NOTE FILE.

Subject. *elementary*
Type design for school buildings.

J. Extract from the notes connected with G.O.
No. 860 Edl. dated 5th December 1911.

"I have separately brought to notice the
"need for type designs for school buildings. It
"is a subject, which I submit ought to be taken
"up."

L.D.
20-11-11.

A. "A separate u.o. note may go to the D.P.I.
"about type designs for elementary schools.
"Extract what I wrote previously on the subject
"when suggesting Mr. Stone's deputation on
"special duty."

L.D.
2-12-11.

M. 2. When suggesting Mr. Stone's deputation, the
Secretary in his note dated 30th October 1911 on
page 2 of G.O. No. 768 Edl. dated 4th November 1911
observed:-

"I understand that the Director has already
"marked down in each district suitable locations
"for the opening of new schools. But Mr. Stone
tells me there are no type designs for such
"institutions. It would surely be of assistance
"to local bodies if they ^c~~s~~ could refer to designs
"of this character, especially in the case of
"primary schools, which have been worked out by
"an officer who understands and takes interest
"in the subject. ~~some~~ *alternative plans are needed*
"according to the strength of the school and
"the funds available for its construction".

3. The Hon'ble Mr. Stone under date 30th October 1911 noted as follows:-

"The preparation of type design for elementary schools strikes me as a necessary piece of work. These would have to be devised to suit typical localities - e.g. Deccan uplands, deltaic tracts, the West Coast. They would probably be the most expeditiously and efficiently worked out in personal consultation with P.W.D. officers on the spot. This would be preliminary to an attempt to find formula for the distribution of expenditure on elementary education between maintenance and buildings suggested by the Secretary".

4. These notes may now be sent to the D.P.G. W.O. with reference to the Secretary's orders at A on the previous page.

Re
15.12.11

Yes: my idea was that Mr Stone himself possessed special qualifications for the task. Could the D.P.G. arrange that he should take it up with other special duties before he goes on furlough? I know he is interested in the subject. His quarters are near the P.W. Secretariat. ~~the~~ the Chief Engineer etc. I have no doubt, he able to give him valuable assistance as to schedules, building materials etc., if he made occasional visits to the secretariat.

NOTES.

Dec. No. 117 & 26.12.11

I have consulted Mr. House
and he thinks he could manage
to do something after doing the
bulk of the Report work.
His idea is that it would
involve some towing but there
would be no difficulty in
arranging for finding the
small amount required.
