GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., C.I.E., Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—the 26th August 1909.

No.—R.C. 5488.

I have the honour to submit the enclosed plan with estimate amounting to Rs. 3,950 for the construction of a building and a latrine for the American Mission Hindu Girls' school, Wallajah, and to recommend that under rule 51 of the Grant-in-aid Code, a grant of Rs. 1,316 be sanctioned to be paid when funds become available.

2. The school has no house of its own. The rented building in which it is now held is reported to be in many ways unsuitable for school purposes.

3. An application for aid in the prescribed form is enclosed.

II

**Note by the Chief Engineer, Public Works Department,
dated 9th November 1909.**

With regard to the plan and estimate of Rs. 3,950 submitted by the Director of Public Instruction for the construction of a building for the American Mission Hindu Girls' school at Wallajah, the undersigned has the following remarks to offer and to suggest that a revised plan and estimate be called for.

The roof proposed is not an economical one, owing to the span of the principal rafters and the length of struts.

The wall is shown as 1' 3", which is not a brick size. One foot $1\frac{1}{2}$ inches would do if the wall only runs up to the tie beam but if it should run up to the apex of the roof, 1' 6" at least would be necessary.

A queen post truss, or an iron truss with two purlins on either side would be better than the king post truss provided for. The building as designed lends itself to a terraced rather than to a tiled roof.

Country wood (Kadukai) is proposed to be used. It would be more satisfactory to use one of the better known classes of timber. The scantlings are not properly calculated, e.g., purlins in the side rooms—span=14' load= $14 \times 10.5 \times 50 = 3.25$ tons. The scantlings would have to be 11" $\times$ 6" instead of 4" $\times$ 7" as provided for in the estimate—*vide* Memoranda No. 234-C., dated 9th January 1908 and No. 2040-C., dated 27th April 1909.

F. J. WILSON,
Chief Engineer.

III

Memorandum No. 1624-1, Educational, dated 18th November 1909.

With reference to his letter R.C. No. 5488, dated 26th August 1909, submitting an application for a grant of Rs. 1,316 towards the cost of constructing a building and a latrine for the American Mission Hindu Girls' school, Wallajah, the Director

of Public Instruction is requested to obtain and submit to Government a plan and an estimate revised in accordance with the remarks of the Chief Engineer in his note, dated 9th November 1909, a copy of which is herewith forwarded.

(By Order.)

C. A. SOUTER,
Under Secretary to Government.

To the Director of Public Instruction with plan,
estimate and a copy of Chief Engineer's note,
dated 9th November 1909.

IV

Letter—from the Correspondent, American Mission Hindu Girls' School, Wallajah.

To—the Director of Public Instruction, Madras.

Dated—Ranipettai, the 21st February 1910.

I have the honour to inform you that I am sending you herewith the plans and estimates for the American Mission Hindu Girls' School, Wallajah, revised in accordance with your order. I am hoping that sanction may be granted soon, as there has already been a delay of one year since the application was first made.

Ref. on Cur. No. 5488/9, dated 5th March 1910.

Submitted to Government with reference to official memorandum No. 1624-1, Educational, dated 18th November 1909.

2. As the revised estimate amounts to Rs. 4,611, the grant recommended in this office letter R.C. No. 5488/09, dated 26th August 1909, may be raised to Rs. 1,537.

A. G. BOURNE,
Director of Public Instruction.

V

**Note by the Chief Engineer, Public Works Department, dated
19th May 1910.**

The Director of Public Instruction submits for sanction, an estimate, amounting to Rs. 4,611, for constructing a building for the North Arcot American Mission Hindu Girls' School at Wallajah in the North-Arcot district. The estimate is prepared and submitted by the North Arcot American Mission with an application for a building grant. The plans and estimates have been scrutinised in the Chief Engineer's office and certain necessary corrections have been made, including alterations of the scantlings and rolled steel joists as marked on the blue print attached.

