READ—the following papers:—

I

G.O., No. 810, Educational, dated 3rd December 1907.

ABSTRACT.—Allotting a grant of Rs. 2,77,500 in aid of certain first and second grade colleges from the special grant made by the Government of India for University education and sanctioning the payment in the current year of a sum of Rs. 2,24,000 out of the amount allotted.

II

G.O., No. 543, Educational, dated 16th July 1908.

ABSTRACT.—Sanctioning a further grant of Rs. 10,000 towards the cost of the extensions and improvements of the Madras Christian College.

III

G.O., No. 207, Educational, dated 5th April 1909.

ABSTRACT.—Sanctioning, subject to certain conditions, a building grant not exceeding Rs. 6,000 towards the cost of improvements to the accommodation of the school department of the Madras Christian College.

IV

Letter—from the Rev. J. M. RUSSELL, M.A., Bursar, Madras Christian College.
To—the Director of Public Instruction, Madras.
Dated—the 10th May 1910.
No.—32.

With reference to your Proceedings, Ref. on C. No. 2248 of 1907, dated 31st July 1908, in reply to my letter No. 219 of 14th April 1908, also your Proceedings, Ref. on C. No. 5010 of 1908, dated 16th April 1909, I have the honour to apply for a further grant of Rs. 44,712 (Forty-four thousand seven hundred and twelve rupees) to meet the heavy expenditure incurred by the college on “extensions and improvements”.

In my letter of 14th April 1908 I applied for a grant of Rs. 60,712 on an estimated outlay of Rs. 2,32,137, that is, a one-third grant towards an expenditure of Rs. 1,82,137, the difference being met by the Special Imperial grant of Rs. 50,000. I have now to report that under the heads specified in my letter referred to above there has been expended up to 31st March 1910 a sum of Rs. 1,96,844 which has been met as follows:—

Imperial grant	Rs.	50,000
Grants from Government of Madras—		
Proceedings of 31st July 1908	Rs.	10,000
Proceedings of 16th April 1909		6,000
		16,000
The management		1,30,844 *
Total		1,96,844

* Excluding cost of extensions and improvements which were not in the estimate in my letter of 14th April 1908 (see pages 11 and 12 of annual report of the College Council for 1909).

From this it will be seen that the “extensions and improvements” have already cost the management more than eight times the amount of the grants that the Government of Madras have so far been pleased to make and close on twice as much as the aid the management has as yet received from public funds, both Imperial and Provincial.

The extensions are now rapidly approaching completion, so that in the course of the current year it will be necessary to pay the balance (Rs. 35,293) of the estimated cost (Rs. 2,32,137). I may add that since 31st March I have paid Rs. 3,929 of this balance.

In view of the very heavy expenditure which the college authorities are endeavouring to meet from a special fund raised with great difficulty for the purpose, I would express the hope that Government may be pleased to deal with this application in the most liberal way possible.

Endt., R.C. No. 3335, dated 24th June 1910.

Submitted to Government.

2. The main thing in favour of the grant is that the college authorities have provided so much from their own resources.

3. The Bursar's letter No. 219, dated 14th April 1908, was disposed of in G.O., No. 543, Educational, dated 16th July 1908. Proceedings, R.C. No. 5010 of 1908, dated 16th April 1909, referred to by the Bursar relate to the grant of Rs. 6,000 sanctioned in G.O., No. 207, Educational, dated 5th April 1909.

A. G. BOURNE,
Director of Public Instruction.

Order—No. 460, Educational, dated 8th August 1910.

The Government regret that they are unable to comply with the request of the authorities of the Madras Christian College for a further grant of Rs. 44,712 towards the cost of extensions and improvements of the college. But having regard to the very large expenditure which these extensions involve, the Government are pleased, as a special case, to sanction a further grant of Rs. 11,379, so as to bring the aggregate grants paid from public funds on account of this work up to one-third of its total estimated cost.

(True Extract.)

L. M. WYNCH,
Ag. Secretary to Government.

To the Director of Public Instruction.
,, Accountant-General.

From the Director of Public Instruction, dated 24th June 1910, No. 3335.

The Director of Public Instruction submits for orders a letter from the Bursar, Madras Christian College, in which the latter applies for a further grant of Rupees 44,712 to meet the heavy expenditure incurred by the college on extensions and improvements to the college buildings, necessitated by the new University Regulations.

