Ref. on C. No. 8391/07

Station Madras , Dated the 3rd December 1907.

From (Name) The Hon'ble Mr. A.C. Bourne, D.Sc., F.R.S.,

(Designation) Director of Public Instruction,

To the Secretary to the Government of Madras,
Educational Department

Sir,

I have the honour to submit the enclosed copy of an application for aid towards the cost of purchasing apparatus for physics and chemistry required for the Intermediate course and additional apparatus for the new B.A. Pass and Honour Course for Physics in St. Joseph's College, Trichinopoly, and to recommend that a maximum grant of Rs. 2599 be sanctioned under Rule 57 of the Grant-in-aid Code to be paid when funds become available.

2. The apparatus proposed to be purchased is intended to meet the requirements of the Intermediate course under the new University Regulations. The Manager states that "the list of apparatus for Physics is a copy of the first part of the list prepared

2 ✓ A
prepared by Mr. R. Ll. Jones save that it provides for 30 instead of 20 students and represents what Mr. Jones considers the minimum requirements for 30 students. The makers are Messrs, Pye, H. Baird and Baird & Tatlock. The serial numbers 1, 29 and 31 do not appear in any catalogue to hand but will be ordered from Mr. H. Baird.

The lists of apparatus for teaching Chemistry comprise only a part of the apparatus declared by the University authorities to be requisite for a class of 20 students for the Intermediate practical course under the new Regulations. The rest we hope to procure later on. It should be noted that as in the case of the list of the apparatus for Physics the list represents a supply for 30 students. The rates are those entered in Mr. R. Ll. Jones' list."

3. This application may be considered separately from any consideration of the distribution of the University Grant for which

Genl. Secy A

NOTES.

C.No.2902 from the Director of Public Instruction, No.8391 dated 3-12-1907

Subject.

Furniture grant of Rs.2,599 for the St. Joseph's College, Trichinopoly.

The Director of Public Instruction forwards an application^x from the correspondent of the St. Joseph's College, Trichinopoly, requesting that a grant of Rs.2,600 may be sanctioned towards the purchase of apparatus for Physics and Chemistry for the Intermediate, B.A. Pass and Honours Courses of the College. The total cost of the articles as estimated by Mr. R.Ll. Jones is stated to be Rs.5,199-15-0 and the Director of Public Instruction recommends that a grant of Rs.2,599 (or one half of the estimated cost) may be sanctioned under Article 57 of the Grant-in-Aid Code (1906 Edition).

2. The Government have already sanctioned a grant of Rs.46,000 out of the special grant in aid of University education for the St. Joseph's College, Trichinopoly, this grant having been asked for by the college authorities towards "the cost of erecting Physical Science buildings, "a room for the Museum and alterations and additions to the existing College Department".

3. In submitting the present application

the Director of Public Instruction, however, states that this may be considered separately from any consideration of the distribution of the University grant and observes that the University grant is intended "for buildings and "more expensive appliances and apparatus". There does not however appear to be any authority for this stated.

4. It is for consideration whether the Director's recommendation may be accepted and the grant of Rs.2,599 or one half of the actual cost of the apparatus, whichever is less, may be sanctioned for payment when funds become available or whether the D.P.I. may be simply referred to Go. No. 810 Est. Dated 3rd December 1907. P.R. 10-12-07 sanctioning a grant of Rs 46000 for this College out of the University Grant. K.R. 10-12-07.

Lec.

Chl
11.12.07

The requirement of St. Joseph's College, Tirupur, as stated on p 13 of S.B. 570 dt 31st Aug 07, in order to complete the new University Regulation were stated as Rs 70000, of which Rs 46000 has been provided by a very liberal allotment from the University Grant.

I do not think that this College can reasonably ask for more than is it possible to distinguish between Major & minor apparatus when both alike are required solely to

Circulated 12¹²/₈₁
Box No. 20.

meet the requirements of the New
Regulations

WM

What the D. & I. means is
that he w^d. consider the
application as an application
w^h. might have been made
before the Amos^{ts} grant was
available - i.e. independent
under the Code.

He may as well accept
his proposal - the amt.
mentioned being the max^m.
the and the grant actually
given will within that
max^m be half xdr. of
the estimated cost of the
actual expense incurred in
supplying the apparatus &c
specified
