Ref on Cur No. 6650/07

Station Madras, Dated the 1st March 1909.

From (Name) The Hon'ble Mr. A.G. Bourne, D.Sc.F.R.S.C.I.E.

(Designation) Director of Public Instruction,

To the Secretary to the Government of Madras, Madras.
Educational Department

Su,

With reference to para 3 of G.O. No. 519/M dated 25th March 1908, I have the honour to state that it is reported that the work of the Municipal High School, Cuddapah, has for the last four years been greatly impeded for want of sufficient accommodation for the teaching of Science and that, although the construction of an additional room for the purpose has been engaging the attention of the Municipal Council during this period, they have not been able to accomplish their object owing to the inadequacy of the funds at their disposal. It is understood that the school building is the property of Government lent to the Municipal Council for the location of the school which was transferred to that body in accordance with G.O. No. 805 Financial dated 14th November 1885. As it does not appear expedient that the cost of improvements to such a building should be borne partly by the Government and partly

2 4
by the Municipality, I beg to suggest that the proposed construction of the science room be permitted to be undertaken by the Public Works Department and that the necessary administrative approval for the work, which is estimated by the Superintending Engineer, Third Circle, to cost more than Rs 2,500 be accorded, at an early date, to enable the Public Works Department to proceed with the preparation of the detailed plans and estimates.

The site plan and the plan of the proposed science room forwarded by the Superintending Engineer are herewith submitted.

I have the honour to be,

S i r ,

Your most obedient servant,

C. K. S. S. S.

For Director of Public Instruction.

N.V.S.

G. No. 429 From the S.P. 9 No. 6650, dated 1-3-1907.

SUBJECT. Construction of a Science room for the Municipal High School, Cuddapah.

Page 2 of C. 7.

The Director of Public Instruction requests that sanction may be accorded to the construction by the P. W. D. of an additional room for the teaching of Science in the Municipal High School, Cuddapah. The work is estimated by the Superintending Engineer, 3rd Circle, to cost more than Rs 2,500. The S.P. 9 points out that the work of the Municipal High School has, for the last four years, been greatly impeded for want of sufficient accommodation for the teaching of Science and that the Municipal Council have not been able to remedy the defect owing to the inadequacy of funds at their disposal.

That was clearly
implied.
All

2. The School was originally a Government High School. It was then transferred to the Municipal Council, the Govt. agreeing to contribute the net annual cost of the High School department—Vide Gons 805 m d 14-11-1885. It

Page 1 of C. 7.

thus appears that the building belongs to Government. The S.P. 9 states that it does not appear expedient that the cost of improvements to such a building should be borne partly by Government and partly by the Municipality. Further this is one of the High Schools proposed to be taken over by Government as a model school.

Para. 6 of Hm's note on

30.2.08 K.

Para. 3 of Gons 519 m
25.3.08 C.

3. Credit was taken by the Municipality in its Budget estimate for 1908-09 for a sum of Rs 2000 on account of this work. But it was struck out in view of the following remarks of

Dr. Bourne: -

" The Science room is estimated to cost about Rs 2,239. The Budget provides for spending Rs 2,000 on it this coming year and takes credit for the whole amount from Provincial funds. It should be struck ^{out} of the budget altogether and be made a separate matter for consideration ^{as to} whether the Public Works Department may add this room to the existing Govt building. If any High Schools are provincialized this will be one of them." Accordingly in para. 3 of G.O.

C 519 m 8, 25-3-08 the Govt directed that application for building grant from Provincial funds towards the cost of constructing a Science room in the Municipal High School building should be separately submitted after the estimates have been prepared.

4. Dr. Bourne's present proposal is not, however, for a building grant; he requests that Govt may undertake to provide the school with the additional room out of their own funds. It is for consideration whether the proposal may be accepted. If accepted, the file may be transferred to the P. W. D. W. for necessary action.

P.D.
10-3-09

Please see pages 11 and 12 of the printed note, flagged T, which gives a succinct account of the history and position of the Cuddapah High School.

2. The D. P. I. proposes that the additional room

D.P.I.'s wo. note on page 4
of Klu G.O. 519 m 8, 15-3-08

room for the teaching of Science, the cost of which is estimated by the Supl Engineer ^{more than} at Rs 2500, Should be provided at the cost of Provincial funds, the main reasons for the proposal being

- (1) that the School building is a Govt building; and
- (2) that the municipality is unable to provide the additional room "owing to the inadequacy of the funds at its disposal."

3. The financial position of the Municipality during the three years ending 1907-08. was as follows:-

Years	Ordinary Receipts Rs	Ordinary Charges Rs	Surplus (+) deficit (-) Rs
1905-06	54,228	52,832	+ 1,396
1906-07	54,377	50,005	+ 4,372
1907-08	54,928	51,453	+ 3,475
Average	..	..	+ 3,081

4. As the Municipal High School, Cuddalore, is one of the institutions which it is proposed to take over under Govt management as a Model High School, it seems to be desirable to provide the additional room at Govt expense, as the building will revert to Govt when the School is taken over. It is for consideration whether the D.P.'s proposal may

maybe approved and the papers forwarded to the Prd. for the preparation of detailed estimates.

10-3-09

Lee.

In view of the facts set out in the above note the cost of the extension seems a legitimate charge on Prov. funds.

Alt

Am

Govt. may bear the cost (Rs 500) of this additional room. This is to be one of the model High Schools.

Alt
14/3.

The D.P.W. estimate for Science Rooms is much too high. There was an instance of this at Trich. P. (S.P.G. I think), where the Dept. desired some very large expense on each accommodation. The P. afterwards intimated the Dept. could be done for Rs 1000 or so. Please see if D.P.W. knows anything of the cost.

D.O. No. 429-1
25-3-9

My dear Bournie,

With reference to your letter
R.O. No. 6650, dated 1st March 1909 on the
Subject of the addition of a Science room
to the Municipal High School, Cuddapah,
I am directed to state that the cost of
the work as estimated by the P.W.D., is
much too high. I am also to enquire
if you know anything of the Correspondence
which took place sometime ago, probably
in connection with the S.P.G. College Trichinopoly
wherein the P.W.D. recommended a very
large expenditure on the provision of ac-
commodation for Science rooms, for
which, the College authorities afterwards
satisfied the Department. Could be built
for Rs 1000 or so.

Yours sincerely

My dear Buxterworth

In reply to your No. No. 429-1
of 25th instant I cannot trace
any papers in connection with the
L.P.G. College Trichinopoly, wherein
the Public Works Department accounted
a large expenditure on the provision
of accommodation for Science Rooms
which the College authorities
afterwards satisfied the Department
could be built for less than

The case of the Basel German Mission School, Calicut, to which reference is made by the D.P.I. in his note on the previous page was disposed of in G.O. No. 120 Edl, dated 1st March 1905. Attention is solicited to the D.P.I.'s letter on page 18 of the G.O.
