GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

Letter—from F. DEWSBURY, Esq., B.A., LL.B., Registrar, University of Madras.
To—the Secretary to Government, Educational Department.
Dated—the 9th November 1909.
No.—3199.

I have the honour, by direction of the Syndicate, to submit under Regulation 350 (d) for disposal by the Governor in Council the following applications for affiliation, together with copies of the proceedings of the Syndicate and the Senate on the subject, and of the reports submitted by the Syndicate to the Senate :—

(1) From S.P.G. College, Trichinopoly, for further affiliation in groups V and VI of the courses for the B.A. degree examination.

(2) From the St. Aloysius' College, Mangalore, for further affiliation in groups I and IV of the courses for the B.A. degree examination.

(3) From the Nizam College, Hyderabad, for further affiliation in group IV of the Intermediate course and group VI of the courses for the B.A. degree examination.

(4) From the Zamorin's College, Calicut, for further affiliation in group II of the Intermediate course.

(5) From the Maharani's College, Mysore, for affiliation in group III of the Intermediate course.

The application from the S.P.G. College, so far as it relates to affiliation in group VI of the B.A. courses, is still under consideration. The report of the Syndicate and the resolution of the Senate on this application now submitted have reference only to affiliation in group V.

It will be observed that the Senate has recorded its opinion that affiliation may be granted by Government in each of the five cases submitted.

ENCLOSURE.

(i)

Report of the Syndicate upon the application from the S.P.G. College, Trichinopoly, for affiliation in group V of the courses for the B.A. degree examination.

The Syndicate lays the following correspondence before the Senate :—

Letter—from the Principal, S.P.G. College, Trichinopoly.
To—the Registrar, University of Madras.
Dated—the 29th September 1908.
No.—198-C.

I have the honour to apply for the affiliation of this college in branch V, History and Economics, and VI, two languages, from January 1909.

I believe that all the conditions required under chapter XIV of the Madras University Regulations are already, or soon will be, complied with.

As regards 349—

(a) The college is under the management of a regularly constituted governing body.

(b) The Rev. R. D. Downes, M.A., who took a second class in History Honours at Oxford, is expected to arrive next month. With him will be associated, if necessary, an Assistant Professor in History. Mr. Downes will be permanent missionary on the staff of the S.P.G.

(c) The college has recently been enlarged by the addition of four new lecture rooms. There are two hostels for Christians and non-Christians close to the college. The supervision and physical welfare of the students is provided for.

(d) There is a library for the study of history and economics containing about 300 books. More books are being provided.

(f) The Principal and other members of the staff propose to reside near the college and hostels.

(g) There is nothing to prevent the continuous maintenance of the college as regards financial resources, as it is one of the principal colleges of the society.

(h) I understand that there are 80 students in the neighbouring college, and the affiliation in this branch need not interfere in the least with the classes in that college.

(i) The fees will be fixed at the same rate as those levied in St. Joseph's College, so that there may be no unfair competition. The assurances asked for in the following two paragraphs are readily accorded.

I may add that this college was affiliated in history in 1891 and voluntarily withdrew from affiliation in 1899.

As regards affiliation in branch VI it will only be necessary to add to the above that our Sanskrit Professor is one of the best pandits in South India, who has written several important books on Sanskrit, and has been most successful in the tuition of those students whom for the last four years he has sent in for the University examinations.

As regards Latin and Greek, the new Principal, who will take over charge next January, is a second-class Classic of Cambridge.

Our Tamil pandit died last month, but his place will be filled by another pandit of similar attainments. We also have Malayalam and Hindustani pandits quite capable of teaching their own languages. So that whichever of these languages students may wish to take up we can provide competent lecturers.

Letter—from the Registrar, University of Madras.
To—the Principal, S.P.G. College, Trichinopoly.
Dated—the 22nd October 1908.
No.—3294.

In reply to your letter No. 198-C., dated the 29th September 1908, I have the honour to inform you, by the direction of the Syndicate, that your application for further affiliation should be made in proper form, giving all necessary particulars in accordance with Regulation 349; and also that, owing to the lateness of the application, it is highly improbable that affiliation can be granted in time for the proposed courses to be undertaken during the coming year.

With reference to the particulars required as above, I have specially to call your attention to the need for full information as to the college library.

Letter—from the Principal, S.P.G. College, Trichinopoly.
To—the Registrar, University of Madras.
Dated—the 26th October 1908.
No.—223-C.

In reply to your letter No. 3294, dated 22nd October 1908, you ask that my application for affiliation in history and economics should be made "in proper form" giving all necessary particulars in accordance with Regulation 349, I fail to see wherein my application No. 198-C., dated 29th September 1908, is not in proper form and where it does not comply with Regulation 349. If you will kindly point out what is deficient I shall do my best to remedy the defect. If there is any printed form of application, I shall be obliged to you if you will furnish me with a copy. As regards the library I forward herewith a copy of the college catalogue. Other books will be added as required. The Professor of History (Rev. R. D. Downes, M.A.) is expected to arrive early in November and he will doubtless know what additional books are needed.

Letter—from the Registrar, University of Madras.
To—the Principal, S.P.G. College, Trichinopoly.
Dated—the 28th October 1908.
No.—3377.

In reply to your letter, dated 26th October 1908, I beg to inform you that my letter No. 3294 of 22nd October 1908 was not intended to suggest that your application was not in order or was insufficient in detail. The letter was merely a formal intimation of the necessity of making application of having regard to all the requirements under Regulation 349, and was sent by the direction of the Syndicate to all colleges making application for further affiliation. The library catalogue will be submitted to the Syndicate together with your letter.

Letter—from the Registrar, University of Madras.
To—the Principal, S.P.G. College, Trichinopoly.
Dated—the 13th November 1908.
No.—3580.

I have the honour to acknowledge the receipt of your letter No. 223-C., dated the 26th October last, forwarding catalogue of the college library and adding observations in support of the application for the affiliation of the college in branches V and VI of the B.A. Pass Degree Examination.

I am directed by the Syndicate to reply that the application for affiliation in branches V and VI must be dealt with in the ordinary way.

Letter—from the Principal, S.P.G. College, Trichinopoly.
To—the Registrar, University of Madras.
Dated—the 23rd February 1909.
No.—48-C.

With reference to my letter No. 198-C, dated 29th September 1908, I have the honour to inform you that I have appointed in this college the Rev. R. D. Downes, M.A. (who took high Second-class Honours in the History Final School at Oxford). He has been engaged in lecturing in the college since the beginning of this year.

I hope therefore that early steps will be taken for affiliating this college in branch V (History) this year so that I may prepare to open a Junior B.A. Class in Branch V (History) next year.

Letter—from the Registrar, University of Madras.
To—the Principal, S.P.G. College, Trichinopoly.
Dated—the 28th April 1909.
No.—1540.

In reply to your letter, No. 48-C., dated 23rd February 1909, and with reference to your application for affiliation in Branch V (History) of the B.A. Course under the old by-laws, I have the honour to inform you, by direction, that the Syndicate is not prepared to consider applications for affiliation under the old by-laws.

Letter—from the Principal, S.P.G. College, Trichinopoly.
To—the Registrar, University of Madras.
Dated—the 14th May 1908.
No.—129-C.

With reference to your letter No. 1540, dated 28th April 1909, I have the honour to request that you will be so good as to let me know at your earliest convenience the circumstances under which the Syndicate declines to consider our application for affiliation in Branch V under the old by-laws.

