To

The Director of Public Instruction,
Madras.

Sir,

With regard to the new laboratories under construction at the Noble College, for which a grant of Rs. 2460 was granted conditionally, one of the conditions being that it should be finished by June 30th/11—Vide Proceedings Dis. No. 6435/1910 dated 26th October 1910.

I have the honour to request that you will grant 3 months' extension owing to the fact that we have been delayed on several occasions on account of the difficulty of getting stone and other materials from Bezwada. On one occasion the Railway company was unable to furnish empty waggons and on another occasion the building had to be stopped for nearly two months owing to a strike among the quarry contractors at Bezwada.

I therefore request that we may be allowed till the end of September without prejudice to our chances of obtaining the grant sanctioned.

I have the honour to be,

Sir,

Your most obedient servant,

/Sd/ William C. Penn,
Principal.

coolies on the tea and coffee estates and other immigrants often leave their women-kind behind them; but in three of the indigenous castes there are only 78 females to every 100 males; and among the Kurumbas and Irulas only 90 and 98 respectively. The Badagas, however, include 110 and the Kotas 120 females to every 100 males.

Among the Todas, the proportion of females has been very small. Edgar Thurston, in his ethnographic notes ⁵ in Southern India speaks of the practice of female infanticide among the Todas.
