MAY IT PLEASE YOUR EXCELLENCY

Emboldened by Your Excellency's keen and kindly interest in the cause of Female Education, we the undersigned memorialists from the Telugu Districts beg to approach Your Excellency with a detailed, yet, simple representation on the same important subject.

While deeply grateful to the Government for the facilities hitherto offered for the spread of Female Education by way of Government Girls' schools, Training schools for Mistresses, Scholarships, Lady Inspecting Officers, they nevertheless find that Female Education has not made much progress beyond the elementary stage in this part of the country. They do recognise that religious and social customs and usages such as child marriage, stand in its way to a large extent. Yet, they feel, that if Government Girls' schools can only be manned by female teachers, the necessity of the Hindoos having to withdraw their girls from school at the age of ten or eleven will be to a great extent obviated. Your memorialists humbly venture to think that the want of the required number of female teachers and the consequent employment of male teachers in Government Girls' schools, at least from the 3rd standard upwards, is one of the greatest obstacles in the way of female education. They therefore beg Your Excellency to bring this humble representation into your favorable and early consideration.

2. Your memorialists beg to represent that there are in the Telugu Districts numbers of poor Hindu women married and unmarried, widows old and young, who will gladly take up the profession of teaching if only two facilities are afforded to them viz (1) a Training school manned by female teachers (2) a scale of salaries sufficient to maintain them.

3. The following table will show the number of Government Girls' schools and their teachers in the Northern Circars.

	No. of schools	Male teachers	Female teachers.
For Hindus	57	242	13
For Muhammadans	11	6	18

This table will also show a favourable state of things regarding Muhammadan Girls' schools. We may ascribe this to two causes—(i) The establishment of a Government Training school for Muhammadan Mistresses at Guntur and (ii) better pay of the Muhammadan female teachers.

4. Your Excellency will be pleased to see that there is no Government Training school for Hindu women in the Northern Circle or even a school for general education, where all the teachers are women.

5. In the matter of pay also your memorialists beg leave to state that Hindu women teachers are worse off than their Muhammadan sisters. The Hindu school Mistresses often get less pay than the Muhammadan school Mistresses less qualified. The statement furnished by Your Excellency's Government in answer to question No. 138 of the Honorable Mr. G. RaghavaKao Pantulu at the meeting of the Legislative Council held on 29th November 1910, shows (1) that whereas Hindu female teachers qualified or unqualified get only Rs-10 a month, their Muhammadan sisters unqualified get Rs-12; (2) that whereas Muhammadan female teachers of the Primary Grade generally get Rs-12, 15 and 20, Hindu female teachers who passed the Lower Secondary Examination get only Rs-10. We believe that had this difference been timely pointed out to the Government, they would have increased the pay of the Hindu female teachers.

6. Your memorialists humbly beg leave to propose a scale of salaries for female teachers both Hindu and Muhammadan sufficient to attract them by allowing sufficient means of maintenance, and pray that the case of the female teachers Hindu or Muhammadan may be judged on its own merits and not by comparison with that of the male teachers. They further pray that Your Excellency's Government may be pleased to sanction a scale of salaries somewhat as outlined hereunder:—

Qualified Female teachers of the (late) Lower Secondary Grade.	20 to 25
Do. Do. of the (late) Primary Grade.	15 to 20
Unqualified Female teachers.	12 to 15

Your Excellency's memorialists beg to submit that this scheme is based on three grounds (1) that a Hindu woman taking up teaching work will find it hard to run her home on less than Rs-12 in these days of 'high' prices; (2) that since unqualified Muhammadan female teachers are at present getting Rs-12, this figure may be made the starting figure for all; (3) that it is but fair to preserve the difference of grades in view of the difference in qualifications. Your Excellency's Government replied to a question on this subject that it was reported that the supply of teachers would suffice for at least thirty thousand more pupils than are now to be found in schools for Girls. Your memorialists think that this reported supply consists mainly of male teachers, and as already submitted male teachers in Girls' schools would prove an obstacle to the advance of female education. The conditions of the Hindu Society are such that women who are in dependent position in families, can hardly spare time to take up private tuition work beyond teaching in schools. In some Muhammadan schools both the husband and wife are employed as teachers. Your memorialists are sanguine that if the suggested scale of salaries be sanctioned, there will be a rapid increase in the number of Hindu women coming forward to become teachers.

7. In almost all the existing Government Girls' schools, standards above the 3rd are very poorly attended. This is mainly due to the fact that considerations of age compel guardians to withdraw their girls when they attain the age of 10 years or so, as the teachers are males. If however these standards be taught by female teachers, parents will have less objection to send their girls even after that age.

8. In conclusion Your memorialists pray that Your Excellency's Government may be pleased to sanction the following proposals which they hope may not involve heavy expenditure if a re-adjustment of expenditure be made.