And further I wish to be informed how the affiliation in branch V under the old by-laws materially affects the question of affiliation in the said Branch V according to the new by-laws since I cannot find anything in the existing Regulations preventing the granting of any application made for affiliating in any particular branch till the new curriculum comes into force.

When the question of affiliation was opened by us in our letter, No. 198-C., dated 29th September 1908, the Syndicate gave us to understand from their letters, Nos. 3294 and 3377, dated 22nd October 1908, and 28th October 1908, respectively, that the granting of affiliation in

Branch V for 1909 would be improbable owing to the lateness of our application. It was therefore understood that our request for affiliation would be granted at least from 1910 irrespective of any difference in the old and new by-laws as has been pointed out now: and on this consideration the College secured the services of a European History Professor on a high salary from January 1909.

I have therefore the honour to request that you will be so good as to place this letter before the Syndicate for its reconsideration and favourable disposal.

Letter—from the Principal, S.P.G. College, Trichinopoly.
To—the Registrar, University of Madras.
Dated—the 31st July 1909.
No.—183-C.

With regard to our application for affiliation in History, which is to be laid before the Syndicate next week, although I have not been informed of the reasons why this application was not favourably considered in April 1909; yet I should like to anticipate a technical difficulty which might be raised.

Since the old Regulations have been cancelled, any such application must be considered solely in the light of the Regulations now in force, and it is subject to these latter that my application was made in letter No. 198-C. of 27th September 1908, and subsequently renewed by reference to that letter on 23rd February 1909 (letter No. 48-C.), and on 14th May 1909 (letter No. 129-C.).

The cancellation of the old Regulations did not suspend the power of the University to grant affiliation, but that power, if I understand the circumstances rightly, has been perpetuated without a break since 1907 under the new Regulations.

I desire the Syndicate to approve of my application under the powers conferred upon it by the new Regulations. If my application be sanctioned this year, although the grant itself of affiliation would thus be made by the authority of the new Regulations, the courses of study which we should be authorized to undertake from January 1910 forward would be those determined by the University syllabus, i.e., the old curriculum till 1911, and the new curriculum from 1911 onward.

This, it appears to me, is a necessary circumstance of the transition from the old curriculum to the new, though the absolute right of the University to grant affiliation is unaffected by the supersession of the old Regulations.

The Syndicate, in modification of its previous resolution and of the terms of the letter, No. 1540, dated 28th April 1909, decided, at its meeting held on the 5th August 1909, to request the Rev. E. M. Macphail to visit the College and make the local inquiry under section 21 (2) (a) of the Indian Universities Act, 1904. Mr. Macphail on the 1st September 1909 submitted the following report:—

Under instructions from the Syndicate, I inspected the S.P.G. College, Trichinopoly, on Thursday, the 26th August 1909, with reference to its application for affiliation in History, and I have the honour to report as follows:—

1. *Staff.*—The Professor of History in the college is the Rev. R. D. Downes, M.A. Mr. Downes is a Graduate of Oxford where he took high Second Class Honours in the Final History School. In the event of affiliation being granted it is proposed to appoint next year a suitably qualified Indian Graduate as an assistant to the Professor.

2. *Accommodation.*—A new storey has been added to the College buildings since last inspection and it is proposed to set apart one of the rooms in it as the History Class Room. The room measures 39 feet x 26 feet, has a high roof and is well-lighted and is quite suited for the purpose proposed.

3. *Library and equipment.*—As the college was formerly affiliated to the University of Madras in History, the Library already contains a considerable number of suitable books—about 300 volumes. I inspected the books and saw that they were in good condition. The Library, however, needs to be strengthened considerably, a fact which I found to be fully recognized both by Mr. Downes and by Mr. Gardiner, the Principal. I furnished a list of books which I considered should be purchased at once in the event of affiliation being granted, and the Principal assured me that the College was both willing and able to expend whatever might be required to make the Library adequate.

In addition to the usual supply of ordinary maps, the college possesses 15 historical maps published by Philip. While these maps are useful they are somewhat small, and some of them are rather faded. I have recommended to the Principal that he should procure some of Kiepert's large maps, and some of the Von Spruner-Bret Schneider large historical maps of Europe published by Perthes of Gotha, and this also he is prepared to do.

There is as yet nothing in the nature of a College collection of Photographs, etc., but Mr. Downes is fully alive to the importance of having such a collection for purposes of historical illustration and has himself made a beginning in that direction.

In my opinion the Syndicate may suitably recommend the affiliation of the S. P. G. College, Trichinopoly, in History.

The Syndicate, at its meeting on the 7th September 1909, adopted Mr. Macphail's Report and resolved to recommend the Senate to record its opinion that the application for affiliation may be granted by Government.

(ii)

Report of the Syndicate upon the application from the Principal, St. Aloysius' College, Mangalore, for further affiliation in groups I and IV of the courses for the B.A. degree examination.

The Syndicate lays the following correspondence relative to this application before the Senate :—

Letter—from the Principal, St. Aloysius' College, Mangalore.
To—the Registrar, University of Madras.
Dated—the 22nd June 1909.
No.—69.

I have the honour to apply, under Regulation 352 of the University of Madras, for the affiliation of this college in the following additional groups of the B.A. (Pass) course :—

I. Mathematics ;

IV. Logic, Psychology and Ethics.

This College is at present affiliated to the University in the following groups :—

Intermediate—

Groups I, III, IV.

B.A. Course—

Group V, History and Economics.

It is with the object of extending the sphere of usefulness of the college that application is now made for affiliation in the additional groups mentioned above.

This addition to the existing course of studies has been rendered necessary of late both by the introduction of the new intermediate branches, the many students whereof must be allowed a corresponding choice of subject in the B.A. course, and also by the increasing number of students who seek admission into the B.A. classes of this institution from the various second-grade colleges of this coast. This being the only first-grade college in British territory on the West Coast, the second-grade colleges of Malabar would naturally contribute a good contingent of students to its B.A. classes, if the subjects taught were so varied as to allow of sufficient choice. Before the opening of the railway which now connects Mangalore with Malabar, students from that district had to migrate to more distant centres for their B.A. course. Now that the difficulty of communication has been removed, many of them turned towards Mangalore, where they find a more congenial climate and cheaper living. Partly as the result of this influx, the strength of our College classes has, of late, increased very considerably. Thus while in 1905 we had in the whole College department only forty-five students, the same classes number at present (June, 1909), 124 students.

In submitting this application I have the honour to state that the Catholic Mission of Mangalore, which owns the College, undertakes, in the event of the affiliation being granted, to comply faithfully with all the requirements of Regulation 349 and all the other regulations which govern the courses of study in which affiliation is hereby sought.

It is proposed to begin the new courses in July, 1911, on the publication of the results of the first Intermediate Examination. Two European Jesuit Professors are for this purpose going through a special course of study in England.

I have the honour to request you to be so good as to place this application before the Syndicate for their favourable consideration.

Letter—from the Registrar, University of Madras.
To—Mr. H. MALIM, Principal, Government College, Mangalore.
Dated—the 11th September 1909.
No.—2641.

An application having been received by the Syndicate from the Principal of the St. Aloysius' College, Mangalore, for affiliation in groups I and IV in the course for the B.A. (Pass) Degree

Examination, I am directed to request you to make a local inquiry in accordance with section 21 (2) of the Universities Act, 1904, and with Regulation 350 (a), and report to the Syndicate. The college is at present affiliated in Group V.

