Sir,

I have the honour to submit the statement called for in para 1 of memorandum No. 955-1 dated 8th May 1909 showing the expenditure from Provincial funds on Elementary, and /in regard to European schools/ Primary education during 1907-1908 as compared with that incurred in 1904-1905.

2 As to para 2 of the Memorandum, I beg to state that the final figures for an official year are received from the Accountant-General only by the end of August following that year and any variations between the accounts furnished by the subordinate educational officers and the Accountant-General can only be reconciled in this office after the receipt of the figures from the Accountant-General. I submit, therefore, that the statement required by Government can only be furnished each year about the end of September. I regret that the matter was

To the Secretary to the Government of Madras,
Educational Department
Sir,

In reply to Government memorandum No.1044-1, Educational, dated 2nd instant calling for an explanation of the decrease in the expenditure on Primary Education during 1907-08 compared with the three previous years, I have the honour to state that the decrease referred to was mainly nominal having been due to a change adopted in the principle of classification of schools. Until 1906-07, the grants paid to the primary departments of secondary schools were debited to the head "primary" and the figures given as the expenditure on primary education for the years 1904-05, 1905-06 and 1906-07 included the grants paid to such departments. Under the present rules, however, the primary department of a secondary school is only treated as a secondary institution and the figures given for 1907-08 do not, therefore, include what grants had been previously paid

712

7

paid to the primary departments of secondary schools. Though the new rules came into force in 1906, the change in the classification was not introduced into the accounts of 1906-07 so that the accounts of the last year of the ^equin-quennium might admit of a direct comparison with those of the previous years. A statement is attached showing the expenditure on primary schools only, by which are meant the European primary schools and the non-European elementary schools, for the years 1904-05 to 1907-08 from which it will be seen that the expenditure in 1907-08 was about 17,000 below that in the previous year, while it was in excess of that of the years 1904-05 and 1905-06.

A portion of ^{Rs.} 17,000 appears to have been connected with building operations.

I have the honour to be,

Sir,

Your most obedient servant,

the special assignment made in 1905-06 and future years on account of elementary Education.

The D.P.I. submits the statement of expenditure incurred from Provincial funds on Primary Education in 1907-08 as compared with the expenditure in 1904-05. This statement was required for submission to the Government of India with reference to para.2 of Financial Department letter No.1763-A, dated 23rd March 1905 - printed with G.O.No.282, Edl., dated 2nd May 1905.

2. The Government of India prescribed this statement apparently to see that the expenditure on Primary Education in this Presidency subsequent to 1904-05 did not in any one year fall short of ₹9,21,981- the expenditure of 1904-05, plus 6 lakhs or ₹15,21,981 in the aggregate.

3. The total expenditure in 1907-08 amounted to ₹14,42,650 and compares as follows with the expenditure in the preceding three years:--

	* 1904-05.	* 1905-06.	* 1906-07.	1907-08.
Direct expenditure from Provincial funds including expenditure on school buildings.	6,67,858	6,47,876	4,19,987	2,69,295
Expenditure incurred through Local Boards including expenditure on school buildings.	2,54,123	8,09,643	12,30,173	11,73,355
Total	9,21,981	14,57,519	16,50,160	14,42,650

* Figures taken from G.O. 10825 d/1.3.07
* " " " 13525 d/9.3.09

4. The expenditure in 1907-08, ₹14,42,650, is thus the smallest amount expended on Primary Education since 1905-06 when the Government of India

5

India sanctioned a recurring grant of six lakhs to increase the normal allotment for Primary Education in this Presidency. It is Rs. 2,07,510 less than the expenditure in 1906-07 and Rs. 14,869 less than the expenditure in 1905-06. It is also Rs. 79,331 less than Rs. 15,21,981 which is the amount of the expenditure in 1904-05 plus six lakhs (the special grant sanctioned for elementary)

5. The D.P.I. has not furnished any explanation of the decrease in the expenditure in 1907-08, but as it is necessary that the decrease should be adequately explained when forwarding the statement to the Government of India, he may be asked for an explanation. A draft is submitted for approval.

3. In para. 2 of his letter, the D.P.I. states that this statement of expenditure on Primary Education cannot be furnished on the 1st of July, as the final figures for an official year are received from the Accountant-General only towards the end of August, and as they can only be reconciled with the departmental figures in the September following. He therefore states that the statement can be submitted only about the end of September. In the circumstances stated by the D.P.I. the 1st of October may be fixed as the date for the submission of the return.

From the D.P.I. no 3874 dated 24-6-09

Page 6 of C.F.

The D.P.I. states that the decrease noticed in the expenditure on primary education during 1907-08, as compared with the previous years is mainly nominal and is due to the change in the principle of classification of Schools. Until 1906-07, the grants paid to the primary depts. of secondary schools were debited to the head "primary" and were shown as expenditure on primary education. In the year 1907-08 the grants paid to the primary depts. of secondary schools were not debited to the head "primary" nor shown as expenditure on primary education. They were debited to the head "secondary" and shown as expenditure on secondary education, as under the new Educational Rules the primary dept of a secondary school is treated as a secondary institution. ~~may~~. This explanation, it is submitted, is correct.

2. The statement of expenditure on primary education, ^{in 1907-08} may now be forwarded to the Govt. of India with an explanatory letter. The draft below is for approval.

With reference to para. 2 of Finance Department letter No. 1763-A, dated 23rd March 1905, and in continuation of Mr. Butterworth's letter No. 135, Edl., dated 9th March 1909, I am directed to state that the total expenditure from Provincial funds on primary (now known as elementary) education in this Presidency in the year 1907-08, including expenditure on school buildings and outlay incurred through the agency of local boards, amounted to Rs 14,42,650 against Rs 9,21,901 in 1904-05. The expenditure was distributed as follows:--

	1904-05. Rs	1907-08. Rs

This decrease is, however, only nominal, being due to a change in the principle of classification of schools which was introduced by the new Educational Rules and ~~which was~~ brought into force from 1907-08:

Until 1906-07 the grants paid to primary departments of secondary schools were ~~debited to the head primary department~~ ^{debited to the head primary department} and the figures reported as the expenditure on primary education in the years 1904-05, 1905-06 and 1906-07, included ~~the grants paid to each department of secondary schools.~~ ^{the grants paid to each primary department of secondary schools.} But ~~under the existing rules,~~ ^{under the existing rules,} the primary department of a secondary school is treated as a secondary institution, and the grants paid to these department of secondary schools are not included in the expenditure on primary education ~~reported for~~ ^{reported for} 1907-08, namely, Rs 14,42,650. The expenditure on primary schools alone (excluding the expenditure on primary departments of secondary schools) in 1904-05 was only Rs 7,73,575, and as compared with this ^{Sum} the expenditure in 1907-08 shows an increase of Rs 6,69,075 or Rs 69,075, excluding the recurring grant of six lakhs.