- (1) The establishment of a Training school for Hindu females either at Rajahmundry, or Vizagapatam.
- (2) The increase of salaries of female teachers as stated above.
- (3) The equipment of each Government Girls' school at District Head quarters with female teachers at least from the third standard upwards, transferring, if necessary, the existing female teachers who are working at other places along with male teachers, to the important stations.
- (4) The acceptance of character and other certificates of female teachers from Ladies' Associations of some years' standing in lieu of requiring them to produce such certificates from males.

We beg to remain,
Your Excellency's most obedient and humble memorialists.

To

His Excellency the Governor in Council, Fort St. George MADRAS.

MAY IT PLEASE YOUR EXCELLENCY

Emboldened by Your Excellency's keen and kindly interest in the cause of Female Education, we the undersigned memorialists from the Telugu Districts beg to approach Your Excellency with a detailed, yet, simple representation on the same important subject.

While deeply grateful to the Government for the facilities hitherto offered for the spread of Female Education by way of Government Girls' schools, Training schools for Mistresses, Scholarships, Lady Inspecting Officers, they nevertheless find that Female Education has not made much progress beyond the elementary stage in this part of the country. They do recognise that religious and social customs and usages such as child marriage, stand in its way to a large extent. Yet, they feel, that if Government Girls' schools can only be manned by female teachers, the necessity of the Hindoos having to withdraw their girls from school at the age of ten or eleven will be to a great extent obviated. Your memorialists humbly venture to think that the want of the required number of female teachers and the consequent employment of male teachers in Government Girls' schools, at least from the 3rd standard upwards, is one of the greatest obstacles in the way of female education. They therefore beg Your Excellency to bring this humble representation into your favorable and early consideration.

2. Your memorialists beg to represent that there are in the Telugu Districts numbers of poor Hindu women married and unmarried, widows old and young, who will gladly take up the profession of teaching if only two facilities are afforded to them viz (1) a Training school manned by female teachers (2) a scale of salaries sufficient to maintain them.

3. The following table will show the number of Government Girls' schools and their teachers in the Northern Circars.

	No. of schools	Male teachers	Female teachers.
For Hindus	57	242	18
For Muhammadans	11	6	18

This table will also show a favourable state of things regarding Muhammadan Girls' schools. We may ascribe this to two causes—(i) The establishment of a Government Training school for Muhammadan Mistresses at Guntur and (ii) better pay of the Muhammadan female teachers.

4. Your Excellency will be pleased to see that there is no Government Training school for Hindu women in the Northern Circle or even a school for general education, where all the teachers are women.

5. In the matter of pay also your memorialists beg leave to state that Hindu women teachers are worse off than their Muhammadan sisters. The Hindu school Mistresses often get less pay than the Muhammadan school Mistresses less qualified. The statement furnished by Your Excellency's Government in answer to question No. 138 of the Honorable Mr. G. Raghava Rao Pantulu at the meeting of the Legislative Council held on 29th November 1910, shows (1) that whereas Hindu female teachers qualified or unqualified get only Rs-10 a month, their Muhammadan sisters unqualified get Rs-12; (2) that whereas Muhammadan female teachers of the Primary Grade generally get Rs-12, 15 and 20, Hindu female teachers who passed the Lower Secondary Examination get only Rs-10. We believe that had this difference been timely pointed out to the Government, they would have increased the pay of the Hindu female teachers.

6. Your memorialists humbly beg leave to propose a scale of salaries for female teachers both Hindu and Muhammadan sufficient to attract them by allowing sufficient means of maintenance, and pray that the case of the female teachers Hindu or Muhammadan may be judged on its own merits and not by comparison with that of the male teachers. They further pray that Your Excellency's Government may be pleased to sanction a scale of salaries somewhat as outlined hereunder:—

Qualified Female teachers of the (late) Lower Secondary Grade.	20 to 25
Do. Do. of the (late) Primary Grade.	15 to 20
Unqualified Female teachers.	12 to 15

Your Excellency's memorialists beg to submit that this scheme is based on three grounds (1) that a Hindu woman taking up teaching work will find it hard to run her home on less than Rs-12 in these days of 'high' prices; (2) that since unqualified Muhammadan female teachers are at present getting Rs-12, this figure may be made the starting figure for all; (3) that it is but fair to preserve the difference of grades in view of the difference in qualifications. Your Excellency's Government replied to a question on this subject that it was reported that the supply of teachers would suffice for at least thirty thousand more pupils than are now to be found in schools for Girls. Your memorialists think that this reported supply consists mainly of male teachers, and as already submitted male teachers in Girls' schools would prove an obstacle to the advance of female education. The conditions of the Hindu Society are such that women who are in dependent position in families, can hardly spare time to take up private tuition work beyond teaching in schools. In some Muhammadan schools both the husband and wife are employed as teachers. Your memorialists are sanguine that if the suggested scale of salaries be sanctioned, there will be a rapid increase in the number of Hindu women coming forward to become teachers.