The affiliation application is forwarded herewith in original.

I have the honour to request that, in view of the meeting of the Senate on 15th October next, your report on the application may be forwarded to me within the next week, if possible, so as to allow of consideration by the Syndicate before the end of the month.

Telegram—from the Registrar, University of Madras.
To—the Principal, St. Aloysius' College, Mangalore.
Dated—the 9th September 1909.

Reference your affiliation application in groups one and four B.A. Mr. H. Malim appointed make local inquiry and report Syndicate under Regulation 350 (a).

Letter—from Mr. H. MALIM, Principal, Government College, Mangalore.
To—the Registrar, University of Madras.
Dated—the 17th September 1909.

In accordance with your No. 2641 of the 11th instant, I have made an inquiry as to the accommodation, etc., at St. Aloysius' College. The lettering of the following report corresponds to the sections of Regulation No. 349 :—

(a) The Rector is finally responsible for the management of the college, but he is assisted by a council consisting of four of the Professors which meets once a month and to which all matters of importance are submitted.

(b) As regards group (iv), all Jesuits have some training in Philosophy, and are, in Father Perini's opinion, competent to lecture in it. Probably the work will be given to Father Gezzi, a graduate in Philosophy of Dublin University. For group (i) two men are now being trained at home. They have had the training in Mathematics which is included in the ordinary Jesuit course, and three or four years' experience as teachers. They are now undergoing a theological training, but are doing some Mathematics and Science in addition. When this is finished they will go to Stonyhurst for a special course in these subjects.

(c) The college buildings will be ready next January. They are a two-storey block forming three sides of a quadrangle, and consist of the following rooms :—

- (1) Examination hall, 71 ft. × 24 ft. This will be divided by a screen into a library and lecture rooms.
- (2) Chemical laboratory, 45 ft. × 24 ft.
- (3) Chemical lecture room, 24 ft. × 24 ft.
- (4) Physics laboratory, 45 ft. × 24 ft.
- (5) Physics lecture room, 24 ft. × 24 ft.
- (6) Three lecture rooms, each 22½ ft. × 24 ft.
- (7) Four lecture rooms, each 36 ft. × 24 ft.

(d) The library is insufficient, but the Rector undertakes to supplement it.

(e) I am not competent to judge whether the science apparatus is sufficient or not. The Rector informs me that it is sufficient for the intermediate course, and that more apparatus will be supplied, if necessary.

(f) There is a hostel which I am told would accommodate seventy-five. It is in contemplation to remove study rooms, etc., to the college buildings, and, by converting the present studies into dormitories, to make room for 120. The hostel (or boarding house) is for Catholics and non-caste Hindus, who all board together, and they come from both college and schools. Two fathers and two lay-brothers are resident in it, so that supervision is satisfactory. Brahmins and others live with relations or in various hostels, hotels, and lodgings about the town. Some of these are visited from time to time by the staff, but there is no complete list of addresses at present. It is intended to have such a register so that these scattered students may be more under the eye of the authorities.

(g) The income is derived from fees and Government grants supplemented by the society when special need arises. The society also gives a subsistence allowance to all its members whether employed in the college or not.

(h) There is no neighbouring first-grade college.

(i) The fees charged are—

						In one sum.	By instalments.
B.A.	..	..	..	..	..	34	36
Intermediate	..	..	..	..	..	28	30

but I believe a good many scholarships are given. The Bishop gives Rs. 1,000 a year for scholarships, which is divided between the college and schools (about 1,000 boys). Besides this there are other sums given to the college. I do not know even approximately what they amount to, but suspect they are not small.

The following table shows the number of students in the various classes during the last five years :—

	I	II	III	IV
1905	13	11	14	9
1906	27	11	9	19
1907	28	27	8	9
1908	25	34	23	9
1909	46	35	16	24

Of the forty-six in the first class, seventeen are reading the subjects of group (i) and twenty-nine group (iii). Presumably those who pass the Intermediate examination will be glad to continue at the same college for their whole course, which the seventeen cannot do unless the affiliation sought is granted.

The application for affiliation is returned herewith.

The Syndicate, at its meeting on the 28th September 1909, considered Mr. Malim's report and resolved to recommend the Senate to record its opinion that the application for affiliation may be granted by Government.

(iii)

Report of the Syndicate upon the application from the Nizam College, Hyderabad, for further affiliation in group IV of the Intermediate course and group VI of the courses for the B.A. degree examination.

The Syndicate reports the following correspondence relative to this application :—

Letter—from the Principal, Nizam College, Hyderabad.
To—the Registrar, University of Madras.
Dated—the 17th November 1908.
No.—297.

The Nizam College is at present affiliated in branches I and V only.

We propose to ask to be affiliated in branch VI also, viz., two languages.

In order to qualify for that group, a candidate must have taken group IV in the Intermediate. It is possible that some candidates may wish to take that group in February next.

I should like to procure the permission of the University to open classes for the teaching of the subject in group IV. Our staff of oriental teachers is a particularly strong one already.

A new scheme, however, has just been sanctioned under which we hope to have one of the best oriental colleges in India.

I shall be pleased to supply any further information that may be required as regards our fitness to teach the subjects required for these groups

Letter—from the Registrar, University of Madras.
To—the Principal, Nizam College, Hyderabad.
Dated—the 21st November 1908.
No.—3697.

In reply to your letter, No. 297, dated the 17th instant, I have the honour to inform you, by direction of the Syndicate, that your application for further affiliation should be made in proper form, giving all necessary particulars in accordance with Regulation 349, and also that, owing to the lateness of the application, it is highly improbable that affiliation can be granted in time for the proposed courses to be undertaken during the coming year.

Letter—from the Principal, Nizam College, Hyderabad.
To—the Registrar, University of Madras.
Dated—the 24th November 1908.
No.—311.

With reference to your No. 3697, dated 21st November 1908, I regret that I failed to make my application in the form prescribed in Regulation 349.

As I was asking for affiliation in one group only, I did not imagine it was necessary to supply all the information required for an original affiliation.

I beg now to ask to be affiliated in group VI of the B.A. course, viz., two languages, group IV of the Intermediate, and groups I, V, VI of the Honours course.

I will now proceed to answer the questions asked in Regulation 349.

(a) The college is a Government College and also has a Board of Governors consisting of the Minister for Education, the Secretary for Education, the Director of Public Instruction, the Financial Secretary, a Judge of the High Court and the Principal.

(b) As regards the branches in which we are already affiliated our sufficiency has been endorsed by the Inspection Commission. As regards our request for affiliation in branch VI, which necessitates the teaching of group IV in the Intermediate, the subjects to be taught are Ancient or Modern History, and two languages. For teaching of Ancient and Modern History, we have the following gentlemen available :—

Mr. P. H. Sturge, M.A. (Cantab.), Professor of History in the Nizam College.

Mr. K. Burnett, M.A., (Oxon.) Honours in Literæ Humaniores.

Mr. A. Gloria, B.A., Madras, second-class History, and myself, if required.

For the teaching of languages we have the following staff :—

Arabic, Persian, Urdu.—For the superintendence of these languages Mr. Prendergast has just been appointed. He holds the degree of Honour in Arabic and Persian and the Higher proficiency in Urdu. He will have the following assistants :—

Arabic Professor.—Not yet appointed. But must be a pure Arab by birth and his native tongue Arabic.

