Station Madras, Dated the 20 October 1911.

From (Name) The Hon'ble Mr. J.H. Stone, M.A., F.R.H.S.,

(Designation) Ag. Director of Public Instruction,

To The Secretary to the Government of Madras, Madras.

Educational Department.

Sr,

I have the honour to submit the enclosed plans with estimates amounting to Rs. 29,300/- for providing additional accommodation for the A.E.L.M. Training School for Masters, Rajahmundry, and to recommend that a third grant of Rs. 9,766/- thereon may be sanctioned under Rule 51 of the Grant-in-Aid Code.

2. The model school attached to the Training Department is now held in a temporary shed - an arrangement which is as unsuitable as it is undesirable. The Training Department is held in a building which is not very commodious. The proposed building is therefore a necessity.

3. An additional copy of the abstract estimate will

be

OK

Note by the Chief Engineer, P.W.D. on the plan and estimate for providing additional accommodation for the A.E.L.M. Training School for Masters at Rajahmundry.

It is not clear which is existing work and which is proposed new work. They should be distinguished by colour or coloured chalk.

2. A specification should be given describing what materials are to be used for each part of the building
3. Doors and windows are not arranged to suit seats, if the seats are to be on the lines laid down for the Model High School type and which are believed to be generally applicable to schools.
4. Columns or stanchions are shown on plan in the auditorium, but not on section. Details should be given.
5. Scantlings for roofs and floors should be figured on the plans and sections, their spacing also being figured. The schedule of quantities should make it as clear as possible, by referring to separate rooms, in which position the joists etc., mentioned in the schedule, are to be fixed in the building.
6. The columns of the verandah might be spaced evenly, or grouped with some regard to external appearance, doors and windows behind being moved to right or left where necessary to avoid having columns in front of them.
7. The stairs are apparently 2 feet wide. This is insufficient. 4 feet would be reasonable. Details of the construction and materials to be used in the stairs should be given.

4/ b
8. Lintels of cutstone over doors and windows might with advantage be replaced by relieving arches. If any settlement occurs shallow lintels are sure to crack.

9. The junction of the gables of the roofs of the side wings with the verandah roof round the auditorium is very clumsy and should be reconsidered.

10. The elevation is confused with sections in such a way as to avoid showing how the difficulty of joining wider verandahs to narrower verandahs is to be met. This apparently requires revision of the plan.

11. The thickness of walls should be figured on the plan.

12. The plan and estimate may be returned to the Director of Public Instruction for revision with reference to the above points.

C.A. Smith,
Chief Engineer, P.W.D.

To The Secretary to the Government of Madras,

Educational Department,

Su,

11
R a j a h m u n d r y 13

23rd January 1912.

To

The Director of Public Instruction,
M a d r a s.

S i r,

In continuation of my letter ^{yesterday} I have the honour to state that I saw the draftsman this evening and was informed by him that without a special permit from his superiors, or indeed the Chief Engineer of the Presidency, he will not be able to take up my work. It is probable that it will take considerable time for him to obtain such permission. This fact, together with the communication from my Board, referred to in my letter yesterday, makes it rather improbable that I shall be in a position to forward the revised plan and estimate before the expiration of the current fiscal year, and there is therefore no reason why you should take into consideration my application until after that date.

I have the honour to be,

S i r,

Your most obedient servant,

/sd/ C. F. Kuder.

To

The Director of Public Instruction,
M a d r a s.

I have been almost pressed to death with extra work since the receipt of your communication, and have had little time to give to this matter: nevertheless I twice went to see the D.P.W. man who is assisting me but was unable to see him either time. I shall go again tomorrow evening and write to you immediately thereafter.

But it is my impression that the Mission will not be able to take up this work this year, even if the

2. 12 14
Department would take favourable action. Since the work was taken in hand by order of our Board, another letter has come saying that favourable action would be taken, but probably not until 1914, inasmuch as the Peddapur High School building remains to be completed this year, and then a bungalow. The very best that can be hoped for is that a beginning may be made in the closing months of this year: but it is more likely that work will not be begun before early in 1914.

Rajahmundry,

/Sd/ C. F. Kuder,

22nd January 1912.

R. J.
21. 11. 11

From the D.P.G. No 7353 of 1st January 1912.

The Correspondent of the A.E. d. M. Training school, Rajahmundry, now reports that the work of providing additional accommodation to the School will not be begun before 1914. He has not therefore submitted the revised plan called for in memo. No 2619-2 of 22-11-11. No action is therefore required on the present application for a grant. The papers may be simply recorded.

2. A draft order is submitted for approval.
