G.O., No. 63, Educational, dated 2nd February 1909.

ABSTRACT.—Requesting the Director of Public Instruction to revise with reference to certain general principles the list of the institutions proposed to be transferred to the Department of Industries.

II

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., C.I.E., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 3rd March 1909.

No.—Ref. on Cur. 7279 of 1908.

With reference to G.O., No. 63, dated 2nd February 1909, I have the honour to submit herewith a revised list of institutions (marked A) proposed for transfer to the Director of Industries together with an account of the subjects taught in them and to state that, having regard to the general principles laid down in the Government Order under reply, I do not think that any of them are doubtful cases.

I have omitted from the list the School of Arts and the Reformatory School, Chingleput, as ordered and also 25 other institutions as given in the appended statement (marked B) on the ground that the instruction given in them is either purely or predominantly commercial in character.

ENCLOSURES.

Order—No. 304, Educational, dated 20th May 1909.

The Local Board Weaving School at Aiyampet having been closed, the Government sanction the transfer to the Department of Industries of the remaining thirty-three institutions specified in list A attached to the Director of Public Instruction's

letter read above, as well as of the Bellary St. Joseph's Girls' Industrial School and the P. T. Chengalvaraya Nayakar's Technical School, Vepery, shown as Nos. 24 and 25 in list B. The instruction given in the two institutions last named does not appear to be predominantly intellectual or commercial in character. A list of the institutions so transferred is given in the annexure to these proceedings.

2. The grants to these institutions will in future be paid by the Director of Industries. The amount provided for such grants in the current year's budget under 22. EDUCATION will be transferred to the head 26. SCIENTIFIC, ETC., DEPARTMENTS. The Director of Public Instruction will be requested to report the exact amount to be so transferred.

From the Director of Public Instruction, dated 3rd March 1909, No. 7279.

Please see G.O., No. 63, Educational, dated 2nd February 1909, and the notes therewith.

2. In that order the Government said that they could not pass final orders on the proposals made by the Director of Public Instruction for the transfer to the Department of Industries of the Industrial Schools now controlled by the Educational Department, as they had not before them sufficient information as to the character of the teaching in the institutions specified.

3. The Government informed the Director of Public Instruction that the School of Arts and the Reformatory School would not be transferred to the Department of Industries, and called on him to submit revised proposals with reference to the following principles:—

(1) Schools where the instruction is of a purely commercial character should remain under the Educational Department.

(2) In the case of schools where the instruction is partly intellectual or commercial and partly manual or technical, the principle should be followed that if the training is predominantly intellectual or commercial, the school should remain under the Educational Department; whereas, if the training is predominantly manual or technical the school should be transferred to the Director of Industries.

(3) In doubtful cases a clear account of the subjects taught in the institution should be furnished so as to enable Government to arrive at a decision on the subject of transfer.

Paragraph 2 of G.O., No. 63, Educational, dated 2nd February 1909.

(4) Where a considerable machine plant exists, future control by the Department of Industries would seem to be indicated.

Paragraph 2 *ibid.*

4. The Director of Public Instruction now submits a revised list of institutions which he considers may be transferred to the Director of Industries—*vide* list A. The list contains 34 institutions and the subjects taught in each of them are noted against their names. The Director does not consider that any of them are doubtful cases.

5. The 25 institutions which he has omitted from his present list on the ground that the instruction given in them is either purely or predominantly commercial in character are shown in the list marked B.

6. It is for consideration whether the 34 institutions specified by the Director of Public Instruction in his list marked A may be transferred to the Director of Industries.

T.K.—16-3-09.

The subjects taught in the several schools, specified in list B, have been entered in red ink against each school from Appendix D on pages 12 to 29 of Volume II of the Public Instruction Report for 1907-1908. It is observed that the subjects taught in the Bellary St. Joseph's Girls' Industrial School (Tailoring and Dress-making) and in P. T. Chengalraya Nayakar's Technical School, Vepery (carpentry, fitter's work, cotton-weaving and carpet-weaving) are not intellectual or commercial, and that these two institutions may also be transferred to the Department of Industries.

2. The remarks of the Revenue Department may first be obtained a.o., on the Director of Public Instruction's proposals.

K. RANGASWAMI AIYANGAR—16-3-09.

Number 25 in list B does not seem to differ materially from No. 3 in list A. No. 24 in list B can hardly be called intellectual or necessarily commercial. Lace-making does not differ much in principle from dress-making. These two schools in list B might go into list A.

C. A. SOUTER—17-3-09.

It appears that Nos. 24 and 25 of list B should be put under the Director of Industries.

A. BUTTERWORTH—19-3-09.

To the Revenue Department.

REVENUE DEPARTMENT.

Submitted that the transfer of the schools specified in list A and of items 24 and 25 in list B to the control of the Director of Industries may be accepted in this department.

2. The Educational Department may, it is submitted, be asked to furnish information regarding the grants-in-aid, if any, usually sanctioned for those schools.

E.S.J.—23-3-09.

This department may, I submit, agree to the transfer of the 36 institutions to the Department of Industries. The date from which control is to be handed over must, I submit, await decision on the question as to the appointment of an Inspector of Industrial Schools to look after them. Educational may be asked, as proposed in the office-note, for information as to the grants-in-aid usually sanctioned for the schools.