Persian Professor.—Mr. Aga Muhammed Ali, who is a pure Persian lately come from Persia and a sound scholar.

Urdu Professor.—Mr. Syed Ali Hyder, who, besides being a good Arabic and Persian scholar, is an authority on Urdu and is quoted as such in the most recent grammars.

In addition to the above we have Mr. Ikramullah, who is a very good Urdu and Persian scholar, and Mr. Jamaludin, who was first in Arabic and second in Persian in the Moulvi-Fazal examination of the Punjab.

Sanskrit—C. Mahadeva Sastri is a learned pandit in Sanskrit, appeared for F.A. examination in 1892 but failed.

Telugu.—R. V. Somayajulu, passed English and Telugu branches in B.A., intends to take M.A. Degree in Telugu after completing the B.A. degree examination.

(c) The buildings, etc., were passed by the Inspecting Committee.

(d) The library was regarded as very satisfactory by the Inspecting Committee.

(e) Affiliation is not sought under this head.

(f) The Housemaster resides in the college.

(g) The Inspecting Committee was satisfied on this point.

(h) There is no other college in the dominions.

(i) There can be no competition as there is no other college. The fees charged are the usual ones.

There is no chance of any of our classes ever exceeding 30 in number.

I should be much obliged if I could be allowed to open a class (pending sanction) for the teaching of subjects comprised in group IV, Intermediate.

Letter—from the Registrar, University of Madras.
To—the Principal, Nizam College, Hyderabad.
Dated—the 23rd January 1909.
No.—282.

With reference to your No. 311, dated the 24th November 1908, making application for the affiliation of your college in group IV Intermediate, and other courses, I am directed to call your attention to Regulation 348, and to return your application that it may be forwarded through the proper channel.

The application is enclosed herewith.

Letter—from the Director of Public Instruction, Hyderabad.
To—the Registrar, University of Madras.
Dated—the 25th April 1909.
No.—698.

I have the honour to forward herewith letter No. 311, dated 24th November 1908, in original, addressed to you by the Principal of the Nizam College on the subject noted above and to request you to be good enough to place this question before the Syndicate for its sanction for the affiliation in * Science branch.

* "Science" is evidently a clerical error for "Language."—REGISTRAR.

Letter—from the Registrar, University of Madras.
To—Henry Dodwell, Esq., M.A.
Dated—the 11th September 1909.
No.—2644.

An application has been received from the Principal of the Nizam College, Hyderabad, through the Director of Public Instruction, Hyderabad, for affiliation in group IV of the Intermediate course and in group VI of the B.A. (Pass) Degree course.

I am directed by the Syndicate to request you to make a local inquiry in accordance with section 21 (2) of the Universities Act, 1904, and with Regulation 350 (a) and report to the Syndicate.

Application is also being made for further affiliation in the B.A. (Honours) courses, but consideration has been deferred for the present.

The affiliation application and connected correspondence is forwarded to you herewith in original.

I have to request that in view of the meeting of the Senate on the 15th October next your report may be forwarded to me so as to allow, if possible, of consideration by the Syndicate before the end of the month.

Letter—from H. DODWELL, Esq., M.A.
To—the Registrar, University of Madras.
Dated—the 27th September 1909.

I have the honour to report that in accordance with your letter, No. 2644, dated 11th September 1909, I proceeded to Hyderabad and held a local inquiry at the Nizam College on the 25th instant in regard to their affiliation in branch IV of the Intermediate and branch VI of the B.A. courses. The results of my inquiry are detailed below:—

(1) *In regard to the available accommodation.*—Five separate rooms scattered through the college buildings are at present solely employed for teaching the various second languages. These rooms are small in size but the classes are correspondingly small. They were accepted as sufficient by the University Commission and should the classes not increase in size from their present numbers of four or five, there appears no reason why these rooms should not continue to be sufficient at all events until the new college buildings are constructed. If, however, the classes should increase, there is ample accommodation for them in a detached building close to the main building of the College, where there are a number of unused class rooms, about fifteen feet by twenty feet or larger, well lit and perfectly suited for small classes. It is not anticipated that the combined classes will ever exceed forty, and the Principal states that he does not expect that number to be approached for several years.

(2) *In regard to the staff.*—The proposed affiliation will not affect the History Professors beyond slightly increasing the size of their classes; and no question therefore arises under this head. I had opportunity of seeing and conversing with the Oriental languages staff under Mr. Prendergast. They all give the impression of being able and intelligent men, and Mr. Prendergast's appointment as Director of this group is itself an assurance that it will be efficiently staffed and managed.

(3) *In regard to the library.*—The History section is well filled and up-to-date, and comprises some two thousand volumes. There is also a considerable collection of books in Persian, Arabic and Urdu, Sanskrit and Telugu. A catalogue of the College Library is in course of being printed. In addition there is a State Library open to the general public which I inspected. It contains between 12,000 and 15,000 Oriental books and manuscripts, it has recently been much enlarged and is about to be re-housed more suitably and conveniently than it is at present. I am therefore of opinion that suitable class rooms are available for the new classes which it is desired to open; that the staff is perfectly competent to deal with these new classes and that the books available in the College and State Libraries afford great facility for private study and extensive reading, especially in Persian, Arabic and Urdu.

I have to add that I received every assistance from the Principal and Vice-Principal and from the Superintendent of Arabic, Persian and Urdu.

I enclose herewith the correspondence relating to this matter.

The Syndicate at its meeting on the 28th September 1909, considered Mr. Dodwell's report and resolved to recommend the Senate to record its opinion that the application for affiliation may be granted by Government.

(iv)

Report of the Syndicate upon the application from the Zamorin's College, Calicut, for affiliation in group II of the Intermediate course.

The Syndicate reports the following correspondence relative to this application, and that on receipt of the letter, dated 5th March 1909, from Mr. J. R. Henderson,

who had been instructed to make the local inquiry, it resolved to recommend the Senate to record its opinion that the application for affiliation may be granted by Government:—

Letter—from the Principal, Zamorin's College, Calicut, and the Secretary, Board of Management.
To—the Registrar, University of Madras.
Dated—the 14th September 1908.

The Board of Management having now felt the necessity for seeking affiliation of the college also in group II of the Intermediate course have passed a resolution authorizing me to apply for the same. Their reasons are (i) that Calicut is rich in all those objects that favour the study of Natural Science, (ii) that unless more scope is given to the choice of students, the strength of the college cannot be maintained, and (iii) that there is already a Master of Arts in Biology of some experience on the staff. With this view they have made provision for the equipment of a Biology Laboratory and other necessary appendages. I have the honour, therefore, to request that you will be good enough to place the matter before the Syndicate at the earliest opportunity so that the college may be prepared to introduce the above subject at the beginning of 1909.

Letter—from the Registrar, University of Madras.
To—the Principal and Secretary, Zamorin's College, Calicut.
Dated—the 22nd October 1909.
No.—3297.

In reply to your letter, dated the 14th September 1908, I have the honour to inform you by the direction of the Syndicate, that your application for further affiliation should be made in proper form, giving all necessary particulars in accordance with Regulation 349: and also that, owing to the lateness of the application, it is highly improbable that affiliation can be granted in time for the proposed courses to be undertaken during the coming year.

