Sir,

2. The communication in question - no.3090, dated 5th June 1911 - enclosed reports upon Female Education, upon European Education and upon education in each of the five circles of Inspectors of Schools in the Central Provinces. In my letter no.807, dated the 13th June, 1911, you have recently been addressed regarding the curtailment of annual reports. The Government of India are impressed with the fact that much valuable time, which could be more profitably employed in action and direct practical work, is spent in writing and reading reports on educational matters from which no adequate compensating value is derived. They are disposed to think that it is unnecessary to print divisional or other special reports of this nature though the practice of printing the 8 general tables for each division may prove useful to the writers of the Quinquennial Reports. This matter is brought to your notice as a suggestion. Should you still consider the printing of such reports to be necessary, I am to say that the Government of India do not require to be supplied with them.

I have &c.,

Sd/- H. Sharp,

Joint Secy. to the Govt. of India.
