GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Order—No. 155, Educational, dated 15th March 1909.

The Director of Public Instruction submits proposals for the establishment of training schools for higher elementary teachers and for the complete reorganization of the existing Government training institutions in this Presidency.

2. The Government at present maintain two training colleges, including secondary departments, at Saidapet and Rajahmundry, and three secondary (or, under the former classification, Upper secondary) training schools at Calicut, Coimbatore and Tanjore. There are also 15 secondary schools of the old lower secondary class and 11 primary training schools which are distributed as shown below :—

7. Kurnool.
8. Chicacole.
9. Russellkonda.
10. Anantapur.
11. Rayaghada.

3. The Director of Public Instruction considers that a single Training College at Saidapet should suffice and suggests that it should be enlarged by transferring to it the College department of the Training College at Rajahmundry. He proposes that the secondary classes attached to the Teachers' College at Saidapet should be removed from the college and should form a distinct institution, and that, in addition to this, secondary training schools proper should be maintained at Rajahmundry, Salem, Tanjore and Calicut. He further proposes that in the place of the existing fifteen "lower" secondary and eleven primary training schools, there should be established six higher elementary and twenty elementary training schools at the following places :—

4. It is proposed that the new secondary training schools should contain two separate sections—one for the training of teachers for the lower forms of secondary schools and the other for the training of higher elementary teachers—and that higher elementary training schools should provide instruction for elementary students also.

5. The proposals of the Director of Public Instruction, as regards the classification and distribution of the training institutions, are approved generally by the Government.

6. The Government agree with Dr. Bourne that the headmasters of the secondary and the higher elementary training schools should be members of the Provincial Educational Service; and, subject to the sanction of the Secretary of State, accept generally his proposals as regards the staff required for the training and the model sections of the several classes of training institutions. The Director of Public Instruction will be requested to submit at a very early date proposition statements embodying the various proposals.

7. The proposals in regard to stipends are also approved.

8. The Director anticipates that thirteen new buildings will have to be constructed in connection with this scheme, one of them being for the proposed secondary Training school at Saidapet. The Government, however, consider that the buildings at Saidapet recently in the occupation of the College of Agriculture should be utilized for this purpose. The Director of Public Instruction will place himself in communication with the Public Works Department with regard to the improvement of existing buildings and the provision of new buildings for the several training schools.