Letter—from the Principal, Zamorin's College, Calicut.
To—the Registrar, University of Madras.
Dated—the 29th October 1908.

With reference to your letter, No. 3297, dated 22nd October 1908, I have the honour to state that our College has already been affiliated to the University in groups I, III and IV. We now beg to apply for affiliation on group II.

In my letter of the 14th September I pointed out the reasons why it is very desirable that we should have affiliation in this group II. I have the honour to again state the measures we have taken to comply with the clauses in Regulation 349.

Clause (a).—The college is under a regularly constituted Board of Management in which the Principal is an ex-officio member.

(b) The College teaching staff is well qualified to teach the several branches of Science. The teacher of Biology, in which subject we seek affiliation now, is a highly qualified and experienced man.

(c) The buildings in which the college is located are suitable. Most of the students live with their guardians and we have in hand certain funds for the construction of a hostel. We intend to take this work in hand as early as practicable.

(d) There is already a large library containing about 2,500 volumes, and provision has been made for a large addition of books necessary for the several Sciences including Biology.

(e) Provision has been made for the proper equipment of laboratories. In regard to Biology, due provision has been made for a suitable laboratory and museum.

(f) This condition is one that, I regret to say, we are not able to comply with at present.

(g) The financial resources of the college are good and sound. The Zamorin and his family give a guaranteed permanent annual contribution of Rs. 4,500 to supplement the fee income: these and the Government grant which, we are applying for, will amply provide for the financial stability of the college.

(h) & (i) There is no rival college in the neighbourhood.

The transference of management and changes in the teaching staff will be duly reported to the Syndicate.

We shall duly take the permission of the Syndicate for lecturers to lecture to classes of more than 150 students when we attain this number.

Arrangements are being made to give efficient instruction in group II from the commencement of 1909. It is very desirable in the interest of the college that we have affiliation in group II for next year.

Letter—from the Registrar, University of Madras.
To—the Principal, Zamorin's College, Calicut.
Dated—the 13th November 1908.
No.—3584.

With reference to your letter, dated the 29th October last, making formal application under Regulation 349 for the affiliation of the college in group II of the Intermediate course, I am directed by the Syndicate to request you to forward block plans showing the accommodation in the college for teaching Arts and Sciences and indicating where it is intended to locate the proposed new branch.

Letter—from the Principal, Zamorin's College, Calicut.
To—the Registrar, University of Madras.
Dated—the 29th November 1908.

In accordance with your letter, No. 3584, dated 13th November 1908, I have the honour to forward by book post the plan of the building in which it is now proposed to locate the several classes of the Intermediate course. The details are given in the plan itself.

Letter—from the Registrar, University of Madras.
To—J. R. HENDERSON, Esq., M.B., F.L.S.
Dated—the 29th January 1909.
No.—382.

An application having been received by the Syndicate from the Principal of the Zamorin's College, Calicut, for affiliation in group II of the Intermediate course, I am directed to request you to be so good as to make a local inquiry in accordance with Regulation 350 (a) and report to the Syndicate. The affiliation application and connected correspondence are herewith forwarded in original.

Letter—from J. R. HENDERSON, Esq., M.B., F.L.S.
To—the Registrar, University of Madras.
Dated—the 5th March 1909.

In accordance with the instructions conveyed in your letter No. 382 of the 29th January last with reference to the application on behalf of the Zamorin's College for affiliation in group II of the Intermediate course, I have the honour to state that I proceeded to Calicut, and on the 26th ultimo made a local enquiry. I was received at the College by the Principal and by the Assistant in charge of the Natural Science teaching, both of whom rendered me all the assistance in their power and I also had the opportunity of discussing matters with two members of the Board of Management of the College. As a result the following report has been drawn up and I would ask you to be good enough to submit it to the Syndicate.

The room proposed to be set aside for the teaching of Natural Science in the Intermediate course, is one measuring 33 feet by 20 feet (the longer direction running north and south) situated on the west side of the college. The west side of this room has three fair-sized windows admitting light from a large open space, while the east side has a central door and a window on either side, all opening into a roofed verandah from which a fair amount of light enters the room. On the north side there is only a door communicating with the adjoining room and the south side has neither door nor window. It is proposed that the west side of the room be set aside for practical work and the students would sit facing the windows. I was informed that direct sunlight did not enter the room till late in the afternoon and that arrangements could be made to shut it out without materially affecting the lighting of the room at other times. The north-east portion of the room would be used for lecturing and there is I think sufficient space in this quarter to provide accommodation for a lecturer's table, black-board and benches for a small number of students. There is also I may add a fair amount of space for wall diagrams. On either side of the south wall a glass-fronted almirah would be placed and between them several open wall-shelves, all of which would be used to accommodate the specimens forming a class museum. For the same purpose it is proposed to place two glass-covered floor cases near the south wall. In the north-west corner of the room arrangements would be made for a supply of water, including a fixed basin in which students could wash their hands and near this there would be space available for the storage of the class wall diagrams. I was shown a detailed list of the proposed furniture and fittings and these seemed to me to be adequate for the purpose of teaching the course in question.

No arrangements had I found been made for the storage of material for practical work in the class, of a place where to specify one of its chief uses the animal types would be killed prior to their study. On my representing that such a store room is indispensable, the authorities at

once agreed to erect one on a small open space immediately to the south of the class room. The store room would thus adjoin the class room and specimens could be brought into the latter without the bearer having to pass any other rooms.

Appended to this report will be found the following lists of appliances, etc., which the college authorities propose to obtain:—(1) List of instruments, and appliances, etc., (2) list of specimens to be procured for the class museum, (3) list of books for the class library. To these is added a list of the books on biological subjects which already exist in the College Library.

I may state that the list of instruments, etc. makes provision for the practical requirements of the course. I note that it does not contain the indispensable items of dissecting dishes and boards, and I infer that these have been included with the furniture, a list of which I did not think it necessary to obtain. I discussed these items with the assistant and he showed me a detailed list of the various sizes, etc., which he proposed to have made locally.

With regard to two matters of great importance—the class museum and the class library—it would I think be unreasonable to expect a college to start adequately equipped in respect to either. The class museum ought to gradually develop under the care of the teacher with the assistance of the students, but a fair start would be made with the specimens enumerated in the list. The same observation to some extent also applies to the class library. At the outset of teaching a new subject, for which there are no special text-books, it is difficult to decide which books are likely to be of most service to the student and some experience of the course will be necessary before a proper selection can be made.

I was informed by the college authorities that they proposed to admit ten students to the Intermediate class in Natural Science but on my expressing the opinion that eight is the maximum number for which there is likely to be accommodation in the present Natural Science class room, they at once agreed to this limit. As the college is already affiliated in group I of the Intermediate course, I inspected the new Physical and Chemical laboratory, to ascertain if it provided sufficient accommodation for the students of groups I and II, who would presumably study Physics and Chemistry in common. This laboratory is at present being fitted up to accommodate ten students. The authorities informed me that very few students were likely to join group I and that if the combined number in the two groups exceeded ten, steps would be taken at once to provide the requisite accommodation. The Physical and Chemical laboratory measures 44 feet by 20 feet and I was assured that the space necessary for practical work could be found for a small additional number of students.

