G.O. 170-1*

Dear Sir,

In reply to those portions of your demi-official letter of the 18th instant which relate to educational questions I am directed to give you the following information.

2. No intimation has yet been received from the Government of India in regard to the probable assignment to the Madras Presidency from the Imperial grant of 50 lakhs and consequently no formal proposals in regard to the utilization of this subsidy have yet been received from the Director of Public Instruction. It would be contrary to official usage to furnish you with a copy of any communication received from the Government of India inviting a programme for the development of female education; it is for that authority to decide whether or not the precise nature of such ^{an} enquiry should be made public. No proposals have reached Government for the establishment of a girls' high school at Rajahmundry. The latest information in regard to the opening of new schools in villages now unprovided with them and as to the utilization of the grant of 1.25 lakhs for the construction of elementary school buildings during the current year is contained in G.O.s No.708 Educational dated 9th October 1911 and No.705 Educational dated 6th October 1911, copies of which have been laid on the Editors Table and were presumably communicated to you. — at the same time; I now enclose duplicate copies for convenience of reference. No authorized programme has been framed for the construction of -- school houses for girls' schools, but several buildings

of

of this description are included in the Public Works budget estimate for 1911-12 and additional items of the same character will in the ordinary course be provided so far as circumstances permit.

Yours sincerely,
