READ—the following papers:—

I

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 19th February 1908.
No.—Cur. No. 1213.

I have the honour to propose the following distribution of the Provincial contributions to municipalities for education for the year 1908-1909:—

Amount. RS.		Amount. RS.	
Anantapur	1,130	Gudiyattam	580
Bellary	4,270	Tirupati	290
Chingleput	1,200	Walajapet	650
Conjeeveram	2,040	Salem	2,970
Erode	600	Tiruppattūr	2,460
Cuddapah	1,340	Vaniyambadi	740
Chicacole	1,450	Cuddalore	600
Parlákimedi	580	Tiruvannámali	1,030
Cocanada	590	Kumbakónam	300
Rajahmundry	1,560	Máyavaram	1,920
Ongole	1,550	Palamecottah	1,100
Bezwada	500	Srivilliputtūr	300
Ellore	610	Tinnevely	360
Kurnool	2,650	Srirangam	310
Nandyal	370	Anakápalle	450
Dindigul	3,200	Vizagapatam	210
Palni	30	Vizianagram	240
Periyakulam	130	Madras	22,420
Calicut	280		
Cochin	110		
Tellicherry	3,880	Total	65,000

2. The distribution is only provisional and is subject to alteration at the end of the year according to the actual requirements of each municipality as shown in their revised estimate. The contributions have been calculated in the same way as the contributions for local fund boards and municipalities for the current year, and it has been assumed generally that the expenditure from municipal funds to be provided under Grant 2 in the budgets of the municipalities for the next year would not be less than that provided by them in the sanctioned budgets for the current year.

II

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., Director of Public Instruction.
To—the Secretary to Government, Educational Department.
Dated—Madras, the 21st February 1908.
No.—Ref. on C. No. 1213.

In continuation of my C. No. 1213, dated 19th February 1908, I have the honour to submit revised proposals for the distribution of the Provincial contribution to municipalities for education for the year 1908-1909, with reference to the provision

made for the purpose under "22-I. Education—Miscellaneous" in the preliminary issue of the Civil budget. I submit also proposals for distribution of Rs. 6,500 under "22-E. Education—(iii) Payments in support of municipal schools."

The amounts proposed in my C. No. 1213, dated 19th February 1908, have been proportionately reduced with reference to the provision in the budget. From the budget estimates of each municipality, it seems evident that the amounts now proposed as contribution will be inadequate and that additional allotments will be required both under 22-I. Education and 22-E. Education.

ENCLOSURE.

Distribution for Rs. 53,000.

NOTES CONNECTED WITH G.O., No. 148, EDUCATIONAL,
DATED 27TH FEBRUARY 1908.

[SUBJECT.—Distribution of subsidy to Municipalities for 1908-1909.]

Telephonic message from H. D. Taylor, Esq., I.C.S., Acting Secretary to Government, Educational Department, to the Director of Public Instruction, dated 17th February 1908.

Please expedite submission of statement showing provisional allotment of subsidy to District Municipalities for 1908-1909. Orders on the budgets are being delayed for want of this information. The statement received to-day appears to relate only to 1907-1908.

Telephonic message from the Director of Public Instruction, to the Secretary to Government, Educational Department, dated 18th February 1908.

Your telephonic message of yesterday. The following is the provisional distribution of Provincial contributions for Municipalities proposed for 1908-1909. Letter follows.

Communicate copy to Local and Municipal who should examine with reference to budgets already passed.

Note please the provision made in the preliminary budget estimate for grants to Municipalities by way of subsidy for

- (a) Municipal schools, elementary,
- (b) grants in aid,
- (c) secondary schools.

H. D. TAYLOR—18-2-08.

The provision made in the preliminary issue of the Civil Budget Estimate for 1908-1909 on account of subsidy to Municipalities is as follows:—

	Rs.
Page 141 of Civil Budget Estimate for 1908-1909 (Preliminary issue).	
1. Payments in support of secondary schools (Municipal)	6,500
2. Payments in support of elementary schools	18,000
3. Contribution on account of aided schools	53,000
Total	77,500

2. It is not clear whether the figures given by the Director of Public Instruction which aggregate Rs. 65,000 represent only the subsidies for which a sum of Rs. 53,000 only is provided in the Civil Budget Estimate or whether it represents the total provincial contributions for all the purposes specified in paragraph 1 above, for which a total sum of Rs. 77,500 has been allotted in the Civil Budget Estimate. The following telephonic message may be sent to the Director:—

“Your telephonic message of yesterday regarding provisional distribution of Provincial contributions proposed for Municipalities for 1908-1909. Please let me know whether the figures represent only the subsidies on account of teaching grants to Municipal and aided schools, for which a provision of Rs. 53,000 is made under 22-I. Miscellaneous, in the Civil Budget Estimate (Preliminary issue) or whether it includes also the contributions on account of elementary and secondary schools provided under 22-E.