Both the Principal of the College and the Members of the Board of Management impressed upon me the fact that the proposed arrangements for the teaching of Natural Science are to be regarded as provisional. If the subject proves to be a popular one, and they anticipate that it will, it is their intention to build a laboratory, etc., in which increased accommodation will be found and better provision made for the requirements of the course.

I am of opinion that the proposed arrangements together with the modifications indicated in this report, if duly carried out, will make sufficient provision for the instruction of a small class of students in the Natural Science Course of the Intermediate examination.

The affiliation application and connected correspondence forwarded with your letter are herewith returned.

Letter—from the Registrar, University of Madras.
To—the Principal, Zamorin's College, Calicut.
Dated—28th April 1909.
No.—1539.

With reference to the application for the affiliation of your college to this University in optional group II of the Intermediate course, I have the honour to inform you that the Syndicate has resolved to recommend to the Senate that the application be granted.

(v)

Report of the Syndicate upon the application from the Maharani's College, Mysore, for affiliation in group III of the Intermediate course.

The Syndicate reports the following correspondence:—

Letter—from the Inspector-General of Education in Mysore.
To—the Registrar of the Madras University, Madras.
Dated—13th February 1909.
No.—6883/1351.

In continuation of my letter, No. 9530/1583, dated 20th June 1907, to which I was not favoured with a reply, I have the honour to inform you that the Maharani's College, Mysore, will be able to teach optional group III only, viz., (a) Ancient History, (b) Modern History,

and (c) Logic for the Intermediate examination. The Government of His Highness the Maharaja of Mysore will be glad if the Syndicate will kindly affiliate the college in optional group III at an early date, so that if necessary an Intermediate class for that group may be started early next month. A teacher of Logic will shortly be appointed on the staff of the college.

Endorsement—from the Registrar, University of Madras.
To—the Syndicate, Affiliation Committee.
Dated—the 16th February 1909.
No.—649.

Forwarded with the request that the Committee will return the papers with observations thereon in time for circulation to the Syndicate before the meeting on 2nd proximo.

Report of the Committee on Affiliation on the application of the Mysore Maharani's College for affiliation in group III of the Intermediate course.

The college has already been affiliated under Regulation 369 in groups I, II and IV. It now seeks affiliation in group III and proposes to drop groups I, II and IV.

The Committee are of opinion that the procedure defined in Regulations 350 and 352 must be observed in dealing with this application. They would however suggest that the local inquiry required by Regulation 350 (a) might be dispensed with in cases of this kind and that this is provided for in Regulation 352 by the words 'so far as may be.' If this were done, it would remain with the Syndicate to obtain the information required by Regulation 350 (b) and (c) and thereafter to report to the Senate as required in Regulation 350 (d).

Letter—from the Registrar, University of Madras.
To—the Inspector-General of Education in Mysore.
Dated—the 17th March 1909.
No.—1073.

In reply to your letter No. 6883/1351, dated 13th February 1909, making application for the affiliation of the Maharani's College, Mysore, in Optional group III of the Intermediate course, I have the honour to inform you that the matter is under consideration by the Syndicate.

2. The procedure laid down by Regulations 350 and 352 must be observed in dealing with this application. The Syndicate may, however, dispense with the local inquiry provided for in Regulation 350 (a) in view of the permissive character of Regulation 352.

3. The Syndicate, acting in accordance with Regulation 350 (b), now requires detailed information as to the accommodation at the college for teaching the group in which affiliation is desired. On receipt of this information, the Syndicate will consider what further inquiry is necessary.

Letter—from the Inspector-General of Education in Mysore.
To—the Registrar, University of Madras.
Dated—the 26th March 1909.
No.—8636-1664.

With reference to paragraph 3 of your letter No. 1073 of the 17th instant, I have the honour to forward herewith the ground plan of the central and northern blocks of the Maharani's College building, Mysore, marking therein the room set apart for holding the Intermediate class. The room is 22½ feet × 22½ feet. This year the number of students will probably be three. I can hardly expect that in the near future there will be more than three pupils in each of the Intermediate classes. Next year a room of similar dimensions will be spared for the second year's class. There is no second year's class now.

Letter—from the Registrar, University of Madras.
To—the Inspector-General of Education in Mysore.
Dated—the 28th April 1909.
No.—1537.

With reference to your application for the affiliation of the Maharani's College, Mysore, in Optional group III of the Intermediate course, I have the honour to inform you that the Syndicate has resolved to recommend to the Senate that the application be granted.

The Syndicate, in modification of its previous resolution, and of the terms of the letter, No. 1537, dated 28th April 1909, resolved, at its meeting held on the 9th September 1909, that a local inquiry must be made under section 21 (2) (a) of the Indian Universities Act, 1904, and accordingly requested Mr. S. Krishnaswami Aiyangar, of the Central College, Bangalore, to make the local inquiry and report to the Syndicate. The following is the report submitted by him:—

I have the honour to state that, in accordance with your letter No. 2638, dated the 11th September 1909, and the subsequent telegrams and letter, I went to Mysore on Thursday and inspected the Maharani's College; and to submit in accordance therewith a report upon the said College on the basis of my own observation and the information supplied to me by the Lady Principal of the College in my interviews with her both on Thursday and Friday.

This is a college under the Education Department of the Mysore Darbar. It was, till recently, under the management of a Committee of gentlemen and ladies, which, by a recent order of Government, has been transformed into a Board of Visitors. It has been teaching up to the F.A. standard and seeks affiliation for the Intermediate Arts course in group III.

(a) There is no special governing body for the management of the college unless the Board of Visitors mentioned above be regarded as such. Considering the peculiar nature of the institution, where a body of grown up young ladies seek education, a mixed and responsible Committee of ladies and gentlemen would be eminently desirable.

(b) The character and qualifications of the staff have already been submitted to you by the Lady Principal and they are satisfactory, as the same staff were able to meet the demands of the old curriculum in branch V of the B.A. degree examination. The terms of service, pension, etc., are regulated by the Darbar Government.

(c) The buildings are suitable generally, but there are some points to which attention must be paid immediately. The room set apart for the Intermediate Class I is good enough for the purpose. The surroundings are neither quite so good as they could be, nor quite sanitary either. The latrines need to be put in order immediately. More open space must be provided, as there is practically no compound except only on one side.

There is no provision made for the accommodation of the students either in the college itself or in lodgings approved by the college. The Maharani's College is in several ways a unique institution and will have to depend, in the present state of female education among the Hindus, upon students from outside the Mysore city for the higher classes. It is impossible to attract respectable students without providing suitable lodgings, either in the shape of a hostel, or what is better, lodging houses under proper supervision. It is desirable in the interest of the strength of the college and the high school classes of the institution that the authorities move in the matter early having regard to the prevalence of plague in the town and the general breakdown in the health of the pupils that the Lady Principal complains of.

As to the physical welfare of the pupils, the College has two tennis courts and provision for croquet. The extent of open space which is even more necessary for a girls' school of 350 pupils is quite inadequate and hardly worth mentioning.

(d) The library is at present located in a room which is also the retiring room of the male members of the staff. This is hardly the condition that would encourage study either in the student or in the master. The Lady Principal hopes to increase the accommodation by adding to the building on the eastern side. There must be two spacious and airy rooms, at least, for the library instead of the present one. One of these ought to be the consulting room where books can be made use of largely. A sum of at least Rs. 1,000 should be spent upon the library improvement, to supply the library with English classics and historical works. There ought to be a great deal more use made of the library seeing that the students do not enjoy the advantages of intellectual intercourse that their male confrères have.

