The Accountant-General

Sometime back the Medical Schools at Tanjore and Vizagapatam were supplied with an X ray apparatus. The Superintendent of the latter institution which at present has six servants applied for an additional servant to be in charge of the apparatus and reported that none of the existing servants could be told off for this duty as the proposed servant would have ~~have~~ to take the accumulators from the Hospital to the R.C. Industrial Institute to have them recharged and that both morning and evening he would have to assist the instructor in developing and printing the plates. As no similar application had been received from the Superintendent of the Medical School at Tanjore, the opinion of the Surgeon-General on the request of the Superintendent of the Vizagapatam School was asked for. That officer states that to enable the apparatus to be fully utilized

utilized in the instruction of the students of the school, it is necessary that until the new school building is constructed an additional servant should be engaged to be in charge of the apparatus. In these circumstances, I have the honour to request that you will be so good as to obtain the sanction of Government to the entertainment of a temporary peon on Rs 7 per mensem with effect from 1st November 1907.

2 The necessary proposition and re-appropriation statements are herewith submitted. Provision for the purpose has been made in the budget estimates for the ensuing year.

The D.P.I. requests sanction to the employment of a temporary peon on Rs 7 per mensem for a period of sixteen months from the 1st Nov. 1907 or until the school is moved into the new building which is under construction.

2. The peon is required for employment in connection with the working of the X ray apparatus. The Director states that the peon has "to take the accumulators from the Hospital & to the R.C. Industrial Institute to have them recharged and that both morning & evening he would have to assist the Instructor in developing and printing the plates."

3. There are six servants attached to the Medical School, but none of them, it is said, could be told off for this duty. The Surgeon-General ^{considers} ~~agrees~~ that until the School is moved into the new building the employment of a peon to be in charge of the apparatus is necessary.
