PART I. - STATISTICAL ACCOUNT OF DEALINGS WITH INDIVIDUALS
SEEKING INFORMATION AND ADVICE AS TO STUDY IN ENGLAND.

Direct applications have been made on behalf of 57 persons. In addition applications have been made to Mr. Arnold and forwarded to this Committee for being dealt with on behalf of 7 persons, making a total of 64.

The first 18 or 20 direct applications were made before our Circulars were issued, which was towards the latter end of January. The remaining 37 direct applications were made during the last six or seven weeks.

Over 100 letters have been received and answered and 32 interviews have been held in 22 different cases.

The following were the proposed pursuits of the applicants:--

The Bar, generally in combination with some other pursuit, 23.

Universities, Oxford 6, Cambridge 2, London 8, Edinburgh 6, Manchester 2, Leeds and Glasgow 1 each, Uncertain 3. Total 29.

Of the 64, 54 have not yet earned any income; of those who have done so there are a Journalist, an Accountant, a Post Office Master, a Telegraphist, a Science Teacher, a P.W.D. Overseer, a P.W.D. Executive Engineer, a Hospital Assistant a First Grade Pleader, a Sanitary Inspector.

All the applicants are Hindus except 3 Mohammedans and one Eurasian. The record does not distinguish castes. No ladies have applied.

So far as is known only one student has actually gone as yet to England but at least 10, it seems, are likely to set out during the next three or four months. Of these may be mentioned in the order of date of their ^{first} applications to the Committee,

A, a Medical College student who goes to read Medicine at Leeds,

B, a failed Matriculate who is to read for the Bar and probably goes to Oxford at the same time,

C, a B.A. in Biology who likewise goes to Oxford and the Bar and talks of trying for the I.C.S. as well,

D, a first class graduate in Physical Science, who takes a scholarship of £.150 a year for 3 years given by the South Indian Industrial Association, Rangoon to study textile industries at the Manchester School of Technology.

6 4
E, who has recently tried for the F. A. Examination and has the Bar and the I.C.S. in view,

F, a Mohammedan who has just failed in the F.A. Examination, and is also to try for the Bar,

G, a B.A., M.B. and C.M., with high honours throughout who now aims at becoming L.R.C.P. and M.R.C.S.

Enquiries have only been made in the cases of two students already in England.

PART II - GENERAL PROGRESS.

Handbooks of information have been purchased and sent to each member of the Committee.

Circulars Nos. I, II and III have been printed and widely circulated. They have also been published in the principal papers of this Presidency and apparently in other and distant parts of India, as applications for them have been received from Agra and Bareilly.

The Secretary has been in communication with Messrs. Thos. Cook and Son, Colombo, with a view to information on the subject of the journey to England.

The Secretaries of the corresponding Committees in Bombay and the Punjab, which have been more recently formed, have been in correspondence with this Committee with a view to co-operation and it is hoped that there will be a continual interchange of suggestions and experiences.

The financial position of the Committee has been settled by an allotment of Rs.120 for contingencies in the current official year and Rs.200 a year hereafter, together with Rs.15 a month for office-rent.

The Resident of Mysore has been added as an Ex-officio member of this Committee by G.O.No.23, dated the 15th January 1910.

The accounts show an actual expenditure of Rs.81 to date and an estimated expenditure of Rs.39 more to the end of March.

3rd March 1910.