(f) The Lady Principal has quarters provided for her, about a mile away from the college. The neighbourhood of the Lady Principal's residence is not a suitable site for lodgings for the students that may be provided. It is very much to be desired that the Lady Superintendent's quarters, quarters for some among the lady teachers, the lodgings for the students and a common hall and library should go together. It is to be hoped that the Darbar will see their way to provide these necessary adjuncts, if need be, by separating the high school and College classes and providing them with a new building.

(g), (h) and (i) are of no application to this College.

I am assured that the Lady Principal is alive to the drawbacks pointed out above, and has moved in the matter already. She hopes that her efforts in this direction will soon prove successful.

Considering that the College is almost the only one of its kind meant to serve such a useful purpose as the educating of that educationally backward class, the caste Hindu women, I would recommend that the institution be affiliated in group III for the Intermediate Arts Course.

The Syndicate, at its meeting on the 28th September 1909, adopted the report and resolved to recommend the Senate to record its opinion that the application may be granted by Government.

(vi)

Copies of the Proceedings of the Syndicate in regard to the applications for affiliation submitted to Government.

I.—THE S.P.G. COLLEGE, TRICHINOPOLY.

13th October 1908.

Read letter, dated the 28th September 1908, from the Principal, S.P.G. College, Trichinopoly, applying for the affiliation of the college in Branches V (History and Economics) and VI (two languages) as from January 1909, and stating that all the conditions required by Chapter 14 in the University Regulations are already or would soon be complied with, and adding particulars in accordance with Regulation 349 (a).

Resolved that the Principal be informed that the application for further affiliation should be made in proper form, giving all necessary particulars (with full information as to the college library) in accordance with Regulation 349; and also that owing to the lateness of the application it was highly improbable that affiliation could be granted in time for the proposed courses to be undertaken during the coming year.

5th November 1908.

Read letter, dated the 26th October 1908, from the Principal and Chairman of the Governing Body of the S.P.G. College, Trichinopoly, forwarding catalogue of the college library and adding observations in respect to the application for the affiliation of the college in Branches V and VI of the B.A. degree examination.

Resolved to reply that the application for affiliation in Branches V and VI must be dealt with in the ordinary way.

19th April 1909.

Considered the following report of the Affiliation Committee of the Syndicate on letter No. 48-C, dated the 23rd February 1909, from the Principal, S.P.G. College, Trichinopoly:—

"The college seeks affiliation in branch V (History) under the old Regulations. The Committee would direct the attention of the Syndicate to the question whether applications for affiliation under the old Regulations can be entertained now. In the present case if affiliation be granted before the end of the current year only one Junior B.A. class can be formed before the new regulations come into force.

"No case is made out that there is any need for affiliation in this branch".

Resolved that the report be adopted and that the college be informed that the Syndicate is not prepared to consider applications for affiliation under the old by-laws.

5th August 1909.

Considered the report of the Affiliation Committee with reference to letter No. 129-C, dated 14th May 1909, from the Principal, S.P.G. College, Trichinopoly, raising the question whether the Syndicate can decline to consider any application for affiliation and suggesting that the procedure laid down by section 21 (2) of the Indian Universities Act, 1904, must be observed.

Resolved that the recommendation of the Committee be approved and that the application from the S.P.G. College, Trichinopoly, for affiliation in branches V and VI receive due consideration in accordance with the Regulations.

Also resolved that the Rev. E. M. Macphail be requested to make the necessary local inquiry under Regulation 350 and report to the Syndicate.

7th September 1909.

Considered the report of the Rev. E. M. Macphail on the inspection of the S.P.G. College, Trichinopoly, in connection with its application for affiliation in group V (History and Economics).

Resolved that the report of the Rev. E. M. Macphail be accepted and that it be embodied in the report of the Syndicate to the Senate together with a recommendation that the Senate records its opinion that the application for affiliation of the S.P.G. College, Trichinopoly, in group V (History and Economics) be granted.

II.—ST. ALOYSIUS COLLEGE, MANGALORE.

9th September 1909.

Considered the following report of the Affiliation Committee on letter No. 69, dated 22nd June 1909, from the Principal, St. Aloysius' College, Mangalore:—

"St. Aloysius' College seeks affiliation in groups I and IV in the B.A. (Pass) course. It is at present affiliated in group V. The Committee are of opinion that a local inquiry has to be made in this case as directed in section 21 (2) of the Indian Universities Act, 1904."

Resolved that Mr. H. Malim be requested to inspect the college and make the local inquiry required under section 21 (2) (a) of the Indian Universities Act, 1904, and to report to the Syndicate.

28th September 1909.

Considered the report under Regulation 350 (a) of Mr. H. Malim on the St. Aloysius' College, Mangalore, in connection with its application for affiliation in groups I and IV of the B.A. Degree course.

Resolved to recommend the Senate to record its opinion that the affiliation may be granted by Government.

III.—THE NIZAM'S COLLEGE, HYDERABAD.

19th January 1909.

Considered the following report of the Affiliation Committee on letter No. 311, dated 24th November 1908, from the Principal, Nizam's College, Hyderabad:—

"Affiliation is sought in group IV of the Intermediate and in other courses. According to Regulation 348, these applications which came direct from the Principal should have been made by the Chief Educational officer of the State. Affiliation in group IV of the Intermediate may be recommended to the Senate. The question of affiliation in other courses may be deferred for the present."

Resolved that the report be accepted.

28th September 1909.

Considered the following report of the Affiliation Committee on letter No. 698, dated 25th April 1909, from the Director of Public Instruction, Hyderabad, forwarding application of the Nizam's College, Hyderabad, for affiliation:—

"This college seeks affiliation in III group (iv) in the Intermediate and in group (vi) in the B.A. (Pass) course. It is a question for the Syndicate to decide whether a local inquiry or other inquiry is necessary in this case before recommending the application to the Senate.

"Application is also made for affiliation in certain Honours Courses. This may be deferred at present and taken up again with the applications from other colleges."

Resolved that Mr. H. Dodwell be requested to inspect the college and make the local inquiry required under section 21 (2) (a) of the Indian Universities Act, 1904, and to report to the Syndicate.

Also resolved that consideration of the application in certain other courses be deferred.

28th September 1909.

Considered the report under Regulation 350 (a) of Mr. H. Dodwell on the Nizam's College, Hyderabad, in connection with its application for affiliation in group IV of the Intermediate course and in group VI of the B.A. Degree course.

Resolved to recommend the Senate to record its opinion that the application may be granted by Government.

13th October 1908.

Read letter, dated the 14th September 1908, from the Principal and Secretary, Board of Management, Zamorin's College, Calicut, applying for the affiliation of the college in group (ii) of the Intermediate course.

Resolved that the Principal be informed that the application for further affiliation should be made in proper form giving all necessary particulars in accordance with Regulation 349, and also that owing to the lateness of the application it was highly improbable that affiliation could be granted in time for the proposed courses to be undertaken during the coming year.

5th November 1908.

Read letter, dated the 29th October 1908, from the Principal, Zamorin's College, Calicut, making formal application under Regulation 349 for the affiliation of the college in group II of the Intermediate course.

IV.—ZAMORIN'S COLLEGE, CALICUT.

Resolved that the Principal be requested to forward block plans showing accommodation in the college for teaching arts and sciences and indicating where it is intended to locate the proposed new branch.