“Please furnish separately distribution statement for Rs. 6,500 secondary schools and for Rs. 53,000 grants-in-aid. Details for Rs. 18,000, establishment of Elementary Municipal schools are known. Total distribution under each head must agree with provision in budget.”

K. RANGASWAMI AIYANGAR—18-2-08.

H. D. TAYLOR—19-2-08.

From the Director of Public Instruction, dated 19th February 1908, No. 1213.

The Director of Public Instruction submits the letter promised in his telephonic message of the 18th, submitting proposals for the distribution of the Provincial contributions to Municipalities for education for the year 1908-1909. The figures given in his letter are the same as those given in the telephonic message. The Director of Public Instruction states that the distribution is only provisional and is subject to alteration at the end of the year according to the actual requirements of each Municipality as shown in their revised estimate. He adds that the amounts of subsidies have been calculated in the same way as the contributions for Local Boards and Municipalities in the current year and that he has generally assumed that the expenditure from Municipal funds under Grant 2 in 1908-1909 will not be less than that provided in the sanctioned budgets for 1907-1908.

2. The Director of Public Instruction has not yet replied to the telephonic message above. Until the details asked for are received, it is not possible to make out what the amounts now suggested represent. The receipt of a reply from the Director of Public Instruction may be awaited? In the meantime, the Local and Municipal Department may see the Director of Public Instruction's letter.

K. RANGASWAMI AIYANGAR—20-2-08.

C. A. SOUTER—20-2-08.

Yes. Local and Municipal should also have a copy u.o. for reference.

There appears to be provision against Cuddapah, Kurnool, Bellary, Anantapur, Tellicherry and Tiruppattūr for the net cost of the high schools.

The contributions are large in the case of Chingleput, Conjeeveram, Chicacole, Rajahmundry, Ongole, Dindigul, Salem, Tiruvannāmalai, Māyavaram and Palamcottah. These items may include *Building* grants.

H. D. TAYLOR—20-2-08.

Telephonic message from the Director of Public Instruction, to the Secretary to Government, Educational Department, dated 20th February 1908.

Your telephonic message of yesterday. The distribution of Rs. 6,500 for Secondary schools is as follows:—

Please see the telephonic message from the Director of Public Instruction above. He gives only details of the sums of Rs. 6,500 and Rs. 53,000, provided in the Civil Budget Estimate for 1908-1909, for grants to secondary schools (Municipal) and for grant-in-aid, respectively, but does not reply to the first part of the telephone enquiring whether the sums mentioned in his message of the 18th February 1908 represent only the subsidies for teaching grants or include any other items.

2. The statement below gives the distribution of the allotments of Rs. 6,500, Rs. 18,000 and Rs. 53,000, respectively made in the Civil Budget Estimate for 1908-1909 (preliminary issue) for municipal secondary schools, elementary schools and grant-in-aid, as compared with the distribution now recommended by the Director of Public Instruction in his letter, dated 19th February 1908:—

3. From the above statement, it seems that the amount given in column 8 does not include either the grant for secondary schools or that for elementary schools given in columns 4 and 5.

4. The telephonic message from the Director of Public Instruction below explains the process by which the figure given in column 8 was arrived at:—

"Your telephonic message of this day's date. The distribution of Rs. 65,000 advised in the Director of Public Instruction's letter C. No. 1213 of 1907, dated 19th February 1908, has been calculated as follows except in the case of the Madras Corporation. The total expenditure required under grant 2 according to the Director of Public Instruction's remarks on the budget estimates for 1908-1909 was considered. From this was deducted the amount of Provincial contribution for which credit was allowed to be taken in the budget according to G.O., No. 2535 M., dated 24th December 1907. From the balance thus obtained was deducted the expenditure purely from municipal funds provided under grant 2 in the sanctioned budgets of the municipalities for the current year. The difference represented the additional amount of Provincial contribution required. No contribution has been proposed for the municipalities which needed now under the above calculation or for those in the case of which it was stated in the Director of Public Instruction's remarks and the budgets for 1908-1909 that none was required. It will be observed from the principle of calculation mentioned above that the distinction between the contribution for municipal school and that for teaching grants to aided schools no longer exists. The distribution of Rs. 65,000 does not include the contributions towards payment of net cost of certain municipal secondary schools for which a separate provision of Rs. 6,500 is made under 22 E (3)—payments in support of municipal secondary schools."