7. In almost all the existing Government Girls' schools, standards above the 3rd are very poorly attended. This is mainly due to the fact that considerations of age compel guardians to withdraw their girls when they attain the age of 10 years or so, as the teachers are males. If however these standards be taught by female teachers, parents will have less objection to send their girls even after that age.

8. In conclusion Your memorialists pray that Your Excellency's Government may be pleased to sanction the following proposals which they hope may not involve heavy expenditure if a re-adjustment of expenditure be made.

- (1) The establishment of a Training school for Hindu females either at Rajahmundry, or Vizagapatam.
- (2) The increase of salaries of female teachers as stated above.
- (3) The equipment of each Government Girls' school at District Head quarters with female teachers at least from the third standard upwards, transferring, if necessary, the existing female teachers who are working at other places along with male teachers, to the important stations.
- (4) The acceptance of character and other certificates of female teachers from Ladies' Associations of some years' standing in lieu of requiring them to produce such certificates from males.

We beg to remain,

Your Excellency's most obedient and humble memorialists.

Educational Department.

Sir,

In returning herewith the papers referred to me with Government endorsement No. 186-1 Educational, dated 6th February 1911, I have the honour to state as follows with regard to the proposals summarized in para 8 of the memorial:-

(1) The establishment of a training school for Hindu mistresses at Rajahmundry is under consideration and Government are being addressed on the subject in a separate communication;

(2) The Inspectress of Girls' Schools, Northern circle, has already been asked to submit proposals soon after the communication to her of the budget details for 1911-12 for increased scales of salaries for the staffs of Government Girls' Schools in the circle and Government will be

addressed on receipt of her proposals;

(3) the proposal to equip each of the Government girls' schools at District headquarters with female teachers has formed the subject of a separate reference from Government and a report will be submitted on receipt of certain particulars called for from the Inspectresses;

(4) as regards the acceptance of character and other certificates of female teachers it is not known what certificates are referred to. I see no objection, however, to testimonials of character and ability being accepted from recognized Ladies Associations, but there is no reason whatever for wholly rejecting similar certificates granted by officers or respectable persons of the other sex.

SUBJECT.

Improvement of female education in the Telugu districts.

M. R. Ry. R. Gummayya Sastri, Editor, Elementary School Journal, Berhampore, has forwarded three copies of a memorial requesting the Govt to sanction certain proposals for the improvement of female education in the Telugu districts. The proposals are

- (1) that a training school for Hindu females may be established either at Rajahmundry or at Vijayapattanam;
- (2) that the salaries of female teachers may be increased;
- (3) that female teachers may be appointed to teach the third and higher standards in the Govt. Girls' schools at district head quarters;
- (4) that character certificates given to female teachers by Ladies' Associations may be accepted in lieu of those given by males.

2. The memorial may be referred to the D.P.I. for remarks. The draft below is for approval.

 At (2) the Govt has already stated at the last meeting of the Legislative
 Council that they are no reason to increase the salaries of the present
 (3) There does not seem any point in creating also the female teachers at the
 District Head quarters. It is estimated that a force of sufficient organizing
 ability for the post of Headmaster would be available.

for Hindu mistresses at Rajahmundry or Vizagapatam.

The Director of Public Instruction states that he is submitting proposals for the establishment of a training school for mistresses at Rajahmundry. These proposals have just been received and will be submitted for orders separately.

(2) Increase of the salaries of female teachers.

The Director has called for proposals for this from the Inspectress of Girls' schools, Northern Circle. The receipt of the proposals may be awaited.

(3) Appointment of female teachers in Government Girls' schools at district headquarters to teach the third and higher standards.

The Director of Public Instruction has called for particulars from the Inspectresses and on receipt of them will submit a separate report to Government. The "separate ---" reference from Government" on this subject which the Director of Public Instruction mentions is probably Memo No. 307-3 dated 1st March 1911.

(4) Acceptance of character certificates given to female teachers by ladies' associations.

The Director sees no objection to the acceptance of certificates of character and ability given by recognised ladies' associations. He will, however, not wholly reject similar certificates granted by officers and respectable persons of the other sex. Of course there is no reason why the certificates granted by ^{gentlemen} ~~males~~ should be rejected and the memorialists do not probably mean it.

2. It is for consideration whether the memorialists may be informed that the Government have no objection to the acceptance of certificates of character and ability granted to female teachers by recognised ladies' associations and that the remaining subjects referred to in the memorial ^{in regard to} ~~are~~ ^{already} under the considera-