19th January 1909.

Considered the following report of the Affiliation Committee on the application from the Zamorin's College, Calicut:—

"The college is already affiliated in the Intermediate III (i), (iii) and (iv), and it now seeks affiliation in group (vi). A room 33' x 20' is provided as a Biology room, presumably as a Biological laboratory and class room. The accommodation for Physics and Chemistry was deemed sufficient when the college was affiliated in group (i); before granting affiliation in group (ii) inquiry must be made whether the accommodation will be now sufficient under the new conditions if affiliation is granted in group (ii)."

Resolved that Mr. J. R. Henderson be requested to make a local inquiry in accordance with Regulation 350 (a) and report to the Syndicate.

19th April 1909.

Considered the following report of the Affiliation Committee on letter, dated 5th March 1909, from Mr. J. R. Henderson submitting his report on the application for affiliation from the Zamorin's College, Calicut:—

"Mr. Henderson who was directed to make the local inquiry reports favourably on the provision made for studying groups I and II."

Resolved that it be a recommendation to the Senate that the application of the Zamorin's College, Calicut, for affiliation in group II of the intermediate course be granted.

V.—MAHARANI'S COLLEGE, MYSORE.

12th March 1909.

Considered the report of the Affiliation Committee on the application of the Maharani's College, Mysore, for affiliation in group III of the Intermediate course.

Resolved that the report be adopted.

19th April 1909.

Considered the following report of the Affiliation Committee on letter No. 8636/1664, dated 26th March 1909, from the Inspector-General of Education in Mysore:—

"The information given shows that the accommodation, etc., is sufficient. It now remains for the Syndicate to recommend the application to the Senate or otherwise."

Resolved that it be a recommendation to the Senate that the application of the Maharani's College, Mysore, for affiliation in group III of the intermediate course be granted.

9th September 1909.

With reference to the application from the Inspector-General of Education in Mysore for the affiliation of the Maharani's College, Mysore, in optional group III of the Intermediate course, resolved that (in modification of the resolution of the Syndicate passed at its meeting held on the 19th April 1909 resolving to recommend to the Senate that the application be granted) a local inquiry must be made under section 21 (2) (a) of the Indian Universities Act 1904.

Also resolved that the Registrar enquire whether this affiliation is still desired and that should a reply be received in the affirmative, Mr. S. Krishnaswami Aiyangar of the Central College, Bangalore, be requested to inspect the college and make the necessary local inquiry and report to the Syndicate.

28th September 1909.

Considered the report under Regulation 350 (a) of Mr. S. Krishnaswami Aiyangar on the Maharani's College, Mysore, in connection with its application for affiliation in Group III of the intermediate course.

Resolved that the report be adopted.

Also resolved to recommend the Senate to record its opinion that the application may be granted by Government.

(vii)

Extract from the Minutes of the meeting of the Senate held on 15th October 1909.

Diwan Bahadur N. Subrahmanyam proposed and the Rev. J. D. W. Sewell seconded:—

"That the Senate record its opinion that the application from the S.P.G. College, Trichinopoly, which is already affiliated in group I of the courses for the B.A. degree examination for further affiliation in group V (History and Economics) may be granted by Government."

Carried.

Diwan Bahadur N. Subrahmanyam proposed and Muhammad Aziz-ud-din Husain Sahib Bahadur seconded:—

"That the Senate record its opinion that the application from the St. Aloysius' College, Mangalore, which is already affiliated in group V of the courses for the B.A. degree examination, for further affiliation in Groups I and IV may be granted by Government."

Carried.

Diwan Bahadur N. Subrahmanyam proposed and Mr. T. Sankara Rao seconded:—

"That the Senate record its opinion that the application from the Nizam's College, Hyderabad, which is already affiliated in groups I and III of the intermediate course and groups I and V of the courses for the B.A. degree examination, for further affiliation in group IV of the intermediate course and group VI of the courses for the B.A. degree examination may be granted by Government."

Carried.

Diwan Bahadur N. Subrahmanyam proposed and Mr. P. R. Sundra Aiyar seconded:—

"That the Senate record its opinion that the application from the Zamorin's College, Calicut, which is already affiliated in groups I, III and IV of the intermediate course, for further affiliation in group II may be granted by Government."

After some remarks by the Hon'ble Dr. A. G. Bourne and Mr. J. R. Henderson, the proposition was put to the meeting and carried.

Diwan Bahadur N. Subrahmanyam proposed and Mr. B. Hanumanta Rao seconded:—

"That the Senate record its opinion that the application from the Maharani's College, Mysore, for affiliation in group III of the intermediate course, instead of groups I, II and IV in which affiliation had been declared under Regulation 369, may be granted by Government."

After some remarks by the Rev. H. J. Quinn and Mr. H. J. Bhabha, the proposition was put to the meeting and carried.

II

Endorsement No. 2084-1, Educational, dated 16th November 1909.

Referred to the Director of Public Instruction for report.

L. M. WYNCH,
Ag. Secretary to Government.

To the Director of Public Instruction.

III

Letter—from A. G. BOURNE, Esq., D.Sc., F.R.S., C.I.E., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 18th November 1909.

No.—Ref. on C. 7670 of 1909.

In returning herewith the applications for affiliation referred to me for report in your endorsement No. 2084-1, dated 16th November 1909, I have the honour to state that the full and correct procedure has been followed and that I do not know of any reason in any of the cases why the Government should not grant, under section 21 (3 and 4) of the Indian Universities Act, the affiliation applied for.

Order—No. 633, Educational, dated 3rd December 1909.

Under sub-section (4) of section 21 of the Indian Universities Act, 1904, the Government are pleased to sanction the further affiliation to the University of Madras of the following colleges in the standards and in the groups of subjects specified against each :—

Name of college.	Standard.	Groups of subjects.
1. The S.P.G. College, Trichinopoly.	B.A. degree	.. (v) History and Economics.
2. The St. Aloysius' College, Mangalore.	Do.	.. (i) Mathematics. (iv) Logic, Psychology and Ethics.
3. The Nizam's College, Hyderabad.	(1) B.A. degree	.. (vi) Two languages already studied in the Intermediate course, with portions of the history and literature of both languages.
	(2) Intermediate	.. (iv) (a) Ancient or modern history. (b) A classical language. (c) A second classical language or one of the foreign or Indian vernacular languages in which candidates are examined for the Matriculation examination.
4. The Zamorin's College, Calicut.	Intermediate	.. (ii) (a) Natural science. (b) Physics. (c) Chemistry.
5. The Maharani's College, Mysore.	Do.	.. (iii) (a) Ancient History. (b) Modern History. (c) Logic.

(True Extract.)

INSTRUCTIONS FOR THE
SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b¹) For rules regarding printing of notes, see the rules in G.O., No. 1220, Public, dated 30th November 1900.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Deputy Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Deputy Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right hand side, but only the first time when they appear on the left side, the initials alone being printed later.

* Copies distributed on.....*(Press Clerk.)

† Copies distributed on.....*(Despatcher.)

TO PRESS, MADRAS
OOTY.

A

Please send proof in triplicate. The papers have been carefully edited.

B

Proof returned corrected. Please strike off and send number of copies as indicated.

C

As the matter is clear manuscript and has been carefully edited, (b) proof need not be sent. Please print and supply number of copies as indicated.