F. NOYCE—24-3-09.

The schools are to be transferred at once. We may ask Educational for information as to grants.

L. M. WYNCH—10-4-09.

As to taking over the schools, there is no reason, so far as I can see, why the control of these schools should not at once be taken over by Mr. Cotton. He will then give them the grants hitherto given them by the Educational Department and all references from the managers will go to him instead of to Dr. Bourne. Please put up an order to this effect.

M. H[AMMICK]—8-4-09.

Extract of Honourable Member's note regarding the transfer of the 36 industrial schools to the control of the Department of Industries is put up above. This file may, it is submitted, be returned to the Educational Department which has to issue orders.

E.S.J.—14-4-09.

F. NOYCE—15-4-09.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

Demi-official—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., C.I.E., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 21st April 1909.

"In reply to your letter of this date, I see no objection to handing over to the Director of Industries the amount available for grants to the schools transferred, nor to his disbursing these grants to the managers concerned.

"My office can easily calculate the share required of the amount provided in the 'budget under 'Technical Schools'. Some of this will remain with me for distribution to the schools formerly included under that head, but which will not be 'transferred.'"

This file circulated in the Revenue Department along with another file to the Hon'ble Mr. Hammick whose remarks appear above.

Will the Honourable Member consent to handing over to the Director of Industries the 34 institutions specified in list A attached to the Director's letter and also Nos. 24 and 25 in list B?

As regards the Hon'ble Mr. Hammick's proposal that the Director of Industries should pay to the institutions transferred the grants heretofore paid by the Educational Department, I have consulted Dr. Bourne. His reply is just above. He sees no objection.

A. BUTTERWORTH—22-4-09.

Is it meant that the grants are to be given for this year only as having been in a sense promised; or that grants are to be made for the future from the Educational budget? To the latter course, there will, I think, be objection.

G. S. F[ORBES]—26-4-09.

With reference to the Hon'ble Mr. Forbes' question, I understood Honourable Member to mean that the grants were to be handed over by the Director of Public Instruction to the Director of Industries as a regular thing until, at all events, some other system has been devised.

A. BUTTERWORTH—27-4-09.

What I thought would be done was this. The grants for this year would be handed over by the Educational Department to be given through the Director of Industries, but after this year the budget of the Department of Industries would contain a grant

for these schools, to be paid by the head of the department. I don't know if there is a financial objection to this course and I am not sure how these grants to industrial schools are fixed, but I suppose the Director will fix them in future years on the same lines as those on which they are fixed now and will enter the amount in his budget as "Grants-in-aid to industrial schools". This is what I meant.

Will Financial please say?

A. BUTTERWORTH—28-4-09.

M. H[AMMICK]—25-4-09.

To the Financial Department.

FINANCIAL DEPARTMENT.

Grants-in-aid to non-European educational institutions by the Educational Department are now regulated by the Grant-in-Aid Code. Except in cases where a reference to Government is necessary, all these grants are sanctioned by the Director of Public Instruction or under his authority. In the case of the 36 industrial schools to be transferred from the Educational Department to the Department of Industries, the Hon'ble Mr. Hammick proposes that the grants-in-aid in the current year may be "handed over by the Educational Department to be given through the Director of Industries." If this means the grants will be debited to the head 22. EDUCATION, the proposal is objectionable from an account point of view. For, article 1006 of the Civil Account Code (Volume II) says—

"The classification in the public accounts has closer reference to the department in which the revenue or expenditure occurs than to the object of the revenue or expenditure, or the grounds upon which it is sanctioned."

In the present case, the schools will be controlled by the Director of Industries

C. REILLY. A

and the grants are paid through him. The grants should, therefore, be debited to the head "26-Q. SCIENTIFIC, ETC., DEPARTMENTS—MISCELLANEOUS—Department of Industries", the amounts on account of the schools provided in the budget estimate for 1909-1910 under 22.

EDUCATION being transferred to the former Mr. Chatterton and by Dr. Bourne.

C. REILLY. B

2. The grants for the future years for the industrial schools transferred to the Department of Industries may be provided in the budget estimate under 26. SCIENTIFIC, ETC., DEPARTMENTS—MISCELLANEOUS—Department of Industries, but the rules in the Grant-in-Aid Code of the Educational Department will not be applicable to such schools. Apparently Revenue will take steps to frame similar rules for the industrial schools under the management, control and supervision of the Industrial Department.

Revenue can say that the Grant-in-Aid Code rules are to be followed as far as possible.

EDUCATIONAL DEPARTMENT.

The course proposed by Financial at A and B above can be adopted.

The last part of the Financial Department note can be brought to the notice of the Revenue Department.

A. BUTTERWORTH—5-5-09.

Yes. The course proposed is what I intended. In the Revenue Department when we have these schools we can see whether in future the grants to them should be made according to the Grant-in-Aid Code or according to rules which we may draft. At all events at first the Director will be told to be guided by the Grant-in-Aid Code.

INSTRUCTIONS FOR THE SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b) For rules regarding printing of notes, see the rules in G.O., No. 1220, Public, dated 30th November 1900.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Deputy Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Deputy Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.
