READ—the following papers:—

I

G.O., No. 618, Educational, dated 29th August 1908.

ABSTRACT.—Sanctioning, subject to certain conditions, a grant of Rs. 3,370 towards the cost of constructing an additional building for St. Joseph's Poor European Boys' High School, Calicut.

II

Letter—from the Rev. Father A. CAVALIERE, S.J., Correspondent, St. Joseph's Poor European Boys' High School, Calicut.

To—the Director of Public Instruction.

Dated—the 1st November 1908.

With reference to your Proceedings Ref. on C. No. 7694 of 1907, dated 12th September 1908, I have the honour to return herewith the plan and the estimate for constructing an additional building for St. Joseph's Poor European Boys' High School with a request that you will be good enough to approve of the following alterations:—

(a) Paving the lower floor with Cuddapah slabs in lieu of bricks.

(b) Paving the upper floor with hollow-arched bricks, as per revised estimate hereto appended, in lieu of the planked floor originally intended.

Cuddapah stones are durable and damp proof; hollow-arched bricks lessen noise, and both prove successful on this coast.

The work will be taken up as soon as the proposed alterations are sanctioned.

Ref. on Cur. No. 7694/07, dated 26th November 1908.

Submitted to Government with reference to G.O., No. 618, Educational, dated 29th August 1908, and recommended that the alterations proposed may be approved.

A. G. BOURNE,
Director of Public Instruction.

III

Note by the Chief Engineer, Public Works Department,
dated 17th February 1909.

The Director of Public Instruction submits a revised estimate, amounting to Rs. 7,100, for constructing an additional building for the St. Joseph's Poor European Boys' High School, Calicut. The original estimate amounted to Rs. 6,740 as passed by the Chief Engineer.

The modifications proposed are—

(1) To pave the lower floor with Cuddapah slabs instead of bricks. There is no objection to this.

(2) To form the upper floor of hollow-arched bricks instead of planks. For this type of floor the steel joists provided are too light.

Necessary alterations on these have been made in the Chief Engineer's office, and the revised estimate as altered by the Chief Engineer, amounting to Rs. 7,490, is recommended for sanction.

Order—No. 115, Educational, dated 1st March 1909.

The authorities of the St. Joseph's Poor European Boys' High School, Calicut, will be permitted to make the proposed alterations in the estimate approved in G.O., No. 618, dated 29th August 1908, on the understanding that in carrying out the work the further suggestions of the Chief Engineer in his note read above are adopted.

(True Extract.)

A. BUTTERWORTH,
Ag. Secretary to Government.

To the Director of Public Instruction.

NOTES CONNECTED WITH G.O., No. 115, EDUCATIONAL,
DATED 1st MARCH 1909.

[SUBJECT.—Sanction to certain alterations in the approved plan and estimate for the construction of an additional building for the St. Joseph's Poor European Boys' High School, Calicut.]

Previous paper.

G.O., No. 618, Edl., dated 29th August 1908.

From the Director of Public Instruction, dated 26th November 1908, No. 7694.

In G.O., No. 618, Educational, dated 29th August 1908, the Government sanctioned a grant not exceeding Rs. 3,370 or one-half of the actual cost, whichever might be less, towards the cost of constructing, in accordance with approved plan and estimates, an additional building for the St. Joseph's Poor European Boys' High school, Calicut. One of the conditions attaching to the sanction was that in carrying out the work the suggestions of the Chief Engineer in his note, dated 6th August 1908, should be carried out.

2. The correspondent of the school now requests that he may be permitted to make the following alterations in the approved plan:—

- (1) Paving the lower floor with Cuddapah slabs instead of with bricks; and
- (2) paving the upper floor with hollow arched bricks instead of with planks as originally intended.

The Director of Public Instruction recommends that the alterations proposed may be approved.

3. The original estimate submitted by the Director of Public Instruction amounted to Rs. 6,873. By the alterations in scantlings and other details originally made in the Chief Engineer's office, the estimate was reduced from Rs. 6,873 to Rs. 6,740. The revised estimate now submitted amounts to Rs. 7,100. It does not, however, appear that the correspondent of the school asks for any additional grant on the ground of the increase in the amount of the estimate.

4. It is submitted that the papers may be first sent u.o. to the Chief Engineer for remarks as to whether the proposed alterations in design are acceptable.

K. RANGASWAMI AIYANGAR—4-12-08.

C. A. SOUTER—4-12-08.

To the Public Works Department.

PUBLIC WORKS DEPARTMENT.

The estimate and plans have been scrutinised in the Chief Engineer's office, and resubmitted with a note by the Chief Engineer.

P. HAWKINS--7-12-08.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

The draft order placed below is submitted for approval.

P.R.—23-2-09.

In G.O., No. 618, Educational, dated 29th August 1908, sanction was accorded to a grant not exceeding Rs. 3,370 or one-half of the actual cost towards the cost of this work. The present revision of the estimates has resulted in the increase of the cost from Rs. 6,740 to Rs. 7,100; but this does not necessarily involve an increase in the amount of grant and the authorities of the school do not ask for any additional grant.

K. RANGASWAMI AIYANGAR—23-2-09.

The alterations are slight. The draft may issue.

C. A. SOUTER—25-2-09.

Yes.

A. BUTTERWORTH—27-2-09

[G.O., No. 115, Educational, dated 1st March 1909.]