2. In 1905, the Government of India decided to make a grant of five lakhs annually for a period of five years for the benefit of University and Collegiate education and in their letter No. 192, G.O., No. 190, Educational, dated 28th March 1905, dated 14th March 1905, assigned a grant of Rs. 70,000 to this Presidency for the year 1904-1905 and suggested that a sum of Rs. 5,000 and one of Rs. 15,000 might be placed at the disposal of the Madras University for meeting the travelling expenses of fellows and the expenditure connected with the inspection of colleges and that the balance of Rs. 50,000 might be expended in making where necessary grants of a non-recurring nature for University and College buildings.

3. Subsequently in their letter No. 752, Educational, dated 6th December 1905, the Government of India sanctioned an annual allotment to this Presidency of Rs. 1.05 lakhs for a period of four years from 1905-1906 in aid of University reform and stated that 80 lakh of the allotment was intended for the improvement of collegiate as distinct from University education and should be devoted to render colleges (other than Government colleges) more efficient in those respects in which an inspection by the University showed them to be defective. The balance of 25 lakh, they said, was intended for University purposes and should be applied primarily to the inspection of colleges, strengthening the administration of the University and providing for the travelling expenses of Fellows on University business. They also stated that they were at that time unable to promise that the special assignment for University and collegiate education would be continued beyond the financial year 1908-1909.

Page 6 *ibid.*

February 1907. In respect of the Madras University Regulations required increased

Vide paragraph 2 of the Director of Public Instruction's letter on page 6 of G.O., No. 570, Educational, dated 31st August 1907.

4. In order to distribute the grant of Rs. 3,20,000 * thus made to the Madras Presidency for collegiate education, the Government requested the Director of Public Instruction in December 1906 to furnish a detailed statement showing the amount required for each first-grade college in order to comply with the demands imposed upon them by the new University Regulations. The Director furnished the information called for in his letter No. 91, R. Cl., dated 26th February 1907. In respect of the Madras Christian College he stated that the new accommodation, improvement of existing accommodation and provision for the practical teaching of Physics and that the cost of the scheme which College authorities had in view to provide for the above objects was as follows:—

	RS.
For building	85,500
Cost of site	60,000
Furniture and equipment	20,000
Structural alterations on existing buildings	7,500
Total	1,73,000

5. In G.O., No. 810, Educational, dated 3rd December 1907, the Government distributed to the first and second-grade colleges the special grant made by the Government of India for collegiate education. In this distribution a sum of Rupees 50,000 was allotted to the Madras Christian College.

6. In his letter No. 219, dated 14th April 1908, the Bursar of the Madras Christian College then applied for an additional grant of Rs. 60,712 towards the cost of the extension of the college buildings. He stated that the cost of the extension amounted (as against Rs. 1,73,000 estimated in 1907) to Rs. 2,32,137 as follows:—

	RS.
Cost of site	74,100
Cost of building	1,23,537
Cost of furniture and fittings	13,500
Cost of gallery to college	9,975
Architect's fee at 7½ per cent. on Rs. 1,47,012	11,025
Total	2,32,137

He further stated that apparatus, gas-plant and gas, water and electrical fittings, which had been estimated to cost approximately Rs. 28,500, would be dealt with

Ibid. subsequently in separate applications. The grant of Rs. 60,712 asked for by the Bursar was arrived at as follows:—

	RS.
Cost of the extension	2,32,137
Deduct—the amount sanctioned in G.O., No. 810, Educational, dated 3rd December 1907, out of the special grant made by the Government of India	50,000
Balance	1,82,137
One-third of this balance in accordance with rule 51 of the Grant-in-Aid Code	60,712

Paragraph 4 of the Director of Public Instruction's letter on page 2 of G.O., No. 543, Educational, dated 16th July 1908.

* 2,32,137
1,00,000
3)1,32,137
44,046

management might reasonably be expected to add to the special grant, although no such condition was insisted upon in G.O., No. 810, Educational, dated 3rd December 1907. Dr. Bourne then observed that, where operations on such a very large scale were embarked upon, it was quite fair that the management should contribute a sum which was at least equal to the amount of aid given from special grant before any application for aid under the Grant-in-Aid Code for a third grant in regard to the balance was entertained.

8. The Government regretted their inability to entertain the application of the G.O., No. 543, Educational, dated 16th July 1906. authorities of the Madras Christian College for a grant of Rs. 60,712 towards the cost of the extensions and improve-

ments of the College in addition to the special grant of Rs. 50,000 sanctioned in G.O., No. 810, Educational, dated 3rd December 1907. But in view of the recommendation of the Director of Public Instruction and of the heavy expenditure which the College authorities had undertaken to incur on the improvement of the college, they (the Government) sanctioned a further grant of Rs. 10,000—*vide* G.O., No. 543, Educational, dated 16th July 1908.

