NOTES CONNECTED WITH G.O., Nos. 232-33, EDUCATIONAL, DATED 3RD MAY 1910.

[SUBJECT.—Alterations in the Rules of the College of Engineering.]

From the Public Works Department, dated 24th March 1910, No. 1374/O.

The Director of Public Instruction submits a letter from the Principal of the College of Engineering and proposes certain alterations in rules 41 and 42 of the rules for the working of the college.

2. In his letter the Principal proposes certain modifications in the entries on page 3 of the Military Department form I.A.F.U. 1740, which have to be sanctioned by the Military Department.

3. In his endorsement the Director of Public Instruction does not refer to the changes in the Military Department form I.A.F.U. 1740, proposed by the Principal, but states that certain alterations are necessary in rules 41 and 42 of the college

It is quite clear that they are not in lieu but in addition.

A. GALLETTI—13-4-10.

rules. It is not clear whether the proposed changes in the college rules 41 and 42 are in lieu of those proposed in the Military Department form or in addition to them and if it is the latter, it is not stated whether separate action has been taken in regard to the modifications to be made in form I.A.F.U. 1740.

4. The Director of Public Instruction may, it is submitted, be asked u.o. to furnish information on the above points.

T.K.—10-4-10.

K. RANGASWAMI AIYANGAR—11-4-10.

I.A.F.U. 1740 is based apparently on old Engineering College rules and requires to be brought up to date. I suppose it is the latest form. Please see whether it is given in Army Regulations, India. The proper course, I think, will be to ask the Officer Commanding 9th Division whether he sees any objection to the proposed alterations of this military form before addressing India. Meanwhile the notification altering the college rules may be issued, it being first ascertained, if possible, that I.A.F.U. 1740 is the latest form. Please draft.

A. GALLETTI—13-4-10.

It has been ascertained that the I.A.F.U. 1740 forwarded by the Principal of the College of Engineering is the latest form.

2. The draft notification submitted by the Director of Public Instruction does not appear to be quite correct. Clauses (a), (b), (c), etc., given in rule 41 specify the documents which should accompany the applications to be submitted to the Principal; but the words "applications to be submitted in I.A.F.U. 1740" which the Director of Public Instruction proposes to insert as clause (d) refer to the application itself and not to any document accompanying the application. They do not therefore seem to be appropriate. In order to ensure that the applications are submitted Yes, and omit the present (d) and (e) in rule 41.

S. H. SLATER.

in future in form I.A.F.U. 1740, the words "shall be submitted in I.A.F.U. 1740 and" may be inserted between the words "applications" and "will" in the penultimate sentence of the rule.

3. It is also observed that in the alterations proposed in the entries against "Public Works Department and Military Works Services" on page 3 of I.A.F.U. 1740, the modifications recommended in rule 41 of the College of Engineering rules have not been carried out, that is, documents (d) and (e) have not been omitted—vide the entry in column 3 of the statement attached to the I.A.F.U. 1710. It is for consideration whether the entry in column 3 of the statement may be altered to agree with the altered rule 41 of the College of Engineering rules.

4. A draft order altering the college rules and a draft letter to the Officer Commanding 9th Division are submitted for approval as directed.
