From (Name) The Hon'ble Mr. A.G. Bourne, D.Sc, F.R.S, C.I.E.

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,

Sir, (Thro' The Accountant General) Educational Department.

I have the honour to request that you will be so good as to obtain the sanction of Government in the circumstances explained below for the employment of eight temporary assistants on Rs 50 per mensem each and one on Rs 20--in the Teachers' College, Saidapet, from 1st January to 30th April 1911, when the college is expected to close for the summer vacation.

2. Under the Transitory regulation 389, the academic year for 1910 extends from January 1910 to 31st March 1911, and the eligibility of the present batch of ~~the~~ L.T. students who joined the Teachers' College in January 1910 to appear for the L.T. Degree Examination of April 1911 depends upon their having

having attended three-fourths of the number of working days which for ^{this} ~~the~~ year must not be less than 190. The Principal, Teachers' College, reports that the present batch of L.T. students hold either permanent appointments in recognized schools or provisional appointments which they are expected to take up in January next and that if they were retained in the college until the 31st March 1911 they would suffer pecuniary loss as the managers would not permit them to join their respective appointments before July 1911 when the schools will be opened for the new school year. He says further that if all these men be kept back till March next the managers will not be able to get trained or even untrained men for their place at that time of the year. Mr. Hall has therefore proposed that such of the L.T. students of the present batch as will have put in the required attendance be relieved at the end of the current calendar year, the few who may not have put in the required attendance being detained in the college until such later date as may be necessary. With a view to give effect to his proposal, he requests sanction for the employment of eight temporary assistants to carry ^{on} ~~out~~ the work of the practising school, which is now being done by the L.T. students, the extra cost being proposed to be met from the savings expected under stipends in consequence of the non-admission of a fresh batch of L.T. students during the first term of 1911. I have ascertained that the college will have put in 220 working days for the whole of the academic year 1910 and that the L.T. students will consequently have to attend college for three-fourths of that period or for 165 working days only. The present batch of L.T. students except one

33 53

one or two who joined the college in July last will therefore have satisfied the University regulations if they are relieved at the close of December next, as the number of working days from January to December 1910 amounts to 176 which is 11 days in excess of the required minimum. In these circumstances I see no objection to the Principal's proposal which affects only the L.T. students in the College. The other students under training and the other classes go on as usual and it is for managing these classes in the absence of L.T. students that additional help is required until the next batch of L.T. students join in July next.

3. As regards the number of temporary assistants it is stated that by the reclassification and amalgamation in January next of the different sections of the model school as they exist at present, there will be 6 divisions in the primary department and 11 in the secondary department or 17 classes in all, and that, of the 6 senior and 7 junior assistants (excluding the Principal, Vice-Principal and the Lady Superintendent) available for their management, six assistants, viz., 5 graduates ~~and one~~ and one Matriculate (to be newly employed) will be required for the Kindergarten department, leaving 6 senior and 2 junior assistants for work in the secondary school, which will consist of 11 divisions. But as these eleven ^{classes} ~~classes~~ will have $76\frac{1}{2}$ periods of work a day and the existing staff of 8 assistants cannot be expected to teach for more than 44 periods, ~~the~~ seven temporary assistants will be required for the remaining $32\frac{1}{2}$ periods, the eighth temporary assistant being needed for the Kindergarten department. The ~~rate~~ or pay of the seven graduate assistants required for the practising (section) school should be Rs 50 per mensem, the minimum salary for which a trained graduate can be had, that of the Matriculate

46
b 4
Matriculate assistant whom it is proposed to employ in the Kindergarten department being fixed at Rs 20, which is the lowest rate of pay sanctioned for the last permanent assistant in the practising section.

I consider the number of temporary assistants proposed by the Principal and their pay to be reasonable and accordingly recommend his proposal for sanction.

4. I beg to submit herewith the necessary proposition statement for favour of sanction together with a reappropriation statement pointing out the source from which the extra cost of the additional staff proposed can be met. Page 5
infra.

5. The Principal, Training College, Rajahmundry, has, for similar reasons, also applied for permission to relieve the L.T. students under training at the close of December next, but as the practising section there is being worked as a Model High School with an independent staff of teachers there is no need for the employment of an additional staff as in the case of the Teachers' College.

I have the honour to be,

Sir,

Your most obedient servant,

C. Krishnamani
for Director of Public Instruction.

Subject.

Employment of eight temporary assistants in the Teachers' College, Saidapet.

The work of the Practising school attached to the Teachers' College, Saidapet, is done by the L.T. Students undergoing training at the college. The L.T. students now undergoing training in the College, will be relieved on the 31st December next, and a fresh batch of L.T. students will not be admitted till July 1911. From 1st January to 30th April 1911, when the college closes for the summer vacation, there will therefore be no L.T. students in the Teachers' College to do the work of the Practising school. The Director of Public Instruction, therefore, proposes to employ eight temporary assistants to do the work of the Practising school, during the period. The proposal may be sanctioned.

This is due to the transition from the old to the new academic year. The academic year 1909 begins in January 1909 and ends in December 1909; that for 1910, begins in Jan'y 1910, but will end only in March 1911 - vide Reg. 389 of the University Regns.

The A.F. points out that the rate of pay proposed for 2 Assistants, viz Rs 50 is not that of the lowest appointment for similar duties which is Rs 20. But as the D.O. states that the latter is the rate for a matriculate and that trained graduates cannot be had for less than Rs 50, the higher rate may be accepted in this case.