9. Subsequently in G.O., No. 207, Educational, dated 5th April 1909, the Government sanctioned a grant of Rs. 6,000 towards the cost of improvements to the accommodation of the school department of the Madras Christian College. It will be noted that this grant was made for the school department and in entertaining the application for the grant the Government thought that the school department was distinct from the College department—*vide* paragraph 2 of Mr. Taylor's note, dated 25th February 1908, and his note on the margin of the office-note on page 2 of the notes with G.O., No. 444, Educational, dated 23rd May 1908.

10. In his present letter, the Bursar states that there has been expended on the extensions and improvements to the college a sum of Rs. 1,96,844 up to the 31st March 1910 and that this sum has been met as follows:—

	RS.
Special grant sanctioned in G.O., No. 810, Educational, dated 3rd December 1907.	50,000
Grant sanctioned in G.O., No. 543, Educational, dated 16th July 1908.	10,000
Grant for the school department sanctioned in G.O., No. 207, Educational, dated 5th April 1909.	6,000
Contribution from the management	* 1,30,844
Total	1,96,844

The Bursar adds that the extensions are now rapidly approaching completion and that in the course of the current year it will be necessary to pay the balance (Rs. 35,293) of the estimated cost (Rs. 2,32,137); and in view of the very heavy expenditure which the College authorities are endeavouring to meet from a special fund raised with great difficulty for the purpose, the Bursar expresses the hope that the Government will be pleased to deal with his application in the most liberal way possible

* Excluding cost of extensions and improvements which were not included in the estimate given in the Bursar's letter, dated 14th April 1908, on page 3 of G.O., No. 543, Educational, dated 16th July 1908.

the Government of India's action also gave an impetus to enterprise, and it is satisfactory to note that of this large scheme, the Christian College has already managed to raise so large a part of the cost.

3. This is perhaps an occasion for the utmost liberality consistent with a regard for the interests of other educational institutions.

S. H. SLATER—25-7-10.

The allotment of Rs. 50,000 in the budget estimate for the current year is the first instalment of the special grant of 1.50 lakh for affiliated colleges which we asked India to give in letter No. 73, dated 4th February 1909, but which India said we must provide ourselves.

2. From paragraph 5 of that letter it appears that the money was required to enable affiliated colleges to provide themselves with apparatus and laboratories. I cannot find how the estimate was arrived at, or whether the Christian College was one of the institutions referred to.

3. The grant now applied for seems to be outside the scope of the special grant for which provision has been made in the budget estimate and I should like to know what claims there are against the grant to be met this year, and how the estimate of 1.50 lakh was arrived at.

L. M. WYNCH—26-7-10.

The sum of Rs. 1.50 lakhs mentioned in paragraph 5 of the letter to India No. 73, Educational, dated 4th February 1909, was based on an estimate furnished by the University of Madras. On receipt of Sir Harold Stuart's letter, dated 5th November 1908, enquiring whether it was considered necessary to continue the annual grant allotted by the Government of India for Collegiate and University reform, the Syndicate of the University of Madras was requested to submit a statement showing the financial position of the University and an estimate of the amounts required for improving the colleges affiliated to the University in order to bring them up to the standard required by the University regulations, and also for University purposes, such as, administration, inspection and travelling expenses of Fellows. The reply of the Syndicate was submitted with Mr. Dewsbury's letter, dated 3rd December 1908, and in the last paragraph of that letter, it was stated that a sum of Rs. 1,00,000 might with advantage be given as additional grants to affiliated colleges to enable them to equip themselves with up-to-date apparatus and appliances which in the case of science laboratories was costly. The Syndicate also gave a detailed estimate of the grants to affiliated colleges and in this estimate, a grant of Rs. 20,000 was put down for the Madras Christian College—*vide* page 5 of G.O., No. 72, Educational, dated 4th February 1909. Applications from other colleges for similar grants had also then been received, the total grant applied for amounting to Rs. 92,500,* but for the purposes of the estimate to be submitted to India, the total demand for these colleges was put down at Rs. 50,000—*vide* paragraphs 13 and 14 of the office-note on pages 6 and 7 of the notes with G.O., No. 72, Educational, dated 4th February 1909. The Hon'ble Member at first decided that the Government should not ask the Government of India for a grant of more than one lakh to enable Government to help to equip colleges; but this sum of one lakh was raised to one lakh and a half by the Acting Secretary, Mr. Butterworth, with the consent of the Hon'ble Member Sir George Forbes—*vide* Mr. Butterworth's note, dated 20th January 1909 on page 9 of the notes with G.O., No. 72, Educational, dated 4th February 1909.