5. The mode of calculations given in the above message is not clear. Taking a typical instance, the Anantapur municipality, the figures work out as follows according to the process indicated in the above telephone:—

	RS.
Total amount under Grant 2 according to Director of Public Instruction's remarks ..	9,260
Provincial contribution (for elementary schools) under G.O., No. 2535 M., dated 24th December 1907.	80
Balance ..	9,180
Expenditure from purely municipal funds in the sanctioned budget for 1907-1908—Rs. 8,050 — (3,500 fees + 3,380 grants).	1,170
Balance ..	8,010

6. The figure given by Director of Public Instruction for Anantapur in his letter No. 1213, dated 19th February 1908, is however Rs. 1,130 which apparently represents the difference between Rs. 9,180 and Rs. 8,050, the total allotment under Grant 2 in the sanctioned budget of the municipality for 1907-1908. If this is how the figure Rs. 1,130 has been arrived at, it appears to be incorrect.

7. The Director of Public Instruction now submits revised proposals for the distribution of the Provincial contribution to municipalities for education for 1908-1909, with reference to the provision made in the Civil budget estimate for grants-in-aid (Rs. 53,000) and for secondary schools (Rs. 6,500). The Director of Public Instruction however points out that from the budget estimates of the municipalities, it seems evident that the grants now proposed as contribution will be inadequate and that additional allotments will be required both under "grant-in-aid" and under the "Grant for secondary schools."

8. It is for consideration whether the revised distribution now submitted may be accepted. These figures will, it is considered, be liable to modification with reference to the revised estimate of the municipalities for 1908-1909 and the provision in the civil budget estimate will also have to be modified correspondingly.

K. RANGASWAMI AIYANGAR—22-2-08.

I haven't the foggiest notion of how the Director of Public Instruction arrived at his estimate of Rs. 65,000 and his consequent distribution of Rs. 53,000. It seems to me that the contribution required by any municipality could be laid down in a simple formula.

A = total requirements as estimated on the budget proposals by the Director of Public Instruction.

B = amount of contribution already given in G.O., No. 2535 M., dated 24th December 1907.

C = amount which the municipality can itself afford (including fees and other revenue).

Then contribution = $A - (B + C)$. If this formula is applied the Director of Public Instruction's figures are all wrong and in fact the amount of contribution ought in many cases to be much larger than he proposes. The sum of Rs. 53,000 includes Rs. 17,840 for Madras. The other Municipalities therefore get only Rupees 35,160. The actuals for 1906-1907 were Rs. 59,940 (Civil budget estimates, page 146) and it seems clear that the provision of Rs. 53,000 is too small.

2. In the absence of a clear statement as to how the Director of Public Instruction arrived at his figures it seems for consideration whether the proposed distribution of Rs. 53,000 may be provisionally accepted. As the office-note points out the result of the method of calculation given at page 5 *supra* is not what is now proposed.

C. A. SOUTER—22-2-08.

The revised distribution may be approved *provisionally*; it agrees with the figures at present included in civil budget estimate. The grant cannot however be made *conditional* on each municipality contributing a specified sum. The budget of municipalities have to be reviewed not only with reference to the maximum requirements of Educational as estimated by Director of Public Instruction, but also with reference to the general Financial condition and *other* heads of the municipality as to hospitals, sanitation, roads and the like.

Some of the municipal budgets have already been reviewed.

The revised distribution may be communicated u.o. to Local and Municipal as a provisional arrangement.

Please draft accepting the distribution provisionally.

Financial should accept.

H. D. TAYLOR—22-2-08.

The draft placed below is for approval. It may issue with the concurrence of the Local and Municipal Department.

It must however be observed in Local and Municipal Department that the provision for education made by Municipal Council is fixed, in reviewing the budget of each municipality with due regard to the financial position of each.

This expenditure cannot ordinarily be increased in the revised estimate merely on increased demands from educational officers, unless the subsidy is also increased to that extent, while, if the subsidy is reduced, it may also be necessary to reduce the total grant in such cases.

In continuation of my C. No. 1213/3 dated 19th February 1908, I have the honour to submit revised proposals for the distribution of the Provincial contribution to Municipalities for education for the year 1908-09, with reference to the provision made for the purpose under "22. I. Edn. Miscellaneous" in the preliminary issue of the Civil Budget. I submit also proposals for distribution of Rs. 6,500 under "22 E. Edn. (iii) Payments in support of Municipal Schools".

The amounts proposed in my C. No. 1213/3 dated 19th February 1908 have been proportionately reduced with reference to the provision in the Budget. From the Budget Estimates of each Municipality, it seems evident that the amounts now proposed