The nature of the soil is not reported. The pressure on the foundations works out to 40.78 tons per square foot.

The Superintending Engineer should satisfy himself before the foundations are put in that they are suitable.

A design for the queen post truss C.A. No. 68/1910 is now attached to the plans, for adoption in place of the design submitted. The portions of wall hatched in green on the tracing should be built of brick in lime mortar from the foundations upward.

With these remarks, the estimate, amounting to Rs. 4,611, is recommended for sanction.

F. J. WILSON,
Chief Engineer.

Order—No. 318, Educational, dated 3rd June 1910.

The Government are pleased to sanction a grant not exceeding one-third of the actual expenditure, nor exceeding Rs. 1,537 towards the cost of constructing a building for the American Mission Hindu Girls' School, Wallajah, subject to the following conditions:—

- (1) That in carrying out the work the suggestions of the Chief Engineer in his note, dated 19th May 1910, read above are adopted;
- (2) that the work is completed before the 1st December 1910;
- (3) that a certificate of the actual expenditure incurred on the work is submitted before the 31st December 1910;
- (4) that all other conditions prescribed in the Grant-in-aid Code have been duly complied with.

2. On the above conditions being fulfilled the grant will be paid as funds become available.

INSTRUCTIONS FOR THE
SECRETARIAT.(a) If a paper is marked to be printed
urgently, the Superintendent of the section
concerned should sign the Press slip. The
Superintendent should exercise a careful discre-
tion in the matter.(b) Each letter, memorandum, or order, or set
of orders, in the file of correspondence should be
headed in succession with the Roman numeral I,
II, III, etc., the number being written in red ink
or blue chalk above the item. The particular
papers to be printed in the special issue-copies
should be indicated by the Roman numeral (I,
etc.) by which that item has been headed in
the correspondence file. All matter, including
marginal remarks or references, to be printed
should be written in ink and matter which should
not be printed should be encircled. Initials and
signatures that are not quite legible should be
re-written distinctly.(b¹) For rules regarding printing of notes,
see the rules in G.O., No. 1220, Public, dated
30th November 1900.(c) The number of copies and the details of
distribution should be filled in by the Superin-
tendent or Referencer concerned.(d) In the absence of special instructions to
the Press to keep matter standing for a specified
period, ordinary papers of 8 pages and under
will be kept standing for one week, and larger
papers for two weeks only. The type of notes
and of all confidential papers is distributed
immediately after striking.(e) This slip, properly and completely
filled in, should accompany every paper sent to
Press; it will be returned by the Press when
proofs are furnished; it should be sent to the
Press when a call is made for revised proofs or
when a corrected proof is sent for striking.
When finally returned by Press it should
be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of
the Press, a paper has been marked urgent
unnecessarily, he should send the Press slip to
the Deputy Registrar with a remark to that
effect.(b) Unless a note to the contrary is made
against the matter, pencil entries should not
be printed. The Superintendent of the Press
may bring to the notice of the Deputy Registrar
any instance of incomplete or careless editing.(c) Signature copies of letters to the
Secretary of State or to the Government of
India should be printed on hand-made paper.(d) This slip should be returned by the Press
to the Secretariat when proofs are furnished; it
will be sent back to the Press when proofs
are returned corrected and should be finally
returned to the Secretariat when struck-off
copies are supplied.(e) The names of the Secretary and Members
should be printed in full when they occur on
the right hand side, but only the first time when
they appear on the left side, the initials alone
being printed later.

* Copies distributed on.....*(Press Clerk.)

† Copies distributed on.....*(Despatcher.)

A

Please send proof in triplicate. The papers have been carefully edited.

B

Proof returned corrected. Please strike off and send number of copies as indicated.

Type may be released after usual interval.
at once.

C

As the matter is clear manuscript and has been carefully edited, (h) proof need not be sent. Please print and supply number of copies as indicated.

Type may be released after usual interval.