	RS.
* Salem College	6,500
Victoria College, Palghat ..	18,000
Madura College	68,000
	92,500

Vide Sir George Forbes' note, dated 19th January 1909, on page 9 of the notes with G.O., No. 72, Educational, dated 4th February 1909.

colleges; but this sum of one lakh was raised to one lakh and a half by the Acting Secretary, Mr. Butterworth, with the consent of the Hon'ble Member Sir George Forbes—*vide* Mr. Butterworth's note, dated 20th January 1909 on page 9 of the notes with G.O., No. 72, Educational, dated 4th February 1909.

2. No applications have yet been received for any grant from the provision of Rs. 50,000 under the head 22. *Education—University* in the current year's budget. In a recent communication the Director of Public Instruction applied for an additional allotment of Rs. 19,000 to enable him to pay grants to Colleges and high schools towards the purchase of furniture, apparatus and appliances to enable them to comply with the requirements of the University regulations and the Madras Educational Rules; and in the office-note on that case, it has been suggested that the grants required for colleges might be met from the provision of Rs. 50,000 under 'University' which was specially intended for such grants. The file is going to the Secretary.

T.K.—27-7-10.

K. RANGASWAMI AYYANGAR—27-7-10.

The Director of Public Instruction has not made any specific recommendation as to the amount of grant which might be given to the Christian College.

From the foregoing notes it seems clear that the application for a grant of Rs. 44,712 as made by the Bursar cannot be entertained.

I am inclined to agree with the office-note at A on page 6 that the grant made now should be of such amount as will with the grant already made make up one-third of the total amount of the estimate (Rs. 2,32,137) or Rs. 77,379; Rs. 66,000 having already been given we might now give Rs. 11,379.

It has to be observed however that of the sum of 1.50 lakh provided for grants to affiliated colleges for laboratories and equipment (of which the first instalment of 50,000, is entered in the current year's budget estimate) Rs. 20,000 were intended for the Christian College (page 5 of G.O., No. 72, Educational, dated 4th February 1909). If then the Director of Public Instruction can assure Government that no further claim will be made, on the score of equipment, by the Christian College against this grant of 1.50 lakh, we could give the Christian College the sum of Rs. 20,000 provided for them, this year, the only other claim against the current year's budget provision that I am aware of being Rs. 19,000 recently asked for by the Director of Public Instruction.

It will be observed that the estimate of Rs. 2,32,137 includes an item of Rupees 13,500 for furniture and equipment, (the original estimate having been Rs. 20,000). The estimate of Rs. 20,000 made by the Syndicate in the Registrar's letter at page 5 of the Government Order above quoted was only a rough approximation.

L. M. WYNCH—1-8-10.

In the Bursar's letter read in G.O., No. 543, dated 16th July 1908, he gave an estimate Rs. 2,32,137, which included Rs. 13,500 for furniture and fittings, but he said he should want about Rs. 28,500 more for apparatus, gas fittings and electric fittings. It seems fairly clear therefore that even if we give Rs. 20,000 now the College will come up to the Director of Public Instruction for more for these further things. I think we had better say nothing here about fittings but treat this as a grant for buildings and leave the Director of Public Instruction to deal with any further application for a grant for apparatus, etc. This is a special case and we had better give the Rs. 11,379 to make up the $\frac{1}{3}$ of the total amount of the estimate.

If they come up again for a grant for apparatus, etc., they may perhaps get the Rs. 20,000, if the money is available but we need say nothing about that here. We can give this amount of Rs. 11,379 merely stating that it is given to make up a third of the total grant; saying nothing as to the head of the budget from which it is to come. The Director of Public Instruction can settle that.

M. H[AMMICK]—3-8-10.

EDUCATIONAL
LEGISLATIVE DEPARTMENT.

URGENT (a).

INSTRUCTIONS FOR THE
SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b¹) For rules regarding printing of notes, see the rules in G.O., No. 1220, Public, dated 30th November 1900.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Deputy Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Deputy Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right hand side, but only the first time when they appear on the left side, the initials alone being printed later.
