Letter—from Mrs. G. S. WALLACE, Correspondent, American Mission Hindu Girls' School, Madras.

To—the Director of Public Instruction.

In replying to your favour R.O.C. No. 1284, dated 22nd August 1911, I have the honour to request that, as representatives of the Board that has given grants for the new building are to visit Madras early in November and it is desired that they may lay the corner stone, the matter of the Government grant may be treated as urgent and receive the consideration of the Director as soon as possible in order that work on the new building may begin at an early date.

Ref. on Cur. No. 1284, dated 4th September 1911.

**Note by the Chief Engineer, Public Works Department, dated
16th September 1911.**

The Director of Public Instruction submits to Government in connection with an application for a grant-in-aid a plan and an estimate, amounting to Rs. 4,600, for building an American Mission Hindu Girls' School at Madras.

The plans and estimates have been scrutinized in the Chief Engineer's office. The sections and spacing of the roof timbers and rolled steel joists have been modified where necessary. In the absence of sufficient information regarding the "platform" and rear verandah, the sections of the timbers in this part of the building cannot be scrutinized.

The maximum pressure on the soil is 1.21 tons per square foot as calculated in the Chief Engineer's office. The soil and sub-soil are stated to be "made earth" and "hard made earth mixed with sand" respectively.

The Superintending Engineer should satisfy himself that the foundations provided are suitable and sufficient.

With these remarks, the estimate, amounting to Rs. 5,360, as altered in the Chief Engineer's office is recommended for sanction.

C. A. SMITH,
Chief Engineer.

Order—No. 676, Educational, dated 25th September 1911.
