M a d r a s.

Sir,

With reference to para 2 of the G.O. No.397 Educational, dated 6th of July 1909 I have the honour to report that I communicated with the India Office in the matter and a copy of the reply I received No.S. 14881 dated 27th August 1909 from the Director General of Stores, London is herewith submitted for information.

Further particulars as to details of ink, paper &c. are furnished by the letter from the Superintendent, Government Press, copy of which is enclosed.

The drawings being now ready for reproduction, I have marked each one with the size of the block required and send the parcel to you herewith - for transmission to the Superintendent, India Store Depot, Belvedere Road, Lambeth, London, S.E.

The original drawings should, after the blocks are made, be returned to me, together with the blocks, and 2 or 3 proofs from each block.

As there is some doubt still as to the paper to be used when the blocks are printed here, I may add that a smooth paper other than an "Art" paper will be selected.

Very glossy papers do not stand well in Madras though the best results in printing are got on these.

I should be glad if the drawing could be sent to London as soon as possible as there has already been a good deal of delay in preparing the work.

I have the honour to be,

Sir,

Sir,

With reference to your letter No. 713 dated 20th July 1909, relative to blocks for the reproduction of drawings, I have the honour to suggest that you should submit an indent on this Office, through the Government of Madras, for the blocks required, sending the drawings to the Superintendent, India Store Depot, Belvedere Road, Lambeth, London, S.E.

It is considered that purchase through this Office would be more advantageous, as it would involve some -- saving of freight to India and would also ensure an -- independent inspection of the blocks.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) William Butler,

Director General of Stores.

Dear Mr. Hadaway,

Your D.O. No.1368. I append replies to the Director General of Stores' queries as far as possible.

1. Size of blocks. I presume you have settled that.
2. Wanted unmounted. It will save cost in carriage, etc.
3. Will not apply. I will mount to proper height.
- 3 (a) Paper to be used. I think Government were to decide that. I have no instructions. Perhaps you have been informed as I raised the question. If you want glossy paper like you had proofs in March last the paper will be Dickinson's Art Imperial, 60 lb. but with line blocks, this is not essential.
4. We can hardly send ink home. Its condition in the temperature there will be very different from its state here. If the Director-General of Stores sends me what I have indented for, and does not substitute other kinds as has happened lately, the ink used will be either Richardson's R. No.74 Art Black, Richardson's R. 40 fine book ink or kids Half tone Black 20, according to the temperature--the first being used when the thermometer is about 100.
5. Machine to be used. Either Phoenix platen, Babcock Standard drum cylinder, or Reliance Wharfedale with double inking.

Yours sincerely,

(Sd) Fisher.
