S. No. 29 of 1911.  
S. G.

Station, Karur, Dated the 20<sup>th</sup> October 1911.

From (Name) M. R. P. N. C. Karasimachari B.A; B.L.  
(Designation) Chairman, Municipal Council, Karur.

To The Secretary to the Government of Madras,  
Local and Municipal Department.

Through, The Inspector of Schools, V. circle  
Tanjore, and  
The Director of Public Instruction,  
Madras.

Sir,

I have the honor to submit herewith a copy of the resolution of the Municipal Council, Karur of ~~the~~ <sup>the</sup> dated 19<sup>th</sup> October 1911 with regard to the sanction of subsidy from Provincial funds for a building to be erected for the manual training class of the Municipal High School, Karur.

2. With a view to introduce manual training in the Municipal High School, Kanur, an application was made to the Inspector of Schools for a free grant from Provincial funds for the purchase of articles and for the construction of a building for manual training. The Director of Public Instruction has been pleased, by his Proceedings No. 3543 dated 7<sup>th</sup> October 1911, to sanction Rs. 2100/- for the purchase of work-benches and tools required for the said training. As regards this allotment the Inspector of Schools V. C. Chelva by his letter No. 160 Sub dated 13. 10. 1911 draws the attention of the Council to the ruling of the Director of Public Instruction, Madras, that no portion of the grant can be used in erecting buildings. The construction of a building is necessary to work the class therein. As the present accommodation of the High School is just sufficient and necessary for the present purposes, no portion of it can be conveniently spared for the manual training class. The construction of a separate building being thus imperative, the question of finance has to be considered. The plans and estimates herewith submitted show that an amount of Rs. 2600/- is needed for the said construction. The Council has taken up the construction of the Town Elementary School and has strained all its resources towards the accomplishment of that object. That course was necessitated as, in accordance with G.O. No. 1009 M. dated 29<sup>th</sup> June 1911, Elementary education has preferential claim to the secondary education. With regard to the manual training, its introduction in the school is also essential as instructions in Technical

branches

branches form a very useful part of students education. The only course left to the Council is to pray the Government to sanction a subsidy of Rs. 2600/- for the construction of a building in accordance with the plans and estimates submitted herewith.

3 I therefore pray that the Government might be pleased to sanction a subsidy of Rs. 2600/- from Provincial funds for the above said purpose. The Director of Public Instruction, Madras has sanctioned the allotment of Rs. 2100/- for tools &c. to be utilized before February 1912. The building will have also to be constructed within that time and therefore the subsidy is prayed to be granted as early as possible.

I have the honor to be

Sir,

Your most obedient servant,

H. D. S. S. S.  
Chairman.

AT KARNAM

Section of the shed

W  
9  
8  
N. Ref on Cur No. 7 6 8 9 /11, dated 4 November '11.

Submitted to Government and recommended.

2. The Municipal High School, Karur is one of the schools which it is proposed to take over as a Model High School and it is the only one which proposes to take up manual training.

3. In the current year's budget there is a provision of Rs 8,400/- for payment of contributions to Municipalities for education and it is not likely that any savings will be available from this allotment for payment of the subsidy now applied for.

Again G.O., No. , dated

191

Current No. 4688M From the Cm C Karur, No. 29, dated 20-10-1911

SUBJECT.

Applying for a grant of Rs 2000 for the construction of a building for manual training class to be attached to the munl high school Karur.

The D.P. recommends the Council's application but observes -

- (i) that Karur is the only one of the schools which is proposed to take over under the model schools scheme which will impart manual training &
- (ii) that it is not likely ~~that~~ there will be any savings in the Educational budget for the payment of this contribution.

2. It is submitted that it does not appear that the Munl Council has made out a case for a Provincial subsidy. It is true the Council's finances are not in a flourishing condition - the ordinary charges including outlay on new works having exceeded the ordinary receipts by Rs 695 on an average during the last three years. The closing balance in the budget for 1911-12 arrived at with reference to the actual opening balance is Rs 9565 but of this amount Rs 8618 belongs to <sup>and grant</sup> loan funds. Apart from this the need for a manual training class does not however appear to be fully established.

3. If however any grant should be paid it must come out of the Educational budget. The file may therefore be transferred to that Deptt.

Regd 197/11/11

15/11/11

The Municipal High school, Karur, is one of the schools to be taken over by Government under the scheme for the establishment of model secondary schools in which provision has been made for the introduction of manual training in all the model schools. If this scheme is introduced and the school is taken over as proposed, the Govt. will have to construct a building for manual training. The land on which the school stands is Govt.

property - vide L. & M. note on pages 10 and 11 of G.O. No. 564 Edl. dated 25th August 1906 and when the school is taken over, the building will also become Govt. property. In these circumstances, a grant of Rs. 2,600 from Provincial funds may be made for the construction of the building, but it is for consideration whether the building may not be constructed by the P.W.D. at Govt. cost, a type design being approved by Govt. for all model schools. The necessity for

<sup>7.R.</sup><sub>22-11-11</sub> introducing instruction in Manual training is obvious and if the Municipal Council cannot find funds Govt. should, it is subd, provide for them, as the school is to become a Govt. school under the Model High Schools Scheme.

Re The first question is whether 23.11.11 financial can find the necessary funds. If so, there is a good case for a grant. If not, the application must lie over till the Secretary of State orders about the establishment of model

Re.  
6.12.11

Yes.  
13-12-11

The Finance Committee has approved of a grant of Rs 2,600 to the Karur Municipality for the construction of a building for the manual training class in the municipal high school and the amount has been entered under the head 45- Civil works - Civil in the budget estimate for 1912-1913. But it is understood that the distribution of the unallotted expenditure made by the Finance Committee is subject to the approval of the Govt of India and that before the sanction of that Govt. is received the details should not be made public. The Karur Municipality cannot therefore now be informed that a grant of Rs 2,600 to it has been made, but there appears to be no objection to merely informing the Municipality that its application for a grant will be favourably considered at the beginning of next official year. If this suggestion is approved, the draft placed below may issue.
