimate of the cost of carrying out those alterations into execution, with the proposals of the Hostel Committee with reference to them.

3. From the letter from the Collector of Tanjore, dated 26th September 1907, forwarded with the Director of Public Instruction's current letter, as well as from the resolution of the Committee of the Victoria hostel, dated 11th February 1907, it is observed, that "the Committee considers it impracticable at present to remedy the defects noticed by the University Commission in respect of the hostel buildings, except to the limited extent proposed, namely, the provision of lattice work to the wooden partitions and glass tiles to the rooms in the first floor so as to improve light and ventilation." The estimate called for in respect of these works from the Executive Engineer, Cauvery Division, Tanjore, has not yet been received, but the Committee expects that the cost of these works will not be excessive and that it can be met from the savings under the original estimate for the construction of the hostel, amounting to Rs. 128-2-10. Mr. Bedford also observes that the remedying of the defects pointed out by the University Commission would involve considerable structural alterations, amounting almost to a practical reconstruction of the whole building, and that as this is impossible at present, the Committee repeats its request that the works suggested by it may be carried out and that a building grant may be sanctioned in respect of the works originally proposed.

No. 774, EDUCATIONAL, 21ST NOVEMBER 1907.

4. Mr. Bedford considers that having regard to the present financial condition of the hostel, as evidenced by the estimates of receipts and charges furnished by the hostel Committee, it is clear that the improvements originally proposed by the Committee cannot be carried out without a substantial aid from Government and accordingly recommends the Committee's application for grant.

5. It is now for consideration whether a building grant of Rs. 850, *i.e.*, one-third of Rs. 2,560 roughly, may be sanctioned or whether the detailed report of the special Sub-Committee on the working of the hostel, promised in paragraph 3 of the Collector's letter, may be awaited.

K. RANGASWAMI AIYANGAR—6-11-07.

It seems pretty obvious from Mr. Bedford's letter that the College will not be able for a very long time to carry out the suggestions of the Commission, without a large grant. It is therefore for consideration whether the small grant now asked for may not be sanctioned. This work will at least improve the lighting and ventilation to some extent.

2. The report of the Sub-Committee on the working of the hostel will not, Mr. Bedford says, make much difference to the present circumstances.

C. A. SOUTER—8-11-07.

The application recorded in G.O., No. 697, Educational, dated 1st November 1906, and supported by Director of Public Instruction was for a grant of the *entire* cost—Rs. 2,560—and not only for one-third grant. This is also recommended by the Collector.

The Collector says: "The Committee practically has no funds to fall back upon."

Omit the words underlined.

G. S. F[ORBES].

A third grant may be promised if the balance can be raised by private subscriptions within the district.

H. D. TAYLOR—8-11-07.

Yes. If the Committee have not funds, they should obviously raise fees for boarding in the hostel, but we need not say this.

It is not necessary that the private subscriptions should be "within the district."

No. 8968 dated 26th July 1907 and subsequent reminders, I have the honour to forward for your information a copy of the resolution of the Executive Committee of the Victoria Jubilee Hostel, Kumbakonam, No. 6 dated 11th February 1907 and the President's letter <sup>thereon</sup> ~~thereon~~, R.C. No. 55 C.H. dated 13th February 1907 and to state that the committee considers it impracticable at present to remedy the defects noticed by the University Commission in respect of the hostel buildings, except to the limited extent proposed, namely, the provision of lattice work to the wooden partitions and glass tiles to the rooms in the first floor so as to improve light and ventilation. original estimate for the construction of the hostel, which amounts to Rs. 128-2-10. To remedy the defects pointed out by the University Commission and noted in the margin would involve considerable structural alterations, not to say, a practical reconstruction of the whole building. This being impossible at present, the committee has reiterated its previous request that the works already suggested by it may be carried out and that the

488  
buildings grant of Rs. 2560 already applied for for the purpose  
may be sanctioned; vide this office letter R.C. No. 3559/G.R. of  
06 dated 3rd August 1906.

2. With a view to ascertain the exact financial position  
of the hostel, I called for an estimate of the receipts and  
charges of the hostel for the current and the ensuing financial  
years. The executive committee has submitted an estimate for the  
period from February 1907 to December 1907, so as to correspond  
with the terms of the College.

