Su,

The rented building in which the Government Girls' School, Srirangam, is located having been found to be inadequate and unsuitable and no better houses having been available for rent in a good part of the town, it was considered necessary to provide the school with a building of its own, but all or house endeavours made to secure a suitable vacant site in the central part of the town have hitherto proved futile. As however the need for better accommodation is much felt, the Inspectress suggests that the present school house together with the adjacent houses, one on each side of it, be acquired, the locality in which the school is now held being considered the best for the purpose. The Executive Engineer also strongly recommends the acquisition of these houses as will be noticed from the enclosed copy of his letter No. 2976 dated 10th October 1908.

In these circumstances, I have the honour to

DD

request that you will be so good as to obtain the administrative approval of Government for the proposal and to have the necessary orders issued for the acquisition of the sites in question and for the construction of a building thereon, the school in question being one of the largest in the southern circle.

A tracing of the buildings in question is herewith submitted.

I have the honour to be,

Sir,

Madam,

With reference to the correspondence ending with your No. 4770 dated 11th September 1908, I have the honour to forward herewith for your perusal a tracing showing the building in which the school is now located as also the adjacent buildings one on the north and the other on the south side, and to state that the space occupied by these buildings is an oblong about 200 feet long and 60 feet wide which I think is barely sufficient for the school. On account of the heavy cost of acquisition it may be limited to these ^{three} buildings alone.

2. They cannot be modified to suit the requirements of a school in keeping with proper sanitation in a thickly populated place like Srirangam. The only alternative is to sell the materials away in auction, ^{clear} the site thoroughly retaining only the three extreme side walls as compound walls and to erect a new building to suit the needs of a school.

3. The school should have open space on all four sides to let in air and light freely and ^a play ground for the girls is also essential.

4. The most economical arrangement in that space 200' x 60' is to have the easter end of it close to the fort wall 60 x 60 open for play ground. In the remaining space a building 130 x 50 can be erected and the gross superficial area of the building will be about 6500 square feet which allows only 30 sq feet of space per head of the girls and teachers after deducting

for the space occupied by the verandahs and walls, the net space per head may reduce to about 20 square feet which itself is small.

5. The new school would cost about Rs 10,000 at Rs 1-8-0 per square foot and the cost of acquisition as estimated by the Tahsildar about Rs 12,500 out of which about Rs 2,500 may be recovered by the sale of materials.

6. Therefore the total cost of new girls' school in proper locality and of proper design with good sanitation would cost in all about 20,000 for which if you obtain administrative sanction, detail estimate will be prepared.

7. I strongly recommend the acquisition and new construction.

I have the honour to be,

M a d a m,

Your most obedient servant,

Sir,

Adverting to Endorsement No. 84-1, dated 28th January last on the letter of the Director of Public Instruction No. 3147-A, of 1907, dated 15th idem (here with resubmitted with the enclosures), I have the honour to report that the owners of the three sites proposed to be acquired for the Girls' school in Srirangam strongly object to part with their houses as will be seen from their statements, transactions of which are enclosed.

2. It appears however that the Sub Assistant Inspector of Girls' school is of opinion after local inspection that the objection of Raja Srinivasathathachariar, one of the owners is valid and that he has

PR

submitted other proposals to the Director of Public Instruction through the Inspectress.

Translation of the statement of Raja Srinivasachariar ^{thatha} residing in the East Uttara street, Srirangam, before the Revenue Inspector dated 5th February 1909.

No 3 in the plan
The house situated next north to the building occupied by the present Girls' school in Srirangam belongs to me. It measures 150'x 30'. The whole site contains a terraced building. This house was constructed with the help of our disciples at a cost of Rs. 10,000 with a stone mantappam, etc. It was also renewed recently. I am not at all willing to part with the ^{This house and the houses of Venkata-} house. Thathachariar, etc. to the north of it ^{were} own a chain of buildings before and they are now all enjoyed separately on partition and consequently, the stones and rafters, etc. on the mantapam portion are mostly united to all the houses. If it is considered that this house alone should be taken up for the Girls' school, it will be injurious to the chain of buildings.

If this house is taken up, it will be necessary to acquire the 3 houses to the north of it. Further, this house and the chain of buildings belonging to Thathachariar's like us cannot be disposed of solely with out consent. We are Acharyas (Gurus). We have several disciples in this and many other districts.

It is not therefore desirable to dispose of the houses without their consent. If we give away the houses, we will be losing our disciples and deprived of the benefits and presents we have been deriving from them every year and it will be impossible to maintain ourselves. I am therefore unwilling to dispose of this house. Even if I am offered any high amount and it will not be beneficial to us. If it is however decided to take up my house necessarily without taking into consideration my loss and without heeding to my prayer, I request that a sum of ~~Rs. 10,000~~ Rs. 10,000 may be paid to me for its cost. This house etc. have been in the enjoyment of my family for several hundreds of years since the origin of the Srirangam temple.

The statement of T.V. Srinivasa chari, adopted son of Venkatachariar, late Deputy Director of ^{the} Settlement Department and owner of house No. 51 in which the Girls' school in the East Uttra street, Srirangam, is located.

in the street
The house referred to belongs to me and I inherited it by virtue of a Will and by adoption. The cost price of the house site alone was Rs. 1,200 and it was constructed by Venkata chariar gradually at an enormous cost of Rs. 10,000. I have got the sale deed and the will. I am not at all willing to dispose of the house. As you are pressing me in the matter, I am inclined to part with the house at a net value of not less than Rs. 10,000. Besides, the current market value is higher than before. As the market value exceeds Rs. 10,000 and the site is attractive, I am not willing to give it for anything less than Rs. 10,000. I am therefore willing to give it for a net cost of Rs. 10,000 -

(Signed) T.V. Srinivasachari.

Statement of Lakshmi Ammal.

House No. 52 in the East Uttara street belongs to me. I received on the 18th instant notice No. 625 in regard to this house. This statement is in response to the above. The house in question was given to me as dowry by a will. I have 4 or 5 daughters. They are all in good position and they used to go here often on marriage etc. festive occasions. As I have a large family, there is no other house for me to dwell in. I belong to a respectable family. Although the house is a small one, there is no other house with such a building available in this street. Even at a cost of Rs. 3,000 .. For the above

reasons I am not willing to part with the house. Even if you purchase
the house, it will not be sufficient. If the houses to the north of the
one occupied by a school be purchased, they will be spacious. I am not in
the least willing to give my house. It will not be useful to you.
