READ—the following papers :—

I

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., C.I.E., Director of Public Instruction, Madras.
To—the Secretary to Government, Educational Department.
Dated—the 10th May 1910.
No.—Ref. on Cur. 2674.

I have the honour to submit the enclosed plans with estimates, amounting to Rs. 3,250, for the construction of additional accommodation required for the St. Ann's High School, Mangalore, and to recommend that a third grant of Rs. 1,083 may be sanctioned to be paid when funds become available.

2. The necessity for the proposed additional accommodation is explained in the Correspondent's letter No. 8, dated 18th February 1910, of which a copy is submitted together with the necessary application for aid required by rule 50 of the Grant-in-Aid Code.

ENCLOSURE.

Letter—from Sister ALOYSIA, Correspondent, St. Ann's High School, Mangalore.
To—the Director of Public Instruction.
Dated—the 18th February 1910.
No.—8.

- (b) Tiffin room for Kurians.
- (c) Tiffin room, Roman Catholic Brahmans.
- (d) Lavatory.
- (e) Bath rooms (2).

I have the honour to forward to you here-with the plan, estimate and specification report of tiffin rooms, etc., to be constructed in connection with the St. Ann's High School and Training School, Mangalore.

The block of buildings hitherto used for these various purposes by our pupils was wholly demolished by the fall of a great banyan tree during the cyclone early last May. Since then our pupils have been very seriously inconvenienced by the want of accommodation for taking their noon-day meal in.

The strength of the St. Ann's schools including our poor school is 534. The greater number of these come from a distance from $\frac{3}{4}$ of a mile to 2 miles. Of these 252 now take their noon-day meal in the school premises. During the monsoon this number will be a deal increased.

I request that you will be so good as to sanction a building grant in accordance with the provisions of the Grant-in-Aid Code, article 51 of chapter VIII. As it is absolutely necessary the building should be completed before the coming monsoon, we shall deem it a special favour if the sanction be granted early.

II

Note by the Chief Engineer, Public Works Department, dated 15th June 1910.

The Director of Public Instruction submits for sanction in connection with an application for a grant-in-aid an estimate, amounting to Rs. 3,250, and two plans not numbered, for constructing tiffin, lavatory and bath rooms for St. Ann's High School at Mangalore.

The plans and estimates have been scrutinised in the Chief Engineer's office, and the following alterations have been made :—

Altering the scantlings of the bresssummers and collars from 4" x 6" to 4" x 7" and 2" x 4" to 2" x 4½", respectively.

The common rafters should be 2" x 5½" and they should be spaced at 21" centres.

The nature of the sub-soil is not stated. The pressure on the soil works out to 0.65 ton per square foot. The Superintending Engineer should satisfy himself that the foundations are suitable before they are constructed. The scantlings of the roof timbers are suitable for the following timbers—(vide Chief Engineer's Memorandum, No. 2040-C., dated 27th April 1909) :—

- (1) Sal.
- (2) Irumbogam.
- (3) Ainee (*Arto Carpus Hirsuta*).
- (4) Karamaradu (*Terminalia tomentosa*).
- (5) Jarrah, Australian.
- (6) Blackbutt, Australian.
- (7) Ironbark (white or grey), Australian.
- (8) Mahogany, Australian.
- (9) Tallow wood, Australian.

With these remarks, the estimate, as altered by the Chief Engineer, amounting to Rs. 3,290, is recommended for sanction.

F. J. WILSON,
Chief Engineer, P.W.D.