3. From the estimates now received it is clear that the  
improvements originally proposed by the executive committee

11 The committee has practically no funds to fall back on, and there  
is no prospect of any surplus income being derived in the near  
future. Government, in G.O. No. 1003L. dated 21st August 1906, ✓  
disallowed the proposal of the Tanjore District Board to contri-  
bute Rs. 1,000 annually from the chatram funds towards the mainte-  
nance of the hostel and the committee feels very doubtful whether  
it will be able even to maintain the existing buildings in proper  
repair. In these circumstances, no addition or improvement  
to the present buildings can possibly be undertaken by the hostel  
committee without extraneous help, and I request you to be good  
enough to recommend to Government the grant of the committee's  
application for funds. I feel bound to add that, after a perusal  
of the accounts of the Institution and full discussion with the  
members of the General and Executive Committees, last week at  
Kumbakonam, I have completely lost confidence in the reliability  
of the estimate alluded to in para 2 above. The present  
constitution of the institution is so nebulous and, in so far as  
it is definite, stands in such violent opposition to administra-  
tive necessities that it is almost impossible even to see what is  
being spent and received, much less to prepare an intelligent  
fore-cast. The General Committee has appointed a special  
sub-committee to consider and report what changes in the constitu-

all of which are endangered by the present system. Another

Government fully and in detail. Meanwhile, I do not, for a moment,  
suppose that the preparation of a clear and complete financial

a copy of Government Order on the application for building grant  
to the effect that an estimate for the cost of carrying out the  
alterations suggested by the University Commission should first  
be submitted.

-----  
The Committee ~~XXXX~~ resolve, with reference to the remarks  
of the University Commission, to call for an estimate (a) for  
lattice work in the upper central panels of the partition in the  
ground floor; vide resolution of the Committee dated 6-6-05 and  
(b) for the glass tiles in each room in the first floor. The  
Committee are prepared to carry out these works without any  
grant out of the savings of the original estimate. Under these  
circumstances, they request that the Government Grant applied for  
be sanctioned.

C.No.2559 From the Director of Public Instruction, No.8968 dated 14-10-07

Subject.

Recommending that a Grant-in-aid ~~may~~ be sanctioned towards the cost of certain improvements to the Victoria Jubilee Hostel, Kumbakonam.

The Commission appointed by the University of Madras for the inspection of affiliated Colleges pointed out the following defects in the hostel attached to the Government College, Kumbakonam:--

- (1) that the hostel had been built on a plan which could not be approved
- (2) that the light and ventilation of the rooms were bad, and
- (3) that the rooms on the ground floor were only ten feet high.

In the enclosure:-

2. In 1906, the Committee of the hostel applied for a grant towards the cost of certain works connected with the hostel, estimated to cost Rs.2,560. The Government, however, observed that the alterations required for the purpose of remedying the defects referred to by the University Commission of inspection were of a more urgent character than the improvements then proposed, and desired, to have an estimate of the cost of carrying out those alterations into execution, with the proposals of the Hostel Committee with reference to them.

3. From the letter from the Collector of Tanjore dated 26th September 1907, forwarded with the Director of Public Instruction's current letter

Vide Article 51 of the  
Grant-in-Aid Code,  
1906 Edition -

a substantial aid from Government and accordingly  
recommends the Committee's application for grant

5. It is now for consideration whether a  
building grant of Rs. 850, i.e., one-third of  
Rs. 2,560 roughly, may be sanctioned ~~or whether~~  
~~or whether~~ or whether the detailed report of the  
special Sub-Committee on the working of the hostel,  
promised in paragraph 3 of the Collector's letter  
may be awaited.

Sec.

It seems pretty obvious from  
Mr. Bedford's letter at pp 2-4  
Cf. that the College will not be  
able for a very long time to carry  
out the suggestions of the Commission,  
without a large grant. It is therefore  
for consideration whether the small  
grant now asked for may not be  
sanctioned. This work will at least  
improve the lighting & ventilation to  
some extent.

2. The report of the Sub-Committee  
on the working of the hostel will not,  
Mr. Bedford says, make much  
difference to the present circumstances.

The application renewed with 697 ED  
 dated 1st Nov 1906 and supported by  
 was for a grant of the entire cost  
 R 2560 - and an only for 1/3 grant.  
 This is also renewed by the Collector  
 vide 1st Dec on p 3 of file.

The Colli. says "The Committee  
 practically has no funds to fall  
 back upon".

A third grant may be  
 provided if the balance can be  
 raised by <sup>possible</sup> subscriptions within  
 the District.

Wm.

Yes. If the Comtee have not  
 funds, they sh<sup>d</sup>. obviously  
 raise fees for boarding  
 in the hostel, but we  
 need not say this.  
 It is not necessary that  
 the private subscribers sh<sup>d</sup>.  
 be "written the district".
