Palamcottah,

17th November 1909.

No. 909.

From

Miss. A.J. Askwith,

Manager, Sarah Tucker Schools for
Blind Pupils,
Palamcottah.

To

The Director of Public Instruction,

M a d r a s.

Sir,

With reference to your Proceedings Ref on C. No. 1551 of 1909, dated the 8th July 1909, sanctioning a grant of Rs 10684/- towards the cost of constructing a building for the Sarah Tucker Schools for Blind Pupils, Palamcottah, I have the honour to bring to your notice that in carrying out the work according to the suggestions of the Chief Engineer's Note I find it impossible to adopt the Clerestory ventilators in the Girls' School as per tracings sent to me with the approved plans and estimates as noted in para 2 of his Note, for the following reasons:-

1. I beg to inform you that the two designs of ventilators of 4' X 2' one of glass frames and wire netting and the other of wire netting are much more costly than the ordinary ventilators i-e., 3' X 1' of teak wood with frames, pannelled, pivots etc. complete at Rs 1/- per sq. ft.

2. No provision has been made in the Estimate approved by the Government for the ventilators suggested by the Chief Engineer, while provision is

is made for the other alterations as regards wood work, by increasing the amount according to the quantity of the work.

3. Also I beg to inform you that if I adopt the ventilators as suggested by the Chief Engineer there will be always danger of the flow of rain water coming over the walls inside the rooms.

2. I beg to report that the building work is going on steadily and the walls of some of the rooms are now built up to the limit of the place where the ventilators are to be placed; as the new kind of ventilators is only a suggestion of the Chief Engineer and as I prefer to have the ordinary ventilators as put down in the plan and estimate for reasons I have given, I propose to put the ordinary ventilators only giving effect to the conditions of the Chief Engineer of placing them higher up close under the wall plates.

3. The tracing of the ventilator suggested by the Chief Engineer is herewith submitted for your reference and favour of return.

I, therefore, request you kindly to approve the ventilators originally intended and to communicate to me your order as soon as possible so that the building work may be carried out without delay.

I have the honour to be,

Sir,

Your most obedient servant,

Signed.- Anne Jane Askwith

Manager.
